New Law Firm.

A copartnership has been entered into between Judge Geo. F. Ingraham, Hon. V. E. Middlebrook, and C. A. Hodges, Esq. for the practice of law. The new firm will hold forth in the Ingraham building adjoining the court house and they will practice in all the courts of the State wherever the interests of their clients lie. Words of compliment and commendation upon the gentleman comprising this firm would be superfluous. They are all men of sterling integrity and high in the legal profession; a fact well known to the people of Nacogdoches and throughout the 2nd judicial district. We simply assert that there is nothing too good that we could say for them, and as space is limited we will have to omit superfluous words. We bespeak the greatest success for the new combination.

THE H. E. & W. T. TEACHERS.

Hold a Well Attended and Very Profitable Session.
From Saturday's Daily:

The teachers meeting in progress today at the Baptist church is an enthusiastic body of intellectual workers. A large number of teachers from all points on the H. E. and W. T. railroad are in attendance, and are all earnest in their endeavors to keep their high calling up to the highest mark.

Last night the assembly was called to order, and Supt. R. F. Davis delivered the address of welcome, voicing the hospitality and cordial greeting of the city in a graceful speech. The program was carried out as far as possible, and all the addresses were able, timely and instructive.

The teachers present were: A. E. Day of Center, W. H. Rushing of Center, J. B. Ramsey and Coke Odom of Timpson.

Principal H. M. Brown of Livingston.

T. J. Paine and Miss Linda Paine, Miss Nola Benton and Miss Gertrude Gibson of Lutkin.

Charlie Crocker of James, Shelby county.

Besides those named there was a large attendance of teachers of Nacogdoches county.

The session this morning was opened by Prof. T. J. Paine with an able speech on rural schools.

Prof. Marshall of the Nacogdoches University followed with a splendid talk upon the subject of county superintendency, which resulted in the adoption of a resolution that "It is the sense of this meeting that every county of over 2000 inhabitants should have an efficient county superintendent."

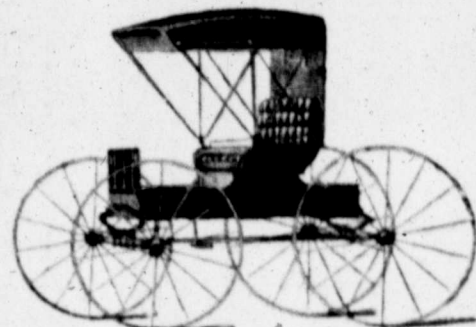

The trustee problem was discussed by the entire membership opened by Prof. H. M. Brown. Altogether this the second meeting of the Houston East & West Texas Teachers Association, has been a highly gratifying one, and the organization has proved itself to be of the greatest value to the educational interests of East Texas. Nacogdoches has never held guests more honored or more highly appreciated than the teachers of Eastern Texas.

We had a nice picnic at the Old Rocky Ford on the Loco, Saturday. The Sutton boys, Jes Burk and sister of Rocky Springs community, were there. We had a nice dinner which every one enjoyed. The "Moral String Band" were there and made the music. The girls got in very good practice shooting breach loading shot guns, as the boys would throw their hats up and let them shoot at them. Miss Effie Martin was the only one that could hit a hat. She shot a large hole in Jes Burk's hat.

Little George Parmelly fell in the Loco but got out all O. K. saying that he was hunting for the earth while he was in there.

We country people will be glad when the city people have the Karnival, as we enjoy seeing it.

We had a musical entertainment at D. A. Risinger's residence Saturday night. Mrs. Risinger had a lot of nice cake passed around for refreshments.

LEON AND MADISON

Good Reports Come From These Counties.

Editor Sentinel:

Flo, Texas, May 9.—I am now, and have been for nearly four weeks in Leon and Madison counties selling fruit trees and feel like I was a good ways from home.

Have seen some fine country since leaving home. People seem to be doing well in this part of East Texas, and are working up to the importance of fruit growing.

Farmers have been put back, as in other places, but seem to be up and doing. So far some corn crops are looking very well, but some have had to replant their cotton.

The people in this part of the country seem to be kind and generous and some careful and glad to entertain strangers.

I find many religious people in this country and almost in every section you find a church and school house.

This speaks well for any country. Really every Sabbath since leaving home I have been able to attend Religious services and this has been very helpful and comforting to a stranger in a strange land. Think I'll come in about first or middle of June for a little rest. Wishing old Nacogdoches a prosperous year, I am yours very truly.

TENAH wants a bank.

EVERYBODY is warming up on the Karnival.

DISTRICT court will convene at Rusk on May 25th.

WE are on the threshold of Greater Nacogdoches.

PLATFORM demands don't count any more in Texas.

THE "Jersey Lilly"—Mrs. Langtry—is now a grandmother.

A COMPLIMENT passed with a sneer had much better never been uttered.

HAS anybody figured out "where we are at" on the school question?

EVERY citizen in Nacogdoches is invited to join the business league.

SPRUCE up and be ready for an introduction to "New Nacogdoches."

WE are gratified that the Carthage Mule is now wearing its head straight.

ARGUMENT prevailed naught with a fool. Pretty much the same with the mossback.

THE ladies are doing their part. That means undoubted success for the Karnival.

IT has been officially announced that the war in Honduras is definitely terminated.

NEW life has struck Nacogdoches and she is getting a natural move on herself again.

HOUSTON will raise \$2000 to be contributed to the general fund for fighting the boll weevil.

A NATURAL born pessimist wouldn't be worth a cuss to a business league, a carnival committee or anything else.

SHREVEPORT is enjoying a carnival this week in the form of a street fair, which The Times says is a great success.

THE Stone Fort City (with out the Fort) is just squaring herself for a sure enough "boom." Get your focus on her and watch her spread.

SECRETARY SHAW is again on a tour in the South and will spend some time in Beaumont where he owns considerable land in the oil district.

TOMATO growers should heed the suggestions of Sam H. Dixon in another column and apply the proper preventive without delay upon the first indication of the blight.

OWING to the fact that the Colorado crop of Irish potatoes has been exhausted and the Texas crop six weeks late, potatoes have advanced in price 50 cents a bushel in the Texas markets.

GOOD rains have fallen throughout the rice growing districts of Texas, and the prospects are very fine for a heavy crop. The rice growers are in high spirits over the present outlook.

THE BUSINESS LEAGUE.

