Negro's Case Is Set For Tuesday

Bennie Lee McIntyre, 18, Grassland Negro farm worker charged with rape of a 27-year old mother of two children near Redwine on April 25, is scheduled to go on trial in 106th District Court here Tuesday of next week.

Eighty-four men and women have been summoned on a special venire as prospective jurors. They are to appear in court at 10:00 a. m. Tuesday.

McIntyre is alleged to have been working in a field on the day of the crime. Shortly after noon, he went to a farm home nearby, threatened the young mother and attacked her. The lady's husband was in town at the time.

A short time later, he stopped a borrowed pickup he was driving on US 380 three miles east of Tahoka, hailed a passer-by who turned out to be Deputy Sheriff Eldon Corley of Post. On the Negro telling Corley of some trouble on the farm, Sheriff Norvell Redwine was called to the scene and he took the man in custody. McIntyre has been held in jail at Lubbock without bond.

District Attorney George Hansasard of Lamesa and County Attorney Harold Green will handle the prosecution.

District Judge Truett Smith informed The News Wednesday he has appointed Mitchell Williams, local attorney, and John Saleh, O'Donnell and Lamesa attorney, as counsel to represent the accused man.

Law requires that in the case of a person being accused of a capital offense and is unable to secure legal council, the Court must appoint "competent and experienced counsel" to represent the defendant. Such counsel is also required by law to serve the accused to the best of their ability when appointed.

Judge Smith says he expects some pleas of guilty to be entered in court on Monday.

The case of David Lee Case, 19, also charged with rape of a young school girl, is also scheduled for trial this term of court.

LYNN COUNTY'S NEW JAIL, except for some minor details, has been completed, and the Lynn County Sheriff's department expects to move into the new building at an early date. The new jail has the most modern equipment and was erected at a cost of \$125,000 as a result of the old jail on fourth floor of the courthouse having been condemned. (Photo by Finney)

Election Called On Road Tax, County Livestock Building

An election on two issues, set for June 6th, was called by Lynn County Commissioners Court in its session here Monday.

One is the proposition of issuing a 15-cent special road tax.

The other is on the issuance of bonds for construction of a county livestock and agriculture exhibition building and meeting place for large county-wide events.

Petitions circulated among voters of the county calling for an election on the two propositions had been presented the court.

County Judge W. M. Mathis says increasing costs in every field during the past ten years have finally caught up with the county budget. There has been no tax increase and no general valuation increase in this period, and the time has come when the county can not operate on its income. The new tax would increase the county's income about \$18,000.

Only other alternative is a raise in valuations. This is not feasible, since a raise in county valuations would cost taxpayers an additional \$30,000, or a total of about \$48,000 to raise the \$18,000.

What happens when county valuations are raised, briefly, is that under the state school aid law state (Cont'd. on Back Page)

Deposits In Wilson Bank \$2,610,041.50

In reporting Lynn county bank deposits last week, The News erroneously listed deposits at Wilson State Bank at more than a half million dollars less than they actually were.

Deposits at Wilson at the April 12th call totaled \$2,610,041.50, instead of the \$1,969,223.43 as The News reported. The error by The News was unintentional. Total county deposits of \$12,394,151.84 were correctly reported.

Lawrence Harvick Catches Big Fish

Lawrence Harvick has been displaying the head of a 44 pound yellow cat fish he caught along with Charles Carpenter, Roy Harvick and sons, Terry and Curtis, at Stamford Lake last Sunday, but says he is not going to mount the trophy since he plans to catch several others just like it.

The men and boys went down to Stamford on Saturday and set their trot line baited with gold fish. They were more than surprised on Sunday to find they had hooked the big cat. In fact they were so excited, they even forgot to measure the fish or have their picture taken with it.

Friends say that it's a good thing the Harvicks brought the head back to prove their fish tale.

After applying make-up, saturate a piece of cotton with ice water or astringent. Pat cotton firmly over face and neck to set make-up and prevent stains on clothes.

"SMALL BUSINESS"

By C. WILSON HARDER

There are some observers who feel that true sovietization will be accomplished in the United States long before it is achieved in Russia.

This quite provocative statement requires some background explanations. Under the true Soviet system, it is visualized that in time the workers will own all business and industry. Theoretically, the Russian government is at present only running the C. W. Harder Russian business system until such time as the workers can take over the operation of everything. Of course, it is quite unlikely their politicians will ever give up the economic power they now hold.

