Former Governor Suggests To Labor Group That Committee Be On Hand At Austin To Confer On Matters

(By The Associated Press)

AUSTIN, Nov. 14. — Representatives of the Texas State Federation of Labor today appealed to Mrs. Miriam A. Ferguson, governor-elect, to consider laboring men when she made up the personnel of boards and bureaus under her administration.

James E. Ferguson, former governor, heard the plea for his wife, also chief executive at one time, and replied that Mrs. Ferguson would give representatives of organized labor due consideration when the time came for her to select her "cabinet."

May Abolish Bureaus

He told the conference that in all likelihood the 43rd legislature, which convenes in regular session on January 10 next, would abolish some of the boards and bureaus.

"Maybe we can get laboring interests to help us abolish some of these boards and bureaus," Ferguson said.

Advisability of abolishing the industrial accident board has been widely discussed, Ferguson said, reporting that some well informed persons did not believe it adequately met the needs of those seeking compensation for injuries sustained while at work.

Suggests Lobby

He congratulated organized labor for taking "time by the forelock" and making its wants known before hand and suggested that the labor group maintain a committee of not less than six to stay in Austin and be available for conferences with the governor on labor matters and to represent labor before legislative committees.

Ferguson stated all governmental units were in bad condition and predicted that the regular session of the legislature, starting in January, would be the "most eventful in the state's history."

Cold Wave In Area Forecast

New Orleans Weather Observer Issues Warning; Says Temperatures Will Drop In Two States Tuesday

(By The Associated Press)

NEW ORLEANS, Nov. 14—Dr. R. A. Dyke of the New Orleans weather bureau today issued a cold wave warning for Oklahoma and sections of Texas and Arkansas. It said:

"A cold wave is indicated for Tuesday in Oklahoma, northwest Texas and northern Arkansas Tuesday. Temperatures from 20 to 30 degrees are indicated for Tuesday night in Oklahoma and the northern portions of West Texas, and freezing or lower temperatures in North Arkansas and Northwestern sections of East Texas.

"Warnings have been issued to stock in Oklahoma and Northwest Texas."

Temperature Falling Here Early Today

On the heels of warm weather here Monday, a norther struck Lubbock at about midnight. Temperature at 1 o'clock this morning stood at 38 degrees, as compared to a high of 84 for yesterday.

The cold wave brought below freezing temperatures at midnght at Amarillo. The U. S. weather bureau forecast partly cloudy and colder weather for Tuesday.

The mercury at South Plains Pipe Line company skidded from 55 at 11 o'clock to 43 at midnight. A stiff north wind was blowing early this morning.

County Shows Ginnings Gain

Operations During Last 13 Days Of October Run Total Number Of Bales Ginned In County To 35,009

Clear weather the last 13 days of October made it possible for Lubbock county farmers to gin 18,161 bales of cotton during that period and to boost the total on Nov. 1 to 458 bales above the report for the same period of 1931.

"Tabulation of the department of commerce of the number of bales of cotton ginned in Lubbock county from 1932 crop prior to Nov. 1, 1932, is 35,009 bales counting round as half bales, as compared to 34,551 up to the same period last year," C. M. Oakley, special agent of the department, of Anton, reported Monday.

The Oct. 18 report said that 18,848 bales had been ginned in 1932 as compared to 20,391 to the same date in 1931.

Four thousand and one bales more cotton were ginned from Oct 18 to Nov. 1 this year than for the same 13 days of 1931, according to the report.

Farmers Reported To Be Holding Cotton

The week-end cotton business in the Lubbock market was not as large as that of the previous week, local buyers said yesterday.

A definite holding of cotton on the part of farmers is reported by brokers and buyers. One man estimated that one-third of the crop ginned was being held. Others placed the figure at about one-fourth.

California Governor To Pardon 1,000 Violators Of State's Pro Law Act

Action To Be Result Of State's Repeal Of Wright Law

(By The Associated Press)

SACRAMENTO, Calif., Nov. 14.—Freedom came in sight today for about 1,000 persons being held in California prisons and jails on charges of violating the state prohibition law, when Governor James Rolph, jr., announced he intended to pardon all these as a result of the overwhelming vote last Tuesday for repeal of the statute.

Replying to a query from a New York newspaper, the governor announced his intentions to pardon all Wright act violators as soon as the results of the election are certified to him by the secretary of state. The Wright act, in unofficial election returns, was repealed by a vote of approximately 2 to 1.

Proclaims Intention

The governor's announcement proclaimed his intention to "pardon all those who are not guilty of anything outside of the provisions of violating the Wright act."

The governor's announcement was but one of the many developments in the state where willingness to abandon the old order was shown. City authorities in Oakland and other cities in the East San Francisco bay area ordered police to stop all liquor raids. The Oakland coun-

State Highway System Object Of Association

W. O. Huggins, Houston, Named President Of Association To Work For Major System Of Good Roads In Texas

(By The Associated Press)

FORT WORTH, Nov. 14.—Completion of a major system of connected highways in Texas by January 1, 1936, was set as the principal goal of the Texas Good Roads association at an organization meeting here Monday.

W. O. Huggins, Houston, prominent in highway work in Texas for many years, was elected permanent chairman of the association. W. W. Gibbard, Dallas; H. C. Meyer, Rockdale; D. D. Harrigan, San Antonio; Paul D. Thomas, El Paso; J. S. Bridwell, Wichita Falls, and J. F. Barnett, Palacios, were elected as vice presidents.

Every Section Represented

About 100 business men and highway officials from practically every section of the state were present to hear the purposes and proposed plans of the association outlined in talks by T. B. Warden, Dallas, temporary secretary, and J. F. Barnett, Palacios, a director.

Barnett declared that "such an association as we have started has unlimited possibilities for service to the people of Texas through its efforts in preserving our present highway system and in encouraging consistent improvement of the system."

He said that a membership of 25,000 men and women interested in the highways of Texas is possible within a few months. The association proposed to name a director for each of the 31 senatorial districts of Texas and will seek the co-operation of all state and county officials, especially county commissioners.

Christians Hold Session Monday

About 150 Christians from Spur, Lamesa, Plainview, Floydada, Slaton, Clarendon, and other South Plains cities attended a one-day convention at the First Christian church Monday. There were three sessions, sponsored by the United Christian Missionary society.

Stephen J. Corey, president of the society, of Indianapolis, Ind., Miss Martha Gibson, returned missionary from Japan, Mrs. Berta McMasters of Fort Worth, and the Rev. D. B. Titus of Roswell, N. M., were members of the team conducting the program here. "Building Tomorrow's World" was the general theme of the meetings.

All members of the team spoke at the morning, afternoon, and evening sessions, using different phases of world-wide missionary work as their subjects. Corey presided at the banquet in the Bible school annex of the church last night. About 120 persons attended, the Rev. Walter P. Jennings, pastor said.

The group, on the tenth annual tour of one-day conventions, will be in Amarillo next. Mr. Corey preached at both services at First Christian church Sunday.

Battle Royal On Debts Seen In The Future

Diplomatic And Legislative Struggle For Settlement Of Thorny Problem Forecast For Coming Months

"No" May Be Given

Attitude Of American Government Is Seen In Rider Congress Attached To Vote On Hoover Moratorium

(By The Associated Press)

WASHINGTON, Nov. 14.—A momentous diplomatic and legislative battle was forecast today as Washington studied weekend developments in the ever-thorny war-debts problem and President Hoover hurried to Washington for a discussion of the subject with his successor-elect, Franklin D. Roosevelt.

Meanwhile, a distinct possibility arose—and was put into words by one influential house Democrat—that America's answer to the plea of Great Britain and France for an extension of the Hoover moratorium and re-examination of the debt situation might be a flat "no," with this followed by an outright default of payments due Dec. 15.

Foreseen For Months

This possibility has been foreseen for months by the administration as regrettable, certainly, but perhaps inevitable. If it should come about the situation of a defaulting nation would be much the same as that of a man unable to meet a debt that has fallen due—no money paid, but the obligation still outstanding.

Thus the official attitude of the American government as expressed in the rider which congress attached by an emphatic vote to the Hoover moratorium agreement, opposing both reduction and extension of the debt holiday, was brought into bold contrast with Europe's insistence upon some measure of relief from its obligations, attested by French and British notes lying unanswered in a state department vault, asking that the moratorium be prolonged and the whole problem be made the subject of international re-examination.

Meanwhile, congressional leaders were expressing opposing views on

Baptists Gather In Abilene For General State Convention

ABILENE, Nov. 14 (AP)—Women of the Baptist Missionary union and pastors and laymen of Texas were in separate sessions here tonight. The meetings are forerunners of the 84th annual session of the state general convention, which is to be opened formally Wednesday morning.

More than 400 delegates had registered late today for the 46th convention of the W. M. U., for which Mrs. B. A. Copass, Fort Worth, is presiding. Rev. R. E. Day, pastor of the First Baptist church, Big Spring, delivered the opening sermon for the ministers and laymen.

