Railroaders Watch Last Eagle Pull Out

Train No. 22, Texas & Pacific Railway Co.'s eastbound Eagle, rolled into town on time at 8:55 a.m. Thursday.

It was an event of depress-

Youngster Makes First Ride With Last Ticket

By SAM BLACKBURN
The last ticket for a ride on Texas & Pacific Railway Co.'s Train No. 21, which was taken out of service today, was sold to a young man who was making his very first ride on a train.

The ticket was a half-fare slip issued to Erick Sexton, 4, Mrs. Bill Sexton, mother of Erick, said that young Erick had been wanting to make a train ride for a long time.

"We needed to go to Fort Worth to visit some relatives, so we decided this was good a day as any to let Erick get his ride," said Mrs. Sexton, who lives at 2214 Lynn.

"I didn't know this was the

ERICK SEXTON

last ticket sold on this train when I bought it," she added. Young Erick was not particularly excited over being the holder of the last ticket sold for the east-bound Eagle. What was exciting to Erick was the hissing of the big Diesel as it rolled into the station.

He stood wide-eyed on the platform gazing at the engine and the cars as they rumbled past. When the conductor opened the door and the passengers began to embark, Erick grabbed his mother by the hand and began dragging her toward the train.

Erick's younger brother, Craig, 15-months old, wasn't stirred at all. What was worrying Craig was the chilly wind which swept the platform. He snuggled deep into his mother's arms paying no attention to Erick or the train.

ing character for many people—especially oldtimers with the T&P. The reason for the gloom was that this was the end of the Eagle—the exciting train

service that T&P inaugurated years ago ceased today. The last Eagle to "fly" the run was Train No. 21 which passed through late this afternoon in its farewell trip to El Paso.

Johnny Swindell, who was engineer on the first shiny diesel to make a trial run over the T&P 22 years ago, was the man at the throttle today on the run from El Paso to Big Spring. He had made the first run with the four-unit experiment diesel Jan. 5, 1946. The train on that historic day was a freight—84 cars in all—which broke all sorts of records on that run.

Today Swindell relinquished his seat in the cab to F. J. Oliver, another oldtimer. Oliver was in charge on the run from Big Spring to Baird.

When Swindell swung down from the diesel to end his part of the run, Tom A. Underhill, the conductor on the first leg, turned over his duties to Earl Sain.

Train No. 22 had 35 passengers on board when it rolled to a stop at the T&P station. Ten passengers, who had bought tickets here, were waiting to board.

Also on the train were a handful of T&P railroaders who were "deadheading" their way home from El Paso.

At the station watching the arrival and departure of the Eagle were a score or more railroaders, including a number who had retired after long service on the line.

The cessation of the Eagles as trains east and west was by order of the Texas Railroad Commission which had granted a request by the railroad to halt the service. The railroad said it had been losing more than \$35,000 a month on the two trains.

The action left Big Spring with only two passenger trains in service, neither of which reaches the town in daylight.

GIVE THE UNITED WAY

Road Hazard Noted, More Rains Forecast

Sleet, Snow, Floods Grip Texas Areas

By The Associated Press
Snow, sleet and freezing rains made driving hazardous in the Texas Panhandle today as new downpours added to flood conditions in the state's north central section where two persons died.

Continuing rains were in the forecasts for all sections as streets and highways slickened to cause innumerable traffic crashes.

Some families were evacuated in the Richland Hills section of Fort Worth as light rains fell again on the watershed of Big Fossil Creek.

The Trinity River, often just a muddy sewer ditch, and its tributaries in North Texas were at flood stage.

ROUTS FAMILIES
Prairie Branch, near Bowie where some residents were driven from their homes Wednesday, received 6.25 inches of rain. Bowie had 6.10 inches before rains started anew Wednesday night.

A restaurant, a bank and several homes in Bowie were flooded. Water was pumped from the town's First National Bank with fire department equipment.

Early morning temperatures over much of the Texas Panhandle skidded to the low 20s. Dalhart police said the thermometer at the police station registered 27 degrees at 4:15 a.m. Earlier, Dumas police said their thermometers showed 26 degrees with some snow on the ground and light snow falling.

SLEET, SNOW
Amarillo had sleet and snow in the wee hours of the morning, but little of it was sticking to the ground, police there reported.

Lubbock had drizzle most of the night and morning with temperatures in the middle 30s. The flood deaths Wednesday included Miss Peggy Borchardt, 21, of Sanger, Denton County. She was drowned when her car was washed into rampaging Duck Creek southwest of Sanger.

Miss Borchardt worked for a Dallas insurance firm. R. L. Ballard, 33, of the Fort Worth suburb of Hurst drowned when swept down Big Bear Creek between Fort Worth and Dallas as he tried to retrieve a car that had been washed from a road.

Two Navy Yards On Closure List

WASHINGTON (AP) — Congressional sources said today the Brooklyn, N.Y., and Portsmouth, N.H., Navy yards are among those picked by the Defense Department to be closed. A well-placed source here said that not only the big Brook-

Texas Base Meets

★ ★ ★
TEXAS BASES ON THE LIST

Rep. Henry Gonzalez, San Antonio, today said that Amarillo Air Force Base and Conally AFB at Waco are scheduled for closing under a base reduction plan announced by Secretary of Defense Robert McNamara.

Also included in the reduction program are 12 Atlas F missiles in the Dyess AFB area near Abilene. Each Atlas missile normally has a complement of 90 officers and men. A B52 F Squadron from Barksdale AFB near Shreveport, La. is slated to be moved to Carswell AFB at Fort Worth. This would add about 1,200 military and civilian personnel at Carswell. No other Texas installations were mentioned in the reports.

★ ★ ★
By The Associated Press
At least two meetings were called today in Texas apparently in connection with the announcement scheduled for about 2 p.m. about closing of military installations.

Rep. Jim Wright, D-Tex., called a press conference in Fort Worth at 1:30 p.m. regarding the McNamara action.

Maj. Gen. William Hudnell, commanding the San Antonio air materiel area, asked for a special meeting of the San Antonio City Council.

Later, Col. Raymond Seidel, information officer at Sheppard Air Force Base at Wichita Falls, called what he termed an im-

portant news conference for 2:15 p.m.

At Abilene, military officials at Dyess Air Force Base scheduled a conference at 2:30 p.m. Abilene city officials were expected to attend the meeting.

Dance Planned For Students

High school and college students will be treated to a dance planned for Thanksgiving evening at the National Guard Armory, sponsored by the Junior Chamber of Commerce.

The dance will be open to all high school, Howard County Junior College and visiting college students in Big Spring for the holiday.

A dance band composed of students from Abilene high schools, the Satans, will provide music. The dance will be from 8 p.m. until midnight, with admission \$1 per person.

Full Transcripts Coming On Commission's Inquiry

WASHINGTON (AP) — The hearing transcripts and exhibits of the Warren Commission's inquiry into the assassination of President John F. Kennedy will be made public on Nov. 30. There are 26 volumes weighing 54 pounds.

The White House announced today that the mass of testimony will become available for

lyn naval installation but also two other bases in New York—the Brooklyn Army Terminal which employs about 2,000 persons and Ft. Jay on Governor's Island—also are among the bases slated for closing.

Sen. Thomas J. McIntyre, D-N.H., announced earlier that the Portsmouth Naval Shipyard also was among the bases to be closed. It is the nation's oldest yard.

HIRES 10,000
The Brooklyn yard employs about 9,000 to 10,000 workers and New York members of Congress have said a shutdown or job loss there would have a serious economic impact.

About 2,000 work at the Brooklyn Army Terminal. McIntyre told a news conference at Portsmouth that the yard there would be one of the 95 to be named for closing at a McNamara news conference today. He said it will be phased out over a 10-year period.

NOT AFFECTED
Simultaneously with the disclosures on Brooklyn and Portsmouth, two Virginia congressmen said no major naval installations in Norfolk, Portsmouth, Va., or Virginia Beach were on the closure list.

McNamara, in announcing Wednesday that the list would be given out today, said bases in 33 states would be affected and would go out to congressmen from the areas.

He said a handful of bases to be closed overseas would be identified later.

publication and broadcast at 5:30 a.m. Big Spring time Nov. 30. First newspaper publication will be in afternoon papers of that day.

The testimony, which led to the commission's finding that Lee Harvey Oswald, acting alone, killed Kennedy in Dallas last Nov. 22, will be sold by the government printing office in complete sets only, at \$76 a set.

County's First Fall Freeze Due Tonight

Howard County residents will have to dig out some long-sleeved shirts and top coats if the temperature drops to the predicted 26 to 32 degrees tonight. Cold rain, with possible snow flurries, are predicted for parts of the area late today or tonight.

The heaviest rainfall in two months fell over a large portion of the county last night, with the heaviest being around the south and southeast part of Big Spring where an inch fell. To the northwest through Fairview, Knott and Ackerly, only small showers fell, with none reported at Ackerly.

The Big Spring Experiment Station gauge registered .32 inch, raising the three-day fall to .44. Other Big Spring and adjacent gauges showed: 405 Pennsylvania, one inch; Big Spring Country Club, one inch; south end of Goliad, one inch; Kentwood, .60 inch; College Park area, .6 to 1 inch; Trinity Memorial Park, .23 inch.

Other readings showed Texas Electric Service Co. switching station .47, Otis Chalk .50, Forsan .50, Elbow .80 to .90, Lomax 1.00, Moss Creek .50 to one with light hail, Coahoma .90 with hail, but no damage, Fairview Gin, .30 for three days, Howard County Feed Lots, 14 miles on Snyder Highway, .50; Wilson Ranch in northeast Howard County, .70, Wilkinson Ranch 10 miles west of Big Spring, .50, Vealmoor, .80. Some hail fell around the Big Spring Country Club. No hail damage was reported in any area.

Following three days of fine and heavy mists, the heavy clouds turned loose around 8 p.m. Wednesday to bring the first rains of consequence since September. The year's rainfall so far measures 9.82 for the year at the Experiment Station, and 44 of that has fallen in the last three days.

FBI Chief Hits Warren Panel, Martin L. King

ATLANTA, GA. (AP)—Dr. Martin Luther King Jr., Negro civil rights leader, branded today as irresponsible a charge by FBI Director J. Edgar Hoover that King lied about actions of federal agents in Albany, Ga. A telegram to Hoover from King, who is in the Bahamas, was released here by his office.

MARTIN L. KING

WASHINGTON (AP) — FBI Director J. Edgar Hoover has blasted the Warren Commission as "unfair and unjust" and called Dr. Martin Luther King Jr. "the most notorious liar in the country."

Hoover boiled over on these and other matters, including lenient "bleeding heart judges," in a lengthy interview Wednesday with a group of women reporters.

He angrily charged the Warren Commission with "a classic example of Monday morning quarterbacking" in discussing its report on the assassination of President John F. Kennedy.

PANELS' CLAIM

The commission, headed by Chief Justice Earl Warren, has said the FBI failed to notify the Secret Service that the assassin, Lee Harvey Oswald, was in Dallas last Nov. 22, the day Kennedy was slain.

In New York City alone, Hoover complained, 7,000 persons would have to be taken out of circulation every time a president makes a public appearance if it were deemed necessary to remove "every individual who might threaten the safety of the president."

However, the FBI director said, his office is turning over to the Secret Service the names of

"thousands of beatniks, crackpots and kooks."

THOROUGH JOB

Hoover appeared before the commission last May 14 and told newsmen after testifying the panel was doing "a very thorough job." He said it had "even gone beyond what a reasonable man would have expected" in accumulating evidence.

Shortly after the commission issued its report Sept. 27, Hoover was entwined in controversy. The Washington Evening Star published Oct. 2 a copyright partial transcript of the FBI director's testimony, some of which was sharply critical of the State Department and some of the security measures taken to protect the president.

Wednesday he said there is "not a scintilla" of jealousy between the FBI and the Secret Service, which is charged by law with protecting presidents. Efforts to reach the members of the Warren Commission, some of whom are traveling abroad, were not successful.

BLASTS KING

Hoover let fly his blast at Dr. King, head of the Southern Christian Leadership Conference in discussing civil rights. He called the Negro integrationist who recently was named winner of the Nobel Peace Prize a liar for advising Negroes not

to report any civil rights violations to the Albany, Ga., FBI office because the staff members were all Southerners.

When he asked King to make an appointment so he could prove that four of the five men were born in the North, Hoover said, King would not make the appointment.

The FBI director went off the record for further comments about the minister.

POLAROID COLOR PACK CAMERA

Color pictures in 30 seconds

Beautiful full-color pictures are ready to enjoy just 30 seconds after you snap the shutter (and they don't even have to be coated).

Black-and-white pictures in 10 seconds

Crisp, brilliant black-and-white pictures are ready in only 10 seconds. Development takes place outside this new camera.

New pack loads in 7 seconds

A revolutionary new film pack makes loading simpler than ever before. Just open the back of the camera, slip the pack inside, pull a tab and you're ready.

Color flash pictures automatically

The electronic shutter can read the light of a flashbulb and set the correct exposure automatically — all within the duration of the flash! No more special guides or settings for direct flash pictures.

Automatic time exposure

The electronic shutter can actually make automatic time exposures for you up to several seconds long. Just press the button and when the shutter has measured enough light it closes itself.

Black-and-white pictures without flash

If you can read a paper comfortably you can make black-and-white pictures without flash or wink-light. Pictures have a natural look, are quick and easy.

Weights less than many 35mm cameras

This is the smallest, lightest camera Polaroid has ever made — lighter even than many 35mm's!

LAY-A-WAY NOW FOR CHRISTMAS

Tech, Hogs Square Off

By The Associated Press

The Southwest Conference leaders in offense and defense—Texas Tech and Arkansas, respectively—are on a collision course this week with their paths due to cross Saturday afternoon before 45,000 in Lubbock.

It's not without reason, therefore, that both the Red Raiders and the Razorbacks are working on what they already do best: For what better way is there to crack a strong defense than to confront it with an even stronger offense, and vice versa?

Tech coach J. T. King juggled his offensive line yesterday with an eye toward beefing up his attack. He moved 206-pound Chester Howard from tackle to guard, and filled in at tackle with 240-pound Bill Malone. King said halfback Johnny Agan's sprained ankle was coming along nicely enough for him to see action Saturday.

Meanwhile, deep in the Ozarks at Fayetteville, Arkansas coach Frank Broyles concentrated mostly on drills against key Tech offensive maneuvers, especially pass patterns.

Arkansas, already Cotton-Bowl-bound, can close out a perfect regular season by beating Tech, and the Razorbacks expect to play in the Bluebonnet Bowl should they upset the No. 3 ranked Hogs.

Texas, rated fifth in the country, went through a non-contact drill yesterday in preparation for the Thanksgiving Day clash with Texas A&M. The Aggies traditionally give their best effort to dump the Steers, and Coach Hank Folsberg said workouts the rest of the week would be intense.

Longhorn coach Darrell Royal said three squad members missed the mid-week workout because of lingering injuries—fullback Tim Doerr, tackle Clayton Lacy and end Sandy Sanders. He added that Lacy would probably be able to play against A&M. The Steers have accepted a New Year's night invitation to play in the Orange Bowl at Miami, Fla.

Several Rice standouts suffered from injuries at workouts, but trainer Eddie Wojewski said all of them should see at least some action Saturday when the

Owls are host to Texas Christian. On the ailing list were fullback Paul Piper, halfback Gene Fleming and quarterback Walter McReynolds.

Rice concentrated on defensive efforts against a couple of TCU backs from the Houston area—Jim Fauver of Houston and Larry Bulaich of Lamarque.

Up in Fort Worth, TCU Coach Abe Martin said the 42-minute workout on a rain-drenched field was "one of the best drills this season."

Baylor journeys to Dallas Saturday to engage Southern Methodist and preparations at Waco were closed out with a routine drill that concentrated on goal-line defense.

SMU mentor Hayden Fry put the Mustangs through primarily defensive efforts yesterday in light of the Bears' aerially oriented attack.

Baylor players voted to select three team members as permanent captains for the rest of the year: end Bill Haglan and tackles Bob Oyler and John Kneel.

BOWLING BRIEFS

BLUE MONDAY BOWLETTES
Results—City Pown tied Casey Packing Co., 2-2; Cook & Taggart over Coker 3-1; State National Bank over Oldham Oil, 4-0; Smith & Coleman over Galt Housekeeping, 4-0.

JOINS FAMOUS TEAM
A. C. (Paul) Valenzuela

Eighth Valenzuela Takes Mounts At Sunland Park

EL PASO — If a Sunland Park racing fan opened his program to discover that every jockey in a race was named Valenzuela, he might figure the printer had a case of stutters — but it could happen.

