# Moore Selected As SCS Best Farmer-Rancher

Stanley Moore has been selected as Outstanding Conservation Farmer-Rancher in Mitchell County, Jimmy Harrison, chairman of the Mitchell Soil and Water Conservation District Board of Directors announced.

**Moore farms in the Landers Community, nine miles south of Loraine, and was selected for the award by the SCS Board of Directors.**

He was selected for his conservation efforts which involve the construction of 77,000 feet of parallel terraces and 18,000 feet of standard terraces on 356 acres of cropland.

Contour farming and conservation cropping systems were carried out **on 434 acres of his cropland.**

Moore also implements proper grazing use and deferred grazing on 98 acres of rangeland.

**Guil Jones of Big Spring, who farms and ranches in Mitchell County, was chosen as the Wildlife Conservationist for work carried out on the Guthrie Estate, Harrison said.**

Brush control was implemented by leaving strips and natural patterns of brush for wildlife. This practice was carried out on about 1,280 acres of rangeland, Harrison noted.

**Jones also used root plowing, followed by roller chopping and seed-**

## Police Report VFW Burglary

Burglars hit the Veterans' of Foreign Wars Post No. 9178 sometime between Wednesday at 10 p.m. and Thursday at 8:45 a.m., according to Assistant Chief of Police Jimmy Roundtree.

**The burglary was reported to police at 8:44 a.m. Thursday by M.F. Bearden, an employee of the VFW.**

Entry into the building was gained through a window after a window fan was pushed out and into the building.

Marks on outside doors indicated burglars had apparently attempted to gain entry through two doors on the north side of the building, Roundtree said.

Money boxes were broken into in the juke box, pinball machine and an electronic game machine. An estimated **$200 was stolen from the juke box; $50 in quarters from the pinball**

## Fact & Fiction

*By Donna Watson*

The city has been experiencing a rash of costly vandalisms, most of which will be tried as felony criminal mischiefs when the individuals responsible are caught.

**Wednesday, just after 9 p.m., I was driving south on Austin Street. I stopped at the stop sign at 17th and Austin Streets and then drove through the intersection.**

I met an older model pickup with round fenders, headed north, driving without headlights.

**Suddenly, as the pickup pulled up even with me, my son and I heard a loud explosion, like a large rock hitting the front window.**

The boys in the pickup had thrown an egg at my window.

It was frightening and dangerous, because as the egg began to spread over the window, vision from within the car was blocked and my first reaction was to jerk the wheel when the egg exploded.

The kids were not throwing the egg at me, they were just throwing eggs. If I had been an older person with less rapid reflexes, my son and I could very easily have been the victims of an accident.

**Why did the kids throw the egg? I don't know. What did they get out of the throwing. I don't know, but I remember hearing adult friends talk with pride about the time they stole watermelons and even a car, just as a prank, when they were teenagers. And, I remember how much fun and excitement it was reported to be at the time and of course the nice lawman so many years ago didn't press charges.**

Maybe the kids want or need notority, if so this column should give them quite a few strokes.

But, maybe, just maybe, this column will do something else. Maybe some parent will read this, some parent of a boy who drives an older model pickup. Maybe that parent will wonder where the youth is when he is out "going for a ride."

**Maybe that parent will remember when he or she was a teenager and, although he or she was not a bad kid, they did pull some dangerous pranks just because of boredom or just for the fun of it.**

Maybe some parent will use hind-sight and realize how much damage can result from pranks and

# Local Woman Receives Inaugural Invitation

Mrs. Weldon Hardegree again recently had the opportunity to personally meet the vice-president-elect when she received an invitation to the inauguration and a reception for George Bush in Washington.

**Mrs. Hardegree has known the Bush family personally for quite some time. When Bush began a career in oil in Midland, Mrs. Hardegree's mother babysat the Bush children.**

Mrs. Hardegree had graduated from high school and married, so she didn't actually live with her parents, but she visited frequently in Midland.

Mrs. Hardegree stated her mother was always at the Bush's. So much so, that all her family was welcome in their home.

**When the Bushes went to Houston, they asked Mrs. Hardegree's parents to move with them. They did move, but got too home sick so they moved back within five months, she said.**

Mrs. Hardegree replied that no one in the family suspected that Bush would be where he is now. However, in the mid-1960's, she began predicting he would rise to the highest level in politics.

**Mrs. Hardegree did press the fact that Bush never forgets old friends. She didn't see him for 11 years and then she received an unexpected phone call from his Houston office.**

Bush asked her to be

# FCIC Crop Insurance Now Available Here

Mitchell County has been approved by the federal government as an area in which Federal Crop Insurance (FCIC) may be sold.

