Epworth League District Meet Great Success

Roscoe Selected for Fall Meeting of Sweetwater District

The Sweetwater District Epworth League meeting which began at the local Methodist church last Saturday evening with more than 60 visiting leaguers registering to spend the night in Snyder and more than one hundred young people attending the program and social for the opening night, was one of the largest and most successful meetings that the leaguers of the district have ever held.

Delegates from the leagues of the neighboring towns began to arrive about 5:30 o'clock Saturday afternoon, and by the time registration closed at 8 o'clock, there was a very enthusiastic crowd of young people assembled, making new friends and enjoying the association of old ones.

The Snyder Leaguers had provided an abundance of ice water at the entrance to the building. Because of the very hot weather, this was a treat which was enjoyed by all.

The opening song service was led by Rev. Sollie E. McCreless of San Antonio. The singing was made unusually good by the fact that practically everyone present eagerly took part in it. Rev. O. C. Coppage, pastor of the Methodist church at Roby led in prayer. Mrs. Frank L. Williams of Roscoe, the district pep leader, then led the group in a ten-minute pep meeting, using several good yells and a few pep songs. Clarence Walton, president of the local league, took charge of the meeting and introduced the speakers of the occasion. Fred Yoder of Snyder made a short speech in which he gave the visiting leaguers a warm welcome. The response was made by Pink Robertson, president of the Epworth League at Stanton. Mr. J. H. Agee of Abilehe, the Northwest Texas Conference Epworth League field secretary, made the principal address of the evening. He spoke on the subject: "Roads," and made a wonderful appeal to the young people to choose the path of life to which they are the best fitted. He used the phrase of scripture from 1 Samuel 27:10, "Whither have ye made a road today?" as the center of his address.

The meeting was then turned over to Mrs. Agee who conducted the entertainment during the social. Many interesting games were played, the best being a game of human croquet. In this game two people caught hands to form each wicket and other people were the balls and tried to run through all the wickets in the proper order first. After many games had been played, the Snyder Leaguers served delicious refreshments consisting of golden punch and muffins.

The visitors were entertained in the homes of the Snyder Leaguers Saturday night and Sunday morning until Sunday school time.

Sunday morning the center tier of pews in the main auditorium of the church was roped off with white and gold crepe paper and reserved for the leaguers and young people. This was very beautiful as a decoration and was especially suited to the occasion since white and gold are the Epworth League colors. The class of young people was taught by Mr. D. P. Yoder and the lesson was a very interesting one.

At the close of the Sunday school a very interesting program was given by the visiting young people. The ones who took part in the program were: Miss Mattie Dorn, president of the Colorado League, Mr. J. H. Agee of Abilene, and Mr. W. T. Roberts of Big Spring, Sweetwater district secretary.

At the eleven o'clock hour Brother McCreless preached the sermon, using as a center the words of Christ: "Come," "Go," "Tarry." At the close of the sermon a consecration service was held. This, as well as the sermon, was very inspirational.

Lunch was served in the basement of the church at noon, and everyone naturally enjoyed this part of the program.

After lunch a group picture of those in attendance was taken on the front steps of the church, and another picture consisting of the chapter presidents, Union presidents, district officers, conference officers, and pastors was made.

At 2 o'clock Mrs. Agee, the conference recreation and culture leader, met with the chapter and union recreation and culture leaders and planned the work for the present league year. At the same time the resolutions committee, the nominating committee, and the policy and future work committee met and prepared a report for the business meeting which was to follow the devotional.

The devotional service was led by the Sweetwater First Church Epworth League. The subject of the program was "Stewardship." Miss Isabel McClothing, president of the Sweetwater League, led the program and Warren Dodson of Snyder, Leo Kiker of Union chapel, and Lexter Alston of Sweetwater were the speakers. The duet, "Whispering Hope," sung by Herman McClothing and Miss Ruby Pollard of Sweetwater, was fine and was en-

Sudden Death of Dr. Trigg Brings Sorrow to Many

Life Time Friends Mourn With Family in Loss of Good Man

Like a bolt of lightning from a clear sky came the telegraphic news Sunday, from Culver City, Cal., of the sudden death of Dr. L. E. Trigg, known to hundreds and hundreds of Scurry county people. Telegrams that were sent here bore out the sad news that a sudden illness that had fully developed several days previous made a hasty operation necessary but all that medical skill and loving hands could do were freely given, but without avail.

Dr. Trigg with his family had left here several months ago to spend their vacation in California and at that time, Dr. Trigg had made it known to close and personal friends that in all probability he would undergo an operation while away. He had been in ill health, suffering from some type of stomach trouble for several years but seemed to get no relief. Through friends in the medical profession he learned of an expert in a California hospital who might be able to help him and that was the primary cause for the trip west.

Dr. Trigg was born at Fulbright, Texas, July 31, 1888, and would have celebrated his 41st birthday yesterday, the same day that his body arrived here. He was the son of John and Elizabeth Trigg, who preceded him in death. He received his medical diploma from Fort Worth University at the age of 21 and following a short stay in Brown county where he was married to Miss Ethel Lee Brown, he came to Dunn, Scurry county 20 years ago. During the family's residence at Dunn, and later at Hermleigh, two children were born to this union, a daughter, Loree, and son, Herman.

About 1918, Dr. Trigg and his fine family moved to Snyder where he has enjoyed a most lucrative practice and his friends in the county are counted with all whom he has ever come in contact. Quiet, unassuming, reserved, and bashful to a fault, Dr. Trigg's friendships were of the lasting and enduring type and his quick passing has been one of the most distinct shocks that have come to Snyder in many a year.

Surviving, besides the widow, daughter and son, are four brothers, W. O. Trigg, Snyder; R. L. Trigg, Childress; J. H. Trigg, Jr., Owens; W. L. Trigg, San Angelo; and three step-sisters, Mrs. C. J. Sludicki, Waco; Mrs. T. E. Hill, Owens; and Mrs. A. M. Bowden, of May, Texas.

Dr. Trigg was a Mason, joining at Dunn many years ago, and was always identified in any local or state medical association affairs. The family had intended starting back home today, Thursday, but what would have been a joyful return was instead turned into one of sorrow when the body, family and friends met at the Santa Fe station yesterday. Friends of a life time were gathered to pay honor to whom they called a friend. Men, with the gray of sunset in their hair, with their wives and friends, coupled with the youthful spirit of younger years, all there with but one thought, as a memory and testimonial to their friend, Dr. Trigg.

As Jerome B. Bell has so ably written, the following lines are dedicated to the memory of our friend and neighbor, Dr. L. E. Trigg:

What is this mystery that men call death?
My friend before me lies; in all save breath.
He seems the same as yesterday. His face
So like to life, so calm, bears not a trace
Of that great change which all of us so dread.
I gaze on him and say: He is not dead,
But sleeps; and soon he will arise and take
Me by the hand. I know he will awake
And smile on me as he did yesterday;
And he will have some gentle word to say,
Some kindly deed to do; for loving thought
Was warp and woof of which his life was wrought.
He is not dead. Such souls forever live
In boundless measure of the love they give.

Snyder and Scurry county join the Times-Signal in extending sincerest condolences to the bereaved family and relatives.

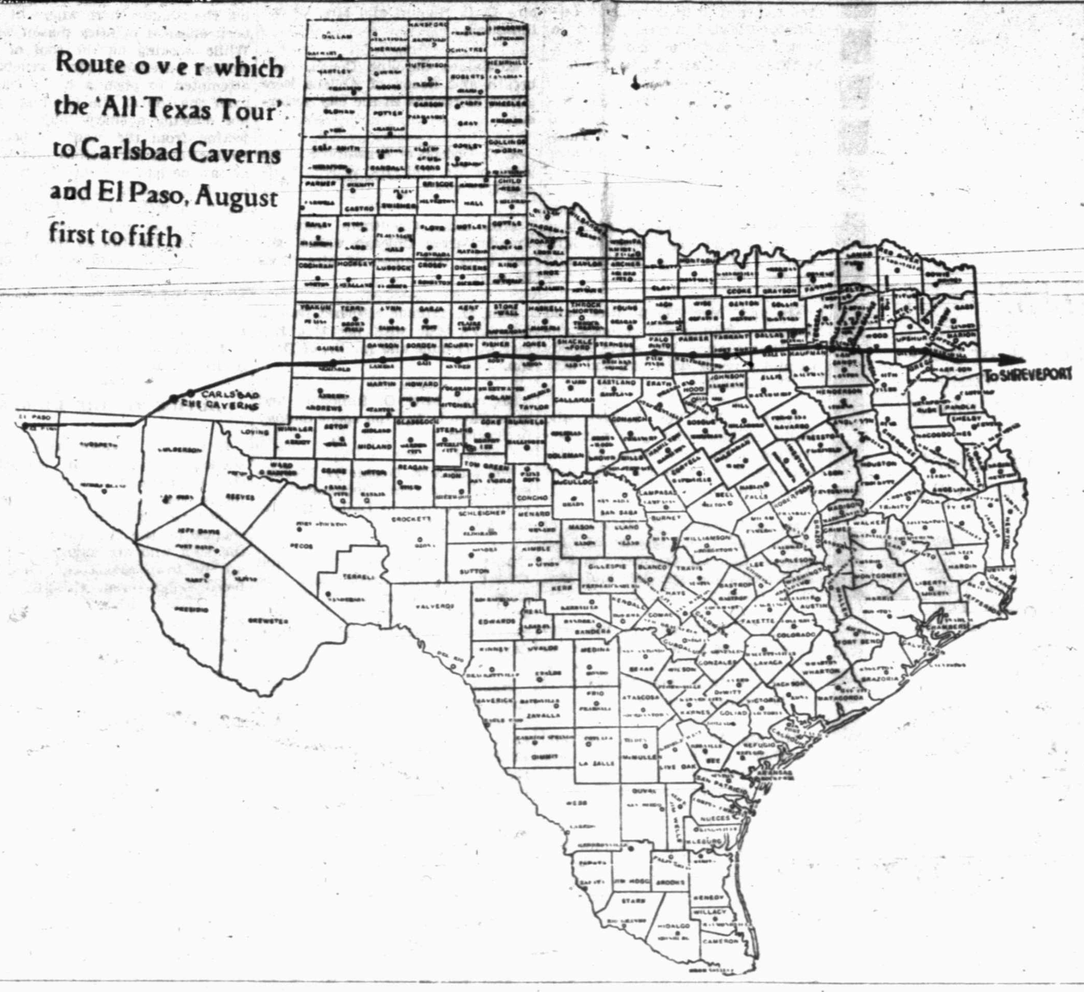

AMENDMENTS LOSE

According to the best available data the amendments lost out in the recent election, heavily, the rural sections completely swamping the big town vote.

The official vote in Scurry county resulted as follows:

Salary—Yes	83
Salary—No	319
Supreme Court—Yes	74
Supreme Court—No	332

The above figures were secured from Judge Holley's office Tuesday morning and are authentic.

OLD SNYDERITE HERE

The Times-Signal has the unusual distinction and honor this week of having a gentleman set the type for the paper that worked on The Western Light, 20 years ago right here in Snyder, and again, seven years ago when the paper was called The Snyder Times. The gentleman that we refer to, and who is helping us is A. E. Creighton, son of Mrs. N. B. Moore who still resides here.

Mr. and Mrs. Creighton were visiting here and the former promised to help us out during the vacation of our regular linotype operator, Otis Carter.

Creighton stepped in on the machine as if he had never left it, and is one of the finest and snappiest operators it has been our pleasure to read proof on and we surely thank him for his kind and whole-hearted co-operation.

STERLING EDITOR SCORES TOM LOVE

Since last election time the name of Tom Love has been something like the bitter hemlock to the lips of the staunch and true old-time Democrats in many parts of the state. W. F. Kellis in the last issue of his Sterling City News-Record, takes the Senator for a nice long ride:

"Some member of the Senate interterrupted Sen. Love while speaking before the Senate last week by asking him wheather he would make the race for governor on the Republican or Democratic ticket. Love shouted, "Democratic ticket!" Then he was asked some embarrassing questions about some money he used in campaigning for Hoover last year that came from republican sources. Senator Love's troubles began the day he announced for governor. His political conduct will follow and annoy him like a case of seven-year itch. No man can betray his fellows and gain honors by the act."

Miss Katherine Stallings spent last week-end Post with relatives.

Oil Activity in Justiceburg Getting Play

Pipe Lines Now Being Run to Storage Tanks Near Lease

Announcement of the new Cottingham & Briscoe John R. Truss No. 1 well spudding in, brings to mind that the Justiceburg section is likewise engaged in new oil development with increased activity showing increased production in their pump test.

According to the Post Dispatch, Editor Eddie Warren says that the three wells are being pumped temporarily by the power pump on the Borden No. 3, with cables to the other two. A large power plant, which will pump 18 wells is being erected and the machinery installed this week.

A two inch pipe line is being run from the 2,500-barrel storage tanks to the railroad at Justiceburg, erected. A working crew is laying the pipe at the rate of two hundred yards a day. The large 1,600-barrel storage tank has been pumped full of oil and the 250 barrel storage tanks at each well are being pumped into.

The well on the Bargsley ranch located about a quarter of a mile northwest of Borden wells Nos. 3 and 4, is drilling at a depth of 1975 feet, Tuesday noon. The log kept on this well shows the formation to be several feet higher, and it is thought that the pay will be reached about 2,500 feet.

Two other big rigs are being erected one mile west of the Boren wells, on section 10, block 6, by W. J. Thomson and associates, Obrien and Wallace, of Colorado City. The other well is being drilled by Paul Steed, on the Boren ranch, located near the Boren No. 4, of the Emerald lease.

Wouldn't it have been great had we but known in time that all that was needed to win the World War was the right brand of cigarettes?

Rural Schools of West Texas to be Visited

Snder Among Points to Have State Supt., Marrs Present, Tuesday

Snyder is included in the itinerary of State Supt., S. M. N. Marrs when the State Department of Education will concentrate its activities in West Texas this month in the annual effort to improve the rural schools. Scurry County is therefore highly honored when the head of the state educational department comes here.

The department will send its rural aid forces to meet with rural school trustees in more than eighty West Texas counties which have requested these contact meetings. The State representatives are sent only where they are requested.

S. M. N. Marrs, State Superintendent of Schools, will address the rural school trustees in a dozen West Texas counties. The remainder of the work will be done by the inspectors and others from the rural aid section of the State Department. All of the meetings will be held between Aug. 5 and 24. The first week's itinerary by Mr. Marrs follows: Aug. 5, Fisher County, Aug. 6, Scurry County; Aug. 7, Nolan County; Aug. 8, Brown County; Aug. 9, Comanche County; and Aug. 10, Hamilton County.

Great preparations are being made for the annual meeting of the Scurry County School Trustees which will be held in Snyder, next Tuesday. The morning session will begin promptly at 10 o'clock with Supt. S. M. N. Marrs giving the principal address in a discussion of school laws passed by the 40th Legislature. Other speakers on the morning program include a welcome address by C. F. Sentell, and response from John Stavley, Pres. of Fluvanna School Board.

The noon recess will be marked by a luncheon served to every visiting trustee and comes as the courtesy of Snyder business men. The luncheon will be held at the Presbyterian Church.

Immediately following the luncheon the following program will be given:

Piano Solo	Mrs. W. W. Hamilton
Reading	Martha Gray
Address	Hon. S. M. N. Marrs
Relation of City and Rural Schools	Watt Scott
What Industrial Work Has Done for My School	R. E. Bratton, Canyon Schools.
Good Roads vs. Good Schools	Judge H. L. Holley
Why We Charge Tuition on Transfers	Hugh Taylor, Pres. Snyder School Board.

County Supt. Bullock who is attending the Superintendent's conference at A. & M. College this week has mailed invitations to every trustee insisting that all be present to hear State Supt. Marrs discuss his subjects and to be guests of Snyder. All school patrons are likewise invited to attend the morning session at the District Court Rooms. Plans for a greater school are now in the making and it is hoped that every school trustee in Scurry Counay will be right on the job.

In all the meetings that are to be held the State representatives will explain the rural aid law and the approved methods of improving the rural schools as well as advising as

(Continued on Page 8)

BAND CONCERT FINE

"Hail, Hail, the Gang's All Here" was Band Director Crowley's first opening number at the first public appearance of the Snyder Municipal Band, Monday night. Hundreds were present and enjoyed the short and spicy program that was given and the execution of the several numbers was truly remarkable for the short time in which the band has been organized.

The band will give another concert tomorrow (Friday night) the occasion being the arrival of the Dal Paso Cavern annual All-Texas tour. District Judge Fritz R. Smith will give the opening address.

All-Texas Tour Will Arrive in Snyder Friday

Town and County Will Join in Hearty Welcome to Visitors

Arrangements for the arrival here of the All-Texas Tour to Carlsbad Caverns and El Paso tomorrow night, (Friday, Aug. 2) are completed, according to the local committee. That one hundred cars to greet the visitors at the east county line is the goal of the committee which includes Mrs. R. S. Snow, Mrs. E. J. Anderson and Mrs. Fritz R. Smith, with Warren Dodson, Horace Leath and J. W. Scott. The committees are likewise endeavoring to get as many Scurry County people as possible to join the motorcade here and travel west with the group.

The All-Texas Tour this year started this morning at Marshall, with stops at Longview, Mineola, Terrell, Dallas, and Fort Worth. Starting from the latter city early tomorrow morning the motorcade will stop at Weatherford, Mineral-Wells, Palo Pinto, Breckenridge, Albany, Anson, Roby and expecting to reach the east county line around 5:30 to 6:00 when the Snyder cars will meet the visitors. Following a short program at the public square the committee are planning on some special stunts for the guests.

Starting early Saturday morning, stops will be made at Gail, Lamesa, Seminole, Hobbs and arrival at Carlsbad, N. M. for the night with a visit through the Caverns on Sunday. Monday the motorcade will go on to El Paso where special entertainment will be provided.

A new feature of this motorcade which has been added this year is that it is to be an All Texas Tour To The Caverns And El Paso, through the scenic section of Texas and New Mexico and any person in the state may join the caravan at such points convenient to them and stay with it as long as desired. Prominent citizens of Texas will form the personell of this All Texas Tour of The Caverns as well as men and women from all walks of life.

Wm. A. Wilson, Secretary of the Dal-Paso Cavern Highway Association for the past two years and Manager of the Lamesa Chamber of Commerce for the past three years will again have charge of the tour according to announcement made by the directors of the Association.

Wilson has successfully operated two such motorcades the past two years.

Snyder should have their "welcome" clothes on tomorrow.

Twenty-three Attend Short Course at College Station

Get Away Saturday for Week of Business at Farm School

Twenty-three Snyder and Scurry County folks left over the Santa Fe last Saturday for the annual Short Course at College Station.

Headed by County Agent W. O. Logan, Home Demonstration Agent, Miss Jessie Lee Davis and County Superintendent A. A. Bullock, the following were in the party:

Mrs. Oscar Coston and Mrs. Jim R. Truss, Fluvanna; Miss Esther Bearden, Union; Mrs. J. W. Wade, Gannoway; Miss Lella Louise Lewis, Ira; Miss Sybil Gilmore, Bethel; Miss Ester Pambro, Loyd Mountain; The Misses Ruby Lee Burney and Marie Garrerro, Bison community; The Misses Jessie Dowden, Lucille Hardin, Daisy Hardin, Shirley Helms and Lura May Cook, all of Hud. The above were winners in the county contests.

The three 4-H Club boy winners in the dairy judging contest and who were in the party were: J. T. Beavers, Fluvanna; Martin Murphy, Dunn; and S. D. Hays, Union community.

Others who went with the party were Mrs. John Trussell and son, John Henry, of Fluvanna.

AMERICAN LEGION NEWS

That a new and better American Legion Post will be organized in Snyder and Scurry County was shown last week in the response to the Times-Signal's plea for the names of fifteen ex-service men who would write their names on the dotted line for an early meeting to re-organize here and get their charter O. K'd. by the state department. Porter King, in less than ten minutes secured sixteen names that is sufficient to call a meeting and all concurred in the happy thought O. M. Latimer of the Economy Dry Goods Co. should be named the temporary chairman to call the meeting when the boys are ready.

Names of those other than Mr. King and Mr. Latimer who signed the paper include: R. H. Brown, J. M. Newton, Boss Baze, Sam Hamlett, W. C. Shell, J. E. Erwin, M. M. Gideon, Mark Johnson, Dee Singletary, J. S. Johnson, John Smith,

Scurry County Fair Will Bring Enormous Crowd

Three Registered Jerseys to Feature Fine Entertaining Programs

The Scurry County Fair that will be held this year, Sept. 26-27-28 promises to be one of the greatest ever to be held in the history of the organization. Great emphasis is being placed on the entertaining features of the meeting which, among other important phases will be the giving away daily a fine registered Jersey heifer.

At the called meeting, Monday afternoon, officials and board of directors, together with committee chairmen who were present included: President O. P. Thrane, Secretary Harvey Shuler, J. W. Scott, Mr. and Mrs. Joe Caton, Hugh Taylor, J. A. Merritt, Harrie Winston, L. N. Periman, Horace Holley, J. P. Jamison, J. W. Crowley and George "Jimmy" Smith.

Committee chairmen who will act for the fair now shows: Entertainment—J. W. Crowley; Agriculture—Joe A. Merritt; Community Exhibits—W. O. Logan; Publicity—George "Jimmy" Smith; General Superintendent Livestock—Harrie Winston; Superintendnet Beef Cattle—J. J. Koonsman; Swine—Tom Huffman; Sheep and Goats—L. N. Periman; Horses and Mules—John Spear; Vocational Agriculture—J. P. Jamison; General Superintendent Woman's Department—Mrs. Joe Caton; Home Demonstration Clubs — Jessie Lee Davis, and Finance—Ernest Taylor.

So many important improvements have been made as regards money prizes that the publication of the prize list shortly will occasion great surprise and commendation on the part of county folks. For instance, in the community exhibits three major prizes totaling $150 will be given with first prize securing $75; second, $50, and third, $25. Every community making a commendable exhibit will be given $10 whether they win a prize or not. Community displays must consist of agricultural products actually raised during 1929.

