### WANT A 1927 FAIR

Unanimous opinion, expressed this week, seems to be that plans should begin now for the Floyd County Fair of 1927. In spite of the bad weather of Saturday, which dampened and chilled the ardor of all except the most hardy, it did not do any damage to the enthusiasm of those who believe that a fair is very much worth while. Ed Bishop, in a little talk before the luncheon club Monday, declared the fair will require a bigger effort next year, because it must include a live stock show and a poultry show as well as the features of this year. He, in common with many others, thinks the fair should be put into permanent quarters, and a nucleus started about which a really great fair for this territory can be built.

The Hesperian knows of no greater service that public-spirited citizens can do the county than to encourage and build up a real fair. A fair strengthens and broadens. It educates. It promotes industry and stimulates civic pride.

The fair of 1925 was great, more especially as to the quality and number of exhibits—the efforts put into them being no small matter. But at that fair we held is just an index of the kind of fair we can have in the future, if we build to the start that has been made.

### ADDING LIGHTS HELPS

South Main Street, West Side and California Street retailers and firms generally have taken kindly to the idea of more lights and have followed the example set by the south side merchants last week. Four blocks of awning lights are now burning whereas there were none two weeks ago and one a week ago. These lights add greatly to the convenience of the public and to

the appearance of the town. The prettiest town in Texas, in the dark, looks no better than the most unsightly in the dark.

Floydada trade territory looks to Floydada to set the pace. The people over the territory look to the town as their town. They want to be proud of it. Good lighting—plenty of light—white ways or whatnot—will help.

### A PAVED HIGHWAY

Floyd County needs a paved highway through the middle. It would cost plenty of money but more than be worth it. L. A. Marshall is one Floydada citizen who has been converted to this idea, by travel over paved highways through other people's counties.

Floyd County dirt is almost as heavy as black land dirt when it rains. A highway built of natural ground is difficult to travel in weather like we have had recently. It is dangerous, too, if built up sufficiently to drain well.

The Hesperian may be wrong in the belief, but we are firmly of the belief that a hard-surfaced highway through Floyd County would be a practical investment, and a paying one, and further that it is more nearly a necessity than many of us imagine.

### READING AND AMBITION

Do you sometimes face what appears to be impassable barriers in the progress of undertakings or works which you have started? Are you inclined to be "blue" at times, thinking that after all the fruits may not be worth the efforts?

One good cure for such a feeling, for that listless attitude to your work, is a good book of an evening,—possibly an autobiography of a man who has surmounted impossible barriers—who has achieved in spite of surroundings. Surroundings, environments may have a lot to do with the kind of success one makes, but ambition surmounts them if the driver uses the spurs freely. A good honest autobiography, or biography, which gives an insight into the weaknesses of the subject as well as to the strength of it, is a mighty good spur. Such a cure for listlessness, cultivated, is also pleasant to take.

### LAND OF BOUNDLESS POSSIBILITIES

Do you know that in Floyd County we reside in a land of boundless possibilities, limited only by the initiative, energy and will to do of the people that reside here?

If you do not know it, you should study to learn it. More and more are we convinced that the man who is "sold" on Floyd County, who believes

in the country in which we live, will win. The man who lives in Floydada or Floyd County and sells "short" is bound to lose. Have faith in Floyd County and back your faith with your efforts.

### FIRE PREVENTION WEEK

Next week, October 3 to 9, is "Fire Prevention Week." But what does that mean to the people of Floydada? It should mean a whole lot.

Why, last year, in the state of Texas alone, there was over twenty million dollars worth of property and 284 lives destroyed by fire. And 85 per cent of these fires were from preventable causes. Carelessness was the cause of a great number of these. Hot ashes thrown in a wooden barrel, defective flues, cigarette stubs thrown carelessly away, matches left for the children to play with, these are just a few of the many things we do every day, and think nothing about.

Then, fire prevention week is just a warning to "stop, look, and listen." Every business house, residence, school, etc., in Floydada should clean up during this week. Keep your premises free from fire hazards. You owe that much to your neighbor if not your self.

Citizens of Floydada, it's up to us to do our part in preventing fires. Do your share and your neighbor will do his.

### This and That

Plenty of smart things could be said about the weather, if there were a smart man available to say them.

L. H. Dorrell plans to resume sowing as soon as the ground gets dry enough. He has been planting wheat. He will change the rice. This ought to be a good rice country, he thinks.

H. E. Cannaday refuses to be quoted as regards the weather this winter. He has resided here a number of years. If we understand him correctly, Mr. Cannaday is going to lay in an extra large supply of coal in advance and also buy the heaviest winter clothes he can find.

The popcorn boy did well during the fair and the rainy days this week. The first touch of winter makes us all hanker for popcorn.

The fair association bought rain insurance for their second day of polo, and although the hours they chose came right in between showers of the heaviest week of rain in many months at Floydada, the necessary one-tenth of moisture failed to materialize in the hours specified.

As has been pointed out, you can't "set" a rain. It is more difficult to realize on than some other forms of insurance purchasable.

A funny thing in connection with rain insurance is that everybody can tell you afterwards the hours you should have bought insurance against.

No newspapers Sunday, roads too bad for comfortable travel, and everything calculated to make a long afternoon and evening longer between preaching hours. Of course, good books were available, but that isn't done any more.

Speaking of a hard way of making a living, how would you like to be a carnival man in weather like we've had the past week?

Dave White, of Wichita Falls, who played polo in Floydada last week, is an outstanding figure in southwestern polo. Incidentally, he is widely known as a rider and horse trainer. In 1923 he was winner of the riding contest in none of the larger northwestern roundups.

### NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS,  
To the Sheriff or any Constable of Floyd County,—GREETING:

You are hereby Comanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Floyd State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION FOR PROBATE OF WILL, AND LETTERS TESTAMENTARY

THE STATE OF TEXAS:  
To all Persons interested in the Estate of W. A. Shipley, deceased, you are hereby notified that D. D. Shipley, Alex Shipley and John T. Shipley, have filed in the County Court of Floyd

## Round Bale or Square Bale

We Have Both

FLOYDADA GIN COMPANY

OF FLOYDADA

Has Now Installed One Anderson-Clayton Press Round Bale

We Buy Cotton Outright for the Round Bale

Our Big Plant has eight gin stands in operation. Two square bale presses and one round bale press. Take your choice. The round bale is accepted for shipment by railroad companies without further compressing for that reason there is more net profit to the farmer who sells his cotton to us. That point is worth your investigation.

Sell to us or let us gin your cotton for the square bale then sell to your street buyer if you prefer. We save the difference in freight and cost of drayage yardage and other charges if you sell to us for the round bale press.

We are equipped to give you the best of service and choice of plans to market your cotton crop.

The best service in Western Texas and as good as can be had in the world we are in position to save you money. Investigate our claims.

Prompt service and always at your service.

**Providence Demonstration Club Leads  
in County-Wide Competition At The Fair**

Providence Demonstration Club Providence Home Demonstration competing with nine other clubs over the county was awarded first and will receive the \$25.00 prize for the best exhibit. Thirty-one prizes were awarded to individual exhibits in the Providence booth. Mrs. E. Cowart received sixteen of the thirty-one ribbons awarded, seven blues and nine reds.

The booth was very neatly and attractively arranged. The decorations were yellow and green. Large vases of marigold were on either side. The name of the club was made of yellow corn on a background of green.

The exhibit included eight varieties of preserves; eight varieties of jellies; eleven varieties of pickles and relishes; varieties of canned fruit and eight varieties of dried vegetables.

R. J. McLaughlin, president of the club; Mrs. T. E. Cowart, Mrs. R. L. Miss Ruth Phillips, Mrs. Ben Seese, Mrs. Clarence Powell and Mrs. Doc Bennett had charge of the decorating and arrangement of the booth.

**Sand Hill Demonstration Club**  
Sand Hill Home Demonstration club was awarded second place in the community clubs and will receive the \$15.00 prize. Although second the club had a wonderful display of fruits, jellies, vegetables and dried fruits and vegetables. White and red was the chosen color scheme of the booth and was carried out very effectively. One thing of particular interest is the fact that the club has canned 1207 quarts of fruits and vegetables during this season, and includes forty two different varieties.

Mrs. A. R. Hanna, president of the club; Mrs. G. C. Collins and Mr. W. E. Miller were in charge of the decorating and arrangement of the booth.

**Pleasant Valley Club**  
The third best Home Demonstration exhibit was made by the Pleasant Valley club and they received the third

prize which was \$10.00. The members of the club also were winners of a number of prizes in the general exhibit of the ladies department. Five blue and six red ribbons were received by different members of the club. Mrs. E. W. Henderson received first place on the best collection of jelly which was comprised of ten varieties. A white and lavender color scheme was carried out in the decorations. White crepe paper and little lavender lake flowers were used very effectively.

Mrs. P. A. Rivers, president of the club; Mrs. N. D. Henderson, Mrs. E. W. Henderson, Mrs. F. U. Payne, Mrs. Will Shurbet and Mrs. O. W. Fry had charge of the Pleasant Valley booth.

**Lockney Club**  
The Lockney Home Demonstration club booth deserves special mention since all of the exhibits were gathered up, arranged, and the booth decorated, by the club's president, Mrs. Kate Collier. It was very attractive in the club colors of green and white. Some of the individual exhibits were awarded blue and red ribbons.

**Campbell Home Demonstration Club**  
Although no prize was offered for fourth place Campbell was judged the fourth best club exhibit. The booth was decorated in red, green and gold and artificial autumn leaves. Mrs. W. H. Nelson had an unusual display of lovely fancy work which she received several blue ribbons on. Mrs. W. H. Nelson, president of the club; Mrs. Mal Jarboe Mrs. E. J. Womack, Mrs. W. H. Bethel and Mrs. S. H. Horn were in charge of the booth.

**Mayview Home Demonstration Club**  
Mayview club had a very fine display of all varieties of fruits, vegetables, jellies and preserved and scored high especially on their best collection of preserves and relishes. Mrs. C. E. Bartlett, a member of the club, took first prize on the best novelty of any kind, which was a donkey and cart, loaded with 101 varieties of seeds. The booth was decorated in rose and green. Mrs. J. W. Miller, president; Mrs. C. E. Bartlett, Mrs. T. J. Campbell, Beatrice Da-

vis, Gerald Readhimer and Mrs. W. F. Culpepper were in charge of the booth.

