Mariner 4 Sends Good Pictures

FOR FLASH BLINDNESS — New fluid-shielded goggles to protect aviators from flash-blindness are announced in Washington, D. C. In photo, wired package at lower left contains electronics system for the goggles. In event of a burst of light such as A-bomb explosion a light sensor on the helmet would release a colloidal mixture of graphite and a fluid suspension to form a light-blocking shield on the lenses. August Oil Flow Is Cut

By JACK KEEVER

AUSTIN (AP) —The Railroad Commission ordered the statewide oil allowable for August held to 28 per cent of potential today, a percentage drop from July.

The new order sets the total August allowable, however, at 2,905,312 barrels daily, compared to 2,885,657 under a 28.1 per cent production standard this month.

The allowable hike, in total barrels, results from an increase in the number of wells now operating in the state.

August 1964 production was limited to 2,794,312 barrels a day under a 26.5 per centage factor.

Only two of the 13 major purchasers of Texas crude oil, appearing at the commission's regular monthly statewide proration hearing, asked for a high-er production ceiling next month than in July.

Barrels per day nominations, by percentage, made by major crude oil purchasers:

30—Texaco 141,000.

28—Gulf 211,000; Humble 411,765, PanAmerican 250,760 and Sun 105,469.

27—Cities Service 80,000, Continental 26,700, Shell 170,700 and Sinclair 100,000.

26—Mobil 229,000, Standard of Texas 35,500.

25—Atlantic 72,000 and Phillips 121,479.

For the third straight month, L. W. Brooks Jr., president of the West Central Texas Oil and Gas Association, challenged what he termed "the inequities of allowables in the preferred fields of the state."

As an example of what he called an excessive allowable he said one well 1,300 feet deep has been permitted to produce 200 barrels per day.

"Gentlemen, it is not fair and reasonable to allow a well on a 10-acre tract on the Gulf coast to produce 3,000 barrels of oil per month and allow a well in Jones County of comparable depth and on a 40-acre tract to produce only 660 barrels per month," he said.

WOMEN IN THE WAR—U.S. Army nurses, Capt. Gladys E. Sepulveda, left, of Ponce, Puerto, Rico, and 2nd Lt. Lois Ferrari, Pittsburgh, Pa., rest on sandbags at Cam Ranh Bay in South Viet Nam. They were awaiting transportation to Nha Trang, where they'll work in 8th field hospital. (AP Wirephoto via radio from Saigon)

Scientists Are Happy

By RALPH DIGHTON

PASADENA, Calif. (AP)—Scientists received from Mariner 4 today what they said were just the kind of Mars picture signals they hoped for.

Late today or early Friday they plan to make public what should be the first close-up photograph of the unknown planet's surface. It could indicate whether Mars harbors life, solving a mystery that has intrigued man for ages.

Mariner 4 flew past Mars Wednesday night and its signals hinted at trouble in the camera's tape recorder.

But this morning, transmitting from beyond Mars en route to an orbit around the sun, the windmill - shaped 575 - pound spacecraft began relaying the first of a hoped-for score of photos.

Signals came in line by line at the rate of one line every 2½ minutes. In all, it required 8 hours, 35 minutes, for all 200 lines of the picture to be received.

Jubilant scientists at the Jet Propulsion Laboratory, which built and controlled Mariner, said "the raw data is exactly what we expected."

They said the transmissions should produce "a valid picture."

Two hours after the start of signals 35 lines had been received, and one expert said a definite pattern was showing.

The photo program called for Mariner to take up to 21 pictures as it passed within 5,600 miles of Mars, store them on tape, then play them back starting today.

After analyzing this morning's transmissions, experts said they are not quite sure but they are optimistic about receiving as many as 20 photos.

The pictures were planned to be 100 times better than those from earth telescopes, showing objects as small as 1½ miles across, and perhaps indicating whether life exists on the planet most like earth.

The fly-by climaxed a 228-day, 325-million-mile curving voyage from earth. The spacecraft both Wednesday and today was about 134 million straight-line miles distant.

There was considerable confusion after the hint-of-trouble announcement at the laboratory Wednesday night.

At a news conference later, Daniel A. Schneiderman, Mariner project director, said the spacecraft got at least six or seven pictures.

And Dr. William H. Pickering, director of Jet Propulsion Laboratory, added: "I think six or seven is the minimum pessimistic estimate. I think there are 20 pictures on that tape."

Mariner itself was scheduled to settle the question starting at 8:50 a.m. EST today when it was to begin relaying the picture data across nearly 135 million miles of space separating the spacecraft from earth.

Because of the distance from earth, the 575-pound spacecraft could not transmit its pictures the instant it took them. They had to be recorded on tape and then the information relayed slowly, to avoid garbling, after Mariner had passed beyond Mars and into interplanetary space.

Each picture takes eight hours to relay. Two a day are expected.

When will it be known if the system worked?

"We hope to be able to tell if we've got something before we get the first picture complete," said Dr. Pickering.

Mariner keeps the pictures on tape just as videotape for television shows is stored. A timer starts radioing the data to earth as a stream of digits received at tracking stations at Goldstone, Calif., Johannesburg, South Africa and Woomera, Australia.

Stevenson's Body Being Flown Home

By COLIN FROST

LONDON (AP) — In death, Adlai Ewing Stevenson started the journey home today — back to Washington where the highest gift of the American people eluded him, then on to Illinois for burial in the state that elected him governor.

Accompanying the body of the fallen statesman were Vice President Hubert Humphrey, Stevenson's three sons and a party of U.S. officials.

The eloquent spokesman for U.S. policy as ambassador to the United Nations since 1961 and twice the unsuccessful Democratic candidate for president, Stevenson collapsed and died outside the U.S. Embassy Wednesday. The embassy said he had suffered a heart attack. He was 65.

The coffin was removed from a catafalque at the U.S. Embassy for the trip to the airport, where President Johnson's personal plane was waiting.

Humphrey, Stevensons' sons and the U.S. delegation had arrived in Johnson's plane three hours earlier.

As the presidential jet plane bearing Stevenson's body was flying across the Atlantic today, the White House announced plans for tributes to Stevenson, including memorial services at Washington's National Cathedral Friday, with President Johnson attending.

The cathedral services were scheduled for 11 a.m. EDT. A close friend of Stevenson, Judge Carl McGowan of the Court of Appeals of the District of Columbia, will deliver the eulogy. Officiating will be Dr. Richard Hall Graebel, pastor of the First Presbyterian Church of Springfield, Ill., of which Stevenson was a member.

The funeral plans, arranged by the family with government officials cooperating, called for Stevenson's body to lie in repose in the National Cathedral after its arrival late today until the services are completed there Friday.

Then the body will be flown to Springfield to lie in state in the Illinois Capitol rotunda from 10 a.m. Saturday until 10 a.m. Sunday.

Burial will be Monday in Bloomington, Ill., Stevenson's hometown, with a small private family service at the interment.

Envoy Talks To Kosygin

MOSCOW (AP)—U.S. roving Ambassador W. Averell Harriman talked with Soviet Premier Alexei Kosygin for three hours today in the Kremlin.

There was no immediate announcement on the subject of the talks but Viet Nam was believed to have been discussed.

Harriman arrived in Moscow Monday for what was billed as a private visit as part of his vacation. He said he was looking forward to meeting Soviet leaders and renewing official acquaintances.

Harriman said later, through an American Embassy spokesman, that he would not comment on his talk with Kosygin. He added that "we discussed my personal plans in the Soviet Union during the coming week."

The embassy also refused to say what else came up.

The embassy said it had no information on Harriman's future movements.

Military Chiefs For Hiking U. S. Forces

WASHINGTON (AP) — The nation's military chiefs have recommended unanimously that the strength of U.S. forces in South Viet Nam be boosted to 179,000 men by the end of the year, it was learned today.

This would be more than 100,000 above the 75,000 U.S. force now scheduled to be in South Viet Nam.

This recommendation by the Joint Chiefs of Staff will be considered by top U.S. officials in the light of what Secretary of Defense Robert S. McNamara determines during his week-long inspection visit to Viet Nam. McNamara left Wednesday night.

Sources told The Associated Press the joint chiefs would include the remainder of the 1st Infantry Division in the new projections for a buildup to meet growing Communist strength. One brigade of that division landed in iet Nam this week after traveling from its home base at Ft. Riley, Kan.

A buildup as big as 179,000 men could well bring at least a limited mobilizatcn of reservists and National Guardsmen to replace regular troops drawn into the growing conflict in Viet Nam.

The armed services, it was disclosed, are starting to gear up for such a possible muster of guardsmen and reservists.

They have submitted to defense officials tentative estimates totaling more than 200,000 citizen servicemen.

The breakdown:

About 120,000 guardsmen and reservists, including six infantry brigades. Three of these brigades, sources said, probably would be the 157th of Massachusetts, the 187th of Pennsylvania and the 205th of Minesota.

Marines — The 4th Marine Division, and its Air Wing of more than 44,000 reservists.

Navy — About 40,000 reservists who would be summoned as individuals rather than with units.

Air Force — Mostly air transport squadrons manned by some 20,000 reservists and guardsmen.

The sources emphasize that the planning for a possible callup is still in the early stages and that the totals of men the services have estimated they would need to back up the regular forces could be scaled down.

In the Berlin crisis four years ago, President John F. Kennedy ordered about 150,000 National Guardsmen and reservists to active duty. They served for 10 months.

A possible callup may hinge on the McNamara mission, as will the future shape and size of the U.S. commitment in Viet Nam.

Texas Marine Reservists Await Word

By The Associated Press

Marine Corps reservists in 17 Texas cities awaited definite word today on whether they will be summoned to active duty as part of a plan to call up 200,000 men.

The proposed call-up, revealed Wednesday in Washington, reportedly would affect 44,000 men in the 4th Marine Division and its air wing, 120,000 Army reservists, 40,000 Navy men and 20,000 in the Air Force reserve.

Officials of the Texas National Guard and Army reserve units in Texas expressed doubt that any of their units will be involved. Major Army units in the state are in a low priority category.

The 4th Marine Division has units in San Antonio, Houston, Austin, Dallas, Fort Worth, Texarkana, Wichita Falls, Amarillo, Abilene, Lubbock, San Angelo, Odessa, Midland, El Paso, Port Arthur, Beaumont and Corpus Christi.

There are 975 officers and men in the 1st Battalion, 23rd Marines, with headquarters in Houston and companies in Austin, Beaumont and Port Arthur.

About 540 men and officers are in the 2nd Reconnaissance Battalion, headquartered in San Antonio with two units in Corpus Christi.

The 2nd Battalion, 14th Marines, is headquartered in Dallas with units in Fort Worth and Wichita Falls.

Texas Adj. Gen. Thomas Bishop said in Austin he had received no word about a possible callup of guardsmen.

The assistant commander of the 36th National Guard Division, Brig. Gen. Ralph Krieger of Abilene, said his division probably will not be affected.

The 49th Armored Division of the National Guard also is in a low category of priority and presumably will not be affected, according to Col. John Waldrip of Dallas, a division staff assistant.

Waldrip said the only six Army reserve divisions in the immediate reserve are located east of the Mississippi River. He said none of the 12 separate brigades is in Texas.

Says North Viets Think They'll Win

LONDON (AP)—Prime Minister Harold Wilson said today the North Vietnamese declined to talk peace with his envoy, Harold Davies, because they think they are going to win the war against South Viet Nam.

Wilson told the House of Commons the Communist North Vietnamese are convinced "their prospects of victory are too imminent for ' to be worth their while to forsake the battlefield for the conference table."

Davies, a deputy minister of pensions in the Labor government, returned Wednesday from Hanoi. He was denied an audience by President Ho Chi Minh or any other ranking member of the government.

Wilson said one of the reasons for the turndown of Davies probably was that North Viet Nam did not want to appear to be giving ground after previously refusing to meet a proposed British commonwealth peace mission headed by Wilson.

More Sailings Are Canceled

NEW YORK (AP) — Strike-bound shipping lines have canceled sailings of six more ships on which more than 4,000 travelers had been booked.

The shipping companies also temporarily called off mediation sessions Wednesday.

The decision by the American Merchant Marine Institute (AMMI) to recess efforts to settle the strike by three unions representing officers followed the announcement by the Maritime Subsidy Board late Tuesday that it had disallowed a number of items in labor contracts previously negotiated.

WEATHER

SNYDER TEMPERATURES: High Wednesday, 98 degrees; low, 69 degrees; reading at 7 a.m. today, 71 degrees; precipitation, .99.

