Childress Man Is Killed In Lakeview Accident

John Earl Dyer, Jr., 33, a Childress electrical contractor, died about 3:15 p.m. Monday when he fell into a 2400 volt hot line east of Lakeview.

Funeral services were held at 4 p.m. Wednesday in Vega First Methodist Church with the pastor assisting Dr. Vernon Henderson, District Superintendent of Amarillo who officiated. Interment was in Vega Cemetery.

Dyer was killed instantly when he was thrown into the 2400 volt hot line shortly after he had climbed a utility pole to begin conversion of the City of Lakeview's power system from 2400 volts to 7200 volts, and one of his climbing hooks slipped and his body was thrown into the power line.

Dick McNutt, a partner with Dyer in the D. and M. Construction Co. of Childress, who was on an adjacent pole, brought Dyer to the ground and administered artificial respiration until a lo-

cal physician arrived on the scene, 15 minutes after the accident, and pronounced him dead.

The D. and M. Construction Co. had been under contract with West Texas Utility Co. for the past two years, Bud Davis, District Distribution Superintendent of West Texas Utilities Co. said.

Dyer was born January 23, 1929, at Deaf Smith County. He was a former student at Baylor University.

Survivors include his wife of

the home, two daughters, Beverly and Patricia; his mother, Mrs. Lois Dyer of Vega; and one sister, Mrs. Ann Dyer Porter, of Clovis, New Mexico.

Services Held Saturday, Aug. 25 For G. W. Parker

Services were held Saturday, Aug. 25, at 2 p.m., in the Assembly of God Church for G. W. Parker of Memphis. Rev. Virgil C. Sparks, pastor, officiated.

Interment was in Fairview Cemetery under the direction of Spicer Funeral Home.

Mr. Parker passed away in St. Anthony's Hospital in Amarillo on August 23.

He was employed by the E. M. Bailey Construction Company of Abilene and worked primarily on bridge construction.

George W. Parker was born Jan. 24, 1916, in Jacksonville, Miss. He was united in marriage to Miss Connie Marie Kitchen on Aug. 31, 1941, in Paris. The couple moved to Memphis in 1951.

Survivors include his wife of Memphis; four sons, Jerry Lee Parker of San Diego, Calif., Joe Neil Parker, Ernest Eldon Parker and Bobby Dale Parker, all of Memphis; three daughters, Patricia Beth, Peggy Jean and Jackie Lyn of Memphis; one brother, J. T. Parker of Paris; and one sister, Mrs. Elba Foust of Alvarado.

Pall bearers were Elmer Hicks, James Aaron, Monroe King, C. M. Manthoof, Richard Wood and Lee Winters.

Honorary pall bearers were Henry Moore, Aaron Bradley, R. H. Shackelford, Frank Dodson, Leonard Carroll and Robert Freelen.

"Operation Motorcade"

In one of the most intensive efforts in the state's history to reduce traffic deaths, injuries and property damage over the Labor Day Holiday, the Department of Public Safety will conduct "Operation Motorcade" from 12:01 a.m. Saturday, Sept. 1 through 11:59 p.m. Monday, Sept. 3.

Along with this, the Texas Junior Chamber of Commerce has advised Governor Price Daniel, chairman of the Governor's Highway Safety Commission, and W. F. (Bill) Leonard of Dallas, state vice-president of the traffic safety for the Texas Safety Assn., that the Jaycees will try to "stage the biggest traffic safety program in the United States" during the Labor Day weekend.

In conjunction with these announcements of safe driving programs being introduced, Colonel Homer Garrison Jr., Director of the Texas Department of Public Safety, announced on Aug. 19, that the official estimate of fatalities for the Labor Day weekend is 30 persons to be killed in some 3,000 traffic crashes during the upcoming 72-hour weekend.

Garrison noted that during the past eight weeks traffic deaths have increased from four per cent below to two per cent above the toll for the corresponding period of last year. "But the most alarming thing is that the number of fatal accidents is now running four per cent above last year's figure," he said. "Experience has shown that in nearly every fatal accident a violation of traffic law has been a major factor."

About "Operation Motorcade," Col. Garrison said, "In an all-out effort to insure driver compliance with traffic regulations and to hold traffic crashes to a minimum, the DPS has made plans to augment its regular Highway Patrol force with some 150 uniformed officers from its other services during this three-day period."

The Jaycees program has a goal of reducing the Labor Day weekend death toll from 30 to 21, as it did last year with a similar program. Rest stops every 150 miles will be established where free coffee and bottles of soft drinks along with traffic safety literature will be given out. Over 1,200 signs and 2,400 radio announcements will take the literature right to the driving motorist.

"Operation Motorcade"—an all-out traffic safety campaign which calls for constant patrolling of Texas highways by officers of the Highway Patrol, Motor Vehicle Inspection, License and Weight and Safety Education Services—is geared to eliminate the "Terrible Three," and as many more accidents as possible of the predicted total of 30 highway deaths for the state.

Local, area, and county residents should take every precaution when using the highways during this period. Drive safely, pass only in passing zones, don't be in a hurry, stop and rest every 150 miles, change drivers when the one under the wheel is tired or sleepy. Don't let the Labor Day holiday become a tragic memory in your life, or the life of one of your loved ones.

"Remember, every time a driver fails to obey the traffic law, he or she takes a chance on being involved in a traffic accident that could mean injury or death," Major Harry Hutchison, Region No. 5 Commander of the Department of Public Safety, said.

Be Here On 'Polio Sunday'!

September 9, 1962, will be a red letter day for area residents and will be remembered as "Polio Sunday," for a long time to come. Thanks to the Memphis Lions Club, the Hall County Medical Society and financial aid of the Simmons-Noel Post of the American Legion, area residents will be given Sabin Polio vaccine on that date.

Hall County will be one of several counties in Texas participating in this program. On September 16, Childress citizens will receive the vaccine. Residents in Houston, Dallas and Fort Worth this summer have or are receiving the vaccine.

The local club and organization are asking a donation of 25 cents from all who feel they can give it, to help offset the cost of the program. All persons who show up will be given the vaccine free.

The vaccine will be placed on a cube of sugar and distributed as the persons come through the line, which will be open from 2 to 5 p.m. on the court house square.

It is to everyone's advantage that they make their plans to be present for this distribution of the Sabin Polio vaccine. Estimates of from 5,000 to 6,000 are expected to be on hand to receive the vaccine. Only those under six weeks old should not take the vaccine.

Be present on September 9, and on the other subsequent dates to be announced later, to take all three of the vaccine series. How much will it cost? Nothing—if you can't afford it; a small donation if you can. After all, how much is your life worth?

Amendments in a Nutshell

In this issue of The Record, we are publishing for the final time the texts of fourteen proposed amendments to the Constitution to the State of Texas. Texas voters will be asked to pass on these amendments at the general election in November.

Prior to the election, The Record plans a series of articles explaining the amendment proposals . . . but this week marks the last time which most voters will have the opportunity to read the full text of each of these amendments.

