Changes In Army Signaled

By FRED S. HOFFMAN
AP Military Writer

WASHINGTON AP— Secretary of the Army Robert F. Froehlke today signaled an impending streamlining of the Army's command structure, the first in 10 years.

"In order to meet our readiness objectives in the future, there must be some reorganization in our Army structure." Froehlke said in a speech prepared for the Army Association's 18th annual meeting.

"We need a concept which will improve the Army's capability to train individuals in tactics, techniques, and skills, while maintaining active, and especially reserve forces in a state of high readiness."

Other officials said final decisions are expected by late this month.

The reorganization will affect the Army's command structure in the United States, but not overseas.

Froehlke gave no details, but Army sources said the plan generally contemplates reducing the layers of command between Army headquarters in Washington and base commanders, with greater authority for base commanders.

Also likely, they said, is a reduction in the numbers of interediate headquarters. The Army has been criticized for wasting personnel in headquarters staffs.

The main idea will be to provide one major headquarters supervising combat readiness of both the regular forces and the reserves and another in charge generally of training and development of doctrine.

Some consideration is being given to reducing the number of paper Army headquarters around the country from four to three, in the East, middle of the country and the West.

Gen. Creighton W. Abrams is expected to have a major say in the reorganization when he assumes the post of Army chief of staff. The Senate Armed Services Committee has recommended his confirmation.

Today In History

By THE ASSOCIATED PRESS

Today is Monday, Oct. 9, the 283rd day of 1972. This is Columbus Day in the United States and Thanksgiving Day in Canada. There are 83 days left in the year.

Today's highlight in history:

On this date in 1934, King Alexander I of Yugoslavia was assassinated by a Croat student in Marseilles, France.

On this date:

In 1642, Harvard's first commencement was held.

In 1701, Yale College was founded.

In 1760, the Russians captured Berlin.

In 1871, nearly 1,200 lives were lost in a forest fire which destroyed Peshtige, Wis.

In 1910, there were 400 fatalities in forest fires which swept through six towns in northern Minnesota.

In 1958, Pope Pius XII died at the age of 82.

Ten years ago: Premier Ahmed Ben Bella of Algeria told the U.N. General Assembly that Algeria's primary aim was to help eliminate colonialism.

Five years ago: The French writer, Andre Maurois, died at 82.

One year ago: Japanese Emperor Hirohito was booed and jeered during a visit to the Dutch city of Amsterdam.

The Weather

SNYDER TEMPERATURES: High reading Saturday, 75 degrees; low reading, 47 degrees; reading at 7 a.m. Sunday, 58 degrees. High reading Sunday, 89 degrees; Low reading, 60 degrees; reading at 7 a.m. today, 64 degrees.

Northwest and Southwest Texas: Continued fair through Tuesday with warm days and mild nights. Highs in the low 80s in the Panhandle to the mild 90s in the Southwest. Lows tonight in the low 50s in the Panhandle to near 70 in the Southwest.

North Central and Northeast Texas: Clear to partly cloudy and warm through Tuesday except increasing cloudiness in the North portion Tuesday. High Tuesday 84 to 92. Low tonight 61 to 67.

South Central and Southeast Texas: Clear to partly cloudy through Tuesday. Warm afternoons. Mild tonight. Highest Tuesday 82 to 95. Lowest tonight 62 to 75.

Coast: Variable, mostly east to southeasterly winds 6 to 16 knots through Tuesday. A few scattered showers.

New Mexico: Partly cloudy through Tuesday. Slight chance of a few afternoon showers in the mountains. Warmer in the northeast Tuesday, otherwise no important change in temperatures. Low tonight 30s in the mountains, 40s in the north and 50s in the south. Highs Tuesday 70s in the northwest and 80s in the south and east.

SNYDER
HOME OF
WESTERN TEXAS
COLLEGE

GYM DESTROYED—The inside of the Fluvanna Gym was completely destroyed in a fire Sunday night. The roof and a couple of walls caved in.

Blaze Destroys Fluvanna's Gym

FLUVANNA—Fire of undetermined origin destroyed the Fluvanna School Gymnasium Sunday night, causing an estimated $90,000 damage.

James Chapman, superintendent of the Fluvanna School, said it would take $90,000 to replace the building and everything in it. The roof and a couple of the walls caved in. All of the athletic equipment was destroyed. Last year, a new floor was put down along with new drapes and new pads under the basketball goals.

Fire Chief Alfred Kohl said the Snyder Fire Department responded to the call at 11:15 p.m. Sunday with three trucks—two booster trucks and a pumper. The Post Fire Department sent two trucks, and the Fluvanna Fire Department sent one. There were about 25 firemen fighting the blaze.

Kohl said the fire began in the girls' dressing room in the northeast corner of the building.

"It could have started in the electrical wiring or in a heater," the Snyder Fire Chief declared.

He said the building was covered by $30,000 worth of insurance.

Kohl said the building was "three-fourths" destroyed by the time firemen of the Snyder Department reached the scene. Firemen worked between the east wall of the gymnasium building and the west wall of the school building to prevent the flames from spreading to the school building.

NORTH VIEW—This is the view of the Fluvanna gymnasium from the north following a fire Sunday night that destroyed the gym. Superintendent of Schools James Chapman estimated the loss at between $80,000 and $90,000. He estimated it would take that much money to replace the building and everything in it.

Sales Tax Vote Is Set Tuesday

Snyder voters will go to the polls tomorrow to decide whether the city collects a one per cent sales tax.

The polls will open at 8 a.m. Tuesday in the council room at the city hall and close at 7 p.m. Voters are being urged to use the west entrance to the city hall, since the city offices will be open for business as usual during the election.

The city council called the sales tax election at about the same time they took action on the city budget for the current fiscal year. At that time it was noted that additional sources of revenue would be needed by the time another budget year begins. In fact, some proposed services and improvements were deleted from the current budget because funds were not available at this time.

Following the budget study, the council decided to offer the sales tax as an alternative to further demands from present revenue sources, such as the property tax and charges for such services as water, sewer and garbage collection.

It will be the second time for Snyder voters to cast ballots in a sales tax election. An election was called a few months after the legislature enacted the law permitting the city sales tax and the voting on Jan. 9, 1968, resulted in the proposal being rejected here by a vote of 728 to 570.

Subsequently virtually all West Texas cities and towns, except Snyder and Midland, adopted the sales tax, and then Midland passed the tax a few weeks ago.

Cities may levy the one per cent sales tax on items subject to the state sales tax.

All registered voters who live within the corporate limits of the City of Snyder are eligible to vote in the sales tax election.

Service For Roy Brown

Funeral service was set for 4 p.m. today for Roy H. Brown, 77, a retired Snyder merchant, who died at 12:40 p.m. Saturday in Cogdell Memorial Hospital.

Pat Abbananto was to officiate at the service at the Thirty-seventh Street Church of Christ where Mr. Brown was a member. He was to be assisted by Mike Ezell. Burial was to be in the Snyder Cemetery, under direction of Bell-Seale Funeral Home.

A native of Olathe, Kan., Mr. Brown had been a resident of this area since 1898. He was married on Feb. 6, 1921, in Snyder to Miss Myrtle Newby. She survives.

Also surviving are a daughter, Mrs. Margry Sorrells of Big Spring and a granddaughter, Mrs. Betty Ezell.

Big Contributor Has Problems

BRYAN, Tex. (AP) — The year's biggest listed political contributor gave hundreds of thousands of dollars first to Hubert H. Humphrey, then to President Nixon at the same time he had trouble paying bills and faced legal and federal difficulties.

Walter T. Duncan, a land speculator who was unknown to political fund-raisers and little known even to his neighbors, burst into prominence in June as a $300,000 contributor to the Minnesota senator's presidential primary campaign.

Two months after Humphrey lost the Democratic nomination, Duncan showed up on Nixon financial reports as contributing a total of $257,000 to dozens of the President's fund-raising committees.

Repeated efforts to interview Duncan failed. He did not respond to telephone inquiries left at his office and with associates, nor did he reply to a written inquiry and interview questions left with an office secretary. Duncan's lawyer, Henry Haltom of Houston, said, after being apprised of the questions, "I don't think he'll talk to you."

Dozens of interviews with persons in six states and an examination of public records in locations from bustling Houston to the West Texas cowtown of Marfa show:

—Four days after Duncan handed a $200,000 check to a Humphrey fund raiser in June, a 220-acre parcel of land he owned on the outskirts of Austin was sold on the courthouse steps because Duncan failed to make all of a $104,000 installment payment. He had paid $25,000 of the amount due.

—As Duncan was distributing $6,000 checks to the Nixon committees in August, he was sued in state court at Dallas for $2.27 million arising from the same land deal. The suit is partly on behalf of a federal corporation. Duncan so far has not responded to the suit.

—Before Duncan made his contributions, federal agents were quietly investigating his role as the second-largest borrower from National Bankers Life Insurance Co., which collapsed along with Sharpstown State Bank of Houston in a 1971 scandal that toppled leaders in the Texas Democratic party.

—After his contributions to Humphrey became public, Internal Revenue Service agents joined in looking at Duncan's affairs, specifically at whether he might be obligated to pay gift tax because of the contributions.

ACC President To Be Speaker

Dr. John Stevens, president of Abilene Christian College, will be guest speaker here Oct. 17 at the kickoff luncheon for the Scurry County "United Way" campaign.

The luncheon will be held in the Scurry County Coliseum and members of local service clubs will be present for a joint meeting as the United Way campaign is launched, said Jack Cummins, who is in charge of arrangements for the luncheon.

Enemy Holding Village, Hamlets

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — From 250 to 500 North Vietnamese and Viet Cong still held Huong Phuong village and three hamlets 15 to 20 miles north of Saigon today despite heavy air strikes.

The enemy force occupied the hamlets Friday and Huong Phuong on Saturday, cutting Highway 13 between Saigon and a big South Vietnamese military headquarters at Lai Khe, 30 miles north of the capital.

"I don't think anyone regards the threat to Saigon itself as significant because of the relative capabilities of the two sides," said one U.S. source. "The South Vietnamese territorial forces and regular units have good defensive capabilities. The North Vietnamese units are still under strength from previous combat. They are still capable of terror, attacks by fire, sapper attacks and perhaps small infiltration efforts, but the likelihood of any main attack on Saigon is rather remote."

Other American and South Vietnamese officers thought the small-scale attacks might be designed to keep government troops busy while larger enemy forces slipped past to attack such important targets as the big base at Bien Hoa, Saigon and its Tan Son Nhut Air Base.

U.S. B52 bombers attacked troop positions, base camps and infiltration routes on all sides of Saigon. Some of the raids were only four miles east of Huong Phuong and of Highway 13.

Mrs. Deere Dies Today

Mrs. Delphia Deere, 85, died at 3:40 a.m. today in Hillcrest Nursing Home. Mrs. Deere was born Sept. 14, 1887, in Wayne County, Tenn. She came to West Texas with her parents and settled in Williamson County, later moving to Scurry County in the old Light Community which is now Fluvanna. She had been a resident of that area since 1906.

