# DEATH STALKS ISLE EARTHQUAKE

## INITIAL FAIR TRIP WILL BE MADE FRIDAY

Headed by the Lubbock high school Westerner band of 35 pieces, under direction of H. A. Anderson, the first goodwill caravan of 1930 for the purpose of advertising the Panhandle-South Plains fair, will leave this city Friday morning at 7:45 o'clock for a visit to eight cities.

### PRaises Hoover

LINTON, Ind., Sept. 11 (AP)—United States Senator James E. Watson, in a speech prepared for delivery at the opening of the Republican fall campaign in Indiana here today, declared that President Hoover and his party have redeemed every pledge and promise made to the voting in 1928.

JAMES E. WATSON

### PICKING BEGUN NEAR LUBBOCK

GINNS ARE BUSY, MANY HANDS AT WORK AS CROP COMES IN

Cotton picking in Lubbock county is well under way this week, especially in the south and east portions, according to reports this morning by cotton authorities.

Many pickers have been employed in fields over the area and farmers expect to get the major part of the crop harvested within the next two weeks. It is understood that practically all gin in the county have either opened or are preparing to do so.

While the Texas Cotton Cooperative association is paying a 50 per cent advance to farmer members on the market price, many farmers have been on the streets of Lubbock this week in an effort to sell cotton to merchants on the "Buy a Bale of Cotton" plan as advanced by Governor Dan Moody, whereby 25 cents per pound would be paid.

Farmers Urged to Sign  
Local officials of the cooperative association are urging farmers to sign agreements early in the organization if they expect to get quick action when their cotton is brought in. In other parts of Texas where cotton is coming in fast, some delay in being organized has resulted in the fact that the cooperative cannot advance money to the farmer unless he has signed the contract agreement and it has been approved in the branch or sub office.

### Co-Op Classifier Here For Cotton Season

A. B. Cole, of Greenville, formerly licensed cotton grader and classifier, arrived in Lubbock this morning and will have charge of all cotton handled by the Texas Cotton Cooperative association on all its branch offices have been opened in this district.

Some cotton is being classed by Mr. Cole today but report on the grades expected has not been released.

### Tech Gridster Gets Broken Collar Bone

First casualty of the 1930 football season at Texas Technological college resulted Wednesday afternoon when John Brown, 20-year-old senior at the college, received a broken collar bone in a fall after tackling a fellow teammate.

Young Brown is the son of F. F. Brown, of this city, and was a candidate for end on the 1930 Mustang machine of Coach P. W. Cawthon.

### TEXAN TO TAKE STUMP FOR DEMOCRACY IN FIGHT FOR POWER

UVALDE, Sept. 11—Predicting that the Democrats would gain a clear majority in the House next November, overturning the existing Republican majority of 103, Congressman John N. Garner, of Uvalde, minority leader of the House, said he had received information that plans were practically completed for intensive campaigns in every doubtful Congressional district in the country.

Congressman Garner said he would return to Washington soon to work with Joseph Shuman, chairman of the Democratic Executive committee, and Congressman Joseph Byrnes of Tennessee, chairman of the Democratic Congressional committee.

Will Take Stump  
Tentative plans call for a speaking tour for Congressman Garner through Illinois, Ohio, Indiana, Pennsylvania and Massachusetts, possibly into New Jersey and doubtful districts of other states.

His telegram to Shuman, Congressman Garner announced definitely that he would place his services at the disposal of the Democratic organization for the remaining weeks of the campaign.

Garner Confident  
"I am confident the American voters will, in the coming congressional elections, indicate by the only means at their command their disapproval of the policies, or rather lack of policies of the present administration," Garner said.

President Hoover and the Republican-controlled Congress have made no effort to enact legislation to meet changing conditions, and a nationwide business depression is the logical result. With overwhelming majorities in both Houses, President Hoover and the Republican leaders have had the opportunity to formulate and apply legislative remedies to meet the new conditions. The record of the Hoover administration has been one of failure to meet the responsibilities of government or to provide solutions for the problems created by economic and industrial changes.

### WTCC DRIVE IS OPENED TODAY

90 NEW MEMBERS ARE SOUGHT BY TEAMS IN LUBBOCK

Eight teams, including a personnel of thirty-five business and professional men of Lubbock, took the field early this morning in a drive which has as its goal 90 members for the West Texas Chamber of Commerce from this city. The drive which will continue through today and Friday, is headed by Homer D. Grant and Spencer Webb, directors of the regional organization.

Captains were named for the teams at a meeting held yesterday afternoon at offices of the local chamber of commerce. These leaders are L. C. Ellis, C. A. Sheffield, Ned H. Wright, R. J. Murray, H. D. Woods, E. C. Hensley, Homer D. Grant and W. O. Daniels.

With 10 members already in the organization, Lubbock is seeking to build that number to 100, a pledge given at the 1930 convention in Abilene.

A plan for cooperation on the part of Lubbock citizens was made this morning by those in charge of the drive. "Do you own property in West Texas? If so, join us and help increase the demand for that property," a slogan of the drive states.

Others, "Do you own land in West Texas? If so, join us and help preserve your title to that land. Do you own any oil and gas lands? If so, join us and help us make them pay."

Members of the two victims were badly hurt.

### Two Workers Shot By Insane Laborer

PORT ARTHUR, Sept. 11 (AP)—Edwin Orsigo, 26, alleged insane man, is held in city jail on charges of attempt to murder and two fellow workmen of the Texas company are in the hospital suffering from gunshot wounds.

The wounded, Dominio Polito and Alex Legat, were shot by Orsigo who boasted to police that he was Ray P. Long. Police indicated that charges of insanity would be filed today against the man.

Neither of the two victims was badly hurt.

## Democratic House Seen By John Garner

### MINORITY BOSS EXPECTS GOP OVERTHROW

UVALDE, Sept. 11—Predicting that the Democrats would gain a clear majority in the House next November, overturning the existing Republican majority of 103, Congressman John N. Garner, of Uvalde, minority leader of the House, said he had received information that plans were practically completed for intensive campaigns in every doubtful Congressional district in the country.

Congressman Garner said he would return to Washington soon to work with Joseph Shuman, chairman of the Democratic Executive committee, and Congressman Joseph Byrnes of Tennessee, chairman of the Democratic Congressional committee.

Will Take Stump  
Tentative plans call for a speaking tour for Congressman Garner through Illinois, Ohio, Indiana, Pennsylvania and Massachusetts, possibly into New Jersey and doubtful districts of other states.

His telegram to Shuman, Congressman Garner announced definitely that he would place his services at the disposal of the Democratic organization for the remaining weeks of the campaign.

Garner Confident  
"I am confident the American voters will, in the coming congressional elections, indicate by the only means at their command their disapproval of the policies, or rather lack of policies of the present administration," Garner said.

### City and Country Flies Are Alike

TO THIS JUDGE—AND STEVE IS GLAD

CHICAGO, Sept. 11 (AP)—The municipal court of Judge W. W. Danaher has declined to rule upon the relative health of city flies and country flies.

The charge against Steve Nicholson was that he displayed them around his premises, creating a nuisance.

An official of the health department was present.

## THREE SLAIN IN EL PASO

### SENATE FACING LARGE NUMBER OF CHANGES

ELEVEN ALREADY FALL BY WAYSIDE; OTHERS ARE TO COME

WASHINGTON, Sept. 11 (AP)—Resignations or defeats in the primaries already have eliminated eleven of the thirty-five members of the Senate who were up for reelection this year, assuring one of the greatest changes in the Senate make-up of recent years.

It has been a hard season on the incumbents, regardless of party affiliations. Southern Democrats already have rejected three senators for re-nomination and forced a fourth—Thomas J. Heflin, of Alabama—to run as an independent.

Generals Are Coming  
Those senators who have weathered the primary battles in most instances are fighting for their political lives in the forthcoming election. The assault on the office holders does not seem to have affected the House members so much although the primaries have shown considerable reaction against House incumbents.

Of the eleven senators who retire after the next election, five were defeated for re-nomination and six declined to run again. Those who have been defeated for the party nomination are: Republicans, Deeney, Illinois; and Grundy, Pennsylvania; Democrats, Simmons, North Carolina; and Spencer, Louisiana.

The following six Republican senators declined to run for reelection—Baile, New Jersey; Gillett,

City Commission In Session Here Today  
Lubbock city commissioners are in regular session this afternoon, the major question before the body being the letting of a contract for additional installation of white way equipment in the city.

Bids on the construction work were received last week and are to be presented for consideration and probable letting of contract this afternoon. New white way standards and lights are to be installed on 18th street from Avenue Q to College avenue, and on south Avenue H from 18th street to intersection of the Fort Worth and Denver railroad.

DAVIS REPORTS BETTER TIMES

LABOR SECRETARY, IN ADDRESS, SEES END OF UNEMPLOYMENT

PITTSBURGH, Pa., Sept. 11 (AP)—Secretary of Labor James J. Davis said today at a luncheon of the American Institute of Mining and Metallurgical engineers that there were many indications of improvement in business and employment conditions, for which he gave credit to President Hoover.

"We have all been carried away to such a depth of pessimism that when anyone ventured to say that good times would return, he was labeled a 'Polynesian,'" the secretary said. "I am sincere in stating that there are many indications that business is picking up and going on."

Agreements Quoted  
Agreements have been reached recently that guarantee peaceful relations in an industry employing 150,000 workers. The pact signed is to run for five and one-half years, with a payroll that will run to nearly two billion dollars, based on normal work during that period.

"The genius of America has practically put out of existence such things as famine and pestilence, and that we once thought beyond the power of man to control," I am sure that unemployment will soon be in the same category."

### JOBS SOUGHT FOR GRIDMEN

Seeking legitimate employment for athletes of Texas Technological college, who are unable to attend school without work, four committees of business men and Tech coaches will canvass the business district this week as the result of a meeting held this morning in the office of J. Bryan Miller, city manager.

The meeting was called for the purpose of determining whether aid from the business men and citizens in the matter of employment would be sought. It was the unanimous opinion that Lubbock should join hands with the few coaching regime of the college in the furtherment of athletics of the school.

Cawthon Explains  
Coach P. W. Cawthon explained the situation at the college, pointing out that only six men out of the 97 freshmen players of last season are in school and eligible for varsity play this year and that a similar course is likely to take place unless employment is secured for the boys.

The sold of the methods pursued by other home cities of educational institutions and declared that Lubbock must act in a like manner in order to raise the standard of athletics at Tech.

In speaking of the work needed, Coach Cawthon said: "We don't want any merchant or citizen to give a job to an athlete, if he can't offer legitimate employment which will benefit the boy and the employer, then there's no need attempting the task."

Check-up Is Provided  
He promised to see that every boy employed is checked up at various intervals by the coaches and that if he is not satisfactory with his employer to change him and give the work to another boy. It was learned that he had already taken one boy off of a job who had been pleading his employer. His plan is to place only boys who absolutely need work and who are willing to work and not loaf as has been the general practice in former years.

About thirty-five jobs are needed to take care of the students this year.

PARENTS AND CHILDREN:

Beginning on next Monday, September 15, the Daily Journal will present, in strip form, "Texas History Movies," by Patton and Rosenfield.

"Texas History Movies" will appear every day, and in picture and story form, trace the glorious history of Texas from the days of Cortes to modern times.

