Retired Teachers Host State Head

The state president of the Texas Retired Teachers Association, Dr. William Anthony Hunt of Abilene, will be the guest speaker at a luncheon of the Collingsworth County Retired Teachers Association Tuesday, March 13.

This is the first time a state president has visited the Wellington group, which extended the invitation shortly after he took office July 1, 1983.

His subject has not been announced.

The luncheon meeting will be held in the fellowship hall of 1st Baptist Church at 12 noon, said Dollie Mae Wilson, county president.

Members of the Retired Teachers chapters in Hall, Childress and Wheeler counties have been invited, Mrs. Wilson said.

She emphasized that all members are urged to be present and retired teachers from this and the other counties who are not members but who are interested are invited.

Since this is a salad luncheon, and prior reservation is not required, those coming are asked to bring a salad.

Since he retired in 1972, Dr. Hunt has been active in retiree organizations. As 1st vice-president and membership chairman of TRTA, he set a goal of 30,000 members, a goal he continues as president and hopes to reach this year.

He had a leadership role when the National Retired Teachers Association became a part of the American Association of Retired People in 1980.

Dr. Hunt sees TRTA and its local affiliates, such as the one at Wellington, as providing retired teachers with an opportunity to continue friendships and service.

"These well trained people should not waste their talents after they quit teaching. As active members of TRTA they can be a formidable force in decision-making processes," he said.

After 20 years as president of Howard College in Big Spring, he was named president emeritus upon his retirement in 1972.

In 1929 he graduated from McMurry College in Abilene, of which his father, Dr. J.W. Hunt, was founder and first president.

ALL DISTRICT

Wellington High School garnered 8 places in All-District basketball team balloting. All-district athletes above, front row, from left, are Rosendo Villanueva, Sandie Cobb and Dwayne Culpepper. Second row are Paula Nash, left, and DeeAnn Williams. At back at Mark Hunnicutt, left, and Kirby Pennon. Not pictured is Joe Bill Munn.

First Outing For Winged Rockets

The Winged Rockets have their first outing Friday and Saturday, March 9 and 10, when they enter the tough Panhandle track meet.

"It's our first meet. Almost everyone else ran last week," said Coach Carl Taylor.

"It's probably one of the toughest meets we will go to all season."

"Panhandle is the defending state champion in the mile relay and its sprint relay also finished fourth at state last year.

"Also at this track meet will be Dalhart, which took both its mile relay and sprint relay to state last year," Taylor continued.

Taylor will take 7 boys to Panhandle from a team that is smaller than usual.

Running the sprint relay will be Dwayne Culpepper, James Benton, Lee Munyan and Joe Bill Munn.

Culpepper will also run in the 100 and 200 meter dashes.

Munn is entered in the 100 meter dash, long jump and high jump.

Jay Warrick will be in the 800 meter run.

James Patterson is in the 200 meter dash.

Kenny Peeks will throw shot.

Peeks and Patterson are freshmen.

Auxiliary Puts Time And Money In Hospital

"Movers and shakers," has come to apply to those who get things done. In Collingsworth County, that description rests well on the shoulders of a group of women who "get things done," members of Collingsworth General Hospital Auxiliary.

They have done much to improve the appearance within the hospital, but their biggest achievement has been to bring about a change—an improvement—in the attitude of the community and the hospital toward each other, acknowledges Loretta Wright, Auxiliary president.

The hospital, which formerly had an active hospital auxiliary, had been without one for a number of years.

An example of the work they do is their latest project, buying and hanging draperies for each of the patient rooms and material for dividers, at a cost of approximately \$4,500. Draperies for a number of the offices and other professional rooms had been purchased earlier by the Auxiliary.

The women, used to

buying draperies for their own homes, had no idea of the problems they were asking for a year ago when they took on the project.

Medicare and other accrediting agencies have drawn specific and strict guidelines concerning the materials that may be used. First of all, it must be fireproof. Few mills make this material. After several months of searching, a dealer was located and quoted his price: \$7,000.

Members were speechless at first, but not defeated.

Tom Wilkins of Wilkins Furniture joined their search and located Payne Fabric Co., Dayton, Ohio, which manufactured drapery material that would meet the specifications set up.

Windows were measured—there are several sizes, the draperies were made and shipped, and this week, Hospital Auxiliaries are hanging the last of the curtains.

"We are very pleased with the quality and workmanship," said Mrs. Wright.

This has come on the heels of other projects by the hospital which include painting the rooms of the first and second floors.

When the Auxiliary was organized in 1981, members voted that they would not become a part of the state hospital auxiliary association. "We wanted to use all our money here at home, and we believe we are doing as well as, if not better than some of the other auxiliaries are doing."