Bond Of $5,000 Is Set For Officer By Justice Monday

Bond of $5,000 for W. N. Guthrie, charged with murder as a result of the fatal shooting Friday night of Colver Moreman, 17, of Abernathy, was fixed Monday by Justice of the Peace J. S. Connell. Guthrie, a special officer, had not made bail last night, the sheriff's office reported.

Who Will Be The Next Speaker?

The nation in general and the Democratic party in particular are wondering who will be the next speaker of the house of representatives, succeeding Vice President-elect John N. W. C. T. U. Chief Attacks "Beer Ballyhoo"; Campaign Planned

Any Attempt To Repeal 18th Amendment Or Modify Law In Texas To Be Bitterly Opposed By Women's Group

(By The Associated Press)

AUSTIN, Nov. 14—Mrs. Claude De Van Watts, president of the Texas chapter of the Woman's Christian Temperance union, today fired a broadside at what she termed "the beer ballyhoo."

"Since the victory of the Democratic party, the beer ballyhoo seems to be a reality to many simple-minded wets," she stated, pledging the W. C. T. U. to obstinatey fight any attempt to repeal the Eighteenth amendment or modify the Volstead act.

Mrs. Watts outlined the plan of campaign to be followed by the dry organization. It included a movement to send petitions to congress from every W. C. T. U. chapter.

"Every church in the state has been asked to help sign up the greatest petition ever sent to congress," she stated, expressing confidence that the dry cause would triumph.

Mrs. Watts took cognizance of a plan to modify the Dean law at the next session of the Texas legislature. The Dean law is Texas' bone dry statute.

"The Dean law is a good law," she stated. "We will work to save it.

Molecules Play Hero Roles In College Film

(By The Associated Press)

CHICAGO, Nov. 14.—An erudite university audience witnessed tonight the world premier of talking movies that had molecules for heroes.

This was the twin bill:

"Oxidation and Reduction," and "The Molecular Theory of Matter."

Each feature picture took just ten minutes on the screen.

Thus the University of Chicago, with President Robert Maynard Hutchins as interlocutor, presented to the world the classroom talkies. Two scientific lectures that ordinarily required five to six hours of class lecture and laboratory work were unreeled before the audience of educators in 20 minutes.

President Hutchins let the fessors understand the films would not put them out of jobs. Nor were these talkies merely "jazz education" intended to entertain as they instruct.

Roosevelt Asks That Meeting Be "Wholly Informal And Personal"; Disarmament Is To Be Talked Also

(By The Associated Press)

ALBANY, Nov. 14 — Franklin D. Roosevelt tonight agreed to visit President Hoover at the White House for "a wholly informal and personal" meeting at which the two could go over "the entire situation."

In his message to the chief executive accepting the invitation of Mr. Hoover to come to Washington for a conference on proposals to revise war debts owing to the United States, the president-elect said, however, "the immediate question raised by the British, French and other notes creates a responsibility which rests upon those now vested with executive and legislative authority."

Reminded Of Conference

Mr. Roosevelt reminded the president of the forthcoming conferences the president-elect has arranged to hold at Warm Springs with various congressional leaders and said it would be very helpful if he had the views of Mr. Hoover and "all pertinent information when I meet with them."

No date was set for the conference, Mr. Roosevelt relating to the president he had been confined to the house with a slight cold the last several days.

Glad To Cooperate

Mr. Roosevelt said he would be glad to cooperate in every appropriate way with the outgoing chief executive on all matters affecting the welfare of the country, "subject, of course, to the requirements of my present duties as governor of this state."

"May I take the liberty of suggesting that we make this meeting wholly informal and personal," he added. "You and I can go over the whole situation."

Important Questions Up

The message replied to one sent yesterday by Mr. Hoover in which the president pointed out to Mr. Roosevelt that several nations had asked that the payment of their war debt payments due next month be deferred until a conference could be held to survey the debt question. The president also related that the disarmament conference would be held soon, and that a world economic conference was pending. These problems, Mr. Hoover said, could not be settled during the tenure of the present administration. He added that he felt the outgoing and incoming chief executives should talk over their views with regard to handling them.

Hawks' Mark Bested By 2 Hours, 17 Minutes

(By The Associated Press)

BURBANK, Cal., Nov. 14.—Breaking the transcontinental East-West speed record by two hours and 17 minutes, Roscoe Turner set his airplane down at the United airport at 5:15 p. m. (pst) today, 12 hours and 33 minutes out of New York.

Turner abandoned tentative plans for an about-face in an effort to establish a new round trip record between Los Angeles and New York, explaining that it would be necessary to do some work on his ship.

The previous New York-Los Angeles speed record of 14 hours, 50 minutes was set by Frank Hawks on Aug. 6, 1930.

Turner said he averaged 199.2 miles an hour against strong head-

Colorado River Is Diverted From Site Of Hoover Dam; Work Year Ahead

First Milestone In Construction Of Project Made

(By The Associated Press)

BOULDER CITY, Nev., Nov. 14.—Diversion of the Colorado river was complete here today, with $27,000,000 spent thus far on the $165,000,000 Hoover dam project.

The full flow of the mighty stream was sent through the two Arizona diversion tunnels after completion of the rock fill barrier. It was accomplished in less than 24 hours after the Sunday noon blast of 150,000 lbs. of dynamite that signalized the river was about to give up a portion of its bed and live underground.

Talent Is Sought For "Scandals Of 1932", Benefit Show To Be Staged In City For Crippled Children's Council

LUBBOCK talent for roles in "Scandals of 1932," the crippled children's charity show which will be presented here early in December, is wanted at Hotel Hilton at 7:30 o'clock, Mike S. Hollander, the producer and director, said Monday night after a meeting of the cast committee.

Wm. H. Evans of the Lions club, B. C. Dickinson of the Rotary club, W. C. Rylander of the Kiwanis club, and Bert Pinson of the American Business club are members of the cast committee. The minstrel-musical comedy, sponsored by Lubbock Crippled Children's council, is expected to provide funds to aid youngsters who otherwise could not obtain necessary medical treatment. The meeting tonight will be on the mezzanine floor.

Hollander, enthusiastic over local talent he already has found, is anticipating a show which will rival or best the annual "Scandals" presented at Amarillo. Only the eight end men for the minstrel will be blackface.

A chorus of 24 girls, "just as good as any chorus on the professional stage," will be brought here from Amarillo. They will do Panco-Marcho routines, the "hardest routines chorus girls do," Hollander said.

Sixty-Five Meet At Methodist Church For Lunch

The Woman's Angle

RECIPES for pecan pies continue to come to this desk. If you fancy the nut pastry, one of these recipes should prove a favorite.

• • •

That one is good, I can testify. Mrs. W. H. McFarland, who lives at 1621 18th street, brought me a recipe for pecan pie and one for pineapple pie the other day and she brought along a piece of each pie. Both were good. I can recommend the recipes as well as Mrs. McFarland as a cook.

• • •

Her pecan pie was unusually good to look at as she had used the whole halves of pecans instead of breaking the nuts into smaller pieces. If you are having a party and want the pie to be very attractive, this is a way to prepare it. Her recipe calls for four eggs, one cup of pecans, two cups of white karo, one cup of sugar and two tablespoons of flour. To mix, separate the eggs, blend ingredients well and bake in pie crust.

• • •

A combination of pineapple and pie melon was used in the other pie. You may like the combination as much as I did. The pie is made as follows: Two cups of cooked pie melon, one cup shredded pineapple, three-fourths cup of sugar. Blend well and cook as a two-crust pie.

• • •

STEAMED PUDDING

FOR the steamed date pudding that was requested by Mrs. J. Sam Lewis, one has been sent in by Mrs. C. A. Paulger, who got the recipe in Mrs. Ida M. Chitwood's cooking school several years ago. She has been using it since that time and found it to be very good. It is made as follows:

• • •

One-half cup butter, one pound chopped dates, one cup bread crumbs, one cup milk, one cup brown sugar, one-half cup syrup, two eggs well beaten, two cups flour, two teaspoons baking powder, one cup pecans, two cups tart apples, one lemon. Cream sugar and butter and then add eggs, syrup and all dry materials and then lemon juice. Then add the fruits and nuts and steam for two hours.

• • •

Mrs. Paulger contributed a recipe for pecan pie, also. It is one she got from Mrs. W. C. Bryan and has liked. The secret of making this pie is to cook it in a very slow oven, she says. She bakes the pie almost an hour. It is made as follows:

Six whole eggs, two cups of white karo, one cup sugar, one cup pecans, a little nutmeg, a piece of butter about the size of a walnut. Beat about five minutes and cook in an unbaked crust.

• • •

PIE FOUNDATION

AN inexpensive pie foundation that makes good pecan pies but can be used for other kinds of pies as well, is favored by Mrs. C. M. Ballenger.

• • •

The master recipe is as follows: One cup sugar, four tablespoons of flour, one-fourth teaspoon of salt, two cups of milk, two whole eggs, one teaspoon of vanilla. Mix as given and cook in double boiler until done.

