

MUST HAVE BEEN A LONG DAY---A couple of junior girls, Coye McGill, left, and Lindy Ray, lean against the door as they talk over the elections at Olton High School last Thursday. Politicking was hot and heavy the past few weeks, as attested by numerous campaign posters around the door to the polls.

Adequate Library Facilities Sought

Library enthusiast took up their banner here this week and started a fast-moving campaign to secure adequate library facilities for Olton.

Main items in the spotlight are actions to secure bookmobile services for the town along with the organization of a group to back the local library.

A Sunday afternoon meeting, sponsored by the Olton Chamber of Commerce and Agriculture, sparked the campaign and was quickly followed by other meetings Tuesday and Wednesday.

Another meeting is set here Monday morning at 10 a.m. at the community room of Plainview Production Credit Association.

Mrs. C.S. Silcott and Mrs. Fred Thompson are serving as co-chairmen of the drive with approximately 14 local organizations contacted for support.

New Century Study Club, in a meeting Wednesday afternoon, voted their support in the form of a \$100 contribution to the proposed organization.

In the Sunday afternoon meeting, a group of citizens heard Charles Gholz, a representative of the Texas State Library, describe the bookmobile services.

They then went through the bookmobile and arranged for it to return to Olton Tuesday morning when school children went through the unit.

Adults in the community were invited to see the bookmobile Wednesday morning, when Gholz again spoke to a group.

Proposed plan for the bookmobile service is on a multi-county basis.

Bailey County commissioners have already voted to use the services and Farmer County is expected to okay the move sometime next week. Cochran and Hockley Counties also being offered the service.

A meeting with Lamb County commissioners is planned for the near future.

Under the state plan, this county could use the services of the bookmobile for the next two years and eight months at no cost to the county.

Actually, the plan calls for the co-operating counties to provide a headquarters warehouse for books, utilities, janitor service and shelving for books.

However, Friends of the Library, an organization in Bailey County, has said that it will stand all of this expense.

All other expenses during this first two years and eight months will be met by the state.

This will include:

1. A bookmobile and all expenses for operation and upkeep.
2. A well balanced stock of 8,000 to 10,000 books.
3. All further supplies.
4. A bookmobile librarian and salary.
5. A bookmobile driver and salary.
6. A clerk and salary.
7. Consultative and standby services.

At the end of the two years and eight months, the county may either continue the service or drop it.

If the counties should desire to continue it, the state will leave the entire book stock, leave all supplies and equipment and leave the bookmobile until it can be replaced during the first independent year.

The state will also provide, for the third year only, the librarian's salary, driver's salary, clerk's salary, needed supplies, processing of books and consultant service.

The counties' share during the third year, should they desire to continue the service, would consist of a budget of \$14,000 to be divided among the participating counties.

This budget would include the purchase of a bookmobile at \$10,500; gasoline and oil at \$800; and books and material at \$2,700.

Organization of the proposed library club for Olton will get underway at the Monday morning meeting.

All residents are being urged to attend the meeting for additional explanation of the proposed organization, which will probably take the form of a Friends of the Library group.

A spokesman said Wednesday that the purpose of the group will be general improvements and expansion in Olton's present small library, located in the C-CA office.

It is felt that the bookmobile will work in well with this idea since the local library could check out as many as 200 or 300 books from the bookmobile to be left in Olton. These could then be replaced with other books on the next trip of the bookmobile.

This would immediately increase the selection of the Olton library and there is a possibility that, working through the state plan, books could be added to the library at a savings.

After the initial two years and eight months, it is possible that, should the library in Olton wish to invest in books, the state would match the amount.

In his talk Wednesday morning, Gholz pointed out that Texas is second in illiteracy in the nation and is number 48 out of the 50 states in library service provided.

Highway Project May Be Stalled

The Highway 70 widening project seemed stalled this week after Mayor Bill Thomas received word that the state will ask 100 feet of right-of-way along the highway.

