ATTACKS ARE MADE AGAINST HOUSTON MAN

SMALL, YOUNG, JIM AND MAYFIELD ARE FLYING MONEY

Campaign fires flared merrily Friday under the impulse of new fuel, as Ross S. Sterling of Houston, highway commission chairman and gubernatorial aspirant, was rapidly becoming the storm center of the campaign for the democratic nomination.

State Senator Clint C. Small, at Waco yesterday declared, "Texas needs as governor a man who has nerve enough to discuss other problems of state government besides the issuance of state road bonds."

Others Against Him

Most of the speeches also were directed against Sterling. At Austin, Mayfield declared Sterling was spending "vast sums of money" and asserted he had never seen such an "open, brazen and defiant attempt to buy the governor's office as is being made today by the Ross S. Sterling forces."

The former United States Senator was booked to speak today at Mart at 2:30 p. m., and at Waco at 8 p. m. over radio station WACO.

BOARD PLANS PRICE REPORTS

CONSUMERS ARE TO BE INFORMED OF CUTS IN QUOTATIONS

WASHINGTON, July 11.—Figuring it has saved consumers \$33,000,000 a month in the retail price of meat and increased producer profits, the board has decided to inform the public whenever it believes conditions warrant a cut in the retail price of agricultural products.

Teague's statement followed reports of a drastic cut in the retail price of beef since June 26, when C. B. Denman, representing livestock on the board, announced that as a result of the decline in wholesale and live weight prices the consumer should find current prices of beef considerably lower.

Within 10 days the retail meat dealers association had reported a cut of 10 per cent in the price of good beef and 20 per cent on common grades.

Prior to Denman's statement the retail price of beef had maintained a constant level despite the succession of dips taken by wholesale and live weight prices. The chain store group, Denman said, had made some reduction, but it was not until housewives made a concerted demand for lower prices that the general price declined.

When the price of beef was reduced, it was not until housewives made a concerted demand for lower prices that the general price declined.

PUBLISHERS SEND REQUEST TO PRESIDENT

WHEAT ACREAGE CUT IS WAGING BITTER IN KANSAS AREA

WICHITA, Kas., July 11.—Max M. and Louis Levand, joint publishers of the Wichita Daily Beacon of which Senator Henry J. Allen was former publisher, today entered the wheat acreage reduction controversy by calling upon Alexander Legge, chairman of the Federal Farm Board, for his resignation and an apology to Kansas.

They made public two telegrams which they said had been sent to Mr. Legge and to President Hoover. The message addressed to the president was in these words: "Alexander Legge, chairman of farm board, in his speech Thursday at Dodge City, made statement that 'biggest hog will always be in trough. Kansas is now in the trough.' This is insult to 1,800,000 people and we ask apology from Mr. Legge and, since he says he has done all he can do to help farmer, we ask his resignation. Please be kind enough to reply to this telegram as people of state of Kansas are awaiting answer."

In a similar telegram to Legge, this sentence appears: "Since you say you are through and the best you can do is to advise farmers of Kansas to 'sit tight; we ask you to resign.'"

Hyde and Legge speak in Amarillo. AMARILLO, July 11.—The federal administration's proposals for wheat acreage reduction were clarified today by Secretary Arthur M. Hyde of the department of agriculture as not calling for the removal of this country's crop from foreign markets.

We are not advocating abandonment of this country's crop from foreign markets.

SALT LAKE CITY, July 11.—Rivers of mud, silt and boulders swept from the Wasatch mountain canyons on the most destructive rain storms in the history of Utah covered the streets of the state's principal cities and many acres of farm land today.

The storm area extended from the Idaho-Utah line 150 miles southward. Five cloudbursts washed out railroad tracks, flooded towns and covered highways in many places under twelve feet of mud.

The main line of the Union Pacific was blocked at Devil's Gate in Weber Canyon by a mound of mud 25 feet of the most destructive rain storms in the history of Utah covered the streets of the state's principal cities and many acres of farm land today.

No loss of life was reported as a result of the downpour which began late yesterday.

Official estimates shortly after the downpour placed the damage at \$1,000,000.

PROBLEM: WHO IS THE WINNER?

NEW YORK, July 11.—Is one hungry American the equal of five hungry Chinese? On that depends whether Captain George Fried of the United States liner American or Captain A. B. Randall of the George Washington came out ahead in a little swap effected in mid-Atlantic.

Shortly after leaving Hamburg for New York, Captain Randall discovered he was harboring five extremely hungry Chinese stowaways, while about the same time Captain Fried learned he had an equally hungry stowaway in the person of Amil G. Olson, of Dubois, Pa. who had hidden aboard the ship in New York with the hope of getting to Havre.

As the two ships passed in mid-Atlantic, the captains via wireless, got talking things over as captains do and each learned of the other's unboated passengers. Captain Randall suggested a swap, and computing the price of rice and beef Captain Fried took him up on it. The transfer was made, but the winner in the deal has not been announced.

Women Will Entertain For Mrs. Clint C. Small

Reception Is Planned At Organization Meet In Home Of Mrs. J. H. Goodman

Honoring Mrs. Clint C. Small, of Wellington, wife of the West Texas candidate for the democratic nomination as governor of Texas, local women will give a reception at Hotel Lubbock on the afternoon of July 19 from 4 to 6 o'clock. Women of the rural districts and of surrounding towns, as well as those of Lubbock, are invited to attend, and plans are being made to entertain several hundred persons.

Plans for the reception were made at a gathering Thursday afternoon at 5 o'clock in the home of Mrs. James H. Goodman, 2401 19th street, and initial arrangements were made for a drive through which the women hope to help carry this section for Small by a large majority.

Miss Wilkinson Elected

SALVATION ARMY DOES MUCH GOOD IN MONTHS OF MAY AND JUNE, REPORT OF ORGANIZATION REVEALS; POOR AIDED

During the month of May the Salvation Army helped 45 families and aided 62 in June, according to a report issued here yesterday at headquarters of the Lubbock Community Chest.

Nineteen meals were provided free and 18 grocery orders were donated to the poor and needy during May, while 21 free meals and 15 orders of groceries were given away during June.

These reports are filed each month with headquarters of the Chest. In order that officials of the Chest may watch the work of each of the agencies being financed by the one big drive conducted last fall.

Each contributor to the Chest drive last fall is having a part in the work that the Salvation Army is doing as well as having a part in the work of the Red Cross, the Boy Scouts, the Y. M. C. A. and the Y. W. C. A. units at the Texas Technological college and the Campfire girls.

Furnish Clothing.
In addition to helping the 107 families during May and June, the Salvation Army has furnished 147 pieces of clothing in May and 141 in June, 24 pairs of shoes in May and 38 in June, along with other supplies, to those in need.

Night's lodging was given to 14 people who were homeless and had no place to stay during June. Employment was found for two persons.

Thirteen nursing calls were made during June by officials of the Army. Milk was given to children and orphans were cared for.

A total of 32 delinquent people were contacted during June and 28 for May. Advice and assistance were given these unfortunates.

Jails Visited.
During May two visits were made to the jails and five such trips were made during the month of June. Twenty-three people were contacted during these visits.

During May and June 122 religious meetings were held by officials of the Army with an approximate audience of 12,500 people. Sunday school classes were held each Sunday with approximately 376 in attendance.

Aviation Pioneer To Be Operated On

BUFFALO, N. Y., July 11. (AP)—Glenn H. Curtiss, aviation pioneer who was taken to the Buffalo general hospital after suffering from an attack of appendicitis, at Hammondsport, will be operated on today. His physician, Dr. Thew Wright, announced last night. The attack, while an acute one, has left Mr. Curtiss in no immediate danger the physician said.

IMPROVEMENTS PLANNED FOR AIRPORT BEFORE TIME FOR WOMEN'S AIR RACE

Improvements planned on Lubbock's municipal airport will be rushed to completion in time for the Women's National Air Derby, scheduled to start about August 20, according to an assurance given yesterday when members of the city commission met in regular session at the city hall.

Good progress is already being made on the airport and its improvements. "We will do everything in our power to have the plant in good working order by that time," members of the commission stated, "and will try to give every cooperation to those in charge of local arrangements for the national event. Contractors have assured us that the hangar will be complete or ready for use by that time that we can handle the influx of planes with the greatest facility."

Necessary materials for lighting in the new building were authorized to be ordered yesterday and these are expected to arrive within the near future.

Game shot by North Carolina hunters in 1929 was valued at \$2,000,000, the state department of conservation and development says.

Motor Falls 28 Stories; One Killed

NEW YORK, July 11. (AP)—A five-elevator on the second floor, killing Thursday in a building under construction in seventh street, landing among a group of workmen in an elevator on the second floor, killing one and injuring five others.

John Haney, 30, was crushed to death. Jeremiah Troy and John Roulson were seriously injured. Three other men were slightly hurt. Workmen were moving the motor from the 29th floor to a higher floor when it slipped from its slings and crashed down the narrow shaft and through the top of the elevator.

GRAY GOOSE DIES

ERIE, Ill., July 11. (AP)—The old gray goose is dead. Said by its owners to be 106 years old, a goose belonging to Sara and Katherine Allen, died Wednesday. Geese are noted for longevity, but the Allen sisters said they had never heard of another centenarian.

The sisters said the goose was brought from the coast to Rock Falls, Ill., by pioneers and later was taken to Nebraska. In 1884 the gander became the property of William H. Allen and was returned to Illinois.

Originally gray in color, the plumage turned white with advancing age.

Millions Are Being Helped Argotane

Remarkable Gain Of Twelve Pounds By San Angelo Woman On Argotane Is A Striking Example

Millions of people have taken Argotane and hardly a day passes that does not bring forth hundreds of grateful statements from all parts of the United States and Canada each and every one telling of the remarkable powers of the medicine.

Among the vast number of interesting statements recently received is that of R. P. Wallace of 204 E. Eleventh Street San Angelo, while talking about his wife's case to an Argotane representative. Mr. Wallace is a well known contractor and has many friends in this section.