In the sheep department under L. N. Periman's direction, it will be shown that Rambouillets and Delaines both have a "B" and "C" type and a total of $132 will be given away in this division. Jerseys and Herefords come in for large cash prizes.

The 4-H Boys Club in addition to receiving many cash prizes will include a sweepstake prize that will bring a free trip to the Dallas Fair.

The Club Girls will receive $128 in cash prizes with four trips to the Dallas State Fair.

J. Wright Mooar, H. P. Wellborn and Judge Horace Holley have been working out plans for the establishment of an Old Settlers Reunion organization for Scurry county that will be formed during the fair. The annual Old Fiddlers contest will come Friday night of the fair which has always attracted a great deal of attention. Cash prizes are to be offered and this department will be operated by Mrs. O. P. Thrane.

J. W. Crowley, who heads the entertainment committee, promises a feast of good things in his department and with the many years' experience gained at Lubbock fairs, his part of the work will be well taken care of.

Mrs. Joe Caton, general superintendent of the Woman's Department, has announced that judging of her department will take place Sept. 25, one day ahead of the fair's opening, that will enable the committee to get their prize winners better located as regards appearance of display. In former years, judging was started opening day which left the display in such a litter that it made a most unattractive appearance opening day. The new arrangement is a most pleasing suggestion on Mrs. Caton's part.

But, folks, let's all start planning today to help the various committees in putting over the biggest fair that good, old Scurry county has ever held and with all of us working tooth and nail, we can accomplish any plan that we want. It's co-operation in all lines that are paying big returns in Scurry county, the best in West Texas.

NEW INDUSTRY FOR SCURRY COUNTY

According to the Fluvanna news column in this issue, J. T. Bulmer of Dallas has puruchased of J. E. Jones, one half section land lying near, the cap-rock that will be developed and place a new lime kiln at that point. Mr. Bulmer declares that the rock found north of Fluvanna is exceedingly rich in lime.

Congratulations to Fluvanna some more. With the new high school, the new oil well and now a new lime kiln, Fluvanna is progressing right along with Scurry county. Fine work and here's our right mitt to say "howdy" and good luck to you.

Leonard, Thos. H. Kennard, and Henry Rosenberg.

These exservice men who's are desirous of adding their name to the list before the call meeting will find the paper with Mr. Latimer at The Economy Dry Goods Store.

One of the Finest Ranch Homes in Scurry County

One of the most imposing, and one of the finest located ranch homes in Scurry county is that of P. L. Fuller, widely known in ranch, banking and racing circles. The home is located 16 miles north of Snyder on the Clairemont road.

Mr. Fuller's ranch home is indicative of a Community of Friendship in all that the name implies. The spirit of the West prevails and "The latch string hangs outside the door." A warm welcome and a hearty handshake awaits friend or stranger at the gates which are always wide open.

The ranch home erected on a solid rock foundation, among a beautiful group of shade trees defies adequate description. The home with every modern convenience known, has an unusual color scheme arrangement that Mr. Fuller devised and in which many compliments have been paid him for the artistic blending of natural colors.

Mr. Fuller's vocation is principally ranch and banking interests and aside from that, he has one of the finest racing stables in West Texas that has many blue-ribbon winners. One of his runners won nine firsts out of eleven starts during the past season.

It is indeed a rare pleasure to be Mr. Fuller's guest and the Times-Signal editor hopes to give further data on the remarkable ranch home and surroundings of this wonderful spot in Nature.

HOW DO YOU PAY YOUR BILLS?

IN CASH? WRONG! You're running the risk of paying a bill twice—worrying where certain sums went—not knowing where you stand financially and wasting much valuable time.

Mrs. C. J. Yoder and son, Carlas Hugh, returned home last Wednesday from Walnut Springs, where they were the guests of Mrs. Yoder's mother.

Mrs. C. L. Harless and two children returned to their home in Littlefield Tuesday morning after a week's visit with her mother, Mrs. McMillian, and Mrs. L. O. Smith.

Judge W. P. Leslie, Eastland, Associate Justice of the Court of Civil Appeals, was the Monday and Tuesday house guest of Judge and Mrs. Fritz R. Smith.

Mrs. Grace Randold and daughter, Maxine, of Brownwood, came last week and are guests of Mrs. Randold's brother, A. E. Duff and family.

Mr. and Mrs. John Rice and daughter, Juanita and granddaughter, Nina Frances Hargett of Moody spent last week with Mr. and Mrs. A. D. Johnson.

Misses Edda Von Roeder and Melba Richter, who have been attending a business college in Abilene, spent the week-end with their parents in Knapp.

Mr. and Mrs. W. H. McCollum of Itasca, and Clyde Morton of Los Angeles, Cal., are the guests of Mrs. McCollum's parents, Mr. and Mrs. G. L. Hartley.

Many visitors were in the city Saturday night, a greater portion of whom were attending the opening of the Sweetwater district meet of the Epworth League.

Mr. and Mrs. G. L. Hartley and daughter, Pauline, Mr. and Mrs. Ben Hartley and Mrs. W. H. McCollum were in Lubbock, Tuesday, visiting friends.

Mr. and Mrs. Gay McGlaun, Mrs. Alfred McGlaun and son returned home Saturday night from a pleasant week's vacation spent at resort points in New Mexico and Texas.

Mr. and Mrs. T. H. Chilton left this week for a short vacation at Houston and Fort Worth. Mr. Chilton is scout reporter for the 32d Judicial district.

Louvenia Hartman, 10-year-old daughter of Mr. and Mrs. W. E. Hartman, underwent a very serious appendix operation Friday at the Emergency Hospital. She was reported to be resting well.

Mr. and Mrs. T. H. Duff and Misses Lela, Jeff D. and Fayrene Isaacs, Mrs. Grace Randold and daughter, Maxine, spent a few days in Lubbock with Mr. and Mrs. J. C. Duff.

Mr. and Mrs. Ed Darby, Mr. and Mrs. Tate Lockhart and Claude Sims went to Abilene Tuesday to be with Mrs. Claude Sims, who underwent an appendix operation Tuesday.

J. D. Mitchell visited his sister, Miss Blanche Sunday, who is in the West Texas Sanitarium at Lubbock. Miss Mitchell has recently undergone an appendicitis operation. She is getting along nicely.

Mrs. William Wilsford and family left today for Big Spring where Mr. Wilsford is working for the Postal Telegraph Company in that city. Mr. and Mrs. Wilsford will make their home there.

Mrs. Neal Gross returned to her home in Sweetwater Monday afternoon after a several days' visit here with her parents, Mr. and Mrs. W. A. Merrill and her sister, Mrs. Bob Warren.

John R. Covey and son, John, Jr., left Monday on a business trip to Burleson. John, Jr., will remain for a visit with his grandmother, Mrs. S. J. Covey, and he will also visit Mrs. J. T. Franklin in Fort Worth.

Mr. and Mrs. L. T. Stinson and little son, Billy Joe and Billie Lee, returned Friday night from Malvern, Ark., where they were the guests of friends for about two weeks.

Mr. and Mrs. George McJimsey and Miss Doris Buchanan returned from Dallas this week after a several days' visit there. Miss Buchanan was the guest of Mrs. John King.

Mr. and Mrs. Frank Patterson and daughter, of Westbrook spent the week-end with Mr. and Mrs. J. G. Patterson. Mr. Frank Patterson is superintendent of schools at Westbrook.

Mrs. Pat Elder of Sweetwater and Miss Tommy Murphy of San Angelo returned to their homes Monday afternoon after a visit with Mr. and Mrs. W. A. Merrill and Mrs. Bob Warren.

Mr. and Mrs. Billy Franks have returned home from a pleasant vacation trip to various points in Oklahoma. Billy said "it was fine to get away for a little vacation, but My! it's good to be back in Snyder.

L. A. Scott of Fort Worth spent Saturday and Sunday with his brothers, J. W. and W. M. Scott. He was accompanied home by his son, L. A. Jr., who has spent the summer here on the ranch of his uncle, W. M. Scott.

Mr. and Mrs. Nolan Von Roeder and Mr. and Mrs. C. N. Von Roeder and family left Sunday on a trip to the Carlsbad Caverns and they will also go to Deming, N. M. They expect to be gone about a week.

Mr. and Mrs. R. S. Sullivan and little son, Charles, were visitors in Austin and other South Texas points last week-end.

Dora D. Smith of Lometa came yesterday for a visit with her aunts, Mrs. C. C. Higgins and Mrs. W. W. Hewitt.

Mesdames Caroline Couch, Galbreath and Bacon of Abilene were guests of friends in the city yesterday.

A. C. Dodson of Brownfield is the guest of Mr. and Mrs. Warren Dodson this week.

Miss Edith Grantham returned Tuesday from Chicago where she has been the guest of Mrs. Ross Howard.

Mrs. M. Trimble returned from a two-day's visit with her son, Homer D. Trimble and family, of Denton.

Mr. and Mrs. O. Randolph and Miss Virginia Egerton spent Sunday in Stanton.

Mr. and Mrs. George D. McJimsey and Miss Doris Buchannan are visiting relatives in Dallas, Denton, and Yelmy, La.

Mrs. R. O. Von Roeder, Mr. and Mrs. C. N. Von Roeder and Mrs. Nolan Von Roeder and H. Richter attended the funeral of little Ben Struve at Abernathy, last Wednesday.

Hallie and Clarice Hartley with their guests, W. H. McCollum of Itasca and Clyde Martin of Los Angeles left Monday morning on a fishing trip to the South Llano river. They firmly expect to bring home a full portion of real fish, too.

E. L. Bangs of Leonard, in East Texas dropped in to see "Bill" Clark, Monday, the first meeting of old friends in 29 years. Mr. Bangs is greatly interested in moving to West Texas and stated to a Times-Signal man that he surely liked the spirit of Snyder, and Scurry county.

Mrs. Lon Prescott of Big Spring and Lynn Putnam of Midland came Friday to be with their father, O. P. Trueblood, who happened to an accident Friday while at work on the Farmers Exchange store. He is reported to be getting along nicely.

Mr. and Mrs. C. W. Green and daughter left Friday for Los Angeles, Cal., to attend the bedside of the former's sister who suffered a stroke of paralysis. The sister had intended visiting the family here but when getting ready to make the trip suffered the stroke.

Mr. and Mrs. A. E. Hufstedler and five children of Abilene have moved to Snyder where Mr. Hufstedler will be associated with the Snyder Produce Co. The Times-Signal wants to join in a welcome to the newcomers and that they may enjoy health, wealth and success in the finest small city in West Texas.

Mr. and Mrs. A. C. Alexander and family, Mr. and Mrs. Will Shaw, Mr. and Mrs. Melvin Newton and son, Melvin, Jr., and Mrs. A. G. Eiland and Misses Polly Harpole, Mary Bob Huckabee, Johnnylee Shaw, Mabel Isaacs, Violet Bradbury and Lila Mae Williamson and A. E. Duff, Jr., attended the Post Encampment Sunday.

Rev and Mrs. B. W. Dodson of Brownfield, are the week's guests of Mr. and Mrs. Warren Dodson. These fine visitors are known to most Snyder residents and its always a happy reunion to see them come back to their old home town and the Times-Signal joins in a wholesome welcome to them.

Mr. and Mrs. R. L. Smith and son, Robert, returned to their home in Mineral Wells last Thursday after a visit here with Mr. and Mrs. H. J. Brice. They were accompanied home by Misses La Vera Smith and Frances Denson who were guests in the Brice home for about two weeks.

Rev. and Mrs. Alonzo Monk, Jr., Arlington, and Rev. Howard Goodpastor of Colorado were Monday morning guests of Mr. and Mrs. D. P. Yoder. Reverend Monk who is general evangelist for the Methodist church, was enroute to Goldthwaite with Reverend Goodpastor for a revival meeting that opened there Monday night.

Mr. and Mrs. Otis Carter left last Friday for a pleasant week's vacation with relatives and friends in Lubbock, Floydada and Lockney. Otis sort of slipped the advice before leaving that he intended doing some high class fishing while away so it would be wise, folks, to put cotton in your ears when he arrives back home.

City Council has improved the West Bridge street bridge over Deep Creek with new lumber and paint that makes it 100 per cent better and has improved this artery of traffic greatly. A little paint and a few pieces of lumber will make a decided improvement in most anything, where lumber and paint can do any good.

Tall, thin women who want to be well-dressed should have plenty of fullness in their clothing, choose designs with lines that go around the figure and apparently give breadth, accent the outside lines of the figure in decoration—the hips, sleeves, or shoulders—wear flaring lines rather than straight ones, and be sure their clothing fits, as too loose clothes will emphasize their thinness.

FOOT IS AMPUTATED AFTER BAD FALL

O. P. Trueblood, 64, brick mason who has been engaged in building the storage warehouse at the Farmers Exchange, was badly injured Friday morning which resulted in amputation of the left foot, three inches above the ankle.

Mr. Trueblood who, with his wife, resides in Dallas, have been spending the summer here where he has been engaged in brick mason work. While working on the roof of the storage warehouse, Mr. Trueblood attempted to push a heavy stone from the top of the building and not noticing a sharp object projecting from the stone, it became entangled in his clothes and when he saw he had to jump, did so with the stone landing on his foot, crushing it to such an extent that amputation was made necessary at once. Dr. Griffin, at the Emergency Hospital, performed the operation and latest reports are that Mr. Trueblood is resting nicely at the home of his daughter, Mrs. Harvey Shuler. Mrs. John Greene of Snyder is also a daughter of the injured man.

ADVICE TO THE KICKER

If you are a kicker and see the shadow of failure in everything that is proposed to help the town for heaven's sake go into some secluded canyon and kick your own shadow on the clay bank, and give the men who are working to build up the town a chance. One long faced, hollow-eyed, whining, carping, chronic kicker can do more to keep business and capital from any town than all the droughts, short crops, chinch bugs, cyclones and blizzards combined.

NEAR SERIOUS ACCIDENT CAR SKIDS FROM BRIDGE

Dick Chambers and daughter, Beverly, were driving off the Clear Fork bridge east of Roby, Friday, when the rear wheels of the car skidded from the bridge runners and turned the car over.

Mr. Chambers sustained a severe cut on the left hand which nearly cut off the two middle fingers. Beverly escaped uninjured.

The new Ford they were driving was wrecked, but with a few minor repairs will again be on the job.

INFANT OF MR. AND MRS. C. R. WINN DIES

The infant son of Mr. and Mrs. C. R. Winn died Sunday, July 28. Funeral services were held at the family residence at 10 o'clock Monday morning, with Rev. T. M. Broadfoot, pastor of the Christian church, officiating. Interment was made in Snyder cemetery.

KILLS RATTLESNAKE WITH "NIGGER SHOOTER"

Armed with a weapon not so formidable as that with which David slew the mighty Goliath, a T-Bar youth has been waging deadly warfare upon the rettlesnake family in his community. Clyde Haynes, son of M. L. Haynes, residing on the old Larkin farm two or three miles east of T-Bar school house, within the last few months has killed five big rattlers, sixty-eight rabbits, and one hawk with a "nigger shooter", with which innocent little weapon he has become an expert marksman. His latest triumph was achieved Sunday, when a huge rattlesnake became a victim of his deadly marksmanship. Walking across the pasture in company with his father, with the little weapon in his hand, the menacing rattle of the vicious reptile suddenly greeted their ears. He lay coiled within three feet of the boy, head raised read to strike. The youth stepped back unabashed, took aim, and let go. The head of the reptile was almost split in twain, and this modern speciman of man's ancient enemy fell limp and lifeless.

Four times before had a rattlesnake fallen victim to this modern little David. He has practiced with the weapon until he rarely misses his mark. We wonder if there is another boy anywhere in America or elsewhere who can match this record.—Tohoka News.

INFANT DIES

The infant son of Mr. and Mrs. Frank Wilson, died July 24. Funeral services were held in the family residence on Wednesday afternoon with Rev. E. C. Lambert, pastor of the Presbyterian church, officiating. Interment was made in Snyder cemetery.

THANKS FOR PEACHES

The entire Times-Signal force want to extend thanks to Mrs. J. T. Roper for the finest bag of peaches that have been brought to the office this year. They sure touched the spot and there were so many that the bunch actually got their "fill" of peaches.

RETURNS FROM FINE VISIT IN OKLAHOMA

A. C. Alexander of the Snyder National Bank, returned Sunday from a week's vacation trip with his brother, G. H. Alexander, and family at Elk City, Okla. Mr. Alexander was most optimistic of some of the fine rural improvements in the direct section in which his brother lives and was particularly impressed with the fine consolidated school systems that operate at that point. He stated that his brother's farm was just three-quarters of a mile from school and that a bus picked the children up daily, carrying them to and from school.

While Mr. Alexander was at Elk City, he visited the banks and according to their statements, the only fault they have to find is "a place to put their money out."

But while he enjoyed himself to the limit, Mr. Alexander emphatically stated he was happy to return to the best county in West Texas, and that was none other than Scurry, and that Snyder had it on every other town that he noted.

ODESSA VISITORS HERE

The Times-Signal was indebted to Mr. and Mrs. G. W. Flippin, Odessa, Saturday for a fine visit, as well as being given a one year's subscription to the paper by Mr. Flippin.

Mr. Flippin lived in Snyder from 1901 to 1918, and stated his first job was for Scurry County's most widely known pioneer, J. Wright Mooar, at shocking Johnson Grass, receiving the munificent sum of fifty cents a day for his labors. Mr. Flippin was married to a daughter of W. A. Chapman in 1910 and they now have a fine family of four sons and one daughter, two sons and the daughter were with them on their visit to Snyder which was with a brother, W. H. Flippin.

Mr. Flippin is now in the trucking business at Odessa and handles a great deal of oil field work there but both the Mr. and Mrs. want to come back to what they consider their old home, some day, and at no far distant day. We surely enjoyed the fine visit of the Flippin folks and hope to see them some more.

SNYDER COUNTRY CLUB ENDS TOURNAMENT

The Snyder Golf and Country Club ended the Club Tournament Sunday evening when the putting contest was held. The contest throughout has been an enjoyable one and the interest manifested in the tournament was far above the expectations of those promoting it.

The tournament ended with the following results, and the prizes with the names of those contributing prizes are given herewith:

First Place Winner—Cleve Blackard, won the golf club, driver donated by Stinson Drug Co. No. 1 and golf socks from J. H. Sears & Company; Runner-up—Earl Fish copped the golf knickers donated by Snyder Tailoring Co., of which Mr. Smith is a partner. That is what we call cutting expense. Mr. Fish also received $7.50 merchandise check from Burton-Lingo Lumber Co. Consolation prize was awarded to Hugh Biren, Jr., who received a pair of golf shoes donated by Chambers & Rogers.

Several prizes were donated to contestants for various events which are listed below with the winners and donators.

Low Medalist, Dick Chambers, the winner of this event received one box of golf balls, donated by the Snyder Insurance Agency, and a tie donated by Davis-Hargale Co.; Closest Number of Birdies, was also won by Mr. Chambers and carried as a prize a golf cap given by Caton-Dodson and a box of light bulbs contributed by The Texas Electric Service Co.; Putting Contest honors went to Geo. Hagans who received the Stanley Thermos bottle donated by Caton Drug Co. No. 2; Long Distance Driving contest was copped by Burgess Brown, who received a box of golf balls from the Snyder Insurance Agency and a knife given by the Snyder Hardware & Implement Co.; The One-Club Round was carried off by Earl Fish, the prize in this event was a box of golf balls from Higginbotham-Bartlett Co.; the High Medalist honors were won by C. W. Harless for which he received a Meerschaum pipe, given by Warren Bros. Charles only won this by a small margin as a number of the local golfers put forth mighty efforts to relieve him of this honor.

Much thanks are due to Mr. G. A. Hagan and Earl Fish for the splendid success of this tournament. And all members of the club, especially the winners, ask that The Times-Signal extend their thanks to the donators for the prizes and to anyone who contributed in any manner in making the event such an outstanding success in the history of the local organization.

LAKES ARE DRAINED BY DRILLING HOLES DOWN TO SAND STRATA

Mitchell county "dry lakes" are being drained by terraces and by drilling wells down to a sand or gravel stratum allowing the water to drain off through the well. The first well of this kind was drilled on the W. D. McAdams farm and after it proved a success others were tried.

J. D. Fuller reports that he has successfully drained a lake on his place at Cuthbert by drilling two wells in the lake. He now has a good crop of feed and cotton in the lake where it formerly drowned out.

Another lake on the Cook farm southeast of Colorado has been drained by terraces and now has a splendid crop growing in the lake. Two terraces were run with a fall so that water was prevented from going into the lake.—Colorado Record.

The Cooper Style Shop has had their interior remodeled and repainted, making a fine improvement. Mrs. Cooper expects to leave Saturday for the Dallas markets and will go to Galveston before returning home to see Mr. Cooper, who is reported as slowly improving from his illness.

Doctors in governmental service have again warned against germs that collect on paper money. That ought to be some consolation to the fellow who is broke.

Municipal Light Plants Making Good in Texas

Bryan Enjoys Net Profit $65,000 Last Year On 12-Cent Rate

Not long ago an Associated Press dispatch from Colby, Kan., stated at a recent election held there that the city voted NOT to tax anybody or property, real or personal, in the city. Colby owns its power, light and water plant. Profits which go to the city, makes taxes unnecessary. In fact, because of surplus profits, the water rate was reduced 25 cents this year.

These are published facts and a matter of public record.

It has only been recently that the city of Bryan published in the daily papers the fact that their city-owned plant was paying the town's bills with a net profit of $65,000 for one year on a 12-cent rate instead of profits going outside of their town. The article as published said:

"The municipal light, water and sewer plant of Bryan, Texas, a city of 8,000 is one of the most unusual of the some 50 municipal plants in Texas.

"Valued at $742,000 and with outstanding bonds of only $49,000, the plant is a thing of pride to the people of the municipally owned group is, of course, the motor end of it, and with a 12-cent kilowatt rate, is annually contributing largely to the maintenance of the other city activities, including the schools.