The organization of a business league means more to Nacogdoches than some seem willing to admit, and it is deeply regretted that an adverse spirit has been shown toward it. Whether such a spirit is the promptings of jealousy or from sheer contrariness we are unable to say, but it certainly cannot be from any good reason that may be urged against the organization. One prominent man declined to sign his name to the list because he thought he might differ with the executive committee as to what was the best for the interest of the town; one man sitting himself up as a superior to the twenty who constitute the executive committee. We have heard several others say they would not sign themselves as members of the league because a "hand full of fellows met and elected themselves to the offices" and did not invite them. We hear a great deal of such stuff and nonsense. This is no time for making a great display of our littleness. We must all work together in the spirit of harmony and for the general welfare of the community. If you don't like the committee, get together and elect a new one. It is the committee that will be expected to bear the heaviest burden. Any one who is anxious to relieve some members of his share of the responsibility can doubtless find a place on the committee. The seventeen men who met and organized the league, and fixed the by-laws, limiting the executive committee to twenty members and assessing each member of the committee one dollar a month for incidental expenses, felt it their duty to "show their faith by their works" and they subscribed their own names to this obligation and relieved all other members from any assessment whatever. If there is anything selfish in this we would like for someone to point it out. The move had to be made. Somebody had to start it. Seventeen men, representative citizens of the town, met almost casually and made the start. Now, because you didn't happen to be one of those seventeen are you going to sulk and pout and refuse to lend strength to the move by simply signing your name to an obligation to uphold the committee in its work? It is only your moral backing that is asked. You are not asked for a dollar. You are only asked to work and talk for the town and to promise not to say or do anything that would injure it. That's all there is to it. Withholding your name will not deter the league's efforts. There are others besides you, who are in harmony with the move and who are broadgaged enough to see the good intentions of the "self elected committee." They can see far enough in front of their noses to understand that the whole membership can elect the executive committee hereafter. They can see and appreciate the urgent necessity of a business league and they are glad of an opportunity to encourage its

organization. They want to recover what the town has lost and build it up to greater proportions. They realize that the "tide in the affairs of Nacogdoches, which taken at its flood leads on to fortune" is now present and if ignored may never return. Opportunities are presenting themselves thick and fast and there is too much to be done for any of us to stop to quibble. Let's be up and doing. All hands take hold. Get in the push and make a full hand. A business league may accomplish results that may not be attained through any other influence. Wherever there is an organization of this kind capital and enterprise is attracted. It puts a town in touch with many enterprises, industries and institutions that would otherwise pass us by unnoticed. It's a good thing. Help push it along.

GOV. LANHAM has undertaken to shave a million dollars off the general appropriation bill. He will have to use the pruning knife pretty freely to lop off so large an amount.

THE Great Council of the Improved Order of Red Men, Reservation of Louisiana, will meet at Shreveport on next Tuesday, May 12th. The Great Council of Texas Red Men meet the same day at Austin.

IT is now proposed to encircle the globe in forty seconds through the combination of the postal telegraph and the new cable to the insular possessions of the United States.

A BIG coal syndicate has been organized to get possession of 440,000 acres of coal lands in the Choctaw nation now belonging to the Choctaw Indians. H. C. Frick, John W. Gates and George Gould compose the syndicate.

MARK HANNA thinks Roosevelt will be the republican nominee for president next year, and says he would not be surprised to see Grover Cleveland the bearer of the democratic standard. Strange things do happen in politics and Hanna may have good grounds for his guesswork.

WE presume that every loyal citizen of Nacogdoches will readily sign his name to the Business League and thus take upon himself an obligation to keep his tongue still when he can't say something good for the town and vicinity. To some folks that might be a great sacrifice, but not to the true, enterprising, loyal citizen.

THERE is quite a large list of traveling shows that usually attend carnivals and street fairs now in Shreveport. Some of them might make desirable attractions during our Karnival, and lend a good deal toward helping us out on the revenue necessary to defray expenses of the Karnival. One special attraction is a trained animal show. There is also "The Stadium," which is a small sized circus, which The Shreveport Times says is an "attractive card."

THE Tenaha New Era says the editor of the Carthage Mule has fallen from grace. If he only fell the height of his mule, we guess he isn't hurt much.

DON'T "but in" if you are not willing to bear your share of the burden and responsibility. Nacogdoches needs something besides advice right now.

WHEN the T. & N. O. begins running through trains we will have the Dallas morning News in Nacogdoches at noon. That will be nice, won't it?

THE lives of twenty people were lost in a collision off Norfolk, Va., between the steamers Saginaw and Hamilton, in which the former was sunk on the night of the 4th. The density of the fog was the cause of the accident.

UNDER the head of new and strange things in St. Louis "the Post Dispatch" has an illustrated article on how to tell boiled eggs from raw ones. Texans have never seemed puzzled over this simple matter, but then Missourians have to be showed so many things.

IF you don't want to join the Business League don't do it; but for decency's sake quit growling about it. If the league does you no good it can certainly do you no harm. You needn't get mad because you are asked to join.

ANOTHER prohibition election in Angelina county will be asked for at the next term of the commissioners court of that county. It is generally understood that a petition will be presented for the same purpose at the next term of the commissioners court of Nacogdoches county.

IF all plans succeed there will be a third more people in Nacogdoches during the approaching Karnival than there were last. Brush up your spare room and put out an extra cot or two for the accommodation of the visitors. Sleeping places will be in great demand. Even ladies had to sit up all night during the last Karnival. Lets see that it don't occur again.

LET us increase the membership in the Business League to at least one hundred so we can make a big showing Friday night, on which occasion the League will be addressed by Mr. Tom Richardson of New Orleans on behalf of the Four States League. Mr. Richardson is an eloquent speaker and it is hoped that everybody in Nacogdoches will be present to hear his address.

THE first case to be appealed on the grounds that a juror had not paid his poll tax has been carried up from Houston. A great deal will depend upon the decision of the appellate court and the case will be watched with interest. The case in question is that of Jim Carter, colored, who was convicted in the district court of Harris county on a charge of criminal assault and was given 25 years in the penitentiary in each of two cases.

IF the new Mrs. Wm. K. Vanderbilt really looks like her picture in some of the papers, it is no wonder that his marriage is "the surprise of the year in society."

THE acousticon is a new invention, or rather an improvement upon former inventions for the aid of those very hard of hearing. It is said to be far superior to any instrument heretofore in use.

