This aerial photograph shows only part of the parking line at Marian Airpark Sunday morning, when 86 planes flew in from Colorado, Oklahoma, New Mexico, Kansas and Texas for a ham-and-egg breakfast, followed by an exhibition of precision flying by Tom Kane, and a swim in the new pool. The event was sponsored by the Wellington Chamber of Commerce, the P & W Club, the VFW, Kane Flying School, and a number of Wellington business men. It is the first such event ever held for flyers at Wellington, and the visitors declared it to be the best one attended so far.

### Oklahoman Praises Wellington Courtesy At Flite Breakfast

This letter of appreciation for a fine flite breakfast has been received by the Chamber of Commerce from Floyd Burns of the Burns Flying Service, Hobart, Okla.

"Just a few lines thanking you on your flite breakfast we Hobart pilots attended last Sunday. We all had a most wonderful time."

"I have been to lots of flite breakfasts and I think that yours was tops of them all. Let's do it again soon."

"Also thanks for the courtesy and help shown my students while on your airpark."

### Quail Revival Opens Sunday

Revival services will open Sunday, July 25, at the Quail Baptist Church, and will continue through Sunday, August 1.

The Rev. W. D. Baker, who is in charge of the building program for that church, will also serve as the evangelist.

Open air services will be held. The public is cordially invited to attend.

Rev. Baker closed a week's revival at Marella Sunday, although a revival for this week at Ring had to be cancelled, due to his being called out of the county.

### Curry Buys Interest In Repair Business

Announcement was made this week that Fletcher Curry has bought an interest in the radiator repair shop and garage from Eddie McClaskey, and that the business is now operating as Fletcher and Eddie's Radiator Shop and Garage. Mr. McClaskey is the son-in-law of Mr. Curry.

The business is located across the street from the Ritz Theatre. Mr. Curry has had many years experience in automotive and tractor repair, and is well qualified to do repair work on any make of automobile, truck, tractor or anything that is powered by a gasoline motor.

The shop will continue to specialize in radiator repair, but new equipment is being added and all types of work will be done.

### T. H. Rainer Has Major Operation Here Last Week

T. H. Rainer, manager of the Farmers Co-op Gin at Loco, underwent a major operation in St. Joseph's Hospital.

While he is doing as well as could be expected, he is still suffering considerable nausea, his daughter, Miss Bessie Rainer, said Wednesday morning.

The Dukes of Wellington play their last league game Sunday, July 25, meeting the Mangum nine at Marian Airpark diamond in what players and fans alike call the vital game of the season.

If the Dukes win this game, Wellington will be tied with Mangum and Kirkland for third and fourth places, J. M. Strong, manager, points out, and will thereby go in the play-off, with a chance of winning the league championship.

It can happen this way: Should Wellington tie with the other two teams, a play-off will be necessary to see who goes into third place and who is fourth. With Memphis leading the league and Mobeetie second, the first and fourth place and second and third place teams will meet in the semifinals. The finals will be played between the winners of these two games.

"We think we're going to win this game Sunday. In fact, we have to win it or we'll be out of the play-off," Mr. Strong declared.

Mangum is out to win too, and the team has sent word over they are bringing with them 300 enthusiastic fans to furnish moral support in case they need it.

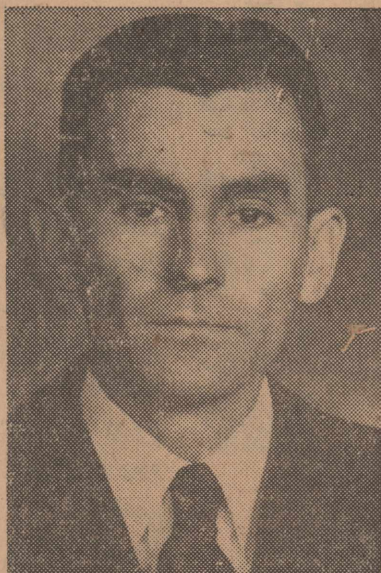

The Dukes are in top shape, Mr. (Continued on Page Twelve)

### A. T. Lentz on Sick Leave From Work at Local Post Office

A. T. Lentz, employee of the Wellington Post Office for the last 11 years, is now on sick leave and will be away from his work for approximately two months.

Although he is not confined to his bed, Mr. Lentz has been feeling badly for some time.

At present he and Mrs. Lentz are in Austin, where the climate agrees with him more than here, his daughter, Mrs. James Leach, said.

### EVANGELIST

The Rev. C. R. Thrasher of Newcastle, Indiana, will be in charge of the preaching at the revival services of the Church of the Nazarene in Wellington, beginning Tuesday, July 27, and continuing through August 8.

Five hundred and sixty-four teen-age girls, along with their sponsors, are participating in a well-rounded program of religious study, fun and work at the Pan-fort Baptist Encampment grounds, seven miles northeast of Wellington.

They represent Baptist churches from the entire Panhandle, and their assembly, from Monday through Friday, is an annual event.

They will be followed next week by approximately the same number of boys who will follow a similar program for the Monday through Friday encampment.

Activity at the encampment will close out with a Brotherhood meeting for men from the Panhandle on August 10.

The encampment is the old Wellington Country Club, which two years ago was purchased by the Panhandle and North Fork Baptist Associations for their permanent site. A new tabernacle and dining room, along with repairs to the swimming pool and other improvements, and the natural beauty of the location, make this one of the ideal spots of the Panhandle for the program of work the Baptist churches are carrying out.

Pastors and adult sponsors are at the camp with the girls.

Of particular interest is the presence of Miss Oleta Snell, a former Wellington girl who is engaged in mission work in Chili. She is now in the United States on furlough, spending most of her time with her family at Vernon.

The day opens for the girls with an early swim and breakfast. Classes pertaining to various phases of religious work continue through the morning. A rest period and recreational activities take up the afternoon. The full day closes with inspirational services in the tabernacle at night.

Dr. A. J. Quinn of Amarillo, district 10 missionary, is camp pastor.

"This is an experience these girls, from 9 to 17 years of age, won't easily forget. It is a highlight of the whole summer for many of them. Surely it is a step in the right direction by the churches of the Panhandle," one of the pastors associated with the camp said.

Pall bearers were Robert Posey, Troy Gardner, Frank Anderson, Claude Savage, John Harper and John Forbis. Flower bearers were Mrs. Otis Jesse, Mrs. Virgie Atkin (Continued on Page Twelve)

### Pampa Boosters Here July 29

A delegation of Pampa boosters is planning to visit Wellington Thursday, July 29, at 11:40 a.m., E. O. Wedgeworth, manager of the Board of City Development and Chamber of Commerce, said.

The group will remain through lunch.

"This is our annual good will tour, and is made for the purpose of meeting friends, becoming better acquainted and extending over a special invitation to the annual Top o' Texas Rodeo and Horse Show at Pampa August 3, 4, 5, 6 and 7," Mr. Wedgeworth said.

The show will be staged on the square. With the boosters will be their own 13 piece jazz band: Irma Francis, soloist; and the Top o' Texas Four, a barber shop quartet which will contribute to the entertainment.

"Our visit is informal and we hope to be received in the same manner—just as friends and neighbors. We are looking forward to our stop in your city," Mr. Wedgeworth said.

### C. D. Somerville, Early Settler of County, Passes

Charles D. Somerville, who came to Collingsworth county with his parents 57 years ago to become one of the earliest settlers of the county, died unexpectedly at his home three miles north of Wellington Friday afternoon, July 16, at about 3:00 o'clock.

Members of the family said he suffered an attack of acute indigestion while working in the field Friday. Feeling ill, he came to the house, and his death came while a member of the family had gone to call a doctor.

Born in Denton County December 10, 1880, Charles Davis Somerville was 67 years, 8 months and 6 days of age at the time of his death. At the age of ten years, he came to Collingsworth County with his parents, the late S. C. and Izella Howe Somerville.

Mr. Somerville grew up with the town and the county, experiencing the activities of a growing youth in a pioneer section; of a young farmer in a farming country that was rapidly developing, and as a mature man in the progressive county with which he had cast his lot.

In recent years, he had lived quietly at his farm north of Wellington, enjoying the association of neighbors and friends.

Mr. Somerville was married to Miss Mary James 45 years ago this month.

Funeral services were held at the Methodist Church Sunday afternoon with the Rev. Noel Bryant, pastor, in charge. Assisting was the Rev. Ed R. Wallace, Shamrock, who served Mr. Somerville's family as pastor when he was a young man. The Ellis Funeral Home was in charge.

Gathering to pay final tribute were friends who had known him over the long period of years he had been here.

Pall bearers were Robert Posey, Troy Gardner, Frank Anderson, Claude Savage, John Harper and John Forbis. Flower bearers were Mrs. Otis Jesse, Mrs. Virgie Atkin (Continued on Page Twelve)

## Voters to Choose Officials In First Primary Saturday

### Big Reunion and Rodeo Set for August 17-20

Old Settlers of Collingsworth county will hold their annual reunion as usual this year, but in co-operation with a town-sponsored rodeo to make this one of the biggest celebrations the Wellington trade area has known in the last decade.

The dates for this big rodeo are Tuesday, Wednesday and Thursday, August 17, 18 and 19. The reunion is Friday, August 20.

This is the traditional reunion of Collingsworth County pioneers, and their part of the event will be held at the LaHue Grove east of Wellington, where these old-timers have met for many years, Emory Hunter, who is assisting with plans, reported.

A short time prior to the celebration, the Wellington Chamber of Commerce will organize a caravan, carrying with it its own string band and one or two square dance sets, to visit towns in this area advertising the rodeo and reunion. The Veterans of Foreign Wars will sponsor a Dukes of Wellington Week, during which local people will be asked to wear typical western clothes.

As is traditional, the old settlers reunion will consist mainly of vis-

### Beginners Need Birth Certificates

Parents of all children starting to school for the first time were reminded this week by E. L. Pritchett, superintendent of the Wellington Schools, that a birth certificate will be necessary for their enrollment.

This will include all six-year-olds entering the beginner classes.

Mr. Pritchett also urged that any family who has moved into the district since April 1 contact him in order that the children may be counted in the school census. A change in state regulations now makes it possible for children moving into a district after that date to be enumerated, he explained.

### Group to Reburial Of James White

A group of county residents were in Amarillo Friday, July 18, to attend the funeral and re-burial of James Walter White, the grandson of Jim White of Riverside.

The twenty-two-year old soldier lost his life in the service of his country November 29, 1943, at Bougainville Island in the South Pacific.

He was the son of Audrey White of Seattle, Wash., and Mrs. Verna Laycock Ikenburger of Amarillo. Mr. White is the only surviving grandparent.

Among the group from this area going were Mr. and Mrs. Jim White of Riverside; Mr. and Mrs. Elzie White and Edd White of Lutie; Mrs. George Laycock of Wellington; Mr. and Mrs. Harold Laycock of Dozier; Carrol Laycock of Wheeler; Mrs. Mettie Beasley of Shamrock; and Mr. and Mrs. Peck White of Dodson.

### Miss Oleta Snell to Speak at Baptist Church Sunday

Miss Oleta Snell, a former Wellington girl who is engaged in mission work in Chili, will speak at the First Baptist Church here at the evening hour, Sunday, July 25.

Miss Snell's many friends in this area, as well as all people interested in mission work of the church, are urged to attend.

Now home on furlough, Miss Snell is spending most of her time with her parents, who now live in Vernon.

### Mrs. J. M. Fuson, Resident for Half A Century, Dies

Mrs. J. M. Fuson, who observed her 90th birthday only 16 days before she passed away, died in a Wichita Falls hospital Thursday, July 15, at 12:00 a.m. She had been in ill health since January of 1947.