**Harmony Club**  
Harmony club also scored high on best collections. They received second prize in Best collection of jelly, fruit and vegetables. Besides these individual exhibitors from the Harmony club received six blue ribbons and four red. Mrs. Clarence Moore had on display in the booth a nice collection of fancy work. The booth was decorated in pink and white. Mrs. W. C. Parkey, president, Mrs. Hardy Heard and Mrs. Glue Snodgrass were in charge of the booth.

**Starkey Club**  
The Starkey booth was very artistically decorated in red and green. Asparagus seed were used in putting the name of the club in the background of the booth. An unusual collection of dried vegetables, included in these were, peas butter beans, corn, okra and pumpkin. The individual exhibits from the club also received several of the prizes. Mrs. E. A. Grigsby, president of the club, was assisted by Mrs. John Kropp and Mrs. Buster Allmon in decorating and arranging the booth.

**Blanco Demonstration Club**  
The Blanco booth was decorated in the club colors of pink and green. Mrs. L. C. Wheeler, president of the club, was assisted in arranging the booth by Mrs. Will Simpson, Mrs. Will Snell and Mrs. W. F. Daniel. Mrs. D. R. Badgett received first place on her crocheted rug. There were also several members of the club won individual prizes on their canned products. One article which was on display in the Blanco club which none of the other clubs had was a dress form made by Mrs. W. C. Cates.

**WOULD HAVE EXHIBITORS AS GUESTS OF LUNCHEON CLUB**

At the Luncheon Club's meeting Monday resolutions were adopted, praising work of the fair exhibitors in all departments, and the work of Ed Bishop and Miss Blanche Bass who had a large part in the fair's success. The resolutions were adopted unanimously and with enthusiasm.

Anxious to meet the exhibitors personally and have them as their guests, it was also voted that the club invite the agricultural directors of the fair to be their guests at their next regular meeting, and that the following regular meeting the exhibitors in the ladies' department be asked to be the guests of the luncheon club.

Talks of Ed Bishop and Rev. A. A. Collins featured the program of the hour, with thirty members and visitors present. Mr. Bishop discussed the lessons learned during the fair. He gave credit for the success of the show to the exhibitor whose efforts made the wonderful exhibits possible. R. E. Fry, J. C. Wester, F. L. Davis made short talks. A committee was appointed from the club to study the possibilities of making the fair a better one—with the idea of putting it on a permanent basis by the opening of next year's fair. Lon M. Davis, C. R. Houston, Ed Bishop, Homer Steen, R. E. Fry and Glad Snodgrass were named on this committee.

In his brief address Mr. Collins declared, that while his mission in that of a minister, he had come to Floydada to be one of its citizens, and declared himself as one who would want to be used in any work that would be for the improvement and upbuilding of the community. He praised the fair, and in connection with an assignment of the subject of impressions of Floydada, declared it as his belief that more light is one of the present greatest needs of the town.

The names of C. A. Morton, A. A. Collins, W. H. Henderson, and W. R. Doolley were presented for membership. They were unanimously invited to become members of the club. W. H. Henderson acknowledged an introduction to club members.

On motion of R. E. Fry a committee was named by the chairman to study the matter of forming the luncheon club into an international "service" club, probably Kiwanis or Rotary. Mr. Fry with Glad Snodgrass and T. R. Webb were named as this committee to report at the next meeting.

Miss Margaret Henson, high school girl, rendered a piano number that was heartily applauded.

Officers for the next quarter officiated at the meeting, with J. L. Henson presiding.

**HALF-MINUTE INTERVIEWS**

T. E. Cowart, of Providence: "Women of Providence were certainly proud of the showing their Demonstration Club made at the fair."

**KIRK & SONS**

Photographing Poisonous Snakes, Feeding Dangerous Animals All in Day's Work in New York's Zoo

In one of the thick albums of Edwin R. Sanborn, official photographer, there is a fine picture of the deadliest snake in the New York Zoological society's collection, the jararaca-cu.

To get this photograph, writes Floyd Taylor in Popular Mechanics, Mr. Sanborn spent an hour alone with the infuriated snake. The jararaca-cu is not accustomed to photography, and it is worth any man's life to go near it carelessly. It can strike two-thirds of its own length and its victims have only from 10 minutes to half an hour to live unless anti-venom serum can be secured.

Twice Mr. Sanborn was within range of the snake, within about three feet of it, when it hurled itself toward him and buried its fangs in the camera cloth as he stepped aside.

John Toomey, head keeper, says that the only safe assignment in the zoo is caring for the lions, tigers and other

ter, the tropical birds live in a steam-heated house.

Mr. Hornaday says most of the animals are as happy as a man, who, had struggled for years to make both ends meet, would be if he were suddenly installed in a fine hotel where someone else paid his bills.

"Care given to the animals," he said, "extends the life of many of them far beyond what they would expect in the merciless jungle. One of the leopards lived to the ripe old age of 21. It had not a tooth in its head at the last, to be sure, but it was kept alive all the same with plenty of chopped beef."

"Then there is our polar bear, 'Silver King,' now 23 years old. It is hardly conceivable that it could have lived so long had it been left to face its enemies and the rigor of the Arctic winters."

Keepers Injured. "There are marks on several of our keepers," he said, "which prove their work is dangerous, with more risk in it than might be supposed. Animals that have been quiet for years will make a sudden attack and the keeper is unprepared."

"In certain months the animals are more dangerous than in others. Elks are likely to be troublesome from August to February, their mating seasons, when their antlers are tough and pointed, and they resent the intrusion of the keepers. I have seen an elk plunge against the gates with enough force to knock them from their hinges. The buffaloes must be watched carefully. Their method of attack is peculiar. With their great power and surprising speed, they roll men along the ground with their heads, bucking viciously. I recall at least two instances of keepers who have been savagely mauled by buffaloes. To do any work in a bear's cage, it is necessary to drive the bear up on the rocks in the back of the cage. One of our men, while in a cage, turned to find a gigantic brown bear leaping on him. He threw up his hands and attempted to dodge past the bear. He got by, but his hand was badly cut. Gangrene set in, and it had to be amputated."

"After the animals have been in the zoo for a time, they are less dangerous than when they first arrive. When they become used to their surroundings and find the keepers have no intention of harming them, they can be approached in comparative safety."

Biggest Eater. The biggest eater in the zoo is the African elephant, "Khartoun." It weighs 10,000 pounds and every day consumes 125 to 150 pounds of hay, 30 pounds of carrots or beets, 15 loaves of bread, and drinks 10 to 15 gallons of water. "Alice," its companion and rival for eating honors, drinks water directly from the hose and thus conceals her gallon capacity. The hippopotamus manages to live and prosper on a ration of 100 pounds of hay, 10 loaves of bread and 10 heads of cabbage or a similar quantity of beets.

The menu for the zoo includes 120 varieties of food, and there are consumed during the year 100,000 pounds of meat, 75,000 pounds of bread, 35,000 pounds of fish, 2,000 dozens eggs, 3,000 quarts of fresh milk, 1,500 quarts of condensed milk, 15,000 bunches of bananas and 70 cases of oranges. The monkeys start the day with oranges, bananas and apples and, for dinner, drink a punch of milk and eggs. The eagle and the vulture get a pound of meat a day apiece, and the ostrich has half a peck of lettuce or crushed oats.

Eats Once a Month. The python, which is 22 feet six inches long, supports its length on a dinner once a month of 300 to 500 pounds of mice, rats, chickens and guinea pig. A meal for it costs \$8. The sea lion thrives on seven pounds of fish a day.

Pythons are cheap; they can be obtained for from \$300 to \$400 apiece. Macaws bring from \$300 to \$1200. "Khartoun," who was bought for \$1,200 when it was very young, is worth \$25,000 now that it is full grown. Ostriches cost from \$25 to \$500 a pair, eagles and vultures from \$10 to \$200 apiece; birds of paradise from \$200 to \$1,000, an Indian rhinoceros \$8,000, and pygmy hippopotamuses about \$5,000.

Dr. William T. Hornaday, former director and general curator of the zoo, says the chimpanzee is the most intelligent animal in his care. In the scale of intelligence, he gave the chimpanzee 925 points, the Indian elephant 850, the domestic horse 850, the lion 725 and the rhinoceros 175. The zoo's smallest mammal is from Egypt. It is the jumping rat, or jerboa, which looks like a miniature kangaroo. The smallest bird is the strawberry finch and the rarest mammal the giant tapir, which is only a third grown and weighs 800 pounds. It was captured in Panama.

Animal Hospital. One of the most difficult tasks in the zoo is that of Dr. W. Reid Blair, who cares for sick and injured animals. He often has to treat monkeys for tuberculosis, and sea lions, which were brought to the zoo from the frigid waters of the Pacific, for pneumonia. The tiger sometimes gets a toothache and the elephant develops enormous corns, which must be trimmed. The delicate bones of the deer and antelope are snapped as they race in their fields and must be set as carefully as the fracture of a man's leg.

The more hardy animals at the zoo live in the open all the year round, and herds, like those of the buffalo and wild horse, have large pastures. In the win-

C. P. LOOPER

Sand Hill News

Sand Hill, Sept. 29.—Everyone is very proud of our success in the County Fair. We are especially proud of our community booth which won first place.

The Home Demonstration booth won second place and our car also took second place in the parade.

We hope to take all first places next year and we are going to work to that end.

School will be dismissed after this week for a month, so that the pupils may work in the fields.

There will be a box supper at the school house next Friday night, October 1st, and everyone has a cordial invitation to be present. The boxes will be sold and the proceeds will go to the benefit of the playgrounds.

Everyone will be very busy when the weather clears up so that the people can get to work in their fields.

Mr. Speer and family of New Mexico, visited his brother, J. L. Speer, Friday and Saturday.

Henry Van of Dallas, is visiting in the home of his uncle, Sam Cates.

Mrs. A. G. Dunavant Died Tuesday, 82 Years Of Age

Mrs. Abbie Gale Dunavant, 82, died at the home of her son, R. C. Dunavant, one mile south of Floydada Tuesday morning about 7 o'clock.

Funeral services will be held this afternoon at 3 o'clock at the Church of Christ on South Wall Street, conducted by Elder J. J. Day and interment will be made in Floydada Cemetery.

The deceased was a native of Tennessee. The family lived many years in Ellis County, Texas, moving to Oklahoma where her husband died in February, 1909.

Surviving children are Geo. I. R. C. and J. S. Dunavant, of Floydada; Mrs. M. E. Heilingsworth, of Silverton; S. H. Dunavant, Pickett, Texas; G. V. Dunavant, Palmer, Texas; Mrs. J. W. Watson, Waxahachie.