However, in America, the trend is quite possibly moving quite rapidly in that direction.

During the winter season recently in Miami, the nation's most powerful labor leaders released a statement that they are contemplating going into the home mortgage business to perk up home building with a cool billion dollars put out at lower than prevailing interest rates in mortgages.

A billion dollars is a lot of money. Less than 20 banks in the entire nation have as much as a billion in total assets.

But labor unions, aided by enforced payments of dues plus huge sums paid into pension and welfare funds, are today a major financial power and growing daily.

© National Federation of Independent Business

And unlike banks, insurance companies, et al., these funds are subject to no regulation.

Thus, it is no idle threat that the unions can enter the home mortgage field at cut rate interest rates. It is only reasonable to expect that they will enter into many fields of business, banking, manufacturing, retailing, transportation. It is not inconceivable that in due time, entire industries will be owned by the unions.

For after all, in an era when financing is important in business, so one can finance so easily, or with no expense.

Yet the worker in a unionized plant where the dues are taken out of his paycheck actually has little to say, from a practical standpoint, how much those dues should be, has no control of the money. Neither does he have any control over vast sums paid in, usually by the employer, to union's so called welfare and pension funds.

There has been amassed, and there continues to grow, vast sums of interest free capital practically uncontrolled.

Here then, are the great powerhouses of finance. It is quite possible that some of the huge companies who complainantly agreed to take the dues money out of their workers checks and turn them over to the union are financing in fact their own destruction. And every payday throughout the land, more and more money pours into these insurance stores of capital. Then in a limited period of time there could come in affect the system that Russian politicians have only talked about . . . the ownership of the tools of production by labor.

FARMERS—Keep your records together in a one-drawer filing cabinet, with lock, only \$18.75 at The News

By RUDY EVINS

No matter where you fish or what kind of fish you are fishing it has been proven that every fisherman is similar to his own particular pattern of fishing. Confusing? Well, let me clarify this a bit.

There are four fundamentals which almost every good angler uses as a "bible." Follow these rules and improve on them each time you go fishing. Your fishing "luck" will progress with every trip.

Rise early—get up early in the day when the fish feed. Work the shore with various lures to find the hot spots. Try about 25 casts with a surface lure. If you don't get any strikes try a sinking plug for another 25 casts. If you still don't have any luck try a lure that runs a little deeper. You're bound to find them sooner or later and when you do you'll have a field day.

Unacquainted—don't be unacquainted with the water you are fishing. If you don't have a map of the lake's bottom ask the local sporting goods dealer or resort owner for a few tips. They will be more than happy to tell you where the good spots are.

Drift—Approach your fishing hole with caution, especially in shallow water. Your outboard motor won't scare the fish, however, it may stir the bottom, so cut it about 50 yards from where you plan to fish and drift in.

Yield—Always yield a good cast. A bit of practice before leaving on your trip will bring more accurate casts with every outing. Use an inner tube or a pail in your backyard for a target. Remember, practice makes perfect.

The first letter of each of these rules spells Rudy. Keep my name in mind and remember these fundamentals, for they are the key to a better fisherman. Happy boating... and fishing, too.

Today's MEDITATION

from The World's Most Widely Used Devotional Guide

The Upper Room

THE UPPER ROOM, NASHVILLE, TENNESSEE

I bow my knees unto the Father of our Lord Jesus Christ, of whom the whole family in heaven and earth is named. (Ephesians 3:14, 15.)

One day I heard of a school where the children were extremely unruly. The teacher was at her wits' end as to how she might bring a semblance of order out of the chaos. Suddenly, a child's clear voice rose above the hubbub: "Is this the way for a Christian family to act?"

The other children were taken by surprise. They looked wonderingly at the small girl who asked a question she had no doubt heard at home. They stopped their quarrels, their giggling, their teasing.

They began to conduct themselves in a different manner because of this child whose family worshiped together in the home every day. This girl had parents who read the Bible and prayed. The child had an altar at her mother's knee.

PRAYER: Dear God, we thank Thee for Thy promise that where two or three are gathered together in Thy name Thou art in their midst. Thou dost love families and hast put the solitary in families. Strengthen our faith as we worship in our homes and know that Thou art here with us in familiar surroundings. We thank Thee in Jesus's name. Amen.