Mrs. Wright points to the purpose of the Auxiliary: "...to promote interest and understanding of the hospital, its goals and its capabilities, to assist as volunteers in ways that would be helpful to the hospital and its staff, and to use what monies that are raised or contributed for the purpose of securing things that are most needed."

It has not occurred to Auxiliaries to tally the monetary value of their services and improvements to the hospital. When asked, they hadn't the slightest idea.

Fire Department to Open Fund Drive with Banquet

Tickets have gone on sale for the Wellington Volunteer Fire Department Safety Equipment banquet, which will be held Friday, March 23, at 7:30 p.m., in Bura Handley community center.

Bob Murphy of Nacogdoches, one of Texas foremost humorists, will be the speaker.

Fire Chief Danny Gray explained that this is a

benefit banquet, and all monies above actual expenses will go into the safety equipment fund.

Murphy has told former Fire Chief Buster Hughs that he will not make a charge for his speech, so that fee can be added to the fund. Murphy is a former fire chief.

Tickets are available from any member of the fire

department at \$10 each.

The first safety equipment bought will be additional Scott Air Packs, protective head gear which firemen wear into burning or smoke filled buildings.

The Wellington Department presently has 7.

But these are expensive, costing \$1,500 or more each. "Most departments our size (25 member maximum)

have at least 24 air packs. Many departments have an air pack for every man," said Hughs.

At the present price of these units, it would cost \$27,000 to put an airpack on every Wellington volunteer fireman, Gray points out. The department will buy as many as it can raise money for.

WHS Has 8 For All-District Honors

Skyrocket Kirby Pennon was selected by District 2-2A boys basketball coaches as the top-ranking member of the boys all-district team last week, Coach Gano Wilson announced.

Rankings are made during voting on the team members, Wilson said.

Other Wellington boys selected were Mark Hunnicutt and Dwayne Culpepper. Selected for honorable mention were Rosendo Villanueva and Joe Bill Munn.

Coach Dale Morris announced the Rockettes who were named to the girls 2-2A all district team:

They are Dee Ann Williams, who plays at post position, Paula Nash, forward, Sandie Cobb, forward, received honorable mention.

In addition to the Wellington players, 2-2A coaches named these to the boys all-district team:

Jimmy Richardson, the No. 2 man in team ranking, and Chris Sims, both of the district champion Memphis Cyclone; Danny Detten and Jay Cassidy of Panhandle; Harvey Williams of Quanah; Doug Walker of Clarendon and Randall Hugg of

Shamrock.

On the girls all-district team besides the Wellington members were Karen Strawn of Panhandle, selected the Most Valuable Player in District 2-2A, and Kelli McQueen of Memphis; Monica Golleher, Tonya Tabor and Shelly Belt of

Quanah; Linda Weatherton and Gina Spier of Clarendon and Amy Kennedy and Monica Reining both of Panhandle.

Amy Kennedy is a junior, all other girls including those from Wellington, are seniors.

Spelling Bee Set Friday

Spellers from Wellington and Samnorwood schools will compete in the 1984 county spelling bee Friday, March 9, in the county-district court room of the courthouse.

Starting time will be 10 a.m.

There will be junior and senior divisions.

Schools have received information concerning age and grade requirements, and the school winners have been named in each school,

said Dollie Mae Wilson, president of the Retired Teachers Association, which sponsors the spelling bee. Alternates will be named in both senior and junior divisions.

Winners will receive an award and other gifts.

The winner of the senior division will represent the county at the regional spelling bee, to be held in Amarillo later in the spring.

Winner of the junior bee will be invited to attend as a

guest. Both will be present at the annual spelling bee luncheon.

The regional spelling bee is sponsored by the Amarillo Globe News Publishing Co. and West Texas State University.

Winners of that event will represent the region at the National Spelling Bee held in Washington, D.C. in late May.

The pronouncer and judges will be selected locally.

Boys' Choir at Shamrock March 13

A popular concert group, The Texas Boys' Choir, will be in Shamrock Tuesday, March 13 at 8 p.m. in the high school auditorium for the final concert of the Shamrock Community Concert season.

This is their second visit to Shamrock. The choir is comprised of 26 young boys who have earned a world-wide reputation, rivaling that of famed boys' choirs of England and Germany.

Executive director of the Fort Worth choir is Jack

Noble White, a native of Weatherford, Texas, who came to his post in 1977 with a distinguished musical and administrative background.

The group has traveled more than 250,000 miles throughout the United States, Mexico and Europe, filling more than 3,000 major concert engagements.