We urge that you do so.

Briefly here's what the amendments propose:

Amendment No. 1 would permit counties and other political subdivisions to provide Workmen's Compensation, now available to appointed employees, to all elected officials as well.

Amendment No. 2 raises the limitation on state funds for dependent persons from \$47 million to \$52 million.

Amendment No. 3 permits cre-

ation of Hospital Districts in Castro, Ochiltree, Hansford and Hopkins Counties.

Amendment No. 4 would permit the State Water Development Board to purchase water storage facilities in reservoirs.

Amendment No. 5 would permit the State Legislature to authorize the creation of hospital districts within the state . . . and is aimed at doing away with the necessity of voting special Constitutional Amendments (like No. 3 and No. 9 on this year's ballot) every time such a district is proposed.

Amendment No. 6 authorizes retirement, disability and death benefits for elected and appointive officers and employees of counties and political subdivisions who have served in such capacities for twelve years or more.

Amendment No. 7 provides for continuity of state and local government operations in periods of emergency resulting from disasters caused by enemy attack . . . by providing for prompt and tem-

porary succession to the powers and duties of public office.

Amendment No. 8 increases the annual limitation on expenditure of state funds for the totally and permanently disabled from \$1.5 million to \$2.5 million.

Amendment No. 9 provides for creation of hospital districts in Brazoria county.

Amendment No. 10 would permit state employees to serve as consultants or members of advisory committees, or as members of school boards, provided they are not teachers.

Amendment No. 11 authorizes the Veterans Land Board to resell any repossessed lands to any buyer, after having first offered the land for re-sale to veterans.

Amendment No. 12 delegates limited zoning powers to any counties bordering on the Gulf of Mexico . . . apparently intended to permit regulation of traffic on public beaches.

Amendment No. 13 is aimed at permitting re-financing of a Dallas County school district.

Amendment No. 14 . . . most controversial of the lot . . . pro-

THROUGHOUT THE CENTER OF THE SOUTHWEST IN CONTROL ROOMS LIKE THIS, THERE'S AN

INCREASING FLOW OF ELECTRICITY

The demand for electricity in our service area is growing rapidly. The reason is simple — there are more people, more businesses, more industries coming here into the Center of the Southwest.

That is why we are investing millions in new electric generating capacity and in new distribution facilities to keep pace with this area's exciting growth.

But of more significance, this fact explains why we are planning vast additional expenditures in anticipation of even greater growth to come.

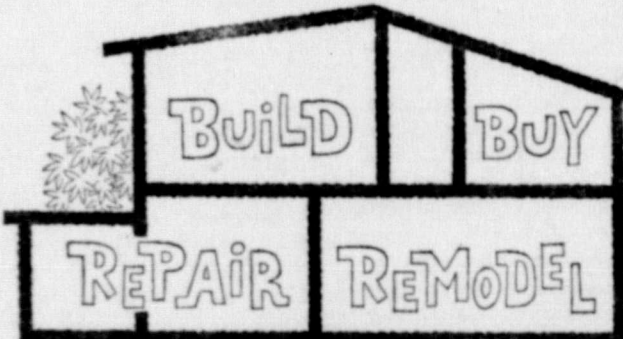

Because the Southwest is growing 25% faster than the Nation, we are convinced that our service area — the Center of the Southwest — faces GROWTH UNLIMITED.

Local Legion Sets Important Meeting Date

Bill Ballew, Commander of the local American Legion Post, announced this week that a very important date for members, and those desiring to be members of the organization, to remember is Thursday, Sept. 13.

On this date, the American Legion Post will have an important business meeting to try and seek other ways of raising funds to carry on the work of the organization. Commander Ballew stated that if other fund-raising methods could be found, it would be possible to stop having the fund-raising dances at the Legion Hall.

Commander Ballew also announced that this Saturday night, the fund-raising dances at the Legion Hall will begin with music to be furnished by "Jeep" and the

"Tradewinds" orchestra of Childress.

Vice Commander Melvin Blum stated that the annual membership drive has started and his aim is to have all members enrolled prior to October 1, because on that date the State and National dues will be raised.

At the Sept. 13 meeting, all eligible veterans are urged to be present to help map the coming year's program.

Eligible veterans include any ex-serviceman who served on active wartime duty between the following dates: April 6, 1917 to Nov. 11, 1918; Dec. 7, 1941 to Sept. 2, 1945; and June 25, 1950 to July 27, 1953.

Commander Ballew said that some of the programs the organization will try to undertake this year include: Family Night, sponsoring a boy to Boy's State and a girl to Girl's State, and present the Citizenship and Americanism Award. Also being discussed is a Legion baseball team.

New Arrivals

Mr. and Mrs. C. D. Langford announce the arrival of a son on Aug. 26. He has been named Paul Delvin and weighed 6 pounds, 1 ounce.

Memphis Rotary Club Enjoys Musical Program

The Memphis Rotary Club Tuesday was highly entertained by a light program presented by Mrs. Don Springer, Vee Latimer, daughter of Kathryn Latimer, and Kay Coppedge, daughter of Mr. and Mrs. J. W. Coppedge.

Highlighting the program, arranged by Program Chairman Robert Spicer, was the concluding number of the "Peppermint Twist" by Kay Coppedge and Vee Latimer. Mrs. Springer played two numbers on the piano and Kay Coppedge sang two numbers and did a tap dancing routine.

CARD OF THANKS

We wish to express our heartfelt thanks and appreciation to all who extended comforting sympathy during the illness and death of our loved one. Special thanks to Dr. Goodall and the staff at Goodall Hospital who helped so much. For the beautiful floral offerings, food and other kindnesses, we are deeply grateful.

May God bless each of you.

MRS. RAY DON POWELL

Brides-Elect Are Honored At Coffee

One of the prettiest parties of the summer season was a morning coffee given on Thursday, August 23, at the home of Mrs. W. C. C. 203 North Thirtieth, honoring two brides-elect, Miss Betty Lemons, bride-elect of Michael Powell of Spur, and Miss Ray Don Powell, bride-elect of Mr. J. W. Oliver.

As co-hostesses of the occasion, the guests brought a recipe to be entered in the small aqua file boxes set as favors to the honorees.

Miss M. G. Tarver, Mrs. F. W. Foxhall, Assisting members of the houseparty, Mrs. Walter Jameson of Amarillo, Mrs. Louie Goffinet, Mrs. Hutcherson and Mrs. Clenton.

The dining table was laid with a beautiful dark brown organza centerpiece with a watermelon of fruit tidbits. The guests helped themselves to miniature meat balls, tiny hot buttered potato chips and cheese dip, and balls and cookies. Mrs. Powell presided at the coffee.

The wedding of Miss Lemons will be in the First Methodist Church Sunday evening, Sept. 2. The wedding of Miss Powell will be in the First Methodist Church August 25, also in the First

Hutcherson, Powell Wedding Vows Solemnized Aug. 25

Wedding vows were solemnized August 25 at 7 p.m. in the First Methodist Church for Miss Lera Kate Hutcherson, daughter of Mr. and Mrs. Edwin Hutcherson, and Ray Don Powell, son of Mr. and Mrs. Raymond Powell of Spur.