THOUGHT FOR THE DAY—A home is a gift of God and a fitting place for worshipping Him. —Thelma Allinder, Homemaker (Nebraska).

In the opening game of Little League play Charles Sayles was the winning pitcher for the Giants.

hoka; the Tahoka Orioles and New Home Eagles there; and the Wilson Red Sox versus the O'Donnell Pirates at O'Donnell.

Charles Reid, president of Little League, states that Lewis Construction Co. replaced the broken light bulbs at Little League Park free of charge and Jimmy Dykes installed telephones from the dugouts to press box.

The concession stand, operated by mothers of boys in both leagues, and high school girls took in a total of \$53.00 on opening night and \$23.00 on Tuesday night. The collection on Tuesday night totaled \$15.00.

Reid stated that there are four teams of umpires for Little League and each umpire works one game each week. They will be dressed in black caps and shirts and dark trousers. Last week an umpire school was held here for the workers and Reid reports fine results from this school.

Scouting News

(By Ed Redwine)

Sixteen Cub Scouts of Pack 782 had a thrill last Saturday that won't be forgotten for quite some time. Seth Lewis, well known local pilot, took the Cubs for a ride in his twin-engine Piper Apache plane. The plane ride pointed out the importance of today's aviation to the Cubs.

Taking off from the east-west runway of T-Bar airport, Lewis made a wide swing over Tahoka to give some of the boys their first look at their home town from 1000 feet up. The ride continued over the sandhills to a point just south of Tahoka Lake then Lewis banked the plane and went into his landing approach pattern. Each ride lasted about ten minutes. After the Cubs went up rides were given to some of the Cubs brothers and sisters, parents and leaders.

Cubs making the trip were Robert Gage, Mitchell Thurman, Ronnie Schneider, Doyle Schneider, Dean Akin, Dan Reid, John Ayer, Danny Wright, Larry McClintock,

Robert Farris, Max Bartley, Tim Walker, Rex Hamilton, Jimmy McCord, Billy Birdwell, and Tommy D. Stephens.

Brothers and sisters making the trip were Ann Wright, Bill Wright, Sharon McNeely, Steve McClintock and Roger McClintock.

Parents and leaders that went for the ride were George Wright, Mrs. George Wright, Carl McClintock, Pack committeeman, Mrs. Carl McClintock, den mother; Mrs. Truitt Schneider, den mother and Ed Redwine, Cubmaster.

The plane ride tied in with the April theme for Cubs, Air Adventure.

Speaking for all Cubs, parents and leaders I would like to thank Mr. Lewis for taking the time to take us on the ride. Seth donated the plane, fuel and his time. Without the effort on his part our April theme could not have carried out as planned. Thanks again Seth Lewis.

Mr. and Mrs. Buck Barnes of Clovis, N. M. were here Sunday to visit his sister, Mrs. R. W. Fenton, Jr.

(By Mrs. O. H. Hoover)

Here I am back from my vacation and fishing trip. We didn't catch many fish but we saw two that some other fishermen caught, one weighing 48 pounds and one 51 pounds—they were huge. We had plenty fish to eat and brought some home—no big ones. We had quite a lot of company while there. Mr. and Mrs. Arlie Fuel from Crosbyton, Mr. and Mrs. Graham from McAdoo, and Mr. and Mrs. Gerald Norman and girls. Also on Sunday Mr. and Mrs. W. L. Gourley and mother, Mrs. W. F. Scarborough from Grandfield, Okla. came. Mrs. Scarborough spent the week and Mrs. Love and I took her home. Mrs. Love and Mrs. Scarborough are Mr. Hoover's sisters.

I had bad luck and became seriously ill Monday night so we made a wild dash to Post and the hospital. Made it okay about 4:00 a. m. and I am much improved.

Jim Edwards of Tahoka visited in the Methodist Church at Grassland Sunday.

Mr. and Mrs. Ted McDonald of Post and Miss Ruth Harris of Mineral Wells visited last week in the

W. C. McCleskey home. Miss Harris is a nurse in the Nazarene hospital.

Mr. and Bobby Ferguson of Ranger visited with Mrs. Ferguson's parents, the Rileys of Tahoka.