Their recordings have won two Grammy awards. Their programs range from old church music to the latest Broadway show tunes and exuberant folk songs of the Texas ranches, all performed in full costume.

The average cost for one day in a U.S. hospital is \$300.

AUXILIARY—

Continued from page 1

projects draws much comment. The lobby has been redecorated, some new pieces of furniture added and lamps replaced to give it an all-new look. It's the first thing one sees on entering the hospital.

The nurses' lounge underwent a facelift, with new cabinets installed and table refinished.

The biggest change has come in the doctor's lounge. The women agreed something had to be done about that. What was done was new carpet, drapery, cabinets and furniture, part of it a gift.

Brass name plates for doors, and door numbers were installed for rooms 115 to 128. Two rocking chairs were another purchase. A microwave oven and cooking utensils were added in the kitchen.

Auxiliaries called on the public to donate trading stamps for one project, and after a few weeks they took their stamp books and exchanged them for patio furniture.

Most Auxiliary members are coffee drinkers and they understand other people's need. A coffee cart, and pot were installed to give daily service. This costs the Auxiliary \$50 every month.

A doppler to monitor fetal heartbeat was an example of a valuable instrument in a small package.

Two suction machines were purchased, as were two walkers. Several chairs were bought for patient rooms. Eight new mini-blinds were installed in service rooms.

Dr. Carter Holcomb, Dr. P.K.N. Kumar, Hospital Administrator Perry Foster and Director of Nurses LaDell Maxwell speak warmly of these women.

This list of additions to the hospital is no news to the community at large. Auxiliaries may be publicity

shy in their private lives, but not when it comes to the hospital. Unlike some organizations who do not make their achievements known, Auxiliaries let the community know about their achievements. If they have a need, they speak out. One valuable source of income is the memorial gifts or donations by people of the community. They find this a highly successful program.

Most of the women work regular shifts at Collingsworth General. They emphasize they do not do any work of the professional staff. They visit patients, many of whom are lonesome, deliver mail, fill various services, bring the book cart around, serve food trays at noon, and dozens of other small tasks.

The next project? Fund raising, says Mrs. Wright. They are going to give a clock-radio-telephone combination. There will be a second prize, to be selected.

For more information, ask any of these enthusiastic women about the project.

"We do have plans for our garage sale, which we'll complete in our March meeting. (These are held the third Tuesday of each month.)

City state Bank has

donated the use of the building at the corner of East Avenue and 10th Street (the J.M. Strong house) for the garage sale.

Loretta Wright sums up what she feels is the most important work Collingsworth General Hospital Auxiliary has done:

"The attitude of the community toward the hospital has improved. We have a good working relationship between the community and the hospital staff."

Members of the hospital auxiliary are Edna Woolbridge, Ruth Phipps, Paralee Coleman, Roxie Hill, Merle White, Hellen Peeples, Colene Barton, Ruby Wood, Corky Bowen, Hilred Vaughan, Willie Faye Patrick,

Myrtle Hill, Ruby Riley, Barbara Coleman, Lottie Handley, Jane Nall, Irene Yarbrough, Yvonne Canada, Dollie Mae Wilson, Myrtle Yarbrough, Lois Ratliff, Jean West, Doris Knoll, Buddy Yates, Virginia Robey,

Wellington Veterinary Hospital will be enlarged and remodeled beginning next week, Dr. Mark Fires said this week.

Fires said he expects the expansion and remodeling to be completed by April 1.

Plans include a new large animal treatment area with stocks and chutes for vaccinating heifer calves under the new Brucellosis program, Fires said.

Also included in the plans are a new small animal exam area, new reception and dispensing areas, new treatment and kennel facilities with small animal bathing and dipping areas and boarding facilities. The office will include a complete patient record system for both horses and small animals, Fires said.

History Work Progresses

Several more family histories and general historical items have been received for the County History Book which will be published by the Taylor Publishing Co. of Dallas, said Evelyn King, chairman, who made other pertinent announcements.

There is no fee for the family histories being included in the book. Each story may be up to 500 words with one picture. If possible, the stories should be typed double space, but if unable to type, be sure to send the story anyway, she urged. These should be sent to the Chamber of Commerce, Box 267, Wellington, Texas, 79095, with "History" marked on the envelope.

Everyone is asked to help with items of interest in the county's past which will be included in the general history section later. Ruth Derryberry will be the chairman in charge of this section.

There will be a section on the churches of the county, both past and present, under Mrs. King, chairman; local businesses, Tommy Hudson, chairman; past businesses, Henry Wells, chairman; schools of past and present in the county, Louis Graham, chairman; and a section on the clubs and organizations past and present, Ruth Derryberry, chairman.

