BOMB WRECKS HOME OF RADICALS' JUROR

TAX REDUCTION POSSIBLE NEXT YEAR--COLIDGE

CONGRESS MAY EISE OR CUT RATE, HE SAYS

TERIAL INCREASE IN APPROPRIATIONS TO BINDER PROGRAM

(By Associated Press)
WASHINGTON, D. C., Aug. 16.—The question of a tax cut was reiterated today at the White House, but President Coolidge feels the extent will be determined by the committee authorized by congress at its meeting session.

Budget Allows Slash
The tentative budget already approved by the president for next year's fiscal year, which will be submitted to congress in October, shows a reduction of \$100,000,000 in appropriations. However, Mr. Coolidge feels any material increase in the year's appropriations will be felt in the amount of tax cut.

Surplus Available
The question of reduction in tax levies were left entirely to the committee. Mr. Coolidge feels warranted in saying this year to go ahead and cut. But he thinks congress usually disposed to spend money for various projects.

President feels there could be a cut if congress would refrain from increasing the nation's expenses.

Eight Planes At Post Ready To Take Off Today In Honolulu Aerial Race

Gladys Roy, Aerial Dare-Devil, Is Killed By Own Plane's Propeller

MRS. GLADYS ROY

YOUNGSTOWN, Ohio, Aug. 16.—Mrs. Gladys Roy, 25, stunt flyer, died in a hospital here last night after having been struck in the head by the whirling propeller of her plane at Watson field late Monday afternoon. Attending physicians said her skull had been torn away in the accident. She had planned a flight to Rome as a climax to a year of hazardous stunt flying.

BIGGEST EVENT IN HISTORY OF AVIATION IS ON

THOUSANDS SWARM TO FIELD AS DOLE RACE GETS UNDER WAY

(By Associated Press)
OAKLAND, Calif., Aug. 16.—The trans-oceanic race, dream of the aerial world since planes were first launched, officially started at noon today when Bennett Griffin, flying the monoplane *Oklaheena*, took off for the island of Oahu. He went into the air at one-half past 12, Pacific coast time.

The *El Cento* plane, piloted by the late pilot Goddard and his navigator climbed in, and was waved to methron. The plane turned around completely, and went partly on its side. The navigator said it crashed because he could not get rudder action.

ONE PLANE RULED OUT

OAKLAND, Calif., Aug. 16.—The *Air King*, formerly the *City of Paris*, was ruled out of the Dole flight to Honolulu by the starting committee at 11:15 a. m. Captain C. W. Sanders, chairman of the Dole flight committee, announced.

Coroner's Verdict In Texarkana Shooting Sheds No Light On Case; District Attorney Raps Statement

TEXARKANA, Texas, Aug. 16.—Mystery of the fatal shooting of Mrs. Mabel Vogel, 32, and H. J. Moon, about 46, remains unsolved with Coroner G. W. Ragsdale returning a verdict Monday night to the effect that Moon either shot Mrs. Vogel and turned the gun on himself or that both were slain by unknown parties or party.

Mrs. Vogel was found dead in Moon's car parked in a lane four miles west of here late Thursday with two bullet wounds through her head and Moon was discovered in a semi-conscious condition 75 yards away with a shot through his temple. He died in a hospital without being able to make a statement.

Died of Pistol Wound
"Mabel Vogel came to her death as a result of pistol shot wounds at the hands of unknown parties or party or by H. J. Moon," read the verdict "and H. J. Moon came to his death as a result of pistol shot wounds at the hands of unknown parties or party or were self-inflicted."

District Attorney Wright Paman rapped the verdict of the coroner today, saying that it was believed after a thorough investigation that Moon killed the woman and then shot himself.

"A coroner's verdict should be based upon the evidence brought out. I have questioned everyone who appeared before the coroner and the evidence plainly lays the responsibility on the firing of the shots upon Moon."

Former Big League Ball Player Dies

HOUSTON, Aug. 16.—Jerry Denny, 68, once widely known as a major league baseball player, died at his home here today.

Denny was in his prime in the eighties when he was regarded as a star third baseman for the Cleveland Americans. He joined the New York Giants in 1899. He began his baseball career in San Francisco in 1876.

17 Are Hurt When Bus Strikes Horse

TOLEDO, Ohio, Aug. 16.—Seventeen persons were injured, two seriously, three miles east of Toledo early today when an east bound Detroit-Cleveland bus struck a horse and upset.

The seriously injured are: James Gatens, 24, Elyria, Ohio, driver; broken leg and possible internal injuries.

M. F. Maher, 44, Detroit, severe cuts and possible skull fracture.

Pneumonia Fatal To 16 Aboard Ship

LONDON, Aug. 16.—Sixteen deaths from pneumonia are reported on the British steamer *Staveland*, carrying 800 immigrants from Trinidad to Calcutta. An exchange telegraph dispatch from Cape Town says that the captain of the vessel, on arriving at Durban, South Africa, reported the deaths and added that most of the fatalities came after only two days illness.

School Tax Board Is In Session Here

The tax board of equalization of the Lubbock independent schools is meeting today in the city hall for the purpose of settlement of taxes. Fifteen business firms and individuals were billed to appear before the board this morning, but many more are expected to meet with the body for adjustments before the afternoon session closes.

Injured Texan Is Reported Improved

NEW YORK, Aug. 16.—Fred Lee of Robert Lee, Texas, injured in a polo practice, some several days ago was reported better today. He has been showing a steady improvement for several days, and will be confined to the hospital indefinitely today's announcement said.

Story Of Uncongenial Relationship Told In Fort Worth By Woman Held For Assault In Attack On Husband

(By Associated Press)
FORT WORTH, Aug. 16.—The story of an uncongenial relationship between a husband who wanted to stay at home and read and a wife who wanted to dance and go to parties was told here today after charges of assault to murder her husband had been filed against Mrs. Rita Curry, 22 years old.

At a hospital suffering from a bullet wound near his lungs, Samuel C. Curry, 38, shot late Sunday, told investigators that he did not know why his wife wanted to kill him, but Mrs. Curry in a statement gave as her reason an alleged insult to her honor and incompatibility.

Married Her Cousin
"At the behest of relatives, I married Curry five years ago, although he was my cousin and sixteen years my senior," Mrs. Curry told investigators. "But I never cared for him, not even after our two children were born. I wanted to go to dances and have a good time; my husband liked to stay home at nights and read."

"Sunday when I returned from an amusement park in the company of my two boys, I told Curry I saw two girls who were dancing, had charged me, and my husband asked me why I wasn't like them. I was crazy at the insult. When he returned from a nearby drug store, where he went to buy my little girl some cream, I shot him."

Humble Oil May File Protest In Big Water Fight

AUSTIN, Aug. 16.—Possibility that the Humble Oil company may add its protest to those of the syndicate power company and the south Texas rice irrigation interests, against granting Brownwood's petition for right to dam Jim Ned Creek and Pecan bayou was seen today as Major John C. Townes, Humble counsel, conferred with the state board of water engineers.

The Brownwood petition is before the board and a decision is expected in September.

Major Townes said his company had an oil treating plant on a 230 acre lease valued at \$1,200,000 in the Jim Ned creek valley which might be overflowed if a dam is built. The company also has some producing wells on the tract. As yet, it has filed no formal protest.

COTTON PRICE FIGHT IS SEEN

RESISTANCE IS PLANNED TO LOW PRICES AT DALLAS MEETING

DALLAS, Aug. 16.—Cooperative resistance to low cotton prices, and the refusal to accept a price less than the actual value of the cotton crop was the plan approved by about 200 farmers, merchants, bankers, cotton buyers and law makers of the south who attended the opening meeting of the two day session of the Farmers' Marketing association of America here today.

Speakers scorned the idea of "regulating a decent cotton price," and some disapproved the suggestion to reduce cotton acreage, but all agreed that southerners dependent upon the price of cotton should join the man in the field in determining the value of the cotton crop and securing its just price.

The delegates came from Arkansas, Louisiana, Oklahoma and Texas.

They selected a committee to finance the plan for cooperative resistance to low cotton prices and to carry it through the south.

Former Lieutenant Governor T. W. Davidson of Texas, was elected convention chairman.

DEFENSE FILES BRIEF IN LONG STANDING CASE

THAYER IS CHARGED AS PREJUDICIAL DURING TRIAL OF CASE

(By Associated Press)
BOSTON, Aug. 16.—The full bench of the Massachusetts supreme court after hearing arguments today took under advisement bills of exception filed by counsel for Nicola Sacco and Bartolomeo Vanzetti to decisions by Judge Webster Thayer, who presided at the trial of the defendants of the supreme court.

Just before court adjourned at 3 p. m. Arthur D. Hill, chief counsel for the defense, filed a new petition asking the full bench of the supreme court to grant a writ of error.

There were two bills of exceptions taken by counsel for Nicola Sacco and Bartolomeo Vanzetti to decisions made by Judge Webster Thayer of the superior court and Justice George A. Sanderson of the supreme court.

The second bill excepted to Justice Thayer's refusal to grant a new trial, a revocation of sentence or a stay of sentence.

Arthur D. Hill, chief defense counsel, argued for the exceptions. Attorney General Arthur K. Ross represented the state in opposing the bill.

The Suffolk county court house in Pemberton square, where the hearing was held, was closely guarded.

Attorney Hill submitted a lengthy brief signed by him and by Elias Field and Richard C. Everts as associate counsel.

Mr. Hill argued that prejudice on the part of Judge Thayer, who presided at the trial had been clearly shown and was sufficient to warrant a writ of error and a new trial. Attorney General Reading took the ground that no evidence of prejudice sufficient to require Justice Sanderson to issue a writ of error.

In connection with defense affidavits telling of alleged statements made by Judge Thayer outside the courtroom, some of which asserted that the judge had used vile language with reference to Sacco and Vanzetti, Attorney General Reading remarked in his brief:

"We feel it our duty to point out that the constitution of Massachusetts does not guarantee that every judge will at every time and place within and without the court room refrain from the use of profanity and vile language."

J. Ogden Armour Dies In London Hospital Today

(By Associated Press)
CHICAGO, Aug. 16.—J. Ogden Armour died today in London, a cablegram received here by Lester Armour, his nephew, said.

Mr. Armour, wealthy Chicago packer, had been ill for some time with typhoid fever, recovery being greatly hampered by recurrences of stomach attacks, an ailment from which he has suffered for some time. The prolonged fever left him in a weakened condition, cable reports said.

John J. Mitchell, Jr., accompanied by Mrs. Mitchell, who was Lester Armour, recently hurried to the bedside of her father from California, when his condition became grave.

Lester Armour said the cablegram announcing the death contained no further information.

FIVE MEMBERS OF HOUSEHOLD ESCAPE DEATH

WINDOWS BLOWN FROM HOUSES MILE AWAY; TREES STRIPPED

(By Associated Press)
EAST MILTON, Mass., Aug. 16.—An explosion believed by the police to have been caused by a bomb equipped with a time fuse, early today wrecked the home of Lewis McHardy, a juror in the Sacco-Vanzetti trial seven years ago.

McHardy, his wife and three grown children who were blown from their beds from the force of the blast, narrowly escaped death. All five suffered cuts and bruises and Mrs. McHardy was thought to have suffered from concussion.

Woman Is Trapped
She was trapped in her room on the second floor of the two and one half story wooden house. Police rescued her. Her husband was able to work his way from the ruins and his two sons, Jack and Theodore, carried their sister, Helen, from her room.

Windows were blown from houses a mile away and nearby trees were stripped of their leaves. With the exception of the rear wall of the McHardy home, the sides of the house were blown out. The granite foundation was cracked, the front piazza torn off and a bulkhead was blown out of the back of the house.

A line of police was thrown about the wrecked house and an investigation started immediately. Guards were dispatched to the homes of three other jurors who live in the vicinity.

