## Thefts, Aggravated Assaults Reported

A major theft of aluminum pipe, aggravated assaults on three females in separate incidents and a man shot in the arm during an altercation headed reports investigated by sheriff's officers and Tahoka Police Dept. during the last week.

A young woman who lives north of New Home told officers she was threatened with a gun and grabbed by the hair after three Mexican-American males came to her home about 7 p.m. Monday, May 23. She said she ran into the house and called a relative after they appeared, but they entered the house and one of them held a pistol to her throat and demanded to know her name and her husband's name. She was not otherwise harmed, however, as the men left after learning she

had called someone.

The men reportedly were driving a black Monte Carlo with a T-top white stripe. Crime Line, 998-5145, has offered a \$300 reward for information clearing the case.

Crime Line also has offered rewards of \$300 each in theft of aluminum pipe near Petty and in an attempted barn burglary northeast of New Home about 5.5 miles. In the latter case, V.P. Early Saturday morning Emilio Chavarria, 41, was treated at Lynn County Hospital for a gunshot wound to his left arm. He told officers he was shot at a location near the east city limits of Tahoka, but would not name his assailant.

A 19-year-old O'Donnell woman reported she was injured when shoved into an ice machine at a convenience store in O'Donnell Saturday night. She identified a 19-year-old O'Donnell man as her assailant and said she had encountered him earlier that night at a dance. She suffered a cut on her forehead. No charges had been filed in the incident.

J.C. Thomas of 1201 N. 6th reported to police on Thursday, May 26, that someone had stolen his dual cassette jambox from his residence. Value was set at \$150. Vonda Bryant reported to police on Sunday that someone had poured some oily substance on her carpet at her residence at 1901 N. 8th.

Police picked up one runaway out of Lubbock during the past week and the subject was taken into custody. Police also arrested two persons out of Lubbock for outstanding traffic warrants.

A woman living on S. 3rd reported to police that she had been assaulted during the past week and was advised to file charges with the county attorney.

Police arrested one person for public intoxication during the past week.

Three fights during the last weekend in Tahoka, two of them involving teenagers on the Main St. "drag", reportedly took place, with police answering two calls to the scene Friday.

Over 200 of the top cyclists

from Texas will compete. The race is open to any Texas resident holding a USCF racing license. ## Oil Property Losses Cut Lynn Valuations

Seven Texas counties including Dawson and Lamb Counties on the South Plains were designated natural disaster areas April 29 as a result of hail, rain, high winds and flooding from March 1 through July 31, 1987, and 32 counties adjoining these, including Lynn County, were included for emergency loans because of damages and losses caused by adverse weather conditions in the 1987 crop year.

Lynn County commissioners were advised of the designation by County Judge J.F. Brandon in the regular meeting of the commissioners May 23.

These emergency loan applications will be received through Dec. 29 for physical and produc-

tion losses. Home extension agent Annis Brown appeared before the commissioners and was given approval to change to a different long distance telephone agency.

The Lynn County Appraisal District has advised the county that appraisals are down about \$4 million countywide, mostly because of lower values in oil properties as compared to last year.

Valuations in the county totaled about \$255,780,000 in 1987 and about \$251,751,000 for 1988. Judge Brandon told commissioners Monday. This means the county would be receiving less money from taxes, providing tax rates stay the same.

# Salute to Scholarship Donors

Higher education is not for every high school graduate. At one time, however, it was not available for many well qualified students wanting to enter a career where a college degree is needed.

In some cases, individuals struggled to work their way through a professional university course. It was tough and not always successful. Some chose a lesser challenge they could afford.

There are individuals on that same unpredictable path today, only the road to higher education has more positive help available.

Thanks to generous folks with a yen to help, high school grads can win scholarship stipends from funds established in trust accounts. The moneys are usually accumulated by individuals making one of those impossible versions of the good old American dream come true.

Knowing the hardships, these people vision the scholarships as allowing a student to concentrate full time on study and not have to worry from money pressures.

The extent of scholarships from individuals and other sources is no small matter as attendance at commencement demonstrates.

