WHERE TEXANS ARE TEXANS

Junk Drive To Start Monday, Oct. 5

Tuesday, October 6 Date Set For Killing Rats and Mice In Dawson County

Orders for six-hundred and fifty pounds of rat poison, to be used in the rat killing campaign in this county, had been received at the County Agents office up to Thursday morning. Orders may be left at the agents office until five o'clock Saturday afternoon, according to B. J. Baskin, Dawson County Agent.

Neighborhood leaders of the Dawson County Agricultural Victory Council have been taking orders for the "mixed bait," but any family that has been missed may call at the agents office and leave their order.

After all orders have been received at the agents office, the poison bait will be mixed and then delivered to the different communities in the county between the hours of 1 p. m. and 6 p. m. Tuesday, October 6. Each farmer ordering the mixed bait will call for his, which will be in small pint containers, with full directions for killing rats included.

In this campaign all poisoned baits will be delivered at the same hours, and the poisoning of the rats will take place Tuesday night, in both Dawson and Borden counties.

Distribution places or centers are as follows:

Patricia, Coop Gin; Klondike, Schoolhouse; Five Mile, Schoolhouse; Midway, Store; Hancock, Schoolhouse; O. K., Schoolhouse; Welch, Schoolhouse; Higginbotham, Gin; Bartlett, Schoolhouse; Sparenberg, Schoolhouse; Ackerly, Schoolhouse; Key, Schoolhouse; McCarty, Schoolhouse; Harmony, Schoolhouse; Grandview, Schoolhouse; Woody, Schoolhouse; Mungler, Schoolhouse; Lamesa, County Agents Office.

No Services At Lutheran Church Sunday, Oct. 4

There will be no services at the Lutheran Church of Lamesa, Sunday, October 4. The local pastor will at that time be attending and participating in the Mission-Festival Services of the Lockney-Happy Parish.

Services in the local church will again be held at the regular morning hour on the following Sunday, together with Holy Communion.

Wildcat Well To Be Deepened

Ray A. Albaugh-T. L. Higginbotham No. 1 located in the SW-4 of the SW-4 of section 5, block H, ELARR RR CO. surveys, is still shutdown at 5204 feet.

Operator expects to start deepening this well to the Clear Fork Series at around 6250 feet within the next few days.

It may be necessary to run a string of pipe, probably to the anhydrite before carrying this well deeper.

The first telegraph message was transmitted May 24, 1884.

Tornadoes To Odessa Friday Night To Play Bronchos

The Golden Tornadoes open the district competition at Odessa on Friday night. The Lamesa team has all its regulars back in the line-up.

The practices for this week have shown considerable interest in an effort to overcome weaknesses manifested in the Snyder and Brownfield games. Local observers believe the Golden Tornadoes will be stronger against the Odessa Bronchos than they have been in a previous game this season.

Permission has been requested of Lamesa authorities that the game may be broadcast by Midland Radio Station KRLH. The matter of broadcast was left to a decision of the Odessa School authorities. Lamesa fans who do not go to Odessa might tune in on Midland to see if they can catch the story of the game.

District School Teachers Meet To Be Held Here Oct 8

Miss Edgar Ellen Wilson, Elementary Education Supervisor from the state Department of Education, and E. H. Boulter, Deputy State Superintendent from Lubbock, will be in Lamesa at 3:00 p. m. Thursday, October 8, at the District Court Room. All teachers of the elementary grades from the schools of Dawson, Terry, Lynn, Garza, Borden, Howard, Martin, Andrews, and Gaines Counties have been invited to attend.

The subject of Miss Wilson's discussion will be developing a criteria for the evaluation of the elementary schools of the state. She states that to date no standard has been worked out for the evaluation of the elementary school which is satisfactory. High schools have long had a basis of comparison which is fairly satisfactory. She has asked that the teachers of each county organize the elementary teachers so that something definite can be accomplished this year.

It is expected that between 200 and 300 teachers will be present on October 8. Rural schools have been asked to dismiss school in time so that they may be present promptly at 3:00 p. m.

OPA Price Ceiling Clinic Meet Here Tonight 8 O'Clock

All merchants and business men of Lamesa and Dawson County are asked to be present at the OPA Clinic, which will be held in the district court room at 8 p. m., tonight, Thursday.

William E. White and John Mara, of the OPA Regional office of Dallas, spent Wednesday night here visiting local service concerns, telling of the importance of attending the clinic, so that all may become more informed on the new OPA regulations now in effect.

Tom Murray, senior merchandising specialist from OPA Regional office in Dallas, and William Dupree, will conduct the clinic and will explain the overall price control regulations to retailers and wholesalers affected by OPA orders. The meeting is sponsored by the Lamesa Chamber of Commerce and the Vocational Business Education division of the Vocational State Department of Education.

