MINSTREL FOR BLIND FUND IS TAKING SHAPE

Tickets for Lions Club Sponsored
Show Going Fast as Date of
Show Set for Thursday

Sponsored by the Snyder Lions Club, the Dixie Land Negro Minstrel Show, featuring Harlem on Parade, went into final stages of perfection this week preparatory to presentation Thursday evening, May 13, in Snyder School Auditorium, E. O. Wedgeworth, director general of the production, reports.

Snyder's Tiger Band, directed by A. M. Martin, was engaged this week to present a 15-minute concert prior to raising of the curtain at 8:45 o'clock.

Program for the Dixie Land Minstrel will be spiced, directors report, with between-act numbers and the old fashioned minstrel type candy sale. Many valuable prizes will be found in candy offered to play attendants.

Reserved seats for the forthcoming presentation went on sale Tuesday at Stinson Drug No. 1. The tickets are selling for 20 cents each, and are said to be going mighty fast.

Entire proceeds of the minstrel will go to the Snyder Lions Club blind fund, and to provide glasses and doctor's care for cases in the county which need attention.

The musical extravaganza will be divided into two parts—first part of which will be the old-time Negro Minstrel part, and second stanza of which will carry a war-time theme.

Advertising material for the Dixie Land Minstrel is being placed this week in Snyder and Scurry County, and all indications point to a "sell-out" crowd. Advertising material is being handled through a special club committee.

In order for everyone to secure a seat for the May 13 production, members of the ticket sales committee urge entertainment lovers to secure tickets at the earliest moment possible.

General admission prices, as announced this week, have been set at 25 and 55 cents.

Since only one presentation of the Dixie Land Negro Minstrel has been planned, those who wish to see something really worthwhile in entertainment are asked to be at Snyder School auditorium Thursday evening, May 13, something like 30 minutes before the curtain is raised at 9:00 o'clock.

Blooded Horse for Service Secured by Winstons at Snyder

Winston Brothers, well known Domino Return Hereford breeders, announce this week addition of Feudal Times, one of the finest blooded horses in this region, for service at the Winston barns.

Feudal Times is a stallion bred in the purple, and has a pedigree that gives evidence to a good family line of careful breeding.

Sir Gallahad III, sire of Feudal Times, won the Prix Eclipse, du Petit Courvert, de la Mediterranee, Lincolnshire Handicap in England, many other awards, and through 1942 his get had won 1,205 races and \$2,688,131 in North America.

The stallion obtained by Winston Brothers has been with but one acre during five seasons in the south central area.

Winston Brothers—Harrie and Wade—are cooperating closely with officials of the U. S. Army Remount Station to encourage raising of good blooded stock in this trade area. Need for good blooded animals after the war will be tremendous, breeders declare.

Choral Club to Give Operetta at School

Entertainment lovers of Snyder and nearby communities will have a treat in store this (Thursday) evening at Snyder School auditorium in the form of an operetta, "Windmills of Holland," which will be staged by the Snyder Choral Club.

Directed by A. M. Martin, Snyder Tiger Band director, the presentation is scheduled to begin at 8:45 o'clock.

Setting for the production is in Holland, and the scene is about the house and well of a rich Holland farmer. Admission prices have been set at 10 and 25 cents.

Members of the Choral Club say proceeds from the play will be utilized by the club for music and setting up of a fund to buy Choral Club robes. The public is invited to witness the presentation.

No Council Meeting Monday.
Due to absence from Snyder of several members, regular monthly meeting of the City Council, scheduled for Monday evening, was postponed, a spokesman for the aldermen reports. Several important matters will come up for transaction at the gathering, when held.

Reserved Seats

Reserved seats for the Dixie Land Negro Minstrel Show, to be presented under Lions Club sponsorship Thursday evening, May 13, in Snyder School auditorium, went on sale Tuesday at Stinson Drug No. 1.

Tickets for the reserved seats, at 20 cents each, are going mighty fast, and entertainment lovers of this trade area who want to be sure of seeing the minstrel presentation from the most advantageous point are urged to obtain reserved seat tickets immediately.

Good Prices Paid By First Monday Livestock Buyers

First Monday trading at the stockyards, two blocks north of the square, hit a new level when weaning pigs, weighing around 50 pounds each, sold for \$7 to \$7.50.

Small calves sold for \$15 per head, with buyers showing a keen response for offerings from this trade zone.

Springer cows, on the light side of the ledger, were difficult to find. Traders quoted prices ranging from \$110 to \$125.

First Monday activities attracted a considerable number of traders, farmers and cattlemen from Scurry, Fisher, Garza and Kent Counties.

Inquiries were numerous concerning used farm machinery, ranging from horse drawn cultivators and go-devils to planters, but used machinery of any type was reported hard to find.

Observers agreed Monday that greening of pasture land, plus planting of early feed, was brightening the picture insofar as Scurry County's feed situation was concerned. Headed milo make commands prices ranging from \$27.50 to \$28 per ton.

Seed Peanuts for County Growers Being Moved Fast

Monday, May 31, was announced this week as the deadline for Scurry County producers to buy seed peanuts, according to word received by the county AAA office.

Winston Feed Store, two blocks north of the square on Avenue S, has been designated as selling agent for the county, and is selling only No. 1 peanuts for seed purposes, the county Triple A office reports.

Clyde Boren and Jesse Clements, operators of Winston Feed Store, said Tuesday approximately 35,000 pounds of seed had been sold through Monday. About 100,000 pounds, or 50 tons, will be sold to county producers prior to the May 31 deadline, it is estimated.

Producers who happen to have an excess of planting peanut seed on May 31 may sell them to the source obtained originally, the state AAA office announces.

All peanuts, grading No. 1 for seed purposes only, being sold by Winston were raised last year in Scurry or adjoining counties.

School Trustees of County to Take Posts

All school trustees who have not yet qualified for their positions are urged this week by the county superintendent's office to drop by at once and fill out appropriate papers.

"It is very important," Mrs. Gaston Brock, county superintendent, states, "that school trustees qualify for their places at once. We shall be happy to see that our office gives every assistance possible."

DATA ON CROP PLATS READY FOR FARMERS

Pre-Measurement Service Available
As Basis for 1943 Work Plan
Under Government Set-Up

All Scurry County farmers still have the opportunity to obtain data on the fields in their farms by calling at the county AAA office, Johnnie M. Ammons, county Triple A administrative officer, reported Tuesday.

Practically every farm in Scurry County has been mapped on aerial photographs, and the sizes of the various fields recorded. Arrangements have been made to furnish this information, as a pre-measurement service, to all farmers of the county.

When a request is made at the county AAA office for acreage data, farmers should bring in their cut-outs, which are aerial photos of farms, or any other farm maps in their possession.

This service should be particularly helpful to the farmers this year, Ammons said, since he will be responsible for reporting his performance under the 1943 program. Furthermore, in the case of cotton, the farmer cannot remove excess acreage after performance is reported, in the case of cotton, the farmer cannot remove excess acreage after performance is reported, in order to obtain full payment under the program in 1943.

In cases where a field will not be planted according to 1942 boundaries but will be split into two or more parts in 1943, the farmer will need to furnish enough of the principal dimensions to enable the county office to revise its records accordingly.

Every Scurry County farmer is urged to take advantage of this offer even though some of his fields may already be planted. The information furnished under this plan will comprise the official acreages for the farm during the 1943 program year, provided the farmer plants his crop according to the boundaries on which the acreages were determined. Ammons said many farmers already have obtained their field acreages from county office records. He urged that others take advantage of this opportunity as quickly as possible. There is no charge for this service.

Von Roeders See 70 Per Cent Fruit Crop

Von Roeder Seed Farms, according to a report received Wednesday, have indications of around 70 per cent of a normal fruit crop, or in the neighborhood of 4,000 bushels, Nolan and Clemens von Roeder, orchard operators, reported Wednesday.

Reports received not only from the von Roeders at Knapp, but from other parts of this immediate zone indicate this year's fruit crop will be from 60 to 70 per cent—based on the present outlook.

11 Per Cent of Cotton Farmers Insure Crop

Total of 220 Scurry County cotton farmers, or 11.8 per cent of the farmers in the county, took out federal all-risk cotton crop insurance on this year's crop, the Scurry County Agricultural Adjustment Administration announced Tuesday.

In taking out cotton crop insurance on the 1943 crop, county farmers ranked third in percentage and third in number in District 6 North, the county AAA office reveals.

Over the state, more than 56,000 Texas cotton farms are covered by federal all-risk crop insurance this year. Cotton crop insurance offered for the second year protects cotton from all unavoidable hazards—including drought, insects, rain, hail and wind.

Cotton Week Named by Governor

Declaring that "cotton and cottonseed products are essential to winning the war and peace," Governor Coke E. Stevenson of Texas signs a proclamation asking all Texans to observe National Cotton Week May 17 to May 22. Watching Governor Stevenson sign the proclamation are, left to right, Captain Burris O. Jackson of Hillsboro, chairman

Bond Sales Pass Quota by \$18,393 In Final Splurge

Scurry County War Bond and War Savings Stamp sales for April, tabulated to include purchases through May 1, totaled \$230,393.75—\$18,393.75 more than the county's assessed quota of \$212,000 in the second war loan drive. E. O. Wedgeworth, county war bond and stamp sales chairman, reports.

In addition to non-bank bond and stamp purchases, Snyder National Bank purchased \$165,000 worth of treasury series bonds—going over assessed quota.

Here's the way April bond and stamp sales stacked up through various sales agencies:

Snyder National Bank	\$199,400.00
Sweetwater Prod. Credit	13,975.00
Post Office	10,650.00
H. R. Hinkle	5,868.75
Fluvanna	500.00
TOTAL	\$230,393.75

Old Age Pension List For County Decline

While the number on the old age assistance rolls declined in Scurry County to a figure below the 300 mark, and showed a similar decline over the state, the cost of the program continued upward, the State Department of Public Welfare reported Tuesday.

Rolls over the state dropped to 183,092, a net loss of 101. The department added 1,853 cases to the rolls and removed 945 cases because of current ineligibility. Total of 1,009 aged persons died during the month.

Aid to dependent children rolls remained static during April, reports the show. There are now 12,168 families, representing 37,175 children, receiving \$259,634 in an average grant of \$21.34.

Robert Arnett at San Diego.
Robert Arnett, grandson of Mr. and Mrs. Frank Newby, is now stationed at San Diego, California, with the U. S. Navy, Snyder relatives learn. Robert, who has been in service two months, formerly was associated with the Frank Arnett Garage, west of the square.

County Tire Shortage Threatens Farm Sales

COUNTY BOYS IN 36TH GROUP REACH AFRICA

Homer Spence of Company F Writes
He Has Seen Number of Local
Boys Since Arriving

Scurry County's Company "G" boys, 142nd Infantry of the 36th Division, are now stationed "somewhere in Africa," The Times learned this week.