• • •

For a pecan pie, one-half cup or more of pecans is added, she said.

• • •

For variation, cocoanut or fruits may be used in the pie. Or, it can be used as a custard by adding a little vanilla. Mrs. Ballenger serves this pie a lot in custard cups without pastry, sometimes adding whipped cream or marshmallows on top. It is enough for five or six cups, depending upon the size.

• • •

If the pie is to be a custard with meringue, she uses three egg yolks instead of two whole eggs and then beats the whites for meringue.

• • •

A recipe for sour cream pie, contributed by Mrs. Ballenger, will be used Wednesday.

• • •

While some of these pies may be made into a date-nut pie by adding dates as well as nuts, if you have a favorite method of preparing date-nut pie send it in. A request has been received from Mrs. C. E. Lovelace.

WHAT CAUSES STOMACH GAS

Doctors Find Most Cases Due To One Condition. Stomach Sufferers Find Relief

Sufferers from gas bloating, indigestion and similar troubles will be interested to know that recent medical discoveries have found the cause of these disorders. The disease is called Intestinal Stasis. It is the result of the inactive life most of us lead today, and improper food that does not give our digestive organs enough exercise. It is one of the most common diseases known to mankind. Three out of four persons have it.

What Is Intestinal Stasis?

Intestinal Stasis is the too slow movement of waste matter through the bowels. It is not a new name for constipation, for you can have one, or possibly two, INCOMPLETE bowel movements a day and still have Intestinal Stasis. Any waste food matter, from which the body has taken all nourishment, that stays in the bowel tract too long, will cause gas and poisons to accumulate.

This takes away your pep, gives you a logy, listless feeling. It often results in dull headaches and even more serious trouble. This suffering is entirely unnecessary for you can get quick and complete relief by giving your system a REAL intestinal cleansing with Adlerika.

Get Quick Positive Action

Laxatives or pills seldom overcome Intestinal Stasis. Soda, magnesia, "gas tablets," or powders give only temporary relief. Intestinal Stasis and the diseases of which it is the real cause are helped best by continued REAL intestinal cleansing, and by increasing the natural activity of the bowel tract. Adlerika gets to the bottom of your trouble by removing the cause. Ordinary laxatives and physics act on the lower bowel only, but Adlerika acts on BOTH upper and lower bowels. Adlerika is thorough in action, yet acts without discomfort of any kind. It can be given to any member of the family with complete safety for it contains no harmful drugs. Adlerika is quick in its action often giving relief in thirty minutes. Don't suffer another hour from indigestion, nervous dyspepsia, dull headaches, sleeplessness, sour stomach and gas bloating. Get Adlerika today at your drug store and learn what complete relief really is. FREE SAMPLE will be mailed on request. Address Adlerika, S. Wabasha, St. Paul, Minn. Where Does She Get Her "Pep?"

SHE doesn't *look* seventy. Nor *feel* that old. The woman who stimulates her organs can have energy that women half her age will envy!

At middle-age your vital organs begin to slow down. You may not be sick, simply sluggish. But why endure a condition of half-health when there's a stimulant that will stir a stagnant system to new life and energy in a week's time?

This remarkable stimulant is perfectly harmless. It is, in fact, a family doctor's prescription. So, if you're tired of trying every patent medicine that comes along, tell the druggist you want a bottle of Dr. Caldwell's syrup pepsin. Take a bit of this delicious syrup every day or so, until you know by the way you feel that your lazy liver is again active, and your bowels are poison-free.

Men, women, and children who are run-down, who tire easily, get bilious spells or have frequent headaches, are soon straightened out when they get this prescriptional preparation of pure pepsin, active senna, and fresh laxative herbs. (Syrup pepsin is all the help the bowels need, and you do not form the very bad habit of always taking cathartics.)

Keep a bottle of Dr. Caldwell's syrup pepsin in the house, and take a stimulating spoonful every now and then. It is all that a great many people ever take to keep strong and vigorous, and absolutely free from constipation.

Times as Many Deaths from Typhoid Fever in 1910 as in 1928

The percentages are being lowered each succeeding year, and how thankful we should be. You can remember when there were numbers of typhoid cases every summer, either in your family or within your personal acquaintanceship.

What has cut down this percentage? Nothing but Medical Science working with *vaccines* and *serums*, through public education and municipal avenues to purify water supplies, carry off waste and remove the *cause* of that wasting and fever-wracking disease.

Changes Made As Matadors Prepare For New Mexico Westerners Clash With Lamesa Here Friday

Tech Gridders Battle Loboes Next Saturday

Stiff Workout Starts Short Week Of Preparation For A Second Conference Contest; Team Leaves On Thursday

The Texas Tech Matadors meet the University of New Mexico Loboes at Albuquerque next Saturday in a Border States Athletic conference contest.

"... And if these boys don't play any better against New Mexico than they did against Baylor, we're in line for a defeat," was the smiling and optimistic outlook expressed by Tech's coaches yesterday.

Shortly after the game with Baylor last Friday, Coach Cawthon was heard to murmur, "There'll be some changes made," and the Texas mentor wasn't rehearsing a popular song by that name, either.

The changes referred to were demonstrated in yesterday's workout, for Monday afternoon following a victorious weekend.

Ends Are Switched

Not satisfied with the work of Yancy Price and Matt Hitchcock at ends, these stalwarts were working out with the shock troops yesterday, having been demoted, at least temporarily, from the regular lineup. Carlton Luper of Houston and Malcolm Martin of Lubbock, former shock troopers, were elevated to the regular positions at ends because of their outstanding work against Baylor.

Lacey Turner, who has been running with the starting team or shock troops, was promoted yesterday to the regular lineup, replacing Captain Ross Ayers at guard. Turner evidently had not been tipped off that the Matadors were supposed to go easy with the Bears of Baylor, or at least he didnt take the tip seriously. His playing was outstanding.

Those three were the outstanding changes. Others have been made and will be made this week, particularly in the shock troops. As in the case of the University of Arizona game, about nine members of the Tech team are ineligible to play in this week's game at Albuquerque, since it is a conference game.

Clark And Dowell Out

Adrian Clark and Gwynn Dowell, starting backfield aces, will not be eligible. Johnny Beauchamp probably will start at quarter with Butts probably starting at halfback in Dowell's place.

The Matadors have but two afternoons in which to prepare for the Loboes, who went down, 32 to 7, here last year in the first game between the clubs. They leave Thursday afternoon for Albuquerque. A light workout Friday afternoon, consisting of warming up exercises and signal drill, will be held on the New Mexico field.

Coaches pushed the Matadors through a stiff workout yesterday, stressing new plays which will be used against New Mexico. A scrimmage probably will be held this afternoon.

While they are favorites to whip the Loboes, the Matadors are being advised to take the game seriously and look for the breaks, at the same time preventing breaks which would give New Mexico just what it wanted.

Homecoming Game

It is homecoming day at the University of New Mexico Saturday, and the game with Texas Tech has long been heralded as one of the most outstanding of the season. The Loboes have pointed to the Matadors for several weeks, and reports from authoritative sources have come to Lubbock that New Mexico will be ready to put up a battle.

Tom Churchill, assistant coach at New Mexico, who scouted the Tech-Baylor game, stated that the Loboes might be defeated, but they would give Tech a game they'd not forget the next day.

He's Through

PUG RENTNER

CHICAGO, Nov. 14. (AP)—The collegiate football career of Ernest "Pug" Rentner, Northwestern's all-American halfback, was at an end today due to two broken ribs. He was injured in the first half in the game with Notre Dame Saturday. He will not be able to participate in the final game of the season next Saturday against Iowa.

Schools Agree Yesterday For Friday Battle

Lubbock Fans To Have Football This Week; Westerners Busy In Preparation For Turkey Day Classic

Lubbock will not be without its football entertainment this week, contrary to earlier announcement.

Negotiations between Lubbock High school and Lamesa High school yesterday resulted in the arranging of a game between the Lubbock Westerners and the Lamesa Golden Tornadoes to be played here Friday afternoon.

Coach McCollum's Tornadoes, strong Class B team, defeated Slaton's Tigers last week, although the game was a scoreless tie. The victory was credited because of Lamesa's greater number of 20-yard zone penetrations. The Tornadoes also have tied Big Spring, Class A team of District 3.

Lamesa held Lubbock, 32 to 0, last year.

Next week finds Lubbock playing one of the most important games of the season when the Westerners tangle with Amarillo High at Butler Field in Amarillo, whereon no Sandstorm team has been defeated since the name was given the field.

In renewing the Thanksgiving classic, the teams will find themselves battling for the District 1 football championship of the Texas Interscholastic league, the winner to represent the Panhandle in the continuation of Texas' high school gridiron tournament.