A report which gained credence here Tuesday morning to the effect that Mrs. Hollingsworth, the Silverton daughter of the deceased, had also died, was erroneous, Geo. I. Dunavant said Wednesday afternoon.

NO FOOL'S PARADISE.

It is a noticeable fact, that ease of living and prosperity often bring discontentment, while adversity strengthens the character and offers an incentive to accomplish seemingly impossible results.

When we were struggling for freedom, necessity forced us to devise and adopt a constitution which would protect the individual from oppressive officialism.

We have seen North Dakota swing toward a socialistic form of government where the state competes with its own citizens in business and industry.

Life insurance records show that the majority of people who receive the proceeds from an insurance policy, have lost that money within a very few years.

Life insurance records show that the majority of people who receive the proceeds from an insurance policy, have lost that money within a very few years.

Society and Clubs

Andrews Ward P. T. A. Organized Thursday Afternoon.

Organization of the third Parent-Teachers' Association in Floydada was perfected at a meeting of interested ladies at the South Ward School.

The new association, which will function in connection with the work of the new school, soon to be occupied by the sixth and seventh grades and a portion of the first to the fifth grades inclusive, will meet each second and fourth Wednesday.

South Ward P. T. A. Will Meet Friday.

The South Ward Parent-Teachers' Association will meet tomorrow afternoon at the school building at 3:15.

Miss Delia Covington Of Kentucky Married.

Miss Gladys Covington, of this city, has received announcement of the marriage of her cousin, Miss Delia Covington, of Russellville, Kentucky to Mr. Chas. Underwood, of Tennessee.

Missionary Society Meetings Postponed.

On account of the bad weather Monday afternoon the Missionary society of both the Methodist and Baptist churches were prevented from meeting at their respective churches.

High School P. T. A. Met Thursday.

The High School Parent-Teachers' Association met Thursday afternoon in their first regular meeting of the new school year.

Ladies Bible Study.

The Ladies Bible Study of the Mississippi Street Church of Christ met Wednesday with Mrs. J. U. Borum.

The next meeting will be with Mrs. J. E. Dickey next Wednesday afternoon at 1:30 p. m.

Eastern Star Will Have Banquet.

The members of the Eastern Star will have a banquet at the Masonic Hall Thursday night, October 7th.

Embroidery Club Organized.

Several of the ladies of the city met Tuesday afternoon at the home of Mrs. Homer Steen and organized an embroidery club.

The club meets today with Mrs. Roy Snodgrass. The charter members are: Mmes. P. W. Cloud, Luther Fry, Jodie Day, Travis Collins, Roy Snodgrass, Jack Henry, Homer Steen and Miss Ruth Collins.

THE AUTHOR OF "MANTRAP" TELLS OF WRITING STORY

"Mantrap," Paramount's latest production, which comes to the Royal on Monday and Tuesday, was written by Sinclair Lewis, author of "Main Street," "Babbitt" and "Arrowsmith."

"It struck me up there in what is particularly known as God's country that no person at all literate could stay very long without wanting to write a book."

"While I read a good deal in the Northwest I didn't write a word, nor make any notes; but I returned with every personality I had met etched in my mind, brimming over with the color of what I had seen and lived."

"It's a new departure for me, and one I like—a straight, out-and-out romance of an unspoiled country. For me it is the most captivating love and adventure story I have ever conceived or told."

Clara Bow, Ernest Torrence and Percy Marmont are featured in "Mantrap," Victor Fleming directed from Adelaide Heilbron's adaptation.

News reached here the first of the week that Mr. and Mrs. H. S. Sparks, Miss Wilma Sparks, and Miss Henrietta Mullinax, who have been on an extended vacation to California, were detained in Arizona because of the high waters which washed out several bridges.

THOMAS MONTGOMERY ELECTED OFFICER IN COWBOY MEETING

A number of the old-time West Texas cowboys held a meeting in Spur Wednesday, September 29 for the purpose of perfecting an organization.

Mr. Montgomery was elected president of the Floyd County division of the organization.

Ford Butler is ill with the week.

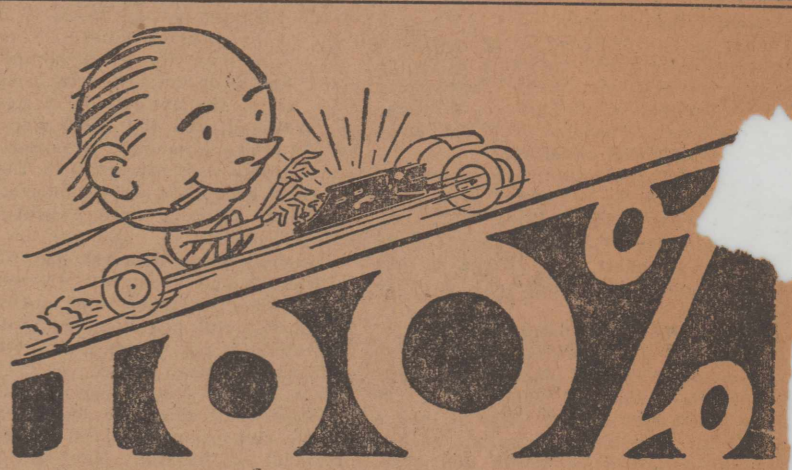

Otis Splawn, of Slaton, was here during the fair last week.

Miss Allene Wood from Verdugo guest of Miss Pinky Hubbard.

BORN—to Mr. and Mrs. W. D. Mr. and Mrs. Earl Edwards and Mrs. Jno. Smith went to Plainview Thursday.

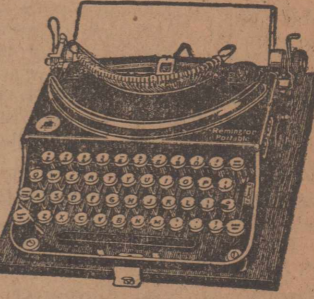

Miss Jewel Stribling, who is making her home in Canyon, spent last week end here visiting friends.

Mrs. Fred Wimberly is spending a week in Amarillo visiting friends and relatives.

Make the Grade with a Remington Portable

STUDENTS Everywhere have found the Remington Portable Typewriter indispensable in their college work.

It is the smallest, lightest, and most compact portable with standard keyboard. The machine can be tucked away in a drawer when not in use for the case is only four inches high.

You can't get away from the fact that neatly typewritten reports and theses get better attention from the profs, and very often mean better marks. The Remington Portable as little as \$10 down a month.

## WITH THE CHURCHES

### MISSISSIPPI ST. CHURCH OF CHRIST

Notwithstanding the bad weather we had a nice little audience present Lord's day. With such faithfulness on the part of the members we cannot fail to make progress in the Lord's work. We expect another good audience next Lord's day as Bro. R. M. Morgan will address the audience at the hour of worship.

A special invitation is extended to all who will come and be with us. Prayer meeting each Wednesday at 8:00 p. m.

### CUMBERLAND PRESBYTERIAN CHURCH

A. A. Collins, Pastor. Sunday School at 10. A class for every one. Morning worship at 11. The church will observe the Lord's Supper. Christian Endeavor at 7. Evening worship at 8. Prayers and study hour Wednesday evening at 8. We offer a church home to all Presbyterians. The public will find a hearty welcome to worship with us.

### FIRST CHRISTIAN CHURCH

F. L. Davis, Pastor. In as much as we did not "rally very hard last Lord's day we have decided to make next Lord's day Rally Day". Let's all rally to the S. S. at 9:45 Sunday morning.

It will be also our Annual Membership day. We will all bring our dinners and after the services at the church we will repair to the tabernacle for our dinner and after dinner is over will have reports from all departments of the church; will elect the officers for the ensuing year and have the roll call of members. Each member should answer his or her name when it is called. Each family of the church is asked to bring their dinner and enough for one more. When part of the family do not belong to the church bring them along and let them enjoy the day with us. Any of the friends that want to bring their dinner and join with us are invited. We do not want to be selfish in the matter. Let us make it a great day for the Lord's work.

Tonight, Thursday, the canvassing committee will meet at the church. Each one on the committee is urged to be present.

The sermon Sunday morning will be: "God's Ownership, Man's Stewardship" At night we will use the picture machine. We have the pictures here and they will be interesting. It will be a world view of our Missionary work. We feel sure this service will be worth any ones while to attend. Be sure and be present.

Owing to the meeting Sunday afternoon here we will not meet our appointment at Newland next Sunday.

Remember the services next Lord's day and be sure to be with us to enjoy the day and make it as profitable as possible to the Lord and His cause.

### PRESBYTERIAN CHURCH

Endeavor Program for Sunday, Oct. 3rd Song. Topic: "What is Education? How get it? How use it?" (Consecration Meeting). Leader: Miss Gladys Collins. Scripture: Romans 12:1-3. 2 Timothy 2:15. Sentence Prayers. Leader's talk. Song. Two minute talks on education: 1. Education from Books—Mrs. Pierce King. 2. Education through Christian Endeavor—Miss Julia Adams. 3. Education for Service—Alpha King. 4. Education for Leadership—B. F. McIntosh. Pianologue—Ollie Belle Collins. Roll-call with response on Education. Business Session. Benediction.

### FIRST METHODIST CHURCH

J. L. Henson, Pastor. Sunday School 9:45 a. m., J. V. Daniel, Supt.; S. N. Tawwater, Assistant Supt. Preaching by pastor at 11:00 o'clock followed by administration of the Lord's Supper. Doors of the church will be opened at the morning service. The pastor will preach for A. D.

Moore at Fairview at 3:00 o'clock Sunday afternoon.

Junior Epworth League at 3:00 o'clock. Mrs. W. A. Robbins, Supt. High School League at 6:30 p. m. Miss Emma Lou McKinney, Supt. Senior Epworth League at 6:30 p. m. Mrs. Lee Wilkinson, President. Preaching by pastor at 7:30 p. m.

### THE FIRST BAPTIST CHURCH

Clarence Allen Morton, Pastor. Sunday 11:00 a. m. the entire membership is expected to be present for the observance of The Memorial Supper of our Lord. The pastor will preach on the subject: "My Supper."

Bible School 10:00 a. m. B. Y. P. U.'s meet at 7:00 p. m. Monday afternoon at 4:00 p. m. all the women of the church will meet for a study of the W. M. U. Manual. Chapter One will be taught by the pastor.

Organized choir meeting Monday at 8:00 p. m. Truett Butler, director. The pastor will talk on "The Effect of Music."