Blast Occurs at 3:30
At 3 o'clock the policeman whose house passed the McHardy house, ran in his box about 300 yards away. The patrolman said he saw nothing suspicious in the neighborhood, but a report reached the police that a small seal had been seen leaving the vicinity shortly before the explosion.

McHardy said that a long time ago he had received a threatening letter as had others of the jurors in the famous trial, he said that he had feared an attack and had had no misgivings as to his safety. He is employed in a chocolate factory in Milton.

TEXAS DEATH HOUSE IS FULL

TEN MEN ARE AWAITING "SHOCKING" DEATH AT HUNTSVILLE

(By Associated Press)
HUNTSVILLE, Texas, Aug. 16.—The "death house" at the state penitentiary is full and "running over." Nine men sentenced to die in the electric chair occupy the nine death cells. Willie Robinson, negro, sentenced to die September 1 for killing a farmer at Justin, Texas, is the left over.

Ed Joshlin, 19 year old negro, the youngest person put in the Texas death chamber, will vacate his cell August 22, and then Robinson will move in.

Two are White
But two of the ten men are white. They are A. V. Millikan from Lockhart and Clifford Frank of Houston. Both were convicted of murder.

Some of the execution dates are not set, pending appeals in the court of criminal appeals at Austin. Nearly everyone of the ten believes that he will escape the electric chair through some court or executive action.

Some in the evening and read the Bible and pray and sing and they all hope for life.

Papers In Berlin Rap Precipitancy Of German Flight

BERLIN, Aug. 16.—Certain of the Berlin newspapers, while not withholding praise of the pilots' pluck in the unsuccessful trans-Atlantic attempts of the Junkers monopoly planes Bremen and Europa, sharply criticized today what they term the precipitancy of the promoters in starting the flight.

The *Allgemeine Zeitung* declares the attempt should never have been started in view of the bad weather reports and without wireless sending equipment and experienced operators aboard the planes. Disregard of such "Elementary precautions," it adds, amounts to criminal neglect.

Germany, in a similar strain, complains that there was too much of a "stunt" about the flight. The object, it continues, should not be to "pander to the public praise for sensational record breaking," but to make trans-oceanic flying a practicable business proposition.

All the papers, however, are emphatic in declaring that another attempt must be made.

Two World Records For Seaplanes Set

SAN DIEGO, Calif., Aug. 16.—Two world's records for seaplanes, one for duration in the air and the other for distance covered, are believed to have been made today by Lieutenants Byron J. Connell and Herbert C. Rodd, U. S. Naval aviators stationed at the North Island naval air station.

Connell and Rodd took the air at 2 o'clock yesterday p. m. in a naval seaplane in the effort to break the record of 14 hours and the distance of 300 kilometers for seaplanes.

At 8 o'clock this morning the two air men were still flying after being in the air 18 hours, during which it is figured they have averaged slightly more than 80 miles an hour.

Man Accidentally Shoots Finger Off

CHILDRESS, Tex., Aug. 16.—J. I. Staley, capitalist and rancher, also prominent all man of Wichita Falls, accidentally shot himself Monday afternoon on his ranch in New Mexico. A Denver train was held nearly two hours to take Mr. Staley to hospital in Wichita Falls.

Mr. Staley was shooting a short barrel .44 shot gun from his automobile and the forefinger on his left hand stuck in front of the barrel. The member was shot to pieces and amputation will be necessary. Mr. Staley was feeling fine when the train passed through Childress. A physician was accompanying him.

Socialist Not To Assist In Strike

NEW YORK, Aug. 16.—The Socialist party announced today that it would not participate in the strike called yesterday for August 22 by the workers party (communist) in protest against the execution of Sacco and Vanzetti set for that night. However, "We will not relax our efforts to win freedom for Sacco and Vanzetti," said the statement.

Many Said Killed In Austrian Clash

VIENNA, Austria, Aug. 16.—Dispatches from Belgrade, the Jugoslav capital, say it is believed that Albanian soldiers and Italian military instructors clashed yesterday at Scutari, and that there were dead and wounded on both sides.

Italy holds a mandate from the great powers, conferred by the council of ambassadors, to maintain peace in Albania.

Belgrade has been a clearing house for reports concerning Albania ever since the signing last year of the treaty between the Albanian and Italian governments. The Jugoslavians charged that the treaty contained secret clauses enabling Italy to exercise undue influence over Albania, to the detriment of Jugoslavians. This was denied from Rome.

Waco To Entertain Water Meeting Soon

WACO, Aug. 16.—Including the entire Brazos river watershed, a meeting will be held in Waco on August 25. It was announced here today by A. D. Jackson of College Station, on his way to attend the water rights meeting to be held in Abilene next Thursday. At the Waco gathering it is expected, Jackson said, to announce a definite policy on the part of the state as to the control of priority of right. The Waco meeting, he said, will be largely attended. Jackson is secretary of the Brazos river reclamation association.

Paralysis Case Reported Here

John Jobe, 17 months old, was stricken with paralysis at 561 Avenue C, in the second ward, in Lubbock, according to an announcement from Dr. J. W. Rollo health officer, this afternoon.

The condition of the Jobe baby at yet fully determined. All doctors believe he will recover from the disease leaving his legs paralyzed.

McCasland, 6 year old son of Ellie McCasland, widow, lives at 215 13th street, contracted disease about a week ago. His case is very mild, involving the foot, and doctors report his condition much improved.

Heavy Rains Add To Damage From Floods

WPEKA, Kans., Aug. 16.—Heavy rains in central and southern Kansas today added to the damage along the rocky hills lower Neosho rivers, the her bureau reported.

The weather bureau also announced that the end of rainy weather is in sight.

The Neosho river at Oswego was set above its bank. The her bureau expected the Neosho, run bank full from Emporia, Kansas, and to overflow below here, as well as near the Oklahoma border. It also warned of a possible overflow along the Cottonwood river.

Light Killed When Mob Attacks Jail

AN AMERICA, Aug. 16.—Six persons were reported killed today in an attempt to break the jail at Bushaventura yesterday. The dispatch said the mob tried to lynch a policeman who is responsible for the shooting death of a prominent citizen.

The mob was unable to obtain arms, the police used sticks and stones to force them back. The police and a handful of reinforcements had to be called to the nearby town of Call.

Deaths At Childress Are Reported Halted

AUSTIN, Aug. 16.—Reports from the governor's office here indicated that "race riot" deaths at Childress already reported and that additional deaths would not be needed.

Two rangers sent yesterday will return soon. Belief is that first reports of deaths from Childress may have exaggerated.

EDUCATOR DIES

BATON ROUGE, La., Aug. 16.—J. N. Gourdain, member of the state board of education from the second congressional district, died at his home in Convent today.

ANTS, ONE GAME OUT OF THIRD PLACE, OPEN PIRATE SERIES

ANTS HOLD BUT ALL MARGIN TIGHT RACE

OPEN BROOKLYN RIES WITH GOOD LEAD ON TOP

(By Associated Press) A day of lullness, marked the Boston Braves' 12 to 11 in 10 innings, over Philadelphia in the Major League series, opened today on the Polo grounds, open-air. Giants are only one game behind the Pirates. The team has out of its last 18 games, 12 of which were played on the road. Pitching staff has rounded in, expected form, and the team apparently has start-up property. The Pirates full games out of first but only three games ahead. Giants will be put to a stiff test.

Cubs Meet Dodgers

The Giants and Pirates are away in New York to see how the Cubs will be lined up. The Brooklyn Dodgers, who have been woefully weak against the Cubs all season, unless they completely reverse their form, the Cubs are likely to take their hold on first place. This club has won 13 out of 14 games against the Pirates. The Washington Senators of the New York Yankees their final western trip, to meet the White Sox in Chicago. Miller Huggins' club has a lead in first place, a lead that for any rival to hope to overtake. Yesterday's one ball game was won by 32 safe hits. Jacques of Boston and Jimmy Williams of Philadelphia hit home runs. Pitchers saw service. Jack Atchaf only one ball and was out in the eighth and the teams tied in the ninth before the result was decided.

Comparison of Pitchers

Walter Johnson believes in the "hood" of pitchers. The greatest hurler of all time, 29 years ago and still one, believe the old timers were better than the present hurlers. Twenty years ago I umpired the ball game Walter Johnson and I in the major leagues. De- the New York Yankees of period for batting power, had in time winning 32. August 2, 1927, it was my good fortune to have President of the American League assume to Washington to work the that commemorated his 20th anniversary with that club. I recall it, no other pitcher big show has ever been com- with the same club for that years. ing in the bench with Johnson game time, we discussed a unusual things that have need in baseball since 1907. There is no more competent pitcher pitching than Walter Johnson. I asked him if he wasn't opinion that the pitching of was much inferior to that of 15 or more years back. Star for Twenty Years Walter Johnson is one of the few players, pitchers in particular, after 29 years of continuous, still remain in the out- ing class. Making into the majors two prior to Johnson, I have long of the belief that the pitching day was much inferior to that of by the old timers. Naturally I sided Johnson's opinion to out that belief. It didn't. He said he had lots more pitching in the old days," remark- on. "I don't know that the al ability of the old timers any greater than the present stars. There are many more handi- caps for a pitcher to overcome 15 or 20 years ago. Lively balls and plenty of them, short making even a four-run far from safe, and a desire on part of every player to take a by swing has added much to woes of the modern pitcher." Johnson's one admission in favor of the old timers was that there to be a greater quantity of pitchers in those days than at present.

Best of All Games

Baseball has progressed in cer- tain features of play and slipped-in he replied. The running has decreased, as most other systems of out- ing, since one run isn't much working margin. On the other the hit-and-run is more pop- and better executed and there many more home runs. The own has to a certain extent used brains but there will al-

Belated Spurt Of Reds Proves That 'Class Will Tell'

By NEA Service
CINCINNATI, Aug. 16.—There's an old ad saying that class will tell. That saying is being proved these days by the belated spurt of the Cincinnati Reds in the National League.

After floundering around at the bottom of the league for weeks, the Reds are now at the top of the second division and are making a valiant fight to land in the first division.

Their infield settled at last, their outfield working well, their pitchers going as everyone expected them to do when the season opened, the Reds are being hailed by many experts as the best team in the league outside of the Pirates.

New High Record In Fight-Business Set

CHICAGO, Aug. 15 (AP)—All records for a single day's business in Tex Rickard's promotional career were smashed Monday when more than \$200,000 in cash orders were received for tickets for the Tunney-Dempsey heavyweight championship fight at Soldiers field September 22.

With the fight more than six weeks away, Rickard declared that interest in the enterprise had surpassed anything he has ever promoted.

Carl Lind, former Tulane star who has been playing great for Denver this year, seems ready for a regular job with Cleveland.

Parrelli Wins In Bout From Kallio

DALLAS, Aug. 16 (AP)—Joe Parrelli of Chicago, middleweight wrestling champion of the world, successfully defended his title here last night by throwing Gus Kallio of St. Louis, formerly junior middleweight champion of the world, two out of three falls.

Parrelli won the first fall with a body slam in 40 seconds. Kallio last week renounced his junior title in order to meet Parrelli.

CITY LEAGUERS PLAY TODAY IN DECIDING TILT

WHOLESALE-BANKERS MEET AT TECH AT SIX O'CLOCK

With Managers Terry and Raley back on the job, each ready for the fray, the Wholesaler and Banker teams of the City League will clash in the crucial game of the 1927 schedule late this afternoon.

Instead of Merrill park, where the shadows gather more closely than in the open pastures, Texas Tech field has been chosen for the game and in place starting the tilt at 6:30 o'clock, the opening film in the fast the umpires will call "play ball" promptly at 6 o'clock. A large crowd is expected to be on hand for the event.