Services are set for 2 p.m. Wednesday at Fluvanna Methodist Church with the Rev. Phillip Lopes, pastor of the church, officiating. Burial will follow in Fluvanna Cemetery under the direction of Bell-Seale Funeral Home.

She is survived by two sons, Herman of Snyder and R.L. of Lamesa; a sister, Mrs. Bea Wilson of Oklahoma City, Okla.; a brother, Victor S. Hollabaugh of Amarillo; 11 grandchildren; 13 great-grandchildren and several great-great-grandchildren.

Third Day Of Talks Indicated

WASHINGTON (AP) — The White House indicated today Henry Kissinger's secret Paris talks with the North Vietnamese will go into an unprecedented third day.

"I would anticipate there would be a third day of meetings," said presidential press secretary Ronald L. Zieger as he drew even tighter the curtain of secrecy surrounding the Vietnam peace talks.

In turning aside questions at a White House briefing, Ziegler referred to an agreement with the North Vietnamese not to discuss content of the negotiations. He said he was applying that standard "to all questions on the subject of the situation in South Vietnam," regardless of whether they related to the Paris negotiations.

It appeared that the future of South Vietnamese President Nguyen Van Thieu was the chief issue under discussion. But Ziegler said "I have no new statement of policy to give you today."

Kissinger, Nixon's national security adviser, and his top assistant, Maj. Gen. Alexander M. Haig Jr., flew to Paris on Saturday and met Sunday with Le Duc Tho of the North Vietnamese Politburo, and Xuan Thuy, chief of the North Vietnamese delegation to the Paris peace talks.

This was Kissinger's 19th secret meeting with the North Vietnamese and marks the second time the sessions have lasted two days. The secret talks have never gone into a third day. Responding to questions, Ziegler said he anticipated talks will extend to a third day "but I think it is unlikely it will go beyond that."

Thieu again rejected the Communist demand Sunday that he quit and make way for a coalition government including the Communists. The White House also has termed news stories that Thieu would resign sheer speculation.

But the belief that Thieu's future was being discussed in Paris was heightened by the presence of Gen. Haig. It was his first appearance at the secret talks, and he returned on Wednesday from talks in Saigon with Thieu and other high-ranking officials.

Kissinger's last meeting with Le Duc Tho and Xuan Thuy was on Sept. 26-27.

Secretary of Defense Melvin R. Laird said Sunday the Paris talks were in "a very serious, significant and sensitive stage" but there was nothing to indicate any early cease-fire in Vietnam.

He asserted, however, that Nixon's broad peace plans were a "near reality" and "there's no question that we are on the road to peace."

Hawaii Strike End Seen

HONOLULU (AP) — An end of a strike threatening Hawaii's vital surface shipping link with the mainland appeared in sight today after one of four struck stevedoring firms agreed to major union demands.

A union official announced that SeaTrain lines had agreed to a contract covering its longshore workers and that the pact would be put before the employes for ratification later in the day.

The agreement is expected to set the stage for contracts with the other three struck companies, he said.

Activity at Honolulu's docks ground to a halt at 12:01 a.m. Sunday as 700 longshoremen refused to cross picket lines set up by 250 fellow members of the International Longshoremen's and Warehousemen's Union Local 142.

Despite the walkout, negotiations continued while merchants fretted about the strike's impact on Christmas merchandising.

There was little evidence, however, that grocery shoppers were buying extra in anticipation of a long strike. "I don't think anyone's getting excited," one grocer said.

"This is a bad time for a strike, since merchants are just building up their Christmas inventories," said Doyle Alexander, executive secretary of the Chamber of Commerce of Hawaii.

Surface shipping accounts for 80 per cent of the goods reaching Hawaii.

On strike are 250 maintenance men, container freight workers and guards, who are negotiating a contract with four shipping companies.

Longshoremen will continue to handle passenger ship stores and baggage, mail and military cargo, said ILWU regional director Robert McElrath.

Some hot information that could save your life

By Abigail Van Buren

[© 1972 by Chicago Tribune-N. Y. News Synd., Inc.]

DEAR READERS: Even if statistics bore you, please read this. I ran it last year and had hundreds of requests to repeat it. The information may come in handy if you're ever on a quiz show. It could even save your life:

Q. When was the Chicago fire?
A. Oct. 9, 1871. Exactly 101 years ago today!

But let's get more current, shall we? Did you know that last year more than half a million fires occurred in the United States? More than 12,500 lives were lost. Even more tragically, a large percentage of deaths were children, elderly persons and invalids who had been left alone for just a few minutes.

The chief causes of fires, in order of the toll taken, were:

1.] smoking, 2.] electrical wiring, 3.] heating and cooking equipment, 4.] children playing with matches, 5.] open flames and sparks, 6.] flammable liquids, 7.] suspicion of arson, 8.] chimneys and flues, 9.] lightning, 10.] spontaneous ignition.

The total fire loss in 1971 was an estimated $2.845 billion. [No misprint—that's two billion, eight hundred forty-five million dollars.]

Now for some tips that could save your life:

● Be sure your cigaret is out. Matches, too. And never leave matches or lighters within the reach of children.

● Don't overload electrical outlets with too many appliances.

● Don't run cords under rugs or over radiators where they may get damaged. And replace a cord if it is frayed.

● Never leave small children alone in the house. Not even for a few minutes.

● Have your wiring and electrical installations done by a professional.

● Store oily rags and paints in a cool place in tightly sealed metal containers.

● Never use flammable liquids for dry cleaning indoors.

● Never smoke in bed.

● Have a fire drill in your home to be sure everyone knows what to do in case of fire.

● Invest in a compact, easy-to-use fire extinguisher and keep it handy in your kitchen, or be a sport and buy one for your cottage, car, boat and the back bedroom, too.

NOW, in case of fire:

Most fires occur between midnight and 6 a. m.; so always sleep with your bedroom door closed. If you suspect fire, feel the top of the door. If it's hot, don't open it. Escape thru the window. But first alert the rest of the household.

If you can't open the window, break it with a chair. Cover the rough edges with a blanket and sit on the window ledge with one leg hanging outside and one inside, and wait for help.

The phone number of your fire department should be taped on every telephone. If it isn't, don't fumble around trying to call them. Call from a neighbor's house.

If you live in an apartment building, use the stairway. Don't take a chance on the elevator. If it fails, you're trapped.

Once out, stay out. No treasure—not even the family pet—is worth risking a human life.

It took less than three minutes to read this column. Was it worth it? I hope so. God bless. Have a good day!

Soviets Short Of Food

WASHINGTON (AP) — The food situation in the Soviet Union is so serious that Moscow reportedly is trying to buy huge amounts of potatoes and grain from Eastern Bloc countries in addition to the vast imports of wheat and feed from the United States, the Agriculture Department said today.

Citing a "number of sources," the department's Foreign Agricultural Service said drought and delays in harvesting 1972 crops have not only reduced grain supplies for food but have forced heavy sales of livestock because of dwindling feed supplies.

"Drought in certain areas is being called the worst since the 1930s; the slaughter of cattle is said to be taxing slaughterhouse facilities in some districts," the FAS said in a report.

Further, planting of winter grain for harvest next year is running behind schedule, the report noted. The USDA said last week in other reports that 1972-crop harvests had been delayed and that fall planting was about one-fourth behind schedule.

Today's report said Moscow may be planning to import more food from satellite countries because of the quickening seriousness of the situation.

"Poland has reportedly agreed to ship a sizable tonnage of potatoes, especially for the Moscow area—a highly unusual step, if the reports are true," the FAS said.

"Arrangements are reported to be in process, though not yet finalized, whereby as much as one million tons of wheat, rye and barley may be sold to the USSR by Germany," the report said.

Our Traffic Laws

EDITOR'S NOTE: This is another in a series of articles on traffic laws, written by Snyder Police Chief Bobby Goodwin in the interest of local traffic safety.

★ ★ ★

By BOBBY GOODWIN

Did you know on and after Jan. 1, 1972, every motor vehicle operated singly or when towing another vehicle, shall be equipped with a mirror so located as to reflect to the driver a view of the highway for a distance of at least two hundred (200) feet to the rear of such motor vehicle, and no person shall drive a motor vehicle with any sign, poster or other non-transparent material upon the front windshield, side or wings or side or rear windows of such vehicle which materially obstructs, obscures, or impairs the driver's clear view of the highway or any intersecting highway, or that no motor vehicle operated on the highways of this State shall be equipped with television-type receiving equipment so located that the viewer or screen is visible from the driver's seat, and no person shall drive a vehicle when it is so loaded, or when there are in the front seat such a number of persons, exceeding three, as to obstruct the view of the driver to the front or sides of the vehicle, or as to interfere with the driver's control over the driving mechanism of the vehicle.

Snyderites' Brother Dies

John S. Feather, brother of two Snyder residents, died at 7:45 a.m. Sunday in Baptist Hospital in Oklahoma City, following a long illness.

Funeral service was held at 10 a.m. today in Wesley United Methodist Church in Oklahoma City. Burial was to be in the Stillwater, Okla., Cemetery.

Surviving are three brothers, Frank Feather and Herbert Feather, both of Snyder, and Dan Feather of Slaton; two sisters, Mrs. R. M. Williams of Oklahoma City and Mrs. Gerald Gardner of Little Rock, Ark.

Ranch Hdqtrs. Meets Tuesday

A business meeting for the Snyder unit of Ranch Headquarters Association will be held Tuesday night in the community room of the West Texas State Bank. The meeting is to begin at 8 o'clock.

US Troops Cut 700

SAIGON (AP) — U.S. troop strength in Vietnam dropped by 700 men to 35,200 last week, the U.S. Command announced today.

The Army cut its force by 500 and the Air Force cut its by 200. There was no reported change in the strength of the small U.S. Navy, Marine and Coast Guard contingents in South Vietnam.

President Nixon has announced he will reduce U.S. troop strength in Vietnam to 27,000 by Dec. 1.

The figures do not include some 100,000 American servicemen participating in the Indochina war from bases in Guam and Thailand and ships off the Vietnamese coast. The U.S. Command announced approximately 39,000 Navy personnel are assigned to 7th Fleet ships in the area.

In addition to the American forces, there are some 38,000 South Korean troops in South Vietnam. Their number decreased by 1,200 last week. South Korea has announced all its troops will be out by June 1973.

Three Candidates Campaign Sunday

By R. GREGORY NOKES
Associated Press Writer

President Nixon, Sen. George McGovern and Sargent Shriver have been seeking votes from Columbus Day crowds as the presidential election campaign approaches its final four weeks.

Of the top four candidates, only Vice President Spiro T. Agnew did not campaign Sunday, but he planned to resume campaigning tonight at a rally at Anaheim, Calif.