Wednesday night at 8:00 o'clock regular church conference and the third talk on "How to Study the Bible" by the pastor.

Beginning Sunday night at 8:00 o'clock a series of sermons will be delivered on "Notable Biblical Conversions"—The conversion of Isaiah, "The Conversion of Jacob," "The conversion of Naaman," and "The Conversion of Ruth."

All Baptists are expected to be present, all other people have a most cordial invitation.

### BAPTIST WORKERS TO MEET OCTOBER 5 AT WHITE FLAT

The Workers' Meeting of the Floyd County Baptist Association will be held beginning Tuesday of next week with the White Flat Baptist Church northeast of Matador eight miles.

Rev. G. W. Tubb, missionary of the association, prepared the program, which is as follows:

9:30 a. m.—Devotional—S. D. Rattan. 9:45. How Far Can Baptists Cooperate with other People?—C. E. Dick. 10:05. The Importance of Study Courses in the Church.—Y. F. Walker. 10:25. The Need for a Higher Standard of Christian Living:

(1) In the Individual Life—J. M. Harder.

(2) In the Churches—R. E. Bost. 10:45. The Need for more Wholehearted Cooperation among Baptists—J. W. Saffle.

11:05. Sermon—C. E. Morton. 12:00 Noon—Dinner on the Ground. 1:30. Board Meeting. 2 to 3 Program by W. M. U. 3:00. How can we best reach our goal in the 1926 Campaign?—K. F. Keller.

### YOUNG PEOPLE MEET AT BAPTIST CHURCH

The Young People's meeting will be held next Friday evening, at the First Baptist Church, at 7:30 o'clock. The leader for the evening will be Ted Borum. The following program will be rendered:

Scripture reading. Song. Prayer. Piano solo by Miss Virginia Price. Talk—"Keeping up the Standard for Christ" by Rev. J. L. Henson. Vocal solo by Mrs. C. A. Morton. Benediction. Every one is urged to be present next Friday. This meeting will benefit you, and your presence will help us.

John Finley, of Abilene, spent two days of last week here visiting his parents, Mr. and Mrs. W. M. Finley.

Mrs. L. H. Liston who has been here visiting Mrs. L. H. Newell, left Wednesday for her home in Lubbock.

E. E. Massie returned Wednesday from a business trip to Clarendon and Amarillo.

Mr. and Mrs. C. Austin Smith, of Commerce, are guests of Mrs. B. C. Blackman.

Roy Jamison, who is attending Tech in Lubbock this year, was a visitor here during the fair.

Miss Florence Green of Amarillo, who has been here for sometime visiting with relatives and friends will return home tomorrow.

## Flags, Trampled In Mud, Rescued By Argonne Vet

Last Saturday about noon a peaceful stranger in Floydada became infuriated at a sight that apparently had not troubled any of our citizens who had passed that way.

The stranger was driving by the City Park when he saw two United States flags trampled in the mud—that precious flag he had followed in the Argonne until struck down by shrapnel—had been crushed by automobiles in the road; not just once, but so many times that the beautiful colors were almost beyond recognition. Getting out of his car this ex-soldier, who loves and respects his flag, cut those emblems from the cars that had stretched across the street between the park and the carnival grounds, but had been blown down the night before. He held them tenderly in his trembling hands—trembling in anger that Americans would be so indifferent to the flag. Then he delivered them to a member of the American Legion.

This stranger is Jim Armstrong, one of the finishing carpenters at the Andrews Ward School building. He served with the 26th Division during the World War.

## Locals and Personals

Mrs. Carl Goodman and Mrs. R. A. Underwood, of Plainview, were visitors at the Floyd County Fair Friday.

Mr. and Mrs. G. W. McPeak and children of Abernathy, visited in Floydada during the fair last week-end.

Mr. and Mrs. J. E. Gullion returned Saturday from the Rio Grande Valley where they spent about ten days visiting friends.

Walter and Curtis Edwards, of Petersburg, visited last week with their sister, Mrs. Jno. Smith, and also attended the fair.

Mr. and Mrs. J. N. Smithee and little daughter, of Crosbyton, were visitors in Floydada Friday night of the fair.

Clarence Luttrall, of Detroit, arrived the first of the week to spend his vacation on a visit with his parents, Mr. and Mrs. John Luttrall.

Mr. and Mrs. J. R. Moore returned Monday from a visit of a week at Graham, where they were the guests of relatives.

Mrs. R. B. Mitchell and daughter, Cecil, of Plainview, and Mr. and Mrs. Tom Davis also of Plainview, attended the Floyd County Fair, Friday.

W. T. Dennis, of Moran, returned home this week after a visit with his cousin, Mrs. Lee Carathers, of the Baker community, and also with friends in Floydada.

J. C. Curry, of Tredway, spent last week-end here with his wife and children who have been visiting with Mrs. Curry's parents, Mr. and Mrs. W. H. Finley.

Mrs. Mary Stevenson and son, A. G., and little granddaughter, Jettie Stevenson, returned to their homes in Tulla, Wednesday, after a visit here with her daughter, Mrs. Kenneth Bain, and family, and her son, T. S. Stevenson and family.

Mr. and Mrs. James McKinnon, of Phoenix, Ariz., were here a short time last week on a visit with Mr. McKinnon's mother, Mrs. A. P. McKinnon. They also visited in Amarillo while in this section.

## WHAT THE PEOPLE SHOULD KNOW ABOUT TUBERCULOSIS

"What The People Should Know About Tuberculosis" was the subject of an address given recently before the North Texas Medical Association by Dr. C. E. Durham, director of the bureau of vital statistics of the state board of health. Some of the points brought out by him are as follows:

Tuberculosis kills one person every five minutes, or one hundred thousand annually in the United States. And of this number, Texas furnishes four thousand to five thousand.

From one-eighth to one-sixteenth tuberculosis victims are between the ages of 18 to 45, or at the most productive age.

More men die of this disease than women, and more negroes die of it than do whites.

From 1904 to 1914, the death rate in the registration area of the United States declined from 200.7 to 146.8 per 100,000.

Estimated financial loss in Texas from tuberculosis is \$100,000,000 annually.

Predisposing causes of tuberculosis are weakened physical condition, lack of proper food, colds, influenza and pneumonia, pluriy and measles, typhoid and bad living conditions.

The commonest early symptoms of tuberculosis are persistent coughs or a cough; loss of weight and appetite; run down, tired feeling; persistent pain in the chest; night sweats; blood streaks in sputum; persistent subnormal temperature mornings with slight rise of temperature in the afternoons.

Where any of the above symptoms occur, consult your family physician at once.

To prevent tuberculosis—get plenty of fresh air, outdoor life, sunshine, wholesome food; and avoid overwork, continuous fatigue, and intemperate habits. Have a periodic health examination.

Children are especially susceptible to this disease, and should be kept away from sources of infection.

Twenty-three women in England make a living by cleaning chimneys.

Had not Bartholomew, brother of Columbus, been detained by pirates when on his way to ask aid from Henry the Seventh of England, America might have been discovered in the name of the British king.

A small boy recently digging in a garden in Oshkosh, Wisconsin, found a hollow stone containing the note, "Fort Howard, February 1830, Indians attacking. Ammunition running low. (Signed) J. D., commander."

A kite flyer, for the weather bureau at Ellendale, North Dakota, was killed on a clear day by a discharge of electricity coming down the kite wire.

## Whirlwinds Defeat The Tahoka Bulldogs 20-0

Floydada Team Wins First Official Game At Lubbock During South Plains Fair.

The Floydada Whirlwinds defeated the Tahoka Bulldogs Wednesday in their first official football game of the season by the score of 20-0. The game was played at Lubbock as one of the features of the South Plains Fair, and was well attended.

Cochan Ike Jay and Superintendent J. C. Wester left early Wednesday morning with the "fighting Whirlwinds" for Lubbock. The roads between this place and Lubbock were extremely bad, and the entire team did not arrive until about three o'clock in the afternoon. Superintendent Wester stated that some of the team went into the fight without dinner, and "after carrying some of the cars half of the way to Lubbock" In the first quarter of the game, Floydada scored a safety against the Tahoka team, by covering the ball behind Tahoka's goal line. This gave the local team two points. In the second quarter the Whirlwinds scored by making line plunges and forward passes. White carried the ball over the line. They failed to make extra point.

The third quarter, Floydada made steady advancement against the opposing team, by making successful line plunges and completing passes. White again carried the ball over Tahoka's goal line. Try for extra point failed.

John Edwards starred in the fourth quarter by blocking a punt by the Bulldogs, and covering the ball behind their goal line. Kick for extra point again failed. This made the final score of 20-0 in favor of the local boys.

Floydada ran in many substitutes during the game, giving practically every member a chance to play some during the game. Superintendent Wester stated today that the Whirlwinds outplayed the Bulldogs throughout the game. The Tahoka team was never successful in nearing the goal line, and the Floydada team made steady advancement against the opposing team at very opportunity.

## BETTER TO WEAR OUT

It is far better to wear out than to rust out. The man who keeps busy until the Reaper takes him away is by far the happiest individual and he lives longer.

The man who accumulates a competency, invests it, and then retires is the one who rusts out. As a general thing he is not a progressive, he is generally against all civic improvements which will benefit others, he is in a majority of cases a crabbed man who is suspicious of all who approach him.

Truly it is better to wear out. To keep up one's interest in business for then one has interest in pleasure. To keep one's interest in the progress of one's city and its betterment. In other words not to die until the old machine is entirely worn out in the service of others which after all is the highest service which one can do for one's self.

## VERACITY OF WITNESS PUT TO SEVERE TEST.

The courts in countries of the Far East would not dream of accepting the evidence that satisfies us, yet condemn men to death for reasons that we should consider trifling, according to Rosita Forbes, who tells how the mysterious East solves its crime problem, in an article in Liberty. In Arabia, for instance, Miss Forbes says: "In any important case, the testimony of two eyewitnesses is necessary and these may be tested in a most unpleasant manner. The local imam, or some holy man connected with the mosque, heats a long strip of metal in a brazier. When the end is white-hot, it is laid on the tongue of the witness. If it has no effect, he is speaking the truth."

"I have seen this test justify its existence," writes Miss Forbes, "for the metal rests on the tongue for only the fraction of a second. The truthful man is not afraid and the saliva in his mouth saves him from a burn. The false witness is terrified and his mouth goes so dry that the first touch scalds his tongue!"

