OATMEAL PANCAKES

What could be nicer than a leathery morning and breakfast in bed? Though it's usually the man of the house who is on the receiving end of this luxury, a special creation on that breakfast tray may sour him on to return the favor tomorrow.

an oatmeal pancake and pecan maple syrup. Easy to make with biscuit mix, the pancakes bake to a soft golden brown with a delicate oatmeal flavor throughout. And what could be better than pancakes topped with warm maple syrup? Oatmeal pancakes topped with warm pecan maple syrup. Try these smooth contrasts in flavor... you're sure to win

a stack of pancakes!
Here's the recipe:
OATMEAL PANCAKES
1 cup biscuit mix
1 cup rolled oats
1 egg
1 2/3 cups milk
Mix all ingredients. Beat with rotary beater until well blended. Grease griddle if necessary. Griddle is right temperature for bak-

ing when a few drops of water sprinkled on it jump around. Turn pancakes when bubbles appear. Top with warm pecan maple syrup (below). Makes about 18 4" pancakes.
Pecan maple syrup: Heat 1 cup maple syrup with 1 tbsp. butter. Remove from heat and blend in 1/4 cup chopped pecans.

HELP HIM PICK THE RIGHT HAT

By JEAN SPRAIN WILSON
AP Fashion Writer
The subtle way to change the man you married is to persuade him to try the female way of improving his disposition — by buying a new hat.
Not only the right sized hat, but the right kind of hat for his face and physique, will change his appearance, claim authorities among the nation's hat manufacturers.
But even though you may know the circumference of your husband's head, you can't buy a hat and take it home to him. However, the hatlers admit that a man's better off if a woman goes along to help him choose.

Besides coming in a variety of sizes, men's toppers are sold in regular, long and wide ovals.
The crowns of hats also vary, differing in height and fullness. Most popular brim widths fall between 1 and 1 1/2 inches.
In order to guide a man properly when you go, him to the haberdashery, you must know how to match the combinations of crown, brim and style to the facial characteristics and - or physique of your man.
Is he a tall man with average build? A short crown, usually tapered, or a telescoped style looks best. The lower crown keeps him from looking gangly.
Or is he tall with a big build? A full crown with a snap brim is good. The hat experts claim this type can also wear a homburg.
Is he short, slight of build? A higher crown will add to his stature. Tapered crowns with narrow brims, turned up and snap, are flattering.
What if he's short and plump? Lead him away from the extremes. A medium crown with moderate brim, snap or turned up, is better for him.
If the man you want to change (in appearance) is average in height and build, then all he needs to do is match his hat to his facial characteristics. For example:
If he's an egghead, (with plenty of forehead) better urge him to try a tapered crown with a medium brim that has a roll or short snap.
If he's lantern-jawed, (a square face) a hat with a medium, rounded crown and an average brim turned off the face will soften the angles.
If he's moon-faced, (short and full) a medium crown with a very slight taper seems to lengthen it. Widest brims are best for him.
If he has fat jowls, (generally a deep full face) have him try a medium height hat with a fuller crown and an average brim, usually snapped.
If his face is like a jelly bean, (long and slender) hand him a

Deciding To Buy A Lot Takes Lot Of Thought

By VIVIAN BROWN
AP Newsfeatures Writer

When a woman puts every spare penny into a coffee can so that she can get very discouraged when the money is gone, she can't afford to build.
A woman writes that she has saved for years, but houses keep going up, and everything she needs is out of her price range. Her children grow and her expenses increase. Should she invest the money in land "before all the pretty land is gone?" she asks. She has seen some land in a lovely area but she expects that it will all be bought soon and it will be years before she can afford to build.
Every woman who has yearned for a house will understand how she feels.
If it will be years before a house can be materialized, it is wise to use the money in other ways.
A purchase of a lot or acreage should be carefully thought out, especially when it is surrounded by undeveloped land. It may look