Terry Has Good Club

Manager Terry is expected to have his original lineup on the field—the same aggregation of classy toppers that ran rough-shod over all competition to win the first half of the season almost unchallenged.

Both he and "Preacher" Taylor, Hubber hurler, are ready to take the hill with the odds on the selection of Taylor, whose steady control and baffling curve ball set the Bankers back with two hits and won, 1 to 0 at Merrill park last Thursday to put the team standings in a tie. A sparkling array of hitters and fielders will back up the hurler, headed by infielders Chester Shepard and Raymond Ater, and Outer Gardener Horace Galther, veterans of many diamond campaigns.

James Andrew Raley, Jr., mite manager of the Mortgage Holders, was mum today concerning his pitching selection, but he has Volney "Stitch" Hill, spitball star of the Tech and Hubber forces, and Moody Smith, husky hurler of successful proportions, ready to go. Although Smith's record is outstanding and he allowed the Wholesalers only two safeties in the fray last week, Hill is expected to get the call.

Raley Springs Surprise

Springing a last minute surprise on the opposition Manager Raley announced today that Bob Peck his last year's shortfielder, who has been sojourning in the Ft Worth City League has rejoined the Banker forces. In addition to his play- ing ability Peck is not only a smart field general but is also a "Nick Atrock" full of comedy.

Since the Wholesalers won the first half of the season and are tied for the lead of the second half, a victory for them today will mean the pennant and the calling off of a playoff series. On the other hand should the Bankers win a playoff series for the season's championship will be arranged. After the winner of the league here is established an inter-city series, between the Lubbock and Slaton City circuits kings, will be arranged.

Alex McDonald, veteran Panhandle and Pecos Valley league pitcher, will call the balls and strike from behind the plate and Chas. A. Guy, who has officiated in a number of City league and high school games here, will call decisions on the bases.

Just The Gist And The Jest Of Sport

Seems Ripe for Majors

Carl Lind, former Tulane star who has been playing great for Denver this year, seems ready for a regular job with Cleveland.

Parrelli Wins In Bout From Kallio

DALLAS, Aug. 16 (AP)—Joe Parrelli of Chicago, middleweight wrestling champion of the world, successfully defended his title here last night by throwing Gus Kallio of St. Louis, formerly junior middleweight champion of the world, two out of three falls.

Parrelli won the first fall with a body slam in 40 seconds. Kallio last week renounced his junior title in order to meet Parrelli.

Neither the eighteenth nor the nineteenth amendment has been held up as the thing which brought the New York stock exchange slump.—Canton Repository.

Ross McWhorter Sets Low Score By Wonder Shot

Cutting the record on Hole 9, of the Country Club links, from 5 strokes to 2, Ross Allison McWhorter yesterday afternoon bounded into the limelight among local golfers.

Tearing off on Number 8, McWhorter made a perfect drive and his ball fell dead on the green. Calling for his putter he holed out in another stroke, thus negotiating the 535 yards in an almost unbelievable method. Golf addicts said today that the record, in their opinions, would stand for a long period of time.

River Crest Meet To Open August 30

FORT WORTH, Aug. 15 (AP)—The southwestern golf championship and ninth annual invitation golf tournament of the River Crest Country club will be held here August 26 to September 3, and is expected to draw more entries than ever before. It was announced today by W. B. Alley, tournament secretary. Entries may be made up to 3 a. m. August 29.

Prospects Good For Producer In Gasser

SAN ANGELO, Aug. 16 (AP)—Reports received here by the Exploration company, which owns a half interest in the Franklin Parish gas well, which was destroyed by fire yesterday say that the pocket of gas was found at 750 feet and that there was every indication that a new wellhead would be brought in.

Former Governor Plans Snake Fight

NEW ORLEANS, Aug. 16 (AP)—Former Governor John M. Parker of Louisiana, who recently foresook the quiet life of his plantation home at St. Francisville to become state flood relief director, is grooming today reptiles for a fight between a rattle snake and a king snake. Plans for the encounter revealed today show that a rattle snake five feet long cured at the former governor's plantation will fight one of the five king snakes he has.

The former governor is an authority on snakes and handles them fearlessly. The fight will be held on the lawn of Mr. Parker's plantation residence. The reptiles will be imprisoned inside a galvanized iron fence to protect the spectators. Motion pictures of the fight will be filmed.

Todd Raps Laws Of Massachusetts On Cotton Mills

WILLIAMSTOWN, Mass., Aug. 16.—Massachusetts legislation is forcing cotton mills from New England to the south where long hours and cheap labor can be obtained, Professor John A. Todd, of the London cotton exchange, told the Institute of politics today.

Ray state laws limiting child and female labor are shifting the cotton manufacturing center to more propitious regions, he asserted. Discussing the British empire as a potential competitor of America in cotton production, he said that India can raise cotton at a lower rate than any country in the world today, it being only a question of time until she is competing with America. She has increased production fifty percent within the

Mutiny Breaks Out In Jail; One Killed

WICHITA, Kan., Aug. 16 (AP)—An attempted jail break in the Sedgwick county jail was frustrated at noon today after Frank Hill, 40, negro turnkey, was shot and killed. None of the prisoners in the jail escaped. Three prisoners suspected of having been involved in the attempted delivery were being questioned this afternoon. Two who escaped from their inner confines in the jail, after shooting the turnkey and taking his keys were captured after a riot call brought a dozen police to the jail.

Making the "Inspection cut," a test that is required by the Bonding Company before issuing the 20-year bond.

This roof carries a Surety Bond

Question: Why have roofs of the Barrett Specification type been chosen for the majority of America's permanent buildings? Answer: Because service records show that many roofs of this type laid 35 and more years ago are still 100% weathertight. And because with a Barrett Specification Roof, the owner receives a Surety Bond (issued by a nationally-known surety company) which guarantees him against repair and maintenance expense for 20 years. That's why we lay Barrett Specification Roofs. Put your roofing problem up to us.

P.A. and the papers—that's all you need

Cool as a cucumber right off the ice. Sweet as a melon from the same place. Mild as a sisterly kiss. Mild, but with that full cigarette body that satisfies to the limit in every marvelous puff. If you've never rolled 'em with P.A., you've been holding out on yourself.

Do you like a pipe? You will, with P.A. for packing. The most contented bunch of pipe-smokers in the world will tell you that pipes were born for just such tobacco. Men who were pipe-shy for years have found that they can smoke a pipe now—and enjoy it. You try it.

NOTHING complicated about this formula. Just get yourself some Prince Albert and some makin's papers. Then go ahead and roll the best little cigarette that ever took form in your fingers. "Never did a home-rolled cigarette taste so good," you'll say.

You get an idea in advance that it's going to taste mighty good when you get your first whiff of P.A. Such fragrance! Like a breath of pine forest. Then you roll one and light up. Here's the big thrill: that wonderful, class-by-itself taste of Prince Albert.

PRINCE ALBERT —no other tobacco is like it!

CITY TO RENEW FIGHT FOR TWO SUBWAYS HERE

ATTORNEY INSTRUCTED TO INSTITUTE LEGAL ACTION ON MATTER

Continuing a proposal which was introduced several months ago, the city commissioners in session yesterday instructed E. L. Klett, city attorney, to institute whatever legal action is necessary to bring about the installation of subways at two railroad crossings to expedite safety and convenience of travel where heavy traffic enters and leaves the city at the east end of Broadway and the north end of Avenue H.

Efforts of the city in the past to secure the co-operation of the Santa Fe railroad officials have been to no avail, and it was the opinion of the commission yesterday that action has been retained because the city has taken no definite measures.

Proposal Discussed

Meeting several months ago, the commissioners and railroad officials discussed a proposal as to the ratio of expenditures, and no initiative steps were taken.

As a compromise measure in connection with the city's civil suit filed against Martin S. Ruby, former city manager, in which the defendant was alleged to have misappropriated \$2,000 of the charges of the commission, it was decided in the acceptance of \$2,000 furnished by Mr. Ruby and his bonding company. The city's counsel was instructed to take legal steps to discontinue the case, which has no connection with criminal matters now pending as an outgrowth of the transactions.

An amendment introduced and strongly advocated by two commissioners would assure protection of gas patrons of the city, in that it would prevent unreasonable profits of plumbers but at the same time guarantee reasonable consideration of profit.

Street to Be Closed

An ordinance was agreed upon which will close that part of Fourth street between the Santa Fe right of way and Avenue I, declaring the same a menace and danger to public safety and welfare.

The office of city secretary and city treasurer will be consolidated as a result of an ordinance which was passed yesterday afternoon. G. W. McCleary was re-appointed to serve as city secretary with additional duties of city treasurer, effective September 1. John Denman, cashier of the First National bank, has been serving as city treasurer.

New Passenger Airline Planned Through Texas

(By Associated Press) WICHITA, Kan., Aug. 14.—Inauguration of passenger and express service on two new air lines linking Wichita with Los Angeles, Calif., within the next two months by the Traveler Service corporation, was announced here today by J. F. Byrnes of New York, promoter.

The new lines will provide the last connecting link of an air passenger service between the Pacific coast and the east through Wichita. Plans for the new lines, according to Byrnes' announcement, call for the establishment of one line to Tulsa, with the second from Oklahoma City to Los Angeles via Amarillo and Albuquerque. Regular passenger service now is furnished from Dallas to Chicago and New York by the national air transport. Oklahoma City will be the connection point with the proposed new line west to the Pacific coast.

Fast Schedule

Byrnes said that with the new service a traveler would be able to leave Los Angeles in the morning, arrive in Chicago the same night and in New York the next day. Passengers will be charged a 15-cent a mile fare. Twice daily service between Wichita and Amarillo is planned. No announcement was made of the schedule for the west line.

Directors of the new corporation, incorporated in Delaware with \$250,000 capital are: Gabriel Rohmer, president, New York; C. E. Watrous, Wichita; J. E. Fairclough, Kansas City; Raymond Neudcker, Washington, D. C.; J. F. Byrnes, New York; and Walter Beech of Wichita.

Garner To Run For State Superintendent

DALLAS, Aug. 16 (AP)—After a conference here Monday with several members of the legislature and friends, Professor W. F. Garner, of Newsgroves, head of the history department of the Stephen F. Austin state teachers' college, announced that he will be a candidate for state superintendent of public instruction subject to the next democratic primary.

Mr. Garner said he would make his formal announcement soon. The demand of many friends from over the state caused him to decide to enter the race he said.

GARLIC IN HOLLYWOOD

HOLLYWOOD, Cal.—Garlic does not screen well, but it has its uses in Hollywood. Mixed with bran and almond meal it is fed to make-up artists and actresses working in films of the far north. Vegetarians say it prevents ailments likely to affect those shipped down to a place as warm as Hollywood.

Britain's Newest Military Plane Is Monster Ship

(By Associated Press) RUILE, England, Aug. 16.—England's newest military air plane is a veritable battleship of the air.

It is the largest flying ship in the world, one of the wings alone being almost large enough to provide a landing place for a fourth light airplane. The hull is of duralumin and stainless steel.

Christened the Iris II, the huge flying boat takes off from the water at a speed of 50 knots. In her hull are ample living quarters and sleeping accommodations for a crew of five. Bunks can be folded down when not in use. The radio operator's room is in a separate, noise-proof compartment.

The new dreadnaught of the skies is equipped with large, fresh water storage tanks and carries an electrical cooking apparatus in her galley. She can remain in the air for fourteen hours and can cruise by the air or remain at her moorings for nine months of the year.

SCHOOL HEADS TO MEET HERE

NEEDS OF INSTITUTIONS TO BE DISCUSSED THURSDAY

Trustees of the schools of Lubbock County will meet in the courtroom, Thursday morning for an all-day session during which the educational needs of the rural schools will be discussed by local and state educators. Among the prominent school authorities who will speak before the convention are Dean E. D. Jennings, Southern Methodist University; Dr. S. E. Clark of Austin; Dr. F. W. Horn, Dean J. M. Gordon and Dr. J. C. Grammer, of Tech.

