Alta Harvey Drowns June 25 Near Dozier

Robert Alta Harvey, 33, of the Dozier community, was drowned Tuesday afternoon, June 25, during a family swimming party at a farm tank three miles west of Dozier.

Visiting in the Harvey home were relatives from Oregon and a family reunion had been planned when the tragedy occurred.

The accident happened about the middle of the afternoon. Members of the party said that Mr. Harvey was wading in the tank, as he could not swim, when he stepped off into deep water. An effort was made by C. F. Bradley to rescue him, but due to the frantic resistance of the drowning man, he was unable to do so.

Pat Bradley, a brother-in-law, who was approximately a mile and a half away, was called. Locating the body, he brought it to the shore and applied artificial respiration. Mr. Harvey was pronounced dead when a Shamrock doctor and a Womack-Nix ambulance arrived at the scene with a pulmotor.

Funeral services were conducted Friday afternoon at 5:00 p. m. at the Methodist Church in Dozier, with Rev. Vernon Willard, pastor, and Rev. Jack Minter of Wellington in charge. Burial was at Dozier. Pall bearers were C. F. Bradley, Pat Bradley, Joe Hill, Walter Nixon, John Essary and Sam Seago. Flower girls were Nella Jo Hill, Novella Hill, Rosalie Essary, Patsy Ruth Bradley, Alice Bradley, LeVauna Bradley, Lauretta Bradley and Barbara Harvey.

Mr. Harvey was born November 2, 1912, at Glasscock. He had lived in this county for the last 24 years and was an outstanding young farmer of the Dozier community.

Mr. Harvey was married October 20, 1934, to Miss Susie Nixon and they had continued to make their home in that community.

He was a member of the Methodist Church at Dozier and was active in various community affairs.

He is survived by his widow and four children, Robert, Ray, Raymond and Etta Lou, all of Dozier; his father, R. A. Harvey of California; one brother and four sisters, Loy Harvey of Abita, Mrs. Pat Bradley and Mrs. Gussie Cornell of Dozier; Mrs. Mina Hill of Twitty and Mrs. Sula Bradley of Grant's Pass, Oregon.

Miss Lynn Moore of Wellington was named sponsor of the McLean Rodeo Saturday, June 29, after competing with a large number of girls from this section of the Panhandle.

The winner was determined by a flag race, in which each contestant rode her horse out of a chute, to a barrel in which she deposited a flag, then to a second barrel, from which she took a flag, and back to the chute. Miss Moore's time in the finals was 15 seconds and 13 seconds, or a total of 28 seconds.

Eliminations were held Friday afternoon and Friday night, and the top three performers in each race took part in the runoff Saturday. Each girl was given two trials in the final event.

School Bonds Sold; Material Shortage Delays Building

The \$100,000 bond issue voted by the Wellington Independent School District for construction of a new grade school building has been sold through the R. A. Underwood Company, bond brokers of Dallas, Harry Gilbert, business manager for the school district, said Monday. The sale was made as of June 1.

"The money is on hand, and now we are waiting for materials to become available," Mr. Gilbert said. An architect has not yet been hired to draw up plans and specifications for the building.

Service men of the county will be the honored guests at Abra's Fourth of July Rodeo and Barbecue Thursday, July 4, the only Independence Day celebration set for this county.

"We want every service man and woman in the county to be our guests. It's our way of saying thanks for what you did while you were in service, or are doing now if you are still in," W. R. Breeding, a member of the committee in charge, said.

All events of the day are free, Mr. Breeding said, the only charge being the entrance fee for contestants in the rodeo.

R. L. Templeton, young Wellington attorney, will be the speaker at the morning program. Races are also planned for the morning and the barbecue dinner will be served at 12 o'clock. Rodeo events are due to begin about 1:30 p. m. and will continue through the evening.

The new building, which will replace First Ward, will be built near the high school, giving the city its

Small Gain Is Shown In County School Children

A small increase in the number of scholastics in the county was shown again this year, B. W. Beard, county superintendent, said Monday after reports from all the school districts had been tabulated.

The unofficial count showed 2713 children between the ages of 6 and 18 inclusive. Although 79 of these live in Donley, they are in part of the Quail school district and were counted in the local census. The unofficial count last year was 2,685.