Thomas had written O.L. Crain, Lubbock, district engineer for the Highway Department, seeking a commitment for the widening of the highway.

A letter from Crain this week said the State Highway Department would advise 100 feet of right-of-way to include medians and left turn lanes.

A survey by Ralph Douglas, Littlefield engineer, had been done on the assumption that 90 feet of right-of-way would be needed. This would not include medians or the left turn lanes.

Right-of-way along the highway now varies from 82 to 85 feet.

"I feel confident that we can work this thing out to the satisfaction of the city and the highway department," Melvin McReynolds, Chamber of Commerce and Agriculture manager said Wednesday.

The C-CA has been strongly backing the project for some time.

"We plan a meeting very soon with Crain," McReynolds said, "and I think we're going to get the job done."

Douglas had told the city council earlier that it was his understanding that the state would go along with 90 feet of right-of-way on the project.

Public Aid Is \$26,900 Per Month

Public aid being paid to beneficiaries in this county each month is estimated at \$26,900, according to a Government report.

The report, just released, is the first of its kind. It details the number of people receiving such assistance, as well as the amount they get each month, for Lamb County and for every other part of the country.

Entitled "Public Assistance in the Counties of the United States", it is released from the Department of Health, Education and Welfare.

Old-age assistance is now going to 477 persons in this county.

This is at the rate of 292 per 1,000 men and women in the over-65 age group. This compares with the state rate of 332 per 1,000.

So, in proportion to population, there are fewer residents in this county receiving old-age assistance, which is a major type of aid, than in many sections of the country.

The average amount they receive here is \$52 per month. Assistance is also being provided to needy families with dependent children under the age of 18.

Of the 8,887 children under 18 in Lamb County, aid is required for 80 of them.

An average of \$17 per month is provided for each dependent. The remaining category covered in the report relates to permanently and totally disabled people in the 18 to 65 group.

Of the 11,377 people in this country in that age span, only 13 are receiving aid, the average payment being \$54 per month.

The report shows, for the county as a whole, that the declining rural areas are the ones with the greatest proportion of people requiring assistance.

Miss Lewis, Miss Bley Honored At FHA Event

Carolyn Bley and Elaine Lewis were honored as outstanding homemakers at the annual FHA banquet here Saturday night.

Miss Bley, daughter of Mr. and Mrs. Winston Bley, was presented the Betty Crocker Award by Mrs. Joe Bradley, homemaking instructor.

Winners of the award have to achieve the highest score in a knowledge and attitude test given senior girls.

Miss Lewis, daughter of the Rev. and Mrs. John Lewis, was presented The OltonEnterprise Homemaker of the Year Award by Mrs. Leah Cross, an employee of the newspaper.

School Census Shows 1,419

Nose counting of school-age children in the Olton Independent School district shows a total of 1,419 children, according to Mrs. Rex Chitwood, chief enumerator.

Of this number, 1,282 are Anglo and Latin and 137, Negro. The school census should include all children between the ages of 6 and 18 as of Sept. 1.

However, Olton does not make a house-to-house tally, so it is likely that some children have been missed.

School figures show the following results: 6-year-olds, 50 boys and 32 girls; 7 years, 53 boys and 63 girls; 8 years, 64 boys and 66 girls; 9 years, 64 boys and 59 girls; 10 years, 67 boys and 55 girls; 11 years, 58 boys and 58 girls; 12 years, 61 boys and 52 girls; 13 years, 50 boys and 54 girls; 14 years, 63 boys and 62 girls; 15 years, 39 boys and 36 girls; 16 years, 50 boys and 33 girls; and 17 years, 50 boys and 43 girls.

This is a total of 669 boys and 613 girls.

In Bohner School, 67 boys and 70 girls are listed.

Who's Guilty For Poverty

The administration has launched a war on poverty, picking out a popular subject against which there can be no effective argument because everybody certainly is against poverty. However, we are more inclined to agree with a sign which we saw posted outside an Austin floral shop last month which said: "If We Launch An All-Out War on Laziness, The Problem of Poverty Will Solve Itself."