North Central and Northeast Texas: Partly cloudy and warm tonight and Friday. Showers in 30 per cent of area. Low tonight in 70s. High Friday in 90s.

Northwest Texas: Partly cloudy tonight and Friday. Showers over 30 per cent of the area. Warmer in Panhandle tonight and Friday. Low tohight 65 to 75. High Friday in 90s.

Coast: Variable mostly south winds 8 to 18 knots tonight and Friday. Gusty to 30 knots in showers.

South, Central and Southeast Texas: Partly cloudy and warm tonight and Friday with showers and a few thunderstorms over 30 per cent of area. Low tonight 68 to 80. High Friday 90 to 102, except 84 to 94 in Southeast Texas.

Southwest Texas: Partly cloudy and warm tonight and Friday with showers and a few thunderstorms over 30 per cent of area, mainly in east. Low tonight 70 to 78. High Friday 92 to 100.

House Panel Recommends Overhaul Of Farm Program

WASHINGTON (AP) — The House Agriculture Committee recommended today a major overhaul of government farm programs.

It approved for House action probably early next month a modified version of the administration's omnibus farm measure which Chairman Harold Cooley, D-N. C., said would maintain farm income, stabilize prices and cut government farm program costs.

The committee action was by a 21-13 vote with only one Republican member, Paul Findley of Illinois, assailing the bill as too costly and failing to solve any basic farm problems.

Cooley said farmers are not sharing in the nation's prosperity, are going deeper into debt and are not getting a fair return for their labor.

Findley said the measure is "the most expensive package ever put together in the history of farm legislation" and claimed it would solve none of the basic problems of agriculture.

Major provisions:

Wool — The administration's proposal for changes in the wool program to permit a system of graduated payments to producers based on volume of production was not approved. The committee decided to continue the National Wool Act of 1954 through Dec. 31, 1969, with modifications intended to increase the production of wool.

Feed grains — Continues for four years the provisions of the present feed grains program for price - support loans, purchases, and payments-in-kind to program participants. In keeping with the price support range at 65 to 90 per cent of parity for corn (with comparable levels for grain sorghum, barley, oats, and rye), it provides the basis for support prices around levels of recent years. Participants, by grain production to conservation uses, would receive, as in the past, payment - in - kind to help maintain income. Payments would be based on a percentage of price support rates, on per acre yields, and on acreage diverted, as previously. The secretary of agriculture could permit the diverted acreage to be devoted to guar, sesame, safflower, sunflower, castor beans, mustard seeds and flax, but not to soybeans.

Wheat — Continuation of the voluntary wheat certificate program for four years with modifications from current provisions aimed at boosting wheat farmers' income by about $150 million a year, reducing government costs, and providing more freedom in the marketing system. Basically, it would call for a wheat operation for the 1966 through 1969 period similar to the one in effect for 1964 through 1965 crops. The main change from current operations would provide for price support for wheat with domestic certificates at or near 100 per cent of parity and eliminate the need for export certificates to supplement wheat farmers' incomes. The support price for wheat for domestic food use would be increased about 50 cents per bushel to around $2.50.

Cropland adjustment — The secretary of agriculture would be authorized to enter into long range contracts with farmers calling for conversion of unneeded cropland into vegetative cover, water storage facilities or other soil, water, wildlife or forest conserving uses. Contracts could run from 5 to 10 years and the signup period would run from 1965 through 1969. About 1 million acres per year are expected to be added to this program until it reaches peak participation of 40 million acres in 1970.

Rice — The administration proposal for a new rice program was rejected. The committee recommended continuance of the present acreage allotment and price support program.

Cotton — The one - price cotton program which allows American mills to buy U.S. cotton at the same price it is offered to foreign mills would be extended for four years, through 1969, with modifications.

The new bill would (1) continue the 16 million acres national minimum allotment, but establish a domestic allotment within the national allotment which would be not less than 65 per cent of each farm allot-

See FARM, Page 6

City Gets Most Wednesday Rain

The immediate Snyder area apparently reaped most of the moisture from thunderstorms Wednesday evening.

The official gauge at the city water plant measured .99 of an inch, far more than any other reports from over Scurry County.

Half an inch of rain fell at the Lake J. B. Thomas dam, but no runoff into the lake was reported this morning. Half an inch also was reported 10 miles southwest of Fluvanna, but in Fluvanna itself there was only a light shower which did not produce enough rain to measure.

About a quarter of an inch fell at Ira and a lighter fall of from .10 to .20 was reported at Hermleigh. Camp Springs had only a sprinkle.

The Snyder rainfall was the first recorded here in more than three weeks.

Weather Bureau forecasts held out some hope for showers again today in parts of Northwest Texas. However, rains are expected to be scattered.

The thunderstorm moved into the Snyder area Wednesday night when patches of turbulence developed as a weak cool front moved down from a line extending from Pecos to Paris. The Weather Bureau expected the front to edge a little deeper into Northeast Texas, but to retreat toward the north in West Texas.

Heavier thunderstorms in early morning centered around Greenville, Royse City, Farmersville, Leonard and Whitewright in North Texas. They composed part of a scattered band of showers up to 40 miles wide stretching from near Waco past Wills Point to the vicinity of Durant, Okla.

Another broken band of showers and thunderstorms hovered in the area from close to Breckenridge to near Olney.

During the night briefly violent rain and hail storms pounded the area around Jacinto City near Houston, near Eustace and Kemp in East Texas northwest of Athens, and Gunter, south of Sherman in Grayson County. There was damage to utility lines, roofs and windows.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: My problem is my 17-year-old son. He is going steady with a 24-year-old woman. Roger looks like he's 21 or 22, and has always been big for his age. I am very much against this match and told him so. Don't tell me to have a talk with the woman because I already have and it didn't do one bit of good. She says they are "in love." Roger has one more year of high school left and she says she is willing to wait for him to graduate before they get married. Have you ever heard of anything so ridiculous?

She works and gives Roger an "allowance." Don't you think this woman ought to be ashamed of herself for taking advantage of a kid? I think they are both sick in the head. I say if these two get married, in no time he will be introducing her as his mother. What can be done? He won't listen to me.

ROGER'S MOTHER

DEAR MOTHER: **Knowing nothing of the mental and emotional maturity of either your son or this woman, I can't say whether it's a "ridiculous" match or not. A normal 24-year-old woman wouldn't look twice at a 17-year-old boy. And vice versa. Obviously, it's too late for you to assert the kind of parental influence necessary to break up this romance. Roger needs understanding and lots of it. Who knows, they might live happily ever after.**

• • •

DEAR ABBY: Please answer this while I am sane and able to understand your reply. I accepted an engagement ring last Christmas, but I am not sure I want to get married just yet. I haven't set a date and I am getting so much pressure from Nick that I can't think straight. I have never given Nick any reason to doubt me, but I get the third degree about every minute I spend away from him.

Right after I got my ring, Nick started to act like he owned me. Yesterday I had lunch with a very dear girl friend I had not seen in years. We had a lot to talk about and I didn't think that kind of talk would interest Nick, so I didn't ask him to be with us. Well, Nick said I can't ever see her again as he knows that when two girls get together they are just looking for eligible males. Do you think he will ever get over this jealousy after we are married? Marriage is a big step and I don't want to rush into something I could regret later on. What should I do?

SECOND THOUGHTS

DEAR SECOND: **Nothing! Don't set a date until Nick learns to control his jealousy and possessiveness. Men who have suspicious minds usually get worse, not better, after marriage. Have yourself a third thought. And a fourth. You're on the right track.**

• • •

DEAR ABBY: This may sound petty to you, but it is important to me. My wife has a car of her own and nothing to do all day, but she'll call me up at work and ask me to stop on my way home and bring home a loaf of bread, or to be sure to stop at the appliance repair shop and bring home our toaster. Or even swing around to the shoe repair shop and pick up her shoes. It seems I never go right home from work. I am always stopping at the cleaners, the drug store or a dozen other places. How can I get it through her head that it is HER job to do all these things, not MINE?

BUGGED

DEAR BUGGED: **You can get it though her head via her ear! Either you are not telling her, or she is not listening to you.**

2 Launchings Are Delayed

CAPE KENNEDY, Fla. (AP) — The Air Force has postponed the launching of two nuclear detection satellites until i learns why an Atlas-Agena rocket failed in a flight on the West Coast.

A similar Atlas-Agena was to have orbited the twin satellites from Cape Kennedy today to detect secret nuclear explosions in space. But officials want to be certain the same failure won't repeat on the rocket here.

At Vandenberg Air Forc Base, Calif., Monday the main sustainer engine of the Atlas booster shut down prematurely and the rocket was destroyed by the range safety officer when it veered off course. The rocket carried a secret military satellite.

2 Teenagers Killed When Car Overturns

MATHIS, Tex. (AP) — Two teen-agers died and a third suffered critical injuries as their car overturned 1.6 miles south of here on Texas 359 Wednesday night.

Bryan Hinds and Kenneth Pitts, both 16 and from Alice, were killed.

Attendants at an Alice hospital reported the other youth, Richard Cox, 17, of Alice, was in grave condition.

State police said the southbound car ran off the highway at a curve, hit a culvert and a telephone pole, and rolled several times.

Dies In Shooting

RICHARDSON, Tex. (AP) — Garnett Bandy, 49, a carpet layer, was shot to death in his apartment Wednesday night. His wife, Virginia, 39, told police the shooting occurred during an argument in which she was shot in the back. She was dismissed after treatment at a hospital.

TOO LATE TO CLASSIFY

WILL SACRIFICE brand new sewing machine and cabinet. $50.00. HI 3-3392.

LOST: FEMALE Reddis-brown Pekingese dog. Last seen at fire on Big Spring Highway Wednesday night. Please bring her home to 4000 Ave. U. and no questions asked.

Conviction Fulfills Vow

CELINA, Tenn. (AP) — Welby Lee is ready to return to the lumber business for the first time in 13 years. And he returns to his home in Topkinsville, Ky., in the belief that "justice has been done" by the conviction of Grover Jones for the hit-run death of his father 21 years ago.

Jones, 56, of neighboring Jackson County, was sentenced to one year and one day here Wednesday after being convicted of involuntary manslaughter. He was accused of driving the car which struck and killed Newt Lee, 64, as the victim crossed the road in front of his Moss, Tenn., home on New Year's Eve 1944.

Lee vowed the night his father died that he would find the driver of that car. He began a search for evidence which eventually forced him to retire from the lumber business in 1947 and which cost him $100,000 before it ended.

During 100,000 miles of travel, Lee compiled a voluminous collection of evidence which resulted in Jones' indictment in the case last year.

Jones' first trial ended in a mistrial. The second trial began Monday.

Bigger Budget For Floods Is Sought

WASHINGTON (AP)— President Johnson, recalling recent floods in many parts of the nation including his home state of Texas, has asked Congress to nearly double the flood disaster budget.

He asked Wednesday that $5 million be added to the $7 million already in the budget for Johnson noted in a statement that Alaska, the Pacific Northwest, California, the upper Mississippi Valley, Colorado, Kansas, New Mexico and Texas have been hit.

Twenty-five persons were killed and extensive property damage was done last month when a flood swept through the small West Texas town of Sanderson.

BIRTHS

Mr. and Mrs. James Collins, 510 Thirty-fourth Street are parents of twins born July 14 at Cogdell Hospital. Baby boy was born at 5 p.m. weighing 6 lbs. 4¾ oz., baby girl born at 5:23 a.m. weighing 5 lbs. 4¾ oz.

Mr. and Mrs. Raymond Gonzales of Fluvanna are the parents of a baby boy born at 10:16 p.m. July 14 at Cogdell Hospital, weighing 6 lbs. 7½ oz.

TODAY'S MARKETS

CHICAGO (AP) — Butter unchanged. Eggs unchanged to 1 higher; A whites and mixed 31; mediums, 26½; standards 27.

New Law Allows School Spankings

SPRINGFIELD, Ill. (AP) — Gov. Otto Kerner signed into law Wednesday a bill permitting public school teachers to spank unruly pupils.

The goveror said the measure had the support of various teacher organizations, administrators and parents.

"This legislation was urged, not to allow teachers to beat children, but rather to provide a defense against harassment suits," Kerner said.

2 Americans Die In Cong Barrage

By EDWIN Q. WHITE

SAIGON, South Viet Nam (AP) — Viet Cong guerrillas killed two Americans and at least 20 South Vietnamese troops today in an hour-long barrage attack on a government command post 35 miles north of Saigon, eyewitnesses reported.