"My wife has suffered for 15 years with stomach trouble and indigestion. Nearly everything she ate gave her misery from indigestion and gas would form causing shortness of breath. Always after eating she would bloat up and would be miserable for hours afterward. Her nerves were torn to pieces and she was getting to be shaky and irritable most all the time. She always felt tired and didn't have the energy to do anything. She didn't get enough rest at night because her sleep was very broken.

"Argotane was recommended to her and we decided that she should try it. She has actually gained 12 pounds in weight, had a splendid appetite and all of her digestive troubles have disappeared. These gas and bloating spells are a thing of the past, her nerves are in first class condition and she sleeps like a top every night. When she gets up of a morning now she feels fine and really has more joy of living than she did. All of those tired wornout feelings are gone. Argotane has helped my wife so I am glad to give this statement for I know that it is a wonderful medicine.

Mayor Mackey's Plan To Oppose Pinchot In Pennsylvania Emphasizes The Wet-Dry Controversy Today, Dutcher Says

By **RODNEY DUTCHER**
 NEA Service Writer
 WASHINGTON, July 11.—The reported intention of Mayor Harry A. Mackey of Philadelphia to run against Clifford Pinchot on an independent ticket for the governorship of Pennsylvania indicates the prohibition issue not only muscled up party lines and before other important issues but also disconcerts voters who prefer to vote for the man rather than the party label.

It does look as if the voters of the United States could already be divided into two classes—those who put their wet or dry sentiments ahead of all other considerations and those who also weigh various other factors in making their choice. Predictions as to whether the future trend will be toward one type of voting or the other need not be made here, but the whole thing is a heck of a strain on anyone with strong opinions who wants to be consistent and pub-
 lic-spirited in his or her voting.

A Perplexing Dilemma
 Now you might think Pinchot, who made a good record as an able progressive official in his previous term would be a far better govern-
 or for Pennsylvania than Mayor Mackey. And yet you might be inclined to believe that prohibition was a terrible affliction from which it was supremely desirable to rid the country and that the best way to tackle it was to vote for every wet candidate who came along.

Or you might have tremendous admiration for Mayor Mackey who rose as the fair-haired boy of the Vire machine. And yet you might be a fervent dry hater to vote for any wet candidate under any circumstances.

In other words you would be getting all hot and bothered about how to vote—and there must be very many voters in just such a quandary as splendid election.

For there are splendid candidates who are wet and splendid candidates who are dry. And wet candidates who are terrible to contemplate and dry candidates just as bad. Wet candidates are sometimes ignorant, boorish, crooked, fanatical, hypocritical. And there have been dry candidates with those attributes too.

Elective public officials are generally mirrors of their constitu-
 ents, so it isn't surprising to notice that the more enthusiastic wets and dries also vary in quality. Wets and dries are all kinds of people. There are many fine, intelligent wets, full of public spirit and many high-minded, idealistic dries who believe that success for their cause is im-
 portant to the world's future happiness but who also work for humanitarian reforms which do not restrict personal liberty.

In the lower strata of the wet ranks, however, one finds things, hoodlums and dipomanias. And in the lower strata among the dries there are ignorant, bigoted men and women who mix their dry senti-
 ments with religious hatred and whose greatest happiness in this world is found at a lynch party. So no one can line up definitely with either side unless he is willing to put up with a lot of good and bad fellow devotees.

Some Admirable Leaders
 In public life the dries can boast of statesmen such as Senator Norris of Nebraska and Senator Borah of Idaho and the wet can boast of

GIVE CHILD ICE CREAM FOR HEALTH
 HOT OR COLD, children must eat ICE CREAM.
 (NOTE: The following is an article I ran last summer, and as it is just as appropriate for this summer, I'm running it again for I'm pressed for time.)

During the intense heat of the summer, there is a lessening of the need for energy, both in children and adults. This is shown by the decrease in the appetite. The energy food needs are lessened because, first, there is a lessened inclination for active play or exercise, and second, with the surrounding air very warm, there is no stimulation for the body to produce extra heat to keep its normal temperature. BUT we must not be misled by the fact that hot or cold a child needs a lot of food.

The foods which are decreased during the hot weather are the foods which are often mainly to produce energy and heat—the starches, sugars and fats. The child's needs for vitamins, mineral elements and protein are not reduced one iota from what they are during cold weather.

Not infrequently the child's disinclination to eat during hot weather is observed to such an extent that he loses weight and has his resistance undermined. There is one food that children won't object to eat freely of, and that is ice cream. Now here's where I make a million wet little friends. Give it to them once a day, twice a day, if they want it. Always of course with the knowledge that it is pure that it is not eaten too rapidly and taken after they have had the other foods they need—their green vegetables and fruit and whole grain breads and cereals, a small amount of protein in eggs, cottage cheese or fresh foods. If you let them have good, clean cream (and, of course, sugar), you can cut out some of their butter, and some of the plain cream, and as much milk as would be supplied by the ice cream. Ice cream is a good way to get milk into those children who don't like it. In New York
 With Swab
 Gilbert Swan

NEW YORK, July 11.—Thanks to Mr. C. B. Willis, of Hendersonville, N. C. there's still time to change the errors of my speech if not to say my ways.

Mr. Willis—if no one else—took the trouble to near me all the way through the other night when I went in for broadcasting.

And having already admitted that I'm no Rudy, I shall begin my corrective procedure by going in for more "uh's" and less "ah's."

That bids me pause. In fact, if I paused between words I might not string them together with "uh-uh's" and "ah-uh-ah's." As between an "ah" and an "uh," I shall begin my corrective procedure by going in for more "uh's" and less "ah's."

Looking about New York in search of someone who has a cure for a well intentioned "uh," I find that nerve specialists offer the only hope. It is I learn a nervous speech habit something that never quite reaches either stammer or a stammer.

But to get back to Mr. Willis' very interesting commentary: "We listen on this p. m. to an interesting talk by a Mr. Swab (P). Yes, Mr. Willis, swab was right, particularly at that moment." I think it would have been even more interesting but for his use of "uh, uh, uh." This is written with the very best motive, and the hope that we may hear him again.

Perhaps like a certain historic Greek I might go to the seashore and put pebbles in my mouth in way of correcting my oratorical infelicities. However, I've never liked the taste of pebbles. I might start with gum-drops or rock candy or even jelly beans.

I'm certain that even if Mr. Willis and the Columbia Broadcasting Circuit gave me another chance I'd probably become nervous again and make some sort of queer noise that would be equally as disagreeable as an "uh."

And Mr. Willis quite justly would turn in on something else that happened to be on the air at the moment. I'm sure he's right in the fact that "The who hesitates is lost," at least to radio stars.

Some folks have been kind enough to blame this hesitation on a theory that the mind works so fast that the words fail to escape rapidly enough.

I wouldn't go quite that far. In fact I might argue to the contrary, that the mind, functioning with considerable fear and inhibition, clicks so painfully that the words are drawn along while the mind is being made up.

It's pleasant to learn, however, that some more important radio figures have suffered at one time or another from vocal short-circuiting. Mr. Lewis, who has excellent reputations in Washington for representing the Senate or Congress have been known to falter and fade when faced with a mere microphone, an empty room and millions of miles of space. Excited professional announcers, sitting at press rings and football games, have been known to get their words twisted and their descriptions slightly off-keel.

All that, to be sure, will not cure me of my "uh's." In fact, long before Mr. Willis discovered it, folks with whom I have conversed have asked me why I didn't stutter and have it over with. At any rate, I've started out to correct it. I no longer, for instance, say "ah" when I look at the Manhattan skyline.

FORMER MILLIONAIRE MUST BE ABLE TO PAY \$300,000 BY JULY 31 OR BE IMPRISONED; NEICE BRINGS CHARGE

(By Associated Press)
UNIONTOWN, Pa., July 10.—Once worth more than \$75,000,000, J. V. Thompson, former Fayette county banker and coal operator, must raise \$300,000 by July 31 or serve an indeterminate jail sentence for contempt of court.

The money is needed to meet notes Thompson gave while trustee of two estates here, one that of John Niccola, father of the Princess of Thum and Taxis. The case was brought into court by the Princess, who is Thompson's niece.

Confesses Inability
 Arraigned in court here yesterday, Thompson, once an aspirant for the governorship of Pennsylvania, confessed inability to meet the obligations, and was about to be sentenced to jail when his attorneys sought and obtained a 24-day stay. Thompson, they said, is working on a \$20,000,000 coal deal, from the negotiation of which he hopes to realize enough to pay his obligations. Details of the deal were not revealed.

Once the owner of vast acreages of coal properties throughout western Pennsylvania and sections of West Virginia, Thompson failed for \$75,000,000 fifteen years ago, while climbing a career as coal operator and financier begun as the cashier of a Uniontown bank. Inability to liquidate his assets was the ascribed cause of the failure, which resulted in the closing of numerous Fayette county banks, which impoverished hundreds whose interests were allied with his and which temporarily paralyzed business throughout the region.

