### Veteran Of 3 Sea Battles Says We Underrate Japs

COLORADO CITY, Oct. 3. — He doesn't like to talk about the three major sea battles that he has come through. When the conversations turn toward those encounters in the Pacific his grin grows wary. "You can say that our crew has been in numerous engagements with the enemy," he'll speak carefully, "and that when we left—er—a—where we were— everything was under control."

And that's as far as Harold Lambeth, fireman first class of the United States Navy, will sail with all your questions. He is the son of Mr. and Mrs. O. Lambeth of Colorado City and he is back in his home on a 20-day leave, his first home leave in 14 months.

"Home has changed," he decides. "I didn't know about no cuffs, no hose, no sugar. You see, for the first nine months of the war we were in port only 53 days and were allowed one shore leave in four. You can't do much keeping up in that length of time."

"Specially not with a girl in every port," his pretty younger sister, Ruth, adds.

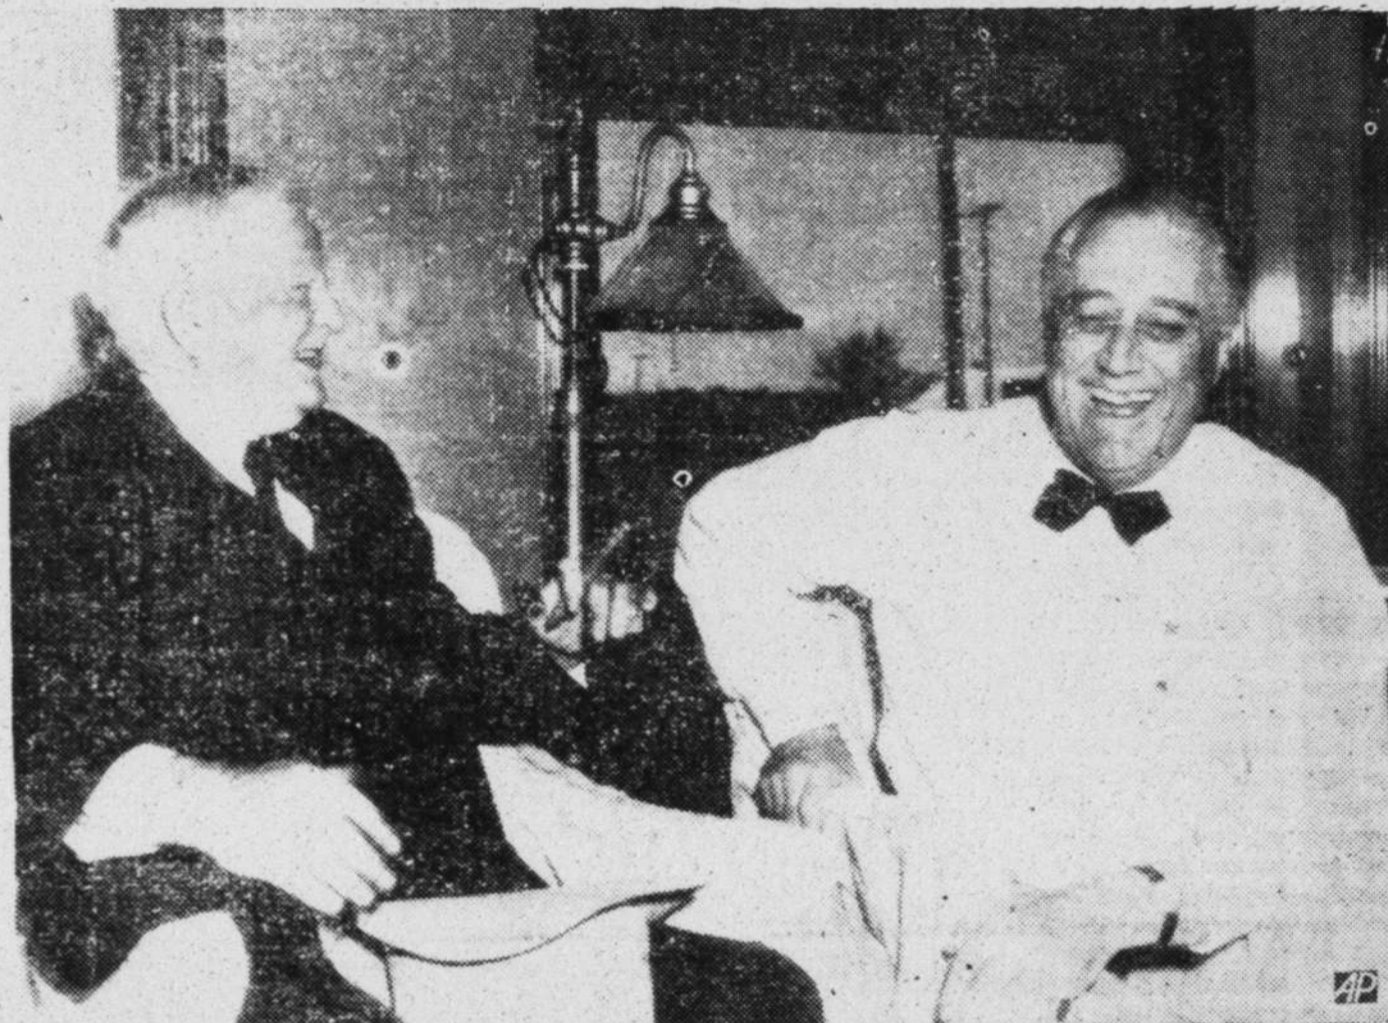

"That" the sailor admits ruefully, "is recruiting propaganda." Lambeth, a 1937 graduate of Lamesa High School, enlisted Oct. 9, 1940. He attended Texas Tech for several terms after high school.

On Dec. 7, 1941, he was 48 hours out at sea. "We pulled out of Pearl Harbor the Friday before. We got the bad news almost immediately. "What kind of a drill is this?" we kept asking ourselves. Then it sank in on us that it was true. We had been attacked. We were at war. We were cruising and we had to miss it that time.

Since that time Lambeth and his shipmates have seen action aplenty. "Only I don't exactly see the action," he explains. "My battle station is aft-o'-gyro — that is below. We hear the encounter. First the big guns; then, coming closer, the smaller guns. Then, all the guns at once. The suspense is something.