**The Federal Crop Insurance Act of 1980 makes many improvements in the Federal Crop Insurance Corporations crop insurance program and extends the disaster provisions of the ASCS programs for the 1981 crop year, ASCS County Executive Director Don Stewart said.**

FCIC is available for purchase through local approved insurance agencies.

At this time only Prudential and Godsey Insurance Agencies in Colorado City are qualified to sell the insurance.

Stewart said producers can now have the cost of FCIC insurance premiums reduced by 30 per cent of the cost of coverage, up to 65 per cent of the FCIC average crop yield.

**However, he noted, if this option is elected for use, the producer must forego eligibility for ASCS low yield and prevented planting payments (disaster payments) on any acreage for that crop with the same farm number.**

# Soil Conditions Improved For Soil Sampling

*By Bob Benson*

Dry weather this Summer and Fall has hardened soils and made the use of a soil sample probe difficult. Recent shows had added moisture and mellowed soils to improve soil sampling. The snows have delayed cotton harvest in West Texas and have made soil sampling untimely for some. Generally, the most difficult talk of soil testing is finding the time to take the soil samples, says Bob Benson, County Extension Agent.

A soil analysis is important for a farmer who has never soil tested and it is still valuable to resample fields which have been tested. Soils that were tested four to five years ago provided farmers with recommended fertilizer rates for optimum profit based upon lower crop prices and lower fertilize costs. "However, the crop situation has changed. Soil fertility levels have increased or decreased so that old recommendations no longer fit field and crop conditions," points out Benson.

According to Benson, farmers who use fertilizer successfully have their fields tested every two to five years. This allows for the detection of declines as well as excessive build-ups. If a field is to be used under intensive production, a soil test should be run each year. This recommendation applies for fields with special problems.

Soil tests cost only a fraction of your fertilizer or production cost. It is probably the best investment a producer will make. "Money spent on the wrong fertilizer results in less net profit for 1981," says Benson.

Anyone interested in soil tests can obtain information sheets to accompany soil samples, instructions and mailing cartons at any County Extension Office, added Benson.

# Bass Fishing Workshops Are Set

A series of bass fishing workshops, highlighted with instruction by four nationally-known bass anglers, will be offered beginning Feb. 12 through the adult and continuing education office at Odessa College.

The bass workshop sessions are scheduled from 7:30 p.m. until 9:30 p.m. on Feb. 12, 19, 26 and March 5 in the Community Room of the Student Union Building at OC.

Jimmy Houston, winner of 11 national bass fishing titles and host of the nationally syndicated television series, "Jimmy Houston Outdoors," will kick off the first workshop on Feb. 12 with a program on the underhanded casting technique, how to fish the spinner bait for lunker bass and "flippin," a new technique in bass fishing.

Fee for the four bass sessions is $30 and early registration is encouraged, according to Lea Taylor, director of community services at OC.

Interested persons may register by phoning Taylor at OC or by going by the adult and continuing education office, located in Room 110 of Deaderick Hall on the OC campus.

# One Millon Dollar Mark Barely Missed By Rehab '81

Pledges made at the Rehab '81 telethon benefiting the West Texas Rehabilitation Center totaled almost $1 million.

More than 6,500 pledges to support the treatment center for handicapped children and adults were made during the seven-hour telecast Saturday night.

Rehab officials announced pledges of $989,350. This breaks down to $635,350 pledged for the operating fund of the Rehab Center's three campuses in Abilene, San Angelo and Snyder; $246,000 pledged for the building of a new facility in San Angelo and $108,000 bid on auction items.

When the totals are complete, a 1981 budget exceeding $3.5 million will be presented to the Board of Directors in February.

This was the 11th Annual Telethon. It was broadcasted on 15 television stations and 11 radio stations in Texas, Oklahoma and New Mexico. More than 25 stars, including Rex Allen, Jr., Shari Lewis, Jimmy Dean and James Drury appeared, along with Johnny Desmond and Helen O'Connell singing songs from the Big Band Era, stars from the Lawrence Welk Show and from "Days of Our Lives" and a group of country and western performers.

The West Texas Rehabilitation Center is a private, non-profit facility.

Night courses in Basic Autobody Repair and Painting, Washer and Dryer Repair and Cabinetmaking are to be offered two evenings weekly, beginning Jan. 27.

The courses range in length from 40 to 90 hours and provide a real opportunity to learn skills which could augment present income or serve as good hobby outlets.

Further information may be obtained by contacting the TSTI-Sweetwater Office of special projects at 235-8441, extension 40.

**ing of desirable grasses in his brush control program.**

Adapted grasses were also seeded in 138 acres of old cropland fields.

About seven miles of cross fences were constructed in order to carry out proper grazing use, deferred grazing, planned grazing systems and wildlife upland habitat management on 3,356 acres of rangeland, Harrison said.