In a letter to his wife and boys, and also in a letter to his parents, Captain Homer M. Spence of Company F, 142nd Infantry, writes that boys of the 36th Division are in excellent spirits, and in better trim than almost any other fighting unit abroad.

"I saw Captain Mobley, also Leonard, and Major Roy O. Irvin," Homer writes. "They are O. K. Our boys are conducting themselves well, but have very little use for money over here."

"What I have seen here of this country is very beautiful—rich valleys and farm land that remind me of some of Texas and New Mexico country—like around Roswell, New Mexico, for example."

Sergeant Don Adams, a Company G boy, also wrote his parents this week, Mr. and Mrs. J. B. Adams of the Union community, that all Company G boys were now in North Africa. Sergeant Adams ran across some other Scurry County boys, including Gene Fields, who is now with the U. S. Merchant Marine.

"That the 36th Division will see plenty of action within the near future was a foregone conclusion this week with military authorities." The 36th Division, of which Company G is a part, is said to be one of the best equipped outfits near the front.

Incidentally, only some 60 boys who left Scurry County with Company G remain with the outfit. Remainder have been transferred to other parts of the 36th Division.

Tin Can Chairman Urges Salvage Drive

Mrs. Hugh Boren, chairman of Snyder's tin salvage campaign, and other committee members this week issued an appeal to Snyder households to redouble efforts in getting donations of cans to the salvage station at the T-P warehouse, just north of the Ely, Arnold & Ely Gin on the R. S. & P. tracks.

"Such a small service as contributions of tin cans may help more than you ever knew in winning the war," Mrs. Boren said Tuesday, "and we believe housewives will prove equal to the challenge. Those who take cans to the collection center and find it closed are asked to leave donations in front of the warehouse."

Farmers Urged to Plant to Crop Limit

Scurry County's 1,400 farmers were sent an urgent appeal this week to plant to the limit in critical war crops and feed crops for livestock during 1943.

With spring planting well underway, S. L. Terry, chairman of the Scurry County U. S. Department of Agriculture War Board, declares "this is the most important planting season in American history, and the number of acres to be planted can still be increased."

The War Food Administration urgently requests Scurry County farmers and ranchers to plant to the limit in feed and food crops. Only weather will be the limiting factor, it is said, in determining how much farmers accomplish this year in producing food and feed for victory.

Baird Surgeon Takes Snyder Hospital Post

Dr. C. R. Cockrell of Baird assumed duties this week as chief surgeon at Snyder General Hospital to replace Dr. Grady Shytles, who recently volunteered for foreign service, hospital officials report.

Dr. Cockrell has been associated with the Callahan County Hospital at Baird for the past 10 years, where he gained an enviable reputation.

Dr. Cockrell's wife and four children plan to join him as soon as the school is out.

Save Those Cans!

Probably you think, Mrs. Housewife, collection of tin cans is a mighty small item, but Scurry County's tin can salvage drive needs drastic "priming" this week with donations of tin cans with which to produce copper for war materials.

Those who have tin cans they wish to donate to the tin can salvage drive are urged by drive officials to take the cans to the T-P warehouse, north of the Ely, Arnold & Ely gin on the R. S. & P. Railway tracks. If no one is at the warehouse, donors are asked to send the contributions on the platform.

SMALL QUOTA FOR MAY ONLY MITE OF NEED

Producers of County Facing Acute
Situation in Face of Need for
Getting Stuff to Market

Congressional investigations reveal this week that all synthetic tires and tubes of first line quality being turned out are going to the armed forces. Too, plants awarded contracts for manufacturing synthetic tires are said by reliable sources to be one year behind schedule.

Scurry County's entire war effort is being paralyzed by the lack of tires and tubes, but local and district OPA officials see very little hope of betterment. Produce is actually running in many homes, because farmers have no tires with which to bring the produce to town. Many are put in straightened circumstances because their work demands travel—whatever "Ramrod" Jeffers says or thinks.

Many Scurry County people, in view of the present acute shortage of tires, are wondering just what really did happen to the thousands of pounds of second hand tires, inner tubes, hose and other rubber articles—170,000 pounds, or 85 tons to be exact—worth donated in last summer's scrap rubber drive.

Should Scurry County people be granted just 25 per cent of the amount contributed in the scrap rubber drive back in the form of war tires, much of the present grief would be removed, observers declare.

Scurry County's War Price and Ration Board remained in a quandary this week—a quandary from which there seemed small chance of immediate relief.

The county war price and ration board has approximately 700 applications on hand from county farmers and others who urgently need new tires and tubes in order to bring produce into town—but a quota of only 67 tires for the ensuing month.

Current shortage of tires that is really pinching Scurry County enters the critical stage, when the fact is taken into consideration applicants have lives well past the reaping and repair stage.

People who have placed applications for tires and tubes would be eligible for new rubber—if the rubber were available. There just simply are not enough tires and tubes to go around, and those who are letting cream and eggs and other produce run—because of lack of transportation—are advised that every step is being taken which might remedy the situation.

Word received Wednesday from Washington sources reveals that Rubber Oar (William Jeffers, OPA and other agencies in general are still bogged completely down in the synthetic rubber middle. Jeffers promised civilians tires well before the end of 1943, but is finding this promise not even remotely possible to fulfill.

Deep down in the mystic corners of congressional reports, it was brought out in Washington several months back, lies an answer to most of our present rubber problems.

Congressional sources, it was revealed, discovered the United States had trade agreements with Great Britain and South America—to name two countries—to destroy all our synthetic rubber plants upon termination of the war. If this be true, as alleged by investigators, the reason for being out year behind on this country's synthetic rubber program is obvious.

Still, Scurry County people say, all the explanations in the world will not remedy the most urgent need for tires, immediately, to equip 700 county vehicles so the home front war effort will not bog down. Any contemplated action, however, must insure some kind of immediate relief to "keep 'em rollin' for victory."

Footings for Bridge Poured This Week

Concrete work on the Highway 13 bridge across Deep Creek was progressing Wednesday on schedule, State Highway Department engineers report. Additional footings for the concrete bridge were under construction, and creek channel clearance work was going on at normal pace.

Some 20 men are now employed on the project. J. S. Gorman, resident for the State Highway Department, reports.

Those who have inspected construction work the past few days express keen interest over the solid foundation being placed for the \$38,000 concrete structure—a bridge that will have six 36-foot spans.

Six good reasons why you should, by all means, attend the Snyder Lions Club Dixie Land Negro Minstrel, to be presented

In Snyder School auditorium Thursday evening, May 13, are presented for your approval. Left to right are Monroe Doctrine (L.

A. Chapman), Sambo Sloofoot (Gerald Gordon), Mose Ready (Victor Baze), Rastus Parry Gorio (Willard Jones), Early

May Flowers (Roy J. Porter), and T-Bone Ration (Ed Stahl). The minstrel will feature "Harlem on Parade" and a chorus of 35 col-

ored gals and boys. Proceeds from the presentation will go to the Snyder Lions Club blind fund. Part No. 1 of the show

will be of the old-time minstrel variety, and Part No. 2 will be along a war-time theme. Plenty of gags will spice the program.

The WOMAN'S Page

A. H. Trices Celebrate Golden Anniversary

Memories dating back half a century—memories spiced with events which helped mold Scurry County and West Texas—were relived Sunday when Mr. and Mrs. A. H. Trice, veteran Scurry County couple, observed their golden wedding anniversary at the Trice home, 2605 Avenue U.

Mr. and Mrs. Trice were married May 3, 1893, and celebrated their anniversary Sunday—rather than Monday—in order that all kinfolks might attend the festivities.

A veteran gin man, Mr. Trice has not only managed several gins, including the Puller Gin at Camp Springs, but farmed for a number of years.

All of the Trice children were present for the gathering Sunday, which included dinner for attendants at noontime.

Trice children present were: Mmes. T. J. DeShazo and Fred Trice of Snyder; J. T. Trice, Mrs. Whit Simpson and Mrs. M. C. James of Camp Springs; and Mrs. L. P. Head of Lorenzo.

Grandchildren attending were: Private and Mrs. E. R. Jones Jr. of Lubbock; Roy Trice of Snyder; Perry Jo and Jerry Wayne Trice, Marilyn, Douglas and Robert James, Mr. and Mrs. James Simpson and Sandra Lou of Camp Springs; Mrs. Gray Webb and son of Big Spring and Clydene Head of Lorenzo. Two grandsons were not present, Jeff DeShazo and family of Sweetwater and Ellsworth Simpson, who is with the U. S. Army in North Africa.

Mrs. E. L. Gilmore and children, Barbara Joy and Felton, of Cross Plains; Mrs. Bill Sabourn and daughter, Patsy Ann, of Baird spent last week with Mr. and Mrs. G. W. Lee. Mrs. Herbert Lee and small son, Wayne of Herndale were guests in the Lee home last Wednesday and Thursday.

Bonnie von Roeder, W. T. Thompson Wed

Bonnie von Roeder became the bride of W. T. Thompson Saturday at Snyder's First Presbyterian Church, with Rev. Hubert C. Travis, pastor, officiating. The ring ceremony was read at 9:00 o'clock in the evening.

The bride wore a light blue cotton waist dress with blue and white accessories. For something borrowed she wore a necklace of lucite beads belonging to her mother. Attendants for the bride and bridegroom were Letha Woodard, as maid-of-honor, who was dressed in a rust crepe dress with brown accessories, and Forrest Bruen was best man.

The couple repeated vows before an improvised altar of greenery flanked by red radiant roses.

Other attendants were Mr. and Mrs. C. N. von Roeder and daughter, Patsy, parents and sister of the bride, and Mr. and Mrs. Ed Y. Thompson, parents of the bridegroom. Mayme Lou Stokes was also present for the ceremony.

The couple will make their home for the present at 1608 27th Street, Apartment A.

Mrs. Williams Back From Circle Session

Mrs. H. V. Williams, veteran Snyder worker, returned last Wednesday from Dallas, where she represented Snyder's Woodman Circle Grove No. 1269 at the state Woodman Circle convention.

The three-day convention was held in the Adolphus Hotel, and attracted approximately 3,500 people. Outstanding people in Woodman Circle work from all over the nation were attracted to the Dallas conclave, Mrs. Williams reports.

The Snyder grove member will give a report soon before the local Woodman Circle Grove on the three-day gathering.

Following attendance at the state Woodman Circle convention, Mrs. Williams visited relatives in Dallas, Waxahatchie, Maypearl, Grandview, Abilene and Fort Worth.

Knitting Workers Needed by Red Cross

"Scurry County's Red Cross production center is urgently in need of more women workers to keep the knitting needles busy," Mrs. J. G. Hicks, county RC war production chairman, stated Tuesday.