For half a century she had been a Wellington resident, watching it grow from a village to its present size, and for more than 80 years she had lived in Texas.

Born June 29, 1858, in Wright County Missouri, Mrs. Fuson was before her marriage Miss Laura Frances Strong, the daughter of Isaac and Sarah McEwing Strong. When but a small child she came with her parents to Texas, settling in Denton County. She grew up there, and in January, 1881, she was married to J. M. Fuson.

They continued to make Denton county their home until 1898, when they moved to Collingsworth County.

Much of her time during the younger years of her life were devoted to her growing family, but later on she assisted her husband in operating their produce business in Wellington, which they continued to actively manage until a few years ago.

Mrs. Fuson became a member (Continued on Page Twelve)

### Finley and Savage With Ward Motor

Announcement was made this week by L. E. Ward, owner of the Ward Motor Company, that Earl Finley and Jack Savake have joined the staff of that business and are now on hand to serve their customers.

"We are indeed happy to have these two experienced mechanics. Together, they have more than 15 years mechanical experience, and they are fully qualified to work on any type car, truck or tractor," Mr. Ward said.

"We now have the special tools and genuine parts for taking care of your mechanical troubles, and we have men with the know-how for repairing them."

Considerable new equipment has been added recently, including a sun testing machine, a wash and grease rack, and a battery charging machine, as well as a number of tools for precision work on Kaiser and Frazer cars.

With only two days left until the first primary election, Collingsworth County candidates are making their final rounds contacting voters and getting their platforms before the people.

Only an average vote is expected, and this would range around 2,500.

Of the various county offices, only two candidates face opposition, those running for county judge, where most of the activity has been centered, and in the county sheriff's race. R. L. Templeton, present state representative from this district, and Judge C. C. Bishop, a former county judge are opponents. Claude McKinney, the present sheriff, is opposed by Elmer Jones, now the constable.

Candidates unopposed are Mrs. George Keller, for re-election as district clerk; Jack B. Deahl, county attorney to succeed W. M. Tuck-

Voting for the Rolla box will be held this year at the Rolla Gin Office, Judge Howard Riggs has announced.

Previously the election has been held at the school.

J. M. Moore, county clerk; Mrs. Dora Ryan, county treasurer; Hubert Mauldin, who holds the office of tax assessor and collector as an appointee; and L. A. Manzer, unopposed for county democratic chairman.

All precinct races except that of constable for Precinct 1 find two or more candidates.

Fred Kersten is unopposed for constable.

In the race for commissioner of Precinct 1 are Jack Brewer, A. C. Shipley, B. F. Evans and Willie Smith.

Candidates in Precinct 2 are Alfred Knoll, W. R. Benton and Lee Roark.

Precinct three candidates are Z. (Continued on Page Six)

### Dodson Revival Opens July 27

Revival services open at the Church of the Nazarene in Dodson Tuesday, July 27, with the Rev. L. A. Cantwell, pastor of the First Church of the Nazarene in Fort Worth in charge of the preaching, the Rev. C. C. Montandon, pastor, has announced.

Rev. Cantwell, who is the father of Mrs. Montandon, is known as one of the outstanding preachers of that denomination in the southwest, and members of the Dodson church feel fortunate that he has found time to conduct the revival here.

Song services will be directed by Mrs. Louise Rowe and Mrs. Margaret Spencer of Oklahoma City. Both women are wives of Nazarene pastors of that city, and Mrs. Spencer and her husband, Rev. H. H. Spencer, direct the interdenominational "Greater Youth for Christ Program" in Oklahoma City.

"You will hear the preaching of the old-time gospel in a way that inspires, lifts and saves, and you will hear some great singing to the glory of God," Rev. Montandon said as he extended an invitation to the public to attend the revival.

Services will be held twice daily, at 10:00 a.m. and 8:00 p.m.

The pastor reminded those interested in attending that the Nazarene church building is now completely air conditioned.

### O-K Courts Open Here Saturday

The O-K Court, Wellington's new tourist court, will open Saturday, July 24, Myrett Henry, owner, announced this week, as construction and furnishing details were completed.

There will be no formal opening, but Mr. Henry has invited the people of the Wellington trade area to come by and inspect the new business.

The court is constructed of concrete tile with white stucco finish, and is built in an "L" shape north of the O. K. Rubber Welder, on highway 83. The complete new structure makes one of the most attractive additions to the highway area.

There are seven units in the court, each air conditioned and nicely furnished with inner-spring mattresses.

"We've tried to build a court that Wellington will be proud of and one that will be as nice as any in this part of the country," Mr. Henry said.

The drive area in front of the courts will be graveled.

## Flyers From Five States Praise Flight Breakfast Hospitality Sun.

Approximately 175 flyers, representing five states, were almost unanimous in their statement that Wellington's flite breakfast Sunday morning, July 18, was one of the best, if not the best, they have ever attended.

At the final count, 86 planes, ranging from grasshoppers to twin engine machines, had come cross country to land at Marian Airpark. Few local residents had known their landing field could accommodate a large number of planes so easily, but the visiting machines were parked in three long lines along the west side of the field.

A full morning followed, with its full share of visiting and shop-talk among the flyers and their families.

The flyers were registered by members of the Business and Professional Women's Club, after having been driven from the line by

guest cars. A bus carried them to town for the ham and egg breakfast at the community building, which again drew praise from visitors.

Following the breakfast, Tom Kane, owner of the Kane Flying School, gave exhibition of precision flying that included immelman turns, snap rolls, slow rolls, inverted flying, and a combination of these into Mr. Kane's own maneuvers.

Swimming in Marian Airpark Pool for many of the guests followed, while other flyers took to the air again to circle the town and exhibit their flying skill.

Wellington residents in parked cars along the entire length of the field watched the various performances or visited with the flying visitors.

Guest prizes were awarded at the breakfast by Ralph Stowell, vice-president of the Chamber of

Commerce and master of ceremonies. Free breakfasts were given the first to arrive, Glen Porter and F. B. Craig of Wheeler.

A pair of spurs for landing his plane on a horseshoe went to Bud Schultz of Pampa.

Four-year-old Joan Kendrick of Hobart, Okla., got a piggy bank for being the youngest passenger and Marlin Miller, 16, of Plainview, won the prize for being the youngest pilot.

Clyde Thomas of Big Spring was given a hand-carved walnut bottle stopper for being the oldest pilot. He celebrated his 66th birthday the day of the breakfast.

Various Wellington groups co-operated to sponsor this flight breakfast, the Chamber of Commerce, B & PW, the Veterans of Foreign Wars, Kane Flying School and local business men. Plans were formulated by J. B. Faulkner, C of (Continued on Page Twelve)

## Galveston Woman Gives to Library

Mrs. Ray Wall of Galveston, who grew up in Wellington and frequently visits in the homes of her mother, Mrs. W. O. Richards and Mrs. Annie Wall, recently gave the Collingsworth County library 17 volumes of current fiction, including several books on the best-seller list, Miss Katherine Boverie, librarian, said Tuesday.

In addition, two new books have been bought by the library. One is "Peony" by Pearl Buck, which will be read enthusiastically by all those who enjoy Mrs. Buck's stories of China.

"New Song in a Strange Land," by Esther Warner, tells in an interesting and readable manner the story of the American Negroes who were settled in Liberia. The author lived in that country for several years, and much of her book deals with the present way of life of the descendants of those men and women who returned to Africa.

Books contributed by Mrs. Wall are:

DuMaurier: "Hungry Hills;" Freeman, "Mrs. Mike;" Feuchtwanger, "Simone;" Hilton, "Nothing So Strange;" Bates, "The Purple Plain;" Turnbull, "The Raft;" Marshall, "The Yankee Pasha;" Roy, "The Tin Flute;" Shute, "Chequer Board;" Janney, "The Miracle of the Bells;" Forbes, "Mama's Bank Account;" Remarque, "Arch of Triumph;" Lewis, "Kingsblood Royal;" Boyd, "Lucinda Brayford;" Sherman, "Bright Is the Promise;" Goertz, "Give Us Our Dream;" and Westcott, "Border Lord."

To the Voters  
Of Precinct 1

If I have missed contacting any voter in my campaign for Commissioner of Precinct No. 1, will you please consider this as a solicitation for your vote.

I want to thank each of those who have given me kind words of encouragement. I have no promises to make, other than to say, that if I am elected to this office, your interest will always receive consideration first and I shall strive at all times to see that you are respected and receive full value for every expenditure made.

Your kindest consideration and vote will be appreciated.

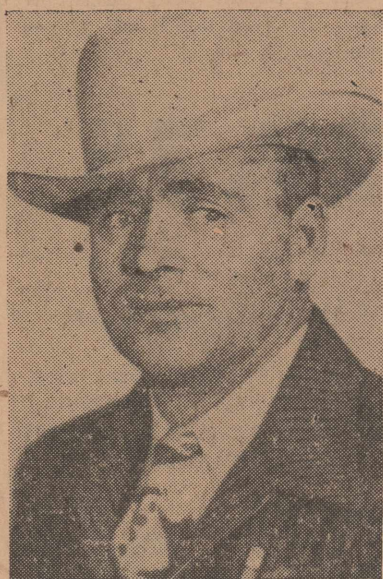

Respectfully,

Jack Brewer

To My Friends  
In Precinct 4

During these last few days before election, I will try to see all of you personally if I have not already done so. If I do not get to see you, I want you to feel that this is a personal consideration.

I am making no campaign promises. If you see fit to elect me to this responsible office, I will give my best efforts to serving you faithfully and honestly.

Roads are an important consideration in our precinct and I will give much of my time seeing they are kept in good condition. I will also perform all the other duties of a commissioner to the best of my ability.

Now as one friend to another, I want to say that your vote and support will be appreciated.

## Shamrock Sponsors Four-County Fair September 24, 25

Shamrock will stage a 2-day fair in September when agricultural-livestock exhibits will be displayed from the 4-county area, Lonnie Burks, president of the Shamrock Chamber of Commerce, announced this week.

The State Line Free Fair, as it will be known, will be the first exhibition of its nature held in Shamrock in 25 years. The dates are Friday and Saturday, September 24 and 25.

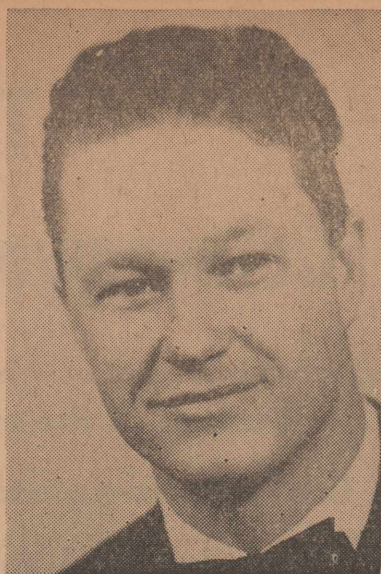

Participation will be sought from towns and communities of Wheeler, Collingsworth, Gray and Beckham counties, Burks said. Committee chairmen have been named and the ball will start rolling at once on the biggest project yet undertaken by the Chamber of Commerce.

Burks, a strong influence in the decision to stage the fair, has been working with C. C. Manager Guy Hill for several weeks drafting detailed plans and setting up his organization. The fair has rated top priority in floor plans of the new Community Building, and already Burks and Hill have made a blueprint for a smaller frame building, 32 x 100 feet, to house livestock exhibits. Ground will soon be broken on this project, adjacent to the large Community Building.

