Illinois Statesman Has His Day in the Convention, Following Magnificent Showing Made by Mr. Root When the Convention Opened Tuesday, and Is Now Permanent Chairman of the Gathering

MR. FAIRBANKS IS NOT OPPOSED

Illinois Delegation Decides to Withdraw the Name of Congressman Hitt and the Indiana Statesman Will Go Before the Country as the Unanimous Choice of the Party—Delegates Were Slow in Assembling Today—All Will Attend the World's Fair at St. Louis

CHICAGO, June 22.—The republican national convention met again at noon yesterday was Elihu Root's day. This is Speaker Cannon's.

The day is flawless—one of clear sunshine, a fresh breeze from the lake and temperature near 75. The delegates spent most of the morning out of doors before the hotels on the lake front, where many state headquarters are.

"What a holiday is this convention," remarked Senator Depew to his near neighbors who happened to be Governor Durbin and Representative Hull of Iowa. "I feel quite as though I were at sea shore with nothing to do except idle and bathe."

"It is strenuous," said Mr. Hull, "but always interesting. A national convention seems to me more expressive of the peculiar genius of our people than any institution. The convention is always unique. For one to be dull is an impossibility. A band engaged by the Pennsylvania delegation gave a concert during the

regate and tickets of delegates on all railroads will be accepted to and from St. Louis as if it were Chicago. New Yorkers led in the movement for a two days' convention, but today in view of the fact a large number of delegates will go to St. Louis, they are at least quiescent. Saturday sees the dedication of the New York state building and Governor Odell and the two United States senators from New York and others will attend.

White New York felt that it could not take the initiative on the floor of the convention it is perfectly apparent some of the prominent delegates are attempting to provoke a sentiment for adjournment sine die today.

Governor Odell said cautiously, "Some of our delegates have to leave tonight. I understand that many other state delegates have already started. It will not do to have a majority of empty seats in the delegates' section when we nominate. If the platform is adopted today it will make a scene of enthusiasm go right on tonight and nominate

PLATFORM OF NATIONAL REPUBLICAN PARTY ADOPTED IN CHICAGO TODAY

CHICAGO, June 22.—Fifty years ago the republican party came into existence, dedicated among other purposes to the great task of arresting the extension of human slavery. In 1860 it elected its first president. During twenty-four of the forty-four years which have elapsed since the election of Lincoln the republican party has held complete control of the government. For eighteen months of the forty-four years it has held partial control, through the possession of one or two branches of the government, while the democratic party during the same period has had complete control for only two terms. This long tenure of power by the republican party is not due to chance. It is a demonstration that the republican party has commanded the confidence of the American people for nearly two generations to a degree never equalled in our history, and has displayed a high capacity for rule and government which has been made even more conspicuous by the incapacity and infirmity of purpose shown by its opponents. The republican party entered upon its present period of complete supremacy in 1897. We have every right to congratulate ourselves upon the work since the accomplished for it has added luster even to the traditions of the party which carried the government through the storms of the civil war.

By our possession of the Philippines we were enabled to take prompt and effective action in the relief of the legations at Pekin, and a decisive part in preventing the partition and in preserving of the integrity of China.

THE ISTHMIAN CANAL

The possession of a route for an isthmiian canal, so long the dream of American statesmanship, is now an accomplished fact. The great work of connecting the Pacific and Atlantic oceans is at last begun, and it is due to the republican party. We have passed laws which will bring the arid lands of the United States within the area of cultivation.

We have re-organized the army and put it in the highest state of efficiency. We have passed laws for the improvement and support of the militia.

We have pushed forward the building of the navy, the defense and protection of our honor and our interests. Our administration of the great departments of the government have been honest and efficient and wherever wrong-doing has been discovered the republican administration has not hesitated to probe the evil and bring offenders to justice without regard to party or political ties.

It is the unquestioned duty of the government to procure for all our citizens without distinction the rights of travel and sojourn in friendly countries and declare ourselves in favor of all proper efforts tending to that end.

RESTRICTION OF SUFFRAGE

We favor such congressional action as shall determine whether by special discriminations the elective franchise in any state has been unconstitutionally limited and if such is the case we demand that representatives of congress and in the electoral college shall be proportionately reduced as directed by the constitution of the United States.

Such combinations when lawfully formed for lawful purposes are alike entitled to the protection of the laws, but both are subject to the laws and neither can be permitted to break them.

THE ANTI-TRUST LAWS

Law enacted by the republican party, which the democratic party failed to enforce and which were intended for the protection of the public against the unjust discrimination or the illegal encroachment of vast aggregations of capital have been faithfully enforced by a republican president and new laws, insuring reasonable publicity as to the operations of great corporations and providing additional remedies for the prevention of discrimination in freight rates have been passed by a republican congress.

In this record of achievement during the past eight years may be read the pledges which the republican party has fulfilled. We propose to continue these policies and secure our constant adherence to the following principles:

ADHERENCE TO PROTECTION

Protection which guards and develops our industries is a cardinal policy of the republican party. The measure of protection should always at least equal the difference in the cost of production at home and abroad. We insist upon the maintenance of the principles of protection and the tariff rates of duty should be readjusted only when conditions have so changed that the public interest demands their alteration, but this work can not safely be committed to any other hands than those of the republican party. To entrust it to the democratic party is to invite disaster. Whether as in 1902, the democratic party declared the protective tariff unconstitutional or whether it demands tariff reforms or tariff revision, its real object is always the destruction of the protective system. However specious the name the purpose is the same. A democratic tariff has always been followed by business adversity, a republican tariff by business prosperity. To a republican congress and a republican president this great question can safely be entrusted. When the free trade country among the great nations agitates a return to protection the chief protective country should not falter in maintaining

COMMERCIAL RECIPROcity

We have extended widely our foreign markets and we believe in the adoption of all practicable methods for their further extension, including commercial reciprocity wherever special arrangements can be effected consistent with the principles of protection and without injury to American agriculture, American labor or any American industry.

THE GOLD STANDARD

We believe it to be the duty of the republican party to uphold the gold standard and the integrity and value of our national currency. The maintenance of the gold standard established by the republican party cannot safely be committed to the democratic party which re-

stated its adoption and has never given any proof since that time of belief in it or fidelity to it.

While every other industry has prospered under the fostering aid of republican legislation American shipping engaged in foreign trade in competition with the low cost of construction, low wages and heavy subsidies of foreign governments, has not for many years received from the government of the United States adequate encouragement and promise a continuance of such a policy is which will encourage and build up the American merchant marine and we cordially approve the legislation of the last congress which created the merchant marine commission to investigate and report upon this subject.

A navy powerful enough to defend the United States against any attack, to uphold the Monroe doctrine and with which our commerce is essential to the safety and the welfare of the American people. To maintain such a navy is the fixed policy of the republican party.

We cordially approve the attitude of President Roosevelt and congress in regard to the exclusion of Chinese labor and promise a continuance of the republican policy in that direction.

The civil service law was placed on the statute books by the republican party which has always sustained it, and we renew our former declarations that it shall be thorough and honestly enforced.

AN EX-POPULIST CAUSES TROUBLE IN CONVENTION

Charles H. Jenkins of Brownwood Insists on a Declaration Against the Republican Plan of Asset Currency—Judge Reagan and Senator Bailey Endorse His Resolution and Platform Committee Accepts It

PARKER GETS THE INSTRUCTION

Platform Adopted Condemns the Roosevelt Administration and Invites All Voters to Join the Democracy in an Effort to Bring About His Defeat—There Was No Opposition to the Instruction for the New Yorker and Texas Will Support Him as Long as He Is Before the Convention

CONVENTION HALL, San Antonio, Texas, June 22.—Till a dispute over the advisability of adopting a platform declaration against an asset currency arose at noon today, it looked like there would not be a single dispute in the state democratic convention.

A PLATFORM SPLIT

Charles H. Jenkins of Brownwood, formerly one of the leading populists of the state, and two other members of the platform committee, filed a minority report against the republican plan of an asset currency.

Judge Reagan, amid wild cheers, declared that the views taken by the minority, while entirely right, had no place in the platform.

Senator Bailey made a speech in which he said he regretted that the controversy had arisen, but that the democrats must not shirk their duty and they could afford to vote down the Jenkins' resolution.

Chairman Joseph D. Sayers of the platform committee defended the omission of the majority report, and speeches were made by other prominent democrats.

The convention now in Chicago is scheduled to nominate him on Thursday but the indication is today that the night session which follows that of today will make the selection.

morning. Ladies visited the headquarters in the hotels with flowers or called to get autographs of statesmen or just see them from a distance. The turnout of carriages and automobiles is extraordinarily large. One session a day of the convention gives plenty of time for other arrangements and there will be several late breakfasting parties at the clubs. Most of the clubs have a visitors' list half as large as the membership. No one is in quite as much a hurry to go to the Coliseum as on Tuesday. It is a case in which every card holder got a seat yesterday and the care of the assistant sergeants at arms took to secure to every one his privileges, caused more leisurely progress toward the hall today. Besides that the doors opened half hour later, at 11 o'clock, instead of 10:30.

The decision of the convention to accept the invitation of the Louisiana Purchase Exposition Friday and Saturday has done much to stop a small movement looking toward a two days' convention. Senator Depew has arranged for three special trains for de-

THE PROTECTIVE TARIFF

We refused to falter longer with the miseries of Cuba. We fought a quick and victorious war with Spain. We set Cuba free, governed the island for three years and then gave it to the Cuban people with order restored, with ample revenues, with education and public health established, free from debt, and connected with the United States by wise provisions for our mutual interests.

