Council To Meet Tomorrow

$225,000 Needed For Water System Work

The City Council of Colorado City will meet in special session Monday night to hear a report on a study by an engineering firm of Colorado City's water system.

The study has been underway for about three months by Parkhill, Smith and Cooper of Lubbock. The firm has been serving engineering needs of the city's water system since 1961.

Bennett Reaves is to deliver the report. The report was to have been made in October but the study was only recently completed.

City Manager J. A. Sadler Jr. said the firm found nothing drastically wrong with the city's water system and did not recommend that the city's water filtration plant be enlarged.

One of the reasons the council asked for the report was that members of the council believed the filtration plant needed to be enlarged to increase its capacity during peak use periods during the summer months.

The report, according to Sadler, calls for work on the city's water system that will cost an estimated $225,000. The report points out that the work can be done in stages over a period of time.

One of the recommendations of the report is that the city's water towers be cleaned out and reworked. This item has already been planned for by the council as it is scheduled to be done in January and February with funds coming out of revenue sharing monies.

The bulk of the recommendations contained in the report concern the water filtration plant, replacing outdated equipment and installation of new metering devices to insure continued proper treatment of the city's water.

The council is also expected to discuss possible ways to finance a new pipeline under the Highway 80 bridge. The existing pipe now has over 100 patches on it and some members of the council don't think the existing pipe can make it through the winter.

Replacing the pipe is expected to cost some $20,000.

Receiving the report is the only item on the agenda for Monday's meeting. The council had been scheduled to meet to interview applicants for city manager but because the city has only three applicants, the deadline for application was postponed from Nov. 22 until Dec. 10.

Two Men Serve Jail Sentences

Two Colorado City men who were arrested recently and charged with misdemeanor possession of marijuana were tried in county court November 22 and sentenced.

Sentenced to 30 days in jail and $42 court costs was Jamie Lee Green (Mayes). County Judge Bill Carter said that Green would also stay out the court costs, lengthening his time in jail to 46 days. He also had probation revoked in Sweetwater as a result of misdemeanor conviction.

Also sentenced was Gordon Ray Jones, sentenced to 90 days but probated to six months. Jones was also fined $50 and paid $44 in court costs.

Cotton Harvest Begins Slowly

Gins in Mitchell County have already ginned 462 bales of cotton even though the first freeze was late in coming.

Some of the cotton is not from Mitchell County fields and almost all of it was stripped from cotton acreage that had been defoliated about a month ago.

Most gin personnel said that they expect a lot to come in this week since last Monday's freeze was hard enough to strip leaves from the plants. Friday morning's temperatures dropped into the low 20's, claiming any foliage left over.

The tally from county gins follows:

Buford Co-op Gin 111 bales.

China Grove Co-op Gin, 101 bales.

Farmers Gin in Colorado City, 47 bales.

Loraine Co-op Gin, 113 bales.

Planters Gin in Westbrook, no bales ginned but ready and waiting.

Producers Co-op Gin in Colorado City, 90 bales.

Broughton Gin in Colorado City and Mitchell County Gin in Loraine not yet ginning.

Happy Winner

Velma Bender was the $25 winner in last week's drawing for Santa's Dollars, claiming the cash prize by taking the winning ticket stub to the Chamber of Commerce office before 5 p.m. Wednesday. She barely made the deadline, getting to the office about 4 with the winning number and going to Cowen's Shoes to claim the $25 cash from Eli Rivera, chairman of the Merchant's Committee. Another drawing was held yesterday afternoon at 3 on City National Bank parking lot.

New Manager

Mrs. Margaret Oyler was recently hired as manager of the Civic Center, taking the place left vacant by Gwen Wistrand's resignation. Mrs. Oyler was employed by Texas Electric Service Company before her retirement early this year. She is pictured in her new office in the Civic Center.