Lambeth played guard for three years on the Lamesa High football squad. "It's like blocking for the ball carrier to be below during battle," he muses. "But in the Navy you do what you've been trained to (Continued on Back Page)

### President Holds Reunion With Garner

President Roosevelt and John Nance Garner laugh heartily in their first reunion since Garner left Washington after serving two terms as vice president. They met on the President's special train during a stop at Uvalde, Texas, Garner's home town.

### Lions Club To Give Cash Prizes

The Nation-wide school childrens drive for scrap metals and rubber started this morning, with practically four thousand Dawson County children taking part. Local school children are under the leadership of their teachers, and will endeavor to see that all scrap metals and scrap rubber in this county is turned in to our local scrap buyer.

The following plan has been worked out for the local school children to follow: All scrap metal and rubber that is heavy, should be carried to the scrap buyer. Second, small items of metal which are donated, should be carried by the children to their schools, where bins have been arranged for the different types of scrap donated. At the end of two weeks the schools accumulation of scrap will be delivered to a scrap buyer and will be counted on the schools record.

Pupils who discover heavy items of metal which they may be unable to move because of weight or lack of transportation, are to report these to their teachers, and they in turn will report it to the proper authorities so that the metal may be picked up.

All weight receipts for metal sold are to be shown to the teachers of the pupils who will keep a record of the sales that the schools record in the campaign may be known and that the school may have a verified record for purposes of checking in competition for the prizes to be awarded at the end of the campaign.

