The Talco Times

COMPLETE NEWS AND ADVERTISING COVERAGE OF THE GREAT TALCO OIL FIELD

VOLUME VI — TALCO, TITUS COUNTY, TEXAS, FRIDAY, SEPTEMBER 26, 1941 — NUMBER 33

Two Wells Nearing Pay Talco Field

Highlights in the Talco field this week are two rigs operating. V. A. Hughes is taking core test on the Haden No. 2 in West Talco, with depth around production.

Humble Company is nearing pay on the Temples No. 6 in East Talco, with depth at 4100 feet. After completion the rig will be moved back to the west side side for a location on the J. C. Young heirs No. 7.

Humble has a recent potential rating on the Dawson No. 15 which pumped 69 barrels in five hours.

Talco was given a small decrease in allowable for the October production. September daily allowable was 27,444 and the October decrease cut 286 barrels off of that amount.

Titus County is Getting Set for Fair-Dairy Show

Final preparations are being made this week for the opening on Tuesday, Sept. 30, of the Titus County Fair and Dairy Show, with many communities already having reserved booths for exhibits. Officials urge that everyone make reservations for space not later than Saturday.

The opening day, Tuesday, will be the day for judging all agricultural booths and individual agricultural interests. Poultry judging will take place on Wednesday, and horses, mules and beef cattle will be judged Thursday. Dairy cattle will be judged on Friday and is expected to climax all other events.

The second annual World Championship Rodeo, in connection with the fair, will begin Thursday night.

Temporary Inmate Has Narrow Escape When Jail Catches on Fire

A temporary inmate of the Bogata city jail narrowly escaped being seriously burned when the building caught fire Sunday night. Fred Graves, DeKalb, who had been locked in the jail not less than an hour before by J. W. Corbell, constable, could have been fatally gassed or burned if the firemen had not forced the door.

Although it is not definitely known how the fire started Constable Corbell believes that Graves set fire to the bed.

When firemen arrived the bed had been destroyed and the roof was burning. If they had arrived a few minutes later Graves might have been rendered unconscious by the fumes. There was little damage except to the bed.

Graves was taken to Clarksville by Corbell and lodged in jail.

MRS. CRAWFORD ENTERTAINS BRIDGES CHAPEL LADIES

Ladies of the WSCS from Bridges Chapel were all day guests of Mrs. W. H. Crawford Tuesday. Those present were Mrs. Birdie Lawrence, Mrs. Ella Rosser, Mrs. C. H. Howard, Mrs. Morris Stewart, Mrs. A. H. Arnold, Mrs. Lewis Cabin, Mrs. Hershel Black, Mrs. Lewis Chism, Mrs. Boyd Horton, Mrs. Hollis Moulton, Mrs. Annie Foschee, Mrs. Clifton Kerksieck and Mrs. Jones. Mrs. E. Unsell came in the afternoon.

A quilting party and a beautiful program was rendered for the entertainment of the day.

Red River Draftees to Again be Negroes

Red River county local draft board will send seven negroes to army training camps during October, according to an announcement by M. L. Wren, draft board secretary. No whites were requested on either the September or October calls because of the high percentage of volunteers from the county into regular forces, it is explained.

NEW MODEL CHEVROLET ON DISPLAY SEPTEMBER 26

The new 1942 Chevrolet, featured as the finest Chevrolet of all time, will be on display Friday, Sept. 26, according to an advertisement in this edition. One of the outstanding features of the new car is the valve-in-head "Victory" engine.

Newspaper Week to Be Observed Oct. 1-8

The nation's daily and weekly newspapers will observe national newspaper week from Oct. 1 to 8 with a $1,000,000 promotion program stressing a freedom-of-the-press theme.

Plant visitations, civic club meetings, newspaper exhibits and promotion advertising will feature the program in more than 5,000 communities.

Fall Comes in With Wet Feet, Flapping Coat

Fall opened in this area with heavily clouded skies that began spitting rain Tuesday night and switched to a high, rain-laden wind Wednesday morning.

The rainfall amounted to nearly two inches over most of Titus county.

The rain halted harvest of the cotton crop, which was moving into the third week in this area, also stopping other farm activity. Most farmers, however, have been keeping up with the cotton as fast as it opened and little waste is expected to be reported as a result of the rain. Much of the corn crop had also been gathered and put in cribs before the rain started.

Though retarding the harvest of cotton and corn, the rain is lauded as beneficial to fall gardens, late row feed crops and pastures.

Old timers say the flurry is a part of the annual "equinoctial spell" and that it was intensified by the hurricane sweeping the Texas Gulf coast.

Tuesday was the occasion of the Autuminal Equinox, the sun being directly over the equator at 4:33 o'clock a. m. The days and nights are now of equal length, and the nights will continue to grow longer until December 22.

Wildcat Test to Be Drilled in Delta Co.

First wildcat test for Delta county in many months has been announced by the Talco Asphalt and Refining Company. The wildcat, for which the farm name is not available, will be located in the W. Ewing survey, just across Sulphur river from the Peerless area of Hopkins county. It will be contracted to the Paluxy sand, but may be carried deeper providing no production is found to that depth.

The wildcat is located on a farmout from the Gulf Oil Corporation, two miles west of a tentative location previously announced for the Griffith Merrick survey. It is understood the Gulf, a large acreage holder in the sector, insisted on the change in location.

The Peerless area of Northwest Hopkins county has been popular for some time but no test has been drilled. The Skelly Oil Company recently went into the area and took 1,200 acres, paying $20 an acre for its holdings. It is reported the Sun Oil Company and the Magnolia Petroleum Company have protective acreage in the sector.

Titus Schools to Get Reference Books

Fifteen sets of Junior Brittanica, twelve volumes each of standard reference books, will be distributed to standardized schools in Titus county, according to an announcement stating the sets had been received at the office of County Superintendent Joe B. White.

The sets are said to have bene donated by a mail order concern which could not dispose of them because they were prepared for sale in Great Britain and the war prevented shipment of them.

Deep Test on Henry Farm is Underway

Magnolia's deep test for oil on the John Henry farm a mile and a half northwest of Fulbright got underway at 3 o'clock on Wednesday afternoon. It was drilled to 250 feet on Monday and surface casing 13⅜ inches was set in cement and allowed to harden for forty-eight hours. Thursday evening the hole was 1140 feet deep.

Four crews of five men each, along with a superintendent, working six-hour shifts are employed, and with the big rig that is being used, should make rapid progress. Three big boilers, burning natural gas from the Lone Star Company's nearby line, supplies plenty of power, and the Kerbow lake water supply is being used. This rig came from the company's Louisiana field and is capable of drilling more than 10,000 feet. The derrick measures 135 feet, the largest ever set up in Red River county, and is attracting daily crowds of sightseers and lease and royalty buyers.

Report has it that this wildcat test is projected for 6,500 feet.

It will be some satisfaction to land owners in the Magnolia block of about 18,000 acres, to know that the rig in use is capable of much greater depth if the company elects to drill deeper.

