62 KILLED IN ROCK SPRINGS STORM

Other Points Over Texas Suffer Heavy Damages

(By Associated Press)

ROCK SPRINGS, Tex., April 13.—At least sixty-two dead, and more than 150 injured, were taken today from the ruins of Rock Springs, which was virtually annihilated last night by a tornado.

Relief workers today took possession of the town.

Rock Springs was lashed into ruins in a few minutes by a tornado from the Northeast, which razed all except a few buildings, roaring down a two-mile swath.

Of the injured, twenty are expected to die before nightfall. Most of the unidentified dead are Mexicans.

Ambulances are conveying the injured to Camp Wood, twenty miles south of here, where a large theatre is being used as an emergency hospital.

The usual sardonic pranks of a twister were in evidence. A baby was hurled 50 yards through the air and landed in safety.

THE DEAD

Following is a revised list of the identified dead at Rock Springs:

J. T. Crowder and wife

Emory Willis and mother

Mrs. Wm. Pheltz

David McKinney

Mrs. Ferris and son

Mrs. Ola Pennington and daughter

Gus Henderson, wife, son and two other children

R. Dollahite, editor of Edwards County Leader, and daughter

Mrs. Walter Adams and son

A child of the Renfro family

Charles McKain.

Twenty-nine others have been recovered but are yet unidentified.

Rock Springs is the county site of Edwards county, with a population of a little more than 800. It is the center of a sparsely settled country and is second in the Southwest in goat raising. It is one of the most isolated towns in the state.

Camp Wood, the terminus of the Uvalde & Northern, is the only railway point within twenty miles of Rock Springs.

Relief workers from San Antonio and Kerrville, and a detachment of troops from Fort Clark, at Brackettville, were delayed in arriving on account of bad roads.

Th storm came with little warning just after dark, according to survivors. Fire broke out soon after the tornado and destroyed the postoffice and a restaurant.

FT. WORTH, April 13.—A tornado struck Kennedale, eleven miles southeast of here today, and demolished two residences, a dairy barn and the school house. No one was injured.

PRESIDENTIAL ANNIVERSARIES

First chief executive to be inaugurated at Washington, Thomas Jefferson, is remembered as much for his pre-presidential activities as for his popular eight-year administration from 1801 to 1809.

He was born April 13, 1743, in Virginia, the seat of original rebellion, and has to his honor the actual writing and signing of the Declaration of Independence, whose fiftieth birthday, July 4, 1826, marked his death at Monticello. He was a member of the Philadelphia Congress which gave birth to the republic and also of the committee that chose the national seal and legend, "E pluribus unum."

Jefferson's first official act as third president of the United States emphasized his principles of free speech and democracy. He pardoned every prisoner under the sedition laws and abolished all official practice smacking of royalty. He made a bargain for the United States by purchasing Louisiana from France in 1801 for $15,000,000, but his embargo of 1807 against both England and Spain wrought great hardship on commercial coastal states.

Thomas Jefferson is recognized as the founder of the present Democratic Party, a paradox in politics, for he was leader of the original Republican Party, known as the anti-Federalists.

Dr. Nicholas Murray Butler will be the principal speaker at the celebration today at Monticello and at the University of Virginia, which Jefferson founded, when students will present scenes from Jefferson's life.

The scenes will include his departure from Monticello to accept the presidential nomination; Honeymoon Lodge, his first home in Monticello after his marriage; a lawn dance when he played the violin, and a scene with his duplicating machine at the first revolving topped desk, each his own invention.

Keep in Trim!

Good Elimination Is Essential to Good Health.

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Each year more and more people are learning the value of *Doan's Pills*, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. *Ask your neighbor!*

WHEN BACK HURTS FLUSH OUT KIDNEYS

Drink Lots of Good Water All Day, Also Take Salts Occasionally

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

4.6 PER CENT TAXES UNPAID

Taxes delinquent on April 13, 1927, amounted to $10,243.98, according to the tax rolls in the office of Tax Collector W. L. Brown, which is equal to about 4.6 per cent of the total taxes of Runnels county in 1926 and as compared with about 2 per cent delinquent on the same date of 1926.

On February 28, delinquent taxes were about 7.25 per cent of the whole but since that time approximately 2 per cent has been paid.

Delinquent taxes are put in two classes: First, real estate, state taxes, $2,031.32, and county, road and school taxes, $3,205.13; and second, insolvent taxes, personal property only, state taxes $908.79, state poll taxes, $2,135.50; county, road and school taxes, $1,607.49, and county poll taxes, $355.75.

Most of the delinquent real estate taxes will be collected, Mr. Brown said, while a large part of the insolvent taxes will be lost, due to the fact that the insolvent taxes were mostly against transients who were in one county one year and in another county the next year.
