

FIRST CUCUMBERS--Stephen Smith hauled in the first load of cucumbers of the season July 15. Smith raised the first load of cucumbers in the Olton area for the second year in a row. Shown with him on top of the 30,000-lb. truck load of cukes is Cecil Gallaway.

Hopewell Church Sets Revival

Homecoming revivals scheduled to begin Sunday at the Hopewell Baptist Church, Elder D.D. Harris announced. Evangelist for the services will be the Rev. J.B. Vickery of Lubbock. Charles Riggins of Olton will be song leader.

Services will be held daily at 10 a.m. and 8 p.m. from Sunday, July 26, to Sunday, August 2.

"We want to invite everyone to attend our week-long revival," Elder Harris said. Lunch will be served following services Sunday morning. The nursery will be open during all services.

Thompson Runner-Up

Roger Thompson, son of Mr. and Mrs. Fred Thompson, was runner-up last week in the Lubbock Country Club Junior Invitational Golf Tournament.

Competing with almost 100 others in the 14-15 age division, Thompson shot 78-83 on the par 72 course.

His 161 for 36 holes of medal play was second only to Richard Ellis of Pampa, who carded 158.

Thompson was a member of the Olton High School golf team which this year won district, regional and went on to state competition.

Others from Olton playing in the Lubbock tourney were Stacy Pendergrass and Bobby Turner in the 14-15 division and David Pendergrass and David Turner in the 10-11 division.

ENTERPRISE ON VACATION

The Enterprise office is closed this week to allow employees a week's vacation.

This edition of the paper was produced early and printed Saturday.

The Enterprise will resume regular office hours Monday morning.

Methodists Plan New Parsonage

A new Methodist parsonage is in the planning stage.

Benefiting from the new parsonage will be Rev. Cecil Hardaway and his family. Rev. Hardaway is pastor of the First Methodist Church here.

Stressing that the new parsonage was as yet only in the early planning stages, Rev. Hardaway said that building committee had been appointed for the project.

He said that the building committee would formulate all plans for the new building. They will determine the what, when, size, and cost of the new parsonage.

They will also determine the where; although current discussion is centering around the southeast corner of the block on which the church is located.

Members of the building committee chaired by G.T. Sides are H.R. Curtis, Mrs. Gene Trotter, Dan Quigley, Louis Hair and Mrs. A.D. Melton.

The committee has met only once so far. That meeting was for organizational purposes only, but Rev. Hardaway said the committee will meet again very soon to get plans for the new parsonage underway.

Council Approves Plans For Highway 70 Routing

Drawings Still To Be Presented

The Olton city council met Thursday with city engineer Bill McMorries to discuss the Highway 70 widening project currently in the planning stage.

The council heard preliminary estimates of how much right of way would be needed for the project and where it would be needed.

The city engineer brought a right-of-way map to the meeting. With the aid of the map, he pointed out where and how much additional space would be needed to widen the highway.

Council members engaged in discussion of possible changes in the plans drawn up by McMorries for about half an hour. Then they unanimously approved the proposed right-of-way plans--with changes.

McMorries will have the map redrawn, including the changes, and then the plans will be presented to the resident engineer at Littlefield.

If the Littlefield engineer approves the proposed right-of-way and highway path through town, the Olton planners will start obtaining agreement to the proposed right of way from affected property owners.

Once all obstacles have been removed to obtaining the needed right-of-way for the project, plans will be presented to the State Highway Department for approval.

The state will take no action at all on the proposed project until the request for approval is presented. After the plans have been presented to the state, cost estimates will be made, the project will be reviewed, and hopefully, the plans will be approved and the project will get under way.

The proposed plans, as approved Wednesday by the city council, call for a slightly crooked path through town for the widened highway.

The widened road would begin at the west city limits with the widened center line where the present center line of the highway is. The widened highway would then angle so that the new center line would be 10 feet south of the present center line at Avenue K.

From Avenue K to Avenue H, a distance of three blocks, the new highway would run parallel to the present--with the center line remaining ten feet south of the present line.

From Avenue H to Main Street a two-block distance, the new path would angle back toward the present path--moving the center line from ten feet south of the present line at Avenue H to even with the present center line at Main Street.

The new and old paths would coincide for one block, to Avenue E. The new highway route would then angle north from the present route for two blocks to Avenue C. At Avenue C the new center line would be five feet north of the present line.

The widened highway would then run on the same course as the present highway to the city limits on the east--staying five feet north of the present center line.

The right-of-way requirements for the new route will be 50 feet on either side of the proposed highway center line. McMorries told the city council that determining right of way needs might involve re-surveying some of the property now along the highway. Part of the present highway is on 40-foot right of way; so as much as ten feet could be required from both sides of the present highway. But in some places, property owners on one side or the other of the present highway would not be required to yield any additional right-of-way for the widened path.

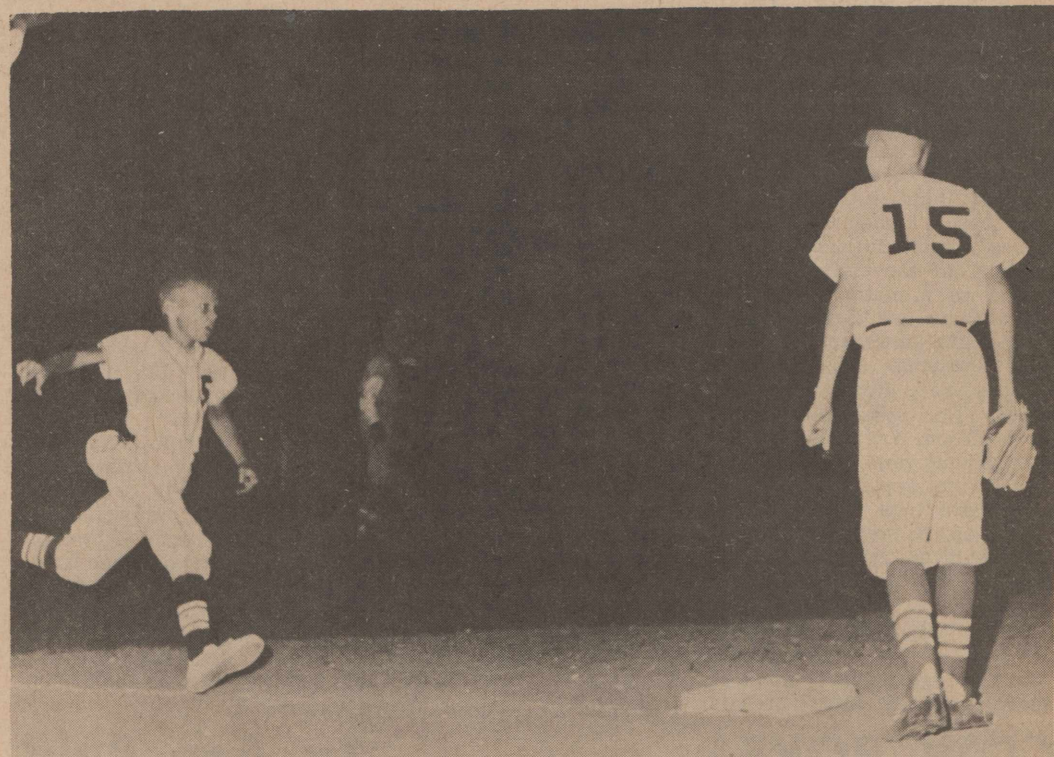

3 FIREMEN TO SCHOOL

Three Olton firemen left Friday night for College Station, where they will attend a week-long Texas Firemen's Training School.

The three are David Maxey, fire marshal; James Hall, assistant fire chief; and Bub Holt, volunteer fireman.

Because of Olton's attendance each summer at the firemen's training school, all fire insurance policy holders in the city benefit, through a reduction in the city's key rates.

The trip for the three is sponsored and financed by the City of Olton.

ALL-STAR ACTION--Tommy Riggins is shown rounding first base on his way to second in the top of the sixth inning. Riggins' double sparked the Olton All-Star's rally which produced two runs in the last inning of the 8-2 loss to the Muleshoe All-Stars in the first game of Little League district competition in Plainview.

Ten Beauties Seek Miss Olton

Ten Olton girls are presently entered in the "Miss Olton" contest set here for Friday, July 31.

The event is being sponsored by the Kimichi Study Club. The sponsors have stressed previously that the event will not be a bathing contest. The girls will wear formal or informal dresses.

The list of contestants presently includes Jan George, daughter of Mr. and Mrs. Leon George; Nancy Brigrance, daughter of Mr. and Mrs. Merrill Brigrance; Gayle Gunter, daughter of Mr. and Mrs. W. C. Gunter; Rheta Hulsey, daughter of Mr. and Mrs. C.T. Hulsey; Deanna Thompson, daughter of Mr. and Mrs. Lester Thompson; Donna Smith, daughter of Mr. and Mrs. J.C. Scruggs; Dana Speer, daughter of Mr. and Mrs. Jim Speer; Bobbie Tollett, daughter of Mr. and Mrs. Thurston Tollett; and Tanya Bryant, daughter of Mr. and Mrs. Leo Ross Bryant.

The ten contestants are the remaining group of at least 18 girls who have entered the contest. At least eight girls have withdrawn for one reason or another.

Aiding the Kimichi Study Club in presenting the event are many local merchants who are sponsoring individual entries in the contest.

Among the businesses agreeing to sponsor Miss Olton contestants are Thompson Implement Co., Lester's Cleaners, Olton Super Save, House of Flowers, Hi Plains Fertilizer, Hatley-Machen Insurance Agency, Olton Butane, Olton State Bank, Parsons Funeral Home, Town and Country Beauty Salon and Olton Auto Supply.