"The gross income of the light plant in the 12 months ending June 30 was $193,771, while operating expenses amounted to $44,207, leaving the balance of slightly more than $65,000 for the retirement of bonds and the support of the city government.

"Total receipts for the water and sewer plants, as well as the light plant, was $144,687 gross income and $93,502 operating expenses.

Tax Rate $1.70

"Largely through the operation of the municipal plants, Bryan is able to get along on a tax rate of only $1.70 of which $1.04 goes to the schools.

"H. A. Burger, utilities commissioner, who has charge of Bryan's municipal plants, is one of the outstanding advocates of municipal ownership in Texas. He was prominently associated in the organization of the Public Ownership League of Texas, launched at Georgetown some months ago. Burger has a theory he has put in practice and which is benefiting the city to a considerable extent. It is rather a broad plan of helping to develop unimproved lands around the outer edges of the city, and thus increase the taxable values, bringing extra dollars into the municipal till.

"Upon a property owner's assurance that he will make improvements, the city extends, at no cost to the property owner, its utilities, aiding in the sale and improvement of the property.

"The plant belongs to the citizens of Bryan," Mr. Burger says, "and it strikes me that the proper thing to do is handle it in a way that helps us all. That is why we do not charge a connection fee when we hook onto a house. We don't have to take things up with some distant headquarters when we want to have them done. It is an advantage to be dealing with ourselves."

Street Lighting

"Bryan, by the way, eleventh among cities of comparable size in the United States in street illumination. There are 258 street lights, operated at no cost to the people or city, except for the fact that they are pulled by the plant.

"Bryan has 12 miles of paved streets and four of gravel, much of which has indirectly been paid for, or at the least made possible, by the operation of the light plant. When paving is needed, the light plant, out of its earnings, retires sufficient of the utility bonds to permit the city issuing paving certificates.

"Some idea of how the plant has been expanded during the last 10 years, and certain proof that it is being kept up with the city needs is obtained from the latest audit of the books and appraisal. In 1917 the plant was valued at $149,448, and last year at $742,080. There are now 1,475 light and power connections.

"Will Never Sell"

"The eficiency that marks operation of the light plant is extended to the other municipal utilities. In the case of the sewer plant, the monthly charge has been cut from $1 to 50 cents, and as rapidly as the bonds are retired will be further reduced.

"The large Brush Diesel engines are used in the plant and Bruger says they are extremely satisfactory.

"Will Bryan sell its light plant?" Mr. Burger was asked.

"Never!"

"After that emphatic reply, he launched into a discussion of reasons for municipally owned plants, among other things, pointing out that before long the plant will be owned free of debt and represent a bona fide asset to the people and make lower rates possible."

Snyder taxpayer who have read the above may be interested in knowing that there are about 600 Texas municipalities owning their waterworks system while the Municipal Utilities magazine says that the following Texas towns own and operate their light and power plants: Austin, Bowie, Brady, Brownsville, Brownfield, Bryan, Coleman, Denton, Commerce, Garland, Georgetown, Granbury, Greenville, Hamilton, Hale Center, Livingston, Mansfield, Refugio, San Augustine, Sanger, Seguin, Sermour, Shiner, Taylor, Stratford, Spur, Temple, Tulia and Vernon.

Our columns are wide open to the discussion of any [illegible] problem as long as the author's name is signed to his article.

CAPT. NUSSBAUM UP IN PLAINS DISTRICT

Snyder's good friend, Captain Cyrus Nussbaum has been having wonderful success on the Plains. A letter to the Times-Signal, Tuesday, said:

"I have had fine success since I last wrote you. In Petersburg we rolled up a membership to 176, and in Hale Center 164. Left a fine spirit in both places. I came to Panhandle one week ago and for the second time put over a much bigger week with 227 members and reorganized their Chamber with a board of directors and officers. They are wonderfully pleased."

No one enjoys hearing fine words from Capt. Nussbaum than the Times-Signal and it is our sincere hope that his remarkable success tags his every footstep is our heartfest wish.

Times-Signal Endorses New Governor Name

Col. "Bill" Easterwood of Dallas, Logical Man for Position

Editor Dick Gaines of Rockwall, who operates one of the well known Texas publications is the first gentleman in the state to get away from the old-line politicians and come out flat-footed for what appears to be the best and most logical governor selection yet. He has officially endorsed Col. "Bill" Easterwood of Dallas and the Times-Signal throws its hat right into the ring alongside of Editor Gaines.

According to the Rockwall Success, Editor Gaines has the following to say concerning Mr. Easterwood:

Soon the people of Texas will begin seriously to look about to find a man to occupy the office of governor of this great empire for the next two years and as this is a free country in that every citizen has a right to run for office and every citizen has a right to sponsor the candidacy of any one they might choose, we are taking the liberty through the columns of the "Success" to suggest the name of a man for governor, who has never sought the honors of the people through public office.

At this time we see through the press the names of several of our leading citizens who might be induced to make the race, men who have wrought much real service for the people and whose honor and integrity are above reproach, but each of these gentlemen are what might be termed "politicians" in that they have heretofore and are at present holding public office. We believe the time has come when Texas should select as her Chief Executive a "Business man" who owes no political debt to any man and who can and will from a sound business standpoinf conduct the affairs of this state and help lift from the shoulders of the people much of the tax burdens that they are bearing at this time.

Our suggested candidate for governor is a Texas born and reared business man who has a heart genuinely filled with the love of his state and who has, in the private ranks rendered to and for the people services that will be measured only as the ages come. The name of our candidate for governor is Wm. E. Easterwood of Dallas, Texas. We are proud indeed to number him one of our best friends.

[illegible] we are passing on to our readers some information we gather concerning Mr. Easterwood, the man [illegible] and [illegible] our people.

Mr. Easterwood was born at Wills Point, Texas, in 1885 and completed his High School course in the public schools there. Like all [illegible] boys, [illegible] and [illegible] their living in the [illegible] to travel [illegible] West Coast [illegible] and became [illegible] Wichita [illegible] Entering business seven years ago as a manufacturer of "Orbit" chewing gum, by his good methods, and his fair dealings with the public, Mr. Easterwood has now the largest gum business in the Southwest, operating his business from the city of Dallas, and employing some 40 people. From his gum business he has made several million dollars during the past seven years.

One of the chief prides of Mr. Easterwood is that he lives in Texas and wherever he goes, he sees to it personally that Texas is well advertised; that the wonderful opportunities of this state are broadcast to the people of other states and also to the world at large.

Mr. Easterwood, while succeeding in the business world to the extent of millions, has not closed his pocket book to the needs of worthy institutions and suffering humanity, but to the contrary has contributed liberally; in fact during the past seven years, he has given over one hundred thousand dollars to widows, orphans, churches, charity and suffering humanity.

At this time he is organizing a trust fund of which he is a large donator, for the purpose of taking care of children of widows who are compelled to work for a living.

Mr. Easterwood, like many other of our wide-awake business men, can foresee the great future of aviation as a mode of transportation and it is said that he has taken more interest in national aviation than any man in the United States outside of Colonel Lindbergh. At the present time he has offered as a premium $25,000 for any aviator who can make the non-stop flight from Dallas, New York to Rome. Last year he spent six months in Europe studying commercial aviation, during which time he flew all over Europe learning first-hand the intricate problems confronting aviation in order that he might give this information to his government.

When he went to Europe he landed from boat at Cannes, France, flew to Rome, then to Naples, then to Venice, thence to Vienna, to Berlin, to Calone, to Paris, to London and Plymouth. In every country in Europe he met and talked with personally the leading dignitaries there. In Germany he met the Crown Prince; also met and talked with Mussellino at Rome the only living dictator in the world, who said of Mr. Easterwood that "Mr. Easterwood was the greatest patriot in the world and would be still greater if he made through his efforts aviation first in his country."

He is a director of the Dallas Trust & Saving Bank, Dallas Title and Guaranty Company, United States Bond & Mortgage Company, Great National Life Insurance Company, Southern Apparatus Fire Company, and is National Aeronautic Committeeman of American Legion, National Vice-Commandant U. S. Marine Corps League; and Vice-President American Legion Department of Texas.

We have given the above information concerning Mr. Easterwood, not because we think his wealth qualifies him for governor of Texas, nor that his travels in the interest of aviation for his country necessarily qualifies him; but with his experience in the business world, and his honor and integrity above reproach, and knowing that his "dollars" are not his "God" but that he makes his dollars render service for humanity, and with his heart overflowing for the welfare of the people of his state, qualified, we believe, from every standpoint to life Texas out of the "political mire" in which she so often finds herself, we suggest to the Democrats that no greater service for the people could be rendered than drafting this Texas-born and Texas-reared honest business man for the office of governor.

BLEEDING SORE GUMS

If you really want quick, certain, and lasting relief from this most disgusting disease, just get a bottle of Leto's Pyorrhea Remedy and use as directed. Leto's is always guaranteed.

STINSON DRUG CO. NO. 1

THE NEW MONEY

There has been a mad scramble in the banks to acquire some of the new, unfamiliar, attractive currency. The treasury is prepared to meet the demand only to a limited extent, because of the big problem of distribution.

So, if you have not any of these new bills yet, don't be worried. Twelve months from now the old bills will be a curiosity, not the new ones.

The new ones, by the way, are expected to save the government about $1,500,000 a year, due to their smaller size. The new bills are more convenient in every way, making counterfeiting more difficult and are more durable than the old bills, which will improve the sanitary condition of the money we handle.

MRS. HOOVER'S NIGGER PARTY

Yes—there is no use to "lie" about it—the course of Mrs. Herbert Hoover, as first lady of the land, with a few other prominent women of Washington, in receiving as a guest and entertaining with a party, the wife of a negro congressman, is to every true, southern-born person a regretable affair. ("Uncle Bill" Kellis will say that it is a "stinking and kinky" affair.); and as we view the matter, there is no reasonable justification for her course in the matter.

But we are waiting with some interest to hear from "Uncle Bill" Kellis. We are expecting that all Hoover Democrats will be told to "pull the nigger wool out of their teeth." Yet, no one can deny that what we state above as to the issues of the last presidential campaign is a statement of facts as they existed—those voting for Hoover chose as they saw it, the lesser of two evils.—Bronte Enterprise.

I would like very much, Brother West, to reproduce your entire able criticism of Mrs. Hoover, but force of habit led you away from the subject, and you trailed off on prohibition. I can't see what prohibition has to do with having tea with a nigger.

While it is gratifying to feel that you do not approve of Mrs. Hoover's act, yet I am surprised at your astonishment at the spectacle of the first lady of the land having tea with a she nigger. I sure am. When you were whooping for Hoover last summer, with your knowledge of current events, you should have known that Herbert Hoover stood for nigger social equality, and what a man stands for you can bet that his wife is usually right up by his warm side.

You know that for the well-being of both races, Woodrow Wilson ordered that negroes and whites be segregated as employees of the government; but when Hoover became a member of the Coolidge cabinet, he revoked this rule and forced white girls to work with nigger men and women. Everybody knew this, and when a protest was made Mr. Hoover let it be known that the color line would not be tolerated by him. During the campaign last summer every man and woman in Texas had an opportunity to learn these facts; but they went ahead and voted for what they got.

The 300,000 Hoovercrats in Texas, as a rule, are not nigger lovers. They don't stand for nigger social equality any more than I do, but they shamelessly broke faith with the white man's party—the party that waded through blood for four years to preserve the purity of the race—and voted for the man who seeks by precept and example to bring the black and white races to a social level.

Of course the masses were blinded by religious prejudices in their choice for president; but when the scales fell from their eyes, they beheld a she nigger at tea with the first lady of the land. Of course, they are disgusted with the mess, but they had their work exemplified. They now realize the result of following the lead of such political prostitutes as Tom Love, Bob Shuler, Parson Sixgun Norris and the other disciples of religious hate. But they won't do so any more, Brother West. They have learned their lesson. They now see how they lost their terbacker when they went off after strange gods. After taking one look at a nigger at the White House table, they will run over each other to get back into the white man's party—see if they don't. These political prostitutes got these people into this nigger jackpot, but they can't do it again.

But, Brother West, we ought not to blame Mrs. Hoover for having a she nigger at her tea party any more than we would blame a polecat for carrying a stink gun with him on social and business errands. The polecat is built that way. He may act nice and be popular most of the time, but he is prone to act up to his raising, and then he explodes a big disbust. Mrs. Hoover is a good woman and means well, but, Brother West, she is liable to act up to her raising and set her table with a mess of buzzard. Sister Hoover is not naturally a nigger lover by any means, but it is by practice that she is so. But she was your choice—not mine. I didn't vote for her. Her having a nigger at tea was not my work. I tried to head the folks off from this mess, but nothing doing. They are sorry and ashamed now. They should be.

From now on to the end, Brother West, never trust a Republican where a nigger is concerned, because he will do you dirt. While Mrs. Hoover entertains niggers and whites on equal footing, yet she wouldn't let my dog or your dog even smell of her dog, much less invite us to a tea party. Common white fellows like you and I would be handled over to the police if we were to speak to her dog. But the nigger—O, well.—Sterling City News-Record.

THE TOWN DOCTOR

(The Doctor of Towns)

—SAYS—

DO NOT OVERLOOK THE LITTLE THINGS

To one who does'n know, the little things done or left undone do not make any difference, but there are always those who do know, and they are usually the ones who count most.

It belittles a business, a town, or a person to overlook the little things.

Overlooking little things is one of the main factors that makes a small town small.

It is the small things that often make the difference between profit and loss in business, especially in dull times. With an individual, it is refinement, courtesy, cleanliness; with a store, is is stock arrangement, pleasing, afficient salespeople, tidiness andathmosphere; with a town, it is clean streets, well kept lawns, traffic regulations and progressiveness of the citizens.

A party of tourists once stopped in a town of some three thousand population and inquired of a pedestrian, "Where is the business district?" The pedestriann was highly insulted and replied, "Straight ahead a mile and a half." He was in sulted because it so happened he was in front of his own store whih he advertised as "The center of things". A good joke on the tourists thought many who were told of it. But when the tourists got a mile and a half further on, they found nothing but country. It now developes that the tourisit was a wee bit more than a mere traveler. The man and his family had decided to locate in a town in that section. Today, that man with a family of six has built a $16,000 home on a half block purchased form the from the previous owner.

The most successful merchandising concerns in the country have built their business on courtesy, service and little things. Your town is a business, and courtesy and service extended by you to youh neighbor and the potential customer of your community business will also build. Be funny, make wise cracks, fail to sell your community when you have the chance, and you will tear down.

When a merchant, an organization or your newspaper does anything for your community, tell them about it, whit them a letter, call them on the phone, or stop in and see them and express your appreciation. You get as much good out of anything they do for the community as they do. No one can do anything for the town but that you won't benefit. If you don't or won't do anything yourself, the least you can do is to thank those who are doing something through which you will benefit.

It is a little thing to do, but it will pay you a profit.

This Town Doctor Article, one of a series of 52, is published by the Scurry County Times-Signal in cooperation with the Snyder Lions Club.

Note: These articles are written by The Town Doctor, without prejudice or malice and are impersonal. They treat each subject as applied in general—not to a particular town. Opinions favorable or otherwise on subjects covered are solicited and may be addressed to the paper in which these articles appear, or to The Town Doctor, Suite 350, McCormick Building, Chicago, Illinois.

How to Raise Poultry

By Dr. L. D. LeGear, V.S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE XXIX
BAN THE "GET THE AXE" CURE

Little Excuse for the Widely Prevalent Custom of Killing Chickens at the First Sign of Illness; Use of Simple Home Remedies or Easily Obtainable Commercial Preparations May Save Valuable Birds and Many Dollars of Profits.

Editor's Note—This is another story in a series of 52 stories on poultry raising written by the well known national authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

The wife of a friend of mine tells with great relish of waking up not long ago and finding him in the throes of a violent nightmare. He was struggling desperately against some imaginary assailant and was shouting at the top of his voice, "No-no-no! Don't! I tell you it's toothache, darn you—nothing but toothache!" Being finally aroused up and pressed for an explanation, he admitted rather sheepishly that he had dreamed a huge rooster had him penned up and was preparing to cut his throat with his sharp spurs because he looked so droopy and had a huge swelling on his jaw. Not wishing to lose this advantage, friend wife at once reopened an argument that had been waging for months between them—"Serves you right if it really happened," she snapped. "Any man who is too lazy to save his birds that could be saved with just a little trouble ought to have to take his own medicine."

Sometimes I feel much the same way about it, for chickens are much more than a mere hobby with me. But aside from all such sentimental considerations as might influence the enthusiast, there are some good sound reasons why it is unwise to resort to the axe every time a chicken begins to show signs of some more or less serious affliction. For one thing, the first examination doesn't always tell the whole story. Not every sniffle spells roup nor is every droopy, dispirited fowl infested with worms to an incurable degree.

All sick fowls, no matter what their ailment, should be removed at once from the flock and either killed or doctored. Chickens can be cured as well as live stock, or people, when sick, and I believe in individual treatment in most cases. I have been doctoring poultry diseases on my experiment farm for more than 20 years and have had excellent results except in the incurable ailments, such as T. B., cholera, baccillary white diarrhaeo and other diseases known to be incurable.

A well protected coop, box or pen, apart from the flock, is very necessary in which to place the sick fowls. Sick chickens placed in such quarters can be watched. If they develop unmistakable signs of diseases known to be incurable, kill them.

My many experiments during the past several years have proven to me that Permanganate of Potash, the medicine that turns water a reddish purple color, is of little or no value in preventing or curing diseases of poultry, when used in the drinking water in the regular way. But, I find Epsom Salts very beneficial in preventing and curing many diseases of poultry. Each sick fowl should be given one teaspoonful of Epsom Salts, or for flock treatment, one pound mixed with a small tempting wet mash feed for each 100 hens.

Sanitation and disinfecting are two of the great secrets of successful poultry raising. Poultry houses and brooder rooms should be thoroughly cleaned often, and sprayed freely with a good dip and disinfectant. Properly built chicken houses with high open fronts that face the south, that are kept clean and free from insects by spraying with a good dip and disinfectant will do more to keep fowls healthy than anything.

In many cases a cure is possible with simple home remedies as easily administreed as the flannel rag soaked with camphorated oil on baby's chest when he has a cold. Furthermore, any druggist or feed merchant carries reliable preparations for the treatment of practically every poultry disease that is amenable to medication. Such medicines are always accompanied by simple, complete instructions, not only for the dosing of the feathered patients but for the general care needed to make treatment successful. Why then let them die or deliberately kill them off when they can be easily cured.

Poultry raising is a business that should be run for profit. It is for the poultry raiser to determine, therefore, whether or not any individual care will justify the labor and expense necessary to effect a cure. It is unquestionably true, however, that many fowls are needlessly sacrificed when a little extra trouble would be repaid many times over. Don't forget that every fowl in your flock represents an investment of both time and money. You throw that away in addition to sacrificing possible future profits every time a bird is subjected to the "get the axe" cure if less drastic methods would have saved it.

COMMUNITY PROJECTS

A LIBRARY OF GAMES MAY SERVE YOUR YOUNG PEOPLE

When I was chairman of the Civic Committee of the Thursday Club of St. Paul, the thought came to me that if in cheerless homes children had something to amuse them, they would spend less time on the streets or at moving picture houses at night.

We asked our Library Board if they would give out games, as well as books, in the juvenile department of the library. They voted to do so, if we would buy the games.

We bought 800 games at a wholesale house and in a few weeks a thousand children had taken out cards for them. We pasted the rules in the lids. We counted the cards or pieces in each box, so that if any were missing, the game was set aside to replenish any other in the future. A fine of 2 cents was imposed on any one losing any part of a game.

We made oil cloth cases, shaped like envelopes, with clasps, to hold the boxes for preservation.

We feel that even the simplest game is not only pleasurable, but more or less of a mental stimulus. Many of them were educational games, while others were not informative; but it was the moral effect we were working for, and this was achieved.

Miss Caroline Friend Fairchild,
676 Summit Avenue,
St. Paul, Minn.

WHY NOT HAVE COUNTY PARKS IN SCURRY COUNTY?

Art. 6078, R. C. Statues, Ttx for parks—Each commissioners court is authorized to levy and collect a tax not to exceed five cents on each $100 of assessed valuation of the county for the purchase and improvement of lands for the use as county parks which shall consist of not more than one hundred acres and shall not exceed more than four in any one county. No such tax shall be levied and collected until the proposition is submitted to and ratified by the property tax paying voters of the county at a general or special election called for that purpose, provided a two-thirds majority of the property tax paying voters of such county, at an election held for such purpose shall determine in favor of said tax. If said court desired to establish two or more of such county parks they shall locate them in widely separated positions of the county. Said court shall have full power and control over any and all such parks and may levy and collect an annual tax sufficient in their judgement to properly maintain such parks and build and control pavilions and other such buildings as they may deem necessary, lay out and open driveways and walks, pave the same or any part thereof, set out trees and shrubbery, construct ditches or lakes and make such other improvements as they may deem proper. Such parks shall remain open for the free use of the public under such reasonable rules and regulations as said court may prescribe. (Acts. 1915, p. 102.)

County parks would not cost the county tax payers but little, and they would be a thing of beauty and a joy forever and we would like to have the people express their opinion through the columns of the Times-Signal.

Craig B. Hazlewood, president of the American Bankers' Association, says:

THAT in this nation we have garnered success like wild rice out of the abundance of nature. The richness of this country has been such that only the most complete lack management could result in failure.

And after each success we have expressed satisfaction over our good management, when in reality much of our success should have been accredited to Divine Providence and good fortune. Men have too frequently succeeded out of the richness of their environment, and then have congratulated themselves upon their good management.

But if there is any lesson to be learned from the studies and surveys which have been made of business in this country in recent years, it is the imperative necessity for better management. We have learned that the primary reason for success or failure today is not economic conditions—not environment—not location—nor any other factor—but management.