GARRISON, hitherto fortunate and harmonious in the administration of her school affairs, seems to have engendered some discord recently and things are not as smooth as they once were.

CROCKETT is after a cotton mill with prospects of success. The Nacogdoches Business League is reminded that there are twelve cotton mills to be erected in Texas this year, for which sites are yet to be selected.

GROVER CLEVELAND is regarded as a presidential possibility in the North and East, notwithstanding his frequent declaration, that he is out of politics. So far we have Parker, Olney, Hearst and Cleveland to draw from. They are not exactly "four of a kind," either.

IT wont do to tamper with the mail boxes on the rural free delivery routes. A fellow has just been sent up for two years from Lamar county for shooting into a box on one of the routes leading out from Paris. Any violation of the postal laws brings Uncle Sam's detectives to the spot and they never let up until the culprit is caught and punished. It is just as hazardous to shoot into a mail box as it is to break into a postoffice.

THE members of the executive committee of the Texas boll weevil convention and the State Ginners' association have combined to fight the boll weevil, and will also have the cooperation of the Galveston Maritime association and the Houston Cotton Exchange. A vast amount of literature will be distributed throughout the weevil infested districts, and much efficient work is expected to be accomplished. There are 27 weevil infested counties in Texas, producing an average of 1,894,768 bales annually.

WM. PICKINS, a brilliant negro, who won the junior exhibition prize at Yale, is at the head of a scheme to effect a conquest of the Island of Hayti by American negroes and set up a Utopian Government. The government is to be republican in its political formation, but is to be administered as a gigantic corporation of which all members of the society are to be stockholders. Agriculture, manufacturing, and all other profitable industries are to be encouraged. Public schools are to be established and liberty is to be widespread, but the rights of each individual are to be bounded by the rights of every other. It will be an ideal government if carried out and the project will be watched with interest if undertaken.

The San Augustine Visitor has a little streak of brimstone in it this week. Keep cool, boys. Life is too short to harbor ill will, even if you have been badly treated. Just turn the other cheek, smile pleasantly and go on.—Timpson Times.

And there really is a paper published in San Augustine. We haven't "saw" a copy of The Visitor in more than six months and we had mourned it as dead.

THE cold snap of the last days of April and first of May registered the lowest temperature recorded by the weather bureau at Washington within the past thirty years. Freezes and heavy frosts in many sections of the country caused much damage to crops.

Nacogdoches has at last that business league for which the local papers have long been straining their jeans. The question now is, "what will she do with it?"—Orange Tribune.

O, she will find plenty to do—with it.

WHILE is urged that Nacogdoches has fallen short something like four or five thousand bales in her cotton receipts this season, as a result of trade being diverted to other points, it must be remembered that Nacogdoches county is short fully four thousand bales in her product of 1902. She is holding her own, to say the least of it.

LOOK OUT FOR MALARIA.

An epidemic of Malaria is sure to follow the wet season and the high waters which have prevailed all over the South. Malarial and kindred fevers will develop to an alarming extent. General health conditions will be bad; every precaution should be taken.

The System Must Especially Be Fortified to Resist Malarial Attacks.

A trial of fifty years has demonstrated that for this emergency, Dr. Harter's Iron Tonic has no equal. Iron is the fighting element in the blood, and the kind of iron supplied by Dr. Harter's Iron Tonic is just the kind the system requires to successfully combat malarial conditions. Don't wait until you are attacked. Take it now and fortify yourself; it is an absolute safeguard and, at the same time, it is the best tonic and invigorant for the entire system. On the other hand, quinine disturbs the system and its cumulative poison begets greater physical troubles than those it is employed to remedy.

Where a bad case of chronic Malaria already exists, take **DR. HARTER'S FEVER AND AGUE SPECIFIC**. It is guaranteed to cure. Price 50 cents. **BUT IF YOU WILL**

Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by this tonic effect, fully restore the wasted tissues and gives strength in place of weakness. 50c at Perkins Bros.

Dissolution Notice.

Nacogdoches, Texas,
May 7, 1903.

To whom it may concern.
Notice is hereby given that the partnership heretofore existing between A. B. Martindale and C. C. Gallaway, under the firm name of A. B. Martindale Lbr. Co., is this day mutually dissolved, W. Y. Garrison purchasing the interest of A. B. Martindale.

All debts owing by said firm are assumed by C. C. Gallaway & W. Y. Garrison, and all accounts due said firm are payable to said firm, C. C. Gallaway & W. Y. Garrison.

R. W. HALTOM, EDITOR

THE town is full of music and harmony.

THERE will be something doing all the time in Nacogdoches from now on.

GROVER CLEVELAND is not talking politics this week. He has gone a-fishing.

THE coast country was visited by a gale Sunday night and Monday, accompanied by a two inch rain fall.

THE flower parade will be complete and magnificent in its grandeur. We trust the trades floats will not come up short.

BULLY for Nacogdoches! She has got a razorback move on her, but it is no wise suggestive of either razorbacks or mossbacks.

THE Timpson Daily Times has four advertising patrons. We hate to say what we think of a newspaper man that will run a daily in a town like that.

THE government had just as well "cut out" the rural free delivery routes in the South as to appoint negro carriers. A demonstration has already occurred in Tennessee that proves that.

PRESIDENT ROOSEVELT spent Sunday at Monte, Cal., two miles from the nearest city, and unhampered by curious crowds. He had a day of genuine rest. So did the readers of the newspapers.

AS a result of the Rock Island deal, it is stated that many changes will occur among the officials of the H. E. & W. C. and H. E. & W. T. Rys., but they will take place in the line of promotion only.

THE croakers have ceased to croak and the pessimists have ceased to pestle, and the air is full of harmony hereabouts. It almost makes a fellow feel like turning on a regular old fashioned camp-meeting shout.

AN anarchist was sentenced to fifty days in the chain-gang in Tacoma, Wash., for drinking a toast to "the noble and great man who slew President McKinley." Such blood thirsty vermin should be sentenced to confinement for life.

THE atmosphere around Nacogdoches is not congenial to mopes and drones these days. They can't tell where they are at and they don't feel comfortable. They are lost in the procession and are being jostled about until they have sore places from head to foot.

AN exchange has discovered a "real boy wonder." All boys are wonders in one way or another—to their parents at least, but the only genuine boy wonder is one who will bring in stove wood and run errands without a murmur. He has never been discovered, and till he is, the papers may call in their prodigies. They are counterfeit.