"We still lack 66 helmets and eight pairs of gloves in meeting our quota for this month, and will sincerely appreciate all the help we can get," Mrs. Hicks said.

Mrs. Hicks reports that the war production center is expecting another quota of thread the last of May, and this amount will run through the next four months.

Gift Tea Honors Mrs. Earl Pollard Jr.

Complimentary to Mrs. Earl C. Pollard Jr., a gift tea was held at the home of Charlene Headstream Tuesday evening at 6:00 o'clock. Assisting Miss Headstream were Mary Ellen Williams and Miss Headstream's mother, Mrs. W. W. Headstream.

The Headstream home was attractively arranged with radiant red roses and larkspur.

Guests were received by the honoree, her mother, Mrs. Leonard Gill of Lubbock, her grandmother, Mrs. Mabel Y. German, and an aunt, Mrs. John E. Irwin.

Johnnye Jean LeMond and Margaret Jane Farr alternately presided at the piano. Louise LeMond gave a poem, "To the Bride."

Guests were served punch and tea dainties from the lace-covered dining table, which was covered with a crystal bowl of red roses. Miss Williams poured punch.

Guests were invited into the bedroom, where a lovely array of gifts was on display.

Those included in the guest list were Mmes. B. P. Moffett Jr., Van Sumruld, John Spears, Lee Smyth, Mary B. Shell, Mattie Trimble, P. C. Chenault, Ralph Mathison, C. E. Ferguson, Garth Austin, Wayne Williams and Misses Martha Lou Holmes, Mary Belle Weatherbee, Mary Nell Noble, La Juana Ince, Thelma Burns, Helen Joy Taylor, Betty Joyce, Dot Wilson, Phebe Lou Jordan, Estelle Wellborn, Delores Higgs, Loree Mitchell.

Mr. and Mrs. Pollard were united in marriage April 2 at the First Baptist Church at Lubbock. They are making their home at San Antonio.

Methodist Women Hear Confab Reports

Mrs. A. M. Curry gave an interesting report Monday at the regular meeting of the Woman's Society of Christian Service, on the annual district meeting of the society recently held at Lubbock.

Mrs. Curry reported the presence and participation of one of the denomination's missionaries, Miss Reid. Mrs. J. D. Bragg, president of the Woman's Division of Christian Service, stated that the missionary work had almost trebled due to the world war with its interruptions.

Four programs on the study of "The Work of the WSCS" were arranged for the next meeting. Lesson No. 1 will be "The Organization and Purpose of the WSCS in the Local Church." Several women have special sub-topics assigned to them, but those who will come may participate by asking or answering questions. Society officers urged women to come to the church basement at 3:00 o'clock Monday.

Wedding announcements at The Times. Let us show you.

Stunning Style

Trimly tailored is this past blue slacks suit of cotton whipcord, worn by Universal's Gloria Jean. The cowboy-styled shirt with convertible collar and side slit pockets carries a decorative embroidered trim in red and white. Buttoned pockets, piped in white, and a jewel-studded white kid belt add interest to the slim lined trousers.

Dunn School Juniors Entertain Seniors

Junior students of Dunn High School honored the seniors Friday evening at 8:00 o'clock with a banquet held at the Manhattan Hotel. Opening number was the invocation by Sammie Marie Williams followed by the response by Billie Crael Davidson. Louise LeMond of Snyder rendered the famous "White Cliffs of Dover." Bro. Raymond C. Kelley, local Church of Christ minister, brought the main address for the evening, followed by Geraldine Pittner giving the senior class prophecy.

The entire group sang the national anthem, "Star-Spangled Banner."

The table was decorated with a lovely array of radiant red roses, and place-cards were the programs made up in the school colors, wine and white.

The supper menu consisted of tomato juice cocktail, baked ham, fruit salad, new potatoes, peas, hot rolls, iced tea, ice cream and cookies.

Those included on the junior-senior list were: Junior Ashley, Wynne Brooks, J. L. Bunch, Billie C. Davidson, W. J. Fuller, Wilford Oyler and Ann Weir, seniors; Dale Cotton, Tommie Denison, O. B. Franks, A. P. Smith, Joy Brown, Myrtle Campbell, Janice Billingsley, Mary Echols, E. P. Greene, Irma Jones, Janita Lewis, Geraldine Pinner and Sammie Marie Williams, juniors.

Those on the guest list included Messrs. and Mmes. W. C. Hooks, W. H. Hanson, Gaston Brack, Rev. and Mrs. Hubert C. Travis, Rev. and Mrs. A. B. Cockrell and Mmes. O. K. Davis and Lee Smyth, and Miss Grace Ellison.

Presbyterian Guild Meets in Autry Home

Presbyterian Guild members met at the home of Mrs. G. L. Autry Jr. Monday evening at 8:00 o'clock.

The meeting was called to order by the president, Frances Boren, and roll was called and minutes for the previous meeting were read by the secretary, Mrs. H. C. Travis. The program was then turned over to the leader, Mrs. Charles Manning.

Mrs. Manning gave a discussion on "Mothers," and she read a poem dedicated to her mother, Mrs. Travis reviewed "The Life of Pilate's Wife," and Mrs. Horace Roe gave "The Life of Judas."

The hostess passed a dainty sandwich plate to the following: Mmes. Woodrow Leslie and A. D. Dodson, aunts; Mmes. Manning, Amie McFarland, Gene Smith, Roe, Travis, E. O. Wedgeworth, G. G. Gordon and Bruce Murphy, and Miss Boren.

Next meeting will be held May 17 at the home of Miss Boren.

Altrurian Daughters Hear Music Program

Altrurian Daughters met Monday evening in the home of Rose Marie Clawson. Polly Harpole had charge of the program, which was on various types of music.

Miss Harpole's choral club gave examples in soprano as Katherine Northcutt explained the different types of songs.

Club members had a regular business meeting following the program. The hostess was assisted by her mother, Mrs. J. W. Clawson, in serving the members strawberry shortcake and coffee.

Party to Sam Bernard Rosenberg Sunday

Sam Bernard Rosenberg celebrated his eleventh birthday Sunday afternoon when his mother invited friends to their home for a birthday party.

Guests called from 4:00 to 6:00 o'clock. Games played by the group were under the direction of Mrs. Rosenberg, mother of the honoree.

Prior to the games, the honoree opened an attractive array of gifts. Following this Mrs. Rosenberg passed refreshments to Robert Preull, Bill Tom Drifbach, Retha Ann Porter, Sandra Jean Josephson, Maxine McGilton, Frank Wayne and Laverne Arnett, Coma Zell Jr., Billy Wayne Graham, Janelle, Nora Bess, Frank and George Darby and Joe Dave Scott.

Bedford Raleys Live in South Dakota

Marriage of Patti Hicks and Bedford Moore Raley took place at 8:00 o'clock, April 27. Rev. W. N. Peterson performed the ceremony in the First Methodist Church at Watertown, South Dakota.

The bride wore a navy sheer dress with navy and white accessories. She carried a white satin Bible with gardenias and lilacs of the valley. For the traditional "something old" she wore a gold necklace belonging to her great-aunt.

Handy Bard was the bride's only attendant, and John A. Raley of Lubbock attended his brother as best man.

Sergeant Raley and his bride will make their home at 316 Second Avenue, S. W., Watertown, South Dakota.

Marianne Randals Honored at Party

Marianne Randals was complimented with a birthday party Monday evening held in the outdoor living room at the home of her parents, Mr. and Mrs. R. J. Randals.

Miss Randals, an only daughter of the Randals, celebrated her eleventh birthday.

Following a refreshment treat, the guests played a number of games.

Those present for the affair were: Frances Leath, Joe Dave Scott, Joan and Nancy Johnston, David Lynn Headstream, Sandra Jean Josephson, James Littlepage, Mary Ann Morrison, Keith Allen, Jane Ann Woodson, Charlotte Fayer, Wanda and Patricia Hooper, Dewey Faye Everett, Kenneth and Dan Gibson, Maxine McClinton, Billy Don Harris and Donald York.

Woman's Culture Club in Tuesday Meet

Woman's Culture Club members met at the home of Mrs. A. P. Morris Tuesday afternoon at 3:00 o'clock for a business and social hour. The Morris home was attractively decorated with some of spring's most beautiful roses and other flowers.

Following the business hour, games of forty-two were enjoyed by the members. Club members stated that this is the last meeting of the year, and during the summer members will continue their work with the Red Cross. During their meetings this year they have bought two war bonds. Officials report a very successful year's work.

The hostess passed punch and cake to eight members and the following guests: Mmes. J. E. Blakey, W. A. Griffin, W. G. Williams and George Northcutt.

Duce Club Meets with Mrs. Alden Burge

Mrs. Dan Ritter of Pecos, a guest, was awarded the war stamps as high score prize at the meeting last Thursday evening of the Duce Bridge Club, when they met at the Manhattan Hotel with Mrs. Alden Burge as hostess. Rube Lee, member, was also awarded war stamps for high score prize.

The party rooms were decorated with American Beauty and Tallman roses and cornflowers. Mmes. Vernon Young of Stillwater, Oklahoma, Aubrey Stokes, Marcel Josephson and Loy Logan and Miss Frances Boys were other guests present.

The hostess passed a salad plate with sweets and cakes to the guests and the following members: Mmes. Bruce Murphy, R. C. Miller Jr., Lee Smyth, and Misses Frances Boren, Johnnie Mathison and Lee.

Mr. and Mrs. Buck Williams and son, Larry Jack, and Williams' sister, Mrs. Grace Sillis, of Pecos spent the week-end with relatives at Snyder. Williams and sister returned to Pecos, and Mrs. Williams and son will remain here for an extended visit.

T. E. L. Teacher Feted on Birthday

A delightful surprise was enjoyed by Mrs. J. A. Woodfin Sunday afternoon when members of the T. E. L. Class of the First Baptist Church honored her with a birthday dinner. The party was held at the home of Mrs. G. B. Clark Sr.

Mrs. Clark used lovely spring cut flowers, which were arranged in the entertaining rooms to form a colorful spring setting.

Following a short business session, Mrs. Woodfin was presented a lovely frosted fruit bowl and candelabra to match by Mrs. L. N. Periman. The hostess asked the honoree to make the traditional wish and then blow out the candles. The cake was white frosted, with pink candles and other trimmings of green. Cake and ice cream were passed to 24 members.

Mrs. Woodfin has been a teacher in the Bible classes of the First Baptist Church since 1925.

Geraldine Shuler and a roommate, Evelyn McDonald, of Big Spring were week-end visitors in the home of Mr. and Mrs. H. L. Wren. Misses Shuler and McDonald are teachers in the Big Spring Schools.