As a whole, rural schools showed a small loss of scholastics and the Wellington schools a gain. Dodson registered approximately the same number as last year.

High point of this county's scholastic record came in 1930, when 4,450 children were listed. The number declined each year until 1942, when there was a small gain. The number of students dropped again in 1943 and 1944, then showed an increase of approximately 200 last year.

Although there are 24 common school districts in the county, there will be school at only three next year, Needwood, Shinnery and Lone Mound. Students from the other 21 will be transferred or contracted to (Continued on Page Seven)

Water, Sewage, Airport, Pool To Be Voted On

Wellington's post-war improvement program will be determined Friday, July 5, when property owning tax-payers vote on the issuance of bonds for four specific improvement projects. On this election will depend whether there is an extension of the waterworks and sewer systems of the city, an extension of paved streets, the purchase of an airport and construction of a swimming pool.

The election will be held at the court house with T. E. Benges as presiding judge. The four projects will be voted on separately and if passed will provide for four separate bond debts, each independent of the other.

The bonds as proposed, will provide for the following: \$45,000 for improving and extending the waterworks, and extension of the sewer system. \$25,000 for construction and extension of streets. \$25,000 for the purchase and improvement of an airport. \$15,000 as a park fund which will provide for a municipal swimming pool.

"We have called the election at this time because we can sell these bonds at the cheapest interest rate in the history of the United States. If we wait later, until materials and supplies are plentiful, we will have to pay a higher interest rate. This one thing in itself will mean a considerable saving for the city and for the taxpayers directly," Mayor Pink Sullivan declared.

The city council joined Mayor Sullivan in pointing out that this election was called only after a petition bearing the names of more than 300 qualified voters of Wellington had been presented before the council. They further declared that these bonds will not be used until such a time as they are ready to begin work on the various projects.

Learning To Swim Here At Home Saved Flyer's Life

"I'd have drowned if I hadn't learned to swim out at the Country Club at Wellington," Joe Langford told his family after he came from a long period as a prisoner of the Germans.

And they remembered that this week, as interest mounted in the proposed swimming pool, to be voted upon along with other city improvement issues Friday, July 5.

Langford, gunner on a heavy bomber, was forced to bail out into the North Sea in 60 degree water after his plane had been riddled by enemy gunfire. He swam for two and one-half hours that he knows of—and he doesn't know how much longer—before he was picked up and turned over to German soldiers.

More Word Of Soldier's Death

Rain Fails To Stop Farm Bureau Picnic

By R. L. TEMPLETON
The Collingsworth County Farm Bureau held its annual basket lunch out-door picnic Tuesday night, June 25, when the members spread lunches on benches at Ellison Park. The fried chicken, salad, cakes, pies, ice cream, tea and coffee covered three benches. Steve Owens brought ten gallons of ice cream to top off the lunch.

Jake Tarter, President, brought up the business matters and introduced speakers amid thunder, lightning, and occasional showers. The members were so glad to see a rain threatening they never let an occasional shower alter the program in the slightest.

Leonard King, candidate for District Attorney, was the principal speaker. He told the farmers of his childhood on a farm in Childress County and how he has stayed close to the earth by owning and renting his place in Childress County. He sympathized with the farmers in the trails they have had in meeting the production goals set during the war and he praised them for the unselfish way in which they met and surpassed the goals set for them despite shortage of help and equipment. He pointed out that when he was County Judge of Childress County he led the way in re-establishing the County Agent and Home-Demonstration service in the county because his farming experiences had taught him the value of the services of these two agents.

R. L. Templeton, Candidate for State Representative of the 122nd District, made a short talk about his efforts to get more members into the Farm Bureau. He is going to open a Farm Bureau booth which will be erected at the Abra Rodeo for farmers interested in joining the organization.

Surplus Property Meeting For Vets

Local World War II veterans who desire to obtain surplus property from the War Assets Administration will have an opportunity next Monday and Tuesday, July 8 and 9, to ask questions and complete the necessary paper work for certification at the Veterans Information Center, 110 East Fifth Street in Amarillo.

Both a certifying officer and an experienced veteran interviewer from the veterans division of the Fort Worth Regional Office of the War Assets Administration will be in Amarillo July 8 and 9, it was announced this week by Hamilton Morton, WAA regional director.