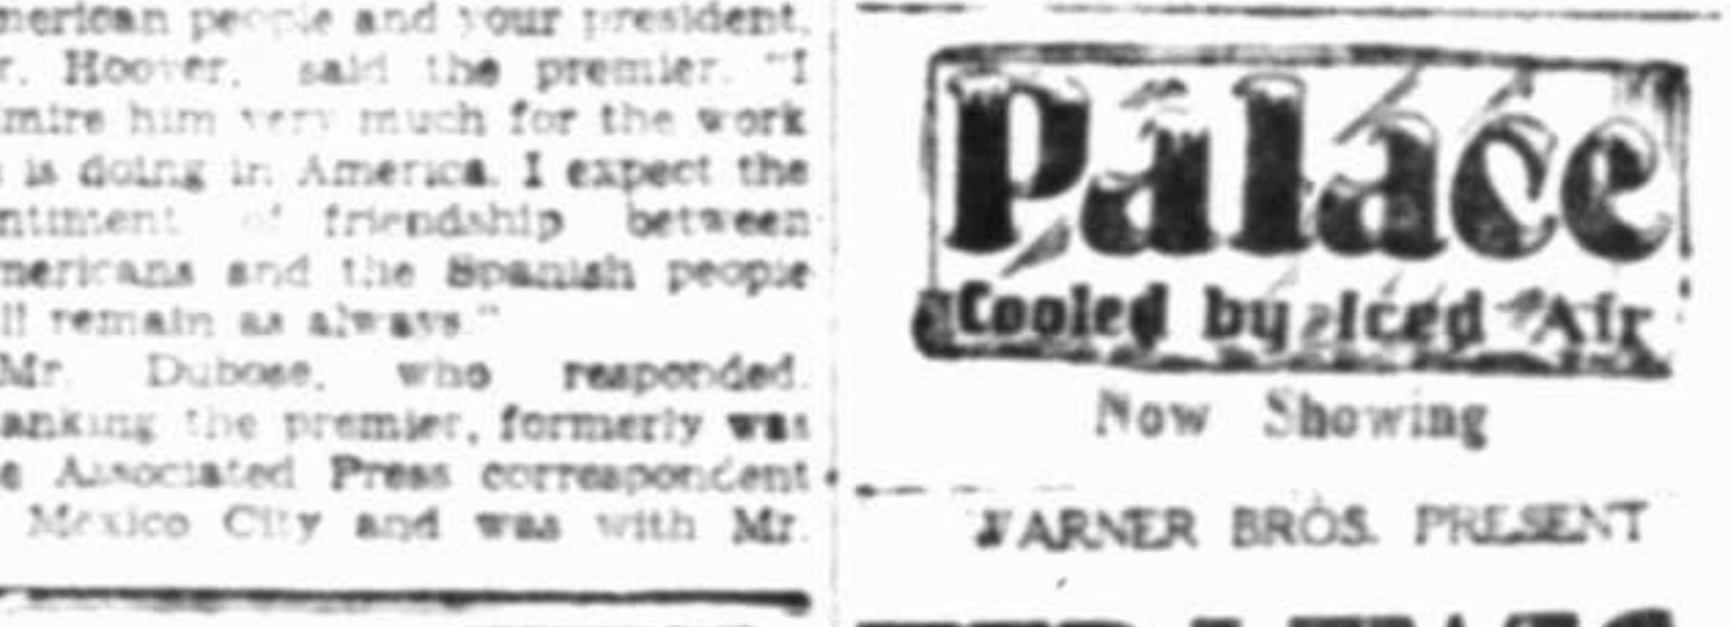

BERENGER HAS PRAISE FOR U. S.

WASHINGTON, July 11.—A good will message from Damaso Berenger, the new premier of Mexico, was delivered to President Hoover last night through the ultra modern method of talking pictures. In a special picture made in Madrid by Paramount Sound news, Premier Berenger was shown telling the Associated Press correspondent at the Spanish capital, Clarence DuBois of Texas, of his admiration for the president and the American nation.

"The message I have for your president is that I admire the great American people and your president," Mr. Hoover, said the premier, "I admire him very much for the work he is doing in America. I expect the sentiment of friendship between Americans and the Spanish people will remain as always."

Mr. DuBois, who responded thanking the premier, formerly was the Associated Press correspondent at Mexico City and was with Mr.

Faith is the force of life.—Tobit.

Touring

Probably there is no way of finding out just how many Americans are going to spend their vacation taking motor trips this summer. Certainly the number will run into the millions. A glance at any main trunk highway on a summer day would prepare one to accept any estimate, no matter how high.

This being the case, it is a melancholy reflection that a great many of these tourists—perhaps a majority—will not really have vacations at all. They will return to their homes more tired than when they started out. Instead of fitting themselves for another year of work they will have made a new drain on their nervous and physical energy.

The automobile has given us a marvelous new field in the realm of vacations. The price is that we do not yet seem to have found out the best way to take advantage of it.

There seems to be something about an automobile that compels a man to be energetic and restless. The average family sets forth on a vacation tour with the intention of making that they must cover at least 300 miles a day, if for no other reason than to prove that they and their car can do it, and there is no surer way to waste a vacation than this.

The wise ones, on the other hand, refuse to look at mileage marks. Often they will not even carry maps. Their aim is not to cover so much ground as possible but to loaf along as restfully as possible. They are the ones whose vacations really do them some good.

For the automobile while it will oblige the energetic with great bursts of speed, is also a fine time for the loafer. Once you catch on to the trick of it you can make a vacation touring the most restful vacation imaginable. If you are content to idle along, caring not in the least whether you make Jonesboro that night or whether you make to stop at Eminville, halfway to Jonesboro, willing to dawdle down the pike letting any other driver speed past you if he wants to—then the joys of motoring are really yours.

For then you can be not a restless wanderer, but a contented wanderer. There is a difference. The restless one consumes his own energy. The contented one stores it up. The restless one passes up charming towns and beautiful lakes and valleys in order to get to wherever it is that he is bound. The contented one stops when he comes to a place he likes, turns down any road that appeals to him, never frets himself about the distance he has gone or the distance that still lies before him.

If you have never tried that kind of motoring, this summer would be a fine time to give it a whirl. Leave your map at home, and set out without any destination at all. Make only one resolution—that you will not, under any circumstances, hurry. Drive just for the fun of it and not to get somewhere. You will find motoring to be a lot more enjoyable than you ever dreamed it could be.

One Way

Sometimes when a business organization suffers from over-production it calls on the government for relief. Sometimes, however, it tightens its belt and sets out to help itself.

A writer in the current issue of World's Work tells how the California fruit growers recently found themselves with more fruit than they could market profitably. Instead of howling about bad times, they promptly sent trade boats to South America to develop better export markets. The goods were enthusiastically received. It developed that since the seasons are reversed, California's fruit crop comes on the market just when the South American crop is off.

Now a trade conference is scheduled for August, with every indication that the Californians, by their energetic and intelligent handling of the situation, are going to find a good way out of the problem that has beset them.

Ice cream is one little grand food. For young and old, sick and well? Why? Because it is made of milk and cream (and, of course, sugar). We have long known that ice cream is an excellent food, but now comes some experimental work which indicates that it is even better than we thought. This work was conducted in the animal nutrition laboratory.

PREVENTION OF CHOLERA, CHIEF WORRY

SURGEON GENERAL HAS TASK BEFORE HIM IN PHILIPPINES

WASHINGTON, July 11. (AP)—Cholera and yellow fever, old scourges in a new age, have made the tropic map a battleground for Surgeon General Hugh S. Cumming, of the United States public health service.

It is a fight of many phases, brought sharply to focus by the serious outbreak aspects it involves. Rigid quarantine regulations by sky as well as by sea, and ultra-modern vaccination and eradication methods.

To Prevent Spread

To Dr. Cumming has been given the task of formulating an international convention whereby the various countries involved in tropic travel may enter a compact to prevent the spread of plagues by airplanes.

Returning to regular desk routine this week after absences which included an international health conference on tropic diseases, Dr. Cumming found the cholera problem on Uncle Sam's own doorstep for the first time in many years.

Sounds Bad

A crescendo of Philippine cables each longer than the last because it is old of more cases, more deaths, lay upon his desk.

"Sounds bad," he commented, "it has hit many of the large islands—seems pretty much all over the Philippines."

He turned the message across for inspection. The speed with which the disease spread was shown by a rail through the island of Cebu about 200 miles by sea south of Manila.

The first cable June 6 noted one death in Cebu. On June 10 there were 8 cases, 7 deaths. June 12—3 additional cases, 28 additional deaths. June 23—33 more cases, 11 more deaths. June 30—86 more cases and 43 more deaths. July 7—14 cases, 6 deaths in the port of Cebu.

The most modern note in cholera control, Dr. Cumming remarked, is the mouth method of vaccination recommended at the May league of nations health conference by Great Britain, Roumania, Bulgaria, and Soviet Russia.

In the fight against yellow fever Dr. Cumming has sent Dr. H. F. Smith, former chief quarantine officer of the Philippines on to Liberia its historic home with the instruction "Eradicate."

JIMMY COMES DOWN FROM TREE-SITTING AS CLOUDS THREATEN TO TROUBLE FUTURE

RACINE, Wis., July 11. (AP)—Spurred by the feat of the Hunter brothers and their continuous flight record in the Club of Chicago, Jimmy Clemens, 19, shinned to earth at 7:30 p. m.

In the spread of disease as it is helpful in its check, Dr. Cumming pointed out.

"There is regular plane service to France from the home of the yellow fever in Africa," he said. "Flying boats come to Miami after sailing along coast line where yellow fever has raged for years. India, which never has had the yellow fever, but which has all climatic conditions favorable to it, could be reached within a few days after a plane which carried the plague left Africa."

REPORTS BRANDED "BUNK" BY ROCHE

CHICAGO, July 11. (AP)—Reports that James "Red" Forsythe, wanted for the murder of Alfred Lingie Tribune-crime reporter, had flitted in and out of the hands of Los Angeles police were branded "the bunk" today by Pat Roche, chief investigator for the state's attorney.

The published reports said Forsythe had been arrested two weeks ago but was given his pistol and released when he assured the officers he was an employe of the Chicago corporation counsel.

"I talked with Edgar Dudley, one of the detectives who trailed Frank Foster to Los Angeles," Roche said. "I called him by long distance telephone this morning and learned that Forsythe had not been in Los Angeles, had not been arrested there and so could not have been released. The whole story is the bunk, if you ask me."

As Brought Over Associated Press Wires Today

Predicts Young

NEW YORK.—David Lloyd George has an idea about an American president of the future. The New York Times quotes Rear Admiral Cary T. Grayson as saying on returning from abroad the former British prime minister had told him: "The outstanding figure in America, politically in my judgment, is Owen D. Young. I should not be surprised to see him president before I die."

To Talk To King

LAKE GEORGE, N. Y.—The Siamese minister to the United States is to talk with his king tomorrow. It will be the longest telephone call ever, 12,000 miles.

Baseball Dangerous

NEW YORK.—An insurance company has offered another bonus given by his father to bring him down.

It was a tough grind, Jimmy said, in a statement to the press, but I'd do it again. Broadcast my experiences? Nix, that's too common.

Jimmy denied the flight was made today because of his scheduled plane lesson at 2 p. m.