Location is in the MEP&P survey, 700 feet south of the north line and 640 feet east of the west line of the 100 acre tract and survey.

Ten to twenty dollars an acre is being offered for one-half royalty in the vicinity of the well and prices on leases are quoted at from $2 to $5 an acre. Some royalty has been purchased west of the well, and the Mosley school tract of three acres lease within one-half mile of the test has been sold for $50. Much of the southwest fourth of Red River county as well as a large part of southeast Lamar will become involved in lease and royalty deals as the bit goes down.

New Businesses are Added in Talco

Talco is sporting two new businesses and will have a third in a short time.

One new business is located on the new highway, one block north of the Calvary Baptist Church. It is owned by O. B. Hopwood, who will operate a sandwich shop there.

The other business is the Fred Cipple's well servicing company, with office located in the Pittman building on Broad street.

E. W. Smith will start construction Monday on a service station on the highway near Mr. Hopwood's place.

Officers Return with Abilene Man

Reportedly charged in connection with a hijacking attempt and attack upon Dr. Fred Taylor of Winfield about a year ago, Bill Calhoun was arrested in Abilene and returned to Titus county last week by Sheriff Earl Albright and City Marshal Coy Coker of Mt. Pleasant.

Bond was posted by relatives, it is stated, and Calhoun now awaits trial, expected during the present term of district court.

Humble Broadcasts Football Games Again

Humble Oil & Refining Co. is again sponsoring weekly radio broadcasts of Southwest Conference football games, it is announced. This makes the seventh consecutive year in which the Humble Company has brought play-by-play radio descriptions of these games direct from the fields to the football fans throughout the nation.

OLDEST NORTHEAST TEXAS MASON DIES AT PITTSBURG

J. W. Thomas, 98, died last Friday at his home in Pittsburg where he had resided for the past half century. He held the distinction of being the oldest member of the Masonic fraternity in Northeast Texas, having been a Mason for more than 70 years.

Trojans Open Season With 14-7 Victory

Scoring a 14 to 7 victory over Hughes Springs, the Talco Trojans struck their stride in the opening game of the season Friday night in the Talco stadium before a crowd whose admission money pushed gate receipts to $110.05.

The two teams locked horns during the first half and came out scoreless, but the Trojans turned the tide early in the second when Ray Holder crossed the line for the opening count. Attempt for extra point was blocked. Two points were added to the Trojan bag shortly, however, when Hughes Springs attempted a kick out and was blocked back across the goal line.

Clyde Holder made the second count for the Trojans when he received a pass from Lindsey on the 40-yard stripe. Try for extra point again failed.

The score for Hughes Springs came late in the last quarter when a Hughes Springs man caught an intercepted pass and ran unopposed for nearly 50 yards to cross the goal line.

The Trojans go to Winnsboro Friday for their second game this season.

Mr. Dunagan expresses appreciation to fans for the splendid support given the Trojans last Friday night. The gate receipts were $110.05. Tickets sold on advance sale (Monday, through Thursday) for 15c and 25c; at the gate for 20c and 30c.

Game expenses:

Hughes Springs contract	$40.00
Three Officials	17.50
Tickets and Schedules	3.50
Ten sacks of lime	5.00
Telephone calls, other ex.	4.00
Total expenses	$70.00

Fall Term of District Court Opens Monday

Fall term of District Court in Titus county was opened Monday by Judge Sam Williams who announced that the session would probably be faced with an unusually large amount of work. The term will last five weeks.

Following the opening of court a new grand jury was selected, members of which are: Elbert Jones, foreman; T. W. Holmes Jr., Jim Bell, Dewey Blackstone, E. R. Gingles, Norris Pope, Everett Redfearn, L. A. Duncan, Alex Justiss, M. H. May, Luther Taylor and L. M. Borden. Robert Gregory and John Brooks were named riding baliffs and Roland Allen, door baliff.

Admonishing the jurors on their responsibility of keeping down crime in the county, Judge Williams stated that every twenty-two seconds some major crime is being committed in some part of the United States.

Court was adjourned Monday, after the reading of the docket and setting dates for cases.

Talco Man Dies in Paris Hospital

Robert S. Helton of Talco, 69-year-old farmer, died about 3:30 p. m. Wednesday at a Paris sanitarium where he had been under treatment about three weeks. He leaves no immediate relatives, his wife having preceded him in death.

E. Unsell, Talco funeral director, had charge of arrangements for the service held some time Thursday afternoon at Green Hill cemetery.

Franklin Tax Rate is Lowered to $1

Frankln county's tax rate has been set at $1 on the $100 valuation, according to the Mt. Vernon Optic-Herald, which represents a reduction of 20 cents from last year. A 1942 budget set up on this basis has been adopted by the Commissioners' Court.

Byrd-Frost Co. Raises Salaries

Out of recent raises given by all oil companies in the Talco field, the Byrd-Frost Co. has given one of the best. All employees, including office workers, pumpers, roustabouts, in fact everyone working for the company will receive a 17% increase hereafter on their pay checks.

Realizing the rising cost of living, due to National defense, the companies in the field are really staying with their men, which is an aid to national defense.

Titus Farmers May Get Cotton Classed Free

Cotton farmers in Titus county may now get free government classing through the Dallas office, according to T. B. Anderson, chairman of the Crop Improvement Committee. Fred Traylor, E. L. Campbell and Mr. Anderson compose the committee for Titus county and had previously made application for this service.

The Mt. Pleasant warehouse has offered and has been accepted as the agency to pull samples and forward them to the Dallas office and the work has already started for farmers who are requesting it. Reports of the grade and staple are being received at the farmer's mail box the second day after the sample is sent in.

This service doesn't cost the farmer anything, Mr. Anderson says, the government pays all expenses including postage. A farmer can have the cotton that he wants put in the government loan graded and stapled by this method, or he can get the services on the cotton that he sells on the street. The street buyer can accept the government classing or he can insist on seeing the sample from the bale, according to Mr. Anderson, and the farmer can even sell the cotton before getting the government classification.

Thompson Infant Buried on Sunday

Terry, 15-month-old son of Mr. and Mrs. Clyde Thompson of Sulphur Springs, died early Saturday morning, following an illness of short duration.

Funeral services were conducted at 10 o'clock Sunday morning at Tapps Funeral Home at Sulphur Springs with Rev. H. R. Long, pastor of the First Baptist Church, in charge. Interment was made in the city cemetery.

Mrs. Thompson was before her marriage Miss Athelene Holder, daughter of Mr. and Mrs. Clyde Holder of Lavada. Those attending the funeral from here were: Mr. and Mrs. Jim Morris, Mrs. Elmer Cato, Mrs. Felix Jones, Mr. and Mrs. Jack Thompson, Mr. and Mrs. L. L. Reed and children, Lyndon and Marie, Mrs. Carl Tapp, Mr. and Mrs. Clyde Holder and son, Clyde Wilkie.

Talco Street Work Stopped by Rain on Wednesday

Work stopped on the oiling and grading of the Talco streets Wednesday when a heavy rain accompanied with high winds made grading impossible.