**Rozelle Dohoney of Big Spring was named to receive the Absentee Conservation Farmer-Rancher Award.**

This award is given to a person living outside the district, who does a good job of conservation farming or ranching within the district.

**Rozelle carried out brush control and range seeding on 200 acres of rangeland, seeding Kleingrass, KR Bluestem, Sideoats Grama and Green Sprangletop grasses.**

Deferred grazing and proper grazing use were carried out on these acres, Harrison said.

Contour farming and conservation cropping system were carried out on 70 acres of cropland and 16,000 feet of terraces are currently being constructed on these 70 acres, Harrison explained.

**The names of all award winners will be submitted for consideration for the Region II Awards Program, SCS Director Van Mills said.**

These awards will be presented during the Regional Banquet to be held in San Angelo.

**machine and $50 in quarters from the game machine.**

**Also stolen in the burglary was a RCA 19 inch color portable television set. Estimated value is $450.**

**Apparently burglars exited through a rear door.**

Roundtree is investigating the burglary.

Wednesday evening Billy Ray Williamson was arrested and arraigned before J.P. Henry Doss on charges of cruelty to animals. Bond was set and posted at $2,000.

**Colorado City Police reported numerous business doors have been found unlocked by officers after business hours in recent months.**

City officers patrol, both on foot and in cars, throughout the evening hours as a normal part of their duty however, because of the high number of vandalisms occurring, special attention is being given in two areas, Roundtree said.

"Protection of closed businesses and residential homes are our main areas of concern after dark," Roundtree said.

"We have also answered numerous prowler calls in the past few weeks. We encourage people to report prowlers as a crime prevention measure," Roundtree said.

**He noted officers are stopping persons on foot in business areas after closing hours and checking names in an effort to prevent vandalisms.**

"Several businesses have requested these additional preventative measures," Roundtree said.

**Police also report numerous incidents of "hot rodding" of vehicles on city streets. "We are having an ever increasing rash of accidents. Last year, there was a total of 186 accidents of all types reported. That averages about 15 per month with some months being less and some more. However, by mid-January, we have already investigated 11 accidents," Roundtree said.**

A number of hit-and-run accidents have been reported throughout the city, he said.

**"We have begun an effort to take the unlicensed juvenile driver from behind the wheel in order to bring this accident count back to normal.**

"If we stop a juvenile without a license, the vehicle is impounded and the parents contacted," Roundtree said.

This is necessary because the city is responsible for the vehicle once the police have removed the driver, he said.

**"It is impossible to leave an officer with the car and juvenile for an extended period, while the parents are located and contacted, due to the manpower shortage.**

"It is also less embarassing for the offender if he is not kept on the streets in the public view," Roundtree said.

**Under Texas law, the person in whose name a vehicle is registered is responsible for the actions of the unlicensed driver and it is very likely that the owner of the vehicle will be filed upon, Roundtree noted.**

**"Speed limits in school zones will be strictly enforced and illegally parked vehicles when loading and unloading children will be ticketed in an effort to prevent further accidents in this area.**

**"These stricter measures have come about because a large majority of recent accidents have been the result of unlicensed drivers," Roundtree said.**

grain sorghum, barley, upland cotton and rice crops are affected by these options. On FCIC's other 22 crop programs, the full cost of the premium will be reduced by 30 per cent, up to the 65 per cent yield level for the 1981 crop year, Stewart said.

**Basically producers must choose between subsidized Federal Crop Insurance and ASCS disaster payment eligibility, Stewart said.**

For more information, contact Stewart at ASCS in the G-Kell Building or phone 728-2651.

Concerning other government program deadline, Stewart stated all wool, mohair and unshorn lambs sold during 1980 must be reported and documented by ASCS prior to Jan. 31 in order for producers to be eligible for program benefits.

**Under the low yield disaster program, Stewart noted more than one million dollars has been paid out on 275 farms within Mitchell County since mid-December.**

He stated he anticipates payment to reach the three million dollar mark.

Producers should be certain to bring in total production figures, this includes remnants, or they can find themselves in a penalty situation, Stewart said.

"We are up to date currently and a producer can expect payment within three or four days from submittal time," Stewart said.

maybe he or she will take the keys or stop the gasoline money to exercise a little more control over the youth.

Sooner or later, if the pranks continue, word will spread in this little town. Someone will say something to someone who will repeat it to still another person and the law will know (if they don't already know) who is behind the costly mischief and in the end, both youth and parent will pay.

On January 20, the United States of America will have her 38th President when Ronald Wilson Reagan is inaugurated.

**Who is Ronald Reagan? Most people are aware of him as an actor, but who is the man that is to become President of the United States.**

"Time Magazine" featured a profile of Reagan as "Man Of The Year" in the January issue. It is very informative and enlightening.