It is of interest to every citizen, whether native or adopted Texan and will be of particular interest to students of Texas history. Parents of children studying Texas history should watch for the feature and see that their kiddies begin it.

Studying history will be a pleasure once the youngsters begin on "Texas History Movies" in the Daily Journal starting Monday.

RADIO WAVES MAY TRAVEL MILLIONS OF MILES, MARCONI, WIRELESS INVENTOR, TELLS SCIENTISTS OF HIS NATION

TRENTO, Italy, Sept. 11 (AP)—The Marchese Guglielmo Marconi, inventor of wireless telegraphy, in the inaugural address at the second meeting of the Italian Society for Advancement of Science, today expressed belief that radio waves may travel long distances, even millions of miles beyond the earth's atmosphere.

He said he did not see any reason why, as some scientists maintain, waves produced on the earth should not travel

### HE URGES UNION

GENEVA, Sept. 11 (AP)—Aristide Briand, French foreign minister, whose voice has swayed European conferences for ten years, went before the assembly of the League of Nations today to propound his scheme for a federation of European nations in the interests of economic and political cooperation, and maintenance of peace.

EL PASO, Sept. 11—George W. Cook, 52, business man, shot and killed his wife, fatally wounded his seven-year-old son and killed himself here today.

Cook, head of an electrical company, shot his wife to death while she lay asleep in bed and then turned the gun on his little son, George Wilton, who was sleeping with a great aunt. He fired three shots into his own body and died almost instantly. His son died two hours after he was wounded.

Pistol, Rifle Used  
He used a pistol to shoot his wife and son but fired into his own body with a rifle. Mrs. Cook was shot through her head.

Mrs. Margaret Lowe, with whom the boy was sleeping, was awakened by the first shot fired into his body. She pleaded with Cook not to shoot again, but he fired another bullet.

Baby Uninjured  
Betty Jane, 18-month-old adopted daughter, was sleeping with Mrs. Lowe was unharmed.

Mrs. Lowe rushed to Mrs. Cook's room and found her dead. Cook had gone to another room to shoot himself, she said.

Officers said they could not account for the tragedy. Cook had been active in business here for many years. A former wife and two sons reside in Los Angeles, Calif.

### BOOZE COUNTS FILED HERE

TWO HELD, THIRD NOT CHARGED IN SERIES OF ARRESTS

With advent of the fall season Lubbock county officers have declared war on violators of the prohibition law which they expect to result in a final cleanup of the illicit traffic in this city and county.

Two Lubbock men, Hugh Walker and Austin Beasley, were lodged in the Lubbock county jail Wednesday night and this morning, both facing charges of pre-law violation.

Third Man Arrested  
Walker was arrested shortly after 9:30 o'clock this morning when officers raided his home on Fourth street and confiscated about three gallons of whiskey, together with a quantity of equipment such as bottles, copper pipe, etc. No bond had been set today at noon.

Beasley was arrested Wednesday night, carrying a brief case containing a half gallon of whiskey. His bond was set this morning at \$2,500 but he had failed to furnish security at noon. One other man arrested Wednesday night with a half gallon of whiskey has not yet been charged.

MAN IS SUICIDE

VATICAN CITY, Sept. 11 (AP)—Marcello Nistrati, aged 33, killed himself today, by jumping from the cupola of St. Peter's Basilica to St. Martha's square.

DRY PADLOCK ON CAPITAL HOUSES

WASHINGTON, Sept. 11 (AP)—The government's efforts to enforce prohibition in the national capital have resulted, in the past, proceedings, either pending or completed, against property with a total valuation of \$1,300,000.

This was shown in data prepared by local real estate interests in cooperation with district authorities, and was described at not a prohibition argument, but rather as a warning to property owners to guard against such activities of tenants for which they may suffer.

Eighteen pieces of property, valued at \$394,000 now are under padlock, and proceedings have been instituted against forty others with a value of \$913,000.

### MAN KILLS HIS SPOUSE, SON, THEN SELF

EL PASO, Sept. 11—George W. Cook, 52, business man, shot and killed his wife, fatally wounded his seven-year-old son and killed himself here today.

Cook, head of an electrical company, shot his wife to death while she lay asleep in bed and then turned the gun on his little son, George Wilton, who was sleeping with a great aunt. He fired three shots into his own body and died almost instantly. His son died two hours after he was wounded.

Pistol, Rifle Used  
He used a pistol to shoot his wife and son but fired into his own body with a rifle. Mrs. Cook was shot through her head.

Mrs. Margaret Lowe, with whom the boy was sleeping, was awakened by the first shot fired into his body. She pleaded with Cook not to shoot again, but he fired another bullet.

Baby Uninjured  
Betty Jane, 18-month-old adopted daughter, was sleeping with Mrs. Lowe was unharmed.

Mrs. Lowe rushed to Mrs. Cook's room and found her dead. Cook had gone to another room to shoot himself, she said.

Officers said they could not account for the tragedy. Cook had been active in business here for many years. A former wife and two sons reside in Los Angeles, Calif.

### W. R. WHITE IS TO TALK HERE

BAPTIST LEADER WILL ADDRESS STUDENTS IN SERVICE

Dr. W. R. White, of Dallas, executive secretary of the Baptist State board, will deliver the opening sermon at Texas Technological college on Sunday, September 21, according to announcement this morning by college officials.

The opening sermon will be held the evening of the 21st, in the college gymnasium and all churches of the city will combine to send their congregations.

Dr. White was formerly pastor of the First Baptist church here and under his supervision the congregation enjoyed an almost phenomenal growth. Formerly a faculty member of the Baptist Seminary, at Fort Worth, he came to Lubbock with a budding reputation as a leader of his denomination and while he was here that reputation grew until he was virtually drafted to the position he now holds.

Vaughan Optimistic Over GOP's Chances

"The Republican party has something to offer the voters of Texas in the coming state election," declared John L. Vaughan, Lubbock postmaster today, following his return from the Texas GOP convention at San Antonio.

"We're going to wage a vigorous campaign and believe we'll make a respectable showing," he said. "Even though we don't think our man has much of a chance to win, we're going to work as though we thought he would."

Mr. Vaughan stated that the press was slightly in error in linking the party's platform with that one used by the Ferguson's, declaring that the planks passed on at San Antonio had always been adopted by the party in the state. He declared the San Antonio session one of the best in the party's history in Texas.

### Student Leaps To Death; Leaves Note

BOSTON, Sept. 11 (AP)—Student John W. Johnson, 21, Vanderbilt University, was fatally injured today in a leap from the fourth floor of the Boston Tech chapter, Lambda Chi Alpha, in the Bank building.

Johnson was picked up unconscious in the yard of the adjoining building. He died soon after arriving at the City hospital.

In the fraternity rooms was found a sealed letter written by Johnson addressed to his mother, Mrs. Arthur W. Johnson, Thomaston, Me.

### TWENTY DIE AS VOLCANO SPITS BOILING LAVA

MESSINA, Italy, Sept. 11.—A score of persons are reported dead and fifty or more injured in the simultaneous eruption of Stromboli volcano and an earthquake on Stromboli island, one of the Aeolian group near here. When the eruption blew the volcano's cone high into the air a great stream of lava descended upon San Bartolo and other villages.

### FIFTY BELIEVED HURT IN TWIN-DISASTER ON STROMBOLI

Stromboli is a small island with a population of 2,500. It is situated near the steamship route from Messina to Naples. Not far away is the Italian penal island of Lipari, where political prisoners are held.

The eruption threw thousands of burning rocks high into the air. These descended on little villages which dot the countryside around the base of the volcano.

A river of lava flowed down upon the village of San Bartolo, destroying farms, and setting many buildings on fire.

Volcano Is Normal  
Later official reports said that Stromboli's activity returned to normal shortly afterward.

Two additional torpedo boats left Messina this afternoon for Stromboli, with the vice prefect, the vice federal secretary and other authorities.

These boats are carrying food, tents and several companies of firemen.

# Four Needle Clubs In Pleasant Sessions Yesterday Afternoon In City Homes

## Parties Furnish Pleasant Diversion For Members of Four Societies Here

Parties given yesterday afternoon in Lubbock homes furnished pleasant diversion for a number of Lubbock women. Clubs which met were the Loyal Sisters, Just Sew, Lucky 13 and Wednesday Needle societies.

Reunions which were dropped during the summer months members of the Loyal Sisters Needle club gathered in the home of Mrs. W. A. Childers, 1903 Avenue V, yesterday afternoon. A short business session was conducted, a pleasant hour was spent sewing and refreshments were passed.

Those who attended were Mesdames W. E. Holder, Minnie Nichols, Fred A. Owens, Ed D. Allen, E. P. Huff, R. E. Swain, and John R. Hall.

In Duncan Home Meeting with Mrs. R. H. Lowery in the home of her mother, Mrs. F. E. Duncan, 1802 Avenue Q, members of the Just Sew Needle club enjoyed a pleasant hour together on Wednesday afternoon.

Those who attended were Mesdames Ray Benson, J. E. Hawes, J. O. Kuykendall, Frank Owen Jones, H. P. Maner, G. B. Martin, Randolph Rambo, Joe G. Stanton, W. H. Wright, L. C. Johnston, of Ashville, N. C. and F. E. Duncan.

The next meeting of the club will be with Mrs. Maner at 2206 28th street.

**Lucky 13 Meets**

Sewing and conversation were pleasant diversion for the mid-afternoon hours when members of the Lucky 13 Needle club met in the home of Mrs. A. K. O'Kelley, 2223 1-3 14th street, yesterday afternoon.

A salad course was passed to Mesdames Allan Hill, Roy Parr, E. F. Alford, R. O. Short, S. M. Reed, Elmo McClellan, C. A. Henderson, L. L. Kelso, W. M. Petticoles, Burton S. Burks, R. E. Dick and Sidney Oglesbee, members, and to Mrs. Albert Fryar, Mrs. J. D. Reese, Mrs. J. W. Surghor and Miss Zenima Surghor, of Temple, who were guests.

One of the lovely occasions of the week was a meeting of the Wednesday afternoon in the home of Mrs. W. B. Atkins, 2223 Broadway with Mrs. R. M. Chitwood as joint hostess.

Following the hour of sewing the hostesses passed an ice course. Guests were Mesdames John F. Robinson, of Fort Worth, E. Krueger, of Austin, and W. T. Padgett, of Ballenger and James R. Robinson, while club members in attendance were Mesdames E. L. Robertson, S. C. Wilson, E. L. Klett, F. M. Maddox, Roscoe Wilson, W. B. Rushing, M. B. Hilburn, C. M. Balenger, C. J. Wagner, John L. Raliff and L. C. Ellis.

**PARIS**—(AP)—French trains are faster this year than ever before. The highest speed is the 150-mile run on the way to Liege made at 62.4 miles an hour.

## Konjola Freed Ft. Worth Man Of Rheumatism

Suffered Five Years—Kidney And Stomach Ailments Also Banished.

MR. N. R. DANIEL

"I suffered from rheumatism for four or five years," said Mr. N. R. Daniel, 806 East Arlington avenue, Ft. Worth. "This settled in my left leg and hips and I became so sore and stiff that I walked with a limp. I could not stoop sufficiently to lace my shoes. Later I became afflicted with stomach pains caused by gas. My kidneys became affected and I suffered constant back pains."