Also agreeing to sponsor contestants are Olton Co-Op Gin, Bryant - Giles Implement, Southwestern Public Service, Whittington's Higginbotham Bartlett Lumber, Anita's Stylart, Kelley's, Givens Texaco, Ideal Cafe, Olton Farm Supply, K Department Store and Thompson Chevrolet.

Jeffrey Lumber, Tasty Creme, Gene's Farm and Ranch, The Olton Enterprise, Roberson Mobil, Howard Hall Insurance, Consumers Butane, Thomas Speed Wash and Dry Clean, Olton Retail Credit Bureau, Whites Auto, G.H. Bley, Olton Bowl, Richardson's Cleaners and Fisher Ford have also agreed to sponsor some of the girls.

All-Stars Fall, 8-2

Olton's Little League All-Stars stumbled in their effort at the area tournament at Plainview Thursday night, falling to a strong Muleshoe nine, 8-2.

The Muleshoe team pulled away fast, making it 3-0 in the bottom of the first inning on a three-run homer.

Mike Gullett, Olton's starting pitcher, then settled down to blank the Mules for the next two innings.

But at the same time, Olton was having its troubles at the plate, with Gullett's single to right field the team's only hit through four innings.

The Mules added three runs in the bottom of the fourth, with one scoring on an Olton error and two others on a second homer off Gullett.

James Pinkerton came in to pitch the bottom of the fifth for Olton and was tagged for two runs.

Behind 8-0, the Olton team rose up strongly in the top of the sixth.

Tommy Riggins led things off for Olton with a double down the right field line.

Tony Miller, who turned in a fine game at his catching post, drove Riggins home with a double to right center.

Charlie Fraga then bounced a hit into right field and Miller tallied Olton's second run.

Olton turned in some fine defensive play throughout the game, with shortstop Joe Dale Chitwood, and second baseman Monty Roberson turning key plays.

Roberson started one double play and Randy Gaither, the first sacker, launched another. Others seeing action for the Olton All-Stars were Robert Davis, Pat Trotter, Gail McClain, Mike Parsons and Jimmy Joe Schenck.

Church Of Christ Sets Gospel Meet

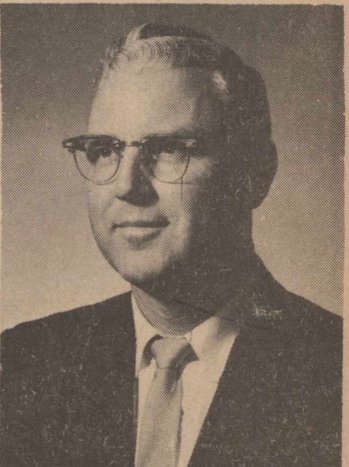

The Main Street Church of Christ in Olton will host a gospel meeting starting Monday.

The revival speaker will be L.E. Fooks, minister of the Central Church of Christ in Hereford.

Alvis Jones of Littlefield will be the song leader during the gospel meetings.

Services will be daily at 10 a.m. and 8 p.m. Monday through Sunday, July 27 through August 2, at the church.

A nursery will be available during all services, and an open invitation is given all Olton area residents to each of the daily services.

Farming Is Dangerous

National Farm Safety Week has become an American institution. It richly deserves that distinction—for the toll of death and injury that accidents cause to farmers and farm people is, and has long been, an urgent national problem.

This year the week is to be observed during the July 19-25 period, using as its theme "Safer American Families Everywhere". It has been proclaimed by President Johnson that hundreds of thousands of volunteer leaders and members of rural organizations actively participate in community, State and national safety programs which have proved effective in reducing the number of accidents among farm residents, accidents still cause thousands of deaths and nearly a million disabling injuries to farm people each year. This loss of human and economic resources causes a significant adverse impact upon the economy of the entire Nation and must be viewed as a matter of national concern.

The facts and figures fully support the President's statement. The death toll from farm accidents runs at a rate of about 8,700 a year, along with some 800,000 injuries. The dollar cost is estimated at \$1.15 billion. Farm people who are laid up by accidents buy less machinery, consumer goods, farm supplies. Their income loss is a business loss to the community and the nation. And no statistic, of course, can begin to measure the extent of the human problems that all these needless deaths and injuries create.

During the Week, all manner of media are used in the concerted effort to bring the message home to farm people everywhere in the 50 states—and to business and

other people as well. Factual kit materials have been prepared jointly by the National Safety Council and the Department of Agriculture. They include items for newspaper use, material for talks and articles, program ideas for religious leaders and women's groups, stickers and posters. The dangers which are thus covered are wide—highway safety, electricity, falls, machinery, and so on.

Basically, the idea is to stress that accidents don't just happen, they are caused, and to stir people to act constructively on that fact. As an example, particular attention is given to stepping up safety efforts in the use of pesticides and tractors. As a spokesman for the Department of Agriculture puts it, "Both are basically safe tools. It is unsafe users that make them dangerous." Specifically, in our society we use over 250,000 different kinds of drugs and household products. Many of them are potential killers if misused. But, if the proper, and usually simple, precautions are taken, they are perfectly safe. To say the obvious, special care must be taken in keeping such substances away from children.

A list of the causes of fatal accidents on farms in a recent year (traffic and home accidents not included) is revealing. Among them are machinery, drownings, firearms, falls, blows, animals, burns, lightning, and suffocation. An accident of some kind kills a farm resident every hour. The doleful record can be cut, and sharply, if those concerned will pay attention to the lessons that Farm Safety Week is designed to teach—and remember that "accidents don't just happen, they are caused."

FACT-NOT FICTION RUNNING WATER PHILOSOPHER

Politicales For ALL

Editor's note: The Running Water Philosopher on his careless weed farm on Running Water Draw probably has been watching television too much, his letter this week indicates.

Dear editor:

One thing I've learned from watching political conventions on television is that politicians have developed the English language to a much higher and more satisfactory instrument than the rest of us and I don't see why we can't get up on their level too.

For example, one of those television interviews with a box strapped to his back and ear muffs on, I guess to keep from hearing the same thing over and over again, will corner a politician and say:

There's a rumor that you might be selected as the vice presidential candidate. Can you confirm this?"

"I can confirm the rumor, but that's all."

"Would you accept the nomination if offered?"

"Let me make this clear. I've said again and again that I am not seeking the office, that I'm happy with the job I have. A nan, if he believes in his country and the future of this arty, and let me say I certainly do, has to do what he as to do, as duty dictates. don't see how I can make it ny clearer."

This is what I'm talking about. Now say a store calls you up and says, "We have your check here for \$3.25 which has been returned by the bank." "We wonder if you will please make it good?"

"Well," you ought to be,

Down Memory Lane

FIVE YEARS AGO IN OLTON
Hall battered the Olton area again Tuesday and Wednesday with the hardest hit area along the Draw.

Fred Stockdale has resigned as band director and will accept a similar position with Monterey High School in Lubbock.

Mr. and Mrs. John Lambright won \$500 in a recipe contest sponsored by General Mills on their 31st anniversary.

Winners of the Lions Club golf tournament were Conner Parsons, second flight winner, Dr. Basil Johns, championship flight winner, and Major James, first flight winner.

Youth from the First Methodist Church attended a Spiritual Life Retreat at Ceta Canyon Methodist Camp Friday and Saturday.

Miss Mildred A. McNabb, returned Church of Nazarene missionary nurse to Swaziland, Africa, spoke Monday night at the Church of the Nazarene.

Ask Amy

BY AMY ADAMS

SMILE, AND SAY, "CHEESE"

Dear Amy:

My husband is a collector and his stops take him into at least a hundred homes a week. He loves cheese cake and there is one woman who knows it.

Everytime he stops there for a collection, she always gets him to come in and stay for a while by tempting him with cheese cake and coffee.

He always tells me when he visits her and raves about her baking. Do you blame me for being jealous?

A Collector's Wife

Dear Wife:

Relax, dearie. From this kind of "cheese cake" you have nothing to worry about!

Dear Amy:

We are faithful readers of your column and hope that you can help us. We have two friends who are in desperate need of your advice. They have gone steady twice and each time have broken up a few weeks later. They say that they like each other very much but they are always doing and saying things to get each other angry. When they are together, they constantly pick on one another but when they are apart, they say they adore each other.

We would like to know what you suggest they should do? We would appreciate it very much if you would print your reply as they are faithful readers of yours also.

G. and L.

Dear G. and L.:

I suggest they grow up!

Dear Amy:

I am a man of 21 and in love with a girl of 18. But my parents do not like her. They want me to go with a different girl and as a matter of fact, I'm engaged to her now. I don't love this girl and I don't want to marry her but my parents are pushing me into it.

The girl I want to marry comes from a very nice family and I love her very much.

What should I do: listen to my parents and marry a girl I don't love or marry the girl I do love? Please help me!

Desperate Don

Dear Don:

The day has long since past when parents choose a mate for their children. I see no point in "pushing" a marriage where there is no love. If the girl you want to marry is respectable and loves you, your parents should most certainly give you their blessings. Ask your clergyman to speak to them. They are being unreasonable!

Dear Amy:

I am 36 years old and have been married for 14 years and love my husband very much. We have one daughter.

Last winter, I found out he had been going with another woman for some time. My life is unhappy now. I have lost faith in him completely. I still think he is seeing her. This woman has four children and I know she is no angel.

Please tell me what to do. I've lost all trust in him.