On a recent visit to Amarillo, details were worked out in co-operation with Tom Nelson of the Veterans Information Center and Rhea Smith, County Service Officer for a series of four two-day visits to render a more personalized service to veterans residing in the 26 counties of the Panhandle.

Charles J. Foster and Melvin M. Calvin, both veterans of World War II, are the two WAA representatives assigned to the Amarillo Area who will be available for con-

sultation by veterans next Monday and Tuesday. Trips to Amarillo are scheduled for July 22-23; August 5-6 and 19-20.

Veterans from Amarillo, Sherman, Hansford, Ocmulgee, Lipscomb, Hartley, Moore, Hutchinson, Roberts, Hemphill, Oldham, Potter, Carson, Gray, Wheeler, Randall, Deaf Smith, Armstrong, Donley, Collingsworth, Parmer, Castro, Swisher, Briscoe, Hall and Childress counties will be able to contact the two WAA men between the hours of 9 A.M. and 5 P.M. both days of their trip.

Veterans should take with them their honorable discharge or certificate of satisfactory service, or if on terminal leave, their terminal leave papers, to enable Foster to complete the necessary papers certifying them for such surplus property as they wish to apply for.

Many items of surplus property, including tractors, trucks, much farm and construction machinery, dental, surgical, medical and veterinarian instruments are "set aside" for sale exclusively to veterans. They can all be purchased for personal use.

In addition, veterans hold a priority, second only to that of federal agencies buying for their own use, on all other categories of surplus property. A veteran can be certified for any article which he shows

WATERWORKS & SEWERS

More money is supposed to already be available than can be economically spent for the available supply of materials and labor. Why borrow more against our homes when we can't economically spend what we already have lying idle?

STREET IMPROVEMENTS

Where does the moral right come in to place a lien against the homes of all of us in order to build streets by the property of a privileged few.

Why - Above All Things - Is This Proposal Made Now?

It may be many months, possibly several years, before funds can be spent to advantage. Why plaster our homes now with another crushing debt. We can always vote a moderate sized issue at a later date if the need be proven.

All are familiar with the many cases during the past year in which property in this City has been sold for delinquent taxes and the owners thereby losing their property. **DO YOU WANT TO LOSE YOURS?** The future will look dark indeed for all of us in event this impossible and terrible amount is voted against homes and property.

White Holds Its Own

Above is a dotted marquisette wedding dress, fully trained and delicately embroidered with tiny white pearls on the floral applique of the bodice. Fingerless mitts are made of the same fabric as the dress. Traditions always have a reason-to-be, and in so far as "white for the bride" is concerned, the secret might well be that the bride who feels she looks beautiful actually does. That's the magic, for every bride, of white . . . and a possible explanation, too, for the increasing popularity of the all-white wedding. A note of color for the bride's attendants for an all-white wedding is usually introduced in sashes, bouquets, and headdresses.

Creed-Livesay Rites Spoken In Amarillo Wednesday, June 19

Miss Dora Creed, daughter of Mr. and Mrs. Harry L. Creed of Hereford, became the bride of Harold W. Livesay, son of Mr. and Mrs. Norman W. Livesay of Hereford, in a single ring ceremony Wednesday, June 19. Rev. J. W. Sisemore read the vows in the Baptist parsonage in Amarillo at 9:45 p.m.

The bride wore a soft powder blue crepe dress with white accessories. Her corsage was of white carnations. The traditional "something old, new, borrowed and blue" was carried out.

Attendants for the couple were Mr. and Mrs. M. C. Horst of Amarillo, sister and brother-in-law of the groom. Mrs. Horst wore a pink wool suit, using black and white accessories. Her corsage was of pink carnations.

The bride is a graduate of Hereford High School, graduating with the class of 1946. She lived in Collingsworth County with her parents up until the time she was a senior, when the family moved to Hereford. She attended school at Quail for ten years.

The groom attended schools at Hereford and Vega, graduating with the class of 1940. Prior to the time of his discharge last December, he served for 37 months with the Navy. When overseas, he was stationed at Pearl Harbor.

Mr. and Mrs. Livesay are at home at Hereford, where the groom is farming.

