## Sick To Death

(EDITOR'S NOTE: The following address was delivered at the Oak Cliff Lions Club at a regular noon meeting on Wednesday, June 12, 1968, by the outgoing president, David R. Braden. The Oak Cliff Lions Club, with its 435 members, is the second largest Lions Club in the United States.)

Last week as we met to have our Installation Party - a man assumed a station in a kitchen corridor in L.A. - Later that evening he shot and killed a United States Senator - Robert Kennedy - a candidate for the Presidency of this nation.

The next day, as I contemplated this tragic and horrible event, it occurred to me that while spending a pleasant and amusing evening, I had done little then (or in this year for that matter) that you could wrap some serious thought around - I have left that to the guest speakers at this rostrum.

Blackie Sherrod, of the Dallas Times Herald, pointed out in his column of Monday evening that it is time for all those who have a podium to use it; be it a service club, or a sign on the back of a city bus. For two more weeks - this is my soap box, and today I shall use it in a serious vein!

I speak to you as the forum of common men everywhere - and as a representative.

All America has been told this past week - over and over again - that we are a sick society.

Gentlemen, I propose to you that I AM sick - maybe you are sick too.

I AM SICK TO DEATH OF BEING TOLD I AM SICK: By Government officials who will not enforce law . . . By politicians who dance to the tune of minority groups . . . By those in the pulpit and on the college lecture platform who use their office to project the socialist creed of radicals . . .

I AM SICK TO DEATH OF BEING TOLD I AM SICK: . . . By idealistic aggressive news reporters and evaluators (of whatever media), who have the audacity to tell me I should believe whatever they believe - knowing I have no vehicle to publicly voice my disagreement.

I AM SICK OF BEING TOLD I AM SICK: . . . By foppish entertainers draped in Nehru Jackets, feminine necklaces, and a cloak of pseudo intellectualism.

I am sick of cynical attitudes toward patriotism and our American institutions.

I am sick of sacrificing the cream of American manhood in political wars we are not fighting to win . . .

I am sick of the decline in integrity and personal honor in this nation . . .

I am sick of the permissive attitude, laxity, and tolerance to pressure groups and the criminal element that is bringing this nation to its knees in lawlessness . . .

I am sick of seeing law enforcement agencies and the law of this nation emasculated by a supreme court and administrators who make their personal creeds the law of the land . . .

I am sick of not being able to take my family to a movie because it is loaded with extraneous offensive matter whose only purpose is to shock . . .

I am sick of seeing the same phrases in the popular literature of the day that I see scrawled on the walls of public toilets . . .

I am sick of so called educators and leaders too weak kneed themselves to understand the value of discipline in the character of a man . . .

I am sick of a congress which legislates out of emotionalism rather than reason, thereby taking away the rights of all . . .

I am sick of being told I am sick with violence because of assassinations by mentally deranged men, fed on a steady diet of violence and perversion by the national periodicals, press, television and movies - all condoned - even aided - by courts which permit license in the name of freedom . . .

I am sick of riots, or marches, and those who force themselves and their ideologies down my throat without qualification . . .

I am sick of those who say I owe them everything, because of the sins of my forefathers, when I have looked down both ends of a machine gun barrel to defend them and their right to be here . . .

Take note gentlemen in high places - you will not see me in the streets with a placard or a gun - you will hear the thunder of the common man at the polling place - casting a vote for . . . LIBERTY - INTELLIGENCE - OUR NATIONS SAFETY . . .

ABERNATHY TEAMS IN TOURNAMENTS (By Bob Scott)

Three Abernathy teams are scheduled for tournaments two of which are Texas Teenagers Baseball playoffs. The Abernathy Teenagers were chosen for an invitational tournament in Post and played their first game Saturday with Hale Center. Hale Center won 7 to 2. The tournament is a double elimination tournament so the teenagers are still in and will play Plainview Tuesday at 6:30. Our teenagers are through with regular season games and finished with a 2-10 record. The teens have been in a building year and will be much stronger next year.

The Abernathy Ponies wound up their regular season with a 6-8 record. This week they beat Dalou 15 to 5 and lost to New Deal 8 to 10. They also are in a building year although they have a lot of good material that will move into the teenagers league next year.

Coach Bobby Cuevas attended at Regional meeting at Floydada Sunday afternoon. He reported that he will play his first tournament game Thursday at 8:30. The Giants have their work cut out for them as they must win three consecutive days to take the tournament trophy and then if they do win the Giants will have only one day to prepare for the state tournament at Monahan. The Giants played a practice game with the Ponies Thursday. The more experienced Ponies took an easy win but the Giants hit and fielded fairly well. Monday the Giants will go to New Deal for a practice game at 7:30.

The Red Sox will travel to Fort Worth for their tournament. The details of this tournament will follow in a later issue of The Review.

The Red Sox will play the Floydada All Stars at Floydada Thursday at 6:00. President Curtis Davenport asked to express his appreciation for the support everyone has given to the baseball program this season. The attendance was very good at both fields and the concessions did very well. Our thanks also goes to the volunteer workers in the concession stands and to the coaches and their assistants. Follow the teams to the tournaments if you can and if not let the boys know that our team will be rooting for them as they represent the Abernathy Baseball Leagues.

## READ AND HEED CHEMICAL LABELS

Mishaps with agricultural chemicals—which are highly toxic and can be dangerous—usually do not occur when directions on the container label are strictly followed, the Texas Safety Association says. Proper use, careful storage and disposal are equally important, especially to insure the safety of children and animals around farms.

"What ARE debits and credits?"

Maybe you think they're just bookkeeping terms... but they're an important part of our efficient system of keeping your money safe? Of course, we think "CREDIT" is the more important word, too... like when we CREDIT your savings account with generous interest earnings; or when we establish a line of CREDIT for you, with loans or money for your business or farm! See us now and find out how we can serve YOU... from debits to credits!