The Valenzuela family has invaded racing in a big way with eight members of the clan now actively engaged as riders.

Probably the most noted of the group is Ismael, better known as Milo. The popular Milo is the regular rider of four-time Horse of the Year Kelso and has piloted the mighty "Kel" to many of his most important victories which have helped him become the biggest money winning horse of all time.

The riding Valenzuelas include: Milo, Angel, A. C. (Albino), Paul (Apollonio Contreras), Al, Mario, Santiago and Jge.

A native of McNary, Texas, a suburb of El Paso, Milo has made several guest riding appearances at Sunland Park and always attracts an appreciative throng of his countrymen.

Brother Angel won the first race ever run at Sunland Park on October 9, 1959.

A regular rider on the "big apple," Angel rode C. V. Whitney's Bug Brush to a mile and one-eighth world's record at Santa Anita and established a second world's mark at Del Mar when he sizzled six furlongs in 1:07 4-5 aboard the flying Crazy Kid.

Two younger brothers, Mario and Santiago, are both apprentices plying their trade at eastern tracks. A third brother, Albino, suffered a severe injury early in his career but has re-

covered and is showing real promise.

Four Valenzuela cousins are also enjoying success. Twenty-three-year-old Paul (A. C.) is doing well at Sunland Park, Al is campaigning at Caliente and Joe is keeping the family name in print at the Las Vegas meeting.

Although Francisco Cazares does not possess the magical name of Valenzuela, he is related by marriage. Francisco has the distinction of winning the first race of the 1964-65 season at Sunland Park and on Friday the 13th, he pulled the surprise package of the year booting home Flashy Mark for a \$367.60 mutuel. It was the largest straight payoff in Sunland Park history.

Horsebacking comes natural to the Valenzuelas as their ancestors were themselves great horsemen. The late Angel Contreras Valenzuela, father of Milo, Angel, Albino, Mario and Santiago, taught his sons to ride as soon as they were able to walk. And his tutelage has paid off handsomely. Both Milo and Angel are wealthy young men with extensive business and land holdings in California and Colorado. And the younger members of the family are rapidly making names for themselves as jockeys.

One day, if the name of every rider in a race at Sunland Park was named Valenzuela, Angel Contreras Valenzuela would surely smile and feel that his boys had learned their lessons well.

Do A Service—Give Deer Hide

ABILENE — "If you bag one — bag it!" deer hunters are reminded by Mrs. T. C. Campbell, Abilene. "At least bag the hide," she pleads, "as we're begging every scrap of buckskin for patients in our state hospitals and special schools."

The Volunteer Services Council, headed by Mrs. Campbell, once again will have donated hides tanned and distributed the leather among the 28,000 patients in Texas mental hospitals, tuberculosis hospitals, and schools for the mentally retarded. It is used in rehabilitation projects.

"Throw a handful of table salt on the hide, let it drain, 'bag it' in heavy paper and send it to Austin Taxidermist Studio, 2708 South Lamar, Austin, and we'll do the rest," explains Mrs. Campbell.

"Mark the shipping tag 'charity' and most motor freight lines will haul hides without charge. If hunters request, locker plant operators will send in hides," adds the council leader.

"The 28,000 Texans in the hospitals and schools join me in saying, 'we hope it's in the bag' for every sportsman," said Mrs. Campbell.

Robinson Is MV Player

BALTIMORE (AP) — Brooks Robinson, who was told as a youth he had a questionable future in baseball, is the American League's Most Valuable Player for 1964.

"This is the most wonderful thing that ever happened to me," Robinson said Wednesday night after his landslide victory was announced.

The Baltimore third baseman, whose heroics almost carried the Orioles to a pennant, drew 289 of a possible 280 points in the voting by a special 20-man committee of the Baseball Writers Association of America.

The only player named on all ballots, Robinson drew 18 first place votes. The other two went to Mickey Mantle, who sparked the New York Yankees' late drive to another pennant. Mantle finished with 171 points. A first-place vote was worth 14 points, with 9 for second, 8 for third, etc.

Elston Howard of the Yanks, last year's winner, finished third with 124 points. Rookie batting champ Tony Oliva of Minnesota was fourth with 99, followed by pitcher Dean Chance of Los Angeles, the Cy Young award winner, with 97.

Robinson, 27, topped American League third basemen in fielding for the fifth straight year. And to go with his spectacular glove work, he led the league with 118 runs batted in, finished second in hitting with a

.317 mark, and slugged 28 homers.

"I felt that I had a pretty good chance but I never thought I'd win," Robinson said. "This is an award every player would like to win but few ever do."

As a high school student in Little Rock, Ark., 10 years ago, Brooks had doubts about his baseball future.

"I was told by various scouts and coaches that my arm was not good enough and that I couldn't run fast enough," Robinson recalled. "But I wanted to play."

As an 18-year-old, Brooks played 95 games of Class B ball in 1955 and then made his major league debut. He made several more trips to the minors, but appeared in games with the Orioles every year thereafter. He quickly became the darling of the fans, and sort of grew up with the new franchise.

Webb Defeated By Goodfellow

SAN ANGELO — Goodfellow Air Force Base of San Angelo defeated Webb Air Force of Big Spring here Wednesday night, 108-61, to run their season mark to 6-3.

The Skyhawks were led by Delonza Hicks with 31 and James (Beetle) Bailey with 21 points while Adolphus Dickerson hit 21 for Webb. Goodfellow led at the half, 55-27.

City Tourney Continuing

Competition in the annual Big Spring Women's City Bowling tournament will continue over this weekend at the Bowl-A-Rama. Entry fee is \$2 per event.

Twenty-seven teams have entered thus far. Membership in the City Women's Association totals 441. Activity in the meet got under way last weekend.

Keglers who ordinarily compete at Webb AFB are eligible to compete in the City meet, if they are properly affiliated with the association.

EXPLANATION — The Dunkle system provides a continuous index to the relative strength of all teams. It reflects average scoring margin relative to index of opposition, and is weighted in favor of recent performance. Example: A 50.0 team has been 10 scoring points stronger, per game, than a 40.0 team against opposition of equal strength. It was originated in 1929 by Dick Dunkle.

Kirkland Is Likely 2-4A Aerial Champ

Barring a surge of massive proportions by Midland's Bobby Cutshall, Benny Kirkland of Big Spring has passing honors sewed up in District 2-AAAA.

With one regular season game remaining, Kirkland has completed 58 of 123 passes for gains totaling 526 yards. Four of his downs and six have been picked off by the opposition.

Cutshall is a distant second in the race, with 37 completions in 94 attempts for gains aggregating 411 yards and no touchdowns. He has had eight aerials intercepted by the foe.

Larry Priddy of Odessa High is the new rushing leader, having picked up 484 yards in 108 tries for a 4.6-yard average.

Juan Guerrero, San Angelo, is a close second with 479 yards in 63 tries for a robust 7.6-yard average. The erstwhile leader, Ross Montgomery, has dropped to third place with 451 yards in 84 carries for a 4.7 average.

The top pass receiver in the league is Mack Lawrence of Midland High, who has grabbed off 21 for 197 yards. Rickey Earle, Big Spring, has caught four less than Lawrence but has gained a total of 209 yards.

Guerrero remains the leading receiver in yards gained with a total of 289 yards on 11 completions.

Montgomery is the leading punter, with a 37.3-yard average in 19 boots.

Coahoma Navigators

Pictured above are two of the boys who are responsible for quarterbacking duties on the Coahoma High School football team this fall. They are Marshall Williams (left) and Dwayne Allen, poised to operate against Seagraves in a Class A playoff game at Andrews Friday night. Starting time is 7:30 p.m.

Fans Jam Hotel Ballroom To Pay Homage To Joe

SAN FRANCISCO (AP) — Joe DiMaggio shook hands with nearly every one of the 1,500 persons who jammed a hotel ballroom Wednesday night to honor the Yankee Clipper before his 50th birthday.

"I've never seen anything like it," said DiMaggio, who reaches the half-century mark Nov. 25.

He posed for pictures for two hours, delaying the program. The crush of the guests also helped postpone dinner.

The former New York Yankee great posed repeatedly with Mickey Mantle and Willie Mays. Mays played his first season with the then New York Giants in 1951, the year DiMaggio was ending his playing days across the Harlem River.

The four DiMaggio brothers were the group to catch attention. Three of them — Joe, Dom and Vince — were professional baseball players and major leaguers. The oldest, Tom, was a top semipro third baseman in San Francisco, but he had to help his father man the fishing boats to feed the nine DiMaggio children.

The celebrities in the Sheraton-Palace main ballroom came from coast to coast and represented every sport.

Almost all were famous men,

but noticed in the crowd were former Yankee owner Del Webb, and San Francisco Giant sport man Horace Stoneham. Sportscaster Mel Allen was the master-of-ceremonies.

The gala celebration took place about one mile from Fisherman's Wharf, where DiMaggio's father worked from daybreak to past sunset in the boats. Now his next-to-youngest offspring, Joe, plans to be a director of Fisherman's Bank, which will be located on the wharf near where his father struggled to make a living from the sea.

Bills To Give Star Chance To Make Good

By MARVIN R. PIKE
Associated Press Writer

BUFFALO, N.Y. (AP) — Cookie Gilchrist, fired Tuesday from his \$30,000 job as fullback for the American Football League's Buffalo Bills, was back on the payroll today after admitting he had been a bad boy.

He was placed on the waiver list two days ago because Coach Lou Saban said, Gilchrist's behavior had been injurious to the morale of the Bills. He has been in trouble with Buffalo police, missed some practice sessions and reportedly violated curfew rules.

But Wednesday night, the 29-year-old, 250-pound line-smasher stood before newsmen and said he had told Saban and his teammates earlier he was "truly ashamed" for the things he has said and done.

Saban, absent from the news conference, released a statement in which he said he would give Gilchrist another chance.

"Because Cookie has asked the forgiveness of his teammates and admitted to me he has been 100 per cent wrong in incidents leading to his dismissal, I have reconsidered and will give him an opportunity to prove that he is part of the Buffalo Bills team."

Gilchrist, the AFL's leading ground-gainer, will be at practice today, Saban said.

The 10-year veteran of professional football, in his third season with the Eastern Division-leading Bills, wore a grey suit and heavy-rimmed glasses as he told reporters he had "criticized my teammates and my coaching staff—unjustly."

"I am sorry," he said.

He said he had asked his teammates to give him another chance because "I feel I had let them down."

He did not mention his play against the Boston Patriots Sunday, when the Bills suffered their first loss of the season after nine victories.

In that game, Gilchrist gained only 31 yards and was not as effective blocking for his passing quarterback, Jack Kemp, as he had been in the Bills' previous games.

Shortly before Saban relented, Gilchrist appeared headed for the Oakland Raiders, one of three AFL teams that claimed him. It would have cost the Raiders \$100, the waiver price, and they would have had to absorb his \$30,000 contract.

Boston and the New York Jets also put in claims.

Wet Field Likely For Friday Game

Big Spring got in a last workout Wednesday afternoon for its Friday night venture into San Angelo, despite uncooperative weather.

Except for a couple of sophomores who are aiming, coach Don Robbins pronounced his team ready for the important encounter, which could make or break the Steers' chances for a first place finish in the 2-AAAA race.

Robbins indicated that he would take his entire high school squad to the game site. Some will not suit up, however, because there is not enough fog to go around.

Reports from San Angelo say rains have been fairly hard in that area. Unless the field gets some sunshine between now and Friday evening, the turf is apt to be very soggy.

It's a moot question which team would be hurt the more, San Angelo with its speed or Big Spring and its passing game.

San Angelo has outgained the opposition by 800 yards over the season but 20 fumbles lost and 11 interceptions have hurt the Bobcats. The Cats, on the other hand, have recovered 11 enemy bobbles and picked off six aerials thrown by the opposition.

Julio Guerrero, San Angelo's

Sabbato Is Low Among Entries

Jody Sabbato of Big Spring captured first place in the A Play golf competition at the Big Spring Country Club Tuesday.

Poor weather held down the list of entries. In B flight play, Cary Magee of Big Spring wound up first.

Margaret Vann of the Odessa Country Club posted the low net in B flight while Ernestine Smith, Big Spring, had the fewest number of putts in that division.

In C flight, Ruth Keeling of the Odessa Country Club was low while Billie Hickerson of the same club had that flight's low net score.

BOWLING BRIEFS

Six 4A Grid 11's Awaiting Playoffs

By HAROLD V. RATLIFF
Associated Press Sports Writer

State playoff brackets in the upper classes of Texas school football will be filled out this week while the lower divisions begin the five-weeks fight for championships.

Six schools already have earned trips to the playoffs in Classes AAAA and AAA.

Garland, defending champion, leads the AAAA schools into the big showdown. Amarillo Tascosa, Nederland, Galena Park, San Antonio Highlands and San Antonio Burbank are others in the playoffs.

Other district races are like this: El Paso vs. Ysleta, Odessa by beating Odessa, Permian, Wichita Falls Rider vs. Fort Worth Castleberry, Fort Worth Paschal by beating Fort Worth North Side, Dallas Hillcrest vs. Dallas Woodrow Wilson, Texarkana by beating Tyler Lee, Houston Jones vs. Houston Lee, Spring Branch vs. Houston Memorial, Waco Richfield vs. Austin McCallum, Victoria vs. McAllen.

Paschal and North Side decide the district crown at Fort Worth tonight but all other title games are Friday night.

Class AAA's playoff teams already determined are Dumas, Andrews, Sweetwater, Vidor, Cypress, Fairbanks and San Marcos. The other districts stand like this:

Wichita Falls Hirschi by beating Burk Burnett, Weatherford vs. Stephenville, Bonham by beating Sulphur Springs, Palestine vs. Jacksonville, Athens vs. Duncanville, Lamar Consolidated by beating Port Lavaca, Deer Park vs. Clear Creek, Austin Lanier by beating Gatesville, Kerrville vs. South San Antonio, Pharr-San Juan-Alamo by beating Falfurrias.

All are Friday night except the Hirschi-Burk Burnett game and it comes tonight.

Five former champions are in the field that starts the big drive for state titles in Classes AA and A.

Two of the undefeated, untied teams—Phillips and Iowa Park—clash in the opening round. They tangle at Berger Friday night in the feature game.

Canton, the only unscored on

team in the state, puts its flawless record on the line against Cooper, a thrice-beaten team.

Class A's former champions seeking a return to glory are White Oak, which tied for it in 1957; White Deer, which won it in 1958, and Petersburg, the defending champion. Fifteen of the 32 teams in the playoffs are returnees but none of them got to the quarter-finals last year except Petersburg.

The headline game has to be Petersburg's struggle with Springlake, which reached the bi-district with a 9-1 record, the same as Petersburg. On the basis of victory over Idalou, a team that beat Petersburg, Springlake will be slightly favored to halt the defending champion's drive back.

Only four teams have undefeated, untied records — Coahoma, Clifton, Hull-Daisetta and Three Rivers. Hull-Daisetta, the highest scoring team in the state with 530 points in 10 games, is favored to go all the way to the championship. Hull-Daisetta plays twice-beaten Weimar in the opening round.

Here's how they look:

CLASS AA

Friday—Phillips over Iowa Park, Denver City over Floydada, Plano over Marlin, Atlanta over DeKalb, Taylor over Cam-

eron, Katy over Columbus, Palacios over Floresville, Sinton over Bishop, Los Fresnos over Freer, Port Acres over Cleveland.

Saturday—Alpine over Stamford, Dublin over Fredericksburg, Nocona over Grapevine, Canton over Cooper, Humble over Boling, Devine over San Antonio Randolph.

CLASS A

Friday—White Deer over Stratford, Coahoma over Seagraves, Big Lake over Van Horn, Archer City over Keller, Clifton over Midlothian, Honey Grove over Frisco, Jefferson over Willis Point, Rosebud over Elkhart, Hull-Daisetta over Weimar, Waller over East Bernard, Three Rivers over Karnes City, Rio Hondo over Ingleside.

Saturday—Springlake over Petersburg, Baird over Goldthwaite, White Oak over San Augustine, Hubbard over Lexington.

Home At Last

Carolyn Mignini, center, elected Miss Teenage America of 1965 last week, is greeted shortly after her arrival back in Baltimore from Dallas, where the finals took place. The 17-year-old girl was greeted at Friend-

ship International Airport by a screaming horde of teenagers. Her mother, who accompanied her on the trip, stands behind her. (AP WIREPHOTO)

Miss Teenage Given Big Welcome Home

BALTIMORE (AP) — Petite Carolyn Mignini, picked last week as Miss Teenage America of 1965, received a tumultuous welcome from teenagers as she arrived home Wednesday night.

