TALK

-- In Print

Thanks to Senator Tom Connally for a copy of the official Congressional Directory, 82d Congress, 1st Session, March 1951. The book has 724 pages and contains a wealth of information. It will be helpful in correspondence to government agencies and will aid those planning trips to Washington, D. C. This book is available for your use in our office anytime it is needed.

A new barber pole is the crowning touch to the modernized front of Jess McMaster's barber shop.

Old Tom, the office cat at Anderson Lumber Co., passed his 19th birthday this week.

Morris Stevens, farmer South-east of Abernathy, came in the Review office Thursday with "The Thing" in a 5-gallon can. The thing, found on a fence-row of the Stevens farm, looks like a cross between a snake and a lizard. Body and part of the tail has tan and brown dotted stripes, an inch and a half of the tail is green, head resembles that of a snake, has four legs and overall length is about 8 inches. He has shown it to numerous persons and none have identified it. "Believe I'll take the thing to Tech and see if someone there can tell me what it is," Morris said.

Please check your house number in the new telephone directory. If it is not listed correctly, call us so it can be changed in our reference file. The Review will use the directory frequently in reference to house numbers, and we want to have them right when they appear in news stories. Use the telephone directory in making local calls. It will speed up service.

Several Methodists who were unable to be in church on Easter had the service brought into their homes via wire recording. Pastor George D. York made a recording of the Easter service. Mrs. Mary E. Hardin, 311 Ave. C, Mrs. W. H. Ragland, 1101 Ave. D, Mrs. Fannie Bridges, 5th St. and Ave. E, and Ed Hardin, Ave. H, were those who heard the reproduction. The pastor has used this method to take church services to shut-ins on other occasions.

The fine, new building for Abernathy Motor Co. is completed but will not be occupied until later this month or early in May. A Ford factory man will come here to set up the parts department in the new building. This is the delay in moving.

Belated thanks to the 1935 Study club for placing trash cans on the sidewalks in town. When sandstorms stop swirling trash around, the cans will prove their value.

City Garden club members, in co-operation with others, are planning an event for next September that has great possibilities. More about that when the ladies are ready to announce plans. The ladies also are planning to landscape the city square. It needs some attention.

M. M. Blair found an attractive tie clasp on the road near Abernathy cemetery. Owner may claim it at The Review office.

ARMED FORCES TALK — With many of our young men entering various branches of the service, The Review is reminded of World War II days when we covered news of our men engaged in that conflict. We are resuming most of the policies followed during that war.

The Review wants photographs of your men now in the Armed Forces. The photos should be clear, black-and-white, glossy finished studio pictures. Sizes best adapted for making engravings are the billfold size or 4 inches by 5 inches. Larger sizes can be used. Please mail or bring the photos along with information on the serviceman.

Also, we want addresses of the men in service. This information is for publication in the paper so their friends can keep up with them and send them those all-important letters.

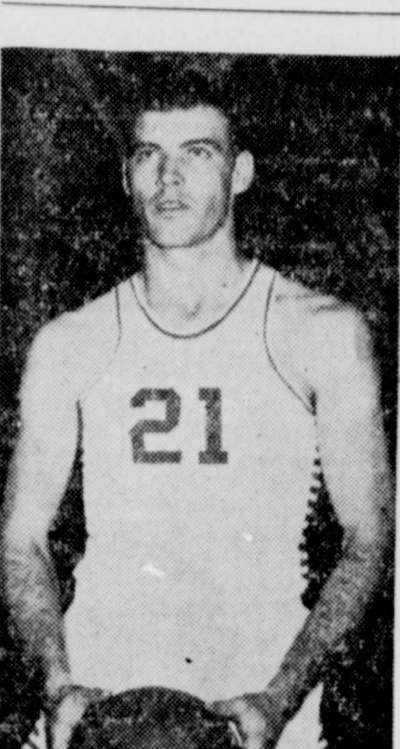

Those little "want-ads" in The Review get results (nearly every time). Inell Edwards, employed in the Pinson home, found the kid gloves lost in Abernathy by Mrs. M. C. Hancock of Hale Center. Mrs. Pinson read the ad placed in the Review about the gloves, and Inell returned them to The Review office Friday.