The present structure, 100 x 120 feet, will house community clubs, and merchant exhibits, while the smaller building will accommodate dairy calves, beef cattle, horses, hogs and poultry.

Burks, Hill and Ben Parks comprise the steering committee of the 1948 State Line Free Fair. Major committee chairmen are: O. J. Walker, amusements; Howard Weatherby, judges; Roy Berten, advertising; Vernon Carver, horse show; Gerald Mayfield, concessions; Aaron Fry, parade; Bedford Harrison, community exhibits; H. H. Reeves, livestock; Mrs. G. L. Stanley, publicity; Stuart Tisdal, merchants and manufacturers; Hubert Tindall, beef cattle; and Tex Ritter, sanitation.

Representative citizens from 25 communities and towns have been named on an advisory committee

### SEEK COUNTY JUDGE'S POST

R. L. Templeton, left, and C. C. Bishop, both of Wellington, are seeking the office of county judge to succeed Judge Howard Riggs, who is not a candidate. Mr. Templeton, who was born and reared here, is the present state representative from the 122nd district. Mr. Bishop, a practicing attorney, is a former county judge.

### Miss Darrow Finishes Nursing School Course

Miss Jimmie Lee Darrow, a former county resident who now lives in Fort Worth, was graduated recently from Harris College of Nursing at the Methodist Hospital in that city.

The exercises were held at the Anna Shelton Hall women's club, and Dr. Robert Sutherland, director of the Hoff Foundation of the University of Texas, gave the graduation address.

Miss Darrow is the daughter of Mrs. Ruby Darrow of Fort Worth. After attending the Wellington schools, Miss Darrow graduated from Paschal high school in 1945. She will be at the hospital until August, when she will assume the duties of a special nurse for Dr. James N. Walker, child specialist.

Miss Darrow is a cousin of Mrs. Orval Couch of Wellington.

### Feemster-Nelson Reunion Held Here

Children of Mr. and Mrs. Elzie Feemster and Mrs. Addie Nelson came together for a family reunion recently at the Feemster home. Assisting in the reunion were Mr. and Mrs. Jim Feemster, who are the son and daughter respectively of the reunion honorees.

Mrs. Nelson had returned home July 11, after a three-weeks visit with her daughter, Mrs. C. W. Keese, and family at Deming, N. M.

Only one child in each the Feemster and Nelson families was unable to attend, and it marked the first time in 15 years that this many of the members of Mrs. Nelson's family had been together.

Attending were Mrs. F. C. Moore and children, Bettie Francis, Buster, and Mrs. Bobbie Lou Harp and son, Kim Ray of San Bernardino, Calif.; Mrs. C. W. Keese and chil-

### Making Ice Cream Topic of Dodson HD Club July 13 In Van Borneau Home

The Dodson Home Demonstration Club met with Mrs. Van Borneau on Tuesday, July 13, at 2:30 p.m. Miss Joy Riley, home demonstration agent, gave a demonstration on making ice cream.

To ice-freeze desserts with stirring select an ice-cream freezer suited in size to the requirements of the family: a one quart size for 6 or fewer individuals; a two quart size for serving from 6 to 12 individuals.

For freezing, use finely cracked ice. Use one cup rock salt to two quarts of ice. Never fill can with ice cream mixture more than 2-3 full.

To prevent an icy coarse-grained product when freezing in an automatic refrigerator, have the product contain ingredients in which air can be incorporated before the freezing is begun; use ingredients

## WHY LABOR BOSSES ENDORSE THE OPPONENT OF... JUDGE JOHN A. RAWLINS

Candidate for Associate Justice

**Supreme Court of Texas**

★ ★ ★

JUDGE JOHN A. RAWLINS

★ It is recorded May 9, 1945, in 188 S.W. Reporter 2d series, page 276, that James P. Hart, opponent of Judge Rawlins, was one of the attorneys for the labor unions in their unsuccessful and ill-advised attempt to enjoin the State Officials from enforcing the Texas law regulating labor unions, which was passed with the view of protecting public interest.

★ The Appellate Court, in upholding the law forbidding the unions from collecting work permit fees from non-union employees, reorganized the policy expressed by the Legislature in the preamble to the Act: "The right to work is the right to live."

★ Judge John Rawlins is under no obligation to either labor or capital. He is now completing 20 years of service as a State Trial Judge. He is a family man, a World War veteran, and a church worker. He has the endorsement of the Dallas Bar Association and is interested only in administering the law fairly and impartially in the interest of the public at large. He is a graduate of Texas University and Texas Christian University.

# Quail School Opens August 16 With Air Condition Rooms; New Equip.

The Quail school will open the 1948-49 term Monday, August 16, Noah Cunningham, superintendent, announced this week. The term will continue until cotton opens in that section of the county, when it will be dismissed for the students to help gather the crop.

At the same time Mr. Cunningham said that the main building of the Quail school unit has been air conditioned—the first school in this section of the state to make this plant improvement.

"With all facilities ready to go, school should be a real pleasure for both students and teachers," Mr. Cunningham said.

Three new teachers have been added to the staff for the coming year. Mr. and Mrs. Jack Davis, who have been with the Vinson, Guy Killian and Mrs. Bynum Hightower, both of whom have moved to Dodson to make their homes. Mrs. Zella Noble of Clarendon will replace Miss Opal Mae Pegram, who will teach this year in the Tucumcari, N. M., school.

During the summer months, eight barracks buildings were moved on to the campus and converted into a recreational hall, class rooms, a manual training building, cafeteria, vocational agriculture building, and veterans shop and class rooms.

One other step forward in its program of continued improvement has been taken by the school. Mr. Cunningham reported that the vocational home economics department has been expanded to include a twelve-months program, and that recognition of this has been made by the state department of vocational education.

Miss Gladys Armstrong, area supervisor for the department, was at Quail last week conferring with Mrs. Monty Mitchell, homemaker instructor, Mr. Cunningham and other school officials relative to the work.

The new program will include work with the women of all communities making up the Quail school districts, as well as with the girls enrolled in the homemaking classes.

"It will be a program of co-operation," Mr. Cunningham stressed. "Not only is it aimed to help each individual taking part, but the community as a whole."

A woman from each community will be chosen to make up an advisory board which will work with Mrs. Mitchell. Selection of this group is under way now.

In a measure it will be a program of co-ordinating the work of the school girls and their mothers. The first work to be undertaken will be a community health and safety program, the school superintendent said.

Mrs. M. L. James underwent minor surgery in St. Joseph's Hospital last week.

Miss Hlen Holder was a tonsillectomy patient in St. Joseph's Hospital Friday.

Mrs. F. K. Riley of Hollis was a medical patient in St. Joseph's Hospital this week.

## FOR DISTRICT CLERK

Mrs. George Keller, who is serving her first term as district clerk of Collingsworth County, is unopposed in her candidacy for re-election.

## Voters to -

## Deck's DIDACTICS

—By Deskins Wells

In his column this week Bill Hughes pays tribute to practically every person who worked so efficiently to make the flight breakfast such a success. Modesty prevented him from mentioning the man who worked the hardest on the project—that was Bill himself. It is good to see how much can be accomplished when various organizations and individuals unite for a common purpose.

Next month Collingsworth will hold its old settlers reunion and a first class rodeo. The rodeo will be held August 17, 18 and 19. On Thursday night, July 19 there will be a big square dance for the old settlers in which they may participate or simply attend as spectators. On Friday, July 20 they will have their traditional basket lunch picnic at the Lahue grove. The rodeo will feature some of the best riders and ropers of this area and will include a cow girl contest with sponsored contestants coming from towns of this area. The Chamber of Commerce will organize a caravan to tour towns in this area and advertise the rodeo. Sufficient co-operation can make this a big event for Wellington.

Well, the political pot is simmering and as usual I feel sorry for the candidates who have to get out in this heat, pass out cards, shake hands etc. It is hard grueling work and they are entitled to our consideration and respect.

Candidates for precinct and county offices probably do quite a bit of good for their campaigns in the closing days of a race; but in the state major races from 80 to 90 per cent of the voters have had their candidates picked out for some time.

Stevenson will lead the ticket in the first primary and this is as it should be for his interest in the farmer and the stockman is a life-long record; but in addition to that he has the type of statesmanship to serve the welfare of the people of the state and the nation as a whole. He put the finances of the state on a sound basis; but at the same time he built more farm to market roads than any

other governor and he doubled the amount of money paid to deserving old people. It just shows that it can be done by eliminating needless waste. In a time of crisis the strong, dependable level-headed Coke Stevenson is the kind of a man we need in Washington.

Well, you farmers who have been saying for the last ten years that you were going to dethrone J. E. McDonald have your chance this year. Jim Griffin, dirt farmer, has made a strong campaign and he is going to get a lot of votes. From every source I hear that he is an able and a good man. Remember his name on election day.

Milo Brown, Box 341, Plainview, and who used to run a blacksmith shop here, sent me a paper weight made of steel. It has my name on it and is as handy an object as you can imagine. Evidently he is making these sort of novelties for it has his name on the bottom of it.

Went out to the Airpark Tuesday night and saw the kind of a baseball game that makes a manager tear his hair and causes the spectators to stand up and shout with glee. It was a honey.

The Dukes made 14 hits and 11 runs and Altus made 11 hits and 7 runs. The Dukes made 6 errors and Altus made 8 errors. However, I don't agree with Bob Bengé in his score keeping entirely. For instance, Crisco drove a sizzler toward second. The second baseman touched it but it went deep out into center field and Crisco went to third. Bob scored that as an error on the part of the Altus player; but I would have scored it as a hit too hard to handle. However, a score keeper has to use his own judgement and what he writes down is like what the umpire says—it goes in the book and is never corrected.

The Dukes are a very fine ball club and it is a pleasure to see them operate so out next Sunday and see them play.

Have you lost a shepherd dog? Jim Doneghy has one out at the turkey farm that he will be glad to return to the owner. The dog might be part St. Bernard or part collie.

Mr. and Mrs. Grady Burch of Amarillo visited with Mr. and Mrs. P. E. Starr and Mr. and Mrs. Walter Starr Sunday.

## A Word of Appreciation

I want to thank all my friends of Precinct 1 for your loyal support through the years. No public official could have wanted better.

At this time I want to again say that your vote will be sincerely appreciated in the primary election July 24.

Thanks

**W. G. HITE**

Candidate Justice of Peace, Precinct 1

## To The People Of Precinct 3

I want to thank the people for this enjoyable term. The good will and co-operation has been fine.

As a member of your Commissioners Court, I plead guilty of being road-minded. I believe that good county roads don't cost—they pay. For instance, in actual dollars and cents, the expense of maintaining well graded roads will be much less than just keeping flat roads passable.

We must use all road money directly on roads, which will make necessary some strict economy in other county funds.

To go forward with this plan is my reason for being a candidate. On this basis, your vote and consideration will be appreciated.

## Tech Journalism Graduates Stay In Chosen Field

Journalism graduates of Texas Technological College at Lubbock are going into journalism and are not turning to other fields.

A record of the 1947 and 1948 graduates shows only three of the 42 graduates have left journalism, aside from the young women who have married. Prof. Cecil Horne, head of the Tech Department of Journalism, announces. Of the trio which has not gone into newspaper or affiliated work, one of this year's graduates is helping his father in business until fall, when he will take a reporting job; a 1947 graduate is advertising and public relations man for a business in which he is a partner; and another 1948 graduate is using photographic knowledge gained in Tech classes daily in taking pictures helpful in settling accident claims as an insurance adjuster.

Herschel A. Combs, co-publisher of the Memphis Democrat, recently wrote the Texas Tech Journalism department, raising the issue that many journalism graduates are leaving the profession for better paying jobs.