ATTRACTING ATTENTION.

Nacogdoches is now the focal center of the "outside world." We are being talked about and written about everywhere, and many letters are received by our people from friends and relatives abroad, tendering congratulations and expressing gratification over the rapid progress of this section. Among the many communications of this character, we beg to reproduce the following from Dr. W. A. Watkins, of Kemp, Kaufman county, who is a native of Nacogdoches county, and still holds this section in high reverence and kindly remembrance:

"Editor Sentinel: Through the courtesy of one of our relatives of your city, I am reading your daily, and rest assured that I peruse its columns with no small degree of interest. In the life of every one, the mind naturally reverts to the scenes of childhood, consequently my thoughts on reading the Sentinel carry me back to Nacogdoches, where through kind providence I first saw the light of day. These thoughts to me have a two fold capacity, and renders the very name of Old Nacogdoches doubly lasting and dear. It was here my Sainted father, the Rev. R. O. Watkins, began his ministerial life, and under the old hoary oaks for which your section of country is famous, preached and persuaded men and women to a high and better life over a half century ago. In your country he had many friends of long ago I would like to meet. He is now gone to his reward, and it would seem superfluous to speak of his many virtues, but I will say as Goldsmith did, 'his failings leaned to virtue's side.' How grand is the consummation of such nobility of character. Nacogdoches, aside from its charming association, has historical reminiscences that render it dear to old Texans—for the father of Texas' Republic, Gen. Sam Houston, long lived in this town. The same can be said for that noble, wholesouled man, Gen. Rusk, the author and inventor, while in Congress, of the postage stamp.

Nacogdoches may have been, like Pompeii, smouldering in the ashes of the past. She is now being fostered to an impulse that, like a developed giant, will lead her on to Moral, Educational and Financial Grandeur. You can't down the spirit and lives of those of your citizens, whose ancestors gave it such history. Nacogdoches will come to the front. Your Karnival, now in contemplation, is being talked about all over Texas, and the heart of every old Nacogdoches citizen, living in various parts of the state, look longingly towards the Historic town, and many of them are coming, since the completion of the T. & N. O. gives easy access from the North-west. Other little pretentious towns in East Texas may in a spirit of derision say the old town is dragging and her spirit is gone, but the citizens of all wide awake towns all over Texas know that the natural resources in and surrounding

her will, through the indomitable spirit and energy of her citizens force her to the front—where she properly belongs. All honor to old Nacogdoches. She has friends all over Texas and the great prairie country that are rejoicing over the prospects of her transcendent prosperity. Her friends are coming to your Karnival."

THE Timpson Bulletin has ceased to fight the battle of life and has turned up its pink toes. Timpson still has papers to spare, judging from the advertising patronage they get.

THE governors of Mexico, have united in the determination to prohibit prize fighting on Mexican soil. The days of the pugilist is numbered in this mundane sphere and he will have to seek some other planet or go out of business.

THE cotton raisers of Wall street are handling cotton by the millions and the cotton gamblers are having a high old time. Cotton has gone up like a sky rocket but there is none in sight. The farmer is planting cotton while it is at 11 cents and will gather when it is 6 cents a pound.

THE business league has already done a whole lot for Nacogdoches by the attention it has attracted abroad. It places Nacogdoches in line with those cities that have similar organizations, and places Nacogdoches' banner at high mast to be seen by the world from every view point.

JETT, the alleged slayer of J. B. Marcum at Jackson, Ky. has been captured without bloodshed. His submission to arrest without resistance was an agreeable surprise to the sheriff and posse, who expected a hard fight with him. The complaint charging Jett with the murder of Marcum was sworn out by Jett's uncle, against whom Jett is swearing vengeance from behind the bars.

"THE Conjurers House," by the author of "The Blazed Trail," is one of the most absorbingly interesting of the new books. The plot is laid in a new country, "A land where the shadows fall crimson against the snow," and so thrillingly is the story told that it is as well not to begin the book with work on hand waiting to be done; for it will not be laid aside until "La longue traverse"—the journey of death—is turned into the journey of life—taken together by the Free Trader, and the Factor's daughter.

THE people of Gallatin, Tennessee, are stirred up over the appointment of a colored carrier on a rural free delivery route and have threatened him with death if he continues in the service. The matter has been reported to the postoffice department and the route has been suspended. This begins another chapter in the race troubles which might have been avoided but for the determination of the administration to force the South to submit to the Roosevelt policy of placing the negro on equality with the whites.

FOLKS whose motto is "Don't do nuthin for nobody that don't do nuthin for you" will feel mighty lonesome around here now, while nearly everybody is doing his best to help everything and everybody by building up the country generally and the town especially.

THE spirit of the Karnival has taken complete possession of Nacogdoches. In every house the flowers are being manufactured, all the conversation is on the subject of floats and carriages, every horse on the streets is looked at critically to decide if it would look nice drawing a flower parade. turn out. At night the "box of monkeys" are rehearsing, horns in every quarter tell of bands, and on the street "Whar he?" "Whar who," betray member of the members of the minstrel troupe looking each other to come practise. The person who is not interested and helping in some way if its only talking, might as well be in China; they are so far out of touch with the prevailing spirit.

THE Timpson papers are constantly parading Timpson's enterprise and public spirit before the reading public, but they had just as well to quit it. When the reader glances at their advertising columns he simply classes their editors among the chiefs of colossal liars. Bros. Ford and Carter can't make anybody jealous of Timpson as long as their advertising columns resemble the arid regions of the west. Timpson sits herself up as a rival to several neighboring towns around, but can't cut much ice abroad as long as she sends out her newspaper looking like "five cents worth of dirty ice" compared to those of her imaginary rivals. We merely give this to Timpson as a tip. It is no reflection on her newspaper men.

"OUR friend, the enemy" is an old military toast and a good one. If a person contemplates stepping off the straight and narrow path, he knows that his friends will condone his faults, while his friend the enemy will make it hot for him. If he neglects his business, his friends will trade with him any how, but his friend, the enemy, will set up an opposition and take all his other custom away; so he works. Nacogdoches has many friends among other cities, friends who know that the town is not in the least dead because it was resting, and so it rested, but behold, her friend the enemy got to talking that bank failure, fires, flood and misfortunes had wrecked her future. The results is that everybody in the city jumped up and got a lively move on. The Karnival is on, improvements on foot, the rain came when needed, and there is a general awakening of prosperity. Here's to our friend, the enemy; may it live long and prosper enough for us to hustle to keep a head, for Nacogdoches is going to keep ahead.