As long as the war lasts, Americans will have to keep on salvaging metals to keep the wheels of war industry turning.

Farm Ration Board Meets On Saturday

The Dawson County Farm Machinery Ration Board met at the AAA office on Monday night, with members of local machinery dealers, at which time instructions on rationing farm machinery were discussed.

If farmers desire information on farm machinery rationing they may call at the AAA Office or see their implement dealers. Regular meeting date of the Ration Board will be held each Saturday afternoon at 3 p. m. at the AAA Office.

Examination For Certificates To Be Held October 16

C. L. Kykendall, head of the Certification Division of the State Department of Education, has called for examinations to be held in the counties of the state by the County Superintendents for the purpose of issuing second grade teaching certificates. The purpose of these examinations is an attempt to relieve the acute teacher shortage throughout the state.

According to records in the county superintendents office over thirty-five applications have already been filed by men and women wishing to try for these certificates. It now appears that the examinations will have to be held at some place in the Lamesa school buildings in order to find enough space to accommodate the large number expected to compete.

Only men and women over 18 years of age are eligible for second grade certificates. Applications for examination may be made through Saturday.

The congregation at the First Methodist Church will observe this day and the people will make an offering for the relief of suffering.

Sunday will also open the second week of the Church Loyalty Month being observed by the local Methodists, and will be marked by a series of sermons beginning Sunday night on the general theme of "What Methodists Believe and Why." The sermon subjects for the week are announced as follows:

Sunday Night—"What Methodists Believe About the True Church."
Monday Night—"What Methodists Believe About Salvation Through Faith."
Tuesday Night—"What Methodists Believe About the Possibility of Falling From Grace."
Wednesday Night—"What Methodists Believe About Water Baptism."
Thursday Night—"What a Good Methodist Should Believe."

School Buses In Fair Condition

Roy M. King, of the Texas State Highway Patrol, stationed in Lamesa, stated this week that the school buses of Dawson County were in fair condition, according to his findings during the bus inspection conducted last Thursday. All immediate requirements as listed by Mr. King for making the bus safe for the transportation of children are on file in the county superintendent's office and a list of the repairs to be made have been mailed an official in each school.

Mr. King announces that all buses which were not in perfect condition at the last inspection must return at 10:00 a. m., Thursday, October 14 for a recheck. At that time all requirements as listed on the inspection must be met.

Ann Coleman Is To Report to WAVES

First Lamesa woman to join the WAVES, Women's Naval Reserve Corps, is Ann Coleman, daughter of Mr. and Mrs. C. C. Coleman. She will leave Sunday for Northampton, Mass., to report Tuesday for training at Smith College. She went to New Orleans early in September for examination and enlistment in the corps. Miss Coleman will have the title "apprentice seaman" for one month, for three more months she will serve as a midshipman and at the end of that period she will be commissioned as an ensign.

Miss Coleman is a graduate of Lamesa High School, and was graduated from Texas Technological College in 1940 as the highest ranking student in the division of arts and sciences. She has been employed at Lubbock.

T. B. Mobile Unit Here Last Friday

The State Tuberculosis Mobile Unit of the Department of Health, Austin, was in Lamesa last Friday, and made forty-seven chest X-ray pictures at the Dawson County Health Office, according to Mrs. Zelva Harris, county health nurse.

Mr. Fowler, technician for the Mobile Unit made the X-ray pictures of the forty-seven people who called at the local health office during the day.

Administrator

J. C. Kellam has been appointed administrator for Region 10 (Texas, New Mexico and Louisiana) of the National Youth Administration. Previously, since 1937, he had been Texas administrator of NYA. He once coached football at Lufkin.

Methodist Church To Observe World Communion Sun.

Sponsored by the Federal Council of Churches of Christ in America Sunday, October 4th has been designated a World Wide Communion Day, at which time Christians of the whole world regardless of creed or color are urged to observe the Sacrament of the Lord's Supper, and to make a worthy sacrificial offering to aid the relief of suffering in our war torn world.

Lamesa Lions Club To Give Prizes In School Scrap Drive

The Lamesa Lions Club has announced through its Board of Directors that two awards will be given the schools of the county who gather the largest amount of scrap per capita during the national drive beginning Monday, October 5th. Lions president, Leslie Pratt pointed out that the emergency necessitates every effort being put out to make the drive a success and that the Lions Club besides doing all in its power to gather scrap will also lend the awards to school children as an added stimulus to make the drive a success.

Mr. Pratt stated that an award of \$18.75 will be given to the school bringing in the largest amount of scrap and that \$7.25 will be awarded the school bringing in the second largest amount. Both amounts will be figured on a per capita basis and the awards will be in defense stamps.

