

250 Entries For Jr. Rodeo

Colorado City's American Junior Rodeo Association Open Rodeo got underway here last night with a total of more than 250 contestants in six divisions.

The rodeo will continue Thursday, Friday and Saturday, getting underway at 8 p.m. each day.

Interest in the rodeo was running high in Colorado City and near capacity crowds for the Western Riding Club Arena on West Highway 80 have been anticipated for each of the four performances.

The Western Riding Club of Colorado City and the Colorado City Jaycees are co-sponsoring the event.

Red Watlington, who produced the successful AJRA rodeo here in 1970, will again be the producer for this year's show.

A special attraction being held in conjunction with the rodeo will be a western dance Friday night in Civic House with David Price and his Circle II Rodeo Band playing from 9 p.m. until midnight.

Tickets for the dance, also co-sponsored by the Western Riding Club and Jaycees will be \$3 per couple, \$2 for singles.

Arena director for the rodeo will be Eddie Puckett and Tommy Marricle, formerly of Colorado City, will be announcer.

Keeping books on the show and the director of registration is Mrs. Clay Mann Smith.

The more than 250 contestants represent a large number of cities and towns in West Texas as well as several other states including New Mexico and Oklahoma.

Championship belt buckles will be awarded in the different age groups for boys and girls Saturday night.

Competition will be in the following events for the six separate age groups:

--Girls 8-12 - Barrell racing, pole bending, flag racing and break away roping.

--Girls 13-15 - Barrell racing, pole bending, ribbon roping and flag racing.

--Girls 16-19 - Barrell racing, flag racing, ribbon roping and pole bending.

Gardner Resigns

Assistant Supt. To New Post

The assistant superintendent of Colorado Independent School District is resigning to become superintendent of schools in Wilson.

Gary Gardner will leave his post here June 30, taking up duties in Wilson July 1.

The 29-year-old Gardner, who joined the school system here 3 years ago, said he was reluctant to leave Colorado City but that the advancement to super-

intendent was an opportunity he could not decline.

"We have many friends here and this is a fine community in which to live and rear a family," he said. "However, this is an opportunity for professional advancement with learning experience plus increased financial stability.

"In addition the proximity of

Wilson to Texas Tech University will allow me to further my work toward a doctorate degree."

Gardner, who has been assistant superintendent for the last 2 years after serving one year as Wallace Elementary principal, has 33 hours above his master degree toward a PhD.

As superintendent in Wilson he will head a school staff for an independent district with approximately 450 scholastics. The school is 20 miles south of Lubbock.

"My tenure with the Colorado City Public Schools has been an extremely gratifying experience," Gardner stated in his resignation. "The professional and personal experiences have been rewarding and will continue to have a beneficial impact upon my life.

"The progressive philosophy and total commitment of the board of education and the educational staff have made my association with them very pleasant and attractive. I am sure that the progressive enthusiasm of better education will continue to flourish in the schools and community."

GARY GARDNER,

resigns.

4 Polling Places For Saturday Runoff

A sharp decline in the number of voters is expected Saturday for Mitchell County's Democratic Primary runoff election.

Despite heated races for governor, lieutenant governor, U. S. Senator and state comptroller, election officials here will be surprised if more than 1,700 persons cast ballots.

A total of 2,776 persons voted in the first Democratic Primary May 6. They decided all county and precinct offices in that single day of voting, thus erasing the need for a single runoff race at the local level.

This lack of a county runoff race to whet the interest of citizens is a major reason why at least a 1,000 less ballots are expected to be cast in the second primary Saturday.

If absentee voting is a measuring stick, then the turnout may be even less. Only 46 absentee ballots were cast prior to Tuesday's deadline in the

county clerk's office--less than a third of the 141 counted May 6.

Here is where you will vote Saturday:

Courthouse - for Precinct 1

plus Precinct 6 (previously at Fairview) and Precinct 7 (previously Oak St. Baptist Church).

Civic House - Precinct 2.