**Ronald Reagan was born in February, 1911 in Tampico, Ill. He graduated from Eureka College in Illinois and became a sports announcer in the 1930's.**

Reagan signed his first movie contract in 1937. He served in the Army in World War II.

**His first political activities were to serve as President of the Screen Actors Guild and head of the Motion Picture Industry Council in the 1940's and 1950's.**

In 1964, Reagan became an active campaigner for Berry Goldwater, who was a far right candidate for president.

Reagan became Governor of California, winning the election by more than one million votes over the incumbent governor, Edmund G (Pat) Brown in 1967. He served in that capacity until 1975.

**Reagan was an unsuccessful candidate for Republican presidential nominee in 1968 and again in 1976.**

However, his 1976 campaign attracted the support of many conservatives and he lost the nomination to Gerald R. Ford by a very narrow margin.

Reagan is twice married and the father of four children, two boys and two girls.

"Time Magazine" describes his man characteristics as good humor, modesty and patience.

**The magazine gave him the title "Man Of The Year" "for having risen so smoothly and gracefully to the most powerful and visible position in the world"..."he has garnered high initial hopes, even from many who opposed him."**

"He is the idea of the year"..."a real opportunity to change the direction and tone of the nation," quote "Time Magazine."

Many people fear Reagan and the Republican will lead the nation into war, but a study shows in the periods in which the U.S. became involved in war, only Democratic presidents were in office.

Mrs. Hardegree said she is now a "won over Republican," basically because of Bush. She said she is more "Bush than Republican."

# 250 Students Turn Out To Enjoy "Playday" At The Wallace Center

An estimated 250 students from Colorado Independent Schools turned out to the Wallace Center for a "Playday" which is exactly what it was.

Due to the teachers' in-service workday, the students were out of school Friday but because of work and preparation of Barbara Gray, coordinator, volunteers and employees at the Center, mothers did not have to worry with babysitters or keeping their youngsters occupied.

Volunteers helping with the project besides the employees were Nelma Ritchey, Marsha Moore, Orphie Conners and four aides from Kelley Elementary School.

The children, from kindergarten through eighth grade, enjoyed movies, games, relays and contests, skating, storytime, crafts, popcorn, cookie making and more.

Their "Playday" began at 8:30 a.m. and concluded at 5 p.m. with a sack lunch at noon and a break or rest time in the afternoon.

No definite plans have been made to continue to offer a "Playday" on in-service workdays, but if plans are finalized, more volunteer instructors would be needed, said Mrs. Gray.

# Youth Basketball Set To Kick Off

January 31st is the date designated for the Youth Basketball Program to begin at the Wallace Center on Saturdays which is sponsored by the Mitchell County Opti-Mist Club.

The event will continue for six weeks at which time there will be a tournament to wrap up the sport.

Becky Manning, president, stated that there are three divisions, from five-years-old through 13-years-old.

She stated that there is still a need for coaches and players at this time.

Anyone interested in the newly organized youth sport is asked to contact Mrs. Manning at 728-3062 or 728-3009.

Fee for the activity is $2 and registration forms may be obtained at C C Athletics or Gloria Erwin.

# Rolling Papers Are Taken Off Shelves

The Colonial Food Store in Colorado City has taken cigarette rolling papers off the shelves, as it was announced Tuesday.

The action followed local community support in several Colonial markets of a recommendation by the Texans' War on Drugs Committee. The committee, formed by Governor Bill Clements, urged retailers to remove rolling papers from their inventory because of their function in the illegal use of marijuana.

"The Board of Directors and top management of Colonial made the decision to respond in a positive fashion in the issue of illegal drugs in our society," said Ray Hawkins, president of the San Angelo based convenience store chain.

All 88 Colonial stores in Texas and Missouri have taken the merchadise off the shelves. Major Texas markets include Abilene, San Angelo, Kerrville, Brownwood, Odessa, Midland, Monahans, Sweetwater and Graham.

"We are enthusiastic about Colonial's support of our efforts," said Nancy Voith, the committee's state education and coordinator. "We encourage other retailers to take this positive action in eliminating easy access to a product which aids in the illegal use of marijuana."

The committee, headed by H. Ross Perot, chairman of the board of Dallas based Electronic Data Systems, Corp., was formed "to achieve a drug free environment for children and to stop importation of drugs in Texas."

"We hope all of our customers will support our stand on this issue," said Hawkins, founder of the 13-year-old chain.

## Parents Meeting Is Set

Parents of children who are enrolled in the Title I classes in Kelley Elementary School are invited and urged to attend a Parent Advisory Council meeting, announced Bobby Lemons, principal.