The scrap dealers of the county has stated that it is up to each person or adult to remember to notify them as which school is to receive credit so that it may be marked on the ticket. Otherwise no school will receive credit.

The Lions Club has bought \$510 of War Bonds with club money during the past year and the club has bought from \$50.00 to \$1300.00 most weeks since the beginning of the sale of bonds.

Civilian Offices Moved To Glider Field Last Week

All civilian employees of the Lamesa Glider School moved their offices last Friday from the Ford Building to the new quarters at the Lamesa Glider Field.

The Army personnel of the Glider School still have their offices at the Ford Building, and according to the Public Relation Department, it is not known just when they will be moved to the field.

A. C. Woodward Given Promotion With Amicable

A. C. Woodward, prominent Lamesa citizen, has been promoted to General Manager of the Land and Loan Department of the Amicable Life Insurance Company for the State of Texas. Mr. Woodward is taking the place of Mr. Peeler Williams, who recently passed away.

Although the head offices of Amicable Life Insurance Company, are located in Waco, Mr. Woodward reports that he will continue to make his home in Lamesa. He has been connected with the company as representative for the Loan Department in West Texas for the past 20 years.

Edward Roy Tinsley, Jr., 3-B; Sam Cates, 3-B; Grandon Stovall Herndon, 3-B; Lynn Sharon Edwards, 4-F; Joe Fletcher Jones, 3-B; James Vernie Timmons, 4-F; William Raymond Robinson, 4-F.

Smiling Edward H. Underhill, a full colonel though only 35, has an important part in the Army's glider program. A native of Boston, Mass., he is commander of the Amarillo advanced glider school. He started tinkering with air craft when 19, and began an army flying career in 1927 as a cadet at Brooks Field, Texas.

Harvesting Of Peanuts Started In This County

Chas. E. Tarter, of the local ACA Office and O. B. Norman, spent last Monday in Post attending a meeting in the interest of peanut harvesting and at which time an agency was named in each county to handle the peanut crops.

According to Mr. Tarter, Randolph-Norman Grain Company was designated as peanut buyer in this county. He stated that peanuts are now being harvested in Dawson County, and should be played up from 10 to 15 days before being thrashed. Prices that the farmers will receive for these "peanuts for oil" will range from \$82 to \$86 per ton.

Dawson County has 6,000 acres replanted to peanuts this year, and will get a yield of from 20 to 40 bushels per acre.

Frank S. Davis, Merchant Marine Reported Missing

Thirty-three Texans, serving on merchant ships are known to have lost their lives and 232 are missing the Eighth Naval District zone public relations office said today in announcing the Navy Department's first casualty list covering Merchant Marine personnel. Texas ranked next to New York in the number of dead and missing.

Among the number reported as missing was Frank Smith Davis, son of Mrs. Z. T. Davis, Lamesa. He was serving as an oiler with the Merchant Mariner.

The casualties cover the period from September 27, 1941, to August 1, 1942, and include a total of 434 seamen known dead and 1921 missing for the entire nation.

The total embraces only those casualties resulting directly from enemy action. This category, said the announcement, includes men on United States merchant vessels overdue and presumed lost. It does not contain the names of persons wounded, or casualties resulting from ordinary hazards of the sea. Neither are the names of Americans sailing on foreign-flag vessels listed.

The Navy said the classification "missing" covers those who cannot be accounted for, some of whom may have landed at remote places and have been yet unable to communicate with authorities. The names of American seamen whose capture by the enemy has been confirmed is being compiled by the U. S. Coast Guard headquarters. It will be released with subsequent Merchant Marine casualty lists, compiled as rapidly as possible after reports are received and next of kin notified.

Firemen Meet Wednesday Night

Members of the Volunteer Fire Department, Air Raid Wardens and Auxiliary Firemen held a meeting on Wednesday night at the Community Building in the City Park. Chief G. F. Williams, Field Instructor of Firemen Training School of A. and M. College was present and talked to the group.

Chief Williams demonstrated to the group the chemicals used to make incendiary bombs, and talked on a number of interesting subjects. Fifty local men were present at the meeting.

793 Bales Cotton Ginned To Sept. 16

Government census report received Wednesday shows that 793 bales of cotton were ginned in Dawson County from the crop of 1942, prior to September 16, as compared with 7 bales for the crop of 1941.

This report was issued by R. S. Stanfield, special agent.

School Children To Collect Scrap Metal And Rubber

The Nation-Wide drive by school children for the collection of scrap metal will begin Monday morning, October 5. The nearly four thousand Dawson County school children will of course, be a portion of the thirty million school children who will take part in this drive. The school children of Texas are to be known as the "Junior Texas Rangers" by order of Governor Coke Stevenson.

The school children of Dawson County, under the leadership of their teachers, will endeavor to see that all scrap metals and scrap rubber are placed in the channels of trade to be manufactured into articles necessary for carrying on the war.