Mrs. A. H. B.

Dear Mrs. A. H. B.:

Marriage to be lasting and worthwhile must be based on mutual love and trust. You cannot prevent your home from falling apart if you stand by silently and allow the foundation to crumble.

It's time for a lo-n-g talk. If you can't reach his heart or his head, a visit to a marriage counselor is in order. Good luck!

Dear Amy:

I just obtained a job as a sales girl and receptionist at a local photography store.

There is a handsome young man who works for the photographer (part time) in the dark room who I'm dying to meet. He always seems too busy to notice me.

Should I introduce myself to him?

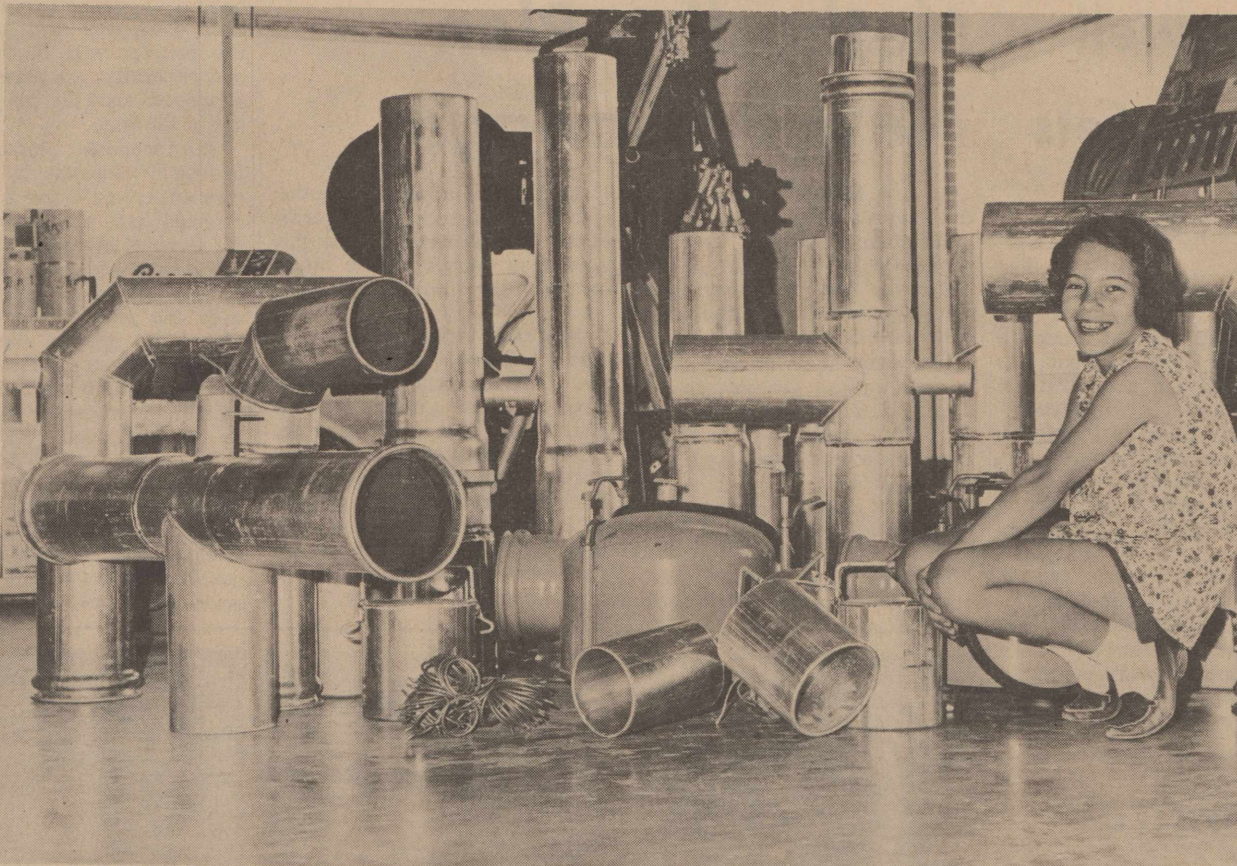

Jane L.

Dear Jane:

Don't have a negative personality. Introduce yourself and see what develops!

Miss Turner Is Honored On Birthday

Miss D'Andrea Turner was honored on her fifth birthday Wednesday July 15 with a party at the home of her parents, Mr. and Mrs. Bill Turner.

Guests played Pin The Tail On The Donkey, What's Missing and various yard games. Favors were party blow-outs, toy harmonicas, balloons, and bubble gum.

Birthday cake, ice cream and lolly pops were served.

Present, other than the honoree and her mother, were Kathy Lewis, Shaunalee Copeland, Vandi Machen, Melinda Jones, Leigh Ann Bryan, Pam Nafzger, Patty Brown, Karen McGill, Wade Machen, Ken Turner, Kathy Turner and Mrs. Lillian George.

VISITS SISTER

Mr. and Mrs. E.C. Jones and Mrs. Paul Burrus visited in the new home of their sister Mr. and Mrs. D.M. Granbery in recent days.

Wedding Vows To Be Exchanged

Wedding vows will be exchanged between Miss Charlotte Evelyn Loveless of Olton and Doyle Johnson of Desdemona Friday July 24 at 7:30 p.m. at the Main Street Church of Christ.

Friends and relatives are invited.

Birthday Supper Given July 15

A barbecue birthday supper honored Mrs. Sammy Thomas and Mrs. Landon Smith Wednesday evening, July 15, at the home of their parents, Mr. and Mrs. Ray Copeland.

Those attending were Mr. and Mrs. Landon Smith, Kelly and Roddy, Mr. and Mrs. Sammy Thomas, Christie and Shannon, Mr. and Mrs. Ray Copeland and the honorees grandfather, A.J. Malone.

VACATIONERS RETURN

Mr. and Mrs. J.D. Lively and sons James and Paul just returned from their vacation of two weeks. They attended a Shipman reunion and visited with his mother in Glenrose and then camped out at Buffalo Lake.

MRS. CLARENCE ANTHONY HENEGAR

Howard, Henegar Ceremony In Plainview

Miss Ruthie Lucille Howard and Clarence Anthony Henegar were united in marriage in a double ring ceremony at the home of the groom's sister, Mrs. M.T. Carter, in Plainview Saturday, July 4.

The Rev. J. Don George, pastor of the First Assembly of God Church in Plainview, officiated at the wedding ceremony.

Parents of the couple are Mrs. Marie Howard and J.F. Howard and Mrs. Y.L. Henegar of Plainview.

The bride, given in marriage by her brother-in-law, M.T. Carter chose a white satin sheath with imported lace covered sleeves and overskirt. A tiara of seed pearls and iridescent sequins held the shoulder length veil. She carried a bouquet of 12 white rosebuds and blue carnations atop a white Bible.

Miss Brenda Roberts of Olton was her maid of honor. She wore a blue satin cotton dress and carried a white colonial bouquet with blue carnations.

The best man was Eddy Henegar of Plainview, brother of the groom.

Candlelighters were Melody Armstrong and Deborah Carter of Plainview.

The bride's mother chose a lavender suit with gray accessories and the mother of the groom wore a black eyelet dress with black accessories.

A reception was held following the ceremony in the home of the groom's sister.

The table was laid with a lace cloth over a blue background centered with the traditional three-tiered cake. The cake was decorated with blue roses and a miniature bride and groom. The bride's bouquet formed the centerpiece.

For their wedding trip, the couple toured Red River and points of interest in New Mexico.

The bride is a 1963 graduate of Olton High School and is presently employed as cashier at T. G. Y. Variety Store in Plainview.

Henegar is a 1963 graduate of Plainview High School and is now employed as market manager of the North Side Grocery in Plainview.

Williamsons Have Reunion

A family reunion was held Sunday July 12 for the family of Mrs. W.F. Williamson at Roeding Park, Fresno, Calif.

The last get-together was in 1929 and approximately 150 relatives attended this occasion.

Brother and sisters of Mrs. Williamson that attended were Mr. and Mrs. R.C. Smith of Wickinburg, Ariz., Mr. and Mrs. Tom Smith of Carmichael, Calif., Mr. and Mrs. Bert Smith of Vallejo Calif., Mrs. Mary Crist of Tracy, Calif., Mr. and Mrs. Sylvester Jones of Fresno, Calif. Also attending from Olton were Mr. and Mrs. W.F. Williamson and their son Ronnie.

This Is National Farm Safety Week

IS FARMING A SAFE OCCUPATION?

... Making Dynamite Is Safer !

You may not believe this, but the Agriculture Department states that 8,700 people were killed in farm accidents last year.

Make This "FARM SAFETY" INVENTORY

. Keep machines in good repair:

Keep all guards and safety devices in place. Stop machines before unclogging, oiling or adjusting them. Don't wear loose, flopping clothing around machinery.

. Operate tractors safely:

Start tractors smoothly turn corners slowly. Avoid ditches, banks and soft ground. Always hitch to the drawbar.

. Use the right tools for the job:

Make sure your tools are in good safe condition. Keep them in a safe place and handle with care.

. Watch your step to prevent falls:

Keep ladders and steps in good repair, with no loose rungs. Make sure they are easily accessible in case of emergency, and don't pile things on stairways.

. Speak to animals when approaching them:

Keep them calm by acting with calm self-assurance yourself. Keep bulls in a safe pen.

. Be a good housekeeper:

Have a place for everything and keep everything in its place.

. Be "Firesighted":

Don't smoke around the barn. Pour gasoline outdoors to prevent the accumulation of explosive vapors. Dry clean outdoors. Don't use kerosene to start fires. Be careful with matches.