We have organized the government of Porto Rico and its people now enjoy peace, freedom, order and prosperity. In the Philippines we have suppressed insurrection, established order, and given to life and property a security never known before.

We have organized civil government, made it effective and strong in administration and have conferred upon the people of the islands the largest civil liberty

They have ever enjoyed.

By our possession of the Philippines we were enabled to take prompt and effective action in the relief of the legations at Pekin, and a decisive part in preventing the partition and in preserving of the integrity of China.

MR. LODGE AND HIS STRONG-MAN ACT

Hon. Joseph G. Cannon of Illinois, speaker of the house of representatives in congress, selected as permanent chairman of the republican national convention at Chicago, who has refused to accept the nomination for vice president of the United States, it matters not in what way or under what circumstances it is tendered.

The question was a vexing one, and it became apparent that to avoid friction diplomacy would be required. The majority and minority reports were recommended after such arguments, and in a few minutes the views of the minority became the report of all the members. The second report was then adopted without division.

The platform adopted condemns the president and his administration and invites all voters to join with democracy in an effort to secure Roosevelt's defeat.

INSTRUCTIONS FOR PARKER

After the platform had been disposed of instructions for Judge Parker were carried overwhelmingly and the state's thirty-six votes will be cast for him till he is nominated or until his name is withdrawn.

DELEGATE ESTO ST. LOUIS

The delegates to the national convention were selected this morning as follows:

- First congressional district—B. F. Sherrill of Marlon, W. B. Henderson of Hopkins.
- Second congressional district—Geo. C. O'Brien of Jefferson, E. Blalock of Harrison.
- Third congressional district—J. C. Adams of Kaufman, R. F. Miller of Rusk.
- Fourth congressional district—G. H. Smith of Grayson, W. Bramlett of Fannin.
- Fifth congressional district—Charles Rasbury of Dallas, Richard Kimball of Bosque.
- Sixth congressional district—R. E. Nicks.
- Seventh congressional district—Ed F. Garvis of Galveston, C. W. Stevens of Liberty.
- Eighth congressional district—S. J.

DELEGATES AT LARGE

By a rising vote that was "unanimous" the convention nominated John H. Reagan as one of the delegates at large to the national convention. The vote to send the two senators was just as one sided and James B. Wells of Brownsville was made the fourth member of the big eight. For the other honors, Judges E. B. Perkins and Edward Gray of Dallas, Clarence Osley of Fort Worth, T. D. Cobbs of San Antonio, T. H. Bell of Houston, Howard Templeton of Sulphur Springs, R. N. Stafford of Mineola and T. S. Henderson of Milam county were nominated.

ADOPTS A PLATFORM

The state convention this afternoon adopted the platform. It congratulated the party on the excellent outlook for success and adherence to principles of Jeffersonian democracy, repudiates and denounces arbitrary action of President Roosevelt in usurping powers of congress and violating international law, condemns militarism and the Dingley bill, favors tariff for revenue only, urges economic expenditure of public moneys, hopes for harmony at St. Louis to overthrow the present executive.

Minority reports were adopted opposing asset currency and control of volume of money by national banks.

NEW GOODS

Interestingly Bargain Priced

"After all," remarked a tired shopper, "I have been all over town today and I find things cheaper here than anywhere."

That's the Kind of Bargain News That Travels

A woman's endorsement—do you wonder we stick to real bargains instead of trying to fool the people?

60—SKIRTS—60

Came Saturday—15 went Monday—never had a more popular skirt for street wear; pretty across the hips, hangs beautifully; has a snap and dash to it; have not heard a woman who has seen them but "speaks of them in admiration." New colors, all light trimmings and straps of cloth and buttons of same material—a \$5.00 Skirt for \$3.00 and \$3.50, with more style and value than you sometimes see in skirts for twice the price—a genuine Stripling bargain.

BIG LOT OF LAWN

New ones, too, selling at the price of shopworn; 25 pieces of 5c Lawn, Thursday for 3 1/2c; 15c new Lawns, Thursday 10c; 10c and 12 1/2c Lawns, Thursday 7 1/2c; 12 1/2c Dotted Swiss 10c; 12c Lace Stripe Lawns 8 1/2c; 10c Towels 7 1/2c

LADIES' HOSE

(Stripling priced), at prices that have made this the busiest counter in town.

20c Lace Hose, Thursday priced 15c; 35c Lace Hose, Thursday priced 25c; And here's one to be Thursday priced—a gauze hose, and you will say it's the best bargain you ever saw—as cool, but wears better than the lace—a hose that you can't buy for less than 25c; Thursday priced 17 1/2c; Boys' Hose—Bicycle, 20c value, 2 pair for 25c; Bicycle, 25c value, 1 pair for 20c; Infants—And they are never forgotten in this store. Black Hose, in dropstitch and plain 15c; Infants' Fancy Colored Hose 25c

THURSDAY CORSET BARGAIN

75c Corset with hose supporters on the side—just the same as the dollar corset 50c; Warner's Rust Proof—Just the thing these hot days; price 1.00; Girdles are another suggestion of good form combined with comfort (Warner's make) 50c

NECKWEAR

More to pick from here because most of them are samples at one-half off; so it is a chance for bargains with a big assortment to select from, in Persian and Bulgarian designs. Turnovers, singly and in sets; 75c ones for 35c; 50c ones for 25c; 35c ones for 15c; Collar Forms 5c; Girdle Forms 15c

THOUSANDS of SAMPLES MUSLIN UNDERWEAR

We must have the tables for skirts. Bargains that we intended to put in boxes in the shelves, but such popular bargains as these would take too many clerks to wait on trade. So come and have the delight of making your own selection from this—Fort Worth's Greatest Underwear Sale. Bargains that there are no two alike—where you save \$1.00 on every \$3.00 worth. Garments from \$7.75 values down to 25c ones.

\$7.50 Skirts, Gowns, Chemise or Drawers for \$5.00; \$6.00 Skirts, Gowns, Chemise or Drawers for \$4.00; \$5.25 Skirts, Gowns, Chemise or Drawers for \$3.50; \$4.50 Skirts, Gowns, Chemise or Drawers for \$3.00; \$3.00 Skirts, Gowns, Chemise or Drawers for \$2.00; \$2.25 Skirts, Gowns, Chemise or Drawers for \$1.25; \$1.50 Skirts, Gowns, Chemise or Drawers for \$1.00; \$1.00 Gowns, Chemise or Drawers for 65c; Below dollar values we place them all on one big table and mark them 25c and 50c

Bargain Table where you can pick out the best for your money.

THURSDAY BARGAINS

That need no telling about—bargains that every one of them speaks of its own bargain value, to women who know!

10c Cambrie for 7 1/2c; Peppercorn Sheeting 20c; \$1.25 Linoleum, 90c and \$1.00 per running yard; 15c Silkaline 10c; Brass Curtain Rods, 25c, 12 1/2c and 10c; 35c, 7-ft. plain Window Shades 25c; 50c 7-ft. fringed Window Shades 35c

STEP LIVELY—OXFORDS

Two and three straps—Keep company please—And they are doing it. This special pricing is the music that makes them go; guaranteed solid leather. Just think of Thursday pricing at \$1.00, \$1.25 and \$1.50 per pair—bargains you can't afford to miss.

Market Quotations

NORTH FORT WORTH, June 22—Receipts of cattle today decreased to less than half as large as the run yesterday. Steers were scarce and outside of one load of fairly well finished, the supply was common, thin stuff. The market today showed an improvement over yesterday, especially on heavy or a strong which changed hands early on a strong basis. As to common and medium steers, while there was a free movement toward the scales, prices were no better than steady with yesterday, salesmen deciding to take the medicine and cut loose early. Outside of one load topping the market at \$4.25, the bulk of sales landed around \$2.50.

There was a moderate supply of cows, the quality of which showed an improvement over yesterday. Demand enough from local packers and butchers to absorb all offerings and trading was active and steady. The general offerings in cows ranged around good medium and sales ranged between \$1.85 and \$2.25. The calf supply was fairly good, considering the light run, and trading was unchanged, the bulk going at a range of from \$2.50 to \$3.25.

With light supplies of hogs still coming and a strong demand, salesmen gained another advance of 10c today. The quality was good and packers cleared pens shortly after the market opened with a top of \$5.20 for 329-pound hogs and the bulk ranging from \$5 to \$5.15.

Today's Receipts: Cattle—1,500; Hogs—250; Sheep—250. Top Prices Today: Steers—\$4.25; Calves—\$3.50; Bulls—\$2.25; Hogs—\$5.20.

COUNTY ATTORNEY IS OUT AFTER GAMESTERS

The events of the past few days have demonstrated that the "id" was never securely fastened in the matter of gambling in Fort Worth. About two months ago the chief of police issued an edict to the effect that all gambling places should be closed without reservation, and the members of his entire force were lined up and explicitly instructed that arrests must follow wherever gaming was found. The "id" remained on for only a brief time—possibly a week—when gaming was again in full blast. Yesterday over thirty warrants were issued from the prosecuting attorney's office for the arrest of just that many violators of the gaming law. Up to noon today no arrests had been made, but during this afternoon the warrants will, in the main, have been served.

DENVER ROAD HAS REPORTS OF RAIN

Heavy rains fell during last night over much of the Panhandle country. The general offices of the Denver road this morning received advices that the rainfall at Clarendon was one-eighth of an inch; at Washburn one inch; at Amarillo two inches; at Dalhart two inches; Chaney, three inches, and at Texline two and one-half inches. Rain also fell at points not above mentioned extending from Washburn to Texline.