Baptists of Area Meet Tuesday at Mesquite Church

"Regeneration" will be the theme of the May Workers' Conference of the Mitchell-Scurry Baptist Association, which will be held Tuesday at the Mesquite Missionary Baptist Church.

Snyder and Scurry County, Baptist leaders indicated Wednesday, will send good-sized representative bodies to the May workers' conference. Program for the gathering follows:

10:00 a. m.—Song and devotional service—Huron Polne.
10:25 a. m.—"The Human Side of Regeneration," Rev. G. A. Elrod.
10:50 a. m.—"The Divine Side of Regeneration," Rev. L. B. Edwards.
11:15 a. m.—"The Effect of Regeneration on One's Life," Rev. V. W. Tatum.

11:40 a. m.—Recognition of visitors and announcements, after which Rev. E. A. Travis will bring the morning sermon.
Noontime lunch will be served in basket style "on the grounds."

1:30 p. m.—Executive and W.M.U. board meetings.
2:15 p. m.—Business.
2:25 p. m.—"Cooperative Mission Report," Rev. V. W. Tatum.
2:35 p. m.—Plans and suggestions for Vacation Bible Schools, to be given by Rev. W. A. Strickland.

Inspirational address of the afternoon, "The Place of the Church in a Troubled World," Rev. Roy Shahan, pastor of Snyder's First Baptist Church.

Mrs. Corley to College Station.

Mrs. Bob Corley, daughter of Mr. and Mrs. C. E. Ferguson, who has been stationed at Wink with the Civil Aeronautics Administration, was transferred this week to College Station, Snyder friends learn. Mrs. Corley spent part of the week-end with her parents, en route to her new post of duty.

Pilot Who Made Record Crossings Visits at Snyder

Having crossed the Atlantic Ocean five times in nine days constitutes just one of the accomplishments of Wing Commander Ralph E. Adams, Royal Air Force Ferry Command, who, with his mother, spent the week-end with Mrs. Minnie L. Stewart.

Wing Commander Adams holds the North Atlantic record for both speed and number of crossings, and has been instrumental in locating a number of aircraft bases for Great Britain—both in the European theatre of war and on the North American continent.

Adams, well known in aviation circles throughout Texas and the Southwest, formerly was pilot for Delta Air Lines between Fort Worth and Atlanta, Georgia. He resigned his position with Delta in 1940 to help organize the North Atlantic Ferry Service for the British Government.

While on vacation in West Texas and New Mexico, it was learned by friends that Adams recently was cited for heroism in saving the entire crew of a hydroplane he piloted from drowning when the ship, on making a forced landing, filled with water because "Jerry's" had shot away the understructure of the ship's landing gear.

First Presbyterian Church

Sunday School will start at 9:45 next Sunday morning, and you are invited to be with us at that time. The morning worship service will center around the home with mother and father as chief guests. You are all welcome.

The young people will meet at 7:30 p. m., and the evening worship service will begin at 8:30. Let us fill our churches next Sunday night, as well as in the morning.

Be with us Wednesday night at 8:30 when we shall sing and pray.

Give a little time each day to God and to others.—Hubert C. Travis, Pastor.

Carroll Taylor Finishes Primary. Cadet Carroll Aubrey Taylor, son of Mr. and Mrs. Sterling A. Taylor, was included this week in a class of 27 aviation cadets who completed primary training at the Dallas Naval Air Station, and was transferred to Pensacola, Florida. A graduate of Snyder Schools, Carroll attended Texas Technological College, Lubbock.

Lions See Prevue Of Minstrel when Endmen Perform

Sample of what the club-sponsored Dixie Land Negro Minstrel, to be staged in Snyder School auditorium Thursday evening, May 13, will be like featured the entertainment menu at Tuesday's Lions Club luncheon, held in the Manhattan Hotel.

The brief minstrel demonstration was given by Lions L. A. Chapman and Willard Jones, who used black-up and costumes for the occasion.

An excellent musical program was furnished by pupils of Mrs. Lucille Dougherty. Margaret Jane Parr and Harold Lewis Wade gave special piano numbers, followed by a number by the local music teacher.

Announcement was made that members of the club's ticket committee were busy selling tickets. Ducats for reserved seats went on sale Tuesday at Stinson Drug No. 10, and were reported Tuesday afternoon to be going mighty fast.

D. P. Williams, Allen Beadel and L. A. Chapman were appointed members of an auditing committee to check club business for the fiscal year ending June 30.

E. L. Parr, chairman, Willard Jones, H. L. Wren, J. E. Blakey and Roy Shahan were named personnel of the nominating committee to select prospective officers for the next club year. This committee will report May 18.

Following report of the officer nominating committee, an election for new Lions Club officers will be held on June 3, and installation of new officials has been set for June 29, in connection with a ladies' night program.

In closing business for the current year, President Lyle Deffebach pointed out that membership has been stepped up from 23 to 44—a gain of 91 per cent.

The following Lions were named delegates to a "War Activity District Conference," to be held in Lubbock May 16-17: E. O. Wedgeworth, Sam Williams, L. A. Chapman and Lyle Deffebach. Alternates named were H. L. Wren, Roy Porter, C. P. Sentell, Gerald Gordon and Allen Beadel.

Schools of County Closing Year's Work

School bells, the county superintendent's office revealed this week, will soon draw the 1942-1943 school term to a close.

Snyder Schools, for example, will close Friday, May 21, as will several other schools of the county.

Polar School, located just over the Kent County line, will close Friday. Complete story on school closings in the county will be carried in next week's Times.

J. B. Riley's Foot Injured. J. B. Riley of the Ira community sustained severe injuries Saturday afternoon when a foot caught in the power lift mechanism of a farm tractor. Rushed to a Snyder hospital, Riley was reported to be resting well Wednesday.

Mrs. Rossa Maples Taking Teletyping Course in WAACS

Mrs. Rossa Maples, wife of Oscar Maples, Snyder funeral home director, left Lubbock Saturday for Monticello, Arkansas, where she will undergo training as a member of the Women's Army Auxiliary Corps. Mrs. Maples recently enlisted in the WAACS through the Lubbock recruiting office.

Daughter of Mr. and Mrs. H. C. Carmichael of the Buvarna community, Mrs. Maples plans to study bookkeeping and teletype operation. The Monticello camp is one of the newest completed for WAACS recruits in the Southwest.

Mrs. Maples has been in Snyder three years. A member of the Order of Eastern Star, she graduated from Buvarna High School in 1939. A member of the Buvarna basketball team she was reporter for the school newspaper, The Stamped.

The Snyder WAAC enlistee has been assisting her husband in operating Maples Funeral Home, and plans to help Mr. Maples after the war. The Snyder funeral home operator will remain here for the present.

H. C. Carmichael, father of Mrs. Maples, is a veteran of World War No. 1.

First Baptist Church

Sunday is Mother's Day. A good day for the entire family to attend religious worship at the Lord's House. Surely no one will keep his mother out of services at God's House to get a good dinner. Help mother on this day so she can attend services. Then go home and help her some more so she will feel like attending the evening service. This should be done every day as well as on Mother's Day. If we would do this our mothers (and wives) would be with us a greater number of years.

The pastor will speak at both services Sunday. The morning sermon subject is, "A Church With the Mother Spirit." What is the greatest thing about a community? A home? A church? It is the kind of spirit manifest there. The mother spirit is the greatest thing in the home. This mother spirit will grow a great church.

The evening subject is, "Building Without God." Bible school meets at 9:45 a. m. Training Service at 7:30 p. m. Evening worship at 8:30 p. m. A welcome awaits you at all these services.—Roy Shahan, Pastor.

Brud Boren Home on Air Corps Furlough

Second Lieutenant Hugh (Brud) Boren Jr., U. S. Air Corps, son of Mr. and Mrs. Hugh Boren Sr. of Snyder, arrived over the week-end from Stuttgart, Arkansas, on furlough from his new post of duty.

"Brud" recently completed officer's training school at Miami Beach, Florida, and received promotion to rank of second lieutenant. He formerly was stationed at Goodfellow Field, San Angelo.

The Snyder man was formerly associated with his father in the insurance business, and plans to get back into civilian activities after the war.

FSA Borrower of Turner Doing Part In Helping to Feed Nations at War

Citing an example of producing food for freedom in Scurry County communities, Gerald G. Gordon, county Farm Security Administration supervisor, reports approximately 2,000 laying hens are to be found on farms of county FSA borrowers.

"Gardens as a whole over the county are in excellent shape," Gordon declares, "and milk cows on borrowers' farms are being fed to produce the greatest possible amount of cream and milk to further the war effort."

Mr. and Mrs. Joseph N. Bates of the Turner community own a 160-acre farm, and are given by Gordon as a typical instance of what county farm families are doing.

In a visit to the Bates farm this week, the FSA chief found Bates working in the garden, and happy to show results of a planned garden. Tomato plants had been set, three rows of berries were growing and grapes gave evidence of a splendid crop.

Gordon found spinach, radishes and lettuce ready to eat in the frame garden, and arrangements made to have vegetables the year-around.

Bates stated that as soon as they ate the vegetables growing on a section of his frame garden that they replanted. They have seven cows from which they are selling around 20 gallons of cream a week, and the skim-milk is used to feed their chickens and hogs. He has four heifer calves and four steer calves, and plans to keep the heifers and sell the steers. The Bates are selling about 50 dozen eggs per week, and from their garden, cows and chickens are having a good live-at-home program.

These figures should be significant items in the national economy of a food rationed people who probably, for the first time in their lives, realize that all the money they have cannot buy food unless someone has

Pressure Cookers to Be Available Under Rationing Provision

Pressure cookers have now been placed under rationing orders and will be distributed through the local farm rationing committee, S. L. Terry, chairman of Scurry County's U. S. Department of Agriculture War Board, announced Tuesday.

Eligible participants must assure the county farm rationing committee that cookers can be obtained before purchase certificates are issued, Terry declares.

The Scurry County War Board points out that food point rationing, plus the increasing cost of living, will make it necessary for Scurry County people to can all the foods they possibly have equipment for this summer.

Here's the criteria for determining eligible applicants for pressure cookers:

Individual families, neighborhood pools consisting of an applicant who has obtained agreement of several neighbors to share the use of a pressure cooker; and organizations—such as garden clubs—members of which agree to share in the use of a pressure cooker.

First produced out of the dirt that lies soft and mellow in American fields awaiting the seed and rain and the skill of American farmers, Gordon concludes.

Cowboy Reunion at Stamford Cancelled

In cooperation with the nation's all-out war effort, directors voted this week not to hold the Texas Cowboy Reunion at Stamford, Scurry County members of the Texas Cowboy Reunion Association were advised.