The Lamesa Lions Club have announced that they would give two awards to the schools of the county who gather the largest amount of scrap per capita. Their first award will be \$18.75 and the second \$7.35. Both amounts will be figured on a per capita basis and will be in defense stamps.

### EARL W. JACOBS PROMOTED TO RANK OF SERGEANT IN ARMY AIR FORCES

PERRIN FIELD, Texas, October 5. — Earl W. Jacobs, son of Mr. and Mrs. Alva E. Jacobs of 710 South First Street, Lamesa, has been promoted to the rank of sergeant at the Army Air Forces basic flying field here. Sergeant Jacobs has been at Perrin Field since June 5.

Roy Van Liew enlisted last week at South Plains Army Flying School in Lubbock and will be stationed there for training.

war-time Washington. This issue is timely because at no other time has the interest of the nation in their capitol been at such an all-time peak.

### Weeks Meetings At Methodist Church Cancelled

We have been asked to announce that all evangelistic meetings scheduled for each evening this week at the First Methodist Church, have been called off, due to the death of Mrs. Landreth's father in Paducah late Saturday.

Details of the death were not available as we go to press.

### March Of Time At Palace Theatre October 8 and 9

The current issue of the March of Time, "Men In Washington—1942", will be shown at the Palace Theatre on this coming Thursday and Friday, October 8 and 9.

"Men In Washington—1942," pictures what is going on in the Capitol of the United Nations. It shows candid camera studies of the men who are running the war. It shows how people live and work in

### Mrs. W. N. Burks Has Four Sons Serving In Army

Mrs. W. N. Burks, who resides at 702 South Travis Street, Lamesa, is one local woman doing her share for this nations defense. She now has four sons serving in the Army Air Corp.

Sgt. James N. Burks, address censored, and Staff Sgt. Buren M. Burks, who is stationed at Lubbock, enlisted several years ago. Her other two sons, Privates Olvis A. Burks and O. C. Burks, enlisted last week and plan to be stationed at Lubbock for training.

Glenn Boswell, Jr., Paratrooper from Ft. Benning, Georgia, is here visiting his parents, Mr. and Mrs. Glenn Boswell this week.

### Army Exchange Plan For Sugar

Dixie Kilgore, chairman of the Dawson County War Price and Rationing Board, said today he had been advised by the Office of Price Administration that the Army Exchange Service of the War Department hereafter may issue sugar purchase certificates to replace sugar used in products delivered to Army Post Exchanges.

"Applicants seeking the replacement of such sugar should communicate directly with the Exchange Officer at the post where the products are delivered," Mr. Kilgore said. "Further details about replacements may be obtained from the Exchange Officer."

To allow for such replacements, the OPA periodically will reserve an amount of sugar for the Army Exchange Service, Mr. Kilgore was advised. This amount will depend on the exchange services requirements and the prevailing supply situation.

This amendment to the sugar rationing regulations became effective on September 19.

### LABOR SHORTAGE HITS PEAR HARVESTING

SAN JOSE, Calif. (AP) — Orchard labor shortage has caused hundreds of tons of pears to be dumped in various fields in this rich fruit country, says H. V. Beckman, manager of the Pear Growers Protective league. He blamed the situation on failure of the government to permit importation of Mexican workers early enough.

Mr. and Mrs. C. O. Magee and children of San Angelo spent the week end here visiting in the home of her parents, Mr. and Mrs. L. F. Kennedy.

### Rats To Be Poisoned In County Tuesday Night

Dawson County farmers are co-operating in the campaign to kill all rats and mice in the county, and have placed orders for 1074 pounds of "mixed baits" for the poisoning, Tuesday night.

The poison will be mixed in the county agents office and will be distributed to the community centers between the hours of 1 p. m. and 5 p.

m., Tuesday, where each farmer ordering the baits will call for his. Full direction on how the baits should be used will accompany each package.

Every community in Dawson County, and also in Borden County will receive the poison Tuesday and the poisoning of the rats will take place Tuesday night.