Nacogdoches has got a business league to push its interest. And a Sentinel to guard them.—Houston Post.

THE prohibition election will not be held this summer. Only one petition of 89 signers were filled at this term of commissioner's court. It came from Melrose which is already a local option precinct. It requires 250 signers to secure an election for an entire county.

Palestine and Nacogdoches are both preparing for Carnivals to be given this summer. It's about time for Jacksonville to shake herself and see if something of the kind can't be gotten up here.—Jacksonville Banner.

We are expecting a "carnival" of fruit and tomatoes when the press gang gets there in June.

The Tyler College has in actual attendance 350 pupils, and this school is only three years old. This is a record breaker in Texas.—Tyler Courier.

We don't know. The East Texas Business college of Nacogdoches has 35 pupils and it is only two months old. At this rate it will have 720 pupils when it is three years old.

It is reported that Lufkin is soon to have a daily paper, Lufkin is a good town and will do her best to sustain the paper, but the fellow that starts it had better have a few dollars laid up for a great many rainy days. It takes about three years to get a daily paper on its feet and then another year or two to get it started.

THE Truck Farmer wishes to draw attention to the fact that sandy strawberries are too often sent from other points besides Louisiana, to the injury of the strawberry market; and yet this need not be, if the growers only knew how, or cared if they do know; why are they called strawberries? The botanical name is Fragaria, and the name straw is suggestive, and means that the plant should be mulched with straw, straw hay, leaves, or cotton seed hulls, on which the ripening fruit could lie and be protected from the rain dashing the sand upon the fruit, and also prevent the wind storms lifting the sand and sweeping it over the fruit. Strawberries so protected will always command better prices and pay well for the extra work of mulching.—Dallas Truck Farmer.

It is estimated that in the last decade over \$10,000,000 has been invested in meat packing plants in the South exclusive of small butcher shops and local slaughter houses in various Southern communities. Three big meat packing companies are said to be looking for sites for new plants to cost approximately \$5,000,000 more and it is claimed that at least two of these plants will be located in Texas. According to the last census Texas had nearly one-sixth of the cattle in the United States and about 3,000,000 of the 63,000,000 hogs in the country. The packers have come to the conclusion that it is easier to move the plants to the source of supply than to ship cattle, hogs and sheep long distances to market. More prosperous times for the stock farmer in the Southwest will follow as a matter of course.—Farm and Ranch.

KARNIVAL NOTES.

The management has closed a deal with the Lufkin band to assist us with music.

There have been entered up-to-date 18 buggies for the procession. It is safe to say we will have 40 decorated buggies and carriages in the procession the first day. This is twice as many as ever before.

Arrangements have been made by which we will have a free clay pigeon shoot by local and visiting "shooters" on the second day of the Karnival at 10 o'clock a. m. The management is figuring on getting some expert shots and have in connection with this an exhibition shoot.

Parade, first day:—Start at depot; up Main street through square to Church street; thence up Church street to Hospital street; thence west to North street; thence North on North street to Rusk avenue; thence east to Mound street; thence south on Mound to East Main street; thence west to square. Disband.

2nd Day:—Start at Banita hotel; up Pillar street through square; thence east on East Main to Bois d'arc; thence south to Pillar; thence west on Pillar to Church street; thence north on Church to Colledge grounds; thence west to Fredonia; thence north to Mims avenue; thence west to North street; thence south to Main; thence East to square. Disband.

3rd Day:—Start from the depot; up Main street through square to Mound; thence north to College grounds; thence west to Fredonia; thence north to Ratcliff avenue; thence west to North street; thence south to Hospital; thence east to Church; thence south to Main; thence west to square. Disband.

The smaller dailies and the rural press should begin at once to demand that the Democratic party in its next platform repudiate the Republican Philippine policy and declare for a republic in the Philippines. The country is heartily sick of our Philippine experiment.—Tyler Democrat and Reporter.

Why omit the larger dailies? But why make any platform demands at all? Judging the future by past experience, platform demands count for very little or nothing with democratic administrations.

WE would like to have a letter from each member of the East Texas Press association, giving the views of the writer as to when and where the June meeting shall take place, or whether or not it shall take place at all. As "hold over" president we presume it will be incumbent on the editor of the Sentinel to call the meeting, and he is desirous of complying with the wishes of the majority of the members. At present we are undecided as to whether to call the convention or go fishing with Bro. Bacon up on the Sabine. He seems to be the only one interested so far.

ANNUAL DECORATION DAY.

Knights of Pythias Hold Beautiful and Impressive Services.

From Monday's Daily:

Every year when spring carpets the earth with flowers the Knights of Pythias wreath the last resting place of the brothers who have passed before them into the world of shadows, with the fragrant emblems of immortality.

Every year the custom grows in beauty and takes on a new and deeper meaning as the Knights honor and remember their sleeping brothers.

Yesterday was an ideal day and nearly all Nacogdoches was at the cemetery as the long procession marched from the hall to the cemetery grounds.

First came the band leading the way with the minor cadence of the funeral march, followed by the flower girls dressed in white and the K. P. colors. Then followed the Knights under their crape draped banner and each carrying masses of flowers.

The services at the cemetery consisted of the Chancellor Commander's oration, a song, the invocation. Then followed the decoration, when to the soft music of the band the Knights passed around each grave and left it as a mound of flowers. Assembling again in order a song followed by an invocation closed the exercises; the Chancellor Commander declaring the ceremony completed and the procession marched to the hall and disbanded.

The Rathbone Sisters carried

flowers and decorated the grave of their only missing sister, Miss Augusta Ray. It was a beautiful thought and affitting tribute on the decoration day of the Knights of Pythias.

The abundance of the most lovely flowers, the beautiful music, the perfect delivering of the oration and the invocations, which are master pieces of pathos, and the perfect weather placed the decoration services of yesterday among the most impressive ever held.

All itching diseases are embarrassing as well as annoying. Hunt's Cure will instantly relieve and permanently cure all forms of such diseases. Guaranteed. Price 50 cents.

E. M. Weeks has let the contract for his new residence to be built beyond the college on the Logansport road, to W. H. Rulls.