The program for the annual meeting, which will be held at the stock judging pavilion of Texas Tech, follows:

Opening song and music, 10 a. m.

Prof. W. E. Waggoner, Invocation—Rev. D. B. Donk. Address of Welcome—Dr. J. T. Hutchinson, president of the Lubbock school board.

The Personality of Your Teachers—Dr. J. C. Granberry.

Objectives in Rural Education—W. A. Stigler, assistant superintendent of 22 Pampa public schools.

New Rural Aid and Transfer Laws—S. E. Clark, inspector, Austin.

At 12 o'clock the Lubbock Chamber of Commerce will have the entire body of trustees as their guests at a barbecue dinner, together with the speakers and special guests. Spencer Wells, president of the Chamber of Commerce, will deliver an address.

Opening the afternoon session at 1:30, Professor Waggoner will entertain with music, after which Dean J. M. Gordon of Tech. will discuss "Some Possibilities of Rural Schools."

The concluding topics of the afternoon program are:

General Mission of Schools—Dr. P. W. Horn, president of Texas Tech.

The Rural Child—Dr. A. W. Evans, education department of the State.

Supervision of the Rural Schools—Superintendent M. H. Duncan, of the Lubbock city schools.

Ideals back of a County School Education—E. D. Jennings, Dean of Southern Methodist University.

The Course of Study for Rural Schools—W. A. McIntosh, superintendent of Amarillo city schools.

Rural Schools to Meet the Needs of Rural People—Dean A. H. Lehigh, agricultural department of Texas Tech.

What Has Been Accomplished and What Can Be Expected of the Future for the Rural Schools of Lubbock County—W. M. Peavehouse, superintendent of education of Lubbock County.

Woman Pilot Dies When Propeller Crushes Skull

(By Associated Press) YOUNGSTOWN, Ohio, Aug. 16.—Death again has closed the career of another one of the most prominent airplane pilots this time, a woman. Mrs. Gladys Roy, noted as an airplane stunt actress, she died here last night from injuries sustained when unknowingly she walked into the path of a fast spinning propeller, the blade tearing away her skull.

The aviatrix's death also eliminated another potential trans-Atlantic flier as she had been groomed recently for a flight from New York to Rome with Lieutenant Delmer E. Snyder, an ex-pilot.

Mrs. Roy, wife of Arthur Roy of Los Angeles, was only 25 years old but was nationally known as a flier. She also had established an enviable record as a parachute jumper and held records for women for leaps of from 200 feet to 18,000 feet. She was known, too, as a flying movie stunt actress.

Tech Plans Film Program On Friday

A special 9 reel feature motion picture, "Bartholomew, the Magnificent," will be offered under the cloisters of the administration building of the Tech Friday night at 8 o'clock as part of the entertainment program for summer students.

The picture, a Metro-Goldwyn production will be shown to the students free of charge the entertainment committee announces.

NEWS AND VIEWS OF OIL OPERATIONS ON THE SOUTH PLAINS

EDITED BY EARL THOMPSON, PHONES 13 OR 14

EXPLORATION SCOUT HERE

P. M. Barton, scout for the Midwest Exploration company out of the Dallas office spent last night in Lubbock. Mr. Barton has the territory from Hale county on the north to Winkler county on the south.

GAINESVILLE MEN HERE ON TOUR OF INSPECTION

Max Westheimer, his brother and J. M. King of Gainesville, are in Lubbock looking over conditions in this part of the country. The Westheimers and Mr. King own quite a lot of land in this territory. Max Westheimer et al. are drilling a well southeast of Seminole in Gaines county. The Westheimer test is now around 3,000 feet and changing to cable tools. J. M. King is president of the Landers National bank of Gainesville, Texas.

MULLIGAN SEATS CASING

According to reports from Hale center, the Donnell Petroleum company's No. 2, Mulligan estate, has started the 8 inch casing below the "quick sand" that has been causing them no little trouble for the past three or four days. John Kegan says unless the unexpected happens they will be in the "grass root" sand this week.

DOHENY IN WEST TEXAS

Edward H. Doheny and a party of officials of the Pan-American Western Petroleum company are on an inspection tour of West Texas. They spent Sunday night with representatives of the Doheny interests in San Angelo. It was indicated that Doheny expects to organize a new subsidiary for the West Texas district with headquarters at San Angelo.

The Pan-American Western Petroleum company has two wells drilling in West Texas at present and it is expected that more properties will be acquired while the party of officials are in West Texas.

DYED GASOLINE

WASHINGTON, Aug. 15.—Federal canal authorities are experimenting with dyed gasoline to prevent use of government stores on unauthorized "joy rides." By adding one gallon of green dye a decided color can be given to 1,500 gallons of gasoline without injuring its quality as fuel. The green color makes the official gasoline identifiable.

SEMINOLE DECLINES

A decline of 22,378 barrels was registered in the greater Seminole Sunday morning, and a further decline of 16,900 barrels was registered Monday morning, when 636 producers made 451,325 barrels. This is the lowest figure since July 11, when 456,114 barrels was registered. This is 66,960 barrels under the

Farm Women Are Taking Vacation At Bureau Camp

TIPTON, Iowa, Aug. 16.—Cedar county farm women are taking a vacation.

After these many years of getting on with the sun for an endless day of dreary duties, the women are taking life easy at a farm bureau camp where they don't even have to bring out their own bathing suits.

The farm women's vacation camp was sponsored by the farm bureau which invited all members to send their wives and daughters for two weeks of real vacation. Nearly 100 already are enjoying the visiting. Recreation consists of boating, swimming and other sports, with an absolute ban on all forms of work.

Husbands were forbidden to go to the camp and were told to remain at home with the children and worry along with the washing, the sweeping, the cooking, the churning and bed-making, not to mention feeding the chickens and gathering the eggs.

NEW YORK, Aug. 16 (AP)—United States bonds: Liberty 3 1/2-3/4 101.2, bid 4 1/4-101.7, 2nd 4 1/4-100.9, 3rd 4 1/4-101.2, 4th 4 1/4-104.2, Treasury 4 1/4-112.25, 5-108.28, 3 1/4-105.28.

CALL MONEY
NEW YORK, Aug. 16 (AP)—Call money steady, all loans 4 1/2; clearing bid 4 1/2; time loans steady, 60-90 days 3 1/2 @ 4; 3-6 months 4 1/2 @ 4 3/4; prime mercantile paper 3 1/2 @ 4.

WALL STREET TRADING
NEW YORK, Aug. 16 (AP)—Firm prices attended the opening of the stock market today, with buying on a rather broad scale. Dips quickly went up 2 points and initial gains of a point or so were recorded by "Sox," Peoples Gas, Houston Oil and U. S. Cast Iron Pipe.

INDUSTRIALS AND SPECIALTIES headed the early recovery. Northwestern rail, which were among the outstanding strong spots yesterday, fell back slightly presumably on selling inspired by the announcement that Chas. Hill Lindsey and Erasmus Lindsey had filed a petition with the U. S. C. for permission to intervene in the proceedings, incidental to the liquidation of the Great Northern and Northern Pacific railroads. Bangor and Aroostook rallied further in reflection of the increased dividend. Chrysler Motors was one of the most active one-block of 5,200 shares changing hands in the few minutes of trading, with the price advanced to around the 40 1/2 high. Baldwin Locomotive, American Express and Otis Elevator all advanced to record high levels.

Mullins Body was one of the few weak spots. Foreign exchange opened steady, with demand sterling quoted around 44.85-11-16 and French francs around 251 1/4-24 cents.

Grain Market

CHICAGO TRADING
CHICAGO, Aug. 16 (AP)—Reports of heavy rains and floods in parts of Kansas with some sprouting of wheat in stock brought scattered local and commission house buying during the early trading on the board of trade today and gave the wheat market a firm undertone.

Further frost damage in Canada also acted as an incentive for early buyers. Opening unchanged to 1-2 cent higher, wheat moved with narrow limits. Corn was somewhat unsettled but became firmer later on continued cool weather over the belt. Starting 1-2 cent lower to 3-5 cent advance, the market later held near initial figures. Oats were about steady and provisions were firm in line with higher quotations on hogs.

Coolidge To Spend Week In Yellowstone

RAPID CITY, S. D., Aug. 16 (AP)—Although official confirmation is lacking it is understood that President Coolidge has decided to make a four to six day trip through Yellowstone national park next week. A group of railroad officials have been in Rapid City with an itinerary which calls for the entrance of the president into the park at Gardiner, Wyo. The trip was said to have been scheduled to begin from the black hills next Sunday. It was known some weeks ago that a request was sent out from the summer White House for literature on the Yellowstone but later it was decided that Mr. Coolidge then had no plans for the trip to the park.

Bureau To Aid In Picking Situation

DALLAS, Aug. 16 (AP)—To assist cotton planters in procuring pickers, the federal labor bureau opened an office here Tuesday. Transportation will be furnished cotton pickers by the bureau, the organization being reimbursed by the farmer, the announcement said.

DEPARTMENT IS ADDED TO TECH COLLEGE HERE

EX-TENNESSEE MAN IS PLACED IN CHARGE OF PALEONTOLOGY

With the opening of a course of Paleontology in the Geology department of Texas Tech, Dr. Merrill S. Stainbrook, formerly of the University of Tennessee, has been appointed to head instruction in the new branch of geology. Dr. Leroy T. Patton, head of the department announced yesterday. A specialized branch of geology, paleontology has in recent years become important on account of its applications in the field of exploration for oil, especially that phase of it known as micro-paleontology. The expansion of the geology department in paleontology will enable properly prepared students to pursue advanced and specialized courses in this phase of work and will, together with the expansion in other phases of geology, offer opportunity for graduate work in the department.

Stainbrook Is Expert
Dr. Stainbrook is an expert in the branch of work, and his coming will enable Tech students who are receiving professional training in geology to specialize in paleontology. He will have charge of the museum collections of the department and will build up the museum by collections and exchange with other institutions. Tech is favorably situated, both for collections and exchange for material and it will be but a short time until the college will have acquired a museum and teaching collection equal to those of much larger institutions, college authorities assert.

Dr. Stainbrook is a graduate of the University of Iowa and has his masters and doctor's degree from the same institution. Graham Is Associate
With A. P. Graham, also from the University of Iowa, will be associated with Dr. Stainbrook in the department. He will hold a position as associate professor. He has

had teaching experience in McAlister college, St. Paul, Minn., and the University of Minnesota. Professor Graham holds the master's degree from the University of Minnesota and will receive his Ph. D. from the same school with the close of this summer session. He is a member of the society of Sigma Xi, Mineralogical Society of America, and a fellow of the Academy of Science.

General Uprising In Bolivia Is Halted

LAPAZ, Bolivia, Aug. 16 (AP)—The quick action of troops has saved Bolivia from a possible general Indian uprising, advisers received here indicated today.

The Bolivian movement, according to government advisers, has been isolated in certain sections of the departments of Cochabamba and Beni and Chichas, and has not spread to other parts of the country. The Bolivian movement, according to government advisers, has been isolated in certain sections of the departments of Cochabamba and Beni and Chichas, and has not spread to other parts of the country.

Get more for your money!

WHEN you hear that there is "Plenty of Rubber" in U. S. Royal Cords, you may perhaps wonder why every tire manufacturer does not announce the same policy.

This Company holds a unique position. We own and operate enormous Rubber Plantations. One of them is the largest producing rubber plantation in the world.

We invented and control the process of making Sprayed Rubber which is the purest and most uniform rubber known. We invented and control Web Cord—the process of putting plenty of rubber between and around the cords of a tire.