Practically every street in Talco has received a coat of oil. Some of the streets lacked covering when the rain came. However, the grader will begin work as soon as the roads dry.

A little more money is needed to complete the job, and Chamber of Commerce officials ask that citizens who have not paid their share for the work to see the committee so that work can be completed.

Cotton Brings 20c Per Pound at Clarksville

A bale of staple cotton was sold last week in Clarksville for 20c per pound, according to the Clarksville Times, which stated that was the highest price paid for cotton at that place since the fall of 1939. The bale was purchased from Burl Wolf.

Local Boys Featured in College Game

It was Talco, Deport and Bogata a lot of the way in Friday night's Paris Junior College vs. Eastern Oklahoma football clash at Noyes stadium in Paris, with a 20 to 0 score favoring the Dragons. Cecil Johnson, Talco High School star of other days, did a swell job of punting, converted twice out of three tries, and came near getting away for a touchdown in the opening kickoff.

Sonny Fagan, Deport's speedster, crossed the goal line twice standing up, but one of them was called back. His work was outstanding in the game.

Big Bill Hammond, glue-fingered pass snatcher, former Deport Tiger star, also scored on a pass from Casey.

There are eight men from Deport, Bogata and Talco on this year's Dragon roster, and a ninth who formerly lived at Deport. They are—

Talco—Cecil Johnson, back, and toe artist, and P. Boyles, former Trojan tackle.

Bogata—F. Branson, hard-hitting back, and J. Scarborough, big 190-pound tackle.

Deport—J. Griffin, S. Fagan, T. Furgerson, J. Wooldridge and Bill Hammond.

Mt. Pleasant Youths Injured in Auto Mishap at Deport

Two automobiles were badly damaged and three persons slightly injured about midnight Saturday in a collision on Highway 271 in South Deport.

The accident is said to have occurred when a V-8 Ford belonging to Wesley Thompson of the Fulbright community, occupied by himself and three other young people, stopped near the bridge over Mustang creek to examine a tire. They were outside of the car, reportedly stopped partly off the roadway, when an automobile belonging to Ray Johnson of Mt. Pleasant, headed in the same direction, crashed into it when the driver was blinded by the lights of a car going west. The Johnson car was a 1941 Dodge and was said to have been occupied by Mr. Johnson, Efton Redfearn and another Mt. Pleasant youth. They were slightly injured, Redfearn being cut about the nose, and received treatment at the Grant hospital in Deport.

Talco Gin Plant Going Up Rapidly

Rain Wednesday morning halted construction work on the Talco gin, which was making rapid headway. With another half of a day's work the seed house would have been completed.

Frame work for the gin proper is up and workmen were putting on sheet iron when the rain came.

Members of the Co-op Association have reconciled themselves to the fact that the gin will not be completed this year, but are looking forward to ginning their cotton here next year.

Lamar Grand Jury Returns 16 Bills

Sixteen indictments were returned by the September term grand jury of 6th district court held in Paris, which recessed Friday until Oct. 20. Two of the indictments were for murder, one for assault with intent to rape, one on a charge of failing to stop and render aid and three for chicken theft.

BARGAIN SUBSCRIPTION FOR SOLDIERS-STUDENTS

Send this home-town newspaper to that boy or girl going away to college, or the boy in Uncle Sam's new army. The price is a bargain—nine months for only $1.00. You could not spend so little and give them so much genuine pleasure and satisfaction in anything else you could buy for a dollar. Send or mail in your order.

GARDENERS TOLD NOW IS TIME FOR FALL PLANTING

COLLEGE STATION.—Don't limit your fall garden to turnips and greens alone, cautions J. F. Rosborough, horticulturist of the A. and M. College Extension Service. Carrots, beets, English peas, radishes, beans, collards, cabbage, mustard and lettuce will grow as well in fall gardens.

Now is the time, Rosborough says, to rid the garden of weeds and plow it three or four inches deep. Chop up clods until the earth is thoroughly pulverized. If this is done now the soil will be ready for planting as soon as moisture permits.

If there is adequate moisture, vegetables which can stand the heat of September and October may be planted now. But don't make the mistake of planting those which will not withstand heat. In addition to mustard greens and turnips, he suggests onions, white potatoes and radishes. In areas where frost is not likely to occur until late November, the potatoes should be planted now. Bliss Triumph is a quick maturing variety.

When this planting is done, fill an old tub or box about two thirds full of dirt, mixing equal parts of rotted manure and loam. Then plant about one quarter ounce of cabbage seed, covering not more than a quarter inch deep. When the weather is cool the plants will be large enough for transplanting. Copenhagen market is a good variety.

Cool season vegetables should not be planted until October because heat burns the plants. A hundred feet of carrots, using Nantes or Danver's Half Long varieties, will provide a supply throughout late winter and early spring. Beets, using the Detroit Dark Red variety, should be grown as a fall, winter and spring vegetable. Thin when the plants attain three inches. Spinach thrives best in limy, well-drained soil, and under cool climatic conditions.

In areas where hard freezes are apt to occur, a frame garden 6x20 feet made of planks with a cool or glass sash cover will produce mustard, lettuce, onions, radishes, beets and carrots until Christmas.

Seven Wise Men from Near East

Some years ago, King Carol told Bruce Lockhart how he had selected 14 of the brightest men in Rumania for training in the government service. Seven he sent to England, seven to America to study the economic and political systems. "The seven who went to England were very smart," said Carol, "and they all now have important posts in Bucharest."

"What about the seven you sent to America?" asked Lockhart.

"They were even smarter," said the King. "They stayed there."—New York Post.

Army Has Plenty of Ties for Trainees

The War Department ordered enough neckties and cap braid last week to supply every man in the army with two ties and a yard of braid and have some left over.

Orders were placed for 1,400,000 black ties, 2,000,000 khaki ties and 1,740,000 yards of cord braid for saps.

CUNNINGHAM SCHOOL ADDS NEW TEACHER

Students registered on Sept. 12 for the school term in the Cunningham school. The enrollment was very good, considering the fact that many students are having to work in the cotton fields this year later than usual.

For the past few years this school has experienced much growth and progress. This year it will experience a greater growth in enrollment than at any previous time. With the addition of a new teacher to the system the teaching load of the system will be better balanced than it has ever been before.

The curriculum of Cunningham school offers an unusually wide variety of subjects for a school of this size. This has been made possible through the wise forethought of the school board and through very careful selection of faculty members along with hearty cooperation of school patrons.

Mr. McGahan, superintendent, is beginning his fifth year as head of the school. He begins this year with the enthusiasm that he has had in the past, and he hopes to see a year of growth and a year of happiness among students, faculty members, school board and patrons.

Faculty members this year include F. E. McGahan, superintendent; Clifton Guese, principal; R. E. Kirby, business administration; Mrs. F. E. McGahan, English; M. D. Humphrey, vocational agriculture; Miss Julia Ellis, home making; Mrs. Lucille McGuire, seventh grade; Mrs. Mae Roby, sixth grade; Miss Evelyn Hutto, fifth grade; Mrs. Gerenia Spear, third and fourth grade; Miss Lillian Crumley, first and second grades; W. T. Lawrence, industrial eduaction. Mrs. Cilftton Guest is substitute teacher.