When Miss Mignini, 17, of Catonsville, stepped from the airliner at Friendship International

Airport, about 250 screaming teenagers waving blue and white pom-poms and hoisting signs proclaiming their affection nearly crushed the teenage queen's three huge bunches of roses.

It took police nearly 30 minutes to assist Carolyn and her mother to a waiting car.

"It's wonderful. I'm just so happy," Carolyn beamed when asked how she felt.

Her father was just as happy. "After all, I've been keeping

Pope Thanks Strict Teacher

VATICAN CITY (AP) — Pope Paul VI has thanked a school-teacher for having been strict with him when he was her pupil in elementary school.

A Vatican communique said the Pope thanked the teacher, Ezechiele Malizia, 85, Wednesday in a private audience. He awarded her the papal order of St. Sylvesters.

Death Claims Shipping Exec Everett Ellis

SAVANNAH, Ga. (AP) — Everett Edward Ellis, a retired shipping executive and wartime shipping and relief official, died Wednesday following an extended illness. He was 66.

Ellis retired in 1963 as a vice president of Strachan Shipping Co., but had continued as a director. He was a director of Southern Textile Machinery Co., Paducah, Ky., and Elm Equipment Co., Mobile, Ala.

He served in the Navy in World War I and worked with the War Shipping Board and the Hoover Relief Commission in Finland, Holland, England and Germany from 1919 to 1923. During World War II, Ellis was special assistant to the Atlantic Coast director of the War Shipping Administration at the Port of New York.

From 1922 until 1944, he was president of Norton and Ellis Inc. and Southern Stevedoring Co., both of Norfolk, Va. He joined Strachan in 1944.

Survivors include the widow; two sons, Inman Payne Ellis, Mobile, and Everett E. Ellis Jr., Savannah; and a sister, Mrs. Levis Hall, Sherman, Tex.

Pledge By Ordaz Made To Business

MEXICO CITY (AP) — Mexico president-elect, Gustavo Diaz Ordaz, has assured businessmen that his administration will seek close cooperation with them.

Diaz Ordaz, who takes office Dec. 1, issued the assurance at a meeting with business leaders who paid a brief courtesy call on him.

Former Webb AFB Officer A Rescuer In Viet Floods

A former Webb AFB officer, now stationed in the Viet Nam action theater, had a role in rescue work during the devastating floods which struck the Southeast Asian country earlier this month.

News dispatches told of hundreds of lives being lost, and of thousands being left homeless. U.S. helicopters played a major part in rescue work, and one of the "copter pilots was Capt. Thomas C. Seabo, who for a number of years headed the Rescue Detachment at Webb. Captain Seabo went to the overseas duty from here.

He has written to friends here an interesting account of the disaster and of the rescue work. His letter:

WEBB PEOPLE THERE
"You no doubt have seen some articles on the large flood in the Da Nang, Viet Nam, area. You might have wondered if some of the people from Webb were involved in the rescue activity.

CAPT. THOMAS C. SEABO

We were. So much involved that I hardly had time for sleep. I have no idea what sort of articles were dispatched, however I wanted you to know that we were there.

"We actually saved 80 persons with our three little helicopters, the Marines and Army employing 27 H-34s accounted for 1,130. How many of these could be classified as actual saves I do not know. It has been estimated that some 600,000 homes were involved. I personally saw some washed away; whether there were people trapped in the attics, I do not know. Those that we picked up were by hoist on rooftops and on a narrow strip of land where the water

was rushing across at a pretty fast clip.

STRAW HOUSES

"This was my first actual flight away from the base so again I don't know how thickly populated the area was. Most of the houses are made of straw or with straw roofs. Others could be classed as wooden shacks, sorta like the old wood shed that good old Dad used to punctuate his disciplinary reasoning. Anyhow, you can visualize how much flooding these could withstand. We were trying to help those around the main river area at Da Nang, actually not knowing the magnitude of the flood farther south. But with 600,000 houses involved in a time span of about eight hours when the flood was peaking, there wouldn't be enough reserve forces here to save very many. On the second day the flood had subsided to a level where those remaining would be safe, now faced only with the problem of food. And for those who were evacuated to shelter, epidemic prevention measures must be taken.

GESTURED FOR GOOD

"In many instances where we saw people on roofs, they obviously thought they were safe enough, because they indicated only that they wanted food. This was done by cupping their

hands out and putting them to their mouths.

"There are a couple of little incidents of interest that occurred: As Capt. Jim Berryhill, one of our pilots, lowered his basket on the hoist cable to a lady with two small babies, on a roof with water at the level of the eaves, she placed her two small babies into the basket which were brought up to the helicopter door and placed inside the cabin. The basket was lowered for the mother, but she refused to go. These babies were delivered to the Marine area where they later were moved by truck to the school being used as a flood refugee center. Captain Berryhill had his telephone number pinned to their clothing in case the parents did not relocate the children. This was so he would be able to return the children to their parents, if the latter survived.

COW CAME FIRST

"Another rescue effort went for naught when the Vietnamese refused to get in the basket; rather he kept pointing to his dead cow, indicating he wanted it picked up. I don't think this fellow made it because his cow, house, and everything went later on. Probably the cow was his most prized possession and if he could have dressed it out, would have provided quite a bit of food. One never knows, does one?

"Ironical as it seems, we were out trying to save lives while people were shooting at us. How many Viet Cong we actually saved, I can't say. When in rescue endeavors, color, class, friend and foe alike receive the same attention from the global forces of rescue. "Well, I've gotta go fly more food to deliver to some of the isolated villages."

Capital Getting New Police Chief

WASHINGTON (AP) — The nation's capital is getting a new police chief. He is Deputy Chief John B. Layton, 52, who will succeed Chief Robert V. Murray, 60, on Dec. 1 in the \$23,000-a-year job. Murray is retiring for health reasons.

Price Is Cut On Newsprint

LUFKIN (AP)—R.W. Wortham, president of Southland Paper Mills here, indicated surprise Wednesday when MacMillan Bloedel and Powell, Ltd., announced a \$10-a-ton price cut in newsprint.

The Vancouver, B.C., firm said the price cut was a move to help newspapers compete with television and radio.

The cut brought MacMillan, Bloedel and Powell's basic price to \$134 per ton.

"I've just heard about it," Wortham said of the price cut, "and I can't comment this quickly on such an important thing."

Wortham said Southland's basic newsprint price is \$135 a ton.

Contest Of Law Pushed

AUSTIN (AP) — A controversial 1963 law placing Texas liquor exporters along the Mexican border under state regulation was argued Wednesday in the Third Court of Civil Appeals.

The arguments were the first directly concerning the constitutionality of the law, which is challenged by a group of South Texas liquor exporters, since Dist. Judge Herman Jones held the statute invalid last December.

The State Liquor Control Board is under a federal temporary restraining order blocking enforcement of the law.

Austin attorney Dean Moorhead asked the three-judge court, "can the State of Texas, under the guise of purported regulations, kill off a business of this kind?"

He said the law, which requires the exporters to be licensed and to transport their liquor across the border in "common carriers," is an unconstitutional burden on foreign trade.

Asst. Atty. Gen. Howard Fender said, "these people are not international tradesmen, they are operating retail liquor stores in the State of Texas."

The suit was brought by Amex Warehouse Co. of Laredo and several other liquor firms.

Publishers Elect Head

BOCA RATON, Fla. (AP) — Ben Hale Golden, who believes that the greatest task facing the modern newspaper is "to find ways to stay in business," Wednesday assumed the presidency of the Southern Newspaper Publishers Association.

The 53-year-old Golden, president and publisher of the Chattanooga Times, was elected to succeed Albert N. Jackson of the Dallas Times Herald as head of the association. Jackson was named chairman of the board.

The 61st annual meeting ended today with the installation of officers.

Newspapers, said Golden in an interview, are caught in a squeeze between income levels that remain stationary and rising production costs. They must find better, less expensive production methods, he said.

Another major problem is labor relations, he said, and simply negotiating a contract is not enough. Golden said, "labor relations is a matter of constructive, perpetual dialogue with firm lines of communications in which labor can talk to management and management to labor in a free way."

Golden, publisher of the Times since 1957, is the son-in-law of Mr. and Mrs. Arthur Sulzberger of the New York Times. His wife, Ruth, is descendant of Adolph Ochs, founder of the Chattanooga Times and New York Times.

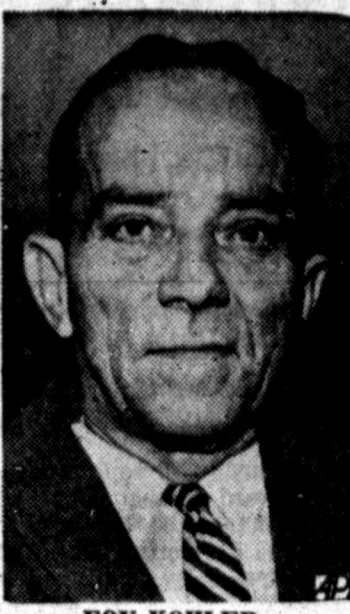

Sanity Hearing Set For Eidinoff

TYLER (AP) — The sanity hearing for Dr. Harold Eidinoff, 54, has been set for Dec. 7.

Eidinoff, an El Paso physician, was committed to Rusk State Hospital after the 1959 slaying of lawyer Theodore Adress.

Smith County Judge Harry Loftis set the date of the hearing.

Last week, Eidinoff represented himself in the Cherokee County Court and gained removal of his sanity hearing to Smith County on a change of venue.

FOY KOHLER

Soviet Makes Amity Pledge

MOSCOW (AP) — The Soviet Union used the signing of a scientific agreement with the United States today to promise efforts to settle all problems between the two countries.

Foreign Minister Andrei Gromyko made the pledge after signing an agreement for cooperation in seeking practical ways to turn sea water into fresh water.

U.S. Ambassador Foy D. Kohler replied that Gromyko would "find corresponding cooperation on our side."

Kohler and Dr. Donald F. Hornig, scientific adviser to President Johnson, signed for the United States. Andranik Petrosyan, chairman of the Soviet State Atomic Energy Committee, also signed.

The agreement provides for exchange of information and visits to research centers for desalting methods, including use of nuclear energy.

The two-year agreement followed a Soviet-American meeting on the subject in Washington last July.

Social Welfare Group Elects

AUSTIN (AP) — The Texas Social Welfare Association announced today its slate of officers for next year.

They are Mrs. Samuel Shelburne, Dallas, re-elected president; Dr. David Jacobson, San Antonio, re-elected first vice president; C. L. Abernethy, Plainview, second vice president; and Mrs. Bruce Moon, Corpus Christi, secretary.

Chamber Eyed For South Texas

PORT ISABEL (AP)—An area chamber of commerce to take full advantage of the tourist potential from the new federal seashore has been proposed. The new chamber would include directors from Port Isabel, South Padre Island, Laguna Vista, Laguna Heights and Bayview.

WOMEN IN SPACE

Find 'Place In Sun' In Space Program

NOTE: The position that women hold in the echelons of government, as typified by some of them in the National Aeronautics and Space Administration, is a heart-warming record of outstanding accomplishment and service to country. This story will be told by The Big Spring Herald in five articles.

WASHINGTON — Women are playing key roles in the nation's space program.

In fact, without them, the National Aeronautics and Space Administration feels it could not have won some of its important achievements.

Women are displaying calm mastery over a surprising range of space skills.

WITH MOON MISSION

At the Jet Propulsion Laboratory in Pasadena, Calif., Dr. Marcia Neugebauer helped develop a solar wind spectrometer carried by Mariner II when the spacecraft flew by the planet Venus. The 32-year-old experimenter followed this up with important work on the Ranger series of spacecraft which succeeded in photographing the Moon's surface last July.

Mrs. Barbara Lunde, a 27-year-old aerospace engineer was responsible for the invention of celestial sensors which help orient, or determine the attitude, of satellites in space.

SATELLITE TIMETABLES

Mrs. Melba Roy heads a team of 12 mathematicians that runs a battery of computers to track the orbital paths of satellites. One of the results of their work is the split-second timetable used by millions who watch the Echo satellites as they swing around the Earth.

Eleanor Crockett Pressley's specialty is sounding rockets, small missiles that probe the Earth's atmosphere from 50 to 1,500 miles up.

She bosses the work of 15 engineers, manages a budget of about \$3 million a year and coordinates NASA's sounding rocket program.

WINS FEDERAL AWARD

Miss Pressley is a winner of the Federal Woman's Award, which is presented annually to outstanding career women in the

federal government service. Since the establishment of the award four years ago, NASA women have been cited three years in a row.

Dr. Evelyn Anderson, a research scientist at NASA Ames Research Center, Moffett Field, Calif., was cited in 1964 for "distinguished achievement in endocrine research."

The third award winner is Dr. Nancy Roman, chief of NASA's Astronomy and Solar Physics Branch. Her citation was for her "high ability and strong leadership in developing a progressive national space program."

SAME REQUIREMENTS

Dr. Jocelyn Gill has been active in integrating NASA's manned space flight and space science programs. She briefed all of the astronauts before their space flights. She briefed Gordon Cooper on the scientific experiments he took with him on the last Mercury flight in May, 1963.

NASA requirements for women in its space sciences, engineering, administrative and management jobs are exactly the same as they are for men.

"It is strictly a matter of merit—education and experience—without regard to sex," said Dr. Roman.

SPACECRAFT?

There are now about 160 women in the federal space agency who are professional aerospace technologists.

Another 70 to 80, who are professional mathematicians, figure importantly in NASA's complex computer programming operations.

To these figures must be added an undetermined number of women scientists and skilled technologists in the widespread space industry.

With women soaring so high in the space program, what's to keep them from making future voyages to the planets?

Gardeners Set School For Fall

The Big Spring Garden Club Council met Wednesday in the home of Mrs. Don Campbell, 2700 Larry Drive. Mrs. D. S. Riley reported that Flower Show School No. 2 will be held in the fall of 1965 rather than in the spring.

The council will apply for the Sears Award for their landscaping project at the Alford building at the Big Spring State Hospital. Mrs. Riley, chairman of the project, asked that any information or pictures concerned with the project be given to her. Eight members were served refreshments by the hostess.

The next meeting will be in January in the home of Mrs. J. W. Trantham, 1316 Stadium.

Luncheon Session Held Wednesday By Lions Group

Eleven members of the Downtown Lions Auxiliary met at the home of Mrs. Roy D. Smith Wednesday for a covered dish luncheon.

Mrs. Schley Riley, Mrs. Dan Conley and Mrs. John Coffey were named to head a committee to plan decorations for the Lion's dinner, Dec. 10, that will honor L. D. Carothers, past district governor. The affair will be held at Cosden Country Club.

Mrs. Carl Smith and Mrs. Carothers will be hostesses for the Dec. 16 meeting of the auxiliary at the Carothers' home.

WMU Has Program

The Woman's Missionary Union met Wednesday morning at the First Baptist Church in Sand Springs. Mrs. B. B. Ford was in charge of the program, "Worship Through Intercountry Prayer."

Mrs. Ollie Denning gave the call to prayer, with Mrs. Dan Burrow wording a prayer. For the community mission project, the women will bring food to the church Tuesday for the Thanksgiving basket. Ten members attended.

Memorial Rites Held

The charter was draped in memory of Mrs. Mennie Barbee when the Ladies Society of the Brotherhood of Locomotive Firemen and Enginemen met Wednesday afternoon. The group gathered at Carpenter's Hall with Mrs. J. C. Craven presiding.

Mrs. A. W. Moody was the musician, and Mrs. M. E. Anderson, chaplain, worded the prayer.

Mrs. Craven urged all members to be present Dec. 9 when officers will be elected.

Hostesses were Mrs. Lois Garland, Mrs. J. L. Millican and Mrs. C. B. Sullivan. They served refreshments to 15.

Mrs. Neal Bryant Ends Book Study

The last lesson from the book, "Frontiers of Advance," was presented by Mrs. Neal Bryant Tuesday when the Lucille Reagan Circle of the First Baptist Woman's Missionary Union met in the home of Mrs. Bobby Smith.

Mrs. J. C. Pickle gave the prayer and Mrs. Roy Phillips worded the invocation. A covered dish luncheon was served by the hostess to five members and a guest, Mrs. Pickle.

Stanton Rebekahs Direct Ceremony

STANTON (SC) — The Stanton Rebekah Lodge No. 287 held a candlelight initiatory degree Monday evening at the IOOF hall for Mrs. Lewis Carlile and Loyd Hasting. The degree staff directed the degree work.

During the business session of the lodge Mrs. Jim McCoy, noble grand, presided with the assistance of Mrs. Granville Graves, vice grand. Mrs. M. I. Yell received the traveling gift. Plans were made for the annual Thanksgiving supper to be held Monday evening at the IOOF hall with the Rebekah families and Oddfellow families and guests invited to attend.