like a scene from a painting now, but how will it look in the future? One must first investigate the adjacent land. Who owns it? Is it zoned for business and industry? A fertilizer plant planned for the vicinity might not be what you desire in your back yard.
How far is the lot from a "road station" Main Highway? Shops?
What does it cost to dig a well in the area, and what is the average depth for hitting water in the vicinity?
How much would it cost to clear the land, put in topsoil and landscape? How available are gas, electricity, telephone service?
If a car breaks down, how does one arrange to have it repaired?
Towed?
Are there people who can assist with odd jobs — plumbing, ploughing, roof repairs?
Are there schools nearby? School bus? Church?
How far is it to the nearest doctor's office?
Is there a place where friendships may be maintained and a social life developed — community houses, clubs?
Are there playmates for children?
Is the land in an area that attracts people of your approximate age?
If the area is growing, how much have the taxes risen in recent years? Is the town taking on lots of debt — new schools, big road projects, community recreation plans, other plans that would increase your taxes in the immediate future?
The fine print on the deed must be read. It might restrict you from building the kind of home you want or from putting it where you want or on your property.
We are at times overwhelmed by a picturesque area, and often one feels the desire to own such a spot at any cost. But it is wise to review the drawbacks that might exist in the garden of enchantment.
Many people feel that it is wiser to save money for a down payment on a house so that one can judge the community before pouring money into a house.
If a wise real estate investment has been made in land, however, it could prove on resale to afford the profit that may make a house possible in some other area. And that is worth thinking about also when you are sizing up the value of the land you anticipate buying.

She Drinks On The Job — For Pay

By VIVIAN BROWN

WALKERVILLE, Ont. (AP)—It's not every woman who gets paid for joining a panel of nine men for "a drop of the hard stuff."
Mrs. Doris Turnbull of the whiskey-distilling center adjacent to Windsor sips and smells new and matured whiskey to make sure it's up to standard.
Every few days, depending on the rate of production, 10 racks of glass containing samples of new or matured whiskey to which only distilled water has been added are set on a table in the blending department. Each rack also contains a small flask of recognized standard.
Panel members drop in when convenient, and compare the samples by sight, smell and taste. There must be perfect continuity in each brand tested.
"Whiskey fresh from the stills may be too attractive as a drink," Mrs. Turnbull says. "But we can tell without much doubt whether it will make good whiskey after maturing."

WOMEN

The Snyder (Texas) Daily News, Fri., Jan. 12, 1962 3

They Invade Man's World

HENLOW, England (AP)—Two young women have brought a touch of charm into an hitherto exclusively male world of complex technology, at the Royal Air Force Technical College here.
They are two WRAF Women's Royal Air Force pilot officers, blonde Fiona Birnie, 20, from Cardiff and brunette Valerie Crowder, 19, from Hutton-Parish.
They are the first women non-graduates to enter the college straight from school. All the thousands of students who have passed through the college in its more than 20 years history have been men.
Neither Fiona nor Valerie has a regular boy-friend. They are concentrating on their careers. After a year's training here they

will become the first women Technical Signals Officers.
The girls have their own rooms, but take mess with the hundreds of men officers taking the course.
Says Fiona: "All the other students like us being here. It is a big break with tradition, but for technically minded girls, there is a good life in the WRAF."

Joel Clark (left), President of Allamakee-Clayton Electric Cooperative makes billionth dollar loan repayment to REA Administrator Norman Clapp.