**Rites For Mary Elizabeth Bertch, Fred M. Mitchell Read Sept. 20th In Austin**

The marriage of Miss Mary Elizabeth Bertch, daughter of Mr. and Mrs. Thomas M. Bertch of San Antonio, and Mr. Fred Marlin Mitchell, Jr., son of Mrs. Bertha Mitchell of Lamesa, took place Sunday, September 20, at 5 p. m. at All Saints Episcopal Church in Austin. The Rev. Henry R. Remsen officiated. Burton Charles Williams of Austin sang, "Because," and "O Perfect Love," as the pre-nuptial music. Miss Jean Beshell, maid of honor and the bride's only attendant, wore a soft beige wool dress with black accessories. Her corsage was of wine carnations.

The bride, who was given in marriage by her father, wore a soft light weight wool dress in powder blue. Her black fur felt off-the-face hat was adorned with matching blue feathers. Her accessories were also of black. She carried a white prayer book covered with white roses and sprays of stephanotis.

The bridegroom was attended by Wright Grant Boyd, of Baylor University, Waco, as best man.

A reception was held after the wedding at the AOPi house, and Misses Jean Strawbride, Elizabeth Haase, Jean Dickson, and Eileen Hickok, assisted in serving. Miss Louise Carr was in charge of the bride's book.

Among the out-of-town guests were Mr. and Mrs. Thomas M. Bertch, parents of the bride and Miss Sybil Mitchell of Fort Worth, sister of the bridegroom.

Both Mr. and Mrs. Mitchell are students at the University of Texas. Mrs. Mitchell is a Junior Plan 11 student and is Recording Secretary of Alpha Omicron Pi sorority and officer of the YM-YMCA. Secretary-Treasurer of Orange Jackets and a member of the Classical Club. She was a Bluebonnet Belle nominee in 1940 and 1941. Mr. Mitchell is a senior business administration student and a member of Phi Eta Sigma honorary fraternity.

The young couple are making their home at 107 E. 20th, Austin, where they will continue their studies at the University of Texas.

## Bath By Uncle Sam

Kiddies can sympathize with this big Doberman, being trained down here in Texas for war duty, but after the soap is rinsed from his eyes and ears he'll be ready for another romp with his buddies. The handler administering the old-fashioned tub bath is Staff Sergeant John May of Rochester, N. Y.

## Note To Farm Truck Operators

County agricultural agents in Texas are helping acquaint owners of farm trucks with the new government orders which vitally affect them, says George E. Adams, vice director and state agent of the A. and M. College Extension Service.

A new regulation of the Office of Defense Transportation requires a Certificate of War Necessity for the operation of farm trucks as well as other trucks, busses, and taxis. The regulation becomes effective Nov. 15.

"The Extension Service is interested in helping farmers and ranchers conserve their equipment for war purposes," Mr. Adams explains.

Certificates of War Necessity will govern a truck's maximum mileage

or minimum loads, or both, and no operator subject to the order will be able to obtain gasoline, tires, or parts without a Certificate. Enforcement officers of all states and political divisions have been authorized to report violations of the order.

Owners and operators of farm trucks and other commercial vehicles will make applications for their certificates on forms supplied by field officers of the ODT. They will also be required to keep records of their operations.

The Army and Navy are calling for 3,000 graduate nurses a month for the next twelve months. Many of these will be taken from civilian institutions. During the year ending June 30th, about 45,000 new students were admitted to schools of nursing.

## Stanton Packing Plant Will Furnish Home Market

John B. Harvard and H. A. Emerson, representing the Stanton Packing Co., spent last Friday in Midland. The close location of the new packing plant for the killing and processing all kinds of livestock to Midland makes this new enterprise extremely interesting not only to the people of Midland, but to every producer and consumer of meat within 200 miles of Stanton.