The guerrillas laid down their barrage with 81mm mortars and 57mm recoilless rifles on the Vietnamese unit engaged in a road clearing operation along Route 13 in an area controlled by the Viet Cong, informants at the scene said.

There was no ground assault and all contact apparently was broken off after the barrage ended.

A relief force was lifted into the area by helicopter several hours after the pre-dawn battle.

It found the bodies of the Vietnamese soldiers and the two Americans scattered around the command post at the edge of the tiny village of Bau Bang.

One wounded American also was found, and there were at least 20 wounded, witnesses said.

The wreckage of at least five armored personnel carriers that had been positioned around the command post lay strewn over the area.

Earlier reports said that the government force was hit by a battalion of guerrillas. A battalion usually numbers between 300 and 500 men.

Secretary of Defense Robert S. McNamara was en route from Washington to Saigon for a week-long inspection visit. It was learned in Washington that the trip would heave a bearing on a unanimous recommendation by the Joint Chiefs of Staff to boost the strength of U.S. forces in South Viet Nam to 179,000 by the end of the year, 104,000 more than the 75,000 now scheduled for Viet Nam.

"The situation is changing and as it changes we must change our plans," McNamara told a news conference Wednesday. He left Washington Wednesday night, accompanied by Henry Cabot Lodge, who is replacing Maxwell D. Taylor as U.S. ambassador in Saigon.

A Vietnamese navy landing craft was reported sunk by a mine Wednesday about 6 miles east of Saigon. A spokesman said a recovery operation had been started by government forces.

It also was reported that a third American had died as the result of an American mortar round that fell short among a U.S. Marine platoon about 10 miles north of Da Nang Wednesday. The military announced earlier that two Marines were killed and nine were wounded. Five of the wounded were reported still in serious condition.

U.S. planes continued to hammer targets in North Viet Nam today, and all reportedly made it back safely.

In the heaviest raid reported, 15 U.S. Air Force planes again attacked the Son La army barracks 125 miles west northwest of Hanoi. A spokesman said 36 tons of bombs were dropped and pilots said there was "a high degree of damage — the place has been reduced to rubble."

In the 24-hour period ending today, the U.S. Air Froce reported flying 102 strikes over South Viet Nam and claimed killing an estimated 65 Viet Cong guerrillas.

Injured Man Is Taken To Abilene

Stanley Cawley, 20, who lives at 922 Cedar Street, Abilene, was taken from Snyder to Hendrick Memorial Hospital in Abilene by Bolger Ambulance late Wednesday after he was injured in an oilfield accident.

He had been brought to Cogdell Memorial Hospital here by private car, and was transferred to the Abilene hospital after receiving out-patient treatment.

WOMEN

A COLLECTOR . . . Along with antiques for her apartment such as the four-poster Jean Baer rests upon here, the vivacious writer also collects friendships, male variety, during her travels. Unlike most females, she reveals some of her secrets to success in a recent book for women who travel alone.

Author Has Advice For The Single Girl

By JEAN SPRAIN WILSON
AP Newsfeatures Writer

NEW YORK (AP) — Gigolos who seasonally seek rich and lonely American ladies to pay their transportation to the Riviera may have slim pickings next season.

They may if these women encounter the forthright advice offered by Jean Baer in her suddenly successful book for the traveling single woman, "Follow Me."

Not for a minute would this vivacious young writer deny any adventurous female the companionship of a fake count with social contacts but without a franc in his white silk suit. No Victorian prude is she.

Miss Baer is a practical person who believes a woman should save on shipping costs by picking up a gigolo at her destination.

"They abound at Negresco in Nice, the Carlton in Cannes, and any other place frequented by rich widows and poodles," she says.

Yet as an inveterate traveler, she knows there is sure to be an insecure soul who, obsessed with the fear that the gigolo supply will run out before she gets hers, will pack off the first respectable looking one she finds to the fun and games coast along with her baggage.

In this case Miss Baer's advice is to "Hold onto the tickets. Gigolos have a way of disappearing in search of fairer game and turning in your tickets for cash."

Although she is not at all stuffy about gigolos, the petite brunette has not resorted to them (or them to resorts). She personally has been so resourceful in flushing out unpaid male companionship during 26 seperate global excursions that she is convinced any woman can do as well with a little training.

"You have to know what it is you're after, some interesting escorts away from home, or a Price Charming for living with happily ever after," explains Miss Baer who globe trots between chores as promotion director of a popular teen magazine.

A career girl, she has not really concentrated on the prince charming angle. However, among her memoirs of men abroad she has some fine specimens, such as a Spanish matador who presented her with a bull's ear, and 50 naked men who seranaded her on a very hot night in Samarkand "in the interest of bettering relationships between the Soviet Union and America."

Here are just a few of her man-snaring secrets for the American woman alone:

Go where the men like your type If your hips are too broad to be appreciated in France, hurry to Turkey (Miss Baer is suitably shaped for France.)

Stay sober. Foreign men think American women drink too much hard liquor. (Miss Baer drinks sparingly whatever is the native beverage.)

Bend a little Don't insist on the rules, routines or mores you have at home. (In leaving Yalta Miss Baer shared cabin accommodations with an 18-year-old boy because the intourist officer insisted.)

Forget about your birthday. Foreign men are not the youth worshippers that American men seem to be. (Attractive and in her mid-30s. Miss Baer doesn't worry about her age anywhere.)

Be available Eat breakfast in the hotel dining room (never your room), sit in the hotel lobby, take local trains, go to festivals, habitually visit the same cafes. (Baer-tested)

Make the most out of being a stranger. Ask for help with maps, languages, luggage, and money changing. (Baer-tested.)

Scheme a little. Don't go directly to the money - changing desk.

Take your time reading your mail until someone interesting appears. (Baer-tested.)

Above all, don't let a girlfriend talk you into coming along.

She who travels fastest and most productively travels alone, Miss Baer has found out.

Knickers Coming Back For Men

By JEAN SPRAIN WILSON
AP Fashion Writer

NEW YORK (AP) — Women's fashion personality Lilly Dache predicts that men will use makeup on their faces for the same reasons that women do — "to look better and feel better."

But the men's fashion show that demonstrated new fall styles to the visiting press did not go quite that far.

The program by the American Institute of Men's and Boy's Wear, sponsored by Du Pont, was a part of the New York couture group's week-long, semiannual style preview.

Miss Dache based her prediction Wednesday on the sudden growth of the men's cologne business and on men's slowly dissolving resistance to the use of hairpieces.

But the time is not here yet.

The virile gentlemen who jauntily strode the runway — some with pipes, and some with Jerry Lewis haircuts — indicated that the time is ripe, though, for at least these new wardrobe ideas:

— Knickers. Men are already wearing them on the golf course — they say — with wild socks and wild shirts and sweaters to match. Look for them on the ski slopes, made of corduroy and worn with a quilted parkas.

— Fur-lined overcoats. Lightweight, rainproof cottons, equipped with plenty of pockets for currency, passports and charge cards. They are three-quarter length and raccoon-lined.

— Chief petty officer's shirts. Once a favorite military surplus store purchase, authentic copies in Navy wool are expected to be prominent in sports shirts. With it the model wore stretch wheat-colored jeans, knee boots, and an Eisenhower hat.

— Buckskin shirts. Worn with matching socks — a must for fall — LBJ hats, and jeans, they are a part of the so-called Texas trend.

— Host costumes to complement hostess costumes. Not quite formal, these consist of shawl collar jackets, cuffed flannel slacks with a ribbon belt to match satin collars, open shirts filled in at the neck with knotted silk neckerchiefs instead of ascots, and black patent pumps.

UNION NEWS

By MRS. J. B. ADAMS

The following girls left Monday for the Baptist encampment at Stanton. Elaine McArthur, Cheryl and Louise Kerby, Peggy Pate and Thresa Minor. Sponsers were Mrs. Guy White and Mrs. May Kerby.

Mr. and Mrs. John Langford and Robert Langford spent Sunday night with Mr. and Mrs. Ernest Marquis of Lubbock where they met Mrs. Robert Langford and daughters, Barbara and Linda who had been visiting with her sister, Mrs. Charles Epperson and family in Vernal, Utah.

Mrs. S. D. Hays Sr. and Mrs. Billie Mitchell of Lamesa attended the funeral of Kenneth Shirley at Dora, N.M. Saturday. He was a nephew of Mrs. Hays.

Bro. Guy White and Mr. and Mrs. Julius Roemisch left Monday evening for Houston to be with Bro. Marvin Rogers as he underwent surgery Tuesday morning.

Mrs. Maudie Blakley and family of Snyder are to meet Sunday for a reunion at the community center. They invite all their friends to come by and visit with them as they formerly lived in this community.

Weekend visitors with Bro. and Mrs. Guy White were Bro. and Mrs. Jess Hart and children of Fort Worth, Bro. and Mrs. Clyde Morgan and children of Plainview, and Mr. and Mrs. N. A. Grona and children of Bloomfield, N.M.

Mr. and Mrs. Owen Dickie and family are vacationing this week at Six Flags and Arlington.

Rev. and Mrs. Marvin Roark and children are at Mt. Sequayah, Fayetteville, Ark. where he is taking training in the television and radio ministry.

Jabus Hall and Tug Rollins took the Royal Ambassadors of the Baptist Church on an outing Tuesday night on the Martin Parks ranch where they are to fish and swim. The boys going were Troy Lilly, Jim Hall, Mike Tindle, Mark Rollins, Guy and Danny White, Sidney Wall, David McArthur, Kip Layne and David Minton.

Mr. and Mrs. Royce Hogue of Irving spent the weekend with his parents, Mr. and Mrs. Howard Hogue. Rex and Jon returned home with their parents after spending several weeks with their grandparents.

Mr. and Mrs. W. R. Pate attended the funeral of his sister, Mrs. R. A. Thompson Friday at Blackwell. Others from here attending were Mr. and Mrs. Tommy Pate, Mr. and Mrs. J. B. Patterson, Mr. and Mrs. Dee Myers, Rev. Guy White and Mr. T. L. Lilly.

Mr. and Mrs. Howard Hogue visited Tuesday with Mr. Byron Wren in Colorado City. They were met there by their nieces, Mrs. Paul Schull of Clarendon and Rev. and Mrs. Bob Garson and boys, Bobby and Ronny of Fort Worth.

Rev. I. T. Huckabee will be preaching Sunday morning at the Union Methodist Church in the absence of the pastor. Rev. Hubert Bratcher, supt. of Big Spring district will be in the pulpit Sunday night.

Mr. and Mrs. L. G. Pate of Corono, N.M. spent the weekend with Mr. and Mrs. Bill Pate.

Fluvanna Jr. 4-H Club Meets

The Fluvanna Junior 4-H Club met Tuesday at the Fluvanna school.

Members present were Gina Beaver, Reneta and Danita Jordan, June and Gwen Stansell, Carla and Pamela Shoemaker and Rhonda Oliver.

Lou Alice Mathis gave a helpful demonstration on record books. The leader, Mrs. W. F. Mathis was not present due to foot surgery.

Co-leaders present were Mrs. Bob Jordan, Mrs. Bill Stansell and Mrs. Sam Shoemaker.

Beat-The-Heat

Serve meat salads, fruit or pudding fillings in easy-to-make tart shells. To prepare the shells, roll out rounds of pastry about six inches in diameter. Place each one over an inverted custard or muffin cup. Bake in a pre-heated oven at 475 degrees for 8 to 10 minutes. he pastry will shape around the cup during baking.

A cotton fiber is less than 1-2000 of an inch in diameter.

Cotton fabric hangings adorned King Solomon's temple.

DELIGHTFUL SALAD—Canned shrimp and pantry-shelf vegetables are combined with celery and apple to form a great combination. The shredded green tops of scallions outline the salad bowl for a "straw hat" effect.

New Style Shrimp Salad So Easy To Prepare

By CECILY BROWNSTONE
Associated Press Food Editor

HERE'S ONE of the best pantryshelf salads we've ever come upon. Surprising, delightful, easy to prepare!

When we encountered this recipe, the combination of ingredients struck us as unusual. Although the salad was highly recommended by a fine cook, we wondered whether our tasters really would give it a top rating. We needn't have wondered — the salad was immensely pleasing.

We call is pantryshelf - style because its three main ingredients — shrimp, cut green beans and whole - kernel corn — are canned and may be on hand in the kitchen. The refrigerator ingredients needed are easy to come by.