Arkansan Says Liquor Was For His Sick Wife

TEXARKANA, July 11. (AP)—Although Jack Wicker of Sayre, Ark., has served a year sentence for violating the prohibition laws, the eighteenth amendment is still "Greek" to him, he said in federal court here Monday.

Arraigned on charges of possessing whiskey, which raiders said they had found in several bottles, Wicker testified the liquor was for his sick wife. He had never heard of "prohibition whiskey," he said.

He was held under \$500 bond.

Lamesa Arranges Club Gathering

(Special To The Journal) LAMESA, July 11.—All arrangements have been made here for the Dawson County Agricultural club convention Friday, according to W. W. Evans, county agricultural agent, who is anticipating an attendance of over 200 farm men and women during the meet.

Besides the program of events which include judging of live stock and home made products, a dinner will be served on the court house lawn which is to be prepared by Dawson county Home Demonstration club women. Members of the Lamesa Lions club and the Lamesa Lions club will be guests. The Chamber of Commerce is to furnish ice cream for the meal.

Simmons Student Is Rescued From Well

BUCKEYE, Ariz., July 11. (AP)—Paul Simon was alive today as the result of a three hour battle waged for his life yesterday by half the population of this town.

The young man, reported to be a student at Simmons university, Abilene, Texas, crouched at the bottom of a 22-foot well, buried under eight feet of rocks and dirt, for three hours before he finally was taken out.

After breathing through small air passage in the debris which caved in on him while cleaning out the well he collapsed when taken from the well.

SUIT IS DISMISSED

LOS ANGELES, July 11. (AP)—A \$500,000 damage suit, filed against Alexander Pantages, theater multimillionaire by Nicholas Dunay, a witness in the showman's trial last fall for criminal assault on Eunice Pringle, co-ed dancer, was dismissed in superior court today.

EXECUTOR RESIGNS
LOS ANGELES, July 11. (AP)—Geo. Ullman, accused by Alberto Guglielmi and Maria Strada, brother and sister of the late Rudolph Valentino, film actor, of mismanagement of his estate, resigned as executor today. Ullman said the resignation would aid court investigation of the charges. The heirs alleged Ullman made insecure loans and appropriated money. Ullman denied the accusations.

IT WAS JUST TWO YEARS AFTER HE SAW HIS FIRST RACE HORSE THAT SANDE WAS CROWNED "EARL" OF AMERICAN HOCKEYS.

FAST SUCCESS STORY NO. EARL SANDE

The first race horse he ever saw was hitched to the tailboard of a prairie schooner. Two years later, every track in America resounded to that famous cry, "C'm on Sande!" He always gave the public the best run for its money.

That's the reason, too, for OLD GOLD'S quick success. OLD GOLD always gives the public a run for its money with a new taste-thrill. And no throat-back.

Explain Sande? Explain OLD GOLD? ... Sande and OLD GOLD are born... not made.

JONES FACING "FIGHT OF HIS LIFE" IN NATIONAL OPEN PLAY

ATLANTIAN IS TRAINING TWO STAR PLAYERS

CHAMP ISN'T UPSET BY SITUATION THOUGH; OTHERS CLOSE

MINNEAPOLIS, Minn., July 11.—Bob Jones knew he had the fight of his life in front of him today as he pushed for the National Open golf championship stampered through stifling heat into his second round.

He found himself trapped on both sides as he battled a clan of golfing warriors as ever strode forth in any golf tournament.

One stroke ahead of Jones were Tommy Armour of Detroit, the "Black Scot" who toppled him from his throne at Oakmont in 1927, and MacDonald Smith, the stout hearted Scot from New York. To his rear, only a stroke away, were two fighters for whom he has always held respect—Walter Hagen and Horton Smith. Tied with him was "Whiffy" Cady, a product of Brooklyn's public links.

He's Satisfied

Jones wasn't upset. He was satisfied. Yes he would rather be from three to four strokes behind anyone except Armour and Mac Smith. He would feel more comfortable to have a player of the caliber of Hagen, more serious than ever before and playing the golf that made him famous in yester-years, a little farther away.

This was how the leaders stood today after the initial four of the par 72 championship stretch.

Armour and Mac Smith, 70; Jones and Cox 71; Hagen and Horton Smith 72.

Three Others In Par Class

There were three others, Harry Cooper of Chicago, J. E. Rogers of Denver, and George M. Smith of Chicago in the strictly par class. But by the time the four 18 hole rounds are over, they are expected to be bringing up the rear. Cooper, runner up to Armour in 1927, may prove the exception, however, as he seems on his game as never before.

The heat and not par stopped the big field in yesterday's opening round. The sun came out early and by the time Jones, Hagen, the two Smiths and other recognized "big shots" were on their way Old Sol streamed forth rays that sent the mercury up to 96 degrees in the shade and better than 100 on the baked fairways. The golfers all looked like ice men after a long day's work, their hands slipped at the grip and their vision was handicapped by beads of perspiration.

The weather man offered no hope for a let-up today either.

Other leaders today were:

Joe Turner, New York 73; Eddie Williams, Cleveland 73; Ernie Ottman, Louisville 73; Craig Wood, New York 73; Olin Dutra, Los Angeles 73; Jack Forrester, Oradell, N. Y. 73; and Johnny Farrell, New York 74.

Early Start Saves Chick From Defeat

ATLANTA, Ga., July 11.—Six runs in the first two innings saved the Memphis Chicks Southern Association leaders from losing yesterday game to New Orleans yesterday. Beck, Chuck hurler, banked the bats until the eighth when they scored two runs and then two more in the ninth. The final count was Memphis 6, New Orleans 4.

Five runs in the first inning gave Chattanooga a good start in its first game but Bill Reeves' Ludolph for Birmingham and held the Lookouts scoreless for the rest of the trip while his teammates pounded out 18 hits and won 10 to 5. The second game was different, however, as Bayne Lookout hurler held the Barons to one hit and triumphed 1 to 0.

Little Rock handed the lowly Mobile Bears another loss 8 to 1. The Bears only received five safe blows and made two errors to counter-balance them.

"Jim" Poole hit a homer in the eighth with one on but it fell one short of tying the score and Atlanta nosed out the Nashville 6 to 5. Polvogt, young Atlanta catcher, also drove out a four bagger with one on in the fourth.

NEW ANDREWS DAIRY

ANDREWS, July 11. (Special)—Alex Hoffman of Big Spring, has moved here and is starting a dairy. He has leased the Spira place adjoining Andrews on the east. Mr. Hoffman brought with him ten head of Jersey cows as a foundation for his herd.

Down at Big Spring a state-wide tennis tournament starts next week under the auspices of the Big Spring Tennis association. The three day event, starting July 17, will be open to all comers. Cups, prizes et cetera are to be offered winners in men's singles and doubles as well as the consolation rounds. Eighteen-inch cups are to be presented the winners. The matches are to be played on concrete courts at the high school building.

Early entries in the Big Spring net tournament indicate a fast week for the cups and prizes offered. Among the net stars already lined up for the event are Ray Brown, finalist in Texas conference tennis championship meet; Frank Whitehurst, a member of the Texas A. & M. tennis squad; Hal Lubbock, net coach; Simmons, Dallas, and one of his pupils, Steakley, Ernest Fankhauser, former Texas U. star, will likely be among those present when the fireworks start one week from today.

Lubbock is not without his own following court performers and several members of the local tennis fraternity will likely enter. Entries are to be sent to Ray Brown, Box 777, Big Spring.

Gayle Talbot, Jr., the Associated Press sports scribe in Texas, tells one of the rarest repertorial classics we have heard in many moons. It seems that one of the larger dailies of the state was without its regular sports scribe one day early in the season when the hours club was playing in its own ball orchard. In the absence of the sports editor the paper's dramatic critic was assigned to "cover" the ball game. What the dramatic critic knew about baseball was very very little but he was dead game. He took copious notes and wrote a vivid recital of the struggle. The yarn would have gotten by in anybody's league until the closing paragraph, which read thus:

Put-outs were frequent, the visitors making 24 and the home boys 27.

While the conductor of this daily spasm has not had the opportunity to see the Levittand baseball club by numerous critics that the Hookley county outfit has just about the classiest shortstop in the Plains circuit. France is the name. Lawrence France—and they say the lad covers more ground than a swarm of bumblebees. In Levittand's 12-2 triumph over Lubbock Wednesday, France turned in a great game, figuring largely in his club's first win of the season after four straight defeats.

Levittand is due to win a flock of ball games before the season is over. With a mound staff that compares favorably with any club in the loop, Manager Bailey's outfit appears capable of giving the leaders plenty of trouble from here on out. The team is liable to pass up Lubbock in the league standings unless the joes, management does a little high-powered recruiting or holds the players together better than it has been able to do recently.

The recent decision by the New York boxing fathers that from now on everything goes in the ring is looked upon with considerable apprehension by those who still believe in fair play even in the square circle. This experiment about to be conducted will make fouls impossible and it will be watched with little interest. The early reaction has been that of "no fouls there will be nothing but fouls."

A boxer who goes into the ring smoking a cigarette and never have it knocked out of his mouth, said a veteran follower of the game "There never will be a knock above the belt."

Gene Tunney is one recognized authority who believes that a fighter can wear enough protection to avoid injury from foul blows. The former heavy-weight champion's idea may prove the only salvation for the flaccid racket now staggering as a result of a stigma other than foul blows.

A broken leg is a great help to a ball player. . . . John Hopp of the American League this year . . . he broke a leg in 1928. . . . Lefty O'Doul broke a limb and the best he could do the following year was to lead the National League in batting with an average of .398. . . . Three years ago Chuck Klein of the Phils fractured a leg, and has been betting 'em out of the pastures ever since. . . . Denny Sothorn, likewise of the Philly entry, broke a leg last year and now he is having his best season in the majors. . . . Hatten Smith is calm under fire on the fairways and greens, but is panicky-stricken before a microphone. . . . A Philadelphia writer likened the quarrel between Judge Landis and Phil Ball, proxy of the St. Louis Browns, to a bout between a leopard and a Pekinese pup.