M. G. McConal of Midland was visiting with Arthur Reed of the Feed & Produce Co., Stanton. Mr. McConal is feeding the garbage from the Flying School camp at Midland, to a very large number of hogs. He reported the sale of 160 prime hogs at \$14.65 per hundred. These hogs when finished weighed about 250 pounds. The price paid for the hogs was the top Fort Worth quotation the day they were sold, which was only 15 cents per hundred under the ton quotation for the hogs in Chicago.

Farmers cannot do anything on the farm that will bring them more net money than raise and finish hogs so long as the market is above \$12 per hundred.

The building of a large packing house between Stanton and Midland

on Highway 80, will mean a permanent home market for all the livestock within trucking distance at net prices to the farmer of the Government top quotation for carlot of livestock of the same quality and grade.

### Government Inspected

The United States Government, at their own expense, will have inspectors at the Stanton packing plant to pass on the livestock as well as the dressed meat, and it is an insurance policy to the consumers of Texas and the States which order meat from a Government inspected warehouse that the meat was healthy and in good condition for killing and processing at the time it was killed, and that the finished product offered the consumer from packing house is of absolute certainty . . . the proper quality of meat to be served upon the table at homes as well as to feed our soldier boys on the battlefield.

### Government May Pass Law

It is more than likely that the Government, in order to protect home consumers, will very soon pass a law making it illegal to kill, process, and distribute any meat which has not been Government inspected both before and after killing.

### Credit to Senator O'Daniel

Credit must be given Senator Lee O'Daniel for his constantly urging the development, building and operating plants in the State of Texas. John W. Ashworth of New York was deeply impressed with the word picture Senator O'Daniel made

of "Beautiful Texas" and the opportunities which exist here for the building and operating processing plants and factories in which he was invited to come to Texas.

A letter is at hand from the Agriculture Department in Washington expressing a desire that a strictly first-class up-to-date packing and processing plant be established in this section of West Texas. —Stanton Reporter.

### THEY SET A SKUNK TO CATCH AN ODOR

NYACK, N. Y. (AP) — Here's man-bites-dog news: a skunk was used here to trace the origin of an odor so bad it made work at the Bear Mountain Trailside Museum impossible.

Officials of the museum brought the skunk into the museum, then followed it as it tracked down the odor. Source of the scent was found to be rotting meat, stored by rats in the walls of a nearby building.

**Navy Wants Men For Hospital Duty**

A call for first-aid instructors, pharmacists, hospital attendants, laboratory technicians and even men who have a general knowledge of chemistry and botany was issued today by Lieut. L. H. Ridout, Jr., officer in charge of the U. S. Navy recruiting station in Dallas, with promise of special ratings in the Navy hospital corps.

Lieutenant Ridout said there is an urgent need at the present time for men with experience in pharmacy, hygiene, sanitation, medicines, first aid and all related work.

Ratings are open from hospital apprentice, second class to pharmacist's mate, second class, with base pay ranging from \$54 to \$96 a month, in addition to allowances. Lieutenant Ridout pointed out that the lowest rating given in the hos-

pital corps is hospital apprentice, second class, which calls for \$54 a month base pay, equivalent to the pay of a first class private in the army.

Men who qualify for the rating of pharmacist's mate, second class could be registered pharmacists, laboratory technicians, registered male nurses and college graduates who might have studied subjects applicable to duties in the hospital corps.

The rating of pharmacist's mate, third class might be given to licensed emblamers, dental technicians and men with standard, advanced and instructors' courses in first aid.

General first-aid work would qualify a man for hospital apprentice, first class, while the rating of hospital apprentice, second class would go to those having a suitable education and show an interest or aptitude for medical corps activities.

### Corp. Bob Wade Writes Of Work At Fort Sill

The following letter from Corp. Robert L. Wade, a former Lamesa man, and Courier employee was received this week:

Fort Sill, Oklahoma,  
Sunday, September 27  
Dear Joe and Courier Gang:

After 10 days here at the school, I have decided that there's plenty more to being an officer than just joining the Army. We haven't slowed down since getting here the 15th, and from all I can find out, the pace continues until a man either finishes or gets thrown out.