A carload of crates has been received for local truck growers, and in a short time they will be going North, filled with tomatoes and such like. —Timpson Times.

When that car load gives out Nacogdoches can furnish you another one.

Strength and vigor come of good food, duly digested. "Force," a ready-to-serve wheat and barley food, adds no burden, but sustains, nourishes, invigorates.

THE BUSINESS LEAGUE.

A Full Attendance at the Meeting Last Night.

From Saturday's Daily:

There was a full attendance of the members of the Business League, and a goodly number of citizens, who were not members, at the meeting last night at the office of Lindsey and Harris, held for the purpose of hearing the address of Mr. Tom Richardson, of New Orleans. Mr. Richardson's talk was confined to the subject of organizing business leagues, commercial clubs, etc., showing the great importance and necessity of such organizations in every community, town or city desiring to keep pace with the progress of the times. His remarks were instructive and were listened to with close attention and a keen interest. After speaking generally of local organizations, Mr. Richardson explained the objects and aims of the Four States Immigration League, in the interest of which he is traveling, and in which it is desired that all local organizations shall become members. Following Mr. Richardson, Messrs Sam H. Dixon, F. W. Malley, and Mr. J. S. Welch, of Alamogordo, New Mexico, material agent of the Denver Northwestern Pacific Ry., each made short and appropriate talks.

Chairman E. C. Branch and other citizens present responded to the speeches of the visitors with fitting remarks.

The league then went into executive session and a general discussion of plans and policies for future action was

entered into. On motion, it was decided to open the list for membership in the League leaving it optional with each member, outside of the executive committee to pay one dollar a month dues.

The following new members were added to the roll:

J. H. Summers,
R. T. Shindler,
Giles M. Haltem,
T. J. Stack,
J. W. Ireson,
T. J. Williams,
E. B. Williams,
C. A. Jones,
J. S. Doughtie.

On motion, the League accepted the invitation of Mr. Richardson to become a member of the Four States Immigration League, and the Secretary was instructed to remit five dollars to Mr. Richardson as annual dues for the year 1903 to said League. On motion F. H. Tucker was elected as a committee of one to solicit membership in the Nacogdoches Business League.

On motion a vote of thanks was extended Mr. Richardson and the other visiting gentlemen present for the interest shown in behalf of Nacogdoches and the splendid addresses delivered on this occasion.

There was an unusual amount of interest exhibited at this meeting and there was not one present who did not pledge his best efforts to carrying out the purposes for which the League was organized. All see the importance of organization, harmony and concerted action on the part of the citizens of Nacogdoches, and

Selling Out

Our president, Mr. R. C. Shindler, having decided to retire from the Drug business and apply himself exclusively to the

Optical Profession

We have decided to place our entire stock of Drugs, Patent Medicines, Stationery, Soaps, Perfumery, etc., at

Greatly Reduced Prices.

As long as the stock lasts, the sale will be without reserve, both wholesale and retail; and interior druggists, merchants and physicians will do well to call on us before the stock is depleted.

We take this occasion to heartily thank our customers and friends for their patronage.

Respectfully,

Nacogdoches Drug Co.

every individual present went forth with renewed inspiration and with a determination to do something for the general good of the town and county. It is hoped and believed that the meeting last night had the effect of allaying all discord that may have possibly arisen through a misconception of the committee's motives and intentions; and that within a very short while every individual in Nacogdoches will be shoulder to shoulder with all other members of the League in one grand pull for the accomplishment of the grandest results and the greatest good that could possibly be desired in the advancement and upbuilding of this city and Nacogdoches county.

Singing Convention.

An effort is being made to get up a singing convention to be held at West End Institute in this city, and a meeting of the citizens will be held at said Institute, building on next Friday night for the purpose of considering the matter. All interested are requested to be present. Prof. J. R. Day and other prominent vocalists will be present. Don't overlook this matter, but be on hand at 8 o'clock next Friday night at West End Institute building.

R. W. HALTOM, Editor

THE town is full of music and harmony.

THERE will be something doing all the time in Nacogdoches from now on.

GROVER CLEVELAND is not talking politics this week. He has gone a-fishing.

THE coast country was visited by a gale Sunday and Monday, according to a prospector of Melrose, is a day today.

THE R. Holman, Supt. of construction on the T. & N. O. Ry. spent yesterday in Nacogdoches.

Mr. J. R. Hobbs and daughter, of Woden, were in the city today on a shopping tour.

Mrs. Pleasant and daughter Miss Willie May, of Attoyac, returned home this afternoon after a visit of a day or two to Mrs. Dick Hall.

S. Koppel, a former citizen, of our city and now with Ed Kian, of Houston, was in the city today shaking hands with his friends.

The ball game yesterday at San Augustine between San Augustine and Jasper resulted in a score of 5 to 4 in favor of Jasper.

Mr. Tom Melton who has been visiting relatives in Nacogdoches and Melrose, left for his home in Alabama yesterday afternoon.

T. B. Baldwin, (Dick Naylor) traveling representative of the Dallas News, spent last night in the city. He left this morning on the Beaumont train.

Col. A. B. Martindale, of Cushing, was in the city today on a business trip. He has severed his connection with A. B. Martindale Lumber Company, his successor being W. Y. Garrison. The new firm is now styled Galloway & Garrison.

Tom Pate, the cattleman, who lives in the middle of the big oil fields or woods beyond Oil Springs, was here today. He says there is an oil well being sunk on the Kuykendoll survey about a mile from his house. This well is now about 1000 feet deep and still going deeper. Several veins or pockets of oil have been passed and indications are good. No water has been struck.

The Nacogdoches people who attended the San Augustine picnic and ball on Tuesday, returned yesterday and today. All enthusiastic in their praises of the hospitality displayed, and the fine time they had. A tremendous crowd was present, over four hundred excursionists coming in on the Beaumont railroad. Among prominent visitors present were John H. Kirby and S. B. Cooper. The ball at night was an elegant affair. Altogether the Red Land city has cause to be proud of the entertainment and to feel that credit is reflected on the town by the successful management.

ATTRACTING ATTENTION.

Nacogdoches is now the focal center of the "outside world." We are being talked about and written about everywhere, and many letters are received by our people from friends and relatives, of Chicago, tendering congratulations today.

Overall of Douglas, the rapid town this morning.

Mrs. W. H. Harris, who has been quite ill for the past two weeks, is able to be up.