Cecil Childers, of Abilene, spent the latter part of last week here visiting his cousin, John H. Reagan, and attending the Floyd County Fair.

## OUR PANHANDLE LAKES

Minnesota is known far and wide as the land of lakes and to travel through Minnesota or Wisconsin, one might think that in the past it had literally rained lakes, because there are so many of them.

How came Minnesota to have so many lakes, while most of the other states have so few?

Most of the lakes of Minnesota are gifts from the glaciers of the Ice Age. Geologists point out that the lake district and the invasion of the great glacier cover practically the same region.

The glaciers lavishly sowed the state with lakes by scooping out hollows in the land surface and by leaving over them a sheet of ice which melted in

due time and filled the bowls with water.

The Panhandle of Texas would have as many or more lakes than Minnesota if it had as much rainfall, but our natural reservoirs are due to other causes.

Geologists say that this particular plains country is underlaid with a great layer of salt. The water migrating absorbs part of it, creating crevices and caves. The upper layers of rock sunk into these crevices or caves and these sunken spots, which extend to the surface, are the places in which the prairie lakes form in wet weather.—Amarillo News.

From a 30-by-30-foot patch of ground, a nightwatchman at Menominee, Wisconsin, raised 43 bushels of potatoes, a rate of more than 2,000 bushels an acre.

## Community Exhibits Present Picture Of County's Great Agricultural Wealth

Probably the most complete and most interesting exhibits in the Floyd County Fair was the community agricultural exhibits. The interest ran high and the competition was very great in the awarding of the ribbons in this division. R. E. L. Portilla, County Agent of Hardeman County, was judge in this division, with the assistance of J. I. Hammonds, city. Mr. Portilla stated that this was one of the best exhibits he had ever judged.

"Some of your community exhibits," Mr. Portilla stated, "would compare very favorably with many county exhibits in the Dallas Fair." One man expressed his view of fair when he saw these exhibits by stating that "you have a regular little Dallas Fair in your agricultural show here."

The Sand Hill Community was awarded first place in the agricultural exhibits, with a score of 940 against the perfect score of 1000. The score card of the Dallas Fair Association was used in grading these exhibits, and Sand Hill's score is an extremely good one. W. R. Dooley and G. C. Collins were in charge of their booth.

The entire exhibit was beautifully arranged. The back ground was made from orange crepe paper, with a large circle of red kaffir in the center. In the center of the circle the words "Sand Hill, 1926" were spelled in grains, and a miniature bale of cotton also made from grains. Little pieces of cotton placed on the miniature bale made it look very realistic. The bale hoops were made from rape seed. The entire back ground of the circle was covered with alfalfa seed.

The entire back ground of the exhibit was lined with red top cane. The corners were rounded and in each was a circle of rape and alfalfa seed. Two bundles of millet and two bundles of alfalfa were also placed on the back ground. Overhead, the exhibit was covered with white cloth, which added very much to the appearance of the booth. The fore ground was beautifully arranged with the floor of the booth covered with blue.

This booth possessed two exhibits which were uncommon. A miniature bale of hay and a stalk of tobacco raised in Floyd County. Some of the tobacco had been twisted and dried and "ready for use."

Sand Hill's score in the respective divisions of the booth is given below with the perfect score opposite the score of the community.

Corn and grain sorghums	190	200
Cotton and wheat	190	200
Oats, barley and ribbon cane	70	75
Alfalfa, sweet clover, velvet beans and sweet potatoes	75	75
Peanuts and cowpeas	45	50
Annual forage crops	45	50
Fruits	70	75
Vegetables	70	75
Other crops	90	100
Attractiveness and neatness	95	100
<b>Total Score</b>	<b>940</b>	<b>1000</b>

### Prairie Chapel

Prairie Chapel was awarded second place in the community agricultural booths, with a score of 871 against a perfect score of 1000. J. B. Teaff, H. H. Nichols, Mr. and Mrs. A. L. Crowley and Miss Ruth Cooper were in charge of this booth.

This booth possessed many high grade crops, and the entire booth was filled with the many products. The back ground of the booth was made with white cloth, and the name of the community spelled in the center with large red maize heads. The name was lined on top and bottom with large rows of open cotton bolls. Near the bottom of the back ground were many varieties of grain on heads. The fore ground was also white, with the many exhibits attractively arranged.

The score of the Prairie Chapel booth is given here with the perfect score opposite.

orn and grain sorghums	180	200
otton and wheat	192	200
ats, Barley and ribbon cane	72	75
Alfalfa, sweet clover, velvet beans and sweet potatoes	28	75
anuts and cowpeas	22	50
annual forage crops	48	50
ruits	73	75
etables	73	75
er crops	95	100
attractiveness and neatness	83	100
<b>Total score</b>	<b>871</b>	<b>1000</b>

### Harmony Gets Third.

The third award in the community agricultural exhibit was made to the Harmony community. Their score was 850 against a perfect score of 1000. Much credit for the success of this booth should be given to R. B. Gary and Williams who were in charge. The back ground of this exhibit was with a blue center. The name, Harmony, was spelled in the center with different varieties of grain. The booth was surrounded by cotton and grain. At each corner of the booth beautiful bouquets of flowers, pods of red and green peppers, several bundles of higrira added much to the appearance of the booth. The fore ground was covered with white cloth and every exhibit rested on a blue napkin.

### FREE COTTON PICKER'S ACCOUNT BOOKS

ginbotham-  
artlett Co.

od Lumber

Corn and grain sorghums	180	200
Cotton and wheat	170	200
Oats, Barley and ribbon cane	72	75
Alfalfa, sweet clover, velvet beans and sweet potatoes	45	75
Peanuts and cowpeas	35	50
Annual forage crops	20	50
Fruits	70	75

Other crops	95	100
Attractiveness and neatness	90	100
<b>Total score</b>	<b>850</b>	<b>1000</b>

### Sunset's Exhibit Fourth.

The Sunset community was winner of the fourth place in the community agricultural exhibit. Although portions of this exhibit were incomplete, those exhibited were of the best grade. The cotton and wheat in this booth was among the best shown at the fair. Their score on cotton and wheat was 190 against a perfect score of 200. This booth was under the direction of R. L. Orman.

The back ground of this booth was very attractively arranged. It was covered with white cloth and a large banner bearing the name "Sunset" in green letters. The banner was white with a green border.

The fore ground was also white with another large banner with the name of the community. The products were arranged around this banner. The cotton, which was displayed in the bales, was very attractive, and was of the finest grade.

The Mayview community exhibit, under the direction of Mrs. C. E. Bartlett and L. J. Davis, won fifth place in the community agricultural exhibits. Parts of this exhibit were also incomplete but the products shown were of the best on display. The cotton and wheat in this booth were of the highest grade. The back ground was made of blue crepe paper, with the name of the community printed in orange. Many varieties of grain were placed on the back ground, adding very much to the appearance. The fore ground was very neatly arranged with many varieties of products raised in that community.

The Campbell community exhibited many varieties of products raised in that community. W. A. Amburn and W. H. Bethel were directors. The booth was incomplete, but those products on exhibit were of fine quality. Insufficient quantities of the various products was the cause of this booth's low score.

The back ground of this booth was made from green crepe paper. The name of the community was spelled across the back ground with gold crepe. In the fore ground "Campbell" was spelled in flowers across the outer edge of the display, setting the exhibits out very attractively.

## Individual Awards Made In Agricultural Dept.

The entries in the individual agricultural exhibits were not as numerous as they were expected to be. This can be attributed to the fact that many did not understand that a product could be entered in the community exhibit and also in the individual exhibit.

First place winners received a prize of \$1.00 and second place winners received 50c. Although there was a lack of entries in many products, in others there was much competition for first and second place. The winners of the first and second places in these exhibits are given here.

Grapes: 1st, Mrs. D. T. Scott.

## Plainview High Defeats Floydada 14-6 Friday

### Whirlwinds Go Down in Defeat Before Bull Dogs in First Game Of Season.

The Floydada Hi Whirlwinds and their first game of the season last Friday afternoon as one of the events of the Floyd County Fair. The Bull Dogs were victorious although it was no easy matter. The final score was 14-6, no scores being made in the last half of the game.

The possible cause of the Whirlwinds loss in this game can be attributed to the fact that Plainview is a class A school and Floydada is a class B school. For this reason the game was unofficial. The strength of both teams was shown in the last half when neither of the teams scored. Ike Jay, Coach of the Whirlwinds, stated Friday that he was well pleased with the showing his team made in the opening game. He believes that he can build a championship team with his boys. The coach of the Bull Dogs, on the other hand, is also well pleased. He expects the Bull Dogs to be champions of the Class A division.

The starting line of the Whirlwinds in Friday's game was: left end, Jim Carter; left tackle, Borum; left guard, Carleton; center, John Edwards; right guard, Gaither; right tackle, Swain; right end, Sid Carter; quarter back, Eubank; left half, Lewis; full back, Wilkinson; right half, White. Wilkinson was knocked out in the first quarter, and Jack de Cordova was made half, and Lewis, full back.

Plainview's line in the game was as follows: center, Stephens; left guard, Lee Masters; right guard, Dean; right tackle, Carter; left tackle, Wilhelm; right end, Pierce; left end, Brow; quarter back, Visor; left half, Boswell (cap) right half, Craig; full back, Daffern.

In the first quarter of the game Floydada suffered a loss when Ted Wilkinson suffered a wrenched knee. Floydada carried the ball all during the first quarter, and made slow but steady gains. Time was called once for Eubank during the first quarter.

The second quarter was a period of much action. All of the scoring in the game was made in this quarter. The ball is in the hands of the Bull Dogs, and Boswell, of Plainview, completes a 20 yard pass, within 12 yards of Floydada's goal line. A second complete pass crosses the goal line and Plainview kicks for extra point. This gives Plain-

view 7 points. Floydada receives and ball changes several times. Plainview again crosses the goal line and kicks for extra point. Floydada receives again and makes steady gain. On fourth down White punts 45 yards, to Plainview, nearing Plainview's goal line. Ball goes over to the Whirlwinds and they cross the goal line. They fail to kick for extra point. Half is called with the score 14-6.