Visits made during the week were reported.

The refreshment table was laid with a linen cloth with orange trim and a bouquet of orange fall flowers. Refreshments were served to 21 attending.

Stockings Made By Home League

Members of the Ladies Home League of the Salvation Army met Wednesday for a workshop session at the Citadel to make Christmas stockings. These will be filled with gifts and distributed to patients at the Veterans Administration Hospital at their Christmas party. Seven members participated, and the door prize was won by Mrs. Pilar Salazar.

GIA Auxiliary Has Business Session

A regular business session was held by the Grand International Assembly to the Brotherhood of Locomotive Engineers Wednesday morning in Carpenter's Hall. Mrs. J. C. Cravens presided.

Members were urged to attend the Dec. 16 meeting when the election of officers will be held and plans completed for the Christmas party. Seven members attended.

Genesis Studied By WSCS Group

The Woman's Society of Christian Service of Wesley Methodist Church met Tuesday in the church parlor to continue the study on the book of Genesis. Mrs. Rene Brown presented the program. Mrs. Lucille Cawthron worded the closing prayer.

Trophies Awarded At Webb Open Pairs Game

Results have been announced for two duplicate sessions held this week in different clubs.

OPEN PAIRS

Trophies were awarded for first and second places in the open pairs duplicate games held Thursday in the Officers' Open Mess at Webb Air Force Base. The top winners were Mr. and Mrs. Joe Steyer, first; and Mrs. Rogers Hefley and Mrs. Riley Foster, second.

Others winning Master Points were George Pike and Mrs. Anne Hardy who tied for third and fourth places with Mrs. J. H. Holloway and Mrs. Ayra McGann, and Mrs. Ward Hall and Mrs. D. A. Brazel who placed fifth.

There will be no game at Webb next Thursday due to the holiday.

VARIETY PAIRS

Winners in the Variety Pairs

Musical Library Aid To Amateurs

NEW YORK (AP) — A library of musical works is now being made available to amateur theatrical groups by the Dramatists Play Service. The 25-year-old agency has concentrated on dramatic works.

A spokesman said the move was being made because of growing interest in musicals among community thespian groups.

Teaseless Strip Act Dominates 'Top Dress' Showing By Trigere

By JEAN SPRAIN WILSON
AP Fashion Writer

NEW YORK (AP) — When the models stepped out of their dresses in Pauline Trigere's showroom not an eyebrow was lifted: They wore other dresses underneath.

The idea of wearing two dresses at the same time, a scheme which played a major part in her spring collection Thursday, was Miss Trigere's reaction to the current tendency by American women to wear not even enough of one dress.

Models flipped off skirts and peeled away jackets on costumes called "top suits." There they stood looking ready for the cocktail hour in billowing chiffon or brilliantly colored silk prints with cowl necklines or giant scarves.

In this teaseless strip act, "top dress" was the name Miss Trigere conceived for a sleeve-

less V-necked wool which, with a shrug of the shoulders, fell away in favor of a voluminous soft pink silk number.

Miss Trigere has several other methods for a fast fashion switch.

One was an attached stole — actually yards and yards of white fabric ingeniously draped over certain patterned areas of a long dinner gown to disguise its original appearance entirely. Another was a shadow shift — a waistless dress transparent enough to reveal the silhouette of the figure — hugging second dress under it.

The quick-change artistry was just one aspect of the show. There were touches of Middle East influence as dark-eyed misses in bright silk draped matching harem veils over their heads.

There was a bit of Victorianism in the lavish use of pin-

stripes, throat-hugging collars with black ribbon ties and jackets and dresses with lapel neck openings cut in a "V" to the waist and worn over modest dickeres.

But most costumes were as French and chic as Miss Trigere herself in her white mink dress.

There were narrow capes, beiless and pinch-waisted dresses, skirts that flared at the hem because of what was described as dove-tailed insets and the boldest, biggest, brightest design on silk of any collection in the garment district thus far.

While berets were jauntily perched on the models' heads as they sported their navy and white costumes and fake daisies sprang out of the oddest places, such as the side and nape of necks.

2-B Big Spring (Texas) Herald, Thurs., Nov. 19, 1964

Look Festive

A smoke ring scarf, in a puff of print, circles the collarless neckline and creates a soft and understated feminine look for this classic slender sheath. To keep the look light and soft for the holidays, this wool flannel sheath was designed with a coordinating silk-like scarf in a bouquet of pastel colors.

Christmas Gift Decor Demonstrated At Webb

Members of the Servicemen's Wives Club met at the John H. Lees Service Club Wednesday evening to hear a program by a guest speaker, Mrs. J. F. Skalky. She demonstrated the wrapping of Christmas gifts and displayed tree decorations and gift items.

The use of ribbon to make roses, bells and carnations was demonstrated, and their uses on packages and for home decorating was explained. She showed plastic foam balls that had been covered in velvet and fancy trims that would be suitable to hang on the Christmas tree. A special gift item she displayed was a bed spring covered in velvet for use as an earring holder.

Mrs. Richard Davis and Mrs. Manuel Falcon are in charge of the Thanksgiving dinner that will be served by the members to airmen on base Sunday.

Bride-Elect Honored At Tuesday Shower

A miscellaneous shower was given Tuesday to honor Miss Wanda McCormick, bride-elect of Jerry Hayes. The gift party was held in the home of Mrs. L. Z. Shafer, Gail Road.

The honoree was attired in a rose wool sheath and a white carnation corsage, and received the 30 guests who called. Her mother, Mrs. Weldon McCormick, assisted.

Hostesses were Mrs. Shafer, Mrs. Clim Shanks, Mrs. Bob Wegner Jr., Mrs. Charlie Nichols, Mrs. Landon Burchell, Mrs. Johnny Ray Dillard, Mrs. Myrtle Haney, Mrs. R. J. Alexander, Mrs. Alden Ryan, Mrs. J. H. Fuller and Miss Camella Ryan. Their gift to the bride-elect was an electric toaster oven.

The refreshment table, covered in a gold cloth overlaid with white lace, was decorated with an arrangement of gold and white chrysanthemums flanked by gold tapers. Appointments were crystal and silver.

The wedding will be held Nov. 28 in Trinity Baptist Church.

Newcomers Game Held

Two tables were in play for the coffee-bridge held Wednesday morning for members of the Newcomers Club. Placing high in the games in the Flame Room at Pioneer Natural Gas Company were Mrs. John Fry and Mrs. Bill Wilkinson.

Refreshments were served to the members and one guest, Mrs. Richard Flechsig, by the hostesses, Mrs. Earl Ezzell and Mrs. Terry Bull.

Saturday at 7 p.m. the group will have a covered dish dinner in the Flame Room with their husbands as guests.

MRS. JAMES HORTON AND KIRBY

Bountiful Feast Proves Challenge In Homemaker's Menu Plans

By MARY COCHRAN

The pilgrims celebrated a bountiful harvest at the first Thanksgiving and established a tradition we enjoy today. The modern homemaker feels this is the time to load the table with a rich and tempting array of foods. However, there are a number of people, limited by medical or weight-control diets, who must use temperance in their feasting on that day. They might find it surprising to know that first feast was really simple fare and not the lavish meal we connect with the occasion.

The preparing of special diets is a problem that faces many homemakers. To fit the nutritional need of each family member into a simplified menu plan is not always an easy task.

When Mrs. James Horton, 422 Hillside, prepares a meal, she has three individuals with different food requirements to cook for. Her husband works in an office all day and is a diabetic; her son, Kirby, is a teenager with a heavy athletic schedule; and she, as a housewife, fits into a semi-active classification.

NEEDS ENERGY

To maintain the proper weight control for any individual, his activities must be considered. Kirby, who plays football, baseball, basketball and is a member of the track and field team, is a veritable energy burner. He needs the quick energy foods found in starches and sugars plus plenty of protein. This same diet for a man who sits at his office desk all day would be very fattening. Add to this the special dietary needs of Horton and you have a formidable menu problem.

This homemaker has found a solution by special planning. Diabetics can have no sugar. In order to get full use of the desserts she prepares, the home freezer is used to keep portions of cakes and other sweets always on hand.

Vegetables must be specially prepared, and she cans many jars of green beans, okra and black-eyed peas during the summer season for use through the year. This is a money saver since the dietetic foods are rather costly.

The fruit trees in their back yard yield a fine supply each year and she cans these with artificial sweetening. Thus, all the family can enjoy fruits with their high vitamin content and still have tasty dishes. With the fruit, she sometimes makes special pies for herself and her son.

Mrs. Horton has found it an advantage to cook their foods with very simple seasonings. Special flavoring can be added at the table by the individual. Their meats are all broiled, boiled or baked, one of the most healthful and non-fattening methods for serving the high protein requirements in the diet.

BIG DINNER

With Thanksgiving approaching and a big family get-together planned for about 30 people, Mrs. Horton is making preparations for the feast. She usually furnishes the desserts for the meal and will be freezing some of her special pies. One dessert in the pumpkin cake she shares in the recipes listed here.

PUMPKIN CAKE

1 cup butter
2 cups sugar
2 eggs
3 cups mashed pumpkin
3 1/2 cups sifted flour
2 tps. soda
1 tsp. baking powder
1 tsp. salt
2 tps. cinnamon

1 tsp. cloves
1 cup nuts
1 cup raisins
Cream butter and sugar, add eggs, beating after each one. Add mashed pumpkin. Add dry ingredients that have been sifted together. Fold in nuts and raisins. Pour into floured tube pan and bake for 1 1/2 hours at 325 degrees.

CHERRY-CREAM CHEESE PIE

1 8-oz. pkg. cream cheese
1 15-oz. can condensed milk
1-3 cup lemon juice
1 tsp. vanilla extract
1/2 cup juice from cherries
2 tps. sugar
2 tps. corn starch
1 cup drained pitted cherries
Soften cream cheese to room temperature; whip till fluffy. Gradually add condensed milk, while continuing to beat until well blended. Add lemon juice and vanilla; blend well. Pour into crust. Chill 2-3 hours before garnishing top of pie with a Cherry Glaze made by blending sugar and cornstarch with cherry juice. Cook, stirring constantly, until thickened and clear. Stir in few drops of red food coloring, if desired. Add cherries. Cool. Garnish top of pie.

GRAHAM CRACKER CRUST

1 1/4 cups graham cracker crumbs
1/4 cup softened butter
1/4 cup sugar
Mix crumbs, butter and sugar. Pour into pie plate. Press mixture against bottom and sides of plate. Bake in moderate oven 375 degrees for eight minutes. Cool.

STEW

1 large fryer
1/4 tsp. celery salt
2 large potatoes
8 or 10 carrots
Salt and pepper to taste
Cut chicken and boil in a generous amount of water until meat falls off bones. Add diced potatoes and carrots, season and cook until vegetables are done.

PEACH COBBLER

1 stick butter
1 cup flour
1 tsp. baking powder
1 1/4 cups sugar

Ginger Is Spice Of Cookie Life

Our Girl Friday's mother has given us one of the most delightful of cookie recipes.

GRACE BATES' CANTON GINGER COOKIES

2 1/2 cups sifted flour
1 tsp. baking powder
1 cup butter or margarine
1 cup sifted confectioners sugar
1 egg (beaten until thick and pale colored)
1 tsp. vanilla
1/4 cup finely diced crystallized ginger (lightly packed)

Sift together the flour and baking powder. Cream butter and sugar; add egg and vanilla; beat to combine. Stir in sifted dry ingredients and ginger. Wrap tightly and chill overnight. Make small balls (about the size of a large marble) of the mixture and place a few inches apart on an ungreased cookie sheet; press balls about 1/4-inch thick with palm of hand. Bake in a moderate (375 degrees) oven about 12 minutes. Makes about 6 dozen.

NOTE: Rinse ginger in hot water to soften before slicing and dicing.

Give Children Opportunity For Part In Preparations

By The Associated Press

Young children deserve a chance to "help" at holiday time. Letting them do so is worthwhile because this way they feel they are an important and happy part of the family. Here are some suggestions for chores they'll enjoy and that may save busy mothers some time.

Dusting — especially the rungs of chairs!

Polishing, washing and drying cutlery.

Setting the table.

Cracking nuts. Peanuts are the easiest for small fingers to manage.

Grinding raw cranberries in a food chopper for the ever-popular raw cranberry relish to accompany turkey. Youngsters also enjoy mixing in the sugar needed, and usually stir and stir.

Grinding dry bread crumbs in a food chopper for turkey stuffing.

Crumbling cornbread for turkey stuffing. Clean hands needed here, as in all other kitchen chores.

Garnishing. Young visitors at our house adore using tiny canape cutters, cutting out miniature leaves from canned pimiento to garnish the crackers they spread with cheese.

Scoping out seeds from pumpkin or squash. A paddle-type wooden spoon plus fingers help along this work.

Making a centerpiece for the holiday table. Fruit or vegetables are easier than flowers for small boys and girls to handle.

As an extra-special, you can show your youngsters how to make cornucopias from aluminum foil. They'll enjoy filling these with raisins and nuts for favors. Or the cornucopias may be filled with seasoned mashed sweet potatoes and oven-heated as a garnish for the holiday bird.

FOIL CORNUCOPIAS

For each cornucopia — tear

off 2 sheets of super-strength aluminum foil (12-inch roll) so that they are 1 1/2 times (about 9 inches) the length of a small fruit juice glass (about 6 inches). Place 1 sheet of foil on top of the other. Placing rim of glass along the long edge of foil, roll the double piece of foil around the glass. Gently crush the portion of foil that extends beyond the bottom of the glass so as to form the tapered end of the cornucopia; curl the tip of the cone into a small ball. Remove glass and place fingers inside cone to mold into cornucopia shape. At the opening, crush and bend in edges until one side is shorter than the other, forming the traditional wide slant mouth of the cornucopia.

Vary Tomato Soup With Diced Bacon

Ever try this way of varying tomato soup?

SPECIAL TOMATO SOUP
3 slices bacon, finely diced
1 tsp. minced onion
2 tps. minced celery
1 can (10 1/2 ounces) condensed tomato soup

1 1/2 cups water
In a saucepan, gently cook together the bacon, onion and celery until bacon is well browned. Add undiluted soup and the water. Mix well and heat. Makes 3 servings.

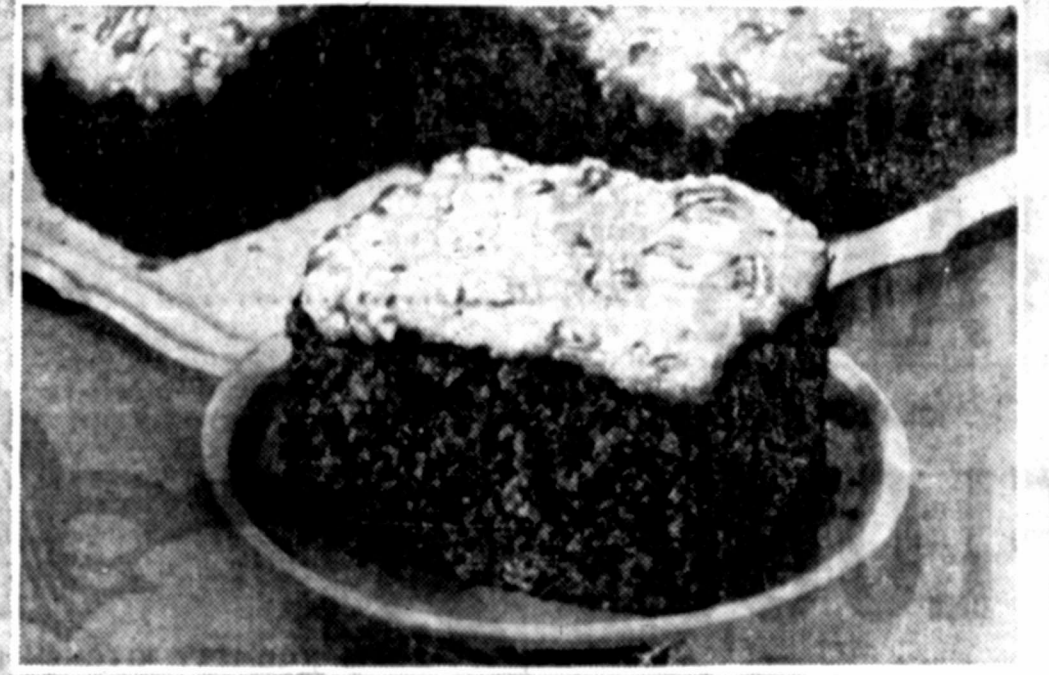

KIDS LIKE SPAGHETTI

Mothers like Skinner Spaghetti because it cooks firm but on so tender. Skinner Spaghetti cooks better, looks better, tastes better because it's made with 100% amber durum wheat. Serve it often. Kids like it. And so do grown-ups.