Consultations between school and scrap metal officials resulted in general acceptance of the following plans:

First, all scrap metal and rubber of amounts suitable for weighing and sale to a dealer would be delivered direct to an authorized dealer in scrap materials. Being disposed in this manner, the material will be handled only once and the individual bringing in the scrap material will receive the money therefor.

Second, small items of metal, which are donated, will be taken to the respective schools and placed in bins for the purpose. Separate bins are recommended for metal and rubber. Small metal items such as keys, steel knives, old flat irons, etc., would be disposed so, if not included in the consignments to the scrap dealer. Rubber items such as rubber heels, rubber sole shoes, rubber atomizer bulbs, small lengths of rubber hose, etc., if small, may be accumulated at the school. The school accumulations are to be delivered to a proper dealer at the end of the second week in order to be counted on the school's record.

Third, Pupils will discover heavy items of metal and large stacks of scrap which they may be unable to move because of weight or lack of transportation. Pupils are to report to their teachers the discovery of such scrap material and the information as to whether or not the owner is willing for the material to be moved. The teacher will report to the proper principal or to the county superintendent the location and ownership of such heavy items for which aid is needed in moving. They in turn will report this information to the county committee on scrap, which will endeavor to move the located materials into trade channels.

The weight receipts for metal sold are to be shown to the teachers of the pupil who will keep a record of all sales that the school's record in the campaign may be known and that the school may have a verified record for the purposes of checking in competition for the prizes to be awarded at the end of the campaign.

It is expected that each school will develop its own plans for local accounting and will be in position to report to the proper authorities the total amount of scrap accounted for by the children of that school system.

Scrap materials most seriously needed at this time are iron and steel, copper, brass, bronze, aluminum, zinc and lead. Rubber is also needed. Due to the lack of facilities for handling, old rags are not asked for in this particular drive in Dawson County.

It is desired that every man, woman and child in this county will join with their fellow citizens of the United States in combing this area for scrap materials that are said to be absolutely necessary to keep our factories running that the military forces may have the arms necessary to victory.

This report is authorized by J. H. Norris, County Superintendent, V. Z. Rogers, Superintendent of the Lamesa Schools, and C. M. Burton, President of the Dawson County Scrap Materials Committee.

First, all scrap metal and rubber of amounts suitable for weighing and sale to a dealer would be delivered direct to an authorized dealer in scrap materials. Being disposed in this manner, the material will be handled only once and the individual bringing in the scrap material will receive the money therefor.

Second, small items of metal, which are donated, will be taken to the respective schools and placed in bins for the purpose. Separate bins are recommended for metal and rubber. BRYANT-LINK CO.

STANTON TO GET \$750,000 MEAT PROCESS AND PACKING PLANT

Unceremoniously, without fanfare or blaring of trumpets, an industry standing at approximate investment of \$750,000 has been dropped in the lap of Stanton this week. It is to be known as the Stanton Packing Co., located on 138 acres of land purchased from J. B. Harvard, five and a half miles west of Stanton, on highway 80 and will be a first-class Twentieth Century packing house plant, employing some 2,000 men and women during the first year of operation.

J. B. Harvard has sold 138 acres of his farm five and a half miles west of Stanton purchased by H. A. Emerson of New York City and P. D. Anderson of Del Rio, Texas, who are associated with John W. Ashworth of New York City, who has been one of the largest carlot handlers and distributors of dressed beef, pork, and mutton in the New York trade district for many years.

The purchase of this tract of land facing our great highway 80, passes through the property for a little over half a mile.

On this property at once will be erected an up-to-date permanent packing house plant for the slaughtering and processing of beef, pork, mutton and goats as well as hogs.

The surveyor is working out the lines and location for the buildings and feed yards this week.

The plans for the buildings have been drawn and completed, and to begin with, the capacity of the plant for killing will be 3,500 head of grown cattle, 7,500 head of sheep and lambs, 5,000 head of goats, and 2,000 head of hogs each week throughout the year.

The purchase of cattle for feeding purposes has already begun and more cattle will be purchased each week throughout the year so that a part of the required top-grade beef will be on hand and ready for slaughter.

Many large feeders now operating in this district such as E. T. Hill, J. K. Barfield, and many other operators who are raising large quantities of feed and cattle, will be more than pleased to have a market established here which will be equal to the Fort Worth market for the same quality of beef.

This packing house will be strictly a defense proposition for the duration of the war.

There are 300,000 soldiers and Federal people within easy trucking distance to be supplied by the Stanton Packing Co.

The great supply of water in the Mustang Draw district, which passes through the Harvard land, played a large part in having the packing house located between Midland and Big Spring.