Another thing is that, after being here, I'll never call a man who finishes a 90-day wonder in the old sense of the word. I'm beginning to wonder myself, just exactly how they manage to get through and remember ten per cent of all that is thrown at them. It's really amazing, all the knowledge one is expected to acquire in the three months spent here.

Finished the first phase, of my schooling today, that which applies to motors, trucks, etc., and can now (or supposed to be able to) adjust brakes, adjust carburetors, wheel bearings, fix the fuel system, ignition system, and various other sundry part about a G. I. truck.

This week we start the study of material, which is the nomenclature of the various implements of war. Then after a week of this, start the actual work on the guns, with six week devoted to that. In fact since joining the army, I've only completed a little over half of the required work necessary to get where I started, and it still isn't a cinch by any means.

Hope that business is booming, and the fall rush is getting underway.

As ever,

## Texas Defense Guards Make Bombs

Officers at the Camp Bullis training camp produce "pineapples" and "pota mashers" from scrap, tin cans and dynamite. Left to right: Lt. William B. Evans, Sherman, Tex.; Capt. A. L. Van Haverbeke, New London, Tex.; Maj. Thomas Gahagan, instructor and inspector, Adjutant General's Department, Austin; Capt. C. S. Dougherty, San Antonio; and Capt. Edward S. Murdoch, of Dallas.

When the Civil War broke out, only about 13,000 men were under arms.

do. Later you can find out how we fared."

Somebody asks the lad if his ship has been bombed from the air during any encounters. "Bombed at," he laughs. "There's a difference. It's pretty thrilling when they hit the water."

He's willing to tell about the war in general.

He'll tell you he'd like to meet a WAVE. That everybody things Texas owns the Navy because Texans talk about their State so much. That he saw Wilson Wyatt (Mitchell County boy who was later re-

ported missing in action) in Manila. That people at home underestimate the Japanese.

He'll look you in the eye and tell you that he's ready to mix it again when he gets back to San Francisco and is assigned new construction. He has been transferred since the latest action in which his ship took part. "Sure, I want to get back. We can't win sittin' down!"

But he won't talk to you about the visit he made to Gladewater to talk to the parents of his missing shipmate Bryan Baugh, or the conversation he had with relatives of Jack Morgan of De Leon. A shipmate, reported killed in action. He has no words about Ensign Frank Harris of Brownwood, who was reported killed in action and whose mother, visiting her brother in Colorado City, sought Lambeth for such details as he might speak.

But the sailor who is the modest hero of Colorado City will show you his "wound." He rolls up his sleeve. "You can't say I came through three Pacific battles unscratched!" He exhibits a tiny scratch on his elbow, and then a frown puckers his face. "But how in the world that got there—"

Harold is a former Lamesa resident and was visiting Joe Spikes and other friends here Saturday, and expects to return in a few days for a longer visit.

## Five Dawson County Men Join Army Air Force

LUBBOCK ARMY FLYING SCHOOL, Lubbock, Texas, Oct. 3—Five more Dawson county men with mechanical or technical ability and experience have been enlisted directly into the Air Forces by the Lubbock Army Flying School to become mechanics and technicians.

Men recently enlisted include Richard Medley of Welch, Phillip W. Reeves of Route C, Lamesa; Billie S. Braswell of Route 2, Lamesa; Harvey J. Hanson of Route B, Lamesa, and Henry F. Barfoot of Lamesa.

These men have been sent to Fort Sill, Okla., for processing, but soon will be ready for assignment to duty on the flying line repairing and maintaining planes used in training the future flying officers of the air forces.

Men with mechanical or technical training interested in enlisting directly into the Air Forces should see Capt. W. B. Marschner, post technical procurement officer for the Lubbock Army Flying School. Non-commissioned officer rank usually is attained by capable men within a reasonable length of time.