We are being told by government experts that those of us who are living well are somehow guilty of putting poverty on those who are poor. We are being saddled with a guilt complex, so to speak, and the government experts want us to believe that we have let down a section of the nation's population because some citizens are not enjoying prosperity.

The American liberals have spread the notion that it is the fault of the "haves" that the "have-nots" have not.

The fact is that poverty has existed among mankind since the beginning of time. The Bible says "The poor we will always have with us." In the United States, poverty has been wiped out as in no other country in history.

Charity has been carried to incredible lengths, in the private as well as the public realm. People are continually putting something into the collection for various causes aimed at helping poor or unfortunate people.

All good citizens want to continue such good works or charity. The churches of the nation are working with the poor. Other agencies are feeding and clothing them. The government is subsidizing the poor through the relief and unemployment checks.

But it is a fact of human nature that some people are just naturally shiftless and they will be poor from now on. Living on charity is no disgrace for them. If the government will give them a check every week they are satisfied. But they are still poor.

The city manager at Newport, New York got under such pressure that he finally left after putting in a policy that able bodied men of his city had to work on city streets in order to qualify for relief. People were up in arms because this "offended the dignity" of those getting the free hand-outs.

Government agencies and private organizations are careful, when administering charity, not to offend those to whom charity is given, lest they upset their emotional balance. This is a sign of modern times and is responsible for the change which makes charity respectable nowadays.

There may be total equality of opportunity in this country, but there is no such thing as total equality of enterprise, initiative, determination and hard work. When there is this kind of equality, there will be no poverty.

Philosopher Set To Face All Perils Of Leisure

Editor's note: The Running Water Philosopher on his careless weed farm on Running Water Draw must have more leisure time than he realizes, to be worrying about what he is this week.

Dear editor;

One thing about an expert is that he can worry a problem from more angles than anybody else. A first rate expert can worry about a problem before it gets here, while it is here, and long after it's gone.

I got to thinking about this after I read a magazine article last night about some college professors who foresee a grave threat to mankind in the amount of leisure he may gain.

"The problem of too much leisure is closer and more threatening than you realize," they said.

They pointed out the 36-hour work week, a 13-weeks vacation and other situations now developing in many industries and estimated that in 20 more years 98 percent of the world's productive work will be down by two percent of the population.

Now the problem these experts are worrying about is—can the people stand that much leisure? What will they do with themselves? Who'll clean all those fish they catch? How long can a tourist kid himself that he's having fun touring?

Like the question, Can man survive in space, this is serious matter and deserves careful thought and preparation.

Just as we wouldn't think of shooting a man into space without first testing, neither should we allow man to risk rushing headlong into leisure without seeing if his constitution and nervous system will stand it.

Now I have had a certain amount of advance training in subjecting the human body to the strains of leisure, I will volunteer to go the whole way if the government is willing.

It won't be necessary to go to any elaborate preparation. I won't need a count-down or detailed weather report. Not even a television camera. Just have Washington mail me a check every month and I will plunge headlong into 100 percent leisure, keeping full notes on how the human body reacts to this new adventure of the 20th century.

Yours faithfully,
J. A.

Get up and Go

Tear up old schedules with a new, more-powerful John Deere 3020 or 4020 Tractor and Power Shift Transmission.

Work flies when you're piloting a new, more-powerful 64 h.p. "3020" or 88 h.p. "4020." Your flight plan for a day's work can take in extra acres . . . extra jobs. These new tractors navigate fields faster. Cut out unscheduled stops en route. Haul bigger payloads.

The combination of stepped-up horsepower and Single Lever Power Shift breaks through old time and distance barriers to higher productivity. You'll cruise through tough spots . . . uphill pulls . . . turns in and out of fields . . . and all such spots without halting to correct torque or speed. The bigger displacement and heavier parts assembly of new John Deere engines deliver more power in reserve to keep jobs rolling

Work nonstop: powershift on-the-move.