. Apply first aid promptly

Even minor injuries may be dangerous if they are not treated immediately. Keep first aid kits in the house, in the barn and on the tractor.

. Treat all guns as if they were loaded:

Keep guns unloaded except when actually using them. Aim ONLY at targets you want to shoot.

. Know and obey all traffic laws:

Follow safe driving practices. Obey all traffic signs.

BOSTICK FAMILY--The far-flung members of the Bostick family gathered recently in Olton. Pictured above are, generally left to right, Mr. and Mrs. Cecil Bostick--holding Larry and Patricia, Sgt. and Mrs. Rex Bostick, and Mr. and Mrs. A.R. Bostick.

Sgt. Bostick Visits Family

Sgt. Rex Bostick has served in the army for a long time now.

He has many decorations, earned and won during the years he has spent in the army--the air medal, joint commendation medal, good conduct medal, Korean medal, U.N. service medal, army occupation medal, national defense medal, armed expeditionary medal. But one of the more recent and noticeable decorations is his attractive wife.

He has served overseas tours in the Pacific, in Europe, in the Far East and in Southeast Asia.

During his last overseas tours in the Pacific, in Europe, in the Far East and in Southeast Asia.

During his last overseas tour--the Southeast Asia one--Bostick met his wife-to-be in Vientiane, Laos, in 1961. He was assigned to MAAK, Laos, at the time.

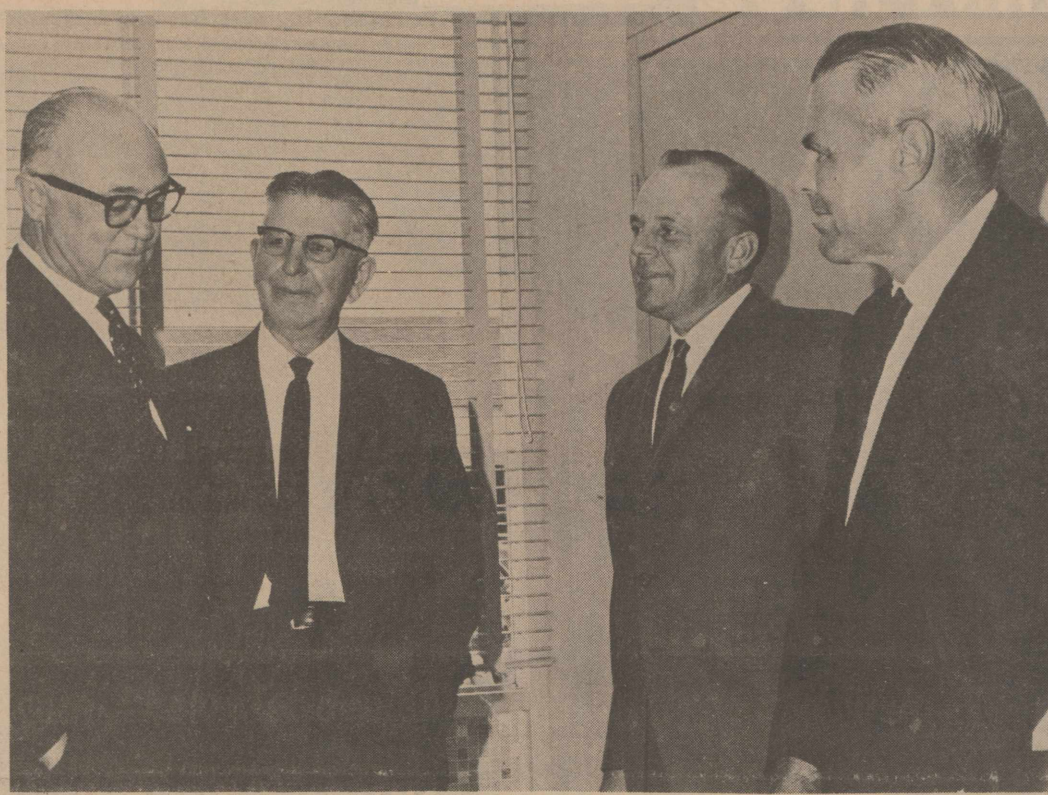

Mrs. Bostick is from Saigon, Republic of Viet Nam. The sergeant and "Suzie" married in 1963 in Bangkok, Thailand.

Bostick is the son of the A.R. Bosticks, formerly of Hart, now of Olton. He was last home four years ago, and the lapsed time brought much of interest to the family here--basically his wife. The Rex

Bosticks are home visiting now--providing the first chance for his wife and family to meet each other.

Among the family visitors was another of the A.R. Bosticks' sons, Cecil, and his family.

The visit here will last only a month, however. At the end of a month, Sgt. and Mrs. Bostick will leave for a post in New Jersey, where he will add a few more years to the 16 he has already spent in the army.

SHOWN TALKING just prior to the dedication of Olton's new post office here recently are, from left, Lt. Governor Preston Smith, principal speaker; I.B. (Doc) Holt, postmaster; Owen Norfleet, president of Olton State Bank; and J.B. Davis, Lamb County judge.

Bostick Family Reunion Here

The Bostick family had a reunion in the Legion Hut in Olton July 11-12, with 67 attending.

Out of town guests included Mr. and Mrs. Price Holland, Plainview; the Wayne Hollands, Lubbock; Mr. and Mrs. Cecil Bostick and children, Carlsbad, N.M.; Mack Bostick and children, Sierra Vista, Ariz.; Sgt. and Mrs. F.C. Bostick, VanKok, Thailand; the C.B. Bosticks and children and Mrs. Richard Bostick and children, Borger;

and Mrs. F.H. Bostick, Post; the S.D. Bosticks, Stephenville; the H.E. Newmans, Mrs. T.B. Cox, Mr. and Mrs. Miles Cox, the Joe Newman family, all of Hart; and the Ray Don Newmans of Dimmitt.

Also attending were the Jimmy Bostick family, Amarillo; Mr. and Mrs. G.V. Bostick, the Bill Bostick family, Mr. and Mrs. Bobby Bostick, all of El Paso; The Bill Sharps

BOLL WEEVIL THREAT

Light boll weevil infestations exist in at least two areas above the Caprock.

During the last ten days punctured squares have been found above the Caprock in Dickens County about 14 miles east of Crosbyton and also approximately 7 miles south of Crosbyton in Crosby County. It is likely other infestations may show up soon, says county agent W.R. Kimbrough.

PET-OF-THE-WEEK--A jack rabbit was brought home to D'Lyle, Nan Neta and Teresa Wilks by their father. They fed Buttons with an eye dropper at first and now he is graduated to a dollie's nipple bottle. Their parakeet, Joe is also pictured here. They are the daughters of Mr. and Mrs. Dwayne Wilks.

Wages Out-Run Living Expenses

The average Lamb County worker has been bettering his economic position in recent years.

Even though his cost of living has been going up, his income has been moving upward at a faster rate.

Without putting in any more effort than he did ten years ago, in terms of hours of labor, he finds he can live more luxuriously than he did then.

The increase in his income has more than made up for the increase in his living costs.

The average working man in Lamb County now earns enough in only 23 minutes on the job, for example, to buy a pound of coffee or a pound of bacon. Ten years ago they would have involved considerably more working time.

By putting in 36 minutes of labor he is able to buy a pound of round steak. He can get an automobile tire (6.70 x 15) with the proceeds of some 13 hours of work.

The changes that have taken place throughout the United States and the comparison of present-day worktimes with those of 1953 are reported by the National Industrial Conference Board and by the Bureau of Labor Statistics.

Some idea of the extent of

this change is brought out in the figures, which show the amount of time that the average American worker must put in to buy various consumer items.

A dozen eggs, grade A, requires 13 minutes of work today, compared with 26 minutes ten years ago.

A pair of nylon stockings takes 23 minutes, as against 37 minutes previously.

A medium-price man's wool suit, formerly a 27 1/2 hour item, can now be bought with just 20 hours of work.

The reports reveal, also, the wide gap that still exists between the buying power of the American worker and that of his counterparts in other countries.

The loaf of bread that a factory worker in this country is able to buy after only five minutes on the job requires 11 minutes in Paris or West Berlin, 19 minutes in Tokyo, 24 minutes in Madrid and 36 minutes in Moscow.

In the last decade, it is shown, the cost of living has advanced about 14 per cent in the United States.

This rise has been more than offset in Lamb County by the increase in per capita income.