TRAINMEN HURT IN FREIGHT WRECK

AUSTIN, Texas, June 22—A fatal freight wreck occurred this morning at 5 o'clock on the Llano division of the Houston and Texas Central, thirteen miles west of Austin. The engine jumped the track, and Engineer Tom Rowney and Head Brakeman A. E. Perkins jumped while the engine was going thirty-five miles per hour, down grade. Clarke fell on a bridge and was fatally injured, while the other two received serious injuries, though not necessarily fatal. Clarke and the others were brought here for medical treatment. Clarke is now in a dying condition and can only live a few hours. Both arms were broken and his head and face terribly smashed. This is the same engine on which Engineer Fryer was injured last night near Kingsland, though not seriously injured. Fryer and a wrecking crew left for the scene. Clarke was married only four months and is 35 years old.

TARRANT CASES IN THE HIGHER COURT

HAS HIGH SERVICE OF ROMAN CHURCH

Daughter of Philadelphia Millionaire Is Wedded With Much Ceremony

FATHER IS A MARQUIS

Highest Priests of the Church in This Country Are Present on the Occasion

SPRING LAKE, N. J., June 22.—The marriage here today of Miss Margaret Maloney, daughter of Martin Maloney, a Philadelphia millionaire, and Carbery Ritchie, a young lawyer of Washington, D. C., was attended with official dignity and churchly splendor never before witnessed at an American wedding. The ceremony was performed by Archbishop Ryan of Philadelphia, assisted by Bishop McFall of Trenton, with their highnesses, Cardinal Gibbons of Baltimore and Satolli of Rome, witnessing, and Archbishop Farley of New York a guest.

Some years ago the father of the bride was created a marquis of the papal court in recognition of his generous gifts to the Roman Catholic church. It was in virtue of this title of nobility possessed by her father that Miss Maloney was permitted to have her wedding marked by the full Roman Catholic ceremonial, which is rarely performed even in Europe, and then only when crowned heads are the principals.

The scene of the wedding was the beautiful church of St. Catherine, a church built here by Mr. Maloney at a cost of half million dollars. The rather elaborate ceremonial and the participation of the high dignitaries of the church combined to make the function one of unusual note. At the same time there was a careful avoidance of ostentatious display such as has brought ridicule on more than one American wedding of late years. Simplicity characterized the floral decorations of the church, the musical program and even the gowns of the bride and her attendants.

Miss Helen Maloney was her sister's maid of honor, and the bridesmaids were Miss Madeline Shriver of Maryland; Miss Anna Cochrane of New York; Miss Maud L. McCahill of Washington, Mrs. T. Edwin Neu of Portsmouth, Va.; Miss Bertha Gibbs and Miss Margaretta Maloney of Philadelphia.

The best man was Abner Cloud Ritchie, and the ushers Graham Hume, Rawlins Hume and Clark Waggaman of Washington, Dr. S. Logan Owens of New Orleans, J. Walter and Lewis Aulerick of Philadelphia.

A special train brought the Philadelphia guests, several hundred in number, to Spring Lake. Other guests were in attendance from Baltimore, New York, Washington and several other cities. After the wedding ceremony at the church the bridal party and guests proceeded to the Maloney summer home, "Ballingarry," where a wedding breakfast and reception were given. The elaborate wedding at Spring Lake today has attracted national attention to a family little known heretofore outside of Philadelphia and Roman Catholic church circles. A few years ago, Martin Maloney, father of the bride of today, was a poor Irish lad who had emigrated to the new world in search of fortune if not fame. He attained his great fortune within a very short time by the invention of the "fish-tail burner" for electric lights. Subsequently he became a power in the electric and traction combination of Philadelphia and other cities.

When the agitation against religious orders broke out in France Mr. Maloney was in Europe. When the decree of expulsion was issued he is credited with purchasing and putting in his own name several French convents. One of them was the home of the sisters of

OLD-FASHIONED STOMACHACHE

Keep your stomach right and the chances are you will enjoy good health. Stomach troubles are easily cured if you know how. The great mistake people make is in trying to relieve Dyspepsia and Indigestion instead of curing them. Artificial pepsin and soda preparations simply assist in digestion.

Floyd's Dyspepsia Tablets DO CURE—they tone up the weakened organs—supply new life to the debilitated stomach and give perfect health through perfect digestion. The first tablet gives relief, and if after a reasonable length of time you are not positively cured we will return every cent you have spent for Floyd's Tablets. Two days' treatment will be sent free. 50 large tablets 50c, at druggists' or by mail.

show the truth of his story he named several of the performers at one of these theaters whom the surrounding officers knew to be so engaged. At the time of his arrest, he stated, he had stepped into the lavatory at the union station and was taken into custody upon leaving the room by the officers. He also complained bitterly of the fact that he had left his grip containing his lights and possessions in a restaurant near the station and feared that through his long detention they would be lost.

Yesterday morning at the close of the court he said as he was being taken back to the calaboose that he had not had an opportunity to be heard or to be called for trial, but at that time it was supposed he belonged with a party of Polish miners who were held over to get an interpreter as they were unable to speak more than a few words of English.

After the boy's release the matter was reported by Assistant Chief Allen to Night Captain Witche, who announced he would take up the matter with the officers.

FORT WORTH WINS GAME FROM PARIS

One of the Clever Plays Was a Throw Home by Wills in the Fifth Inning

Fort Worth won from Paris yesterday in a game devoid of any great excitement. Zook pitched an even steady game that kept the boys in blue guessing considerably. In the first inning it looked as if Paris was going to have much the better of it. Abrogast and Quieser getting safeties and scoring on a wild pitch. Sullivan got his starter in Fort Worth's half of the first, with his usual base on balls, was advanced to third by outs and came in on a wild pitch.

There was no change in the tally until the eighth when Sullivan singled, McMurray worked a bunt and made first on an error. Dunn hit to third and Sullivan and McMurray both scored on error of Tullar of Hubbard's hit to short.

One of the cleverest plays of the game was Wills' throw home, nipping a run in the fifth. Newman had reached first on wild throw of Hubbard, Zook went out to Jackson, and Deskin was hit by a pitched ball. Deskin in attempting to steal second was headed off by McMurray, who threw to Boles ahead of time. Deskin tried to return to first. Boles threw to Wills who made a feint of throwing to second. Newman was deceived and made for the plate, where Wills got him. The score:

THE FIRST DAY OF THE VOLKFEST
The opening is attended by a large crowd—Mayor T. J. Powell speaks

The first day of the German-American Volkfest, which began at Hermann park yesterday afternoon, and ended with a dance last night, was a great success. A large crowd began collecting in the park early in the afternoon, and by 6 o'clock in the evening the enclosure was packed to its fullest extent.

Last night, before the dance began, the lodge banner was unfurled and dedicated. Mayor Powell made a short address and 8-year-old Katie Wesenberg made a response.

Flower girls and living statues of Columbus and Germania, were also the features of the evening. Miss Freda Frank impersonated Columbus, while Germania was represented by Miss Lottie Schilder. Miss Alma Blum was flag sponsor.

Prisoner Complains of Being Deprived of Liberty Without a Chance to Answer and Is Released by Judge

After sitting in the prisoners' dock through two sessions of the police court with no case being filed against him, Robert Cates of St. Louis, a traveling contortionist, was released after the court had adjourned this morning by Judge Frewett and Assistant Chief of Police Ren.

from Cates that he did not intend to do any such thing. The court had adjourned this morning and the regular procession of prisoners from the dock to the calaboose was about to begin when Cates attracted Judge Frewett's attention and complained that he had been in the dock for two mornings without a hearing and protested against further detention without a chance to be heard. A reference to the arrest book showed that he had been taken into custody by Officers Hendrix and Thomas at 1:25 a. m., June 21. Neither officer was present at the time and Acting City Attorney Slay announced that he had no complaint against the boy. He was accordingly given his liberty. Cates stated that he was a contortionist by profession and that he came to this city last Saturday night expecting to do a turn at one of the local variety houses. As reference to

Good music was one of the best attractions of the entire affair, for besides Professor Mueller's orchestra, the Teutonia Club and the Switzer Men Corps rendered excellent vocal selections.

Compare with this the Louisiana Purchase exposition of 1904, with its 1,240-acre inclosure, its 128 acres of floor space in the exhibit buildings, its total roof-covered area of 300 acres, and its estimated cost of \$55,000,000.

But, as Secretary Stevens has said, "The immensity of the World's fair of 1904 is incidental and necessary to the execution of the motive, and this motive is life, motion, processes." It is the crowning achievement of years of labor, exploration and invention, and its like has never been known before.

It is equally true that "The Forest City" series of World's fair views, which forms a complete pictorial and descriptive history of the great event, is the most artistic and valuable publication ever offered to the American public on terms so easy as those we are making our readers.

These superb portfolios are being issued in thirty parts, one each week, and all that is necessary to secure any part desired to send, or bring, one of the little coupons printed in our columns from day to day, with ten cents to pay the cost of handling, wrapping, addressing and mailing.

It should be remembered that the cream of the immense collection of photographs secured by the official photographer of the exposition, are being reproduced in this series, and the accompanying descriptions are also the best, having been prepared by Walter B. Stevens, secretary of the exposition.

We hope that every reader will, at least, send in a coupon and a dime for one number—after they inspect a single portfolio we have no fear but that the remaining parts will be ordered regularly.

ALL READY FOR VISITING BRAVES

Preparations Have Been Completed for Fitting Observation of Red Men's Day

Tomorrow, Red Men's day, will be celebrated gloriously in this city by a big basket picnic and entertainment at Hermann park.

