Grass Roots Opinion

WAYNE, W. VA., NEWS: "Drinking and driving is the primary cause of traffic accidents . . . according to law enforcement officers all over the state. Everyone knows that alcohol and driving don't mix. Everyone knows that drunken drivers are a menace on our highways. Yet how often do you hear someone saying, 'Thanks, I'm not having any. I'm driving'? Instead you will hear otherwise intelligent men happily proclaiming their capacity before they crawl into their cars and weave on down the road."

EATON, COLO., HERALD: "I read in a Nebraska paper this week where they are thinking of changing the meat of the meal on Thanksgiving from Turkey to Potomac Trout. Seems as they are thinking thanks should be given to the government instead of to God, where it rightly belongs."

SELBY, S. D., RECORD: "Two can live as cheaply as one large family used to."

LA CROSSE, KAN., NEWS: "We believe that the public should not be hoodwinked on the true costs of an effective health program and if a sound, realistic program cannot be accepted by the public on its own merits it should not be imposed on them by the government.

COATESVILLE, PA., RECORD: 'As we recall those men and women who gave their lives that we might continue to enjoy freedom, let us muster the strength to carry forward their unfinished work. Let us not forget we must make sacrifice if we are to be successful in combatting the isms that would destroy us from within."

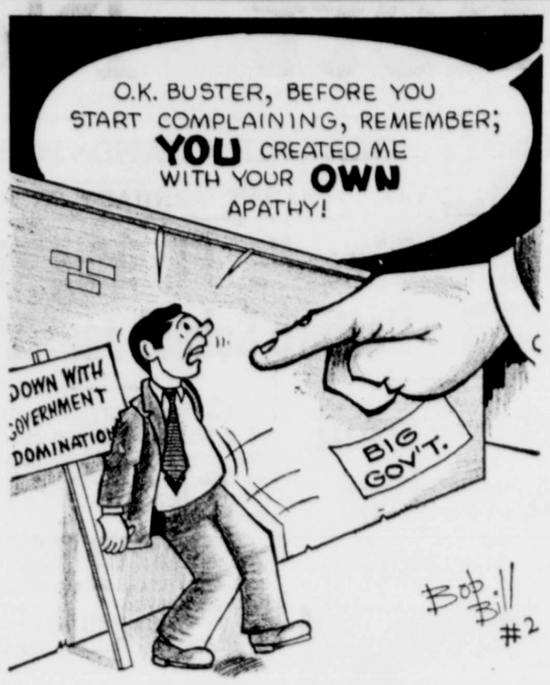

ROYSE CITY, TEXAS, AMERICAN: "You may have a wonderful excuse for your failure but the world pays cash for success."

DULUTH, MINNESOTA, PUBLICITY: " . . . while throughout the land Agriculture Department and White House figures have been speaking out for consumers who pay high food prices. . . . The Agriculture Department, through its milk marketing order arrangements allows local commissions to fix milk prices. What they fix is a floor under the prices which must be paid by consumers. In . . . Virginia, the price of milk didn't go up at (a) . . . store until the owner . . . had been hauled into court and fined $250 for refusing to raise the price. He was also enjoined against selling milk below the official figure."

BEDFORD, IND., TIMES-MAIL: "Treasury Secretary Dillon has said that the administration will seek the elimination of excise taxes on toilet articles, cosmetics, jewelry, furs and leather goods. But among the excise taxes which would be left standing are those on admissions, gasoline, autos, liquor, tobacco, telephone service and air passenger travel . . . it is difficult to make a case for continuing the taxes on telephone service and air passenger travel. Taxes on essential services tend to discourage the use of these services and to hold back their expansion."

WEST POINT, MISS., LEADER: "Our government, in its concern with minutia, has yet to mark the sparrow's fall, but through the National Labor Relations Board it has become involved with the passing of dogs and cats. It seems that the Teamsters Union set out to organize a couple of pet cemeteries in Peoria, Ill., and wanted the N. L. R. B. election."

The AMERICAN WAY
AS VIEWED BY M. Eggleston

WHY THERE IS A COIN SHORTAGE

Wherever you may live in this land, I'm sure you know by now there's a coin shortage. First the silver dollar disappeared; the half dollars are on the way out; the quarters will undoubtedly be next.