## Air Corps Needs Bandsmen

A considerable number of vacancies now exist in bands of non-combat installations. These vacancies are to be filled, insofar as possible, by the enlistment of men between the ages of 45 and 50 years who meet the requirements for enlistment and who are qualified mutance for original enlistment of men qualified for limited service only is not authorized. Therefore, bandsmen voluntarily enlisted under this authority must meet the physical standards prescribed for general military service. The acceptance for original enlistment of bandsmen between the ages of 45 and 50 years is an exception to the general policy of not accepting for original enlistment men who have attained the age of 45.

This is a real opportunity for qualified musicians within the age limits indicated to enlist for service as bandsmen. The military service has the highest type of musical instructors and leaders. Salaries compare favorably with civilian incomes for those who have specialized training.

Bandsmen qualified to play one or more of the following instruments are needed: Flute-Piccolo, Clarinet, Bb; Saxophone, Alto; Saxophone, Tenor; Saxophone, Baritone; Cor-

## Many To Enlist In Navy During Month Of October

After smashing for the third consecutive month all-time naval enlistment records, the North Texas district is in the midst of the busiest October in its history, Lieut. L. H. Ridout Jr., officer in charge, said today.

"Everything in a recruiting way is being done with the expectation of making the first World War II Navy Day, which falls on October 27, a day of real celebration," he pointed out. "By that date, we hope to have enough enlistees to make the Axis partners squirm."

Building up to the Navy Day climax will be four visits to the Dallas station by Seabee interviewers and the first physical instruction conferences in many months.

Seabee applicants will be assigned ratings October 4, 5, 6, 11, 12, 13, 18, 19, 20, 26, 27, and 28. Coaches and physical instructors who wish to apply as chief specialists in the Navy will be interviewed in Dallas October 12 and 13 by representatives of Commander Gene Tunney.

Lending momentum to October plans are the glowing enlistment results achieved during September. Lieutenant Ridout said. In thirty days, 3,397 men were sworn in, 154 more than joined the Navy in August. The banner month boosted to an impressive 13,400 recruits the number of men who have become bluejackets since Lieutenant Ridout assumed command of the district six months ago. During the 32 months prior to his appointment, 13,500 recruits left the North Texas district.

Winner of the Navy "E" award for the third consecutive month was the San Angelo district, which far exceeded its September quota. Dawson County was assigned a quota of 18 recruits and contributed 14.

## PROCLAMATION

By The

GOVERNOR OF THE STATE OF TEXAS

To All To Whom These Presents Shall Come:

WHEREAS, the prevention of fires is of vital importance to the success of the nation's war effort; and

WHEREAS, the production of materials essential to the prosecution of the war by our nation is taxing the capacity of industrial plants, and curtailment of production because of fire becomes a menace to our own safety; and

WHEREAS, war production has made it necessary to stop the manufacture of many lines of civilian goods, including buildings materials; and

WHEREAS, throughout its history the State of Texas has suffered loss of lives and property due to fire; and

WHEREAS, statistics on fire losses reveal that the cause of fires, to a large extent, can be controlled by intensive education and intelligent law enforcement; and

WHEREAS, due to the national emergency during time of war, the safety of human lives, and in the interest of sound economy, it is the patriotic duty of every citizen in Texas to aid in the prevention of fires;

NOW, THEREFORE, I, Coke Stevenson, Governor of the State of Texas, hereby proclaim the week of October 4 to 10, 1942, as

### FIRE PREVENTION WEEK

in Texas. Citizens of Texas, particularly civic, school, Civilian Defense, and municipal organizations, are called upon to emphasize the danger of fire and to encourage the adoption and enforcement of fire prevention rules and regulations in an effort to lessen the disastrous consequences of fire.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the official seal of the State of Texas to be affixed hereto on this the 15th day of September, A. D. 1942.

COKE R. STEVENSON, Governor of Texas,

(Seal) Wm. J. Lawson, Secretary of State.