"I have been told," he said, "that many of the graduates with a major in journalism are taking positions outside the newspaper field this year. Is this true of Tech grads? And what type of work are they choosing, as well as the salaries they will receive from the beginning of their careers? We need to analyze the situation—then do something about it."

Here is what he was told: Of the 17 graduates in 1947, five women have married and are housewives.

The man already mentioned is in business.

One is an advertising salesman on a large daily newspaper.

One is editor of an industrial magazine.

One is a staff writer for a press service.

One is publisher of the Bronte Enterprise.

One woman is teaching high school journalism.

One woman is society editor of a small daily.

Two women are society writers on large dailies.

Two women are married and are employed on a free-circulation weekly.

One woman is reporter on a community weekly.

The men received initial salaries of \$250 to \$300 a month, the women \$35 to \$40 a week on newspapers and \$2,600 as a teacher.

The 1948 class included:

Seven women who married.

The insurance adjuster and temporary business man.

Woman, editor of a new magazine for an association, \$200 a month, plus traveling expenses.

Man, assistant editor of an industrial magazine, \$250 month.

Man, public relations, chamber of commerce, also editor of monthly magazine, \$250 month.

Man, fellow and journalism in-

## Methodist Circuit Churches Active

The Rev. C. A. Wells, pastor of the Wellington Methodist circuit, said that Bible study has been organized at the Fresno Methodist Church for each Sunday evening, under the direction of Mrs. John Aaron. Both interest and attendance is good, he said.

Bible study and a singing were organized at Salt Fork Sunday, July 18.

Bethel Church at Loco has recovered one side of the church roof, which was damaged in a windstorm a month ago. The remainder of the roof will be covered this fall.

structor in large university.

Man, reporter, large daily, \$45 week.

Woman, society writer, large daily, \$40 week.

Man, script writer, radio station, \$40 week.

Man, beginning graduate study in journalism.

Man, recalled to Army public relations, rank of captain.

Woman, reporter, large weekly, \$50 week.

Man, recreation writer and reviewer, large daily, \$50 week.

Two women, married, free-circulation weekly, \$40 week.

Two women, to teach high school journalism, \$2,400 each.

"We have at least a dozen applications for graduates which we could not fill because we did not have the graduates," Prof. Horne says.

The club will have their annual party August 20.

Those enjoying the delicious refreshments were Mmes. D. A. Kincannon, W. R. Breeding, Wayne Laycock, Miss Joy Riley and the hostess, Mrs. Gooch.

The next meeting of the club will be with Mrs. John Groves.

### Salt Fork Church Enjoys Old Time Cleaning, Picnic, and Singing, July 16

The congregation of the Salt Fork Church met Friday afternoon at the church for a general cleaning of the church grounds and building, and picnic, and old time singing.

Cars began arriving about 6 o'clock loaded with hoes, rakes, and picnic baskets. After two hours of hoeing in the yard, and after the building had been mopped and dusted, the group spread baskets of food.

The supper consisted of fried chicken with all the trimmings along with cake and iced tea.

After the grown ups had visited and the children had played for a short time, they moved the benches inside, put away the supper, hoes, and other tools.

An old time singing was then conducted. It was decided by the congregation that they meet regularly for these singings. The dates will be announced later.

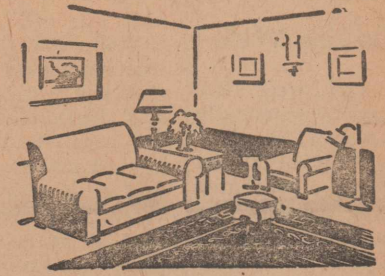

Guests attending the picnic and singing were Mr. and Mrs. Dee Harris, Mr. and Mrs. Ted Isbell, Don, Jack, and Patsy, and Rev. Wells and family.

Eugene Simmons returned to Mankato, Kansas, after visiting a month with his aunt, Mrs. Myrtle Simmons and children.

Mrs. L. M. McWright and daughter, Janice, of Pampa visited her sister, Mrs. S. L. Lindsey and family Sunday.

Mr. and Mrs. Jack Gibson are in Los Angeles, California, on their vacation.

C. H. Jones of Quail was a medical patient in St. Joseph's Hospital last week.

By BILL HUGHES

Congratulations to the V. F. W., to J. M. Moore, Guy Bell, Wm. Worth McClaskey, Eli Wolf, Charles Allen, Bill Lewis, Conrad Melton, Hiram Cudd, Reece Norman, Sunny McKinney, Charley Caldwell and Roy Scott for handling of 93 aircraft in under two hours in a manner that was so excellent that no crusty marine or Army general or Navy admiral or the C. A. A. could have helped but applaud and swell their chests over it. The operation of that flight line could not have been better. It was perfect. It was done voluntarily in the American way—intelligently, vigorously, willingly, and well. It may be hard for some to appreciate my enthusiasm over this piece of work but friends, I had seen plenty of flight line operations in uniform and out and I can't help admiring a beautiful piece of work, and being home work really makes me shut whoop-ee.

Congratulations to the B & PW Club, to Anna Lee Graham, Bonnie Willis, Wanda Lewis, Joy Riley, Ina Wilkerson, and Bessie Rainer for registering 176 people in under two hours without anyone ever having to wait in line; for taking their dollar and still leaving them happy that they came. Your time and courtesy made possible the success of the flight breakfast and was appreciated by the guests.

Congratulations Mrs. Aaron, Mrs. L. M. Bartlett, Mrs. Lee Scarberry, and Reba Scarberry and Mrs. Bill Day for the wonderful hot bacon, eggs and coffee cooked for 176 guests in under two hours. And they were good and they were hot. The meal was praised by all and all were glad they had come to breakfast.

Congratulations to the B & PW Club, to Dora Elizabeth McClaskey, Dorothy Robertson, Rose Shadid, Inez Leach, Mrs. Cleo Templeton, Mrs. Dora Ryan, Lucille Bennett, Margaret Shields, Rita Duncan and Mrs. Dick Richards all of whom helped serve this starving gang in less than two hours. Service with a smile always makes anything taste better and Wellington's hospitality was very much appreciated and commented upon.

Congratulations to Ralph Stowell, master of ceremonies, and to Zora Dell Austin and Benny Karnes who in the words of numerous guests "were wonderful." "By gosh, they are something. Do they live here?" and "We never expected a program like that." You bet they live here and we are proud of them.

Congratulations to the City and to Prometheus B. O. Handley and Crew for preparing the field, the swimming pool, for all the details that had to be attended to and all of which was done in spite of crowded hours. Marian Airpark with its swimming pool, ball park, skeet range, model plane circle and air field was a real surprise and guests imagination of the completed enterprise was very flattering to say the least. Shelby Kritzer of Trade Wind Field in Amarillo was one of several who wanted to know how soon Prometheus could build them a swimming pool.

Congratulations to Uncle John Lee, Don Briggs, Junior Montague, Saradel Lilljedahl, Marianne Daw and Jap Thomas who played hosts and hostesses to our guests at the swim pool and who so matched the quality of water and equipment that everybody's coming back.

Congratulations to Dr. Dale Watkins, Jimmy Kelso, his ambulance and Blayne Branum, its driver, the city for its fire truck and Roy Terry who manned it, Claude McKinney, Elmer Jones, Bill McCarter, Bill Miller, Hiram Cudd, the local law, and Jeff Hurd and Calvin Harrell of the State Hi Way Patrol, all of whom made possible not only the waiver from the C. A.

A. for Tom Kane's three shows but ensured vigilance against error. Claude McKinney said he had seen many gatherings but he had not experienced a friendlier nor one so well behaved and orderly. Congratulations and many thanks to the public at large.

Congratulations to Deck Wells, Virginia Robey and the whole staff of the Wellington Leader who so ably handled not only the publicity but more important aided the cause of safety, and hospitality.

Congratulations and many thanks to Miss Carroll Robbins and the Amarillo Globe News for their help and wonderful boost.

Congratulations to Tom Tomlinson and Virginia Evans of the Wellington Chamber of Commerce who were responsible for the coordination, organizing and planning of the details carried out by the V. F. W., the B & PW Club, the City employees, individual citizens, and the Wellington Chamber of Commerce.

Congratulations to the Wellington schools for their busses and their drivers, D. E. Williams and F. E. Dobbins, and to all the many citizens who placed themselves and cars at the disposal of the visitors. This act of friendliness and courtesy made a profound impression that no other single thing can equal for building good will.

Congratulations to Beryl Faulner and Plains Electric for the public address system on wheels which greatly facilitated the entire program, and for the ball game which he organized and put on.

Congratulations to the Boy Scouts of America, to Robert Newton Posey, John Hayden Smith and Jimmy Thompson who helped maintain communications between the field, the pool, and the Community Center.

Congratulations to the business men of Wellington who provided the funds to rent the aeroplane and buy it gas and oil for Tom

Kane's three shows, who gave the prizes for the flyer's breakfast.

Last but not by far the least, congratulations to Kane School of Aviation and to Tom Kane for the three splendid precision performances. You could not buy those three exhibitions for 600 dollars and he gave them free, not just for the benefit of advertising his school, not just for advancement of aviation, but as an expression of his appreciation to the people of Wellington whom he feels have been so good to him. He is a sincere man, a great artist and one who is most appreciative of the smallest kindness, particularly to his family to whom he is deeply devoted. He is a man of principle and courage. Those who feel he will be the one benefited by the publicity from those shows, let's quit kidding ourselves and face the facts. A man who has performed practically all over the United States before many more thousands and was paid to perform at the same time is not going to be particularly benefited by the three free shows before a local audience, Wellington and we the people are the ones who got the benefit and let us not forget it.

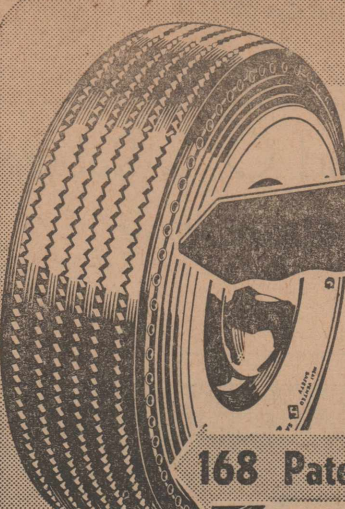

If you have plowed through all these names and paragraphs and are still with me you can appreciate how many people participated; and you can get an idea of the details involved. No one person nor group were responsible for that successful day. It took everyone and everyone did his part so well that our guests were astounded at the cooperation and enthusiasm; and Wellington has proven again that it is a great place with a lot of swell people whose hospitality and friendliness won't be forgotten by over 176 guests on Sunday morning.

Mr. and Mrs. H. I. Cagle of Quail

Mr. and Mrs. Cagle were hosts recently when their eight children gathered at their home at Quail for a three-day family reunion. This couple, who will observe their 55th wedding anniversary in October, has lived in Collingsworth County since 1913 and all but five years of this has been at Quail. The children are Bill Cagle, of Hollis, Ir. Penn Cagle, Waco; Rev. Dick Cagle, Hereford; Fred Cagle, Amarillo; Miss Daisy Cagle and Mrs. Otis Milton of Quail, Mrs. Sanford Simmons of Floydada and Mrs. R. C. Tennison of Hamlin.

## Mr. and Mrs. A. O. Sweat Honored On Their Golden Wedding Anniversary, Sunday

To honor their parents on their golden wedding anniversary the children of Mr. and Mrs. A. O. Sweat of Wellington were hosts at an open house Sunday, July 18, at the club room of the community building, from 2 until 6 o'clock.