"I watched local endorsements of Konjola and decided to give it a trial. I noticed a change while I was taking the first bottle so I continued the treatment. Today the pains of rheumatism have entirely passed. I move my limbs freely and without effort. The stomach and kidney ailments have gone the way of my rheumatism and I no longer suffer from constipation. Even head aches which bothered me for years has been relieved by this new medicine."

The files of Konjola contain many such instances. Konjola is free from alcohol, nerve-damaging drugs or heart-depressing chemicals.

Konjola is sold in Lubbock, Texas at Brown's Drug store, and by all the best druggists in all towns throughout this entire section—adv.

## Campus Queen

It really wouldn't take a college education to know that Waudelle Tucker, above, of Gainesville, Fla., would be a reigning beauty anywhere. But it's the student body of the University of Florida Summer School that has chosen her as "the prettiest girl" on the campus this year. And that puts her still speaking collegially—in a class by herself!

## NEWS BRIEFS

Ray Culp, former Tech student who has been visiting here for several days, left yesterday afternoon for Amarillo.

Mrs. A. K. O'Kelley, 2223 1-3 14th street, has as her house guests her mother, Mrs. J. W. Surghor, and sister, Miss Zenima Surghor, of Temple.

Mrs. E. L. Dohoney was a guest Tuesday at a reception honoring Mrs. William Quincy Boyce of Amarillo who has recently returned from an extended honeymoon in Canada. The affair was given by Mrs. William Boyce at her home in Amarillo.

Mr. and Mrs. Early Moore left Tuesday for their home in Oklahoma after a visit here as the guests of Mr. Moore's parents, Mr. and Mrs. C. B. Moore, 2303 19th street, and of Mrs. Moore's sister, Mrs. W. B. Moore, 2303 19th street. They were accompanied by their little daughter, Mildred. The Moores are former residents of Lubbock.

Dr. and Mrs. O. F. Senabough, of Dallas, are the guests of their son, O. F. Senabough and Mrs. Senabough, 1016 Avenue N. They are en route home following a vacation spent in parts of Colorado.

George Shearer of Eastland is visiting here. He is the son of Rev. G. W. Shearer, former presiding elder of the Lubbock Methodist district.

Lee Roy Keller, 1006 Avenue M, is a patient at the Lubbock sanitarium.

T. R. Greenfield of Post is a business visitor here today.

C. J. Norton, of this city, visited in Wichita Falls yesterday. He is a former resident of Wichita Falls.

J. L. Grissom of Lamesa transacted business in Lubbock yesterday.

## Mrs. W. P. Jennings Conducts Lesson

Mrs. W. P. Jennings conducted the devotional lesson Tuesday afternoon when members of Circle 1 of the First Christian Ladies Aid met at the church in regular session. Mrs. W. T. Milam, chairman, presided during a business session during which plans were made for a business session and a rummage sale. Mrs. Mary F. Hinton led in prayer. Those who attended were Mesdames Jennings, B. D. McLarry, George McCarty, C. D. Shaw, R. W. Walker, C. O. Marquart, N. L. Benson, G. P. Kuykendall, Mary F. Hinton and W. T. Milam.

## Deckleman Wins In County Court Suit

The case of Kelsator Electric company versus J. C. Deckleman, tried Wednesday in county court before Judge Robert H. Bean, resulted in a verdict favoring the defendant and entitling him to rescind a contract on purchase. Trial of the case followed a suit for debt and a cross action on warranty. W. D. Girard, Jr., represented the plaintiff while R. A. Sowder was attorney for defendant.

## Working Girls Told How To Budget For Beauty

By HELEN WELSHIMER  
NEA Service Writer  
NEW YORK, Sept. 11.—Beauty may be only skin deep. But human nature being what it is, most people are pretty near-sighted about it. It's the surface view that gets a girl's job these days, and helps her keep it, too.

At least, that is the opinion of Mrs. Dorothy Henry, beauty consultant at the Home-Making Center in New York City, a permanent exhibit sponsored by the New York Federation of Women's Clubs.

According to Mrs. Henry, who is an expert on the subject of beauty and the budget, any woman may be beautiful today. All she needs is \$30 a year.

But if she doesn't follow the beauty secrets that Helen of Troy used as a bait when she wanted a whole oceanful of ships to anchor along the Trojan coast, she hasn't a chance.

**A Chart To Beauty**

Mrs. Henry has worked out an itemized chart showing that the girl who carries \$18 a week is entitled to spend \$30 a year, or \$1 a month, on her grooming.

The itemized budget for the 18-a-week girl includes:

|                                         |                |
|-----------------------------------------|----------------|
| 2 Permanent                             | \$20.00        |
| 1 Finger set a month                    | 15.00          |
| Liquid shampoo                          | 2.50           |
| 2 Large jars of cleansing cream         | 2.50           |
| 4 Small jars of night cream at 50 cents | 2.00           |
| Skin tonic (made at home)               | 1.00           |
| Powder                                  | 1.50           |
| Rouge                                   | 1.00           |
| Lipstick                                | 1.00           |
| Mascara                                 | 1.00           |
| Manicure set                            | 2.50           |
| <b>Total cost</b>                       | <b>\$30.00</b> |

A girl who is earning \$25 a week may spend \$75 a year, or \$6.25 a month, on her beauty problem, according to the budget, and those who earn from \$35 to \$50 weekly may get as high as \$120 a year, which is \$10 a month.

"Girls must be sold on themselves before they can sell anything else," Mrs. Henry says. "The kind of sale they will make depends on the appearance. The psychology of knowing you are looking well always gives you added confidence. Competition is too strong to let grooming slide. Besides, it can be done so cheaply."

The girl who is earning \$25 a week may buy more expensive cosmetics. She may use a foundation cream. She may have her hair set every two weeks instead of every month, and may have an occasional manicure or facial.

"This added expense doesn't mean that the girl who earns more is necessarily going to be better groomed than her sister who is on the lower basis," Mrs. Henry points out. "But it means that she won't have to work quite so hard to do it. She won't have to do quite so many things for herself, that's all."

Those lucky maidens who approach the \$50-a-week salary mark can go in for luxuries even more. They may prefer a monthly facial or monthly manicure. But the elements of beauty apply to them in exactly the same manner that they do to the 18-a-week girl.

Mrs. Henry who is small, slender, with silvery blonde hair and rose-colored cheeks, can easily pose as an example of the beauty treatments that she suggests.

For one thing she believes firmly that cleanliness is next to comeliness.

"Hair should be shampooed weekly," she insists. "There are ten shampoos in one bottle of liquid. And I can't emphasize too much the importance of using a liquid for the hair."

"Cleansing cream for the face is better than soap. Some people complain that they dislike the oily feeling that it leaves. This may be avoided by dipping pads of cotton in an astringent and wiping the cleansing cream away with them. Always use an upward motion. Don't try to massage the face. Instead, this stimulates the blood."

"Rub very gently around the eyes completing an inside-out circle."

**Some Make-up Hints**

Mrs. Henry suggests that tissues take the place of towels as they won't stretch the pores. Cream rouge, too, she advises, from the standpoint that it stays on longer, spreads more evenly, and doesn't enlarge pores.

When you powder, pack the powder on, starting at the nose of your neck. Always buy the powder to match your skin at that point. It's your real color. After your face is covered, wipe it off.

"Any girl shows common sense when she buys a cheaper dress and invests in personal aids to beauty. And she's even wiser when she makes her grooming a daily process. Once a week won't help."

"Above all, be natural. Remember that beauty aids are merely supposed to make us look as we should but as none of us ever do."

Above: Mrs. Dorothy Henry, beauty consultant at the Women's Home-Making Center in New York, at work in her office. Below: Mrs. Henry advises lathering the hair with liquid shampoo for cleansing purposes, and applying powder always with an upward, outward movement.

things for herself, that's all."

## Clever Motif Employed In Party For 1928 Bridge Club By Mrs. Childress

A clever motif was employed by Mrs. Fred H. Childress Wednesday afternoon in entertaining the 1928 Bridge club in her home at 2216 15th street. In keeping with the "camping theme," each table was designated as a cabin and players, posing as trees, found their places around the tables. The picnic style was used in serving refreshments.

High score among club players in bridge was made by Mrs. M. N. Hale and Mrs. J. C. Powell scored high among the guests. Mrs. Mike Brennan was high in a general cut.

Club members attending were Mesdames O. A. Terry, Leo Edwards, Brennan, F. L. Lindsey, Hale, J. R. Bush, J. A. Phipps, Jr., W. A. Sylvester, Newman Roberts, J. Ray Dickey, L. B. Slineker, Louis Winn and E. L. Pitts.

Other guests included Mesdames Lewis Kittrell, J. Davis, Howard Pearson, Ed O'Sullivan, R. W. Crowder, Jr., Horace Gaither, J. C. Powell, M. H. Hucker, Earl Sparks, Miss Margaret Abel and Miss Mary Lou Robertson.

## Casing Is Set In Hobbs High's Test

HOBBS, N. M., Sept. 11.—(Special)—Setting of the six inch casing for the Hobbs High, Inc., well in All Hobbs at 3,800 feet is under way. The hole was cleaned out to that depth and the drillers will go for the deep pay.

The Hobbs High test is a mile and a half from production. It is due east of production and is close to the school house in All Hobbs, at the foot of Carlsbad street.

## Endorsed By Beautiful Women

Beauties who guard their complexions use MELO-GLO Face Powder only. Famous for purity—its coloring matter is approved by the Government. The skin never looks pasty or flaky. It spreads more smoothly and produces a youthful bloom. Made by a new French process. MELO-GLO Face Powder stays on longer. John Halsey Drug—Adv.

## Dancing Club To See Lubbock Dancers

Miss Sophie Sproule, local dance instructor, and her younger sister, Ann Sproule, will be featured entertainers at a dance to be given tonight by the Lubbock Dancing club in the ballroom of Hotel Lubbock. The elder sister will do a tap dance while the other will be featured in song and dance and acrobatic numbers.

## Children's Cold: Checked with "Dosing" Rub e

When a native of India goes to work, the office sage observes, his first thought, of course, is to make lots of rupee.

## SELF-CONFIDENCE

Bright eyes—a clear mind—belief in oneself and the power to do characterizes the red-blooded man!

IMPORTANT in this picture are the red-blood-cells! You cannot count your own red-blood-cells—that is technical! But you should know that they are the "ships" that sail in the blood and carry nourishment to all parts of the body. They fight infection and disease!

Body weakness, lack of appetite, underweight, paleness, swollen complexion, pimples and boils are symptoms of a low blood count. These may indicate that you need S.S.S.

S.S.S. restores the red-blood-cells to normal. Your appetite picks up, your whole body is strengthened, invigorated! Your skin clears up. Self-confidence returns. You owe it to yourself to try S.S.S. Get the large size. At all drug stores.

CAREY

When your red-blood-cells are only 80% you are not your self—60% is dangerous.

S.S.S. is the tonic that is daily helping thousands of weak, run-down, nervous people regain their strength and cheer.

If you feel yourself slipping—your confidence weakening—why not try S.S.S. Its successful record of over 100 years is a guarantee of satisfaction.