Mishawak tribe of Cleburne will attend the picnic in a body, arriving in this city at 10:55 a. m. on a special train over the Katy, and large delegations will also be present from Dallas, Gainesville, Thurber and Mineral Wells.

The exercises of the day will commence with the meeting of the Cleburne braves at the station. Headed by the Cleburne brass band, they will be escorted to the picnic grounds, where Mayor and Chief T. J. Powell will deliver a short address of welcome to the visitors.

At 12 o'clock dinner and the basket picnic will be taken up and at 1 p. m. the races will be taken up as follows:

- Fat men's race; girls' race (under sixteen); wheelbarrow race; married ladies' race; sack race; egg and spoon race; boys' race (under fifteen); potato race; Pocahontas race; young ladies' race (under sixteen).

At 2 o'clock the Cleburne band will entertain with a program of music and at 4 o'clock a program of songs and dances will be given.

Promptly at 7 p. m. all members of the order, of the degree of Pocahontas, and the Haymakers, will meet at the station and form a parade to Hermann park and wind up the day's festivities with a grand ball. To help entertain the visitors Armour & Co., Swift & Co., the Port Worth Stock Yards Company and the Texas Brewing Company have issued invitations to inspect their various plants.

Don't wait until September to make room reservations at the World's Fair, Phone 229, Cotton Belt office. No charge for service.

POLICE NEWS

Seven new cases were called in the police court this morning. One plea of guilty being entered and the remaining six being passed. Attorney Slay acted as city attorney in the absence of R. E. L. Roy, who is ill.

Of the old cases called the following disposition was made: Pleas of guilty..... 1 Passed..... 1 Fined..... 3 No service..... 3

NO INTERPRETER "Where ignorance is bliss it's folly to be wise."

Three Polish miners from Thurber found the truth of the above adage this morning when they were dismissed in the police court and the cases against them filed because they were ignorant of the English language and no interpreter could be found to act as a medium.

"Shall we warn them to get out of town before night?" queried Officer Speight, remembering the usual routine. "I don't see the use," said his honor, "they couldn't understand you if you did," and accordingly the three men went on their way, comprehending readily enough when told to go.

AMERICAN WRITER HAS BEEN INTO PORT ARTHUR

Correspondent of Indianapolis News Enters the Besieged City and Is Forced Out

INDIANAPOLIS, Ind., June 21.—The News today received from Hector Fuller, its special war correspondent, who effected an entrance into Port Arthur and was imprisoned five days, and then ordered from the fortress, a special cable dated at Chefoo today, in which he gives his experiences and observations while in the besieged fort as follows:

"After being powder crossed from Miautao Islands in an open boat by two Chinamen, I succeeded in landing at Louisa bay near Port Arthur and separated by a range of hills. The bay was occupied by a Russian flotilla of four torpedo boats, two destroyers and two cruisers. I landed at daybreak on the morning of June 10 without detection. With the full coming of the day I could see that every hill top near the shore was alive with soldiers busily engaged in strengthening the already formidable fortifications which accepted every point of vantage.

By keeping down on the narrow valleys which were free of soldiers I gradually made my way into the interior of the peninsula. In this way, after a day and night of persistent and cautious effort, I at last succeeded in reaching Port Arthur.

"After some hasty observations there the hazard of my position became so obvious that the same day, Saturday, June 11, I set out on my return to Louisa bay, but the good fortune which attended me the day before soon deserted me. I presently came in sight of a large body of Russian infantry, when I took refuge in a Chinese village, where I found a hiding place until the danger was over.

"I had not proceeded far from this village when I came upon a small party of Sappers. In order to avoid them I made a dash up a hill, only to run into another regiment engaged in digging entrenchments. Instantly I was surrounded.

A. B. Wharton has just returned from Dallas, and reports that automobile men there are highly incensed at Fort Worth's ordinance compelling all automobiles which pass along the thoroughfares of this city to be numbered.

"The machine men there are highly indignant," said Mr. Wharton this morning, "and as a body have refused to come to this city with their machines."

"In Dallas, where the number law is not enforced, conditions seem to be as good, if not better, than here, and as Dallas is certainly as large as Fort Worth the automobilist considers the Fort Worth law as a nuisance and an insult."

"I heard that the Dallas people were talking about conditions here," said Mr. Wharton, "and yesterday I went over to investigate. The automobilists there simply refuse to come to this city, where, as they say, they will be insulted and treated like criminals by the Fort Worth police force."

"A prominent automobile man of Dallas said: 'Here in Dallas we are sensible and are not forced to carry our machines labeled like milk wagons. The policemen here do not carry ropes with which to wag the machine owner. I expect the city government of Fort Worth will next pass a law compelling all automobilist to have their heads shaved and wear striped suits.'"

SOME SPEED CONTESTS It was announced in Dallas yesterday that automobile races will take place at the fair grounds in that city on July 4.

The gasoline men of this city, who have a desire for fast work will go over for the speed contests in order that all the laurels may not stay in Dallas. A. B. Wharton of this city has ordered a forty-horse power Columbia machine for the occasion and says he will not be last in the race any rate.

Lloyd Pollock, who has a reputation for speed, will also enter his Cadillac and several others have announced their intention of entering the races.

MUCH MONEY IN WILLIAMSON COUNTY

GEORGETOWN, Texas, June 22.—The reports to the comptroller of the currency at Washington show the six national banks of Williamson county have on deposit \$1,000,000 and the five private banks conservatively estimated to have \$500,000, making a total of mid-summer deposits \$1,500,000. The First National bank of Georgetown leads with deposits amounting to \$354,000.

Postmaster William P. Fleming, special examiner of rural mail carriers, examined twenty-four applicants for appointment as rural mail carriers on the contemplated new routes in Williamson county and forwarded the papers to Washington yesterday.

At New York the other day Judge Goff gave two ex-convicts nine years and six months each in prison for having held up and robbed a woman of 30 cents.

ATTORNEYS WANT A CHANGE OF DOCKET

ARDMORE, I. T., June 22.—At a meeting of the Ardmore Bar association in the offices of the president, A. Eddleman, this afternoon a committee was appointed to call on Judge Townsend and induce him if possible to change the setting of the court docket so that Ardmore will have a term of civil court during the fall. It was the sense of the meeting that the terms of court in the other towns of the district not be interfered with, but to change the Ardmore setting to give the relief desired. As the terms of court now stand civil suits filed now cannot be made returnable before the middle of March.

The question of a temporary city hall was brought up and the purchasing committee was instructed to investigate the price and rent of the old Fair building, Main street and ascertain if this building could be had for a reasonable rent and if so close a deal for it and if not consider other propositions.

Both street was reported to the council as being in a bad condition and needed to be graded and gravelled. The street and alley committee was instructed to look after the matter.

The purchasing committee was instructed to purchase a new safe for the city at a cost of \$75. The committee was instructed to have the safe hauled out to North Fort Worth at once.

THE CITY ASSESSMENTS City Tax Assessor and Collector H. A. Matholland reported to the council that a number of the larger corporations had not rendered an assessment although he had served notices upon them. He stated that until the present time only \$958,140 has been rendered. He was instructed to give tax payers until July 15 to make renditions and in cases where renditions were not made within that time to abide by assessments as made by him.

The collector and assessor was also instructed to collect taxes at the rate of 50 cents on 80 per cent of the true valuation of property and was given until October 1, to complete the tax rolls.

The triangle block of ground on Ellis and Central avenues was offered to the council by J. E. Bomar for \$1,000. The proposition was tabled on a question of ownership.

The publishing committee was instructed to see that all ordinances were re-numbered and published according to law.

FRISCO MAN TALKS OF WORLD'S FAIR

All Roads Are Busy But There Has Been Little Increase Because of the Big Show

D. B. Eldridge, traveling passenger agent for the Frisco in Denver, Colo. is in the city and will remain in Texas some time. Asked as to the extent of the passenger business among the western lines, as to whether the World's Fair has been the means of increasing travel or not, he replied that as yet there was no perceptible increase and he attributes the situation to the fact that the general public believe there will be a much cheaper round trip rate put on before the St. Louis show is at an end.

Regarding the situation, the Houston Chronicle says: Texas World's Fair lines have so far had no St. Louis rush and passenger department is disappointed over the showing up to date. June was expected to be a good month, but it must get a hustle on itself if anything like a satisfactory showing is to be made.

The past week has been the best of the season and has shown a notable increase. Inquiries are also growing daily and the indications point to heavy travel by the first of July. Texas people have a large variety of routes to select from and many travel on the best trains that have ever run out of Texas.

Good Stories of The Day

CLARK AND THE BOOK AGENT Senator W. A. Clark detects nothing more than to be interrupted when busy. One day he was in his office engaged in a business conversation when a little woman carrying a black bag entered. With a compelling smile and an insinuating manner she approached the surly millionaire. Utterly insensible to his repellent mood and indifferent to the depth of the bag a handsomely bound volume, the merits and beauties of which she began to eloquently decant upon.

"Well," he said, petulantly, "it's worth \$30 an hour!" He turned away with the air of one who had settled the matter definitely beyond any further controversy. But he didn't know the woman.