Maintain speed: usable horsepower is up.

through thick and thin. When load demand or job operations command a gear change, you powershift on-the-move . . . simply easing the single shift lever into higher, lower, or reverse gears. You make the change without clutching . . . without interrupting power to the drive wheels.

Test the "get up and go" of a new "3020" or "4020" on your farm soon. Your dealer can supply financing, too.

Recipe Of The Week

Mrs. J. L. Small has submitted an unusual recipe this week.

She and her husband have three children, Randall, Patricia, and Laquita. They have lived in Olton 10 years and Small is self-employed. Mrs. Small is employed at the J. C. Jones Store. They have one granddaughter, Jerri Lynn, daughter of Mr. and Mrs. Randall Small of Dimmitt.

Corncob Jelly
12 bright red cobs
3 pints water
1 package Sure-Jell
3 cups sugar

Boil broken cobs in the water for 30 minutes. Remove from heat and strain the liquid. If not 3 cups, add enough water to make 3 cups. Add Sure-Jell and bring to a rolling boil. Add sugar and boil 2 to 3 minutes or until jelly stage.

The finished product tastes a lot like apple jelly, has an attractive, reddish color.

Olton Home Demonstration Club met Feb. 18 at 2 p.m. at the Plainview Production Credit Community Room.

Mrs. Robin Taylor, president, presided over the meeting.

Roll call was answered with "Have you added something new to your home?"

Plans were made to go to the Fat Stock Show at Littlefield. Members not going are asked to leave their food at the home of Mrs. Tom Smith. Mrs. Paul McFadden was elected as a delegate from this club to go to the district Texas home Demonstration meeting. It was voted to serve dinner at the fat stock show Feb. 27 and 29 at the First Methodist Church.

Coffee, Cokes, doughnuts and cookies were served by Mrs. Fred Shaw, the hostess, to Mes. Lloyd Blackwell, C.D. Miller, Paul McFadden, Lee Simmons, Harry Thomas, Tom Smith, Charles Lewis, O. L. Langley, Jim Spear, Vern Taylor, O. T. Crosby and Miss Ann Warren.

The next meeting will be March 3. Mrs. C. D. Miller and Mrs. Ann Warren are hostesses. The program will be on new dishes or special meals by the H.D.A.

Hopewell WMA Meeting Held

The W. M. A. chapter of the Hopewell Baptist Church met for their regular meeting Feb. 17 at 2:30 p.m. at the church.

The program, led by Mrs. J. D. Lively, was on the 16th Chapter of Proverbs.

Members present were Mes. Bill Winn, E. E. Burrows, Charles Riggins, Ralph Reed, Dean Harris, J.D. Lively, Horace Huckabee, D.D. Brown, Everett Huckabee, and Virgil Gray. There also were seven children present.

There will be an all-day meeting Feb. 24, starting at 10 a.m. at the church. Mrs. Everett Huckabee will be in charge of the mission program.

Mrs. Dee Harris will be hostess at this meeting.

WOMEN PAST 21 WITH BLADDER IRRITATION

After 21, common kidney or bladder irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondly, you may lose sleep and suffer from headaches, backache and feel old, tired, depressed in such irritation. CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong, acid urine and by analgesic pain relief. Get CYSTEX at drugists. Feel better fast.

High Plains Beet Growers File USDA Application

High Plains Sugar Beet Growers Inc. and Punta Alegre Sugar Corporation have filed an application with the United States Department of Agriculture for a beet sugar plant in the Plainview area for 1966.

Rep. George Mahon made this announcement in Washington Saturday following a conference

with the USDA.

He said that arrangements have been made for the capital to construct the mill and these arrangements now are contingent upon granting of an adequate sugar allotment by the USDA.

After the Saturday conference High Plains Sugar Beet Growers Inc., filed a formal application with the USDA for a sugar allotment.

Contained in the application are signed agreements by farmers in this county and seven others, pledging that they will provide the required acres of sugar beets.

Lamb County farmers have signed letters of intent to grow 4,525 acres of the beets.