One Sunday campaigner, Eunice Kennedy Shriver, wife of Democratic vice presidential candidate Sargent Shriver, won a tug-of-war for a microphone before making herself heard in Baltimore.

President Nixon praised labor leaders and paid tribute to ethnic groups at a Columbus Day dinner sponsored by Italian-American organizations in Washington.

Millions of immigrants have learned, Nixon said, that "America is a country in which a man or woman has an equal chance at the starting line and an equal chance to get to the top."

"Let us be proud to be Americans," he said to cheers. He praised AFL-CIO President George Meany as among labor leaders who "stand up for America."

Nixon's only other announced campaign appearance this week is a quick trip to Atlanta on Thursday.

Sen. McGovern, the Democratic candidate for president, headed for New York City today for the annual Columbus Day parade. He was to go to Detroit later in the day on another coast-to-coast campaign swing.

McGovern taped Sunday a television speech on his proposals for a Vietnam peace. Scheduled for viewing Tuesday night, the speech is said to contain a step-by-step plan for U.S. withdrawal from Indochina.

Shriver participated in a Columbus Day parade in Providence, R.I., Sunday, winning a belated endorsement from state Democratic Chairman Lawrence McGarry.

Shriver also made a reference to the poor showing by the Democratic ticket in most polls. He said that if Columbus had listened to the polls he would never have set out on his journey to the New World because the indications would have been that the world was flat.

Shriver planned to attend a breakfast with labor leaders in Baltimore today and then go to Philadelphia and Pittsburgh.

Mrs. Shriver engaged in a brief struggle with a state Democratic party official who tried to take the microphone from her at a Sunday beer party in Baltimore.

The Fair Campaign Practices Committee said today that the 1972 campaign "will be the dirtiest in recent years." It said it has handled "more complaints about dirty politics in the five weeks of the 1972 campaign than in any comparable period in any year since it started keeping statistics.

Joint Rites For Mother, Daughter

Joint funeral services were held at 10 a.m. today in Lamar-Smith Funeral Chapel in Dallas for Mrs. Belle Caton, 81, of Breckenridge and her daughter, Mrs. Helen McCown, 54, of Dallas. Mrs. Caton died Saturday in Stephens Memorial Hospital and her daughter died at a Dallas Hospital on Friday.

Mrs. Caton was born July 4, 1891, in Honey Grove. She married Mat Caton in 1910 in Abilene. They farmed in Avoca prior to moving to Breckenridge in 1948. He died in 1960.

Mrs. McCown was born Nov. 27, 1917 in Jones County.

Mrs. Caton is survived by a daughter, Mrs. Leslie McBeth of Snyder; three sons, Drue of Breckenridge, Tom of Beaumont and Bill of Anderson, S.C.; a sister, Mrs. Mary Irvin of Sulphur Springs; 13 grandchildren and eight great-grandchildren.

Mrs. McCown is survived by three daughters, Mrs. Patricia Wagner of Dallas, Joan McCown and Cathy McCown, both of Odessa and a son, Jerry Jones of Houston.

J.D. Mitchell Dies At Seminole

Word was received here this morning of the death of J.D. Mitchell at Seminole.

Mr. Mitchell was the brother of Mrs. Sterling Williams and Oleita Mitchell, both of Snyder, and was married to the former Ila B. Periman.

Funeral arrangements were pending.

S. Martinez Rites Here

Sotero Martinez, 60, of Fort Worth, who had been visiting here for the past three weeks, died at 5:30 p.m. Saturday in Cogdell Memorial Hospital.

A native of Snyder, he was a reitred railroad worker.

Mass is set for 10 a.m. Tuesday in Our Lady of Guadalupe Catholic Church. Burial will be in the Snyder Cemetery, under direction of Bell-Seale Funeral Home.

He is survived by his wife, Irene Martinez, of Fort Worth; three daughters, Alice Castro of San Antonio, Svlena Martinez of Snyder and Estella Martinez of Uvalde; a son, Sotero Martinez Jr. of Uvalde; a sister, LiGrada Ramos of Snyder; three brothers, Jesse Hernandez of Kerrville, Sabastion Martinez of San Francisco and Vatura Martinez of Sacramento, Calif.

SALES TAX OR PROPERTY TAX
Which Is The Fairest Way To Provide City Services?

The Snyder City Sales Tax election offers Snyder voters a choice.

Voters can choose a one percent city sales tax which everyone pays, or by rejecting the sales tax at the polls, choose to continue reliance on increased advalorem property taxes which home owners and property owners pay.
The sales tax would not apply to such items as automobiles, groceries, gasoline, prescription medicines, cigarettes, school lunches, or many other purchases. It would be paid only on the items now included in the state sales tax.

One fact is certain----additional revenue must be raised for operation of our city services. Please go to the polls and vote on October 10 so that Snyder can continue to provide good city services.

The Weeder's Guide

By EARL ARONSON
AP Newsfeatures

Spring and fall yard cleaning becomes easier with a plastic net mesh spread on the ground to receive leaves and debris. Just rake on, pick up the corners, fold and you have an easy-to-manage bag.

The net (Conwed Corp.) is impervious to mold, mildew and corrosion damage and will last many seasons. The 8 foot by 8 foot plastic mesh weighs only eight ounces and can be folded and stored in a shoe box.

After spreading the net, rake onto it leaves from the immediate area, gather the corners and tote away the load. This saves Many trips with a lawn cart or bushel basket, since the net holds much more.

An underground, automated watering system will free you of much lawn care all through the hot summer. There are an estimated half million systems in operation already.

Are they expensive? Do they use more water? Will installation destroy the present lawn? Should you operate the system at night?

New sprinkler heads with wider coverage and use of plastic pipe (longer-lasting than some metal pipe) have brought systems down to within reach of most homeowners in the last five years.

The project may be a major initial investment, but it can increase the value of property and it is available for FHA financing. Most run 10-15 cents a square foot, depending on the system installed, labor costs, the number of trees and shrubs on the property, the property shape and soil condition.

Lower water bills will reduce the investment. The system uses much less water since it may be programmed to supply only as much as is needed for healthy turf. The best systems deliver water only as fast as the soil can absorb it, so there is no loss from runoff.

A clock-controlled automated system can water lawns early in the morning (4 a.m. to 6 a.m.) when pressure is highest and loss from evaporation least.

Watering at night causes no harmful fungus problems. Actually, watering before sunrise will wash away dew and inhibit fungus and bacteria. Golf courses water largely before sunrise. They water in the daytime to cool grass during prolonged hot weather.

New pipe-pulling and sodding equipment hardly disturbs the lawn during installation, often with only a fine surface slit showing. A fortnight later all signs generally have disappeared.

HONORED AT COFFEE—Mrs. Les Francis was honored at a farewell coffee Saturday morning at the Martha Ann Woman's Club. Hostessing the event were Mmes. Bob Stewart, Ted Crenwelge, Cloyce Talbot, John Gary, Mal Donelson and John Fagin. Pictured from left are Mmes. Josephine Randals, Rex Nall, Joe Sentell, the honoree, Amos Joyce, John Reed, Ray Courtney and David Harlin.

SATURDAY

The Martha Ann Woman's Club presents a Harvest Brunch featuring novelist Jane Gilmore Rushing. The brunch will be at 10 a.m. at the club house. Reservations may be made by calling 573-3427.

To avoid excessive engine wear after high-speed turnpike driving, let the engine idle for several minutes before shutting it off. This allows the cooling system to drain excess heat from "hot spots" and equalizes the temperature throughout the engine block.

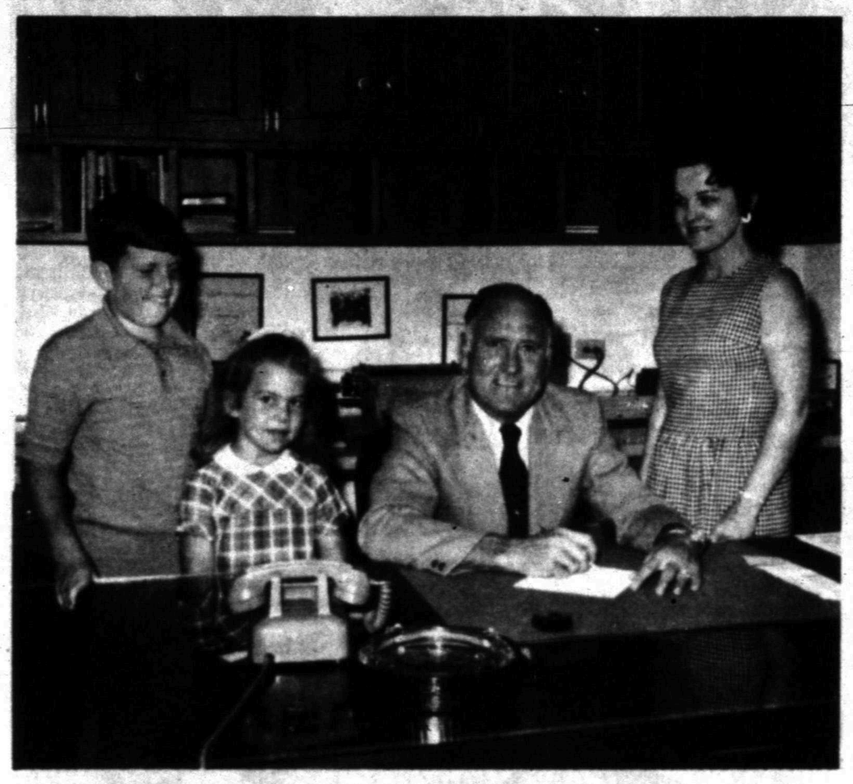
NOTICE

ALL CITY OFFICES LOCATED IN THE SNYDER CITY HALL WILL REMAIN OPEN FOR BUSINESS ON ELECTION DAY TUESDAY, OCTOBER 10, 1972.

THE CITY SALES TAX ELECTION WILL BE CONDUCTED IN THE CITY COUNCIL ROOM LOCATED IN THE WEST END OF THE CITY HALL.

CITY OF SNYDER

An estimated 13,074,000 school children are in need of some form of eye care.



MAYOR SIGNS PROCLAMATION--Mayor Bill Seale, seated, signs a proclamation declaring the week of Oct. 8-14 as PTA Week in Snyder in accordance with National PTA Membership Enrollment Month. Pictured with him are Mrs. Mal Donelson, membership committee chairman at Stanfield Elementary, and her children, Devin and Laurie. Everyone who hasn't is urged to join PTA this week. Schools in the area having PTA organizations include North Elementary, Stanfield, Ira and Hermleigh.

Center Releases Survey Results

WASHINGTON (AP) — The John F. Kennedy Center for the Performing Arts has released the results of a survey sent to 500 music critics and publishers.

In response to the question, "What do you consider the most significant work of the past 25 years?" the work receiving the most votes was Benjamin Britten's "War Requiem." Then, in order, came Krzysztof Penderecki's "St. Luke's Passion," Leonard Bernstein's "Mass" and Andrew Lloyd Webber and Tim Rice's "Jesus Christ Superstar." There were 76 replies to the survey.