## LOVINGTON IS BUILDING

NEW MEXICO TOWN HAS MUCH ACTIVITY NOW; 37 HOMES BUILT

LOVINGTON, N. M., Sept. 11.—(Special)—Despite the prevailing financial conditions over the general territory Lovington has enjoyed its most substantial and unprecedented growth during the past ninety days, with the outlook gaining momentum every day as the production of the Lea county oil fields is moving north and west from the original Hobbs field. Lovington is now only 15 miles from production. With excellent living conditions, such as an accredited high school, churches, water, gas and sewer lines nearing completion and a new highway to soon be opened from Lovington to the oil fields, oil men are pouring in every day seeking

homes and modern housing facilities for their families; to carry on their operations from the country seat town.

After a careful survey it was revealed that 37 new homes are now under construction in Lovington, practically all of which are brick, tile and stucco, with all modern conveniences. Four new brick business houses are also under construction with numerous other business houses being runnored for the near future. Among the apartment houses is a 60-room apartment building to be built of stone and concrete, two units of which are complete with foundations of the others laid. 18 modern apartments with built-in frigidaire system will be available when completed, according to B. C. Whittle, builder and contractor. A number of business men are planning a 76-room office building on Main street to supply office space for abstractors, oil men, and lease brokers. For every old home in Lovington there is now a new one.

The percentage of white school teachers with college educations in North Carolina has tripled in eight years.

## POTENTIAL PRODUCTION OF HOBBS OIL FIELD IS RAISED 128,289 BARRELS IN FIFTEEN DAYS; PRORATION IS WATCHED

By Staff Correspondent

HOBBS, N. M., Sept. 11.—With the potential production of the Hobbs oil field increased 128,289 barrels between August 15 and September 1, by the bringing in of new producers, the average potential of the 54 producers in the field is estimated by Umpire G. C. Staley, as 7,700 barrels per day.

Actual run into the pipe lines, however, is but 33,336 barrels, divided among three companies.

Raised to 415,535 Potential on August 15 was 287,246 barrels. Sixteen days later it was 415,535 barrels.

Another gauge is to be taken September 15 to determine the net quota.

Potential production of the several companies is announced as follows: Amerasia: McKinley No. 1, 9, 109; No. 2, 15,520; No. 3, 14,837;

State -A, 19,246; total, 58,712; allowable production, 3,545; total into lines, 4,269; allowable units per well, 181.

Fowler No. 1 Empire Gas and Fuel Co.: Fowler No. 1, 11,081; potential production, 669; total into lines, 850; allowable units, 181 barrels.

Getty Oil Co.: McKinley No. 1, 12,279; McKinley No. 2, 20,250; McKinley No. 4, 14,963; potential production, 2,815; into lines, 3,336; allowable units per well, 181.

Gypsy Oil: Grimes No. 1, 17,626; No. 2, 19,931; No. 3, 21,792; total 59,358; potential 3,596; allowable units 181 barrels per well; potential runs, 4,139.

Humble Oil and Refining: Bowers No. 1-3, potential, 11,944; No. 6, 772; No. 3, 13,200; No. 4, 15,358; total 47,274; allowable units per

well, 181; into the pipe lines, 3,578 barrels.

Potential 2,768 Landreth Production Corporation, No. 1 State, potential, 2,768; allowable units, 181; potential production, 167; into the line, 346.

Mid-West Refining Co.: Cappe No. 31, 1,156; Leach No. 24, 773; State No. 1, 572; State No. 1-13, 2, 198; State No. 8, 1,056; State 24-36, 562.

Terry No. 13, Byers, No. 33, 21, 249; State 33, 4,536; State No. 3, 21,136; State No. 8, 19,853; State No. 26, 1,565; State No. 26, 2,203; total, 77,744; oil units per well, 181; total potential, 3,547; into pipe lines, 5,906.

Ohio Oil and Refining: State No. 1, 9,137; State No. 9, no unit potential; into lines, 20 barrels; State Northrup No. 1, 384; State-Independent No. 2, 5,896; State-Independent No. 3, 13,413; total, 36,810; 181 barrels allowable per well; potential, 2,223; into the pipe lines, 2,967.

Prairie Oil and Gas: Crump No. 51, 22,700; Selman No. 1, 396; total 23,096; 181 barrels allowable per unit; potential, 187; into the lines, 5,549.

Shell Petroleum: McKinley No. 1, 10,706; No. 2, 17,043; State A, 1, 10,267; State A, 3, 1,055; Thorp No. 1, 1,074; total, 40,164; potential production, 2,429; into the lines, 3,328.

859 Into Lines Sun Oil Co.: McKinley No. 1, 11,081; allowable units, 181; potential, 699; into the lines, 650.

The California Oil Co.: No. 1 State, 2,074; allowable, 181; potential, 126; into the pipe lines, 307.

The Texas Company: Selman No. 1, 377; State C-1, 6,389; total, 6,766; 181 barrels per unit; potential production, 406; into the lines, 770.

Texas-Pacific Coal and Oil: State C, No. 1, 9,331; allowable 181; potential, 584; into the lines, 745.

Tidal Oil Co.: Grimes, No. 1, potential, 21,496; 181 barrels allowable; 1,298 potential; into the pipe lines, 1,479.

Walker Oil Company: Terry No. 1-2, total to lines, 500 barrels.

The totals show oil units allowable are 3,326 barrels, an average of 181 per well; a potential of 25,069 barrels, and total into the lines of 33,835 barrels per day. Potential is divided 25 per cent on acreage and 75 per cent on potential to the maximum outlet of 33,835 barrels per day, Umpire Staley said.

## ANOTHER FILM MARRIAGE TUMBLES ON ROCKS AS ACTRESS MAULS HUSBAND

LOS ANGELES, Sept. 11. (P)—The three-month marriage of Jocelyn Lee, film actress, and Luther A. Reed, screen director, reached the courts today in a divorce suit by the husband, charging unreasonable jealousy and profane abuse in public places.

Reed alleged his wife hurled dishes at him and clawed his face. While at dinner in a San Francisco hotel he charged she swore at him and hurled dishes across the table. A week ago at Agua Caliente, Mexico, he said, his wife raised such a commotion they were ordered to leave and as they departed she threw an ash tray at him, inflicting a gash on his face.

The director was divorced about two years ago by the former actress, Naomi Childers, and married Miss Lee last June.

Miss Lee formerly was the wife of Henry Lehrmann, film director, who divorced her in 1924, charging desertion.

## Shoppers Linger

In Gasteam Heated Stores

WHAT is more natural on a cold winter day than that shoppers should linger in warm, cozy stores? Linger, they see more things—think of more things they want—and buy them!

Designed to meet every store heating need, CLOW GASTEAM has been found a valuable business asset by many thousands of store operators all over the country. CLOW GASTEAM provides quick clean heat using gas for fuel, at the mere turn of a handle. It gives steam heat, yet it needs no expensive boiler, steam piping, or space for heating plant and fuel bins. And, remarkable operating efficiency means greatest economy.

Find out the possibilities of this modern, clean, labor-saving heating system for your store. Whether it is an old or new one, CLOW GASTEAM is equally easy to install.

## Thought For Today

He only is my rock and my  
salvation; he is my defense.  
Psalm 62-2.

Confidence imparts a wonderful  
inspiration to its possessor. Milton.

## Politics

For a revealing commentary on  
politics as it is practiced in the  
United States today, we refer you to  
a recent news dispatch from  
Washington touching on the ap-  
proaching congressional election.

The dispatch was written by Ray  
Tucker, one of the capital's best-  
informed correspondents. After re-  
marking that the Democrats believe  
they have a good chance to win con-  
trol of both House and the Senate,  
Mr. Tucker remarks:

"Democratic leaders admit they are  
not enthusiastic over the prospects  
of capturing either branch. They  
would prefer to let the party in  
power retain control, but to have  
such strong representation that they  
can harness the administration's  
legislative program, with the aid of  
the G. O. P. insurgents, and enter  
the 1932 national contest with the  
argument that President Hoover's  
four years have been barren of ac-  
complishment."

That brief paragraph tells a great  
deal about American politics. It  
explains a lot about the low esteem  
in which the average citizen tends  
to hold congressmen and senators.  
It is, in point of fact, as caustic  
an indictment of American politi-  
cians as you are apt to find any-  
where.

One would suppose that a great  
political party, deprived of power  
for a full decade, would be im-  
patient to get back in the saddle. One  
would suppose—if one didn't know  
American politics—that its leaders  
would be eagerly drawing up a pro-  
gram by which they could put their  
policies into effect when the day of  
control came.

But are they? According to Mr.  
Tucker they are hoping that their  
victory won't be too overwhelm-  
ing; hoping that they won't be given  
any real responsibility; hoping that  
they won't be called on to show just  
what remedies they have for the  
nation's ills.

All of this, of course, does not  
mean that the Democrats are any  
more grasping or short-sighted than  
the Republicans.

On the contrary, it emphasizes  
once more that the chief difference  
between the two parties is that one  
is in and the other is out. The  
outs want to get back in, but they  
are valiantly praying that they  
won't get in too soon. This anxiety  
demonstrates fairly clearly that they  
have no well-considered plan for  
governing the country.

This has been the prevailing tone  
in American politics for a number  
of years. As a result, we are not  
ruled by statesmen but by politi-  
cians. The desire to render pub-  
lic service is not half so strong as  
the itch for a good place at the  
trough. Clearly, if the "outs" had  
any definite policies in the field of  
government they would jump eagerly  
at the chance to get control of  
Congress so that they could put  
them into effect.

## The Danger

The tragic accident to Lieutenant  
De Shazo's plane at the Chicago air  
race emphasizes once more a point  
in connection with shows of that  
kind that we often tend to over-  
look—the fact that there is apt to  
be a certain element of danger to  
the spectators in thrilling stunt-  
maneuvers performed over a huge  
crowd.

Fortunately, De Shazo's tragedy  
cost only two lives. Reports from  
the field, however, indicate that a  
catastrophe of much larger propor-  
tions was averted only by a nar-  
row margin; and that fact ought to  
stand as a warning to the officials  
in charge of future air shows.

The magnificent skill of the army  
and navy flyers, and the splendid  
construction of the planes they fly,  
are the spectators' only guarantee  
of safety. Stunt flying is perhaps  
the most enthralling spectacle in  
the world, but it is the highest de-  
gree of hazardous if any show such  
as this in Chicago is ever spoiled by  
a foolish airplane plunging into a  
crowd.

## THE PLAINSMAN

That Girl on Broadway says  
every woman's ambition is to have  
a husband but a lot of them don't  
seem to want their own.

DURING the latter part of Au-  
gust the Waco Times-Herald,  
an afternoon newspaper in the Cen-  
tral Texas city, published a front  
page dissertation on West Texas  
which seems to have aroused the  
ire of West Texans everywhere.  
Immediately upon publication of  
the editorial the Fort Worth Star-  
Telegram and the Abilene Reporter-  
News gobbled it up and placed it  
before their West Texas readers.  
Then the storm broke.

Lubbockites who have seen  
the article, which chides West  
Texas for hollering "help" on the  
drouth, have kept the paper's  
phone busy for the last  
several days, urging an answer  
to the Times-Herald. This writer  
has perused the article care-  
fully but for some reason or  
another has failed to work him-  
self into a cold sweat over it.  
He expects nothing more or less  
from the Times-Herald, which  
is really doing nothing except  
raising a smoke screen against  
West Texas to hide the condi-  
tion of Central Texas as it  
hangs on the ropes and sees  
business pushing elsewhere.