Competition for a sugar allotment is keen with applications expected from Maine, Arizona, Texas and other states. Only two new mills will be approved at this time.

It will be several weeks before a final determination on the applications is made by the USDA.

Punta Alegre Sugar Corporation is an American-owned corporation. All officers and directors are American citizens. Headquarters are in New York City.

Safety Responsibility Is Stressed By Officers

The Texas Highway Patrol investigated 3 accidents on rural highways in Lamb County during the month of January, according to Sergeant D.S. Lawson, highway patrol supervisor of this area.

These wrecks accounted for an estimated property damage of \$2,825.00.

The Sergeant reminded motorists that Texas along with every other state in the nation many years ago enacted a safety responsibility law to meet the problems created by irresponsible operators of vehicles on our streets and highways. This law is intended to encourage all motorists to become financially responsible and to promote highway safety by identifying those drivers and owners of motor vehicles who will not assume their moral and legal obligations to society and therefore should be removed from the highways.

"More stringent provisions of this law—requiring drivers and owners to be able to pay for damage to others in traffic accidents—became effective Jan. 1, 1964," the Sergeant said.

"In any accident in which damage amounts to at least \$25.00 or more, the operator of every motor vehicle is required to report the accident in writing to the Texas Department of Public Safety. If the accident involved death, injury or damage to one person's property of at least \$100, the accident then comes under the Safety Responsibility Act and its requirements must be met," he explained.

"The Department of Public Safety is required by the new law to suspend the driver licenses and all motor vehicle registration plates of both the operator and owner of vehicles involved in accidents coming under the Safety Responsibility Law unless the owner and operator meet one or more of the following requirements."

1. Liability insurance coverage in minimum amounts of \$10,000.00 for one injury or death, \$20,000.00 total injury and death and \$5,000.00 property damage.

2. A release signed by the damaged parties.

Motor Vehicle Inspections Said Lagging

Motor vehicle inspections are lagging behind with less than thirty per cent of the required vehicles in Region 5 displaying a 1964 inspection sticker, according to Captain Alan Johnson, Motor Vehicle Inspection supervisor of this area for the Texas Department of Public Safety.

"With the deadline for obtaining inspection stickers drawing near only 30 per cent of the vehicles in Lamb County have been inspected," the Captain said, "If this trend continues, vehicle owners can expect to have to wait in line in order to get their vehicles inspected by the April 15 deadline."

Piano Students Enter Contest

Fourteen students of Harold Dean Carson will enter the solo and sight reading competition at the 12th annual piano-organ festival and competition at West Texas State University Feb. 22.

Festival will be held in the fine arts building with George Eason at festival chairman.

Judges are Paul Peck, Odessa College; Ron Rathbun, Abilene Christian College and Earl Miller, Wayland College.

Students entering include Charles Church, Don Curtis, Mike Hipp, Linda Waldrop, Gayle Gunter, Judy Kemp, Barbara Cowart, Jackie Harrod, Jane Ann Duncan, Larry Lambright, Alyn Jones, Karen Hipp, Sue Church and Lucy Gunter.

Competition is for seventh grade through high school and will be rated in one of five divisions. This is the fourth year Olton students have entered for the ratings.

Letter To The Editor

Dear Mr. Turner,

It is so nice of you and your paper to take such a vigorous interest in our community. I want to especially thank you for beginning the Award for the Fighting Mustang. I think it is a good incentive for any and all boys to do their best efforts to win. It is with humility and great pride that we thank you, on behalf of George, as well as the

rest of the family for the Award he received. He was surprised speechless, and will always treasure the Award!

We deeply appreciate every kindness you have shown us. We have certainly been highly honored. Thank you.

Sincerely,
Mrs. Owen Jones

Strongest pickup IN THE Southwest

Tough new double-sidewall box, a tailgate that can take a ton! And underneath, this Ford's built like the big trucks!

You read right! Ford's new Styleside box has a tailgate so strong it can support a ton of weight. Yet a new center latch lets you open and close it with one hand!