Formal Opening

Colorado City Mayor C. C. (Mike) Burt, left, and Ray Anne Carlock, right, hold the ribbon for the formal ribbon-cutting ceremony opening Iron Star Potters' Gallery. Mrs. Dale Creighton, who operates the city's newest industry with her husband, Bob, was assisted in the ribbon cutting ceremony by Chamber of Commerce president Bobby Lemons. A large crowd attended the open house at the pottery factory Friday and Saturday, some buying Christmas gifts of the handerafted stoneware from the Gallery and touring the inner factory where Creighton had exhibits showing the pottery-making process. The three potters, Tom Gardner, Mary Sue Rightmire and Pete Goubeaud, were also on hand to greet visitors.

'Get A License' Advises Aston

A $5 Trapper's License is required for anyone taking pelts of furbearing animals, said Game Warden Ronnie Aston.

The list of animals includes badger, beaver, fox, mink, muskrat, opossum, otter, racoon, ringtail cat, skunk (polecat) and wild civet. Coyotes and bobcats can be killed without a license anytime of the year, Aston said, but the designated furbearing animals can only be taken in December and January for sale.

Aston also warned that the regulations are strict about taking the pelts at another time, then selling them during the months of December and January.

He said that a license is required regardless of the means of taking the animals, whether with traps or hunting. The requirement also includes persons of any age and on their own property.

Aston warned that it is a violation for anyone to shoot an animal from a public road and anyone doing so is subject to a fine of from $50 to $200. Anyone taking pelts without a Trapper's License is also subject to fine of from $50 to $200.

To get a Trapper's License, send name, address, age, date of birth, height and weight and color of eyes and hair to: Texas Parks and Wildlife Department, 279 North Willis, Abilene, Texas 79603, making checks payable to Special Trust Account, Attention License Division.

Aston also said that there are no more doe tags available for Mitchell County landowners.

Alcohol Institute Holds Seminar At Texas Western College

The Institute of Alcohol Studies held a seminar entitled "Operation Threshold," November 23 at Western Texas College, for the four-county area of Scurry, Mitchell, Kent and Fisher.

Highlights of the seminar included a talk by Dr. H. H. Hamilton, staff physician MH--MR Center, Abilene Area, who spoke on damage to the body by alcohol and drugs.

Jack White Department of Public Safety representative, spoke on "Decriminalization of Public Intoxication" and Senate Bill No. 2, which is to be introduced in the January session. His main emphasis was on two of the three privisions of S.B. 2, which are:

1. Reducing charge and penalties for public intoxication.
2. Changing DWI laws to provide for a classification of driving while impaired for 0.07 to 0.09 blood-alcohol test.
3. Providing for medical diagnostic tests in all cases of DWI and public intoxication, in case of diabetic shock, etc.

Shelby Parnell, coordinator of Alcoholism Outreach Service, Big Spring State Hospital, spoke on "Community Involvement in the Problem of Alcohol." Among the statistics cited by Parnell are:

1. 86,000 persons die annually from acute alcoholism poisoning.

He pointed out that every person should interest themselves in the drug and alcohol problems. Alcoholism rates next to heart desease and cancer in deaths each year. Each individual should contact state legislators concerning S.B.2.

Other issues were discussed, including a session for approximately 30 high school and college students.

A DWI school will be established at Snyder, starting in January 1975. A simtlar school will be started at Colorado City, shortly thereafter. Volunteers are needed for the four-county committee, the executive committee and the DWI school. Interested persons should contact County Judge Bill Carter.

THE PROBLEM IS?

Mike Bostain

Pastor

Memorial Missionary Church

Colorado City

Today we find that man is disenchanted with government as well as himself. Whatever he is, American, Russian, or Bohemian for that matter.

We have accomplished everything we ever dreamed about as a nation; in 1968 we put a man on the moon, and then repeated the feat four times.

But the fact remains that in a land of plenty, a "so to speak want for nothing country," we are still lacking in a few things. Carnal man, or a "lost person," does not always know what it is that he is missing.

A baby that is tired and hungry does not really know why he is fussy, he only knows that he is not comfortable.

If you think honestly with yourself, something is missing in your life. Is it love? money? honesty? In all probability it is Christ that is missing in your life, if your life is not happy with anyone or anything.