Lubbock won the district championship last year—won it by defeating Amarillo's Sandies. But the game was not on Butler Field. Lubbock lost, 25 to 2, at Butler Field last year, winning on the Lubbock field after the race had been thrown into a three-way tie. There will be no three-way tie this season, unless one of the most unexpected upsets in the history of the district results in the Amarillo-Borger game this week. Pampa, the other party in the "big three," has been definitely eliminated with two defeats. Lubbock saw to that last Friday when it defeated Pampa, 6 to 0, at Pampa.

Beginning yesterday, the campaign to beat Amarillo is on, but there are few critics, coaches and controllers who will suggest that Lubbock will win the Thanksgiving game. Amarillo's great line, running before a crack backfield, is the big favorite, no matter how you figure it.

Coach Chapman appears to have settled on a lineup, a backfield at least, unless complications arise between now nd Turkey day. There may be changes in the line, particularly at the tackle and end positions. There is heated competition between Richard Godeke, Possum Blackwell and Dalton Blagg for the wing stops.

Cardwell Warns Against Use Of Rifle In Hunting Ducks; Open Water In Area Scarce

(By Staff Correspondent)

POST, Nov. 14—It is unlawful in Texas to hunt ducks and geese with a rifle or with a shotgun larger than a No. 10 gauge, held to the shoulder.

This is the announcement here by O. D. Cardwell, deputy state game warden for this section.

"I just want to call attention of hunters to these regulations," Mr. Cardwell said. "Under a recent decision of the department, it is held illegal under both federal and state game regulations to use a rifle. Shotguns larger than a 10-gauge also are illegal. There are a few, not many, of the old 8-gauge guns left.

"Another regulation, the use of more than 25 live decoys is not permitted. There is no limit to the number of artificial decoys but there is to live ones."

Open water in West Texas is becoming scarce. During the summer a large number of lakes were full, according to Mr. Cardwell. The late summer and fall cut down the number as many lakes dried up.

There have been some good kills on water by hunters, but the number of ducks this season is believed to be less than last, due to scarcity of water.

George Barker Wins Cross Country In New Record Time

NEW YORK, Nov. 14. (AP)—George H. Barker, distance star of New York university, today won the annual intercollegiate cross country championship here in record time. A local school, Manhattan college, captured the team title for the first time in the 33-year history of the meet.

Barker, reaching as a senior the goal he has been striving for since his freshman year, raced over the Van Cortlandt park course, somewhat under six miles, in 28 minutes, 58 4-5 seconds, almost half a minute under the record of 29:26.6 set by Dan Dean of Pennsylvania last year.

He finished a full 50 yards in front of an old foe, Joe McCluskey, of Fordham. McCluskey, finishing second, also cracked the old record, finishing in 29 minutes 8 seconds.

Jimmie Kitts Begins Cage Campaign At Owl Institute

HOUSTON, Nov. 14. (AP)—Jimmy Kitts, the new Rice Institute basketball coach, has begun his campaign for a southwest conference championship.

Kitts, who gained national recognition with his brilliant Athens, Tex., high school teams, has begun practice with his Rice varsity squad.

The Kitts system, which works best with tall players, should work well at the institute, observers believed, since he will have available an unusually lanky squad.

Five lettermen, Koch, Dixon, Alexander, Thompson and McCullough, have returned.

Methodists Get Ready For Tilt Saturday With Baylor

DALLAS, Nov. 14. (AP)—Having broken into the Southwest conference victory column for the first time this season Saturday, when they defeated the University of Arkansas Razorbacks, the Southern Methodist university Mustangs resumed practice today for their engagement next Saturday against the last-place Baylor Bears at Waco.

Coach Ray Morrison lectured his charges for more than an hour and although what he told them was not divulged, it was known that he was not satisfied with their play last week, even though it resulted in victory.

STEERS WIN CROSS COUNTRY

AUSTIN, Nov. 14. (AP)—The University of Texas track team defeated Abilene Christian college 20 to 47 in a cross country meet here today. The Steers took five of the first six places. Simmons of the A. C. C. team, however, was first to finish with a time of 21 minutes, 26.6 seconds.

Owls Resolve To Look Better This Week Against Christians

HOUSTON, Nov. 14. (AP)—Thoroughly chastened by the 14-7 licking Matty Bell's fighting Texas Aggies gave them last Friday, Jack Meagher's Rice Owls today began a week of hard training for Saturday's game here with the T. C. U. Horned Frogs, Southwest conference leaders.

Coach Meagher and his players, while offering no alibis for the defeat by the Aggies, are not pessimistic regarding the T. C. U. game as are most of Rice's followers. They feel Rice has a good chance to beat the T. C. U. aggregation.

Throughout the week Rice coaches probably will stress an air attack. The T. C. U. line probably is the heaviest college forward wall in the country and the Owls will have to go to the air for much of their yardage.

Irons And McCombs Hang Up Golf Sweepstakes Victory

CORSICANA, Nov. 14. (AP)—Shooting remarkable golf in the stout face of a "young cyclone" that swept the course, the team of Earl D. Irons and A. M. McCombs won the amateur-pro sweepstakes of the Texas Professional Golfers association today with a pair 38-33—71. Irons is an amateur and McCombs a professional. Both are from Arlington. Irons was sensational with five birdies on the 18 holes, three of them hole-out approach shots. He had five three putt greens, but still scored par golf.

Colgate's Red Raiders Seen As Contenders For National Honors; Must Hurdle Brown

Only Big College Outfit With Unblemished Record May Win Remarkable Honors; Battle With Brown

BY ALAN GOULD
Associated Press Sports Editor

NEW YORK, Nov. 14. (AP)—Colgate's Red Raiders, if they can hurdle the formidable Brown Bear Thanksgiving day in the climax football game for the only two remaining undefeated, untied eastern teams, have a rare opportunity to finish the season with a spotless defensive record as well as in a blaze of championship glory.

No major team in the country, within the past ten years, has escaped without being scored on at least once. Colgate now is the only big college outfit remaining with an unblemished defensive record. Southern California kept the pace until yielding to California the only touchdown tallied so far against the Trojans.

To discover anything like an impressive stretch of peerless defensive play, it is necessary to go back to the halcyon days, long before the open game broke down ancient defensive barriers. Back in 1888, W. H. (Pa) Corbin's Yale team, considered one of the greatest of all time, held its opopnents absolutely scoreless in 13 games while rolling up 690 points. Michigan's 1901 aggregation, the first of four successive unbeaten Wolverine combinations, ran up 550 points to none for the enemy

St. Mary's Comes Close

St. Mary's of California in 1929 came closest to a perfect defensive record in recent years, going through seven straight games without yielding a point, only to have a six scored against it while putting the University of Oregon to rout in the last game of the season.

Michigan's 1925 goal line was uncrossed but the Wolverines lost their only game of the season to Northwestern on a field goal.

Southern teams have posted the best defensive records among the unbeaten aggregations in the last two years. Alabama's all-conquering 1930 array yielded only 13 points in ten games, including the Rose Bowl classic, and the 1931 Tennessee team permitted only 15 points in ten games.

Alabama's 1925 team and California's Golden Bears each yielded only seven points in nine games.

Colgate, after breezing through eight games with a record of 243 points to none for the opposition, probably will find Brown the toughest foe of the season. None of the Red Raiders' major opponents this year were up to their usual standard. On the other hand, Brown in succession administered the first defeats of the season to such teams as Yale, Tufts, Harvard, Holy Cross and Columbia. The Bears have yielded only 21 points in seven games.

Charles Schmidt, He Who Licked The Great Ty Cobb With Fists, Is Dead

ALTUS, Ark., Nov. 14. (AP)—The baseball veteran, Charles (Boss) Schmidt, former catcher with the Detroit Tigers and later manager and coach of several clubs, who claimed he was the only man who held a complete fistic triumph over Ty Cobb, died today.

As "Boss" whimsically put it, "I had to lick Ty three times to make him admit it."

Schmidt died in the home of a physician here, where he was taken when he became desperately ill of acute intestinal obstruction at Clarksville last night. He was 52 years old.

Schmidt played in three World series when Hughey Jennings was piloting the Bengals to pennants and when Ty Cobb, now in retirement, rated the reputation of the greatest ball player in the game. Many baseball writers ranked Schmidt among immortals of the diamond.

Breaking into organized baseball with Springfield, Ill., in 1901, Schmidt joined the Rock Island, Ill., club three years later. He then was purchased by Minneapolis, and the Detroit Tigers bought him at the end of his first season. He caught 146 games for the Tigers in 1907 and also caught three of the World series games that fall.

Defeated Longhorns Look To Game With Arkansas Porkers

AUSTIN, Nov. 14. (AP)—Downcast but not broken by their 14 to 0 reverse at the hands of the T. C. U. Frogs at Fort Worth last Friday, the University of Texas Longhorns looked forward to their meeting with the Arkansas Porkers at Fayetteville, Ark., Friday.

That the Steers have not lost all hope of at least sharing Southwest conference championship honors with the Frogs was seen in a statement issued by Coach Clyde Littlefield today who said:

"Don't count us out of the race yet, T. C. U. must yet meet Rice and S. M. U. and either has a chance to defeat the Frogs.