Igor Stravinsky received the most votes in two categories, most influential composer and the person whose works are predicted to be performed 50 years from now.

Most influential composers, rated following Stravinsky, are Karlheinz Stockhausen, John Cage and Pierre Boulez. Other composers whose works are expected to be heard in 50 years are Aaron Copland, Benjamin Britten, Serge Prokofiev and Leonard Bernstein.

A cream cheese ball rolled in chopped walnuts and placed in a drained canned cling peach half gives extra zing to a fruit salad plate.

SORT OF GOES AGAINST THE GRAIN!

Jobless Rate, Inflation Nip-And-Tuck Game

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — The jobless rate remained at 5.5 per cent in September, a level that drew praise from the President's advisers and criticism from labor leaders. Neither is the best response; understanding is what is needed.

In the context of the past 15 or 20 years, that percentage is neither high nor low, which leads to the presumption that there might be a reason for the rate sticking in that area. And there is.

The story of jobs in the American economy is not an isolated one, because if you speak of jobs you automatically speak also of prices. There is a delicate nip-and-tuck game between them, and it never ends.

Simplified, there is a tendency of prices to rise as the unemployment rate is pushed lower, mainly because the least productive skills are called into use, as are the least desirable units of plant and equipment.

The loss of efficiency is made up, therefore, in higher prices. The seller's unit costs are higher, and so he attempts to recover those extra costs through higher price tags.

The question of when a jobless rate is satisfactory really never can be answered. So long as people are forced onto welfare because they cannot sell their skills, minor as they are, the situation is unsatisfactory.

No economist has conclusively demonstrated to date how low the rate can be pushed without starting the inflation fires again. And so, a rate of 5 or 5.5 per cent is high or low depending largely upon a point of view.

There is no disagreement, however, that the U.S. federal government is committed to probing into this unknown area. It is committed to do so by law, the Employment Act of 1946, which calls for maximum use of the nation's assets.

It means that the nation is committed to maximum growth of its economy—to ever-greater production, jobs, standards of living; to a red hot economy, in other words.

But there is a limitation imposed by that act that prevents the country from burning the candle at both ends. If the attempt to push the economy forward results in inflation, then a compromise must be called.

It means that full employment is not a specific percentage of the labor force, but is instead a percentage of the labor force in relation to the rate of inflation.

Blood Problems Worsen

HOUSTON (AP) — A Michigan blood bank authority says blood problems facing most parts of the country are growing worse all the time.

Only when some type of permanent answer is found will severe blood shortages be prevented, said Dr. Richard Walker.

Walker, chief of the blood bank and transfusion services at William Beaumont Hospital in Royal Oak, Mich., told a seminar here that crisis appeals for blood are only stopgap measures at best and help out only for brief periods.

Such means cannot be relied on every time a community or an individual hospital has a blood shortage, he said.

He suggested a method similar to the jury selection system be instituted to insure a continuous supply of blood donors.

He said he wouldn't rely on this jury type system exclusively for all blood needs but "it does have a lot of merit and it's high time someone started looking at some new ideas."

He said another possibility or perhaps one that could dovetail into the jury idea would be that at age 18, when all American youths register for the military, they could also fill out a permanent blood file.

These records could then be used to summon blood donors from time to time.

"The whole point is that now in most communities the same donors are giving over and over as often as they can," he said. "That's not really fair."

"With a more equitable plan, no one should have to be called for blood except perhaps every five or seven years as an average."

Walker said most of the incentives that have been tried to attract donors in recent years have been only partially successful at best and some have failed completely.

Gimmicks like free tickets for blood donors and the whole philosophy of paying donors just doesn't get the job done, he said.

Junior Editors' Quiz on IODIZED SALT

QUESTION: *How is iodized salt made?*

* * *

ANSWER: Iodized salt is made by adding iodine to the salt during the refining process. In earlier times, salt appeared dirty in appearance. It seemed to be full of dark specks. Then the salt industry, through methods of refining, made salt more attractive in appearance. It was found that the crude salt contained iodine that was eliminated through the refining processes. Now, salt is treated with iodine for health reasons.

Scientists have found that iodine is necessary to the proper functioning of the thyroid gland. In many sections of the world and in many parts of our country, people suffered from malfunction of the thyroid gland because of a deficiency of iodine in the soil and, therefore, in the food products. Iodine is as vital to the thyroid as iron is to the blood. Thyroid disorders are serious. In order to counteract these conditions, health officers attacked the problem by adding minute quantities of iodine to table salt. It is a seasoning used by a majority of the people.

10-9

(Michele Maier of Champaign, Ill., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Mailbag Yields Facts

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Alligators don't have to worry about getting false teeth. Some members of the alligator family grow as many as 40 sets of teeth in a lifetime.

The auto has become man's worst enemy — except for man himself. Of America's 114 million drivers, one in five was involved in a car accident last year, 54,700 were killed and five million were injured.

Spectacles weren't introduced until around the dawn of the 14th century. Until then millions of short-sighted people throughout the world lived out their lives without ever really seeing a mountain, a cloud or the stars.

One of the myths about sex most people used to believe — and many still do — is that food containing saltpeter will rob both men and women of sexual desire. It doesn't.

You may have trouble finding your identity, but you can be pretty sure of one thing: You are different from everyone else on earth. Except for identical twins, who do have the same mixture of genes, since they both come from a single fertilized egg, your chance of being exactly like any other human being is infinitesimally small. The odds against it can be expressed only by the digit one followed by 9,301 zeros.

The Good Old Days: In Montgomery Ward & Co.'s original catalogue in 1872 here were a few of the prices quoted: six pairs of Army wool sox, $1; a set of 12 white-handled knives and forks, $1; a six-gallon keg of bourbon whisky, $1.70.

Postpone it: If you are planning to try to swim the English Channel, better wait now until next year. Of more than 1,400 swimmers who attempted this feat, fewer than 200 have succeeded since Matthew Webb first conquered the Channel in 1875. Strong tides and the cold, choppy waters defeated more than 1,200 swimmers.

Belittled sage: Confucius, long revered by the Chinese as the wisest of their wise men, is now officially in disfavor in Red China. Authorities feel his teachings tend to undermine authoritarianism because they stress the ethical responsibilities of individuals. But the books of Confucious, burned in 213 B.C., by an earlier short-lived dictatorship, survived to become the basis of Chinese education for more than 2,000 years.

Worth remembering: "All you can do about children these days is to have them."

It was Samuel Butler who observed, "A hen is just an egg's way of making another egg."

Rust Pleases UT Architects

AUSTIN, Tex. (AP) — They haven't even finished building the new Communications complex on the University of Texas campus, and it's already starting to rust. The architects are pleased.

It's a fairly new construction process, using what's known as weathering steel. It starts out looking rather nondescript, begins to streak as the rusting starts, and within six months or a year becomes a uniform orange-brown.

But the architects promise it's not normal rust—it won't chip off or work its way through the steel until it crumbles.

They say the surface will harden, will require no maintenance and will last the life of the building.

TRAIN WRECK VICTIMS BURIED--Victims of a train derailment Thursday night are buried Saturday at the Santiago Cemetery in Saltillo, Mexico. Rescue crews have finished their work at the site of Mexico's second worst rail disaster and authorities put the number of confirmed dead at 204 and injured at 1,098.

Controversial F111s Are The Greatest Say Pilots

WASHINGTON (AP) — To its critics, the F111 is a fiasco. To the men who fly it, it's the greatest airplane ever built.

Formerly known as the TFX, for tactical fighter-experimental, the F111 has been steeped in controversy—from its birth 10 years ago to its return to combat earlier this month.

Robert S. McNamara, President John F. Kennedy's secretary of Defense, conceived it as the most sophisticated, flexible, economic airplane yet devised—a single weapons system capable of performing the most divergent missions of both Navy and Air Force.

But in the past decade:

—After spending more than $200 million, the Navy canceled its version of the F111, concluding its was impractical to use on aircraft carriers.

—In six years of operations, 23 F111s crashed, killing 17 crewmen and leaving eight others missing.

—The Air Force, finding it impractical as a "dogfighter" against enemy MIGs because of its wide turning radius, assigned it primarily as a low-level, all-weather attack bomber.

A "fiasco," declared the Senate permanent investigations subcommittee in a 1970 report on the TFX.

The swing-wing F111s were given a brief combat test in Indochina in 1968. But after 55 missions they were brought home. Of six intially sent over, three crashed, including two which vanished mysteriously without a trace.

A number of mechanical and structural flaws forced the Air Force to ground the planes on a number of occasions since then.

Despite the losses, the Air Force contends that on more than 200,000 hours of flight operations, the F111s have compiled a better safety record than any other American-built supersonic aircraft.

When the U.S. resumed bombing of North Vietnam last spring, the Air Force was anxious to return the planes to combat and prove their worth. Pentagon leaders, after some initial hesitation, ordered two squadrons to Thailand this month.

Within hours of their arrival, three of the aircraft took off on night bombing runs over North Vietnam. One never came back, disappearing without a trace.

The Pentagon went to great pains last week to reaffirm its confidence in the plane.

Pilots who have flown the F111 say it represents a technological advance over any plane now flying, and they say it will prove itself to be a good combat aircraft.

"There's no other airplane in the world that can do what the F111 can," said one pilot. "You have to fly it to appreciate it. In my experience covering 20 years in fighters, this is the finest aircraft I've had my hands on."

What's so special about the plane? For one thing, its movable wings extended at right angles enable it to take off and land at low speeds on short runways, or loiter in the sky for long periods.

Perhaps the F111's most revolutionary feature is its terrain-following radar, enabling a computer to follow a map of the earth, at night or day, in any weather, and guide the aircraft without the pilot touching the controls.

Amtrak Requests Arkansas

WASHINGTON (AP) — The president of Amtrak has asked the Senate appropriations subcommittee on transportation to include Arkansas in the Amtrak rail passenger system.

Sen. John L. McClellan, D-Ark., said Saturday that Roger Lewis, Amtrak president, had recommended an appropriation of $4.1 million. This is the amount McClellan has sought to make Arkansas a part of the federally subsidized national railroad passenger program.

McClellan said the request for Arkansas was included in Lewis' request for about $57 million for expansion and improvement of Amtrak. Lewis earlier had told Arkansas officials that he would draw up a plan for including the state in the system.

Arkansas was left out of the initial phase of the system. McClellan had said earlier Saturday that if Congress approved the $4.1 million request for Arkansas, the funds would enable Amtrak to operate passenger trains that would operate from St. Louis through Little Rock to Texarkana.

From Texarkana, the trains would proceed through the Cotton Belt Route to Dallas, where Amtrak would connect with the Missouri-Kansas-Texas rail service going to Temple, Tex., and San Antonio.

"With the $4.1 million I have requested, Amtrak would be able to implement this planned route right away and give our people the train service they have not had and seriously need," McClellan said.