Turn with us to Eph. 2:3, we find here that man in his natural state, does what he wants, like he wants to do it, and that he is by nature a child of wrath.

What to do about it? it could be uncertain, but let's look to Christ's word, who is certain, in John 3, vs 18 we see that, he that believes is not condemned, but he that believeth not is condemned already, because he hath not believed in the name of the only begotten son of God.

Well, it could be said, I live a good life and I treat my neighbors right. Let's go back to the word of God. We see in Romans Chapter 2 vs 16, "And if by grace, then is it no more of works; otherwise grace is no more grace. But if it be of works, then is it no more grace; otherwise work is no more work."

We see more on this in Eph. 2:8; "For by grace are ye saved through faith; and that not of yourselves; it is the gift of God; not of works, lest any man should boast."

We see in Acts 4:12, that Jesus is the only one who can save us. What is it that is to be believed? Matt. I:23, shows the virgin birth of Christ; that He was crucified for your sins (John 3:16) and paid the price in full; that He overcame death and arose from the grave (Matt. 28:16) and that He went or arose to heaven, and is at the right hand of God. Luke 24:5 that he is coming again to gather his own, and he is coming on a cloud of glory, and that the saved shall be gone in the twinkle of an eye.

It is not long off, as we see in Matt. 24:44 "therefore be ye also ready; for in such an hour as ye think not the son of man cometh." There are signs, so many we could not list them all here, we need to study God's word and believe on the only begotten son of God.

What if we accept Christ, we wander off, what then? Are we lost? We go again to Christ's word John 5:24, "verily, verily, I say unto you, he that heareth my word and believe on him that sent me, hath everlasting life, and shall not come into condemnation; but is passed from death unto life."

We see finally in John 10:28-30; "and I give unto them eternal life; and they shall never perish, neither shall any man pluck them out of my hand. My father, which gave them me, is greater than all; and no man is able to pluck them out of my father's hand. I and my father are one."

If something is missing from your life, and if that something is Christ, turn your life over to him before it is too late. Tommorrow is not for sure. Today may be. Don't ask it. Act now. Let Christ into your life and heart, make him your Lord and master.

Please read the scriptures for yourself as there may be an error and you need the truth from the word of God.

Veterans May Be Eligible For Educational Benefits

Veterans of the Spanish American War, World War I, World War II and the Korean War may still be eligible for educational benefits under a Texas law, Dan Dever, Veteran Outreach Coordinator at Western Texas College, said.

Under the Hazlewood Act, veterans of the above named wars may receive benefits for education from the state after their eligibility for federal funds through the Veterans Administration has expired. Veterans must have been legal residents of Texas at the time of entry into the Armed Forces and also for a period of not less than 12 months immediately preceding their registration. They must hold an honorable discharge.

These benefits also apply to the children of members of the Armed Forces who were killed in action or died while in service during World War II or the Korean War.

Eligible veterans qualifying for benefits under the Hazlewood Act are exempt from the payment of all fees except library and laboratory fees or similar deposits and fees, or charges for room and board. Veterans are not eligible until their eligibility for federal funds has expired.

Veterans planning to use their benefits to enroll at Western Texas College are to present discharge papers to Dever, who will in turn certify them for admission under the Hazlewood Act. Dever is also available to give information about other educational programs for veterans. His office is in the WTC Administration Building and he may be reached by telephone at extension 270 at the college.

Church Hosts Association

The First Baptist Church of Loraine hosted the Mitchell-Scurry Baptist Workers Association in their regular meeting Monday night.

Supper was served by the host church at 6 p.m., after which the men and women met in separately for their business meetings.

Rev. Akins brought the message of the evening, and asked for prayers for the young couple who took their place while they are in the states on a year furlough.

Mrs. C. T. Merritt brought the Prayer calendar and Laylan Bratcher led in congregation singing and brought the special music. Rev. Jimmy Roberts presided and welcomed the visitors.

Money management has become an intricate part of every person's life. The accumulation of assets, their preservation and distribution can only be accomplished through personal financial direction.