BUFFS UPSET SPORTS IN FIRST NIGHT GAME

PANTHERS ARE STILL SECOND IN HOT RACE

WICHITA STAGES MORE HOME RUNS OVER WACO CUBS

BY GAYLE TALBOT JR., Associated Press Sports Writer

Night baseball invaded the northern half of the Texas league last night when the Shreveport Sports cavorted for the first time under the klieg lights at Biedenhorn field. More than 4,000 fans witnessed the opening nocturnal tilt in Louisiana.

Unfortunately, the Sports selected the Houston Buffs to assist them in the christening. The Buffs, being old heads at the night game after a recent series at Waco, proceeded to wallop the homeboys, 9 to 5, putting something of a damper on the celebration. The Shreveport defense, unaccustomed to the glare, went to pieces in the late innings and allowed the Buffs to overcome an early lead.

Baker, Griss Homer

Tony Taftman led the winners attack on Moulton and Owens with a triple, double and single. Baker, pinch hitting for Owens in the last of the ninth, clouted a homer for the Sports.

The Port Worth Panthers meanwhile clung to second place, a game behind the leading Spudgers, by capturing their sixth straight victory at the expense of Beaumont, 4 to 0. Dick McCabe turned in another fine performance for the Indians, keeping eight hits widely scattered. Newman and Mallett, who divided duty for the Shippers, also gave up only eight blows, but the Cats bunched a few off Newman for three runs in the fourth inning. Joe Bonowitz's double was the only extra-base hit of the game.

More Home Runs

Another home run barrage figured in Wichita's 18 to 8 win over the Waco Cubs, Sports, Bettencourt, Burns and Kisona hitting for the circuit. The Cubs got off to a grand start, scoring six runs in the second inning and driving Caldwell from the hill, but Vincent kept them in hand from there on. It took the slugging leaders only two frames to tie the count and they scored in every inning thereafter.

Grover Alexander was sent to the showers for the second time in five days as the San Antonio Indians rallied in the last two chapters to trim Dallas, 11 to 2, and square their series. Old Pete went into the eighth with a 2-1 lead, but the Redskins fell on him for five runs in that inning and then drove him from the hill early in the ninth. Before Bert Grimm could get them out five more rallies were across. In addition to twirling shutout ball after the first inning Tom Estell climaxed the Indians last-inning rally with a homer, driving two mates in ahead of him.

Houston Club Gets Outfielder Peel

ST. LOUIS, July 11.—The St. Louis Cardinals have released outfielder Homer Peel to the Houston club of the Texas league, a Cardinal "farm" it was announced today.

Peel saw little action with the Cardinals this year after coming from Philadelphia in the deal that sent Grover Cleveland Alexander to the Quaker city club.

Early in the season Peel was unable to play on account of an attack of mumps, and when he recovered outfielders Watkins and Fisher, new additions to the team, were hitting so well Manager Street could find no place for him.

GLASGOW, Scotland—Dr. Lewis F. Barker, professor of medicine at Johns Hopkins university, will be awarded a degree of Doctor of Laws by Glasgow university.

BERLIN—The urge to emigrate is lessening in Germany. In the first two months of this year 5,700 Germans sought homes abroad, compared with 8,800 in the same period of 1929.

The United States consumes approximately 2,662,000,000 pounds of fish each year.

SECOND DIVISION CLUBS HAVING BIG TIME IN RACE ALL THEIR OWN; RIOT IS STAGED BY GIANTS IN PHILADELPHIA

By Hugh S. Fullerton Jr., Associated Press Sports Writer

Three eastern clubs are about all that are left in the American league pennant race, but the four western members are putting on a struggle of their own that is close enough to stir up some interest. Cleveland, holding fourth place by a diminishing margin over Detroit, is having a great rivalry with the Tigers while Chicago and St. Louis are staging an equally close struggle for sixth place.

The Indians went one up on their nearest rivals with eight victories against seven for Detroit by winning yesterday's opening game of an abbreviated series 6 to 5. Cleveland got off to a fast start and just last night to gain the decision and to improve their shaky hold on fourth place to gain a 4-2 game margin.

Browns Wake Up

St. Louis again moved ahead of Chicago's White Sox, taking sixth place by a half game margin and gaining a 7-6 margin in the games played between the two clubs by winning a ten inning game 7 to 6. The insertion of Ted Guille into the lineup turned the tide in favor of the Browns. As a pinch hitter he singled to bring in the tying run in the eighth and in the tenth he hit a home run to win the game.

Among the leaders, Washington and Philadelphia continued on even terms. The Senators leading by a half game margin Washington recovered rapidly from the break in its winning streak by taking the final encounter from the Boston Red Sox 7 to 2, as Ossie Bluge drove in four runs with two doubles and a home run. George Kariabash pitched the Athletics to an easy triumph over the New York Yankees, allowing only three hits for a 6 to 1 triumph.

The National league had but one game on its schedule yesterday and there was some doubt as to whether it was baseball that New York and Philadelphia played. The Giants won by a score of 19 to 8, hardly an ordinary baseball result, and some of the fielding looked far out of place on a major league diamond. The New Yorkers had their biggest hitting spree in the third inning when they batted around twice, made nine hits and scored ten runs. They finished with a total of 26 hits, to which the Phillies added five errors. Pete Donohue yielded 16 blows, including the feature clutch of the game, Chuck Klein's 25th home run of the season, but had no trouble going the route.

HELENE MADISON SETS NEW MARK

SEATTLE, July 11. (Special)—Miss Helene Madison, Seattle swimming marvel, set her 12th unofficial world record last night, bettering the record time of 1:18.8 in the 100 yard free-style swim. Her time was 1:16.8.

In the 400-yard breast stroke Eleanor Holm of New York Athletic club, bettered the world record of 6:02.2 held by Sybil Bauer, of the Illinois Athletic club, swimming the distance in 5:53.2.

Miss Madison has exceeded twelve world records since last February when she competed in the National indoor tournament in Florida.

LYNN COUNTY IS TO APPEAL IN BOUNDARY

ACTION TO BE TAKEN TO HIGHER COURT FOR DECISION

(By Staff Correspondent)
POST, July 11.—Lynn county is to appeal from the decision of the district court at Abilene in the famous Garza-Lynn county line dispute, which awarded some 6,000 acres of land in what has heretofore been Lynn, to Garza county, according to advices received by county officials from Lynn county, Judge W. L. Cross, county judge, said today.

Under the decision Garza county was given 610.4 acres for each section along the west side of the county from the south line to the north line. This amounted to approximately 200 acres of land for each section north and south.

To Be Taken Higher
Appeal is to be taken to the state court of appeals, by the Lynn county authorities.

The case was in the courts for a number of years. It was based on the corner of Jones county being established following an enactment of the legislature which provided for each county west of Jones to be 30 miles east and west and 30 miles north and south.

Garza county's east line was established between Garza and Kent county with legal confirmation of Garza's contention as to its eastern boundary established, the west line was found under the new survey to be 610.4 acres west of where it had formerly been.

Besides Lynn and Garza counties, several other counties including Lubbock, Dawson, were later made parties to the suit.

INTEREST SHOWN IN GARZA TEST

(By Staff Correspondent)
POST, July 11.—Considerable interest is being manifested by Post residents in the test being run down some four or five miles south and east of Post on the Stoker ranch.

The test, which has been running for some time, is reported to have reached a depth of approximately 2,100 feet.

It is being drilled by Paul Steed, of Wichita Falls and his associates. A large acreage has been secured on the Stoker land.

Location is in section two of block two O. H. and H. survey.

Most of the land that has been leased for oil and gas production is in the southeast quarter of the county. There are scattered leases over the rest of the county but the largest amount of acreages in blocks have been taken in this section.

Around Justiceburg, in this part of the county, there is now six producing wells. These wells average from 12 to 30 barrels a day and production is reported as steady. Location is east of Justiceburg and shipments are from that town.

MANAGE ANDREWS HOTEL

ANDREWS, July 11 (Special)—Mr. and Mrs. J. E. McClung of O'Donnell have arrived here and taken charge of the new hotel to be operated in the just completed speed building. New furnishings for the 22 rooms on the second floor of the building have been installed and the opening will be some time this week.

Provided suits by beautiful girls who believe they have been discriminated against in the Miami, Fla., beauty contest do not interfere, Miss Margaret Ekdahl, above, 18-year-old resident of Tampa, Fla., will go to the international pageant at Rio de Janeiro as "Miss America." She was given the title after winners of first and second place had been disqualified.

ULTRA-VIOLET LIGHT FROM ORDINARY HOUSE ELECTRIC BULBS IS USED FOR DISEASE CURE; MAY BE GREAT HELP

BY HOWARD W. BLAKESLEE,

Associated Press Science Editor
ITHACA, N. Y., July 11.—Ultra-violet light from ordinary-size house electric bulbs is curing disease at Cornell University.

This experiment, made public today, is the latest step in artificial sunlight, a practical forecast of return of the time when modern man may regain the constant ultra-violet environment under which the human race developed. The rays man got his ultra-violet out in the open. The Cornell work indicates his descendants may get it from ordinary size electric lights.

Clarifies Prediction
The Cornell experiment clarifies a prediction hazarded recently by a few advanced illuminating engineers that even in the extremely small amounts of ultra-violet known to be produced by ordinary tungsten filaments, there is sufficient for health, without risk of over exposure.

At Cornell Dr. George H. Maughan has been raising chickens under electric light bulbs the glass of which does not transmit ultra-violet. Without exception these chickens failed to grow more than half size, were unable to stand long, became greatly deformed and finally died of rickets unless given special care.

In adjoining pens were other chickens raised the same in every detail except one. The single difference was one small electric light, of glass that transmits ultra-violet. It was placed near their feed boxes so that the chickens spent considerable time near the seemingly feeble ray. Without exception these chickens developed in full health. Dr. Maughan said the small light even may have irradiated the chickens' feed with the precious ultra-violet.

More remarkable still was curing of chickens with rickets simply by keeping them under one of these small bulbs, of the special glass. Severe rickets was cured by holding the legs in the perpendicular rays of one of these lamps having a reflector, the time required being only 20 minutes a day.