The cook who passed along this rule to us said the salad reminded her of a straw hat because the bowl into which the shrimp combination is placed is outlined with the long shredded green tops of scallions!

It's the shrimps that give this salad its main - course quality. Packed in small cans, this seafood is great to have on hand. You can always use the shrimps for a quickly made spread by mashing them with sweet butter and adding a suspicion of nutmeg. Or you can add them to a tomato sauce for fish fillets or baked fish; or to a cream sauce to serve over toast or in pastry shells or patties.

Special Shrimp Salad

2 cans (4½ ounces each) shrimp
1 can (about 1 pound) cut green beans, drained
1 can (12 ounces) whole kernel corn, drained
2 medium red apples
6 small green onions (scallions)
1 cup chopped celery
½ cup Vinaigratte Dressing
Lettuce

Have all ingredients chilled. Drain and rinse shrimp. Core unpeeled apples and cut into small fan shapes. Cut green tops from onions and slice lengthwise into thin long shreds; reserve. Coarsely chop the white bulbous parts of the onions. Mix together the shrimp, beans, corn, apple, chopped white part of onion and celery; toss with Vinaigrette Dressing. Place in a chilled bowl and garnish around the edge with the long shredded green onion tops so that they stand up. Serve on crips lettuce. Makes 6 servings.

Vinaigrette Dressing

1 teaspoon salt
1 teaspoon sugar
1 teaspoon dry mustard
¼ teaspoon paprika
½ teaspoon white pepper
1-3 cup cider vinegar
2 tablespoons water
Salad oil

In a glass measuring cup (for liquids), with a fork, beat together the salt, sugar, mustard, paprika, pepper, vinegar and water. Add enough salad oil to make 8 ounces (1 cup).

Rioters Are Disturbed, Says Dr.

By JOY MILLER
AP Women's Editor

NEW YORK (AP) — Teenagers who riot are in terror of the adult world which they feel inadequate to enter, says Dr. Rhoda Lorand, a psychotherapist who specializes in treating youngsters.

Boys who whooped it up at several summer resorts last weekend "were expressing lack of confidence in their own masculinity as well as hostility toward their parents and a need to discharge sexual excitement in this disturbed way," Dr. Lorand said in an interview.

The girls who went along with the rioting have the same hostile feelings, she said.

"The adult world seems dangerous to all these youngsters because they feel so inadequate to cope with its demands for achievement and self-control and sexual responsibility. In a large group they give each other support for acting out their childish fears.

"Approval of the group serves the same function that approval of the parents does for young children. If these youngsters had not felt hopelessly unable to please their parents, or too full of hostility to want to, they could have identified with them — assuming the parents are law-abiding and self-controlled individuals — instead of feeling in continuous revolt against them."

Many people, says Dr. Lorand, explain the riots as nothing but lack of discipline.

"But some young people who act the worst have been subjected to extremely harsh discipline — to harsh," she aid.

Only cotton has a natural twist and elasticity which gives it superior spinning qualities.

Knapp News

By MRS. VERNON TODD

The Knapp Baptist Church will hold its summer revival starting July 25th to August 1. Bro. Myron Crawford of Ira will fill the pulpit and his son Aaron will lead the song service. Everyone is cordially invited.

Mrs. Rusty Bennett of Gail and Mrs. Pete Parker of Lamesa visited Sunday afternoon with Mr. and Mrs. Lem Gresham.

Mrs. Bill Bowles and Mrs. Ben Weathers were in Plainview Sunday to take Mrs. Bowles grandson, Scott, to his parents, Mr. and Mrs. Leon Sharp.

Dr. and Mrs. H. S. von Roeder of San Antonio have been recent visitors in the Murphy and Sorrells home. They also attended the von Roeder reunion at the Musphy - Sorrells cabin at Lake Thomas.

Sunday visitors of Mrs. Frieda Murphy were Wayland, Verna and Carolyn Sanders of Lubbock and Mrs. Becky Sanders of Snyder.

Mr. and Mrs. Leon Lewis and Ceth of Plains and Mrs. P. A. Dugger of Lamesa visited Friday night in the Vernon Todd home.

Vernon and Verna Todd attended a barn dance birthday party for Bobbi Ludeike Friday night at the Ludieke home west of Gail.

Halley Browne and Joyce attended business and visited relatives in Seagraves and Odessa Monday and Tuesday. They brought Susie Cotton of Odessa home with them to visit for a few days.

Mr. and Mrs. Albert Taylor and family left Wednesday for a month vacation in Mississippi.

Janice Browne is visiting Mr. and Mrs. J. B. Cotton Jr. and Brad in Odessa this week.

Mr. and Mrs. Halley Browne, Joyce and Janice and Mr. and Mrs. Vernon Todd, Verna and Janice attended a reception Saturday in the Ludieke home near Gail honoring Dan Blocker, better known as Hoss, Cartwright on TV's Bonanza series.

Verna Todd visited Saturday and Sunday with Cindy Dykes at Gail.

Mr. and Mrs. Doyle Dickey of Ringling, Okla. visited Tuesday night and Wednesday with Mr. and Mrs. Maurice Duncan, Terry and Susan.

Bro. and Mrs. Harry Hames leave next week to take up duties as pastor of the church at Novice. Our sincere best wishes go with them.

Pedicure Pays Off

Well-groomed feet are a must for summer sandals. A pedicure will prepare feet for maximum exposure and pamper them at the same time. Follow these steps for feet you'll be proud to display.

It's easiest to begin in the bath because water softens skin and nails. Smooth rough skin with a cosmetic stone while you're in the tub. Out of the tub, dry feet thoroughly, including those often neglected spaces between the toes. Immediately smooth hand lotion or leg cream into your feet, including the soles.

Next, work on your toe nails much as you would your finger nails. Begin by spreading out several layers of paper towels to protect rug or floor from spilled polish. Then clip nails straight across. Smooth rough edges with a file or emery board, but do not shape toe nails. Shaping will risk ingrown nails or infections. Carefully push back your cuticle with an orange stick wrapped with cotton soaked in cuticle remover.

Before polishing toe nails, wind tissues in and around each toe to separate them. This will help keep polish from smudging: Use a base coat, two coats of polish and a top coat to assure a longer - lasting pedicure.

When the polish has dried, dust your feet with powder, and you're ready for the glamour and comfort of a summer - in-sandals.

A live fish never stops growing. Growth slows abruptly at sexual maturity, but the fish generally gets a little longer and a little thicker every year.

WOMEN'S CALENDAR

THURSDAY

Eastern Stars meet at 8 p.m. at Masonic hall. Hostesses, Ora Bonnie Smith, Annie Rhodes, Hazel Hanback, Hazel Buzwell and Mabel Covey.

FRIDAY

Duplicate bridge at Country Club, 9:30 a.m. Open. Masterpoint day.

SATURDAY

Country Cousins Square Dance Club will dance at the rodeo pavilion. Darrel Boen of Goldsmith will be calling starting at 8 p.m. Public invited.

SPORTS

Pub Links Is To Have Youth, Age

By H.L. SCHWARTZ III
Associated Press Writer

PITTSBURGH (AP) — Experience and local knowledge get tested today against youthful stamina in the third and quarter-final rounds of the 40th National Public Links Golf Championship.

Tournament medalist Stan Poploski, 43-year-old real estate man, and two other Pittsburgh area players who know every blade of grass on the hilly, 6,781-yard North Park golf course were among four survivors of the first two rounds of match play who are over 40.

The pairings today mixed them with 11 other players 31 or younger, most of them college students who have never played in a national tournament.

In the "old man" category along with Poploski were Andy Jacob 50-year-old government materials inspector from Pittsburgh; George Roney, 47-year-old truck driver from nearby McKees Rocks; and 40-year-old Hubert, Farmer of Wilmette, Ill., making his 13th appearance in a National Publinx tournament.

None of the old timers seemed bothered by the daily grind over North Park's rugged, sun-scorched hills. But some effect showed in younger players.

"It's worse than last year, that's sure," said 21-year-old defending champion Billy McDonald of Topeka, Kan., who only had to go 29 holes Wednesday to eliminate Dick Hardcastle of Warson Woods, Mo., 4 and 3, and Bob Petersen, 23-year-old student from Minneapolis, 5 and 4.

Poploski meets 24-year-old Leo Zampedro, Warren, Ohio, fireman who carded a 33 going out Wednesday afternoon for the tournament's best nine, in today's third round.

Jacob goes against Rafus Grier, a youngster from Dayton, Ohio; Roney meets 31-year-old Les Wimp, an Air Force veteran from Tempe, Ariz., and Farmer is paired with Arne Dokka, 21-year-old senior at California State in Los Angeles.

McDonald meets Jim Schroder, a 19-year-old student from San Francisco.

Matson To Sit Out Wichita's Meet

HOUSTON (AP) — Randy Matson, world champion shot putter, says the NCAA definitely has ruled against his competing in the AAU-sanctioned Wichita (Kan.) Track and Field Meet July 24.

He had hoped the NCAA would make an exception in his case, the athlete said Wednesday, because he needed the practice before joining the United States team which will vie with a Russian squad July 31-Aug. 1.

Texas A&M President Earl Rudder contacted NCAA officials on Matson's behalf. The collegiate governing body said it would be a violation of the rules.

Matson said he had decided against an exhibition in St. Louis next Saturday "because the schedule wouldn't be the best for me."

TL To Battle Astros For Fourth Win

ARLINGTON, Tex. (AP) — Herb Hippauf, ace southpaw of the Austin Braves, and Connie Dierker, who has won three straight for the Houston Astros, will be the starting pitchers tonight when the Texas Leaguers seek to make it four straight in their all-star game.

A crowd of more than 10,000 is expected in Turnpike Stadium for the game starting at 7:30 p.m.

Hippauf, with an 8-5 record, drew the starting role from manager Vern Rapp of the Tulsa Oilers, who got the assignment when Tulsa led the league in percentage through Wednesday night.

Manager Lum Harris of the Astros picked the 19-year-old Dierker, whose last appearance was a 6-2 victory over the New York Mets. Harris said he expected the 6-foot-4 rookie to get him on the way to victory over the Texas Leaguers.

It is something of a sore spot with the Astros manager that Houston's National League club has lost all three of its previous games with the Texas Leaguers.

The starting lineup for the all-stars has Dave Pavlesic of Tulsa catching, Clarence Jones of Albuquerque at first, Winston Llenas of El Paso at second, Bobby Pena of Dallas-Fort Wort at shortstop, Mike Sinnerud of Austin at third, and Chuck Dees of El Paso, Walt Williams of Tulsa and Leo Posada of Amarillo in the outfield.

College All-Stars To Play Browns

CHICAGO (AP) — A squad of 49 College All-Stars opened camp today in preparation for their Aug. 6 football game against the National Football League champion Cleveland Browns.

The collegians will live in a downtown Evanston hotel and work out daily on the Northwestern University practice field, also in the Chicago suburb.

The squad originally numbered 51 college players, selected by Head Coach Otto Graham, who takes on his eighth assignment in the summer football classic's 32-year history. Two of the 51 could not take part in the game. Carl Stichweh of West Point had previously arranged for Army duty, and Remi Prudhomme of Louisiana State underwent surgery for an ankle injury.

Campbell Uses Six Cigars To Take Lead

TORONTO (AP) — Maybe Joe Campbell, a 29-year-old cigar smoking pro from Perdido Bay, Fla., has found the formula to change his golf luck. It is to arrive at midnight and go out in the morning to play an unknown course with the aid of caddy and notes from a friend.

The method worked Wednesday as Campbell, who hasn't won a PGA tourney since 1962, fashioned a [illegible] under par 68 for the first round lead in the $100,000 Canadian Open Golf Champ[illegible]. He went through six cigars and just 29 putts on his way to a 34 on the front nine and a 32 coming back on the par 35-35 6,820-yard Mississauga Club course.

Campbell said the turning point in his round was the 12-foot birdie he sank on the 11th green. He finished one stroke ahead of Mason Rudolph of Clarkesville, Tenn., who missed a tie by taking a bogey on the last hole for his 67.

Golfdom's big names were the low 70 and ties today for the strung-out behind Campbell in a field of 144 that will be cut to final two rounds in the 72-hole tourney that ends Saturday.

Jack Nicklaus, the Masters champ from Columbus, Ohio, had a 69 along with Kel Nagle, the defending champion from Australia. Arnold Palmer of Latrobe, Pa., and Tony Lema of San Leandro, Calif., each shot a par 70. Gary Player of South Africa, who won the U.S. Open in June, took a four-over-par 74.