Cunningham school board includes Curtis Yancy, pres.; Ira Temple, sec.-treas.; Roy Holt, Jim Davis, Zeb Page and Harry Slusher. The board is highly commended for their many efforts in promoting a progressive school program.—Reporter.

200,000 Soldiers to be Released by Jan. 1

Plans have been announced for the release of 200,000 men in army service by the first of the coming January. They are to be men who are needed at home or are in some way disabled.

Largest number to be discharged will be from the Third Army, with headquarters at San Antonio, where 46,000 will be released. 39,000 will leave the First Army, headquarters at Governor's Island, New York, and 19,000 from the Second Army, headquarters at Memphis.

JUST WHY

"Now my son," said the father, "tell me why I punished you."

"That's it; first you pound the life out of me, and now you don't

In Talco Four and Five Years Ago

From the Back Files of The Talco Times

Week of Sept. 25, 1936

Luther L. Gieger had resigned his position as minister of the Church of Christ to accept a place as teacher in a school in Illinois.

Mr. and Mrs. Jim Morris and Mrs. Clyde Holder had accompanied Miss Athleene Holder to Commerce, where she was to enroll in school.

Humble Co. had completed a well in the camp on the No. 1 N. B. Davis, which pumped 25 barrels daily.

The new $10,000 Talco theatre had opened on Friday, with seating capacity of 500 persons.

Bogata people were conferring with Talco people in regard to extending the gas line from Talco to Bogata.

Week of Sept. 14, 1937

Talco Trojans had a football game scheduled with New Boston on the home field. Sonny Gage was captain of the Talco team.

D. J. Jones, Talco oil field worker, was burned when a lamp overturned, igniting a bucket of gasoline. He was carried to a hospital for treatment.

Miss Imogene Thurman had resigned her position with the Hopwood drug store and planned to enter college.

The Talco Methodist church had purchased a house to be moved to the church lot to be used as a parsonage.

Seven Talco people were taking rabies serum, after a mad dog scare had broken out. Five people were bitten.

Farmers Urged to Produce More Food for Britain and U. S.

American farmers were called upon Wednesday by Secretary of Agriculture Wickard to produce enough food to help England defeat Hitler, and at the same time, meet expanding demands in the United States.

The need for food is so great, he said, that he urged farm workers to seek deferment under the Selective Service Act, thinking they can serve their country best wearing overalls instead of khaki.

The Secretary of Agriculture disclosed that officials of the United States had promised British spokesmen a vast supply of food through June 30 next that would require $1,000,000,000 of the new British-aid funds of $5,985,000,000 requested by the President.

Calvary Baptist Church

S. D. LINDSEY, Pastor

B. L. Gieger, Sunday school superintendent. R. J. Friday, BTU director.

Sunday school at 9.45.

Morning worship at 11.

BTU at 7.15 p. m. and evening services at 8:15.

Brother Lindsey was invited to Hawkins to preach Sunday. Rev. Williams filled his place with inspiring messages both morning and evening. Barney Rogers and Mrs. Collins sang a duet and were accompanied by Mrs. B. E. Dunagan, at the morning service. Everyone is cordially invited to attend all services.

First Baptist Church

M. F. DOWNING, G. B., Pastor

Sunday school, 9:45 a. m.

Preaching, 11 a. m. by pastor.

Young people's service, 7:15 p. m.

Preaching, 8 p. m. by pastor.

Mid-week services every week at 7:45 p. m.

All services were well attended Sunday with several visitors present. We are always glad to have you come and worship with us.

The singing was well attended Sunday afternoon with good singing which was enjoyed by all present.

We are expecting to have Leon Lindsey and Pauline Norris with us Sunday night to render several pieces in music and song.

Psm. 119:113 "I hate vain thoughts: but thy law do I love."

Talco HD Meets with Mrs. Ruth Wenger

Talco WHD Club met with Mrs. Ruth Wenger Sept. 18, with 14 members present. The house was called to order and prayer was led by Mrs. A. Small.

The afternoon was spent finishing lightweight covers for the well-equipped bed that will be put on exhibit at the Titus County Fair.

Roll Call was answered and unfinished business discussed. Gingerbread and tea were served and the meeting adjourned to meet with Mrs. W. B. Oliver, Oct. 9.

Brown-Crooks Wed

Mr. M. J. Brown and Miss Marie Crooks were united in marriage Saturday evening at 7:30 o'clock by the Rev. I. E. Driggers at his home in Mt. Pleasant. Attendants were Miss Maurine Bell and Willard Cecil.

The bride is a daughter of Noah Crooks of the Mt. Sylvia community and the groom is the son of Mr. and Mrs. J. M. Brown of Talco and holds a position with the Talco Asphalt & Refining Co. They will make their home in Mt. Pleasant. The Times joins their many friends in extending best wishes.

MARY RUTH SMITH IS NEW HUMBLE REPORTER

Miss Mary Ruth Smith, daughter of Mr. and Mrs. J. J. Smith of the Humble Camp, is The Times' new reporter for the Humble Camp.

Miss Smith replaces Miss Molly Van Winkle, who resigned last week. She will do a good job of gathering news if the people will assist her, and we are sure they will be glad to help her in any way. It will be appreciated by Miss Smith as well as the publisher.

Mrs. Paul Dill of Bogata, underwent a minor operation Tuesday at the Grant hospital in Deport.

Japs Not Allowed to Read Love Stories

The Tokyo home office has prohibited further publication of love stories translated from foreign languages, especially French novels.

The step was explained as a move to protect the morals of the younger generation.

The newspaper Kokumin said Japanese nationalists believe youth is being considerably degenerated by reading these novels, and reported even that the stilted Japanese style of love making is being supplanted by kissing and more ardent techniques.

Coach L. L. Morris' Deport Tigers lost their opening game of the season last Thursday night when they invaded Cooper and came out on the scoreless end of a 30 to 0 count.

WHY IT PAYS BILL JONES TO READ THE ADS IN HIS NEWSPAPER

Bill Jones knows that it pays him to read the advertisements in his newspaper, but he probably hasn't given much thought to WHY it pays him to read them, or that if HITLER HAD HIS WAY THERE WOULD BE NO NEWSPAPER ADVERTISING.

Hitler is against newspaper advertising because advertising makes newspapers, newspapers make a free press and a free press makes a free people. Hitler does not want a free press. He does not want a free people. There are so-called newspapers in Germany, of course, but they express VIEWS rather than NEWS and those views are the views of Hitler. His "newspapers" do not need advertising to keep them going. He gets the money out of the people to do that. Besides, advertising tells the truth and the truth in any of Hitler's publications would be his undoing.

When Bill Jones reads the names of the advertisers in his newspaper he is reading a list that Hitler would have thrown in concentration camps or murdered if he had his way. Those names mean a free press and a free people.