LEGAL NOTICE

NOTICE OF SALE

THE STATE OF TEXAS
COUNTY OF LAMB

By virtue of an Order of Sale issued out of the Honorable District Court, 73rd Judicial District of Texas, in and for Bexar County, Texas, on the 29th day of June, 1964, by the Clerk thereof, in the case of FIRST OF TEXAS CORPORATION vs EMMA GLASSCOCK ET AL, and being numbered F-155,036 on the docket of said Court, and to me, as Sheriff, directed and delivered, I will proceed to sell the hereinafter described tracts of land to the highest bidder, for cash, between the hours of 10:00 o'clock A.M. and 4:00 o'clock P.M. on August 4, 1964, it being the first Tuesday of said month, at the Court-house door of Lamb County, Texas, in the City of Littlefield, Texas; said tracts of land having been levied on by me on the 6th day of July, 1964, and to be sold to satisfy a judgment rendered in the above described cause on the 12th day of December, 1963, and recorded in the Minutes of said Court in Volume "82", pages 616-618. Said judgment was in favor of Plaintiff, FIRST OF TEXAS CORPORATION, establishing its debt for the sum of SEVEN HUNDRED SEVENTY AND 62/100 (770.62) DOLLARS, together with interest on the sum of FIVE HUNDRED EIGHT AND 62/100 (\$508.62) DOLLARS thereof at the rate of eight (8%) per cent per annum and interest on the sum of TWO HUNDRED SIXTY-TWO AND NO/100 (\$262.00) DOLLARS thereof at the rate of six (6%) per cent per annum from December 12, 1963, until paid, and all costs of suit, together with foreclosure against the Defendants, EMMA GLASSCOCK HOLLINGSWORTH and husband, W.A. HOLLINGSWORTH, LEON WEST, MARIE WEST DOVE and husband, CHARLIE DOVE, and IMOGENE WEST ALTZER and husband, JAMES ALTZER, and all parties claiming under said parties whose claims originated since the filing of Plaintiff's Notice of Lis Pendens with the County Clerk of Lamb County, Texas, on October 18, 1963, of certain liens securing Plaintiff's debt upon the following described property, to-wit:

Lot 11, Block 39, Original Town of Olton, Lamb County, Texas; and
Lot 13, Block 39, Original Town of Olton, Lamb County, Texas.

Said judgment and Order of Sale direct that said Lot 11, Block 39, Original Town of Olton, Lamb County, Texas, be first sold and that the proceeds therefrom be applied as follows: first, to the satisfaction of one-half of all costs of court and sale; second, to the payment of THREE HUNDRED EIGHTY-FIVE AND 31/100 (\$385.31) DOLLARS of the judgment rendered herein in favor of Plaintiff, together with interest on TWO HUNDRED FIFTY-FOUR AND 31/100 (\$254.31) DOLLARS thereof from December 12, 1963, until date of sale, at the rate of eight (8%) per cent per annum, and with interest on ONE HUNDRED THIRTY-ONE AND NO/100 (\$131.00) DOLLARS thereof from December 12, 1963, to date of sale at the rate of six (6%) per cent per annum; and that said Lot 13, Block 39, Original Town of Olton, Lamb County, Texas, be next sold and the proceeds therefrom be applied as follows: first, to the satisfaction of one-half of all costs of court and sale; second, to the payment of THREE HUNDRED EIGHTY-FIVE AND 31/100 (\$385.31) DOLLARS of the judgment rendered herein in favor of Plaintiff, together with interest on TWO HUNDRED FIFTY-FOUR AND 31/100 (\$254.31) DOLLARS thereof from December 12, 1963, until date of sale, at the rate of eight (8%) per cent per annum, and with interest on ONE HUNDRED THIRTY-ONE AND NO/100 (\$131.00) DOLLARS thereof from December 12, 1963, until date of sale, at the rate of six (6%) per cent per annum.

GIVEN UNDER MY HAND AND SEAL OF OFFICE on this, the 6th day of July, 1964.

Dick Dyer
SHERIFF, LAMB COUNTY, TEXAS
by Homer Whisnand, Deputy

Area Farmers Grow Export Cotton Crop

Almost 500 cotton growers in Lamb County have requested that they be allowed to grow extra cotton this year above their regular acreage allotment.

The cotton above the regular allotment is for export only, is not under any price support program, and cannot be sold on the domestic market. Preliminary figures indicate that 461 county cotton growers have requested a total of 3178 extra acres for cotton for export.

Farmers in the 23 High Plains counties have requested 39,046 grow cotton for export in 1964—almost 45 percent of the estimated 88,000 such acres asked for in the nation and 95 percent of the 41,402 export acres requested in Texas.

Under new cotton legislation approved early last April, each farmer was given the opportunity to sign up for and plant a maximum of 5 per cent above his total allotment, provided the cotton produced on the additional acres was sold for export at the "world price".

In order that the additional acreage be approved by the USDA's Agricultural Stabilization and Conservation Service, farmers were required to furnish bond by July 1 guarantee-

ing export of the cotton without benefit of government price support.

The acreage totals here, however, represent only the acres for which farmers "signed up" and are not necessarily the same as the total acres finally approved by ASC. By the same token, they do not represent the number of export acres planted because even farmers who signed and became bonded for export acreage were not required to plant all or any part of the acreage requested.

Acreage actually planted for export will not be known until after ASC offices get the measured cotton acreage on all of the farms requesting export acres. Some of the farms will probably drop out entirely, while others will not plant the entire maximum for which they were approved. Final figures will probably not be available until about October 15.

According to a USDA report, most of the export acreage requested was in three states—Texas, California and Mississippi—with Texas accounting for almost half. California was second with 19,553 acres and Mississippi third with 13,957. Percentage-wise, California's requests came to 2.6 percent

of the state's total allotment, which far outstrips the 0.6 percent of total allotment for Texas and 0.9 percent for Mississippi. The 39,046 export acres requested on the High Plains comes to about 35 percent of the 113,632 acres that would have been allocated here had each farmer asked for his full 5 percent allowance. And, since the total requests came from 5,479 farmers, or about 20 percent, it can be assumed that most requests came from farmers with larger acreage allotments.

ARMY EXAMS—The number of 18-year-olds who will be given mental-physical exams by Texas draft boards during August will be increased to 2,762 (from 1,816 in July).

Tests are in line with the President's call for examination of all newly registered men out of school and available for service. They will not be considered for immediate armed forces service. But those failing the examination will be referred to the Texas Employment Commission for advice and counsel on jobs or job training.

Only about 225 in the draft age bracket (most of them 22 or above) will be examined next

month—and only 119 are scheduled for induction during August.

This is the lowest induction call for Texas since April, 1961, when the quota was 65.

Society NEWS

MRS. RAY GABEHART

Recipe Of The Week

Two recipes have been submitted by Mrs. Ray Gabehart. She and her husband have three children, Kenneth and Troy of Amarillo, and Jeanie, a sophomore at Olton High School. The Gabeharts have farmed south of Circle for nine years.

Mrs. Gabehart had been an assistant brownie leader and enjoys cooking and embroidery work.

TROPICAL PINEAPPLE PIE
3 tbsp. butter
1 1/2 c. coconut
1 c. crushed pineapple (do not drain)
1/2 c. water
1 tsp. lemon juice
1/3 c. sugar
1/4 tsp. salt
2 egg yolks
1/2 c. lemon gelatin (1 box)
2/3 c. chilled canned milk
Melt butter in a skillet, stir in coconut and cook until brown. Press in pie pan for crust. Mix pineapple water, lemon juice, sugar, salt and egg yolks.

Stir over medium heat until mixture comes to a full boil. Take from heat and add Jello. Chill.

Beat egg whites and canned milk until stiff and fold into pineapple mixture. Put into crust. Pecans may be added if desired.

BAKED CHICKEN SURPRISE
1 chicken (cut up)
1 c. mushroom soup
1 pkg. onion soup mix (dry)
Spread 1/2 of the onion soup mix on the bottom of a baking dish. Mix flour, salt and pepper and roll the pieces of chicken in it.

Lay pieces of chicken over the dry onion soup mix. Pour mushroom soup over the chicken and add 1/2 cup water.

Cover tightly and bake in a 350 degree oven for 1 hour or until chicken is tender. Uncover and leave in oven until brown.

Wedding Plans Revealed

Sunday September 6 wedding vows will be exchanged between Miss Nelda Elais Rucker and Billy Winn at the First Baptist Church in Olton.

Parents of the couple are Mr. and Mrs. Russell Rucker and Mr. and Mrs. W.P. Winn both of Olton.

Miss Rucker is a 1963 graduate of Olton High School and attended Draughton's Business School in Lubbock. She is presently employed as a legal secretary to Bill Street Jr. of Littlefield. Winn is a 62 graduate of Olton High School and is presently employed at Cashway Food Store in Olton.

CITY OF OLTON ELECTRICAL CODE

AN ORDINANCE ENACTING AND ESTABLISHING AN ELECTRICAL CODE FOR THE CITY OF OLTON, TEXAS, GOVERNING ALL CONSUMER ELECTRICAL INSTALLATIONS IN THE CITY OF OLTON, TEXAS PROVIDING FOR THE OFFICE OF ELECTRICAL INSPECTOR, OUTLINING HIS DUTIES; PROVIDING FOR AND REQUIRING PERMITS AND INSPECTIONS FOR ELECTRICAL INSTALLATIONS; PROVIDING FOR FEES THEREFOR; DEFINING CERTAIN TERMS; PROVIDING FOR AND ESTABLISHING CERTAIN REQUIREMENTS AND STANDARDS GOVERNING THE ELECTRICAL INSTALLATIONS IN THE CITY OF OLTON, TEXAS; MAKING EXCEPTIONS TO SAID ORDINANCE; PROVIDING SAVINGS CLAUSE AND PROVIDING PENALTIES FOR THE VIOLATION OF THIS ORDINANCE AND DECLARING AN EMERGENCY.

SECTION I: There is hereby enacted an electrical ordinance which shall be known as the Electrical Code for the City of Olton, Texas, which shall govern all consumer electrical installations made in the City of Olton, Texas, and hereby repeals any and all ordinances in conflict herewith.

"All electric wiring and work hereafter installed in the City of Olton, Texas, shall be installed and maintained in accordance with the standards of the National Electrical Code regulations of the National Board of Fire Underwriters for wiring and apparatus, which is hereby adopted with such amendments as may be made by the National Board of Fire Underwriters from time to time."

SECTION II: There is hereby created the office of Electrical Inspector in and for the City of Olton, Texas.