Help on any of these sections will be appreciated. If there is an original, hand-written item, please

make a photo-copy. All pictures and other items of interest will be returned to the owners after the book is published. The price of the book has been set at \$35.00 plus \$1.75 tax and postage (and \$3.25 handling charges.)

For those who pick up the book, there will be no postage charge; for those out-of-state orders, there will be no tax.

"This unique history book will be on a pre-sale basis only. The number of books to be published will depend on the number of books sold during the pre-sale. It is a

one-time sale only. This project is backed by the Chamber of Commerce with all volunteer help," Mrs. King said.

The winning logo to be on the front of the County book was submitted by Mrs. J.D. (Jane) Sheer, who will receive a free book.

Her logo features several things representative of the County's history: a saddle horse, a white-face cow, a wooden windmill, a large cotton boll, a spike, the Rocking Chair brand, barbed wire, wheat stalks and maise heads.

ANSWERS ALL-ABOUT TEXAS

It's All About Texas

DALLAS ; The 52nd edition of the Texas Almanac published by The Dallas Morning News will offer more information than ever before about the Lone Star State. Over 700 pages of facts and information make the 1984-1985 edition truly "The Encyclopedia of Texas." The Wellington Leader received a shipment of The Texas Almanac this week.

The new Almanac features a special section on the Texas-Mexico Borderlands--including a history of the region, the border today and a border travel guide from El Paso to Brownsville. There's a section on science in Texas--the history of the study of archeology in Texas; a guide to accessible archeological sites; a survey of medical and energy research, and a look at

Texas dinosaurs. Plus, a special pronouncing gazetteer to teach newcomers how to "talk Texan."

The 1984-1985 Almanac contains the complete Texas Constitution and amendments. For well over a century, students, teachers, farmers, business and industrial leaders have looked to the Almanac for the answers they need on industry, government, business, economics, politics, population, agriculture, weather, education, Texas history and much more. Plus, thousands of people use the Almanac to plan vacations and recreational activities or to just look up interesting and important facts about Texas. The first Texas Almanac was published in 1857 by The Galveston News, which was then the parent company of The Dallas Morning News. Since 1925, The Dallas Morning News has published the Almanac biennially.

Everyone--native Texans, long-time residents, newcomers and visitors alike--will find the TexasAlmanac indispensable when faced with questions like: "Who's your congressman?"; "What's the most densely populated county in Texas?"; "Which are the 10 largest cities in Texas?"; "What is the state flower?"; Answers to these and other questions, are in the "Encyclopedia of Texas," the 1984-1985 Texas Almanac.

COLLINGSWORTH COUNTY AGENT REPORT

by Nancy Janes

MAKE MORE USABLE SPACE IN THE HOME

With current housing prices, moving to larger quarters is out of the question for a lot of homeowners. Adding to the squeeze is the current trend in housing construction which emphasizes compactness and economy.

As a result, many of us will need to learn how to live comfortably with less space.

Furniture selection and placement and other decorating devices can help.

Start with an inventory of the total amount of available space in your house and its divisions, the arrangement of rooms or areas and size and location of home furnishings.

If some areas seem overcrowded, while others appear underused, reorganize your use of the space. Explore new and different ways of making space function better for your needs.

Some changes can require costly remodeling or decorating, while others may be achieved by minimal purchases or simple furniture rearrangements.

Here are some low-cost ideas for making cramped quarters look larger:

-Plan the decor for the

entire home as a unit rather than for each room separately to create a feeling of spaciousness and continuity.

-Carry wall and floor colors from room to room and change textures rather than colors. Blending simple window treatments with wall colors will make rooms seem larger.

-Rooms with pastel colored walls reflect light and seem more spacious, while darker walls soak up light and appear to confine.

-Modify a guest room or extra bedroom to double as a study, television room, sewing and/or hobby room.

-Choose small-scaled furniture with simple lines, and choose multi-purpose pieces such as sofa beds or drop-leaf tables when selecting or replacing furniture. Place furniture against walls to leave as much space as possible in the center of the room.

-Consider clustering items such as the TV, stereo, bookshelves and storage cabinets in a wall unit to help eliminate clutter, increase floor space, and add interest to your room.

-Expand space visually by

using mirrors.

-Eliminate furniture that's not used and limit the number of accessories to two or three to a room. Beautiful objects need space around them to give people eye as well as elbow room.

Spiced Desserts Can Chase The Winter Blues

It's easy to chase the winter blues with a bevy of spiced, home-baked treats fresh from the oven, that create a little nostalgia with a minimum of time, energy and money. And, you needn't sacrifice nutrition for convenience.