Rev. J. B. Thompson, pastor of the church, officiated at the double-ring ceremony. The nuptial space was attractively decorated with a background of white greenery, floor baskets of white gladioli and candelabra holding lighted tapers. The chancel rail was decorated with small white flowers and greenery entwined. Marking the bridal aisle and the family pews were large white satin bows and white pom-poms.

Miss Betty Lemons, organist, played traditional wedding music. Soloist Arthur Smith of Irving sang "Because," "I Love You Truly" and "The Wedding Prayer," which was sung while the bride and groom knelt on a white satin kneeling bench.

Given in marriage by her father, the bride wore a formal wedding gown of Peau de Soie. The bodice was fashioned with a Sabrina neckline, accented with elbow sleeves and bouffant skirt and draped folds and self bow trim with back fullness falling into a chapel sweep. Her bouffant veil of French illusion was attached to a lace-covered pillbox re-embroidered with seed pearls.

Coming onto the forehead from the pillbox were white leaves of satin and seed pearls. She carried a cascade bouquet of white roses around a large white orchid from which trailed white stephanotis and white satin streamers fashioned with love knot.

She wore a single strand of pearls which belonged to her maternal grandmother, Mrs. R. N. Beckum, and a diamond pin which belonged to her paternal grandmother, Mrs. R. A. Hutcherson.

Matron of honor was Mrs. Wade Maynard of Dimmitt. Bridesmaids were Miss Pam Mathis of Mansfield, cousin of the bride, Miss Pam Bearden of Paducah and Miss Janis Powell of Spur, sister of the groom. Miss Tana Zane York of York of Lubbock, cousin of the bride, served as junior bridesmaid.

Mrs. Maynard was attired in a pink silk chiffon dress fashioned with a roll collar in the front coming to a small V in the back. It was styled with small cap sleeves and a flat bow on the front of the belt above a bouffant skirt. Bridesmaids wore dresses identically styled to that of the matron of honor in colors of mauve, orchid and purple. Senior attendants head pieces were orchid tulle over an orchid taffeta band featuring a large orchid cabbage rose on the top. All attendants carried identical bouquets of pink and orchid sweetheart roses and carnations, fashioned on white feather fans with white satin streamers tied in love knots flowing from the bouquets.

Flower girl, Miss Lindsey Gentry of Lubbock, cousin of the bride, wore a floor-length pink taffeta dress fashioned with cap sleeves and a long sash with streamers hanging to the bottom of the dress. She and Miss York wore identical head pieces of pink sweetheart roses which formed a wreath.

Ring bearer was Edwin Jerald Hutcherson, nephew of the bride. Best man was Dave Anderson of Amarillo. Groomsmen included Jerry Behrens of Lockney; Billy Jo Powell of El Paso, cousin of the groom; and Larry Powell of Spur served his brother as junior groomsman. Ushers were: Don Morrison of Spur, Bill Jeffries of Littlefield; B. J. Powell; and Weldon Stanley of Spur.

For her daughter's wedding, Mrs. Hutcherson chose a pink lace over pink taffeta dress with matching accessories. Mrs. Powell, mother of the groom, wore a beige lace dress with matching accessories. Both wore pink glamilia corsets.

Reception
Following the ceremony, a reception given by the bride's parents was held in the church annex. The bride's chosen colors of graduated shades of orchid and white were carried out in the party decorations. The reception tables featured a five-tiered wedding cake with a large orchid lying on the top layer. Sterling candelabra held orchid burning tapers, around which a flower centerpiece had been arranged. Other table appointments were in crystal and silver, as was the punch bowl which held orchid punch.

Serving at the reception table were Mrs. Bruce Gentry Jr., of Lubbock, cousin of the bride; Mrs. Lee York of Lubbock, cousin of

the bride, Miss Velma Jo Hutcherson, cousin of the bride, secured signatures at the registration table. Other members of the house party were: Mrs. Clent Stryker, Mrs. Ernest Lee, Miss Delores Bohannon of Childress, former roommate of the bride; Miss Kay Spurlock of Stratford; Mrs. Jimmy Winters; Mrs. Tomie Tucker; Miss Jan Mitchell; Mrs. Bob Hutcherson; Mrs. Walter Jameson, aunt of the bride; and Mrs. J. J. McDaniels.

Mr. and Mrs. Raymond Powell, parents of the groom, were hosts to a rehearsal dinner party Friday night at Odom's Cafe.

For her wedding trip to New Mexico, Mrs. Powell chose a three-piece melon suit with walking coat accented with black. She wore as her corsage the orchid from her bridal bouquet.

The bride will be a senior student this fall at West Texas State College in Canyon. She is a member of Zeta Tau Alpha, national social sorority. Having attended Memphis High School, she graduated with the class of 1959.

The groom is a 1958 graduate of Spur High School. A member of Alpha Tau Omega, national social fraternity, he is a 1962 graduate of West Texas State College. The couple will be at home in Canyon after Sept. 1.

Out-Of-Town Guests
Out-of-town guests included: Mr. and Mrs. Walter Jameson, Mr. and Mrs. John Smith and John True, Mrs. Ann Bruce, K. L. Bright, Mr. and Mrs. Randy Doshan, David Anderson, all of Amarillo; Mr. and Mrs. George Doherty and Mrs. N. B. Ward, Fort Worth; Mrs. Florence Miller, Miss Jane Miller of Portales, N. M.; Mrs. W. E. Taxes

All of the talk in recent days about taxes and the chance for a tax cut bring to my mind the need for some substantial tax revision. I feel that under the present tax laws many inequities could be erased by some quick amendments. Any tax law, like any other type of law, is subject to human errors. It is only after administration of the law begins that many of the unseen errors become obvious.

As an example, let me cite the case of a young man who was supporting his several sisters and also his mother. The father had absented himself and completely failed in his responsibility to the family. Hence, the mother and the several sisters were directly dependent upon this young man for their sustenance.

Under the income tax laws as they presently stand, however, the young man could claim exemptions for his sisters as dependents, but none for his mother — the reason being that since the mother had not been legally divorced from the father, she was charged with receiving one-half of his income under the community property laws. Actually, she did not receive one dime from the errant husband and had no way to collect any money from him.

Certainly no one would contend that the law should place such a penalty on a young man who was assuming a moral but not legal obligation in supporting his sisters and his mother. He should be rewarded for his fine Christian attitude. Nevertheless, the law so read. It was obviously an oversight at the time the tax law was written.

I have introduced a bill to correct this gross inequity. If we can get this amendment passed it will not only relieve this young man and others in his predicament of

an unfair and burdensome penalty, but it may save many from criminal prosecution. There are undoubtedly a number of cases where the same situation exists, but where the taxpayer is unaware of the actual provisions of the law. Technically, he is in violation of the law and could be prosecuted and would also be liable for the payment of a substantial claim by the government for back taxes. This would be unconscionable — an unexpected bill for a substantial amount of money would upset the budget of almost anyone, to say nothing of the amount of money that would be required should some arbitrary bureaucrat decide to push the prosecution.