SKINNER SPAGHETTI

Never has Cake so luscious cost so little!

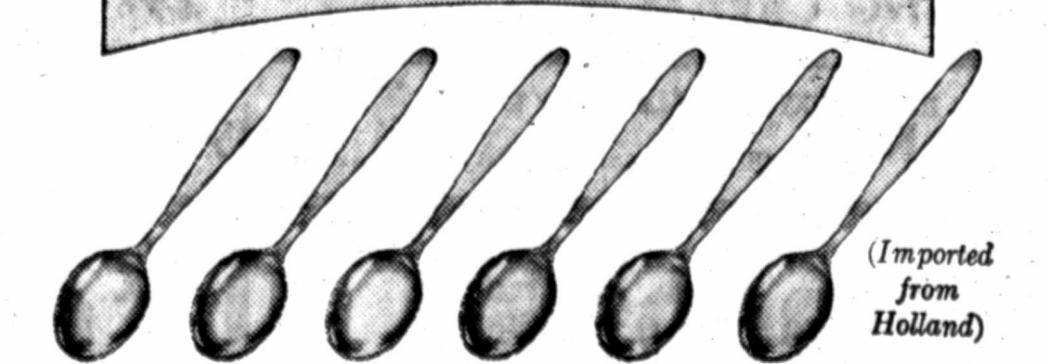

Morton German Chocolate Cake
Frozen Hot from the Morton Ovens

The cake is moist, light chocolate. The icing is thick and rich with toasted pecans. The result is a Continental flavor combination that's outrageously good.

Extravagant? Only in taste! Cost is just pennies a serving. Never has cake so luscious cost so little!

German Chocolate is just one of the many varieties of MORTON CAKES... all in your grocer's freezer!

Introductory Offer 6 BEAUTIFUL STAINLESS STEEL Demitasse Spoons

\$2.95 value Only \$1.00 when you try any Morton Cake

TO GET YOURS, simply cut out the word MORTON from the front of any Morton Cake package. Mail this cutout, together with \$1.00 (no stamps, please) and your name and address printed on a piece of paper to: SPOON OFFER, P.O. Box 109, Brooklyn 1, N.Y. Your 6 spoons will be shipped to you directly from Holland. Please allow four to six weeks for delivery. Offer good only in U.S.A. and expires December 31, 1964. Void wherever taxed, restricted or prohibited.

Oilmen Ask For Imports Slash Jan. 1

WASHINGTON (AP) — Independent oil producers urged Secretary of the Interior Stewart Udall Wednesday to reduce oil imports by 275,000 barrels daily beginning Jan. 1.

Spokesmen for the Independent Petroleum Association of America and some 20 other state and regional oil and gas producer associations said the national security requires prompt action to reduce oil imports and tighten up the import control program.

The proposed reduction would be achieved in several ways. Among the suggestions was a decrease to 10 per cent from 12.2 per cent of the ratio of imports, excluding residual fuel oil, to domestic production in the area east of the Rocky Mountains.

NOT NEEDED

The independents also proposed banning any imports of light finished products, saying these now total 83,447 barrels daily and are not needed because such products are readily available from domestic refineries.

Data presented by H. A. True Jr., Casper, Wyo., president of the IPAA, and other spokesmen painted a picture of steadily worsening conditions among independent oil producers and progress by some 30 large companies.

"Lower crude oil production and reduced incomes for thousands of independent U. S. oil producers have been the major factor in the downward spiral in domestic oil exploration, drilling, development and employment since the mid-1950s," the IPAA said.

"By contrast, some 30 large companies have accounted for all the increases in U. S. oil production and increased income from crude oil sales, and have substantially increased their crude oil producing capacity and share of U. S. production."

FIND RESERVES

"The deteriorating position of thousands of independent oil producers, who traditionally have found the bulk of U. S. petroleum reserves, is adversely affecting the search for and development of new reserves needed to meet expanding U. S. petroleum requirements."

In specifics, the IPAA said:

1. In the five years since mandatory import controls were imposed, U. S. crude oil production showed an increase of 488,000 barrels daily in 1963 as compared with 1959, but the production by thousands of independent producers dropped by 38,000 barrels a day. The output of the 30 large companies increased by 526,000 barrels a day.

2. Both the large and small producers increased oil exploration and development expenditures in the five years 1959-63, and spent about equal amounts in 1963. Since 1957, the 30 large companies have maintained expenditures at relatively stable levels. However, expenditures by the thousands of independents dropped by 39 per cent, from \$2.4 billion in 1957 to \$1.51 billion in 1963.

3. In the Louisiana-Texas Gulf Coast, dominated by the larger industry units, producing capacity and production have been expanded by 30 per cent since 1957, and income from crude sales by 25 per cent. In the Kansas-Oklahoma area, where independent producers predominate, by contrast, reserves, capacity and output dropped from 10 to 15 per cent, with a 12 per cent decline in income from crude production.

SPECIAL SURVEY

4. In a special survey of 12 large banks which specialize in oil loans, IPAA found a three-fold increase in oil payment loans, made primarily to large companies for acquisition of producing properties.

5. U. S. crude oil reserves found in 1962-63 were 25 per cent below the 1957-59 discoveries. This resulted from a 33 per cent drop in geophysical activities, a 30 per cent decline in active rotary drillings rigs, an 18 per cent decline in exploratory, or wildcat, wells, and a 16.5 per cent decline in total drilling.

6. Crude oil prices have dropped almost four per cent since 1957-59 while the cost of drilling by 1963 had increased by 8 per cent and hourly wages 14.5 per cent.

One Rocket To Orbit Satellites

WASHINGTON (AP) — The space agency plans to use one rocket to orbit two Explorer satellites into near-polar orbits later this week.

A four-stage Scout rocket will launch the two satellites from Vandenberg Air Force Base, Lompoc, Calif., NASA said.

6-B Big Spring (Texas) Herald, Thurs., Nov. 19, 1964

Rise In Production Of Goods Notable

NEW YORK (AP) — Because of shutdowns in auto plants, businesses are paying more heed today to what is happening than to what didn't.

What didn't happen was the production of cars and parts and materials that didn't occur

economy.

The loss of car output dragged the industrial production index down in October from the previous month for the first time in more than a year. But it is still 131.7 per cent of the 1957-59 average, compared with 126.1 per cent in October 1963.

And this helps businessmen shrug off the expected drop last month because of labor troubles and look to a fast recovery.

Two other statistics that looked queasy in October come under the same interpretation. Retail sales dipped slightly, but this too was due to loss of

incomes in communities where plants were shutdown because of strikes or because struck customers weren't buying just then.

Job totals also were adversely affected by the auto troubles. But businessmen note that outside this industry and its suppliers the job demand was strong. Employment advanced in service and trade and in state and local governments, and was off less than seasonally in the construction industry, where weather is a factor.

Consumers are spending more in communities untouched by

the labor strife. After allowing for sales losses in autos, retail trade is topping year ago levels by the highest percentage since last March when the federal income tax cut went into effect.

Utilities are producing more despite the auto setbacks, and count on the increased demand continuing.

Industries producing equipment both for consumers and for business firms kept on climbing in October.

Capital spending by business is still rising. The October setback in production figures is deemed only temporary.

Plan To Curtail Dropouts Proves Front For Fraud

NEW YORK (AP) — Even President Johnson thought it was a great plan to prevent high school dropouts — but it was a front for a fraud, says New York State Atty. Gen. Louis J. Lefkowitz.

It was called "Operation

Beaconlight" and this was how it worked: The "National Art League," a nonprofit organization, would provide an etched picture of a high school building for \$2.50. A successful alumnus would be persuaded to lecture the students on the desirability of staying in school, and present each one with an autographed etching.

1963 and as President this year, presented etchings to students at his old school in Johnson City, Tex.

Lefkowitz says his investigation shows that Johnson had no knowledge of the fraud behind the "National Art League," or of the criminal background of its chief promoter.

Lefkowitz said "Operation Beaconlight" was the brainchild of Warren Hunter, who has spent nearly 20 years in prison and is under \$25,000 bail awaiting sentence for failure to answer a subpoena in the case.

Hunter was known to President Johnson, Lefkowitz said, under one of his nine aliases — Warren K. Kenyon. Lefkowitz said the "National Art League" was the front for Hunter's National Art League Service, which printed the etchings at "a fantastic profit."

Envoy Taylor To Visit U.S.

WASHINGTON (AP) — The State Department said today U.S. Ambassador Maxwell D. Taylor will return from Saigon Nov. 27 for consultations with President Johnson.

He will also confer with Secretary of State Dean Rusk and Secretary of Defense Robert S. McNamara. Robert J. McCloskey, the State Department press officer, said Taylor's visit here — his second since being sent to South Viet Nam last July — would be for five or six days.

Big Spring (Texas) Herald, Thurs., Nov. 19, 1964 7-B

Dear Abby

Make An Effort

DEAR ABBY: My husband filed for divorce about five months ago but he isn't doing anything about it. He took a room in town and comes to see us when he feels like it. The kids can't figure out what is going on. Now he says he doesn't have to divorce me, and he is just going to make me miserable. He says he doesn't have to come back home, either. We have five children, ranging from three years old to eleven. Should I just go on pretending I don't care what he does, or should I file for a separation?

BROKEN-HEARTED

DEAR BROKEN: Why don't you quit playing games and try to save your marriage? A clergyman could help you pick up the pieces if you gave him half a chance. I can think of five excellent reasons to try — and they range from three years old to eleven.

DEAR ABBY: Every Thanksgiving my mother has the family over for a big family meal. This means 10 adults and 14 children ranging from 6 to 18 years old. Mother is not young any more and she has no one to help her prepare the dinner, but she starts the day before and says she enjoys fixing the turkey and pies, etc. Before dinner all the women sit with the men drinking highballs and listening to Christmas records while Mom and I set the table. I help her serve, and the two of us clean up afterwards, while everyone else sits on their posteriors.

I don't think it's my place to ask the others to pitch in, but wouldn't you think they'd know enough themselves to offer without being asked? Maybe if you printed this they'd take the hint.

WORN OUT

DEAR WORN: Hints won't help. Recruit the women and teenaged girls to shoulder some of the load. (Leave the men alone.) What could be more appropriate than cold turkey at Thanksgiving time?

DEAR ABBY: That letter signed "LOVES CHILDREN" took me back five years ago, when we lived in Duarte, California, (Los Angeles County) where they had the "BLOCK PARENT" plan, too. What a comfort it was to know that in every block there was a big sign in the window of some responsible parent's home to let a child know that if he was being bullied by another child, chased by a dog, followed by a stranger, or feeling ill, he could go to that home for help as an island of safety. The block parents in Duarte were also instructed to notify the sheriff if they saw any strange-looking characters either parked near the school or hanging around where children gathered. My children have to walk a mile to and from school every day here in Oregon, and I sure do wish they had that BLOCK PARENTS plan here. I wouldn't worry so much.

MRS. E. SMITH

DEAR MRS. SMITH: Where the safety of children is concerned, your local P-T-A would welcome your suggestions. Why not bring it up at the next P-T-A meeting? All that is necessary for this plan to work is the cooperation of one mother in every block in your school district.

Rights Seen Tool Of Reds

WASHINGTON (AP) — Assistant FBI Director William E. Sullivan says that the Communists, in an effort "to divide and weaken this nation from within," are stressing exploitation of the civil rights situation. As an example, he said about 200 Communists, who tried to hide their party connections, were among the 200,000 Negroes and whites who participated in last year's civil rights march on Washington.

Negro Will Be NLRB Examiner

WASHINGTON (AP) — The National Labor Relations Board has announced it will appoint Arthur Christopher Jr., a career NLRB attorney here, as its first Negro trial examiner.

Never-Fail Crust For Pumpkin Pie Tradition

There's a snap in the air! It's the time when "the frost is on the pumpkin," especially with a luscious Pumpkin Chiffon Pie.

No problems with the crust, if lard is used to make it flaky.

PASTRY

1 cup sifted enriched flour
1/2 tsp. salt
4 to 6 tbsps. lard
2 to 4 tbsps. cold water

Mix flour and salt. Cut lard into flour until crumbs are about the size of small peas. Add cold water, a little at a time, mixing quickly and evenly through flour and a fork until dough just holds in a ball. Use as little water as possible.

Roll to about 1/8-inch thickness and line a 9-inch pie pan, allowing 1/2-inch pie crust to extend over edge. Crimp edges. Prick pastry with a fork. Bake in a very hot oven (450 degrees) 8 to 10 minutes or until lightly browned. Cool.

PUMPKIN CHIFFON PIE

1 tbsps. unflavored gelatin
1/4 cup cold water
4 eggs, separated
3/4 cup light brown sugar
1 1/2 cups mashed, cooked or canned pumpkin
1/2 cup milk
1/4 tsp. salt
1/2 tsp. cinnamon
1/2 tsp. allspice
1/2 tsp. nutmeg
1/4 tsp. ginger
1/2 cup sugar

Southern Style Dish

Here is a new southern cornbread stuffing for your holiday turkey. Its unusual taste stems from the package of onion soup mix that is included among the ingredients.

The rich beef-flavored stock and golden toasted onions from the soup mix permeate the stuffing and give it a distinct flavor all its own.

This stuffing recipe features both white bread and cornbread (which can be made from a mix) as well as savory sausage. It is an easy one to make, even if you are a novice at cooking a Christmas dinner.

Try southern cornbread stuffing this year and you will find it a permanent place in your collection of holiday recipes.

SOUTHERN CORNBREAD STUFFING

5 cups cornbread cubes
3 cups white bread cubes
1 pkg. onion soup mix
2 cups water, boiling
1/2 lb. sausage
1/2 cup butter
1 tsp. poultry seasoning
1/2 cup chopped parsley, optional

Cut breads in 1/2-inch cubes and toast under broiler or in hot oven. While breads are toasting, stir onion soup mix into boiling water and let stand for 5 minutes. Brown sausage in Dutch oven or large pot over medium heat, then add butter and melt. Stir in bread cubes and soup mix. Cover and heat slowly 5-10 minutes to allow breads to steam, stirring occasionally. Add parsley. Makes 3 quarts stuffing sufficient for 10-14 pound bird.

Orange Juice Is Base For Sauce

A new and interesting dressing for green salad.