The home economists at the Shurfine-Central Corporation have developed recipes that combine nutrition and traditional good taste with today's convenience foods. It takes just minutes to turn out a luscious Spicy Coffee Ring that can be served as a hearty, warming breakfast or a delicious dessert.

Desserts containing fruit, nuts and natural grains are not only good tasting but nutritionally sound. Their Colonial Apple Crunch Cake is a tasty example.

To help you keep an eye on calories, send for a free copy of Shurfine's "Nutrition and Diet Guide." Write: Diet Guide Office, Dept. NC3, P.O. Box 1503, Melrose Park, Illinois 60164.

This is a part of the church's observance of the 200th anniversary of Methodism in America.

It is regarded as a distinct honor by Methodists of this area that one of their own painters receive this commission.

Wyatt, who lives in Tulsa with his wife, the former Veda Mae Kiker, has been a Wellington visitor many times and has spoken before

a number of groups here.

The Rev. Tom Thomason gave the luncheon invocation and the Happy Birthday was sung to those having February birthdays.

Attending were guests, Mr. and Mrs. Melvin Kiker and Mrs. Joyce Emmert.

Cancer Society Announces Services Available Here

The American Cancer Society in Collingsworth county announced today that it has a variety of service available to cancer patients without charge.

Many people are unaware of all the services we can provide right here in this town," said Rita Owens, Service Rehabilitation Chairman. "And all that is required in most cases is written permission from the patient's physician."

Loan equipment such as hospital beds, wheel chairs, commode chairs and walkers are available as well as expendable items including dressings, hospital gowns, bed pads, pillows and other items.

"These are all in addition to our basic information and referral services," said Mrs. Owens. "And, depending on location, we also have several rehabilitation programs including Reach To Recovery for mastectomies, esophageal speech lessons for laryngectomies, ostomy rehabilitation and related patient and family support groups."

The concept for these rehabilitation programs is the volunteer-to-patient relationship," added Owens. "We have many volunteers who are themselves former patients and who are specifically trained by the Society to help other patients and even their families adjust to living with cancer."

Mrs. Owens cited that when most people think of the American Cancer Society, they relate the name of cancer research. "While it is true the ACS funds millions of dollars for cancer research, we are also a community-based organization providing many local services. These patient services as well as education materials of all types are just a few of the ways we can help."

"Since September, an estimated \$120.00 worth of services to patients has been utilized in this town already

this year, but even more could be done if more patients were referred to us," added Owens.

information on these services may call Rita at 447-2636 or Sandy St. John, in the Amarillo office, at 353-4306.

Mrs. Pendleton Presents DAR Program on Hawaii

Mrs. Velman Warrick was the hostess at the meeting of La Paisana Chapter, Daughters of the American Revolution on Monday, March 5, in the Heritage Room of Wellington State Bank.

Mrs. Boyd Derryberry, regent, conducted the ritual opening and the business meeting.

Mrs. Walter Pendleton gave the program on "Hawaii." The first part was "Flowers of Hawaii," which picture red in detail. Most of the flowers of the islands have been brought from other countries, the first by the Polynesians and others by later settlers. The second part was about the island of Kauai, the most unspoiled and interesting of the group. One spot of the island has the heaviest rainfall in the world, 38 feet, while other sections are dry with stone irrigation ditches built by the Polynesians. Today, sugar cane is an

important crop in the areas along the coast.

The Defense Report was given by Mrs. R.C. McNett stressing the fact that UNESCO was used by the Soviets for espionage.

Mrs. Derryberry gave some hints for fire prevention in the homes.

It was noted that Mrs. H.H. Bowen, Mrs. Bura Handley, and Mrs. Derryberry had been judges of the costumes of the students of Wellington Elementary School for Great Americans Day.

A St. Patrick theme was used in the refreshments served to Miss Maudie Coffee, Mrs. Jack Davis, Mrs. J.D. Coleman, Mrs. Dan Henard, Mrs. Louise Templeton, Miss Hattie D. Wells, Mrs. R.A. Dodgen, Mrs. Derryberry, Mrs. McNett, Mrs. Handley, Mrs. Bowen, Mrs. Pendleton, Mrs. John McDowell and Mrs. Warrick.

TDA Asks Help of Lawmen

The Texas Department of Agriculture has requested that all state and local law enforcement agencies in the area stay alert for grain trucks that might be suspected of hauling grain stolen from Panhandle elevators.

"In spot checks by our inspectors," Angela Lamb, District Supervisor of the Texas Department of Agriculture, said, "we have found that some of the elevators are missing grain.