## TALK IN PRINT

-tip- Obtaining industry for Abernathy is upmost in the minds of those who have a desire to see the community grow and prosper. We may have two potentials, the Gee-Haw Whimpy Diddle and the hoe.

The Gee-Haw Whimpy Diddle sells for about \$1.25, if you can find one in a store. The improved hoe for weed chopping sells for slightly more.

No, I'm not kidding. There's such a product as a Gee-Haw Whimpy Diddle, and it has been produced by Lacy Terrell, County Line repair shop man, for the past few years. Terrell also has perfected a hoe that does a good job with less dirt-drag.

The weed-chopping hoe has had wide acceptance at County Line and through an outlet in Lubbock.

Promotion could help sell the Gee-Haw Whimpy Diddle, a little puzzler that intrigues both children and grownups. Promotional help and encouragement might start Lacy on a larger volume of production of the two items.

-tip- We let such an opportunity pass for a number of years when the late John Duty was building new machines, tools, units, attachments, etc. for agriculture use.

-tip- Abernathy has another resident with great ability along the lines in which John Duty showed such great skill. His present employment might prevent his doing that work here on an individual, commercial basis but, he may retire in the near future and might be available to direct projects that would grow into a local industry.

-tip- Encouragement should be extended Herbert Rapsine, who is building the Coach tractor cab in Abernathy.

-tip-

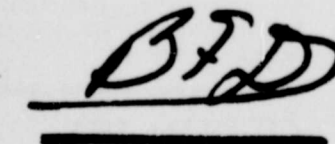

The Democrats and Republicans had better start "fanning scared" against the man from Alabama, George C. Wallace. The major parties are vastly underestimating his appeal to those who would like to see a complete about-face in the direction our National Government is going. Gov. Ronald Reagan is the only potential candidate in either of the major parties that would come near making the changes that many Americans want. Even Reagan might not be able to make the changes, considering the outside chance he has of being nominated in Miami, the liberal Republicans would hang a campaign platform around his neck that would tie his hands in promising a real change.

-tip-

How do you plan to vote? brought this response from a local man who was a staunch supporter of LBJ in 1964, "Wallace" and from a local man who usually votes Republican in national politics, "I may vote for Wallace."

-tip-

"Sick To Death," text of a speech delivered by outgoing Oak Cliff Lions Club President David R. Braden, is being printed and re-printed in Texas newspapers. We seldom "beg" our subscribers to read anything, but this is an exception. Please, please read "Sick To Death."

Happytime Kindergarten, sponsored by the First Baptist Church, will begin classes Sept. 3, 1968, in the educational building of the church. This program is designed for the express purpose of aiding the students to do better work when they enter public school. The children will be taught to develop basic skills and social behavior by games, exercises, toys and simple handicraft. One of the major aims of this kindergarten is to aid the children who must cross the language barrier. This is the major reason for children having to repeat the first grade in public school.

Jerry Adams, Missions Committee Chairman, requests that those in the community who know of children who would benefit from this kindergarten would please make arrangements for their enrollment.

Mrs. Rael Sepeda and Mrs. Jerry Adams will again be teaching. Classes will be from 8:30 - 11:30 a. m., Monday-Friday. Children must be five years old before Sept. 1, 1968. ## Field Day Activities Are Announced For Sept. 12

Twelfth Annual Field Day of the High Plains Research Foundation will be held September 12 at the Foundation Research Farm at Halfway.

Dr. Tom Longnecker, Director and Executive Vice - President, in announcing the date, said, "The second Thursday in September has long been established as the date for our Annual Field Days."

Five of the Commodity Committees of the Board of Trustees are planning to have exhibits of plants and products of each commodity. These exhibits will be located in the farm shop. Seed Production Laboratory and the 29-Saw Laboratory Gin. Throughout the afternoon, members of the committee concerned, plus others invited to assist who are interested in the agricultural production displayed, will be hosts for the exhibits. Plants, products, treatments and equipment used for each of the several phases of agricultural research will be shown.

### Field Tours

Field tours of the Research Farm featuring studies underway at the Foundation will start at 1 p. m. and continue until 4:45 p. m. Guides for each

large truck will be professional agricultural personnel.

Another feature of the Field Days is the display of farm equipment and supplies. The various manufacturing firms supply the display and have representatives on hand to explain and demonstrate. The firms are allotted space on the grounds of the Halfway community Building on the basis of first reservations being received being given priority on sites for their equipment or product.

The display of activities and programs of the various governmental agricultural services is a feature of the Field Days. Included are: Farm Home Administration, Extension Division Soil Conservation Services, Tri-County Weed Control and Home Demonstration Services.

### Evening Program

The evening program will start at 5 p. m. An outstanding Agricultural speaker is a feature of the evening program. Attendance prizes will be drawn using names of those who register. Another drawing will be held for current members of the Research Foundation.

Dr. Longnecker stated that the attendance for the last several years has numbered from 3,500 to 8,000. "We are expect-

ing a large attendance this year as there are some new and interesting research results to be shown," he stated.

### FARM FIREARM ACCIDENTS UP

Firearm fatalities on Texas farms last year increased 55 percent. The Texas Safety Association says farm residents can stop this alarming trend by seeing that all members of the farm family, gun-users and non-users, know how to handle firearms safely.

### PONDER THIS!

The famed—but fictional—Ponderosa Ranch of the "Bonanza" TV series is perhaps one of the most photographed (and photographed) ranches in the West.

The Ponderosa has now become a reality on the North Shore at Lake Tahoe, Nevada, in the same location bounded by the ranch map on the TV show. And it is open to the public. The Ponderosa at Incline Village expects more than 300,000 visitors this summer.