The senator said he was "persuaded" that the supplemental appropriations sought by Lewis would be made.

Pedaling Bobbies Getting Scarcer

BROADWAY, England (AP) — Bobbies on bikes are getting scarcer in Britain, says a report by a Worcestershire constabulary. The two-wheeled transport is being replaced by patrol cars, the report says. "This may be a logical step in many urban areas but in places like this where the policeman has only to patrol small rural areas, bicycles should continue to be issued," it adds.

SPECIAL RECOGNITION—Mrs. Elizabeth Connell receives red roses from D. Burns in appreciation for her work on behalf of the Ranch Headquarters Museum at Texas Tech. Mrs. Connell was a founder of the Scurry County Ranch Headquarters Association. She was re-elected vice president of the association at Lubbock during the business session Saturday. Some of the 1,200 attending the annual meeting are shown in foreground.

AT RANCH HOUSE DEDICATION—Fay and Myrtle Harrell are shown on the porch of the ranch house they contributed to the Texas Ranch Headquarters Museum during dedication ceremonies Saturday. Dedication of the early-day house, which had been restored by the Harrell Sisters, was a feature event on the program at the third annual meeting of the Ranch Headquarters Association. (SDN Photo By Bill Baldwin).

Scurry Delegation Has Major Ranch Day Role

LUBBOCK—Scurry Countians had major roles at the third annual meeting Saturday of the Ranch Headquarters Association of the Texas Tech Museum.

The top entertainment feature was the Pageant Wagon Shindig, under direction of Charles Holland, head of the Western Texas College Drama Department, and selections from the musical comedy, "Brazos Bill and the Indians."

The "shindig" is a narration of history of West Texas, particularly Scurry County. Wagons with representative historical scenes were pulled across the earthen stage before a crowd of 1,200 persons.

Another major feature was dedication of the Harrell House, an early-day Scurry County ranch house which was restored by Fay and Myrtle Harrell of Snyder. D. Burns, chairman of the board of overseers of the Ranch Headquarters Association, recounted the history of the house, noting that the Harrell Sisters spent several years restoring the house and its contents as they were in the early days of West Texas. The house was moved several weeks ago from the Harrell Ranch northeast of Snyder after it was contributed to the Ranch Headquarters Museum.

Burns announced the donation of Las Escarbadas Ranch House from the old XIT Ranch and some $50,000 to restore it.

During the business meeting, Robert L. Snyder was elected president, succeeding Dr. W. C. Holden in that post.

Mrs. Elizabeth Connell of Snyder was re-elected vice president and received special recognition for her efforts on behalf of the Ranch Headquarters Association. Haroid P. Brown, former Snyder resident, was re-elected secretary, while John Lott was re-elected second vice president and Charles Maedgen Jr. was elected treasurer, the post formerly held by Snyder, the new chairman.

Oct. 7 had proclaimed as Ranch Day by two states. Gov. Preston Smith of Texas and Gov. Bruce King of New Mexico had issued proclamations setting aside the special observance.

During the day, such activities as rope braiding, saddle making, horse shoeing and quilt making were carried on at the Ranch Headquarters Museum.

Facing Expulsion

RIO DE JANEIRO (AP) — Thousands of foreigners may be expelled from the Brazilian state of Mato Grosso for not reporting to immigration authorities, the Brazilian news agency AJB reported.

ELECTION NEXT TUESDAY..... ABOUT THE CITY SALES TAX

No matter what method is used, there is no painless way to raise tax money. If it were possible, every citizen would prefer to pay no taxes at all. But if we paid no taxes then we would receive virtually no city services and that would be worse than paying taxes.

The Snyder City Council has made the right choice in putting the question of a one percent city sales tax on a ballot for the voters of Snyder to decide. This is a very important decision. If the sales tax is approved everyone will help share in the cost of running their city. If it fails, then Advalorem tax payers will continue to pay most of the cost of local government, while everyone shares in the benefits.

Please go to the poll Tuesday, October 10, 1972 and cast your vote on this matter of vital importance to our city.

(POLL OPEN AT SNYDER CITY HALL - 8:00 A.M. - 7:00 P.M.)

Miami Has 4-0 Record

By HUBERT MIZELL
Associated Press Sports Writer

Miami's well-produced, well-directed Dolphins have wowed them on the road with four-star ratings before audiences in Kansas City, Minnesota and New York.

That was supposed to be the tough part.

But now, the Dolphins take their smash hit home to the Orange Bowl as the unbeaten and currently unchallenged sensations of the American Conference East in the National Football League.

"We think we can win every game," said Garo Yepremian, the balding field goal whiz of the Dolphins.

Sunday, Miami chopped down the New York Jets 27-17 to run its record to 4-0 and open a two-game division lead in the only early runaway among the six NFL races.

Dallas rallied to nudge Pittsburgh 17-13 and Washington blanked winless Philadelphia 14-0 as the Redskins and world champion Cowboys remained tied at 3-1 in the National Conference Eastern Division.

Detroit and Green Bay are deadlocked with 3-1 records in the NFL Central. The Lions outlasted Atlanta 26-23 and the Packers nudged the Chicago Bears 20-17.

The Los Angeles Rams squashed San Francisco 31-7 to snatch the NFC West top spot from the 49ers. San Francisco and Atlanta are a half game behind the Rams.

Cincinnati broke a tie with Cleveland in the AFC Central by belting Denver 21-10 while the Browns were bowing to Kansas City 31-7.

The Chiefs needed a victory to retain the Western Division lead over much-improved San Diego. The Chargers nipped the slumping Baltimore Colts 23-20 and trail Kansas City by a half game.

Oakland, 1-1-1, can tie San Diego for the runnerup spot in the American Conference West by downing Houshon, 1-2, in tonight's nationally televised match in the Astrodome at 9 p.m., EDT.

In other Sunday games, Buffalo smashed New England 38-14, the New York Giants massacred mistake-prone and winless New Orleans 45-21 and St. Louis spilled struggling Minnesota 19-17.

Miami quarterback Bob Griese won a superstar showdown with Joe Namath of the Jets, picking apart a weak New York secondary to connect on 15 of 27 throws for 220 yards, including a 16-yard payoff toss to Howard Twilley.

Namath was bothered by a three-man Dolphin rush and an extra defender in the secondary, not to mention several dropped passes by his teammates. Joe was 12 of 25 for only 125 yards and didn't toss for a score.

Burly Larry Csonka rushed for 102 yards and sidekick Jim Kiick ran for two touchdowns.

Playoff Slate

Playoff Schedule
By The Associated Press

Here is the schedule for baseball's championship series in the National and American Leagues:

National League

Sat., Oct. 7—Pittsburgh 5, Cincinnati 1

Sun., Oct. 8—Cincinnati 5, Pittsburgh 3

Mon., Oct. 9—Pittsburgh (Briles 14-11) at Cincinnati (Nolan 15-5 or Grimsley 148), 3 p.m., EDT, national TV

Tues., Oct. 10—Pittsburgh at Cincinnati, 3 p.m., EDT

Wed., Oct. 11—Pittsburgh at Cincinnati, 3 p.m., EDT, if necessary

American League

Sat., Oct. 7—Oakland 3, Detroit 2, 11 innings

Sun., Oct. 8—Oakland 5, Detroit 0

Tues., Oct. 10—Oakland (Holtzman 19-11) at Detroit (Coleman 19-14), 1:30 p.m., EDT

Wed., Oct. 11, Oakland at Detroit, 1:30 p.m., EDT, if necessary.

Thurs., Oct. 12, Oakland at Detroit, 1:30 p.m., EDT, if necessary.

Hogs Stage Great Comeback, 27-13

By DENNE H. FREEMAN
Associated Press Sports Writer

Guess who's leading the so-called "balanced" Southwest Conference football race? Arkansas and Texas...this is a recording...Arkansas and Texas...this is a recording....

But midway in the third quarter at Amon Carter Stadium in Fort Worth Saturday night you could have gotten 10-to-1 odds that Arkansas wouldn't be tied with defending champion Texas at 1-0 for the SWC lead. TCU was ahead 13-0 and Arkansas couldn't do a thing right.

That's when Joe Ferguson turned in perhaps the finest performance of his Razorback career. He threw four touchdown passes in what Coach Frank Broyles called "one of the best come-from-behind ball games I've ever been involved in."

Arkansas had staggered to a 2-1 record but the turn around could be the spark the Razorbacks needed to play like the team that was the pre-season favorite to win the SWC title.

"The lack of confidence we have displayed all year ended in the third quarter," Broyles said.

TCU Coach Billy Tohill insisted that "The conference race is still wide open. You can't count anybody out."

But Tohill admitted the Horned Frogs were beaten 27-13 by a team with superior skills.

"Arkansas has as much ability to throw and catch as any team I've ever seen," Tohill said. "When Ferguson is on they are hard to stop. They put it all together against us."

Tohill said Ferguson went for the bomb each time he discovered the Horned Frogs in man-to-man coverage.

"Everybody knows what kind of player he is," Tohill said. "He has the strongest arm in college football. But he hadn't been having much success until they played us."

It was Arkansas' 14th consecutive victory over TCU.

Asked if he was glad TCU didn't have to face senior Ferguson next year, Tohill said, "Oh, they'll just have somebody else."

In other games Saturday, Texas remained the only unbeaten SWC team with a 27-12 victory over Utah State and Rice tumbled from the unbeaten ranks with a 12-6 loss to LSU.

Baylor dropped Miami 10-3, Texas Tech drubbed Tulsa 35-18, SMU bombed New Mexico State 55-6, and Houston tied Virginia Tech 27-27.

The SWC now has a glittering 16-7-2 intersectional record.

The annual Oklahoma-Texas feud is the big game on the SWC card this week. Oklahoma beat Utah State 49-0 but Texas Coach Darrell Royal said "Comparative scores don't mean a thing to me."

Utah State quarterback Tony Adams had a more succinct comparison: "Oklahoma definitely is a bit quicker."

Texas Tech is at Texas A&M and Baylor is at Arkansas in important SWC games. Intersectional jousts find TCU at Tulsa and San Diego State at Houston.

Cooper JV Wins 47-7

The Abilene Cooper junior varsity flailed the Tiger JV 47-7 here Saturday afternoon.

Cooper tallied first on a 15 yard run by Ed Sutton. The Bengals tied it up on a 12 yard pass, Widgeon Emerson to Larry Moiser, and Doak Witherspoon kicked theextra point.

The visitors went ahead for good on a 4 yard touchdown run by Sutton. Tommy Louis scored three times on runs of 2, 1 and 50 yards. Steve Wilson passed 28 yards to Roy Woodard for another touchdown, and Mike Pearson scored one on a six yard run. Larry Martindale kicked five extra points.

Sophs Defeat Abilene, 36-8

ABILENE—Snyder High School's sophomore varsity team thumped the Abilene B team 36-8 here Saturday afternoon.