INDIA DRESSING

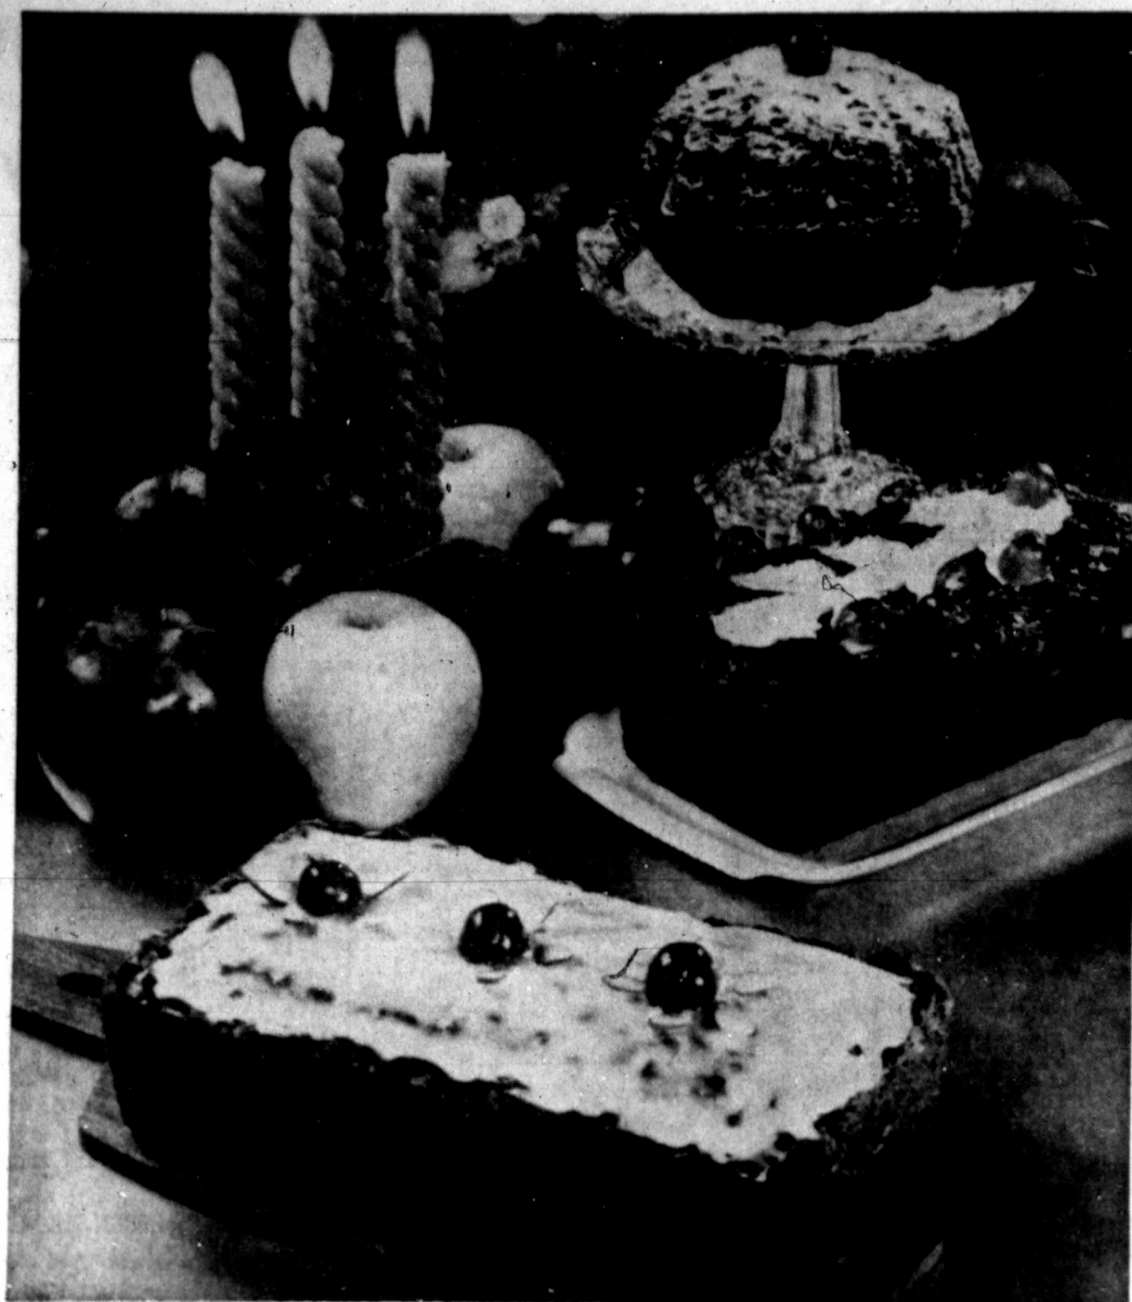

1 can (6 ounces) frozen orange juice concentrate, thawed
1 small onion, minced
3 tbsps. minced green pepper
1/2 cup salad oil
1/2 cup cider vinegar
3 tbsps. sugar
1/2 tsp. salt
1/2 tsp. curry powder

Tabasco sauce to taste. Mix together the undiluted orange concentrate, onion and green pepper; let stand about 1 hour. Strain mixture and discard onion and pepper. Into the seasoned orange concentrate, beat the remaining ingredients until blended. Shake well before using. Store in refrigerator. Makes 1 1/2 cups.

Kitchen Scissors Help In Cleaning

Use kitchen scissors to remove the fins and tail of that fish when you bring it home after catching it.

With a small sharp knife and a backward movement you can do the scaling next! The scissors will help you slit the fish before cleaning it.

FLAVOR STRUCK
Holiday goodies respond to the flavor of fall apples

Role In Festive Holiday Dishes Filled With Full Flavored Apples

Bursting with sun-struck flavor, apples are available now for welcoming snacks, decorative arrangements, and traditional holiday desserts. This festive time requires extra effort from most homemakers and we suggest you keep these versatile, refreshing beauties on hand throughout the holiday season. There's no more acceptable fruit to guests of all ages, however it is served.

The Washington Golden Delicious apple is an unusual variety in that it will stay white when cut and, therefore, may be used for fruit compotes and salads, as well as today's traditional Apple Fruit Cake and Apple Plum Pudding. These, and Golden Fruit Bread, abound in richness.

APPLE FRUIT CAKE

6 large apples
1/4 cup water
1 cup shortening
2 cups sugar
4 1/2 cups sifted all-purpose flour
4 tsp. baking soda
1 tsp. salt
2 1/2 tsp. cinnamon
1 tsp. nutmeg
1/4 tsp. allspice
1 lb. pitted dates, chopped
1 lb. seedless raisins
1 cups chopped nuts
1/2 lb. candied cherries
1/2 lb. candied orange peel, chopped
1/2 lb. candied citron

APPLE PLUM PUDDING

1 1/2 cups sifted flour
1 tsp. salt
1 tsp. soda
2 tsp. cinnamon
1 tsp. ginger

SUPER STUFFING
Make cereal dressing for baked fryer

Thanksgiving Dinner Planned For Twosome

Two can be thankful, too! When planning a celebration with just the two of you, substitute a split fryer for the usual turkey or capon. Clean well, cut off tailpiece and back bone. Dry. Pin wing down close to the body, with a skewer. Place halves, skin side up, on a rack in a shallow roasting pan and bake in a moderate oven (350 degrees F) for 40 minutes or until almost tender. Baste occasionally with melted butter. Then place hot Corn Flake-Pecan Stuffing on oven-proof serving platter, and arrange chicken halves on top. Sprinkle chicken lightly with paprika.

Return platter to oven and keep warm until serving time. This is a pleasant way for all young cooks to learn that breakfast cereal's multi-faceted flavors and forms lend themselves to creative cookery.

CORN FLAKE STUFFING

3/4 cup chopped fresh mushrooms
3/4 cup chopped celery
3 tbsps. chopped onion
1-3 cup butter or margarine
1-3 cup light raisins
1/2 cup chopped pecans
1 tsp. salt
1/2 tsp. poultry seasoning
4 cups cornflakes, regular or presweetened, crushed to make 1 1/2 cups crumbs
1/4 cup hot water

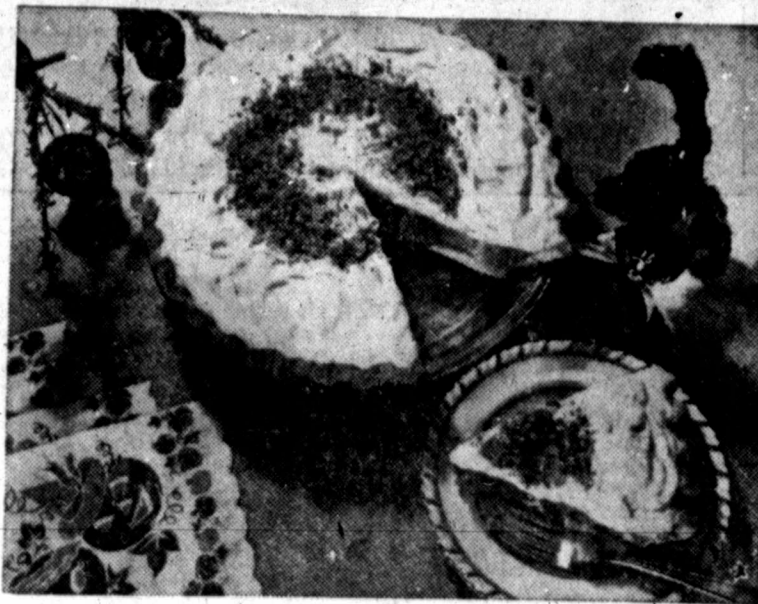

Wash, trim, and dry mushrooms before chopping. Saute mushrooms, celery, and onion in butter or margarine until onion is soft. Add remaining ingredients and mix well. Spoon into shallow casserole; cover. Bake in a moderate oven (350 degrees F) 20 minutes; uncover, and bake an additional 5 minutes. Yield: 3 cups dressing. Use with baked or braised chicken. Serve chicken gravy for cream gravy on the side.

Try Brown Sauce With Asparagus

Brown butter sauce is a favored blend with asparagus spears.

ASPARAGUS SAUCE

2 pounds asparagus
1/4 cup butter
Prepare and cook the asparagus your favorite way, but have them in spears. A few minutes before the asparagus is ready, melt the butter in a small skillet over low heat; allow to stand over the heat, swirling pan a few times, until it turns a light brown color. Pour over hot cooked drained asparagus. Makes 4 servings.

FESTIVE PUMPKIN PIE
Chiffon filling complements flaky crust

1 cup whipping cream
2 tbsps. confectioners' sugar
1 tsp. chopped nuts
Softened gelatin in cold water for 5 minutes. Beat egg yolks and brown sugar until thick. Add pumpkin, milk, salt and spices. Cook in a double boiler, stirring occasionally, until thickened. Add softened gelatin, stirring until dissolved. Cool. Beat egg whites until stiff and fold in 1/2 cup sugar. Fold into pumpkin custard. Pour into baked pie shell and chill. Whip cream and add confectioners' sugar. Spread over pie. Top with chopped nuts.

Pre-Plan For Frozen Bird

For most people, the mere mention of Thanksgiving conjures up visions of a turkey feast. Turkey "belongs" in the Thanksgiving ritual today just as it did in the days of the Pilgrim fathers. However, we can count ourselves more fortunate than our hardy ancestors because the job of getting the bird to the table has been greatly simplified for us. Today, frozen ready-to-stuff turkeys, in a size to suit every family, are available in the grocer's frozen meat case.

In turkey buying, the butterfly shape is the big news of the day. This "new look" is accomplished by tucking the tips of the drum sticks into a slit of skin at the base of the body cavity to make a natural truss. No string, foil, or paper is used to add costly ounces to the turkey's dressed weight.

Unlike the frozen "stuffed" turkey, the frozen "unstuffed" bird must be completely thawed before stuffing. Therefore, it's a good "day before" job.

New Treat In Alaskas

Crisp, tangy and delicious all fit the description of an apple.

Autumn's the time of year when you'll find an abundance of these fruit favorites at the market, says the U.S. Department of Agriculture.

As a dessert supreme, to make any meal outstanding, try luscious Cinnamon Apples a la Baked Alaska. Use tart cooking apples cut into medium-thick wedges. Gently simmer in red-colored, cinnamon stick-flavored sugar water until tender. Chill well for firmness. Minutes before serving, place apples in pre-baked pastry tart shells and cover with vanilla ice cream. Then, lavishly and entirely spread with slightly seasoned meringue. Be sure to cover edge of tart shell so the ice cream is "sealed" in and will not melt. Brown quickly in a 500-degree oven until meringue is browned (minutes only). Serve immediately.

Freeze Surplus

During this fresh cranberry season, be sure to freeze extra packages. Rinsed frozen berries can be used successfully in any recipe calling for fresh cranberries.

Watch Oil When Frying Eggplant

Eggplant "eats up" a good deal of fat when it's being fried. Start with about a quarter cup of vegetable oil in a large skillet for a single layer of eggplant slices; add additional oil as needed. Or use butter or margarine instead of oil.

Movie Topic Hunt Brings Film Variety

By BOB THOMAS
AP Movie - TV Writer

HOLLYWOOD (AP) — The latest batch of film comedies supplies evidence of how far afield Hollywood is traveling in search of subject matter. The movies concern the Pacific war, reincarnation and football in the Near East, and the results are mixed.

"Father Goose" is the best of the lot, thanks to the consummate artistry of the old maestro, Cary Grant. This time he is playing an unshaven, scrunching South Seas escapist, but don't let the disguise fool you. Beneath that stubble is the same suave Grant.

A NATURAL
The plot is a natural for comedy. Grant, a confirmed misanthrope, is tricked into becoming a coast-guarder after the Japanese drive through the South Pacific. Who should fall into his charge but a prim schoolteacher, Leslie Caron, with a covey of young girls.

As with all recent Grant films, this one has been put together with expert care, embodying just the right amounts of adventure, laughs, scenery, sentiment and a soupçon of sex. About all it lacks is that precious element of surprise that denotes inspired comedy. — Ralph Nelson, who evoked such warm humanity in "Lilies of the Field," continues his winning ways with "Father Goose." Leslie Caron makes a welcome return to American films, and Trevor Howard is a proper foil as the British commander for whom Grant is an unwilling hero.

IS CURIOUS
Considering the talent that went into "Goodbye, Charlie," it is curious that the film isn't funnier than it is. Vincente Minelli can handle comedy with expertness. Harry Kurnitz is a fast man with the gag line, and Debbie Reynolds, Tony Curtis and Pat Boone are handsome, accomplished performers.

"Goodbye, Charlie" proceeds merrily for the first few reels, reaching hilarity when Miss Reynolds tries to convince her (his) writing pal, Curtis, that she (he) really is Charlie. But then the film makers obviously didn't know where to go with the plot and raced off in all directions.

ANOTHER ERA
"John Goldfarb, Please Come Home" reminded me of "Million Dollar Legs," "Pigskin Parade" and other gullest fables of another era.

The new Shirley MacLaine film is fast, raucous and eye-filling, but only intermittently funny.

Uncle Sam's Outlay Noted

WASHINGTON (AP) — The federal government provides 13.9 per cent of money spent by the states and local governments, a Census Bureau report showed today.

The report also showed that more money is spent on national defense than on any other governmental function even when revenue from all levels of government is lumped together. Education takes the next largest bite out of the tax dollar.

In the year ended June 30, 1963, all governments took in about \$181.2 billion, with 63.2 per cent going to the federal government, 38.1 per cent to the states and 18.7 per cent to local governments.

However, on the expenditure side, the federal government spent 58.4 per cent, local government disbursed 25.5 per cent and state outlays represented 16.1 per cent. Most of the changes in the two sets of figures result from federal payments to the smaller government units for a variety of functions, and payments by states to local governments, mostly for public schools.

The report noted that tax collections by state and local governments per person varied widely among the states — from \$140 in Alabama and \$42 in South Carolina to \$327 in New York and \$319 in California. The nationwide average was \$235 per capita.

When all revenue collected by states and local governments is considered, Alaska has the highest figure at \$391 while New York is second at \$390 and California has \$387. These figures include government profit from enterprises such as state-owned liquor stores and other income from transactions between public agencies and the public. The national average for all revenue is \$287 per person.

A Devotional For The Day

I am come that they might have life, and that they might have it more abundantly. (John 10:10)
PRAYER: O Lord, giver of life, help me to know and experience now that eternal life which is the gift to all who accept Thy presence, power, and purpose within. In Thy name we pray. Amen.
(From the 'Upper Room')

The Czech Switch

For many years, Czechoslovakia had been the jewel of industrial progress in central Europe. Goods from her factories were known everywhere, and her people enjoyed the highest standard of living.
Lately all this has changed. Largely due to the Communist takeover, the Czech economy has been going from bad to worse. This once highly productive society has suffered a loss in volume that is a mystery to no one who understands the role of incentive in production. Only the Communist hierarchy appeared not to understand. However, even that monolithic establishment has now been jarred into awareness. In response it has made concessions heretofore unheard of: The excellent Czech industrial complex will now be granted the right to make a profit!

What is more, central control over economic production will be moved, albeit gradually, from the bureaucrats in Prague to plant managers. These managers have been empowered to make business decisions not unlike those regularly made in free enterprise countries. Wages and prices will be freed in many industries from Marxist planning as plant operators can once again stand or fall on their ability to make a profit.
If this sounds strange, no wonder. For profit has been anathema in any area under communism. But the Czech people, hardly to be considered an obtuse group, have finally concluded that their economy can no longer be subordinated to a political dogma. This does not mean that the Communist apparatus there will dry up and blow away. But it does represent a big crack in the Communist economic facade. The Czech switch to a modified free enterprise system could become an important landmark.

Serves Its Purpose

The \$200 million state bond program, under which 35,000 Texas veterans bought land on easy terms over the past 18 years, will close down Dec. 1, 1965. Only those veterans already on the waiting list may get loans between now and then.
Texas voters—who approved an extension of the program during the 1950s scandals—last year rejected a constitutional amendment proposal to continue the program with \$150 million more revenue bonds. Obviously, that change was no popular disapproval of the program's record. It was rather a general conclusion that the program had served its purpose and that the state should not be kept indefinitely in the rural real estate business. That seems to be a sound judgment likely to stand.
The veterans land program was initiated in lieu of a Texas veterans bonus, which the state government could not afford and which could hardly have been justified in view of the generous federal veterans benefits extended after World War II. Despite the 1950s scandals, the program has been of substantial benefit to veterans, an asset to the state's economy, and a financial success for the state government.

At this point it is certain that the program will pay for itself, including the cost of administration. In fact, the prospect is for a multi-million-dollar profit, that will go into state's general revenue fund for other uses, a profit that will accrue over the years from the excess of veterans' mortgage repayments over state bond retirements costs. Taxpayers, as well as veterans, will thus be beneficiaries.