Adrain Cook and two daughters visited Mr. and Mrs. R. M. Cash in Abilene. Mrs. Cash has been seriously ill. Mrs. Ester Carpenter and Mrs. Edna Morris visited last Wednesday with Mrs. Cash and report that she has improved some from her recent illness.

Morris Gregg of Plainview and E. B. Gregg of this community went to Brownwood Lake fishing last week. They caught quite a lot of fish.

Mrs. W. G. McCleskey has been busy sitting in Post for the past two weeks with the children of Mr. and Mrs. J. E. Pollard.

Visitors in the O. H. Hoover home after Mrs. Hoover was released from the hospital were Mrs. E. M. Norman, Mrs. Ada Oden, Mrs. Bernice Propst, Mrs. Edna Morris, Mrs. Gus Porterfield, Mrs. Glen Davis, Mrs. S. A. Bengel and the Rev. H. A. Watkins and wife Reba. Mrs. Donald Carpenter, Donna and Larry ate lunch and visited Sunday with Mrs. Edna Morris.

Election . . .

aid to the four schools of the county is reduced automatically. If the county raised evaluations, the schools would have to turn around and raise their valuations also to get the same money on which they are now operating. This is a queer quirk of the law, school men say, but this is the way it works out.

If voted, the 15-cent road tax would be used only for roads, according to law. However, this would release funds from the 80-cent county tax now being transferred to road funds for use for other necessary purposes.

Judge Mathis says this has nothing to do with the proposed agricultural building, but rise in prices the last ten years of everything the county buys, wages, upkeep of county buildings and roads have finally put Lynn county in the cost-price squeeze.

As the outgrowth of a meeting of county farmers and civic groups several weeks ago, a move was started for a county exhibition building to replace the livestock barn of Lynn County Fair Association which burned in February, 1959.

Petitions have been presented the court calling for a \$35,000 bond issue to build a modern exhibition hall about 120 by 200 feet in size, complete with judging arena, pens, rest rooms, wash racks, concessions stands, and other necessary equipment for livestock shows. The building could be used for other large county-wide meetings, such as farm meetings, Pioneer reunions, etc., as well.

Lynn County Fair Association has voted to equip the building, if the voters approve the bonds, from \$9,000 cash it has on hand, realized from rent of its buildings and from fire insurance from the burned building. The Fair board also proposes to apply any funds it may receive from sale of its lots and building in northeast Tahoka on the proposed US 87 right-of-way to the county sinking fund to retire the proposed \$35,000 bond issue. Such would materially reduce the cost of the bond issue to taxpayers.

The Commissioners' Court also on Monday took action to convert the \$125,000 warrants issued for building the new jail into bonds and thereby save about one-half of one percent in interest. Acceptance of the jail from the contractor is being delayed pending correction of some minor faults in the construction.

Claude James Is Injured Critically

Claude James, 49, of New Home is in serious condition in Methodist Hospital in Lubbock suffering from injuries sustained in a two-car wreck at the intersection of Slide Road and a farm-to-market road southwest of Lubbock Wednesday morning about 10:30.

The extent of injuries was not known Thursday noon but he is said to have a concussion and is almost completely paralyzed from the neck down. His condition was so serious that thorough examination and tests could not be made.

He had gone to Lubbock in his pickup to help Mrs. J. W. Edwards, who was in her own car, make preparations for bringing home her husband who was being released from a Lubbock hospital Wednesday. On his return home by way of Slide Road Mr. James' pickup collided with a car driven by Ford Bell, 47, of Lubbock who is well known in the New Home area.

The New Home man's pickup was hurled off the road into a dry lake hitting a telephone pole. Mr. Bell was taken to Taylor Clinic where he is reported to be in good condition and is believed to have only lacerations.

Pvt. Gayland James, a son of Mr. and Mrs. James, arrived in Lubbock Wednesday night from Ft. Sheridan, Ill. to be at the bedside of his father. He had left for his new camp on Thursday of last week.

LARRY EDWARDS CLASS OFFICER AT UNIVERSITY

Larry Edwards of New Home has been elected vice president of the junior class of Hardin-Simmons University for the 1961-62 school year.

The son of Mr. and Mrs. J. B. Edwards of New Home, Edwards is a graduate of New Home High School. He is majoring in history and education at H-SU and minor in English.