H. Melton of Wellington. The single ring ceremony was solemnized by Minister V. D. Shofner, pastor of the Church of Christ in Wellington, in the presence of about thirty close friends and relatives.

The wedding vows were spoken before an improvised altar of tall baskets of white gladioli, flanked by candelabra bearing lighted white tapers.

Given in marriage by her father, the bride wore a white waffle-weave pique dress and a lovely picture hat with an open top. She carried a bouquet of red roses that were entwined together in the shape of a fan.

Wellington High School Girls Show Wide Interest In Summer Project Show

The annual summer home economics course of Wellington High School again has a wide interest among the high-school-age girls, with fifty taking the summer project work under the capable direction of Miss Nell Davis.

The girls have many different types of individual projects that they may choose from to put in at least one hundred hours of deserving work toward their goal. This includes gardening, canning, wardrobe improvement, planning and preparing meals, and yard improvement. They will receive one-half credit when satisfactorily completing their project, and they have the entire summer to finish it.

Not only do they have such helpful individual projects as listed above, but they also participate in group projects. They have met in the Home Economics Department of Wellington High School and made new kitchen curtains, cleaned and varnished the floors in the dining room, clothing laboratory, and teacher's lounge, washed all the windows in the department, varnished woodwork in the clothing lab and dining room, painted garbage cans, and numerous other useful projects.

On Wednesday, June 19, the girls enjoyed a picnic at Ellison Park.

Girls taking the summer project work are Marie Gibson, Peggy Langford, Coleen Lewis, Patsy Lewis, Jimmie Light, Edith Lindsey, Ruby Lucas, Barbara O'Rear, Dorothy Starkey, Lucille Zeek, Lynell Arthur, Mary Louise Alexander, Dorothy Cornell, Jocelle Gray, Earlene Harrison, Wanda Hartman, Sylvia Keith, Frances Sue Lawrence, Joyce McPherson, Mary Ann Richards, Jessie Mae Terry, Virginia Nell White, Laverne Ware, Colene Wheeler, Shirley Williams, Mary Juanel Wolf, Norma Brock, Anna Jane Clement, Ruth Davis, Bernice Gibson, Marie Harris, Joyce Hightower, Mary Alice Holton, Ethel Jean Isaacs, Dorothy King, Wilma Faye Lee, Billie Lewis, June Moore, Ruby Nell Potocet, Marjorie Robertson, Doris Simmons, Alleta Williams, Waneta Williams, Peggie Jean Yarbrough, Glenn Etta Davis, June Lamkin, Mary Nell Chandler, Doris Copeland, Peggy Scarberry, and Helen Harris.

Two boys, brothers, age 11 and 13, faced an uncertain future today as they waited in their cell at the county jail atop the court house in Hollis.

The two youngsters don't exactly know what all this is about, except that they did something wrong and now have to face the consequences. Of course, it would be easier if they had a mother or dad who was fighting at their side, but the kids just aren't that fortunate.

Caught early this week after they had stolen two bicycles, the boys readily confessed, told officers they did it to get something to eat. Their father is dead, their mother and younger brothers were somewhere, they didn't rightly know.

Since their arrest the boys have been kept in the county jail, no fit place for growing boys, you'll agree. But the officers had no choice. As for the boys, well, if you have boys of your own, you must know how they felt about the matter.

Wednesday morning both boys were brought before the county court where they told their story. Lawyers and spectators alike found lumps in their throats at the tragic circumstances unfolded before them. Since the court had been unable to trace the mother, there was no choice in the matter save commit them to the state Industrial School for Boys.

Court house employees have since kept

• Out Of Hand?

Wheat Farmers have just cause for complaint against the government's ruling that half of their wheat MUST be sold. This, after the OPA's double crossing the wheat producer on the price, is something that may be pretty hard to swallow for the farmer. Remember when the government said that there would be no further increase in wheat prices, then upped the price thirty cents a bushel for those who didn't believe them and stored their wheat? Seldom has any group been so penalized by the government. It is still another instance of government bungling of private business. But we started asking for this kind of business back in 1932. Now we've got it, we may have let it get out of hand—Ed Bishop in The Dalhart Texan.