From the planting of the trees, right through to the tires on your car—Plenty of Rubber in U. S. Royal Cords.

United States Rubber Company

UNITED STATES TIRES ARE GOOD TIRES

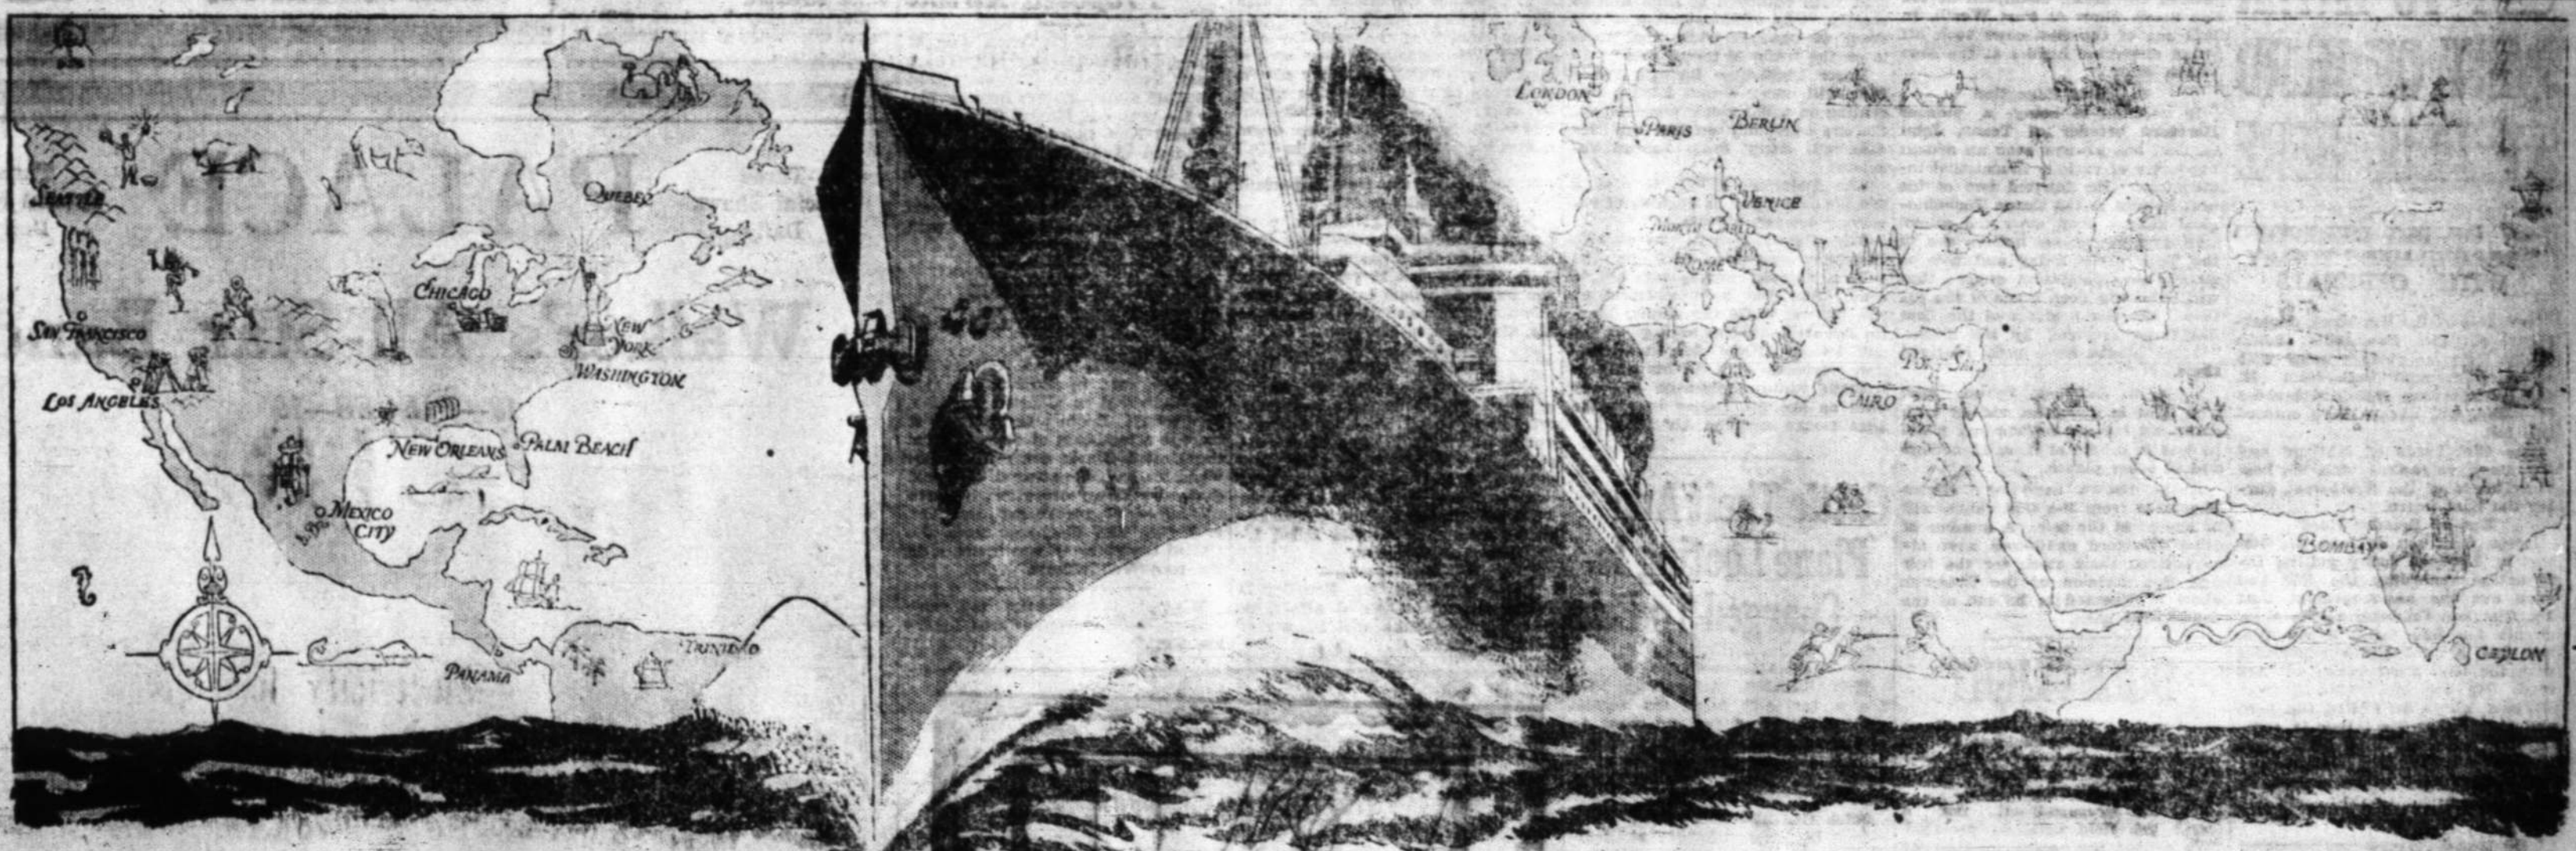

PLENTY OF RUBBER IN U.S. ROYAL CORDS

SUPER SERVICE STATION

Broadway at Ave. M Phone 799

Question: What difference does it make to me that the United States Rubber Company grows and controls its own supply of rubber? Answer: It makes a lot of difference to you. Good tires must start with plenty of the right kind of rubber. The right kind of rubber starts with the right kind of rubber trees. Among other methods, we produce plenty of superior rubber latex, latex-grafting—it makes better tires—has been practiced on the United States Rubber plantations for years. If you ride on U. S. Royals you get the benefit. If you do not ride on U. S. Royals you are missing something unless you. Either way, it makes a lot of difference to you.

Yes.. in all four corners of the earth!

THE FOLLOWING IS QUOTED, BY PERMISSION, FROM A LETTER OF MR. A. J. BARKER, ST. LOUIS, DATED MAY 10th, 1927

"It will be, I have no doubt, a source of gratification to you to know that Chesterfield cigarettes were on sale and, at that, the leading American seller, in all parts of the world.

"We started our trip on December 2nd, and visited among other points—Madaira Island... Gibraltar... Monte Carlo... Algiers... Haifa... Jerusalem... Cairo... Naples... Suez...

Bombay... Java... Dutch Sumatra... Singapore... Manila... Hongkong... Shanghai... Peking... Kobe... Tokyo... Honolulu... the Canal Zone... Havana and home.

"Not only was Chesterfield the leading American cigarette at all points visited, but it was the best seller (all brands) on our ship, the Empress of Scotland."

GIST TO ENTER PART OF HERD AT FAIR HERE

SON OF BIG HEREFORD BREEDER HERE TODAY WITH OFFICIALS

Officials of the live stock department of the Panhandle South Plains Fair are pleased today with an announcement that John M. Gist, outstanding Hereford breeder of Texas, will have a herd entered this fall.

The Gist herds of Midland and Othessa have ranked with the best show herds of the Southwest during the past years.

Son of Breeder Here

Tyron Gist, son of John M. Gist was in Lubbock today getting information regarding the fair and gave out the announcement that Mr. Gist has Lubbock on his show circuit for this fall. Byron Gist has had several years experience with the Gist show herds on the road. He has just returned from Midland where he visited the herd and states that his father is coming out with the best show herd that has ever left his ranch.

The Gist herd is recognized as one of the largest show herds to date in Texas. In 1924 Mr. Gist entered the grand champion at the Fat Stock Show at Fort Worth. In 1925 one of the Gist cows took off grand champion honors at the Fort Worth show.

Supports Education

In addition to being a pioneer Hereford breeder of Texas, John M. Gist has always been an ardent supporter of various educational institutions. He donated two of his best heifers to the Texas Technological college soon after the school was opened. These heifers are in the Tech herds today and will be among the foundation stock that will build the Tech herds of the future. Mr. Gist's gift was the first Hereford received by the Tech. Several others have been received since.

While in Lubbock, Byron Gist who lives in Amarillo, visited with many old friends, he has met while in school at A. & M. college and at other places.

About twelve head of choice Herefords from the Gist ranch will be shown at the fair. A number of other Hereford exhibitors have also entered their stock for the fair and this division of the livestock show is expected to be one of the best in the barn.

DOLE FLIGHT

(Continued From Page 1)

To the scene of a mishap.

Precautionary Move

Merely preparedness, not a bluff, the field officials declared. We expect the racers to take off in one, two, three order, without a hitch. The runway offers every chance for success.

Atop a spindly wooden tower to the side of the runway a man was to describe to radio fans the action of the takeoff. Thousands of people were expected only to hear the roar of motors, shouts of the spectators and the voice of the man saying "they're off."

To the left of the field were lapping waves of the Pacific, the fringe of the "big drink" the fliers have joked about for days, reminding each other "if you don't make it, it is the 'big drink' for you."

Fifteen miles westward, in the backgrounds of San Francisco, a real menace looms, so the weather men reported; fog piled high and extending at least fifty miles to sea.

Interested in Woman

Spectators have been keenly interested in the first woman to start across the ocean toward the Island of good. Miss Mildred Doran, the "flying school teacher" of Flint, Mich., garbed in her man's uniform of olive drab, and numerous enclaves, attracted attention when she appeared on the field to pose with her pilot, John "Auggie" Pedlar, of Flint, and Navigator, Lieutenant Vilas R. Knoppe, naval air officer of San Diego, beside their monoplane, the red, white and blue "Miss Doran."

The Aloha, flown by Martin Jensen, the only Honolulu flyer in the race and navigated by Paul Schlu-

ter of San Francisco, rolled to the starting line christened with the starting line christened with the pleasure spot of Hawaii.