Lack of confidence in results of Review want ads cost someone \$10.00. That amount in bills was found on the street here several months ago. Had the loser come in to advertise for the money, it would have been returned with his being out the price of the ad. It isn't the custom for finders of

A. F. FRANKLIN GETS SECURITIES LICENSE

AUSTIN—(Spl.)—An oil and gas securities license for A. F. Franklin of Abernathy was mailed today from the office of

John Ben Shepperd, Secretary of State.

Shepperd's office must approve, qualify, and license a securities salesman or dealer before he is eligible to sell stocks and bonds

in the state of Texas. These licenses must be renewed each year.

The Securities Act, which was designed to protect the investing public from fraudulent schemes, supplanted the old "Blue Sky

Law" in 1935. The Act requires that the Securities Division of the Texas Department of State administer the licensing of securities dealers and salesmen and grant Issuer's Permits to individuals and corporations.

When an Issuer's Permit is granted, it assures that the bonds or stocks issued in Texas are registered. Shepperd's office keeps records of securities registrations and salesmen and dealer licenses, and determines whether or not the plans offered are fair, just, and equitable.

Approximately 4000 securities salesman and dealer licenses are granted by the state of Texas each year.

STRUVES ARE HONORED ON WEDDING ANNIVERSARY

Mr. and Mrs. Fritz W. Struve, who were married 50 years on April 2, were honored Sunday at an open house in the family home, Ave. E at Fifth St. Over 250 persons called during the afternoon.

IOOF MEETS TONIGHT

A regular meeting of Abernathy Lodge No. 809, I. O. O. F., will be held tonight (Thursday).

SMALL BUSINESS GETS 75 PERCENT IN MILITARY ORDERS

The Department of Defense has reported that of the 1,736,882 purchases of supplies, services, and construction by the military services in the fiscal year ending June 30, 1950, a total of 1,267,000, or 73 percent, were transactions with small business firms.

In dollar value, the report shows that small business received \$1,310,615,000, or 24.5 percent, of the total of \$5,355,396,000 spent for defense orders. In addition to receiving direct contracts, small businesses (firms employing fewer than 500 persons) also benefited from military orders by working as subcontractors for other military suppliers.

Three-fourths of all purchase actions during the year were not larger than \$1,000 each, most of which went to small business. On contracts of less than \$5,000—71 percent of the dollar value went to small business firms.

ARMOR INSIGNIA — Since the cavalry branch of the U. S. Army was replaced by the armor branch under the Army organization act of 1950, a new insignia will be worn by troops in the mechanized branches. The design above shows a front view of an M-26 tank with gun slightly raised and superimposed on two crossed cavalry sabers in scabbards with cutting edge up. It is of gold-colored metal. The artillery branch, consolidating the former field, coast and antiaircraft artillery branches, will retain the crossed field guns insignia, a design in use for more than 100 years.

Mother of Two Praises Hadacol

HADACOL Supplies Deficient Systems With Vitamins B₁, B₂, Niacin and Iron

Mrs. Elmer Hise, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother, and like all good mothers she keeps a careful watch for the welfare of her two young children. And when little four-year-old Lucille Hise wasn't feeling as her mother knew she should

do something about it. Mrs. Hise gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B₁, B₂, Iron and Niacin. It helped her so much that now Mrs. Hise gives HADACOL to both of her children.

Here is what Mrs. Hise says: "My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeps better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL my daughter complained of her stomach hurting her, and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

HADACOL is So Effective
An important thing about HADACOL is that you get Vitamins B₁, B₂, Niacin and Iron in liquid form, which means that they are quickly absorbed and dispatched to the blood stream, ready to go right to work. In making the designation, the Board pointed out that the proposed district will be the first of its kind in the world. Embracing about 13,000,000 acres, the High Plains pool is also the largest underground water reservoir in the world.