Good management has made enormous strides within the past few years, but it still has before it opportunities for major improvements in industry, more important than any we have ever experienced in the past. There are possible refinements in operation, closer budgetary control, standardization of a thousand commodities, simplification of processes, greater mass production and still lower costs, faster turnover, more efficient machinery, and many other possbilities, all of which will bring to industry most gratifying returns, with economies and savings heretofore unknown.

These benefits, moreover, will extend to the ultimate consumer, the purchasing power of whose income, and the sum total of whose permanent capital will be increased many times.

RECEIVES PAINFUL INJURY FROM STEPPING ON HOE

Kathryne Smith, the four-year-old daughter of Mr. and Mrs. Raymond Smith, south of Snyder, received painful injury last Friday afternoon when she stepped on a hoe.

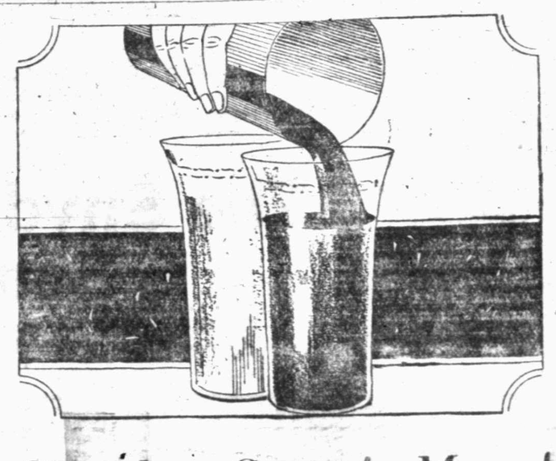

Kathryne, with her mother and father were in the field and Mr. Smith had just finished re-sharpening the hoe and laid it down when the child stepped on it. The left foot was cut to the bone. The child was rushed to the doctor and is now getting along fine.

In England a man 100 years old walked eight miles to go to court. Over here they would walk that far for a cigaret.

Gladys Smith, 17, of Cardiff, Wales, was sentenced to prison for a year after she confessed to setting fire to six buildings "just for excitement."

WATER COMES IN

Drillers on the Cottingham and Briscoe Truss No. 1 well brought in a fine water well at 150 feet, Saturday, that is being cased off for use. According to W. L. Powers, drilling operations are coming fine at the Fluvanna well and many county folks are being attracted to the scene of the oil test.

Chocolate Syrup!—Mmm!

DO you know that chocolate syrup for use in making beverages and for flavoring foods can be bought in cans? And do you know many people who don't like the taste of chocolate? Yes and no? Then I'm sure you'll be interested in the following recipe for using this syrup:

A Tested Recipe

Chocolate Waffles: Beat three egg yolks well, and add one and one-half cups milk. Mix and sift two cups flour, four teaspoons baking powder, one-half teaspoon salt, and add. Add one-half cup of chocolate syrup and one-third cup melted butter. Fold in the stiffly beaten whites of the three eggs and one-half teaspoon vanilla. Bake on hot waffle iron and serve immediately, a quarter to each person, topped with sweetened and flavored whipped cream.

But chocolate waffles are only one of the ways in which you can use this delicious syrup. The tall white glasses all frosted over from the chilled drink within, which are now making their annual appearance on porches and lawns, in dining rooms and pretty much everywhere else, often contain some of this succulent syrup. Try, for instance, this second tested recipe:

Chocolate Cinnamon Malted Milk: Shake together in a shaker, or in a large glass jar, six tablespoons malted milk, four tablespoons chocolate syrup, one teaspoon cinnamon, one-half cup water, two and one-half cups milk and plenty of cracked ice. This recipe will fill four tall glasses, and wherever the lucky quartet who get it are located, they'll exclaim in chorus: "Mmm!"

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

BUSINESS AFFAIRS

It seems now that a new enterprise, which may prove far reaching in its effects, is about to force itself, as it were, on the Fluvanna community. We say force itself, not that it is unwelcome or that it is not appreciated, but because it is coming to us of its own accord, unexpected and uninvited. Like the visit of an unexpected friend, we were not looking for it but are certainly very, very glad to have it come.

The new enterprise referred to is this: On last Friday Mr. J. T. Bulmer of Dallas purchased of J. E. Jones one-half section of land lying along and including more than a mile of the cap-rock about five miles due north of Fluvanna. The trade appears to be safe and the price to be paid is a fair one provided that the title, etc., are made good, and of this there seems to be no doubt. What Mr. Bulmer is really purchasing is rock — lime rock. He seems not to care anything about the land, nature of the soil, etc.; it is rock that he wants and of this it would seem that he is getting an ample supply in the purchase being made. In order to be more sure of the extent of the ledge of rock being purchased holes—wells without water—are being drilled now on top of the bluff. Mr. Bulmer declares that this rock is exceedingly rich in lime; and that it is his purpose to establish a huge lime kiln. He will probably secure his fuel from the Justiceburg oil field which is only a few miles away. If these things are done (as now seems very probable) it will mean more industry, more people for the community and school, more business and more general growth and development.

The bit in the new oil test well, two miles south of town, is now resting at a depth of about 310 feet, waiting for the arrival of 15-inch casing.

With the fine rains which recently overspread our community, the new school enterprise, the oil well and a big lime kiln about to open; just watch Fluvanna grow.

Willie Miller (on the former Craft ranch) came in Monday and placed an order with our lumber man for materials for the erection of another comfortable four-room residence on the ranch.

P. C. Chenault is purchasing paint here with which to beautifuly his ranch home west of town.

W. B. Dane has recently had his residence property here repainted. This property is housing the operator and switch board of our phone business.

CHURCH SERVICES

The First Baptist church held its regular services last Sunday.

The Christian church is conducting a meeting at the arbor where dinner was again served last Sunday. It is expected that this meeting will close soon. The Presbyterians called off their regular services last Suhday on account of the meeting in progress.

On next Sunday the big union meeting under the auspices of the Presbyterian and Methodist churches will begin at the arbor. Rev. E. B. Surface, D.D., of Abilene, is expected to do the preaching. Many Fluvanna people will well remember Dr. Surface, he having conducted a like meeting here two years ago. He is a college and seminary trained minister of considerable experience both as a pastor and as a revival preacher. While he is an able and devout minister he is, at the same time, a plain and most genial character. The two churches uniting in this effort, being thoroughly evangelical, trusting Jesus Christ absolutely for salvation (not relying upon works as a means of being saved) and believing and practicing the teaching of the Bible as their only infallible rule of faith and practice, are thus able to unite in the effort to win lost souls for Christ and work together most cordially for the upbuilding of His cause and kingdom among us. We most cordially invite all evangelical church people not only to attend the meeting, but to work freely with us to the end that many may be saved, that righteousness may be built up among us and the bonds of a beautiful Christian fellowship much strengthened and extended. "So mote it be"—so be it.

SICKNESS

Mrs. C. F. Landrum (previously mentioned in this column), being in a very critical condition was taken back, the third time, to the Lubbock Sanitarium last Thursday night for further special treatment. Word came to relatives here Monday that the patient was in an exceedingly critical condition; accordingly several relatives hastened to her bedside. Further word came Tuesday morning (the date of this article) that the sick woman was a little better. Many relatives and a host of friends are waiting almost breathlessly for further and more encouraging reports.

Mrs. Clark (previously mentioned) is still in the same sanitarium, but is said to be doing very well.

J. B. Bley, a rheumatic patient (previously mentioned) is doing quite a bit better at this time.

TRIPS AND VISITS

Olon Ainsworth and family of Spur and Clarence Bley and young daughter of Olton and other near by relatives have recently been most welcome visitors in the J. B. Bley home on account of his illness.

John A. Stavely and family and W. H. Jones and family went to the Lubbock Sanitarium last Sunday on account of illness above mentioned.

J. I. and Mrs. Boren visited their daughter in Roscoe last Sunday.

J. V. and Mrs. Boynton attended the great revival at Union last Sunday.

C. D. Cribbs and family recently returned from an extended trip of sightseeing and visiting which took them over a large section of the state. Some of the more important points reached were Austin, Houston, Galveston, Shreveport, La., Dallas, Fort Worth and—and—Snyder and Fluvanna. While stopping in Austin they, of course, visited the Capitol including the governor's reception hall, the Senate chamber and the Representative's hall. We have not learned just what they saw or did at Galveston—whether they went fishing, boating, bathing or what not. Surely they must have gotten molasses and candy at Shreveport. On their return they visited many relatives and old friends in Dallas, Tarrant, Clay and ack counties; and brought Aunt Lanham home with them. They report a great time with only one puncture. Just think of it!

Mr. and Mrs. Elmer Beryhill of Dodd City are spending a week here visiting the W. G. Sims family connection.

Several days ago Miss Lucile Tarter was married to Marcus McGuire and gathered their belongings and journeyed to Byers, Texas, where they are now making their home. Thus, our community loses two of its fine young people.

"Cotton" Brown of Sweetwater spent the week-end here with the W. G. Sims family.

W. L. Gray of Treadway was here last Saturday on business.

Judge Dave Darwood of Gail was here last Monday on business.

Jewel Clayton and wife of East Texas are here visiting Mrs. Clayton's parents, F. W. and Mrs. Lavender.

DERMOTT NEWS

A part of our community has been blessed with another good rain during the past week.

The Baptist meeting will begin Sunday morning at 11 o'clock. We are praying that there will be a successful meeting. Brother Sanders will do the preaching. We are hoping for a large attendance. Men folk are invited to be present at the arbor Friday to cover it and get ready for the meeting.

We are glad to report that Mrs. S. H. Lebow, who has recently undergone a serious operation, is able to be back at home again.

Mrs. Warren Scrivener and Mrs Kate Stringer, who have been taking treatments at Colorado, returned home last of the week.

Mrs. William Chowus, who has been sick for the past week, is able to be up again.

Mr. and Mrs. Jean Sander are the proud parents of a baby boy, born Thursday. The mother and child are getting along nicely.

Mr. and Mrs. Harvie Greenfield are the proud parents of a baby boy, born Monday.

Mrs. Alford Browning has been having some dental work done this past week.

They have just finished grading the school district line road between Dermott and Fluvanna school district. We are glad to have this good road. It will be a benefit to our community.

Harvey Johnson, who got kicked down accidentally Friday morning by a horse is very sore, but not hurt seriously. He is able to be up and going.

Grandma Chowns, who fell and hurt her leg recently, is able to walk again. We hope she will be well again soon.

Mr. Farey left last of the week for his home on the Plains. He has been working as relief Santa Fe operator the past month.

Mr. and Mrs. Robert Fletcher and daughter of Bethel community spent the week-end with Mrs. Will Reynolds.

Abe Cargile and wife of Polar spent Sunday with Mr. and Mrs. Jean Sanders.

Miss Floy Williams of Portales, N. M., is visiting with relatives.

Clyde Adams of New Mexico spent the week-end with his friend, Harvey Johnson.

Miss Corene Garden spent the first of the week with relatives at Cleburne, Texas.

Melton West and wife and son are visiting relatives at Paint Rock and other places this week.

Zeke Rhea of Tahoka spent Saturday night and Sunday with homefolks.

Harve and Bolivre Browning made a business trip to Baird, Texas.

A. N. Edmonson, our cattle buyer of this community, and DeWhitt Rhea made a business trip to Sweetwater Saturday.

Newton Frisbie and family, W. T. Rhea and Mary Hulsey and children attended the Christian meeting Sunday night.

M. J. H.

HELPING TO BUILD TEXAS

The first day's operation of the Bowdoin canning plant at Comanche saw 4,188 pounds of berries received from producers at prices that were satisfactory.

Matagorda, one of the oldest towns in Texas, recently celebrated the introduction of electric lights after existing as a town 101 years without that convenience. The Central Power & Light Co. is supplying the town.

The phenomenal growth of Lubbock is indicated by the fact that from 670 telephone connections in 1920, in 1928 it had 3,043.

Eighty-five thousand acres of ranch land near Turkey have been cut into farms.

VITAPHONE TRIUMPHS IN COMING "NOAH'S ARK" SPECTACLE OF THE AGES

Vitaphone having thrilled the world in a series of sensational talking pictures—finds its most magnificent demonstration in "Noah's Ark"—epic of all humanity. Touching the ends of the rainbow-span of fifty centuries — "Noah's Ark" includes in its cast more than ten thousand characters, and was more than three years in the making. Darryl Francis Zanuck wrote the story. Michael Curtiz, who produced "Moon of Israel," and other spectacular successes abroad, directed. The sets covered more than a square mile and the cast is one of the most impressive ever assembled.

Dolores Costello is starred with George O'Brien. In the supporting company are Noah Beery, Louise Fazenda, Guinn Williams, Paul McAllister, Nigel de Brulier, Anders Randolf, Armand Kaliz, Myrna Loy, William V. Mong, Malcolm Waite, Noble Johnson, Otto Hoffman and Joe Bonomo.

Vast and thronging are the scenes and situations of "Noah's Ark." The love story that runs through it is glamorous and moving. Characters wrecked on a continental train, find themselves in Paris at the opening of the World War. Passing through the soul-stirring time—they find themselves wafted back fifty centuries to the days preceding the Flood—actors in scenes of heathen worship, debauchery, slavery—and in the idyllic life of the family of the "one just man," Noah.

Miriam, handmaiden in the household of the patriarch, is captured by the heathen soldiers. Her lover, Jepheth, son of Noah, in trying to rescue her, is tortured and sent to exile. Then the Flood!

OFFICIAL DATA

Taken From Records of the County Clerk

New Cars Registered

J. L. Byrd, Snyder, Ford Roadster.

Mrs. Sallie Binion, Knapp, Ford Tudor Sedan.

Oil and Gas Leases.

E. P. Simson and Mary Simpson and Imogene and Imogene George a feme Sole, to Frank Magie; the Et ½ of the NW ¼ of Sec. 28 in block 3 of Huston and Texas Central Ry. surveys in Scurry County and containing 80 acres or more.

C. D. Jones et ux to V. E. Cottingham, 36 acres out of Sec. 484, block 97 of H & T C Ry. Co. survey.

T. B. Faver et ux to V. E. Cottingham, being all of the N ½ and SW ¼ of Sec. 371 in block 97 of the H. T. C. Ry. Co. surveys and containing 480 acres or more.

D. A. Jones et ux to V. E. Cottingham, being all of the SW¼ of Sec. 484, except some town lots along the N side of said quarter Sec. in block 97 of H. & T. C. Ry. Co. surveys and containing 116.1 acres more or less.

W. F. Mathis, et ux to V. E. Cottingham, being all of Sec. 537, block 97 of the H. & T. C. Ry. Co. surveys and containing 161¼ acres more or less.

W. J. Beaver et ux to V. E. Cottingham, being all of the S½ of Sec. 372 in block 97 of the H. & T. C. Ry. Co. surveys and 338 acres or more.

Mrs. Rebecca Knight, a widow to Milton Doughty and Milton M. McCabe, SW¼ of Sec. 28 in block 3 of H. & T. C. Ry. Co. surveys containing 156 acres.

S. H. Ramsour et ux to P. A. Johnston; all of Sec. 248 in block 97 of the H. & T. C. Ry. Co. survey and containing 631.3 acres of land.

MOVING FROM HERMLEIGH

According to the Hermleigh Herald, J. B. Etheredge and family are moving to Snyder where they will have charge of a rooming house, it is understood.

GIVE US YOUR HELP

The Times-Signal needs your help in giving the news of Scurry county. What do you know that is helpful, constructive — news of things you or your neighbors are doing that their neighbors over the county would like to know? Please tell us about it.

Five Alibis for Erring Husbands

The West Texas newspaper is dedicated to the task of giving the local news and not to disturbing alibis to hen-pecked or erring husbands. But—

According to Dr. M. L. Condon of Chicago, a person may be wrongfully accused of alcoholic indulgence if only the evidence apparently disclosed by the breath is taken at full value.

In other words, the doctor declares that the characteristic odor of the alcohol breath may be caused by many things besides alcohol drinks, among which he names the following:

Eating several apples.
Eating too much ice cream.
Eating many oranges.
Drinking sweet cider.
Eating new bread.

Five alibis for husband, but it's doubtful if wife would believe a single one of them.

STATISTICS OF ST. LOUIS ROBIN FLIGHT

Dale "Red" Jackson and Forest O'Brine earned $31,255 jointly or $15,672.50 each in the record breaking flight of the St. Louis Robin which ended here tonight.

This did not include $2,756 in cash sums given them nor checks and cash which has been sent to the chamber of commerce. Eighteen days' pay as commercial pilots must also be figured into the total. The Curtis-Robertson company, their employer, has declined to reveal their regular salaries.

The mileage of the Robin was estimated at 25,200 miles on a consumption of approximately 3,590 gallons of high test fuel, oil totaled 158 gallons and 48 contacts were made for refueling. The propeller revolutions, counted at 1,300 per minute, approximated 32,000,000.

The Curtiss-Robin at Yoder field is identically the same as the St. Louis Robin with the exception of the engine, the former having an OX-5 developing 90 horse-power, while the winning endurance plane has a Challenger motor of 170 horse-power.

Two Giant Oil Companies Merge

Merger of the Continental Oil Company and the Marland Oil Company has been accomplished, and the new company in the future will be known as the Continental Oil Company.

The new Continental Oil Company will operate a total of 2,404 marketing stations, including 976 company-owned service stations and 1,318 company-owned bulk stations. These figures do not include the thousands of dealers who have been selling one or the other company's products.

Refining capacity will be 66,750 barrels daily, with the new Continental Oil Company operating eight refineries; so located as to give the most efficient service to all regions of the marketing area.

Total oil production will be gross 104,324 barrels daily, an amount so much greater than refining capacity that the Continental Company will be permitted to select the highest quality raw material for the manufacture of Conoco Products.

STRANGE ERROR APPEARS ON $2 BILL JUST MADE

Thomas Jefferson gets credit for artistry he never created in the new $2 bill.

Persons who go in for those things have examined the bill carefully and find on the picture of Monticello, the famous Jefferson home at Charlottesville, Va., two sculptured lions decorating the place there

They were purchased by Jefferson Levy of New York, a former representative from the third president.

The $2 bill has Jefferson's profile on the front and Monticello on the reverse side.

FORMER PASTOR HERE

Dr. J. W. Hunt, president McMurry College and former pastor of the First Methodist church here, will preach at the morning service next Sunday.

It is no good hiding your light under a bushel if you want to sell gas fittings or electric shades and globes.

Bookmakers at the Northampton, Eng., race track donated $500 to the local hospital.

There is no difference between refined beet sugar and cane sugar for use in canning, or in jelly making and preserving.

OLD SNYDER RESIDENT IS CRITICALLY ILL

H. A. Goodwin is critically ill at the home of his daughter, Mrs. A. O. Scarborough, in the east part of Snyder.

Mr. Goodwin, who is now 85 years of age, Tuesday afternoon walked to the cemetery and did some work out there and then walked back to his home. Later he was taken down with rigors and chills and became unconscious from excess heat and exposure in the sun.

According to Dr. A. O. Scarborough, Mr. Goodwin is in a precarious condition and his daughter, Mrs. P. P. Martin, of Wimsborough, Texas, was summoned and arrived Tuesday to be with her father.

Mr. Goodwin is an old settler of Snyder and has spent a great part of his life here. For 30 years he was the county surveyor of Scurry county.

The Times-Signal with many friends of the community join in the hopes that Mr. Goodwin may soon recover.

MRS. HOOVER'S NIGGER PARTY

Yes—there is no use to "lie" about it—the course of Mrs. Herbert Hoover, as first lady of the land, with a few other prominent women of Washington, in receiving as a guest and entertaining with a party, the wife of a negro congressman, is to every true, southern-born person a regretable affair. ("Uncle Bill" Kellis will say that it is a "stinking and kinky" affair.); and as we view the matter, there is no reasonable justification for her course in the matter.

But we are waiting with some interest to hear from "Uncle Bill" Kellis. We are expecting that all Hoover Democrats will be told to "pull the nigger wool out of their teeth." Yet, no one can deny that what we state above as to the issues of the last presidential campaign is a statement of facts as they existed—those voting for Hoover chose as they saw it, the lesser of two evils.—Bronte Enterprise.

I would like very much, Brother West, to reproduce your entire able criticism of Mrs. Hoover, but force of habit led you away from the subject, and you trailed off on prohibition. I can't see what prohibition has to do with having tea with a nigger.

While it is gratifying to feel that you do not approve of Mrs. Hoover's act, yet I am surprised at your astonishment at the spectacle of the first lady of the land having tea with a she nigger. I sure am. When you were whooping for Hoover last summer, with your knowledge of current events, you should have known that Herbert Hoover stood for nigger social equality, and what a man stands for you can bet that his wife is usually right up by his warm side.

You know that for the well-being of both races, Woodrow Wilson ordered that negroes and whites be segregated as employees of the government; but when Hoover became a member of the Coolidge cabinet, he revoked this rule and forced white girls to work with nigger men and women. Everybody knew this, and when a protest was made Mr. Hoover let it be known that the color line would not be tolerated by him. During the campaign last summer every man and woman in Texas had an opportunity to learn these facts; but they went ahead and voted for what they got.

The 300,000 Hoovercrats in Texas, as a rule, are not nigger lovers. They don't stand for nigger social equality any more than I do, but they shamelessly broke faith with the white man's party—the party that waded through blood for four years to preserve the purity of the race—and voted for the man who seeks by precept and example to bring the black and white races to a social level.

Of course the masses were blinded by religious prejudices in their choice for president; but when the scales fell from their eyes, they beheld a she nigger at tea with the first lady of the land. Of course, they are disgusted with the mess, but they had their work exemplified. They now realize the result of following the lead of such political prostitutes as Tom Love, Bob Shuler, Parson Stegun Norris and the other disciples of religious hate. But they won't do so any more, Brother West. They have learned their lesson. They now see how they lost their terbacker when they went off after strange gods. After taking one look at a nigger at the White House table, they will run over each other to get back into the white man's party—see if they don't. These political prostitutes got these people into this nigger jackpot, but they can't do it again.