Names of Planes

The names of the planes entered in this classic were no less colorful than the race itself. They were the Aloha; El Encanto, Spanish for "the Charm"; Dallas Spirit; Air King; Palco flyer; Woolaroo, an Indian good luck name; the Golden Eagle; Oklahoma; and the Miss Doran.

Long before the starting time, 12 noon, Pacific time, a heavy, high fog hung over the entire bay district and the visibility was not more than two miles. True to the weather forecast, a heavy offshore fog was also reported in the path picked by the fliers for their estimated twenty two hour journey.

Lunches Carried As If On Picnic

MUNICIPAL AIRPORT, OAKLAND, Calif., Aug. 16 (AP)—Pilot navigators and passengers in the Dole air derby to Honolulu tomorrow will carry lunches large enough and diversified enough to satisfy the wants of a small picnic party.

Miss Mildred Doran, the flying Michigan school ma'am and the only woman in the flight, will take good care of "Auggie" Pedlar, her pilot, and Lieutenant Knoppe, her navigator. She has prepared a lunch of a dozen chicken sandwiches, two quarts of hot chocolate, three packages of mints, a bottle of malted milk tablets, a quart of condensed fruit juices and two gallons of water.

Erwin's Rations

Captain William F. Erwin and Alvin Eichwaldt, pilot and navigator of the "Dallas Spirit," will carry five ham sandwiches, two quarts of coffee, a bottle of fruit juices and five gallons of water.

Major Livingston Irving in the Palco flyer will depend on three bars of chocolate, a quart of soup, a quart of coffee, a few sandwiches and some concentrated foods.

Lieutenants Charles W. Parkhurst and Ralph C. Lowes of the "Air King" will make their two-day journey on four bottles of malted milk, two dozen chocolate bars and two gallons of water to supplement the moisture obtained through condensation of their breath by use of mouth cups.

Major Livingston Irving in the Palco flyer will depend on three bars of chocolate, a quart of soup, a quart of coffee, a few sandwiches and some concentrated foods.

Hollywood Re-Enacts Passion Play

in a huge amphitheater in the hills of Hollywood, Calif., Palestine and the characters of the Bible live again in the seventh annual production of the Pilgrimage Play. Ian MacLaren as the Christus is shown to the left, with Lillian Sawyer cast in the character of John the Baptist. Young men lacked the necessary spiritual quality to play the part of the Baptist, according to the directors, so Miss Sawyer was chosen for the role.

STEEL BOARD MEET HALTED

A SUCCESSOR TO GARY MAY BE SELECTED COMING WEEK

(By Associated Press) NEW YORK, Aug. 16.—A special meeting of the finance committee of the United States Steel corporation scheduled for this afternoon was postponed until next week, thus removing likelihood that the successor to Elbert H. Gary, who died yesterday, would be announced at once.

The finance committee, of which Mr. Gary was a member, is the executive council of the company and it had been announced that at the meeting scheduled for today a new chairman of the corporation might be selected and that a statement might be issued. Half a dozen names have been mentioned in Wall street as possible successors to the position, one of the most important in the industrial world.

No reason was given for postponement of today's meeting. Two members of the finance committee, J. P. Morgan and Myron C. Taylor, the latter of whom is among those mentioned as possible successors to Mr. Gary are in Europe.

MAINE HUNTING

AUGUSTA, Me.—Reports received at the department of inland fisheries and game from 1,917 licensed guides, show they have been employed 66,666 days the past year, guiding 2,765 residents and 8,985 non-residents of Maine, of whom 2,552 were hunters. The guides reported that their parties killed 1,787 deer and 25 bears.

Hereafter, when Gen. Smedley D. Butler attends a social affair, no intoxicating drinks will be served.—Toledo Blade.

Cattle Theft And Plane Looting Is Charged To Pair

(By Associated Press) TEXARKANA, Ark., Aug. 16.—It's a far call from the cattle rustling days of the old west to airplane looting, but both were exemplified in theft reports made to Texarkana, police officers Monday.

John Orr and Jim Sibley were lodged in jail on charges of stealing a cow at about the same time E. M. Doon, transient aviator was being fined \$15.79 in police court for stealing a magnet from a plane owned by Jim Myers, Texarkana flier.

Doon was arrested in the residential section with the magnet in his possession and after questioning admitted that he had taken it from a plane at the Texarkana flying field.

Orr and Sibley were taken by Miller county sheriff, Fleet McGee, and jailed after being unable to explain from whom they "bought" a cow they were leading.

Derrick Of Gasser Destroyed By Fire

WINNEBORO, La., Aug. 16 (AP)—The derrick and machinery were consumed in a fire from a new gas well 14 miles from here that came in at midnight last night. The well was drilled by the Pittsburgh Oil and Gas company and was said to show some evidence of oil. Oil men said that if oil was produced in commercial quantities it would mean the opening up of a new territory in northeastern Louisiana.

Reports here were that the fire was started by friction at the time of the gasser's unexpected blowout. At 10 o'clock this morning the flames were shooting 30 to 60 feet in the air and no steps had been taken to extinguish them.

Judge Faces Trial On Drinking Count

WICHITA, Kan., Aug. 16 (AP)—Trial of Judge I. N. Williams of the fourth division of sedgewick county district court on charges of being intoxicated and driving an automobile while intoxicated, is scheduled to be held late this afternoon in the Wichita police court.

Judge Williams, records of the police department showed today, was arrested here Saturday night after a car which he was driving crashed into another at a street intersection. Police officers did not report finding any liquor in the car. Judge Williams was held in the city jail for six hours.

Mexico Approves Proposed Airline

BROWNSVILLE, Texas, Aug. 16 (AP)—Communications received here today from Mexico City state that the Gulf route through Brownsville, for the proposed Mexico City-Houston and New Orleans air mail line has been definitely approved, and that the service will be instituted at the earliest possible date.

The Mexican government expects the United States to hook up with the service at the border.

Baggage Lost In 1920 Found By Vet

BEAUMONT, TEXAS, Aug. 16 (AP)—Baggage lost in Holland in 1920 was delivered to Ulysses G. Bodin here today. Bodin was traveling in Europe after being discharged from the United States army in France when his baggage strayed. He said that after five years effort he gave up hopes of recovering his lost property. His discharge from the United States army was included in his recovered effects.

When it is necessary to raise money, Europe always "sees America first."

Hearing Opens At Dallas Today In Motor Bus Fight

(By Associated Press) DALLAS, Aug. 16.—Hearing on applications for and protests against permanent licenses for companies operating motor bus lines got under way before the Texas railroad commission here today.

The commission first heard three witnesses in connection with the operation of the Dallas-McKinney line. Protests heretofore filed by the city of McKinney were withdrawn. T. C. Norman and B. F. Smith, two of the owners of the line, testified as to schedules, equipment and operation.

What may be required of bus operators when the commission formulates rules and regulations was indicated in the questioning of the witnesses by Clarence E. Gilmore, chairman of the commission. He asked if the busses stopped at all railroad crossings, if the passengers rode on the driver's seat and outside of the busses, and if it was not a fact that regardless of size or sex, passengers on the driver's seat interfered with the driver.

One Fatally Hurt Score Shaken Up In Train Tragedy

(By Associated Press) WESTPORT, Tenn., Aug. 16.—Terry N. Wood, Jackson, Tenn., engineer of a Gulf, Mobile and Northern freight train, was fatally injured, W. H. Kane, Paducah, Ky., engineer of a Nashville, Chattanooga and St. Louis passenger train was seriously injured and between 15 and 20 persons on the passenger train suffered minor injuries when the two trains collided near here last night.

Kane suffered a broken leg and possible internal injuries when his engine was struck from the tracks and demolished. Wood died while being taken to Paducah on a relief train which rushed to the wreck.

Physicians who went to the scene on the relief train stated that none of the passengers required more than superficial medical attention. Firemen on the two engines escaped injury.

Permit Granted For Gas Company Office

A permit was granted today to the West Texas Gas company for the erection of its city office on Avenue J, between 8th and 10th streets. The building will be a \$7,794 structure.

The company has been offering in its warehouse at 1315 Avenue H.

TATE CONTRACT HIGHWAY. 1,500,000 APPROVED BY COM. (By Assoc. AUSTIN, AUG. 16.—Hearing on applications for and protests against permanent licenses for companies operating motor bus lines got under way before the Texas railroad commission here today. The commission first heard three witnesses in connection with the operation of the Dallas-McKinney line. Protests heretofore filed by the city of McKinney were withdrawn. T. C. Norman and B. F. Smith, two of the owners of the line, testified as to schedules, equipment and operation. What may be required of bus operators when the commission formulates rules and regulations was indicated in the questioning of the witnesses by Clarence E. Gilmore, chairman of the commission. He asked if the busses stopped at all railroad crossings, if the passengers rode on the driver's seat and outside of the busses, and if it was not a fact that regardless of size or sex, passengers on the driver's seat interfered with the driver. One Fatally Hurt Score Shaken Up In Train Tragedy. (By Associated Press) WESTPORT, Tenn., Aug. 16.—Terry N. Wood, Jackson, Tenn., engineer of a Gulf, Mobile and Northern freight train, was fatally injured, W. H. Kane, Paducah, Ky., engineer of a Nashville, Chattanooga and St. Louis passenger train was seriously injured and between 15 and 20 persons on the passenger train suffered minor injuries when the two trains collided near here last night. Kane suffered a broken leg and possible internal injuries when his engine was struck from the tracks and demolished. Wood died while being taken to Paducah on a relief train which rushed to the wreck. Physicians who went to the scene on the relief train stated that none of the passengers required more than superficial medical attention. Firemen on the two engines escaped injury. Permit Granted For Gas Company Office. A permit was granted today to the West Texas Gas company for the erection of its city office on Avenue J, between 8th and 10th streets. The building will be a \$7,794 structure. The company has been offering in its warehouse at 1315 Avenue H. Mexico Approves Proposed Airline. BROWNSVILLE, Texas, Aug. 16 (AP)—Communications received here today from Mexico City state that the Gulf route through Brownsville, for the proposed Mexico City-Houston and New Orleans air mail line has been definitely approved, and that the service will be instituted at the earliest possible date. The Mexican government expects the United States to hook up with the service at the border. Baggage Lost In 1920 Found By Vet. BEAUMONT, TEXAS, Aug. 16 (AP)—Baggage lost in Holland in 1920 was delivered to Ulysses G. Bodin here today. Bodin was traveling in Europe after being discharged from the United States army in France when his baggage strayed. He said that after five years effort he gave up hopes of recovering his lost property. His discharge from the United States army was included in his recovered effects. When it is necessary to raise money, Europe always "sees America first." Cattle Theft And Plane Looting Is Charged To Pair. (By Associated Press) TEXARKANA, Ark., Aug. 16.—It's a far call from the cattle rustling days of the old west to airplane looting, but both were exemplified in theft reports made to Texarkana, police officers Monday. John Orr and Jim Sibley were lodged in jail on charges of stealing a cow at about the same time E. M. Doon, transient aviator was being fined \$15.79 in police court for stealing a magnet from a plane owned by Jim Myers, Texarkana flier. Doon was arrested in the residential section with the magnet in his possession and after questioning admitted that he had taken it from a plane at the Texarkana flying field. Orr and Sibley were taken by Miller county sheriff, Fleet McGee, and jailed after being unable to explain from whom they "bought" a cow they were leading. Derrick Of Gasser Destroyed By Fire. WINNEBORO, La., Aug. 16 (AP)—The derrick and machinery were consumed in a fire from a new gas well 14 miles from here that came in at midnight last night. The well was drilled by the Pittsburgh Oil and Gas company and was said to show some evidence of oil. Oil men said that if oil was produced in commercial quantities it would mean the opening up of a new territory in northeastern Louisiana. Reports here were that the fire was started by friction at the time of the gasser's unexpected blowout. At 10 o'clock this morning the flames were shooting 30 to 60 feet in the air and no steps had been taken to extinguish them. Hollywood Re-Enacts Passion Play. in a huge amphitheater in the hills of Hollywood, Calif., Palestine and the characters of the Bible live again in the seventh annual production of the Pilgrimage Play. Ian MacLaren as the Christus is shown to the left, with Lillian Sawyer cast in the character of John the Baptist. Young men lacked the necessary spiritual quality to play the part of the Baptist, according to the directors, so Miss Sawyer was chosen for the role. STEEL BOARD MEET HALTED. A SUCCESSOR TO GARY MAY BE SELECTED COMING WEEK. (By Associated Press) NEW YORK, Aug. 16.—A special meeting of the finance committee of the United States Steel corporation scheduled for this afternoon was postponed until next week, thus removing likelihood that the successor to Elbert H. Gary, who died yesterday, would be announced at once. The finance committee, of which Mr. Gary was a member, is the executive council of the company and it had been announced that at the meeting scheduled for today a new chairman of the corporation might be selected and that a statement might be issued. Half a dozen names have been mentioned in Wall street as possible successors to the position, one of the most important in the industrial world. No reason was given for postponement of today's meeting. Two members of the finance committee, J. P. Morgan and Myron C. Taylor, the latter of whom is among those mentioned as possible successors to Mr. Gary are in Europe. MAINE HUNTING. AUGUSTA, Me.—Reports received at the department of inland fisheries and game from 1,917 licensed guides, show they have been employed 66,666 days the past year, guiding 2,765 residents and 8,985 non-residents of Maine, of whom 2,552 were hunters. The guides reported that their parties killed 1,787 deer and 25 bears. Hereafter, when Gen. Smedley D. Butler attends a social affair, no intoxicating drinks will be served.—Toledo Blade. STATE AWARDS CONTRACTS ON HIGHWAY LINKS