The big thing in ultraviolet, says Dr. Maughan, has scarcely been touched. That is its possibilities for prevention of disease. Thus far it has been used mostly after illness started.

He is measuring the effects on chickens and rats so that the calculations thus obtained can be translated into terms of human health, particularly the protection of babies from rickets.

BANDITS ARE BEING ROUTED

SEVEN HUNDRED KILLED AND 400 CAPTURED IN ADVANCES

(By Associated Press)
SHANGHAI, July 11.—Chinese Press advices today said 700 bandits had been killed and 400 captured in northwestern Kiangsi province during the last week.

Provincial authorities were reported using their military against the brigands who in recent months have wrought chaos there.

Kiangsi officials were said to be undertaking reestablishment of some degree of security.

A similar campaign was reported under way in eastern Chekiang province, where lawlessness had reached large proportions. Northern Chekiang reported suffering and rice riots where famine conditions had brought the populace to the verge of starvation.

VISITING THE AULD SOD

SEMINOLE, July 11. (Special)—Miss Annie Armstrong, niece of the late Pat McHugh, who has resided on the Galines-Yoakum county line for 22 years, has left for New York where she is sailing for Ireland. Miss Armstrong will visit Cloona-cool, her native town. She is due to arrive in Queenstown July 21 and she plans to return about October 1.

YOUTH GETS ADVENTURE ALL RIGHT

JUDGE SENTENCES HIM TO DAY IN JAIL AND FINE OF \$10 FOR STEALING MAGAZINE

TEXARKANA, July 11. (P)—A Texarkana youth went out to find adventure, but after he could not locate it readily he decided to read about it. That thought brought him undreamed-of adventure.

He was caught in the act of swiping an adventure magazine from a news stand.

"Hold up your hands," V. E. Sumpter, news stand proprietor said, addressing the surprised boy, poking him in the ribs with a toy pistol. Police were called and marched the lad to Judge Louis Joseph's court.

"If it's adventure you're looking for I'll give it to you," said the judge, assessing the wide eyed youth a fine of \$10 and one day in jail.

"I would not have minded so much if it had been a real gun, but if I had known that guy was holding me with a toy pistol I'd knocked his block off," mumbled the adventurer as he was led away to do time.

TEXAS YOUTH DIES

HARVE, France, July 11. (P)—The French line steamship Cuba from Houston and Galveston, Texas, arrived today, the 19-year-old son of Bishop Quinn of Texas, died on board of typhoid.

COUPLE SURVIVES 100-FOOT PLUNGE

OCEAN CITY, N. J., July 11. (P)—After plunging nearly 100 feet from a bridge a young couple today extricated themselves from their automobile 30 feet under water and escaped only slightly injured.

William A. Lorelsworth, 24, of Haddon Heights, N. J., and Miss Mildred Lindsay, 22, of Yealand, Pa., were crossing over the Ocean City-Somers Point bridge when their car got out of control, crashed through the railing and dropped into the river.

Lorelsworth and Miss Lindsay succeeded in opening a door only after the car had come to rest at the bottom of the channel. They shot to the surface and swam to a nearby trolley line bridge where they were pulled ashore by a motor-man.

At the Atlantic Shore hospital physicians said they were suffering from minor bruises and exposure.

Barrels made in Arkansas, a dry state, are prized by wine dealers in the West Indies, South America and Canada.

CENSUS WORK NEARS CLOSE OVER NATION

TWENTY STATES FINISH WORK; 8 MORE WILL CLOSE THIS WEEK

(By Associated Press)
WASHINGTON, July 11.—Twenty states have shut up shop on the census.

The census bureau here has marked them "closed out," meaning that the last employe has been lopped from payroll; the last item of expense has been marked paid; the last record sent to Washington.

Eight more states will "clear" by Saturday.

Monday will see but 31 of the 975 supervisors offices still in operation, and those are scattered through twenty states.

Two More Jobs Open
When New York's report came in yesterday, only two more difficult jobs of city census taking remained with the bureau—the Philadelphia enumeration and the recount in St. Louis.

Census bureau experts were sent to both those cities to check on counts which were being challenged by civic organizations.

E. W. Koch, chief supervisor of the 1930 census, who had been for some time in Philadelphia, returned to Washington today.

E. K. Ellsworth, who accompanied Director William M. Stewart in pre-census instruction trips, is still in St. Louis supervising a careful check of its population figures.

Census Director Stewart today announced that 106,233 portfolios of enumeration districts have been received by the bureau here. The districts numbered about 120,000 in all.

Announcements Made
He said population announcements of 69,731 places—cities, towns, counties, and precincts—have been made.

Unemployment announcements have totalled 20,094.

This speed in nation-wide dissemination of census facts is unprecedented in census history. In past enumerations, the people of the United States have had to wait months before such information was available. The 1930 system of having each supervisor announce his sub-divisions just as soon as the count was completed quickened returns.

The states in which all supervisors have shut up shop are: Alabama, Arizona, Arkansas, Colorado, Delaware, Indiana, Kansas, Louisiana, Maine, Minnesota, Mississippi, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Carolina, North Dakota, Rhode Island and Wyoming.

The states which will finish this week are: Florida, Illinois, Maryland, New Jersey, Oregon, South Dakota, Tennessee and Utah.

That will leave thirty-one supervisors knitting up the tag ends as follows: Four in New York; four in Iowa; three in Pennsylvania; two each in Missouri, Texas and Wisconsin and one each in the remainder.

FRENCHMAN AT WORK

French roads and streets in Slaton and vicinity are popular or unpopular as the case may be with tourists between Lubbock and the southeast section of the county. That noted Frenchman, De Tour, has covered the community around Slaton with his imprint. Latest, is Ninth street in Slaton where state highway engineers, presumably under the guidance of M. De Tour, are tearing up things in general. They have to be paved as a part of the state paving program.

MAY GET BANK

Southland is somewhat excited over the prospects of a bank some time this fall. Recently two men from Vernon were there calling on business men and others to discuss opening of a state bank. With a good crop this fall, it is very likely that a bank will be opened, either by the Vernon bankers or some one else. There has been no banking facilities in Southland since last December.

LEON IS FAN

Leon Moses is touted as the chief baseball fan of Post. Leon likes to follow the big time games as well as the local games. He is the first man to greet the arrival of the Lubbock papers and other papers and he turns at once to the sport page. Also, the Post ball fans know that they have a firm friend in Leon. The only objection raised to Leon's leaning towards baseball is brought out by George Samson who says he should spend more time playing golf. "Gawf is the game—not baseball!" says George.

SCOUTS VISIT POST

Post streets have been resounding the past ten days with the shouts of healthy young American voices as a hundred or so Boy Scouts have made the C. W. Post memorial camp their home for that time. Every day two big trucks loaded with boys start from the camp to Two Draw lake for a swim. The return is made later in the afternoon. Some of the boys are candidates for the deaf and dumb hospital and three or four mile drive is given over to song, scout yells and the like. The Post chamber of commerce provides the trucks, local men accompany with that organization in providing the motive power.

Clara is at the left, above, while at the right is Rex Bell, cowboy movie star, who is said to have his brand on Clara's heart now. Below are three old flames of the Brooklyn beauty: Harry Richman, Victor Fleming and Gilbert Roland. Harry is shown as he put an engagement ring on Clara's finger—but that's as far as it ever got.

BENEFIT DANCE TO BE GIVEN MONDAY NIGHT FOR MILK AND ICE FUND; TO BE STAGED AT CRYSTAL BALL PALACE

The Avalanche-Journal and Federated Aid society will give a benefit dance Monday night at the Crystal Ball Palace, on Texas Avenue, in an effort to raise funds for the milk and ice fund. Mrs. W. T. Milam, chairman, announced last night. The dance will start at 9 o'clock and music will be furnished by Lew and His Eight Loony Loons. Announcement was made recently that unless relief is forthcoming immediately, the milk and ice distribution to many needy families would possibly have to be discontinued. Several families already have been cut from the list and distribution is only going to those who have sickness in the household.

Walton's Damage Suit Is Dismissed

OKLAHOMA CITY, Okla., July 11. (AP)—Federal Judge Edgar S. Vaughn, has dismissed the \$250,000 damage suit of J. C. Walton, former governor, against Plain Talk magazine and three Oklahoma City hotels which Walton named as distributors of the magazine. The dismissal order followed arguments of attorneys on a motion to dismiss the action in which Walton claimed he had been damaged by an article in the magazine entitled "Whoopie in Oklahoma." The hotels were the Huckins, the Skirvin and Kingcade.

Summer Foods Now Important

Selecting The Correct Diet Is A Problem In Hot Weather. Greatly Minimized By The Modern Bakers.

Imperial Sugar

This is a time when everyone knows the value of health and appreciates what it means to have the correct diet. One of the outstanding ailments during the summer is overloading the stomach, and with the depressed feeling of heat, people naturally do not eat so much. This naturally gives rise to a search for something light to eat. Heavy soggy bread is usually shunned—and that is why hundreds of people have turned to Sally Ann Bread during the summer time. It's light and still it is nutritious. It does not over-load the stomach or make one feel like a stuffed bologna. When you go to your favorite grocer today, be sure you get a loaf of Sally Ann Bread. It's different, and to be sure, it has been made for your use during the summer time, the time when people exercise care in over indulging. Get this fine light bread, made like flakes of snow, yet full of food value.

LEGGE, HYDE TELL KANSANS

U. S. OFFICIALS HEARD IN ANOTHER RALLY AT DODGE CITY

(By Associated Press)
DODGE CITY, Kas., July 11.—The Federal Farm board's gospel of wheat acreage reduction, Thursday was formally presented to southwest Kansas for discussion. Invading the heart of this hard winter wheat area, the Federal spokesmen, Arthur M. Hyde, secretary of agriculture, and Alexander Legge, chairman of the farm board, and an opponent of the acreage reduction program, Governor Clyde M. Reed of Kansas, renewed a debate begun Wednesday in Hays, Kas. They addressed a crowd of approximately 1,500 business men and farmers. Secretary Hyde, the opening speaker, said hot weather was the proper time to "evangelize" advocating the voluntary withdrawal of acreage from wheat production, however, he assured his hearers there was no disposition on the part of Chairman Legge or himself to "compel the Kansas farmer to do something he doesn't want to do."