Among other things, the Times-  
Herald, which is almost entirely  
local in its circulation, criticizes  
the state for spending more than a mil-  
lion dollars for the establishment of  
Texas Tech, intimating that the  
college here is a flop and even go-  
ing so far as to say that "it is re-  
ported that there is textile ma-  
chinery in the basement of those  
buildings which has never been un-  
packed." Poor old Waco, decadent  
center of what was once the reign-  
ing glory of Texas, is merely dying  
hard as Texas Tech sweeps away  
and snatches scores of students from its  
very shadows.

In regard to the drouth, the  
Times-Herald says West Texas  
is crying for help, and that  
again the rest of Texas will answer  
the cry. The Plainsman can't  
imagine just how Waco could help  
West Texas if it wanted to—being  
somewhat confronted by problems  
all its own. But if Waco  
helps it's all right with us. We can't  
see any reason to become hot and  
bothered over the rantings of a  
writer, whom to the Plainsman's  
knowledge hasn't been in this part  
of West Texas for the past six  
years.

The funny thing about the  
whole business is that the Waco  
Times-Herald is owned by the  
Pentecost-Marsh newspaper or-  
ganization which, in addition to  
other properties, has large hold-  
ings in West Texas, and which  
in the past has endeavored to  
increase those West Texas hold-  
ings. Frank Baldwin, editor of  
the Times-Herald, reckoned  
without his host—or rather  
without his boss—when he hit  
upon filling up space in his pa-  
per by hounding on West Texas  
for no reason at all.

The occurrence is nothing short  
of humorous, as The Plainsman  
sees it. Very few people would have  
seen the Times-Herald's article had  
not the Star-Telegram done so dra-  
matically leap to the defense of  
West Texas. With all respects to  
Editor Frank Baldwin, whose bark  
is much more than his bite and  
who really edits one of the finest  
small city papers in the United  
States in the Waco News-Tribune,  
morning companion to the evening  
Times-Herald, his opinions can't  
hurt or help West Texas. This ter-  
ritory is too big, too fine, too vigor-  
ous to be affected by any such  
drivel.

THE Plainsman really sym-  
pathizes with Mr. Baldwin in the  
horrible nest which has fallen about  
his defenseless head when he was  
trying to do in the first place was  
fill up space with something that  
would please the customers in  
Waco. Our business will go on, our  
rate much more rapid than that of  
Central Texas, regardless of Mr.  
Baldwin's opinions, so why worry  
about it? He and his paper, un-  
known in this country, have already  
received too much advertising out-  
let of the stunt and The Plainsman,  
for one, doesn't choose to pour any  
more water on the Waco's wheel.

Next December, when the  
Texas Managing Editors' as-  
sociation meets in Lubbock,  
The Plainsman is going to read  
a special invitation to Frank to  
come out a few days early and  
look over this country. He's  
really not a bad sort of a fellow,  
only like a lot of the rest of  
us he is prone to get up and  
shoot off at a tangent oc-  
casional, just to show a  
steam. This column for ex-  
ample, in favor of bombing the  
Times-Herald building or lynching  
Editor Baldwin. It'll all  
come out in the wash and we'll  
never know the difference when  
we're ninety.

That Man on Avenue Q says an  
X-ray operator always has an off  
side information.

This country needs more men  
who use as much thought in choos-  
ing a wife as in buying a new car.

LIFE insurance companies, en-  
deavoring to side-step payment

## Heaven Help The Poor Sailors On A Night Like This!

"Without-Or-With, Offense To Friends Or Foes, We  
Sketch Your World Exactly As It Goes"—Byron

Lieut. Izac, Who Was A Prisoner On A Submarine, Will  
Receive Over-Due Compensation Soon, Reporter Believes

By RODNEY BUTCHER

NEA Service Writer

WASHINGTON—Lieutenant Ed-  
ward V. M. Izac, who was taken  
from a torpedoed American trans-  
port by a German submarine, where  
he obtained valuable information,

who drove from  
a train window  
to escape, only  
to be captured  
and crisscrossed  
by his guards,  
who finally did  
get away and  
given the Con-  
gressional Mil-  
itary Medal for  
his valor, prob-  
ably will soon be  
compensated in  
hard cash for his  
permanently  
injuries.

Izac is one of  
the last claims remaining to be ad-  
judicated by the German-American  
Mixed Claims Commission. This  
commission, which has disposed of  
nearly all the 18,000 claims filed be-  
fore it, has never had a claimant  
from Washington, but will com-  
mence at the Hague on Sept. 17 and  
later at Hamburg.

The Black Tom Disaster  
At the Hague it will consider the  
sabotage claims such as that of the  
Lehigh Valley Railroad arising out  
of the Black Tom explosion and the  
Canadian Car and Foundry claim  
arising from the Kingsland explo-  
sion. Germany has always denied re-  
sponsibility for these, but witnesses  
bearing word tales have been turn-  
ing up against her in the last year  
and there is a mass of circumstan-  
tial evidence at hand. The more to  
the Hague is supposed to be set-  
tled by a desire to avoid too much  
publicity in the United States.

Other remaining claims are a few  
involving maltreatment of war pris-  
oners such as Izac's, about a hun-  
dred claims made under the eco-  
nomic provisions of the Treaty of  
Berlin and hundreds of claims by  
American seamen or their families  
who suffered during Germany's sub-  
marine war on neutral shipping.

The last category includes sailors  
scattered over the seven seas who  
had negotiated to file claims through  
agencies, but who were provided  
for by a German resolution asking the  
president to ask Germany to let  
them file their claims as late as  
March 10, 1931. Germany has not yet  
agreed but is expected to do so.

Izac, whose story stands out prom-  
inently among these still being  
considered, was a graduate of the  
Naval Academy and had been com-  
missioned a lieutenant shortly be-  
fore being assigned to the transport  
President Lincoln. In May  
1918, the President Lincoln was tor-  
pedoed by the U-56 and was taken  
a prisoner of war. On board the  
submarine he managed to acquire  
information of submarine operations  
which he thought was valuable to  
the allied navies and decided to  
escape at the first opportunity and  
communicate it. He was 12 days on  
the U-56 before being landed at Wil-  
helmshaven and sent to the prison

of politics to the orphaned children  
of A. D. Page, should remember  
that there might be a serious kick-  
back as a result of their activities.  
No one will argue against the value  
of life insurance—not only as a  
precaution, but also as an invest-  
ment, but there are many people  
who distrust insurance companies  
because they do not really turn  
most of their gains.

A fight against the payment  
of a small claim—especially a  
fight which affects negatively  
enriched families and likely to  
draw a generous slice of pub-  
licity—might result against in-  
surance companies all over this  
country. For that reason The  
Plainsman doubts the wisdom  
of the action of the firm in  
fighting the Page's payment.

## Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

ANXIETY, NERVOUSNESS,  
CAUSE MANY DISORDERS  
OF THE DIGESTIVE TRACT  
STRESSFUL TO A PERSON'S  
STOMACH. Not so much of what you eat  
as how you eat it. Perhaps all those  
digestive upsets you have are due  
not so much to  
your diet as to  
your manner of  
eating. Food is  
not a mere nutri-  
ment, but a stim-  
ulant and a sedative.  
It is a powerful  
factor in the  
body's life.

Then one act of digestion pre-  
pares the food for the next. Chewing  
the food well starts not only the  
digestive secretions, but also the  
stomach secretions. If the stomach  
is given time to rest thoroughly on  
the food it prepares it for the intes-  
tine.

Now, considering just these three  
elements in what we call the diges-  
tive process, it is not surprising that  
the average American violates the phys-  
iological principles of eating?

Does he always eat with his mind  
and his stomach? I should say not.  
Sometimes he orders lunch at the  
office so he can do some business  
while eating, so as not to waste any  
time. And the result of the special?  
What about her? Now often will  
the busy thorough lunch as fast as  
she can so she can go and do some  
shopping during the noon hour.

I recently was in Chicago between  
trains, and having nothing to do I  
went to a downtown movie about 11  
in the morning. As I was leaving  
about 12:15 I received a perfect mob  
of young men and women coming  
in to see the show. They evidently  
were using their "lunch hour"  
to get some diversion. But the ap-  
parent cause of their coming was  
first, second, and third service.  
Not a sign of the stomach  
mind, but anxiety and nervousness.

EDITOR'S NOTE: Dr. Clenden-  
ing cannot diagnose or give personal  
advice to readers. Even readers  
where questions are of general in-  
terest, however, they will be taken  
up in order, in the daily column.  
Address your queries to Dr. Logan  
Cleending, care of this paper.  
Write legibly and not over 200  
words.

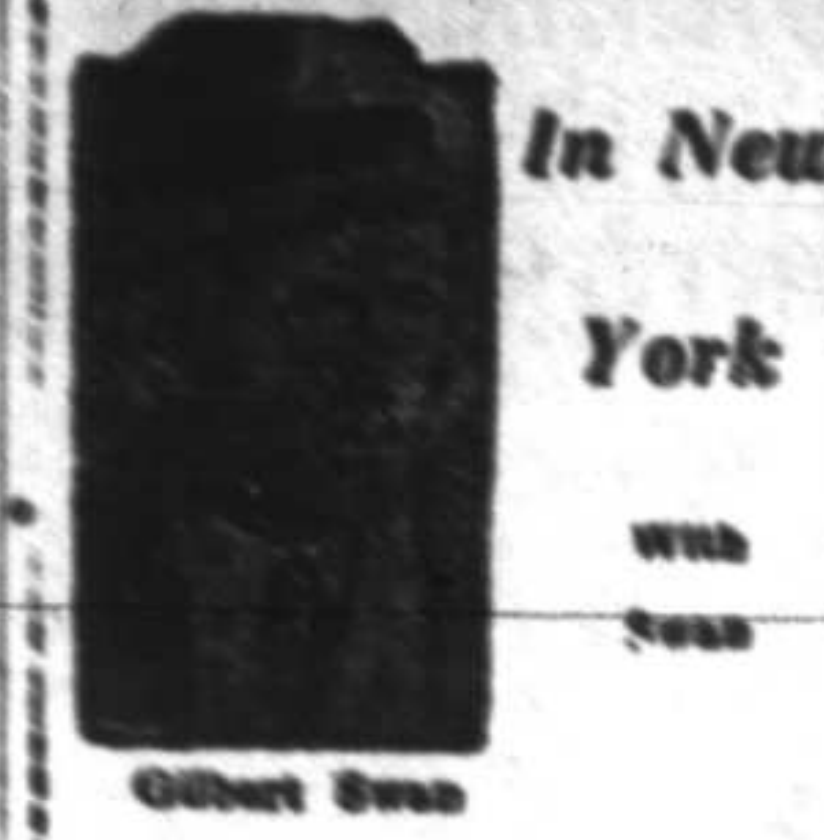

Bored by alumni criticism of his  
football team, Knute Rockne, Notre  
Dame coach, says he hopes his next  
coaching job will be at Sing Sing.  
Well, he should never have to worry  
about filling his guard positions  
there, those fellows are especially  
good on the defense.