We suspect much of that shortage can be blamed on grain thieves. The thefts are not on a scale yet to get alarmed about, but we want to put a stop to them."

Lamb has asked law enforcement officials to alert their patrols to be on the lookout for suspicious activity around elevators and to try to keep a reasonably close check on documentation of grain truckers to make sure they have the appropriate elevator weight tickets for grain loads.

In 1982, health care expenditures for each U.S. Citizen was \$1,090.

SCOOPIN'

J.C. Hartman, who vacations on the Texas coast, sent me a copy of an article in the February 25 Valley Morning Star in Harlingen. It was a column by V.H. Krulak, syndicated by Copley News Service, on the United States withdrawal from Lebanon.

Krulak says that we made a mistake in putting a token force in the area in the first place. He says that the hatreds which divide the area are far too great to overcome by a small show of the flag.

But he says that we would do well to remember that "our motivation in going there was a benevolent one—not for imperialism, not for profit, just for peace in a troubled land."

Perryton Herald publisher Harold Hudson and his wife, Jane, are back from a couple of weeks in China. We'll try to pick up some of the highlights of his trip that will appear in his column over the next couple of weeks, but in a phone conversation this week Hudson mentioned something that I wanted to pass on here. He visited a communal farm where 18,000 (that's eighteen thousand) people farm 2,700 (that's twenty-seven hundred) acres of land. I would call that people-intensive agriculture. It's hard to believe a statistic like that when you live in wide-open West Texas.

Students Attend GATE Seminars

BY BRIAN VAN PELT

Six February seminars were held for Gifted and Talented students on the campus of West Texas State University, Canyon.

Among those attending from Wellington were Jay Anders, Brian Van Pelt, Mike Myrick, Leslie Hammons, Tracy Day, accompanied by GATE coordinator Deanna Van Pelt.

The seminar subjects were psychology of the horse, foreign cultures, archeology, horticulture, the Cold War and graphic design.

Leslie and Mike attended the foreign cultures seminar, which was directed by Jack Muthersbaugh. Students met the international students studying at WTSU and had an opportunity for cultural sharing. The internationals that spoke were from Malaysia, Germany, Japan, and various African nations.

Brian was present at the Cold War seminar. Dr. Darrell Hunsell from the WTSU History Department presented not only a history of the Cold War, but also the events in recent years that have caused it to intensify. The current emphasis on the nuclear issue and arms talks were discussed also.

Tracy went to the graphic design seminar where Robin Ayers from the WT Art Department introduced participants to this field. Ayers

discussed training and education requirements, told about job opportunities and provided some "hands on" experience in graphic designs.

Jay was in the psychology of the horse seminar which met at the WTSU horse center. Director Gary Marble and his staff explained how to read a horse's mind and therefore how to handle the animal. Students were involved in catching, harnessing, and riding a horse during this seminar.

Pickup Destroyed in Farm Fire

A 1977 Chevrolet pickup and tank of butane belonging to H.R. Mayhugh were destroyed in a fire at his farm near Loco Tuesday, Feb. 28.

Mayhugh said an employee was using butane to clean an air cleaner when the fire erupted.

Wellington Volunteer Fire Department was called. "I knew there was no way to save the pickup, but grass was burning toward some hay and that was saved," he said.

There was no explosion, as the butane hose was open and the butane burned out, Mayhugh explained.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — When it comes to redirecting government policy, tight money might be the real mother of invention. When government's coffers get low, some creative officeholders look for new ways to raise revenues, while others simply fall back on tax increases.

Texas Land Commissioner Garry Mauro last week briefly pointed out a new direction his office will take to raise money for Texas schoolchildren from management of public lands.

Mauro wants to trade non-productive state land for land he can rent at commercial rates, a new

tact he says could bring in extra millions to the Permanent School Fund.

Interest money from the Permanent School Fund is divided and given to Texas public school districts by the Legislature. Traditionally, the fund is replenished by proceeds from oil and gas leases on state lands which Mauro manages. State lands without oil and gas are leased for other purposes such as grazing, hunting, etc.

Mauro's intent is to swap the low-revenue lands for commercial tracts which can be leased at 10 percent of purchase price or more. Although the

concept is not new, Mauro is pursuing it with emphasis. Should he be able to put it together, the school fund could grow by several hundred million.

Encroachment Settlement

Mauro told reporters last week he will use \$2.5 million obtained from a recent coastal encroachment settlement to purchase three to four commercial tracts in the near future. He did not identify the tracts.

The settlement was reached with a Texas City firm that had unintentionally, but illegally, used 106 acres of state land for over 70 years. It is the largest encroachment settlement in Texas history, but Mauro says his office is looking at more than 50 other coastal sites where encroachment may have occurred.