RURAL ELECTRICS repay billionth dollar on U.S. loans

A \$43,272.06 check from Allamakee-Clayton Electric Cooperative, Inc., Postville, Iowa, recently pushed repayment of Rural Electrification Administration loans past the one billion dollar mark. Now, more than one dollar out of every four loaned has been returned—plus almost half a billion dollars in interest!
Since the start of rural electrification in 1935, REA has advanced \$3 1/2 billion in long-term loans to nearly 1,000 locally-owned rural electric systems. Rural people have used this money to build their own electric lines... the only way they could get electricity.
They've helped boost the number of farms with electricity from 10.9 to 97 per cent. And today, rural electricians are bringing the most modern electric service to residences, farms, churches, schools, and businesses all over rural America... serving more than 17 million people.
Best of all, their loan repayment record is 99.99 per cent "perfect"... one of the finest in banking history. Rural electricians are making regularly scheduled payments on principal and interest. And in addition, they have already repaid more than \$170 million ahead of the dates it was due.
In all these ways, locally-managed rural electric systems continue to demonstrate that rural electrification, financed by REA loans, is one of the soundest investments our Nation has ever made.

A Lift For Left-Overs

What happens to the left-over Sunday roast? The smart homemaker will skip a day or even two and then present it in a completely new form. For example, in the recipe below the meat is combined with vegetables in a savory sauce and, for a really elegant touch, served in patty shells. The patty shells are the frozen variety and are baked quickly in a hot oven to become crisp, tender, puffy shells that lift left-overs out of the nondescript class. For a meal to be remembered serve these tempting meat filled patty shells with a fresh grapefruit and endive salad and a luscious apple spice cake.
MEAT FILLED PATTY SHELLS
3/4 cup butter or margarine
3 tablespoons flour
2 cups milk
1 cup cooked, diced roast beef, lamb, pork or ham.
1 teaspoon Worcestershire
2 tablespoons chopped celery
1 tablespoon chopped parsley
1 teaspoon salt
1/2 teaspoon pepper
12 small white onions, cooked
1 cup cooked peas
In saucepan, melt butter, stir in flour - pat it thoroughly blended. Gradually stir in milk, cook, stirring, until thickened and smooth. Add remaining ingredients and heat thoroughly. Just before serving spoon into freshly baked patty shells. Serves 6.

Splash Day Event Slated April 27-29

GALVESTON (AP)—The 1962 Splash Day celebration in this island resort city has been set for April 27-29 by the Galveston Convention and Tourist Bureau.

The 50-year-old festival, one of the oldest yearly community events in the nation, signals the opening of the summer tourist season.

Billed as the world's biggest beach party, the Splash Days events will include beauty contests, regattas, a college golf tournament, power boat marathon, quarter horse races, water skiing demonstrations, square dancing, military demonstrations and street dances.

Galveston's beachfront suffered comparatively little damage from hurricane Carla last September, Frank Wideman, executive director of the convention and tourist bureau, said.

"Actually, as a result of hurricane Carla, the Galveston beachfront will be brighter and better than ever," he said.

An unscheduled event during Splash Days last spring was a riot by college students. Wideman said special events will be staged this year to keep visiting college students entertained and "out of mischief." Student council officials and college officials are cooperating in seeking to avoid any such disturbance again.

More than 150,000 visited Galveston during the four days of Splash Day festivities in 1961, Wideman estimated.

Nathan Mearse is the Superintendent of the Junior Department.

Rev. Lynch will attend "Ministers Week" at Texas Christian University next week, Monday through Thursday.

Missionary Gift In Reverse To Greenwich Village Church

By JULES LOH
AP Staff Writer

NEW YORK (AP)—In a reversal of missionary giving, Southeast Asian Christians have sent a gift of \$1,000 to a church situated in the heart of this capital of affluence.

If the gift itself seems unusual, the church that received it may appear even more so.

"Our activities are related to the culture around us," said its pastor, The Rev. Howard Moody, and that culture is well known. Judson Memorial Church is located in Greenwich Village, haven of the unorthodox.

The pastor admits, in the parlance of his congregation, that "some of our critics consider us way out."

Witnesses Are Leaving For Assembly

Most of the Snyder congregation of Jehovah's Witnesses are leaving today for Sweetwater to attend a Christian assembly to be held at Nolan County Coliseum over the weekend.