But, Brother West, we ought not to blame Mrs. Hoover for having a she nigger at her tea party any more than we would blame a polecat for carrying a stink gun with him on social and business errands. The polecat is built that way. He may act nice and be popular most of the time, but he is prone to act up to his raising, and then he explodes a big disbust. Mrs. Hoover is a good woman and means well, but, Brother West, she is liable to act up to her raising and set her table with a mess of buzzard. Sister Hooyer is not naturally a nigger lover by any means, but it is by practice that she is so. But she was your choice—not mine. I didn't vote for her. Her having a nigger at tea was not my work. I tried to head the folks off from this mess, but nothing doing. They are sorry and ashamed now. They should be.

From now on to the end, Brother West, never trust a Republican where a nigger is concerned, because he will do you dirt. While Mrs. Hoover entertains niggers and whites on equal footing, yet she wouldn't let my dog or your dog even smell of her dog, much less invite us to a tea party. Common white fellows like you and I would be handled over to the police if we were to speak to her dog. But the nigger—O, well—Sterling City News-Record.

THE TOWN DOCTOR

(The Doctor of Towns)

—SAYS—

DO NOT OVERLOOK THE LITTLE THINGS

To one who does'n know, the little things done or left undone do not make any difference, bnt there are always those who do know, and they are usually the ones who [illegible]

It belittles a business, a town, or a person to overlook the little things.

Overlooking little things is one of the main factors that makes a small town small.

It is the small things that often make the difference between profit and loss in business, especially in dull times. With an individual, it is refinement, courtesy, cleanliness; with a store, is is stock arrangement, pleasing, afficient salespeople, tidiness andathmosphere; with a town, it is clean streets, well kept lawns, traffic regulations and progressiveness of the citizens.

A party of tourists once stopped in a town of some three thousand population and inquired of a pedestrian, "Where is the business district?" The pedestriann was highly insulted and replied, "Straight ahead a mile and a half." He was in suited because it so happened he was in front of his own store whih he advertised as "The center of things". A good joke on the tourists thought many who were told of it. But when the tourists got a mile and a half further on, they found nothing but country. It now developes that the tourisit was a wee bit more than a mere traveler. The man and his family had decided to locate in a town in that section. Today, that man with a family of six has built a $16,000 home on a half block purchased form the from the previous owner.

The most successful merchandising concerns in the country have built their business on courtesy, service and little things. Your town is a business, and courtesy and service extended by you to youh neighbor and the potential customer of your community business will also build. Be funny, make wise cracks, fail to sell your community when you have the chance, and you will tear down.

When a merchant, an organization or your newspaper does anything for your community, tell them about it, whit them a letter, call them on the phone, or stop in and see them and express your appreciation. You get as much good out of anything they do for the community as they do. No one can do anything for the town but that you won't benefit. If you don't or won't do anything yourself, the least you can do is to thank those who are doing something through which you will benefit.

It is a little thing to do, but it will pay you a profit.

This Town Doctor Article, one of a series of 52, is published by the Scurry County Times-Signal in cooperation with the Snyder Lions Club.

Note: These articles are written by The Town Doctor, without prejudice or malice and are impersonal. They treat each subject as applied in general—not to a particular town. Opinions favorable or otherwise on subjects covered are solicited and may be addressed to the paper in which these articles appear, or to The Town Doctor, Suite 350, McCormick Building, Chicago, Illinois.

How to Raise Poultry

By Dr. L. D. LeGear, V.S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE XXIX
BAN THE "GET THE AXE" CURE

Little Excuse for the Widely Prevalent Custom of Killing Chickens at the First Sign of Illness; Use of Simple Home Remedies or Easily Obtainable Commercial Preparations May Save Valuable Birds and Many Dollars of Profits.

Editor's Note—This is another story in a series of 52 stories on poultry raising written by the well known national authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

The wife of a friend of mine tells with great relish of waking up not long ago and finding him in the throes of a violent nightmare. He was struggling desperately against some imaginary assailant and was shouting at the top of his voice, "No-no-no! Don't! I tell you it's toothache, darn you—nothing but toothache!" Being finally aroused up and pressed for an explanation, he admitted rather sheepishly that he had dreamed a huge rooster had him penned up and was preparing to cut his throat with his sharp spurs because he looked so droopy and had a huge swelling on his jaw. Not wishing to lose this advantage, friend wife at once reopened an argument that had been waging for months between them—"Serves you right if it really happened," she snapped. "Any man who is too lazy to save his birds that could be saved with just a little trouble ought to have to take his own medicine."

Sometimes I feel much the same way about it, for chickens are much more than a mere hobby with me. But aside from all such sentimental considerations as might influence the enthusiast, there are some good sound reasons why it is unwise to resort to the axe every time a chicken begins to show signs of some more or less serious affliction. For one thing, the first examination doesn't always tell the whole story. Not every sniffle spells roup nor is every droopy, dispirited fowl infested with worms to an incurable degree.

All sick fowls, no matter what their ailment, should be removed at once from the flock and either killed or doctored. Chickens can be cured as well as live stock, or people, when sick, and I believe in individual treatment in most cases. I have been doctoring poultry diseases on my experiment farm for more than 20 years and have had excellent results except in the incurable ailments, such as T. B., cholera, baccillary white diarrhaeo and other diseases known to be incurable.

A well protected coop, box or pen, apart from the flock, is very necessary in which to place the sick fowls. Sick chickens placed in such quarters can be watched. If they develop unmistakable signs of diseases known to be incurable, kill them.

My many experiments during the past several years have proven to me that Permanganate of Potash, the medicine that turns water a reddish purple color, is of little or no value in preventing or curing diseases of poultry, when used in the drinking water in the regular way. But I find Epsom Salts very beneficial in preventing and curing many diseases of poultry. Each sick fowl should be given one teaspoonful of Epsom Salts, or for flock treatment, one pound mixed with a small tempting wet mash feed for each 100 hens.

Sanitation and disinfecting are two of the great secrets of successful poultry raising. Poultry houses and brooder rooms should be thoroughly cleaned often, and sprayed freely with a good dip and disinfectant. Properly built chicken houses with high open fronts that face the south, that are kept clean and free from insects by spraying with a good dip and disinfectant will do more to keep fowls healthy than anything.

In many cases a cure is possible with simple home remedies as easily administreed as the flannel rag soaked with camphorated oil on baby's chest when he has a cold. Furthermore, any druggist or feed merchant carries reliable preparations for the treatment of practically every poultry disease that is amenable to medication. Such medicines are always accompanied by simple, complete instructions, not only for the dosing of the feathered patients but for the general care needed to make treatment successful. Why then let them die or deliberately kill them off when they can be easily cured.

Poultry raising is a business that should be run for profit. It is for the poultry raiser to determine, therefore, whether or not any individual care will justify the labor and expense necessary to effect a cure. It is unquestionably true, however, that mahy fowls are needlessly sacrificed when a little extra trouble would be repaid many times over. Don't forget that every fowl in your flock represents an investment of both time and money. You throw that away in addition to sacrificing possible future profits every time a bird is subjected to the "get the axe" cure if less drastic methods would have saved it.

COMMUNITY PROJECTS

A LIBRARY OF GAMES MAY SERVE YOUR YOUNG PEOPLE

When I was chairman of the Civic Committee of the Thursday Club of St. Paul, the thought came to me that if in cheerless homes children had something to amuse them, they would spend less time on the streets or at moving picture houses at night.

We asked our Library Board if they would give out games, as well as books, in the juvenile department of the library. They voted to do so, if we would buy the games.

We bought 800 games at a wholesale house and in a few weeks a thousand children had taken out cards for them. We pasted the rules in the lids. We counted the cards or pieces in each box, so that if any were missing, the game was set aside to replenish any other in the future. A fine of 2 cents was imposed on any one losing any part of a game.

We made oil cloth cases, shaped like envelopes, with clasps, to hold the boxes for preservation.

We feel that even the simplest game is not only pleasurable, but more or less of a mental stimulus. Many of them were educational games, while others were not informative; but it was the moral effect we were working for, and this was achieved.

Miss Caroline Friend Fairchild,
676 Summit Avenue,
St. Paul, Minn.

WHY NOT HAVE COUNTY PARKS IN SCURRY COUNTY?

Art. 6078, R. C. Statues, Ttx for parks—Each commissioners court is authorized to levy and collect a tax not to exceed five cents on each $100 of assessed valuation of the county for the purchase and improvement of lands for the use as county parks which shall consist of not more than one hundred acres and shall not exceed more than four in any one county. No such tax shall be levied and collected until the proposition is submitted to and ratified by the property tax paying voters of the county at a general or special election called for that purpose, provided a two-thirds majority of the property tax paying voters of such county, at an election held for such purpose shall determine in favor of said tax. If said court desired to establish two or more of such county parks they shall locate them in widely separated positions of the county. Said court shall have full power and control over any and all such parks and may levy and collect an annual tax sufficient in their judgement to properly maintain such parks and build and control pavilions and other such buildings as they may deem necessary, lay out and open driveways and walks, pave the same or any part thereof, set out trees and shrubbery, construct ditches or lakes and make such other improvements as they may deem proper. Such parks shall remain open for the free use of the public under such reasonable rules and regulations as said court may prescribe. (Acts. 1915, p. 102.)

County parks would not cost the county tax payers but little, and they would be a thing of beauty and a joy forever and we would like to have the people express their opinion through the columns of the Times-Signal.

Craig B. Hazlewood, president of the American Bankers' Association, says:

THAT in this nation we have garnered success like wild rice out of the abundance of nature. The richness of this country has been such that only the most complete lack management could result in failure.

And after each success we have expressed satisfaction over our good management, when in reality much of our success should have been accredited to Divine Providence and good fortune. Men have too frequently succeeded out of the richness of their environment, and then have congratulated themselves upon their good management.

But if there is any lesson to be learned from the studies and surveys which have been made of business in this country in recent years, it is the imperative necessity for better management. We have learned that the primary reason for success or failure today is not economic conditions—not environment—not location—nor any other factor—but management.

Good management has made enormous strides within the past few years, but it still has before it opportunities for major improvements in industry, more important than any we have ever experienced in the past. There are possible refinements in operation, closer budgetary control, standardization of a thousand commodities, simplification of processes, greater mass production and still lower costs, faster turnover, more efficient machinery, and many other possbilities, all of which will bring to industry most gratifying returns, with economies and savings heretofore unknown.

These benefits, moreover, will extend to the ultimate consumer, the purchasing power of whose income, and the sum total of whose permanent capital will be increased many times.

RECEIVES PAINFUL INJURY FROM STEPPING ON HOE

Kathryne Smith, the four-year-old daughter of Mr. and Mrs. Raymond Smith, south of Snyder, received painful injury last Friday afternoon when she stepped on a hoe.

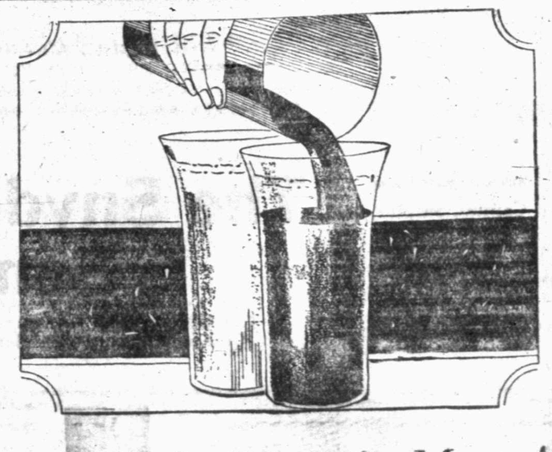

Kathryne, with her mother and father were in the field and Mr. Smith had just finished re-sharpening the hoe and laid it down when the child stepped on it. The left foot was cut to the bone. The child was rushed to the doctor and is now getting along fine.

In England a man 100 years old walked eight miles to go to court. Over here they would walk that far for a cigaret.

Gladys Smith, 17, of Cardiff, Wales, was sentenced to prison for a year after she confessed to setting fire to six buildings "just for excitement."

WATER COMES IN

Drillers on the Cottingham and Briscoe Truss No. 1 well brought in a fine water well at 150 feet, Saturday, that is being cased off for use. According to W. L. Powers, drilling operations are coming fine at the Fluvanna well and many county folks are being attracted to the scene of the oil test.

Chocolate Syrup!—Mmm!

DO you know that chocolate syrup for use in making beverages and for flavoring foods can be bought in cans? And do you know many people who don't like the taste of chocolate? Yes and no? Then I'm sure you'll be interested in the following recipe for using this syrup:

A Tested Recipe

Chocolate Waffles: Beat three egg yolks well, and add one and one-half cups milk. Mix and sift two cups flour, four teaspoons baking powder, one-half teaspoon salt, and add. Add one-half cup of chocolate syrup and one-third cup melted butter. Fold in the stiffly beaten whites of the three eggs and one-half teaspoon vanilla. Bake on hot waffle iron and serve immediately, a quarter to each person, topped with sweetened and flavored whipped cream.

But chocolate waffles are only one of the ways in which you can use this delicious syrup. The tall white glasses all frosted over from the chilled drink within, which are now making their annual appearance on porches and lawns, in dining rooms and pretty much everywhere else, often contain some of this succulent syrup. Try, for instance, this second tested recipe:

Chocolate Cinnamon Malted Milk: Shake together in a shaker, or in a large glass jar, six tablespoons malted milk, four tablespoons chocolate syrup, one teaspoon cinnamon, one-half cup water, two and one-half cups milk and plenty of cracked ice. This recipe will fill four tall glasses, and wherever the lucky quartet who get it are located, they'll exclaim in chorus: "Mmm!"

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

BUSINESS AFFAIRS

It seems now that a new enterprise, which may prove far reaching in its effects, is about to force itself, as it were, on the Fluvanna community. We say force itself, not that it is unwelcome or that it is not appreciated, but because it is coming to us of its own accord, unexpected and uninvited. Like the visit of an unexpected friend, we were not looking for it but are certainly very, very glad to have it come.

The new enterprise referred to is this: On last Friday Mr. J. T. Bulmer of Dallas purchased of J. E. Jones one-half section of land lying along and including more than a mile of the cap-rock about five miles due north of Fluvanna. The trade appears to be safe and the price to be paid is a fair one provided that the title, etc., are made good, and of this there seems to be no doubt. What Mr. Bulmer is really purchasing is rock — lime rock. He seems not to care anything about the land, nature of the soil, etc.; it is rock that he wants and of this it would seem that he is getting an ample supply in the purchase being made. In order to be more sure of the extent of the ledge of rock being purchased holes—wells without water—are being drilled now on top of the bluff. Mr. Bulmer declares that this rock is exceedingly rich in lime; and that it is his purpose to establish a huge lime kiln. He will probably secure his fuel from the Justiceburg oil field which is only a few miles away. If these things are done (as now seems very probable) it will mean more industry, more people for the community and school, more business and more general growth and development.

The bit in the new oil test well, two miles south of town, is now resting at a depth of about 310 feet, waiting for the arrival of 15-inch casing.

With the fine rains which recently overspread our community, the new school enterprise, the oil well and a big lime kiln, about to open, just watch Fluvanna grow.

Willie Miller (on the former Craft ranch) came in Monday and placed an order with our lumber man for materials for the erection of another comfortable four-room residence on the ranch.

P. C. Chenault is purchasing paint here with which to beautifuly his ranch home west of town.

W. B. Dane has recently had his residence property here repainted. This property is housing the operator and switch board of our phone business.

CHURCH SERVICES

The First Baptist church held its regular services last Sunday.

The Christian church is conducting a meeting at the arbor where dinner was again served last Sunday. It is expected that this meeting will close soon. The Presbyterians called off their regular services last Sunday on account of the meeting in progress.

On next Sunday the big union meeting under the auspices of the Presbyterian and Methodist churches will begin at the arbor. Rev. E. B. Surface, D. D., of Abilene, is expected to do the preaching. Many Fluvanna people will well remember Dr. Surface, he having conducted a like meeting here two years ago. He is a college and seminary trained minister of considerable experience both as a pastor and as a revival preacher. While he is an able and devout minister he is, at the same time, a plain and most genial character. The two churches uniting in this effort, being thoroughly evangelical, trusting Jesus Christ absolutely for salvation (not relying upon works as a means of being saved) and believing and practicing the teaching of the Bible as their only infallible rule of faith and practice, are thus able to unite in the effort to win lost souls for Christ and work together most cordially for the upbuilding of His cause and kingdom among us. We most cordially invite all evangelical church people not only to attend the meeting, but to work freely with us to the end that many may be saved, that righteousness may be built up among us and the bonds of a beautiful Christian fellowship much strengthened and extended. "So mote it be"—so be it.

SICKNESS

Mrs. C. F. Landrum (previously mentioned in this column), being in a very critical condition was taken back, the third time, to the Lubbock Sanitarium last Thursday night for further special treatment. Word came to relatives here Monday that the patient was in an exceedingly critical condition; accordingly several relatives hastened to her bedside. Further word came Tuesday morning (the date of this article) that the sick woman was a little better. Many relatives and a host of friends are waiting almost breathlessly for further and more encouraging reports.

Mrs. Clark (previously mentioned) is still in the same sanitarium, but is said to be doing very well.

J. B. Bley, a rheumatic patient (previously mentioned) is doing quite a bit better at this time.

TRIPS AND VISITS

Olon Ainsworth and family of Spur and Clarence Bley and young daughter of Olton and other near by relatives have recently been most welcome visitors in the J. B. Bley home on account of his illness.

John A. Stavely and family and W. H. Jones and family went to the Lubbock Sanitarium last Sunday on account of illness above mentioned.

J. I. and Mrs. Boren visited their daughter in Roscoe last Sunday.

J. V. and Mrs. Boynton attended the great revival at Union last Sunday.

C. D. Cribbs and family recently returned from an extended trip of sightseeing and visiting which took them over a large section of the state. Some of the more important points reached were Austin, Houston, Galveston, Shreveport, La., Dallas, Fort Worth and—and—Snyder and Fluvanna. While stopping in Austin they, of course, visited the Capitol including the governor's reception hall, the Senate chamber and the Representative's hall. We have not learned just what they saw or did at Galveston—whether they went fishing, boating, bathing or what not. Surely they must have gotten molasses and candy at Shreveport. On their return they visited many relatives and old friends in Dallas, Tarrant, Clay and ack counties; and brought Aunt Lanham home with them. They report a great time with only one puncture, Just think of it!

Mr. and Mrs. Elmer Beryhill of Dodd City are spending a week here visiting the W. G. Sims family connection.

Several days ago Miss Lucile Tarter was married to Marcus McGuire and gathered their belongings and journeyed to Byers, Texas, where they are now making their home. Thus, our community loses two of its fine young people.

"Cotton" Brown of Sweetwater spent the week-end here with the W. G. Sims family.

W. L. Gray of Treadway was here last Saturday on business.

Judge Dave Darwood of Gail was here last Monday on business.

Jewel Clayton and wife of East Texas are here visiting Mrs. Clayton's parents, F. W. and Mrs. Lavender.

DERMOTT NEWS

A part of our community has been blessed with another good rain during the past week.

The Baptist meeting will begin Sunday morning at 11 o'clock. We are praying that there will be a successful meeting. Brother Sanders will do the preaching.. We are hoping for a large attendance. Men folk are invited to be present at the arbor Friday to cover it and get ready for the meeting.

We are glad to report that Mrs. S. H. Lebow, who has recently undergone a serious operation, is able to be back at home again.

Mrs. Warren Scrivener and Mrs Kate Stringer, who have been taking treatments at Colorado, returned home last of the week.

Mrs. William Chowus, who has been sick for the past week, is able to be up again.

Mr. and Mrs. Jean Sander are the proud parents of a baby boy, born Thursday. The mother and child are getting along nicely.

Mr. and Mrs. Harvie Greenfield are the proud parents of a baby boy, born Monday.

Mrs. Alford Browning has been having some dental work done this past week.

They have just finished grading the school district line road between Dermott andFluvanna school district. We are glad to have this good road. It will be a benefit to our community.

Harvey Johnson, who got kicked down accidentally Friday morning by a horse is very sore, but not hurt seriously. He is able to be up and going.

Grandma Chowns, who fell and hurt her leg recently, is able to walk again. We hope she will be well again soon.

Mr. Farey left last of the week for his home on the Plains. He has been working as relief Santa Fe operator the past month.

Mr. and Mrs. Robert Fletcher and daughter of Bethel community spent the week-end with Mrs. Will Reynolds.

Abe Cargile and wife of Polar spent Sunday with Mr. and Mrs. Jean Sanders.

Miss Floy Williams of Portales, N. M., is visiting with relatives.

Clyde Adams of New Mexico spent the week-end with his friend, Harvey Johnson.

Miss Corene Garden spent the first of the week with relatives at Cleburne, Texas.

Melton West and wife and son are visiting relatives at Paint Rock and other places this week.

Zeke Rhea of Tahoka spent Saturday night and Sunday with homefolks.

Harve and Bolivre Browning made a business trip to Baird, Texas.

A. N. Edmonson, our cattle buyer of this community, and DeWhitt Rhea made a business trip to Sweetwater Saturday.

Newton Frisbie and family, W. T. Rhea and Mary Hulsey and children attended the Christian meeting Sunday night.

M. J. H.

HELPING TO BUILD TEXAS

P The first day's operation of the Bowdoin canning plant at Comanche saw 4,188 pounds of berries received from producers at prices that were satisfactory.

Matagorda, one of the oldest towns in Texas, recently celebrated the introduction of electric lights after existing as a town 101 years without that convenience. The Central Power & Light Co. is supplying the town.

The phenomenal growth of Lubbock is indicated by the fact that from 670 telephone connections in 1920, in 1928 it had 3,043.

Eighty-five thousand acres of ranch land near Turkey have been cut into farms.

VITAPHONE TRIUMPHS. IN COMING "NOAH'S ARK" SPECTACLE OF THE AGES

Vitaphone having thrilled the world in a series of sensational talking pictures finds its most magnificent demonstration in "Noah's Ark"—epic of all humanity. Touching the ends of the rainbow-span of fifty centuries — "Noah's Ark" includes in its cast more than ten thousand characters, and was more than three years in the making. Darryl Francis Zanuck wrote the story. Michael Curtiz, who produced "Moon of Israel," and other spectacular successes abroad, directed. The sets covered more than a square mile and the cast is one of the most impressive ever assembled.