Answers Challenge
Chairman Legge, answering a challenge by the Kansas governor that the board act to increase the level of wheat prices, said the board was spending million of dollars a month to carry over 60 million bushels of last year's surplus crop and that the board would not buy any more of the grain. Mr. Legge urged wheat farmers to "sit tight," expressing the opinion that if they would do so the market would improve 25 cents a bushel.

Secretary Hyde pointed out industrialization of agriculture had resulted in many new farm problems and urged the farmers to plan for profitable production. "The question of wheat growing or potato growing," he said, "is a subject which will find solution in economics, not politics. We would like to see American agriculture adopt a system which will make a profit for the producer." Asserting wheat acreage in the world since the last war had increased 40 million acres, including 14 million acres in the United States, the secretary said that was one cause of prevailing surpluses and low prices.

Secretary Hyde warned against the continued production of large surpluses which threatened to lower the living standards here, due to competition of cheap labor in other countries. through the flames eating through the front part of the building and around the sleepers by shouting "fire" and knocking loudly on each door.

Boys and girls agricultural clubs have been organized in 81 of 82 Michigan counties.

ENLARGED HEALTH WORK INDICATIVE

AUSTIN, July 11 (AP)—Enlargement of the scope of the state health department was indicated in the budget requirements of the department for the next two years as considered today by the state board of control.

The department asked an increase from \$213,320, the amount spent in the fiscal year just ended, to \$420,960 for the coming fiscal year of this amount, more than half would be spent for salaries, the increase being from \$143,710 to \$240,980. The budget calls for an increase of \$1,500 in the salary of the state health officer, to a yearly salary of \$6,000. The addition of a director of the bureau of public health education at \$6,000; an increase of nine in the number of field inspectors in the bureau of food and drugs, making a force of 15 at \$30,000 yearly; and an increase from \$6,200 to \$30,000 yearly for malaria control. A new item is \$5,000 a year for "post disaster" relief.

The budget of the board of insurance commissioners, considered today asked an increased appropriation from \$200,515 to \$212,440 yearly.

SIAMESE TWINS UN-SIAMESED

ATLANTIC CITY, N. J., July 11. (AP)—Daisy and Violet Milton were Siamese twins in a broad-walk show.

But the only thing that united them, it was revealed today, was a common purpose.

Completely un-Siamesed, they appeared in police court and demanded \$1,000 apiece back pay from their manager, whose name was not disclosed. They were in police court because, after a row with the manager over the salary question, one of them was arrested by a policeman who said he found her—all by herself—tearing down posters.

The disorderly charge was dismissed, and they were told they would have to go to some other court for financial relief.