The three-day assembly of ministers is expected to attract more than 600 delegates from 18 congregations extending from Abilene to as far north as Snyder. W. R. Thomas, a Watchtower Society representative from Brooklyn, N. Y., will be principal speaker as well as chairman of the meetings.

As chairman he will open the sessions on the convention theme, "Assist One Another To Do God's Will," today at 7 p.m.

Thomas is now representing the world headquarters staff as district overseer for congregations in parts of Texas, Oklahoma, and New Mexico. He has traveled throughout the United States as a lecturer and teacher of the Bible.

Thomas will preside over a model ministry school at 7:15 p.m. "It is this school that has helped to increase the efficiency of Jehovah's Witnesses in their ministry," a spokesman stated.

He reported that over 21,000 Kingdom Hall training schools are now operating throughout the world in 125 countries and territories.

The highlight of the assembly will be Thomas' address Sunday at 3 p.m. on the subject, "Uniting Men In A Split-Up World."

All sessions are free and open to the public.

Boggs Slated On Morning Devotions

Durwood Boggs, minister of the Thirty-seventh Street Church of Christ, will be the speaker on the Morning Devotions radio program next week.

The program is presented over KSNV at 9:05 a.m. daily, Monday through Friday. It is scheduled by the radio committee of the Snyder and Scurry County Ministerial Alliance.

Foreign Missions, Home Missions, and Christian Education are the main themes of the program.

In addition to a place of worship, Judson Memorial Church also has an art gallery where displayed painters can display their unwanted work; a pool hall; a teen-age center equipped with everything from wood-working tools to bingo drums; a clinic where former dope addicts congregate to discuss, as the pastor put it, "how to keep off the stuff"; a poet's theater where struggling writers of verse drama receive mutual encouragement; a dormitory-inhabited hall by American college students and half by foreign students, who conduct full sessions on their conflicting ideologies; plus other similarly unusual features, including the church's own literary journal.

"Our church is oriented basically for those who aren't members of it," explained the Rev. Mr. Moody, 46, an intellectual who can discuss Christianity—or poetry—with his flock in their own swinging language.

As he jokingly explained the makeup of his congregation, "we have 85 card-carrying members and about 300 or 400 fellow travelers." (The average age of the 85 regulars, incidentally, is 23.)

About 75 to 100 teen-agers a week drop by the church where they find, in the pastor's words, "a nonthreatening atmosphere."

"We don't have the usual settlement-house type of operation based on a preconceived program in which a youth has to fit," he said. "Here, he just fits where he happens to fit, if he fits at all."

Judson Memorial Church is affiliated with both the American Baptist Convention and the United Church of Christ, and the Rev. Mr. Moody is an ordained minister of both denominations. All church activities, however, are strictly nonsectarian.

The pastor is at a loss to explain how the East Asia Christian Conference, donor of the \$1,000, heard of his church. He suggests "perhaps one of my friends in the World Council of Churches told them about us."

The money was collected by women in India, Pakistan, Iran, Thailand, Korea and other countries. They belong to the Fellowship of the Least Coin, an organization inspired by the Gospel parable of the widow's mite.

Each member donates the least valuable coin of her nation once a year to a fund which is administered by the East Asia Christian Conference—a group similar in makeup to America's National Council of Churches. The conference, in turn, contributes yearly to some church project in every continent of the world.

Arise, Oh America! Shake off your slumber. For from the very foundations of the earth you have been called by God to be His servant. God calls you to be the light shining in the darkness that will guide this world to His way of peace and love. God calls you to spread His salvation to the ends of the earth, that all men everywhere might call upon His name and give Him the praise.

Oh, America, woe to you if you do not respond to His call!

Pigeon Is Getting Royal Treatment

TALLAHASSEE, Fla. (AP)—A dazed pigeon is being given the red-carpet treatment in the governor's office.

This is appropriate enough. He's the first pigeon to pay a pop visit to the office of Gov. Farris Bryant, who happens to be an honorary director of the U.S. Racing Pigeon Association.