Why this shortage? Too many parking meters and vending machines? That could hardly be the cause of the disappearing silver dollars.

In reality, the coin shortage reflects the growing understanding of the American people that their goverment is handling their money dishonestly. As a result, individuals are protecting themselves in the only way available to them.

The inflationary paper money in circulation is continuing to depreciate in value as the growing federal debt requires the printing of additional Federal Reserve Notes. The paper on which these "dollars" are printed has no intrinsic value. And the "dollars" are not backed up by anything of value. All the gold in Fort Knox is subject to the claims of foreigners.

No one knows when the present inflation will erupt into the kind of hyper-inflation that ruined the French economy in the eighteenth century and the German economy in the 1920's.

So what does the individual do to protect himself against the destruction of the wealth he has earned? He seeks some thing of value that will weather all the storms the government can create.

He can't store gold—much as he'd like to—for the govern- of gold. This was done in order ment has outlawed the holding to give the government the free dom to inflate the money supply without fear of losing all its gold to understandably-irate citizens.

The only thing available to the individual is silver—in the form of silver coins. He saves the coins—not for the "fifty cents" written on the surface—but for the silver contained therein. He knows that, come what may, the silver will always be of value. Good times or bad, he can always exchange silver for something he needs.

Is it wrong for individuals to "hoard" coins? Of course not! Is it wrong for anyone to utilize the fruits of his own labor in any way he chooses? Is it wrong for an individual to protect himself against a foolish government? Or should he "patriotically" protect the government from its own dishonesty?

If our money system were honest—if every "dollar" in circulation were backed up by a dollar's worth of gold or silver—no one would have to save coins. There would be no inflation, prices would be stable or dropping, and depressions would be ehminated from the economy.

There is no excuse for a dishonest money system. It is the result of our foolishly thinking the government can solve problems. It can't. Only free men, making mutually profitable exchanges with each other, can solve the problems of society. When we ask the government to solve our problems, pay our bills, and run our lives, we are asking for trouble.

For governments do not have the "welfare" of the people at heart. They are concerned only with perpetuating their own power. And inflation is always the government's number one tool for this purpose.

Inflation is the inevitable result of "letting the government do it" — and sooner or later enough individuals realize this and take steps to protect themselves.

When enough individuals realize this, perhaps we will take steps to solve our problems the right way—through freedom.

Contact With World

For many years the only contact the people on Easter Islands had with the rest of the world was when a once-a-year supply ship from Chile visited it. The situation will soon change, however. Construction of an airport for trans-oceanic planes is being planned and the island's 1,200 inhabitants will have regular contact with the rest of the world.

The Jesuit Padre Kino introduced cattle ranching to the Indians of Sonora about 1709.

On Top

The Bible, *"God's holy word,"* is still the best seller, and most quoted book. From the original Greek and Hebrew this book has been translated into many languages.

Through the centuries men have devotedly studied and sought out the truth in the Bible. When one reads the Bible with an open mind, God's word is *"as sharp as a two edged sword."*

Attend Church Sunday and study God's word.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

WHAT I'M FOR

As the perennial pollyanna said to his friend in the prison death house an hour before the execution: "There's always some thing to be thankful for; just think, you still have your health!"

This is a time for thanksgiving, for faith, for re-dedication. This is a time for resolutions for the coming year.

Helen Keller said: "Most of us take life for granted. Only the deaf appreciate hearing, only the blind realize the manifold blessings that lie in sight. It is the same old story of not being grateful for what we have until we lose it, of not being conscious of health until we are ill.

"But I who am blind can give one hint to those who see: use your eyes as if tomorrow you would be stricken blind. And the same method can be applied to the other senses; hear the music of voices, the song of a bird, the mighty strains of an orchestra, as if you would be stricken deaf tomorrow. Touch each object you want to touch as if tomorrow your tactile sense would fail. Smell the perfume of flowers, taste with relish each morsel, as if tomorrow you could never smell and and taste again.

"Make the most of every sense: glory in all the facets of pleasure and beauty which the world reveals. Thus, at last, you will really see, and a new world of beauty will open up before you.

