TO THE FARMERS OF MITCHELL CO.

THIS IS WHAT FARMERS UNION HAS DONE FOR YOU!

- Given the farmers of the state a powerful voice in Washington and other places where important decisions are made that directly affect farm income.
- Sponsored a Washington Flier program to fly Texas farmers and ranchers to Washington to present economic facts to members of Congress supporting need for improved farm income in the state and to testify before hearings on the Farm Program.
- Helped the farmers in the state to be better informed on how farm income legislation would affect them, so that they would be alert to changes which might be detrimental.
- Was responsible for developing as good a four-year Farm Program as could possibly be passed through the Congress considering the opposition of one large farm organization and several cotton organizations.
- Got the concept of direct payments to the farmers firmly-built into the programs for wheat, grain and cotton.
- Sought restoration of budgetary cuts that could cripple the effectiveness of the 1965 Farm Bill and damage existing and future programs for soil conservation, Farmers Home Administration, rural housing, school lunch programs, and rural electric cooperatives.
- Fought for and was effective in retaining the 7% investment tax credit on up to \$20,000 worth of farm equipment.
- Fought for and was successful in getting revision of skip-row regulations removing the penalty, and the review of inequitable projected yield allocations tied to the skip-row pattern.
- Urged and was successful in getting the 2.11 cents increased in cotton payments announced for 1967.
- Protested sales permitting CCC sales of cotton in competition with sales of current stocks and was successful in influencing USDA to announce a program for 1967 allowing farmers more headroom to sell their 1967 crop.
- Provided its members with insurance services of all kinds including low cost Group Life and group hospitalization through Blue Cross. Made available low cost direct drug service to its Senior Members.
- Is the only farm organization in the state that has provided constructive support for programs that the farmers and rural communities need.