It is for this and similar reasons that any tax legislation should be carefully and exhaustively studied before it is passed. After it is passed, it should be very carefully administered by individuals with some of the milk of human kindness coursing through their veins.

There have been a number of glaring errors of like nature in the Social Security Act. Some of these we have been able to correct, while others still haunt the people. As each one of these flaws is brought to light by some fact situation not previously anticipated, correction should be made forthwith. Hence, if any of you feel that you have suffered an injustice in any of these particulars, let me know the facts and the ruling that was made in your case so that some attention can be directed to bringing about correction.

Mr. and Mrs. Ray Crawford and sons Bryan and Nathan of Lubbock visited over the weekend with their parents, Mr. and Mrs. E. S. Morrison and other relatives and friends.

Dinner guests in the home of Mr. and Mrs. Noel Clifton Saturday evening were Mr. and Mrs. J. D. Cox and Vicki Lynn of Tell and Mr. and Mrs. Clois McGuire of Amarillo.

Mr. and Mrs. Bill Boren and sons and Mrs. Hollis Boren left Monday for Cloudercroft, N. M., where they will spend several days. They were accompanied by friends from Fort Worth, Mr. and Mrs. M. G. Bloxom and five children.

CARD OF THANKS

We want to thank each and every one who were so wonderful for their donations and offers of food, visits and flowers while I was in the hospital. I also want to thank Dr. Clark and the nurses at Odum Hospital for their wonderful care.

Mr. and Mrs. Tom Collins and family.

Mr. and Mrs. Courtney Crisler and Mrs. Fritz Crisler of Amarillo and Mr. and Mrs. Jake Roberts of Abilene visited this weekend with Mrs. Ora Denny and Gladys Power.

Mrs. Viola Coffee of White Deer visited Miss Helen Madden here Wednesday of last week.

County Cotton Insect Situation Remains Static

Hot, dry weather during the past week has resulted in heavy shedding of the smaller forms in many cotton fields although most insect activity has remained static. However, W. B. Hooser, County Agent, reported an increase in moth and egg laying activity as compared to the previous week.

With this in mind, Hooser urged all cotton producers to check their fields closely and begin bollworm control before the worms are large and heavy losses have occurred. Plant terminals should first be checked for the presence of small worms and eggs. Hooser stated, and control begun when 4 or 5 small worms plus eggs are found per 180 terminals.

"If no eggs or worms are found in the terminal growth, be sure to look for them down on the bracts of larger squares, in the blooms and on the bolls," Hooser added, "since hot weather often drives the moths down into the plant for egg laying."

Cotton leafworm, cabbage and beet armyworm damage has been observed in many cotton fields in the county, reports Hooser. Normally cotton plants can lose 25 to 50 per cent of the total leaf tissue without affecting yield or quality, depending on the stage of maturity, added Hooser, but control should be started as soon as serious ragging is observed.

Rep. Bill Heatley Informs Hunters About New Law

Representative W. S. Heatley of District 82 in a news release last week explained when Texas hunters are authorized by law to hunt from an automobile.

Rep. Heatley stated that in view of the fact the hunting season is fast approaching, he wanted to advise the hunters of the new law that he caused to be enacted and passed during the last session of the Legislature.

It has to do with people who are unable to walk great distances and permits them to hunt from motor driven vehicles, so long as it is not from a public road. The law in part states as follows:

H. B. No. 733

"Article 901 Any person so incapacitated as to render self-locomotion in pursuit of game

hazardous to his health may, by a written authentication by a licensed physician of such capacity, hunt from an automobile, provided no attempt be made by one so incapacitated to hunt upon any part of the system of this State."

Heatley stated that this new law will enable many people who are fine sportsmen to again go to their love of hunting. Heatley stated that his entire family of hunters and fishermen, and carries on quite a bird refuge himself. He has many feeders on grass land and feeds birds so two tons of maize during winter months.

He further stated that he hoped that all persons in his district that desire to hunt on the Game Preserve will be able to get a permit from Mr. Howard Dodge, Game and Fish Department, Austin, Texas.

Mrs. Bill Merrell returned Saturday after attending the World Fair in Seattle, Wash.

