Chili, Stew Feast Rivercrest Dec 13

The public is invited to a chili and stew supper at the Rivercrest High School cafeteria Saturday night, Dec. 12, 1970 at 6 p. m. The proceeds from the supper will be used by the Jhontown Teenage League to help build a baseball field on the Talco-Bogata School property located at Jhontown. Much of the work on the field has already been completed. The ground has been leveled and an all steel fence is being built around the field. Pipe has been donated to build the fence and new chain-link wire will be purchased to go around the field. The wire will cost approximately \$40.

Lights will be installed on the field for playing at night. The lights will cost approximately \$2,500.00.

All donations to the Jhontown Teenage League will be appreciated.

Austin. — Legislative Budget Board staff members added little to the season's cheer for legislators with their estimate that even a rigidly-conservative 1972-73 budget will require a \$643.5 million tax bill.

Lawmakers, who report for the biennial session in January, must pass a \$51.4 million emergency finance measure to head off a 20 per cent welfare cut in April, the Budget Board warned. And early approval of a constitutional amendment to raise the \$80 million welfare ceiling also will be necessary to avert eventual sharp reductions in aid to the needy.

Board stressed that its budget complications allow for no new construction funds for any purpose (not even new colleges already authorized) and no money for state employee salary raises.

Lt. Gov. Bn Barnes called the situation a "crisis."

Senate leaders turned down a no-tax plan advanced by a Houston group. This plan would freeze teacher salaries, raise college tuitions, abandon general revenue appropriations for farm-to-market roads, change school finance formulas and divert a portion of the permanent school fund to current spending. Such proposals, said Barnes, "would get about two votes."

Sharp growth in welfare rolls and long-range educational programs already enacted are primary reasons cited for the record tax need.

BOUNDARY HEARING SET
Texas-Louisiana boundary dispute will be argued before Judge Robert Van Pelt in the U. S. Supreme Court in Houston on December 16.

Judge Van Pelt is a senior federal district judge for Nebraska. Texas claims that midstream of the Sabine River, Sabine Lake and Sabine Pass were established in 1848 by Congress as the dividing line. Louisiana claims the entire river.

Millions in oil lease income are at stake.

TEXAS FOURTH — Texas now is fourth most-populous state in the nation. New census figures show 11,298,787 population which includes 102,057 Texans abroad.

California still is No. 1 with more than 20 million. New York remains second with 18.2 million; and Pennsylvania third with nearly 11.9 million.

Texas barely nosed out Illinois for fourth. Illinois' head count is 11,184 million.

TURKEY PRICES HOLDING — Price of the Christmas turkey in Texas will be about the same, or maybe even less than in 1969. Agriculture Commissioner John C. White figures.

A wire service story on November 25 stated that prices of Thanksgiving turkeys over the nation were nine per cent higher this year, but White said this was not true in Texas.

White based this statement on a survey of prices in leading markets of San Antonio, Houston and Dallas.

About 19 per cent more turkeys were produced in Texas this year than in 1969.

COURTS SPEAK — Reversing itself, the State Supreme Court upheld a \$10,000 libel judgement against a Denton publishing company as the result of an erroneous report (which the

Court said was not privileged). Story reportedly stated that a local developer was bankrupt. In an earlier opinion, the High Court, by a 5 to 4 vote, had held for the newspaper publisher. Newspaper had quoted a statement made at a city council meeting but through oversight did not say who made the statement.

In other cases the High Court: • Set arguments for January 20 over the validity of the incorporation of West Lake Hills, an Austin suburb.

• Upheld a lower court decision invalidating a Comanche County local option election to permit liquor sale.

• Affirmed the right of a Ft. Worth school district to prevent students from belonging to secret clubs.

Court of Criminal Appeals, in Smith and Tarrant County cases, found that a 1969 legislative act wiped out part of the state law against ex-convicts carrying concealed weapons.

AG OPINIONS — Federal navigation powers under the commerce clause of the U. S. Constitution are superior to state powers or rights where the waters involved form a part of navigable waters of the U. S., says Atty. Gen. Crawford Martin.