In the third quarter Plainview receives, and punts to Floydada on fourth down. The ball changes hands several times, both teams punting on fourth down. In one instance Floydada punted 17 yards and Plainview punted 14 yards. The ball is in the hands of the Bull Dogs at the beginning of the fourth quarter. Boswell completes 20 yard pass. Ball goes over to Floydada, who fumbles and Plainview recovers. The ball is in play near Floydada's goal line. Plainview fumbles and Carter of Floydada, recovers. Draw 5 yards penalty for second incomplete pass. Ball goes to Plainview on ten yard line. Fumbles one yard from goal line on second down, and Floydada recovers behind goal. Ball goes on 20 yard line. Whirlwinds make rapid and steady gains until final whistle blows. Score 14-6 in favor of Plainview.

## TWO FLOYDADA CARS SMASHED ON RALLS-LUBBOCK ROAD

John Luttrall and F. J. Barkhurst, both residents of Floydada, sustained rather serious injuries Sunday afternoon on the Ralls-Lubbock highway, two miles west of Ralls, when at a corner their cars collided. Luttrall had a rather severely cut chin and bruised shoulder. Barkhurst sustained bruises, but was able to report for duty at the Santa Fe offices Monday morning. Both cars were badly damaged.

## NOTICE OF APPLICATION FOR LETTERS—GUARDIANSHIP

THE STATE OF TEXAS,  
To the Sheriff or any Constable of Floyd County—GREETING:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Floyd State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION FOR LETTERS—GUARDIANSHIP:  
THE STATE OF TEXAS,  
To all Persons interested in the welfare of Joseph E. McAvoy, Jr., and Eugene McAvoy Minors, you are hereby notified that Joseph E. McAvoy, Sr., has filed in the County Court of Floyd County, an application for Letters of Guardianship of the persons and Estate of the said Joseph E. McAvoy, Jr., and Charles Eugene McAvoy, minors. No. 885, on the Docket of the Probate Court, of Floyd County, Texas, which Application will be heard at the next Term of said Court, commencing the Third

Monday in October A. D. 1926, same being the 18th day of October, 1926, at the Court House thereof, in the town of Floydada, Texas, at which time all persons interested in the welfare of such minors may appear and contest such application should they desire to do so.

Herein fail not, but have you there and there before said Court this writ, with your return thereon endorsed, showing how you have executed the same.  
Given under my hand and the seal of said Court, September 6th, A. D. 1926. (SEAL) CLARA LEE SCOTT, Clerk County Court, Floyd County, Texas. 293tc

**any Clever Ideas Feature Exhibits In  
All Division Of Ladies Fair Department**

The main booth of the ladies department for the general exhibits was filled to capacity. In the general exhibits included cooked foods, preserves, pickles, canned vegetables, pickles, relishes and canned fruit. In the general exhibit Miss Mollie Crum had a wonderful collection of hand painted and embroidered pillows. Mrs. Hanson and Mrs. Harper Scoggins display some splendid work done by their kindergarten pupils. There about a dozen antique quilts on display which had been handed down from generation to generation. Mrs. L. C. McDonald, Mrs. Wilson and Mrs. J. B. Jenkins were displays of the general exhibits. Opal Wood, demonstration agent of the county and Miss Daisy Gordon, demonstration agent from Dickinson, judged the Food Preservation and fancy work of the general exhibit. Miss Edith Wentle, demonstration agent of Motley County, judged the preparation department. An interesting feature of the fair exhibit of the Four H Club to be competing for the trip to Dallas Fair offered by The H Publishing Co. Marie Smith from the club was awarded first place, to the Dallas Fair, and Alma also from McCoy was awarded second place, which was \$5.00 given by the Association. The girls exhibited on the best home improvement article, best club sewing and canning. A bedroom suit which could be made for twenty five dollars was also exhibited by the various Four H Clubs of the county. It was made from old furniture which had been, in most cases, worn away. It was painted a dark color and one which would not be unattractive in most any home. The club work is under the supervision of Blanche Bass, Home Demonstration Agent.

The Flower Show department was under the supervision of Mrs. M. F. Huson, Mrs. E. C. Henry, and Mrs. Lonh. Although there were not as many flowers as were expected there were entries in nearly all of the classes. The judges of the Flower Show were Mrs. A. B. Martin, and W. E. of Plainview and Mrs. W. M. of Crosbyton.

The Art Department was under the supervision of Miss Lela Windsor. The collection was beautiful and there were many pieces which showed good work. The judges for this department were Mrs. C. M. Wilson and Mr. Kirk.

A very clever booth which was arranged under the supervision of Miss Bass included a miniature cemetery where four wives of "Andy Doodle" were buried. They had died of work and lack of the comforts of the cemetery was wife number five, still alive, she was well and happy and neat because she had had her head and modern devices instead of her feet. A number of the modern devices were furnished through the courtesy of the local merchants.

The following is a list of the awards in the different departments.

**Food Preparation**  
Best loaf cake: 1st, Mrs. M. W. Heard; 2nd, Mrs. J. A. Hatley.

**HALF-MINUTE INTERVIEWS**  
**J. Frank Triplett, of Hale Center:** "Our cotton grading exhibit attracted much interest both from in-town and out-of-town people. The various grades of cotton is an interesting study. I believe everybody got a lot of good out of our exhibit at the fair, the cotton association not excepted."  
**W. C. Grigsby:** "I got a good prize at the fair. I happened over at the agricultural exhibit Thursday night, and found a bunch of exhibitors getting their exhibits ready for the show. I made them up a pot of coffee and was rewarded with a fine pumpkin. Pumpkin pie is easy for me to take."  
**W. A. Baker:** "I predict the time is coming in the next ten or fifteen years when Texas is going to raise not over 2,500,000 or 3,000,000 bales of cotton a year, all on account of labor."  
**L. E. Williams:** "This rain is sure fine for the wheat and wheat land."  
**Gus de Cordova:** "Nobody can complain at the fine season we have had. It fell slowly, gave the wheat ground a fine season and seems not to have damaged the cotton."

**SECOND AMARILLO FIELD MAY DEVELOP IN MOTLEY COUNTY**  
**Motley County News:**  
The water well and living quarters for the Chechako Oil Co., on section 28, T. & P. Survey, block Four, Motley County was completed this week, and drilling is expected to start as soon as the machinery can be installed. The Chechako Oil Co. was recently chartered, with Geo. W. Pennington, of Amarillo, as president, Gus and Earnest Petterson and Wm. Mates, of Seattle, Washington, as Associates. Mr. Pennington is also president of the Alaska Petroleum Co., Secretary of the Dixon Creek Oil Co., Mcloy Oil Co., and Cockerell Mcloy Oil Co., who have large holdings in the Amarillo field. This location was selected by Johnnie McGee, Geologist who located the Amarillo field. Mr. McGee stated that the possibilities are mighty good and that the people of Motley County need not be surprised to see a second Amarillo field developed here in Motley County.

The derrick material for the oil test on the Owen-Bird lease in the Southeast part of the County came in Tuesday and the construction was started Wednesday morning. Mr. S. H. Webb, who is promoting the deal, has turned the rig contract to Neely and Taylor of Vernon.  
The drilling is to be done by M. Z. Wheeler, of Blackwell, Okla., and R. C. Rankin, of Los Angeles, California, who will be on the ground all the time, doing the drilling themselves.  
Mr. Webb informs us that the drilling on this location should start by October 10th.  
This is the second derrick to be built in the vicinity of Matador within the last two months, and goes to prove that oil men over the county have their eye on West Texas and are expecting to develop this into a wonderful oil field.  
This is also the fourth test to be started on the Owen's lease, two of which are located just across the line in Hall County, and two in Motley County.

**COHENS AND KELLYS**  
The most capable hands in Hollywood have made "The Cohens and Kellys," the Universal-Jewel coming to the Olympic theatre on Friday, October 1st. It is coming with an all-star cast which includes some of the greatest old-timers of stage and screen, all of whom are comedians extraordinary.  
Charlie Murray heads the cast, with George Sidney and Vera Gordon also featured. Others in the cast are Nat Carr, the brother of Alexander Carr, Kate Price, Jason Robards, Olive Hasbrouck, Bobby Gordon and Mickey Bennett.  
The story is a comedy-drama of quick richness and the relations between a Jewish and an Irish family on the East Side, New York.  
The Jewish family inherits a million dollars after having lived from the meager profits of a clothing store. That is the situation on which Harry Pollard, the great comedy director, has built the structure of his picture.  
Those who have seen previews of this picture assert that it is the funniest and most human picture they have seen for months. Laughter and tears alternate for an unusual effect leading to a surprising climax.

**Every one is home from their vacation now.**  
Our Sunday School at both places are growing with each service. There were no services at either place Sunday on account of rain.  
My! But we are sure having some rain, makes us pull our coats around us, the temperature has dropped so much. Guess every one is ready to begin the harvesting of the fleecy staple. If the weather will just fair up so they can get in the fields. Will need cotton pickers here. There is a large acreage in cotton in this neighborhood. The gin at this place has ginned two or three bales. We hope to keep the gin running day and night soon as the weather fairs up.  
School at this place is moving along fairly well with Mr. L. L. Rose as principal, Miss Lillian Cash as teacher of sixth and seventh grades, Miss Dixon, of Oklahoma, third and fourth grades, Miss Miller, of Plainview, primary teacher.  
The Home Demonstration Club met the home of Mrs. Floyd but Miss Bass did not come, so the regular program was not carried out. There was a general discussion of canning, bread-making.

**CELERY EASY TO RAISE**  
County Treasurer Mrs. Elder Morris is one Floyd County person who does not subscribe to the claim that celery is not a successful vegetable for this section. She brought a large bunch of celery from her garden down-town Wednesday morning. It was well-bleached and fine-looking.  
"Celery is easy to raise," she said. "I planted the seed in the hot bed in February. After a long time I dug up the bed because the seed were not coming up, and shortly thereafter it seemed that every seed I planted came up. I transplanted some of it as late as July and lost practically none of the plants."  
Mrs. Morris said she had enough celery to run the family all winter if she knew how to keep it during the freezes this winter.

their help and sympathy in the illness and death of our infant daughter, grand daughter, and niece.  
Mr. and Mrs. M. M. Smitherman, Mr. and Mrs. P. M. Smitherman and family, Mr. and Mrs. A. S. Cummings and family.  
A cow's tongue was bitten by a huge snapping turtle near Tuckahoe, New Jersey, recently. The turtle refused to release its hold until it had been killed.  
An early instance of a strike occurred in England in 1679 when a company of framework knitters and makers of silk stockings agreed not to work for a month in order to keep up their prices.  
Al Istaghri, writing in the tenth century, wrote, "The south end of the earth is the Sudan, which borders no other country; its boundaries are the sea and the deserts."  
Briar root for pipes has become so popular in this country that France is reaping a rich harvest from its exportation. In 1924 its value was 80,000,000 francs.