County Sports

By BILL COMBS

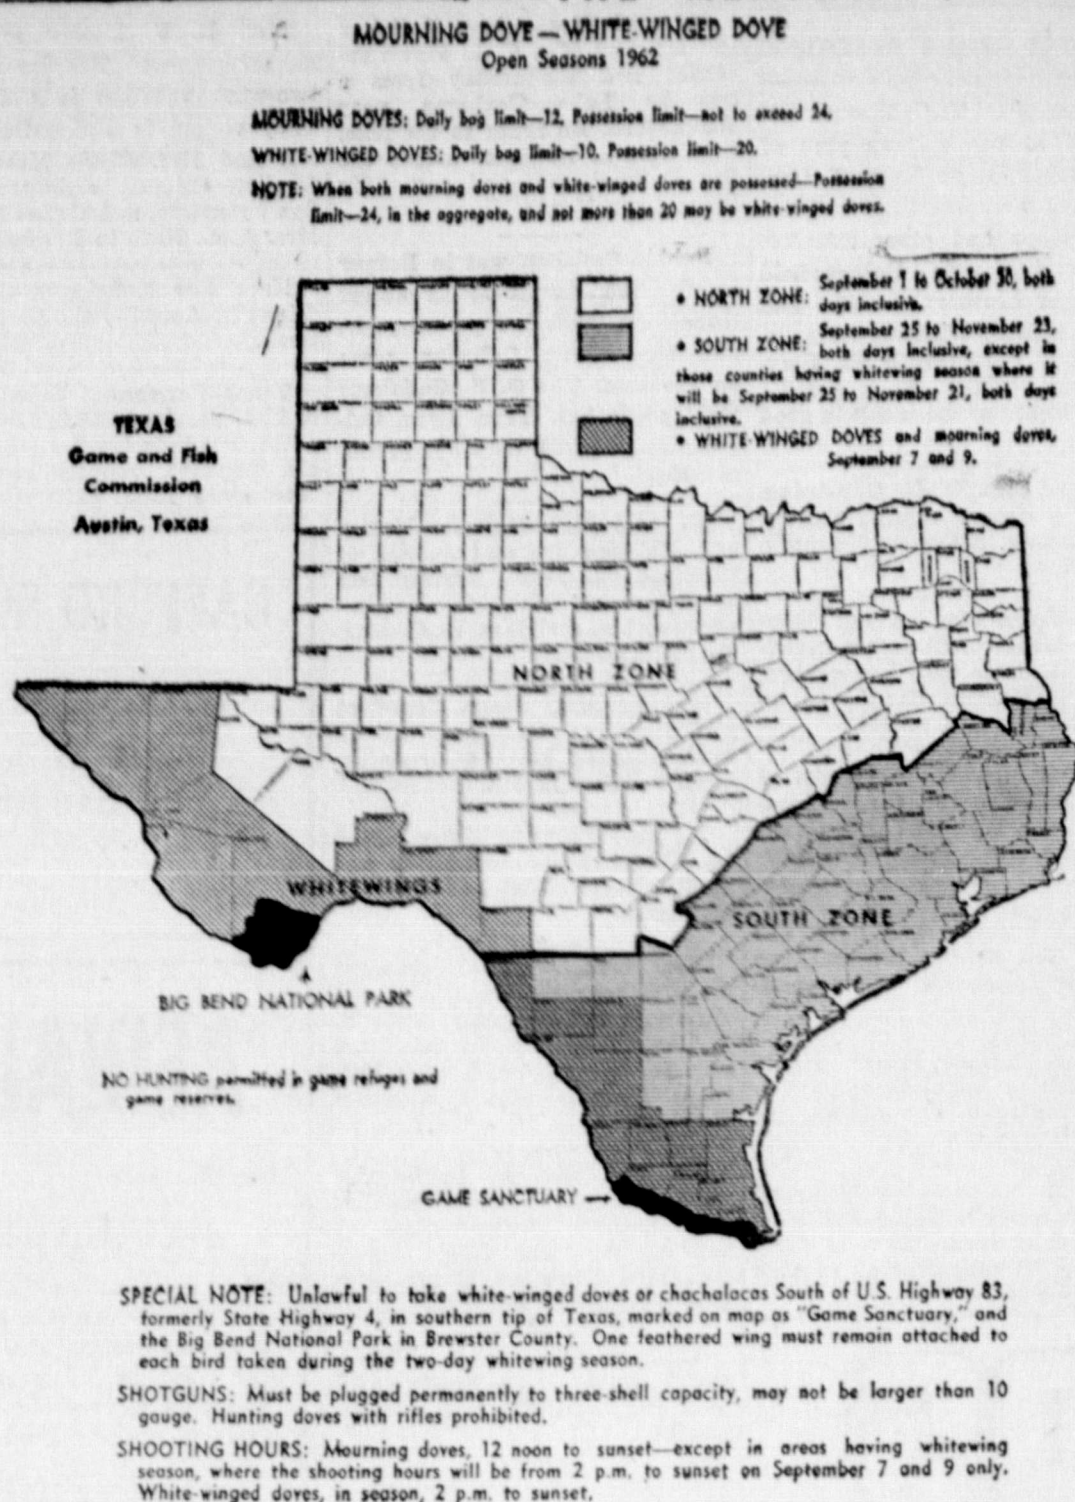

At the request of several (a word which the dictionary defines as more than two but not many) I will attempt to write a sports column again this year and try to bring before the sports fans of this area some of the non-statistical events of what goes on behind the scenes in the county sports field.

The first topic I would like to discuss does not have anything to do with team sports, but rather with hunting (that's the only heading I can think of that it would come under). Most hunters, especially those in this area, like to bring home their kill and have them for dinner (i.e. duck, quail, dove, deer, etc.), however two fine marksmen (?) Monday night did not even bother to pick up their game after they killed it. The incident took place at Cyclone Stadium when a fine specimen of the pole cat family paid a visit to the evening workout. Coaches Don Lambert and Bob Martin, along with M. C. Allen, were discussing the team's possibilities when they were rudely interrupted by a visit of a skunk. They drove the cat under some steps, pinning it down, then M. C. Allen went home and got a .22 rifle and a .32 cal. automatic pistol. The cat was killed but all concerned felt it would be best to wait until the air cleared before taking the carcass out for burial, a job which the managers of the team did the next morning.

More injuries plague the local football team this week. Bill Pounds, junior right half back, suffered a dislocated left shoulder in workout Wednesday morning. He will be out for two weeks. The Memphis coaches are still experimenting to see which boys can play which positions best. The coaches are hoping to put up a strong line to aid their inexperienced backfield in moving the ball on the ground. Passing wise, the squad has several exceptionally good ends to receive the ball. This attack is only limited by how good an inexperienced passer can get as the season goes on. In seven days of workout, the local squad has lost seven starters or would-be starters. It is now apparent that the Cyclone will be in a crippled condition, experience wise, when they open against the Tulsa Hornets for the first game of the season at 8 p.m. Friday, Sept. 7.

Hunters, don't forget that dove season opens at noon on Saturday, Sept. 1. Game birds will not be as plentiful this year as last, reports from over the state indicate.

I was happy to hear that the Cyclone's big tackle, Dale Sexton, will be back in the line up in another three weeks or so. Sexton has been looking forward to playing football this season, even to the extent of running all summer to stay in shape. Since it will be several weeks before he can engage in any contact, Dale will be back to the running. Dale's hand is healing fine after the accident in which he lost four fingers of his left hand.

Andy Gardenhire Is O'Donnell Principal

Andy Gardenhire, son of Mr. and Mrs. W. F. Gardenhire of Memphis, has accepted the position of principal of the O'Donnell High School.

Mr. Gardenhire has been coach at Plainview for two years and prior to that he coached at Quanah for four years.

Mr. and Mrs. Gardenhire and their daughters have already moved to O'Donnell.

CARD OF THANKS

We wish to extend our appreciation and heartfelt thanks to our many friends and neighbors who helped to lighten our sorrow in the loss of our loved one.

For every consoling act and word, also for the beautiful floral offerings and food, we are truly thankful.

May God in His infinite goodness ever be with you is our prayer.

ESTELLINE NEWS

Bobby Clifton of Crosbyton has been visiting in the home of his grandparents, Mr. and Mrs. Hulen Clifton. He also turned out to be a pretty good painter too.

Aubrey Helm and wife and three children of Liberal, Kansas have been visiting in the home of his parents, J. N. Helm Sr. of Newlin, and his brothers' homes, the Hank Helms, the Dude Helms, and the Leon Helms.

We regret the passing of another Estelline pioneer, Bill Pace, who was buried in Hulver last Thursday.

Mr. and Mrs. Frank Cooper were in town last Wednesday sporting a brand new red car.

The Assembly of God Church will start their revival Sunday, September 2nd and it will last one week—possibly two. The Evangelist who will be here is Freda Adams of Hart, Texas.

Services will be conducted each night 7:30. The regular pastor is E. G. Johnson. The entire public is cordially invited to attend these revival services.

Cynthia and Pamela Johnson of Amarillo have spent the past week in the home of their grandparents, Mr. and Mrs. A. C. Layton.

Kelly, Kim, and Holly Hutchins spent the weekend here with Mr. and Mrs. Jim Hutchins and their grandparents, Mr. and Mrs. Thurman Hutchins. Jim is introducing his new wife, Marie, to the community. She is from Great Falls, Montana.

Mr. and Mrs. Joe Eddins, Donna Sue, Mrs. Karen Roberts and Rod, and Connie and Susan Eddins met Mr. and Mrs. Joe Kent Eddins in Dallas and the entire group spent the weekend there. While there, they saw Six Flags Over Texas. Mr. and Mrs. Joe Kent

Eddins were en route home from Temple.