Marvin Munn was dismissed from the hospital Monday after having been a medical patient.

Sandra Dotson, 11 has been a medical patient in the local hospital this week.

The feat of intercepting an intercontinental ballistic missile with a killer missile has been likened to hitting a bullet with another bullet. No one underestimates the difficulty of solving that problem. Meanwhile, the important thing is that the problem must be solved . . . before the Soviets produce a means of defending against long-range missiles."

Grain Acreage Rules Given

Rules about adjusting "excess" acreages of grain sorghum under the 1961 feed grain program will be the same as under the regular allotment programs for the so-called "basic" crops, according to Charles Bragg, office manager of the Lynn County ASC.

This means that a farmer who intends to cooperate with the feed grain program but who unintentionally plants more acres of grain sorghum in 1961 than are permitted for his farm as a "cooperating" farm will have an opportunity to plow the extra acres in order to meet program requirements. In such cases, however, there will be a deadline for making such adjustments in the planted acreage. (The farmer must pay the cost of measuring the adjusted acreage.)

In estimating the total planted acreage, Bragg points out, any acreage planted to field corn to be used for silage or to grain sorghum to be used for silage will be counted as a part of the total corn or grain sorghum acreage on a farm in 1961. Such acreage was likewise counted in determining the farm's base acreage under the program.

Bragg reminded the farmers that the sign-up of growers who intend to take part in the 1961 feed grain program is now under way in the County ASC office. If they have not already done so, grain sorghum producers who intend to participate should file their intention immediately.

May 31 is the last day grain sorghum producers may file applications to take part in the 1961 feed grain program.

QUESTIONS, PLEASE

QUESTION: "Did Judas Iscariot Fall From Grace?"

ANSWER: Yes, Judas fell from grace. It is said by some that Judas was never in the grace of God so he could not have fallen. These teach that if a person falls he was never saved in the first place. However, Judas occupied the same position and relationship to the Master that the other apostles enjoyed. This is not a matter of speculation but a matter of going to the scriptures and reading it. Acts 1:25 "That he may take part of this ministry and apostleship, from which Judas by transgression fell, that he might go to his own place." Notice that Judas FELL, or for-

feited his position with the Master by betraying Him. It is hard to believe that Christ would have allowed Judas in this responsible position if he had not been at first in a proper relationship with Him. At any rate the scriptures say that Judas fell and he could not fall from a place he had never been! It is not true that Judas was a devil from the beginning. The Lord said, "One of you is a devil" (Jno. 6:70). He said nothing about "from the beginning." When Jesus handed Judas the sop then the devil entered into him (Jno. 13:27). Judas found himself in the same position as some of the Galatians. They had fallen from grace also (Gal. 5:4).

Panel Discussion On Youth Set

The public, especially parents, is invited to attend a panel discussion Monday, May 15, at 8:00 p. m. in the City Legion building, sponsored by the Citizens Committee for Youth.

Panelists will discuss ways and means of keeping Tahoka and surrounding communities safe, sane and clean places to bring up families. These leaders, carefully selected to serve on the panel, have given much study and consideration to the disturbing influences affecting the behavior patterns of youth, according to committee members. The committee states this is not a group of alarmists or fatalists, but rather a cross-section of civic minded men and women interested in combating evil, in any form, that might tend to destroy the moral fiber of teenagers.

Audience participation is invited.

New Jet Planes Described Here

"The World's First Super-Jet Trainer" was the title of a sound movie shown Tahoka Rotary Club Thursday noon of last week through courtesy of Reece Airforce Base. These planes will soon be seen flying over Tahoka, as it will replace the T-33 planes now in use at Reece.

The T-38 Supersonic trainer has a speed slightly faster than sound, can climb at a rate of 30,000 feet a minute to an altitude of 55,000 feet or ten miles, and weighs only 11,550 pounds. It can take off on a half-mile runway.

The small, sleek plane is designed for maximum safety and low cost operation in the training of pilots.

Charles Townes, in charge of the program, secured the film.

A. M. Bray expressed thanks of the club to Tahoka Rodeo Association for the fine show put on recently, and E. L. Short gave a brief report on the success of the event, including finances.

The club elected Dr. Emil Prohl as its official representative to the Rotary International convention in Tokyo, Japan, next month. Dr. Prohl and wife will leave soon for the convention.