Fred McFarren of Cleburne, Tex., will captain Army's 1966 golf team.

SPORTS

Cubs Rate Zany Triple Play

CHICAGO (AP) — By their very nature, triple plays in modern major league baseball are rare.

The Chicago Cubs pulled one against the Milwaukee Braves Wednesday and it was only the third of the major league baseball season.

This play, however, may rank among the tops for zany base running and fielding.

The Cubs had defeated the Braves 5-2 in the opener of their twin bill for their fourth straight victory, their longest string of successes this season. While not a prodigious feat, it served to add a line to local record books for the eighth-place Chicagoans and they looked expectantly toward their fifth straight in the second game.

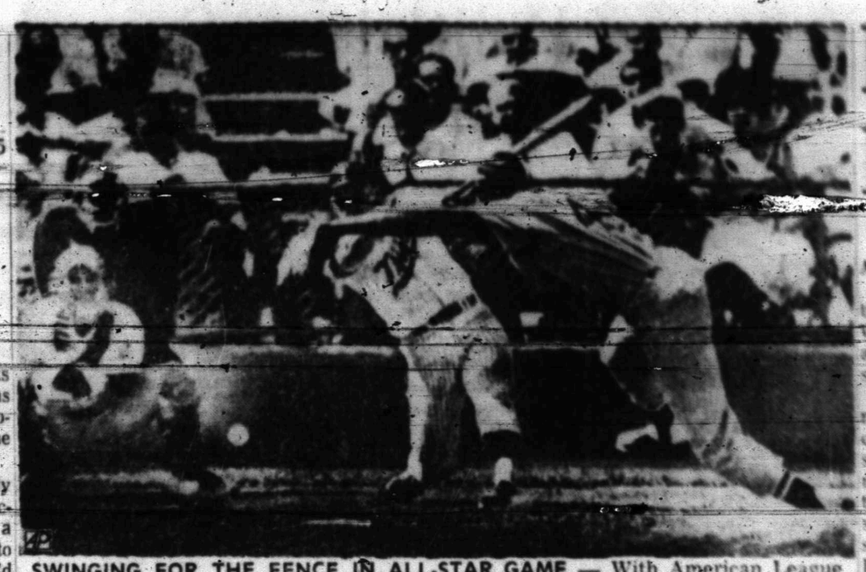

The Braves, however, quickly put across two runs in the second inning of the nightcap on a walk off Cub pitcher Bill Faul to Gene Oliver, and singles by Ed Mathews, Rico Carty and Mack Jones.

Carty was on third and Jones on first when Woody Woodward, Braves' shortstop, lifted a foul back of home plate which Cub catcher Ed Bailey gloved at the screen. Both runners tagged up, then started off — Carty for home, and Jones for Second.

Bailey, back of home plate, threw to second and Jones turned back to first base, but Carty continued toward home. Bailey's throw was cut off by Cub shortstop Don Kessinger, who fired the ball to Faul, protecting home plate, to catch Carty with plenty of time.

Jones, seeing the throw to home, again reversed himself and started toward second. Faul threw a perfect strike to second baseman Glenn Beckert, catching Jones. End triple play: Bailey to Kessinger to Faul to Beckert.

This was the biggest thrill of the day for the crowd of slightly more than 20,000, unless you want to add a couple of fine outfield catches and two home runs by Oliver, who batted in four runs in the second game and was the Braves' big gun in their 6-3 victory over the Cubs.

SWINGING FOR THE FENCE IN ALL-STAR GAME — With American League needing run to tie in 9th, Harm Killebrew gets only piece of ball at Minneapolis-St. Paul, Minn., All-Star game. In view from center field, Nationals have pitcher Bob Gibson coming off mound and catcher Joe Torre ready. Ump is John Stevens, Killebrew struck out. Nationals won, 6-5. (AP Wirephoto)

Lead Changes Again In Texas League

By The Associated Press

Tulsa surged to the top in the change-about contest for the eastern division lead in the Texas League again Wednesday night.

Tulsa defeated Austin 6-4 while El Paso smashed Dallas-Fort Worth 9-1. The loss dropped Dallas-Fort Worth half game behind Tulsa.

Albuquerque slipped past Amarillo 3-2.

Pitcher Tom Hilgendorf, called in to quell an Austin rally in the sixth, allowed only two hits and one unearned run in six innings.

Tulsa's Oilers trailed until they tied the score 3-3 in the sixth. They scored the winning runs in the seventh on a double by Jimmy Harris, a triple by Ernie Foli and a sacrifice.

Albuquerque tallied all its runs in the first two innings and held on to survive a ninth inning Amarillo uprising.

Winning pitcher Dale Williams gave up four hits in seven innings and Kenny Page, who relieved in the eighth, yielded only one hit and an unearned run.

It was a rough night on Dallas-Fort Worth pitchers as the El Paso Sun Kings collected 13 hits. Pete Gongola added to their misery by driving seven runs on two homers. Charlie Dees also hit a home run for El Paso.

Sun Kings pitcher John Shipley hurled a three-hitter as El Paso snapped an eight-game losing streak.

They take time out from the regular campaign tonight while the Texas League all-stars play the Houston Astros of the National League at Dallas-Fort Worth.

Jamison's Comeback May Have Misfired

HOUSTON (AP) — Houston Oilers tackle Al Jamison's plans for a comeback have misfired.

Jamison, a former all-American Football League choice and Oilers captain, was forced to retire two years ago because of a back injury.

He was feeling fine and had hoped to sign a contract with the Oilers this season, he said, but a doctor advised him Wednesday not to play.

Jamison underwent a spinal fusion at the end of the 1962 season. He has appeared on Oilers radio broadcasts the past two years.

Favorites In Tennis Move

CHICAGO (AP) — Julie Heldman of New York City and Mike Belkin of Miami Beach, Fla., are a couple of college students trying to catch up on their homework at the National Clay Court Tennis Championships.

The homework involves their preparation for next month's Maccabiah Games in Tel Aviv, Israel.

They've had passing grades so far in the clay court matches with each advancing to the quarter-final round.

Miss Heldman, ranked seventh nationally, squares off against young Becky Vest Thursday in one of two women's quarter-final matches. The other two quarter-final rounds will be played Friday.

Belkin, who scored the first major breakthrough in the men's division Wednesday, has to wait until Friday before taking on tough Arthur Ashe Jr., of Richmond, Va.

Belkin, a 19-year-old sophomore at Miami University, showed Davis Cupper Marty Riessen of Evanston, Ill., a rugged two-handed backhand attack Wednesday that left Riessen shattered and bewildered. Mike triumphed, 6-1, 6-2, thanks to the work he put forth on his backhand.

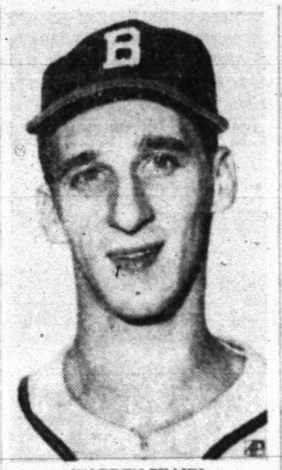

The other quarter-final matches pit second seeded Carole Graebner against Rosemary Casals in the women's field, and Frank Froehling against Ham Richardson and top-seeded Dennis Ralston against Clark Graebner in the men's division.

Warren Spahn Is Looking For Pitching Employment?

NEW YORK (AP) — Warren Spahn was looking for a job today after 74-year-old Casey Stengel decided the 44-year-old left-hander was taking up valuable space in the New York Mets' youth movement.

Spahn, who came to the Mets last November after starring for 20 years with the Braves first in Boston and later in Milwaukee, had lost eight straight and was 4-12 with a 4.43 earned run average when the Mets asked waivers on him Wednesday.

"I know I can still help a big league club," Spahn said Wednesday night. "Physically I feel fine and my arm feels strong. I'll take an oath on it. There isn't any reason why I can't pitch creditably for any club in the big leagues."

WARREN SPAHN

Stengel, who will be 75 next week, told Spahn several days ago that he no longer would be considered a regular starting pitcher. "We want to give the younger men on our roster an opportunity in the youth development program," Stengel said.

Spahn, who has won 360 games and is tied for sixth place on the all-time list with Kid Nichols, offered to become a relief pitcher. "I'm willing to go to the bullpen," he told Stengel. "I feel I can work my way back to starting." But the offer was rejected.

Spahn, who doubled as pitching coach, received $73,500 for his dual role. The Mets first placed his name on the regular waiver list where a claim would cost $20,000. When there were no takers, at that price, he was put up for a nominal $1 fee, for the purpose of giving him his unconditional release. That makes him free to make a deal for himself.

"This was not a move born of economy," Met General Manager George Weiss said. "We purchased him from Milwaukee knowing his salary. We thought he would help our club."

Spahn did help for awhile. He won two of his first three starts, beating Los Angeles and San Francisco. Then he lost a 1-0 game to Philadelphia when opposing pitcher Jim Bunning hit a home run for the only run of the game. The Dodgers beat him twice by 2-1 scores, once behind Sandy Koufax and once with Don Drysdale.

The veteran hurler's last victory came against Philadelphia May 24 but he has dropped eight of 10 starts since then.

Clarke Smashes Two More World Records

OSLO (AP) — Ron Clarke's brother had a unique birthday gift today after the Australian track star smashed two more world records in the opening day of a two-day international meet here.

Clarke became the first runner to crack the 28-minute barrier for 10,000 meters Wednesday and wiped out pending world marks for that distance, about 6½ miles — and six miles in a fantastic race.

The ussie star clocked an amazing 26:47 for six miles and 27:39.4 for the 10,000 over the fast Bislot Stadium track. That knocked a whopping 24.6 seconds off the pending mark for six miles and 34.6 seconds off the pending time for 10,00.

"I told you beforehand that I would set a new world record didn't I?" Clarke said to newsmen after the spectacular race.

He called the two records "a birthday present for my football playing brother Jack, who is in Melbourne."

Clarke, who only last week had cracked the 13-minute barrier for three miles with a 12:52.4, raced against Jim Hogan of Ireland and Claus Boersen of Denmark but it was the Aussie show all the way.

Jeff Voss Scores Startling Upset

KANSAS CITY, Mo. (AP) — Jeff Voss of Dallas scored a startling upset Wednesday in the 62nd Trans-Mississippi Amateur Golf Tournament with a 19-hole, one-up win over NCAA national champion Marty Fleckman of Houston.

The 21-year-old Voss, a North Texas State student, battled back from two down on the 10th hole to come up even on the 17th and then halved with Fleckman on the 18th. Voss then took the match with a birdie on the first playoff hole.

Four other Texans also posted wins in the first round of the amateur tournament.

Herbert Durham of Dallas, a former champion of this tournament, scored a one-up win over Grier Jones of Wichita, Kan. Dave Eichelberger of Waco, Terry Jastrow of Midland and Rich Massengale of Jacksboro ere the other Texans who won.

Eagles To Play Tye

Snyder's Eagles will play Tye at 8 p.m. today in Winston Park.

It will be the first meeting of the two clubs this year. Buford Thompson is expected to be on the mound for the Eagles.

Greenbaum Is In Amateur Golf Lead

PINEHURST, N. C. (AP) — Johnny Leach of Houston tied with nine other golfers for second place Wednesday at the end of the first round of the 59th Southern Amateur Golf Association championships here.

Leach had a 71 and was two strokes behind the leader, Jerry Greenbaum of Atlanta, Ga.

Eddie Fisher Having Fine Winning Season

By DICK COUCH
Associated Press Sports Writer

Eddie Fisher, whose throwball has been keeping Chicago White Sox afloat in a sizzling pennant race, reached the midpoint of what could be the first 20-victory season for a mastarter Wednesday night as the White Sox passed the halfway mark in their season with a 12-10, 12-inning decision over the sagging Cleveland Indians.

Fisher gave up a game-tying ninth-inning homer pinch hitter to Fred Whitfield, the first man he faced before earning his 10th victory with three strong innings.

The knuckleball specialist, who tied 10-game winners Whitey Ford of New York and Hank Aguirre of Detroit for the American League lead and moved within six of Dick Radatz league record for relief victories in one year.

Radatz, the Boston Red Sox fireman, won 16 games, all in relief, last season. Pittsburgh's El Roy Face set the major league mark in 1959 when he won 18 of 19 relief decisions.