"It was an inspired Christian eleven, with a powerful, alert and fast-charging line which defeated us at Fort Worth Friday. Whether it can reach that perfection in its two remaining games is the question. If not, the Owls and Ponies have a chance, and with those chances rests our hopes."

Two Porkers Injured As Team Prepares For Texas

FAYETTEVILLE, Ark., Nov. 14. (AP)—The University of Arkansas Razorbacks worked out this afternoon without the services of Sherland, center, and Martin, a guard, who were suffering from leg injuries.

Murphy, veteran quarterback, kept on the bench in the Southern Methodist university game at Dallas Saturday because of an ankle injury, reported for practice today and was expected to be able to play in the University of Texas game here Friday afternoon.

WTCC's Beautifying Plan

PROPOSAL of West Texas Chamber of Commerce to combine Federal Unemployment aid in this territory with a section-wide clean-up, planting and beautification campaign is nothing if not practicable. The plan, if placed into operation by the counties of West Texas will not only offer an avenue whereby indigents may work for the money they receive, but whereby, also, the communities and their citizens will get something in return for help rendered.

Lubbock needs only to look back to March, 1931, to prove to itself the efficacy of the WTCC's plan for the whole territory. At that time something like $6,200 of public funds was expended here for unemployment relief and, in return, every vacant lot and every alley in the city was given a thorough combing and cleaning. After the clean-up, attendants at something like a score of conventions were impressed with the city's cleanliness; thus Lubbock secured valuable services in return for its aid and those who received the aid were enabled to keep their self-respect.

According to information from the West Texas Chamber, 103 West Texas counties have applied for and have been granted Federal Unemployment aid. First checks will be distributed this week by officials of WTCC, who are touring the section explaining their planting, clean-up and beautification plan in an effort to have it accepted by local chambers of commerce and civic leaders.

If generally accepted, the beautification campaign will be harnessed with the chamber's annual beautification contest which is comprehensive in its scope and which, if actively supported, will do a great deal toward making West Texas more pleasing to the eye of residents and visitors, alike. The contest does not stop with towns and cities, but includes the rural sections, too.

Lubbock civic leaders will hear of the WTCC's Federal aid plan here next Friday and, while The Morning Avalanche is not in possession of minute details, we consider it at least worthy of careful consideration.

A BIG TASK ON HAND

Now that the great Democratic 'hoorah' is over—the 'hoorah' which enveloped Lubbock as it did most other communities of the nation, it is time for us all to realize that upon the shoulders of the Democratic party and Franklin D. Roosevelt rests a tremendous burden.

Unlike Mr. Hoover, when he took office, Mr. Roosevelt is not inheriting a 'going concern'.

Instead, the president-elect is succeeding to the helm of a ship that has been severely battered by storm, its engines overloaded — lumbering and pitching along still miles from a safe harbor.

It is no slight task which faces the victorious Mr. Roosevelt, his party and his advisors.

It is no slight task which faces every citizen of this country who would do what he can to improve conditions.

Our hope is that the campaign promises of Democracy and Mr. Roosevelt will be kept to the letter and will be 100 per cent efficient in the rebuilding of the nation.

We'd like to see Mr. Roosevelt's record such that he will be swept into office again in 1936 by as great a majority as he was sent in to bat last Tuesday.

UNHONORED

Every school child can recite that Thanksgiving Day was first observed by the Puritans on the very threshold of our national life, when a good harvest followed a winter of hardship and death. But neither child nor adult, with a few exceptions, is clear as to the process through which the observance passed to become a national holiday.

Thanksgiving Day, one of the three universally observed national holidays, was officially designated for national observance in 1864 as the culmination of 20 years of editorial and personal effort by Mrs. Sarah Josephine Hale, who was born in Newport, N. H., in 1788.

Mrs. Hale, throughout a long career as editor of a woman's magazine, waged a lone fight in behalf of a plan conceived by her of having an annual thanksgiving celebration observed on the same day by all the people. Hundreds of editorials in her magazine and letters to presidents, governors and congressmen finally won the support of President Lincoln.

It would seem to be a fitting thing for some president to establish her immortality by recognizing her national achievement in a Thanksgiving Day proclamation.

The trouble seems to be too much petting before marriage and not enough afterward.

Today's One-Minute Sermon

When righteous men do rejoice, there is great glory: but when the wicked rise, man is hidden.—Proverbs 28-12.

Faces Responsibility

By CHARLES P. STEWART
Central Press Staff Writer

White House.

WASHINGTON, Nov. 14.—A few wild whoops of Democratic triumph no doubt is pardonable.

Soon after this first burst of enthusiasm, however, the country certainly will expect the party of Jeffersonianism to begin showing an exceedingly sober sense of the enormous responsibility it faces.

Whether or not Democratic leadership has reason to congratulate itself in the present juncture is a question no one can answer intelligently until two, three or four years hence. It can hardly congratulate itself upon the mere fact that it has won an election which shortly will place it in national control at a time of perhaps the greatest difficulty in American history. If it acquits itself creditably, it will be entitled, indeed, to congratulate itself upon the circumstance that it was afforded such an opportunity. If it fails, it is among the possibilities that not enough of it will be left in 1936 to apologize.

• • •

PUBLIC MEN quite generally agree that there can be no more muddling through.

The election result plainly implies that the voters considered that to be the only program the G. O. P. had to offer. They evidently were willing to take another chance of fundamental social, economic and political reforms under Democracy's auspices.

Some folk have faith to look for an early restoration of livable conditions. Some remain skeptical.

Congressman Fiorello H. La Guardia, as an example of ultra-radicalism, ventures the guess that Americans have just seen their last campaign between the two major parties of today; that a complete realignment will have been effected before 1936's election.

• • •

AND, SPEAKING candidly, it is hard not to believe that the majority swung to Governor Roosevelt less from an actual preference for him than because of utter dissatisfaction with President Hoover.

In the words of Norman Thomas, the Socialist candidate, it was "the most negative thing on record"—a Hoover defeat; not a Roosevelt victory.

Nevertheless, President-Elect Roosevelt profits by it, if he meets the emergency.

No matter how he got in. He IS in—or will be after next March.

The ensuing quadrennium promises to be epochal. The president-elect may be its hero, provided he is equal to the task ahead of him.

Or Congressman La Guardia's prophecy may be realized.

It all depends on Franklin D. Roosevelt.

• • •

IN THE meantime it is easier to explain why President Hoover was beaten than why Governor Roosevelt was elected.

The depression, of course, was the Hoover administration's undoing.

It was due, anyway, as a war aftermath. Protective tariff excesses may have hastened and accentuated it. To farm distress, industrial unemployment was added.

The president tried to deal with the situation as an ordinary interval of business stringency, which would pass in due course, but it did not do so—possibly because it was worse than any past stringency, just as the war was a greater war; possibly because it was more deeply seated as to its causes.

• • •

PROGRESSIVEISM gained strength within the G. O. P. as the times tightened, until, by the campaign's opening, it had attained a potency comparable to what it had in the 1912 campaign. Whereas the insurgents in that instance, however, followed Colonel Roosevelt in a third party movement, defeating President Taft and electing Woodrow Wilson, on this occasion they went over directly to the Democratic ticket—Senators Hiram W. Johnson, Bronson Cutting, George W. Norris and John J. Blaine, both the La Follettes and no one can say how many tens of thousands of their supporters.

• • •

PROHIBITION also is now a rapidly declining issue, and, despite his party's platform, Mr. Hoover generally was considered on the no-longer-predominantly-popular dry side of it.

Then, too, Mr. Hoover had the burden of carrying the mistake in calling out United States troops to drive the B. E. F. from Washington. No single campaigner against him, it is safe to say, damaged his cause as it was damaged during the closing days of pre-election argument by the revelations of Gen. Pelham D. Glassford, the bonus seekers' friendly enemy, as District of Columbia police chief during their stay in the capital.

• • •

THE AMAZING stupidity of some of the personnel, in the executive offices, through whom the president seems to have supposed that he was maintaining his relationship with the rank and file of his fellow citizens, indisputably, too, has been an important factor in creating enemies.

The low mentality of some members of the group nearest to Mr. Hoover from the day of his inauguration has been a constant source of comment in circles familiar with events and personalities within the executive mansion.

To the bad advice of these folk is generally attributed what undoubtedly is the fact that Mr. Hoover had deemed his re-election virtually a foregone conclusion until the shock of the Democratic vote in Maine in September brought him to an abrupt realization of the real situation.

• • •

THE STORY that the president decided some time ago to resign, in the event of his defeat, seems to have nothing back of it beyond the knowledge that he is one of the most sensitive of men and assuredly must feel his opponent's triumph keenly.

President Wilson, it is true, planned to pursue such a course, had he been beaten by Charles Evans Hughes in 1916.