Part 1: In charge of said office shall be the Electrical Inspector of the City of Olton, Texas, and within such office may be as many Assistant Electrical Inspectors as may from time to time be required and appointed by the City Council or governing body of the City of Olton, Texas. The Electrical Inspector and all Assistant Electrical Inspectors shall be competent persons of good moral character; they shall have adequate knowledge of approved methods and practices relating to electrical installations.

A. Appointment: The Electrical Inspector and all Assistants shall be appointed by the City Council and shall hold office until his successor is appointed and duly qualified. Assistant Inspectors may be appointed by the City Council whenever occasion demands.

B. Salary: The salary of the Electrical Inspector and his associates shall be fixed by the City Council.

Part 2: DUTIES OF ELECTRICAL INSPECTOR:
A. The Electrical Inspector shall inspect and test electrical installations and systems in all consumer installations when he has reason to believe the same are unsafe, improper, or do not comply with applicable ordinances.

B. The Electrical Inspector shall inspect all installations, alterations, and repairs of electrical work in consumer installations as hereinafter set out.

C. The Electrical Inspector shall, upon determining that unsafe, improper or unlawful consumer installations exist, immediately notify the owner of said premises or his agent and/or the electrician performing work on said premises in writing, specifying the exact deficiency existing, and shall allow said parties a reasonable time to correct said deficiency. If corrective action is not begun immediately, or if the deficiency is not corrected within the prescribed time, then the Electrical Inspector shall, if he believes public welfare endangered, order the electricity supply to said premises to be discontinued.

D. The Electrical Inspector and his assistants shall, when in the performance of their duties, and for as may be necessary for the performance of their duties, shall have the right to enter any consumers building at all reasonable hours for the purpose of making any tests or inspections of the electrical wiring and appliances therein contained.

E. The Electrical Inspector shall keep or cause to be kept a record of permits, and inspections required under this ordinance; he shall also keep a record of all condemnations of electrical installations.

Part 3. Removal: The City Council may remove from office the Electrical Inspector or any of his assistants for incompetency or neglect of duty.

Part 4: Inspectors Not Liable for Damages: Neither the Electrical Inspector nor any of his assistants shall, when acting in good faith and without malice, be liable for damages arising by reason of duties performed under the provisions of this ordinance.

SECTION III: Certificates and Licenses:

Part 1. Definitions of Terms:

A. "Installations shall include all electrical work of any nature performed on, in, or near consumers' premises.

B. "Person" shall be construed to include the plural as well as singular and shall also include corporations and any other type of organization.

Part 2. License Required:

A. It shall be unlawful for any person to engage in the work of installing, erecting, or altering material, wiring, fixtures or other apparatus to be used for the generation, transmission or utilization of electricity for light, heat or power, without first securing an electrical wiring license from the City of Olton, License fee to be \$5.00 (five) per year.

SECTION IV: Permits and Inspections:

Part 1: Permit required: No person, firm or corporation using electrical power as a consumer shall begin any electrical installation or begin any work or installing, erecting or altering material, wiring fixtures or any other apparatus to be used for the Utilization of electricity for light, heat and/or power in or on any building or premises in the City of Olton, Texas, without first securing a permit therefor from the City Office of Olton, provided, however that no permit shall be required for minor work such as repairing flush and tumbler switches, replacing fuses, changing lamp sockets and receptacles; provided further that this section shall not apply to maintenance and repairs on the premises of a person, firm or corporation regularly employing a qualified person for that purpose.

Part 2: Home owners and holders of certificates of qualification for a permit to the Electrical Inspector, upon proper application for a permit and after payment of required inspection fees, the City Office at Olton shall issue the applicant a permit for the proposed work.

A. Rough-in-Work: The inspection fee for rough-in-work on all electrical installations shall be as follows: \$2.50 for houses having less than 500 sq. feet floor space; \$3.50 for houses having 500 to 1,000 sq. feet floor space; \$4.50 for houses having 1,000 to 1,500 sq. feet floor space; \$6.00 for houses having 1,500 to 2,500 sq. feet floor space; and \$8.50 for houses having 2,500 sq. feet or more floor space.

B. Inspection fee for all Commercial, Industrial, Schools, Churches, and other Buildings to be used for other than residential purposes shall be \$5.00 for the first 1,000 sq. feet or fraction thereof and \$1.00 for each additional 1,000 sq. feet or fractions thereof. "It shall be the responsibility of the electrician, electrical contractor, or person or persons doing electrical work to obtain any or as many inspections as may be required."

C. Neon Signs and Neon Lighting: The inspection fee for connecting neon signs and neon lighting in which not more than two transformers are used shall be \$2.50 and the sum of \$.50 (50 cents) shall be charged for each additional transformer; provided, however, that the maximum fee shall be

\$7.50.

D. Incandescent Signs: For the purpose of this subsection incandescent signs shall include all signs including billboard which are illuminated with one or more incandescent lights. The inspection fee for incandescent light that require not more than two circuits shall be \$2.50, and the sum of \$1.00 for each additional circuit.

E. Motors: For consumer operation the inspection fee for electric motors shall be in accordance with the horsepower ratings: zero to five horsepower, \$1.00; for each additional motor the sum of 50¢.

F. Generators: For consumer operation the inspection fee for electrical generators including switchboard and excitors of ten kilowatts or less capacity shall be \$10.00 each.

G. Motion Picture Machines: The inspection fee for the installation of a motion picture machine shall be \$3.00.

H. Electric Welders: The inspection fee for the installation of an electric welder shall be \$3.00.

Part 3: Re-Inspection: If by reason of faulty work, negligence or for any other reason a subsequent inspection must be made in excess of the rough-in and final inspection herein above provided for, a charge for each re-inspection shall be as follows: for the first re-inspection a fee of \$1.00; for the second re-inspection, a fee of \$5.00; for the third and each subsequent re-inspection, a fee of \$10.00 each.

Part 4: Antennas: Inspection fee \$2.50 each.

Part 5: Notice: Permit holders whose installations are ready for inspection shall allow the Office of the Electrical Inspector twenty-four hours, Sundays and Holidays excluded, before proceeding with the installations.

SECTION V: General Requirements:

Part 1: National Electrical Code as promulgated by the National Board of Fire Underwriters: All installations hereafter installed in the City of Olton, Texas, shall be done in accordance with the 1962 edition in effect as of the date of this ordinance, with the following additions and deviations therefrom, and a majority of the governing body of the City may incorporate revisions which may occur from time to time in the National Electrical Code into changes or revisions of this ordinance.

A. Non-metallic sheathed cable may be used in any electrical installation of residential one or two story dwellings.

B. The use of ordinary twisted, cotton-covered lamp cord type "C" for pendants or drop lights or portable is hereby prohibited and in lieu thereof reinforced or portable cord not smaller than Number Sixteen A.W.G. gauge shall be used.

C. All lights in bathrooms, toilets, kitchens and laundry rooms shall be controlled by wall switches located so they are not readily accessible from tub or shower.

D. All metal fixtures installed in bathrooms and kitchens, except in ceilings thereof, shall be grounded to earth ground.

E. An all metal service complete with weatherproof entrance from point of entry to distribution panel shall be used.

F. Service entrance grounded-conductor and enclosure shall have a connection to an approved ground clamp connecting ground conductor to driven ground rod which shall be eight feet long. Minimum size for ground conductor, Number 6 A. W. G. Gauge Conductor.

G. When crossing ceilings joists with non-metallic sheathed cable wiring, it shall be protected by substantial guard strips which are at least as high as the cable. If attic is not accessible by permanent stairs or ladders, protection will only be required within six feet of the nearest edge of the scuttle hole or attic entrance, or alternate when crossing ceiling joists with non-metallic sheathed cable inaccessible attics, the ceiling joists shall be bored with cable fed through bored openings or approved fastener to side of ceiling joists.

H. Service entrance installations shall be in accordance with specifications furnished by the Electric Service Company operating in the City under Franchise Agreement. There shall be a three-wire 120-240 volt service in all residential installations but may not be required of any residences of 500 square feet or less of floor space in which no more than two circuits will be required. Electric range wiring must be no smaller than three number 6 A.W.G. gauge conductor in conduit or approved cable with approved receptacles. Built-in-range surface units or griddle units shall have a minimum of Number 8 A.W.G. gauge, oven- or ovens shall have Number 10, minimum gauge, unless manufacturer requires a large gauge, conductors, and circuits shall be fixed to operate such units. Electric dryers of 120-240 volts shall be wired with three No. 8 A.W.G. gauge conductor, or larger, if required by the load, in conduit or approved cable complete with approved type dryer receptacles. Each automatic clothes washing machine shall be on a circuit supplying no other load. Any change in electrical service or change to new type of service will require approval by the Electrical Inspector before the electric utility may connect new service. "All wire in meter loops will be #2 A.W.G. or larger."

I. All public and commercial buildings, and apartment or living area, except one and two family dwellings, all wiring must be in rigid metallic conduit, metal tubing or other metallic raceway may be approved by Electrical Inspector for certain classes of construction.

Part 2: Wiring Restrictions:

A. Fuse panels or circuit breakers, etc., shall not be placed in water heating closets, bathrooms or clothes closets. Fuse panels or circuit breakers may be located in closets or other types of storage of articles or material will not hinder accessibility, but shall be located where they are readily accessible to tenant. Fuse panels shall be large enough to accommodate two 50 Amp Circuits for future use. Provide one empty one inch steel tube or flexible, to accessible locations in the attic, or first floor for future wiring expansion.