1,500,000 IN AWARDS APPROVED MONDAY BY COMMISSION

(By Associated Press) AUSTIN, Aug. 16.—Road contracts involving more than \$1,500,000 were let by the state highway commission here Monday. The commission heard no county delegations seeking aid. Contracts let: Tibbets Construction company, Fort Worth, concrete pavement from Arlington east nearly Trinity river on highway number 43, Anderson county, \$63,556.

Runnels County—McClung Construction company, Fort Worth, concrete pavement on Runnels county line north of rough Bradshaw and Ovalo on highway number 39, Taylor county, \$61,723.

Johnson Bros., Austin, concrete settle over Deep creek, highway number 39, Jack and Wise counties, \$1,997.

Hannah Construction company, Laco, timber bridge over Teahuaha creek, highway number 31, Meridian county, \$4,571.

Hayden and Austin, Houston, gravel base and bituminous top on five miles of highway number 59 on Navasota to road district line Grimes county, \$93,368.

Robertson County—D. H. Buchanan, Temple, gradine, drainage structures and gravel surfacing from Brazos river toward source on highway number 43 Robertson county, \$14,556.

E. E. Board, Cleburne, timber bridges on same section, \$1,276.

R. B. Sparks, Dallas, wire cable and railing on highway number 34 Shackelford county, \$4,582.

Fuller Construction company, Dallas, concrete pavement from Waxahachie north to near Sterrett, highway number 6, Ellis county, \$4,098.

Gibson and Mitchell, Huntsville, grading, construction of drainage structures and topping seven miles on Little York to Green's bayou on highway number 19, Harris county, \$228,462.

NEW WAY TO REDUCE TALLMAGE, Neb.—With the mercury hovering around the century mark, Ed. J. Hromas perched on a sign board here one entire day clad in the furry costume of an Eskimo, but on Saturday, Hromas lost several pounds paying the wages.

There were no death sentences in Scotland last year, although there was a considerable increase in crimes against property with violence.

New Police Chief At Childress Is Named

CHILDRESS, Texas, Aug. 16 (AP). Dick Moore late Monday was named police chief of Childress to succeed Hiram Cook. Cook's resignation came as a sequel to sporadic battles here during the last few days between negroes and whites in which it was charged that efforts were being made to send away negro cotton pickers. M. T. Gonzales and C. O. Moore, Texas rangers, are in Childress to aid local authorities in controlling the situation, which was today reported quiet.

FIERY, ITCHY SKIN QUICKLY SOOTHED BY THIS SULPHUR

Menthio-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist. The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up. A small jar of Rowles Mentho-Sulphur may be had at any good drug store.

THE PLAINSMAN

Says:

'FEAR VANZETTI GOING IN-SANE' asserts newspaper headline. "What do you mean, GOING IN-SANE?"

That's probably the next step in the efforts to thwart justice in the famous case. Declare the two men insane and then they'll be permitted to spend the balance of their lives in luxury at the expense of American citizens whose government they would tear down. Justice? Appearances.

Try this over on your questions and answers book: Who is Gertrude Ederle and where is she now?

Amia Loos, whose book "Gentlemen Prefer Blondes" caused such a stir, is out with the statement that blonde make the best wives because they're so dumb! That girl doesn't care any more for her life than she does for a cigarette. Let a mere man make a statement like that and he'd be as good as dead.

There must be some kind of a premium on marksmanship in Garza county, from the way the boys count around Pecos City have been unloading the old sixgun. Maybe Chicago is behind some sort of a national invitation shooting meet with prizes of good jobs to the winners.

TWINS BORN TO TEXAS MAN, newspaper headline reports. Remarkable. Remarkable. There is something new under the sun after all.

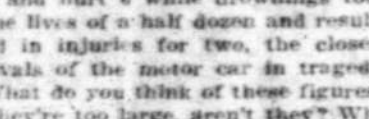

Say what you please but we Texans are reckless. For proof, turn to a recent weekly report of the Texas Council of Safety, picked at random from that organization's data for 1926. Between the dates of August 1st and 7th, 136 Texans were injured and 42 were killed in mishaps purely accidental. The automobile, of course, took the biggest toll. Fifteen lives were laid down under the whirling wheels of motor vehicles or as the results of turn-overs and collisions while 17 were injured in similar accidents. The firearm, once the most popular instrument of death and injury in the Lone Star state, accounted for two injuries and no deaths at all, and was "way down the list of causes, topped by railroads, automobiles, and collisions while 17 were injured in similar accidents. The firearm, once the most popular instrument of death and injury in the Lone Star state, accounted for two injuries and no deaths at all, and was "way down the list of causes, topped by railroads, automobiles, and collisions while 17 were injured in similar accidents.

Every time the Plainsman sees a motor car driver act like a drunken Indian on Government pay-day he gets mad—and every time he catches himself driving like an idiot he becomes downright ashamed. We all forget at times that the other fellow has some rights on the road, and in the street but there's no use letting the habit run us. It is bad enough to drive like a maniac without thinking but it is worse to deliberately take chances with your life and the lives of innocent people. Remember the accident and death total the next time you take a spin with the baby in your lap, or back out from the curb conserving your eye-sight. Remember it when you start to speed and when you decide to turn around in the middle of the block or pass in the right side.

If most of us will remember these in awhile we'll all live longer and more pleasantly.

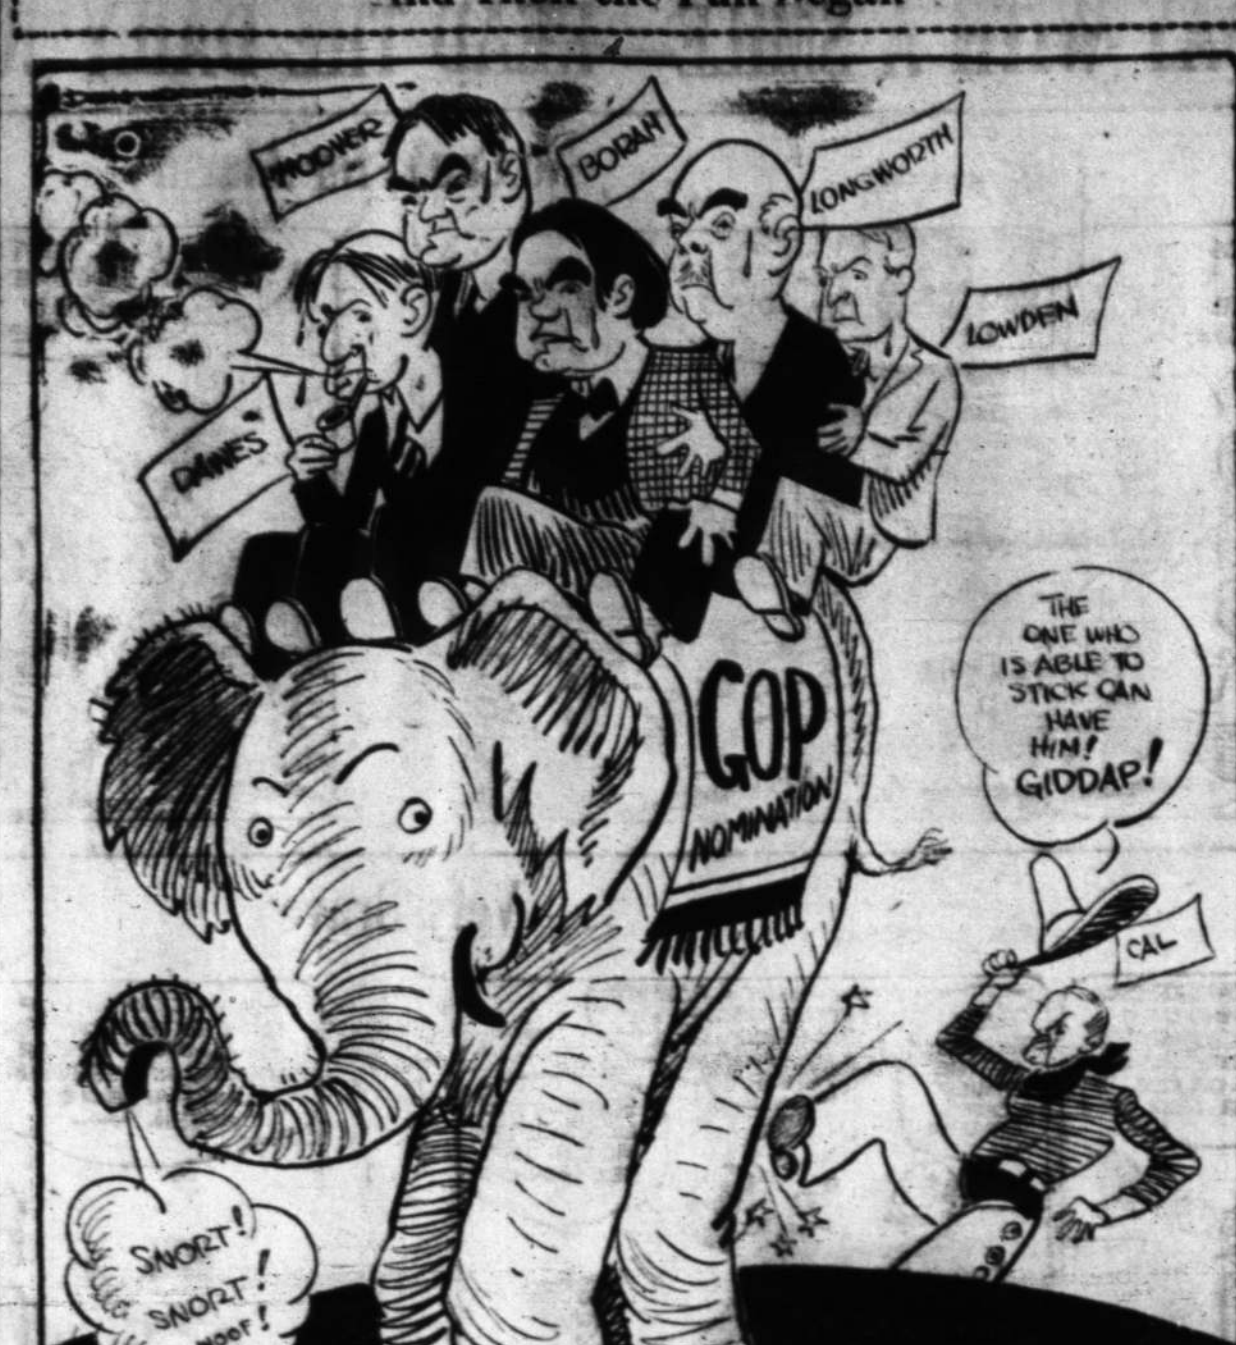

A Swedish surgeon sings to patients as he operated on them: "One could imagine that if some American doctors followed the practice of the Swede they would be adding to the pain of their helpless patients."—Canton Repository.