Bright's Disease and Diabetes News

1737 Broadway, San Francisco, Feb. 27, 1904. To the Church Women of Fort Worth. It is so hard for people to believe that Bright's Disease and Diabetes are now curable that I am asked to permit reference to my own case. I shrink from it but there are too many dying to remain silent. To be brief I had both Bright's Disease and Diabetes for over five years. Usual Dropsy, nails came off, and the case was so hopeless that the physicians told us there was no need to diet and to give me anything I craved. I heard that people were being cured in this city and procured the treatment. In a few months the nails came back, dropsy disappeared and in a year I was well. To show how well, will say that several years after my recovery I had a good capital operation at the Waldeck Sanitarium in the presence of six physicians. Many friends, including Dr. Markell of Cloverdale and Judge E. B. Cutler of Pine street, are fully cognizant of my recovery from Bright's Disease and Diabetes. In fact Judge Cutler is himself now recovering from Diabetes under the same treatment. Let the cure be proclaimed to the world.

attention while I talk to you about this book." Clark pushed back the money and subscribed and paid for two copies of the book.

LATEST STORY OF WHISTLER Miss Corkran, a painter, says of Whistler: "I remember meeting him at a mutual friend's. He inquired how I was getting on with my painting. I told him that Leighton had remarked that I did not finish enough. "Oh!" retorted Whistler, fixing his eyes on me, his white hair erect like a feather. Then, making a queer sound, something between a grunt and a jeer, he remarked: "You ought to have answered by retorting, 'Why did you ever begin?'" It was so quaintly uttered that I laughed. He reminded me then of a picture of Lucifer I had seen."

A DEBTOR'S TIGER A. Mervyn Smith says in his recently published book, "Snakes and Humans are strange pets, but strangest of all is a full-grown tiger, and such a pet had Major Mansell-Pleydell. It used to be chained up just in front of the door of his bungalow. The major had a method of running up bills with local tradesmen, but there was great difficulty in getting payment, as none of the bill collectors was venturesome enough to cross the guardian at the door. It was a great joke of the major's when asked to pay his bill to reply: 'Have you sent your bill? Your man has never presented it at my house.' "Brutus, as the tiger was named, seemed to know what was required of him. When chained before his master's door he would lie with his head between his forepaws and watch the gate. If a stranger entered he would lift his head and breathe heavily, and this was enough to scare the most venturesome of bill collectors."

OPENING EVENTS OF NATIONAL SHOOT

INDIANAPOLIS, Ind., June 21.—Three hundred guns faced the targets today in the opening events of the national shoot preliminary to the Grand American handicap Thursday. There were ten series of twenty targets at unknown angles, and all shooting from the sixteen-yard line. Each purse approximately \$400. For the Grand American handicap a book has been made with over 300 entries, odds ranging from 10 to 150 to 1. The favorites are Fred Gilbert of Spirit Lake, Iowa, and W. R. Crosby of O Fallon, Ill., the only scratch men who will shoot from the twenty-two-yard line. Of the three women entered, Mrs. Burr is 250 to 1, Mrs. Bennett and Mrs. Burroughs are each 300 to 1. The weather is cloudy.

AS TO FISH IMPORTATIONS

NEW YORK, June 21.—A decision of much interest to importers of fish has been handed down by the board of United States general appraisers. It is in favor of the importers. Fish imported in brine are dutiable by weight at the rate of half a cent a pound. About six months ago the general appraisers ruled that the brine surrounding the fish must be included in the dutiable weight. The board now explains that its former decision must be interpreted to mean that only the brine adhering to the fish after they have been drained shall be included in dutiable weight.

LONG SPEAKS OF MCKINLEY

CHICAGO, June 21.—John D. Long, former secretary of the navy, has been the guest of honor and the principal speaker at the Bunker Hill day banquet of the New England Society. Mr. Long paid a glowing tribute to President McKinley giving him the credit for the inauguration of the administration's colonial policy, and declared his serious views regarding the responsibility of the head of the government to all the people, irrespective of class or affiliations.

A BIG CELEBRATION

ANNAPOLIS, Nova Scotia, June 21.—The celebration of the three hundredth anniversary of the landing of St. Louis de Monts (June 21, 1604) in this country, where he founded the first European colony in British North America, and the second on the continent, was begun here today, the first event on the program being an international military demonstration in the old French fort in which sailors from French and United States warships took part with the British tars and the local militia.

OPPOSITION TO THE OPEN SHOP

NEW YORK, June 21.—A strike of 50,000 persons centered here in the clothing trades has been called to take effect at once. Most of the tailors involved are employed by middlemen or contractors. Strikes of similar character are an annual fixture among the local garment workers, but the present one involves opposition to the "open shop" declaration of the manufacturers' national association.

NEW YORK, June 21.—The biennial convention of the Woodworkers' International Union is in session here, attended by 150 delegates from unions in sixty-five cities, with a total membership of 35,000. Only routine business has thus far come up.

Doctors Say Drink More Schlitz

The body requires ten glasses of fluid per day. Most people drink too little to flush the body of its waste. The result is bad blood, nervousness, disease.

Then the doctor says "Drink More;" and he knows this advice to be worth more than medicine.

That's one reason why pure beer is good for you. It leads you to drink more. And the beer is also a food and a tonic. But the beer must be pure. Schlitz beer is brewed in absolute cleanliness and cooled in filtered air. It is aged for months so it will not cause biliousness.

That's why doctors say "Schlitz." Ask for the Brewery Bottling.

UNLUCKY THIRTEEN RODE WITH KATY Expert Figures Why the Train Went Into the Ditch on Its Initial Trip

The expert on mathematics and superstition in the office of The Telegram has figured out that the Katy fair special was the victim of the unlucky thirteen. It will be remembered that in The Telegram yesterday was a report of the wrecking of the Katy World's Fair special at Muskogee, on its initial trip. The expert figures this way: The locomotive pulling the train was No. 312, and three cars went into the ditch. One was No. 751, the numerals being added together making 13, another was 742, a similar addition giving 13, the third 562, the addition giving 13. The sleepers in the train were named and numbered, and they remained on the track.

RAILROAD NEWS

RAILROAD RETRENCHMENT

Observers of the present commercial and industrial situation are beginning to suggest that too much is being made of the apparent depression in railroad traffic. It is conceded that general commercial interests have been affected to a marked degree by the heavy reduction in expenditures of the railroad companies generally throughout the country. At the same time the loss is a comparative one, the comparison being made with a period of phenomenal prosperity and activity.

The increase in the cost of operating the railroads since 1898 has, it is said, been from \$139,000,000 to \$300,000,000 a year, so there is still room for further lessening of outlays before the figures of six years ago are reached.

CALIFORNIA CONTRACT LET

Information has been learned here that S. Pearson & Son and two other large contracting firms, have received the contract for constructing the Transandinian railroad in Chili, the award having recently been made by the Chilean government.

The aggregate value of the contract as now let is \$7,500,000, but it is further said that the Chilean government intends ultimately to expend two or three times that amount on the railway that is to be constructed.

WANT TO KEEP HEADQUARTERS

The citizens have remonstrated against the move of the International to locate general offices in Mexico City. They are at present in C. P. Diaz, President Diaz has been asked to intercede and prevent their removal. The matter is now being considered by the head of the republic of Mexico.

CROP CONDITION GOOD

J. H. Searle, traveling freight agent for the Gould lines, located in Mexico, has just made a trip over Northern Mexico and says he found crop conditions looking well along the Central road. He says that the early rains in that part of Mexico have helped the planters beyond computation. Mr. Searle reports that the railroads in the republic are doing a good business but look for better times later on when the crops are harvested.

OUTING IS PROVIDED FOR

The Denver Road, in order to give people along the line an opportunity to visit Fort Worth and enjoy spending a day at beautiful Lake Erie, has announced the sale of cheap tickets for the train due to reach here at 7:25 Sunday morning, June 26. From Ames, Hills the round trip rate has been placed at \$5. Clarence, \$4.20; Childress, \$3.30; Vernon, \$2.45; Iowa Park, \$1.90; Bowie, \$1; Decatur, Alford and Rhome, \$1. A low round trip rate has also been

made for all towns on the line as far as Amarillo. The train will leave here returning at 10, giving the excursionists all day to visit the different places of interest in and about the city.

THE FARMERS' CONGRESS

The Houston and Texas Central railroad company will on July 4 and 5 sell tickets for trains arriving at College Station on the morning of July 6, at \$2.25 for the round trip, the occasion being the annual meeting of the Farmers' Congress, July 5 to 8. It is claimed it will be the most important assemblage in the agricultural interests of the state in the history of Texas. Authorities of national repute will address the farmers on this occasion.

The Central has put on a cheap rate for the twenty-second annual convocation of the Ancient Order of Pilgrims to be held at Bryan, July 5 to 10.

TARRANT COUNTY CROPS

The latest reports from the cotton districts of this county show that the plant is in excellent condition, and with continued favorable weather the crop will be large. It is estimated by those in position to know, among them F. G. McPeak, that the increase in acreage in this section of the state will vary from 8 to 10 per cent over last year. Some place the increase much larger, but conservative cotton dealers say that between 8 and 10 per cent will come very near to the actual increase acreage in this country.

Nearly all the seed used this season has been native seed, and the planting as compared with last year is about five to six weeks late.

Up to the present time no damage has been done in this county by boll weevil. There are a few here, but thus far reports show the crop unharmed by them. It is believed, however, that the weevil will do some damage before the close of the season.

The very favorable weather during the past few weeks in this part of North Texas has done much to progress the plant, and as a consequence the general condition of cotton is first-class and could not well be any better.