The White Sox, outhomered 3-2 in the marathon slugfest at Cleveland, scored three unearned runs in the 12th after an error by shortstop Dick Howser and handed the Indians their sixth straight setback.

In the only other action in the majors, Chicago and Milwaukee divided a National League doubleheader, the Braves winning the second game 6-3 despite a Chicago triple play after the Cubs had taken the opener 5-2.

Fisher, who has appeared in 46 of his club's 82 games and won one more game than the White Sox starters have finished, yielded a second run in the 12th after Chicago's decisive rally. The two runs off Fisher, who has lost three, ballooned his earned run average to 1.38.

Don Buford, who reached second base when Howser dropped his pop fly with one out in the 12th, scored the go-ahead run on a two-out double by reserve catcher Jim Schaffer. Al Weis then singled across two more runs.

Smoky Burgess' 105th career pinch hit, a two-run single in the White Sox' three-run ninth, left him two short of the all-time pinch hit record held by Red Fischer's five-hit pitching pulled Braves from behind.

Mack Jones and Rico Carty were on first and third, respectively, when Ed Bailey grabbed Woody Woodward's foul pop, second and Bailey fired to shortstop Don Kessinger, whose return throw to pitcher Bill Faul, covering the plate, retired Carty. Jones, breaking for second again, was out, Faul to second baseman Glenn Beckert.

Chicago runs in the opener and Bob Buhl picked up his ninth victory with late-inning help from Ted Abernathy, who matched Fisher with his 46th relief appearance.

Coaching School To Open In Abilene

ABILENE, Tex. (AP) — From 300 to 500 coaches are expected to attend a football coaching school here on July 22-24.

Texas Tech coach J. T. King is heading the faculty staff and other lecturers include Les Wheeler, Abilene Christian College, Grant Teaff, McMurry; Pat Patterson, Amarillo Tascosa High School, and Merrill Green, Abilene Cooper High School.

Enjoy America's best tasting pipe tobacco in a filter cigarette!

Great new taste, rich aroma . . . pipe tobacco does it.

Dressing Room Report Hard For Miss Garber

By MARGARET WILSON
Associated Press Writer

WINSTON-SALEM, N.C. (AP) — The lady is a veteran sportswriter with a key to most any door in the sports world — except the dressing room interview.

"That's still my No. 1 problem," Mary Garber admitted.

"But I send a boy in to get the coach or athlete I want to interview, and the coaches are very nice about it."

Wake Forest basketball Coach Bones McKinney usually holds his postgame news conference outside the dressing room — for Miss Mary.

The Mary Garber byline on sports stories — including football and basketball games — has been familiar to readers of the Winston-Salem Journal and Sentinel for 20 years.

She became a sports writer "by default" during World War II when most male writers were in the armed services.

"They had to have someone, and I've just stayed at it," she said.

When she was a child, Miss Garber played "all the little girl sports" and admittedly was a tomboy.

"I guess I'm just a frustrated athlete," she added.

Entrance to some press boxes was restricted to men when Miss Garber first started reporting sports events. But all that is changed in the Winston-Salem area now, and she is a member of the Atlantic Coast Conference Sportswriters Association.

"Some coaches and athletes were flabbergasted at first at a woman sportswriter," she recalled. "But if you're businesslike and do your job, it will work out."

But even coaches think a woman should at least be able to do women's work.

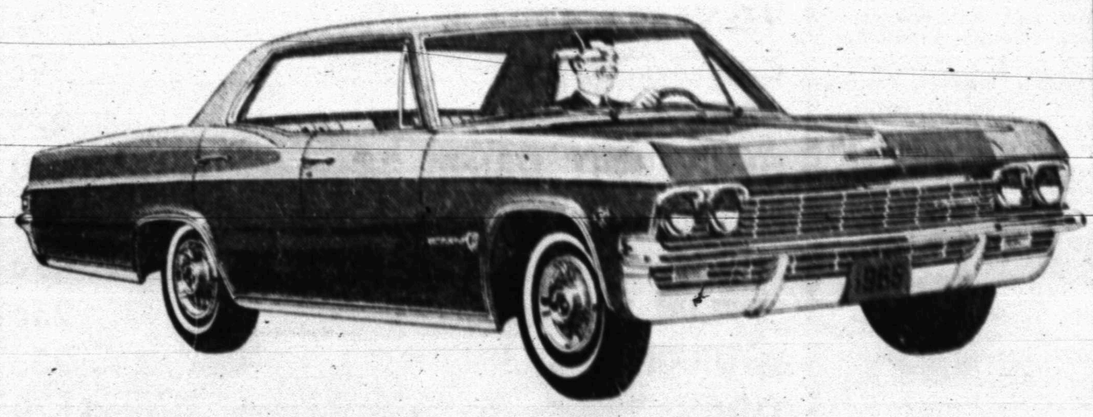

Miss Garber remembers being asked by a coach to sew up the pants of a high school basketball player.

"I never was very good with a needle, but they stayed up for the game," she said.

First Medicare Issue Resolved

WASHINGTON (AP) — Senate-House conferees, settling one big difference over the new Social Security-health care measure, have agreed on a 60-day hospitalization plan for the elderly.

The agreement came Wednesday at the first conference session to iron out variations of bills passed to set up the $7.5 billion program.

The basic health plan of the House version provided 60 days hospitalization for each spell of illness, with the patient paying the first $40 of the hospital bill.

The Senate changed this to provide unlimited hospitalization with the patient paying $10 a day toward the cost after the first 60 days. It retained the House plan for the first 60 days.

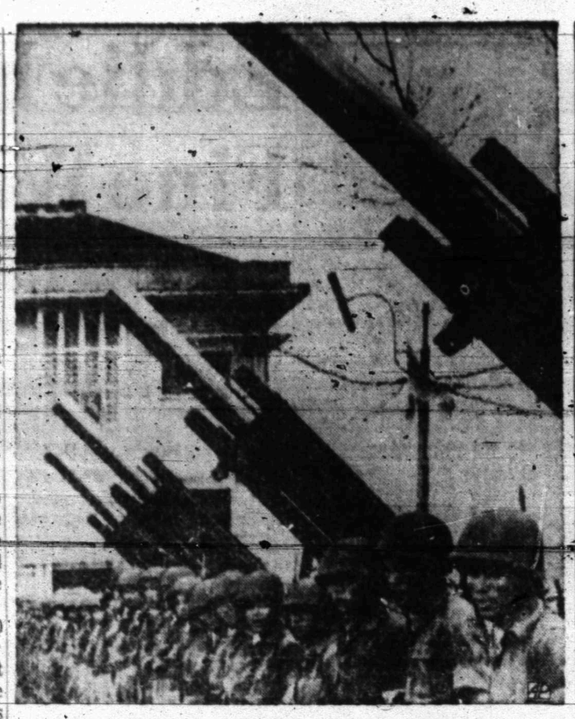

The conferees drew a compromise which keeps the first 60 days with a $40 deductible and adds 30 days with the $10-a-day payment.

This, sponsors of the bill said, will cover over 95 per cent of hospital costs for elderly persons. The basic health plan, tied in with Social Security, will be available to the 19 million persons 65 or older.

The conferees accepted two other provisions in the Senate bill dealing with nursing home care after a hospital stay and the number of authorized home health visits.

The first provision allows 100 days of nursing home care with the patient paying $5 of the cost of each day after 20. The House would have provided as few as 20 nursing home days.

The other Senate provision accepted by the conference authorizes 175 home health visits, compared with 100 in the House version. But the conference kept a House requirement that these visits be authorized only after a three-day hospital stay.

ARMS AND THE MEN—Barrels of 150mm howitzers dwarf the troops that man the heavy artillery as they stand in ranks during change of command ceremony in Saigon. Scene was at South Vietnamese military headquarters as Brig. Gen. Nguyen Huu Co, Vietnamese defense minister took over from Lt. Gen Tran Van Minh as chief of armed forces general staff. Politicians Speculate On Successor For Stevenson

By JACK BELL

WASHINGTON (AP) — Politicians speculated today that President Johnson may want to choose an American with world standing to succeed Adlai E. Stevenson as chief of the U.S. delegation to the United Nations.

Administration officials said that so far no consideration has been given to naming a successor for Stevenson, who died Wednesday in London. But it was expected that Johnson might wish to fill the position soon after the ambassador's funeral because of the pressure of coming events at the United Nations.

Francis T. P. Plimpton, No. 2 man in the U.S. delegation, will take over Stevenson's duties temporarily until a successor is named.

Johnson's comparison Wednesday of Stevenson with Lincoln in his accomplishments was interpreted as indicating the President looks upon the U.N. assignment as one of the most important in shaping world opinion.

Although the field of possible successors is wide, the number of Americans who might rank with Stevenson in world recognition is not too big.

For this reason there was some speculation that the President might want Secretary of State Dean Rusk to transfer to the U.N. post.

Undersecretary of State George W. Ball is another who has had wide contact with top ranking diplomats and heads of other states, as has ambassador at large Llewellyn E. Thompson Jr.

Some talk centered on Ralph Bunche who has long represented this country in U.N. posts and is one of the first Negroes to rise to such high rank in U.S. diplomacy. At present he is undersecretary of the U.N.

Those who thought the President would be likely to pick a knowledgeable diplomat who was a close peronal friend mentioned the name of Thomas C. Mann, Latin-American expert who is undersecretary of state for economic affairs.

Many members of Congress doubt that Johnson will choose one of his close unofficial advisers for the U.N. job. Attorneys Abe Fortas, Clark Clifford and Dean Acheson already have turned down official positions within the administration. Acheson is a former secretary of state.

Neither do the legislators believe that Johnson would want to lose McGeorge Bundy, his special assistant for national security affairs, from the White House inner circle.

New Bid For Estes Slated

EL PASO (AP)—Another bid to win a new trial for former West Texas promoter Billie Sol Estes awaits a ruling by U.S. Dist. Judge Leo Brewster in Fort Worth.

John Cofer, Estes' lawyer, filed the motion Monday. It asks that Estes' 15-year prison term be vacated and that the government produce Estes for a new trial.

Estes, convicted in 1963 of mail fraud, began serving the sentence Feb. 16 after the Supreme Court denied an appeal.

Cofer alleged that a government witness, Helbert Kreeger of Chicago, gave false testimony in Estes' trial.

Kreeger testified at the trial in El Paso that he was unaware fertilizer tanks offered as security for mortgages did not exist.

There are 18,000 key structural parts and more than 500,000 individual components in a modern jet aircraft.

Beef Prices Still Rising

DALLAS (AP)—Cattle prices have been rising despite continued high output the past three months, the Federal Reserve Bank of Dallas reports.

Its monthly business review issued Wednesday said choice grade slaughter steers sold for about $28 per hundredweight at Chicago in June, $7 per hundredweight higher than the low point in May of 1964.

Choice feeders at Kansas City averaged about $3 per hundredweight above prices during the first quarter of 1965.

The review said the prices were bolstered by reduced production during the first quarter of 1965, greater national income and more consumption.

Average beef consumption creased six pounds per person last year to a total of 100 pounds. The bank predicted a further increase this year.

A drop in supplies of highly finished beef early this year increased the price spread between higher grades of slaughter cattle and feeder replacements.

Recent strength in beef prices has been aided also by a 12 per cent decline in supplies of other red meat in the first quarter of 1965, the bank said.

The review said, however, that the increase in beef supplies which has been developing for several years should prevent over-optimism regarding prices.

City Plans Whale Of A Reception

SEATTLE, Wash. (AP) — Namu the whale probably couldn't care less but this city of over half a million is preparing the best civic reception a whale ever had.

Fireboats are out, though. It isn't that the whale experts are afraid Namu might suffer an inferiority complex from trying to compete with the man-made spouters or blow a gasket in the attempt. Those wise in the ways of whales say they are afraid the sound of the fireboat whistles, pumps and the roar of the water might upset the four-ton mammal.

Greater Seattle Inc., city booster organization, announced Wednesday some of the plans it has for the reception: Top hats, morning coats and striped pants. A string ensemble. Lt. Gov. John A. Cherberg to assist in presenting Namu with a lei of salmon.

Ivar Haglund, waterfront restaurateur who never hesitates to sing the praises of the waterfront, said the greeting by Acting Mayor Clarence Massart will be recorded in advance and converted into squeaky noises similar to those made by whales.

The most indefinite part of the reception is the time and the number of whales to be greeted. It is tentatively scheduled for next Friday afternoon or Saturday morning.