Mr. and Mrs. Walter Whaley have returned from a vacation trip to Chicago with Mr. and Mrs. Jim Whaley, Jim and Mimi. The grandchildren, who had spent the past month here, returned to Houston with their parents.

If it didn't sound so ridiculous, I'd tell you about having to detour on the Newlin Farm to Market road, last week, in order not to interfere with an airplane. You never can tell about those country roads, can you? But going into an early morning rising sun and meeting with THAT on top of a hill was quite an unusual experience, at least it was for me.

Those seen in Amarillo last Thursday included the Roy Gresham family, Nita Helm and Marsha, Miss Agnes Nelson (formerly our homemaker teacher), Mr. and Mrs. C. A. Rapp, and the Jerrel Rapp family.

Don't forget homecoming here Saturday, September 1st beginning at 9 a.m. for the coffee and visitation hours, lunch at 12 in cafeteria served by the Senior Mothers, and the business session beginning at 1 p.m. in the High School Auditorium. The class of 1932 will be honored. Let's have a big attendance from the city of Estelline. If you register you will be invited to the Watermelon Feast to be held about 8 p.m. on the tennis courts.

The Senior Mothers have asked that everyone remember they would like donations for their dinner Saturday. Bring your food to the cafeteria any time that morning. If you are in doubt as to what donations they need, contact any senior mother.

Mrs. Hildred McMinn and James

spent last week in Dallas attending the Barrett reunion.

Understand that Bruce Richerson and Darrell Collins were selected to be captains for the 1962 Bearcub Football team.

Also heard that the Junior High will be decked out in brand new shoulder pads, white helmets, and brand new jerseys and pants this football season. Watch for their football schedule and let's help out with our attendance and support.

Rev. and Mrs. J. C. Stepp had the misfortune of turning their pickup and a water trailer over en route to Childress Monday but fortunately no one was hurt. He is the local Church of Christ pastor.

Rolfe Wooten and Larry Braidfoot were in Canyon and Amarillo several days attending the Science Seminar with Rolfe's uncle, Mr. Leroy Wooten of Canyon.

Visitors in the home of Mrs. D. T. Eddins, the R. V. Woods and the Rab Hollands were a daughter Mrs. Dick Vogler, Susan and Jere of Amarillo; sisters, Mrs. Nora Ward of Fort Worth, and Mrs. W. E. White of Dallas; a brother, Mr. and Mrs. John Smith and John True of Amarillo; and Mrs. Florence Miller and Jane of Portales, N. M.

Football injuries to date include a broken right thumb for Larry Elliott, a cracked bone in the foot of David Longbine; and a few stitches in the hand of Tommy Adeock who was cleated while in practice Monday.

Major J. H. Wright Jr., who is with the United States Air Force in Spain, visited his mother, Mrs. J. H. Wright over the weekend. Also visiting with Mrs. Wright

were Mr. and Mrs. J. L. Richburg of Memphis, James Richburg and Lewis of Lakeview, Mrs. Nellie Curtis of Estelline and Mr. and Mrs. Cecil Adams of Estelline.

Mr. and Mrs. J. N. Helm Jr. and Jane have returned from vacationing in many points in Texas including San Antonio, San Marcos, Austin, and Six Flags Over Texas. They also spent some time in the home of his brother, the Ralph Helm family of Fort Worth.

Mrs. Lillie Zora Crump of Brownfield recently visited in the home of her parents, Mr. and Mrs. J. L. Darby.

Mike Smith of the King Memorial Church in Childress filled the pulpit of the First Methodist Church last Sunday. Accompanying him were his wife and son.

Dinner guests Sunday in the home of Mr. and Mrs. Dick Delaney and Rita were Mr. Delaney's sister, Mr. and Mrs. Rudolph Walker of Los Angeles, Calif., and their son, Mr. and Mrs. Larry Delaney and Janice Carol of Childress.

Visitors in the homes of Mrs. F. E. Leary, the Joe Allen Baldards, and the Don Learys recently were their daughter and sister, the Guy Leatherwoods (Peggy) of Dallas and a son, Morris Leary of San Francisco, Calif.

Looks like the Hallelujah Coffee, held each opening day of school, just after the opening assembly, is becoming a traditional affair in Estelline. This year it was celebrated in the home of Suzy Rapp. Coffee, iced pops, and assorted sweets were served to approximately 30 jubilant mothers. Suzy swears that this year, the day after school officially

closes, that she will also have "Thank Goodness It Is (Sigh) Coffee" for all the teachers.

Cecil Welches To Move To Amarillo

Mr. and Mrs. Cecil Welches make their home in Amarillo August 30.

Mr. Welch will be employed with the Borden Co. there. He has been employed here by House Supply Co.

Mrs. Welch, the former Moore, has been an employee of the County Clerk's office.

Lions To Sponsor Free Polio Vaccination Sept. 9

The Memphis Lions will sponsor the Sabin polio vaccination in the local unit of the American Legion on Sunday, Sept. 9 from 5 p.m. on the courthouse square. The event will be free to all and urged to come by and receive the oral vaccine. Those who are being asked to contribute 25¢ each toward the cost of the program by dropping a coin in a box at the end of the line. The Memphis Lions Club is cooperating fully in the distribution of the vaccine. A list of the names of the persons who have been asked the past

The answers were supplied by the Hall County Medical Society. GOAL—Complete Elimination. The oral polio vaccine we now have is a simple tool with which the complete elimination of poliomyelitis can be attempted. Although the Salk Vaccine has prevented thousands of cases of paralytic polio in the United States, thousands are continuing to occur annually in unvaccinated and inadequately vaccinated persons. HIGH ANTIBODY TITRE — Of the Sabin-vaccinated people tested, 99.1 per cent showed an anti-body titre of 1:16 or more to Type I; 98.5 per cent a similar rise in titre to Type II; and 97.5 per cent to Type III, which high titres the United States Public Health Service considers to be fully protective against polio. WHAT ABOUT SALK VAC-

CINATED PERSONS—It is emphasized that this high rate in antibody response to the Sabin vaccine fully justifies the recommendation of giving the oral vaccine to all persons regardless of the number of vaccinations of Salk vaccine they may have received.

ELIMINATE CARRIER STATE — This is so much more important since only the oral, live, attenuated vaccine inhibits the growth of wild polio virus in the intestines sufficiently to break the transmission of wild virus from person to person and to eliminate the possibility of carrier state.

DIFFERENT TYPES — There are three different known types of polio virus which cause poliomyelitis. In order to be fully protected against polio, an individual must be protected against all three types.

WHAT IS ORAL VACCINE — It is a live virus vaccine, taken by mouth, which has been modified (weakened) for the purpose of producing immunity without producing clinical illness. (It is like smallpox vaccine which is also a live vaccine.)