Very important livestock raisers with headquarters in San Angelo, were more than anxious to have a Federal plant with Federal inspection located near San Angelo.

The enormous amount of feed raised north of and adjacent to highway 80 also had considerable influence in locating this plant on a section of land which will not only be served with highway 80 but also the T&P railroad, which runs through the property for more than half a mile, furnishing ample opportunity for sidetracks for handling the products of the Stanton Packing Co., which are ordered out by the Government to be shipped in refrigerator cars by railroad.

This will be the only Federal inspected packing house at this time between El Paso and Fort Worth.

Mr. Anderson and Mr. Emerson expect to live in Stanton and such stockmen, feeders, ranchers and farmers who have been interviewed, are more than delighted that men like wide-awake banker Jim Tom of the First National Bank here, and the bankers of Big Spring and Midland as well as Mr. Cook of Big Spring have given much time, aid and assistance in bringing this much needed industry into our part of West Texas.

When the buildings and equipment are completed the cost will approximate \$750,000.

Every department of a first-class Twentieth Century packing house will be in operation.

Packing houses of this capacity in Iowa, Minnesota, Wisconsin and Illinois, have been extremely successful in employing a great many people throughout the year.

One packing house in a small city in Southern Minnesota operates 750 two-men trucks which means that 1500 men are employed doing trucking in and out through out the year.

In addition to this thousands of carloads of their products are shipped by rail.

SHUMAKE

Wanda Lee Lauderdale

Brother J. P. Jones of Lamesa preached for us Sunday morning. Every one enjoyed hearing him and he was invited to preach for us again next fourth Sunday.

Maxine Gillispie is employed at the Booth's variety store in Lamesa.

Marriage Of Miss Elizabeth Lee Davis To Lieut. Robert H. Smith Solemnized Tues.

The marriage of Miss Elizabeth Lee Davis, daughter of Mrs. Z. T. Davis to Lieut. Robert H. Smith, was solemnized at high noon Tuesday at the Presbyterian Church. The Rev. Robert J. Snell, rector of the St. Mary's Episcopal Church, Big Spring read the impressive single ring ceremony before an improvised altar of fern with tall floor baskets of gladiolus on either side. Mrs. Matt McCall played the "Bridal Chorus" from "Lohengrin," for the processional and the wedding march by Mendelssohn for the recessional. During the ceremony she played softly "Clair de Lune" by Debussy.

The maid of honor was Miss Virginia Ann Hillard, who wore a blue afternoon dress and a corsage of white carnations. Bridesmaids were, Misses Ramah Eager, Mary Louise Tanker, Mary Jo Forrest and Carol Jacobs, all of whom carried arm bouquets of asters and fern.

The bride wore an afternoon dress of brown crepe and a shoulder corsage of stephanotis. She carried a white prayer book on which were streamers of ribbons and stephanotis.

A reception was given at the home of the brides mother following the ceremony. Mrs. Karl Cayton and Mrs. Scottie St. Clair presided at the serving table.

Mrs. Smith is a graduate of the Lamesa High School and of T. S. C. W., Denton, where she received her degree in Library Science, and had accepted a position as Librarian in the Lamesa High School.

Lieut. Smith graduate from the Lamesa High School in 1939, in which year he was president of his class and in 1938 was captain of the Lamesa Golden Tornadoes. He attended John Tarleton College at Stephenville two years and then joined the United States Air Corps. He received his training in Ontario, California, where he received his wings and commission.

Lieut. and Mrs. Smith left immediately after the reception for Topeka, Kansas, where Lieut. Smith will be stationed.

MISS INEZ ALDRIDGE TAKES VOWS WITH J. D. BENNETT
Miss Inez Aldridge, daughter of G. C. Aldridge became the bride of J. D. Bennett last Saturday at 7 o'clock in Seagraves, Texas. Rev. J. Rankin, read the impressive single ring ceremony.

The bride was attired in a blue suit with black accessories. Mrs. Bennett was a member of the senior class of the Lamesa High School.

Mr. Bennett is a graduate of the Loop High School and is now employed at the Green Hut Cafe.

Mr. and Mrs. Bennett are making their home at 208 South First.

JUNIOR TRAINING UNION HOLD SOCIAL AND BUSINESS MEETING
The Junior Department of the Training Union of the First Baptist Church met last Thursday evening for their regular monthly social and business meeting at the church.

Officers were elected during a short business session and various games were enjoyed after the business was attended to.

Attending were 21 members, their leaders, Mr. and Mrs. Jim Ringner and Rev. and Mrs. A. A. Watson.

GAMMA ALPHA HOST AT PICNIC FOR RUSHEES MONDAY
At the first in a series of rush parties, Gamma Alpha chapter of Beta Sigma Phi sorority entertained with a picnic Monday evening at 7:30 at the park.