Student guests for the month of May are Merrill Cloe and Glenn Hopkins, who were introduced by Ronald Sherrill and Alton Cain, respectively.

By F. P. H.

Here it is Mothers' Day and graduation time again!

May each of us take time to pay a tribute of love to the one who brought us into this world... a kind word or deed, a gift of love, a prayer!

And, to the school graduates, may we extend a word of congratulations at this commencement of adult life, a step in the process of education. For some this is the end of formal schooling, but let each graduate remember that, to be a success in life and to live to the fullest, one must never stop studying, learning, and improving. Your process of education is just commencing.

And, here we are getting down into May, and farmers are wishing for a shower so that they may plant. Irrigation farmers are putting seed in the ground, even a lot of dry land farmers, and some cotton and feed is already up. But, for the majority, a rain is needed. With the best season in the ground from winter rains, only light rain would help. Contrary to past records, only .12 of rain was received in April. Of course, there is plenty of time, but a lot of folks are already getting nervous.

A delinquent taxpayer sent a letter to the Internal Revenue Service saying he had cheated on

his income tax ten years ago and had not been able to get a good night's sleep since. He enclosed \$25 and added: "If I still can't sleep, I will send the balance."

It is said the average American family has a two-car garage on a one-car income. A modern man is one who drives a mortgaged car over a bond-financed road on credit card gasoline.

Advice to public speakers: Be brief, be sincere, be seated!

An exchange says there was a lawmaker who had a horrible nightmare: he dreamed all the money he was spending was his own!... The risk in giving bureaucrats enough rope to hang themselves is that they'd try to put the government in the rope business!

Although the terms "million" and "billion" seem commonplace today when speaking of public fund expenditures, they are astronomical in scope. Christ was born 20 centuries ago, but a million days have not yet passed since His birth. In fact, not until the year 2738 will a million days have been recorded since the birth of Christ. Right now only a little more than one billion minutes have passed since Christ was born. The indebtedness of the United States government now totals 290.5 billion dollars.

Many do-gooders and advocates of concentration of all government in the hands of bureaucrats continue to drive for federal control of education. Of course, they disclaim any intention of federal control of local schools, but look what is happening in civil rights legislation! The argument that the federal government can improve our school better than can the people down at the grass-roots does not stand up. From 1950 through 1959, pupil enrollment increased by 10,200,000—but enough new classrooms were built to care for 18,800,000 boys and girls. The school districts employed enough new teachers so that the average number of pupils per teacher dropped from 26 to 25.

Sam D. Goodwin, of Bear Creek on Benbrook Lake, husband of the former Clara Gene Porter of Tahoka, granddaughter of the late Jim Banister, attracted a lot of attention down at Fort Worth recently in the newspapers and on television when he found a prehistoric mammal's tooth measuring

three inches thick, five inches tall, weighing three pounds, on which the one-fourth inch thick enamel was still white after having laid in the earth an estimated 50,000 to 100,000 years. He has turned down an offer of \$200 for the tooth.

"Hackberry Slim" Johnson, 73, the old-time cowboy, rodeo promoter, came by to see the Printer the other day, had a laugh about some of our experiences that kept us from making a cowboy (?), as printed in this column a couple of weeks ago, and passed on a few yarns.

"Not many people know it," Hackberry told us, "But I came from Coke county—Fort Chadburne—myself, and the reason I seldom tell it is because you boys up at Sweetwater used to call we Coke county boys rabbit-twisters."

Hackberry also knew "Booger Red" real well, and says the latter's name was Tom Privett, which fact we had forgotten. His son, Thomas, became known as "Booger Red Junior," but there was several other "copy-cats" who also called themselves "Booger Red" and "Booger Red Junior." Anyway, we remembered old Hackberry very well and saw him away back yonder in the teens when he was putting on shows at Roscoe, Sweetwater, and Loraine.

Hackberry claims he worked with Will Rogers in a show at Comanche, Okla., in 1912, knew and worked with Tom Mix and Col. Zack Mulhall's 101 Ranch and show. He knew well Lucille Mulhall, famed horsewoman who later married Tom Burnett of 6666 fame and a millionaire Texas cowman.