The visitors took an 8-0 lead in the first quarter on a 65 yard drive with David Wilson sweeping right end from the five for the touchdown and Win Bunch going around left end for the two bonus points.

A drive from midfield netted another touchdown for the Snyder team late in the first quarter. Win Bunch completed an 8-yard touchdown pass to Roy Lee Carter. Bunch passed to David Mayes for the two extra points as Snyder took a 16-0 lead at halftime.

There was no scoring in the second quarter, but Abilene got a touchdown in the third period on a two yard plunge across tackle by Eddie Greenlee. Gary Smith caught a pass from Robert Kearney for the two-point conversion as the hosts pulled within eight points.

Snyder drove 70 yards late in the third quarter with Ricky Howell crashing over right tackle from the three for the touchdown. Win Bunch swept left end for the two bonus points as the count soared to 24-8.

Ricky Howell scored on a trap play up the middle early in the fourth quarter. The play covered 55 yards. A fumble on the conversion play left the visitors ahead 30-8.

Later in the last quarter, Bunch and Kerry Fritz teamed up on a 45 yard pass and run play for the final touchdown. A run for bonus points was stopped short.

The entire Snyder defensive secondary--Greg Gafford, Roy Lee Carter, Win Bunch, and Bernie Weems--looked good. Tackle Mark Franks also was an outstanding defender.

The sophomore varsity will be at Loraine Friday night.

Campaneris Hurls Bat, Is Suspended

DETROIT (AP) — American League President Joe Cronin announced today that shortstop Bert Campaneris of the Oakland Athletics has been suspended for the remainder of AL playoffs and fined $500 for throwing a bat during Sunday's game against Detroit.

The suspension, Cronin said, is only for the duration of the playoff championship series. The A's lead the best-of-five series 2-0. Should they win, Campaneris would be eligible for the World Series.

In notifying Campaneris of his suspension and fine, Cronin said.

"Such action cannot and will not be tolerated."

Campaneris, after being struck on the ankle by a pitch thrown by Tiger pitcher Lerrin LaGrow in the seventh inning, flipped his bat in LaGrow's direction.

Players from both teams streamed onto the field and Tiger Manager Billy Martin had to be restrained by three umpires.

The bat sailed harmessly over LaGrow's head, but both players were ejected from the game.

Before the official suspension and fine were announced, Oakland Manager Dick Williams said the swelling of Campaneris' ankle had worsened since the A's left Oakland for the trip to Detroit, and he was "definitely out for the rest of the playoffs."

Williams said Campaneris was returning to Oakland as soon as possible for treatment of the ankle.

Westerners Win Matches

KERRVILLE—Western Texas College golfers won two dual matches over Schreiner Institute here Friday and Saturday.

WTC fired a 369 for 9 over par to win the Friday match and they shot a 371 to win Saturday's match. Schreiner carded a 396 Friday and a 383 Saturday.

Individual scores of WTC golfers Friday: Max Tenorio 69, Danny Walters 71, Tim Stuerzenberger 75, Steve Rutherford 76, Blake Arnwine 78, Mark McCraney 79, and Ricky Hopper 80.

Each school played seven players and took the five low scores to decide match winner in medal play. Schreiner's best scores were 77, 78, 80, 80 and 80.

Saturday scores: Mark McCraney 71, Danny Walters 72, Tim Stuerzenberger 75, Max Tenorio 76, Steve Rutherford 77, Blake Arnwine 79, and Ricky Hopper 79. Schreiner carded a 71,77, 77, 79 and 79.

Max Tenorio was medalist Friday while Mark McCraney and Schreiner's Gremmer tied for medalist honors Saturday. Par was 72.

WTC will host Schreiner in two dual matches here Friday, Oct. 13, at 1 p.m. and Saturday, Oct. 14 at 8 a.m.

Fishing Licenses To Cost More?

AUSTIN, Tex. (AP) — Hikes in the cost of hunting and fishing licenses are in the hands of a House subcommittee that meets Monday, but indications Friday were that the bills faced an uphill fight.

The increases, as well as the elimination of some exemptions included in the current law, brought some sharp questions at a Parks and Wildlife committee hearing Friday.

"We can stand some increase," said committee chairman Rep. Forrest Harding of San Angelo, "but this raises fishing licenses over 100 per cent."

A subcommittee named by Harding will hear the bills Monday.

Under the bills hunting and fishing licenses would cost $5.25 each after Sept. 1, 1973. Hunting licenses now cost $3.25 and fishing licenses $2.15.

Agnew Has New GOP Golf Balls

PALM SPRINGS, Calif. (AP) — Vice President Spiro T. Agnew has something new: "Republican golf balls—guaranteed to go right down the middle."

Agnew, clad in purple shirt, lavender pants and white shoes, was joined for a round of golf Sunday at the El Dorado course by comedians Bob Hope, Jack Benny and his weekend host, Frank Sinatra.

Oakland Has 3 Game AL Lead

By ERIC PREWITT
Associated Press Sports Writer

OAKLAND (AP) — The Oakland Athletics, with a zero popularity rating in Detroit, would like to end the American League playoffs in Tiger Stadium Tuesday and get out of town quickly.

They moved within one victory of a three-game sweep in the best-of-5 series Sunday when John "Blue Moon" Odom threw a three-hitter to beat the Tigers 5-0 here.

The teams had today off, but American League President Joe Cronin had a decision to make—whether to take any disciplinary action against A's shortstop Bert Campaneris.

The Cuban infielder got the A's their first run Sunday and later got himself kicked out of the game for throwing his bat at Tigers' reliever Lerrin LaGrow.

Cronin, one of the 30,088 spectators, said he would get full reports from the umpires "and then sleep on it" before deciding what action to take.

"That was the dirtiest thing I ever saw in the game of baseball," Tigers' Manager Billy Martin said. "He's got to be suspended for the rest of the playoffs."

Cronin said, "The way I fee personally, any time you swing your bat at another ballplayer, it's something that doesn't be long in baseball."

Campaneris was hit on the left ankle by a LaGrow pitch in the seventh inning. After picking himself out of the dirt, he flung his bat at the mound but missed the pitcher. The umpires prevented a fight between the teams and restrained Martin as he tried to reach Campaneris.

The A's shortstop went to a hospital for X-rays, which were negative.

Campaneris singled to open the A's first inning, stole second and third bases and scored on Joe Rudi's single. He got two more hits, including one in the A's four-run fifth inning.

Rudi, who had two hits Sunday, recalled later that he was under a pile of bodies in a fight that occurred the last time the A's played in Detroit.

"I don't know if there's bad blood between these teams. But I've been with the A's since 1968 and I can't think of a year we haven't had a fight with the Tigers," he said.

Oakland will pitch left-hander Ken Holtzman, 19-11 in the regular season for the West Division champions, against the Tigers' Joe Coleman, 19-14, in Tuesday's third game.

The A's will return here Tuesday night if they sweep the playoffs and go to Pittsburgh or Cincinnati, where the World Series will start, on Thursday night.

"I think we've got the better team, and I hope we end it Tuesday," Manager Dick Williams said.

Soucy Wins Sky Title

SHERMAN, Tex. (AP) — Test pilot Gene Soucy of Wichita, Kan., captured his third national aerobatics title Sunday after leading all four days of the competition at a one-time military air base here.

Soucy nudged Tom Poberezny of Hales Corners, Wis., for the official championship of the Aerobatic Club of America.

An aeronautics professor from Riverside, Calif., Art Scholl, wound up in third place and Charles Hillard of Fort Worth, Tex., the reigning champion of the world in the sport, finished a disappointing fourth.

Points were awarded in the competition for skill in performing sequences of flying maneuvers in small planes.

Auburn, Florida Pull Off Upsets

By HERSCHEL NISSENSON
Associated Press Sports Writer

The latest Cinderella teams—Auburn and Florida—get to try on college football's glass slipper for real next weekend.

Auburn, 19-13 conqueror of 18th-ranked Mississippi Saturday after upsetting Tennessee the previous week, now travels to Louisiana State while Florida, fresh from a shocking 42-13 rout of 13th-ranked Florida State, visits Alabama. Both LSU and Alabama are in The Associated Press Top Ten.

"Every man who played made a major contribution," Auburn's Shug Jordan said after the unheralded but now 17th-ranked Tigers overtook favored Ole Miss with a 16-point outburst in the third period.

Florida's Doug Dickey told much the same same tale after the Gators broke open a tight game with three second-period touchdowns, including runs of 46 and seven yards by speedy sophomore Nat Moore.

"The defense just did a super job of getting us the ball," Dickey said after watching Florida State lose six fumbles and four interceptions.

The only other member of The AP's Top Twenty to taste defeat was No. 15 Stanford, a 30-21 loser to top-ranked Southern California's revenge-minded Coach John McKay.

Elsewhere, while second-ranked Oklahoma, sixth-rated Nebraska and No. 20 Iowa State all were idle, third-ranked Ohio State rallied from a 9-3 halftime deficit on three third-period touchdowns by sophomore fullback Harold Henson and beat California 35-18.

Alabama, rated fourth, pulled away from a 7-0 halftime lead and trimmed Georgia 25-7.

Fifth-ranked Michigan erupted for 28 points in the third period and sank Navy 35-7.

A pair of walk-on placekickers starred for No. 7 Notre Dame and No. 8 Louisiana State. Bob Thomas booted field goals of 47, 24 and 26 yards as the Irish blanked Michigan State 16-0 and Juan Roca connected from 46 and 53 yards in LSU's 12-6 struggle over Rice.

Texas, rated No. 9, was held to a 10-9 halftime lead by Utah State but got fourth-quarter touchdowns from Tommy Landry and Alan Lowry to beat the Aggies 27-12 and set up next Saturday's battle of the unbeatens with Oklahoma.

Haskel Stanback's three touchdowns and Art Reynolds' 96-yard run with an interception paced No. 10 Tennessee past Memphis State 38-6.

Sonny Sixkiller hit for three touchdown passes—two to John Brady—but 11th-ranked Washington needed Cal Jones' deflection of an Oregon pass in the end zone with 12 seconds left to subdue the Ducks 23-17.

No. 12 Colorado rebounded from its loss to Oklahoma State with a 38-17 decision over Kansas State.

Kermit Johnson scored twice as UCLA, No. 14, rallied in the second half to beat stubborn Arizona 42-31; No. 16 Penn State, which hadn't scored a first-half point in three previous games, exploded for 28 points and whipped Illinois 35-17.

Air Force, ranked 19th, leveled Colorado State 52-13.

National Loop Playoffs Tied

By RALPH BERNSTEIN
Associated Press Sports Writer

CINCINNATI (AP) — Cincinnati Manager Sparky Anderson talks like all he has to worry about is who will represent the American League in baseball's World Series.

Anderson's Reds used a pair of first-inning two-run doubles by Bobby Tolan and Tony Perez and solid relief pitching by Tom Hall to beat Pittsburgh Sunday 5-3 and even the National League's best-of-5 playoff series at 1-1.