Dolores Costello is starred with George O'Brien. In the supporting company are Noah Beery, Louise Fazenda, Guinn Williams, Paul McAllister, Nigel de Brulier, Anders Randolf, Armand Kaliz, Myrna Loy, William V. Mong, Malcolm Waite, Noble Johnson, Otto Hoffman and Joe Bonomo.

Vast and thronging are the scenes and situations of "Noah's Ark." The love story that runs through it is glamorous and moving. Characters wrecked on a continental train, find themselves in Paris at the opening of the World War. Passing through the soul-stirring time—they find themselves wafted back fifty centuries to the days preceding the Flood—actors in scenes of heathen worship, debauchery, slavery—and in the idyllic life of the family of the "one just man," Noah.

Miriam, handmaiden in the household of the patriarch, is captured by the heathen soldiers. Her lover, Jepheth, son of Noah, in trying to rescue her, is tortured and sent to exile. Then the Flood!

MOVING FROM HERMLEIGH

According to the Hermleigh Herald, J. B. Etheredge and family are moving to Snyder where they will have charge of a rooming house, it is understood.

GIVE US YOUR HELP

The Times-Signal needs your help in giving the news of Scurry county. What do you know that is helpful, constructive — news of things you or your neighbors are doing that their neighbors over the county would like to know? Please tell us about it.

Five Alibis for Erring Husbands

The West Texas newspaper is dedicated to the task of giving the local news and not to disturbing alibis to hen-pecked or erring husbands. But—

According to Dr. M. L. Condon of Chicago, a person may be wrongfully accused of alcoholic indulgence if only the evidence apparently disclosed by the breath is taken at full value.

In other words, the doctor declares that the characteristic odor of the alcohol breath may be caused by many things besides alcohol drinks, among which he names the following:

Eating several apples.
Eating too much ice cream.
Eating many oranges.
Drinking sweet cider.
Eating new bread.

Five alibis for husband, but it's doubtful if wife would believe a single one of them.

STATISTICS OF ST. LOUIS ROBIN FLIGHT

Dale "Red" Jackson and Forest O'Brine earned $31,255 jointly or $15,672.50 each in the record breaking flight of the St. Louis Robin which ended here tonight.

This did not include $2,756 in cash sums given them nor checks and cash which has been sent to the chamber of commerce. Eighteen days' pay as commercial pilots must also be figured into the total. The Curtis-Robertson company, their employer, has declined to reveal their regular salaries.

The mileage of the Robin was estimated at 25,200 miles on a consumption of approximately 3,590 gallons of high test fuel, oil totaled 158 gallons and 48 contacts were made for refueling. The propeller revolutions, counted at 1,300 per minute, approximated 32,000,000.

The Curtiss-Robin at Yoder field is identically the same as the St. Louis Robin with the exception of the engine, the former having an OX-5 developing 90 horse-power, while the winning endurance plane has a Challenger motor of 170 horsepower.

Two Giant Oil Companies Merge

Merger of the Continental Oil Company and the Marland Oil Company has been accomplished, and the new company in the future will be known as the Continental Oil Company.

The new Continental Oil Company will operate a total of 2,324 marketing stations, including 976 company-owned service stations and 1,318 company-owned bulk stations. These figures do not include the thousands of dealers who have been selling one or the other company's products.

Refining capacity will be 66,750 barrels daily, with the new Continental Oil Company operating eight refineries, so located as to give the most efficient service to all regions of the marketing area.

Total oil production will be gross 104,324 barrels daily, an amount so much greater than refining capacity that the Continental Company will be permitted to select the highest quality raw material for the manufacture of Conoco Products.

STRANGE ERROR APPEARS ON $2 BILL JUST MADE

Thomas Jefferson gets credit for artistry he never created in the new $2 bill.

Persons who go in for those things have examined the bill carefully and find on the picture of Monticello, the famous Jefferson home at Charlottesville, Va., two sculptured lions decorating the place there

They were purchased by Jefferson Levy of New York, a former representative from the third president.

The $2 bill has Jefferson's profile on the front and Monticello on the reverse side.

FORMER PASTOR HERE

Dr. J. W. Hunt, president McMurry College and former pastor of the First Methodist church here, will preach at the morning service next Sunday.

It is no good hiding your light under a bushel if you want to sell gas fittings or electric shades and globes.

Bookmakers at the Northampton, Eng., race track donated $500 to the local hospital.

There is no difference between refined beet sugar and cane sugar for use in cannifg, or in jelly making and preserving.

OLD SNYDER RESIDENT IS CRITICALLY ILL

H. A. Goodwin is critically ill at the home of his daughter, Mrs. A. O. Scarborough, in the east part of Snyder.

Mr. Goodwin, who is now 85 years of age, Tuesday afternoon walked to the cemetery and did some work out there and then walked back to his home. Later he was taken down with fevers and chills and became unconscious from excess heat and exposure in the sun.

According to Dr. A. O. Scarborough, Mr. Goodwin is in a precarious condition and his daughter, Mrs. P. P. Martin, of Wimsborough, Texas, was summoned and arrived Tuesday to be with her father.

Mr. Goodwin is an old settler of Snyder and has spent a great part of his life here. For 30 years he was the county surveyor of Scurry county.

The Times-Signal with many friends of the family, joins in the hopes that Mr. Goodwin may soon recover.

QUALITY CLEANLINESS COURTESY

LETTER FROM MRS. THOS. H. LEE

Hot Springs, N. M.
July 26, 1929.

Scurry County Times
Snyder, Texas.

Dear Mr. Jimmie Smith:

Well, sir, as I am up here taking the baths and have a world of time to write, and as I have written for your paper before, I'll send you just my idea of this town and country and the happenings of Snyder people who have made this town a visit.

On July 12, Mrs. C. Tyson, my sister and Mrs. Con Perrish and myself started for Roswell, N. M., from Ralls, Texas. We made the trip by way of Roswell to Carlsbad, N. M. Spent night there at Camp "D," owned and operated by "Two Texas Cowmen," their slogan. We met Charlie Jones who has a bus line to El Paso. We had a nice, long conversation with him. The bus terminal is located in the Caverna Hotel building, a new building that is an honor to any town. It is of Spanish architecture.

The next morning we went eleven miles out of our way down the most beautiful river valley—clear, cool, rushing water of the Pecos river. I'll tell you, it is the most beautiful river New Mexico has. The trees on all sides, all kinds of alfalfa fields, cotton, corn, truck patches—everything just as green as could be!

We went down the Pecos to Jim White's camp grounds, then across the desert to the main Carlsbad & Cavern highway. We spent the day in the cavern, and everyone who has had that pleasure knows what a treat it is, and the people who have not had that pleasure will know that words cannot describe it.

At 5:30 we came out of the cavern, and Mrs. Tyson and Mrs. Parrish took me to the El Paso stage. When the two ladies mentioned went on their way back to Ralls, spending the night at Roswell while I went across to El Paso. What a beautiful drive that is across the Guadalupe mountains! We had a very pleasant time at "Old Signal Point" in the home of Mr. and Mrs. Moore. We were refreshed and crossed the "White Sands" through the Diablo mountains to Van Horn, Texas, ate supper and on to El Paso, arriving at 12:00 p. m. The next morning I boarded the Pickwick Stage to Las Cruces, N. M., arriving by stage line at Hot Springs at 4:30. Now, a person traveling 850 miles in three days and walking seven miles in addition knows that the Hot Springs is the very place to rest and refresh.

I am stopping at the Hot Springs Hotel. Was here three years ago, and oh, the way this town has grown! Many new apartment houses have been built. The California, The Arizona, The Texas, The Colorado, Alta Vista, La Grande, Holland, and many other smaller ones have been erected. Many new business buildings are under construction today. An addition to the town has been laid out called "La Vista." All lots are beautifully located from the low lands of the river to the height of 500 feet right against the plateau of the airport—a lovely place for the ships to land.

Right down the highway to the Elephant Butte Dam is a little city called Elephant Butte City, surveyed and peopled by J. W. Jordan. There are 80 acres in this town. There are many lovely places for residences, and water can be found at a shallow depth. Parks have been laid out, and the town boasts a golf course and airport. Some day there will be a city from Hot Springs clear to the dam.

Mrs. E. F. Sears and daughter-in-law and grown son are taking the baths. They live in the California Apartments.

Mr. and Mrs. Austin Erwin and Mr. and Mrs. O. O. Harris stopped a few days fighing and resting on their vacation in Hot Springs. Came by Main Cafe and had a fresh fish supper. Met a Mr. Foster, brother to Will Foster, who used to live in Snyder and was front man at Grayum Drug Store for many years. He asked about all of the old timers of Snyder.

Mr. Smith, I met two of your "main" friends of Wellington, Texas, a Mr. and Mrs. Aubry Dabbs, newspaper people of Wellington. They asked quite a number of interesting questions about you and family. I told them of "Jimmie Junior."

Mrs. Drydon from Wellington asked me about your townsman and family, Mr. and Mrs. Beggs. They are taking the baths at "The State" where I take mine.

We never meet strangers out here. Everybody is friendly and having a good time because the "healing waters" make us all feel wonderful, and the lovely scenery around here is a treat to weary eyes.

Yours very truly,
MRS. THOS. H. LEE.

Midland has a farmer who makes seven hundred and fifty dollars an acre on his garden. Noah Kinnemore has been growing peas under mulch paper and sells his entire supply to consumers who drive to his truck patch. His dewberries and strawberries, are bringing five hundred dollars an acre. He intends growing sweet potatoes this year. The paper lasts three years.

Scientists say that flies carry germs of typhoid fever, infantile paralysis, summer disorders and over thirty other diseases. Flies should be killed. FLY-TOX is harmless to people but sure death to mosquitoes, roaches, moths and bedbugs as well as flies. FLY-TOX was developed at the Mellon Institute of Industrial Research by Rex Research Fellowship. Insist on FLY-TOX with its perfume-like fragrance.—Adv. 7

EXPLAINS HOW TO GET REFUND ON FARM GAS

Comptroller Gives Instructions to Those Who Are Exempt From Tax

The state comptroller's department is now prepared to receive reports of exemptions from the new four-cent occupation tax on the sale of gasoline, according to an announcement by State Comptroller of Public Accounts S. H. Terrell. Gasoline used for any other purpose than that of propelling vehicles on public roads, streets and highways of Texas is exempt from taxation. Fuel used in farm tractors, stationary engines, aircraft and motor boats, therefore, is exempt.

However, the tax must be paid on ALL gasoline. Refunds will be made to those exempt. The tax is placed directly on wholesale distributors of gasoline at the rate of four cents per gallon, but the consumer eventually bears the burden of the tax. The new rate was in effect July 16, having previously been two cents.

The new law does not make it easy for the consumer to secure refunds on exemptions. Comptroller Terrell has outlined the necessary proceduce for the exempted consumer as follows:

1. The purchaser must fill out an invoice, at the time of the purchase, giving amount, price, purpose, etc. The regular price is paid for the gas. Forms will be supplied by dealers and filling stations.

2. Before the 25th of the month following the month of purchase, the buyer must report to the comptroller the number of gallons bought and the amount of refunds expected. Claims reported later than the 25th of the following month will not be honored.

3. On receiving the report, the comptroller's department will mail the claimant an affidavit-account form, on which will be recorded information as to the amount and use of gasoline purchased. This information must be sworn to before a notary public, and filed with the comptroller not later than two months from the date of purchase. This document must be accompanied with a filing fee of $1, which must be paid each time that a claim is filed. These fees will be used to enforce the law.

4. The claim will be investigated, and if considered valid, a state warrant will be issued for the refund. This warrant must be cashed within 60 days.

5. No refund shall be made where gasoline is used later than six months from purchase.

Persons believing themselves to be entitled to exemptions should write to Comptroller Sam Houston Terrell, Austin, Texas.

KNOW TEXAS

Texas shipped 47,000,000 pounds of dressed poultry to major markets in 1928—a record for the State.

The Texas honey crop of 1928 was 6,000,000 pounds with honey valued at $480,000 from an investment of $1,247,489 in the 249,027 colonies of bees.

With 589 different species Texas has a greater variety of bird life than any State in the Union.

The 1929 commercial tomato crop of Texas brought an estimated return of $3,500,000, more than twice the value of the 1928 crop.

DR. E. E. COCKERELL recta! and skin specialist, 419 Alexander Bldg., Abilene, will be in Snyder Aug. 4, at Manhattan Hotel, from 12 to 5 p. m. 7-1tc

---

James Rossiter of London pursued his eloping daughter in an airplane and persuaded her to wait two years before being married.

Queen Mary recently went shopping in a 10-cent store. Must be trying to establish her claim to the throne of Scotland.

WHAT'S DOING IN WEST TEXAS

ELECTRA recently held a "law enforcement party" under the direction of Robert P. Hall, secretary of the Chamber of Commerce. Charles I. Frances of Wichita Falls made one of the addresses which was heard by the citizens from all over the county.

The **WEST TEXAS CHAMBER of Commerce** with the U. S. Chamber of Commerce is urging the co-operation of doctors in filing birth certificates, and parents in seeing that birth certificates have been filed for their children in order that the census next year will be correct, and will give the state the proper status.

VERNON'S Chamber of Commerce head, Grady Shipp, is acting as right hand man for Pres.-Mgr. Bourland of the WTCC in guiding the work of the regional organization until the annual meeting of the advisory board for Monday July 29, in Fort Worth.

TULIA'S ton litter work in Swisher County is showing up some good results. J. K. Adams weighed his litter of seven pigs at the age of 110 days and found 1040 pounds of live weight. The total cost of this gain is $28.45 or $2.73 per hundred pounds. The pigs have had access to alfalfa pasture and were fed protein supplement.

HARTLEY County sent a large representation to the annual Farmers Short Course held at College Station July 29 to Aug. 3. Many of them were farmers and their wives who took advantage of the special railroad round trip fares.

TURKEY is putting the finishing touches on the new 200,000 gallon water reservoir and pump house which completed one of the most modern, up-to-the-minute water supply plants in West Texas. Large quantities of all purpose water is available at all times for all demands now.

SWEETWATER'S new auto building will cost $22,000 according to the contract which was let recently. It will be started immediately, and will be occupied by the Rugledge Brothers Motor Company. It will occupy the west 90 feet of lots nos. 1, 2, and 3, of the original town plat.

CHILDRESS'S State Fair in September will feature races among other things, and the track is being reconditioned at this time. All turns on the track will be resurfaced, and the straight-a-ways will be graded down to a hard pan.

When ROBY entertained the 4-H Clubs of Fisher County in the dress contest, every community in the county was represented. Three hundred persons attended the event, and a total of 50 dresses were entered in the contest. First place in the state classes were awarded a trip to the short course to be held at A. M. College in August.

SONORA offers evidence of activity among West Texas sheepmen although it within one week recently more than 30,000 yearling lambs were sold to Kansas feeders, it is said, for approximately $1,000,000.

ABILENE is making plans to improve Kingsolving Field, the municipal airport, so as to make it one of the best equipped air depots in the Southwest. Erection of steel concrete hangar covering ground space of 97 feet and a two-story, fire proof terminal building, will be the first work started on the field.

Hiding behind a woman's skirts is another time honored phrase that has lost its application.

First Athlete's Shopper—Well, time we might as well look at something more expensive.

DAIRYING NEEDS STRESSED AT MEET

COLLEGE STATION, Aug. 1.—"Texas dairy herds may be greatly improved by providing temporary and permanent pastures, growing legume hay like alfalfa or clover, feeding grain according to milk production, giving more attention to such management problems as barns, shade and water, and by culling out the unprofitable cows by testing," declared A. L. Darnell, professor of dairy husbandry, A. & M. College of Texas, at the Farmers Short Course here Thursday in addressing the dairy section.

"Where green pasture cannot be maintained every month in the year a silo will pay provided there are as many as thirty cows in the herd. Silage is not the equal of good tender grass, but it's the best substitute in the dry summer months. A dairy cow ought to be fed some good alfalfa, sweet clover or cow peo hay every day in the year. For every three or four pounds of milk a cow produces she should be given one pound of grain, and to do this a farmer must weigh each cow's milk as well as the feed. As long as a cow is giving fifteen pounds or more of milk daily she should receive some grain regardless of the silage or pasturage she is getting."

"Expensive barns are not needed in Texas, but cows should be protected from the short, cold, wet spells in the winter. In the hot summer, shade should be furnished and an abundance of clean, fresh water. The rest of management lies in breeding for fall freshening, for cows usually give 20 per cent more milk this way; drying cows up a month or so before calving, and taking care to start a fresh cow off on a good ration.

"A dairy farmer who doesn't keep records is like a sailor who tries to run a ship without a rudder. The best way to cull out inferior cows that eat up the profits is to weigh and test each cow's milk, although some of the poorest ones may be picked out on the basis of general type and conformation.

"The future dairy herd may be built up by buying better cows, but they are hard to locate, high in price, and may bring disease into the herd. The best way is to breed the cows on hand to high quality pure bred bulls. The daughters of such crosses often produce double the milk their dams game."

School begins Sept. 9.

STOP AND THINK

Burns Hegler, editor of the Shawnee (Okla.) News, says:

THAT newspaper advertising has reached the point where it rightly can be classed as commercial news. It is as necessary to conducting of a successful business or the operation of a well regulated home as rain is to growing crops, or as food is to a human being. It would be impossible to estimate the saving to the American housewife through this medium.

Merchants who doubted the advisibility of advertising a decade ago, and who then classed newspaper advertising as an expense, now regard it as an investment, which will prove good or bad according to the attention they give this modern method of contact with the buying public.

Among all the forms of advertising offered, newspaper space still requires the least investment for the value it offers, and all others merely are supplementary to it; most effective when used in conjunction with it. No merchant can lose by putting his money into newspaper advertising if he merchandises what he has to sell, studies his market and sticks to the truth.

The Jewish race is credited with having an unusual amount of business acumen, and one of the strongest arguments in favor of advertising is that no one puts more money into it than the successful Jewish merchant.

There is not a new idea in what I have said, but there is no dodging the established facts regarding truth-telling, go-getting newspaper advertising.

Food Was Like So Much Poison

"Two years ago specialists in Louisiana, where I used to live, advised me to come to San Antonio to recuperate from the after effects of a bad spell of malaria which had left me in a terrible run down condition.

"I didn't look like myself at all. My complexion and eyes had turned such an unhealthy yellow color. In place of nourishing me my food was just like so much poison. Constipation kept my system from throwing off these poisons and it just looked like I wasn't going to get any better.

"Sargon did more for me in less than one month than all the other medicines I have used in the past five years. A number of my friends have told me that they had never seen such a remarkable change in any one in such a short time. It is simply wonderful how Sargon brought back my color and benefitted me in so many ways.

"Sargon Soft Mass Pills are the grandest in the world to overcome a sluggish liver and I don't believe medical science has ever found or ever will find an equal of Sargon."

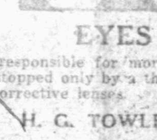

Mrs. E. Prudhomme, 616 West Woodlawn, San Antonio, Texas..

FARM SHORT COURSE MASTER WINNERS

COLLEGE STATION, Texas, July 20.—Texas paid tribute to its farm women here Monday at the annual Farmers Short Course at the A. & M. College of Texas when five of them were honored as Master Farm Homemakers in a public recognition ceremony attended by farm folk from all parts of the state.

The five women are: Mrs. R. W. Fenton, Tahoka; Mrs. Nevil Felty, Celeste; Mrs. J. E. Fooshee, Greenville; Mrs. A. F. Ernst, Somerset, and Mrs. O. W. Fry, Lockney.

They received the gold pin and title of Master Farm Homemaker in a ceremony sponsored by the Farmer's Wife, national farm women's magazine of St. Paul, Minn., and the Extension Service of the A. & M. College of Texas, and later were guests of the magazine at a luncheon attended by 60 rural leaders of the state.

"We honor these women for their own achievements but more especially because they represent thousands of other successful rural homemakers," said Miss Bess M. Rowe of The Farmer's Wife in awarding the honor. "This is recognition for all farm women and an acknowledgment of their job as a profession worthy of the highest respect."

Mrs. Fenton's chief ambition is "to be a wise mother, a wife who is a real help-mate, a neighbor to be loved and a real homemaker." She plans meals a week ahead, to save time and money. She is president of the Lynn County Council of home demonstration clubs.

Mrs. Felty has been president of her home demonstration club for two years and vice-president of the County Council, a 4-H club leader and in charge of the club exhibit at her community fair. She hopes to "retire" on the farm.

Mrs. Fooshee has two daughters and wants most for them that they shall become well educated, Christian women. There is no question in her mind as to the merits of "homemaking or a career." She thinks they can be the same thing.

and says that "being a real homemaker is the biggest job any woman ever undertook." She has been active in the home demonstration work for her community and county, a 4-H girls' club leader and vice president of the Hunt County Federation of Women's clubs.

Mrs. Ernst lives in a well equipped home on a 350-acre farm. She has served on the school board several times, helped organize a parent-teacher association and is president of her home demonstration club. She has helped build up her club's membership from five to 65.

Mrs. Fry made $2,435 with butter and poultry last year. This took approximately three hours a day but by good management she spared the time without slighting home duties. She is president of her home demonstration club.

All of the women are active in church work and three are Sunday school teachers. All of them voted in the last national, state and county elections.

Throwing Light on Tomatoes

WHO ever would have suspected that tomatoes are not red? It all depends upon the light in which you look at them, according to John H. McGillivray of the Purdue University Agricultural Experiment Station, Lafayette, Ind. What we consider as white or white light, he wrote in a recent issue of "The Canner," is in reality composed of many different colors. A tomato has no way of creating color, but it merely exerts a selective action on light.