Lucille traveled with the show. They were using "shotgun" chutes

in those days, and the steer or bronc was crowded into the chute and came out bucking when the cowboy rider got aboard. But, at times, the stock got tired and wouldn't buck. Lucille Mulhall, unseen by the audience, would station herself at the back of the chute, and just as the gate was opened she would pour a little "hi-life" on the steer's hide and he would come unbuckled. But, one day, Lucille missed her mark and poured the "hi-life" into a cowboy's hip pocket. Result—a bucking cowboy!

Hackberry Slim got his name at Dalhart in 1906. Working as a cowboy, he had to have a leg amputated as an aftermath of an accident. He said he needed a sittin'-down job, so his cowboy friends cut him a peg-leg from a hackberry limb and he went right ahead riding broncs. He's still in the rodeo game, although no longer as a rider, and is now promoting a buffalo rodeo.

To General Telephone Co.: When it is impossible for one of your patrons to get the operator by dialing "0" what do you do? Sunday night a local lady tried repeatedly to get an operator to make an important long distance call. Perplexed and disgusted, she called The Printer, and he unsuccessfully tried to dial "0". General Tel., Tahoka still needs some improvement in service!

Thanks to Mrs. L. D. Harston, route 4, Lubbock (Lynn county) for some kind words about this publication.

Jay W. Moore, up in Pemberton, British Columbia, Canada, is quite disturbed. He has been missing The News for three months. He'll start getting the news from home again this week. Jay writes

they have had the mildest winter since they have been in Canada.

A teacher was trying to instill some cooperation in the mind of an unruly youngster. "You know, Johnny, we are in this world to help others." The little boy considered this for several seconds, then asked, "Then why are the others here?"

The Sunday School teacher concluded her lesson on religious ritual by asking, "Can anyone tell me what you must do before you obtain forgiveness of sin?" There was a long silence, then from the back of the room a small boy spoke up and said, "Sin."

Junior-Senior Banquet Is Held

About 115 juniors, seniors, teachers and board members attended the annual Junior-Senior banquet held Friday night in the school cafeteria when the theme was "TV Shower of Stars."

A colored spotlight flooded a black tree from which hung caricatures of the 1961 graduating class, drawn by Miss Jerre Ann Wyatt. The pictures were given the seniors following the banquet. Decorating the tables were miniature glittered rabbit-ear antennae arranged with blue carnations.

Billy Davis gave the invocation, and Master of Ceremonies Perry Flippin gave the welcome. Frank Greathouse presented the response.

The history of the Class of 1961 was read by Gail Phillips; the class will, Mary Jane McCord; and the class prophesy, Fred Hegi, Glenn Hopkins and Dianne Falls.

Mothers of the junior class prepared the meal and sponsored the Arthur Murray Party which followed the banquet at the City-Legion building, when glittered stars hung from the ceiling and Phil Pearce and his orchestra played before a back drop of a city street scene.

Mr. and Mrs. Tom Bartley are sponsors of the junior class and were in charge of banquet arrangements.

Everyday Religion

By R. Thompson

Ed Reed's "Off the Record" cartoon today, Monday, features a patient in the office of an eye doctor. The doctor is handing him a bottle of pills and saying, "Remember, one blue pill, two red ones, and three green ones each day—that should clear up your color blindness."

What a parable of life. There are a lot of moral and spiritual pills offered for what ails us but so often we are color blind and cannot tell them apart.

Which reminds us of the fellow whose car horn was out of order and would not make a sound. He drove up to the service door of a garage and read a sign which said, "Blow your horn for service." It is one thing to have help available but we are not always able to enter into it. Our horn won't sound.

We believe that the world in which we live, and the spiritual world which lives in us contains the answer to all of man's problems and ailments but our ability to appropriate this power and knowledge is painfully and slowly developed. This is the romance, the adventure of life. There is so much to learn and so much to do that life should never be dull to anyone who is wide awake.

Buy, build, live, in Tahoka.

Businesses that Make Our Town "Tops"!

As hard-working townspeople, we are apt to overlook many personalities and programs that aid in making Tahoka a fine and prosperous place in which to live.

Among the folks who deserve recognition and reward for outstanding help in reaching our town goals are the businesses and business men that serve our town and area.

To acquaint you with the folks and firms that mean much to us, The Lynn County News is printing a series of stories about these people and places. We know you will be interested in the stories we tell. We also feel that when you have need for what these friends and their firms sell, you will reward them with your purchases.