The third game will be played here today.

"I said if we won today (Sunday) we would win it (the National League pennant)," said Anderson, now a picture of confidence. "I still think it will go five games and we'll win it."

The Cincinnati boss added: "I'm not being smart about it or popping off, I just feel that way. We're going home and that gives us an advantage."

Pittsburgh Manager Bill Virdon reacted predictably when informed of Anderson's words. "If they think they're home free, they've got another think coming," snapped the Pirates' skipper.

Anderson's biggest move in Sunday's victory at Pittsburgh was relieving starter Jack Billingham with two outs and runners at first and third in the fifth inning.

Hall pitched 4 1-3 innings of two-hit, one-run baseball to earn the victory.

Yet, if you looked at the statistics, bringing in Hall could have been devastating to the Reds.

During the season, Hall had worked five innings against Pittsburgh and posted an ERA of 10.43. He almost blew a 7-1 lead in one game, and in another one served a three-run homer to Willie Stargell. It looked as if Anderson was feeding the Christians to the lions ... uh Pirates.

Would you believe that the first batter Hall had to face was Stargell?

Anderson said he never even thought about the last time Hall pitched to Stargell. "Tom Hall's record speaks for itself this year," said the Reds' manager. Hall was 10-1 with eight saves and a 2.61 ERA.

"Some managers keep cards on those things," Anderson said. "I ain't smart enough to keep cards."

Hall came in with a 2-0 count on Stargell and worked it to a full count.

Now came the big pitch, a slider down and away for a called strike three. Hall controlled the game the rest of the way.

Stargell said of the strike-three slider, "It might have been a ball, but it was a hell of a pitch. Even if I do swing at it, how the hell do I hit it? I guess my judgment was bad."

FMA Favors Delaware Site For Superport

By JAY PERKINS
Associated Press Writer

WASHINGTON (AP) — The Federal Maritime Administration soon is expected to announce that offshore docking facilities—Superports—are the best way for the United States to import the oil it needs to stave off an energy crisis.

Top priority, aecording to a preliminary report, will be given to a site off Delaware—near the oil-hungry refineries of the East Coast that depend on foreign crude-oil for more than 50 per cent of their production.

But the final report also is expected to recommend a site somewhere off the Gulf Coast.

And it could arouse environmentalists, who earlier were instrumental in getting Delaware to ban a deep-water transfer facility in Delaware Bay.

The maritime report will not settle the controversy. Reports also are being prepared by the Corps of Engineers, the Council on Environmental Quality, and by several states that are fighting for the facility.

A Maritime Administration spokesman says the White House probably will make the final decision on whether a superport should be built and where.

The superport would either float or sit on tall stilts in at least 100 feet of water and would be located from 3 to 50 miles offshore. The huge facility would handle the large ocean-going supertankers that cannot dock in most relatively shallow U.S. harbors.

The advantage of the huge tankers is economical. The Maritime Administration's preliminary report said the cost of shipping oil from the Persian Gulf to the United States—a 24,000-mile round trip—would drop from $9.93 per ton in conventional ships to $7.27 per ton in the supertankers.

The figures are based on a superport connected by pipelines to onshore storage tanks and doing 200 million tons of business a year.

The National Petroleum Council says the Amount of oil imported by the United States is expected to rise from 3 million barrels per day in 1970 to 15 million barrels by 1985. Thus, superport backers contend, the need for a more economical way of shipping oil is great.

Studies done by several states indicate a superport would cost anywhere from $350 million upward—depending on whether it also was equipped to handle solid or containerized cargo.

Most backers feel it quickly would pay for itself. And several oil and pipeline companies have indicated they might be willing to foot the bill.

Environmental concerns also complicate the problem. But superport backers say floating skirts that would surround the supertankers while they unload would prevent any oil spills. And they claim an oil spill on the open seas is not nearly as devastating as a spill in a harbor.

There are several superport designs but the one gaining the most favor resembles a giant octopus. The body would be a pumping station connected by underwater pipelines to shore storage tanks.

THE INFORMED CONSUMER

BY CRAWFORD C. MARTIN
Attorney General of Texas

Nearly everyone has at sometime pondered the value difference between the three pound economy box of "whats-it" for $1.08 and the 33-½ ounce Jumbo size of the same product that sells for 61c. To add to the confusion even more you may find a 20 ounce regular size box available for 43c. Most people can figure out the size that offers the best cost per ounce value, but it takes time.

The unit pricing system aids in solving this type of problem for consumers. Unit pricing is a subject which has been written and talked about a lot. Several state legislatures have introduced unit pricing laws. New York City supermarkets are now required to comply with unit pricing systems. But many consumers still ask "what is it?"

Unit pricing is simply a plan in which the price of the merchandise of the item is shown on the package in two ways. The total price of the item is shown, but in addition there is a price per unit shown. For example: If one pound package of shelled pecans sells for $1.60, this price would be shown on the package. Additionally the unit price of 10c per ounce would be shown on the package. If a ten ounce package of pecans sold for $1.10 the package would show the total price of $1.10 and it would also disclose the unit price of 11c an ounce. You could see at a glance that the pecans in the one pound package cost one cent less per ounce than the pecans in the ten ounce package. The unit pricing information gives shoppers a chance to quickly and easily compare the relative unit cost of different size packages.

Of course the price per unit does not take quantity needs into account. If you need only ten ounces of pecans and the other six ounces would spoil before you could use them, the smaller size would be the proper size for you to purchase even though it costs more per ounce. Neither does unit pricing consider brand or quality differences. Assume that a box of Brand X contains 12 ounces of a product at a unit price of 3.5c per ounce and a box of Brand B contains 14 ounces of a like product at a unit price of 3.8c per ounce. If your family likes the taste of Brand B better you might still prefer to buy that product in spite of its higher unit price.

But if you simply want to get the most economical price, unit pricing makes your task much easier. You aren't faced with a series of mathematical problems everytime you enter the supermarket.

Over the years, the public has generally come to accept the fact that the larger size packages are more economical. This is usually true but not always. Often the smaller or medium size container is actually the cheapest buy per unit volume.

The informed consumer will compare prices before buying, even if the store she is shopping does not unit price its goods.

Satellites To Change Our Values

VIENNA, Austria (AP) — A U.S. scientist said today that "satellites are likely to change our value and social priorities in the future as much as the automobile did."

H. Guyford Stever, director of the U.S. National Science Foundation, told the 23rd International Astronautical Congress, that satellites would "play an ever-increasing role in the effort to maintain the natural systems on which we all depend."

Stever declared that the global communication satellites, had "more impact on world development than any other space activity."

He underlined possibilities inherent in the system of "remote sensing of earth's resources by satellites," explaining that the present experimental phase was marked by the recent launching of the Earth Resources Technology Satellite. Stever predicted that when satellite earth sensing systems join "the family of space applications for world development," the following can be expected:

"Developing countries which may be cautious about investing substantial scarce resources in space activities can in fact acquire the product or benefits from space activities at a very nominal cost.

"The nature and character of space satellites are such that very few of the data handling services can be efficiently provided on a purely national basis.

"Space capabilities, therefore, whether they relate to weather, communications, or resources will have to be applied and organized on an international cooperative basis."

The congress, whose main theme is "Space for World Development," opened in the large ceremony hall of the Vienna Hofburg Palace, President Franz Jonas of Austria, scientists from the Soviet Union, the United States and other nations concerned with space research are attending.

Language Study Is Compulsory

KARACHI (AP) — The government of Pakistan's Northwest Frontier Province has decided to make Arabic a compulsory subject in schools. A spokesman said knowledge of Arabic would allow students to understand the Koran and the Islamic religion better. Urdu is Pakistan's official language.

Each bidder shall deposit with his bid, security in the amount, form and subject to the conditions provided in the Information for Bidders.
No bidder may withdraw his bid within 30 days after the actual date of the opening thereof.
William A. Jones, President
Board of Trustees
Scurry County Junior College District.

Early Birds Get Parking Spaces

INDIANAPOLIS (AP) — The director of the department of administration for the city of Indianapolis may have stumbled across a way to get city hall employes to work on time.

Owen H. Meharg, director of the department, in reshuffling parking spaces in the City-County Building garage, decided to form "pool" parking spaces—150 spaces for 200 persons on a first come, first served basis.

Meharg is now worried over the early rush to get the "pool" spaces.

Says Hughes Has Long Beard, Hair, Toenails

MIAMI (AP) — Billionaire recluse Howard Hughes had a beard down to his waist and hair flowing over his shoulders when he made a secret trip from the Bahamas to Miami last February, according to the Miami Herald.

His toenails "were so long they curled up," the newspaper quoted a yacht captain as saying.

Capt. Bob Rehak, 55, former skipper of the yacht Cygnus, said in a copyright story published Sunday that he spent 22 hours with Hughes and his entourage on the trip.

Rehak and Donald Lawrence Hout, a 34-year-old Miami houseboat designer, served as dual captains on the yacht.

The mysterious 66-year-old Hughes left Nassau, where he had lived under a veil of secrecy in the posh Britannia Beach Hotel, and reached Miami Beach on Feb. 17 at 4:30 a.m. U. S. Customs officials confirmed Hughes' arrival in the predawn hours.

Hughes later left on a chartered Eastern Air Lines jet for Managua, Nicaragua—where he is now after a brief sojourn in Vancouver, British Columbia.

"He had this real stringy beard, real thin, and it came down to almost his waist," Rehak said. "His hair was real fine, too, down over his shoulders."

Rehak said Hughes, a private doctor and four aides made the trip. "Three or four of them carried Hughes out of a panel truck on a stretcher, one of those ambulance stretchers that straighten up," Rehak said.

"The Nassau government was starting to snatch his men. They were putting the pressure on him, giving him so many hours to get there (for a residency claim appearance) and one of the security guys said he was not going to be pressured into anything. That's why he left," Rehak was quoted as saying.

Rehak described the group's arrival as "secretive" with "strict security." He said Hughes "had a white sheet over his body, not his face." Rehak added that "Hughes had on an old bathrobe, and didn't have a stitch on underneath, no pajamas, no nothing."

"And that's when I noticed his long toenails. They were so long they curled up," Rehak said. He estimated their length at two inches.

Rehak's description of camera-shy Hughes confirmed reports given by a son of a former Hughes' aide, Peter Maheu, to a Miami grand jury in December 1970.

"During those 22 hours he used every bit of six to eight boxes of Kleenex, wiping his chin, wiping his face, his hands, nearly everything he touched. He didn't seem to have a cough or cold or anything," Rehak said.

"Anything he'd handled, his men would tear it up into little pieces and they'd throw it overboard. He was a real nut for cleanliness," added Rehak.