Calling were friends from throughout the county as well as a number of out of county visitors who came for the event.

Carrying out the color scheme of gold and white, the entertaining rooms were decorated with many summer flowers, dahlias, gladioli, zinnias and marigolds.

The guests were greeted at the door, then registered, after which they were presented to the honorees. Later they were served refreshments of cake and punch.

A white linen cloth laid with gold ribbon covered the refreshment table. Attention was centered on a three tiered wedding cake of white, decorated in gold and topped with a miniature bride and groom. From this Mr. and Mrs. Sweat cut the first slice. Punch was served from a crystal bowl, and other table decorations were flowers and tall candles in crystal holders.

Music was furnished during the afternoon by Mrs. Rufus Sweat, Mrs. Jack Lowry, Mrs. O. O. Adams, Mrs. W. A. Morrow, Miss Zora Mae Sweat, and Jeanette Smulcer.

Members of the house party, in addition to the children and their families were Mmes. Frank Light, John Rainey, Jack Lowry, Howard Jones, Orval Couch, Francis Roberts, Claude McKinney, Claude Groves, Velman Warrick, C. A. Bradford and Miss Jimmy Light.

Members of the house party alternated at greeting the guests, registering them, and serving the cake and punch.

Although both Mr. and Mrs. Sweat have spent most of their lives in Texas, neither was born here. His native state is Mississippi, where he lived until he was 8 years old. Mrs. Sweat's family left her native Kentucky when she was only a year and a half old.

Both grew up in Grayson County, near Whitewright, and were married at Bethel July 17, 1898, by the Rev. J. M. Truett, elder brother of George Truett.

They made Grayson county their home during the early years of their marriage, leaving in 1906 to move to Denton county. Nine years later they came to Collingsworth County and first lived west of Wellington, then in 1917 moved to the Aberdeen community where they made their home until 1937.

In that year they moved to Mineral Wells. In 1934, Mr. Sweat retired from farming and the couple returned to Wellington to make their home.

"Our chief concern has been raising a family of 10 children, and we farmed to make expenses," Mr. Sweat commented on the occasion of their golden wedding anniversary.

During their years of active work, Mr. and Mrs. Sweat were a prominent and progressive farm couple, but they also found time to devote much work and effort to the Baptist Church, in which both were reared and in which they have reared their family.

Mr. Sweat points with pride to the fact that his grandfather, his father, himself and four of his six sons have served that church as deacons. In addition he has served as a Sunday School teacher, school trustee, and has been a member of the Masonic Lodge for 35 years.

Mrs. Sweat has likewise been active, filling many places of responsibility in church and community life.

The children and their families attending the anniversary celebration were Mr. and Mrs. Hardy Sweat and son, Joe of Hale Center;

## Miss Wanda Kidd and O. B. Raburn Wed in Double Ring Ceremony At Vernon, July 16

Miss Wanda Kidd, daughter of Mr. and Mrs. W. A. Kidd of Grandfield, Oklahoma, and O. B. Raburn Jr., son of Mr. and Mrs. O. B. Raburn Sr., were married Friday, July 16, in the home of Dr. Reeves, pastor of the First Baptist Church in Vernon.

Dr. Reeves read the double-ring service in the presence of the bride's cousin, Mr. and Mrs. Glenn Kurk.

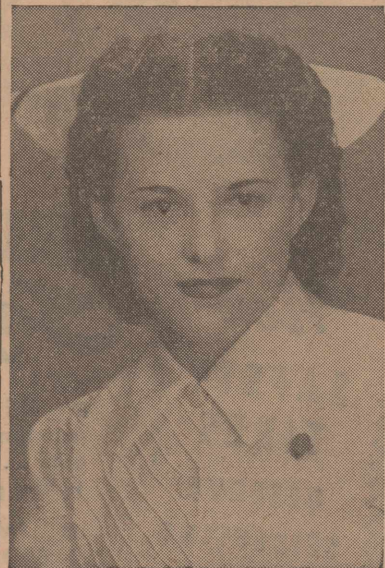

The bride wore a blue crepe street length dress with sable mist accessories. The skirt was made with a peplum which draped to one side. She carried a white Bible topped with a white orchid and baby breath.

Mrs. Raburn was graduated from Grandfield High School and received her B. S. degree from NTSC at Denton in the class of '47. She was a member of the Professional Club, Women's Recreational Association, Greenjacket Club, and the Delta Psi Kappa. She taught typing and girls physical education in the Wellington High School the past year.

Mr. Raburn, a member of one of the city's prominent families, graduated from the Wellington High School in the class of '45. He has attended Tech at Lubbock for the past 3 years. During this time he was a member of the Kamas Club. He is now employed at the Furr Foods in Lubbock. He formerly was employed with his father in the Raburn Grocery here.

Mr. and Mrs. O. B. Raburn Jr. will make their home in Lubbock.

Homer Holton is in Lubbock on business.

Completes Training

Miss Jimmie Lee Darrow of Fort Worth, formerly of Wellington, has completed her course of study at Harris School of Nursing, Methodist Hospital, at Fort Worth.

## Methodist Church Has Mellon Feast July 18

The Methodist Church was treated to a watermelon feast directly after the evening services Sunday, July 18, on the church lawn. The melons were furnished by Joe Baumgardner. The entire congregation was invited. Everyone was reported to have had a very enjoyable time.

## C. W. Roberts and Three Sisters Meet in Fort Worth For Family Reunion

C. W. Roberts, one of the earliest pioneers of the Panhandle, recently enjoyed a family reunion here and in Fort Worth which brought together four members of his family, all of whom are past 60 in age.

His sisters, Mrs. C. J. Hofstetter age 63, Mrs. Margaret T. Iverson age 89, visited him recently. Mrs. Mary E. Robbins, age 91, spent the past winter in the C. W. Roberts' home. Mr. and Mrs. Jimmy Baker, son and daughter-in-law of Mrs. Hofstetter, visited Mr. and Mrs. C. W. Roberts with Mrs. Hofstetter. Mrs. Hofstetter will be remembered as Mrs. Labraw Carns who lived here for 4 or 5 years many years ago.

Mr. and Mrs. C. W. Roberts returned to Fort Worth with their

guests and attended a family reunion there. Mrs. C. W. Roberts' family is also pioneers of Fort Worth.

Attending the reunion held in the home of Mr. Roberts' granddaughter, Mr. and Mrs. Eldon Purvis were: Mmes. Mary E. Robbins, Margaret T. Iverson, C. J. Hofstetter, Bertie Atkinson, O. R. Blanchard and Nett Weatherington.

Mr. and Mrs. C. W. Roberts, Mr. and Mrs. George Iverson, Mr. and Mrs. Eldon Purvis, Mr. and Mrs. J. Solomon, son of Mrs. C. W. Roberts, Albert Iverson, Elizabeth Ann and Mary Lou Blanchard, and Jimmie and Ronnie Solomon.

Mrs. Blanchard and J. Solomon are children of Mrs. C. W. Roberts.

## Deaconess Speaks at WSCS Friday, July 16

**Wheat Harvesters Now in Colorado and Nebraska**

By NEETA BALL

The ripening fields of wheat of the mid-western plains are drawing a large number of people from this country through the states of the wide plains on to the Canadian border.

Guy Bell, Paul Bell, Johnny Crawford, Gene Morton, Pete Nipper, and A. J. Fires were near Sidney, Nebraska. The wheat near Sidney was hailed out and the majority of the group moved on toward South Dakota.

Floyd Nipper and family with Clifton Hunter, Billy Joe Keller, and Gaston Williams are also in Nebraska.

In Colorado the wheat is reported to be good by the Porter Lovings. They are near Akron, Colorado. Jimmy Aduddell, Keith Cunningham, and Oran Morten are with them. They have had as much as 800 acres to cut in one place.

The Arthur Belevs are in Kansas, but have moved on north. They said the wheat was fair where they had been cutting.

Tiffin Young and Wayne McClelland have been cutting near Amarillo. They have their own combine and tractor. They have 600 more acres there to cut before moving on north.

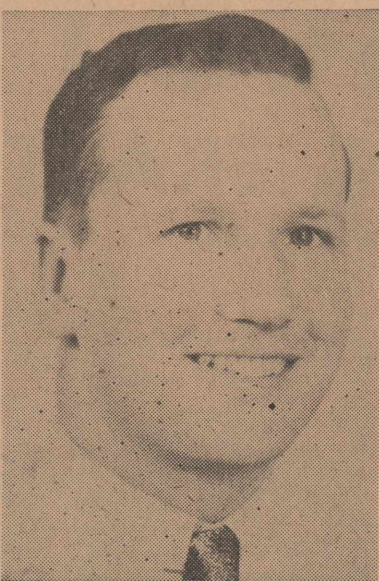

Jimmy Terry returned recently from the harvest. He had been in Texas. When the group started north, he returned home. He said the wheat was practically all gone in Texas.

These are not nearly all the people from this county that are in the harvest. Along with many others are Louis Cotton, Ray Peoples, Walter Johnson, and Billy Joe Langford.

**Smith-Doxey Aid Deadline Aug. 15**

COLLEGE STATION — Texas cotton farmers who want to receive classification and market news service on their 1948 crop should get their group applications in within a few days.

Deadline date for the eastern part of the state is August 1 and for the western part, August 15, John L. McCollum, manager, southwest area cotton branch, USDA's Production and Marketing Administration, Dallas, announced.

**FOR TAX OFFICE**

Hubert Mauldin is asking his first elective term as county tax assessor and collector, the office to which he was appointed a few months ago. He has no opponent.

August 1 deadline takes in all counties lying entirely or for the most part east of the 100th Meridian and the August 15 closing date all counties lying entirely or for the most part west of the 100th Meridian.

Both services are provided without charge under the Smith-Doxey Act to organized cotton improvement groups.

Group applications may be filed at the Dallas cotton office, 1104 South Ervay, or at PMA's classing offices located in Austin, Abilene, Galveston, Lubbock and El Paso. Texas had more than 1,000 organized improvement groups last year consisting of nearly 100,000 farmers who had over a million and a half bales classed. This represents about one-half of the 1947 crop, McCollum explained.

Victoria Dell Gholson, daughter of Mr. and Mrs. Howard Gholson of Quanah was a tonsilectomy patient in St. Joseph's Hospital last week.

**Personal**

Mr. and Mrs. G. W. Hunter of Loco, who have been in Memphis, Tenn., where their son, Eugene Hunter is in the Veterans Hospital, are now at home on business. They found some of their property destroyed in the twisting wind which struck that community several weeks ago. They report that their son is better at this time.

Mr. and Mrs. M. L. Portwood, Mr. and Mrs. Dubb Towe, and Mrs. A. L. Nowlin spent last week end at Buffalo Lake near Amarillo.

Mrs. C. A. Dysart of Mobeetie visited here recently with her sister, Mrs. Walter Culp.

Mrs. Homer Holton is in Fort Worth visiting her mother, Mrs. Nancy Rasco, who is dangerously ill.

K. F. Adado and children, Lewis and Bobby, of Lansing, Mich., brought his daughter and grandson, Mrs. Arthur Dakil and Floyd, home after they had visited him. Mr. Adado and children will stay in Wellington and visit the Arthur Dakils for two weeks.

Mrs. William W. McClaskey returned Thursday after a month spent visiting her mother at Winfield, La., and at Shreveport, Alexandria and Texarkana. Her sister, Miss Mae Opal Harper, who attended school here, accompanied her home and has accepted a position with a department store in Jonesboro, La.