Now if Tom Lipton were enter-  
ing a golf tournament instead of a  
yachting contest there might be a  
chance somewhere about his entry  
fee to cup play.

In Mississippi, folk art show-  
times said to refer to moonshine  
as "honeyed sweat." Perhaps they'll  
go so far as to say the mother  
can get quite a jagged on.

## THE WEATHER

TEXAS: Generally fair tonight,  
partly cloudy Friday.  
OKLAHOMA: Generally fair to-  
night and Friday.  
ARKANSAS: Partly cloudy to un-  
settled tonight and Friday, prob-  
ably showers in northern portion.  
LOUISIANA: Generally fair to-  
night, Friday partly cloudy, gen-  
eral thunderstorms in southern  
portion.

NEW YORK, Sept. 11.—The ho-  
man side of a great skyscraper may  
be studied almost any day between  
the hours of 12 and 1 o'clock.

In that period the blue glass-  
man who seem to be hanging by  
their toes on a steel girder, who  
wield a trip-hammer while strad-  
dling a plank at a dizzy height, who  
toss crimson-hot rivets to one an-  
other, who send steel giants into  
the Manhattan skies, can be ob-  
served in their leisure moments.

Setting single file and double file  
in a half square centering on Fifth  
avenue at 24th or 32nd streets you'll  
find them behaving just about the  
same as any workman during his  
noon lunch hour.

They sit upon the sidewalk, or  
prop themselves on bits of wooden  
scaffolding. They stretch their legs  
far out into the air, where a  
yellow canopy protects the pedes-  
trian. They look at the attractive  
maidens who saunter by, even  
as the girls in front of the country  
drug store at Spivey's Centers.

Flanking them is a glittering  
mass of skyscrapers, all—the  
Empire State building, which slowly  
rises to an eventual height great-  
er than that ever before attained by  
man. Its sides are silvered and glow-  
ingly metallic—yet, under gray  
skins, they are like old silver, dulled  
and tarnished.

But the men who put the pieces  
together, like children making a  
jigsaw puzzle seem quite unaware  
that they are actors in a metropol-  
itan drama, that people stand a  
dozen deep on the sidewalk and hold  
their breath that modernistic artists  
make quick sketches from the curi-  
osity.

No—these workers are merely  
happy humans who meet their girl  
friends at the corner and make a  
date for the coming evening. Or  
perhaps such social engagements, they  
make remarks about the pretty sten-  
ographers and clerks who go by.

There's one who can untangle a  
juggling dog—and he's fortunate more  
for all the rest. Seated far  
at the end of a long line he times  
his movements to agree with the  
movements of the passing crowd.  
As pedestrians jump away with  
startled glances, a loud howl of  
glee goes along the line.

Now do these men seem to talk  
of their work as they saunter here  
on the sidewalk. That is left to the  
passerby, who look on in awe and  
wonderment, seeming not to con-  
sider that here is the human arm  
that attacks the sky above. These  
after all are just men—joking and  
coquettish, talking about the girls  
they met at Coney—or the movie  
they witnessed the previous night.

When the whistle blows they dis-  
appear through the heavy bars that  
slide back and forth. Trucks  
disappear mysteriously to reappear  
upon the opposite side. Soon, far  
above the throng, higher than any  
tragic artist in a circus, a crowd  
of them suddenly appears swinging  
out on a steel girder, or poised against  
the clouds.

And now, observing the business  
in this and that, we discover that  
these humans are being turned out  
to watch the color scheme of your  
home.

In one shop I saw them in Chi-  
nese red, and in combinations of  
several colors. There are delicate  
pastel shades and glaring hues al-  
ike.

Hobbs Man Charged  
In Attack On Girl  
ROBBIE N. M., 11, charged with  
attacking a girl in the county jail at  
Lubbock, pending trial in district court, while  
the state is in charge of his little, 10-  
year-old stepdaughter, whom he is  
charged with having attacked.

Baker was arrested and arraign-  
ed before Justice J. L. Fosterman  
on a charge of assault. He was held  
without bond for the grand jury.

A capital letter can sometimes  
make a awful lot of difference, as  
without the "i" the word referred  
to the group investigating Commu-  
nist activities as the fish committee.

Now that the head of the Chinese  
National Army has offered twice  
more rewards for capturing cer-  
tain cities, you may expect his men  
to be in a hurry to talk in terms of  
their cash surrender value.

## Flapper Fanny

As soon girls see—on shall they  
up.

## EXCESSIVE GUM

IN GASOLENE  
CAUSES HIGH FUEL  
CONSUMPTION

## KOOLMOTOR GASOLENE

is  
FREE FROM  
HARMFUL  
GUM

GASOLENES that are carelessly  
refined and of inferior qual-  
ity deposit a sticky, gummy, cling-  
ing substance on your valves. This  
causes delayed seating and, in some  
cases, complete sticking of intake  
valves. Faulty valve operation al-  
lows unburned gasoline to blow  
out through the exhaust—unused  
and wasted.

Koolmotor—the original high  
test, anti-knock green gas—pro-  
tects you against this waste of fuel  
because it is free from harmful  
gum.

A special Cities Service process—  
the mini-gum process—has re-  
duced the gum content in Kool-  
motor Gasolene to a harmless mini-  
mum. It keeps your valves clean  
and free-moving—always ready to  
do their best—unburdened with  
sticky, gummy deposits.

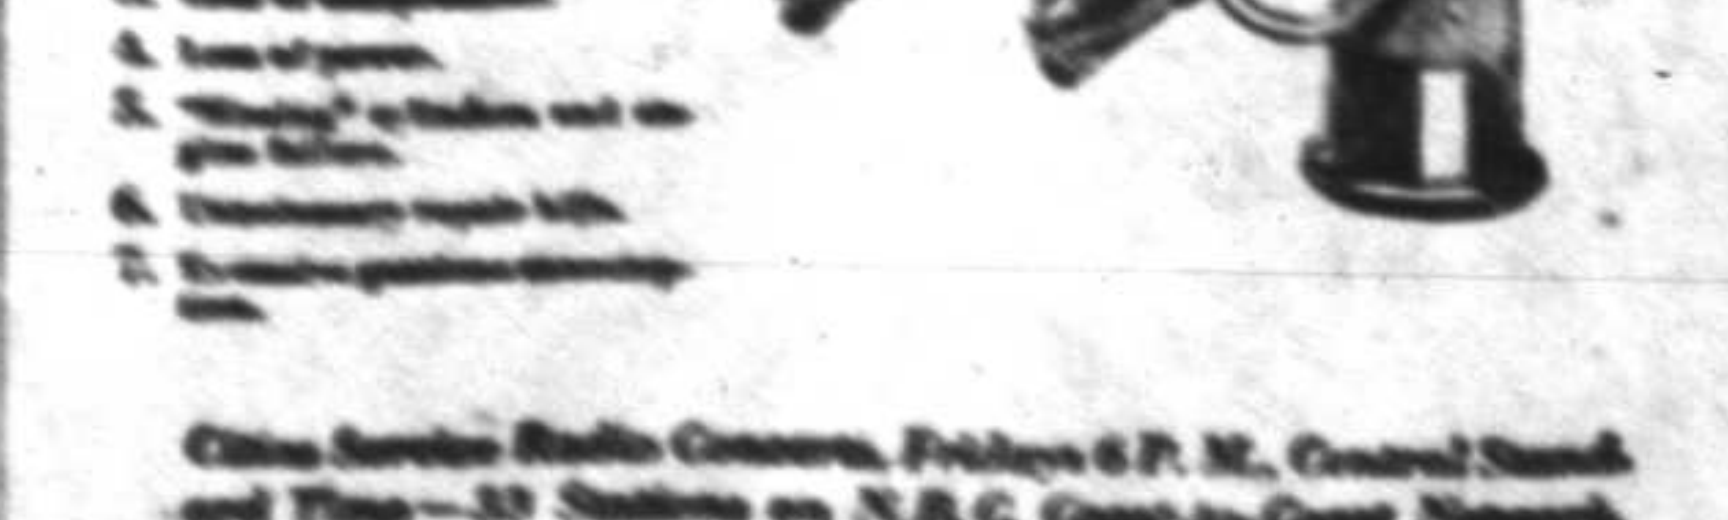

For a powerful and smooth-run-  
ning motor and full mileage from  
your gasoline, keep your tank full  
of Koolmotor—the gas that is free  
from harmful gum.

## CITIES SERVICE OILS

Now that the head of the Chinese  
National Army has offered twice  
more rewards for capturing cer-  
tain cities, you may expect his men  
to be in a hurry to talk in terms of  
their cash surrender value.

## SOUTHWEST CONFERENCE GRIDSTERS OPEN TRAINING

### IN THE REALM OF SPORTS

With Collier Parris  
Journal Sports Editor

The Texas Tech Matadors went into their second day of training for the 1930 season today. Forty-five huskies, the number "invited" back for this season, were all on hand, with the exception of about two who will arrive Sunday, and went through the morning workout with "win, vigor, and vitality."

On the sidelines out at the Tech practice field is a group of youngsters who would prove physical matches right now for Pete Cawthon's varsity. They are the Pledcor candidates, and a sweeter lineup of fish is rarely seen on a college gridiron. Coach Dutcher Smith will have his hands full when the troop starts out with the beginning of school. He plans to divide the squad, which will at first consist of more than a hundred men, into two main groups, each with equal strength, and take them one group at a time.

With his two freshmen teams, Coach Smith will play seven scheduled games this season. In order to meet the regulations of the Southwest Conference, Team A of the Pledcors will play only three games. Team B will play four. Twenty-five or thirty husky frosh have already arrived at the Tech stronghold, and are picking out equipment to store away in lockers until school starts. Football at Tech in future years has a start with this season's lineup of freshmen.

The new field house under the steel stands on the Tech field has been completed, and is this week undergoing the finishing touches of the painters. The outside and inside will be painted gray, with paint furnished, free of charge, by Joe Telford of the G. S. Shellen Lumber Company of Lubbock. The local concern donated the paint out of the willingness of its heart, and Tech officials are more than grateful for the gift. The cost for the paint would have been around \$50. Such generosity must be observed.

Out at the fair park is another group of industrious workers. Never before has a Lubbock High team been drilled with such precision and strictness as the Westerners of 1930. The gridsters are being put through the paces with as much speed and work as reason will permit, and the result will be noticeable when the high school race in District 1 settles down to a tight fight between the Westerners and Coach Henry Frick is pointing to every game with equal forethought, and does not intend to be caught napping by a dark horse. He intends to adhere to the custom of preparing especially for the most powerful teams, of which he will take the game, they come.

After counting off thirty of his most able bodied and brain-drained candidates, the Westerner mentor took to the enclosure of the fair park field and ordered the cage closed against all comers. Next workouts will be the order all the way. Assisted by Keeling, the Lubbock skipper will seek primarily to build up a line that was broken up last spring when five of the main stars of the Westerners were graduated, leaving the blanks to be filled by returning veterans or any new material that might prove worthy.

We note that among the 62 varsity football candidates applying for berths on Coach Jack McGrath's Rice Institute Ovi team is one Horace Buckingham of Lubbock. Horace will be remembered here as the regular center on the 1928 Western team, and a fair player at that. He was member of the frosh squad at Rice last fall and made a good impression with his first year's college work. He is coming out for center this fall along with three other powerful gridsters. He may not make the regular place, but is due to see some service before his sophomore year is over.