DIFFERENCE BETWEEN SALK AND SALK — The Salk vaccine is produced from a dead virus and the three types are combined. With Sabin oral vaccine, each type is given separately by mouth, four to six weeks apart. Immunity usually results within two weeks after the particular type has been ingested.

HOW SAFE — The vaccine has been given to more than 70 million people in Russia, Mexico, Czechoslovakia and Yugoslavia with excellent reports of results. Several million doses have been given in the United States so far, with complete safety.

HOW EFFECTIVE — Because the oral vaccine usually produces an intestinal barrier against infection, it is expected that the vaccine will be more effective than any presently available by breaking the chain of transmission, or eliminating the vaccinated person as carrier, which killed vaccine does not do.

ANY REACTIONS—All studies have demonstrated the absolute safety of the oral vaccine and no side reactions of any nature have been demonstrated to be caused by the vaccine.

Hall County Soil Conservation District News

The 10,000 miles of modern terraces that etch the cultivated countryside of the Hall County Soil Conservation District are an outgrowth of ditch-like terraces first used in this county about 1812. In the 1930's terraces were one of the first measures to be used in soil and water conservation. Probably some of the first terraces to be constructed in the county were at Turkey under the leadership of John Sharp who had organized a "conservation club" of farmers and ranchers in the Turkey area.

Nowadays many farmers and ranchers in the Hall County SCD consider level closed end terraces a very important part of their farm. The primary purpose of the terrace is to hold water on the land until it is absorbed by the soil. This makes terraces a valuable aid in the control of water erosion says Charley B. Cape of the Soil Conservation Service.

Modern terraces today are designed to control the runoff from a ten year rain or the largest rain that can be expected in a 10 year period. One of the most important parts of the terrace system is the end closure because a terrace system will not function properly without the right type of end closure. The end closure does not require as much dirt as a standard type terrace but it should have a base width of 10-12 feet and a four foot crown width. The height of the end closure should be 1/2 but not more than 2/3 the height of the terrace.

Farmers and ranchers who are now building new terraces, restoring or enlarging old terraces should build their terrace systems and end closures to the above figure. If more information is needed concerning terraces and closures contact the personnel of the local Soil Conservation Service.

Visiting in the home of Mrs. M. W. Paschall were her five daughters and families: Mrs. Bill Scott, Pam and Jeff; Mr. and Mrs. Warren Adams, Terri and Tommie of Amarillo; Mrs. H. A. Bryant and girls and Mike King of Slaton; Mr. and Mrs. Boyce Bruce, Judy, and Boyce of Memphis; Mr. and Mrs. Ernie Mayhugh, Eddie, Joyce Mune of Oklahoma City, Okla. Joyce returned home with her mother after spending several weeks with her uncle and aunt, Mr. and Mrs. Boyce Bruce, Judy and Boyce and her grandmother, Mrs. M. W. Paschall.

Jo Ann Odom left Monday for Santa Ana, Calif., where she will teach in the school there this year. Jo Ann had spent the month of August here with her parents, Mr. and Mrs. Adrian Odom, and grandparents, Dr. and Mrs. J. A. Odom.

ten families depend upon employment at the Democrat and spend quite a sum of money during the year locally. It is certainly an industry—a factory if you please.

Tuesday was declared Senator Moffitt Day at the Chillicothe Lions Club luncheon by the club and special guests. He has served 32 years in Texas Legislature, in the House 8 years and 24 years in the Senate. No other man in the history of Texas can claim such a record of unbroken tenure in the Texas Legislature, Senator Preston Smith, who was guest speaker for the day, asserted.

A luncheon commemorating the first 100 years of service by the state land-grant college system and the U. S. Department of Agriculture will be held September 5 at the A&M College of Texas. Two acts of far-reaching consequence to the United States and to the world were approved into law in 1862 by President Abraham Lincoln. One established the U. S. Department of Agriculture; the other established the nation's land-grant college system.

B&PW Club To Furnish Rides To County Picnic

Members of the Memphis B. & P. W. Club will furnish transportation for local elderly persons to the Hall County Picnic here Sept. 18.

In making the announcement this week, Mary Baten, president, stated that air conditioned cars would be used for those persons desiring transportation.

"Each will be picked up at their home, carried to the City Park, and will be returned at the time desired," she said.

Mock Brothers Are Killed In Ft. Worth Accident

Billy Eugene Mock, 17, of Fort Worth, nephew of Mrs. Jean Lamb, died in a hospital Saturday morning of injuries received early Friday in a car-train wreck that killed his brother.

Mock and his brother, Owen Ross Mock, 21, were returning from a movie shortly after midnight. Their car crashed into a freight train locomotive in the 800

Bill Pounds Is Injured Wed.

The Memphis Cyclone football team received another blow Wednesday morning when Bill Pounds, starting right halfback, received a dislocated left shoulder in work-outs.

The injury occurred when Pounds fell on a fumbled ball. The injury is expected to keep him out of contact for two weeks, however, Coach Don Lambert stated that he might possibly see some kicking action in the Memphis-Tulsa game.

A shoulder injury occurred this week to Mike Branigan. Branigan is out of contact awaiting the healing of a shoulder spur.

Still out of action are John Lemons with a knee injury, Toby Crooks, with a sprained ankle, Jack Stargel with a broken foot, and Dale Sexton. Sexton is awaiting the healing of his left hand.

Despite these injuries, Coach Lambert stated that the squad's spirit was very high, and the

block of E. Weatherford.

The older brother died instantly. The boys are the grandsons of the late Louie Mock, who was with the Shoe Bar ranch here in the early days and later farmed near Alaska.

He is survived by his parents, Mr. and Mrs. W. O. Mock of Fort Worth, a brother, Louie Mock, in the Army at Fort Devens, Mass.; a sister, Nancy Mock, 4, and grandparents, Mr. and Mrs. C. A. McCurdy of Azle.

squad is showing up a lot better than they did the first week.

The head coach also stated that the squad should be ready for their opening night a week from Friday.

Two additions to the team are sophomores Larry Helm, 150 lbs., and Jimmy Harrison, 150 lbs.

Cyclone Drive Inn Feeds 407 Indian Children

The Cyclone Drive Inn here played host to 407 Indian children for breakfast Wednesday morning. Alvin Winters, owner, said it took two and a half hours to feed the students.

The Indian children were from reservations in New Mexico and Arizona, and are going to schools at Fort Sill, Okla., and Anadarko, Okla.

The students rode in 11 buses, and one bus carried luggage.

The cafe started serving breakfast to the students at 5:30, and finished about 8 a. m. Memphis has been used for the past several years as a rest stop for the annual trip of the Indian students.

Several Band Students Visit Paducah Director

A number of Memphis Band students, their parents and Band Director Bill Bradley paid a visit to Coy Cook, Band Director of the Paducah Band, Tuesday morning.

Last year, while a senior at Texas Tech, Cook worked several weeks with the Memphis Band. He was a roommate of Bill Bradley while the local director was in college.