Guests last Tuesday in the home of Mr. and Mrs. P. E. Starr were his two sisters, Mrs. Andy Bourland and Mrs. Charles Kester of Vernon, and a cousin, Silas Starr, who is visiting in Texas from Georgia.

Mrs. J. A. Dukeminier, who has been visiting her daughter and son-in-law, Mr. and Mrs. Ernest Elliott, in Plainview, is now with her other daughter and son-in-law, the Rev. and Mrs. C. E. Meredith of Arlington. She will return home within a short time.

J. B. Wade of Earth underwent minor surgery in St. Joseph's Hospital last week.

R. L. Blackshear was a recent medical patient in St. Joseph's Hospital.

## City Women to Baby Chick Show

Mrs. Guy Clay of the Clay Produce, and her mother, Mrs. W. W. Sugg, have returned home after attending the International Baby Chick Convention at St. Louis, Mo. The convention opened July 12 and continued for 12 days.

They heard some of the nation's outstanding speakers on various phases of baby chick raising, and on Newcastle disease, which is of much concern to poultrymen. They were present for the banquet of the organization, attended by 3,000, with a dance following and music by Hal McIntyre orchestra.

Other activities included a cruise on the streamlined all-metal SS Admiral up the Mississippi River; attending a luncheon and fur fashion show; attending the St. Louis outdoor opera in Forrest Park; and witnessing an All-Star baseball game through television.

Mrs. Sugg and Mrs. Clay were guests in the home their son and brother, J. D. Sugg, while in St. Louis.

C president; Ralph Stowell, vice president; Bill Hughes of the board of directors; and T. A. Tomlinson, manager.

A majority of these flyers, before leaving, stopped to tell those who helped with the breakfast, or to comment to townspeople at the field, that Wellington's hospitality has not been equalled at flight breakfasts in the area. The visitors were equally impressed with Marian Airport, with its swimming pool, skeet range, lighted baseball diamond, and model airplane flying course, as well as with the plans that are being made for future development of the plot.

Those who had not seen previously the community building were again surprised. In fact, the visitors liked everything they saw during the breakfast—and said so.

iting and spreading dinner picnic style in the shade of the trees. It will be highlighted, however, by an old settlers, cowboy and cowgirl square dance Thursday night, August 19, beginning at 9:00 p.m., Mr. Hunter said.

The rodeo is planned as West Texas fastest amateur show. Fifteen hundred dollars in cash prizes will be given and the rodeo events will include calf roping, saddle bronc riding, bulldogging, bull riding and a wild mare race. There will be a cowgirl's sponsors contest each day.

Starting off the celebration will be a big parade at 4 o'clock on the opening day.

These are only the bare overall plans, sponsors of the rodeo and reunion point out. There will be many more details worked out, every one of them adding color and fun to this big, western style celebration, which will make Wellington the mecca for those who like to see a fast rodeo as well as those who perform in one, along with the men and women who once each year remember the early days of Collingsworth.

## Gospel of Christ

(Rom. 1:16)

BORN AGAIN

In the third chapter of John we find the Lord making a new birth of "water and of the Spirit" necessary unto salvation. Now if Spirit means Spirit, water must mean water, and to change the one would allow the change of the other. The Spirit simply means the Holy Spirit and the water simply means baptism according to Mk. 16: 15, 16.

In verse 8 of this chapter we find this illustration: "The wind bloweth where it listeth, and thou hearest the sound thereof, but canst not tell whence it cometh, and whither it goeth: so is every one that is born of the Spirit." This does not teach that the new birth is a mystery. The comparison is between the part of man, the spiritual man, born of the Spirit and the wind. "So is every one that is born of the Spirit"—both, the wind and the spiritual man are invisible. The Holy Spirit, through God's Bible, speaks unto the invisible, spiritual man, and as we cannot see the wind we see not this one born of the Spirit, but we see the effects as it produces obedience in the heart of man. There is no mystery to the new birth.

## TRUCK & TRACTOR CO.

Your International Harvester Dealer

Wellington, Texas

Hello, folks.

O. E. Rogers, B. E. Ratliff, and several others were in after mower parts last week.

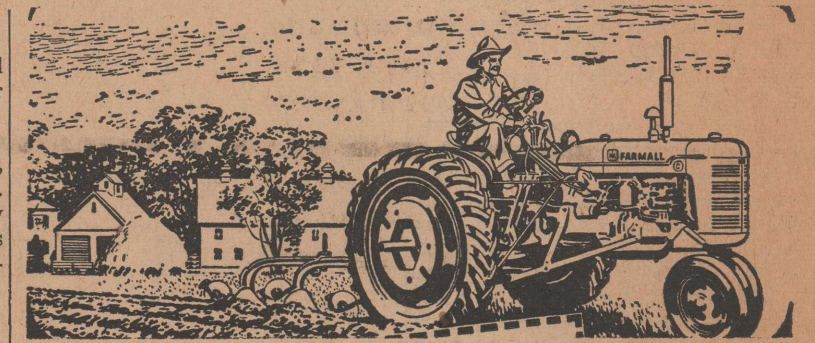

Travis McGuire, Bill McClaskey, J. G. Tidwell, R. R. Crawley, G. W. Atkins, Dan Jones and many others were here the last few days to get parts for their Farmall cultivators.

Even the best of men—and tractors—occasionally show up on the sick list. What good doctors are to people, good mechanics are to tractors and trucks. Experience, training, and natural ability is what it takes to make good doctors—and good mechanics.

Wise folks take themselves and their families to the best doctors, and buy only the purest and most carefully compounded medicines. Wise Farmall owners, and International truck owners, are learning rapidly to bring their tractors and trucks here where our mechanics are specially trained and experienced on these particular machines, and where they know only Genuine Parts will be used to replace the worn and broken ones.

Last week our mechanics served, or our parts men sold Genuine

FIRST COME, FIRST SERVED on these; and we'll have some more NEXT year.

Clarence Terry, W. L. Kirkland, J. G. Tidwell, and several others bought umbrellas for their tractors here last week. There just isn't any good reason for riding a tractor out in this hot sun these days—it's hot enough in the shade.

This International High-Speed Texas Pattern cultivator sweep is selling well again this year, because it is just the shape and material most good farmers want in their sweeps. Many have already bought what they'll need this year, and among those who called for them the last few days were Roy Young, E. G. Allen, W. C. Barnett, R. R. # Your Vote Will Be Appreciated

During recent weeks I have made an effort to see all of the voters of Precinct 2 and discuss my candidacy for commissioner and the problems of the county government. It was a privilege to meet with you in your homes and your fields, and at this time I would like to express my deep appreciation of the courtesy with which you received me, and to learn of your sincere interest in the affairs of the county.

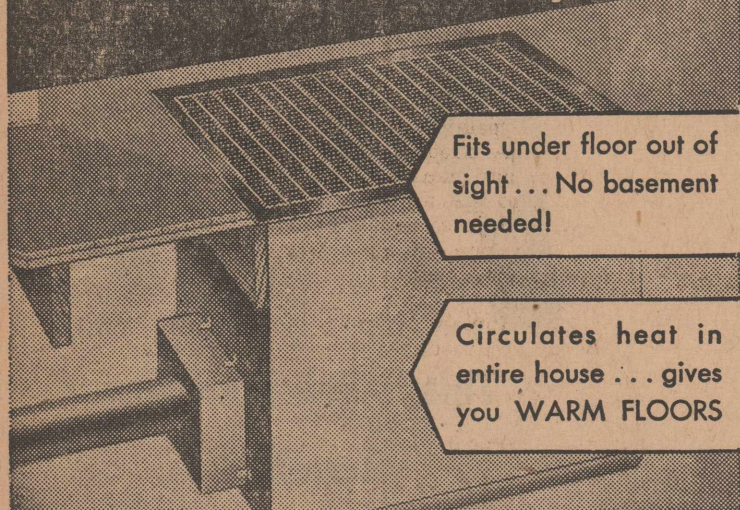

From these conversations I feel that each one of you know that I recognize the importance of building better county roads; but that our main problem is to pursue business-like methods in solving the financial problems of the county; for these must be solved if we are to have the farm roads, the services of county agent, a home demonstration agent and other services vital to the welfare and prosperity of the people of our community. In short you know that I will work to put our county government in shape to provide the essential services to which the people are entitled, and I will strive at all times to see that the county gets value received for the money it spends.

On this basis I solicit your vote next Saturday. Thanks again for your consideration and your interest.

## Six LIFESAVING RULES FOR FARM PEOPLE

## TAKE TIME TO BE SAFE

The loss of an arm or leg is a high price to pay for saving ten seconds. When operating power machinery, take time to be careful.

Your life will be safer if you...

Observe these simple rules:

- 1 Shut off P.T.O. before attempting to unclog corn picker, baler, etc.
- 2 Keep all shields in place when operating machine.
- 3 Don't trust defective hitches, brakes, clutches, seats.
- 4 Never mount or dismount from a moving tractor. Don't ride on drawbar.
- 5 Don't wear loose, floppy clothing around power machinery.
- 6 Think first. After the accident it is too late.

This year a disabling injury probably will strike some farm person every 19 seconds. Don't let carelessness put your name on that list.

#### CANDIDATES FOR COMMISSIONER, PRECINCT 1

These four men are asking election to the office of Commissioner of Precinct 1, the largest number seeking any one office in this year's election locally. From left to right they are Willie Smith, B. F. Evans, A. C. Shipley and Jack Brewer. The first three are farmers, while the latter is employed by the present commissioner in working the county roads. Mr. Smith and Mr. Brewer live in Wellington, Mr. Evans and Mr. Shipley near town.

#### Giles Tells of School Land Sale

AUSTIN — Bascom Giles, Commissioner of the General Land Office, said today that the proceeds from the July School Land Sale helped swell the permanent education funds to \$50,000,000.00 for the fiscal year.

This tremendous flood of money into these funds exceeds by five times the largest amount heretofore received for a similar period of operation by any former commissioner, Giles said.

The higher education fund and the public school permanent fund have now reached a total of \$215,000,000.00.

The Land Office added an additional \$1,144,184.00 resulting from the sale of 210,000 acres located in 68 counties. Only 30 tracts totaling 15,000 acres located in Presidio, Reeves and El Paso counties failed to receive bids. The amount bid per acre doubled that for any previous sale.

Commissioner Giles pointed out, by way of contrast, that when Texas made its bid to enter the Union, it unsuccessfully offered its entire public domain to the Federal Government for \$13,000,000. Now a small fraction of those same lands are bringing in over \$14,000,000.00 annually from oil and gas royalties alone for public education.

#### Stevenson Sticks To Early Promise Of No Platform

Coke Stevenson this week is ending his first primary campaign for the United States Senate on the same note he struck when he announced his candidacy on January 1.

The former Governor said, in announcing, that he would offer no political platform because of his belief that "political promises are not worth much of anything." He has campaigned in a light automobile.

Mr. and Mrs. T. J. Way and children, Miss Jeanne Way and Tom Way Jr., moved Monday from Seminole, Okla., to Memphis to make their home.

Mr. Way will be associated with the First State Bank in Memphis. Former Wellington residents, they moved from here to Jay, Oklahoma, about a year and a half ago, and later went to Seminole. Mr. Way was connected with banks in both places.

#### Kenneth Neals Stop Briefly En Route to New York City

Mr. and Mrs. Kenneth Neals of Roswell, N. M., were guests of her parents, Mr. and Mrs. E. M. Hix, Saturday night.

They were en route to New York City, where Mr. Neals is representing the Roswell Lions Club at the meeting of the Lions International.

They plan to be away three weeks, visiting also at Niagara Falls, in the Great Lakes Area, and in Canada.