And speaking of Rice, don't count the Owls out of the Southwest Conference flag chase this season. They have never approached that goal, and with the noncommittal "bad things" were going to change for the better on the Owl grid field, 100 high school players ranging from regular letter men to stars enrolled in the Baylor City college last fall and the resulting teams may prove an upset to all the hope that has been collected.

In the ranks of the 62 candidates who reported for the Owl training camp yesterday are some of the outstanding high school stars of recent years. Among them, and battling for positions on McGrath's regular lineup, this fall are Mike McCarthy of Beaumont, Harry Conklin of Amarillo, Bob Kimbro of Cleburne, Ed Hander of Waco, (all-state center) Bill Myer of San Antonio, and Pete Burk of Houston. These are all candidates for line positions. In the backfield will be the following up from the fish teams: Seamus Squires of Cleburne, Frank Wallace of Waco, Tommy and Vic Driscoll of Houston, and Guin Connolly of Fort Worth. All of these players established high records at their respective high schools, and will give returning veterans something to worry about.

### ROBINS, CARDS WIN AS BEARS ARE BEATEN

CHICAGO LOSES 6 TO 0 AS LUQUE HURLS; GIANTS LOSE

By HUGH S. FULLERTON, JR.  
Associated Press Sports Writer

A squadron of traffic police is needed along the road to the National League pennant. All the efforts of the teams from Chicago, St. Louis, Brooklyn and New York to get the championship only have resulted in one of the greatest jams that highway ever has seen.

Yesterday's contests brought the Brooklyn Robins and St. Louis Cardinals a game closer to Chicago's league leading Cubs. The New York Giants in fourth place remained only three games behind the top. With Adolfo Luque shutting out the National League champions with five hits, the Robins made it two straight over the Cubs by a 6 to 0 count. St. Louis retained its one-point grip on second place as Jim Bottomley's eighth inning home run gave the Cards a 5 to 3 victory over the Giants.

**THE STANDINGS**

| Club      | W  | L  | Pct. | Games To |
|-----------|----|----|------|----------|
| Chicago   | 30 | 58 | .340 | 16       |
| St. Louis | 29 | 59 | 1-2  | 16       |
| Brooklyn  | 29 | 60 | 1-2  | 15       |
| New York  | 27 | 61 | 3    | 16       |

The Robins ran out of their dugout yesterday to greet Charley Root, and promptly started running around the bases. Five men faced Root and all of them hit. Then Jess Pecky came to the rescue and allowed one more blow, which brought Brooklyn's first inning total up to five runs before he cast a spell over the Robins that lasted until he left the game in the eighth inning. Then they scored their sixth run off Lynn Nelson.

**High Starts Fireworks**

The Giants and Cardinals started out for a second pitcher's battle with Fred Fitzsimmons opposed to Sylvester Johnson. The Giants forged ahead slowly, getting one run in the first, which St. Louis equalled in the third, and two more in the sixth when Frank Hoggan clouted a home run with one man on base. But his eighth inning overcame all their labor. High's single and Adams' double accounted for one tally. Then Frisch hit and Bottomley smacked the ball against the upper deck of the stand for a home run and the ball game.

Tom Zachary's four hit pitching and Wally Berger's 34th home run gave the Boston Braves a 5 to 0 triumph over the Pittsburgh Pirates, while steady and timely hitting by the Phillies enabled them to defeat Cincinnati.

**Washington Falls**

Washington failed to take advantage of an opportunity to tighten up the American League pennant chase. It lost to St. Louis 3 to 2 although Alvin Chouder gave his former mates only four hits.

Washington remained 6 1-2 games behind the Philadelphia Athletics, who were not successful with their four blows off Vic Sorrell. They failed to score while the Detroit Tigers bunched a good part of their five hits off Shores and Walberg for four runs in the fourth inning and won by that margin. A home run with two aboard by recruit Frank Doljak furnished most of the scoring.

Danny MacFayden of Boston was not far behind in the day's hurling feats as he gave the Chicago White Sox only six hits while the Red Sox hammered out a 6 to 2 victory. Henry Johnson of New York had the honor of outpitching Wesley Ferrell, Cleveland's young ace, to give the Yankees their second straight triumph over the Indians 7 to 2, and to enable them to hold their mathematical chance of capturing the flag.

### Southern Loop Not To See Much Shift

ATLANTA, Ga., Sept. 11 (AP)—The Southern association draws to a close this week and if the games continue to come out as they have lately, there is not likely to be much change between the standing of any of the clubs.

The Little Rock Travelers lost to New Orleans yesterday, 8 to 5, while Nashville was trimming Atlanta, 3 to 2. If the Travelers had won they would have stood only a half game from a first division hold over to the Crackers' loss and if Atlanta had won the Dobsboms would have been only a game and a half from the third place Birmingham Barons, who were forced to postpone their game with Chattanooga yesterday on account of rain.

Memphis won the first game of their series with Mobile 10 to 2, but the Bears put over a big inning in the nightcap which netted five runs and gave them a nose out, 5 to 4. The leading Chicks have already won the pennant and New Orleans has a lead which should bring them through with the second place honors without any trouble.

### Independence Wins Western Loop Flag

INDEPENDENCE, Kas., Sept. 11 (AP)—Independence won the Western association championship here last night by defeating Joplin 10 to 3, after winning from the Miners yesterday afternoon, 10 to 4.

### HE BLANKS CHICAGO'S TOUTED CUBS

Adolfo Luque, 41-year-old Cuban right-hander, puzzled Chicago's Cubs yesterday to put the Brooklyn Robins closer in the running for the National League gonfalon. The champions got only five safeties off the offerings of the Flatbush veteran.

ADOLFO LUQUE

### SPUDDER SIEGE GUNS BATTER MCCABE FOR VICTORY; WICHITA FALLS LOOKS TO PENNANT AS SECOND GAME BEGINS

**BUFF PITCHERS JOIN CARDS**

**DIZZY DEAN, KAUFMAN MOVE UP; KID STAR DRAWS PRAISE**

ST. LOUIS, Sept. 11 (AP)—Out in front as the result of Walter Johnson's well pitched victory in yesterday's opener when he held Port Worth to nine scattered hits and beat them 6 to 2, the Wichita Falls Spudders were brimming with confidence as they prepared to meet the Cats in the second game of the Texas league playoff today.

Mike Steingrabe, second ranking ace of the Spud mound corps, was regarded as the logical choice to face the visitors in the second tilt, while Manager Frank Snyder, of the Cats, was expected to pin his faith on Lil Stoner in an effort to square the series. Another victory today would give the Spudders an almost unbeatable advantage in the five-game series. After today's bout the teams will move to Fort Worth where the series will be resumed Saturday.

**McCabe Loses Jinx**

Dick McCabe, who licked the Spuds in all three starts against them during the regular season, lost his rabbit's foot yesterday. For five innings the Cat star matched Spudders for pitch, but in the sixth the Spudders fell all over him and drove him from the hill. Five heavy hits, including homers by Stoner and Burns and a triple by Bettencourt, scored four runs in the eventual frame before "Red" Roberts could be sent to the rescue.

Witte was in rare form all the way. In each of two innings, the fourth and sixth, the Cats bunched three singles to score, but their other three hits were widely spaced. In the third Witte fanned all three batters to face him, and in the ninth whiffed Gribble, a pinch hitter.

Storti, with his homerun and two singles, and Jim Levey, with three big singles, were big guns in the winners offense.

Experiments in farm erosion are an attempt to halt soil erosion are being tried near Troy, Kans.

### RIVAL GRIDMEN HUSTLE UNDER BURNING SUN

NO TIME IS LOST AS COACHES SEE FIRST DAY'S TURNOUT

(By The Associated Press)

If pre-season workouts could be taken as an index of the future, the Southwest conference pigskin today had the prospect of a hectic career in the tussle between the seven conference contenders.

Almost without exception the teams plunged yesterday into stiff work-outs several of them starting off with signal drills, tackling and passes.

**Ponies Start Strong**

Coach Ray Morrison, of Southern Methodist university, lost no time getting down to business, after a selected squad of 50 players reported to training camp. Within 15 minutes after roll call, the Mustangs were hard at work, running plays against a set of dummies suspended from wires in the positions of an opposing team. The Ponies have a hard season, ahead with games scheduled against the United States Naval academy, Notre Dame and Indiana.

Disregarding usual preliminary training, Coach Malt Bell sent 35 Texas Aggie grid candidates through the first signal drills of the season at College Station.

**Bears Are Back**

Every member of the Baylor football squad reported for duty at the first call, at Waco, and quite evidently, the thing uppermost in the minds of the fifty youngsters was the game October 4 against Purdue university.

Attired in track togs, 65 aspiring Rice Institute candidates at Houston went through two practice periods. The squad was the largest and regarded as the most promising in Rice's football history.

Thirty-five men reported to Coach Thomas nat Fayetteville yesterday to start the training season at the University of Arkansas. Four letter-men and a number of last year's varsity and sophomore reserves were not there for the initial roll call but were expected before the end of the week.

**Cochran Leads His Billiards Opponent**

CHICAGO, Sept. 11 (AP)—Walter Cochran, famous in 18.2 ball game, today had a 10-point lead over Allen Hall of Chicago, after two blocks of their 300-point special match.

Cochran started poorly yesterday but finished well to take the opening block 50 to 45, in 50 minutes. He won the evening block by the same score in 48 minutes.

**FIGHTS LAST NIGHT**

(By The Associated Press)

**POUGHKEEPSIE, N. Y.**—Jack Renault, New York, outpointed Salvatore Ruggierio, Italy, 10, Greco Colonnate, Italy, knocked out Jack Goodwin, Kansas City, (3).

**KENYON, O.**—Joe Lohman, Toledo, outpointed Frankie Wine, Butte, Mont., (10). Jack Rose, Akron, and K. O. Pitts, West Virginia, drew, (10).

**PEORIA, Ill.**—Benny Bass, Philadelphia, junior lightweight champion, lost on foul to Tommy Celis, San Francisco, (2).

### CUB LOSS SWAMPS 'PHONE EXCHANGE

NEWSPAPER STORY OF SUPPORT PLANS SENDS FANS TO PHONE BOOTHS IN CHICAGO

CHICAGO, Sept. 11 (AP)—The defeat by Brooklyn of the Chicago Cubs yesterday in the nerve-racking National League pennant race precipitated the Superior exchange of the Chicago telephone system into one of the worst tangles of its experience last night.

The reason was a notice appearing in the early editions of the Tribune, announcing that a telegram of encouragement was to be sent to Manager Joe McCarthy and members of the Cubs team, and inviting supporters of the club to telephone if they desired their name signed.

A few moments after the paper had reached the street, the phone calls began pouring into the Tribune office. An hour later the Superior exchange was reported 15 minutes behind on incoming calls. Later an official of the company telephoned to inquire if there had been a great catastrophe.

"Every exchange in the city is swamped," he said. "What's the trouble?"

When it was explained to him, he said, "That's all right. Put my name down."

Many persons, unable to get telephone calls through, sent their names by telegraph, and some carried lists of names to the Tribune office personally.

Referee Winner Over Fighter!