• More About Wheat

We're calling on the wheat farmers of the Southwest to rebel against autocratic, dictatorial attitude of the government when it says that a farmer has to sell fifty per cent of the wheat that he delivers at an elevator. What kind of congressmen do we have that will allow the policies of decadent Europe to gradually change our government from one of free enterprise to centralized control and dictatorship?—The Ochiltree County Herald.

them supplied with funny books and ice cream but the tragedy of it all still remains. Two kids without a mother or dad to help them. Veteran officials who worked on the case were plainly touched as was your reporter. Nobody likes to hear a youngster cry, especially if it comes from a broken heart. The fault didn't lie with the boys, it was one of those social problems that people have to face from time to time.

Lat Wednesday the mother of the boys showed up, told the court that she had been in a state city and now wanted the boys back again. After some questioning the court ruled against her wishes when they learned that she was incapable of providing them a proper home.

Today the boys still wait in their cell while a welfare worker helps decide their future. Pitiful, yes tragic that this must happen to a couple of future citizens, children, too young to understand their unhappy circumstances. Their trouble can't be rightly blamed on them. Bright as new dimes, they're just a couple of mischievous boys like yours and mine. The trouble is simply the result of a broken home where parents didn't place high enough value on real parental love—Hollis Weekly News.

Care Can Help Prevent Polio

AUSTIN -- Dr. Geo. W. Cox, State Health Officer, has issued the following statements and suggestions concerning the control and prevention of poliomyelitis which is now occurring in certain sections of the State.

Until recently it was generally believed that this infection is transmitted by means of discharges from the respiratory tract. It is now believed that poliomyelitis may be another of the several gastrointestinal infections. Therefore, control measures must include clean-up campaigns and improvements in sanitation.

Strict sanitary measures must be observed in all communities. Stringent efforts should be made to eliminate the house-fly and to destroy its breeding places. All mosquitoes and mosquito breeding places must be eliminated at once. Every effort should be made to institute approved garbage collection systems immediately. Safe water supplies must be assured. Where adequate municipal sewage disposal systems are not in operation, it is vitally important to promote and maintain sanitary septic tanks and outdoor privies.

All swimming pools should, under rigid supervision, maintain those standards approved by the Texas State Department of Health. This necessarily includes maintenance of proper chlorine level. Where such standards are not maintained, those pools should be

closed immediately.

All raw foods and vegetables should be washed thoroughly before use and protected from flies, filth and insects. All eating and food handling places should adhere strictly to the State Law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain good sanitation should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitary standards.

Every effort should be made to secure approved milk. Rats and mice should be eliminated. Maintain in the home the same sanitary standards that are necessary in community life. Particular attention should be paid to personal hygiene. Excreta from cases and contacts should be handled and disinfected with the same scrupulous care as in typhoid fever or bacillary dysentery.

Over-exertion in children should be avoided. Children should not visit homes where there is illness. Polio cases should be quarantined for 14 days and adults who work in food establishments should be particularly instructed in personal hygiene. It is advisable to reduce to a minimum all human contacts, especially in children during an outbreak of this disease. It is not advocated that schools, churches, and theaters be closed.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

DIDACTICS

—By Deskins Wells

Sincere congratulations to the grocery stores in Wellington. This week Ted Rogers and I checked the prices of those that carry advertising. We compared the prices run this week with those run the two weeks before. None were any higher; but the prices on several items were lower.

There may be more good come out of the present governor's race than some people expect. A lot of people who might not have had the opportunity otherwise will be able to see in person such top flight radio stars as Jimmie Jefferies, Ken McClure and the "grand opera" gang.

This is a beautiful country in which to raise children and perhaps grandchildren — when it rains. The farmers say it is a little harder to raise crops.

Mr. Williams borrowed my horse to use in the parade. The horse got scared of the elephant and hung his hind leg in the fender of a car. Mr. Williams is taking care of him now. He may have bought himself a horse; but there are no hard feelings on my part on account of the fact that I intended to sell the horse anyhow. I had just as soon sell him to Rufe as to anyone else.