This would have involved the appointment of Mr. Hughes to the secretaryship of state, to bring him in line of succession, and then the resignation of both the president and the vice president. Vice President Marshall might have acquiesced, but there are few who believe that Vice President Curtis would do so, regardless of defeat. Mr. Hoover's retirement, therefore, at most, would bring the Kansan briefly to the chief magistracy.

What Other People Think

I am not going to discuss the merits of my indictment by the Cook county grand jury. That is purely a legal question which must take its course. I am content to rely on the justice of my cause and the uprightness of Greece.—Samuel Insull, former utility czar now in Athens.

EXPLANATION OF YESTERDAY'S CARTOON

A HANDLESS VIRTUOSO:

Gino Palmisano of Naples was born without hands, about 25 years ago. In the face of this handicap he contrived to acquire a fine handwriting, a college education, and the degree of doctor of laws. But most astounding is his mastery of the piano. From either of his wristless arms hangs a finger-like appendage, which he has trained to operate the piano keys with complete mastery.

He has appeared on the concert stage in Rome and Naples. His repertoire includes masterpieces by the foremost composers. He has evolved a method all his own, and to see the magic that his sleeve-covered arms can work at the piano one thinks of genius triumphant over all obstacles.

New Interesting Books Featured In 'Young America's Book Parade' Here

"Young America's Book Parade" is the theme of National Book week as celebrated by the county library located on the second floor of the court house. Recent children's books and new editions of standard classics all colorfully illustrated, in large print and attractive bindings, on display this week, are the result of an effort to stimulate an interest in better literature among children of the public schools.

Among the newest books is an illustrated copy of "The World We Live In and How It Came To Be" by Gertrude Hartman. This pictorial outline of man's progress from the earliest days to the present time is a typical example of the new type of literature available to the curious youngster of today.

Biblical Account Given

The Biblical account of the beginning of life is the explanation offered in the opening chapter although chemical processes in the formation of minerals, water and the earth are defined in a language intelligible to the average 10 to 15 year old boy or girl.

A colorful description of the world before the existence of man, animated with drawings of the brontosaurus, the dinosaur and other pre-historic mammals makes the book a fascinating as well as an educational narrative.

Theories Explained

The history and development of the physical and natural sciences are dwelled upon briefly. Theories of great astronomers of the past are explained in the vernacular of the junior high school boy.

An illustration showing "an ancient forest which later became coal" is an example of the idea of progress and scientific development which the book succeeds in portraying.

"A Picture Book of Houses" by Emilie A. Verleleux is another educational work which is attractive for its romantic account of the development of man's domestic life. It has vitality and movement in its story of primitive man; his first efforts at making a home and the development of that domicile, in every land, to a comparative description of the present styles of architecture common to Americans, Eskimos, Japanese, Gypsies and countless other peoples. This book is illustrated by the author.

"Beast of the Tar Pits" by W. W. Robinson is a simplified story of animal development in the United States. It is based upon the prehistoric animal remains found in the tar pits of California.

Among the new illustrated editions of popular classics are "Two Little Confederates" by Thomas Nelson Page, "A Tale of Two Cities" and "Scottish Chiefs" all of which are in large print and colorful binding.

The county library has 9,875 volumes, according to Miss Lola Mae Rozzell, librarian. It is free to anyone living in Lubbock county. Miss Rozzell says that it is patronized largely by public school children, both city and rural. It is financed by a tax levy although a number of books have been donated.

Gun Victim Is Buried Monday

J. W. Whittle Of Near Monroe Is Fatally Shot Sunday; Farmer Was Cleaning Gun When Accident Occurred

Funeral services for J. W. Whittle, 52, who was said to have accidentally shot himself to death at his home four miles northwest of Monroe about 8:30 o'clock Sunday morning, were conducted at 3 o'clock Monday afternoon at Abernathy. Burial, directed by Rix funeral home, was in an Abernathy cemetery.

The bullet took effect near the heart. A nephew, who said he was in the room with Whittle when the latter shot himself, said he did not know how it happened. Other members of the family said Whittle accidentally shot himself while cleaning a .32 caliber automatic pistol.

Whittle, a farmer who had lived in the Monroe community about six years, had been in ill health several years, relatives said. Whittle was dead when a doctor arrived at the house from Lubbock.

A widow, four sons, three daughters, Whittle's mother, who lives at Sulphur, Okla., two brothers, one residing near Monroe and the other in Oklahoma, and a sister in Oklahoma survive him.

The cupboard is their home

POULTRY, butter and eggs must never be without cupboards to go to. Behind the daily activity of Swift & Company's organization lie the simple ambitions of 55,000 employes and 48,000 stockholders — to live modestly, but well, and to deal fairly with each other and the rest of the world.

They understand the company's task. A most important part of that task is to buy produce from farmers at more than 100 produce plants, put it into attractive form for consumption and pass it along, without delay and with a minimum of cost, to retailers.

Employes and stockholders understand also the limitations of the job. They realize: (1) that Swift & Company must buy produce in competition with all other dealers and pay what any one else will offer; (2) that Swift & Company must sell whatever it buys at a price which consumers, through their retailers, are able and willing to pay; (3) that the little profit aimed at can be obtained only by keeping down every expense.

Our workers are spread over most of the United States; they are local residents wherever Swift & Company has a produce plant, a packing plant or a branch selling house. They are people just like the farm men and women who have produce to sell, with the same desire to give honest value and to get on in the world by performing real service.

Of our stockholders, more than 40 per cent are women. Their funds are invested in the company because they hope to receive at least moderate dividends. Over a period of years, profits have averaged less than half a cent a pound on all products sold.

Through good times and bad Swift & Company continues to maintain its national market for produce, working near capacity, paying cash to producers and, with the hearty cooperation of employes and stockholders, cutting every operating and selling expense over which it has control.

The Swift & Company national market was made by digging up demand wherever it exists in the United States, by advertising brands of high quality, Swift's Meats, Swift's Premium Milk-Fed Chicken, Golden West Fowl, Swift's Brookfield Butter, Eggs, Cheese and many other products.

NEW ORLEANS REPORT

NEW ORLEANS, Nov. 14. (AP)—Cotton fluctuated rather freely in moderately active trading today, but turned distinctly easier in the late trading under hedge-selling and in sympathy with stocks and closed at net losses for the day of 8 to 13 points.

Textile statistics for October showed sales at only 59.1 per cent of production and a decrease in unfilled orders of 31.8 per cent, but these unfavorable figures appeared to have been anticipated and had no market effect.

The market opened steady with Liverpool cables about 5 penny points worse than due. Private cables said there was hedge selling and liquidation on steadier a fair cloth business both from the home trade and for export. First trades here showed no change to 3 points down but prices eased after the start on hedge selling and by the end of the first hour December had dropped to 6.31 and March to 6.46 or 7 points below Saturday's close.

Later in the morning the market rallied owing toa sharp upturn in wheat and firmer stocks which caused shorts to cover and before the demand had been satisfied, December had advanced to 6.41 and March to 6.60 a rally of 13 to 14 points from the early lows and 6 to 7 points above the previous close.

The market was easier during the afternoon due partly to hedge selling and partly to a reaction in stocks. Prices dropped in the late trading to 6.24 for December and 6.40 for March, a decline of 20 points from the highs of the morning. There was a rally of 5 points at the end on short covering and December closed at 6.39, down 9 points net for the day and March closed at 6.45, down 8 points net.

Liverpool is due on New Orleans tomorrow 2 to 3 penny points down.

NEW YORK REPORT

NEW YORK, Nov. 14 (AP)—Cotton declined moderately today under a renewal of hedging and liquidation promoted by the failure of grain to hold its earlier gains and the action of the stock market.

December contracts after selling off to 6.33 early rallied to 6.45 but broke to 6.36 and closed at 6.38. The general market closed barely steady at net declines of 12 to 15 points.

The opening was 4 to 7 points lower under southern selling and liquidation influenced by reports of favorable weather for the crop movement. Houses with Liverpool and continental connections were buyers here and there was also a considerable trade demand.

The market steadied after showing losses of 8 to 10 points but the demand was not particularly active and the market weakened later in the afternoon on southern selling and further liquidation or reselling by some of the early buyers. Prices reached the lowest levels in the late tading with May selling at 6.32. The close was a shade up from the lowest on covering and New Orleans buying.

NEW ORLEANS FUTURES

Stocks Retreat Monday From Advance Registered In Market In Last Week

BY JOHN L. COOLEY
Associated Press Financial Writer

NEW YORK, Nov. 14 (AP)—Stocks retreated today from the more advanced position occupied last week.

It was a slow, if general, decline and few active issues yielded in excess of a point or two. Wheat, after gaining about a cent, lost much of its rise and barley, a prominent speculative favorite in grain markets, had a rest. An irregular bond market was featued by heaviness of secondary rails.

With so lively a rally just behind it, the stock market probably encountered realizing and professional selling. Many brokers thought uncertainties created by the debt matter had made for hestitation, if not unsettlement. Also some bank suspensions occurred in scattered sections. Trade news was of scant market significance. Volume dropped to 1,307,145 shares.