After the picnic supper was served and a delightful evening was spent around a camp fire.

Rushees attending were Misses Juanita Flenken, Leta Merle Conner, Fern Thumbs, and El Wanda Gilbert.

Members attending were Evelyn Barron, Jessie Norris, Myrtle Henderson, Edna Bedwell, Vivien Cook, Tamzy McCarty and Mrs. Rupert Austin.

"Hey, Mom... it's ALIVE!" You can SPOT the GENUINE ARTICLE. HELP! HELP! I thought it was a pretty green stone, but when it stuck its neck out, I knew it was alive. It just shows you can't always judge by appearances. That goes for motor oil, too. When you want quality oil... and who doesn't these days?... it is best to rely on facts and on the good name of the petroleum producer. That way you're sure of getting the genuine article. You know that Phillips is one of the great independent organizations in the petroleum industry. You know that Phillips has a well earned reputation for giving greater value. So it means something when Phillips makes this simple, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to car-owners like yourself. Because quality oil means so much to car life, remember these facts when a new 1,000-mile mark clicks up on your speedometer, and when you are making the seasonal change. IT'S PHILLIPS FINEST QUALITY

Mr. and Mrs. Lloyd Wiggins visited Mr. and Mrs. Sam Davis and family Sunday and enjoyed a birthday dinner given in honor of Mr. Davis' mother who was 81 years old.

A. E. Dauley visited Mr. and Mrs. E. L. Wade Sunday.

UNION SCHOOL DEFEATED DAWSON SATURDAY AFTERNOON 62 TO 0

Union school six-man football team defeated Dawson Saturday to the tune of 62 to 0. Line-up for the Union school was as follows:

Arran Coan, quarterback (Capt); Bill Pearce half, E. S. Hogg half, Leo Davis center, Ed Rinehart left end, Bill Marshall right end, Hubert Coon back, Adrain Firth end, Leland Miller back, Ray Martin end.

Wiesbaden was one of Germany's most famous spas during normal times.

The Aleutian Islands were discovered in 1741 by Vitus Bering, a Russian fleet captain.

Louisa May Alcott's life as a volunteer hospital nurse during the Civil War furnished material for several of her stories.

In open hoppers and a sufficient amount placed out daily to run the turkeys for the day.

In most sections where turkeys have been on range, McCarthy suggests worming them with individual capsules or a reliable worm powder mixed with the mash before placing the birds on a full fattening program. If they are not eating mash as readily as the grower desires, it is a good practice to feed them wet mash twice daily - morning and afternoon. Make this mash soft but not watery, and feed what the birds will clean up in about 30 minutes. Never allow wet mash to remain in the hoppers and sour. This will throw birds off feed.

And don't forget plenty of cool clean water.

"If You Build A Better Mouse Trap - THE WORLD WILL BEAT A PATH TO YOUR DOOR."

That statement was made by a learned man many years ago, long before they thought of building a "Rat Poison."

But more than twenty years ago a Reliable Company did, after long research and experiment, build a BETTER Rat Poison. They called it RAT-NIP and the world has literally beat a path to their door and have proven its merit.

RAT-NIP is sold under a money-back guarantee of satisfaction. Easy to use. Try it. 35c bottle.

FARM NEWS **FOOD**
from **TOP FREEDOM**
YOUR COUNTY AGENT
TEXAS EXTENSION SERVICE

"Farmers can leave their orders for Rat Poison Baits at the office of the County Agent," states B. J. Baskin, County Agent of the Texas A. and M. College Extension Service.

"Many of the Neighbor Leaders in making their calls on farmers fail to contact such farmers. This means that many farmers that really would like to cooperate in the Rat Campaign have not placed orders."

"To insure every farmer the privilege of participating in this campaign we will receive their orders at this office."

"It is going to be a long time before any automobiles are built for the American Public," states B. J. Baskin, County Agent of the Texas A. and M. College Extension Service.

"This means that every automobile owner, more especially farmers, should conserve their automobiles and trucks."

"Farmers are urged to keep their automobiles in good shape—greased, tightened, etc.—so that they will receive the maximum service in performance and in years of service."

"Gas rationing is going to do much towards prolonging the life of our cars and tires. But farmers are urged to (1) drive slowly, (2) start slowly, (3) apply their brakes slowly, (4) keep their tires properly inflated, and (5) do not overload your car."

"Dawson County as a whole is still covered with scrap iron. This scrap iron is needed at once to carry on the production of steel this winter," states B. J. Baskin, County Agent of the Texas A. and M. College Extension Service. "Bring in your scrap."

"Do not be misled by statements that junkyards are overflowing. Junk dealers ship scrap as fast as distributing centers can receive it. We need over 15,000,000 tons of scrap to carry on the winter production of war materials."