Westbrook Ag Building - Precinct 2.

Loraine Ag Building - Precinct 4.

★ Graduation ★

Colorado High School bid farewell to 1,524 years of education Tuesday night as 127 seniors were graduated in ceremonies at Wolf Stadium.

More than 2,500 people were on hand for the ceremonies, site for which was undecided until the last minute because of the threat of rain.

Highlight of the graduation, along with the presentation of diplomas, was the naming of students to receive scholarships.

Valedictorian Skip Maines received a 1-year scholarship to the state school of his choice;

Danna Brown received scholarships from Angelo State and the Zeta Delta Study Club.

Others receiving scholarships from different groups were Alanes Miles, Angelo State; Regenia Bagwell, B&PW Club; Rose Guerra, First United Methodist; Carla Roenfeldt, Jaycees; Fay Wistrand, Frank H. Kelley (Kiwanis Club) Award; Skeet Kimbrell, Linnie Lee Thompson Award; Sara Guitart, Noon Day Lions; Sharon Bearden, VFW Auxiliary; and Patty Bodine, Teachers Association.

GARY GARDNER,

resigns.

Loraine Graduation

Loraine residents face back-to-back graduations this week with the junior high graduation planned for 8 p.m. tonight and the high school graduation slated Friday night.

The Loraine junior high graduation with 34 graduates will be held in the school cafeteria.

The high school graduation with 26 graduates is scheduled for the football field, unless it rains and in that case, the ceremonies will be held in the gym.

The junior high valedictorian is Kathy Minton and salutatorian Cynthia Galvan. High ranking boy is Mark McDaniel.

Geneva Davila is valedictorian of the high school graduating class and Gina Boys is salutatorian. Bimbo Stewart is highest ranking boy.

Changes For Methodists

A number of Methodists churches in this area will have new pastors as the result of action taken Tuesday during the 63rd annual Northwest Texas Conference of the United Methodist Church.

Among those changes will be a

shift for First United Methodist Church of Colorado City. The present pastor, Billy Wilkinson, has been transferred to Mean Memorial Methodist in Andrews and David Edens, formerly of Lakeview Methodist Church in Dalhart, has been named pastor

of the Colorado City church. Neely Motes will be new pastor of the Loraine Methodist Church; Ray Elmore has been named to the Coahoma-Westbrook area, Loren Gardner for Hermleigh and Philip Lopes for Fluvanna-Gail.

COLORADO HIGH GRADUATION ★ ★ ★ Honor Students At Left, Senior Assembly At Right

Ruth COFFEY'S CONVERSATION CORNER

LIFE is largely a matter of changes -- except for the changeless fact that most of us enter this world toothless and are likely to leave it the same way.

The series of changes is never more evident than it is at graduation time. Boy babies you have known since they were born -- and sometimes even before -- are suddenly six-foot-plus strangers, a few disguised with long flowing locks and thick mustaches.

Girl babies who yesterday toddled around in pinafores look like their mothers used to, or like models, nearly all with straight, beautifully brushed hair long as it will grow, luminous eyes, and dressing tables full of nine shades of lipstick and nail polish.

Tempus fugit. And you realize it most when you watch the children you once watched graduate watch their own children graduate.

OLDER PEOPLE have a kind

and gracious way of greeting each other after years gone by with "You haven't changed one bit".

It simply isn't so, of course. It's just a gesture of friendliness and wishful thinking. Everybody and everything changes. And what a dull world this would be if everybody stayed exactly the same from cradle to crutch!

HAVE YOU changed? Yes, we all have changed. Some for the

better and others for "wuss", more's the pity.

A few decades ago we all went around singing a "pop" song titled "Have You Changed?" Remember how it went "Have you changed? Do you still love the sound of the rain... do you still love to ride on a train? Or have you changed, My Dear?"

Took a little inventory the other sleepless night and decided that the answers are mostly yes -- and occasionally no.