R. B. Wiesen & Co., Inc. is presenting an investment seminar at Bloomer's Villa Restaurant Thursday night, December 5, 1974, starting at 7:00 P.M. The subjects we will discuss will be:

The Pro's and Con's of investing in mutual funds, common stocks and real estate.

Is the current recession a disaster or an opportunity?

How to increase the interest rate on your savings account 20 to 30 percent.

And we would like you to make a financial contribution to a most worthy cause - YOURSELF - and take it as a tax deduction.

This seminar is open to the public. Because of limited space, we suggest that you arrive early. Be sure and register for the door prize. Bring along a friend. We hope to see you. There is no cost or obligation.

Dixie Martin, Scott Holland Wed In Friday Ceremony

Wedding vows for Dixie Martin and Scott Holland were solemnized Friday in an 8 p.m. ceremony at 22nd and Austin Sts. Church of Christ.

John Herington of Lubbock and Frank Martin of Lufkin, uncles of the bride and groom performed the ceremony.

The bride is the daughter of Mr. and Mrs. Joe F. Martin of 966 Rusk St. The groom is the son of Mr. and Mrs. Jack Holland of Slaton.

Given in marriage by her father, the bride was attired in a candlelight gown of silk organza re-embroidered with imported lace appliques. Lantern sleeves and a long detachable train completed the outfit. The bride fashioned her veil using tatting made by her paternal grandmother, for something old. For something borrowed, she wore a gold bracelet belonging to her maternal grandmother, which has been worn for three generations in family weddings. Something new was an opal necklace given to her by the groom, and a garter served as something blue.

Linda Martin of Abilene, sister of the bride served as maid of honor. Matron of honor was Mrs. John Chinn II of Lubbock, and bridesmaid was Julie Holland of Slaton, sister of the groom.

The bride's attendents were dressed in double-knit jersey dresses of dusty rose complemented by empire lines and ruffle necklines.

Reggie Hargraves of Abilene, served as best man. Groomsmen were Steve Holland of Lubbock, brother of the groom and Tony Thomas of Snyder. Ushers were Larry Martin, brother of the bride and David Holland, brother of the groom.

Immediately following the ceremony guests were entertained at a reception in the fellowship hall of the church.

Members of the houseparty were Mrs. Wendell Williams of College Station, Mrs. Dave Moore of Lubbock, Mrs. Bill Crockett of Colorado City, Mrs. Steve Holland of Lubbock, Miss Kathy Jo King of Silverton, Miss Consuelo Gallegos of Abilene and Miss Belinda Martin of Lufkin.

For a wedding trip to Cloudcroft, N.M., the bride wore an A-line dress of dusty rose double knit, accented with burgandy top stitching. A turtleneck gave the outfit the "layered look." Accessories of brown completed the outfit.

The couple will reside at 3025 Yarbrough Dr. #5, El Paso. The bridegroom is employed as an assistant manager for Furr's Cafeterias. The bride is employed as a teacher in the Clint public schools.

Zeta Delta Club Auction Termed "Big Success"

Medallion Room of Lone Wolf Electric Co-op was the setting for Zeta Delta Study Club's Chinese Auction, Monday night.

Joy Culwell served as moderator and provided entertainment for the occasion. "The auction proved to be a lot of fun as well as a big success financially, as Zeta Delta members through their hard work, raised over $300 to donate to worthy causes," says Adele Wilkinson, club reporter.

Before the auction began, everyone had the opportunity to look over all the items to be sold. A twenty-minute time limit was set to place secret bids. When the bidding ended, Joy Culwell announced the highest bidder for each item.

Refreshments were served to members and guests while the bids were being read. Every item was sold.

In appreciation of her help, Jennie Wright painted an oil landscape depicting a West Texas windmill scene, for Mrs. Culwell.

These club members were present in addition to numerous guests: Ann Nobles, Tina Raschke, Connie Hargrove, Janet Stockton, Jennie Wright, Adele Wilkinson, Pat Geiger, Dixie Wadlington, Barbara Corbell, Shana Bassinger, Brenda Tarter and Nancy Hamner.