B. Temporary installations: The Electrical Inspector is hereby authorized to issue special permits for the use of knob and tube wiring temporary installations provided, however, that such permits shall state the duration thereof therein. Upon the expiration of a temporary permit, the holder thereof shall immediately discontinue the use of the installation or shall replace same with an installation complying with applicable ordinances.

Part 3: Outlets:

A. In residential installations, not more than eight current consuming outlets per circuit shall be installed, provided further than wires forming such circuit shall not be smaller than No. 12 A.W.G. All 120 volts outlets installed shall be the grounded 3 wire variety.

B. In commercial installations, there shall not be more than four current consuming outlets per circuit, and the conductor forming such circuits shall not be smaller than No. 12 conductor. Total wiring load for each of these circuits shall not exceed 80% of the rated current capacity of conductor used.

Part 4: Appliance Circuits

Receptacle outlets for electric irons, percolators, toasters and other electric heating devices in kitchens, breakfast rooms, dining rooms and laundry rooms shall be on a separate circuit from the light fixtures outlets and no more than four duplex outlets or eight single split wired outlets, shall be on one circuit, provided further that the wires forming such circuit shall not be smaller than No. 12.

Part 5: Type "S" fuses (Fustats and adapters) shall be used in all plug, fuseable installation; ampere rating must be no larger than the ampere rating of the conductor used. Circuit breaker rating shall not be larger than ampere ratings of the conductor used.

Part 6: Back-to-back Installations:

Convenience outlets in any room may be connected-back-to-back to a convenience outlet provided the total number of convenience outlets on the kitchen circuit does not exceed the four allowed herein.

Part 7: Concealed Wiring:

Installations where there is wiring to be concealed shall be inspected before concealment, the person installing such wires shall notify the Electrical Inspector thereof and the wires shall not be covered or concealed until the Electrical Inspector has approved same. Any person covering or concealing wires before inspection shall be punished as provided in Section IX.

Part 8: Tampering:

No person shall molest in any way or tamper with wires installed in any residence; no person shall place any material except incombustible insulation material within one inch of said wire after it has been inspected and approved by the Electrical Inspector.

Part 9: Radio and Television Receiving Equipment:

A. Antenna Systems.

(1) Supports: Outdoor antenna and counter-poise and lead-in conductors shall be securely supported so as to avoid contacts with conductors of other systems;

(2) Outdoor antenna, counter-poise and lead-in conductors from an antenna to a building shall not cross over electric light or power circuits so as to avoid the possibility of accidental contact.

(3) It is recommended that antenna and counter-poise conductor shall be installed as not to cross under electric light or power conductors.

B. Self Supporting Antennas:

Outdoor antennas, such as vertical rods or dipole structures, shall be no-corrodible materials and of strength suitable to withstand ice and wind loading conditions and shall be located well away from overhead conductors of electric light and power circuits of over 150 volts to ground so as to avoid the possibility of the antenna or structure falling into an accidental contact with such circuits.

Part 10: Franchises and Street Lighting:

The provision of this ordinance shall not apply to electric light, heat and power companies, telephone and telegraph companies, normally operating under franchise or state laws, in the installation, maintenance, removal or repair of wires or other equipment used in connection with their business as producers to supply consumer service, and-or street lighting, illumination of public ways, alleys, parks or communications.

Part 11: No person, firm or corporation engaged in the business of transmissions and sale of electric current to users thereof shall make any connection of their transmission lines with the electric wiring and-or apparatus in any residence or other consumer installation without first having received the Electrical Inspector's certificate of compliance for said installation.

Part 12: Equipment Ground will be required for electric food waste disposal, and automatic washer, automatic dish washer, automatic clothes dryer and electric water heater and any other major electrical appliance.

Part 13: Joints-Solder and Taping: Where joints are found to be taped but not soldered, or spliced with an approved mechanical device, the Inspector may require all joints be untaped and left untaped until soldered or spliced with an approved mechanical device. It is further provided that such splices and tapes shall be made in an approved metallic junction box;

Part 14: Welders;

No electric welder of the transformer reactance type shall be connected in the City of Olton, Texas, without same is bearing the nameplate of manufacturer and the current rating, and it must bear the stamp of approval of the National Board of Fire underwriters.

Part 15: All wiring materials, wiring devices, such as switches, fuses, panels, lighting fixtures, ballast, transformers, conductors, appliances, circuit breakers, and signal devices must bear the stamp of approval of the National Board of Fire Underwriters or "UL" label.

Part 16: All conductors entering and leaving metallic junction boxes and distribution panels shall be made through approved cable clamps.

SECTION VI: Exemptions:

Part 1: Work Commence Before Enactment:

Installations contracted for before the effective date of this ordinance shall not be governed by the ordinance herein enacted, all other installations shall comply with the provisions of this ordinance.

SECTION VII: Legality:

The invalidity of any section, sub-section, paragraph, sentence, clause, phrase, word or words shall not invalidate any other part of this ordinance. It is the intent of the City Council in enacting this ordinance that the provisions are separable and no provision hereof shall become in-operative or fail by reason of the invalidity of any other provision. Wherever the term "City Council" is used in this ordinance it is hereby meant and shall be construed to mean the governing body of the City of Olton, Texas irrespective of or by whatever name the governing body so designated might carry.

SECTION VIII: Penalties:

Part 1: Any person, firm or corporation violating any of the terms or provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be fined in a sum not to exceed \$100.00.

Part 2: Each day that any person, firm or corporation shall continue to violate or fail to comply with, a provision of this ordinance shall be a separate offense.

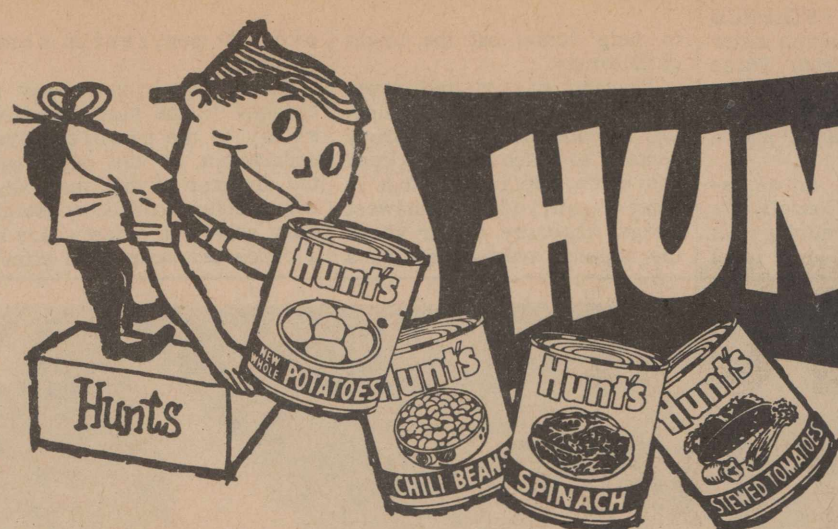

Part 3: Upon conviction of the second violation of this ordinance by a person, as that term defined herein the City Council shall, if it deems desirable, hold a public hearing for the purpose of determining whether or not said person's certificate or license should be revoked, it shall thereafter be void and vest no rights.

SECTION IX: That by reason of the fact that the City Council considered the passage of this ordinance necessary to protect the health, welfare and safety of the City of Olton, Texas, and its inhabitants, and to carry out the other purposes of this ordinance and code and to properly provide for the installation and inspection of electrical equipment and wiring within the City of Olton, Texas, it is hereby declared to be an emergency measure demanding that the law requiring ordinances to be read at more than one meeting of the City Council be suspended, and that his Ordinance and Code take effect immediately from and after this passage, and it is so ordained.

PASSED AND APPROVED this the 14th day of July, 1964.

W.E. Thomas, Jr. Mayor

Baptist Youth Slate Revival

The young people of the First Baptist Church of Olton have scheduled an open Youth Revival July 24-26.

Revival meetings are currently slated to begin at 10 a.m. each of the three days.

The youth plan to serve breakfast at the church before the morning meetings, and they plan to follow the evening meetings with a Youth Fellowship.

Charles Kemble from Southwestern Baptist Theological Seminary will be the revival speaker for the weekend program.

FITES VISIT

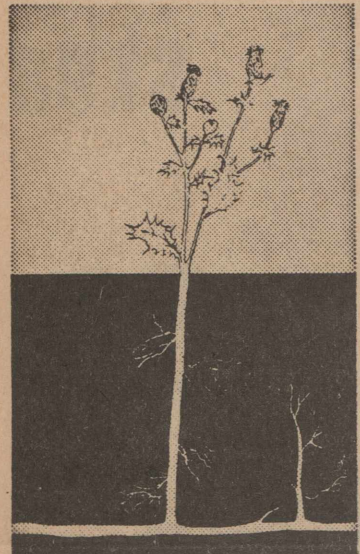

Dr. and Mrs. Lynn Fite and children of Nederland were guests in the home of Mr. and Mrs. Basil Sherman last week, visiting friends in and around Olton.

AT SISTER'S BEDSIDE

Archie Curry is in Denton at the bedside of his sister Mrs. Lisse Byron who is very ill. He is staying with his daughter Mrs. B.H. Testerman.

NEW POWERFUL TRITAC™ WEED KILLER

for economical
control of deep-rooted
perennial weeds

Four to eight gallons will treat an acre for a season or more. In areas where ASC payments are obtainable, consult your local agricultural agent for recommended application rates.

Use it along highways, fence rows, on industrial sites and other noncrop land. Tritac is nontoxic and noncorrosive.

Two formulations—Tritac for normal conditions and Tritac-D for quick foliage top kill. Available in one, five and 30 gallon containers.