David Lawrence

Who Will Pull The Trigger?

WASHINGTON — Despite the outward signs that all nations fear a nuclear war so much that they will be hesitant ever to use such devastating weapons, the United States government and the governments of its allies in Western Europe nevertheless are today deeply engrossed in the problem of how to handle a nuclear war.
The principal question at issue is who shall pull the trigger in reprisal if an attack comes. Up to now, it has been assumed that the President of the United States would have the veto. Now it looks as if there will never be an effective Western Alliance under any such conditions and that the European governments will insist on an equal voice.

THE BRITISH prime minister is expected to discuss this subject with President Johnson here in early December. One proposal has been made that a majority of the group should order the fleet into action. Another plan is based on the principle of unanimity. The United States has heretofore insisted that it must retain a veto power over the weapons. But now there are beginning to be reports that the United States might relinquish the veto at some future time.

It has been suggested, for instance, that wars of a purely European nature might arise and the United States might wish to remain aloof. But what bothers Russia at the moment is the possibility that West Germany might have a considerable voice in such a multilateral force because the United States and West Germany are scheduled to pay 40 per cent each of the cost. The pressure in Western Europe to persuade the United States to relinquish its veto power—something which, if ever agreed upon, would have to be authorized by Congress—has been building up steadily.

THE SECRETARY-GENERAL of the North Atlantic Treaty Organization has just declared at Paris that NATO must have full military and political control over the Allied multilateral nuclear force, and that this must be incorporated in the alliance. So it does look as if no one man in the Western Alliance finally is going to decide who uses nuclear weapons. For if the United States doesn't delegate some authority to NATO, as was recommended during the campaign by Senator Goldwater, the likelihood is that each of the larger nations in Europe will develop its own nuclear force.

THE THEORY is that, while Russia might make a surprise attack on the land bases and at the same time destroy a substantial part of the areas heavily populated by the Western peoples, it would be possible for ships at sea equipped with nuclear-tipped missiles to survive and, by retaliating immediately, to lay waste a vast area of the enemy country. It is obvious, of course, that if any such retaliatory power can be exerted, the mere possession of such weapons would be a deterrent.

BUT THE WHOLE problem has many perplexing aspects from a practical standpoint. The firing of the missiles from the surface ships would be controlled by a multilateral group of Allied officials, not on board any of the ships. These would represent the various countries which provide the crews, and the officers would take orders from the decision-making group. As of now, the countries participating in the preliminary experiments are the United States, West Germany, Britain, Italy, Holland, Greece, Turkey and, to a lesser extent, France.

'HE WOULDN'T DARE—OR WOULD HE?'

James Marlow

Give States Part Of U.S. Income Tax?

WASHINGTON (AP) — President Johnson, looking for ways to keep the economy purring, has under study a proposal to give the states a fixed share of the federal income tax collections.

Council of Economic Advisers, is two-fold: To help the pocket-pinchers and burdened states and to add more fuel to the national economy when the accelerating effects of this year's tax cut fades.

But the indications are that it's in for a lot of hot and heavy debate — in the various executive agencies, as well as in Congress, if it gets there.

MOST OF the states with growing populations and painful education, welfare and urban problems, are prowling in every direction in a determined search for more money.

Purpose of the idea, originally presented by Dr. Walter W. Heller, who just stepped out as chairman of the President's

State debt, according to Tax Foundation Inc., has more than

Hal Boyle

Unforgettable Moments

NEW YORK (AP) — Every one is subject at times to self-pity and nameless melancholy. One way to snap yourself out of these attacks of the blues is to sit down and catalog past experiences that made life memorable for you in some way.

your country cousin talked you into chewing tobacco — and swearing off forever. Feeling devilish the first time you smoked a Cuben cigarette and managed to blow smoke out your nose. Checking on a course in muscle building, and deciding that at those prices you'd get along with the muscles you had.

Here is one man's partial list of cherished moments:
The taste of honey and the first strawberry of spring. Sunlight on ice-encrusted trees, turning the woodland into a forest of flaming diamonds. The pride in childhood of working out a loose tooth all by yourself — and waking up the next morning and finding a dime under your pillow.

Falling desperately in love with your sixth-grade teacher, and bringing her a dollar box of face powder for Christmas. Earning the money as a street corner newsboy for your first suit with long pants: cost, \$17.50. Going to the funeral of a schoolmate, the best boy in the class, and being haunted by his dead face for years afterward.

Opening a letter from the Internal Revenue Service and discovering, instead of a further claim, an unexpected check. Reading a slender volume of poems by Emily Dickinson, and feeling as if your soul had been struck by lightning.

The homely eloquence of Gen. Omar N. Bradley's kind smile. The wet flavor of that first dry martini. Cradling in your arms a dying pet dog poisoned by a hateful neighbor.

Gazing into your own eyes in the mirror as a child until your mind reeled with the mystery of your own identity — who were you, where did you come from, where was time carrying you?
What's on your own list of unforgettable moments?

Chanting with the katydids on a warm summer night. Sleeping under a blanket of stars in the Tunisian desert in wartime. Hearing the buzz saw tenor scream of Gen. George S. Patton as he bawled out a sloppy sergeant. Being praised by your mother for dyeing the prettiest egg in the Easter basket.
Getting sick the first time

To Your Good Health

Heart Catheterization A Valuable Test

By JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: I am to go into the hospital for a heart test. The trouble is in the opening or closing of the valve. The doctor will insert a tube in my arm and in some way take pictures of the heart. Will you explain this test and how it works?
—M. E. C.

This is called heart catheterization. A catheter (small, flexible tube) is inserted into a large vein in the arm. The veins carry blood back to the heart to be oxygenated and then pumped into the arteries to be used again.

Therefore, the catheter, by following the vein, will gently reach and enter the heart. This may sound frightening. It shouldn't, though, because around the country this is being done hundreds of times every day. It gives exact information, which can be obtained in no other way. It does no damage to the heart, so don't be worried about having it done.
The prime purpose is not to "take pictures of the heart,"

even though that sometimes is done, too. Very small samples of blood can be taken from different parts of the heart. Analysis readily shows the oxygen content and other factors. These data then can be interpreted, and the extent and location of the defect in the heart can be accurately evaluated. The doctor then knows in advance what needs to be done in the way of heart surgery.
It is likewise possible to take readings of the pressure at various points. This, too, is vital information.
Finally, while the tube is in place, a harmless dye can be introduced through it. The dye makes the blood itself visible when an X-ray picture is taken, and the result is a clear outline of the shape of the inside of the heart. If there are eddies because of a defect in the valve, they will show. Or if there is leakage from one side of the heart to the other, that will show clearly.
X-rays can be taken of the heart without this dye procedure, but with it, important facts can be learned which would not be revealed with an ordinary picture.

Dear Dr. Molner: I am 48 and still have regular periods with a heavy flow for about three days and then spotting for 10 to 20 days. Is this normal?
—F. F.

No, this degree of spotting is not normal. I suggest that you consult a gynecologist.
Most heart trouble is preventable. Write to Dr. Molner in care of The Herald for your copy of his booklet, "How To Take Care of Your Heart," enclosing a long, self-addressed, stamped envelope and 20 cents in coin to cover cost of printing and handling.
Dr. Molner welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Around The Rim

The Average 'Average' Is Average

I have a narrow view of the results of statistical surveys, as they occasionally make rather startling pronouncements. Consider this collection concerning averages:

"THE AVERAGE American shaves two square miles of face during his lifetime, felling a forest of 250,000,000 whiskers." Granted a face could be measured and arithmetic would provide an answer of sorts regarding the square mileage. But who counted all those whiskers? I doubt the average fellow could come close in guessing how many he slices down each morning.

"The average salary of a federal employee is \$559 a month; of the toilers in the state and federal governments, \$457 per month." I don't doubt this for a minute, particularly at tax time.

"ON AN AVERAGE, one out of two persons in the United States can't swim." At the rate we are depleting our water supplies, this can't matter much except in coastal areas.

"The average citizen consumes 87 pounds of fresh fruit and 17.7 pounds of candy in a year." We are not carrying our share of the load at our house.

"The average car in the United States is six years old." We are doing our share of holding the line on this one.

"ON AN AVERAGE, only one dog in six million reaches stardom on television or in the movies." They are just plain missing a bet with any of the three candidates at our house.

"The average American swigs soda pop at the rate of 217 per year." We lean to coffee at our place.

"ON AN AVERAGE day, nine million Americans are unable to carry out their usual activities because of illness or injury." Knock on wood.

"The average business executive in this country spends 11.3 hours a week talking on the telephone." And if you don't believe it, try calling one of them.

"FEDERAL, STATE and local government spending in this country averages \$2,800 a year per family." I'd just as soon have the money.

"And finally, an average of 300 million copies of 8,000 daily newspapers are sold throughout the world on any given week day." Now there's a bright spot.
—V. GLENN COOTES

Richard Starnes

Anything But Turkey!

WASHINGTON — The larder at Crestfallen Manor this day contains two prime Canadian geese, which means that the kindly proprietor of that establishment is going to avoid his annual bout with some intractable, uncarvable reprobate of the turkey persuasion.

THIS IS A circumstance for which any sane man should offer up thanks to the appropriate authorities. Since approximately the time Mary Poppins invented anti-gravity, we have been fighting — and losing — the turkey war. Steak, rack of lamb, roast pig, and moose liver is a partial list of the true delicacies that have been proposed as alternatives to the yearly surrender to the turkey cartel. But until the happy arrival of the two honkers from Canada this year, all substitutes have been rejected at our place.

WITH TWO geese safely tucked in the freezer, however, the natural cupidity of cook has asserted itself, and she has given a solemn vow to prepare them for the Thanksgiving feast.

The truth of the matter is that old Meleagris gallopavo is nothing but a badly articulated baserod cousin of the pheasant and ought to be reserved exclusively for uplifting mission stuffs and wife-beaters doing time in mean county lockups. No man alive has ever learned to cook one properly, and women can't cook at all anyway.

THE COMMITTEE has recommended all manner of bizarre stuffing for the spiteful, ungainly bird, all to no avail. If oyster stuffing compelled turkey to taste like oyster there would be some hope. Unfortunately the re-

verse is true, just as it is with chestnut dressing, bread crumbs and any other dross that is wed to the beast.

THE INDICTMENT against the traditional Thanksgiving turkey contains another count that goes beyond the matter of taste and texture. This has to do with the difficulty that is experienced in attempting to carve the wretched creature. The turkey is slyly assembled with baling wire and reconstituted corset stays, and each one is a custom job. I have clashed with turkeys that had one wing attached by conventional means, i.e., stainless steel rivets, while the other one was cunningly held in place by metaphysics alone. One could not be removed by any human agency, and the other skittered the length of the table at the first touch.

MY GOOD FRIEND, Dr. Meachley, an ordained physician to whom I give all of my brain surgery, is a man of such overwhelming manual skill that he can quarry a wayward medulla, carry on a flirtation with the circulating nurse and sing any of a dozen arias from Puccini simultaneously. Faced with the task of carving a Thanksgiving turkey, however, he becomes a gibbering hulk who is a veritable type-cast for a twitching remittance man out of one of Somerset Maugham's early novels.

There is no hope for him, poor devil. He is caught in the same trap that all males are. His mate orders the turkey, overcooks it, and forgets it. But it is himself who has to hack it into manageable pieces. If women carved, we'd have Brunswick stew for Thanksgiving and be a better nation for it.

40 Years Ago—And Now

WASHINGTON—Maybe it was the Forty-Year Itch. In 1924, as in 1964, the American people heavily and conservatively voted against change.

Calvin Coolidge, like Lyndon Johnson, was a substitute President who was reigning amid what looked like continuing prosperity and enduring peace. There had been, in both instances, an unsatisfactorily explained death of a President.

IN '24 AND '64, the losing side tried to make something of half-buried scandals. Except for Wilson's two terms of liberal reform at home and war abroad, the Republican party had held the White House since the turn of the century. Except for Eisenhower's two terms of benign but vaguely disappointing rule, the Democrats held the White House since the Great Depression. In the Roaring Twenties, it was Keep Cool With Cal despite a feeling that the Ohio Gang under Harding had been stealing with both fists. In the Stressful Sixties, it was LBJ for the USA, despite what the GOP caricard had insinuatedly called the "curious crew" around the White House. The people were comfortable. They wanted no change.

BUT EVEN the popular mandate cannot order a standstill. It is against the law of nature as well as of politics. The blood has to run in our veins, the rivers must flow, the planets must orbit and political events set in motion by a winning party must run their courses.

The biggest domestic event of the Kennedy-Johnson Administration has been the Negro Revolution. It was not launched by conservatives and will not proceed conservatively. Radicals named Rustin and Farmer, intellectuals named King and Baldwin, were the firebrands.

THE BIGGEST domestic decision of the '64 election was to continue the welfare of the Great Society. But continuation is a misnomer. Expansion of welfare is the prospect.

In foreign affairs, the two biggest events of the Kennedy-Johnson administration were the arrival in the Western Hemisphere of Russian weaponry and the deterioration in Southeast Asia of American power. Early in the Johnson regime Castro made his first overt pass at American territory by

fomenting riots in the Panama Canal Zone. The trouble subsided without a solution, but on Armistice Day, November 11th, the New York Times reporter in Panama City filed a familiar paragraph: "Pamphlets attacking the United States have begun making the rounds." There will be agitation so long as Castro remains—and he's still there.

IN SOUTH VIET NAM, since the assassination of President Diem, matters have gone so rapidly from bad to worse that talk of a "negotiated" peace with the Communists is being heard now that the Democrats have won the election. But the war will not stand still because of the mandate for Mr. Johnson. Though Wild West terms are out of fashion since the Arizona's defeat, the situation in Southeast Asia is simply, "Draw or Drag!"

Events set in motion are not subject to the election results.
(Distributed by McNaught Syndicate, Inc.)

WHAT OTHERS SAY

If your mail does not get to its destination as fast as you think it ought to, the fault is not always the Post Office Department's. Look at what happened to the department's proposal to speed air mail across the Atlantic.

Some weeks ago postal officials announced plans to allocate most transatlantic air mail to airlines having all-jet flights. This understandably upset a couple of airlines carrying mail on their prop-jet aircraft, which of course are slower than pure jets; no one likes the prospect of revenue loss. So the prop-jet operators took their case to federal court, and have won an order forbidding the Post Office Department from making its planned switch to the fastest available means of transportation.

It probably wouldn't be quite fair to say that had the Post Office been under comparable restraints from the start, mail today might be still traveling overseas under sail, and across the country via pony express. But it does seem the department has enough slow-down capability of its own, without needing any such judicial help.
—CHARLESTON W. VA. MAIL

Texan Jumps Off Brooklyn Bridge, Lives

NEW YORK (AP) — A 25-year-old man made a 160-foot jump from the Brooklyn Bridge into the East River today.

After the crew of a police launch picked him out of the water, his only complaint was of "slight backache."

The jumper identified himself as Marvin B. Holliman, Houston, Tex.

He tipped off police by phone shortly before he jumped at 1:15 a.m. The first two policemen to reach the scene near the center of the bridge tried to talk the man out of leaping.

"I have no job," he told them just before he let go of a cable.

Full Suffrage NAACP Aim

HOUSTON (AP)—A Mississippi NAACP leader says the most important goal of civil rights workers in his state is full suffrage for all citizens.

Aaron Henry, a Clarksville, Miss., druggist, made the remarks Wednesday to newsmen in an interview. He was here to address a pharmaceutical meeting.

He said at present only six per cent of the Negroes qualified to vote are able to register in his home county because of the Mississippi law requiring a voter to satisfy a circuit clerk's question about any section of the State Constitution.

SOLVE OTHERS

"There are about 286 sections and he can ask you about any one of them," Henry said. "If we get suffrage, we can handle the rest of it (racial problems) ourselves. What we want first is administrative and Department of Justice support for the right to vote."

Henry said FBI agents in Southern states are generally not in sympathy with civil rights.

"I'll go farther than that," he said. "J. Edgar Hoover himself is not in tune with civil rights."

He said the feeling among Negroes and civil rights sympathizers is that Federal Bureau of Investigation agents would be reluctant to take legal action against "their friends" in the police department.

DEATHS OF 3

"This accounts for their inept activity," he said. "Now, they can find a pumpkin containing microfilm on a 40-acre farm of Whitaker Chambers that convicted Alger Hiss, but they can't find the murderers of three boys in Philadelphia."

Henry was referring to the disappearance and deaths of three civil rights workers in Mississippi and the failure thus far to apprehend any suspects in the case.

Henry, a member of the board of the Mississippi NAACP, said, "A lot of people think that a button is pushed in New York and a demonstration takes place in Florida. But demonstrations are products of a community. We go when we are asked."