We appreciate such help to young people as an excellent example of assets well invested for the future of our community.

## Insect Scout Training Workshops Scheduled In Plainview June 3, July 6

Cotton, corn and sorghum producers in the Panhandle and South Plains are again receiving a special invitation to attend the annual High Plains Insect Scout Training Workshop to increase the effectiveness of their pest management programs.

The first of two workshop sessions will focus on early and mid-season pests and will be held Friday, June 3, at the Ollie Liner Agricultural Center in Plainview. The center is on U.S. 87 Business Route south of the city.

The second workshop is scheduled for July 6 in Plainview and will cover mid to late-season crop pests.

The workshop, conducted by the Texas Agricultural Extension Service, was first held in 1973 to train scouts in the past management programs conducted by Extension, part of the Texas A&M University System.

In subsequent years, it has expanded to include scouts employed by consultants, aerial applicators and others, as well as producers who want to learn how to scout their own fields for insects. The workshop focuses on perfecting skills in identifying crop pests and making timely pest management decisions which can protect investments and yield.

The workshop will begin at 8:30 a.m. with Dr. Pat Morrison, Extension entomologist, outlining the scope of the training, general concepts of pest management and samplings. Aspects of pesticide safety will be presented by Mike Blanton, Extension Agent-Pest Management at Farwell.

Dr. Jim Leser, Extension entomologist, will open the cotton pest section with information on thrips and beneficial insects. Cotton fleashoppers will be discussed by Mark Brown, Extension Agent-Entomology headquartered at Crosbyton. Dr. James Supak will present information on growth and development of cotton plants.

Greg Cronholm and Allen Knutson, Extension Agents-Entomology in Plainview and Dimmitt, will provide information

on early and mid-season pests of corn, sorghum, soybeans and sunflowers. Major plant diseases of South Plains crops will be discussed by Dr. Harold Kaufman, Extension plant pathologist.

The workshop will conclude at noon with a hands-on session in which participants will learn how to determine the percent square set on potted cotton plants and will identify insect specimens. Handouts will be available.

### FmHA Issues Proposed New Lending Rules

Proposed rules, which could assist hundreds of farmers who are behind on their Farmers Home Administration loans, were issued today, according to FmHA Texas State Director J. Lynn Futch.

The new regulations will carry out portions of the Agricultural Credit Act passed by Congress last December. "There will be a 30 day comment period and additional time for any appropriate changes before the regulations become effective," Futch said.

One of the changes would allow FmHA to reduce the delinquent debt of certain borrowers to help them stay in business. There are approximately 5,000 delinquent borrowers in Texas, many of whom should be assisted with this program once implemented.

In related actions, the Agency also issued proposed regulations to:

- \* Make it easier for farmers or their families to lease or buy back homesteads that have been lost through foreclosure or conveyance;
- \* Set up a program to help members of minority and socially disadvantaged groups to purchase farmland and develop an outreach program to carry it out;
- \* Establish a new administrative appeals unit distinct from the rest of the Agency to handle borrower grievances;
- \* Certify and participate in state mediation programs.

Whatever the cause of low back pain, part of its prevention and treatment is correcting bad posture and good posture is not simply a matter of "standing tall." It means correct position of the body at all times—even when driving.

The key to correct posture in a car is the same as in all body posture positions; that is keeping the lower back in a flat or slightly rounded position, never with a forward curve or sway-back.

When driving, move the car seat close enough to the wheel so that your knees are bent, and either level with, or slightly higher than your hips. This helps assure that your lower back will be flat not swayed. The seat should be adjusted so that your legs are not fully extended.

Sit back in the seat with your upper body over your hips. Keep your head and neck back over your shoulders in a straight line with your spine. If you are on a long trip, if you travel a lot, or if the car seat doesn't provide good back support, add a firm, flat pillow to support and protect the lower back.

On long trips be sure to stop every few hours so you can stand up and stretch. It is also important to learn how to get in and out of a car properly. Sit facing the open door, then swivel your feet and body into position. Reverse the procedure when getting out of the car.

You can even use driving time for some easy, inconspicuous abdominal exercises that will help to prevent back pain.