You'll find this new long-wheelbase Ford pickup easier to load, to ride in, to drive. But from axle to axle, it's built like the big trucks for extra strength—and extra savings—on the job. Come see!

Letter To The Editor

Dear Bill,

As president of the New Century Study Club, I wish to express the appreciation of our club members for the fine cooperation we receive from your newspaper. With all the communications media available these days, it is still the newspaper that puts information into our hands in retainable form--to be read, digested, and kept.

Our club is a member of the General Federation of Women's Clubs, the largest group of organized women in the world, having 11,000,000 members in 15,500 clubs in the United States and in 54 other countries. The General Federation program this year highlights an extensive campaign to obliterate illiteracy from the United States and throughout the world, a Dimes for Liberty project to help build the Museum of Immigration at the base of the Statue of Liberty, and many other worthwhile projects. However, our club has the privilege of choosing any project we wish to emphasize, always keeping in mind the needs of our local community.

Mrs. Dexter Otis Arnold,

president of the General Federation, states that the GFWC has always strongly advocated the freedom of the press and that it has never been more important than it is today when more than half the countries of the world live under a partial or complete blackout of news through censorship. We thoroughly agree.

Please accept our deep thanks and all good wishes.

Sincerely,
Mrs. Don Spain
President, New Century Study Club

ACTION SHOT OR REVENGE?--The above photo was sent to the Enterprise this week by Bill Ellis, editor of the Friona Star, who said it was the best "action shot" he had when the Chiefs snapped their 11-game losing string by posting their only district win over the Mustangs, 66-60. The Enterprise published a similar shot recently when the Mustangs downed Friona, the first district game won by the Ponies in three years. Olton ended the season with a 7-18 record and a tie for the cellar of District 3-AA with Friona. The Mustangs were led in the finale by George Jones, who scored 24 points.

GAYLE NICHOLAS is shown above during action in the final game of the season at Friona last Thursday night. The Olton girls went down to defeat, 62-51, as the unbeaten Friona girls copped the district championship. Gayle was the Fillies leading scorer for the season as she led them to second place in the district with a 6-2 record. The Fillies had their finest won-loss mark in history for the season, winning 22 games and losing only seven.

Japanese Student Speaks

Olton Lions heard a talk by Miss Noriko Nakayama, exchange student from Japan, at their regular meeting Tuesday.

Miss Nakayama, now of Lockney, compared family life and schools in Japan with those of America.

She pointed out that Japan is adopting many customs of the west, saying that she had to learn how to wear a kimono before leaving Japan, knowing that she would be expected to know how once she was in the U.S.

Housing Bids To Be Awarded

Bids for a \$200,000 low-rent housing project, financed with a loan of Federal taxpayers money, will be awarded here Feb. 27.

The project, consisting of 10 duplex buildings, is expected to be completed in eight to nine months.

The brick construction duplexes will be located in three different areas.

Four buildings for eight Anglo families will be built between 8th and 9th streets. Of these, four units are designed for elderly couples and will have one bedroom each. The 16 lots in this section are 25 feet in front width.

Four buildings for eight Latin American families will be located between Ave. D and Ave. E. Two buildings for four Negro families are to be built on 14th Street.

In the entire project, there are four one-bedroom units, four two-bedroom units and 12 three-bedroom units. The nine lots in the Latin American section and the five in the Negro section are 50 feet lots. All lots are 140 feet deep.

A management and maintenance building will be erected at the 8th Street site.

Plans include recreational areas, curbs, walks, utilities and landscaping, including trees, shrubs and grass.

All units are for families of low incomes.

IF YOU ARE NOT A MEMBER --

why not join the list of Olton people who are giving of their time and money to make our community a better place in which to live.

During our recent membership drive, we were unable to contact everyone but the Chamber will continue its efforts to see all potential members.

If you are not now a member, take some time to think about it. We are sure you will want to do your part in helping Olton become a better place in which to live. Join Now!