Making the trip were: Director Bradley, Mr. Gown, Mrs. Alwine, Mrs. Monzingo, Mrs. Bruce, Mrs. Mothershed, Mrs. Hoover and Mrs. Maddox.

Students who went were: Suetta Lemmon, Betty Long, Velma Hutcherson, Sara Beth Montgomery, Pamela Lindsey, Ronald Pate, C. L. Goodnight, Marilyn Driver, R. B. Spruill, Elmonette Branigan, Glenda Bruce, Ginger Greene, Suzanne Sexauer, Anita Snowdon, Peggy Parker, Lana Waites, Tony Monzingo, Jerry Burleson, Lowell McKown, Sandra Mark, Carol Thomson, Carolyn Lockhart, Susan McQueen, Regina Hoover, Linda Alewine, Jim Ed Wines, Diane Gailey, Vivian Maddox, Linda Leslie, Billy Cosby, Susan Mothershed, Carol Smith, Lynn Foxhall, Sue Watson and Gaylynn Jeffers.

Quitaque Man Pleads Guilty To Driving Charge

Samie A. Mayes of Quitaque pleaded guilty to charges of failure to stop and render aid in the Justice of Peace Court in Turkey and was fined \$50 and court costs.

The charge resulted from an accident Tuesday evening in which Mayes and Thomas A. Brummett of Quitaque were involved. Mayes was driving a wrecker, towing a car, and Brummett was driving a 1959 Ford, proceeding in the opposite direction. The towed vehicle struck the car driven by Brummett, Highway Patrolman Don Collins stated.

Mayes did not stop after the accident occurred. He was later brought before Justice of Peace John Ewing of Turkey.

Reserve Seat Sales Are Over Last Year

Reserve seat ticket sales are far above last year, President T. O. Pounds of the Memphis Booster Club announced this week, but there are several good seats left.

Anyone wishing to purchase reserved seats to the Cyclone's home games this season may do so by contacting President Pounds.

Pounds also stated that the Booster Club's next regularly scheduled meeting is the first Monday night after the Tulsa-Memphis football game.

President Pounds also stated that he was appreciative of all the work that has been done on the Cyclone football stadium, by club members, M. C. Allen, and other individuals.

New sidewalks are being poured this week south of the concrete stands in the vicinity of the snack bar and the rest rooms. Several spots on the field have been resodded this week, and all the wood fences, the press box and the roof of the Allen Field House have been re-painted. Also, several loads of sand have been hauled and spread over the field in the low spots.

Pounds stated the field would be in good shape for the first game a week from Friday night.

Stocks and Bonds

When you buy a share of stock, you own an interest in every single thing a firm has; when you buy one of its bonds, you don't own any part of the company. The bond or debenture is merely a promise to pay.

Suppose out of 1,000 shares outstanding, you own one share. Then you have an undivided one-thousandth share in the company, not in any particular thing but in every piece.

When you buy a bond, you own no part of the company. The firm promises to pay the loan back when the bond matures.

As a rule, bondholders have little say directly about the firm or how it picks its officers and manages its business. Of course, lenders exercise indirect influence since they must have confidence in the firm and its management before they will part with their money.

Bondholders get their interest before any stockholder gets his dividends; and should the firm go broke, they get paid out of its assets before the stockholders get a nickel.

Preferred stock, as a rule, yields fixed dividends before the common stockholders get anything, but preferred stock dividends are payable only if declared by the corporation.

As a rule, common stockholders risk more and therefore stand to make a greater profit (or loss).

The legal invention of the entity called a corporation has made vast public investment in industry and commerce possible. By allowing anybody to buy in or to lend to the firm, a corporation has made large scale research, production, and marketing possible while each investor can study and decide where he wants to risk his capital.

Driving while drinking was involved in 40 percent of the rural fatal crashes in Texas in 1961, lowest since 1958 and up 1 percent over 1960.

New Service Announced By A&M College

A new service to aid farmers in combatting salt problems on irrigated land has been announced by the Texas A&M College, according to County Agent W. B. Hooser, Hall County. Facilities for determining quality of irrigation water and measuring salt accumulations in the soil are now ready for full scale operations, Hooser said.

Since all waters contain salt, a salinity threat exists to some degree in every area where irrigation is practiced. Salt problems are most apt to come in the Trans-Pecos, Coast Prairie, Rio Grande Valley and the Wichita Valley areas, but may exist in local areas in the High Plains, Rolling Plains, Rio Grande Plain and other sections of the state.

Salinity tests of water reveal whether it is safe to use for irrigation purposes and what management practices or soil amendments, if any, are needed for sustained production. Soil salinity tests are also important because soil types determine in many cases whether saline water is usable, the agent pointed out.

A charge of \$5.00 will be made for testing water samples and \$4.00 for soil salinity tests. Testing of soil samples for fertilizer and limestone requirements will continue to cost \$2.00. A special set of forms has been developed for use of farmers in submitting water and soil samples for salinity testing. Hall County farmers may obtain these forms along with additional information of salinity testing at Hooser's office.

MONEY THROWN AWAY

Every year, some 10,000,000 Americans throw away a billion dollars or more for quick remedies that do them no good, and in some cases, can harm them. This is the judgment of the Federal Food and Drug Administration, which warns people against quacks and their "remedies" to no avail.

The two most victimized classes are those afraid of cancer and those who are overweight. Both seek short-cuts that get them into trouble. The FDA has 637 inspectors scattered throughout the country and 275 scientists who spend all their time testing things the American public uses. Yet, there are millions who pay no attention and seek remedies without FDA approval.

The old-line medicine man made some free-swinging claims for his bottled-cure-alls but the age of electricity and the atom has brought the weirdest kinds of claims for strange new contraptions, which FDA fights constantly. Better depend on your doctor to be safe. He is trained to diagnose your ailment and cure it, if it is curable.

One hundred years of service by the state land grant college system and the U. S. Department of Agriculture will be commemorated at a luncheon September 5 at Texas A&M College. The Morrill Act, which established the land-grant college system, and the establishment of the USDA were both approved into law in 1862 by President Abraham Lincoln.

According to the USDA the 1962 cotton crop prospects are up nearly 5 percent. It reports prospects for especially high yields in the central cotton states.

In 1961, 40 percent of the fatal highway crashes and 20 percent of the non-fatal collisions involved drinking drivers. Among all crashes resulting from drinking, 30 percent of the drivers in fatal wrecks and 13 percent of the drivers in non-fatal collisions were themselves drinking.

A ready hand is better than a ready tongue.

Mrs. C. H. Waller returned from a 10-day vacation trip last Thursday. She visited in Morton with Mrs. J. W. Waller.

Early cotton harvests in most of the state makes possible early destruction of cotton stalks and farm cleanup, according to R. L. Ridgway, entomologist, Texas A&M College. Pink bollworms and boll weevils infestations can be effectively lowered in next year's crop by a good job of stalk destruction now.

Testing of water and soil salinity is now being done for irrigation farmers at the Soil Test Laboratory, Texas A&M College. The lab can test the quality of water for irrigation purposes also determine the effect of water on soil salinity.