TURTLES AND MEN

Lloyd E. Kincaid

Pastor

First Christian Church

Colorado City

A huge turtle waded up out of the Gulf on a Texas beach the other day. They did not get his measurements, nor did they weigh him. He was larger than a wash tub and probably weighed several hundred pounds. They did not question him to find out how old he was, but he he was probably a hundred years old. They got no information from him as to how far he had traveled during his lifetime, or what he had seen. Doubtless, he has had a good many interesting experiences in the ocean and, were he capable of telling his life's story, could recite some tales that would be interesting reading as nature stories. But, take it all in all, the turtle's understanding of things is very limited and his range of knowledge is not very wide.

When he went back into the waters of the gulf, his impressions of the great outside world which he visited were not very distinct or adequate. We do not suppose that he made any observations of the moon and stars, and as it was maybe night time, very likely he did not see the sun. On the beach he observed nothing but sand and a few curious looking things which annoyed him rather than interested him. If we can imagine him gathering all the rest of the turtles together to tell them of his observations, he could not convey to them any very definite or intelligible information about the great world which he touched when he emerged from the waters. The fact is that the world with its marvelous life and activity lies beyond a turtle's capacity of apprehension. Its fast trains, jet aircraft, great cities, splendid universities, its science, art, literature, all these things lie outside of its realm.

We people who live on the earth have not touched as much of the shore line of the great universe as did that turtle touch of the shore line of the Gulf of Texas. May it not be that what there is in the great universe outside this world is as unknown to us and as unintelligible as what there is in this world that is unknown and unintelligible to that turtle? In the Scriptures we are told that we now "see through a glass darkly and know in part." The Apostle John, in one of his letters, says, "It doth not yet appear what we shall be." And the Apostle Paul tells us, "It has now entered into the heart of man to conceive of the things which God has prepared for those who love Him."

May it not be that the natural mind, which perceives not the things of God and cannot understand them, is in the same relation to the spiritual world that that turtle is in with regard to this earthly habitation of ours? It was William Shakespeare who saw people in his day as,

"Man proud man, Dressed in a little brief authority, Most ignorant of what he's most assur'd, His glassy essence, like an angry ape, Plays such fantastic tricks before high heaven As make the angels weep"

Gold Star Winners Honored At Banquet

Mary Martinez and Bobby Moody, 4-H Gold Star winners in Mitchell County, were among 40 area Gold Star winners honored at a banquet held in Lubbock Monday night.

The Gold Star is the highest county award offered in 4-H, presented to a boy and girl from each county for their achievements, leadership and contribution to the county 4-H program.

About 400 parents, extension service and electric cooperative representatives, and special guests attended the annual event at Lubbock's Coronado High School cafeteria. Winners were presented Gold Star certificates by Billy C. Gunter and Catherine Crawford, district agents with the Texas Agricultural Extension Service.

The special recognition banquet singled out the contributions of 4-H clubs, parents, leaders, and the "dedicated men and women of the Agricultural Extension Service who provide leadership and training for 4-H clubs."

Eleven area electric cooperatives joined in sponsoring the event. They include Bailey, Dickens, Lamb and Lea (New Mexico) county electric cooperatives, as well as the Cap Rock, Lighthouse, Lone Wolf, Lyntegar, Midwest, Swisher, and South Plains electric cooperatives.

Gold Star winners must be at least 13 years of age, must have completed at least three years of club work, must be currently active in 4-H, and can receive the award only one time.

Farm Census Begins Soon

A crowing rooster on the 1974 Census of Agriculture poster proclaims, "Fill it out -- Mail it back." The poster emphasizes the need for farmer cooperation in completing the agricultural census, which by federal law is taken once every five years.

Farm operators in Mitchell County can look for their farm census forms in the mail just as soon as the Christmas rush is over, according to ASCS executive director Don Stewart. The forms will be mailed directly to farmers by the Bureau of the Census, Stewart said. However, farmers who want explanations or help in completing the census questionnaire can turn to their county ASCS office for assistance.