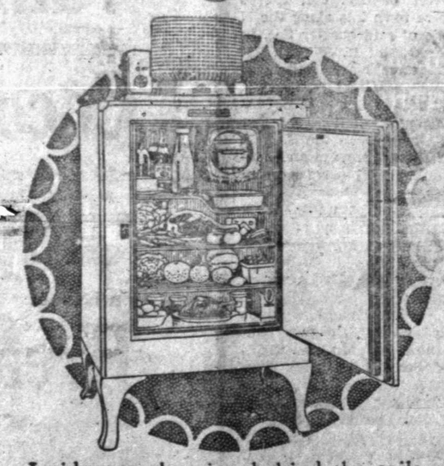

A Different Light

A ripe tomato is red in white light, but different colored light may greatly affect the color. A red light will make it appear a brilliant red, likewise yellow light, and almost black or gray in all the other colors.

Another light is thrown on tomatoes in an editorial in the Standard-Examiner of Ogden, Utah. It tells of a full page advertisement in the Journal of the American Medical Association setting forth that an enterprising mid-western canner is packing strained tomato in convenient tins for use in child feeding and asks why the excellent qualities of the tomato for this purpose, which have long been recognized, have never been advertised in the way orange growers, for instance, set forth the peculiar merits of their product.

No less an authority than Dr. E. V. McCollum of Johns Hopkins University is authority for the statement that there is no preference between orange and tomato juice for infants and that you can safely choose the one which you can get most conveniently."

GENERAL ELECTRIC Refrigerator

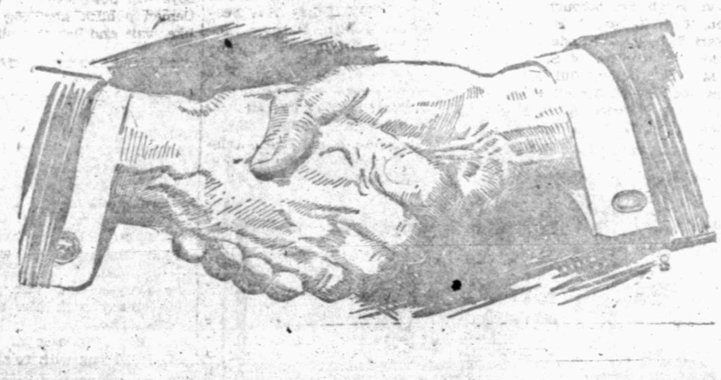

Inside a steel casing behind the coils, there is sealed every bit of mechanism of this remarkable refrigerator. You never see it—never have to oil it. Automatically, quietly, it manufactures your ice and gives you perfect refrigeration.

Designed, built and guaranteed by General Electric Company.

Texas Electric Service Company

The Silent Partner of Progress

Folks, we thank you for the wonderful trade that is being given our institution

Our company maintains a field service man, Mr. Jack Dennerson, who is working with county agents and agricultural folks and poultry raisers in all parts of West Texas. If we may be of the slightest help in maintaining a healthy flock of chickens, please advise as we want to give a helpful hand and service to all Scurry county folks.

The Snyder Produce Company

BILL FRANKS, Manager

SOCIETY

CURRY FAMILY ENJOY REUNION

Mr. and Mrs. A. M. Curry, with ten of their 12 children, and 18 out of 20 grandchildren, held a family reunion at Christoval Thursday, July 25. All the "in-laws" were present except three, which were J. A. Morrison and Jake Ott, Birmingham, Ala.; and G. M. Wilson, Sweetwater. The two grandchildren absent were Miss Larina Wilson and absent were O. W. Curry, Clovis, N. M., and J. B. Curry, deceased. However, it is a remarkable record to have 39 out of a family of 46, together at one time.

At noon a bountiful lunch was spread on a long table, and the family enjoyed it to the utmost. After lunch, the father appointed Elmo Curry, Horace Curry and Homer Snyder as official dishwashers. They very obligingly rolled up their sleeves and set to work, but soon developed headaches, backaches and other kinds of aches and said they didn't know there were that many dishes in Christoval.

The main diversions of the day were swimming and diving in the wonderful waters of the Concho. Boating and the taking of snapshots were also enjoyed.

This reunion was a memorable occasion, and the blessed privilege of mingling with loved ones, is one to be cherished always.

Those present were: Mr. and Mrs. A. M. Curry and children, Sykes, Ruby and Allene, Snyder; Mr. and Mrs. Elmo Curry and children, Miles; Mrs. G. M. Wilson and children, Sweetwater; Mrs. J. A. Morrison and daughters, Birmingham, Ala.; Mr. and Mrs. H. L. Curry, Miles; Mr. and Mrs. R. C. Curry and children, San Angelo; Mr. and Mrs. A. E. Curry and daughter, Miles; Mr. and Mrs. Homer Snyder and sons, Snyder; Mr. and Mrs. Noble Curry, San Angelo; Mr. and Mrs. Olan Curry, Sweetwater; Mr. and Mrs. Clyde Boyer, Miles; Mrs. Fay Sykes and children, Corpus Christi.

BREAKFAST GIVEN IN HOME OF MRS. IKE BOREN WEDNESDAY MORNING

Mesdames Ike Boren, Wayne Boren and Clyde Boren entertained yesterday morning with a prettily planned breakfast at the home of Mrs. Ike Boren.

Verbenas were used to decorate the entertaining rooms.

Following the delicious breakfast, which was served in two courses, the play of forty-two was enjoyed.

Those present were: Mesdames W. W. Smith, J. C. Dorward, R. H. Odom, J. P. Avery, Clyde Shull, W. G. Williams, Joe Strayhorn, Joe Monroe, Carroll Moore, Bert Moore, C J. Yoder, Allen Warren, H. P. Brown, L. T. Stinson, H. G. Towle, C. C. Higgins, Joe Caton, W. J. Ely, R. E. Gray, B. Blackard, R. H. Curnutte, Sr., Fritz R. Smith, C. H. Cooper, Roland Bell, W. W. Hamilton, A. C. Johnson, Forest Sears, Maurice Brownfield, Albert Norred, Joe Taylor, W. R. Patton, Melvin Blackard, C. R. Buchanan, G. A. Hagan, Ivan Dodson, A. J. Towle, J. G. Hicks, W. D. Beggs, W. R. Johnson, Hugh Scarborough, J. C. Stinson, T. L. Lollar, C. E. Ferguson, Earl Fish, R. J. Randals, E. J. Anderson, Sim Saylor of San Angelo, Melvin Newton, Bill Miller, Charles Nobles, J. E. Sentell, George Northcutt, H. J. Brice, R. D. English, Will Doak, W. T. Raybon, Jessie Sellars, G H. Leath, Wade Winston, L. O. Smith, Earl Henry, M. E. Miles, T. H. Duff, T. A. Boren, Hugh Boren, Hugh Taylor, Clifton Harris, Roy Strayhorn, Edgar Wilson, O. P. Thrane and Misses Geo. Winston, Cleo Stewart of Denton, Cecile and Neoma Strayhorn, Hattie and Gertrude Herm.

MR. AND MRS. R. L. SMITH HONORED

Mr. and Mrs. R. L.Smith, of Mineral Wells, who were house guests of Mr. and Mrs. H. J. Brice last week, were complimented with a picnic last Wednesday night at Scott's ranch by a group of friends.

Those present were: Mr. and Mrs. R. L. Smith and son, Robert, Mr. and Mrs. Roland Bell and two sons, Mr. and Mrs. Joe Graham, Mr. and Mrs. P. M. Chambers and daughter, Beverly, Mr. and Mrs. H. J. Brice and sons, Wiley and Richard, Mr. and Mrs. W. M. Scott, Mr. and Mrs. Guy Stoker, Mrs. C. E. Fish and little daughter, Cyrella, Mrs. W. M. Morrow and daughter of Dallas, Mr. and Mrs. McCoy of Wichita Falls and Misses Margaret Deakins, Jeanette Lollar, Roberta Ely, Charline Ely, Frances Denson and La Vera Smith of Mineral Wells, Mary Frances Coppedge of Dallas, Mary Ellen Martin, Maurine Stimson and Frances Northcutt.

MR. AND MRS. SHULL ENTERTAIN THURSDAY NIGHT BRIDGE CLUB

The members of the Thursday Night Bridge Club were entertained with a prettily planned bridge party Thursday evening by Mr. and Mrs. Clyde Shull at their home in West Snyder.

Mrs. W. T. Raybon and G. B. Clark, Jr., were favored with high score awards.

Refreshments were passed to: Messrs. and Mesdames W. T. Raybon, J. G. Hicks, J. E. Sentell, Forest Sears, G. B. Clark, Jr., Wayne Boren, George Oldham and Mrs. Ivan Dodson and Miss Vesta Green, guests.

SUNDAY SCHOOL CLASS ENTERTAINED

Mrs. R. J. Randals entertained the members of her Sunday School class of the Methodist church Monday afternoon with a delightfully planned party at her pretty home in West Snyder.

Various games and contests gave diversion for the afternoon.

Ice cream and cake was served to: Misses Ruby Lee, Evelyn Erwin, Gladys Jordan, La Frances Hamilton, Virginia Wills, Louise Wilsford, Leona Browning and Helen Cauble.

MRS. C. L. HARLESS HONOREE AT BRIDGE PARTY

Mrs. L. O. Smith complimented her house guest, Mrs. C. L. Harless of Littlefield Friday afternoon by inviting several friends to her home for the play of bridge.

Dainty salad plates were passed to Mesdames Bob Warren, Neal Gross of Sweetwater, Billy Lee, A. D. Erwin, Frank Erwin of New York City, P. M. Chambers and the honoree.

One of the social events of the past week was an outing in the form of a picnic Friday, honoring Miss Mary Frances Miller of Amarillo. The young people motored to Scott's ranch where a delightful picnic lunch was spread.

The party was composed of: Misses Mary Frances Miller, Bert Hicks, Ruth Belle Boren, Mary Joyce, Polly Porter, Pauline Boren, Faye Joyce, and Olla Lee Cauble. And Messrs. Sykes Curry, Ray Fesmire, Bythel Martin, Herman McPherson, Buck Stacy, Hilton Lambert, Starkey and Loyd Blackard.

SWIMMING PARTY AT COUNTRY CLUB

Billie Lee and Banie Smith celebrated their birthdays Monday evening by entertaining a number of their friends with a swimming party and picnic at the Country club.

After a swim in the pool a delightful picnic lunch was spread.

Those present were: Misses Margaret Deakins, Mary Janet Smith, Leona Sample, Charline Ely, Alice Erwin, Janice Erwin, Jeanette Lollar, Ruby Lee, Ida Sue Wallace and Evelyn Erwin and Messrs. John Billy Beggs, Burgess Brown, Austin Erwin, Creston Fish, C. L. Harless, Jr., of Brownfield, Layton Griffin Williard Lewis and Grover Scott.

MRS. C. B. VINCENT HONOREE AT PARTY

Mrs. J. G. Hicks complimented Mrs. C. B. Vincent of San Benito with a bridge party Friday afternoon at her home.

In a setting of charm three tables were arranged for the play of bridge.

Refreshments were passed to: the honoree and Mesdames Maurice Brownfield, George Oldham, Clyde Shull, Wayne Boren, Albert Norred, Amos Joyce, Tom Gates, Wayne Williams, G. B. Clark, Jr., Ivan Dodson and Miss Vesta Green.

MISSES ERWINS ENTERTAIN

Misses Evelyn Erwin and her cousin, Alice Erwin of New York City, celebrated their birthdays Tuesday evening by entertaining several of their friends with a slumber party at the home of Mr. and Mrs. A. D. Erwin.

The guests enjoyed a swim in the country club pool. They returned to the home of Mr. and Mrs. Erwin where they spent the remainder of the night with a slumberless party.

Those present were: Misses Janice Erwin, Roberta Raybon, Evelyn Raybon, Margaret Deakins and Beverly Chambers.

LEAVE FOR NEW MEXICO

Editor and Mrs. Geo. F. Smith, daughters Mary Janet and Jane Ann, with sons Wesley Wade and Billy, left early this morning for Albuquerque, New Mexico, where they will visit Mrs. Smith's sister, Miss Edith Comstock. The editor expects to return in a week unless the fishing is awfully good while the family will remain for a more extended stay.

The paper is being left in mighty good hands with "Chubby" and Otis Carter handling the editorial and news detail and we sort of feel as if the paper will be in much better hands with the efforts that these boys will put forth. If these gentlemen publish anything you don't like, wait and lick the editor on his return as "he has been kidded by experts before" and still has a little hair left at 41 years of age.

Record For Biggest Crowd Is Aim Of Sweetwater Air-Port Officials, Saturday and Sunday, August 10 and 11

Yoder Field, Snyder, with "Slim" Lowry, official pilot will be represented at the opening of the Sweetwater Airport, August 10 and 11th.

Thrilling airplane races and stunts in which 100 or more planes will compete for $1,500, in prizes are included in the program of events at the International Opening of the 260 acre Sweetwater Airport on Saturday and Sunday, August 10th and 11th and will include nationally famous civilian, U. S. Army and Mexican Government fliers.

Saturday's program, it was announced by General Chairman, E. F. Neinast, will include the dedication exercises participated in by Mayor C. W. Bryant, Sweetwater; Palmer Leeper, President, Sweetwater Board of City Developement; Erle P. Halliburturn, President, Southwestern Air Fast Express, Inc., Tulsa; Sr. Lauro Izzaguirre, Consul of Mexico; and Robert J. Smith, General Traffic Manager, Texas Air Transport, Inc., Fort Worth.

Events for that day include a dead stick landing contest for $150 in prizes; a race for planes with motors of 550 cu. in. displacement or less for $200 in prizes; a free-for-all race for all planes for $200 in prizes. Army planes will compete in the latest and fastest pursuit planes in a race for fine trophies, as well as a balloon bursting contest and bombing contest.

All the latest type passenger, commercial and pursuit planes will be on display at the grounds for the two-day opening direct from manufacturers to Sweetwater. Newest model of Alexander Eaglerocks, Travel Airs, Spartans, Fokkers, Curtis Robin, Ryans, Bellancas, Fords, Mohawks, Curtis Falcons, Boeings, American Eagles and others will be seen here.

The Sunday program will include two events by army planes, two-seater planes in a 30-mile race and formation flying and maneuvers. This will be followed by two races for prizes totaling $200 each, one for planes powered with 550 cu. in. displacement motors and the other for the larger 550 to 800 cu. in. displacement motors. An exciting balloon bursting contest for civilians will follow with 100 in prizes. The grand finale race will be a "free-for-all" and will likely include some of the fastest planes in the country.

Already word has been received that winners of some of the Transcontinental races of last year, and winners of races at the airport openings throughout Texas, Oklahoma, Kansas, Louisiana, Arkansas, California and other sections will offer some of the best exhibitions of skill and speed ever offered in the Southwest.

Plans are being made for a crowd of 25,000 to 30,000 people to attend the opening from all parts of the country, according to Monte E. Owen, Secretary of the Sweetwater Board of City Development, which organization is sponsoring the opening of this 260-acre field with its 119 by 100-foot hangar, an office building, and a $20,000 restaurant and fountain, all serviced with lights water, gas, telephone and telegraph.

MITCHELL-SCURRY ASS'N. MOVING ONWARD

Our work in the Scurry and Mitchell Association moves off in a great way. Our pastors and workers have entered the field of evangelism to win.

Some few weeks ago the Westbrook church and Pastor, J. E. McDermott, with the pastor from Canyon City doing the preaching, enjoyed a glorious revival, baptising more than fourty. Several came by letter.

In June the missionary, with Rev. E. N. McGuire and his good church at Loraine, had the privilege of leading thirty-nine to accept Christ twenty-two following their Lord in baptism.

Just a few days back Brother Willis Taylor and his faithful church at Wastella, with our beloved pastor, Graves Darby of Roscoe doing the preaching, climbed to the heights of victory with some seventy-five professions of faith and fifty-two for baptism.

The writer closed a good meeting with Pastor C. G. Sewell and church at Champion, Sunday, with fifteen additions to the church at the close of the meeting.

This week we have several mission meetings going on. Brother A. mott at County Line, A. C. Hardin D. Leach at Landers, J. E. McDer- at Silver, T. L. Nipp and Brother Todd at Pleasant Hill.

W. C. Ashford of Colorado, will join heart and hands with T. L. Nipp and the saints at Union next week in a soul winning campaign.

The missionary will be with our beloved E. T. Powers and the Plainview church for the next ten days.

May our Heavenly Father be pleased to help Texas Baptists to reach 50,000 for Christ is our prayer.—W. D. Green, Colorado.

If this hygene craze keeps up, love-making of the future may be quite sanitary, but there won't be much kick to it.

THE HOME OF TOMORROW

Why all the uproar about the home, as though this ancient institution were suddenly to blow up? The home is perfectly secure and will adapt itself to the changing times, as it has done through the ages. Its very elasticity is the best assurance of its permanence.

We cannot go back to the home of yesteryear, with its wood stoves, ail lamps, dusty carpets and absence of telephones and bath rooms; but we may fearlessly go forward to the home of tomorrow.

The fundamentals will persist, because they are necessary for the wellbeing of the race: security for mother and young, privacy for family association, a supplying for creature comforts, a background of understanding and love, loyalty of kin, and training in race experience which the parents must hand down to the young.

Spinning, knitting, shoemaking have already left the home. Sewing, baking canning are now leaving. Free adult members of the household will follow these industries out of the home into the factory, and so help to meet the mounting costs of living, and a far better living, at that.

If the woman helps a bit with the finances, the man will give her a lift with the home and the children, and this will make for better understanding, and appreciation, a more real partnership, and closer family intimacy all around.

The home of tomorrow will be less and less a manufacturing plant and a filling station, and more and more a spiritual siesta, a place to retire to for peace and privacy and comfort and sympathy and love and understanding and courage and recuperation and inspiration. We will enhance it with every convenienc and beauty and make it the ideal of our dreams. Here we will be free to do as we please and to enjoy our own. To this beloved retreat of the family we will bring our most intimate friends and here we will spend our dearest and happiest hours.

METHODIST CHOIR PROGRAM POSTPONED

The program to be given by the choir of the First Methodist church has been postponed one week, on account of the Broadfoot-Campbell revival campaign at City Tabernacle.

This group of singers have worked with enthusiasm in preparation of this musical treat consisting of anthems, choruses, quartets, duets and solos. Hear them.

Remember the date, Sunday evening, Aug. 11.

CHURCH OF CHRIST

Bible study, 10 a. m. A lesson of admonition and exortation, directed by Brother Abe Rogers, 11 a. m. Communion service, 11:45 a. m. Brother Speck is away in evangelist work for the summer.

Let everybody remember Aug. 18. Brother Busby will begin a revival meeting in Snyder.

To all of the brethren and many more, Busby needs no introduction.

Begin now to make arrangements to hear him.

MOVING TO NEW QUARTERS

The Snyder News is moving to new quarters in the former Castevens location on the east side of the square. They will have as their next door neighbors, the new Noble & Moffet Men's Furnishing Shop, and Elza & Wenninger.

QUEER—BUT TRUE

There are three people every person should go into conference with every six months, namely his doctor, his dentist—and himself! The last of these mentioned being the most important one—himself! The person should ask himself the following questions: Am I contented? Am I deceiving myself about getting well? Who would be burdened should I become a helpless invalid, my family or my friends? How can I improve myself, my health and lengthen the days of my life.

EST WISHES, CO. G

Company G will start their annual hike to Camp Palacios, Saturday, in their encampment program which promises to be very successful this year.

Company G has always won honors in the regimental affairs and this year will be no exception and the Times-Signal joins in a hearty wish to Captain John E. Sentell and the boys that they will bring back the "bacon" again this year. No finer set of boys and men can be found in West Texas, nor the state so fan as that matters, as are included in the membership of Company G, Scurry county's pride as they have always maintained a decorum at their annual camps that have been the toast of the entire regiment. May success ever crown their every effort.

OLD STAGE DRIVER HERE

John Ellis of Colorado, who formerly operated a stage line from Colorado to Clairemont, was a welcome visitor in Snyder, Tuesday. He met many old friends who were glad to shake his hand and recall the old days.

OLD SETTLERS TO MEET AT WEATHERFORD

Old Parker county residents now living in Scurry county are invited to attend the Old Settlers Reunion to be held at Holland Lake, one and one-half miles east of Weatherford on Aug. 8. Judge Fritz R. Smith, himself an old Parker county product tells us there are many former Parker county folks now living here and that a wholesome invitation is extended to all to attend. The judge says "that in addition to a fine speech that he will make" there will be armloads and armloads of watermelons, peaches, and barbecue. That means then that Aug. 8 will see an exodus of all old Parker county folks from Scurry county and we don't blame them one bit.

MANY FAMILIES TO MEET AUGUST 10-11-12

Descendants of the Smiths, Kerrs, Buckhannons, Gracy, Pickard and Sandefer families living in this section are invited to the family reunion at Lover's Retreat in Palo Pinto county, Aug. 10-11-12. Relatives will be there from Tennessee, Oklahoma and Texas. According to Judge Fritz R. Smith, there are more than 60 descendants in West Texas.

NOTICE MEN'S BIBLE CLASS FIRST BAPTIST CHURCH

Our lesson for next Sunday is a very interesting one, and is found in the second chapter of the book of Daniel. It is the study of the interpretation of Nebuchadnezzar's dream concerning the metalic image as revealed to Daniel by the God of heaven. The image was in the form of a man, great and terrible, with head of gold, shoulders and arms of silver, body of brass, legs of iron, feet and toes part of iron and part of clay. A stone cut out without hands smote the image on the feet and destroyed it, and then became a great mountain, and filled all the earth. What does this all mean?

Come next Sunday and let's learn from the inspired book what it means.

Visitors invited, and will be given a hearty welcome.

C. C. CARR.

Why the New Dodge Six is eclipsing its entire field

The backbone of Dodge Six dependability, ruggedness, strength and long life is a structure of modern mechanical features that are bigger, stronger, more advanced and more efficient than those found in other cars that are sold at approximately the same price.