(By Frederic de Vries)

ONE OF OLDEST, STRONGEST BANKS IN THIS AREA IS—

THE FIRST NATIONAL BANK

The First National Bank of Tahoka, established in 1907, has long been recognized in banking circles as one of the strongest banks in West Texas. Part of this reputation has come from the fact that it has ever had sound management and operation policies and has enjoyed the confidence of its many customers.

Much of this reputation came through the efficient management and direction of W. B. Slaton, currently chairman of the board, who has been identified with The First National all his adult life. Although he retired in 1956 from active management, he has remained in close touch with its operations. A. C. (Charles) Verner, who was

recently elevated to the presidency of the institution, became executive vice president on Mr. Slaton's retirement. At that time he was the choice of Mr. and Mrs. Slaton and other stockholders to take over the management of the bank, and local citizens say he is doing an excellent job. Before joining the bank, Mr. Verner had been associated with the D. W. Gagnat business interests here.

Fred B. Hegi, with the bank since 1929, was recently promoted to the office of executive vice president.

Many local citizens recall that the Tahoka bank was one of the few banks during the "depression" which remained in sound financial condition. When the "bank holiday" was declared in the early 1930's, this bank legally closed its front doors, but allowed customers to enter the back door to withdraw money or make deposits as they chose. This fact gave depositors confidence and there was no threat of a "run."

Early in the bank's history, sound judgment and confidence was established in the institution by such stockholders as the late O. L. Slaton, uncle of W. B. Slaton, W. D. Nevels, A. L. Lockwood and others.

With this kind of management, The First National Bank has never "gone off at a tangent"—a fact that has been to the best interest of depositors and borrowers.

As such, the bank has been a major factor in the building up of the lower South Plains and Lynn county as a sound agricultural area and has been a stabilizing influence in the growth, development, and sound operation of the farming business life of a rich country.

Just recently The First National has announced an innovation in banking circles—a \$1,000,000 fidelity bond, which virtually eliminates any possibility of a bank going broke from loss of funds.

Important in the success of the First National are its other officers and directors. Mrs. W. B. (Ethel) Slaton is a vice president. W. H. Eudy and J. W. Inklebarger are assistant cashiers. Other directors are L. O. Sparks, E. E. Ellis, and W. R. Slaton.

No area can be stable financially without a strong and stable banking institution. With this in mind, such a policy has ever been maintained by the Tahoka bank.

But, one of the biggest factors, is the fact that patrons of Farmers Cooperative Association No. 1 of Tahoka participate in the savings made by the above named farmers cooperatives.

This is one of the older cooperative farmer-owned gin associations in the area. This has proven to be an asset as years of experience have brought about solutions to many problems affecting ginning and operation of such a plant in this area.

Directors are elected by the membership, and each director is ever ready to lend an ear to constructive suggestions of operation of the business.

Present officers and directors, all farmers are: John F. Thomas, president; J. D. Dunlap, vice president; J. O. Allen secretary; L. D. Howell, Charlie Lichey, Lois Smelser, and Cleve Littlepage.

"Service Plus Savings" is the Motto of Farmers Co-op.

OWNED AND OPERATED BY LOCAL FARMERS—

Farmers Cooperative Ass'n. No. 1

One of the most modern gin plants in this area is the farmer-owned Farmers Cooperative Gin of Tahoka, which offers several other services in addition to cotton ginning.

C. W. Stevens, the manager of the plant, is an experienced ginner who has been with the association for many years and is well acquainted with the wants and needs of the men he works for, and at the same time is able to supervise repair and adjustment of equipment.

This organization offers the farmer "one-stop" service for many of

his needs—not only top quality ginning service, but complete service on cars and trucks at the service stations, auto appliances, fuel for farm tractors, Mexican National labor to pull your cotton, cotton burs to put back on your land, cotton handled and stored at the Co-op Compress, seed crushed at Plains Co-op Oil Mill, and is marketing service through Plains-Cotton Cooperative Association.

The new gin plant, less than two years old, features the most modern equipment obtainable for proper cleaning, drying, and ginning your staple, and is operated by experienced personnel. The older gin plant is a stand-by gin for use in peak times and is also kept in first class condition for the best turn-out.