Farmers are being asked to answer the questionnaires and return them by mail before the end of January if possible.

"ASCS is cooperating with the Census Bureau to try to make sure that all farm operators are fully informed about the 1974 Census of Agriculture," Stewart said. "The Census Bureau has supplied each county ASCS office with detailed information on the questions farmers most often ask about the census, and we will be glad to answer telephone queries if we can, or sit down with a farmer here in the office and go over the form in detail if asked."

The local ASCS official emphasized that census replies are confidential. "Here in the ASCS office, we'll try to give a hand to anyone wanting a little help filling out the form, but we won't ask any questions about the farm data. That information goes to the Census Bureau and only to the Census Bureau, which takes special precautions to make sure that no information about any individual farm or farm operator goes to anyone inside or outside the government."

The facts and figures gathered in the farm census are processed and published as statistical data, with special publication of county and state reports as well as national agricultural statistics.

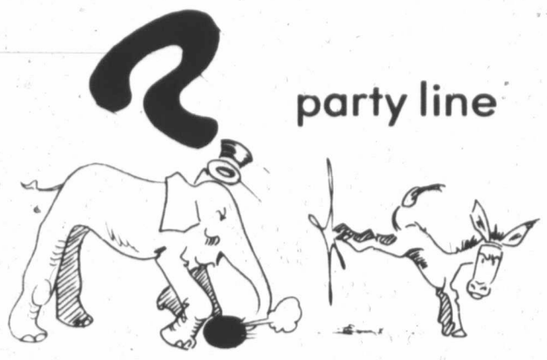

"Most farm operators know the need for accurate agricultural data, and I believe the Census Bureau will get just about 100 percent voluntary cooperation from farmers in Mitchell County," Stewart said. "However, it won't hurt to point out that federal law requires that census questions be answered accurately and completely, and a penalty can be imposed on anyone who doesn't.

USDA Tells Grain Supply

The nation's feed grain supplies total around 187 million tons for 1974-75, a fifth less than the previous year, the lowest since 1957-58, according to figures released by the USDA.

Total includes 1,665 million tons of corn, barley, oats and sorghum, forecast for harvest as of November 1, plus 22 million tons in carryover from last year.

Although food, industry and seed use may increase modestly in 1974-75, the limited supply will drastically curtail use in domestic livestock feeding and use for exports. Total feed grain use for 1974-75 is forecast at about 175.5 million tons--exceeding this year's crop and cutting into carryover. Carryover into 1975-76 may stand at a minimal 12 million tons.

Partyline, What kind of control will Colorado City have over a professional city manager?

The control that Colorado City has over a city manager comes through the city council members. A good way to show how this works is to give you a breakdown of a council-manager type of city government.

The people of Colorado City elect the members of the city council who in turn appoint, for indefinite tenure, a professional or career administrator. (The council-manager government evolved from a commission form of government with just the council governing. This had such a division of authority that it was felt to be too weak. There was a need for a single professionally trained administrator. This has been our form of city government since 1948.) It is the duty of the council members, as representatives of the people, to determine municipal policy and appoint and remove the city manager. The city manager attends all council meetings, may suggest, recommend, or advise the council but has no vote. He may be called upon to give information to the council, as well as explain or defend his own actions. Once policy is determined by the council it is the responsibility of the manager to carry out the policy without alteration or change. If members of the council are dissatisfied with the way policy is executed, or dissatisfied with the manager in any way, they can remove him at any time. In other words the council is the chief judge of the manager's administrative competency. So it is essential to have an informed council. Our city council now has chosen areas of interest for each member so they will become better informed in specific areas with an eye toward a more informed council in all areas of city business.

The city manager appoints and removes heads of departments, while most of the other municipal employees are appointed, promoted, and removed on the basis of civil service regulations. The heads of departments are responsible to the city manager; the city manager is responsible to the council, and members of the city council are responsible to the people. Insofar as the voters are concerned, the city council is responsible not only for municipal policy but also for the administrative record of the city manager. Therefore, ultimate supremacy rests with the people who elect the members of the city council.