Coca Cola, dipping nearly 7 points, reflected speculative disappointment over the company's smaller earnings and the omission of what had come to be a regular extra quaterly dividend of 36 cents. The company in the first nine months covered its regular payment with something to spare; but third quarter net equal to $2.15 a share on the common contrasted with $3.28 for the second and $3.98 a year ago. Presumably traders interested in soft drink stocks have not been deaf to the current beer gossip.

The market tried two or three recovery movements but never got very far toward eliminating its early losses and in the late trading was heavy, although final prices were largely above the lows. U. S. Steel Common, touching 37 1-2, was down little more than a point net. Bethlehem, American Can, North American, Westinghouse, Harvester, National Biscuit, Sears Roebuck, United Aircraft, General Motors, Du Pont and General Electric were off 1 to 2, while slightly larger losses appeared for American Telephone, Allied Chemical and Auburn. Union Pacific, Case and American Tobacco "B," sagged approximately 3 net. The rail group was sluggish and heavy, although its losses conformed to the general pattern.

Gins all over the territory were busy the past week working double shifts and well into the night. The crop is much improved in grade and staple over previous weeks, with less green cotton being picked.

Farmers report little trouble in securing enough pickers. Business men state that there is still a considerable era of spending on the part of pickers and farmers.

French Regard Invitation As Logical Step

PARIS, Nov. 14 (AP) — President Hoover's invitation to President-elect Roosevelt to discuss the debt situation created by the British and French notes was generally described by the French press today as a logical step. French newspapers are following Washington developments most closely.

French Present Scheme For Solving Problem

GENEVA, Nov. 14 (AP)—An elaborate scheme for breaking the disarmament deadlock, solving the problem of security and meeting Germany's arms equality demand by tying together arms reductions and security pacts was submitted textually to the disarmament conference tonight in behalf of the French government.

The French plan calls for application of the Briand-Kellogg pact, the League of Nations covenant and special regional agreements for mutual assistance against any aggressor. It proposes reduction in effectives and materials of war, with a special allotment of certain troops and arms for the use of the league in enforcing peace.

Two underlying principles, which the French regard as of supreme importance, are that there shall be no rearmament and that the proposals are a unified whole, all parts of which are strictly essential to the success of the whole.

Some 4,000,000 cubic yards must be removed before pouring of concrete starts, the river bed being excavated to a depth of 130 feet.

With work more than a year ahead of schedule, it is now expected filling of the reservoir will be started on July, 1935, and initial power generated by September 1, 1935.

Livestock

MIDWESTERN LIVESTOCK

KANSAS CITY, Nov. 14 (AP)—(U. S. Dept. Agr.)—Fed steers and yearlings found an extremely slow outlet at mostly 25-50 lower figures as compared with the close of last week. At a late hour several of the larger markets reported the bulk of supply unsold. Supplies were increased by around 40,000 as compared with arrivals at eleven markets last Monday. Chicago secured up to 8.10 on a part load of yearlings and several loads of better grade steers and yearlings around the circuit made 7.00-8.00, while the general bulk were of quality of sell in a spread of 5.00-6.50. Stockers and feeders made a sizable supply of the arrivals and found a much better demand than did killing cattle. Values carried a generally steady trend with most replacement steers eligible in a spread of 3.50-5.50. Better grade yearling stockers sold largely around 5.50@6.00, while choice stock steer calves made 6.25-50.

Hogs were unevenly 10-25 lower as compared with the average trade of last Friday, Chicago noting a top of 3.65 on best butchers.

Lambs also fell in line with the downward trend of values as selling prices were listed mostly weak to 25 lower. Mostly 5.25@6.00 with closely sorted natives in 5.25-6.00 with closely sorted natives in Chicago clearing up to 6.35. A few feeding lambs brought 4.50-5.25.

to jazz up education," the young university president explained.

"These pictures cannot have the effect of replacing the classroom teacher. Pictures without a teacher lose nine-tenths of their value; they would be merely an interesting series of scientific experiments. With a competent teacher they become a potent educational instrument."

President Hutchins said the university had a three fold purpose in developing the educational talkies.

"First, we wish to use them in our own general courses for freshmen and sophomores," he said. "Second, we wish to experiment with the possibilities of the medium, third, we wish to make available for universities, colleges, high schools and adult educational groups the results of our experience with the curriculum and with sound pictures."

The films shown tonight were the first two of a series of 20 in the physical sciences. They will be made available to other educational institutions.

Next to be produced are three films on electrostatics, energy and transformation, and the velocity of light.

CHICAGO GRAIN REPORT

CHICAGO, Nov. 14 (AP)—Aggressive buying largely on eastern orders jumped wheat values today to the topmost point reached in more than two months but later the gains crumbled.

Influenced by New York stock market downturns, many wheat operators who earlier had espoused the purchase side turned sellers.

Closed Unsettled

Wheat closed unsettled at the same as Saturday's finish to 3-8 higher, corn also unchanged to 3-8 up, oats unchanged to 1-8 advance, and provisions unchanged to a rise of 20 cents.

Late setbacks of wheat values were in the face of predictions by eminent authorities that threshing returns would show United States 1932 spring wheat yields had been officially overshadowed 30,000,000 bushels.

Drouth Reported

A feature of bullish statements about war desire was that the international situation had been an element of uncertainty checked any effort at general world relief, but that the problem now came forward in such shape that it must be weighed in the light of reason instead of emotion, and not hidden and avoided. Severe winter weather curtailing wheat receipts north and south of the Canadian boundary were also emphasized together with reports of persistent drouth in United States winter crop territory southwest. One private report indicated 9,000,000 acres were affected by the drouth.

Corn and oats swayed with wheat. Shipping and export demand for corn failed to follow price upturns.

Closing indemnities—wheat — Dec. 45-45 1-8, 46 7-8; May 49 7-8-50, 51 1-2-5-8; July 51 1-8, 52 3-4. Corn Dec. 26 1-2-5-8, 27 1-8; May 31 1-2 - 5-8, 32-32 1-8; July 33 3-8, bids.

First Report Had Tech Tied For Fifth Place

According to a message early Monday from Ray C. Mowery, coach of the Texas Tech livestock judging team at the American Royal Livestock and horse show in Kansas City, Texas Tech and the University of Nebraska tied for fifth place with 4,294 points.

"I presume that there was a recheck of points made after Mr. Mowery filed his message," Dean A. H. Leidigh said when told that the Lubbock team had placed sixth with 4,272 points.

Members of the team were: Burford Browning, Pluvanna; E. C. Cauble, Stiles; Lanoy Hazel, Spur; Harlan Howell, Brownfield; Ben Jenkins, Gail, and Curtis Williams, Lubbock.

Placings of Tech teams in other years were: 1927—13th out of 14 teams entered; 1928—fourth out of 16 teams; 1930—eighth out of 14 teams and 1931 — ninth out of 15 teams.

Two Brothers Face Charge

Oklahomans Charged In Death Of Wife Of One; Scheme To Collect Insurance Is Charged; Accident Claimed

(By The Associated Press)

SULPHUR, Okla., Nov. 14—Claud Oliver, 28, and George Oliver, 18, farmer brothers, were charged with murder here today for the death of Claud's 15-year-old bride.

The girl's body was found pinned under her husband's motor car, two miles south of Davis, on November 3. Her head was crushed.

Scheme Is Seen

Officers said both brothers had made statements and that they were investigating clues indicating that the girl-wife's death was caused by a pre-nuptial scheme to collect insurance on her life.

The girl, formerly of Wynnewood, was married to Claud Oliver in September. Sheriff Boze Johnson and E. W. Fagan, county attorney, said they had learned of an alleged plan in which the brothers were accused of agreeing that one of them should marry the girl and insure her life for $5,000.

Seen Near Tragic Spot

Fagan said suspicion first fell upon the brothers Saturday when a farmer living near the scene of the purported wreck told officers he had seen the brothers in that vicinity on the fatal day.

Both men were arrested Saturday and Fagan said they admitted a plot and told how the girl-wife was lured to a country road, where they said she was fatally beaten over the head with a heavy tire tool. Unconscious, according to the alleged confession, the girl was placed, in the car, which was hurtled into a ditch.

Following the filing of murder charges here, the brothers were removed to another county for safe keeping.

Two Youths Face Burglary Charges

Two youths held in connection with burglary of Levine's department store, 1009 Broadway, probably will be charged Tuesday morning, Sheriff Wade Hardy said last night. Loot from the store was recovered yesterday.

The sheriff said the burglary late Saturday or early Sunday of the Levine store was the third there in a month. Some clothing worn by the suspects, when they were arrested at 11:30 o'clock Sunday night here by Grady Harrist and Louie Moore policemen, was identified as having been taken from the store in a previous robbery, Sheriff Hardy said.