At last reports, Namu, caught in a gillnet at Namu, B.C., and sold to the Seattle Marine Aquarium, was being accompanied on his tow here by a cow and two calves. Experts insist they are his wife and offspring. Namu, being towed here in a floating corral, was reported happy to have the family along. He rolled and spouted playfully Wednesday as the convoy moved through the calm waters off Johnstone Strait which separates Vancouver Island from the British Columbia mainland.

Map Strategy For Sheppard

CLEVELAND, Ohio (AP) — "Staying out of prison is the main thing right now," says Sam Sheppard as his attorneys map their legal strategy to keep him free.

The ex-osteopath said Wednesday night in an interview he was just happy that he could be with his wife, Ariane, so they can celebrate some anniversaries the next few days.

"It was just another blow," Sheppard said of a federal court order in Cincinnati Wednesday denying him a rehearing on an order returning him to prison.

Sheppard, 42, returned from marketing to learn of the latest court action from his wife, who was waiting at the door of their two-story brick row house in suburban Rocky River.

"I was concerned and naturally upset," said Sheppard.

Last July 16 he was released on bond from Ohio Penitentiary, where he was serving sentence for the bludgeon slaying of his first wife, Marilyn, at their home in suburban Bay Village July 4, 1954.

Two days later he married the former Ariane Tebbenjohanns, a 36-year-old German-born divorcee, in Chicago.

Beauties To Compete For Miss Universe

MIAMI, Fla. (AP)—Beauties from all over the world are pouring into Miami for the Miss Universe contest.

Three more planeloads with about 45 of the 75 contestants were due today.

Formal competition begins next week, and Miss Universe is crowned July 24.

Appointment Due

DALLAS (AP)— The Dallas News said today that Eugene Locke of Dallas, former chairman of the State Democratic Executive Committee, is expected to be named chief counsel of the Interior Department's Oil and Gas Division or to an ambassadorship.

FARM

Continued From Page 1

ment; (2) require at least a 15 per cent reduction from farm acrage allotment for participation in the program; (3) permit any producer to stay out of the program and plant and sell without penalty at the market price and unlimited amount of cotton; (4) provide loans to cooperators at 90 per cent of the estimated average world market price (for 1966—21 cents a pound), available on the actual production of cooperators; (5) Payments will be made to cooperators on the projected yield of acreage within the domestic allotment actually planted, such payments to include the 1966 price support and payment for retired acreage at the rate of 50 per cent of the loan based on the projected yield of acreage allotment and having the option of retiring an additional 20 per cent of his total allotment; (6) allotted cotton acreage released by a farmer not wanting to plant cotton in a given year could not be reapportioned to other farmers outside the county, and farmers receiving reapportioned acreage would not be eligible for land retirement payments, although remaining eligible for price support loans and payments.

The committee turned down an administration proposal for voluntary allotment acreage lease or sale between farmers for numerous crops under various programs. The authority for lease or sale under the cotton provision was retained.

Buried cable:

$10,000,000 in new life insurance for your telephone this year

Put telephone wires underground and you've put them in a safe place. Safe from wind, rain, hot weather, cold weather, stormy weather. Safer from the slow death of ordinary weathering. Safer from man-caused damage, too. All around safer from the kinds of trouble which most often affect the talkability, hearability and dependability of your phone service.

That's why this year Southwestern Bell is spending $10 million burying hundreds of additional miles of telephone cable underground. In effect, buying life insurance for your telephone service.

There's another tangible benefit, too. Because of this buried cable construction program, new jobs will be created. Some in the telephone business (which already has 52,179 persons on the payroll), but most important, an estimated 500 new jobs among the hundreds of firms which sell supplies, services and materials to the telephone company.

This is a 1965 communications bonus from Southwestern Bell. Part of a massive construction effort (our biggest ever) to make the world's best telephone service *even more* useful, dependable, convenient and valuable seven days a week, good weather and bad.

Southwestern Bell

1965: Your Bonus Year for Telephone Service

New Style Is Set For Future Coins

By EDMOND LEBRETON

WASHINGTON (AP) — It's settled now. Future half dollars will look like the present ones, but will contain less silver. Dimes and quarters will have no silver and their copper cores will show in a red line around the rim.

The House made this decision Wednesday after some wild switching of votes. Its bill, passed 225 to 151, matches basic provisions of legislation already passed by the Senate. A Senate-House Conference will handle minor differences in the bills, but the essentials will remain.

The fireworks came on an amendment to keep some silver in the dime and quarter.

First the House followed the lead of a hard-driving bloc of representatives — many from silver producing states — and overrode the recommendation of its Banking Committee by voting to keep silver in the half dollar.

This was in accordance with President Johnson's recommendation and Senate action. The committee, however, had voted to make the 50- cent piece a sandwich of pure copper faced with cupro-nickel, like the quarter and dime.

The first effort to make quarters and dimes part silver — but reduce the content from 90 to 40 per cent as in the half dollar — failed on a 106-92 standing vote. Then a teller vote was demanded, and when the members walked down the aisle to be counted, it brought a reversal, 122 to 112. Later, on a roll call, the House switched again, 218 to 187, for the copper-nickel smaller coins.

The legislation contains several provisions designed to discourage hoarding, collecting and speculation. Individual mint marks are eliminated and dates continued indefinitely, among other things.

The House bill contains a specific five-year prohibition against minting of silver dollars.

The Treasury has said it does not intend to mint any dollars at least until a new commission on coinage reviews the situation. No silver dollars have been minted in more than 30 years.

Airman Is Calm During Long Fall

By FRED COOPER

EGLIN AIR FORCE BASE, Fla. (AP) — "I didn't have time to be scared."

This was Airman Andre Guillet's comment today concerning his July 2 parachute jump from 3,000 feet when his main 'chute failed to open.

The air commando said he "was too busy going through emergency procedures" to worry much about the landing it-self.

Part of the emergency procedures involved opening a reserve paracute. But this 'chute, like its larger counterpart, did not function properly. It did, however, open partially and provided Guillet with a small canopy for his trip down.

Asked in an interview what he thought about as he tumbled through space, he replied: "I remembered other people who had been in the same situation saying that the landing was hard but not especially painful.

"I figured I'd land hard, too. No, I wasn't worried about being hurt. I didn't even think about that."

Guillet did land hard enough, though, to suffer a compression fracture. He said the fracture, a chipped vertebra, was caused by his pitching forward when he hit the ground.

An early hospital report said Guillet was bruised and shaken but apparently not seriously hurt. A more thorough examination, however, revealed the fracture.

A spokesman at Hurlburt Field, an auxiliary of Eglin where Guillet is stationed, termed his landing "near perfect."

He was hospitalized immediately. Doctors said he probably will be released some time next week.

Low Flights Planned

CORPUS CHRISTI (AP)—Jet fighters from Texas bases will conduct low altitude subsonic flights just offshore from Port Aransas to Matagorda Beach through Aug. 30, the Naval Air Station said Wednesday.

THREE EASY WAYS TO WIN MONEY IN SAFEWAY'S TEXAS MONEY GAME

Rules

One free card per store visit. No purchase required. No need to pass through checkstand. Safeway employees and their immediate families are not eligible. You must be 16 or over to receive Texas Money.

Win Up To $1313.00 Cash!

1. Texas Money Bills

Save and Win $12 to $1313. Save your TEXAS MONEY and Exchange it for cash when you have the exact amounts. No More — No Less, as listed below:

Texas Money		Real Hard Cash
$ 12.00	receives	$ 12.00
$ 34.00	receives	$ 34.00
$ 46.00	receives	$ 46.00
$ 58.00	receives	$ 58.00

DOESN'T THIS TELL HIM SOMETHING?

Aerial Cowboy Tactics Used To Round Up The Viet Cong

By HAL BOYLE

DA NANG, South Viet Nam (AP) — Lt. Col. George F. Bauman in nearly 5,000 hours aloft in three wars had never served as an aerial cowboy before.

But along the South Vietnamese battlefront the one thing you can expect is the unexpected.

"You have to be ready to try anything," said Bauman, 44, who was raised on an apple ranch at Sonora, Calif. His first experience as a flying herdsman came recently in an action by U.S. Marines probing out from the air base at Chu Lai, 52 miles south of here.

His co-pilot was Lt. George Dechant, 29, of Palmyra, Pa.

"We were supporting a strike force of our troops that had been brought up by helicopter," said the lanky, 6-foot-4 colonel. He looks and talks like the late Gary Cooper and commands the only Marine squadron of armed "Hueys" HU1B helicopters—in the country.

"We got two suspects cornered on a path leading to a river. We circled around and around them," Bauman said.

"One managed to hide, but the other started to try to swim the river.

"We fired a few rounds to force him to turn back, and he did. As he left the water, his black pants fell off, but he kept running.

"It's the first time we had ever acted as cowboys to round-up the Viet Cong. I had never herded them before.

"We cornered him again in some rocks and trees. I landed near him to point out his position to our ground troops.

It had been funny up to then, but it ended tragically for him. He ran out into the water again. Our troops called on him to halt, but he wouldn't, and they fired. He died.

"Eventually, we rounded up four or five others hidden in the same area."

As a Corsair fighter pilot in World War II Bauman flew more than 100 missions and won the Distinguished Flying Cross at Peleliu.

In a year in Korea as a transport helicopter pilot he added more clusters to his Air Medal than he can remember offhand.

Here he has flown 8 missions in two months in the most dangerous type of flying. Four of his six armed Hueys have been hit several times, and one pilot and a crewman have been wounded.

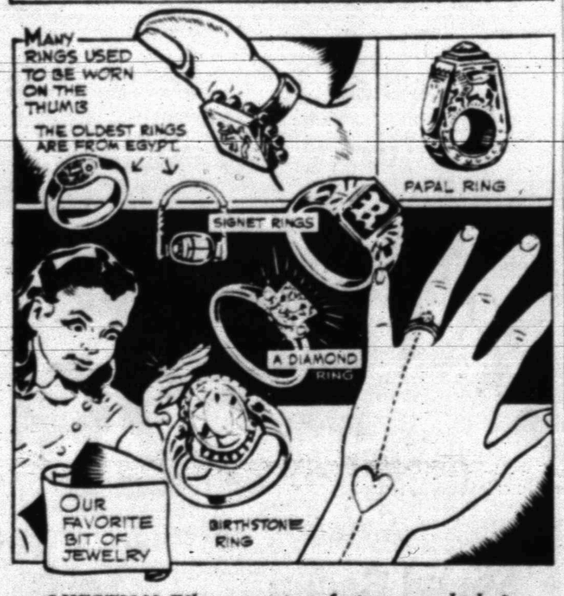

The colonel is worshipped by his men. One of them said, "any of us would fly through a needle stuck up in the middle of hell — if he told us to do it."

Above the entrance to the squadron's operation tent is posted this sign:

"When the will defies fear, when duty throws the gauntlet down to fate, when honor scorns to compromise with death, this is heroism."

That is the slogan of 'Bauman's Raiders."

Junior Editors Quiz on RINGS

QUESTION: When were rings first worn and why?

• • •

ANSWER: People have always loved to adorn themselves, and the shape of the fingers naturally suggests that they be used in this way. It is probable that the wearing of rings goes back to the earliest times, but just how far back we do not know. The earliest rings on record have been found in ancient Egyptian tombs. Rings came to have different meanings and uses. One use was to act as a person's signature. They could be rolled in wet clay or stamped on paper with ink. Notice the two called signet rings. Some countries and tribes have worn rings on noses, ears, arms, toes and ankles, but in our civilization their use has been mainly on fingers and ears. Until about 1300, it was usual to wear rings on the thumb. A most important use of the ring began in Roman times. There was once a belief (which is untrue) that there is a vein connecting the third finger of the left hand with the heart; so came the custom of wearing rings to celebrate a betrothal or a wedding. Rings can be also a sign of authority; as in the papal ring. Or they may be mounted with the wearer's birthstone. A ring is a natural setting for a precious stone, such as a diamond, ruby or emerald.

• • •

FOR YOU TO DO: Don't think you must wait until you can afford to buy a precious stone before you can enjoy a ring. A great many interesting rings, with synthetic stones, can be bought these days at very reasonable prices. 7-15

(Rose Mary Chapman of Chester, Pa., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this Newspaper.)

Spacecraft Attack Due On Weather

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — An all-out spacecraft attack is shaping up on that old problem of what to do about the weather. If successful, it could save U.S. industry, transportation, marketing and agriculture several billion dollars a year — many times the cost of the project.