In addition to kicking Hitler in the pants and making it possible for Bill Jones to know what is going on around him, the advertisements help to balance Bill's buying budget. They contain information about merchandise Bill must have and they usually offer reduced prices on that merchandise. Bill saves money by reading the advertisements and helps to keep himself, his family and his country free at the same time.

Bill may not know the exact amount the advertisers pay to get their messages to him, but they will tell him that it costs good money and that the small sum Bill pays for his subscription to his newspaper is just a drop in the bucket compared to what they pay to keep the newspaper going to him.

So we're hoping that the next time Bill reads the advertisements in his newspaper he will give more attention to the names of the advertisers. They certainly deserve his respect and esteem if freedom in its broadest and truest sense means anything to him.

Fall was officially ushered in Tuesday, though many cotton farmers in this area say we can't prove it by them. Short crops, however, are bringing long prices and we can expect this fall to bring the usual rise in spirits, just as we can expect the woodlands to be as colorful and the temperatures to be as comfortable as they heretofore have been in the falltime. There is still an abundance of grass to be cut for hay before frost, fall gardens are coming along and good prices are being paid for all farm commodities, with prospects for better ones as winter advances. Fall is here, fellows, and the least we can do is fall in line with it. We can hardly afford to fall out.

EDITORIALLY SPEAKING

BURT LOCKHART
in Pittsburg Gazette

If you can't fool all the people all the time you had better stay out of politics, bud.

Millions of tires can be saved by driving thirty-five to forty miles an hour. And incidentally, thousands of lives.

A new mosquito has been discovered. It has been named the damnosus. The name may not be poetic, but it may be considered at least half right.

If Washington continues to spend a billion or so a month we Americans may find it necessary to get us another Santa Claus.

There is some compensation in forgetting half we know. It makes room for a lot of other stuff that might be forgotten later.

On our little jaunt down life's pathway we can't help but run across many stumbling blocks, not to mention the blockheads.

No loyal American objects to money spent for defense. It is the enormous sums expended on non-defense that draws criticism.

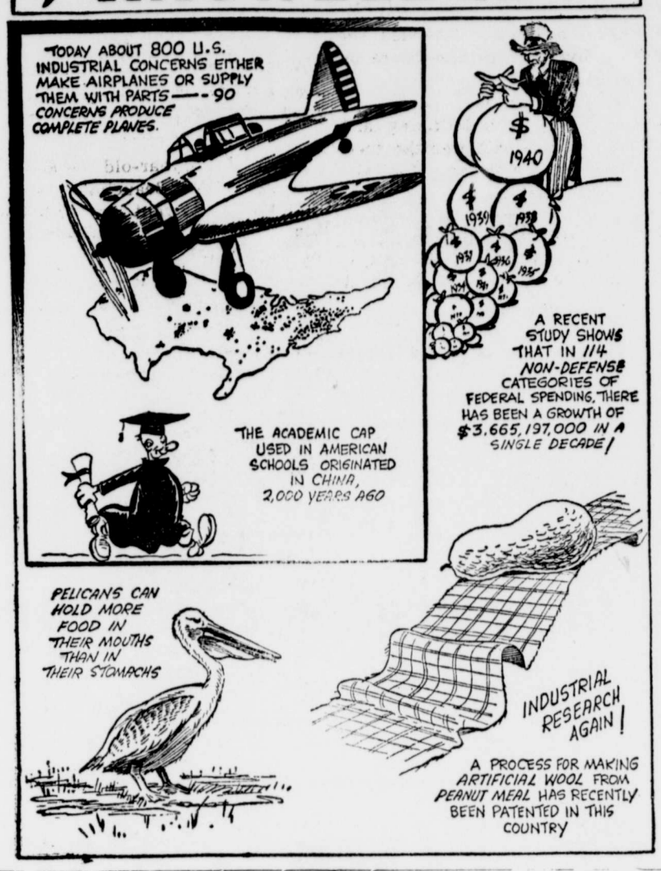
Now that automobiles can be made of vegetables everybody can grow his own auto. It gives us an idea what to do with our carrots and spinach.

There will be twenty million income tax payers next March, all of whom will know exactly what to do with Hitler when they mail in their checks.

The main object of the publicity bureau is to sell the war to the American people. We are not certoin whether a complete sale will be made, but we do know that we are buying about forty million dollars worth of war.

In times of national emergency it seems to become a patriotic necessity to reiterate truths so axiomatic to be trite. The freedom of the press and that freedom's incomputable preciousness to us is one of these self-evident truths; the fact that Americans are now asked to consider it is alarming. Such alarm, however, is all to the good if it reminds us that hardly won pearls of great price must incessantly be guarded or fought for.—Booth Tarkington.

THE POCKETBOOK of KNOWLEDGE BY TOPPS



The live merchant is the one who advertises and watches the world go buy.

Probably another reason why so many of us don't take a vacation is because we preferred to stay at home and worry over the prospect of Hitler taking over this country.

The old fashioned folk who believed in paying as they go, are disturbed over the present generation who lay so much stress on playing as they go.

The Red River county poor farm has been sold at public auction. We are anxious to know if the people of Red River county are getting more prosperous or if the poor farm had too much competition from Washington.

CAUSE AND EFFECT

Dear Tom: Come tomorrow evening sure. Pappa is at home, but he is laid up with a very sore foot. See?
Mary.

Dear Mary: I can't come tomorrow evening. I'm laid up on account of your father's sore foot. See?
Tom.

TEXAS RANKS SECOND IN CHICKEN PRODUCTION

Iowa is the leading state in chicken production. Its 213,318 farms raise nearly 44,000,000 chickens a year, or an average of over 200 per farm. Texas was second to Iowa in number of chickens raised. There were 21,799,610 chickens on Texas farms in 1940.

WASTEFUL

A middle-aged woman lost her balance and fell out of a window into a garbage can.

A Chinaman passing by remarked: "Amelicans vely wasteful. That woman good for 10 years yet."

Tommy was listening to some of his uncle's adventures:

"You see, sonny, I always believe in fighting the enemy with his own weapons," said the uncle.

"Really?" gasped Tommy. "How long does it take you to sting a wasp?"

Ain't that Sump'n

By NUMBER SEVEN

Rhyme written after hearing a fellow say that a grin would get one farther than a tank of gasoline:

When you hear about some fellow who can take it on the chin, you may be sure that he knows how to hold on to his grin, and that when Old Man Trouble comes around to pay a call he turns his grin upon him till he isn't there at all.

A grin is like a blow torch you have seen mechanics use in blasting through the toughest steel in any way they choose, for it has a way of taking hold and cutting right on through the thickest obstacles in life to make a path for you.

You may outgrow your whistle and your step may lose its spring, your head may shed its shock of hair, your laughter cease to ring; but you'll always find green pastures and a gate to let you in, if you keep a-facing forward and just hold on to your grin!