AUSTIN—(Spl.)—An oil and gas securities license for A. F. Franklin of Abernathy was mailed today from the office of

John Ben Shepherd, Secretary of State. Shepherd's office must approve, qualify, and license a securities salesman or dealer before he is eligible to sell stocks and bonds

in the state of Texas. These licenses must be renewed each year. The Securities Act, which was designed to protect the investing public from fraudulent schemes, supplanted the old "Blue Sky

Law" in 1935. The Act requires that the Securities Division of the Texas Department of State administer the licensing of securities dealers and salesmen and grant Issuer's Permits to individuals and corporations.

When an Issuer's Permit is granted, it assures that the bonds or stocks issued in Texas are registered. Shepherd's office keeps records of securities registrations, and salesman and dealer licenses, and determines whether or not the plans offered are fair, just, and equitable.

Approximately 4000 securities salesman and dealer licenses are granted by the state of Texas each year.

A regular meeting of Abernathy Lodge No. 809, I. O. O. F., will be held tonight (Thursday).

SMALL BUSINESS GETS 75 PERCENT IN MILITARY ORDERS
The Department of Defense has reported that of the 1,736,882 purchases of supplies, services, and construction by the military services in the fiscal year ending June 30, 1950, a total of 1,267,000, or 73 percent, were transactions with small business firms.

In dollar value, the report shows that small business received \$1,310,615,000, or 24.5 percent, of the total of \$5,355,396,000 spent for defense orders. In addition to receiving direct contracts, small businesses (firms employing fewer than 500 persons) also benefited from military orders by working as subcontractors for other military suppliers.

Three-fourths of all purchase actions during the year were not larger than \$1,000 each, most of which went to small business. On contracts of less than \$5,000, 71 percent of the dollar value went to small business firms.

ARMOR INSIGNIA — Since the cavalry branch of the U. S. Army was replaced by the armor branch under the Army organization act of 1950, a new insignia will be worn by troops in the mechanized branches. The design above shows a front view of an M-26 tank with gun slightly raised and superimposed on two crossed cavalry sabers in scabbards with cutting edge up. It is of gold-colored metal. The artillery branch, consolidating the former field, coast and antiaircraft artillery branches, will retain the crossed field guns insignia, a design in use for more than 100 years.

Mother of Two Praises Hadacol
HADACOL Supplies Deficient Systems With Vitamins B₁, B₂, Niacin and Iron

Mrs. Elmer Hise, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother, and like all good mothers she keeps a careful watch for the welfare of her two young children. And when little four-year-old Lucille Hise wasn't feeling as her mother knew she should do something about it. Mrs. Hise gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B₁, B₂, Iron and Niacin. It helped her so much that now Mrs. Hise gives HADACOL to both of her children.

Here is what Mrs. Hise says: "My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeps better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL my daughter complained of her stomach hurting and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

HADACOL Is So Effective
An important thing about HADACOL is that you get Vitamins B₁, B₂, Niacin and Iron in liquid form, which means that they are quickly absorbed and dispatched to the blood stream, ready to go right to work. HADACOL helps build up the hemoglobin content of the blood (when iron is needed) to carry these precious vitamins and minerals to every part of your body.

A typical Easter costume was a bright red blouse worn on the outside of a pink shirt, black high heels with red anklets and a black scalloped hat. Another interesting costume was blue overalls and a bright green dress with red and orange flowers set off by one hose and one anklet. Everyone enjoyed the party very much.

Refreshments of Cokes and doughnuts were served. F. H. A. girls and F. F. A. boys wish to thank Mrs. Jones and Mrs. Bell for such a wonderful party. —Jo Ann Sons, reporter.