GREGORY HATCHER VISITS IN CITY

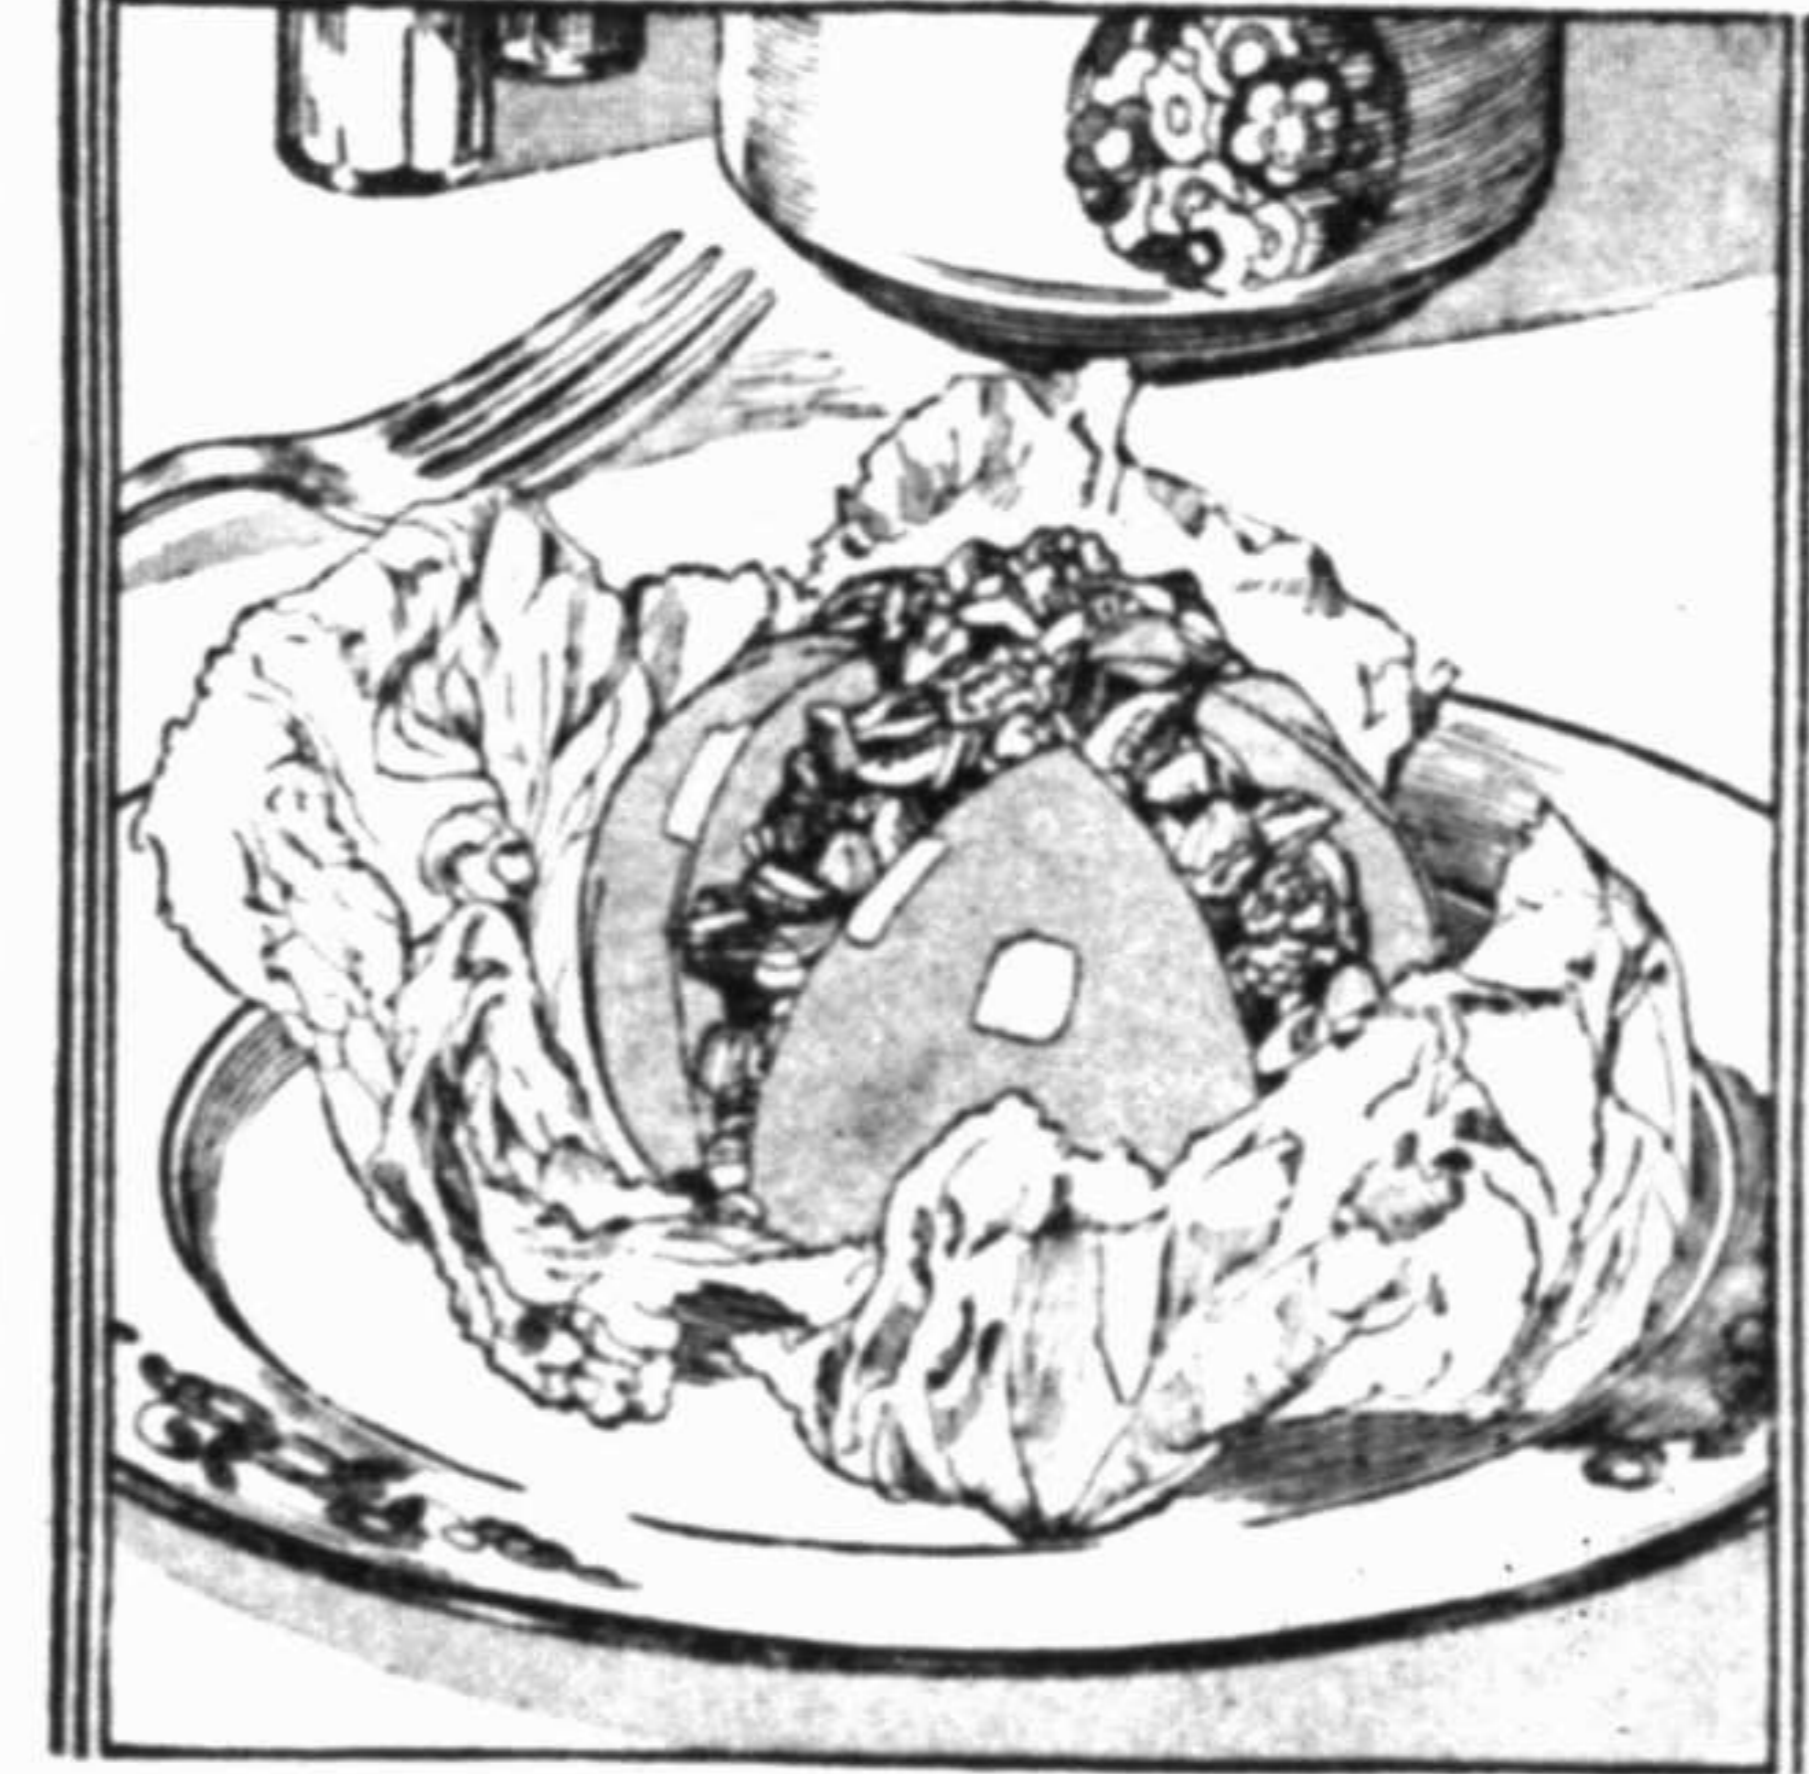

Greeting old friends and making new ones in the interest of his candidacy, W. Gregory Hatcher, candidate for railroad commissioner visited in Lubbock yesterday.

Mr. Hatcher, now serving his sixth year as State Treasurer, has announced for the commissioner's position made vacant by the death of the late Clarence Gilmore. "There are five things I would like the people to know about me," the candidate said last night. "I am just a plain old country boy, a country lawyer, country newspaper man. I was raised on turnip greens and I have a reputation for hard work."

During the past week Mr. Hatcher has toured north and east Texas, coming here from Amarillo yesterday. He planned to go from here to Fort Worth via Abilene. He is making a quiet, personal campaign and speaking on rare occasions.

He had just reached San Angelo intending to visit Jack Powell, his brother-in-law. His widow and two children survive.

THE TINYMITES

STORY BY HAL COCHRAN PICTURES BY KING

(READ THE STORY, THEN COLOR THE PICTURE)

The woman kept on with her task and, though she heard Wee Cloway ask a lot of silly questions, she made no reply to him. This puzzled Cloway for a while and then he broke out in a smile. "Our chance of finding out things," he explained, "is very slim."

"She does not understand. Oh, well, we'll find somebody else to tell us all about these carpets. What a pretty sight they are. I've heard that Persian rugs are known most everywhere, and folks who own a real one can be proud that it has traveled from afar."

The Travel Man then said, "I'll tell you how these rugs are made so well. The workers make them carefully and do the job up right. The yarn they use is good and strong. That's why the rugs will last so long. They dye the yarn all colors and it makes a pretty sight."

"There is a rug store cross the street. Let's go inside. 'Twill be a treat. There, hanging on the spacious walls, are brilliant rugs galore. And so they promptly went inside and Cloway very shortly cried, "Oh, my, but they seem much to nice to put upon the floor."

They looked around an hour or so. The Travel Man then said, "Let's go. I'll take you to a fine old man who sells a funny bread. His sales-spot may not look so neat, because he sells right on the street. The bread is cooked on pebbles that are made a fiery red. They found the bread man right nearby. The others heard we were nearby."

Coppy cry, "Oh, gee, the bread's like pancakes. Every piece is one big slice." The old bread man began to grin. Said he, "It's good when baked so thin." The Tinymites then tasted some and found it very nice.

The Tinymites see an old yarn spinner in the next story.

REVIEW OF THE WEEK'S FOREIGN NEWS

By The Associated Press

(By Associated Press)

In widely separated parts of the world—South America, Asia and Europe—the movements of armies last week supplied the drama that is told over cables and from wireless towers.

Down in the republic of Bolivia a military directorate took over the government after revolts in various sections and heavy fighting in the capital city of La Paz.

China Has Crisis
China says the second week of military crisis which may determine the governmental future of that far eastern republic, with the armies of the nationalist government battling a northern coalition on one front and large forces of communist bandits on another.

But in the third republic the troop movement was peaceful. Young soldiers in the horizon blue of France, to many of whom the World War was only something which happened when they were drilling in A. B. C.'s left the German Rhineland—and Germany was free of foreign troops for the first time since 1918.

Siles Overthrown
Bolivia overthrew completely the former regime of Dr. Hernando Siles, who fled to Chile with his family while his principal backer, the former German army officer, Hans Kundt, took refuge in the German legation. The military government started immediately to return the country to economic stability and planned later to restore constitutional government through elections.

The Chinese warfare was the worst since warm spring days opened the annual revolutionary outbreak in that country. Both sides claimed victories on the northern front in Honan, the nationalists saying they had pushed the rebels back toward the Yellow river and almost to the headquarters at Kai-feng, while the northerners said they had slaughtered armies east of Kai-feng and forced them to a disordered retreat from the Chihli province border.

City Is Sacked
In the south bandit hordes sacked the city of Yochow in Hunan province and massacred hundreds. Foreigners, among them American missionaries, fled to safety. Evacuation of the Rhineland by French troops occasioned great celebrations in Germany, the only ones not showing jubilation being those prominent in the movement which would separate the districts along the historic Rhine from the remainder of Germany. The separatists were attacked in many instances by republican patriots who taunted them with what would happen "now that your protectors are gone."

Indian nationalists continued to buck British authority by boycotting British goods, picketing shops which sell such products, and inciting to non-payment of taxes. Joseph Stalin, head of the communist party, conquered all his foes and was hailed as the dominant personality of the Soviet government

by the Allunion communist congress. Leaders who formerly opposed his policies, publicly recanted and vowed allegiance to Stalin. Stalin replied that their apologies were not enough; that he must be convinced by deeds. With this his victory was complete and he has a free hand in developing the policies of the far flung union of socialist Soviet republics.

IMPROVED BUS SERVICE GIVEN

TEXAS MOTORWAYS TO RUN SERVICE FROM HERE TO QUANAH

The Texas Motorways, Inc. has been granted a permit for through service from Lubbock to Quanah, giving time-saving and efficient service from Oklahoma City via this city to Hobbs, N. M. and Carlsbad Caverns, it was announced late yesterday.

First bus over the new schedule left Lubbock this morning at 7:30 o'clock.

Traffic to Increase
Ed C. Abbott, president of the organization, said that motor bus traffic to the Hobbs oil fields and the caverns will be greatly increased with the new schedules in operation.

The bus which left this morning, arrived at Dickens at 9:45 o'clock, at Paducah at 11:30 o'clock and at Quanah at 1 o'clock. From the latter point connections can be made for cities in the so-called State.

The second schedule is as follows: Leave Lubbock at 1 p. m., arrive at Dickens at 3:05 p. m., at Paducah at 5:30 p. m. and Quanah at 7:45 p. m.

OIL NOTES

WELLS COMPLETED
BEVELLE, July 11. (AP)—The first two producers in Pettus township adjacent to the northern Bee county oil field, the Houston Oil company No. 1 Beasley in Block 26 and Glasscock Brothers' Block 41 township have been completed.

The former was gauging 400 barrels daily through a 5-16 inch choke on the well. Top of the pay was at 3,996 feet and the total depth 3,903 feet. The Glasscock well, although only the blocks north of the Houston company's hole, apparently was in a different sand. It was making an estimated 20,000,000 feet of gas daily and yielding 62 gravity oil. Working pressure was 1400 pounds through a quarter inch choke, with production from 3,815 to 3,825 feet.

Chicago Man Pens Gem And Is Saved From "Ride"

CHICAGO, July 11. (AP)—Geo. Richardson, a taxicab driver, never was a literary man, but he wrote one gem that saved his life.

Richardson's cab had been commandeered by a robber. He compelled Richardson to drive him from one filling station to another, robbing them.

"When we get through," the robber told Richardson, "I'm going to kill you."

So Richardson, with perspiration streaming down his neck, highway.

"I am taking myself for a ride but I can't help it," he wrote. We're headed for Indiana Point, Fox Lake. Help, help."

A farmer found the note and telephone ahead to a deputy sheriff who blocked the road and stopped the cab.

He arrested Richardson's passenger, who said he was John Sullivan.

NACONA STORE ROBBED
NACONA, July 11. (AP)—The Ellis-Willford company store was robbed of cash and merchandise aggregating about \$1,000 today.