"Bring in your scrap iron and steel."

sell feed. Keep it. The demands for pork, eggs, beef and dairy products will be larger next year than today. 1942 is making enough feed for all of our feeding operations for the 1942-43 winter feeding operations and also the 1943-44 winter feeding operations. Grain sold through livestock will bring more money per ton than when sold over the scales. It will also contribute more to the War Effort.

J. C. Freeman received his Hereford calf for his 4-H winter feeding demonstration from Geo. D. Norman Saturday, September 12. This choice calf weighed 505 pounds when weighed out in Lamesa.

Don Phillips, 4-H Club boy living in the Grandview community, purchased a choice Hereford steer calf from Geo. D. Norman on Sept. 12. This calf weighed 530 pounds, and is going on feed nicely.

S. L. Stephens, Jr., 4-H club boy of the Klondike community, purchased three nice Hereford calves from Jones and Holton on Saturday, September 19. These calves weighed 400, 610 and 540 pounds. S. L. says that he is going to buy one more calf, and that he is one of the new 4-H Club boys that is going to make the older feeders look down their noses at the show next spring.

L. D. and Norman Langham, 4-H Club boys of the Key community, have put two Hereford Calves, bought in New Mexico, on feed for their winter feeding demonstrations. "Our calves are doing nicely, and we are going to mix it with all the boys next spring," says the Landham brothers.

"A new fumigant for control of weevils is now available to farmers," states B. J. Baskin, County Agent of the Texas A. and M. College Extension Service. "This fumigant is inflammable; it will not destroy the germination of the seed; will not injure the palatability of the grain; is not injurious to either man or beast."

"This new fumigant is a 3 to 1 mixture of ethylene dichloride and carbon tetrachloride, and is purchased already mixed in these proportions. It is sprayed on the grain at the rate of 6 pounds per 100 bushels of grain."

"When the grain bin is not very tight it is recommended that a tarpaulin be thrown over the top of the grain after the fumigant is applied," states B. J. Baskin, County Agent.

"A recent ruling of the ODT states that farm truck must have a certificate of War Necessity," states B. J. Baskin, County Agent of the Texas A. and M. College Extension Service.

"Certificates of War Necessity will govern a truck's maximum mileage or minimum loads, or both; and no operator will be able to obtain gasoline, tires, or parts without this Certificate."

"Farmers are urged to contact

SPARENBERG

Brother Curtis Rogers of Scurry County preached at the Sparenberg Baptist Church both Sunday morning and night.

Mrs. R. Quest and Mrs. A. Quest of Lubbock and Mr. and Mrs. E. O. French and daughter Joyce Dean were visitors of Mr. and Mrs. J. T. Pruitt Sunday.

We are glad to welcome to our community Mr. and Mrs. Bill Davis and son Willie Jean.

Miss Tommie Bradford spent the week end with her parents, Mr. and Mrs. T. S. Bradford.

We are sorry to lose Mr. and Mrs. Bart Davis and children out of our community.

Mr. and Mrs. Miller were visitors in the J. T. Pruitt home Sunday.

Oklahoma Chivalry, In Reverse

TULSA, Okla. (AP)—Every evening a couple of middle-aged business men walked several blocks beyond the principal getting-on stations so they could board a bus ahead of the crowds. Once in their choice seats, they conversed earnestly, avoiding glances of the women standees. But the women concocted a plot. They walked a few blocks beyond where the men boarded the bus, then when the two businessmen got on the women arose, tapped the men on the shoulders and offered them seats. The fellows declined but the women persisted in standing beside them throughout the homeward journey.

THE TOWN THAT LET HIM DOWN

HE: Well, here's the city limits. Tomorrow I can see my customers around town. Are you tired?

SHE: Not very. Does the car need anything?

HE: Yes, it does, but the map shows no Conoco station here.

SHE: You and your Conoco Nth oil... but I don't blame you... the way this car performs.

HE: Here's the hotel, and a garage right across. Let's leave the car there, eh?

ATTENDANT: Good evening! In for the night?

HE: Yes. Fill the tank, grease her, check the oil, but don't drain.

ATTENDANT: What brand do you use?

HE: Conoco Nth.

ATTENDANT: Sorry, haven't got it... but this is the last straw, mister. You're the fifth driver this week demanding Conoco Nth. Seems like everybody knows about that Death Valley Test, when six engines were run to destruction. Conoco Nth out-miled the average of five other brands more than two to one. I'm going to get some in stock.

HE: Sure, your regular customers, too, will want Conoco Nth to OIL-PLATE their engine.