**SEND THEM HOME HAPPY**

It is a standing motto with us—send them home smiling. And we do not believe there is a good healthy man in this community who can resist smiling after he has selected his supply of Groceries from the good things we have ready every day. The price pleases, too.

Give us a trial this month.

## OLYMPIC THEATRE

PROGRAM FOR THE WEEK

Thursday, September 30th —  
"THE MIDNIGHT FLYER"  
With Cullen Landis and Dorothy Devore a roaring, crashing drama of the rails; plenty of thrills, action and romance. Also FOX NEWS and two-reel Comedy. Friday, October 1st—  
"THE COHENS AND KELLYS"  
With an all-star cast. Lots of comedy furnished between two Jewish and Irish families; a scream on the screen! 1000 laughs! An uproarious riot! You're utterly helpless with merriment one minute and utterly hopeless with tears and then—oh, come down and see it. It's captivating—stimulating—delightful entertainment. Really this IS funny. Also a good two-reel comedy. Saturday, October 2nd—  
"THE ARIZONA STREAK"  
With TOM TYLER and his buoyant buddies, in a big Western thrill show that'll pull you right out of your seats! Also a good comedy. Mon., & Tues., October 4th & 5th—  
"THE KING OF THE TURF"  
With Kenneth Harlan, Patsy Ruth Miller, and a brilliant cast of players in the roaring romance of the racetrack. All the hip hip hurrah of derby day—straining eyes—courageous thoroughbreds—stout-hearted jockeys—prudent horsemen—beautiful women—frantic plungers—moving irresistibly thru the vivid pageant of the American turf; fifty thousand throats roaring like the crack of doom! A story begun and ended with the most spectacular races ever filmed. Also FOX NEWS and a good two-reel comedy. Wednesday, October 6th—  
"BOBBED HAIR"  
With Marie Prevost, Kenneth Harlan, Louise Fazenda and strong cast; the year's most unusual story of adventure and romance, by twenty popular authors serially in Collier's National Weekly. An ultra-modern romance that starts off with the unconventional whimsies of an impetuous society girl who plans to lose her husband by hobbing her—and the sensationally exciting events that makes the night of her a wild crescendo of adventures. FOX NEWS and good comedy.

Blooming plants, ferns and bulbs. Mrs. Maud E. Hollums. 29tfc

## SEWING AS A CHARM

They say in New England that if a girl sews a button upon the clothing of a marriageable man she will marry him before the year is out. Kindred superstitions are common in various parts of the country. In some sections it is believed that if a woman while sewing on a dress accidentally sews it to the garment she has on as many lies will be told about her as she takes stitches; and in many others the superstition is that if a garment is mended while it is being worn lies will be told about the wearer.

These superstitions are remnants of the ancient belief in imitative magic. The first one—about the sewing of the button—is exactly in accord with the belief and practice of our remote ancestors. As the girl fastens the button to the man's clothes so she fastens together his life and hers. The other two have become slightly distorted in their descent through the centuries but are plainly forms of the superstition mentioned by Ovid in his "Fasti" nearly two thousand years ago. He represents a witch as attempting to stop people lying about her by sewing up the mouth of a fish. Originally it was believed that by sewing up a rent in a garment while wearing it we "sewed up" or stopped, the mouths of those who lied about us.

The rhyme common in a few localities: If you mend his clothes upon his back It's a sign his troubles will never come back.

is much nearer the original form of the superstition and more in accordance with orthodox homeopathic magic. In Bulgaria a peasant woman will sometimes sew together the skirts of her dress after dark, thus "sewing up" the jaws of the wolves so that they cannot injure the cattle during the night.

## ARE EDENS OF DESERT

Luxuriant Growths of Tunisia Oases Fed by Many Fountains.

From the Bookman. There are in the desert of Southern Tunisia three great oases: Gabes by the sea, a little north of that island of Djerba, which is traditionally, the classical island of the Lotus Eaters; Tozeur, to the west of it, some seventy miles inland, and Nefta, fifteen miles west of Tozeur, the starting point of the caravans which trade between Southern Tunisia and the great oases of the Algerian Sahara, Biskra and Touggourt.

These oases are all of much the same size consisting of some six or seven thousand acres of cultivated ground, and are all three remarkable for their numerous and copious springs. In the middle of the desert, suddenly, a hundred fountains come welling out of the sand; rivers run, a network of little canals is dug. An innumerable forest of date palms springs up—a forest whose undergrowth is corn and roses, vines and apricot trees, olives and pomegranates, pepper trees, castor trees, banana trees, every precious plant of the temperate and the sub-tropical zones. No rain falls on these little Edens—except on the days of my arrival—but the springs, fed from who knows what distance sources, flow inexhaustible and have flowed at least since Roman times. Islanded among the sands, their green luxuriance is a standing miracle.

That is should have been in a desert, with here and there such islands of palm trees, that Judaism and Mohammedanism took their rise is a thing which, since I have seen an oasis, astonishes me. The religion which, in such a country, would naturally suggest itself to me, would be no abstract monotheism, but the adoration of life, of the forces of green and growing nature.

## SCIENCE IN WEARING CLOTHES

If you have some suit or dress or entire outfit that your friends insist

is particularly becoming, it is almost sure to be an example of scientific principles of wearing clothes. This fact was stressed by an assistant professor of home economics of the University of Nebraska, who explained some of the latest developments in the psychology of dress, before the American Home Economics Association at its recent meeting in Minneapolis.

Since the beginning of time, some individuals, especially women have consciously or unconsciously dressed to suit their types of personality, the professor pointed out. But it has remained for this scientific era to help out those who do not have a sure intuition about dress by ferreting out the scientific principles involved and reducing them to formulas, and by creating a new vocation of clothing adviser.

"Considered from a purely physical standpoint, there are short, stout and tall stout people, thin angular ones and the rest," she said. "Especially must be remembered those with special difficulties of proportion which call for an application of that psychological principal requiring that we make something interesting happen to carry difficulty we wish to conceal.

"A study of the spiritual and mental characteristics of women reveals two outstandingly different classes the one stately, dramatic, striking, forceful; and the other dainty, petite, demure, native. Most of us are combinations of those two types, but nearly all of us have tendencies toward one or the other."

## IMPRESSIONS OF A BRIDEGROOM-TO-BE.

Flowers! What a dense odor! And more flowers! They're stiffling me. Why don't they start the organ? There they have. Ye gods! Why don't they put some life into it? Can't they go any faster than that? Who was it that set "Lohengrin" to dragtime? Sounds more like "Dan-Deever."

And look at the ushers. Will they never get here? If they'd pair for the Malacca sticks I'm giving them I'll wager they'd look the way I feel. Ah, they're getting nearer. I can see them now. Wonder what Ben Thorne is so solemn about? It isn't his funeral I mean wedding. Maybe he's grouchy

about those white gold studs I've got for him. I suppose I should have bought platinum ones. A best man ought to be treated with some consideration, I presume.

Anyhow, it's too late now. That organ . . . will it never get out of that crippled step? And more flowers. Even the family in the front pews look like a group of mourners. Why won't Aunt Mildred and Cousin Grace ever dab a bit of rouge on their cheeks at a time like this? They both look on the verge of a break-down and I . . . I'm the only calm person in the church. If I don't mind it I don't see why everyone else should be so bowled over and excited. Just like a woman isn't it?

Draped in gloom from head to foot. It's a fine bone, wouldn't it? You can tell about these nervous . . . Well, here they are . . . The Why-er . . . I had it a moment. What's that? Oh, of course. It's my hand all the time, wasn't it? I had it only a moment ago. No like this . . . Eh? "Do I?" what? . . . Oh, of course . . . stupid . . . what do you suppose here for? . . . You bet I'll . . . Whew! Thank heaven over! And I kept my head all the time!

Great Scott? Look at the minister. Hesperian Want Ads—Re

# Are You? ---

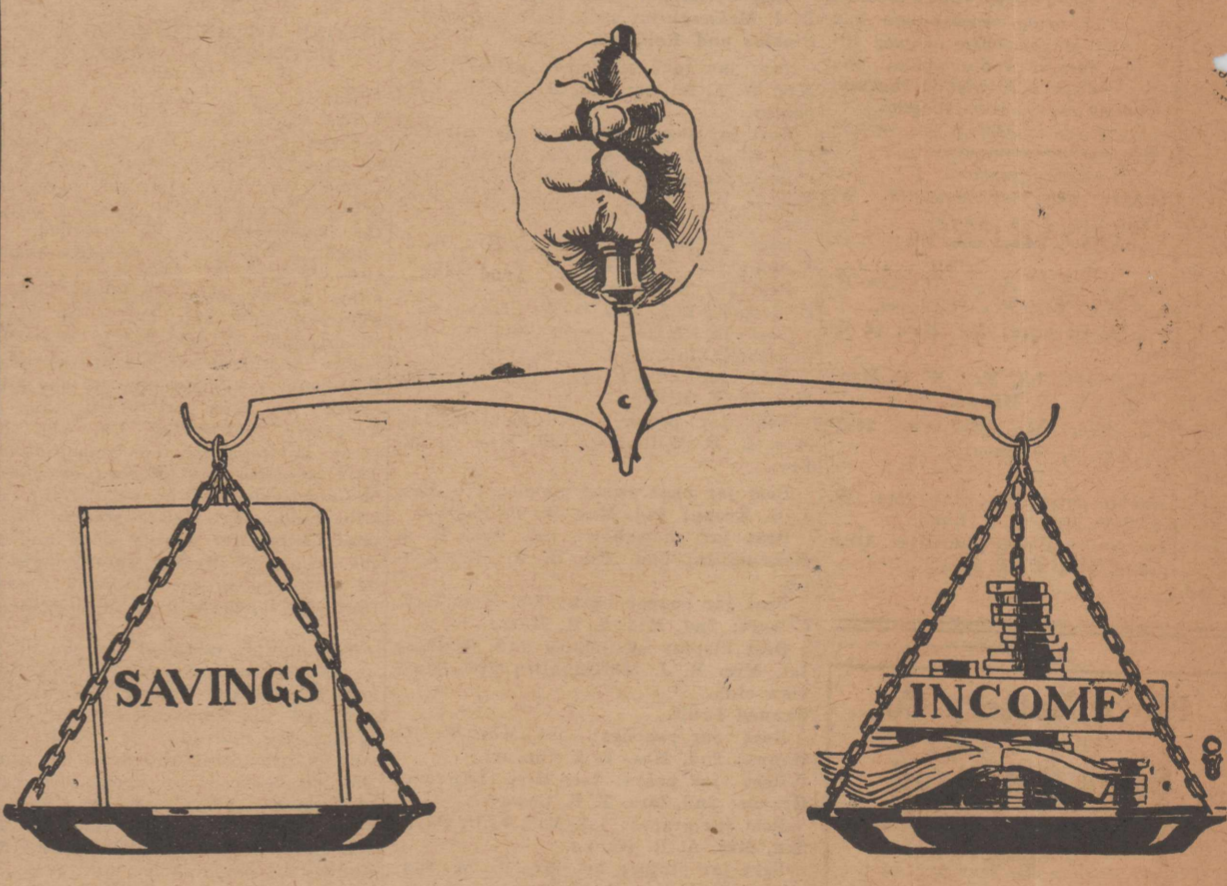

Are you the fellow who gets up in the morning with groan,  
Goes to bed at night with a sigh,  
And when he goes to the bank for a loan  
Finds out he is not rated very high,  
His obligations he cannot meet,  
Simply because he generally has cold feet?