En route to New York, they will stop for two days in Pennsylvania to visit plants manufacturing linoleum, from which Mr. and Mrs. Neals secure stock for their Builders Supply Company.

#### Jim Griffin Is Out to Beat McDonald

Big Jim Griffin, candidate for state commissioner of agriculture, is carrying his straw-hat, shirt-sleeve campaign to every county in Texas. He has traveled 30,000 miles, made over 400 speeches.

"Only hard work will beat J. E. McDonald," he says, "and I'm the old plowboy who's used to the hardest kind of work. I figure McDonald never got up against an aggressive campaigner before. I've been stumping the state since December." Griffin consistently refuses to sling mud at his only opponent, the 67-year-old incumbent, J. E. McDonald, although McDonald is under a Federal indictment of lobbying and stands accused with manipulating commodity markets for his own personal gain.

Big Jim, a 210-pounder, six feet three inches tall, has a four-year college course in agriculture to back his statement that he's qualified for the post. He was farming at Mission, in the Valley, when he "got hot at some of the policies of the state agriculture commission" and decided to make the race. Most likely he concentrates his campaign on (Continued on Page Eight)

They recently sold the I. O. Ruby IGA Grocery to Earl Tollett, and their home on Dalhart Street to Mr. and Mrs. Harold Morrow.

Mr. and Mrs. Ruby and Gene have made their home in Wellington for almost twelve years and during the time have been active in the work of the Church of Christ as well as in civic work.

Gene will be a high school student in Oklahoma City this fall.

#### Important Political Dates in Late July And Early August

The remainder of July and early August include a number of dates important both to candidates for political office and to the voters as well.

The high point at present is the first primary election Saturday, July 24, which will settle definitely who will fill most of the offices during the two years beginning January 1, 1949.

Other political dates include: July 27: last day for election judges to make returns to the county chairman.

July 29: first day to file expense account for the second primary.

July 31: county committee canvasses returns.

July 31: county convention.

August 2: last day to file first expense report for the second primary.

August 3: last day to file final expense report for the first primary.

August 8: first day for absentee voting.

August 9: State Executive Committee meets to canvass returns and certify first primary nominations to the general election ballot.

#### Rev. C. R. Thrasher To Hold Revival at Nazarene Church

Revival services will open at the Church of the Nazarene in Wellington Tuesday, July 27, with the Rev. C. R. Thrasher of Newcastle, Indiana, in charge of the preaching.

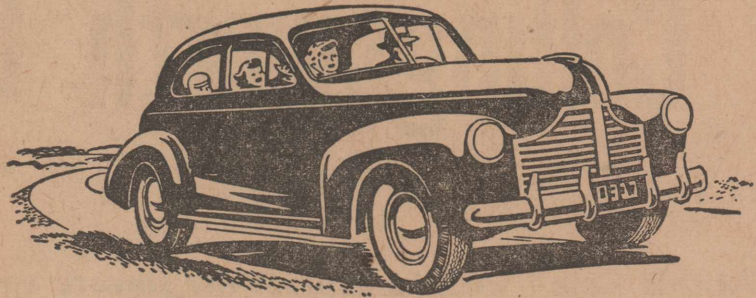

The revival will continue through August 8, the Rev. Austin Moore, pastor, said.

Services will be held each evening at 8:00 p.m.

"We extend a cordial invitation to the public to attend any or all of our services," Rev. Moore said. "We believe that we can help every person who attends our services, and we know your presence will be an inspiration to us."

"Rev. Thrasher is one of the outstanding preachers of our church, and we are indeed fortunate to have him here."

## Million and Half Texas Children in Crowded Classes

AUSTIN — Conditions improved slightly this year, but nearly half of the 1,500,000 public school children in Texas are still being taught in badly over-crowded classrooms.

A survey announced today by the Texas State Teachers Association indicates that 46.7 per cent of the children are getting inadequate educations due to a shortage of teachers and buildings.

Many schools, among them larger cities such as Amarillo, Corpus Christi and Galveston, are on a half-day schedule so acute is the situation, according to Joe Humphrey of Abilene, vice-president of the Teachers Association.

Thirty pupils is the maximum class for efficient teaching, the National Education Association and other organizations agree.

Classes with as many as sixty-five pupils were found in a survey which was conducted by Miss Willie Mae Floyd of Abilene, Texas, representative on the NEA advisory committee on tax education and school finance.

Elementary schools are more badly in need of additional space and teachers than are junior and senior high schools, the Floyd survey disclosed.

A total of 58.7 per cent of the grade school pupils included in the survey are in classes of more than thirty pupils. Exactly half of the junior high pupils are over-crowded. The senior high schools have 32.9 of their students in over-sized classes.

"Texas needs a minimum of 2,500 additional teachers and thousands of additional classrooms to relieve the heavy congestion in our public schools," said Humphrey. "It is a very grave problem which, somehow, must be solved."

"All educators recognize the fact that it is impossible for pupils to get the attention they need and adequate instruction in classes of more than thirty students."

"Large classes rob children of part of their American heritage, the right to obtain a thorough education."

Humphrey said some way must be found to interest more young people in preparing for a teaching

### COMMISSIONER, PRECINCT 3, CANDIDATES

Two Quail men are asking election to the office of Commissioner Precinct three, which includes the southwest part of the county. At left is Pat O'Hair, while Z. J. Neeley is at right. Mr. O'Hair is the present commissioner from that precinct, and is serving his first term in that office.

career.

"Even with the increase in pay granted teachers by the last legislature, the inducements to enter the profession apparently are not sufficient," he declared.

"Our colleges are not training enough teachers to take care of the usual replacement needs, let alone add to our staffs."

Humphrey also said many schools do not have enough money to construct additions or new buildings.

"Others have voted bonds, but are reluctant to build during these times of high costs, when they can get only about half as much for their money," Humphrey said.

Careful planning, wise buying and good cooking can do much to hold down food expenses in the family, but even these may not outweigh the expense of catering to whims and special tastes.

Wash handkerchiefs before they are badly soiled so that they need little or no rubbing to become clean.

An hour's soak in cool water will loosen much of the dirt and save strenuous washing.

# To The Voters of Precinct 1:

With election time next Saturday I would like to mention a few things I plan to do if I am elected to the office of your commissioner.

1. An audit of books once a year so the public may know how and where their tax money is spent.
2. To replace with concrete, as many of the small wooden bridges as possible. This will eliminate decay, termites and fire, and will be much cheaper over a number of years.
3. The grading of roads should be done according to the nature of the soil from which the road is being built.
4. Road and bridge work is not all that will come before the Commissioners. At all times I will carefully consider the problems of the county and act for the best interest of the county and citizens.
5. I have had road building and bridge construction experience.
6. I expect to spend money where it is needed most, but will practice economy, though not at the expense of the tax payer.

I am a property owner. I came to this county in 1924, and am 54 years old.

If elected, I will get on the job and make you a hand.

THANK YOU

B. F. Evans

## Green Pasture Will Give Chicks Enough Vitamin A

STILLWATER, Okla. — One of Oklahoma poultrymen's biggest problems in feeding pullets through the summer months is an adequate supply of vitamin A, Rollin H. Thayer, Oklahoma A. and M. College poultryman reports.

Although this vitamin can be provided in feeding oils, alfalfa meal, and various other concentrates, a green pasture crop is the best source. Vitamin A is easily oxidized and is more apt to lose its potency under storage conditions when present in the feed in condensed or synthetic form, Thayer explains.

Past experiments at A. and M. College has shown that pullets which are not provided with vitamin A in the summer are not grown out as well in the fall. Mortality rate is higher in the winter months with these pullets, the poultryman points out.

The most economical way to provide vitamin A is through green forage crops of one kind or another which can be grown during practically all months of the year. The forage crops must provide succulent material, Thayer says. Fibrous or stemmy dry stalks and leaves are worthless as a source of green feed for pullets. Some of the better crops for feeding pullets through the summer are Swiss chard and Sudan grass, he says.

Sudan grass should be planted in rows three or four feet apart. Each row or group of rows to be planted a week apart and the chickens kept off the grass until it is six to 12 inches high. Thayer recommends that the grass be cut within two or three inches of the ground just before it begins to head. This not only insures succulent material, but allows the grass to grow again. If the proper weather conditions are present, the grass may be cut two or three times, providing greens through most of the summer.

A drouth resistant plant for early summer is Swiss chard. This is to be planted away from the poultry yard, and the outer leaves picked and run through a green feed chopper. Feed each day only what the pullets will clean up in 30 minutes.

Swiss chard is not only drouth resistant, Thayer points out, but is killed only by a severe frost, and will provide green material for the pullets until that time. If pullets are allowed to pasture the chard, they will eat the plant.

### Baylor Gets Reptile Fossil

The skeleton of a prehistoric reptile, the plesiosaurus, found near Lake Waco, has been moved from its 75 million year-old bed of shale to Baylor University's Strecker museum in Pat Neff Hall.

Joseph Baur found a flipper of the animal about two months ago, but recently two Waco boys, James and Wayne Brown, reported seeing the skeleton along the Bosque river.

According to Richmond Lee Bronaugh, instructor in geology, the plesiosaurus lived in the Eagle Ford Time, about 70 or 75 million years ago, when the Waco territory was an inland body of water.

The ticklish job of removal was

For a yearly feeding schedule, Thayer suggests that a permanent pasture of Bermuda grass, alfalfa, sweet clover or lespedeza be used with supplemental temporary pastures of sudan grass, winter wheat, rye grass or oats. When these pasture crops are no longer available because of hot dry weather, cut green feed should be provided each day.

Vitamin A need not be a problem in summer feeding of chickens when green crops are properly provided for, Thayer says.

supervised by Bryce C. Brown, assistant curator of the museum and Mr. Bronaugh. During the process of moving, the shale, in which the relic was embedded, broke into eight pieces, but it is being reassembled at the museum.

Plesiosaurus, according to a description given by Mr. Pronaugh, is a genus of extinct marine reptile of the Mesozoic period of Europe and North America having a very long neck, a small head, and all four limbs developed as paddles for swimming.

An old writer describes the prehistoric animal as a "snake strung through the body of a turtle." The trunk was very broad, flat, inflexible, and was well plated with bones, which were not armor, but areas for attachment of muscles powerful enough to paddle the animal about in the water.

### You Have to Keep Left to Be Right

You have to keep left to be right, according to W. J. Elliott, Chief of the Texas Highway Patrol.

"But let me tell you what I mean, before you think I sound mixed up," he said. "A left turn in heavy traffic is one of the most difficult maneuvers in an automobile, and it causes traffic tie-ups and accidents when bungled."

Chief Elliott said that the Texas Highway Patrol is cooperating in a nationwide "Know and Obey Traffic Laws" program, and he cited National Safety Council statistics to show the need for such a program.

At least 3 1-2 per cent of all fatal pedestrian and non-pedestrian accidents involve a turning vehicle, and improper turning was reported in from 4 to 5 per cent of all accidents.

Pointing out that about twice as many turning accidents involve left turns as right turns, Captain Polk Ivy of the Amarillo District listed five rules to remember in making a left turn.

1. Keep next to the centerline or center of the roadway, so that

no car will approach from behind on your left as you turn.

2. Turn around two points, one where the center of the street or road you are on meets the crosswalk or property line, and the other where the center of the street or road you are turning into leaves the crosswalk or property line.

3. Start to get in the proper lane for turning far enough back, at least a block before the turn.

4. Use hand signals before making the turn and be sure to make a full turn. Don't cut corners!

5. Always respect the right of way of other drivers who are at the intersection or approaching so close as to be a hazard.