THE FENCIBLES TO VISIT ST. LOUIS

The sum of \$275 has been sent to Adjutant General Hulien by the local committee which raised the money for the use of the Fencibles on their trip to the World's Fair. The list of donors has been previously printed in The Telegram. The letter forwarded to General Hulien reads as follows:

Fort Worth, Texas, June 21.—General John A. Hulien, Adjutant General, Austin, Texas: Sir—We take pleasure in handing you herewith Austin exchange for \$275, the same being the amount raised by the citizens of Fort Worth for the assistance of the Fort Worth Fencibles while attending the World's Fair in July. We assure you that Fort Worth is always ready and willing to do what it can to assist in advancing anything that is for the good of Texas.

Respectfully,
 JAKE WASHNER,
 GEORGE T. WEST,
 R. H. BECKHAM,
 Committee.

THE WIRELESS IS COMING TO TEXAS

F. G. McPeak Discusses the Use of the New System of Telegraphy

F. G. McPeak, who was recently made Western superintendent of the Forest Wireless Company, said this morning that the work would be commenced in Texas just as soon as the company could conclude preliminaries. Some days ago The Telegram published a story of the coming of Texas of the wireless system of telegraphy, but since that time several changes have been suggested in the details to be followed out in this state by the company. At the present time Mr. McPeak says he is not at liberty to divulge them, but that no radical change is contemplated.

He says that the system is daily growing in favor in the United States for commercial business, and that the day is coming when all the important cities in Texas and the south will be connected up by these stations.

In St. Louis the Post-Dispatch and Star are using the system for receiving reports from the World's Fair grounds, four miles away.

The company is having more than it can do to supply the plants needed in various parts of the country, and because of this rush it is more than likely that work on the system in Texas will be unavoidably delayed. However, Mr. McPeak believes that he will be able to get the system working between most of the larger cities in this and other southern states within the next two years. It is hoped to have the system partially under way in Texas as early as six months.

ALE BREWERY CLOSED

NEW YORK, June 22.—One of the oldest ale breweries in New York has closed out of business, owing to competition from the makers of ale beer. The brewery was opened more than a half century ago.

Decline in immigration from England, Ireland and Scotland is said to have caused a steady decline in the demand for ale and its place has been gradually taken by beer.

THE LAST WILL OF MRS. SARAH C. BALL

IS DATED LAST JANUARY

Full Details of the Disposition of Big Estate Left by the Prominent Woman

Last Saturday The Telegram published a portion of the will of Mrs. Sarah C. Ball, which stated the bequest to several churches and institutions here and in Galveston. This was a statement which was given out by the administrator of the will filed with the county clerk, and although it was a public document to which the public has access, it is believed that the public has not had an opportunity to get all the provisions of the will.

The last will of the late Mrs. Sarah C. Ball was dated in this city Jan. 22, 1902. By its provisions all of the household goods, silverware, works of art, carpets, rugs, furniture, and household effects, including jewelry and tableware, were bequeathed to the daughter of the deceased, Mrs. Nellie B. League.

It is recited in the second section that the husband of the deceased, George Ball, died in his last will bequeathed to Mrs. Lucetta Armstrong, widow of R. S. Armstrong, during the term of her natural life, half the income of certain property described in the George Ball will (the remaining half of the said income being therein bequeathed to Mrs. Nellie B. League, widow of T. J. League, and, whereas, on the death of Mrs. Lucetta Armstrong, the Ball estate would become the absolute owner of one-half of the effects and property, the income of which will have thereafter been payable to Mrs. Lucetta Armstrong, deceased, and her sister, Mrs. C. P. Root, equal interests in 5 and 4 per cent bonds of \$1,000 each of the Galveston Gas company, the understanding being that Mrs. Armstrong is now entitled during her life to the income of the said bonds, and the bequest is made subject to this provision. Five thousand dollars 6 per cent bonds of the Texas Land and Loan company of Galveston are also given to Mrs. Root and Mr. Perry, with like provisions to the gas company bonds.

Item four of the will bequeaths to Mrs. Root and Mr. Perry \$5,000 6 per cent Galveston Gas company bonds, the income of which was bequeathed to Mrs. Armstrong and Mrs. League. By clause five of the will, subject to conditions named in like bequests in item three, the bequests of \$25,000 to the Fort Worth Broadway Presbyterian church, of \$10,000 to the First Presbyterian church of Galveston, of \$15,000 to the Galveston Orphans' home, of \$15,000 to the Letitia Rosenberg Home for Old Women, of \$75,000 for missions, of \$75,000 for the Austin Presbyterian Theological seminary, of \$10,000 to the Young Men's Christian association of Galveston, are given as endowment funds to the respective boards of trustees, the principal to be invested by them for the benefit of the respective institutions, the interest to be used by the trustees as thought best. The income of the investment for the Ball High school is to be used in keeping the school building and grounds in order and repair. The bequest for missions provided that the \$75,000 be given to the board of trustees of the general assembly of the Southern Presbyterian church as an endowment fund, to be distributed as follows: Twenty-five thousand dollars to go to the board of trustees and to the executive committee of the board of foreign missions, \$25,000 to be paid by the board of trustees of the general assembly to the executive committee of the board of trustees of the general assembly of the board of trustees as an endowment. In case of mergers, the benefit of the bequest is to be applied to the institution in which it will have been merged. In the event of all institutions ceasing to exist, then the fund is to revert to the estate.

Five hundred dollars is bequeathed respectively to Mrs. Fannie Griffith and Missie Fisher. The residue of all the property real, personal or mixed, is given to Mrs. Nellie B. League, daughter, and Mrs. Waters S. Davis, granddaughter, respectively. Mrs. League receiving two-thirds and Mrs. Davis one-third. The executors are invested with the power to sell the real estate and distribute the proceeds in the proportions named between the two devisees.

The executors, including J. C. League and Waters S. Davis of Galveston and A. A. Alexander of New York City, are to receive \$5,000 as compensation for their services. This sum, however, is not to include reasonable attorney's fees and broker's commissions. It was the desire of the testatrix that the administration be concluded within one year. Mrs. Waters S. Davis of Galveston was, in compliance with the wish of her deceased husband, appointed as her successor as trustee in the Ball charity fund.

A codicil was filed to the will and dated April 15, 1902. It provides that, since the execution of the will, Jan. 22, 1902, testatrix had made to the board of trustees of the Austin Presbyterian Theological seminary a gift of \$75,000, and this bequest was included in the wording of the bequests as endowments to the churches is as follows:

"I hereby will and bequeath, as an endowment fund, the sum of \$ — to the board of trustees of the — and to its successors, the principal of said sum shall be invested and reinvested, if deemed advisable, and shall be kept invested by said board or its successors for the benefit of said —, and the income thereof shall be applied by said board or its successors as it or they may deem best to the use, behoof and maintenance of said church, and my executors are hereby instructed and directed to pay said sum as quickly as possible after their qualification to the said board, to be used as here indicated."

The Russian population represents 110 nationalities, the three great stocks being, Finns, Tartars and Slavs, and Gerome's famous statue, "The Eagle of Waterloo," will be unveiled on the field of Waterloo on the anniversary of the battle, June 18.

MEDICAL LAWS OF THE TERRITORY

Physician Insists on Most Rigid Examination Being Required of Practitioners

PROTECT THE PEOPLE

Not in Sympathy With Movement to Have the Laws Made More Liberal

MUSKOGEE, I. T., June 22.—There has been a circular sent over the Indian Territory, signed by the Southwestern Medical association, calling a meeting to be held in the near future, for the purpose of protesting against the law recently enacted by congress, in regard to the medical profession in the Indian Territory, and the following letter will be of interest:

WETUMKA, I. T., June 18, 1904.—Dr. C. F. Lahn, Adm. L. T.: Sir—In answer to a circular letter signed by yourself as secretary of the Southwestern Medical association I confess to have never heard before of the proposed project that an open revolt should be made to the same so that the people of the Indian Territory be brought to a knowledge of the disgraceful status of medical affairs in this country. In order to be fair, I have always been my policy to encourage a high standard of medical education, believing that it was to the interests of the masses of the people that our physicians should be educated men, and capable of dealing with the intricate problems that present themselves in the sick room, for you will certainly admit that any sick person, and especially the ignorant child who is incapable in making a choice should be protected by a law that would demand that one who would practice so sacred a calling should be proficient and capable in medical knowledge before assuming such grave responsibilities.

The ordinary layman does not know how to judge a physician, and it is not his duty to take an uneducated physician to be able to pass such regulations, hence the law should require every physician to be competent, so that when one sends for a physician he can have the assurance that he can not fail to get one, of at least fair qualifications. That is reasonable, is it not?

You say there are a great many practitioners who are making an honest and honorable effort to further educate themselves and become graduates in medicine, etc. I would certainly think it dishonorable for a lot of medical students, by the above paragraph, to demand that while you are studying for your profession the public be put at your service as material to be experimented upon in your student days, and especially you be allowed to charge for your experience. It is customary, as all medical students well know, to not charge the patient who is being utilized in teaching the student.

You say this law will cripple them in their plans for good advancement in the State of New York, Pennsylvania, Missouri and other great states, cripple the profession? Their doctors are among the very best in the world, yet even a diploma does not grant a doctor the right to practice on the sick, but one who has a dozen diplomas, he is still compelled to go before a state board of examiners and pass a rigid examination. Arkansas and Texas have the same laws and do you mean to tell the public that progress is stifled in those states? I answer a thousand times no. It has elevated the profession of medicine in those states more in one year than would have been possible in ten, or even twenty, without such laws.

You complain of the hardship of the law on those who are compelled to quit school before completing their education. That of course is unfortunate and extends the pity of all institutions, but it is remedied by lowering the standard of medical education at the expense of the lives of half a million innocent people simply to benefit a handful of medical students, and some of these, the kind who never intend to complete their education, but continue to prey upon the public year after year, while the public has no recourse?