Thursday is the day that the daring men from Abra will try to make their word good to the gallant men and women who served in the war. They are going to put on that big free barbecue. They think and a lot of their friends think that they have bitten off a mighty big chunk; but I do admire the way they are chewing on it. I predict that they will chew it successfully and then, like the country boys and unshaven cowpokes that they are, turn around and ask themselves: "How in the world did we do that?"

July 4th is the big day for Abra; but Friday, July 5th, is the important day for Wellington.

Next Friday the people of Wellington will go to the polls to decide on the future of our town. On that date the people will vote on a proposed bond issue to en-

large the water system, sewer system, streets, and make provisions for an airport and a swimming pool.

As a past alderman, mayor and even more as a citizen, I would like to explain a few of these things and the need for them to you, my friends. You will not see swimming pool on the ballot. This is due to a legal technicality. The attorney general, and rightly under our present laws, will not approve a bond issue for a swimming pool alone. But he can and will approve one for park improvement, which includes a swimming pool. When you vote for park improvement, you are voting for a swimming pool.

Another item on the ballot will include street improvement. Mayor Pink Sullivan told me that he had promised the people north of the tracks paving. He is anxious to get the bond issue passed and get these streets paved before his present term expires.

Now let us consider the water improvements. Here is something that all of you regardless of your age may well note. I have secured a definite commitment from the City Council that a part of the water funds will be used in piping water to the cemetery. Mr. McCarver and I have been out there several hours on different days in the last two weeks. The soil is not bad. It can be made beautiful with work and care—provided there is water. This should be of interest to those of 50 and 60 and 70 and 80 years of age.

I will check on this promise about water at the graveyard one more time before I send it to the printers. But if it runs as written, and then the Council does not have water at the graveyard in not less than one year, then there will be a fire lit, and it will rest on the people to provide the wood. If they bring as much timber as I think they may, I can assure that no alderman or mayor will be able to stand the heat. I doubt if Mr. Handley, as much as I value his services, will be able to stand it either. Such is my statement to those of you who want the graveyard beautified.

I will let the reason for voting for an airport go by without specific argument. My personal reasons for wanting an airport that would serve our town adequately died June 10th. But the real reasons are just as alive as they were when Marian kept telling me that Wellington must have a better air-

Sadler Speaks Here Thursday

Jerry Sadler's Memorial Act to give to every Texas family a home will draw fire from the "honey-money boys," the candidate for governor said in his speech at Wellington, Thursday, June 27.

The World War II veteran asserted that his plan to set up a state corporation to insure loans on homes and farm, with no down payment, would be self-supporting.

"The Princes of Privilege, the Minions of Monopoly, the honey-money boys will shy away from my program for veterans because they will be afraid it would cost money," he said.

"These plush-office, honey-money boys sat in their swanky offices and grew rich on war profits while your sons bled and died. They will throw all manner of dead cats at Jerry Sadler."

The candidate said he would welcome the attacks.

"It is a high compliment to have men of their like against me," he added. "I ask you to listen to their

port. She felt that it was needed to build the kind of a town we ought to have.

The City Council has done its part to date. Now it is up to us to decide if we want a better town.

maggie chattering with the knowledge that they are misled."

Sadler charged that a "loose language" constitutional amendment setting a \$35,000,000 ceiling on welfare funds, including old age assistance, misled the old folks. They believed, he said, that they would receive \$40 a month.

"The way it worked out, it would be an utter impossibility to pay the expected 20,000 persons on the old age assistance rolls more than an average of \$26 a month," Sadler said. "I was not in this country when this political subterfuge, this political dishwater was served to the people. But four of my opponents were."

He said he would not liberalize the definition of need.

"Need is need; you either need or you don't," he defined. "You either need \$40 a month or you should be cut off the rolls."

Sadler came to Wellington from Pampa and from here he went to Childress. His itinerary on Friday includes talks at Wichita Falls.

Pipe water to cemeteries.

STREET IMPROVEMENT BONDS:

Paving streets in the north and southeast part of the city; around the high school grounds; extend Dalhart Street pavement through the Cocke addition.

AIRPORT FUNDS:

Provide funds to co-operate with the Federal Airport program and keep pace with our neighbor towns. Memphis recently voted airport bonds by 234 for their bonds and only 18 against.

PARK BONDS:

Construct a swimming pool, and provide additional park facilities to meet the needs of our citizens, particularly our children. Our municipal building supplies the indoor needs for a common meeting place, and an up to date park will supply an outdoor common meeting place.