Nothing that you hear or read about the new Dodge Six could be more impressive than the facts and figures you will find in a Table of Comparative Specifications. For here is concrete evidence that in real value the new Dodge Brothers Six totally eclipses all others in its field.

NEW DODGE BROTHERS SIX
EIGHT BODY STYLES: $945 TO $1065 F. O. B. DETROIT • Convenient Terms
CHRYSLER MOTORS PRODUCT
KING & BROWON
Snyder, Texas

Can your wife change a tire?

. . or must she hail strangers for help?

ISN'T it better to equip the car with the most trouble-proof tires ever built?

With treads so tough and thick, and a carcass so stout that the odds against even a puncture are 1,000 to 1.

Come in and get our change-over proposition on Goodyear Double Eagles—no obligation.

They're the finest tires that the world's largest rubber company can produce *without a cost limit of any kind!*

Widely imitated — but they can't be equaled.

Priced to give you the lowest cost, easiest riding and most care-free tire mileage known today.

Office under the First State Bank & Trust Co.

Oil drained from the crank case of the family automobile isn't any more use to the auto, but it can be used to combat mites in the poultry house. The undersides of the roosts and bottom of the nests should be painted with the oil drainings. Mites breed in cracks and crevices of wood, and such places should be thoroughly treated.

WILL TEACH AT LONE WOLF

James Hudson will have charge of the Lone Wolf school next term, and will have his sister, Mrs. Winn Lee as assistant. Mr. Hudson is a Hermleigh product and according to his home town paper, the Herald, is a very fine young man who is recommended to the patrons and pupils of the Lone Wolf school.

CARD OF THANKS

We very gratefully appreciate the work the ladies of the town have done in making the District Epworth League meeting a success. To all who helped in any way to furnish food for the lunch or entertained any of the delegates for the night. To Mrs. Warren Dodson, and Mrs. H. G. Towle we especially express our appreciation for your untiring efforts in making the meeting the greatest success possible.

Signed—
SNYDER EPWORTH LEAGUE.

Rural Schools—

(Continued from Page 1)

to the relations of the school trustees to the schools and to the community.

Within a few days the State Superintendent will send bulletins and a copy of the new rural aid law to every County School Superintendent. The latter will be mailed Friday. Since there are some material changes from the old law the several counties will have to be specially advised as to the new requirements.

An important action under the new law yet to be taken by the State Board of Education is to adopt the maximum salaries which may be paid out of the State aid in the rural schools. Mr. Marrs has prepared a schedule, but in the absence of his approval is not made public.

What Law Requires

The law requires that the rural schools have a term of not less than six and one-half months and the $5,000,000 State appropriation will be apportioned in salaries and other expenses to insure that length of schooling in the country districts. That explains the reason for adopting maximum salary amounts which can be paid out of the state aid. The schedule is built so as not to exhaust the available funds before the six and one-half months term.

The new law fixes the number of teachers based on the census enrollment. There can be but one teacher for thirty-five pupils and less, two up to sixty-five pupils and graduated upward.

The State Board of Education is expected to meet any day now to fix the salary maximums for which action is awaited with much interest by the rural schools of the State. As soon as the schedule is adopted it will be bulletined to the counties for their information and guidance.

Epworth League—

(Continued from Page 1)

joyed by all who were present. After the devotional service, Mr. Roberts took charge and an interesting business meeting followed. Officers of the district were elected and Mr. Hugh Clift of McCaulley was elected president. The question as to where the next district meeting should be held was brought up. Roscoe was named by Frank I. Williams. Sweetwater was named by Miss Mabel McGlothing. Big Spring was named by Miss Nellie Puckett. A vote was taken and Roscoe was chosen by a large majority. This meeting will be held Oct. 26-27.

The meeting in general was extraordinarily good in many ways. There were close to two hundred present for the Sunday evening service. This is the largest attendance that has ever been at a district meeting any time in the past two years. This shows that the Sweetwater district is running strong for the loving cup offered by the Conference Epworth League board.

The leagues of the district that were represented either at the Saturday evening or the Sunday services are: Sweetwater First church, Roscoe, Loraine, Colorado, Westbrook, Big Spring, Stanton, Union Chapel, Fluvanna, Hermleigh, Roby, and Snyder. Other places in the district that were unable to have delegates are: Hamlin, Rotan, McCaulley, Sylvester, Camp Springs, Highland Heights (Sweetwater), Blackwell, Dunn, Coahoma, Ira, and Gail.

The out-of-district leaders who attended the meeting were: Mr. and Mrs. J. H. Agee of Abilene, Rev. Sollie E. McCreless of San Antonio, and Mrs. W. B. Little of Post who is district secretary of the Lubbock district.

The women of the church are to be given credit for furnishing the food for the lunch, which was remarkably enticing and pleasing to the palate.

Mrs. Warren Dodson, Mrs. H. G. Towle, Mrs. R. H. Curnutte, Miss Martha Gray, and Mrs. R. E. Gray, assisted by a number of other ladies and girls are to be given special mention for the work they did in cooking and preparing the food. Mrs. R. E. Gray, Miss Martha Gray, and Mrs. Allen Warren solicited the homes for the visiting leaguers.

Everything was carried out splendidly and the meeting was a wonderful success.

(Ed. Note: The Times-Signal is indebted to Clarence Walton, president Snyder Epworth League, for the fine report of the meeting and we sincerely thank him for his interest in our behalf. As chairman for the local meeting, Mr. Walton handled his part nobly and well.)

ANOTHER USE FOR PAPERS

What is more useful than a newspaper? When new its supplies news and advertising that give its readers essential information. When old, it is used to wrap things in, in place of a table cloth at picnics, etc. Now another use has been found that should interest every housewife.

Mary Kiethline, of the South Dakota State College, has discovered that old newspapers excelent substitute for moth-proof bags for storing clothing during the summer months. She says if clothing is wrapped carefully in several thicknesses of newspaper, protection is provided at very small cost. Newspapers make especially good moth-proof wrappings because the printer's ink is objectionable to moths.

She recommends that garments be dry cleaned before being stored away for the summer, since soiled clothing attracts moths more than clean clothing. Garments should also be brushed to remove such eggs which have already been deposited. Thoroughly sun the garments before putting them away—and, if you are inclined to believe in the theories of Miss Keithline's boys, use the newspaper.

U. S. Newspapers also keep businesses from being moth-eaten. The secret lies in wise, effective advertising.)

UNIQUE PLAN FOR PASTURE IS SEEN

L. M. Faulkner, pioneer Hale County farmer, is unque in his farm operations. He sells wheat pasture at three dollars per acre a month and makes more wheat on the dairy cow pasture land than on any other similar size tract of his large operations.

Mr. Faulkner employs a man to look after his farm near Kress. Last winter he pastured 27 to 30 head of dairy animals on the wheat land and delivered three cans of cream per day to the railway station at Kress for shipment. This pasture land made 30 bushels of wheat per acre.

Has It Figured.

Mr. Faulkner figures that the wheat pasture is worth three dollars per acre per month as dairy cow pasture.

Here in the days when the White Face was the mainstay of the land owner, Mr. Faulkner had adapted his land operations to the changed conditions and there is no more enthusiastic advocate of the dairy cow for the Plains farm than he.

TERRELL PLACES TEXAS CROP NEAR 4,775,000 BALES

The Texas cotton crop is estimated at 4,775,000 bales, based upon a July 15 condition, by George B. Terrell, Commissioner of Agriculture.

The acreage, says the report, was increased 2 per cent, but abandonment has offset the increase, which makes the acreage practically the same as last season. With favorable conditions the crop could reach 5,000,000 bales, but it is Mr. Terrell's opinion that it will fall below that figure.

Considerable boll weevil damage is reported and the leafworm is cleaning fields in South Texas. Many growers are poisoning.

Fine silver . . . . makes entertaining a joy

Preparing the menu, phoning the guests, working out the right seating arrangement—those are details that try the patience of even the most expert hostess. But the charm of a well appointed table compensates for all such bother . . . . Fine silver *does* make entertaining a joy! . . . . Here you will see all the newest designs in both sterling and plate. And prices, you'll notice, are very moderate indeed.

De Leon Free Press Celebrats 40th Birthday Anniversary With Interesting 28-Page Edition

Story Included Telling Why There Are No Negroes In Comanche Co.

Coming out with one of the best arranged editions that ever came to our exchange desk, the De Leon Free Press recently celebrated its fortieth birthday anniversary with an edition of 28 pages in which appear some of the most interesting data to the early and present-day life of De Leon and Comanche County ever assembled in one paper. R. S. Scott is the live-wire editor of the Free Press. The Times-Signal herewith extends congratulations to him and his organization as well as to the city of De Leon on this important anniversary of so worthy a public servant as the old home newspaper.

No Negroes In Comanche

One of the many interesting stories appearing in the special edition tells why there are no negroes in Comanche County. The story follows:

There was a tragedy on the farm that people later came to call the Ben Stephens place, on a Saturday morning in August 1886. "Nigger Tom," a young black about 21 years old, was working for Ben Stephens. While Stephens was in Comanche on business the negro boy took a single barrel, muzzle-loading shotgun and shot Sallie, the young wife of Stephens, to death. She was about twenty-five years of age and was mother of three small children. The charge of shot took effect instantly, probably never knowing what hit her.

Sallie Stephens was a daughter of Uncle Zack Hulsey. She was living with her parents on the old Hulsey homestead when she was married to Ben Stephens and the home they chose was about a mile further west.

On that particular Saturday morning Uncle Zack decided to go over and visit his daughter. Coming to the house, he found the children playing and asked them where their mother was. They said, "gone to the barn for eggs."

He went in that direction and found his daughter lying dead some thirty feet from the corner of the smoke-house. By the smokehouse he found the empty shotgun and tracks where the negro had sprang away after he had committed the murder. The fugitive ran away eastward, probably through Onion Valley. A posse comprising practically every able-bodied man in miles around, scoured the country for the negro. Late Sunday they caught him over in Erath County near Liveoak and brought him back to the scene of his crime. He confessed his crime, but could not be made to talk more. Just why he comitted the deed he never told.

Sunday night he was kept close to the place where he had comitted the crime. Monday morning hundreds of people, men and women, went to the Stephen's farm to see him hanged. Many of these walked out from De Leon, the distance of five miles to witness the event.

The story is told of the infuriated men asking Uncle Zack Husley, father of the slain woman, if they might burn the negro alive at the stake. Uncle Zack is reputed to have repled, "No, boys, just take his life." The idea of justice seasoned with mercy was in the mind of this sturdy old pioneer whose child had fallen at the hands of the black.

After the negro had been hung to a post oak tree and pronounced dead, and his body buried in the crude grave nearby, one of the men in the party got up in a wagon and suggested going over to Comanche and running all the negroes out of the county. There were probably not over three dozen in the county at the time, most of these being in the town of Comanche. The suggestion was carried out without further violence. The citizens firmly and positively ordered the blacks to leave. In De Leon a plank was nailed up on a post with the wording "Negro, Don't Let the Sun Go Down On Your Head In This Town."

Down on Sabano the widow Hanson lived with two sons, Dan and Tom. They had a sort of a half-wit negro boy working for them at the time. When the order came for the negroes to leave, they brought the young negro back into De Leon to put him on the eastbound Texas Central to send him down toward Waco. He had never ridden on the train. He was scared stiff. When they were approaching the station with the terrified boy the engine "poped off steam." The negro tore himself away and ran like a wild man up the street, the white men in hot pursuit. They caught him and had to put him on the train by main force.

Since that time Comanche has been a county of and for whites. There is no law against their living here. Some people would doubtless welcome them. But the negroes themselves could not by any means be induced to come, even if invited by the whites. So the matter is likely to rest as it is throughout the years.

S. W. BARFOOT EARLY WITH LAYING PULLETS

Since the poultry business is coming to be very prominent in our community, any and all good examples of practical poultry growing would be worthy of public mention. Among these is our own S. W. Barfoot. Mr. Barfoot has given the poultry business years of careful study, and has put what he has observed into practical use. His poultry yard is located where any and every one desiring to see what he is doing might do so.

Mr. Barfoot was among the first of the community to hatch chickens this spring, has cared for them with but little loss by death, and his first hatch is now laying. These pullets are but little over four months old. This is a fine example of practical poultry growing.

Mr. Barfoot has studied the art of feeding chickens so as to get the best results with the least cost. This is certainly an important item in connection with poultry growing, if one wishes to profit by it.—Hermleigh Herald.

T. & P. ANNOUNCE ADDED SERVICE

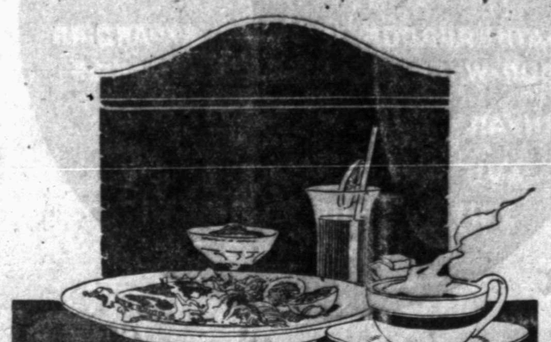

The Texas and Pacific Railway announces an added service to its patrons who are planning a trip to Europe or other foreign countries, said Frank Jensen, General Passenger Agent, Dallas.

After a passenger has secured his passport, said Mr. Jensen, same can be turned over to any Texas and Pacific Railway Agent, who will forward the passport to its port representative, who will have the various Consuls of the countries to be visited visa it.

This will save Texas and Pacific patrons, said Mr. Jensen, the time they would consume if they were compelled to personally call on the various Consuls.

This new service is without charge to Texas and Pacific patrons, promises to prove very popular, and is an innovation in passenger service.

A Two-Dollar Dinner For Six

Quaker Soup		28¢
Cold Plate containing	*Sliced Cold Corned Beef*	25¢
	Deviled Eggs	36¢
	Potato Chips	15¢
	Cabbage and Carrot Salad	23¢
	Pimientos	17¢
Rye Bread and Butter		15¢
Custard with Raspberry Sauce		34¢
Iced Tea		6¢

ISN'T that a pretty good dinner for $2.00 or thereabouts? The above figures total $1.99, but food prices vary slightly in different localities.

To make the Quaker Soup, add one cup of water to a can of Pepper Pot Soup and heat to boiling. Heat a can of tomato soup to boiling, and scald two cups of milk. Add hot tomato soup very slowly to the hot milk, not boiling after mixing. Add the hot Pepper Pot, season and serve.

For the Cold Plate you will need one 12-ounce can corned beef, six eggs, one 3¾-ounce package potato chips, two and one-half cups cabbage, one 8-ounce can diced carrots, one-fourth cup French dressing, and one 7½-ounce can of pimientos. Chill the can of corned beef in the ice box, remove from can, and slice thin. Have the cabbage finely shredded and very crisp. Add well drained carrots and mix in lightly the French dressing, using two forks. Arrange the ingredients attractively on individual service plates, and be sure to have them all very cold.

To make the Raspberry Sauce for the custard, mix one teaspoon cornstarch with one tablespoon sugar, add to the raspberries from an 8-ounce can and cook till slightly thickened. Cool. Serve cold over the cold and unmolded custards.

IDEAL RECIPES FOR THE HOME

BAKED EGGS

Let eggs stand 20 minutes in boiling water or until yolk and white are hard. Pour medium cream sauce over the sliced egg (using for 1dozen eggs 2 cups of cream sauce, 2 cups milk, 4 tablespoons flour). Sprinkle one layer of bread crumbs on bottom of baking dish, and then a layer of cream sauce and eggs, another layer of bread crumbs, and a tiny bit of grated cheese sprinkled through. Bake in hot oven for 10 minutes until buttered crumbs are browned.

1929 PICNIC SANDWICH

Try to get away from the ordinary picnic foods. Take a few of the old standbys, of course, but always have something novel.

Vary the cheese and ham sandwich with something lighter. Leave the hardboiled eggs at home and take some fresh eggs to fry over your camp-fire embers. Here is a tasty sandwich for the next picnic:

Spread thin piece of bread with cold baked beans. Spread another slice with finely-minced, stuffed olives. Make a sandwich of the two. Graham, rye, or even white bread will do.

FRUITY CREAMED CUSTARD

4 oranges
2 eggs
¼ cup sugar
2 teaspoons flour
⅛ teaspoon salt
2 cups milk
½ teaspoon vanilla
5 tablespoons sugar

Beat egg-yolks, add ¼ cup sugar, flour, and salt and mix thoroughly. Add milk and cook in double boiler until thick enough to coat spoon. Cool, add vanilla and turn into serving dish containing peeled and sliced oranges. Beat egg-whites with 5 tablespoons sugar. Heap on top of custard and serve.

CAMP-FIRE APPLES

Try this on your next picnic. Wrap a nice juicy apple in some aromatic leaves like sassafras. Encase both leaves and apple in a layer of wet clay. Deposit the whole in the embers of your fire and leave there for about twenty-five minutes.

When you take it out, the clay will break away and you will have a delicious-roasted apple, the juice of which has been retained by the leaves.

CANDIED ORANGE PEEL

Put peel from 8 oranges in cold water; heat to boiling point and cook gently until very tender. Drain; put in cold water, and when cold remove membrane and soft part. Boil 1 cup sugar and ½ cup water until syrup spins a thread; put in peel and cook gently until syrup is evaporated and peel looks clear. Drain on wire cake cooler and leave in open air until thoroughly drained.

"You'll Like Snyder."

A post card mailed in California 16 years ago was recently delivered to W. V. Acheson in Melbourne, Australia.

Palace Theatre
PROGRAM FOR THE WEEK
VITAPHONE

Friday, Aug. 2
"SPIES"
With an all-star cast. A maze of glorified intrigue that makes the ordinary detective story seem like an Aesop fable. Comedy.

"GIRLS FROM EVERYWHERE"

Saturday, Aug. 3
"COLLEGE"
Starring Buster Keaton in his latest comedy sensation. Also talking novelty.

"OFT IN THE SILLY NIGHT"

Monday and Tuesday, Aug. 5-6
"NOTHING BUT THE TRUTH"
Starring Richard Dix with Helen Kane. Funny, laughs, entertaining. You only know the half of Dix until you see and hear him talk. Talking comedy.

"THE BIG SQUAK"
starring Charlie Chase

Wednesday and Thursday, Aug. 7-8
"THE SPECTACLE OF THE AGES"
Told by two glorious lovers who loved for all eternity. Dolores Costello in Noah's Ark with George O'Brien. A Warner Bros. Vitaphone Talking picture.

THE BIBLE SERVES THE INDIVIDUAL

There is inspiration in the Bible. There is ambition. There is hope. There is help.

One has only to search the passages to find these things:

The following eight instances may serve to aid someone:

If you have the "blues" read the 27th Psalm.

If your pocket book is empty read the 37th Psalm.

If people seem unkind read the 15th chapter of John.

If you are discouraged about your work read the 126th Psalm.

If you are all out of sorts read the 12th chapter of Hebrews.

If you can't have your own way in everything keep silent and read the 3rd chapter of James.

If you are losing confidence in men read the 13th chapter of First Corinthians.

If you have an enemy read the 12th chapter of Romans.—

TO THE FAITHFUL COW

There is a banker down at Bagwell, who is original and knows how to tell the good points of his bank rather uniquely. At the bottom ought to have those statements he says: "To the faithful cow we wish to bow and give her credit for a reduction in our loans of 16 per cent and an increase of 15 per cent in deposits over corresponding date of last year." His name is V. D. Jones and he is cashier of the First National Bank of Bagwell. He He ought to have those statements printed by the thousands and send them to all parts of the state.

It is a good idea for the bank and for dairy developement as well.

A man has invented a way to hold cow tails, so there is no use crying over spilt milk. Gov. Dan Moody should get on top of that one.

Celery seed vinegar is good for use in salads and in many other ways. To make it, bring 1 pint of vinegar to the boiling point, cool for five minutes, and add to ¼ cup of celery seed and ½ tablespoon salt. Let stand two weeks, strain and bottle.

Run-Down

"About seven years ago, I was all run-down, worn-out and never felt good," says Mrs. Harry Cantrell, of Cape Girardeau, Mo. "A chair would be more welcome any time than my work.

"I was so tired when I would arise in the morning. Instead of being rested, I felt terrible.

"At last, mother told me to take Cardui, and I did. After the first bottle, I could tell a difference, and when I had taken five bottles the tired feeling was all gone. I felt like a different person, thanks to Cardui. I hope that other mothers will try Cardui. I have been wonderfully benefited by it."

Try Cardui in your case.

CARDUI
HELPS WOMEN TO HEALTH

Take Thedford's BLACK-DRAUGHT for Constipation, Indigestion, Biliousness. Costs only 1 cent a dose.

65%
of automobile injuries come from flying glass

NEW FORD TUDOR SEDAN
$525
(F. O. B. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

Triplex glass windshield will not shatter

FIGURES compiled by the Massachusetts Mutual Liability Insurance Association show that 65 per cent of automobile injuries are caused by flying glass. This same survey estimates that the use of safety glass in all automobiles would reduce the number of injured in the United States by as many as 350,000 annually.

It is easy to see, therefore, the safety value of the Triplex shatter-proof glass windshields of all the new Ford cars.

The use of shatter-proof glass in the new Ford, without extra cost, is just another indication of the quality that has been built into every part.

When you see this great new car—when you know the thrill of driving it—you will realize that it gives you everything you will want or need in a modern automobile . . . beautiful low lines and choice of a number of colors . . . quick acceleration . . . 55 to 65 miles an hour . . . vibration-absorbing engine support . . . four Houdaille hydraulic two-way shock absorbers . . . Triplex shatter-proof glass windshield . . . Alemite chassis lubrication . . . fully enclosed, silent six-brake system . . . typical Ford economy, reliability and long life.

Call or telephone for demonstration

Note these low prices:

Roadster, $450 Phaeton, $460 Tudor Sedan, $525
Business Coupe, $525 Coupe, $550
Sport Coupe, with rumble seat, $550
Fordor Sedan, $625

(All prices f. o. b. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

Joe Strayhorn
Ford