OKANOGAN, Wash., Sept. 11.—Jimmy Downey, boxer, was having difficulty in connecting with his opponent's chin here last night so he shut his eyes and whanged away hopefully. None of the potential haymakers landed on the opponent, Cotton Bryant, but one of them caught Bryant, but one of them caught Bryant.

Pitts forgot all about refereeing and sent a stinging left to Jimmy's chin and a neat right cross to top it off. Jimmy went down for the count.

### CITY FOOTBALL TEAMS SWING TO ACTION

MATADOR COACHES ARE PLEASED WITH FIRST TURNOUT OF YEAR

(By The Associated Press)

With ten letter men back for their old positions, four or five veterans returning to seek regular places, and a number of candidates coming up from the freshman squad of 1929, Texas Tech football coaches steered the Matadors through the first day of training preparation for the 1930 season yesterday and appeared pleased with the result.

In an attempt to begin where he left off last spring at the close of the post season training period, Coach Pete Cawthon started in the fall training season with strenuous workouts, with the idea of whipping the men into shape as early as possible. Yesterday morning more than forty candidates were on the field.

## DAILY MARKETS

## Stock Market

WALL STREET REPORT  
NEW YORK, Sept. 11 (AP)—Selling of high priced stocks, coupled with liquidation by the bear faction, sent quotations drifting lower in the early hours of trading today, although the downward movement was occasionally interrupted by buying of merchandise, food and utility issues.

An effort was made to attract a speculative following in Radio, which pushed across 43 to the highest price in more than a month, prices throughout the list ranged from one to two points either way.

Losses of two to four points developed in Case, Allied Chemical, Auburn Auto, Diamond Match, American Water Works, and Pacific Lighting. New York Central, U. S. Steel, Johns-Manville, Westinghouse Electric, Du Pont and American Telephone lacked support.

Call money returned at 21-2 percent.

Grain

CHICAGO REPORT  
CHICAGO, Sept. 11 (AP)—Buck selling by commission houses and Chicago traders forced the March and May deliveries of wheat down almost 2 cents a bushel to new low levels of the season at the start of trading today. A bearish construction placed on the United States and Canadian official government crop reports issued yesterday after the close caused the decline. All deliveries were sharply lower. Corn also was decidedly lower because the government report suggested a larger crop than the trade expected.

Opening 11-4c lower than yesterday's finish, wheat declined still more, but the downward movement was checked and prices continued steady at the new levels. Corn started 13-8 to 21-4 down, sagged a little further and then rested.

Wheat closed weak at 13-8 to 15-4c net lower than yesterday's finish, corn closed unsettled, 13-8 to 21-4.

Approximately 60 miles north of Big Spring, in Lubbock, approximately at the intersection of the 10th and 11th streets, a large number of people were gathered today to witness the burning of a large pile of old and worn clothing.

The pile, which was estimated to contain about 10,000 pounds of old and worn clothing, was burned by the city of Lubbock as part of a campaign to clean up the city and to prevent the spread of disease.

The burning was witnessed by a large number of people, who gathered in the street to see the pile of old and worn clothing being burned.

The burning was a success, and the pile of old and worn clothing was completely destroyed.

The burning was a success, and the pile of old and worn clothing was completely destroyed.

CHICAGO STORE MAN IS SLAIN BY BANDITS

HEARTLESS MURDER IS HUNG UP IN WINDY CITY HOLD-UP

(By The Associated Press)  
CHICAGO, Sept. 11.—A murder, heartless and unprovoked, was committed late last night in the drug store of Willis Fiddelde, the 40-year-old proprietor.

Fiddelde was shot dead as he lay face down on the floor.

"You've only got 44c, and that ain't enough," the killer said, jabbing the muzzle of his pistol into the drugist's back, between the shoulders, and pulling the trigger.

Two customers, held at bay in another room by an accomplice of the gunman, heard him say: "I croaked him all right. Let's get out of here."

The robbers had compelled Fiddelde to go to a rear room and lie face down. They complained at only finding 44c, but Fiddelde explained it had been a poor day and that was all he had.

TECH JOBS

Continued From Page One

year, he explained.

The committee appointed to see employment for the boys are: J. A. Rix, L. B. Sionker and Pete Calkins; C. E. Maedgen, H. D. Woods, J. Bryan Miller and W. L. G. Lightly; Dr. G. J. Wagner, Walter Myrick, Jr., G. C. Stumacher and Del Morgan; Dr. V. V. Clark, Spencer Wells, Mayor J. J. Clements and Russell Smith.

Santa Fe's Lions Are City Problem

SANTA FE, N. M., Sept. 11 (AP)—The lion situation in Santa Fe is almost out of hand.

The population is disturbed by new anxieties when it learned that Queenie and Duke, two lions left here by a circus in lieu of a \$200 unpaid bill, were rapidly running up a meat bill which threatens to overtake the circus debt.

But when Mayor Jim McCordery received a telephone message from a woman "the lions cried all night last night," the city administration as well as the humane society and residents within hearing of the lions' cage began to regard the two animals as a crying city problem.

GOP's Seek Three State Candidates

DALLAS, Sept. 11 (AP)—The Republican State Executive committee faced today the necessity of naming three candidates for state offices on the party ticket, because of the withdrawal of three candidates.

They were Mike H. Thomas, of Dallas, candidate for lieutenant governor; George S. Atkinson, of Dallas, for attorney general; and L. J. Benckenstein, of Beaumont, for railroad commissioner.

Thomas withdrew for business reasons and the others because they were members of the executive committee.

Convicts Await The Chair At Huntsville

HUNTSVILLE, Sept. 11 (AP)—Silent in their cells at the penitentiary today, 140 of Texas' convicted murderers, awaiting execution early Friday, are convicted of killing a white woman at her farm home near Shamrock, Texas.

LENINGRAD (AP)—An All-Union pedagogical exhibition has been opened here, illustrating the work of the Soviet schools. A special foreign department includes exhibits from America, France, Italy, Japan and Great Britain.

TEXAN IS HONORED

DALLAS, Sept. 11 (AP)—Word was received here today that Walter D. Adams of Fort Worth, Dallas county, had been elected president of the American Pharmaceutical association for the term of 1931-32, according to a count of mail ballots made at Baltimore, Md., by the association's board of canvassers.

The largest building has its own chamber of commerce.

RADIO TO TEACH ARMY OFFICERS

FORT LEAVENWORTH, Kas., Sept. 11 (AP)—Several hundred army officers unable to converse in Spanish are to take a daily course by radio.

Quarters of all officers now serving as two year students in the command and general staff school here have been fitted with radio loud speakers. The speakers are connected with a central receiving set.

Each day an instructor will give a half hour Spanish lesson over the loud-speakers. Student officers have been ordered to listen.

CONVICT CAPTURED

HUNTSVILLE, Sept. 11 (AP)—Notified of the arrest of Harry Lee Watson in Springfield, Mo., the warden's office of the Texas State penitentiary expressed belief today that Watson was the man who had escaped from the prison here, shooting two guards in the second break.

PIPE LINES CARRY 34,000 BARRELS OF OIL DAILY OUT OF HOBSBS FIELD; POTENTIAL PRODUCTION IS 415,535

HOBSBS, N. M., Sept. 11 (AP)—Special—The three pipe lines now serving the Hobbs field, the Atlantic, Empire and Shell, are carrying nearly 34,000 barrels of oil daily out of the field.

Potential production of the field is estimated at 415,535, an increase of about 130,000 barrels from August 15 when the potential was 285,535.

## 1930 Mona Lisa

Striking resemblance of this picture of Mona Lisa, of Springfield, Ill., and the famous Mona Lisa painting by Leonardo da Vinci has interested art lovers. The painting of the 15th century Italian beauty is rated by critics as the masterpiece of portrait work.

U. S. SENATE

(Continued from Page One)

Massachusetts, Calif., West Virginia, Colorado, Maine, Pennsylvania, Colorado, and Sullivan, Wyoming, Senator Brock, Democrat, Tennessee, also will retire but he is running for election to complete the short unexpired term of the late Senator Tyson.

Robinson Wins

Among prominent Senators who have beaten down opposition are Robinson of Arkansas, the minority leader; Norris of Nebraska, Republican independent; Cramer, Republican, Michigan, and Sheppard, Democrat, Texas. Senator Borah, Republican, Idaho, is up for reelection this year but he has encountered no difficulties.

Whether the Republicans or Democrats will control the next Senate is still to be determined in the forthcoming election, the Republicans now have 36 of the 96 members, the Democrats 39 and the Farmer-Labor one.

Of the Senate seats involved in the election this year, 22 are held by Republicans and 12 by Democrats. Thus the odds are against the Republicans but whether the Democrats can overturn sufficient incumbents to get the majority is problematical. They are making the claim only of a "fifty-fifty" chance.

GIVEN SCHOLARSHIPS

DALLAS, Sept. 11 (AP)—Miss Marie Fletcher of the Old Pioneer home for children at Canandaigua, today was awarded the Elizabeth Flag scholarship by the Bonnie Blue Flag chapter, United Daughters of the Confederacy. The scholarship is given by the chapter each year to a high school graduate who is a direct descendant of a Confederate veteran and who would not be able to obtain further education without benefit of the scholarship.

FLEDGE IS MADE

In seeking and finally obtaining the 131st convention of the West Texas chamber, Lubbock pledged 90 members and local directors are anxious that this pledge be fulfilled.

Those participating in the drive include: R. J. Murray, Tom A. Wilson, J. J. Clements, G. R. Kennedy, J. H. Hankins, Dr. Paul W. Horn, Dr. W. A. Jackson, Clark M. Mullican, Dr. S. S. McKay, Carl D. Brandt, F. R. Friend, Dick Smith, L. C. Ellis, Frances Baker, Roy Ridge, W. W. Read, Sam C. Arnett, Chas. Read, H. D. Woods, W. R. Fickas, D. Jarrett, W. O. Daniels, M. B. Hillman, R. F. Humphries, E. C. Healey, S. C. Wilson, Neil H. Wright, Chas. Whitacre, Luther Rymon, C. E. Hunt and L. G. Montgomery.

FLIER IS KILLED

RIVERSIDE, Cal., Sept. 10 (AP)—Second Lieutenant W. R. Casey of Rockwell field, San Diego, was killed in an airplane mishap near March field today.

Casey, flying with two other planes, lost control when the wing of another ship hit his. He "balled out" at six hundred feet elevation, but his parachute failed to open in time.

Each day an instructor will give a half hour Spanish lesson over the loud-speakers. Student officers have been ordered to listen.

CONVICT CAPTURED

HUNTSVILLE, Sept. 11 (AP)—Notified of the arrest of Harry Lee Watson in Springfield, Mo., the warden's office of the Texas State penitentiary expressed belief today that Watson was the man who had escaped from the prison here, shooting two guards in the second break.

PIPE LINES CARRY 34,000 BARRELS OF OIL DAILY OUT OF HOBSBS FIELD; POTENTIAL PRODUCTION IS 415,535

HOBSBS, N. M., Sept. 11 (AP)—Special—The three pipe lines now serving the Hobbs field, the Atlantic, Empire and Shell, are carrying nearly 34,000 barrels of oil daily out of the field.

Potential production of the field is estimated at 415,535, an increase of about 130,000 barrels from August 15 when the potential was 285,535.