Accused Physiologist Ivy Wants Fast Trial

CHICAGO (AP) — Dr. Andrew C. Ivy, a former university official and an ardent promoter of Krebiozen as a cancer treatment, says he wants an early trial so he can face his accusers.

Dr. Ivy, 71, internationally known physiologist, and three other persons pleaded innocent Wednesday to a 49-count federal indictment charging them with mail fraud, conspiracy, mislabeling and making false statements about Krebiozen.

"INTERESTING CASE"

"This is a new and interesting experience," Ivy said after the arraignment in U.S. District Court.

Trial was set to begin Jan. 11, and the court allowed the four defendants until Dec. 21 to file motions.

"It is not the first time that a scientist or a benefactor of mankind has suffered indignities for standing up to his convictions," Ivy told newsmen.

"I have evidence to prove that Krebiozen is a worthwhile drug in the treatment of cancer," he said. "I have reports from a

thousand doctors showing its benefits on patients hopelessly afflicted with cancer."

Dr. Ivy, now a professor of

biochemistry at Roosevelt University, said he has no immediate plans other than continuing to work in his laboratory.

NOW A PROF

Dr. Ivy and a codefendant, Dr. William F. Phillips, 52, an associate of the Krebiozen Research Foundation, pleaded innocent before Judge Julius J. Hoffman.

Dr. Stevan Durovic, 59, a Yugoslavian, who developed Krebiozen, and his brother, Marko, 64, a lawyer, also pleaded innocent.

The National Cancer Institute and the U.S. Public Health Service have termed Krebiozen worthless as a cancer treatment after a study of 504 case histories.

Mrs. Oswald Is Hospitalized

DALLAS (AP) — Marina Oswald was in a Dallas hospital today after being admitted complaining of stomach pains.

A physician said the widow of Lee Harvey Oswald, President Kennedy's assassin, would be in Doctors Hospital from two to three days.

The hospital is in North Dallas near her home in suburban Richardson.

Collection 'Slow' On Student Loans

WASHINGTON (AP) — The comptroller general's office has notified the Office of Education that it has been slow to install good procedures to collect repayments from college students who have received federal loans.

Big Spring (Texas) Herald, Thurs., Nov. 19, 1964 11-B

Sooners Start Flood Cleanup

OKLAHOMA CITY (AP) — Residents of north-central Oklahoma started cleaning up from flood waters.

The Chickasaw River, which swamped 50 blocks of Blackwell with its overflow and forced wide-spread evacuation in Kay County, is expected to return to its channel today.

The salt fork at Tonkawa is expected to be back within its banks by Friday.

The Arkansas River crested overnight at Ralston at a near record 23 feet, seven feet above flood stage. The Tulsa River forecast center said the swollen Arkansas would cause heavy farm losses down to the Key-

stone Reservoir.

The reservoir is expected to prevent flooding along downstream areas of the Arkansas.

Rain fell over the entire state Wednesday. Kaw City, near the Kansas border, still faced a threat from the Arkansas. Boggy Creek at Caney, Kan., was rising, and the North Canadian at Watonga still climbed.

AEC Assistant Manager Named

WASHINGTON (AP) — Dr. John A. Swartout, for nine years deputy director of the Oak Ridge, Tenn., national laboratory, has been named assistant general manager of the Atomic Energy Commission.

Expert Sees Cancer Brake

HOUSTON (AP) — A Nobel Prize winner says there is a substance that can put a brake on the fatal speeding of cancer.

Dr. Albert Szent-Gyorgyi, a biochemist with the Institute for Muscle Research at Woods Hole, Mass., said the substance works in mice, at least, though not without serious side effects.

Dr. Szent-Gyorgyi presented a

report to the final session Wednesday of the Robert A. Welch Chemical Research Conference.

The conference is named for the late Robert A. Welch, a Houston millionaire who left a large sum of money to finance scientific research.

Dr. Szent-Gyorgyi said a cancer cell is something like the cell that causes wounds to heal. "You see that when you cut yourself it heals again," he said. He said two substances produced in the body may shed light on the wild growth of cancer.

He said the first substance, "promine," was the accelerator. It promotes growth. He said the second, "retine" is the brake. "The inability of cancer cells to return to its resting state might be due simply to its inability to produce retine," he said.

He said, however, when retine is used therapeutically in mice, it also causes a wasting of the body—a characteristic also associated with cancer.

He said it was too soon to be able to judge whether the side effect will make it impossible to use retine in treating human cancer.

Business Comes Fast To Building

CHICUAHUA CITY, Mexico (AP)—Governor Praxedes Giner Duran Wednesday dedicated a new Civil Registry Building and served as best man for 17 couples wed simultaneously in it.

CORPUS CHRISTI (AP)—Two young brothers were shot to death Wednesday night in a fight.

Johnny Juarez, 15, and Abraham Juarez, 19, were the victims.

Police arrested three men after the shooting.

Sales Tax Raise Vote Approaches

BATON ROUGE (AP) — Nudged by impatient Gov. John McKeithen, a House committee approached a vote today on a one-cent sales tax raise for teachers after twice putting it off.

If the House Ways and Means Committee approves, sponsors may move promptly to suspend rules and bring it up at once for a floor vote.

The measure would bring in \$57.5 million a year.

The senate has gone home until Monday, with little to do until the House makes up its mind about taxing the teachers.

\$1 BILLION HIGHER

Consumers Spend Big

WASHINGTON (AP) — in a preliminary report last month. Heavy spending by consumers was a major factor in a \$1-billion increase in gross national product in the July-September quarter, the Commerce Department reported today.

The seasonally adjusted annual rate for the quarter was \$628.4 billion, or about a billion higher than the estimate made

Nuclear Blast Data Valuable

WASHINGTON (AP) — The Defense Department says last month's underground nuclear explosion in southern Mississippi furnished valuable data in the search for a reliable system to detect, identify and locate such test shocks.

Dr. Robert Froesch, director of test detection for the Pentagon's Advanced Research Projects Agency, said Tuesday the geological formation in Mississippi made it easier to detect the test than a previous underground shot in the mountains of Nevada.

Opening lead: Jack of ♥
 Had West somehow guessed to open a club against South's four spade contract, there would be no story to tell, for declarer's defeat is routinely accomplished by cashing out the top clubs and then waiting for the inevitable two trump tricks. With the more normal lead of the jack of hearts, South became the recipient of a golden opportunity.

Altho three no trump is the only game contract that cannot be defeated, it is inevitable for North and South to reach

four spades, since there is no reasonable way for them to discover their duplication of values in each of the side suits. North's jump to three spades after passing originally is the proper action holding 11 points in support of partner and four trumps. South is at liberty to pass if he has shaded his opening bid.

With the heart lead by West, declarer seized the opportunity to get rid of one of his losers, by cashing the three high diamonds and discarding a club from his hand. The ten of spades was led and ducked, West winning with the jack. A club shift put East in and the latter alertly played a fourth round of diamonds, enabling West to overruff South's trump with the ace. East subsequently took the setting trick with the king of spades.

Had declarer been alerted to the danger of permitting the jack of diamonds to remain outstanding, he could have taken steps to prevent the opposition from scoring their trumps separately.

The solution was, in fact, quite simple. South leads a fourth round of diamonds himself and discards his last club — permitting East to win the trick. Subsequent trump leads will limit the defenders to two spade tricks.

New Program To Wipe Out TB Proposed

AUSTIN (AP)—Present action to eradicate tuberculosis in Texas is inadequate, says a special governor's committee, which recommended a new program to wipe out the disease.

The 13-member committee reported to Gov. John Connally Wednesday on its findings from a nine-month study.

"The present control program is insufficient in size, inadequate in design and limited in scope," the committee said. The program is costly, however, it said, running up a \$16.2 million bill in the 1963 fiscal year.

Prime recommendation of the body was consolidation of all state tuberculosis control activities under the state health department, relieving the state hospital board of responsibility for operating the four state tuberculosis hospitals.

Quads Born To Teenager

PORTLAND, Ore. (AP) — Quadruplet daughters were born within a seven-minute period Wednesday night to the 19-year-old wife of an apprentice construction lathe operator.

Mrs. Arlin D. Grenewalt and her daughters were in "sound

health" shortly after the birth, said Dr. George Emery.

"The babies and their mother are doing fine. We are all very grateful," Dr. Emery said.

Diane Marie Grenewalt was taken into the delivery room of Portland Sanitarium at 6:15 p.m. and the first baby was born at 7:30. The last one was born at 7:37.

Dr. Remy Fulsher, head of obstetrics at the hospital, said the babies were placed in incubators and Isolettes, and were not weighed immediately.

He said they appeared to be about three pounds each, with one smaller.

Grenewalt, 24, said neither he nor his wife have any family history of multiple births. They have been married nearly three years and have a son, Karl, 17 months.

Space Trainee Program Set

SAN ANTONIO (AP) — The Air Force's manned space program appeared closer to reality today with the list of qualifications for its spacemen being released.

Called the Manned Orbiting Laboratory (MOL), the Air Force said it will select six space trainees every six months until 24 have been picked.

Brig. Gen. Joseph C. Bleymaier, deputy commander for manned systems, listed the qualifications to the closing session of the third International Symposium on Bio-astronautics for the MOL, which is the U.S. program for military uses in space using the two-man Gemini capsule as a spacecraft.

Nine Negroes Break Barriers In Dixie Town

McCOMB, Miss. (AP) — Nine Negroes checked out of two formerly "white" motels today after cracking segregation barriers in this southwest Mississippi town.

The nine were among 20 Negroes who used white restaurant and theater facilities here Wednesday under protection of

40 state highway patrolmen and 20 FBI agents.

The integration was the first test of the public accommodations section of the 1964 Civil Rights Act in Pike County, where more than a dozen racial bombings and attacks occurred this summer.

The tests came a day after more than 600 McComb residents signed a statement calling for the re-establishment of order and respect for the law.

Driving Hazard Warning Issued

KANSAS CITY (AP) — The Weather Bureau issued warnings of hazardous driving conditions today for an area extending from eastern Colorado through Kansas, Southern Iowa, most of Missouri, northern and central Illinois, northern Indiana, lower Michigan and extreme southern Wisconsin.

Yesterday's Answer: **How to make me mad—ADD A "D"**

Pair Charged In Gem Theft

NEW YORK (AP) — Two Florida beach boys flew back to Miami Beach Wednesday night after a quick trip to New York to answer charges they stole \$400,000 in gems from the American Museum of Natural History.

Affable and self-assured, Jack (Muri the Surf) Murphy, 27, and Allan Kuhn, 25, pleaded innocent to charges of grand larceny, burglary and possession of burglar tools. They were freed in \$20,000 bail each.

They said they had an early morning swim in Florida before they left and were looking forward to an early morning swim there today.

Their lawyer said, "I hope the police find the real thieves and the Star of India, too." The stone, a sapphire, and other precious stones were taken from glass-enclosed exhibits at the museum on Oct. 29.

The gems have not been recovered.

THURSDAY NIGHT ON KMID TV channel 2

DANIEL BOONE
Blazing the way westward over the Wilderness
Trail...the legendary backwoodsman comes thrillingly to life! Fess Parker stars as the great pioneer!

6:30 P.M.

DR. KILDARE Fine drama...fine performers. Richard Chamberlain as Dr. Kildare and Raymond Massey as Dr. Gillespie.
"Rome Will Never Leave You," second of three parts. Rome seems to be distracting our medical researchers: Kildare meets the other man in Francesca's life, Gillespie tries to rekindle a wartime romance and Dr. MacDuff is determined to improve the sordid life of a street urchin.

7:30 P.M.

KRAFT SUSPENSE THEATRE
returns with gripping new stories and exciting guest stars.

9:00 P.M.

(COLOR) "The Jack Is High." Raymond Shipley, a mild-mannered English professor, pulls a multimillion-dollar robbery with the help of an unusual foursome: a night-club comic, a truck driver, a Korean War hero and an ex-convict. Then the quintet attempts an unusual getaway—hidden inside a gasoline tank car.

Dallas Erases Image Great Tragedy Left

DALLAS (AP) — The driver swings his car into Elm Street. He passes the nondescript orange brick building. The underpass lies just ahead. Once more the pricking begins in the back of his neck.

Here, at this place on the street, the first shot hit.

The car slips through the brief shadow of the underpass and turns into Stemmons Freeway. Moving faster, it passes a wide, stark building on the right.

That was where the speech would have been.

Up to 60 now in the rushing traffic, the car flashes past square towers of yellow brick thrusting up beyond a railroad embankment.

DEATH SITE

And that was where he died. The tired businessman is heading home. And the prickly feeling, the compulsive recognition of the Texas School Book Depository, of the Triple Underpass, the Trade Mart, Parkland Hospital have become part of his day.

This is the way it is in Dallas now, and perhaps always will be, for thousands of people who go home from work a certain way — and who were here on Nov. 22, 1963.

Now, in November, even the weather may be the reminder: A misty morning giving way to a luminous blue sky with the touch of a breeze.

That's the kind of day it was when John F. Kennedy came to town and Lee Harvey Oswald poked his rifle out a window of the Texas School Book Depository and fired the bullets that killed President Kennedy and wounded Gov. John Connally.

SHOCK, SHAME

There was more than grief in Dallas that weekend a year ago. There were shock, shame and agonizing self-examination. There have been changes in Dallas since.

Soon after the assassination, Southern Methodist University began a program of joining with city leaders in examining community problems of law and morality. This is continuing.

Last December, a small group of Democrats formed the North Dallas Democratic Club. By the time of the second meeting, the club had 400 members. By election time it had 2,600 and had changed its name to Greater Dallas Democrats.

Last summer, more than 300 leading businessmen formed a group called Businessmen for Johnson. Many of them had been voting Republican since at least 1952. Harry S. Truman in 1948 had been the last Democratic presidential candidate to carry the county.

Dallas people are less sensitive now about visiting other cities; they seldom run into the bitter remarks and sneers that met them in the months just after the assassination. When they go into other states, people question them about Dallas — but curiously, not bitterly.

And the city has had plenty of visitors. There have been unending conventions, including national meetings of the Junior Chamber of Commerce and the American Legion.

Business has never been better. The towers soar, the lights gleam, you can buy his and her gas ascension balloons for Christmas at Neiman-Marcus. SMU's football team is losing out, but the Dallas Cowboys are finally winning a few, the opera season is on, the symphony is bigger than ever, new managers try off and on to make a go of Jack Ruby's old strip joint, and soon the Christmas decorations will be out.

Jonsson has urged the city's ministers to take note of the Kennedy anniversary — especially since Nov. 22 falls on Sunday. They are likely to be more gentle with Dallas than they were a year ago.

On Nov. 25, the Dallas Civic Opera will present a tribute in dance to Kennedy, featuring premier dancers of great ballet companies around the world.

Nine Believed Dead In Blast

BRUSSELS (AP) — Nine persons are believed dead in the explosion and fire that destroyed an ink plant Wednesday in the Brussels suburb of Uccle. Three bodies have been found and six other workers are missing. Seventy-two persons were injured.

Protest Strike In Rome Over

ROME (AP) — The Eternal City snapped back to its normal bustle today, freed from the inconvenience of a 24-hour strike of shops, bars, restaurants and cafes.

The proprietors staged their strike to dramatize demands for an overhaul of taxes on their businesses. They say the taxes are too many and too high.

Maid Says Son Scared Of Pier

SANTA MONICA, Calif. (AP) — The 9-year-old son of singer Vic Damone and actress Pier Angeli "was afraid of his mother."

once cared for the boy has declared in a sworn statement.

The maid also swears Miss Angeli's mother, Erica Pierangeli, told her actress "nurtured an unexplainable hatred" of the boy, Perry.

Damone, 35, and Miss Angeli, 32, are involved in a court fight for custody of the boy.

The statement of the nursemaid, Giulietta Lazzara, 50, was notarized in Milan Nov. 6 by a U.S. vice consul and filed in Superior Court Wednesday.

The court put the matter over to Dec. 2. Damone retains custody of the boy until then.

Horror Ads Fight DWIs

LONDON (AP) — The Transport Ministry launched a horror campaign today to keep Christmas drunks from behind the wheel.

The ministry will spend \$1.4 million on posters and television commercials.

One poster shows a boy crushed beneath the wheel of a smashed auto. Another shows a girl sprawled beside a battered car.

Television spots show cheerful pub scenes punctuated with screams of tires and closeup pictures of mutilated crash victims.

Strike Activity Decline Reported

WASHINGTON (AP) — The Labor Department says that, despite the disputes in the auto industry, strike activity in 1964 is running at half the rate of the past 14 years. However, it shows a slight increase over last year.