SCOUT NEWS

The Hart Girl Scouts had Day Camp at Olton on the tree strip of the Don Spain farm the week of July 6 through July 10. All girls of Troops 404 and 158 of Hart attended from 2 to 7 p.m. each day. Leaders going were Mrs. Max Stephens and Mrs. Dwight Miller, assistants Mrs. James Kennedy and Mrs. Kenneth Covington. Mothers assisting by taking cars and furnishing extra-needed supplies were Mmes. Bob Bennett, W.A. Hawkins, Jr., Doyle Davis, C.W. Seago, Paul Brooks, W.T. King, Dudley Aven, Lyndell Warren, Arthur Cheves, Bud Hill, Deryl Lewis, Heck, and Mrs. Hardy.

Twenty-eight girls attended the camp from Hart and enjoyed all the activities.

Hart Girl Scout Troops 404 and 158 entertained Olton's Girl Scout Troops 271 and 50 with a skating party at the Hart Gym Thursday, July 16.

Refreshments of punch and cookies were served.

Those attending from troop 50 were Susan Nicholas, Jan Scruggs, Judy Meadows, Susan Gordon, Cheryl Gordon, D'Lyle Wilks, Marsha Parker, JoEllen Spain, Marlana May, Alana Myers, Margaret Gallaway, Jackye Meinecke, and mothers Mrs. Ann Nicholas, Mrs. Twila Parker and Mrs. Archie May.

Those attending from Troop 271 were Renee Waldin, Teresa Wilks, Laneta Langford, Kay Johnson, Brenda Leathers, Kathy Turner, Teresa Neely, Bonnie Offield, Donna Williams, Nan Neta Wilks, and mothers Mrs. Pauline Johnson, Mrs. Francis Leathers, David and Mrs. Jane Wilks.

INVALIDATION UPHOLD—Third Court of Civil Appeals agreed with an Austin district court that a requirement in the new small loan act that Texans own more than 50 per cent of the stock in new Texas companies is unconstitutional.

Loan Commissioner Frank Miskell had denied applications for loan branch offices in Houston, Waco, Texarkana, El Paso, Dallas, Fort Worth, San Antonio and Arlington on the stock ownership provision.

Ruling does not apply to other sections of the 1963 law.

Research Grant Given Wayland Biology Prof

A grant of \$3,500 received last week put forward research that Edwin S. Kajihiro, associate professor of biology at Wayland Baptist College, has had underway for more than a year and will enable him to take with him Frank Hodnett, Carlsbad, N.M., and Robert Bunner, Olton, on a three-day field trip.

This research grant from the Department of Health, Education and Welfare is made so that Mr. Kajihiro can continue his research to "isolate dematophytes from fresh bat guano" to determine the possibility of pathogenic fungi infection among persons who frequent caverns.

The field trip, Monday through Wednesday, will take

the three scientists to Carlsbad, Sitting Bull Falls, Mudguts and McNetrick Caverns. At each cavern they will gather fresh bat guano in sterile bottles and also collect soil samples. If possible, they intend to bring back some bats. All of these will be used in research on campus.

The process will be to study the pathogenicity of dermatophytes by inoculating mice with highly contaminated supernatant and later planting fragments of the livers, spleens and lungs of mice on differential media with antibiotics.

The end purpose of the research is to see if disease can result from frequent contact with bat guano to be found in caves in many sections and then to determine effect of antibiotics on such disease.

OLTON PRESENTS--Pamela, 1, and Renee, 3, Roper, daughters of Mr. and Mrs. Claude Roper Jr. of Wolfboro. They are granddaughters of Mr. and Mrs. Homer Worley of Olton and Mr. and Mrs. Claude Roper of Wilson.

Sunflowers Are Possibility

Will sunflowers be a profitable crop on the High Plains of Texas?

Scientists at the High Plains Research Foundation, near Plainview, Texas, believe that sunflowers will be a cash crop for many areas of Texas and the Southwest within five years. The Foundation is conducting research to find out. A sunflower breeding program was started at the Foundation in 1957.

Several hundred strains have been selected which show considerable promise for sunflower production. The objectives of the program are to investigate sunflowers as a crop that could be profitably grown under existing conditions of soil, available water, and climate of the High Plains; and to develop improved varieties of sunflowers adapted to mechanized harvesting.

The search is for a sunflower variety that will have: (1) high yielding ability with a large single head with good seed set; (2) a short, sturdy plant that can produce a maximum amount of grain with a minimum amount of water; (3) disease resistance; and (4) a high degree of insect resistance especially to the larval

stage of the sunflower head moth.

There were 670 strains of sunflowers in the 1963 breeding program, 440 of these were original strains received from all over the world on a private exchange basis. To initiate this program, 241 strains were inbred. Two hundred-twenty strains were obtained from the Plant Introduction Service of the U. S. D. A.

Two hundred-thirty open-pollinated heads were selected for the 1964 breeding program. The entire row of two strains was harvested to obtain seed for planting this year for the purpose of increasing seed. When sufficient seed is available, these strains will be subjected to further testing.

The sunflower is valuable as a food for livestock and people. It has a good quality protein and oil. It is a profitable crop in Canada and several areas in the United States.

The modern sunflower has a large head, one to the plant, with bent head that prevents bird damage. A yield of 3,500 to 4,000 pounds per acre is being sought to produce a profitable crop. The sunflower plant desired has a strong stock, resistant to early wind damage.

Scouts Camp At Tres Ritos

Boy Scout Troops 220 and 240 spent a week at the Boy Scout Camp at Tres Ritos, N.M., from July 5 to July 11.

Making the trip were Tony Miller, Gary Gregory, Mark Chitwood, Jimmie Gallaway, David Norfleet, Danny Sides, Thomas Jenkins, Phillip Eley, Kim Parker, Gary Carlisle, Glenn Loveless, Danny Howell, Jimmie Williams, Ramzie Jakka, Mike Gullett, Dewayne Campbell.

Lynn Campbell, Burnie Hooper, Scotty Jones, Rex Rudd, Jerry Loveless, Johnnie Lewis, Jimmie Schenck, Rickey Mills, Mickey Mills, Gary Cooper and Scoutmasters Lester Campbell assisted by Charles Gallaway also made the trip.

Kenneth Campbell and Charles Gallaway drove the scouts to the camp. Campbell returned Monday; Gallaway remained with the scouts until he was relieved Wednesday by Jimmie Jenkins. Campbell returned to the camp Friday to assist in breaking the camp and returning the scouts to their Olton homes.

Programs for the week were planned by the camp committee, assisted by several professional scout people.

Thursday was the day the boys made a long hike to Serpent Lake to receive the "Hikers Foot," a leather badge. Those getting their badges were Gary Gregory, Lynn Campbell, Rickey and Mickey Mills, Jerry Loveless, Glenn Loveless, Mike Gullett, Danny Sides, Jimmie Williams, Tony Miller, Kim Parker, Scotty Jones and Scoutmaster Lester Thompson.

Many of the boys worked on their merit badges, fished, hiked, were given instructions in rope tying, axmanship, nature and first aid.

The highlight of the week came Friday when an Indian ceremony was presented around the campfire. The camp staff, dressed in regal Indian costume appeared from the brush and tapped scouts for the "Order of the Arrow."

Dwayne Campbell, Lynn Campbell, Kim Parker, and Burnie Hooper were tapped for the honor organization.

Scoutmaster Lester Thompson, in a surprise move by the Indian Council, was also elected to the order.

The scouts, and Scoutmaster Lester Thompson, who were tapped for the "Order Of The Arrow," will go to Post, Texas the last of July.

Every year the Scout Councils hold 6 to 8 weeks of camping at Tres Ritos. Friends and parents are welcomed to the camp to see what the boy Scouts really do.

ILLITERACY FIGHT STEPPED UP--A quiet campaign is under way to mobilize South Texas community facilities to combat an illiteracy problem which results in wasted lives and a damaged economy.

Fausto Toscano, an assistant to Governor Connally, is in South Texas determining what can be done at the local level

to help stamp out the blight of illiteracy.

Toscano has visited seven South Texas counties attempting to establish local literacy centers to teach adults to read and write. He reports that in most counties in Southwest Texas illiteracy is far above the national average, and runs

over 20 per cent in some counties.

Texas Education Agency is engaged in the most intensive study of the problem ever undertaken in the state and the director of that study says the problem can be substantially solved in a few years by a concerted state-local effort.

A Prometryne spray at layby keeps killing weeds for weeks

Effective weed control--that's what you get when new Prometryne® herbicide is applied now, at layby. A layby spray of Prometryne will keep on killing weeds in your cotton for weeks. With Prometryne on the job, weeds won't have a chance to compete for moisture and nutrients. And, you won't have rank weed growth to interfere with good, clean picking.

Gets tough weeds

Three years of research by State and Federal research workers in the Southwest proved the effectiveness of Prometryne in controlling most annual broadleaf weeds and grasses. It does an outstanding job, for example, in handling annual morningglory and pigweed (carelessweed).

Easy to use

Prometryne is easy to handle and apply. Its use will not result in residue problems in the cotton seed. It is non-irritating to humans and animals. It can be used on a wide range of soil types, including sandy soils. A fall

seeded crop should not, however, be planted the same season that Prometryne is used.

See for yourself

Don't miss this opportunity to prove for yourself what an excellent job Prometryne can do. Call your herbicide supplier now and make arrangements for enough Prometryne to treat at least a portion of your acreage. See what outstanding, economical weed control a layby spray of Prometryne can give.