Mr. Merchant, Don't Let It Happen to You

When Mary Twain edited a newspaper in Missouri one of his subscribers wrote him that he had found a spider in his paper and wished to know whether it meant good or bad luck. Twain replied: "Finding a spider in your paper is neither good luck or bad. The spider was merely looking over our paper to see which merchant was not advertising, so that he could go to the store, spin his web across the door and lead a life of undisturbed peace ever afterward."

The latest types of fuses used in high-explosive anti-aircraft shells are mechanical time fuses, the clockwork mechanism of which is operated by the rotation of the shell in flight.

Black Buck Deer Caught in Texas

A black deer, far more rare than Albinos, has been captured by a Comal county ranchman. The deer is the second of its kind to be seen in that Central Texas county in the last several years. One was killed there in 1935, the state game warden has reported to the executive secretary of the Game Department.

Black animals or birds are known as those afflicted with melanism, which is a condition which results in more than the usual amount of pigments in the hair or feathers. Many Albinos (white) are reported in Texas each year, but birds or animals of the melanic variety are extremely rare.

TEXAS FARM INCOME HIGHER THAN IN 1940

Texas farmers received $50,000,000 more for the products they sold during the first seven months of 1941 than in the same period of 1940, University of Texas business statisticians report. Up to Aug 1 this year, farm cash income in Texas totaled $205,000,000.

LEAFWORMS DEVOURED BY TURKEYS AT RICHARDSON

Farmer Joe Bledsoe of Richardson, had no poison to kill leafworms that were eating up a perfectly good stand of cotton. He solved the problem by turning into the field his flock of 1,000 turkeys. They ate up the leafworms, and now Bledsoe expects to make a bumper crop of cotton.

WRIGHT PATMAN'S Washington WEEKLY NEWS LETTER — CONGRESSMAN — TEXAS —

Hitler is After United States

As the United States prepares to give more and more aid to nations fighting aggression, I think it well that we review factors, which have created the present world crisis.

First of all, it arises from the vast growth of Hitler's power, combined with the Nazi hostility to us. Consider what Hitler has done.

Hitler, in less than four years, has taken over or conquered 13 countries. Here is his record since 1938: Austria, with 7,000,000 population; Czechoslovakia, with 10,000,000; Poland, with say, 20,000,000—now he has it all, but I refer to his share on the partition in September, 1939; Norway, with 3,000,000; Denmark, with 4,000,000; Holland, with 8,000,000; Belgium, with 8,000,000; France, with 42,000,000; Hungary, Rumania and Bulgaria, with 35,000,000 together; Yugoslavia and Greece, with 22,000,000 together—thus dominating and enslaving 159,000,000 people, partly by coercion and partly by military conquest. Adding the 70,000,000 in the old Germany, he now has under control about 230,000,000. Adding Italy with 44,000,000 population, the total is 274,000,000; and if he conquers Russia, even up to the Urals, he will have under him about 100,000,000 more, or a total of some 375,000,000 people.

Besides the countries mentioned, there remain in Europe: Sweden, with 6,000,000; Finland, with 4,000,000; Switzerland, with 4,000,000, Spain, with 25,000,0000; and Portugal, with 6,000,000; making about 45,000,000 more.

If Hitler overruns Spain and Portugal, Sweden and Switzerland are at his mercy. We see that Hitler now has virtually all Europe in bondage. If he continues his schedule in Russia, he will have the complete domination of more than 500,000,000 people. Nothing like that has happened either in the modern or ancient world, nothing even approaching it.

If Hitler gets the British Isles and the British Commonwealth of nations, he gets India, with 350,000,000 people; the British Isles, with 45,000,000 people; Australia, with 7,000,000; New Zealand, with 1,750,000; Singapore and Hongkong—all the British possessions all over the world (except Canada and the British colonies in the Caribbean, because if he conquers them, he conquers us)—if he conquers all these, Hitler would control, even leaving out Japan, over a billion and a half people out of the less than 2,000,000,000 people in the world.

It would be folly not to see that world domination is Hitler's purpose; and that following other conquests, he would try to take possession or control of South America, and then attack us. But he cannot do those things if the British Isles survive, upon which survival, in turn, rests the British Commonwealth of nations.

If, on the other hand, he should force the capitulation of the British Isles, then he will be ready to operate on us as surely as the sun will rise tomorrow.

Defense Bases Progressing

Remarkable progress is being made in the construction of the new defense bases in the Caribbean and at Bermuda. All these sites for bases, except the ones at Puerto Rico, were secured last year in the 50-destroyer trade with Great Britain. The great bulk of the skilled workmen are being sent from the States. The local workmen, common laborers, are paid approximately 7c per hour, while the American workmen are paid at the rate of $1.50 per hour. Because of their comparatively greater ability to produce, it is preferable to employ American workmen whenever possible. In practically all the places, the natives are quite backward and have few modern facilities; consequently, it is necessary to construct temporary housing projects for the American workmen.

Communism Doomed

Although the communists of Russia welcome the aid of the democracies of Great Britain and the United States, since it is so sorely needed by them, they are definitely of the opinion that Russia's success with our aid will doom communism, because it will be a clear demonstration of the superiority of the democratic countries. On the other hand, if Nazism wins the war, there will be an attempt made to spread the so-called Nazi "New Order" over the entire world and thereby cause the unconquered nations to spend their time and energies the next few decades in providing armaments and preparing for defense or be subjected to invasion. This will cause the finer things of life to be forgotten during that period.

TEXAS DAIRY COWS REACH AN ALL-TIME HIGH

Summing up 1941 dairy activities throughout the state, A. J. Riddle of Denison, president of the Texas Dairy Products Association, expresses the belief that dairying reached a new all-time high during the first eight months of this year.

Breeders of dairy cattle for the first time in the history of a state avowedly devoted to beef find that their cattle are on a comparable basis in price to the beef producers. It has been said that under prevailing prices more revenue can be derived from 10 good dairy cows and their offspring than from 40 beef producing cows. That the demand is general is evidenced by the fact that the Farm Security Administration has in the past five years placed more than 500,000 dairy cows with their clients in Texas and Oklahoma. They report a steadily increasing demand during 1941.

The state will be in a position to meet any demands made on it and when the defense job is finally completed will be among the national leaders in dairy production. Texas' activities have attracted the attention of national dairy publications who are highly complimentary in their editorials.

TO REMOVE COFFEE STAINS FROM THE TABLE CLOTH, COVER THE SPOT WITH GLYCERINE, LET IT STAND FOR A FEW HOURS, AND THE STAIN WILL THEN DISAPPEAR ·····

"THE ONLY WAY TO HAVE A FRIEND IS TO BE ONE."—RALPH W. EMERSON

Flat Chests Sign of Superiority

Flat chests are a sign of physical superiority rather than weakness, according to the research experiments conducted by Dr. S. A. Weisman of the University of Minnesota.

Dr. Weisman's findings show a distinct correlation between depth of chest and certain lung ailments.