Still love the sound of the rain. Would still love to ride on the train if trains hadn't changed so much themselves. When you hear the hoot of a train or see one in the distance going by it's a freight. Who wants to ride in the caboose? No chair cars, dining cars, pullman.

HAVE YOU changed? Would you still like to take a plane across the sea? No. Changed when the last cross country jet rode out a tornado over Kansas City. If ever I fly again it will have to be a dire emergency and not for fun.

Have you changed? Would you still like to swim in the surf? Have changed. The thought of it gives dizzy signals.

Do you still like to dance all night? Sad but true, had rather read, then sleep.

Do you still like watermelon

feasts on the lawn? Too messy. Do you still like to run barefoot across the grass? Feet too tender now. Make it soft lawn chair for sitting and watching the stars.

HAVE YOU changed? Do you still know all the newest songs and jokes or had you rather talk authors and politics?

Do you still like to drive fast as the wind or is it that you now creep along in your car?

Do you still read the comic strips? Yes, "Peanuts", always. Lovelorn columns? "Dear Abby", is a must.

Do you still think anybody over 30 or 40 is ancient or have you reached the time when old people are people 10 years older than you?

HAVE YOU changed? Do all, or most, military men look like somebody's little boys to you?

Have you started remembering when most of our little brides wore pink blankets instead of veils?

Do you look like your mother in the mirror now?

Ah, life is full of changes. And if your forgettery works more often than your memory you'd better watch it.

Your get-up-and-go may have done got-up-and-went. May as well admit it.

TALKED via dial system to Lois Prude Bennett to find the gay notes in her voice have not changed one bit.

She was saying that Pat Prude, who lives in Lamesa, spent last weekend as her houseguest.

A favorite young man named Robert Jones is home after finishing his junior college year at San Marcos. Son of Loyce and Harvey Jones, Robert will work for Cosden in Big Spring

this summer. Then go back to his University.

Shook hands with TG, that gentleman, called Otto Jones, who rarely calls his wife Myrtle. He calls her "Honey", both in private and public.

HEAR TELL that Mabel (Mrs. R.J.) Wallace and her sister Jean Camp have moved back to Texas from California. They now live in the recently completed Rio Concho Manor at San Angelo and hear tell they're loving it.

Zelma and E.M. Owen have had as guests Edd's brother Oliver Owen and his wife who are moving to a condominium in Chihuahua as soon as it's finished. They left C-City Monday after a week here and both adored West Texas with emphasis on the Colorado City Museum, said Zelma.

DID YOU KNOW that our Allan Miles, USN, has been back in Vietnam waters since mid-February and is still there as member of the Coral Sea, aircraft carrier? Home port for the Coral Sea is Oakland, California, and unless there is a change is due back in July. Allan expects to retire from Naval duty after 21 years come October. He is son of the E. S. Miles, husband of Jo (nee Vaughn) father of Alanes and Mark.

Also on duty on the Coral Sea is Bobby Clay, 21, another ex-student in CHS. His mother Mrs. Edith Clay now lives in Abilene. His aunt, Mrs. L. D. McKinney lives here and is bus station agent.

VOTE FOR PERFORMANCE

There is no margin for error in an office that must guarantee the biennial fiscal solvency of the state—balancing billions in receipts to payments each year. Bob Calvert has built a tax accounting system that is considered a model for study by other states. During 23 years as Comptroller, he has an unblemished record of remarkable public service.

VOTE FOR EFFICIENCY

Bob Calvert has continually modernized operations to provide greater service at lowest cost. The electronic data-processing equipment he installed is recognized as one of the most sophisticated and efficient computer systems in the nation.

VOTE FOR CONFIDENCE

Under Bob Calvert, the Comptroller's Office has returned \$450,776,028.09 to 692 Texas cities since their sales tax was enacted. Every penny has been accounted for. His records are verified by the State Auditor's Department to insure absolute accuracy. The Texas Research League has proclaimed Calvert's office one of the most outstanding in the country in accounting and administration.