You seem to dwell with emphasis on what you term the successful practitioner. Ever one knows that some of the greatest successes that were ever known were failures and humblers. Such so-called successes are achieved by deception. It is common knowledge that some of the most palatial medical fronts and banks the world has ever known have amassed fortunes. They did so by swindering and many lives among their deceived victims. These facts are certainly a sad commentary on some of the phases of our civilization, and should cause every one to work with renewed energy in upholding our new medical law.

You speak of the probability of this law creating a medical monopoly. God forbid that the character of medical men ever becomes so low as to form a mercenary combination against the sick and afflicted. I have been more or less associated with the better element of the Indian Territory medical profession for fifteen years, and I wish to say now that a more high minded, self sacrificing set of men exists nowhere on earth than the mass of qualified physicians of this territory. They have never contemplated it would be impossible, for it is well known that the Indian Territory is full of overflocking with competent doctors. They are as thick as flies. Besides this country having heretofore been the dumping ground of every species of quack, but the sun, which was run out of his own state by the law's enforcement. We have also been the recipient of that surplus, new graduates from the colleges of the older states, who are always going to dig up with the country. Law, they never find the west they are seeking, for like the elusive pot of gold at the

end of the rainbow, it is still a little beyond.

In conclusion I wish to say that it would be regrettable, indeed, if the law we now have is made inoperative by a few men who have not the qualifications to entitle them to practice medicine. I say it would be regrettable to the masses of the people of the Indian Territory, for surely they have as much right as any people to demand that their physicians be qualified, and it is the duty of new medical boards appointed by the different district judges and held in the enforcement, and not the obstruction of the law. It is the people that enforce the law, for by your moral force you are the law itself.

Personally, I have nothing whatever against you, "Dr. Lahn," or any of your adherents, for I do not even know you and certainly do not wish to do you any harm; but I believe it a duty to inform the public of the efforts that are being made in the interests of the public individuals at the expense of the public.

I am yours very respectfully,
 V. BEIRRY, M. D.

E. Burge of This City Has Investigated the Mining Proposition There

E. Burge of Fort Worth, one of the local men interested in the mines in the Wichita mountains, has just returned from making a personal investigation of the ore covering a period of about three months. Mr. Burge comes back with more enthusiasm than he had when he left for the district, for he admits he has been thoroughly convinced of the existence in the Wichitas of rich gold ores.

He says the accessibility of the ores is the main feature why the district is bound to be a great mining camp. Good pay ore running from \$10 to \$36 to the ton is being taken from the ground at a depth of not to exceed forty feet. He says that it is exposed that better and more is being taken from the Wichita mountain mines at the depth of forty feet than was taken from the famous Leadville mines 200 feet deep.

The miners in Oklahoma are now fairly starting in to make of "Camp Roosevelt," one of the greatest gold producing districts in the country. "It is true miners have been located there some time, but until recently they met many obstacles thrown in their way by discouraging government and other reports that no precious metals could be found in the Wichitas, but the practical miners took no stock in these supposed official government reports, and continued to hold their locations made under the mining law of the country. In the meantime, every-

INCREASE IN THE WORLD'S FAIR TRAVEL

During the past few days there has been a perceptible increase in World's Fair business by the railroads out of Fort Worth, and if the increase continues it will tax the railroads for equipments to accommodate the people who will go to St. Louis from Texas.

"It is getting to be a problem for the Cotton Belt to furnish sleeping car reservations for people going to the fair," said City Passenger Agent John M. Adams this morning, when he made the statement that the Cotton Belt will be forced to put on another sleeper before another month rolls around.

ALTERATION WITH A KNIFE

ATLANTA, Ga., June 21.—Messrs. J. R. Powell and L. B. Ivey, of near Lawn, this county, had a difficulty today in which the latter was cut with a knife in three places. One wound extended from the spine forward on left side, exposing the left kidney. A physician from this city was called, who hopes for a recovery. Mr. Powell came to town and reported the affair to the county attorney and was placed under a \$250 bond, while a warrant was issued for Mr. Ivey, to be served if his condition permits.

CREEK FUNDS ARE TO BE PAID

Department Has Ordered New Pay Roll, Secretary Hitchcock Being Turned Down

MUSKOGEE, I. T., June 21.—The following decision in regard to the payment of the loyal Creek funds, which was held up a short time ago, and the resumption of which has been anxiously awaited, was received here today, and will be of great interest to all the citizens of the Creek Nation.

The department has ordered a new payroll on which the heirs of a claimant dying on or after said date, his heirs are designated distributees according to the laws of Arkansas, in force in the Indian Territory.

The long delay in adjusting the hitch was explained today as due to differences of opinion entertained by Attorney General Knox and the comptroller's office regarding the laws governing the premises. According to the treasury department's former decisions, Agent Shoemaker will not be responsible for the money he has so far distributed to the Creek Indians not entitled to the probably too large sums which they have already received. As the money was paid out according to the regulations drawn up by Secretary Hitchcock, the interior department alone is responsible.

It is understood here that congressional action will be urged early this fall for the rescue of Secretary Hitchcock.

TEN PIN ALLEY LICENSE

AUSTIN, Texas, June 21.—State Revenue Agent F. S. Bell directs attention of tax collectors of the state to the fact that it is, and has been the ruling of his and other departments, that every ten pin track, with its pins and balls, constitutes a ten pin alley in contemplation of the law, notwithstanding more than one track may be under the same roof.

BAVARIAN PRINCESS TO VISIT THE FAIR

NEW YORK, June 22.—Two royal princes of Bavaria have arrived here to visit the St. Louis exposition and make a tour of the United States. They are Princes George and Conrad, sons of Prince Leopold, who is a first cousin to the king. Prince George is a lieutenant of guards and Prince Conrad a lieutenant in the Seventh Bavarian regiment of infantry.

The young princes are accompanied by Baron Wilhelm von Reitzenstein, who is adjutant to their father.

One of the results of the recent Anglo-French agreement is a renewal of the scheme for tunneling the channel between France and England. The London and Paris Chambers of Commerce are leading in the matter. It is nearly fifty years since the tunnel project was first put upon a practical basis of experiment, but since then the original estimate of cost has been reduced from \$50,000,000 to \$20,000,000.

withdrawn. Senator Dooliver will present the name of Fairbanks to the convention. With the platform completed and in the hands of the full committee every element of speculation seems removed from the remaining session of the convention.

The members of the Colorado delegation said that following the action of the Illinois delegation they would not present the name of John Springer as a vice presidential candidate.

CONVENTION HALL, Chicago, June 22.—Although the doors of the hall were opened a half hour later than yesterday, for the first 25 minutes after 11 o'clock the band played to a sprinkling of gallery spectators only.

A sea of brown-backed chairs in the gallery and mezzanine was broken only by an occasional dot of black or the bright spot of a woman's gown. Groups of sergeants at arms stood idly about and in the delegates' section a half dozen men leaned back and read the morning papers.

The huge portrait of President Roosevelt that had served to present a tableau by its dramatic unveiling during Mr. Root's speech yesterday, was placed on an easel at the right of the platform. Otherwise the decorations were unchanged.

By a quarter to 12 o'clock not more than 100 delegates were in their seats and not a single national figure had made his appearance.

Former Governor Black came in quietly and reached his seat on the platform without being observed. It was just noon when Mr. Root went to the platform. Screened by the committee officials and others he was not seen by the crowd.

The hum of conversation as the Coliseum gradually filled had not been broken by enthusiasm of any character. For some time the aisles in the pit were crowded with standing delegates, only a portion of their seats being occupied when, just at noon, the two New York senators and Governor Odell threaded their way down the center aisle.

A cheer went up and the galleries facing the main entrance began to applaud. This had hardly died out when the tall figure of Senator Fairbanks was caught sight of in the Indiana delegation reservation the ovation was renewed.

dial applause when it was pronounced by Senator McComas.

The statement of the committee giving its reasons for its decision on the Wisconsin case was heard in complete silence, the convention showing intense interest in the report in this particular.

Your committee on credentials submits the following report in the matter of seating contested delegates: They met immediately after the adjournment of the session of the convention on Tuesday and organized for the selection of officers.

Permanent Chairman Cannon then assumed the gavel. There was much applause following the speech of Chairman Cannon's speech was given close attention, punctuated by applause. He said: The republican party was born with the declaration that slavery was sectional and local, and that freedom was national.

It was a contest for firmness, for the republicans of the world were divided into two camps. One was the camp of the free laborer, and the other was the camp of the manufacturer.

At 12:27 o'clock Temporary Chairman Root rapped for order, directing the delegates to take their seats and ordering the aisles cleared.

At 12:27 o'clock Temporary Chairman Root rapped for order, directing the delegates to take their seats and ordering the aisles cleared.

Senator McComas, chairman of the committee on credentials, rose from his seat in the Michigan delegation and said: "Mr. Chairman, the committee on credentials has instructed me to read the report, which is now ready."

The gentleman will please take the platform," said the chairman, and Senator McComas, mounting the rostrum proceeded to read the report.

Since 1860 the rates of postage have been practically reduced more than one-half. In 1860, the year that the republican party first came into power, the revenues of the postoffice department were in round numbers eight and one-half millions of dollars, while the expenditures were nineteen millions—a deficit of one and one-fourth times as great as the income.

THE WOLVES WOULD PROTECT THE SHEEP For more than sixty years the democratic party has denounced protection as robbery, and their cry has been, "A tariff for revenue only."