W. G. Swenson, president of the Texas Cowboy Reunion, declares "there is no doubt that a good show could be held. A survey, however, of the gasoline, tire and food situation, compels us to cancel this year's three-day reunion, which would have been held July 2, 3 and 4."

Texas Cowboy Reunion officers voted Monday to buy \$3,000 worth of U. S. war bonds from operating funds which will not be used this year.

Defrost Your Refrigerator Regularly for—Better Food Preservation—Faster Freezing

Your Electric Refrigerator must work harder to keep food cold and to freeze ice cubes when the freezing unit is covered with a heavy coating of frost.

Defrost your refrigerator regularly and save money and time, both of which are highly important in these days of wartime economy.

For Better and More Efficient Operation of Your Electric Refrigerator, Follow the Suggestions Listed Below:

Defrost your Electric Refrigerator at least once a week, and often if frost collects rapidly. Your refrigerator should be defrosted when as much as 1/4 inch of frost collects on the freezing unit.

Let warm foods cool before putting them in your refrigerator. This saves current and also keeps frost from accumulating so fast.

Keep foods in covered dishes or wrapped in waxed paper. They keep better, and the covering retards the loss of moisture which adds to the accumulation of frost on freezing unit.

Call a competent Electric Refrigerator serviceman when your refrigerator doesn't work properly. Prompt attention to the first symptoms of trouble may save you money.

TEXAS ELECTRIC SERVICE COMPANY

INCREASED ALLOWANCES GIVEN FOR TIRES BY COUNTY BOARD

Rationing Group Endeavors to Make Available Rubber Quotas Go to Most Needy Car Owners

Making available tire and tube quotas "stretch out" to the limit, Scurry County's War Price and Rationing Board Tuesday granted approval certificates for 12 Grade 1 tires and seven Grade 1 tubes; 66 Grade 2 tires and 16 Grade 2 tubes and increased over last week issuance of approval certificates for truck and bus tires and tubes.

Approval certificates granted Tuesday by the board follow:

Passenger tires and tubes, grade 1—L. B. Taylor, two 6.00x16 tubes; D. L. Moffett, one 5.50x17 tire; Oscar Roosen, one 6.00x16 tube; E. G. Bruma, one 6.00x16 tire; J. E. Derryberry, two 6.00x16 tires; R. R. Hardee, two 6.00x16 tires; John Everts, one 7.00x16 tire and one 7.00x16 tube; John A. Stavelly, one 6.00x16 tire; L. E. Griffith, one 6.00x16 tire and one 6.00x16 tube; Jessie W. Young, one 5.50x17 tire and one 5.50x17 tube; W. T. Palle, one 6.00x16 tire and one 6.00x16 tube; Roy Stalon, one 6.00x16 tire.

Passenger tubes and tires, grade 2—D. T. Pierce, three 6.00x16 tires; Alvin E. Mallett, four 5.50x17 tires and four 5.50x17 tubes; Martin Villa, three 5.50x17 tires and 5.50x17 tubes; Robert N. Oliver, three 4.50x21 tires; Jessie Phillips, three 5.00x19 tires; Gregorio P. Gonzales, one 5.50x17 tire; Willie Herbenberger, two 5.50x18 tires; Emel Echnedre, two 5.50x18 tires and two 5.50x18 tubes; Clarence W. Payne, four 4.50x20 tires and two 4.50x20 tubes; Harvey O. Greenfield, two 6.00x17 tires; Howard Taft Fritz, two 5.50x17 tires; Mrs. Mae Lemons, one 6.00x16 tire; Martin Diaz, two 5.50x17 tires; Jim Norred, three 6.00x16 tires; D. B. Anz, two 6.00x16 tires; Claud Graham, two 5.50x17 tires; E. L. Floyd, two 5.50x17 tires; Elton Crowder, one 6.00x16 tire; Cyrus M. Phillips, one 5.50x17 tire, one 5.50x17 tube; Garnett Kelly, two 4.50x18 tires and one 4.50x18 tube; J. A. Sylvester, one 4.50x20 tire; W. B. Henley, two 6.00x16 tires; A. E. Walton, one 7.00x15 tire and one 7.00x16 tube; Mrs. W. B. Stiles, one 6.00x16 tire; F. N. Bolding, one 4.50x21 tire; Homer Cannon, two 6.00x16 tires; R. B. Pierce, one 4.75x19 tire.

Language As She Is Written Reveals Suite Tail of Buoy

The following examples of homophony show our language as it may be and often is written:

A rite suite little buoy, the sun of a grade kernel, with a routh about his neck, flew up the road swift as eh dear. After a thyme he stopped at a gnu house and wrung the belle. His tow hurt hymn and he kneaded wrest. He was two tired to raze his fare, pail face. A feint mown of pane rows from his lips. The made who herd the belle was about to pair a part; but she through it aside and ran with awl her mite for fear her guessed would knot weight. But when she saw the little won, tiers stood in her blew ayes at the site.

"Ewe pore deer! Why doe ewe lye here? Ever dyoing, I fear."

"Know," he said, "Ise soon be aw rite; butt now I'm feint to the corpe. Eye aught too bee shone a quite plays."

"Aisle drew my best four ewe; neigh, moor!" she cried, fore her hart was full of whom.

Sew she boar hymn two a rheum wear he mite be a-loan, gave hymn bred and mete, held cent under his knows, tide his choler and beu, rapped hymn warmly, gave hymn sum suite drachm from a viol, till at last he went fourth hall and well as a young hoarse. His eyes shown, his cheeks were read as a flour, and he gambled a hole our. Hens the end of hour tail.

Joe Adams Injured As Gun Discharges

Private First Class Joe B. Adams Jr. of Fort Benning, Georgia, son of Mr. and Mrs. J. B. Adams of the Union community, home on furlough, received a severe injury Sunday night while removing a shotgun from a car. The gun was accidentally discharged, resulting in Adams being shot through the foot.

Private Adams, who was due to have left for camp Monday, is confined for hospital treatment. He was reported Wednesday to be rapidly improving.

Plainview Students By Bonds 90 Per Cent

In addition to the \$147.35 raised by Plainview School in the recently completed "Buy a Jeep" campaign, tabulation made this week shows the Plainview students bought \$45.05 in war stamps and \$86.60 worth of bonds before the drive started.

Mrs. Eupha Shields and Treasera Williams, Plainview teachers, say 90 per cent of the student body has purchased bonds and stamps throughout the current school term.

Henry Lock Graduates

Private First Class Henry C. Cook, son of Mr. and Mrs. James E. Lock, 2405 30th Street, has graduated at Sheppard Field, Wichita Falls, from an intensive course in aviation mechanics and is ready to assume duties as one of America's "commandos in overalls."

Classifications Not Available. Heavy docket of work for the Scurry County Selective Service Draft Board made it impossible to carry the list of reclassifications, made Monday evening, in this week's issue of The Times. The list will be carried in next week's paper.

Wouldn't We All? A stew, weaving up the street, staggered into a beauty parlor. "Hello," he said. "Ish thish er beauty shop?"

"Yes," replied the attendant. "Well, bring out one," said the plastered one. "I'm lonesome."

The Modern Age. Mother—"Daughter, didn't I tell you not to let that strange man come over to your apartment last night? You know it's things like that that cause me to worry."

Daughter—"Don't be ridiculous, mother. I went over to his apartment. Now, let his mother worry."

Few Changes in Foods Rationing For New Period

In an emergency decision, the Office of Price Administration this week announced for benefit of people in this trade area that all dried or dehydrated soups have been temporarily removed from rationing regulations.

At the same time, OPA revealed the May point values for processed foods highlighted by further substantial reductions in the number of points required to be paid for most fruits and vegetable juices. The change became effective Sunday.

Blue stamps lettered G, H and J, a total of 48 points, are valid for the month of May and, because of the latest revision, will enable consumers of several important types of canned foods, especially fruit juices. There are no major changes in the point values of vegetables, except for reductions in tomato juice and other vegetable juice combinations containing 70 per cent or more of tomato juice.

Frozen fruits and vegetables continue to carry the same point values that were assigned to them April 22. There are no changes in the point prices of dried beans, peas and lentils or of baby foods.

Point value increases such as are made in apricots, fruit cocktail and salad fruits, and pineapple are intended to slow down the sale of these products, which have been too rapid in relation to the movement of other fruits.

Revisions of point values for tomato ketchup, pulp and puree, sauce and paste are, in effect, a realignment, reflecting supply, sales, and in the case of tomato paste, which is increased, the high degree of concentration of the product.

One feature of the new chart is the dropping of a lengthy list of items that are not rationed. Instead, consumers are informed that if an item is not specifically listed it is excluded from rationing and no points need be paid.

Under this definition the number of fruit juices that are rationed is confined to citrus juices, fruit nectars (excluding papaya), grape juice, pineapple juice and prune juice. In the vegetable juice category, only tomato juice and vegetable juice combinations containing 70 per cent or more of tomato juice are rationed. This specifically leaves ration-free carrot juice, sauerkraut juice, beet juice, etc.

A change in the "soups" list eliminates green turtle soups, clam juice, clam broth and clam juice cocktail from rationing.

The list of rationed vegetables is substantially unchanged except that vacuum packed corn is now listed separately and canned corn-on-the-cob is specifically excluded from rationing. Leafy greens, (kale, turnip greens, mustard greens, etc.), mushrooms, mixed vegetables, fresh shell beans and pumpkin or squash are other items listed separately.

TIRES IN STOCK

Marion Dabbs Infant Dies Early Tuesday

Delbert Glenn Dabbs, infant son of Mr. and Mrs. Marion Dabbs of the Lloyd Mountain community, died Tuesday several hours after birth. Funeral services were held Tuesday afternoon, 4:00 o'clock, at Odum Chapel.

Bro. Raymond C. Keley, Snyder Church of Christ minister, officiated. Owen Sturdivant and Mozell Rosenstein were pallbearers, and Othel Trevey and Bonnie Lou Parks were floral bearers.

Survivors include the parents and grandparents, Mr. and Mrs. J. R. Dabbs and Mrs. G. W. Parks. Odum directed arrangements with burial in Snyder Cemetery.

Billy Cannon Drowns In New Mexico River

Billy Cannon, 10-year-old son of the late Jay Cannon and wife, former Dunn community residents, and relative of the Will and Leslie Stevenson families of the Dunn community, drowned Tuesday, April 27, in a river near Albuquerque, New Mexico, relatives learned this week.

The late Jay Cannon lived for years in the Dunn community, and Billy resided for some time at Dunn with his aunt, Mrs. Foster Brock. Survivors include his mother, Mrs. Jay Cannon, and two sisters.

Mrs. John Cook and daughter of Los Angeles, California, spent a few hours in the home of a sister and aunt, Mrs. Gaston Brock, and family, Mrs. Brock and daughter, Jonnie Dell, plan to spend Mother's Day at Abilene with Mrs. Brock's mother, Mrs. John S. Roach, and another sister, Mrs. Gene Galbraith.