The brownish-white bird—SAV 139 from the designation on his leg band—was found on the Capitol lawn this week, crouched beside the building and the very picture of befuddlement.

A veterinarian speculated that the bird had crashed headlong into the building with a jar that added him.

The first U. S. torpedo boat, called the *Stigia*, was built in 1867.

Stolen Truck Is Recovered

The Scurry County Sheriff's office was informed this morning that the pickup truck blacked Tuesday morning west of town has been recovered.

The pickup, owned by Joe Parks, had last been reported in Justiceburg late Tuesday morning when the thieves bought gas. It is now in Altus, Okla. The running condition is not known, but it is said to be stored at a salvage yard.

The two thieves "borrowed" another vehicle in Altus, and at last report were still at large.

The first U. S. torpedo boat, called the *Stigia*, was built in 1867.

DISCIPLES OF CHRIST

What are the "Christian Churches"?

They are usually called "The First Christian Church of Yourtown."

Today we are a "brotherhood" of more than 8,000 churches, with more than two million members in the United States and Canada.

Our "brotherhood" had its beginnings in America in the early 1800's—to work for two goals:

First was to realize the simple ideal of the early churches of the New Testament. We have never created special creeds, and we have felt each individual should be free to interpret the Bible for himself.

Second was to work for real unity among all Christians. We have led in promoting Christian cooperation among all Christians (the "ecumenical" movement) for we believe that all share the same basic beliefs.

We hope you will feel a warm welcome in any one of our churches. The door of every Christian Church is open to you.

Congo Issue Background Is Presented

By The Associated Press
More questions and answers to fill in the background of the Congo-Katanga situation...

Q. Why can't Katanga, invoking the principle of self-determination, simply declare itself an independent nation?
A. No country in the world has been willing to recognize Katanga as a separate entity. In the U.N., various Security Council and General Assembly resolutions firmly opposed separation of Katanga from the rest of the Congo.

Q. What is U.S. policy trying to accomplish in Katanga?
A. Secretary of State Dean Rusk has said Katanga secession could plunge the Congo into anarchy and open the door wide to the Communists.

Q. How about the reactions of North Atlantic Treaty Organization allies?
A. Britain had grave misgivings about U.S. support of the Katanga action. Fear was expressed in London that the U.S. decision could prove a costly blunder.

Q. What was the Katona pact and what was the U.S. role?
A. At Katona Tsombe promised to accept the authority of the central government. Edmund A. Gullion, U.S. ambassador to Leopoldville, flew to Elisabethville, Katanga capital, and persuaded Tsombe to make the trip to Kitona.

Q. Why doesn't the Congo government use its own armed forces to end the Katanga secession?
A. The Congo has about 25,000 troops (apart from Katanga). The army commander, Gen. Joseph Mobutu at best can hope to control about 17,000. The other 8,000 are controlled by Gen. Victor Lundula, who has been at Stanleyville with Antoine Gizenga.

Q. What about the effect on the rest of Africa?
A. There is considerable worry in the Federation of Rhodesia

The Way Grows Much Brighter

When God Gives Us Our Marching Orders

My Psalm

The clinched fist and the hesitating step show the danger which doubtless has caused this heart to throb. But the face is lighted by the silver lining and hope and trust will drive out the fear. Every man walks, some day, through the valley of the shadow, along a dangerous path. Suffering and opposition and uncertainty are our common lot. But God is our shepherd and no matter how unequal we feel, He will carry us through. His rod and staff must be our comfort... for "My Psalm" says so. And if He walks with us through the valley, every darkness will give way to light. His church is on the corner to help us. The Book on its pulpit will give us direction. The faithful company, the anointed which My Psalm talks about will be as His rod that drives away our foes. Then, surely, we shall not walk alone for goodness and mercy shall follow us and we shall dwell in the house of the Lord forever. A-men.