Our water meters indicate that the population of Wellington has increased a thousand in the last two years. We sincerely believe that all of these improvements are essential to the future development of our city and to the welfare of its people.

Winfree Brings Candidacy Here

Jo Winfree, who is seeking the office of Lieutenant Governor of Texas, stopped in Wellington briefly Friday, June 28 in behalf of his candidacy. After greeting a number of business men and other residents around the square, he made a short talk, outlining his platform.

"When I became chairman of the revenue and taxation committee of the 48th Legislature, the general fund of this state had a deficit of \$28,000,000. I said we had a war to win; a hundred billion dollar federal budget to pay; and billions of dollars in war bonds; that we had to do things, and that as far as I was concerned, there were not going to be any more new state taxes. That had not been the policy in more than 65 years, but it was accomplished with the aid and co-operation of my committee. We clipped, killed, squelched, smoothed or sidetracked every tax bill that was offered in the 48th Legislature. The general revenue fund is now out of the red, has more than twenty million dollars to its credit, and we now have from taxes a state income of more than \$150,000,000 a year. Texas business affairs are in a healthy state and if you elect me lieutenant governor, I shall do my best to see that no new taxes are voted on the citizenship of this state during my tenure of office. I am opposed to any new state taxes, favor instead the wise, economical use of funds already available," he said.

Mr. Winfree went on record as favoring the redistricting of the state; extension of the farm to market road system; building dams for flood control and water and soil conservation; increasing teachers salaries, and payment of liberal old age pensions.

Mr. Winfree came here after touring the North Plains section. He was accompanied by his son, who is assisting in the campaign.

THE STATE OF TEXAS
TO: ED HAWKINS, Defendant,

You are hereby commanded to appear before the Honorable District Court of Collingsworth County at the Court House thereof, in

Gospel Of Christ

(Rom. 1:16)

THE GLAD TIDINGS

"The gospel of Christ is the power of God unto salvation." Rom. 1:16. Of the things written concerning Christ, John said, "These are written that ye may believe that Jesus is the Christ the Son of God." Jno. 20:31. Paul said, "Faith cometh by hearing, and hearing by the word of God." Rom. 10:17. Jesus said, "Ye shall know the truth and the truth shall make you free." Jno. 8:31. Thus we see the imperative need of learning what God has said in his word that we may be saved.

Hearing the gospel alone will not save. James said, "be ye doers of the word, and not hearers only, deceiving your own selves." Jas. 1:22. The gospel must therefore be obeyed as well as heard and believed. Peter asked, "What shall be the end of them that obey not the gospel of God?" I Pet. 4:17. Paul gives the answer as he says, "The Lord Jesus shall be revealed from heaven with his mighty angels, in flaming fire taking vengeance on them that know not God, and that obey not the gospel of our Lord Jesus Christ. II Thes. 1:7,8.

Thus we know that it is by the gospel that God saves men. This gospel, His word, the Truth, revealed by the Spirit in the Bible is to be believed and obeyed if we are to receive the blessings promised.

Beauford Jester Outlines Platform Here Wednesday

Beauford Jester, candidate for Governor, stopped a few minutes in Wellington at about 3:00 p. m. Wednesday, June 26, and went on a handshaking tour around town and the County Court house meeting and talking with friends and supporters. Accompanying Mr. Jester were Ken McClure, well-known radio news reporter from Radio Station WOAI, San Antonio, David Botter, correspondent for the Dallas Morning News, Harry Johnston, correspondent for the Hounston Post, Wallace Scott, Jr., former co-captain of The University of Texas Longhorn Football team, and Randy Mitchell, former drum major of the Longhorn Band and former circulation manager of The Daily Texan, University of Texas newspaper.

Jester is making a fast moving tour of West Texas towns and already had visited and made speeches in Electra, Vernon, Quanah, and Childress when he arrived in Wellington.

Speaking to a good size group of citizens who had gathered to hear the candidate speak, Jester explained his stand on the old age pension question and his farm-to-market road program. He received a friendly reception.