VOTE FOR INTEGRITY

The only things "old fashioned" about Bob Calvert are the virtues of honesty and integrity which he considers vital for a person in a position of such public trust. On the other hand, his runoff opponent, who has had six marriages, four divorces and one annulment, was fired from the Comptroller's Department last November after being convicted of aggravated assault on a female.

1 Set thermostat between 76 and 78 degrees—the lower the setting the more electricity the unit uses.

3 Provide adequate attic ventilation—helps reduce heat buildup.

4 Install proper duct, ceiling and wall insulation and weatherstrip windows and doors—keep hot air out, cool air in. (Helps reduce winter heating costs too!)

Special Conference For Baptists

The 1972 statewide missions thrust projected by Baptist General Convention of Texas will be emphasized locally when churches of Mitchell-Scurry Baptist Association meet June 13 for their Missions - Stewardship - Youth conference.

Conference will be hosted by Green Hill Baptist Church in Snyder.

One of more than 100 similar meetings being held across Texas, the meeting will feature leaders from the Missions and Stewardship Divisions of the Baptist General Convention of Texas and state leadership who are involved with the various mission programs of the convention.

The meeting will include a session to acquaint church leadership with the challenge of Biblical stewardship and the resources available for designing a program of Stewardship Development. "There is a bold challenge for growth in Christian giving which is equal to the new potential made possible by prosperity," said Dr. Cecil Ray, director of the Stewardship Division of the Baptist General Convention of Texas.

"Greatness in giving is the key note and such greatness in giving is necessary if Baptists are to be equal to their mission task in the 70's," Ray said.

The meeting will also include a conference on missions and personal involvement in mission ministries. The purpose of this conference is to acquaint the churches with mission projects and the available resources for doing their work. "During 1972," said Charles Lee Williamson, director of the BGCT Missions Division, "Texas Baptist will be giving priority attention to churches in crisis, metropolitan centers, and to youth."

"The opportunity of today's church centers in its ability to demonstrate its love for people. The message of the church is heard best when the church is involved in ministering to the needs of the people in its community," Williamson continued.

Noted heart surgeon doesn't believe cholesterol theories

A NOTED heart surgeon, Dr. Michael DeBakey, president and chairman of surgery of Baylor college of medicine, said at a cardiovascular disease seminar presented by Danciger Institute of Memorial Medical Center, Kansas City, Mo., that he and his associates have found very little relationship between diet, cholesterol levels and coronary artery disease progression.

terol business, we have put our patients on no dietary program and no anticholesterol medications."

He said he had found that 80% of the patients with severe occlusive coronary artery disease had had blood cholesterol levels comparable to the levels in normal people.

"When the levels are comparable it just doesn't make sense that elevated cholesterol levels are the cause of coronary artery disease," he said.

The surgeon, who claims he

eats only one meal a day - late at night - sleeps only four to five hours a day and practices no exercise regimen except "avoiding elevators at all possible times". He advises his patients to eat a varied diet of fruits, vegetables and meats, keep their bodies in good tone with moderate exercise and avoid anything in excess, particularly alcohol and cigarettes.

"I personally think most people eat too much and sleep too much," he said.

Dr. DeBakey thinks hearts damaged by coronary artery disease will be repaired surgically in the future, instead of being replaced.

Surgical techniques which either bypass the clogged heart artery or mechanically clean it have been perfected and he believes this approach is the most promising.

RODEO TIME
Colorado City is full of cowboys and cowgirls.
The occasion is the Western Riding Club's Junior Rodeo, sanctioned by the American Junior Rodeo Association.
The Colorado City Jaycees are co-sponsoring the rodeo along with the Riding Club.
It has been several years since an AJRA Rodeo was held here and our congratulations and best wishes go to the Western Riding Club and Jaycees for their efforts in putting on the rodeo this year.
Although the rodeo got underway only last night, it already promises to be a success with more than 250 entrants. Let's hope this becomes an annual event.