Political Experts Are Still Confused Over Meaning Of Coolidge's Statement As Battle Is Continued On

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Aug. 15.—The net result of President Coolidge's remarkable announcement at Rapid City has been to throw a whole crop of political experts into utmost confusion.

The president didn't say that he wasn't a candidate to succeed himself. If he had, there might be a little less confusion. He said: "I do not choose to run for president in 1928."

That meant something, but it might mean anything, and everyone in Washington whose opinion was worth seeking suggested a different explanation.

If one man's guess is as good as another's, then the suggestion is presented herewith that the president meant to say in effect: "The president will not participate in any dog fight. If his kennel can't lick the other kennel, he is not going to step in and dictate the result. One reason is that he doesn't care to risk being chewed up and the other reason is that such a course would be regarded as poor sportsmanship."

Statement Carefully Worded

So carefully worded a statement as the one Mr. Coolidge actually gave and the fact that he refused to amplify it in any way are strong indications that the president hardly meant that he was definitely refusing re-election if he felt that there was little to restrain him from saying just that.

Your correspondent, having observed the president on numerous occasions, once suggested to one who knew Coolidge well that the president was a nervous man.

"Not that," replied this prominent person. "But he never seems as easy. One gets the impression that he isn't sure of himself. He is very easily embarrassed by conditions immediately affecting himself, although he has found from experience that a policy of waiting and doing nothing is the safest when it comes to issues which are highly political rather than his personal concerns."

So the situation in which Coolidge recently found himself finally became "intolerable to him" is he the sort of man who must have full and whole-hearted support of his party or some of all did he feel that the continued "third term" discussion, the dissatisfaction of the west and the flood areas, and the obvious fact that many important men in his own party would be glad to get rid of him—that all these things played in an uncertain position against which he sought to rebel and demand a showdown?

If so, the Coolidge dignity has been maintained and the showdown is imminent.

Either a majority of the party leaders will break or they will stand by the president. At this writing it is probable that most of them are completely flabbergasted. They may have been hoping with all their hearts that Coolidge would decline to run for re-election, but the way in which he did so could hardly inspire a cautious politician with his eye on the lead box to let out an immediate whoop for another candidate. At this writing they continue to express divergent opinions as to just what the president means.

Move Strengthen's Coolidge

It will be much easier for politicians of the fence to express regret at the Coolidge "withdrawal"

With Our West

PAMPA SOTS

Pampa sots are the only ones it is reported who know the condition of this year's corn crop.—Pampa News.

We do not know just what effect that it has on Pampa folks, but the effect that even has on some of Lubbock's folks would prove to be that it might be pretty rotten stuff. Why young men will fill their stomachs with such stuff, is more than we can understand, but they do it, and when they get tanked up on it they are usually not themselves, but slaves to "King Corn."

LOSING SPEED

And so the earth is losing speed. We had thought hopeful. Perhaps it is on the decline.—O'Donnell Index.

It may be that the world is slowing down, but we cannot see that the people who inhabit it are slowing down any. Fact of the business world are pushing through streets and along the highways at a speed never known before. Automobiles are coming into common use and everything indicates that they are speeding up instead of slowing down. However, if it is meant that the people are getting better, it is a debatable question, with our opinion leaning toward the better side.

PAINT UP CAMPAIGN

Several citizens have remarked of late that this season of the year is the very best time to paint up your premises. The late summer and fall is the best season to be painted out because there is practically no dust storms and high winds to contend with.

The Chief would like to see a paint-up campaign started in Miami. There are quite a number of buildings in the city that stand

badly in need of a fresh coat of paint. It not only preserves the lumber in the building, but gives the town a more prosperous appearance to the prospective settler with in our gates. It has been proved time and again that money spent for paint is the cheapest investment a property owner can make. Now would be a very appropriate time to clean up and paint up in Miami. Have a talk with the different paint dealers in town and you are sure that satisfactory arrangements can be made whereby you can secure the proper amount to lighten up that old rusty looking residence or barn. Let's brighten up a bit that our town may appeal to eyes of the thousands of tourists passing this way.—Miami Chief.

Paint is a great thing. It helps the looks of any kind of building. It makes an old automobile look like a new one. It adds to the value of buildings, and makes a lawn look like a million dollars. Lubbock has many houses that need painting, and while we have no pain to say nor are we advertising for any paint concern, we believe that a car load of paint could be very nicely applied to several hundred houses, and make Lubbock look like a new town. Out in the west there are more painted houses than in most any other section of the state that we have ever been in. In the south and east the buildings are old and dingy, and have suffered for the lack of paint. Lubbock should not be allowed to become old and dingy, and an application of paint on the buildings will solve this problem if applied at regular intervals of two or three years apart.

Tall men have combined in one Kansas town to protest against hotel beds being too short, and tables too low, and motor cars too cramped.

TOO MUCH IRON IN BANQUET Me—Injudicious indulgence for a man the Kansas State hospital doctors operated. Superstition J. Mehin said, they removed spoon and 70 bedspoon about four inches long—more than 23 feet of wire patient's stomach.

Spinach is said to be rich in iron. It is a whole lot richer iron.—Kansas City Star.

Now You Ask One

THREE GUESSES

Anyone should be able to do fairly well on this quiz, for the answers are practically given with the questions. Correct replies are an excellent sign.

- 1—Is the Ganges a river in India, Egypt or Persia?
- 2—Is Rudyard Kipling's "Gunga Din" a poem, a novel, or a short story?
- 3—Is sulfur a mineral, a fossil, or an artificially produced chemical compound?
- 4—Is Great Salt Lake in Wyoming, Utah or Idaho?
- 5—Is General Grant buried in Washington, Cairo, Ill., or New York city?
- 6—Was "Scaramouch" written by Blaise Pascal, Raphael Sabatini, or Anatole France?
- 7—Is the boomerang a native weapon in the Philippines, Australia or Java?
- 8—Who said, "Give me liberty or give me death," Benjamin Franklin, Barbara Frische, or Patrick Henry?
- 9—Is the capital of New Zealand Melbourne, Sydney or Wellington?
- 10—Is peat a tree bark, a soil, or a low grade of mined coal?

Daily Almanac

OKLAHOMA: Tonight cloudy, thunder showers in east portion, cooler in east portion; Wednesday partly cloudy.
Feast day of St. Hyacinth, confessor of the thirteenth century.
Anniversary of the birth of Lavoyier, French chemist.
Battle of Bennington, Vt. 1777.
Dances plan accepted by Germany, 1924.

BARBS

Mr. Ford is not only a proficient manufacturer of tractors, but also makes a first-class retractor

The "get" is the hardest part of the budget.

Oil eliminates friction, except in the machinery of international relations.

Old Master's

Flow down, cold rivulet, to the sea.
 Thy tribute wave deliver
 No more by me they steps shall be.
 For ever and for ever.
 A thousand suns will stream on thee.
 A thousand moons will quiver;
 But not by thee my steps shall be.
 For ever and for ever.
 —Alfred Tennyson—A Farewell

and go on their ways rejoicing, but the president's stroke may actually strengthen his position. It is much harder to shoot at a candidate who insists that the office must seek the man, and if Coolidge is not nominated, the disappointment will be less embarrassing than the crushing rebuff of going after a nomination openly and failing to get it.

It is unlikely that Coolidge acted without advice. It may even be that he received strong hints from the powerful forces behind the Republican party that there were stronger candidates that he should if the party were to win in 1928 it must be sure its standard-bearer could hold the great electoral vote of New York against a candidate like Al Smith. There have been rumors that the forces referred to had decided as much several months ago.

NEW YORK
SEE-SAWING
ON BROADWAY

NEW YORK, Aug. 16.—Hardly a week passes in Manhattan but what some focus Lothario, playing a jaunty social role, is exposed. These young men masquerading as titled foreigners, or as millionaires' sons, or as heroic figures, strut about among the romance-hungry maidens of the hotel parlors and the bridge clubs. They should be sent to an eminent aviator, come wandering to town in the wake of Lindbergh and, taking the title of Captain or Lieutenant to himself, was accepted as such and soon was engaged to marry a prominent young woman.

The wedding, of course, has been called off.

Manhattan is so big that pretensions can be carried on in wholesale fashion with but a few hundred people knowing about them. Now and then the pretenders go so far as to break into the society and news columns of the newspapers, making away with their fraud some time before they are discovered.

Furthermore, the existing attitude of certain social and news-ribe groups makes them easy bait for these fellows. "Front" counts for so much with large fractions of the population that any slick man can make them a target for his game of wits.

Strangely enough the adventures, as pictured in the old melodramas and far-side stories, seems to have dropped from the picture. Some years back these vampirish impostors were pictured as beguiling the poor little butter-and-egg men, getting them into financial difficulties and then flooding them.

Today competition is a little too strong for the old time adventures. This siren has been supplanted by her cocktail drinking little sister, and the method has been completely reversed. The male has taken the place of the adventures of old, being all of her old tricks to win his way into social position and the presence of easy money.

Recently a clever burglar operated in the Long Island fashionable belt. He went to the homes of rich and to their hotel rooms, taking fortunes in gems.

When captured he was found to have been living at exclusive country clubs, taking the names of prominent people and playing golf with social notables. In one instance it was found he had taken the name of the son of a Boston judge who had given him his first jail sentence. Posing as the judge's son his idea of an ironic and amusing way of paying an old score.

GILBERT SWAN.

Only 41,737 bills have been introduced in congress during the present session, but the boys will soon get warmed up to the pace and make up for lost time.—Indianapolis News.

THERE *SHOULD* BE PROSPERITY ON THE SOUTH-PLAINS!

THE OPPORTUNITIES ARE REAL AND PLENTY *IF* WE ALL RECOGNIZED THEM--AND *TOLD* THE WORLD ABOUT THEM!

The Avalanche-Journal Publishing Company believes in the South Plains—in its opportunities. So much so that we are buying space in 30 different publications of the South and Southwest and publishing in them the following message:

WE NEED FARMERS

¶ The largest area of **PROVEN**, undeveloped farming lands in the Southwest is the South Plains of West Texas. Productive lands with abundant water near good schools are available at the **LOWEST** prices and **EASIEST** terms. There are 16 good South Plains counties with, literally, millions of acres of opportunities for agricultural, commercial and industrial development. Get full and accurate information of the South Plains **FREE** by writing for a copy of the South Plains' Fair edition of the Lubbock Avalanche-Journal to be published Sunday, September 25th. Write now: Avalanche-Journal Publishing Company, Lubbock, Texas.

We believe the same co-operation that builds prosperous communities into thriving cities develops prairies into productive agricultural sections.

These Newspapers seek the co-operation of every community on the South Plains in spreading the news of —“this land of opportunity”—the section we serve.