Robt. Hall, of R. H. Hall & Co., of San Augustind, is in Nacogdoches today.

The carpenters say that work is picking up a little in Nacogdoches, a good sign of returning prosperity.

Mrs. Lizzie Nooner and her mother, Mrs. Wilburne of Mahl, are in the city today and were pleasant callers at the Sentinel office.

Miss Lola Brown of Martinsville is taking a course in the East Texas Business college. Miss Mattie Falkner has also begun a stenographic course this week.

Mrs. John P. Davidson returned yesterday from Melrose and neighborhood, where she has been visiting relatives and friends the past week or so.

Mrs. F. A. Durst left yesterday for Woodville, where she will spend a few days visiting a friend, but will return to Nacogdoches before returning to her home in Tyler.

Mrs. C. W. Doughtie, of Meridian, Miss., is visiting Capt. and Mrs. Jno. S. Doughtie, of this city. Mrs. Doughtie is accompanied by her sister, Miss Jessie Nance, who is on her way to Birmingham, Ala., to attend school.

A seven or eight year old daughter of W. E. Davis fell yesterday afternoon and broke her arm about half way between the shoulder and the elbow. Surgeons set the broken bone and the little unfortunate is doing nicely.—Timpson Times.

Judge H. W. Barclay of Cleburne, Texas, who has been here the past two weeks on a visit to his nephew, Hugh B. Davis, left this a. m. for his home accompanied by his sister, Mrs. M. V. Davis. They will stop three days with relatives in Houston before going to Cleburne. Mrs. Davis will probably spend the summer and fall in Cleburne and Whitney Texas.

Mrs. Lizzie Gardner was a pleasant caller at The Sentinel office this morning. Mrs. Gardner does not belong to the "new woman" class but she is strictly a business woman. She owns one of the best farms in the North Church neighborhood, which she superintends herself with greater success than the average farmer. She is not only a believer in diversification but practices it, and there are very few months in the year that there is not some kind of a money crop produced on her farm.

Progress in the Back Woods.

We are told that conditions have very materially changed on the waters of Kickapoo creek, which runs through Van Zandt and Henderson counties, and which forms a part of the boundry line between the two counties. Many years ago, and up to recent years, along the waters of this stream farmers used steel traps to catch hogs. The bottom was the home of the razor-back breed, and there was no such thing as overtaking this hog with dogs, hence the use of the steel traps when the farmers were short on meat. Finally the farmers were convinced of the advantage of slowing up the speed of the range hog, and he is now crossed with the Essex, the Berkshire and Poland China and traps are no longer needed.—Tyler Courier.

SHAKE
with us and let
us tell you some-
thing about the
care
eyes.

Mr. Shindler has been fitting eyes scientifi-
cally for several years and is not only a graduate
having all the latest instruments, his expe-
rience is large and his patrons have the benefit
of it without extra charge.

It is extremely sad that so many overlook the
fact that the eye is the most sensitive and deli-
cate of all the organs. The nerves that govern
the sight and the muscles of the eye are inti-
mately connected with the stomach, and of
course with all parts of the head. While head
ache and neuralgia are frequently the result of
other causes than eye strain, it is well known
by the medical profession that straining persons
or those whose occupation requires constant and
severe strain upon the eye are much more sub-
ject to headaches, dizziness and other like ills
than others whose occupation does not demand
constant use of the eyes for close work.

Bookkeepers, seamstresses, school children,
students of all kinds, artists, draughtsmen, es-
pecially if doing their work in a changing or in-
sufficient light, almost invariably suffer more or
less with headache, vertigo or other troubles
resulting from constant over-use of this won-
derful organ, and in a very large percentage the
strain can be alleviated, and in many cases en-
tirely relieved by glasses properly fitted and
adjusted.

The writer when a young man once had a sick
horse—a dragoon—was handy, and friends and
neighbors around, with helpful advice. One
suggested a remedy for colic, which was given,
but got sicker, another called for bots, and so on
and so on, and another sure cure, and so on
from drench to drench and the poor animal was
down, and with the best intentions, tormented
until he died, when probably if he had been left
alone he would have recovered, and no doubt an
experienced veterinary surgeon would have soon
brought him around, sound and well.

In the same way many persons go into a store
and buy a pair of spectacles, trying one pair
after another until they find a pair they can see
through, perhaps with one eye, sometimes with
both, and if the frames accidentally happen to
be the proper width, both eyes alike, the glasses
properly focused, the purchaser goes off and
recommends Jones & Co.'s spectacles as being
the best thing.

Other purchasers, however, find something
wrong with the spectacles bought of Jones &
Company, and as their eyes have been irritated
by misfit glasses, they either return them or go
away dissatisfied.

Now, what is a physician? He is not a doc-
tor, but a person who has made a careful study
of the refraction of the rays of light with the
purpose of correcting errors of refraction in the
eyes of those calling upon him. If he is intel-
ligent, experienced, patient and honest, and has
all necessary instruments for accurately measur-
ing errors of refraction, or in other words, de-
tecting the strain on the eyes, it is well to call on
him, as he makes no charge for examination,
and if glasses are needed, he will make pleas-
ure in explaining to you. In fact, he would be
the last man to recommend glasses, except
where a benefit would accrue to the wearer.

The writer finds his eyes benefited by the
constant wear of glasses, yet he assures all that
if he could get along reasonably without them,
he would not go in forty yards of a pair of
"specs," except to benefit someone who really
needed them, for a "consideration" or other-
wise.

All intelligent physicians, oculists and op-
ticians agree that no person reaches the age of
fifty years without having needed artificial aid
for perfect vision either near and at a distance.

One who has done without spectacles and can
read fine print without them at the age of fifty
or more, was short-sighted in youth, and still
remains so for distant objects. In our south-
ern country this error of refraction is rare, and
in many cases of this kind a diseased condition
of the eye exists, though not in all.

The most common error of refraction is Hy-
peropia, misnamed farsightedness. Many, like
the writer, reach manhood and early middle
age without discovering the trouble, but when
the headaches, dizziness and other worries that
might have been avoided by going to a competent
optician if such had been known thirty
years ago.

Persons suffering from this trouble frequen-
tly do without glasses until the age of forty, and
if the error is slight, perhaps forty-five, but if
their occupation demands anything like constant
use of the eyes at the near point, suffering en-
sues in proportion to the error, and the constitu-
tion of the sufferer.