CONOCO Nth MOTOR OIL

Conoco Nth helps keep your oil and your engine clean. It can save you repairs and many a quart. See Your Conoco Mileage Merchant today. Continental Oil Company

FOR THE DURATION of your car

Don't depend on hurried stops for gasoline to have your tires and car checked. Join your ONCE-A-WEEK CLUB. Choose one day each week to bring in your car. I will properly check your tires, oil, radiator, and battery. I will report anything that appears to need attention. I will keep a careful record and remind you when greasing and oil change are needed. I help you get maximum service and car life at least possible cost and trouble.

Funds Available For Planting Of Cover Crops

Farmers who wish to plant fall cover crops of hairy vetch or similar legumes, as a soil building practice, may secure funds for financing this operation from the Emergency Crop Loan Section of the Farm Credit Administration, according to Field Supervisor R. K. Green, who can be seen every Monday and Saturday at First National Bank Bldg., Lamesa, to discuss the loans.
Because of the War there is a serious shortage of commercial fertilizers. All nitrates are being diverted to the vital manufacture of munitions and farmers are being urged by the Department of Agriculture to grow their own nitrogen by planting and turning under cover crops. Not only is this element replaced in the soil economically by this method but farmers who comply with instructions of the AAA may also earn an additional benefit payment in 1942 and another in 1943 by carrying out the practice.
To assist in this program, Emergency Crop Loans to produce 1943 crops are being offered at this time and an early installment may be advanced at once to cover the cost of planting the cover crop. The remainder of the loan will be disbursed when needed by the borrower for planting his normal 1943 crops.

W. F. Hessler Is Speaker At County Agents Meeting

The practicability of dehydrating, or drying foods was demonstrated to county extension agents representing the agricultural educational leaders of the Texas A. and M. College Extension Service during their annual conference on the Campus September 15 to 18. About 500 agents from 250 counties attended.
Speakers pointed out that dehydration of vegetables, milk, fruits and eggs contributes materially to the winning of the war. In that form these products take up about one-fourth the cargo space in lend-lease shipments they otherwise would. One full session of the conference was devoted to demonstrations and discussions of food-drying. Winifred Jones and Hazel Phipps, Extension Service food specialists, in showing the steps in drying corn for home use employed a home-made electric drier which can be built for about \$7.50, and which is not expensive to operate. Stove driers and home made apparatus built with apple packing boxes also will do the job, but not so satisfactorily.
Texas is in the forefront in egg drying, with 13 plants handling more than 5,000,000 eggs daily in 19 drying units. William F. Hessler, manager of a dehydrating plant at Lamesa, Dawson County, said that his plant which has facilities for drying 50 tons of vegetables daily, soon will begin drying 200,000 pounds of onions for use by the army.
The conference was addressed by Rueben Brigham, vice director of Extension Work, USDA, Washington, D. C. Dr. Robert L. Sutherland, director, Hogg Foundation, University of Texas, and representatives of organizations working with agriculture. Demonstrations in other phases of the work of county extension agents were conducted progressively during the three and one-half days' sessions.

1.59

Charming pouch, envelope or top-handle styles.

Rubber Boots Are 'Frozen'; Ration To Start Soon

Because of the serious rubber shortage, certificate rationing of men's rubber boots and rubber work shoes has been ordered by the Office of Price Administration to insure necessary supplies of this footwear for men working on jobs essential to the war effort or the public health and safety. Dixie Kilgore, Chairman of the Dawson County War Price and Rationing Board announced today.
Mr. Kilgore said this action was taken at the direction of the War Production Board.
Effective at midnight, September 29, Mr. Kilgore said the OPA ordered all sales and shipments of six types of men's rubber boots and rubber work shoes frozen to prevent a buyers' "run" on the stocks now on hand and also to give dealers time to take inventory.

Miss Mary Mallory Kelly is visiting in Dallas this week with friends.

Miss Donna Jean Nall of Brownfield spent Saturday here visiting with Miss Neta Bell Watson.

Mrs. B. F. Gray and Mrs. Bill Kelly of San Angelo spent the week end here visiting in the home of Mr. and Mrs. Walter Taylor.

the Field Supervisor states.
The first installment of the loan will cover the cost of preparing the land, purchasing feed for workstock or fuel oil, purchasing cover crop seed, purchasing phosphate and other incidental expense. Methods recommended by the County Agent will be followed and instructions of the ACA Secretary must be complied with if the borrower wishes to earn additional soil conservation payments.
These loans, usually known as "seed loans", have been made in this County for many years and, as in the past, will not be made to those who, it is shown have credit elsewhere. Eligibility rules are the same now as in former years. The loans are administered in Texas by the Dallas Emergency Crop Loan Office of which W. E. Farwell is Manager.

EYE STRAIN IS NERVE STRAIN

Your nervous system is being taxed when you attempt to see with faulty eyes. This causes fatigue, headaches and nervousness.

Be sure your eyes are not affecting your entire physical condition. Have an eyesight examination soon.