Mauro will reinvest money from any future settlements in more commercial real estate, according to Jack Boettcher, Director of Encroachments.

White, Reagan
Texas Governor Mark White visited the president at the White House while attending the National Governors Conference last week.

A few hours later, White spoke to the National Press Club and blasted Reagan on a number of issues ranging from the federal deficit to the economic plight of the Rio Grande Valley. It was the latest in a long stream of public criticisms of the president by the governor who has promised to campaign and unseat him.

In Washington, White also visited with Texas congressmen and other dignitaries. White is mentioned in Democratic Party circles as a vice presidential possibility.

Speaker's Water Plan

Texas House Speaker Gib Lewis last week pulled the drapes off his comprehensive state water plan which he will push in the next legislative session.

Included is a proposed constitutional amendment to provide \$600 million in bonds to develop water resources and improve water quality over the next 10 years. The dollar figure is twice the amount passed last year by the Senate but rejected in the House.

Lewis' plan would allow local water suppliers to adopt water conservation regulations as necessary.

Special Session

The speaker's proposed water plan and the governor's proposed tax hike to raise teacher salaries may be found loosely tied together in a special session later this year. The speaker's forces killed the tax bill last session, but Lewis has indicated he could support a self-destructing tax for education while the Texas economy recuperates.

The governor needs the speaker's support and the votes of the West Texas delegation to keep his campaign promise of raising teacher salaries.

The two issues could be headed for a mutual trade-off. Meanwhile, rumors of a special session have sparked several groups and agencies to prepare to ask

Gov. White to include their budget concerns in the special session.

MAD Convention

Texas Mexican-American Democrats held their endorsement convention in San Antonio last week and, when the smoke cleared, failed to underline any candidate for U.S. Senate.

A two-thirds victory is needed for a MAD endorsement, and the two main contenders for the endorsement, Bob Krueger and Lloyd Doggett, campaigned hard. A third candidate, Kent Hance, acknowledged he had little endorsement support but told the convention he wanted their November votes, should he get the nomination.

Krueger got the endorsement committee's nod, but failed by a couple of percentage points to get the two-thirds necessary.

Soil Test — Don't guess!

Fertilizer prices are going to prove this point this year. All products are creeping upward. Anhydrous Ammonia is leading the way and the others are not far behind.

Cotton and wheat futures have come up from the lows, and the cattle seem to be holding up fairly well.

Treflan and Prowl seem to be the only thing you will buy that is cheaper than last year.

We have our dry fertilizer blender in operation, and hope to be able to save you some cash by blending to fit you soil and crop needs.

SCREWORM ALERT TO SPRING'S ARRIVAL

Although spring is still a few weeks away, recent milder temperatures are expected to increase cattle working and management activities by Texas ranchers. Fly populations, as well as other insect pests, also are expected to increase.

Livestock producers may want to plan and schedule necessary animal surgery before hot weather arrives as part of a surveillance program to aid in keeping the highly successful screwworm eradication program totally successful in 1984.

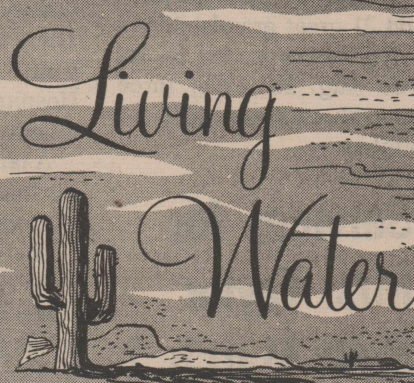

"Livestock producers are the key to the success of this effort. Even though 1983 marked the first year when no confirmed screwworm cases were reported in Texas, ranchers still need to continue good management practices. They will want to inspect their animals frequently for all wounds, including those from de-horning, branding or castrating. Should wounds be found, they should be treated with an approved product according to label instructions. In addition, samples of any worms found within wounds should be collected and sent to Mission, Texas for laboratory analysis.

This three-step plan--inspecting animals, treating wounds, and collecting and having samples identified--is necessary to insure that reinfestation of Texas by the costly screwworm is not allowed to go undetected, the agent adds.

"One undetected fertile screwworm, fly laying eggs can result in a massive reinfestation in a matter of weeks, and we certainly don't want Texas confronted with this problem. Screwworms can be re-introduced into a free area by transportation of infested livestock or pet animals, as well as by natural migration, so constant vigilance is necessary to protect free areas from reinfestation.

What vision this living water would be to a desert wanderer! The nomad and the lonely prospector may dream of running water, but they depend on wells and canteens for their meagre day to day supply.