Same applies, Martin said, where alteration of the flow of non-navigable tributaries thereof would affect navigable waters. He further held that: federal authorization of a Texas water project preempts a state project on the same river site unless federal consent is obtained by law; federal government can retard, impound and use waters behind government dams in Texas if use is reasonably related to powers under the commerce clause, and suits over federal projects could be removed to a federal district court.

Holiday Parties Take The Cake

Man cannot live by bread alone—and when the holiday season comes 'round the saying is all too true. With the holidays comes the expectation of tasty snacks, unusual main courses and luscious desserts, that add up to more work in the kitchen. This holiday, relax and produce a treat by letting 'em eat Japanese Mandarin Orange Party Cake.
 A deliciously different and simple variation on the holiday fruit cake, this one starts store-bought sponge cake and succulent Japanese Mandarin Orange segments. These Japanese delicacies come straight from the can ready to use without seeds, rinds or membranes, so the making is easy. The juicy Japanese Mandarin Orange segments are tucked between the cake layers and decorate the frosting for extra drama and taste. The result: a cake that's sweet, tangy and irresistible. Here's how to make it for your holiday table:

- JAPANESE MANDARIN ORANGE PARTY CAKE**
- 2 11-ounce cans Japanese Mandarin Oranges
 - 1 cup butter, softened
 - 1/4 teaspoon salt
 - 2 pound package sifted confectioners sugar
 - 4 egg yolks, unbeaten
 - 1 teaspoon vanilla
 - 4 tablespoons milk (about)
 - 1 teaspoon grated orange rind
 - Red and Green cherries
 - 3 sponge cake layers

Add the salt and part of the sugar to the softened butter, beating well. Add the egg yolks and vanilla, again blend well. Add the rest of the sugar, alternately with the milk, until you have a creamy consistency. Blend in the grated orange rind. Spread this frosting on each of two sponge layers, either round if you buy them, or square if you make them. Top the frosting with the drained Mandarin oranges, arranging them in circles. Pile the layers on top of one another, add the top layer and frost. Frost the sides well. Decorate the top with Mandarin oranges, alternating them at dramatic intervals with red and green cherries. Make the cake look very special by bordering it on the cake plate with a ring of Mandarin oranges, again alternating them at intervals with red and green cherries. Serves up to 12.

CRACKER BUYING TIPS

Pause in the cracker department and you'll find the different kinds of crackers and sizes of packages bewildering. Even though crackers are not a major expense, take the time to make a wise selection.

WHAT ARE YOU GOING TO USE THEM FOR?
The most basic, soda crackers, are made with flour, baking soda, shortening, salt, enriched flour is used in PREMIUM Saltines. Square or hexagonal in shape, soda crackers are good with soups, chili, crushed in meat loaves. Plain snack crackers usually have sugar added and are lightly sprayed with coconut oil; different shapes—delicious with cheese, dips and spreads. Many crackers have added flavorings—cheese, meat, spices. These make pretty hors d'oeuvres; are yummy plain.

LOOK AT THE DIFFERENT SIZES!
Several kinds of crackers are packed in different sizes. PREMIUM Saltine Crackers come in 5 sizes ranging from 3/4 ounces to 2 pounds. For big families and big users buy larger sizes!

Recloseable packages and

inner wraps—look for cracker boxes designed to be reclosed such as the "EASY LOCK" NABISCO Snack Cracker cartons. Some packages have Inner Wraps or Stack Packs; these help to preserve the snapping crispness. And those boxes are packed as full as is practical; they are sold by weight not volume. The crackers settle down en route from the bakery to you.

HOW TO FIGURE THE COST:
Just divide the retail price by the number of ounces. This will give you the cost per ounce to compare to other crackers. Generally larger boxes will be more economical per ounce. Plain crackers are more economical than those with party shapes and interesting flavors.

It may be more rewarding than mistletoe!

The gift of a modern flameless electric clothes dryer can make a woman very happy... and very grateful. When she has an electric dryer she can forget carrying heavy laundry baskets... she can forget weather worries on washday, too. She can forget most of her ironing because permanent press garments come from an electric dryer ready to wear without ironing. With a work-saving, time-saving electric dryer she can spend extra time with her family. See your electric appliance dealer soon.