Astigmatism is an error of refraction much
more common than Myopia or nearsightedness,
but far more common than Hyperopia, tho'
often combined with it, and strabismic persons,
or those compelled by their occupation to con-
stantly use the eyes for near work, and are
afflicted with either or both of these errors, suf-
fer more or less intensely according to their
temperament or the amount of error of refrac-
tion.

Strabismus, or crossed eyes, is usually the re-
sult of an error of refraction, which ordinarily
if taken in time, can be permanently cured by
properly fitted glasses.

A competent optician can correct with spec-
tacles all of the above troubles, which are not
diseases, and if expert in his profession can also
detect diseases of the eye, in which case he in-
variably advises the patron to go to the nearest
competent physician or oculist.

The object of this writing is to explain that
the optician while in no wise setting himself up
as a Doctor of eyes, or one who can operate on
or treat with medicine, diseases of the eye, or
eyelids, yet by his knowledge of refraction, or
diverting the rays of light by properly fitted
glasses can in many cases relieve troubles of the
eye that no physician or oculist could help, un-
less himself expert as a refractologist.

Mr. Shindler has just received a new Geneva
Ophthalmoscope, which enables physicians to
examine the eye for disease, without the use of
a dark room, and is an immense improvement
over the old-fashioned instrument. The pro-
fession are cordially invited to examine and use
it at any and all times.

ROBBERY AT LINN FLAT.

Burglars Secure A Good Meal in Cash
and Goods.

From Thursday's Daily:
The store of Mrs. H. E. Brewer at Linn Flat was bur-
glarized last night and a good
lot of goods and some cash
were secured. The robbery
was not discovered until day-
light this morning. Tracks
were found leading to the
woods and some of the stolen
goods were found where the
fleeing robbers had dropped
them in their hasty retreat.

The news of the burglary
was telephoned to Nacogdo-
ches at once and an engine
was sent down after Sheriff
Spradley and his dogs.

Sheriff Spradley left for
Traweek, the nearest station
to Linn Flat, at 10 o'clock
this morning with his blood
hounds, and it is very proba-
ble that the thieves will be run
down in a short time, as they
are evidently heavily laden
with stolen goods.

One or two doses of Bak-Ake
Specific will relieve kidney trou-
ble. One bottle guaranteed to
cure, by Stripling Hazelwood &

Fire at Mahl.

From Thursday's Daily:

Mahl came very near being
destroyed by fire yesterday
afternoon. Fire broke out in
the feed store of A. Chambers.
When discovered, only the
feed was burning, and men
rushed in, carried the burning
stuff out of the building and
put the fire out before it ex-
tended to the walls. As the
store was in the heart of town
it had taken fire Mahl
would have needed rebuilding
today. The men were pretty
badly scorched up, from
handling the blazing bales of
hay, but none seriously. We
congratulate our neighboring
city on her narrow escape,
and the presence of mind and
pluck displayed by her citi-
zens.

Disastrous Wrecks.

Carelessness is responsible
for many a railroad wreck and
the same causes are making
human wrecks of sufferers
from throat and lung troubles.
But since the advent of Dr.
King's New Discovery for
consumption, coughs and colds
even the worst cases can be
cured, and hopeless resigna-
tion is no longer necessary.

ter, Mass., is one of the many

POINTS TO TOMATO GROWERS.

Suggestions Concerning Treatment for
the Blight.

It is well for the tomato
grower to prepare to combat
the different insect enemies
which will soon appear to an-
nihilate the grower and destroy
the crop.

Last year I cautioned the
growers against neglect along
these lines. In many instan-
ces my advice was not heed-
ed. As a result the loss was
very severe. You cannot af-
ford to follow the course you
pursued last year. There are
preventatives which, if appli-
ed in time, will be very effec-
tual in destroying the chance
of these insect enemies to cut
short your crops. The ex-
pense is a small item compar-
ed to the benefit derived. Your
tomatoes are liable also to the
attack by fungus or bacterial
diseases. One of these trou-
bles brings about blossom end
rot and the other what is
known as "Tomato Blight."

The blight develops in the
succulent tissues of the plant
and is conducted through the
sap. When a plant becomes
infected the leaves begin to
wilt and finally the stem turns
yellow and the whole plant
shrivels and dies. Bordeaux
Mixture has been success-
fully applied as a preventative,
but after the plant has been
once attacked all remedies fail
to give relief, because exter-
nal applications fail to reach
the affected tissues. When
this trouble occurs the only
safe course to pursue is to de-
stroy all affected plants and ap-
ply Bordeaux on those not af-
fected. Do not wait for the
appearance of the rot, but ap-
ply Bordeaux often. I would
advise mixing with the Bor-
deaux 1 lb. to each forty gal-
lons, of arsenate of lead. This
is a mixture deadly to all in-
sect enemies of the tomato,
but harmless to the plant. Any
good sprayer will do the work
if an opportunity is given it.
I need not give methods of
applying. Full directions are
given with each sprayer.

The following is the well
known mixture known as Bor-
deaux Mixture:

For rots, moulds, mildew
and fungus diseases. Copper
Sulphate (Blue Vitriol) 6 lbs;
quicklime (good stone lime) 4
lbs; water 50 gal. Dissolve
the Copper Sulphate by put-
ting in a coarse cloth and
hanging in an earthen or
wooden vessel containing 4 to
6 gallons of water. Slack the
lime in an equal amount of
water.

I am authorized by Prof. F.
W. Mally, Garrison, to an-
nounce that he will furnish
each local association a copy of
his Bulletin on "Injurious In-
sects." Prof. Mally stands
ready to assist the grower in
stamping out the different
vegetable pests. He is co-
operating with this depart-
ment to this end.

Very respectfully,
Sam H. Dixon,
Pass. & Imp. Agent.

A Times reporter accom-
panied Mr. E. B. Rembert on
a trip to the coal mines yes-
terday, where we found a
force of men at work in the
mines and a general air of ac-
tivity pervades the whole
field. We learn that the ship-
ment of coal will begin in about
two weeks, and the manager
says that there is a brisk de-
mand for every ton that can
be mined. Coming back to
town, we visited the 15 acre
potato and canteloupe farm
of Rembert & Espey where
we found a beautiful field with
not a sprig of grass in it.
Mr. Rembert says he expects
to gather at least 2,000 bushels
of potatoes and the Lord

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up with out perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by Perkins Bros.