Most people dip their little store of joy in life from an evasive source and try desperately to store enough to last until the next oasis. What a vision a living eternal source of joy would be to them. Why, they would say, it's like being born again; like having a new life!

Christianity says that deciding to trust in God and trust in the day by day life He gives is like finding living water in the desert. And more, he who drinks from this water will never thirst again. Come to Him then who gives you life. Trust Him and live.

Is something wrong with your life — an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and reassure. Through the church God has committed the provision and proclamation of His forgiveness and redeeming love. Without a church relation no one is securely related to God. Everyone should be in the Church and the Church should be in everyone!

Traffic Accident**

Monte Jack Bradley, 26, who was raised on the Bradley 3 Ranch east of Newlin, died Sunday, Feb. 26, when the pickup he was driving collided with the back of a semi-trailer truck parked on the highway shoulder 5 miles southwest of Guthrie.

The accident occurred about 10 p.m.

The truck, which had broken down, belonged to Oklahomans, who had gone for repairs, she said.

Bradley's small son,

Raymond Jack, was asleep in the back seat of the super-cab and received only a small cut on his head according to Mrs. Oliver.

Monte Bradley had been employed on the Cross Ranch near Guthrie since 1981.

The son of Mr. and Mrs. Bill Bradley, Monte Bradley was born Feb. 6, 1958 in Childress. He graduated from Childress High School in 1976 and attended Clarendon Junior College. He married Linda Congron in 1977 at Clarendon.

Graveside services were conducted at 3 p.m. Tuesday in Fairview Cemetery, Memphis, with Ronnie Parks and R.C. Elliott officiating.

Survivors include his wife of Guthrie; two children, Raymond Jack and Mandy Ann; his parents; a sister, Mary Lou Bradley of Iowa Park; his grandparents, Mr. and Mrs. R.J. (Rusty) Bradley of Electra; and Mr. and Mrs. Ed Adkin of Thomas, Okla.

B&PW Club Sponsors Anderson Walk-A-Thon

On Saturday, March 10, Wellington area boys and girls will walk to eliminate cancer, and adults will be there to back them with money, from dimes to dollars.

Wellington B&PW Club is sponsoring the M.D. Anderson Hospital and Cancer Institute Walk-A-Thon.

The distance is 10 miles, and boys and girls will be walking around the court house square between the hours of 9:30 a.m. and 12:30 p.m., said Mrs. Zook Thomas, chairman. This is part of the statewide Walk-A-Thon.

Material relating to the Walk-A-Thon has been distributed among children of grades 3 through 5 of elementary school and grades 6 through 8 in junior high, Mrs. Thomas explained.

Every boy and girl will be asked to secure sponsors (as many as each youngster can get.) The sponsors will make donations to some boy or girl who will be walking, to be turned over to the Walk-A-Thon chairman.

B&PW Club members will be on hand with refreshments for the participants.

Those who would like to sponsor some boy or girl to walk should contact Mrs. Truman Estes, Mrs. Thomas or Mrs. Lynn Wright. Mrs. Estes will also be at a booth on the court house lawn to receive donations from visitors who may wish to stop by.

Adults are urged to attend and encourage the walkers, and even walk with some of them as they go around the court house square.

Funds which B&PW Clubs raise through Texas with Walk-A-Thon will go to M.D. Anderson for study and research

Plans for Band Concert Completed

Plans are complete for the spring concert to be given by the Wellington School bands, Director Frank Aue announced.

The concert will be given Thursday, March 8, at 7:30 p.m. in the high school auditorium.

The bands will be presented separately, beginning with the 6th grade Sparklers, followed by the Junior High Firecrackers. That Skyrocket Band will conclude the program.

The public is invited.

Heifer High at Stock Show

A limousin heifer exhibited by Patricia Fourmentin took fifth place in a class of 32 at the Houston Livestock Show Friday, March 2, Extension Agent Don Reeves has announced. This was also one of the youngest heifers in her class.

Reeves and parents of two young exhibitors, are less pleased over a ruling that sifted the two steers out of the show.

Jerry Nix had accompanied his son, Darwin, with a Hereford-Angus cross steer and Richard Fourmentin was with Patricia. She had a Simmental steer.

Those in charge of the sifting process said these calves did not have the characteristics of their breeds, Reeves reported.

"If you don't put a Hereford-Angus steer in the British Cross class I don't

know where you put him," Reeves said of Nix steer.

Patricia's Simmental steer was a full brother of the Simmental steer with which her brother, Mark

Fourmentin, won Breed Reserve Championship in the 1981 Houston Show.

Patricia brought her heifer home as she had planned to do all along.