For and Against

One of my devoted readers has inquired: "Have you decided what all you're going to be against in the coming year?" Much as I hate to disappoint this booster, my New Year's resolutions all relate to things I am for.

I am strongly for a congressional investigation of the State Department—to give the Wielands, Rostows, Rubuttoms and the faceless brigade a chance to prove their innocence, stupidity, insanity or treason, as the case may be. I'm for "urban renewal" for every city that wants to pay the cost, most of which should be billed to the people who own the downtown real estate and get most of the benefits. Save the downtown?" Why? Dispersal of city populations should be the goal for many obvious reason: economy, health, defense, morality.

I'm for making radio and TV networks that are still fighting Nazism and Fascism give equal time for fighting "The Great Society" and other socialist fronts. For making the display of the hammer and sickle an equal crime with display of the swastika. For outlawing the Communst party and jailing or deporting all known Communists, including those in our State Department.

National Purpose

For a "national purpose" diametrically opposed to co-existence with history's most despotic atheistic mass enslavers. For a "national purpose" dedicated to freeing the half of the world enslaved by the Communists. For these conquered people then holding their own "Nuremburg" trials to convict and hang slaughterers like Khrushchev, Mao, Tito, Brezhnev, Castro. For declaring the mass slaughter of Africans, Cubans, Russians, Hungarians, Chinese, Catholics and Protestants an equal crime with the mass murder of Jews.

I am for restoring the last part of what should again be our "national purpose": "Give me liberty, or give me death." (The American people have shortened that original sentence to just "gimmie.")

For the only kind of security there is: that which comes from one's own self and soul. For encouraging individualism, the desire to excel, to win, to profit. For an upward reach for our nation toward more spiritual values and morality, starting at the Presidential level.

Mr. Merchant:
YOU LOSE 3 OUT OF 10
Customers Every Year
... AND THIRTY PER CENT OF YOUR BUSINESS GOES WITH THEM. HARD TO BELIEVE, BUT TRUE. IF YOURS IS AN AVERAGE BUSINESS, YOU NORMALLY **LOSE** APPROXIMATELY THIRTY PER CENT OF YOUR CUSTOMERS EVERY YEAR. IF YOU DON'T BELIEVE IT, LOOK THROUGH LAST YEAR'S ACCOUNTS AND SEE HOW MANY ARE NO LONGER ACTIVE.

Why do you lose them?
Through death, hard feelings, moving to another community or through the efforts of hard-driving competitors . . . a variety of reasons . . . some of them beyond your control.

AT THE SAME TIME THERE IS A NORMAL BUSINESS INCREASE OF ONLY FOUR PER CENT EVERY YEAR. THAT LEAVES YOU FACING A TWENTY-SIX PER CENT HANDICAP EVERY YEAR . . . A HANDICAP **YOU** MUST OVERCOME IF YOUR BUSINESS IS TO REMAIN HEALTHY AND PROFITABLE.

What to do about it:
The answer lies in better merchandising, better planning and more vigorious promotion of fast selling goods and services.

ABWA Met Monday At Villa Restaurant For Motnhly Meeting

The meeting was called to order by the president, Virginia Meyer; invocation was given by Doris McGee. 22 members answered the roll call. read by Nita McNish.

Guest speaker for the occasion, Wichita County Clerk Dora Davis, was introduced by Ruth Horsley. Beginning with the secession of Wichita County from Clay County in 1882, Miss Davis gave a most informative talk on the history, office and duties of the county clerk. She described its transition from a tent with one table, all records being handwritten, to the present modern facilities, methods and machinery. Stating that the county clerks office offers more than 75 services, Miss Davis explained the process involved in the operation of several of the more familiar ones. Highlighting her talk were remembrances of many of the humorous moments of her 33 years with the county clerks office.

Vocational talk was given by Nita McNish, who is employed by Ragland Jewelers. Nita is the bookkeeper, buyer, designer and "Girl Friday" for that firm. She told us of the may services offered by Rangland, unique among which is being able to watch the jeweler as he mounts your diamonds.

Dottie Sams gave a report on the work of the educational committee, and Mae King presented future plans of the Ways and Means committee.