Tiros 10, last of the experimental weather satellites, has just joined three of its predecessors still taking pictures of weather and weather-breeding conditions around the world.

Since Tiros 1 was launched in 1960, the first nine satellites have produced 500,000 TV photos. Based on them the Weather Bureau has issued some 4,000 advisories and warnings. Benefitting in the consequent saving of lives and property have been 25 other nations. The program to date has cost about $60 million.

Early next year the full-scale program, called TOS for Tiros Operational Satellites, will start. It will cost about $30 million a year to operate and will serve a government agency created this week, Environmental Science Services Administration. This combines the work of the U.S. Weather Bureau and the Coast and Geodetic Survey. In October it also will include the Central Radio Propagation Laboratory.

The new agency is charged with creating "a single national focus for our efforts to describe, understand and predict the state of the oceans, the state of the lower and upper atmosphere and the size and shape of the earth."

The aim is eventually to find out how to control the weather or modify its effects. A more immediate goal is to perfect ways of predicting weather accurately. The National Aeronautics and Space Administration (NASA) has said that if accuracy could be obtained only five days in advance the annual savings in the United States alone could run as high as:

Agriculture, $2½ billion; lumber industry, $45 million; surface transportation, $100 million; retail marketing, $75 million; water resources management, $3 billion.

The Tiros 10 spacecraft, built for NASA by Radio Corporation of America, is specifically charged with covering the 1965 hurricane season in the United States.

Like Tiros 9, it is in polar orbit and covers 80 per cent of the earth's surface each day. Tiros 10 will send back photos of cloud cover, storms, hurricanes and typhoons in all their stages.

Texas Firm Buys Gilsonite Deposit

AMARILLO (AP) — Mesa Petroleum Co. has agreed to pay $2 million for part of the only commercial deposit of gilsonite in the world, it was announced Wednesday.

The firm will acquire the properties and assets of Standard Gilsonite Co., Inc., of Salt Lake City, Utah.

Gilsonite is a solid hydrocarbon used in drilling fluids, in paint and varnish base and as a pipeline insulator. The deposits are in Eastern Utah.

Mesa president T. B. Pickens Jr., who announced the purchase, said Standard Gilsonite president John Turner will continue to manage the operation as a division of Mesa from the petroleum company's headquarters here.

Each cotton fiber is a single cell protuding from the epidermal layer of the seed.

New Mexico's Oil Allowable Retained

SANTA FE, N. M. (AP) — The New Mexico Oil Conservation Commission decided Wednesday to retain a daily unit allowable of 37 barrels a day in southeast fields and 70 barrels in the northwest for August.

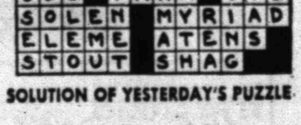

It estimated the daily allowables for August at 347,631 barrels in the southeast and 288,534 in the northwest.

Cotton is the most popular fabric with teens.

LIGHTEST MEXICO

BY JOHN ABNEY

SAN CRISTOBAL de LAS CASAS — Well, supper is over and everybody must be sitting around the fire wondering about the sacred pottery drums from Chiapas State so let's discuss them.

As all fishermen and plumbers know, the most musical of the primitive races of the Chipas highlands are the Tzotzil Indians. They sing and dance and play drums, flutes, harps (and now days, radios and juke boxes).

They also have worked up an accordion of sorts and a small, crude violin with only two strings which sounds only half as bad as the one with four strings.

These instruments are played when the tribe gets in the mood. Like some of the fellows sitting around a hut one evening and somebody says, "How about let's get instruments and knock out a few bars of Lazy River?"

Everybody does. And maybe a mile away a Tzotzil lady quickly herds the children into the shack and bars the door.

Her husband asks, "What on earth you doon there?"

She says, "I'm gettin' the kids to safety. Just listen to that mountain lion over yonder."

The husband shakes his head and says, "It's only Spencer and his combo getting in some hot licks."

And the lady grunts, "He ain't had his turtle shell banjo tuned since 1934. I'm gonna go look for some mountain lions."

The sacred pottery drum is another matter. You don't just pick one up and rap out Beethoven's Ninth because you feel like it.

This instrument is played only during carnivals and special festivals. And between ceremonies, two guardians of the drums keep them on a table at home where they can be worshipped and offered incense at regular intervals. The day before a carnival, the guardians give the drums a shot of ceremonial brandy (about 300 octane and the fumes will knock a horse down at 46 yards).

It starts off with the guardians dancing around the table telling the drums about the festival. Otherwise, how would they know? Then they pour a slug of happy water on the drum skins (and possibly a few into their own hides), give the drums a bath and change the cords. Ready for sunrise.

But suppose the guardians get a little careless with the brandy and the first thing you know they are on their faces snoring up a regular tornado?

Comes morning and they stagger out with a 10-aspirin hangover and one of them hauls off and slugs his drum. It goes "whunk" and doesn't give a clear, vibrating tone.

The other guardian wallops his drum and gets a dull "ugh."

They become alarmed and stand there pounding the clay drums until the first guardian's wife comes running out and shouts, "Cut that out! Whadda you tryin' to do, ruin lunch?"

The guardians moan, "Who cares about lunch? Something awful has gone wrong with the ceremonial drums. They sound like sponges and anything could happen now."

And the wife clutches her breast and sobs, "Ceremonial crums? Good grief, I thought they was pots and cooked the beans in 'em when you guys passed out last night."

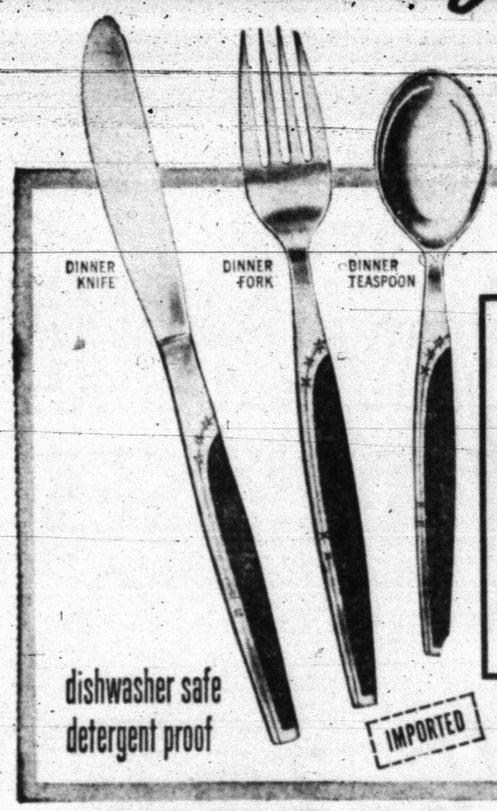

Go ahead and snicker but a soggy drum is no joke for a Tzotzil. Especially with a big fiesta on his hands and no music available.

Convict May Be Permitted To Continue His Freedom

B MIKE BARRON

ATLANTA, Ga. (AP)—Charlie Kemp may not have to leave his Florida home of the past 26 years to finish out his life in a Georgia prison.

The governors of the two states are trying to work out the legal problem posed by the discovery of Kemp's identity as a convicted slayer.

Kemp, 62, was serving a life term for murder when he escaped from a Bibb County, Ga., work gang in 1939, a month after he was sentenced. The details of the slaying have not been found and Kemp has not spoken of it even to his wife.

Mrs. Kemp had five children when they married in 1944 and the Kemps now are raising two grandchildren although Kemp is plagued by arthritis, rheumatism and rib injuries suffered in an automobile accident which led to his discovery.

Govs. Carl E. Sanders of Georgia and Haydon Burns of Florida must decide what to do about Kemp. In his 26 years in Floria, Kemp, a Negro has developed the reputation of an exemplary citizen and a pillar in his church. Fort Myers citizens are indignant about the possibility of his extradition.

Burns said Sanders apparently was unaware of Kemp's good conduct in Florida when the Georgia governor routinely signed a request asking Burns to extradite the Negro. But Sanders is aware of it now.

A Sanders associate says the governor is seriously concerned about whether Georgia should deprive Kemp of his freedom in an effort to satisfy the law to the letter.

Kemp now is out on $3,000 bail awaiting a decision in his case.

The case came to light last month when Kemp was arrested on a charge of failing to yield the right of way after an auto accident. He was fingerprinted routinely.

The prints disclosed the fact that he was a wanted escapee convicted of murder under the name of Hubert Bentley.

Wage Hikes Okayed For AFB Employes

WASHINGTON (AP)—Pay increases are scheduled for wage board employes at seven Air Force bases in Texas and New Mexico.

The increases will be 6 cents an hour at Cannon AFB in New Mexico and 5 cents at Dyess, 6 cents at Webb, 6 cents at Reese, 5 cents at Goodfellow, 5½ cents at Sheppard and 5½ cents at Perrin, all in Texas.

Snyderite's Mother Dies At Ranger

Mrs. Ollie Frances Ervin, 69, Ranger resident for 44 years, died at 6 p.m. Wednesday at her home following a lengthy illness. She was the mother of W. A. Ervin, 2804 Avenue V, Snyder.

Funeral services will be at 2 p.m. Friday in Goldthwaite Church of Christ, with burial in Goldthwaite Memorial Cemetery.

Other survivors include her husband; another son, L. C. Ervin of Albany, Ga.; three daughters, Mrs. Maurice E. Owen of Ranger, Mrs. A. J. Williams of Arlington and Mrs. D. L. Fyffe of Lubbock; three brothers, six sisters, 17 grandchildren and four great-grandchildren.

Articulate Stevenson Always Spokesman For Civilization

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — Adlai E. Stevenson — Civilized, gentle, and articulate — was the ideal politician to a lot of people but, unfortunately for him, never to enough people.

And he appeared at the wrong time and against the wrong man.

He truly represented something too seldom seen in American political life — the thinker — when he ran against Dwight D. Eisenhower and lost the presidency to him twice.

The 1952 race wasn't a time for thinking.

It was an emotional time. The country was tormented over the Korean War and split to its roots by McCarthyism with all that it meant in bewilderment, suspicion and revulsion.

What Stevenson offered, with his proper and often painfully polished language, was a self-examination of the American conscience at the moment when Americans apparently felt they needed something else.

That something else was a return to tranquility, of cohesion instead of division, and of proven strength in leadership to eliminate misgivings. Eisenhower symbolized all those needs.

Stevenson, governor of Illinois, was almost unknown.

Eisenhower, proven commander and national hero, could be expected to restore sanity even if he had to knock heads together. And he was a friendly man who could be trusted not to engender new antagonisms.

But Eisenhower probably could have beaten Stevenson under any circumstances, as he proved by winning again in 1956. Against someone else Stevenson might have done better.

Yet, while Stevenson seemed a little in awe of Eisenhower in the first campaign, and minced a bit, in 1956 he was rougher on Eisenhower than John F. Kennedy was on Richard M. Nixon in 1960.

And in 1956 he did worse than in 1952.

Stevenson was a hero to liberals, intellectuals, college youth and faculties because he had a perspective on history, compassion for mankind, lucidity in language and a reasoning mind.

But it is questionable he would ever have been a good president.

He had all the instincts of the lamb while all the first-line presidents at one time or another had to show the teeth of a tiger.

Nothing showed better the lack of aggressiveness than that night in Chicago in 1952 when, after getting the Democratic nomination, he made his acceptance speech.

Where another candidate would have responded with vigor and fire to the challenge handed him, Stevenson made himself appear a reluctant martyr.

He said "I have asked the merciful Father of us all to let this cup pass from me." But, since it did not pass, he said he would drink it.

Here he was both indecisive and self-conscious, qualities which often appeared later. For example, he was indecisive when President-elect Kennedy in 1961 offered him the job as U.S. ambassador to the United Nations.

And in writing his campaign speeches he was extremely indecisive and self-conscious, endlessly changing and rearranging as if wanting to make sure his literary hat would be on straight in the mirror of history.

All this affected him adversely in the kind of public attention his thoughts got for it slowed down and scrambled the transmission of speeches to newspapers around the country.

This, in turn, showed a poor sense of organization. His campaigns were not well-organized.

But, despite these defects, he remained in American life a shining figure until he died, without malice, a man of good will, kindness and infinite concern for the people of his own country and the world.

He was a gentleman and a gentle man.

PUBLIC RECORDS

FILED IN DISTRICT COURT:

Tracy Rento Boiler & Welding Works vs. Gould Drilling Company, suit on account.