"What is the latest improvement in automobiles?" "Chatter-proof glass behind the driver's seat."

Mr. and Mrs. W. W. Roberson announce the arrival of a baby girl, Karen Ruth, who arrived April 2 at Snyder General Hospital.

You can get the best tire recaps and tire repair service through Ennis Floyd's Service Station.

We sell Goodyear tires and batteries, Good Gulf gasoline and Gulf lubricants.

Snyder General Hospital

Those entering the Snyder General Hospital this week for medical treatment were Mrs. Odus White, Cliff Birdwell, Jocille Russell, nurse at the hospital, Mrs. Bill Riley and Mrs. W. H. Hamilton.

Surgery patient this week was Mrs. Autry Light.

Mrs. J. W. Templeton and C. P. Shafer are the two patients remaining over since last week's report.

13 County Draftees Go to Camp Today

Group of 13 Scurry County registrants, who passed army physical examinations last Thursday in Abilene, leave today (Thursday) for the U. S. Army reception center at Camp Wolters, Mineral Wells.

Olan W. Curry has been named acting corporal of the group. Those besides Curry are: Brady T. Bynum, James E. Buffington, Jesse D. Wiggins, Jimmie B. Riddle Jr., Ygnacio Benitez, Milton O. Dorman, Leonard T. Keiler, Orin E. Bentley, Henry B. Clark, Leslie R. Derrick, Arthur G. McDew and Delbert Bennett.

Pauline Hicks Is WAAC

Pauline Hicks, daughter of T. B. Hicks, former Scurry County school teacher, and Mrs. Hicks, recently was transferred from Fort Des Moines Iowa, to Fort Oglethorpe, Georgia, for special training at the WAAC's Third Training Center.

Miss Hicks, who has been in the Women's Army Auxiliary Corps for several weeks, will be assigned to duty in connection with the Third Training Center program.

Mr. and Mrs. W. W. Roberson announce the arrival of a baby girl, Karen Ruth, who arrived April 2 at Snyder General Hospital.

Ackerly Man Takes Welfare Field Place

Arthur E. Dauley of Ackerly this week accepted a position here as senior field worker for the State Department of Public Welfare, and will handle all old age assistance cases for Scurry County, the State Department of Public Welfare announces.

Dauley recently completed a four-week period of training in Austin and Fort Worth preparatory to assuming old age assistance work here. Former superintendent of Ackerly Schools, Dauley is a graduate of Southwestern College in Weatherford and also attended Arkansas Teachers' College.

Southwestern Buys \$10,000 Bonds Here

Total of \$10,000 in war bonds bought by Southwestern Life Insurance Company in Scurry County constitutes a part of the company's program that has resulted in purchase of \$24,000,000 in bonds since Pearl Harbor, Mrs. W. E. Holcomb, Snyder agent, said Tuesday.

As a means of helping directly in the war effort, Southwestern Life recently purchased \$9,000,000 worth of bonds that is included in the grand total previously mentioned. Southwestern Life has numerous policy holders in this trade area.

ESSAYS IN 4-H CLUB CONTEST DUE BY MAY 12

County Boys Preparing for District Competition for Livestock Prizes Given by Sweetwater Firm

Monday, May 12, was set this week as the deadline for Scurry County 4-H Club boys to turn in essays in the 1943 Scurry County Livestock Essay Contest on the "Advantages of the Cow, Hen and Hog Plan of Farming." Edward S. Hyman, county agricultural agent, reported Tuesday.

The essay contest, annually sponsored by the Sweetwater Firm, is open to 4-H Club boys of Scurry, Fisher, Kent, Stonewall, Nolan and Mitchell Counties.

Fred Howard, manager of the Sweetwater Firm, states nine registered gilts and boars will be awarded essay prize winners in Scurry County.

Plans were completed this week, the county agent states, to distribute the registered pigs to county winners following a gathering Friday, May 21, at the Manhattan Hotel.

Essays which boys of the county are entering the contest are limited to 500 words, and sum up, in good narrative style, advantages of cows, hogs and hens on the farm.

County Agent Hyman has set of rules and regulations for the essay contest which interested 4-H Club

Same Plan as Last Year to Be Used to Get Canning Sugar

If you want some sugar for canning purposes, you can get it by the same route you did last year.

So announces Scurry County's War Price and Ration Board, which reports that OPA has started to figure out a new system for issuing canning sugar certificates—details of which are still in the air.

Although details of the new system have not been received locally, the County War Price and Ration Board will issue certificates for canning sugar anyway.

Those who wish canning sugar are urged to go to board headquarters, north side of the square over Economy Dry Goods Company, and tell officials what you wish to can and how much sugar will be needed.

Before the canning season ends, OPA may get the new canning program worked out. It is supposed to be simpler than the present set-up.

Scurry County's War Price and Ration Board has received sugar coupons to be used under the new system, but no directions for issuing the coupons have yet been received.

Eighth Grade Exams To Be Given May 13

County-wide examinations for eighth grade students of Scurry County schools will be given Thursday morning, May 13, beginning at 9:00 o'clock, in Snyder Junior High School study hall, Mrs. Gaston Brock, county superintendent, announced Wednesday.

Tests for eighth graders of county schools will be given by Mrs. Brock, who asks that teachers in county schools have students at the junior high study hall promptly at 9:00 o'clock. Examinations will determine whether or not eighth graders receive promotion into high school.

boys may secure in time to work out entries for the contest.

Winners of registered gilts and baby chickens in the 1942 essay contest conducted in Scurry County follow:

Lewell Hull of Ira, who also was awarded a registered Jersey heifer; Lonnie Stephens of Hermleigh; Bobby McCormick of Turner; Dee Jones, Don Lay and J. B. Davidson of Dunn; Glenn Tombs and E. J. Moore of the Fluvanna community.

Baby chicks awarded county essay winners in last year's contest are said by Hyman to be in excellent shape, and to have paid all recipients handsome dividends.

Keeping Records For Farm Income Tax Being Urged

Importance of keeping records was impressed upon Scurry County farm families who made their first federal income tax returns this year, Edward S. Hyman, county agricultural agent, stated Tuesday.

Well over 700 county farmers, it is reported, had to make out income tax returns this year, and as a follow-up the county agent asks that accurate records be kept throughout the year to eliminate guessing items of income and expenditure—or the tedious task of searching for receipts or scattered memoranda to determine the taxable income and deductions.

The county agricultural agent estimated Tuesday that 1,400 Scurry County farmers would have to file returns in March, 1944. Since at least 95 per cent of county farmers, including most beginners, file returns on the cash basis, Hyman itemizes what should go into the record book.

Income on a farm subject to tax includes all cash and value of merchandise received from sale of livestock, livestock products, crops and other articles, together with cash and value of merchandise received for work and other services outside of the farm. All AAA payments received should be included.

Deductions allowable in determining the net farm business profit include cost of livestock, livestock products and crops purchased which are sold within the year. If desired, depreciation may be taken also on livestock for wear, breeding or dairy purposes. All ordinary and necessary expenses in feeding and raising livestock, as well as other disbursements in crop production and cultivating and processing should be included. Depreciation on farm buildings (except residence), permanent improvements, machinery and equipment should not be overlooked. Depreciation on small orchards, usual charge on small tools, death losses of purchased livestock, and state, county, school, poll and gasoline taxes as well as auto and truck licenses are proper deductions.

Turnbow Will Speak At Church of Christ

Evangelist C. R. Turnbow of Brownfield will occupy the pulpit of the Church of Christ, Avenue R on 18th Street, Sunday morning and evening, May 16, church leaders announced Tuesday.

Bro. Turnbow has chosen as a subject for the morning service "The Christian Race," and will speak Sunday evening, May 16, on "Forgetting God."

People of Snyder and nearby communities are extended an invitation to worship at the North Snyder church.

Super-Sheer Cotton. One of the garments well dressed women are wearing is an exquisite Mexican blouse of super-sheer cotton batiste. With full sleeves, and shirred front, the blouse is air-light and as thin as a good handkerchief.

For Gardening

This simple, quick-to-put-on cotton sweater suit is designed for the woman who finds pleasure and profit working in the yard and growing a victory garden. It is one piece with surplus closing, cut full for freedom of action. The legs of the suit can be buttoned around the ankles. Styled by the Bureau of Home Economics, its cotton construction provides coolness and easy laundering.

LOCALS

Rube Lee and Johnnie Mathison were week-end visitors at Lubbock with friends.

Mr. and Mrs. H. J. Brice and Inez Brown were in Fort Worth for a week-end visit.

Bill Colwell of San Francisco, California, was a guest of a brother, Jack, and his wife last week.

Mr. and Mrs. J. M. Dobbs of Roy, Oklahoma, is visiting in the home of Mrs. Dobbs' sister, Mrs. A. V. Lawrence.

Private Ralph Johnston of Lubbock was in Snyder Monday and Tuesday to visit his wife and other relatives.

Mrs. Vernon Young of Stillwater, Oklahoma, is visiting in the home of her mother, Mrs. R. M. Stokes, and other relatives.

Mrs. L. D. Green returned home from San Angelo over the week-end after an extended visit with her daughter, Mrs. R. S. Davenport, and family.

Mrs. S. L. Morgan and daughter, Shirley, were in Lubbock over the week-end to visit with their husband and father, who is with the Lubbock Army Flying School.

Mrs. S. D. Hays Jr. left Monday for San Diego, California, where she will join her husband, who is in the U. S. Navy. Mrs. Hays is the former Julia Mae McDonnell.

Private Rosser Lee Jones of the Lubbock Army Flying School, Lubbock, is spending a 10-day furlough with his mother, Mrs. Corine Jones, and other relatives and friends.

Mrs. W. R. Cox of Durand, Michigan, is visiting in the home of Mrs. H. H. Jeffers and other relatives. Mrs. Cox is a former Snyder resident, moving from here about 15 years ago.

Technical Sergeant and Mrs. Jimmie Sharp of Roswell, New Mexico, left Wednesday after spending first of the week with their parents, Mr. and Mrs. J. P. Sharp at Hermleigh and Mr. and Mrs. W. P. King at Snyder.

Mrs. Gene Smith and daughters, Patsy Marie and Marcia spent last week at Abilene with Mrs. Smith's sister, Mrs. Sam Moser, and family. Mrs. Moser and daughter, Dana, returned with the Smiths and spent the week-end here.

Mrs. Carl Claridy and daughter, Joyce, of Stanton were Saturday night guests of Mrs. Ed Stahl and family. Mrs. Stahl and son, Junior, and Mrs. Claridy and daughter, Lorette, were in Stanton Sunday morning, where they visited in the home of their parents and grandparents, Mr. and Mrs. R. L. May.