Jester stated that he is making the race for governor on his record as a citizen, as a former member of the Board of Regents of the University of Texas (1929-1935), and as a Railroad Commissioner of Texas since 1942. Jester said, "My record is one of friendship, harmony and progress. It will be the same kind of record when I am your governor."

Jester's father was George T. Jester of Corsicana who served one term in the Texas House of Representatives, one term in the Senate, and two terms as Lieutenant Governor, 1898-98, under Governor Charles Culberson.

He is a veteran of World War I, having served in three major offensive engagements in France and later in the Army of Occupation. He belongs both to the American Legion and the Veterans of Foreign Wars.

Among other things, Jester proposes full payment of the \$40.00 per month to the old people of Texas entitled to the pension, a complete program for farm-to-market roads, the establishment of a veterans' Affairs Commission, staffed by veterans, to eliminate red tape for veterans and see that they obtain, without delay, their rights and benefits under existing laws and laws yet to be passed. He also favors carrying out the law with respect to legislative redacting, saying that West Texas and South Texas are now suffering from the failure of the legislature to follow the law in this regard.

Continuing on his tour of West Texas, Jester and his party left for Shamrock and McLean, where brief stops were scheduled, and on to Pampa for a Wednesday night rally.

Jester's slogans in his campaign for governor are "Travel the People's Path with Beauford Jester," and "With Jester, Texas Comes First."

If it really doesn't rain in California, then the sun sure must perspire a lot.

of the need of a more adequate water supply.

It will likewise provide for piping water to the Wellington cemetery. This, Mayor Sullivan said, will enable the city to work out a plan for cemetery improvement and beautification, so long sought by those who have relatives buried here.

The sewer system will be extended in the east part of Wellington, as the present system does not go to the east side of the town section.

The proposed street improvement will include paving in North Wellington, around the high school, where the entire school system will be located eventually, an extension of El Paso Street through the Coker Addition, and additional work on Eighth Street.

The airport project has been brought up at this time, Mayor Sullivan said, in order that the city may, if the issue passes, take advantage of the government's airport expansion program, whereby the government will match dollar for dollar any amount the city wishes to put up on the purchase and improvement of airport facilities.

Due to a legal technicality, the bonds proposed for the swimming pool must be voted on as park bonds, otherwise they cannot be approved by the attorney general. It is in this manner that all towns in this area that have voted in favor of swimming pools have secured them. The pool, along with other necessary park improvements, will be located near the present Ellison park.

The city council points out, that if the people approve bonds for a swimming pool, the most modern type possible will be constructed, that the water will be kept fresh and disinfected at all times and that the pool will be kept under adult supervision during the entire time it is open.

KILMER'S SWAMP ROOT acts fast on the kidneys to ease discomfort by promoting the flow of urine. This pure herbal medicine is especially welcome where bladder irritation due to excess acidity is responsible for "getting up at night." A carefully blended combination of 16 herbs, roots, vegetables, balsam; Dr. Kilmer's contains nothing harsh, is absolutely non-habit forming. Just good ingredients that many say have a marvelous effect. All druggists sell Swamp Root.

We Can't Vote Friday

We can't vote Friday, July 5; because we are boys and girls who are between the ages of 12 and 18. But our parents and our teachers tell us that some day we will have to run the town and take care of it. We can't do that now as you know. But we would like to appeal to the grown people to vote for the swimming pool. This comes under the park improvement program, we are told.

We go swimming now in Shamrock; but it takes nearly a whole day. Some of our parents do not want us to go because of hazards on the highway. When we do go we have to buy our lunches there. The girls' parents have to take them. It is not much money per trip; but in all it amounts to a lot of money that Wellington people spend in Shamrock. We like Shamrock and like to swim there; but we had rather swim at home and we know our parents would like for us to stay at home.

We would like to have clean wholesome exercise in our own town under proper supervision. Other towns have it and we would like to ask you to provide it for us.

Only a few days ago Mr. Harvey died in a tank in the Dozier community. But if he could have swum only a few feet, he would be alive today. Joe Langford would not be alive if he had not learned to swim at the old Country Club swimming pool and he repeatedly said so.

We can't vote; but we would like for somebody to vote for us.

So won't you, our parents and adult friends, help us, and help improve our city by voting FOR the Park Improvement program Friday, July 5?