COMPETITION THE GREAT TRUST-BUSTER The trustbuster who always "busts" the trusts by word but never by action, would lead the people to believe that all the production of the country is under the direction of unlawful combinations.

THE PLIGHT OF ANARCHY AND THE BLESSING OF PATRIOTISM The last work of a republican national convention, held at Philadelphia in the year 1860, was the adoption of a platform by the American people, and the remarkably successful administration of President McKinley was continued; but an hour of universal peace when patriotism was still in the air.

NO MAN ABOVE THE LAW The republican party, ever ready to keep pace with the industrial development of the country has enacted legislation such as the constitution, prohibiting such combinations as President Roosevelt, our president, and our president to be, has kept his oath to see to it that the laws are executed.

PROGRESS MEASURED BY POSTOFFICE The republican party, ever ready to keep pace with the industrial development of the country has enacted legislation such as the constitution, prohibiting such combinations as President Roosevelt, our president, and our president to be, has kept his oath to see to it that the laws are executed.

Let us make our nominations in order and appeal to the people of the country for a renewal of power to the republican party, standing by our policies, ready to legislate where legislation would be productive of more good than evil from the economic standpoint but refusing to legislate and lose the substance of success in a vain effort to secure the shadow that abeth not, and satisfyeth not either the intellectual nor material existence.

THE PLATFORM (Continued from page 1.)

veit brought to the great responsibilities thus sadly forced upon him, a clear head, brave heart and an earnest patriotism and high public ideals of duty and public service.

THE FOREIGN POLICY Our foreign policy under his administration has not only been able, vigorous and dignified, but it has also been successful. The complicated questions which arose in Venezuela were settled in such a way by President Roosevelt that the Monroe doctrine was significantly vindicated and the cause of peace and arbitration greatly advanced.

FRANK B. STANLEY BACK FROM CHICAGO

He Reports the Seating of the Lon Barkley Delegation From This District

Hon. Frank B. Stanley of this city has returned from Chicago, where he went to go before the executive committee of the national republican party in the interest of his party in Texas.

He spent a week in Chicago mixing with the great leaders of the party and learning from them the general status of the political situation.

Judge Stanley says that there exists no uncertainty among the leaders of the party over the results of the coming campaign. He says that it is practically settled that Roosevelt and Fairbanks will constitute the ticket and that the nominations will probably not be made before tomorrow. This was the date settled on before Judge Stanley left Chicago for Texas.

Judge Stanley says that the committee sat down on the Lily Whites from Louisiana and seated a "mixed delegation."

Speaking of the convention, Judge Stanley said there was very little enthusiasm shown in Chicago and things were moving along as a matter of fact.

THE WARDE FAMILY NEW YORK, June 22.—At a meeting here of the Association of Descendants of Andrew Warde (prominent in the early history of Connecticut) it has been decided to erect a memorial to the founder of the family in America, at Fairfield, Conn. Many prominent persons are connected with the association, of which Edward Trumbull Warde of Santa Barbara, Cal., is president and General Joseph Wheeler, one of the organizers. Papers were read tracing the family's connection to an early date in the twelfth century.

ANY OF FACULTY IS TO RESPOND TO AN EMERGENCY

Ladies Explain What to Do in Case an Injured Person Is Taken to Hospital Room

W. W. Parish, living at 1414 East Third street, was severely injured last night by being run over by a car on the Santa Fe railroad between Ninth and Twelfth streets, having his right arm completely severed near the elbow. Parish was taken at once to the emergency hospital, where a delay of almost an hour occurred before a physician could be summoned to attend his injuries. Dr. J. H. McLean, who tendered his services in a case of the night before, was finally called upon and treated the injured man. He was assisted by Dr. Lyman A. Barber. This morning the injured man was resting easily. Both Mrs. W. A. Davies, president of the ladies' organization founding the emergency hospital, and Mrs. J. D. Covert, who was one of the most active workers in securing its establishment, stated this morning, in view of the recent delays in securing medical attendance that all physicians in the faculty of the medical college were liable to be summoned at any time to attend patients in the emergency room. "It was on this understanding," said Mrs. Covert, "that the room was placed in the college building, it being considered of mutual advantage that the hospital should have such an able corps of physicians at its service and that the college should have a hospital in connection with it."

In order that further delays may not occur the Telegram prints the list of the faculty of the college, together with their telephone numbers, as follows:

A CLOUDBURST IN A COLORADO TOWN

Streets Were Flooded for Half a Mile and Many Were in Danger of Drowning

GRANADA, Colo., June 22.—A cloudburst on Wolf Creek flooded the town. Screams of women in the houses in the low lands in the western part of the town summoned citizens who rescued all who were in danger. The streets were flooded at least half a mile. The Santa Fe track was washed out west of here. Reports from Dry Creek are it has become a river and it is feared there is loss of life among the ranchmen living near the creek.

MULHALL'S VICTIMS ARE SOME BETTER

ST. LOUIS, June 22.—The condition of Ernest Morgan, the youth who was shot by Zach Mulhall on the Pike Saturday night, was not so favorable today. Dr. L. H. Landley, medical director of the emergency hospital at the fair, still declines to express an opinion as to whether the boy will recover. The other two men wounded by Mulhall are recovering. Mulhall has been released on \$30,000 bond.

KENT J. LOOMIS IS MISSING FROM AN OCEAN STEAMER

Brother of the Assistant Secretary of State Appears to Have Been Lost on a Voyage

LONDON, June 22.—Apparently nothing is known in regard to the disappearance of Kent J. Loomis, brother of Assistant Secretary of State Loomis, who was a passenger on board the North German Lloyd steamer Kaiser Wilhelm II, which left New York June 14 and arrived at Plymouth Friday morning and at Bremen yesterday. Inquiries made at Bremen show that Mr. Loomis was seen at midnight Sunday on board the steamer and that he was missing at 1 o'clock Monday morning. No one seems to know what happened in the interval. The report of the agents of the line who boarded the Kaiser Wilhelm II at Plymouth is that they spoke to Captain Hoegemann, the purser, the doctor of the steamer and others on board, but they had heard nothing of the disappearance of the passenger. A dispatch received here from Bremen today reads as follows: "The North German Lloyd company has no information about Mr. Loomis beyond the fact that he was missed an hour before the arrival of the steamer at Plymouth. Whether it was accident or suicide is not known."

R. L. DUNN SAYS THAT EMERSON WAS WARNED

SEATTLE, Wash., June 22.—The facts leading up to the shooting of Colonel Edward Emerson Jr., a war correspondent of the New York World, in the far east are related by R. L. Dunn, correspondent in Korea for the American Weekly Magazine, who reached here. Mr. Dunn made this statement after being informed that Colonel Emerson was dead: "Colonel Emerson was a military man and was well aware of the positions occupied by the Japanese soldiers. Some time ago he made the announcement he intended to go through the Russian lines and work from that vantage point. When it came to the ears of the Japanese military authorities that he would take this step an officer approached another representative of Emerson's paper and informed him if he took such a step the government could scarcely be further responsible for his safety. "I contemplated a move similar to that outlined by Emerson," continued Mr. Dunn, "but the Japanese made it clear to me that it would not be wise for me to proceed. Emerson held papers which

would have carried him through the Russian lines in safety. In view of these facts I am inclined to think the real story of his death has not been learned."

ESTIMATES ON CORN CROP

WACO, June 22.—Making estimates on the corn crop is now a popular pastime among the farmers in this section of the country, and all the estimates are high, while the spirits of the average man have climbed upward with the outlook for this important cereal. Corn is regarded as the basis of all the useful crops, as plenty of this means plenty of fat horses and cows, hogs, turkeys, chickens and plenty of bread for the poor man who may not feel able to afford flour. In view of the fact that corn is two to three weeks further advanced than usual, and in some cases a month ahead of the average at this season, it is considered that the rain of yesterday settles the corn question favorably for everybody. A slow rain fell most of the morning and at noon it came down in torrents for about an hour, rain falling in the afternoon also. A little damage was done to small grain, but with clear weather this will not amount to much. Besides, a great deal of the grain has been thrashed and is safely

TEXAS MAN MAY BE ON PRO TICKET

George W. Carroll of Beaumont Is Spoken of for Vice President
CHICAGO, June 22.—"There has been a wonderful change in sentiment in our party ranks in the last ten days concerning the presidential nomination," said Alonzo E. Wilner, chairman of the Illinois prohibition executive committee today. "Most all of our prominent men declare for General Miles and I predict his nomination, probably on the first ballot at Indianapolis next week. Sam P. Jones of Georgia or George W. Carroll of Beaumont, Texas, will be given second place."

If George W. Carroll of Beaumont is given second place on the ticket it will be the second national campaign in which a Texas man has been a candidate for vice president on the prohibition ticket. A number of years ago Rev. J. B. Cranfill who was then living at Waco was a candidate for vice president. The position being an empty honor, there will be some discretion used in the selection, the party managers handing it to the one who is the most active in pushing the cause. Mr. Carroll is very wealthy and has contributed not a little to the cause of prohibition and to religious work.

MANY APPLICANTS FOR WORK ON CANAL

WASHINGTON, June 22.—D. I. Murphy, secretary of the Isthmian Canal company, today gave out the following: "Applications for places under the commission have been filed by thousands and are still pouring in. It ought to be understood that no one not possessing special qualifications will be appointed for the work of the commission, which will be largely of a technical character. "Those applying for service on the Isthmian in addition to exceptional qualifications must pass a rigid physical examination under the direction of the public health and marine hospital service to test their fitness for service in the tropics. "Probably not one in a hundred of those applying have even a remote chance of appointment."