Care in Raising of Chicks Important As Demands for Food to Be Greater

Raising chicks after getting them from the hatchery is the major problem for the amateur poultry raiser—and oftentimes for the more experienced poultry owner, too, the county agricultural agent advised Tuesday.

With fryers selling in Snyder this week for 25 cents per pound, the county agent declares that raising chicks to maturity, without a loss going over two or three per cent, is of prime importance during wartime.

Proper spacing in the brooder house and disease prevention are the main elements in bringing them successfully into production, the county agricultural official stated.

Crowding opens the gate to diseases which pick off chickens that otherwise would become needed producers. The right capacity for a brooder house having 100 square feet, for example, is 200 chicks.

Fowl pox, or sorehead, and coccidiosis, levy a heavy toll on eggs and chickens. Both are preventable, Hyman says. Beginners, or those who have experienced outbreaks on their farms, should make vaccination of flocks for fowl pox a "must" this season, especially the pullets after the cockerels have been sold.

Vaccination, which costs approximately one-half cent a pullet, is the safest chicken insurance. The county agent will advise or help in applying it.

Sanitation is the best preventive of coccidiosis—clean feeders and waterers, and clean, dry litter, with emphasis on dry. Coccidia need moisture to develop. Stirring the litter, moving the feeders and water fountains to new locations in the house daily will keep it down. Feeding of sulphur in the mash, along with good sanitation, also has proved successful as a preventive.

PALACE THEATRE

Program for Week—

Thursday, May 6—

"Arabian Nights"

In Technicolor, starring Jon Hall, Maria Montez, Sabu and others. Fiery adventure. Wild Romance. Forbidden excitement. News and Novelty.

Friday-Saturday, May 7-8—

Mr. and Mrs. G. M. Garner have been added to the REA electric lines in our community.

Most of the farmers have their cotton and field grain planted, and are now plowing rain.

Mr. and Mrs. N. A. Watkins and daughter were guests Sunday of Mr. and Mrs. Bruce Reiter and children at Fluvanna.

The following families went fishing Friday night at Dunn on the J. Green place: Mr. and Mrs. D. Burney, Mr. and Mrs. R. Eubanks, Mr. and Mrs. W. Conrod, Mr. and Mrs. W. Sumruid, Little Bobby Burney, son of Mr. and Mrs. D. Burney, proved to be a real fisherman when he caught the biggest fish.

EVERY DAY IS

Mother's Day
AT PENNEY'S!

To the millions of American mothers we speak today with feeling. Bringing up a family is the hardest job in the world and J. C. Penney's knows it!

So to mothers of tiny babies—of school age youngsters—of fighting men—we speak. If your problems never seem to end—if the war has multiplied them—remember, many of them can be solved at Penney's.

For the Penney platform has always been to simplify mother's family shopping job—to treat mother's family budget with courtesy and care.

You'll find at Penney's the finest in Socks and Shirts—Blankets and Bonnets—Fabrics and Footwear.

These—and hundreds more! Not in the same wide selection as in other years, but the best that war conditions permit.

At Penney's we have never made deliveries, or carried charge accounts, or operated costly stores. Mothers know that the economies made possible by this policy mean low prices.

So, Mothers, we greet you and ask you to believe that every day is Mother's Day at Penney's!

PENNEY'S

Private First Class Joe B. Adams of Fort Benning, Georgia, was home for several days on a furlough the past week. He returned to Lamesa Friday. He was to have left for camp Monday, but happened to a painful accident Sunday night while removing a shotgun from a car. The gun was accidentally discharged, and Joe was shot through the foot. He is confined to the hospital.

A letter came Tuesday from Don Adams saying the Company G boys had landed safely in North Africa. He had seen already several other Scurry County boys, among them Eugene Fields, a merchant marine. He also told of his recent promotion to sergeant.

 Six Months, in advance \$1.50

Dip Into Manpower

Results of figures gathered by army officials from Scurry, Fisher, Garza, Borden and other counties of this trade area, and the nation, reveal that the continual dip into manpower for the armed forces through Selective Service is virtually exhausting the list of physically perfect men from 18 to 38 years of age. Recently, groups of men sent through Selective Service channels to armed force induction centers show a remarkably high rate of rejection on grounds of physical handicaps.

Those who have watched the situation closely for the past three months have realized the steady drain on manpower would, sooner or later, leave us without fit men for military service. Observers have warned for sometime that the country's manpower pool has been thinned to the point of danger, and the sooner we all realize this the better we will be prepared to face the future.

School Closings

May, with its days of sunshine and growing season for plant life of all types, reminds us that school closings will be general over the country within the next few days—closings which have a special significance in war-time. Those who graduate from high schools of the county, especially, will be able to render a direct service to the country's war program—if they choose.

Closing of schools in Scurry County for the 1942-1943 term will mark another successful year in school activities for faculty members, officials of the county superintendent's office and students themselves—because unstinted operation of our public school system in time of war is a major credit to our democratic way of life. And to our democratic way, as citizens, of supporting schools with our money and time.

To both grammar and high school graduates, we salute you, because boys and girls of today—if they choose wisely—will play a major role in remaking the world of tomorrow.

To Mother, With Love

Sunday, Mother's Day, will mean a lot to the women of Snyder and Scurry County, because the day will carry poignant memories of the first occasion of the kind observed under war-time conditions in 24 years. . . . Memories sealed with the sweetness of a thousand crushed roses, and stabbed with the sharp pain of realization that many of our boys now across the waters will not return home in the sound physical condition they left in—boys who will come back minus hands, legs and eyes.

Mother's Day will be sombered this year with instances like the Scurry County mother, who only last week got a trinket from her soldier boy son in North Africa, marked "To Mother, With Love." . . . This week, the same mother got word that her son was missing in action, action that is destined to wipe out the Germans from Tunisia.

We should all go to the church of our choice Sunday, and see that somebody's mother besides our own gets to attend Sabbath services. Men folks should pray for the mothers of today, who have made the supreme gift on the altar of freedom that we might live in peace and contentment. We are among the world's most fortunate people, because Mother's Day in foreign lands will prove only a period of prayer in the hearts of Gethsams, hours of hope that the mothers' sons of the Allied Nations will crush the enemy and again make the world a place where the lights will go on again.

Editorial of the Week

In 1936, John L. Lewis gave and lent the Democratic party half a million dollars from his union treasury to help re-elect President Roosevelt.

Lewis has never forgotten that, never ceased to believe that he bought the privilege of dictating to Mr. Roosevelt, never concealed his opinion that the president of the United States assumed a personal obligation to him.

His own obligation to the president—and it is very great—doesn't count with Lewis. Ten years ago, as the New Deal began, he was the head of an almost bankrupt union in a sick industry. Roosevelt laws and policies helped him to double, and more, the mine workers' membership, helped him to raise wages by guaranteeing minimum prices for coal so that the coals could be passed on to the public, helped him to split the labor movement and build the C. I. O.

Lewis wasn't satisfied. In 1937 he began to sneer openly at Mr. Roosevelt. In the 1940 presidential campaign he made the break complete. Yet he continued to make demands and to get help from the white house—help, in the spring of 1941, in forcing coal miners' wages above the level later fixed as the limit by the War Labor Board's "little steel" formula; help, on the eve of Pearl Harbor, in extending the closed shop throughout the coal mining industry.

Now, with the nation engaged in a desperate war, Lewis is back for more. He is allowing a paralyzing strike to spread, and threatening to let it become general. He has refused even to discuss the issue with the War Labor Board, and that board has passed the present wage controversy on to the president.

It is time, we think, for Mr. Roosevelt to tell John L. Lewis that when he gave and lent his union's money to the Democratic party he did not buy the right to stab America in the back or send its people down the road to ruin—to tell him that and make him understand it, once for all.—The Fort Worth Press.

Current Comment

By LEON GUINN

Editor's Note—Expressions or opinions contained in this column are those of the writer and do not necessarily reflect the opinions or policies of The Times. Current Comment is merely carried as a feature column.

Washington was considerably sobered over the week-end with announcement by one military authority that it would take at least six months to clear the vitally important Mediterranean after completion of the Tunisian campaign. . . . Our recently successful attacks on Nazi supply lines, including sinkings of tankers, constitute a major factor in the Allied African successes. . . . American and Allied losses in Tunisia and North Africa are much heavier than hinted, but the Allies are proving to the world that the Germans can be "smoked out"—even in hand-to-hand fighting, from points that seemingly were "invincible" several weeks ago.

Don't bank too heavily on a collapse of the German home front any time soon. . . . Evidence is stacking up mightily good that bombings at home and casualties at the fronts have affected both German civilian and military morale, but there still are not any important hints of collapse inside the Rhineland anyway soon. . . . Incidentally, Germany's war machine is demanding every ounce and pound of war materials from German homes, stores, foundries and even conquered territories overrun by the Jew-killing, blood-filching Nazis. . . . The Nazis have entered an entirely new low in the underworld levels of gangsterism, with promise that Germany will give the world "a Christmas present of 4,000,000 dead Jews."

Incidentally, the manpower problem in Germany is becoming more acute by the week. . . . Production experts are declaring that the army is taking too many workers from factories and the army, is declaring that every German physically able to bear arms, on the other hand, must be made ready for the fields of carnage. . . . Due to the fact the German people have no other choice in the matter, every man who can fight will be sacrificed, the Nazis hint, before Germany gives in to the Allies.

One can expect widespread ramifications from the forthcoming draft of family men. . . . Major result, of course, will be the financial depression for something like 3,000,000 families over the nation—a figure which means almost 20 per cent of the country's population. . . . Even though army allowances and allotments to families are increased by the militia, such increases will not bring family income anywhere near civilian earnings. . . . Down through the years, such lame-brained policies by the armed forces will drive adolescents away from school class rooms and into jobs, for many mothers now keeping home will have to take on public work to keep the family cup-board from being bare.

Trend of Selective Service, in draining the nation's manpower into the armed forces proves exceptionally silly, when one learns that raw materials, and not labor, is still the most limiting factor in war production. . . . Both materials and labor will have to be eased further in many industrial cities by the cut-backs in the ordnance program now going on over the country. . . . In Detroit, for example, munition plants will operate only 32 hours a week for the next quarter because of shifts of emphasis away from their products. . . . Raw materials have occupied the key position in the war production picture all along, but many people are too hard-headed and too short-sighted to admit such a situation exists. . . . When we get to a point we may lose the entire war, we may wake up and see that men in uniform—without adequate supplies of weapons, tanks and guns—are the world's most tragic sight.