# Try A New Man As Your Next COUNTY JUDGE

R. L. TEMPLETON

1 Qualified experienced lawyer.

2 Disabled veteran of World War II.

3 During his present term in the state Legislature he supervised the spending of over \$234,000,000., and handled it so well that the state is now enjoying a cash surplus of \$65,000,000 over and above all expenditures.

4 Does he have the age and experience to hold down the job? Seven years ago you found him old enough to go off to war in which both his brothers were killed in action. Two years ago you found him old enough to efficiently hold down a higher, more responsible state office.

5 What will he do? He will handle county affairs according to law and will publish the annual audit showing proper administration according to law, which is more than his opponent did during the four years he served as your County Judge.

6 What alternative do you have? If you vote for his opponent you will put back in office a man who increased the County's indebtedness. In 1939 C. C. Bishop borrowed \$20,850 to cover expenses over and above income, 1940 it was \$22,875, in 1941 it was \$25,900; 1942 it was \$21,850. During C. C. Bishop's four years in office he increased this county's indebtedness \$101,475 through these borrowings to cover expenses over and above income. We leave it to your memory and judgement as to how he improved your roads and bridges during his two terms.

7 If R. L. Templeton hasn't seen you personally to ask for your vote, remember that he has had to carry on with his law work during the campaign in order to have the money to make this race for County Judge.

8 Your vote will be appreciated by a young man, anxious to do a good job, who if elected, will show his appreciation by diligent and faithful performance of his duties in conformance with the laws of the State of Texas.

The annual Cotton Research Congress is under way in Dallas this weekend. Many of the nation's top cotton prognosticators, researchers, planners, and handlers are there. Our new secretary of agriculture, Charles F. Brannan, who hails from Colorado, is to be the chief speaker. Saturday, an attraction will be the farm implement clinic for cotton farmers with many types of cotton planting, cultivating, weeding, and harvesting machinery on display with discussions of their advantages and limitations. Farmers are entitled to know what they can expect from anything which takes such a big investment as the average farm machine.

Over 100 million head of livestock have been through the Fort Worth stockyards since 1902, according to W. L. (Bill) Pier, Manager. This represented two and a quarter billion dollars which changed hands over them.

Aside from the short corn crop last year, one reason for high meat prices now is the declining number of cattle in proportion to population. Sixty years ago the U. S. had 100 cattle for every 100 persons.

Looks like we're either going to have to have more cattle, or learn to get more meat off the critters. We still like ours inspected, properly killed, and cooked.

Fearful of some future scarcity of coal and petroleum, a team of British Scientists are trying to manufacture methane from India-grown water-hyacinth. Methane is a high-energy hydrocarbon gas which burns clean and can be converted into many forms of fuel.

Why doesn't someone discover such a use for mesquite, post oak and cedar?

One of the things that kill and maim our population is the idea that it's weak, effemination or sissy not to take chances. Some people hold that safety is inconsistent with the spirit of our forefathers who took great risks to establish our country. Another is that accidents are the natural price paid for progress. And still another is that accidental death or injury is due to the law of averages.

None of that makes sense, when you think about it.

# Lets Elect Willie Bill Smith

COMMISSIONER OF PRECINCT 1

We believe that the condition of our county government demands the best ability the tax-payers can secure, and we would like to ask you to consider the candidacy of Willie (Bill) Smith when you go to vote.

Here are the things he stands for:

1. A business like administration of the county's affairs which pertain to the Commissioners Court.
2. Economy — not doing away with the things the county needs, but getting value received for money paid out.
3. Honesty — I believe this should be the first requirement of any public official who serves the people.
4. Efficiency — Because I have never run a maintainer is no sign I don't know how a road should be put up. When I was a boy the roads were worked so the water was put into the bar ditches. Now you too often see a ridge on each side with the water standing in the road.
5. I propose to grade the roads with a gentle slope from the center so that the water will run in the bar ditches thereby eliminating mud puddles and so many deep ruts.

## Editorial

At a time when our nation is threatened by inflation at home and the constant aggression of Russia, the people of Texas should vote carefully in selecting their next United States Senator. The Leader believes that Texans want honor, integrity and common sense in Washington.

We feel that Coke R. Stevenson is the man to represent us in the struggle to maintain peace abroad and to avoid more inflation and the consequent depression at home. We need the same courage and ability that was shown by Stevenson as our war-time governor, who did so much to augment this state's great and outstanding war effort.

His background is re-assuring to all sincere patriotic Texans, even though his candidacy is opposed by a group of wealthy contractors who became immensely rich during the war years and who hope for more special privileges.

His background is this: He is a ranchman, farmer and country banker. He studied law at home. He was a long time member of the Texas Legislature. He presided over the Texas Senate. He served with distinction as Lieutenant Governor and his record as a Governor is one of the outstanding ones of all time. His career reflects study, hard work and sincerity of purpose. You can't go wrong by voting for Coke Stevenson.

What with that brand-new phonograph that plays for hours without record changes, long-winded disk jockeys can now take on another job.

## COUNTY TREASURER

## Who Does Collingsworth County

Want To Send To The Legislature --

## Bright Young College Boy Or 30-Year-Old Business Man?

There are two splendid young men making the race for State Representative this year. One of them, GRAINGER MCILHANY OF WHEELER, TEXAS, is 30 years old, holds degrees from the University of Texas in Law and Business, worked 3½ years as an accountant before the war, served in the army 4 years, and is now engaged in the Dry Goods business at Wheeler.

The other candidate is a likeable youngster from Clarendon who is studying to be a lawyer at Austin. If elected, it would be necessary for him to divide his time between the University and the Legislature studying law part of the time and writing laws for the State of Texas the rest of the time.

## DON'T YOU THINK RUNNING OUR STATE IS A GROWN MAN'S JOB?

The Legislature, as you know, is the "board of directors" of the State of Texas which is the biggest business in the state. The Legislature decides where and how to levy taxes. The Legislature decides where and how to spend these millions of dollars. The Legislature enacts our criminal and civil statutes which regulate our daily lives. DON'T YOU THINK WE NEED A MAN OF MATURE JUDGEMENT AND BUSINESS EXPERIENCE TO REPRESENT US ON THIS ALL-IMPORTANT BODY?

## 'April Showers' Opens Sunday at Ritz Theatre

A real-life vaudeville family which toured the nation in the heyday of the two-a-day, is the basis for the comedy with music, "April Showers," which opens Sunday at the Ritz Theatre.

That family, all but forgotten now except by Producer William Jacobs, who once acted as their booking agent, consisted of a man and wife whose vaudeville act was saved from failure by the addition of their small son to the troupe.

### True Story

The Warner picture has Jack Carson and Ann Sothern as the man and wife team and young Robert Ellis as their son, Buster. Even the difficulty the real family had in New York with the Gerry society which watches for violations of the law against minors in the theatre, is included in a long comedy sequence of the picture.

Both producer Jacobs and James Kern, who directed the picture, have soft spots in their hearts for vaudeville, both having been connected with it in one capacity or another. Jack Carson too, had a turn on the two-a-day in the middle west before he ventured to Hollywood.

### Real Show Folk

Ann Sothern, although never in vaudeville, did tour with her mother, a concert singer, as a young girl and consequently had a considerable acquaintance with show people. Robert Alda, recalled to play the villain of the story and a song and dance man, was formerly just that in vaudeville and burlesque.

Altogether "April Showers" was a labor of love with producer, director and the principal players all intent on portraying the heart and happiness that went along with the days of vaudeville as well as its disappointments and hardships.

The number of farms getting electricity from central power plants was three times as many in 1947 as in 1937.

### ASK COMMISSIONER, PRECINCT 2, POST

Two of the three candidates for commissioner of Precinct 2 are shown here. They are Lee Roark, left, and Alfred Knoll. A picture of the third candidate, W. R. Benton, was not available. All are farmers, Mr. Roark living at Lutie, Mr. Knoll at Nicholson and Mr. Benton at Aberdeen. The place they are seeking is now held by Wayne Johnson, who did not file for re-election.

## Time on Veterans Cars Extended

Authority of the Veterans Administration to provide automobiles or other conveyances for veterans of World War II who in service lost, or lost the use of, one or both legs at or above the ankle, has been extended until June 30, 1949.

The law granting vehicles to such disabled veterans had been scheduled to expire June 30, 1948. The extension and an appropriation of \$1,500,000 for the program were contained in the Second Deficiency Appropriation Act for 1948.

A veteran who qualifies is entitled to an automobile or other conveyance costing not more than \$1,600, including such special equipment or appliance as may be necessary to enable him to operate the vehicle safely.

## July 31 Deadline For Reinstating Veterans Insurance

Thousands of World War II veterans may lose the opportunity to reinstate National Service Life Insurance worth many millions of dollars unless they act before August 1, the Veterans Administration says.

After July 31, veterans whose NSLI term policies have been lapsed more than three months must take physical examinations to qualify as insurable risks. Before August 1, veterans have only to sign a comparative health statement.

Eligible veterans may reinstate any amount of term insurance up to \$10,000 in multiples of \$500 regardless of the length of time it has been lapsed under present liberal regulations if they apply be-

## Auto Count in Texas Up 30.2 Percent Since '44

CINCINNATI — Texas, with its automobile population up 30.2 per cent since 1944, ranks eleventh among the states in recovering from the wartime low in car registrations, Powel Crosley, Jr., pointed out here today.

"Such a gain in the Lone Star State is partly traceable to important shifts of population in recent years from the industrial east, midwest and grain states to the south, southwest and Pacific Coast," Crosley said. "Texas appears not only to have benefited by this trend but also to have improved the economy of its people."

Motor vehicle ownership in this state rose from 1,553,574 in 1944 to 2,023,501 last year.

Based on recent census figures, there is one passenger car for every 4.48 persons in Texas, the state ranking twenty-sixth in the nation in this respect.

Tests in building home freezer units show that six inches of insulating material is the best thickness. Thinner insulation runs up the operating costs and more insulation makes the box too bulky.

fore August 1.

They need only fill out a simple application form, in which they certify that their health is as good as when the policy lapsed, and pay premiums for two months.

farmers — "I speak their language." Griffin's car is equipped with a loudspeaker. "Anywhere I can get as many as two men to stop and listen to me, I make a speech."

Griffin is a ruggedly handsome fellow, 30 years old with steady brown eyes. He grew up behind a plow, landed at Sam Houston State College with \$2 in his pocket. He was 19 when he was graduated four years later. He taught school at Sugarland, then went to work for the U. S. Immigration Service. Following service in the armed forces, he went back to farming. He is married and has a son, Jim, Jr. Contributions from farmers finance Griffin's campaign. When he gets a few dollars ahead, he buys a little time on a local radio station. Mostly, Griffin campaigns with a five-point program he would have the state agriculture commission adopt:

1. An honest, efficient administration.
2. An advisory council, composed of representatives from every segment of Texas agriculture.
3. A program of soil conservation.
4. Protection against introduction of plant diseases and insects.
5. Water conservation policy.

bile, which does not even bear so much as a windshield sticker or a placard. He has made no stump speeches.

"I've made a great many talks before organizations which extended me an invitation," Stevenson said. "Besides the people I've addressed at such meetings, I estimate that I have talked personally with 250,000 Texas men and women since I announced for the Senate." Stevenson has a theory that a candidate for office can learn more by listening to the people than by "lecturing them or trying to tell them what they ought to think and do."

His campaign methods apparently have been effective. Three successive state-wide polls of public opinion have known Stevenson far in the lead in the United States Senate race. He predicts that he will get a majority of the votes on Saturday and that no runoff will be necessary.