WTC STEER WRESTLER—Jim Fuller of Western Texas College is shown winning the steer wrestling event at the Sul Ross State University NIRA Rodeo earlier this year. He is current leader in steer wrestling for the southwest region of NIRA with 181 points. He also enters calf roping and ribbon roping, having won honors in the Hardin-Simmons NIRA Rodeo and helped WTC win its first team trophy. He was one of two WTC team members who qualified for the NIRA national finals last June in Bozeman, Mont., and won the world AJRA calf roping title in 1971. He will perform in WTC's first rodeo opening Thursday night at the Scurry County Rodeo Association arena.

Baby Killers Are Jealous

By C. G. McDANIEL
AP Science Writer

CHICAGO (AP) — An Ohio doctor reports new evidence about children who kill infants because they are jealous of them.

Dr. Lester Abelson of the Case Western Reserve University school of medicine in Cleveland took note of five such cases which came to the attention of the Cuyahoga (Ohio) County coroner's office in a 3½-year period.

Writing in the Oct. 9 issue of the Journal of the American Medical Association, Dr. Abelson said the victims ranged in age from 7 weeks to 8 months.

Their aggressors, ranging from 2½ to 8 years of age, were a young aunt, the son of a baby-sitter, a cousin, sons of a neighbor, and a brother.

All of the babies died of head injuries resulting from being hit with a blunt instrument or dropped on the floor or both. Two of the victims also were bitten by their attackers.

Abelson wrote that "Although the tiny child is motivated to kill because killing represents the most thorough form of retaliation he knows and because it implies the complete removal of the unwanted person, it is paradoxical that small children either cannot grasp or have extreme difficulty in coping with the concept of the permanence of death."

He said it is probable that in many instances "the first blow is the result of the child's deep seated impulse" while the following blows or other injuries "either then continue blindly or represent an attempt to quiet the victim."

"This study indicates unmistakably that the frailty of the infant renders him mortally vulnerable to injuries inflicted by preschool children and provides yet additional examples of how childish jealousy can terminate in tragedy," he wrote.

"A sense of rejection and rivalry with a sibling, or resentment by the assailant of the presence of a younger child who threatened his sense of security or place or priority in the household" provides the provocation for the lethal assault," Abelson said.

Amtrak Prefers TempleRouting

WASHINGTON (AP) — Amtrak still wants to provide direct railroad services to the Mexican border through Texas, but apparently it has discarded a recommendation by Congress that it tie the route to the New Orleans and Los Angeles route through San Antonio.

A spokesman for the National Railroad Passenger Corporation said in Washington that the New Orleans-Los Angeles train operates only three times a week and passes through San Antonio in the middle of the night so an extension from San Antonio to Nuevo Laredo would be impractical.

Instead, the spokesman went on, it would make much more sense to run the Laredo service off the Texas Chief at Temple, Tex.

The Texas Chief operates over the Atchison, Topeka and Santa Fe Railroad between Chicago, Kansas City, Mo., Oklahoma City, Fort Worth, Temple and Houston.

An operation south from Temple through Austin and San Antonio would involve service over Missouri Pacific tracks.

The spokesman confirmed that Amtrak president Roger Lewis had assured Rep. J. J. Pickle, D-Tex., that Austin would be included on any new route tying Mexican service into the Amtrak system.

Amtrak officials have been conferring on the proposed service with representatives of Texas, Arkansas, Mexico and several railroads.

They also met with city officials of Dallas, where voters recently acted to provide $6 million for purchase of the railroad station and conversion into a transportation center. Dallas is not on the Amtrak system.

Rail travelers formerly had access to direct train service between St. Louis, Mo., and Mexico City. Now the closest approach of U.S. passenger trains to the border in that part of the country is at San Antonio, 150 miles inside the United States.

If the service to Nuevo Laredo materializes, passenger cars from the United States could be transferred there to the Aztec Eagle for the run to Mexico City. Amtrak said it may be able to make sond kind of announcement on the situation within a few weeks.

Eunice Involved In Mike Scrap

BALTIMORE (AP) — Eunice Shriver, plunging into a pro-Nixon Democratic gathering, indulged in a brief tug-of-war with a Maryland politician for control of the stage microphone.

She emerged shaken, but confident that "it's their loss."

Sargent Shriver's wife was campaigning Sunday for the McGovern-Shriver Democratic ticket in the Baltimore-Annapolis area when she ventured into a beer party for state Sen. Joseph Staszak.

Although he's a Democrat, Staszak recently announced he is backing President Nixon.

City Councilman Barbara Mikulski, a Democrat of Polish ancestry who often travels with Shriver to smooth the way into ethnic sections, had advised Mrs. Shriver to "tell them to keep an open mind."

As the Shriver party entered the packed, noisy hall, Staszak greeted Miss Mikulski with "Hi, sweetheart," and shook Mrs. Shriver's outstretched hand.

Afterwards, Miss Mikulski said Staszak told her he'd "give them five minutes to remain."

Mrs. Shriver went straight to the stage where, she said, she barely uttered "Good afternoon" before the master of ceremonies, John Jakubik, a state central committeeman, "grabbed the microphone out of my hand."

Mrs. Shriver said she protested: "I haven't finished yet," and tried to get the microphone back. "I'd like to talk for 30 seconds, so give me back the mike."

Mrs. Shriver said she and Jakubik both gripped the mike, but with a firm tug she finally got her half minute. "I'm from a proud Irish family and I know you're proud of your heritage," she said over the embattled microphone. Her voice was barely audible in the hall.

"I came here to dance, not to listen to this garbage," shouted one man as he lifted a glass.

Mrs. Shriver smiling stiffly, fled to her campaign bus. "I wonder how we stayed alive in there," she sighed, slumping into the seat. "There were 50 places we could have gone today; we didn't have to go in there ... They were so rude about it ..."

Scott Carpenter Weds Saturday

LOG ANGELES (AP) — Former astronaut Scott Carpenter has married Maria Roach, the daughter of motion-picture pioneer Hal Roach Sr.

The wedding Saturday took place in the Westwood United Methodist Church.

Carpenter, 47, the second American to go into orbit around the earth, now heads an oceanographic research and development company here. It was his second marriage.

His bride is a free-lance writer for magazines and films.

Silversmith Is A Jeweler

Career Corner

by Joyce Lain Kennedy

Dear Joyce: I am taking a course in silversmithing in high school. I am very much interested in learning more about this. Can you advise me if there are any possibilities for apprenticeships in silversmithing? How much does this career pay? -- B.D., Washington, D.C.

By classification, a silversmith is a jeweler, as are goldsmiths and platinumsmiths. By tradition, a silversmith is an artisan or skilled craftsperson who creates or repairs jewelry and/or such silverware objects as coffee pots, tea sets and trays.

SOME SILVERSMITHS create a model piece from design through fabrication and assembly; others do only the craft part, working from designs created by other silversmiths or designers. In industry, a silversmith's work is usually reproduced by machines.

Silversmiths mainly work for silverware manufacturers and manufacturing jewelers, and trade shops that specialize in making jewelry and in doing repair work for jewelry stores. With the revived interest in handcrafting beautiful products, an unknown number of silversmiths operate their own studios, sometimes teaching classes in silversmithing.

MOST CRAFTSPEOPLE in silverware and jewelry manufacturing are located in Rhode Island, New York, New Jersey and California, although others work in many large cities across the country. In the silverware and jewelry manufacturing industry, there are probably less than 2,000 silversmiths nationwide. They typically earn $5-6/hour; a few top designers earn over $25,000/year.

APPRENTICESHIPS are occasionally available, which often require 4 years to complete, sometimes 6. A high school diploma, or equivalent, is generally required. Apprenticeship openings are filed with state employment service offices, or you can apply directly to silverware and jewelry manufacturers. (Consult a business directory in your library for names and addresses of manufacturers.)

APPLICANTS for apprenticeship should have the creative talent of an artist, as well as good finger and hand dexterity, and eye-hand coordination. Silversmiths can progress from simple designs and operations to the most complicated ... from apprentice to journeyman silversmith to foreman or supervisor ... and eventually be promoted to management or design positions. Although there are giant silverware and jewelry manufacturing firms, most employ under 200 workers, which translates into good chances for advancement to management jobs for qualified silversmiths.

BECAUSE SILVER objects are luxury goods, purchased with "extra money," the silverware industry was pleasantly surprised to find that business through recent recession years has been excellent. The Manufacturing Jewelers and Silversmiths of America, a trade association, reports another silver lining: during the past 2 years, there have been more jobs than applicants in silverware manufacturing.

Additional questions about careers in silversmithing can be addressed to the Manufacturing Jewelers and Silversmiths of America, S 75 Biltmore Hotel & Motor Inn, Providence, R.I. 02902.

OTHER OPPORTUNITIES IN JEWELRY include sales, crafts and management. A jeweler can be a person who designs jewelry, or makes it, or repairs it, or sells it. Often, he is a combination of these functions. He may work with precious stones, synthetics, silver, gold, platinum, or other metals. His specialty may be watches -- selling them and repairing them. For a free copy of "The Golden Touch," an 18-page booklet about jewelry careers, send your request to Joyce Lain Kennedy at this newspaper. Enclose a gummed, self-addressed return mailing label. Write "Golden Touch" on your outside envelope.

491,771 Visit Fair

DALLAS (AP) — Near perfect fall weather has helped push attendance at this year's State Fair of Texa to almost a half million persons after the first two days.

A total of 491,771 visitors crossed the turnstiles at the fairgrounds here over the weekend, compared with almost 50,000 less persons who did the same thing the first two days last year.

Sunday's special activities at the fair were highlighted by national Yugoslavia Day, Texas Czech Ethnic Day and a special day for West, a small town north of Waco settled primarily by Czechs.

Starting with a special program at the Fair Park Coliseum in the morning and throughout the day, various groups dressed in bright costumes danced folk dances and sang Czech songs for the crowds of people.

Each dancer was dressed in the costume of the province or village from which his or her ancestors came. The trim included sequins, beads and intricate embroidery patterns.

The aroma of native sausage and pastries also filled the air.

Tragedy Hits Series Scene

NEW YORK (AP) — The neighborhood which flashes weekly across television screens to start the comedy series "All in the Family" was the scene of a tragedy Friday. A policeman's wife apparently shot herself to death after killing her three young children.

CBS News confirmed that the home of Nassau County Patrolman William Toelstedt, who discovered the bodies of his 27-year-old wife and three young girls, was in the tree-lined Glendale neighborhood filmed for the program.

"We see our houses on television every week," one housewife said, "and now the block is in the papers. I can't believe it happened."

Mrs. Toelstedt was found shot to death and her children were strangled or suffocated. The woman left a suicide note, police said, and detectives were working on the theory she may have been depressed since the birth of her six-month-old child.

SPECIALTY PERFORMER— Ralph (Fizzie) Fishers will be featured at the Western Texas College Rodeo opening Thursday. He will be fighting bulls and providing the specialty acts. With Ralph here is "Attic Fan," his trained donkey. He also includes several surprises for the children. The first NIRA rodeo ever to be held here will continue for three days at the arena west of town.