The Office of Price Administration, at the insistence of President Roosevelt, is stiffening policies of administration in a "hold-the-line" order that is encouraging to second and third tier OPA officials, who believed until this week they were slated to get the gate. . . . The rough-and-tumble, crackdown and hit hard policies of the former OPA ramrod, Leon Henderson, are being advocated as a means of keeping OPA in the limelight as a guardian of essential clothing, food and civilian supplies through the summer months.

Indications this week point to a "tight" labor supply in most portions of the country for the remainder of the year, but only a few indications appear that labor shortages will be critically acute in most sections of the country during the remainder of 1943. . . . War Manpower Commission officials believe the labor problem will be eased considerably if the nation's man pool supply remains "static," or in virtually the same positions now occupied for the next few months. . . . War plant work, of course, is creating heavy demands for more workers and will continue to do so for the war's duration.

You can believe it or not, but paper drums will soon replace steel, barred by a WPB order, in production of drums used for shipping industrial products. . . . A large electrical manufacture, for instance, and a molder have cooperated wholeheartedly the past few days in developing fabricated layers of paper laminated under heat with synthetic resins. . . . Early perfection of paper barrels will prove a boon to users of steel drums who have, to date, been unable to find satisfactory substitutes. . . . Incidentally, war-time success will mean some keen competition with steel drums after the war, and could easily bring about a trend in manufacturing processes for the nation.

Mrs. T. E. Allen Dies Tuesday of Sudden Stroke

Mrs. T. E. Allen, 73-year-old Scurry County resident, passed away Tuesday evening, 10:50 o'clock, at her residence, 1101 17th Street, following a several-week period of declining health.

Born September 12, 1870, in Montague County, as Mollie Blackburn, she was united in marriage to T. E. Allen on June 21, 1885.

Mrs. Allen was suddenly stricken Sunday night, and failed to rally on account of old age. She had resided in Snyder 19 years.

Mrs. Allen was converted to the Baptist faith when 16 years of age, and held membership in the Bethel Baptist Church at the time of her death.

Funeral services for the long-time Baptist Church member were held Wednesday afternoon, 3:00 o'clock, at the residence, 1101 17th Street.

Rev. J. W. McGaha, veteran Baptist minister of the Canyon community, assisted by Rev. Roy Shahan, conducted final rites.

Palbearers were O. C. Floyd, Dan R. Rogers, George Moore, H. H. Eiland, Jeff Davis and Ed Deakins.

Flower bearers were Mmes. J. H. Rogers and L. D. Bailey; Annie Floyd and Mary Rogers.

Surviving are two sons, Harry Allen of Snyder and L. M. Allen of Sterling City; a daughter, Miss Pearl Allen of Snyder, and six grandchildren.

Maples Funeral Home directed arrangements, with burial in Dunn Cemetery.

Wedge Worth Will Lead Conference of CC Men at Midland

E. O. Wedgeworth, Scurry County Chamber of Commerce manager, will preside Friday afternoon over annual sessions of the Chamber of Commerce Managers Association of West Texas in assembly at Midland, officers of the organization announced Tuesday.

Annual gathering of Chamber of Commerce managers from West Texas counties will begin today (Thursday) in Midland and will continue through Saturday. Theme of this year's meeting will be "The Chamber of Commerce in War-Time."

Mark McGee, state Office of Price Administration director, will discuss OPA regulations and rulings. Other program speakers will include M. C. Ulmer, West Texas Chamber of Commerce president; Dean Chenoweth, managing editor of the San Angelo Standard-Times; and D. A. Bandeen, manager of the WTCC, and others.

Jimmie Green of Big Spring and Bill Collins of Midland are in charge of arrangements for the Thursday-Saturday convales.

Robbie Nell Jones Is New Agent Employee

Robbie Nell Jones, daughter of Mr. and Mrs. E. R. Jones of the Hermleigh community, is now employed by Edward S. Hyman, county agricultural agent, and Estella Rabel, county home demonstration agent with Texas A. & M. College Extension Service, it was announced Monday by the Extension Service officials.

Miss Jones is a graduate of Hermleigh High School and Draughon's Business College. She formerly was a 4-H Club girl, and marked up an outstanding record in high school.

George Maule Mome on Leave. George Maule, seaman first class in the U. S. Navy, is here on 15-day leave to visit his parents, Mr. and Mrs. J. E. Maule of the Mount Zion community and other relatives. George has been on active duty on the water the past six months, and declares the sight of land is "in itself an enjoyable relaxation." Rearranged in the Mount Zion community, George attended Strayhorn School. His home port is San Francisco, California.

Demonstration Club Notes

Estella Rabel, County Agent

Since Scurry County farm women will put up a minimum of 24,000 jars—quarts and pints—of home raised fruits and vegetables this year, Estella Rabel, county home demonstration agent, warns only two methods of home canning are recommended by the Texas Extension Service.

One method, Miss Rabel says, is to process meats and vegetables, except tomatoes and ripe pimientos, in a pressure cooker. The other method is the water bath for fruits, tomatoes and ripe pimientos.

She explains that the pressure cooker offers the safest known method of canning the non-acid vegetables and meats because it destroys bacteria in these foods, including the most dangerous—the bacillus botulinus. If these bacteria are not destroyed in the spore stage they may grow and later produce a toxin or poison in the food.

"The worst part about this poison is that you usually cannot smell, taste or see it, yet one small bite could cause death or severe illness," she says. "The bacillus botulinus is destroyed by maintaining pressure at 240 to 250 degrees Fahrenheit. In an over or water bath the temperature of the food inside the jar never goes higher than 212 degrees, because the only way to get liquid higher than 212 degrees is to maintain pressure."

Open kettle canning is not recommended by the specialist because research has proved there is a greater percentage of spoilage and the food often becomes mushy in texture. It is best not to can fruit and tomatoes in a pressure cooker because they keep easily when processed at 212 degrees Fahrenheit in a water bath. Further directions on modern canning methods are available from county home demonstration agents.

James Birdwell Gets Blimp Assignment

James W. Birdwell, aviation machinist's mate, third class, U. S. Navy Reserve, has been transferred to a navy blimp squadron upon completion of a three-month course in the lighter-than-air Naval Training School at Lakewood, New Jersey, navy officials announced this week.

Birdwell, son of Mr. and Mrs. Henry Birdwell, was in the produce business here with his father before enlistment in the navy.

In the blimp squadron, students become qualified for lighter-than-air duties upon graduation from the school. Most of the personnel are selected graduates from specialized U. S. Navy schools.

Cemetery Working Slated at Hermleigh

Annual all-day working of the Hermleigh Cemetery will be held Thursday, May 16, J. O. Leech, chairman of the Hermleigh Cemetery Association board of directors, announces.

People of Hermleigh and nearby communities who have loved ones interred in the cemetery are urged to bring hoes, rakes and other weed eradication tools.

Following a custom in effect since 1938, basket dinner will be served at the cemetery, association officers state. Plenty of drinking water will be on hand for those who assist in the clean-up campaign.

May Proclaimed As Child Health Month in Nation

"Asking the cooperation of all Texas parents in a campaign to stamp out preventable diseases and insure the highest possible health levels among the children of this state, Governor Coke R. Stevenson has followed President Roosevelt's example in naming May as Child Health Month."

Urging the state-wide cooperation in this campaign for child health promotion, Dr. George W. Cox, state health officer, said this week, "There is no more important phase of national health than that of child health and the tragic annual death rate from diphtheria and smallpox is indeed hard to understand when we remember that science has long since produced a successful and safe immunization against both these diseases."

Dr. Cox pointed out the vital importance of child health to the total strength of our nation, and urged all Texans to exert every effort to conserve and protect child health not only through the application of positive health measures but also by reducing the incidence of the more devastating childhood diseases.

Young children who are taught personal hygiene, who live in clean homes, whose diets are carefully supervised and whose young bodies have been made immune to the ravages of such diseases as diphtheria, smallpox and typhoid fever stand an excellent chance of growing into strong, healthy and useful citizens, Dr. Cox said. "It is these boys and girls whose strength and health we are safeguarding by Child Health Day, who will be the leaders of that victorious and peaceful era which we are fighting to bring about today."

Independence Club Meets Friday Night

Community-wide gathering of the Independence Community Club will be held Friday evening, 8:30 o'clock, at Independence School, Cecil Hall, club chairman, announced Tuesday.

Guest speaker for the occasion will be Haskell O. Beard of the Soil Conservation Service, who will present an educational film on flood control.

Friday evening's assembly will be the last one of the club for the current school year, and people of Independence and nearby communities are extended a cordial invitation to attend the meeting. Visitors will be given special recognition, it is said.

William Fuller Visits Here.

William Fuller, Snyder bank official and stockman, who has been taking civil aeronautics administration training the past several weeks, has completed one phase of his training, and is here this week on personal business. William is scheduled to be transferred to a new post of duty in the near future.

Small Grain Pastures Planted Right Will Help Winter's Feeding Problem

Small grain pastures offer insurance against protein feed shortage, according to S. L. Terry, chairman of the Scurry County U. S. Department of Agriculture War Board.

Most farmers and stockmen in the county make it a general practice of planting enough sudan grass to carry their livestock through the summer months under normal rainfall conditions. Some have likewise made the planting of small grain for grazing a part of their regular farming and ranching operations by summer following enough land to allow for sowing one acre of small grain in August or September for every animal unit to be wintered.

Guy Glenn, five miles north of Snyder on Lubbock highway, says he has practiced seeding summer fallowed land to small grain some in the past, but that it is definitely a part of his farming operations in the future.

"I seeded 10 acres of small grain last September on some land I had summer fallowed and it proved to be a good land management practice and conservation practice in several ways," Mr. Glenn added.

"First, it was located in the corner of a field with several short terraces and a lot of point rows so I save time and equipment by seeding to small grain. Second, it reduced my labor and equipment cost by allowing my cows to do the harvesting for me. Third, it allowed me more time to do a better job of cultivating other crops, poultry and livestock. Fourth, it protects the land in the spring when ordinarily our heaviest rains fall. Small grain makes immediate use of spring rainfall. Fifth, it allowed me the use of my time and equipment to build more terraces and otherwise care for my land. Sixth, permitted me to avoid trampling my permanent pasture when there is no forage available. Seventh, permitted me to leave my stalk fields undisturbed by grazing, thereby adding protection against wind and water erosion."

"I grazed seven grown cows and seven yearlings on this 10-acre patch for a full 100 days last winter without another bite of feed," Mr. Glenn continued. "Without this small grain I would have fed at least six sacks of cottonseed meal if I could have bought it, plus 2,800 bundles of cane and kafir. Balancing the value of bundles and cottonseed meal against the cost of keeping the land clean and seeding to small grain, I netted close to \$100 from grazing this 10-acre patch."

Mr. Terry urges all farmers and stockmen to do what Mr. Glenn has done since we need poultry, pork, beef and milk products, and yet are seriously handicapped by lack of labor and equipment.