From compulsion of the thoracic indexts—ratio of depth of chest to width—of more than 22,000 children and adults, Dr. Weisman discovered that the average adult chest indexed at .670, while a so-called weak chest averages about .770, approximately 10 per cent deeper.

"The normal, healthy chest," Dr. Weisman declared, "is flat and wide."

Measurements of athletes, many of whom held national collegiate track championships, showed that 71 per cent had thoracis indexes of less than .700.

NEW TEACCHER ASSUMES DUTIES AT BOGATA SCHOOL

Miss May Bell McGee of Winnsboro assumed her duties as seventh grade teacher at Bogata Monday, taking the place of Miss Viviene Davis. Miss Davis is to teach high school English, filling the vacancy made by the resignation of Miss Faye Busby, who is employed in the Deport schools.

United States farms using electricity doubled during the decade 1930-1940, according to a study made of the 1940 Farm Census.

Walking through the woods, the artillery officer was surprised to see a number of his men climbing trees and crawling through bushes.

"What's the great idea?" he snapped. "What do you men think you are doing?"

"Well, sir," said the sergeant, "we've camouflaged the gun so well that we can't find it."

OUR WEEKLY LETTER FROM Lonesome Bill

Dear Editor: I notice in some of the papers that they are advocating a full smokehouse for U. S. defense and I told my wife that if it was going to take a full smokehouse to protect us from Hitler, then we might as well surrender right now. We ain't got but one hog this year and it is so thin that it has to face the wind when it stands up to keep from being blowed over and I had to build a little hill in the middle of the pen for it to lay down against, for it is so flat-sided that if it was to lay down on level ground I would have to put it back on its feet.

Anyway, this is one year that my hog pen and corn crib are in the same fix, though my wife says I could have made a better corn crop if I had throwed my fish hooks away last spring, but I tell her that what really hurt was her dragging me around to all the revival meetings, causing me to lose sleep and not feel like doing much except fishing.

However, I don't think Uncle Sam is worrying so much about Hitler as the papers allow. I notice that our government has turned out 3,990,000 cotton mattresses, which I take as a sign that we can take things easy, no matter what Hitler or Mussolini hatches up. I don't know why Lindbergh or Wheeler haven't used these figures to prove we can rest easy over here, but I reckon they ain't as smart about such things as I am.

Still, I figure that if the government says full smokehouses for defense, I can fill mine up someway. There are lots of rabbits that somehow survived the Hoover administration and I reckon that I can get my part of them if necessary. My old hound needs some exercise, anyway. He hasn't been off the back porch since the shade got around to that side of the house last spring, and I figure it would be good for him to loosen up some other part his frame besides his tail.

I will get this in the mailbox, as I see the mailman coming around the bend past my neighbor's house.

Yours truly,
LONESOME BILL.

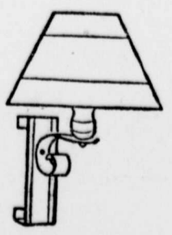
Does your child SQUINT?

When you find your child squinting and groaning over his homework, maybe the best thing you can give him is better light. You may not realize that the lighting in your home is unsafe for young eyes. Yet science has discovered that one out of every five school children suffers from defective vision. A child can "see to read"—and yet be risking a serious case of eyestrain.

TWO WAYS TO PROTECT YOUNG EYES

Put an I.E.S. study lamp on the table where the children do their homework. Or use a pin-to-wall lamp if the study table is against a wall. Both are scientifically designed to give *enough* light and the *right kind* of light for safe seeing.



COMMUNITY PUBLIC SERVICE COMPANY

JOHNTOWN

A Sunday school has been organized at the Baptist church, with Wayne Dodd as superintendent. Everyone is cordially invited to attend.

Mrs. Henry Dryden, who was quite ill last week with a severe attack of tonsilitis, is improving.

Mr. and Mrs. Earl Hawkins and Mr. and Mrs. Will Bolen spent last Tuesday in Clarksville at an FSA meeting.

Mrs. Don Cahoun of Shreveport, La., returned to her home last week after a visit with her parents, Mr. and Mrs. T. L. Pirtle.

Miss Polka Cotten left last week to enter ETSTC at Commerce.

Mr. and Mrs. Gordon Wilson returned to Corpus Christi last week where he has employment. They were accompanied by Curtis Jenkins and his nieces, Misses Frances and Betty Hawkins. The latter will join their parents, Mr. and Mrs. H. C. Hawkins, residents of Corpus Christi.

Mr. and Mrs. Bob Gifford of Bogata, spent Sunday in the John Terry home.

Mr. and Mrs. Frank James and daughter, Maggie, returned to their home last week at Centralia, Ill., after a visit here.

Mr. and Mrs. Eunice Pirtle shopped in Clarksville Friday.

Mr. and Mrs. W. P. Hood of Lorenzo, and grandson, Bruce Hood of Lubbock, visited relatives here last week.

Mr. and Mrs. Wesley Askins and daughter, Nancy of Bogata, spent Sunday in the W. A. Cotten home.

Mr. and Mrs. Raymond Jennings of Paris, spent the week end with her grandparents, Mr. and Mrs. J. A. Watts.

Miss Betty Joy York is confined to her bed by illness.

Mr. and Mrs. John Wesley White of Avinger, spent the week end with relatives here.

Mr. and Mrs. H. E. Hawkins, W. J. Hawkins and Earl Hawkins, W. R. Baxter and T. A. York made a business trip to Clarksville Saturday.

Mr. and Mrs. Earl Terry and daughter, Geneva of Fulbright, attended the bedside of his grandmother here over the week end.

Mr. and Mrs. Bill Ward and son of Fulbright, spent Sunday with relatives here.

Mrs. W. B. Jenkins and son, Earl of Miro, spent Sunday with friends in Johntown.

Tom Pirtle purchased a new tractor last week.

Several from here attended the funeral of Mrs. Maggie Strickland at Rosalie last Wednesday.

Animals Have Big, Careless Appetites

Bears eat almost everything—fruit, grain, herbs, barks, grass, sweets, meat, fish, reptiles and insects.

Deer have been observed eating ants. They apparently enjoy the sour, acidy flavor.

In a nine-foot Mississippi 'gator's stomach was found the leg-bands from two wild ducks' legs. Investigation revealed that one duck had been banded in British Columbia and the other in Ontario.

Catfish hold the undisputed gastronomoddity championship. Nothing, it seems, is too tough for a cat to tackle including wall-paper cleaner, horse's hoof parings, soap, chicken innards, while in one big mossback cat's stomach was found a baby skunk that had probably been drowned.—Ex.

MT. PLEASANT

CUNNINGHAM

School started here Sept. 15, with F. E. McGahan, superintendent. Other teachers are: Clifton Guest, R. E. Kirby, M. D. Humphrey and W. T. Lawrence, Mrs. F. E. McGahan, Mrs. Mae Roby, Mrs. Gerenia Spear, Misses Lillian Crumley, Julia Ellis and Evelyn Hutto. Mrs. Clifton Guest is teaching in the place of Miss McGuire, who is expected to return from South America within the next few days.