**Suffered weak, nervous**

"I WAS in a very weakened, run-down condition, surely in need of a tonic and builder," says Mrs. J. R. Wrenn, of Anna, Texas. "I was so weak I had to go to bed, and kept getting weaker."  
 "I suffered with my back so much. I was very nervous, couldn't rest good at night. I couldn't eat anything—I just wasn't hungry."  
 "I had read so much of Cardui, I thought best to use it. I took seven or eight bottles, and by the time I had taken them I was stronger than I had been in several years. I can highly recommend Cardui."  
 Thousands of other women have found that the tonic effects of the purely vegetable ingredients of Cardui were just what they needed to help restore their appetites, to help bring them easily and naturally back to normal health and strength. Its action has been found to be of great benefit in many common female ailments.  
 Buy it at your druggist's.

### Adequate Marking Of Lee Highway Is Planned For

(Continued from page 1)

win McMath, H. F. Pipkin, D. E. Pitts, Matador; Mr. and Mrs. Fred Schrier and L. D. Jones, Olton; James M. Whatley, W. H. Abernathy, G. A. Lee, H. F. Wilkins, E. A. Carlock, Paducah; H. L. Kimsey, A. Y. Beverly, A. G. Magee, Garland Burns, D. U. Baker, of Crowley; Glad Snodgrass, S. N. Tawwater, O. P. Rutledge, Geo. A. Lider, O. P. Rutledge, city.

R. P. Johnson told the assembly that the Lee Highway was now a route which could be travelled 364 days in the year in its entire length, that its entire reach from San Diego, Cal., to Washington, D. C., could be made in comfort in ten days by automobile, and that much of it has been hard-surfaced. "Lee Highway for the past four years has been built faster than any railway across the continent was ever constructed; it is going to be the all-year-round route for trans-continental travel within a few years, and even now the National Lee Highway Association is planning to spend thousands of dollars advertising the route to the nation," Mr. Johnson said.

Mr. Johnson will be present at the meeting in Plainview on October 15, and an effort will be made to get representatives of the state highway department present for that meeting.

#### Sand Hill Demonstration Club

The Sand Hill Home Demonstration club met September 15th in the home of Mrs. H. O. Shurbet. There were eleven members present and several visitors among whom was Miss Murry, District Agent from A. & M. College. We were very glad to have Miss Murry with us. Several of the members had never had the pleasure of hearing her talk before. She made a very interesting talk on "The Practical Pantry" or the "Convenience and Economy of a well planned pantry." We wish every member could have been present.

Mrs. Miller presided over the business meeting as Mrs. Hanna could not be present.

We will meet next time with Mrs. Noah Wright, October 6th. "Pickles

and relishes" will be the topic for discussion.

Roll call: "The relish I serve most often. Mrs. W. E. Miller will be leader. Mrs. C. C. Green will discuss "The Place and value of pickles and relishes in the diet." Miss Bass will discuss "Canning of Pickles and relishes."

#### ARTHUR'S COMEDIANS HERE NEXT WEEK.

Starting Monday evening Arthur's Comedians will open a week's engagement in Floydada under their large tent.

This is said to be one of the strongest stock companies on the road, producing the latest plays complete in every detail. Between acts high class vaudeville is put on by artists, favorable mention appearing in nearby newspapers relative to their specialties.

The company carries a strong jazz orchestra and from the beginning to the end there is not a dull moment.

The company will open Monday evening with "Hollywood Madonna" which includes comedy and strong dramatic climaxes. The opening night ladies will be admitted free when accompanied by a paid adult admission.

#### GINS STOP SATURDAY ACCOUNT OF RAINS, GINNED 290 BALES

Ginning in Floyd County was discontinued last Saturday evening, because of the recent rains. Up until that time, 6 out of 11 gins in the county had ginned 290 bales of cotton. The four gins in Floydada have ginned approximately 115 bales. The Lakeview gin has ginned 92 bales and the McCoy gin 83 bales. Reports were unavailable in this office this morning from the Joe Bailey gin and the four gins in Lockney.

Report from the new Estocada gin, owned by G. T. Assiter and son, shows that gin had put out 87 bales up until Saturday evening.

Mrs. G. V. Banker, and little daughter, Doris Eilene, returned to Lubbock, Sunday afternoon after spending the week-end here with her parents, Mr. and Mrs. N. A. Armstrong. Mrs. Banker is a teacher in the Lubbock Public Schools.

Born to Mr. and Mrs. W. A. Buford, of Cedar, September 28, a daughter.

### County Fair Exhibits Surpass Expectations

(Continued from page 1)

had been made on all expenses and income, that the fair had been successful financially, checks for all prizes and known expenses having already been issued. A few prize winners, mostly of second prizes, are not known, Mr. Bishop said. Where these are learned of, they will be paid off. Some confusion occurred Saturday afternoon, when before a re-check of awards was completed, some of the exhibitors removed their exhibits for early departure to their homes. In this same category are a few exhibits which were left by exhibitors, principally in the ladies' department. A night watchman was kept at the exhibit hall each night until the last of the remaining exhibits were moved Tuesday to the Chamber of Commerce office. These consist of a few fruit containers, a few pieces of fancy work and two or three pot plants. Owners may have them by calling and identifying, Mr. Bishop said.

Amusement features at the fair were well patronized, considering the inclement weather, even on Saturday. Attendance at the polo game and Lockney-Spur football game were cut considerably.

#### Parade Is Delayed.

The parade scheduled for Saturday morning was postponed until 1 p. m., in the hope that warmer temperature would follow the morning's blasts. However, the cold mist continued and the pretty automobiles and beautiful girls had to brave the elements when this feature was staged. The parade formed on West Missouri Street.

Prizes were awarded in three divisions—community, organizations and classes, and business firms. First, second and third prizes were awarded in each division.

Campbell, Sand Hill, Harmony were first, second and third in the community division, the prizes being \$15, \$7.50 and \$5.00 respectively. The Campbell car featured the community's name by improvising a large camel of wood and crepe paper, with Miss Eura Horn, in Arabian costume, riding him. She had an escort of six boys, also dressed as Arabians. The Sand Hill car was decorated

in white with strands of silver cord.

Of the organizations competing in the parade the 1922 Study Club of Floydada won first, F. H. S. Senior second and F. H. S. Sophomore Class third. In the Merchants' division Barker Bros. were given first place, Wilson Kimble second and Wood Bros. third.

Many firms, communities and organizations had planned to have cars in the parade but abandoned the project Friday night when it began to be evident that rain and cold would hamper Saturday's events.

### Fair Advertisers Pleased With Results Despite Cold

In spite of the cold weather Friday night and Saturday retailers of Floydada who took space in the tent on the fair grounds, enjoyed a good advertising patronage and declare themselves pleased with the results. C. H. Brazier, of Brazier & Arvine, druggists, declared it was one of the best advertising methods their store has used since their opening in Floydada. Theirs was a unique plan. They distributed a large variety of samples of their lines of merchandise, giving their visitors a large shopping bag to carry the samples away in. "We had a steady flow of visitors in spite of the cold the second day, and were fortunate in making a number of acquaintances whom we had not had the pleasure of serving before," Mr. Brazier said.

Baker-Campbell Company featured their RCA line of radios and their loud-speaking devices to be used in connection with phonographs, borrowing one of the latter from B. & A., for the purpose. While radio stations were broadcasting the radio was receiving entertainments and in the intervals between the phonograph was connected to the amplifier with "a twist of the wrist." Roy Baker, who had charge of this exhibit, said the registrations ran into the hundreds both days.

Barker Bros., Ford and Fordson dealers, and Callaway Motor Company Buick dealers had automobile displays and registration desk at the fair tent. Both reported lively interest. Barker Bros. gave souvenirs to visitors.

Star Cash Grocery and the Texas Farm Bureau Cotton Association also had booths in the advertising tent. The

south side grocery firm had on display their best advertised lines of high grade groceries.

The Farm Bureau Cotton Association featured a display of the various grades and staples of cotton. It was in charge of Mr. and Mrs. J. Frank Triplett, of Hale Center. Mr. Triplett is field director for the association. "Although Saturday was a bad day, we had many interested visitors at our booth, and think we accomplished some good. The fact that a number of in-town as well as out-of-town people saw and studied the samples shown, indicates the widespread interest in cotton in Floyd County," Mr. Triplett said.

G. C. Tubbs had charge of the Floydada Insurance Agency booth among the fair advertisers. Tracts and pamphlets, on various kinds of insurance sold by this firm, on fire prevention, and on the worth of means of protecting property and avoiding loss through liability. "The Agency of Service" was well repaid for their time, and trouble, Mr. Tubbs said.

All the fair advertisers were delighted to have had a part in making the fair a success, they declared, and are ready to sign up for the 1927 show.

Mrs. J. W. Childers, of Abilene, is here for a visit with her daughter, Mrs. Dora Reagan. She is accompanied by her daughter, Miss Rose Childers. They will spend a short time in Amarillo and the panhandle oil field before their return home.

Mr. and Mrs. J. T. Howard accompanied by Miss Florence Green, of Amarillo who is their guest, attended the Tri-State Fair in Amarillo, Wednesday and Thursday.

This week we have just about finished—shelving a complete stock of 'Men's Wearing Apparel' from "Walk Over" shoes to Stetson Hats.

We'd suggest you come here and dress, whether for picking cotton or special dress-up occasions.