Mmes. F. E. McGahan and Clifton Guest were hostesses at a social given at the McGahan home Friday night. Those attending were the school faculty and the trustees and their wives. Refreshments were served to a large number. An enjoyable evening wsa spent.

If the weather permits, most all the cotton in this section will be picked in the next two weeks.

Mr. and Mrs. Marvin Coyle spent the week end with her parents, Mr. and Mrs. Virgle Hulett at Deport.

Nelda Yancy, small daughter of Curtis Yancy, is staying with her aunt at Clarksville.

Mrs. M. D. Humphrey, who fell and broke her hip several weeks ago, is reported slowly improving.

Mr. and Mrs. Earl Turner, Mr. and Mrs. Leonard Nolen and Larry Bell left Sunday for points in the west to pick cotton.

Mr. and Mrs. Charlie Farris will leave Thursday for Matador to spend several weeks.

Misses Lillian Crumley and Julia Ellis have rooms with Mr. and Mrs. Juarez Jordan. Miss Evelyn Hutto is staying with Mrs. Walter Roddy.

Mrs. Dorries and granddaughter, Desma Gill of Arkansas, are visiting her daughter, Mrs. Adren Day. Miss Gill is here to attend school.

Mr. and Mrs. Maxie Temple, who have been visiting here this summer, will leave Monday for their home at Knobel, Ark.

Lee Oats made a business trip to Charleston Saturday.

The Butane gas stoves have been installed at our school and the hot lunches will be started about Oct. 1.

Commissioner John Roddy is doing a lot of work on the eight mile loop south of Cunningham. The road has been made about 50 feet wide and new bridges are being built.

Mrs. Joe Temple of Folbright, is visiting her children, Mrs. A. D. Bell and Ira Temple here.

Roscoe Norwood of Pattonville, visited Saturday in the home of Mr. and Mrs. Almer Norwood.

Kenneth Allen visited his sister, Mrs. Murl Roach at Johntown recently.

Mrs. Gene Burns is reported ill at her home here.

DEEP MYSTERY

The large factory had organized its own Home Guard, and the men were duly posted to guard the works.

The manager approached the main entrance, and the sentry, torn between duty and deference, challenged: "Halt, Mr. Brown! Who goes there?"

AVERAGE OF AMERICAN PRODUCTION

Prize-winning points:
Height, 5 ft. 5½ in.
Weight, 120 pounds
Bust, 24 inches
Waist, 36 inches
Eyes, hazel; hair, light
Age, 19

LA PLANCHE LA CHAMP . . . Rosemary La Planche, California's nominee in annual Atlantic City bathing beauty tournament, was chosen Miss America 1941. She had been runner-up in 1940, and also won the subsidiary honor of the bathing-suit championship this year.

New Rewards for Mail Offenders

Want to make a little cash in these days of rising taxes and prices?

All you need to do is to bring about the arrest and conviction of somebody who uses a gun to rob a mail carrier, sends a bomb or other infernal machine through the mails, breaks into a post office building, embezzles or steals from the mails, or otherwise commits a crime against the United States postal system.

A new set of rewards including maximum sums to be paid in each case includes the following offenses:

Wounding any person having in custody mail, money or government property, while robbing him, $2,000.

Jeopardizing such a person without wounding him, $1,000.

Mailing bomb or similar device, $2,000.

Breaking into place used as post office, $200.

Stealing mail or government property en route, $200.

Theft of mails from letter box or carrier, $200.

Mail carrier's theft or embezzlement, $200.

Children are often cursed by the excessive ambitions of their parents for their success and welfare.

Warplane Industry Booming in U. S.

According to W. W. Chaplin, I. N. S. defense expert, "By the first of the year, barring acute shortage of such materials as aluminum or major delays due to new strikes, the American warplane industry will have achieved such mass output that one American company will virtually be duplicating the entire German production of combat planes." This company is Curtiss Wright, which plans production of 1,500 aircraft monthly. And the production of other factories is being similarly stepped up.

So much for quantity. So far as quality is concerned, our new American ships are said to equal and in some cases exceed Europe's finest. They are suitably armored, have self-sealing gas tanks, power driven gun turrets, etc.

A long life may not be good enough, but a good life is long enough. —Benjamin Franklin.

NEW HAGANSPORT

By MRS. E. W. BURKS

Mrs. Will Brown and children returned home Saturday from Arcadia, after several days' visit with her daughter, Mrs. Joseph Tulley and family.

Mrs. Maude Dodson has returned from a few days' visit with her daughter, Mrs. John B. Garrett and family at Dallas.

Mr. and Mrs. Luther Cannaday and sons, Claude and George and wife and baby spent Sunday with relatives at Cooper.

Mr. and Mrs. Sam Elliott came up from Kilgore Sunday for a visit.

Jimmie Lane came in from Galveston Saturday and spent the night in the Luther Cannaday home.

Mrs. John Wilks visited her mother, Mrs. Bessie Barron at Oakdale Monday afternoon. Mrs. Barron is ill.

Lester and Irvin Dodson of James, spent Saturday night and Sunday here with their wives. Mrs. Lester Dodson returned with them to move to their new place near Naples.

Griffie Earl Burks went to Dallas Sunday to enter a school in defense training.

Mr. and Mrs. Lee Puckett of Bogata, Mr. and Mrs. George Cannaday and Mr. and Mrs. E. W. Burks spent last Sunday with Mr. and Mrs. Luther Cannaday.

Jim Dyer's gin has been broken down since last Thursday. The governors broke and did a lot of damage but no one was hurt, except Leonard Gieger, when he jumped from a window and bruised his feet.

Several new pupils started to school this week. School seems to be progressing nicely.

LAVADA

By DURANE ALEXANDER

Mrs. Bessie Reidout spent Sunday with Mr. and Mrs. Wright Broughton.

Junior Alexander came home Sunday from Jefferson, where he had been participating in a rodeo.

Mrs. Ara Bolin, who is in a Paris hospital for an operation, is improving.

Monroe Roberts, R. J. Rosson, Fred Barnwell and W. S. Richerson attended the opening of the Dixie baseball series in Dallas Saturday.

LOOK Magazine & Travelers Safety Service

YES, LADY, we know you were well brought up. You say "Please" and "Thank you" and use the right fork and write the nicest bread-and-butter letters. But when it comes to your conduct while driving, you most definitely could learn manners from a truck driver.

Truck drivers are good drivers. They keep on their side of the road, they don't go at fantastic speeds, they practice that fundamental rule of democracy and good breeding: Give the other fellow a break.

Which is more than can be said for many of our nicest ladies and gentlemen. A strange transformation takes place when they sit behind a steering wheel. They ignore the comfort of friends riding with them. They disdain the rights of people on foot. They yell boorishly at drivers who displease them.

Many who wouldn't touch a nickel that belonged to someone else flaunt all law and order when behind a steering wheel, with the callousness of experienced criminals.

The serious part of this curious behavior is that bad manners make bad driving, and bad driving makes accidents and death.

So mend your manners and become a good citizen even when driving. It may save your life.