Loot Found

Four suitcases, stolen in the store and stuffed with boots, shoes, suits, leather jackets, and other apparel, in the last burglary, were found east of Sanders school in Yellowhouse canyon by Joe Rieger and R. A. Metcalfe, deputy sheriffs. The loot had been covered with dirt and weeds.

Value of the merchandise taken in the last burglary was not learned. Attempts had been made—successfully in one case—to keep the press from learning of the two previous robberies.

Both suspects, one 19 and living here, the other 20 and from Los Angeles, are under suspended sentences for burglary, the first in Johnson county and the other in Potter county, police and sheriff's departments said.

An unconfirmed report was that the pair went up stairs in the Citizens National bank building, crossed roofs westward to the store building, which is separated from the bank by one building, and entered the store through a sky-light or an elevator shaft.

The burglars were said to have come back down the stairway, in view of a night watchman, without arousing his suspicions, although they were carrying suitcases.

Silverware Stolen

Thefts of silverware and bicycles were reported to Lubbock police Saturday and Sunday. Three bicycles later were found, police said.

A woman in the 1300-block of Fifteenth street said some silverware had been taken from her home.

Paul Smith, 1311 Sixth street; Allen Deatherage, 1504 Avenue G, and Jack Sharp, 1504 Avenue C, reported their bicycles had been stolen.

A woman living at 1627 Tenth street informed police Sunday a plumber working under the house had found "something." Police learned the "something" was dynamite caps, they said.

J. C. Bond of Brownfield, former owner of Hotel Brownfield, spent Monday afternoon in Lubbock on business.

Personals

Sam W. Martin, Austin, with the U. S. Department of Agriculture, is spending several days here on business.

Don Spencer, of Denver, Colo., with the U. S. biological survey, is spending the week here with J. M. Hill, jr., district field man.

Mr. and Mrs. E. J. Lowery and children, Jimmy and Lynn, attended the Pampa football game and spent the week-end in that city as the guests of friends.

Tillory Is Given Suspended Term

Jack Tillory, who pleaded guilty of theft, was given a two-year suspended sentence in 72nd district court Monday, after Judge Homer L. Parr had called a docket of 18 criminal cases.

Cases of C. D. Harr, charged with theft and burglary, and Brownie Beard, indicted for driving an automobile while intoxicated, will be called today, the district attorney's office reported Tuesday.

Trials Of Croft And Smith Set For Today

Trials of John Croft and Eugene (Red) Smith, policemen, charged with aggravated assault in a complaint signed by Frank D. Brown, a Lubbock attorney, are scheduled in county court today, the county attorney's office said yesterday.

Brown filed the charges, alleging the officers injured him, when they sought to arrest him for overrunning a stop sign. The attorney pleaded guilty of the traffic law violation, and then appealed the case to county court. County Attorney Vaughn E. Wilson dismissed the appeal case because "it alleged an impossible date."

The president-elect has spent the last three days in the executive mansion, much of the time confined to his bed with a cold. His cold had virtually disappeared today and he was able to go downstairs to his study and to hold numerous telephone conferences with close advisors.

The date for his departure for Warm Springs had tentatively been set previously for either November 20 or 21.

Certified Seed Breeders Meet At Tech On Monday

Certified grain sorghum breeders of this section met Monday at the school of agriculture, Texas Technological college, for their annual November meeting with the state plant and seed board. Dr. E. P. Humbert, chairman of the board and R. V. Miller, secretary, were here for the meeting.

Besides a dozen or so breeders here, the board heard a number of applications by proxy. "We are hearing applications for licenses to grow certified grain sorghum seed during 1933," Secretary Miller said. "The licenses we issue are for a year only. The growers come in and tell us of their plans for the next year, among other things."

No Decrease Seen

Each breeder appeared before the board and explained his plans for next year. There were a number of new applicants and Mr. Miller said he "saw no indication of a decrease in applications to grow certified seed."

There probably will be a slight decrease in the acreage this coming season. Last year more than 2,300 acres was grown by about 20 breeders, nearly all of them in this section.

At the morning session of the board the following appeared before the chairman: Harold Love and A. R. Brown, Anton; W. E. Gosth, Abernathy; H. F. Walden, Littlefield; Harmon Scales, Brownfield; J. R. West, Wilson; George C. Beakley, Levelland; Nolan Von Roeder, Knapp; J. A. Dunn, Lamesa; W. H. Cunningham, Littlefield and J. P. Roberson, Hereford.

During the afternoon Dr. Bradford Knapp, president of Texas Technological college, spoke at a meeting of the breeders.

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". Picture Hints Of New Stage Romance

They don't look particularly serious here, yet Broadway has it all figured out that Marilyn Miller, late of the music shows and of Hollywood, will be married before Christmas to Don Alvarado, young Latin-American actor. It was about four months ago that Marilyn admitted, out in the film belt, that they were engaged. At any rate, they've been dancing and playing together about the night spots and were snapped here at the opening of a new New York night club.

Farewell Dinner Is Given Eaton

A surprise farewell testimonial dinner was given Saturday night by Lubbock county Four-H club members to D. F. Eaton, county agent who is leaving th's county for Shackelford. The affair, attended by 37 persons, was conducted at Hotel Hilton.

A handsome white gold watch, the gift of club boys and girls, was presented to Mr. Eaton at the close of the evening by toastmaster, James Potts, one of the senior leaders.

Many of the club members, called on by the toastmaster to say a few words, expressed their appreciation of the work done by Mr. Eaton as leader of the club work. Among those speaking were: Homer Garrison, Henry Shipp, Dorothy Horton, Manuel Ayers, Guyrene Horton, Cecil Hart, Edwin Merrill, Wayland Potts, Anthony Woodward, Davis Beatty, Mary Louise Myrick, J. C. Myrick, Harold Cromer, John L. Vaughn, Frank Bell, Horace Kelly, Mrs. James Cates, Flora Cates, Adrian James, Alfred Wardlow, Goldie Potts, Fred Elliott, Miss Nora Elliott and Bud Larson.

J. D. Tinsley, agricultural agent of the Santa Fe, who came down for the occasion, also spoke.

In accepting the gift Mr. Eaton said, "I consider this group here the finest lot of young people that has ever gathered together in this work."

ALABAMAN ACQUITTED

MOBILE, Ala., Nov. 14 (AP)—A jury in Mobile circuit court today returned a verdict of acquittal for Raymond Dyson, 27, Fairhope contractor, in his trial on charges of murder for the slaying of H. M. Butler, jr., Mobile society favorite, on August 22.

Relieve Headache And Quiet Nerves In Three Minutes

When you have one of those violent, nerve-racking headaches, from inorganic causes, you can get soothing relief in three minutes with "B. C.," a reliable pleasant-to-take remedy. "B. C." is prepared by a registered pharmacist, compounded on a different principle from most relief-giving agencies in that it contains several ingredients, so blended and proportioned as to accomplish in few minutes what we believe no one drug formula can do in so short a time. "B. C." should also be used for the relief of muscular aches and pains, common cold and neuralgia; for reducing fever and quitting a distressed nervous system without opiates, narcotics, or such habit forming drugs. Get "B. C." in 10c and 25c packages wherever drugs are sold. (adv.)

LaVerne Stevens Is Winner Of Farm Scholarship To Tech

LITTLEFIELD, Nov. 14—(Special)—LaVerne Stevens, graduate of the Littlefield high school, has been awarded a scholarship in Texas Technological college at Lubbock, by the Texas Farm Bureau federation as a result of contest at the district farm bureau meeting in Lubbock last May.

Value of the scholarship is $100. It was presented by W. L. Ellwood of Lubbock, for the county having the largest attendance at the federation meet. Lamb county's large attendance was secured partly through the attendance of the class in vocational agriculture of the Littlefield high school, of which young Stevens was a member.

Legion Drive To Open Today

Allen Brothers Post, No. 148 To Seek New Members In City-Wide Campaign; Ex-Service Men Meet At 8:15

Allen Brothers post, No. 148, of the American Legion will begin an annual membership campaign here at 9 o'clock this morning. The post has 180 members now and its 1932 quota is 300, a campaign committeeman said.

W. O. Daniels is chairman of the membership committee. He appointed L. E. Davis, Dr. Fred W. Standefer, and Glen Hess as members of a committee directing the drive. Each committeeman in turn appointed four workers, who chose three men each to assist them, swelling the total of the membership drive corps to 52.

Meet at 8:15 Today

The committee will meet at the Legion home in City hall block at 8:15 o'clock this morning, the subcommitteemen at 8:30 o'clock, and their assistants at 8:45 o'clock.

Led by Texas Technological college band, solicitors in the membership drive will march from the Legion home southward on Texas avenue to Main street, eastward on Main street to Avenue G, southward on Avenue G to Broadway, and westward on Broadway to the Lubbock hotel, Avenue K and Broadway. Eleven buglers will be stationed over the city.

Want Every Ex-Service Man

There they will "deploy as skirmishers" and begin an attempt to enlist in Allen Brothers post every former service man who has an honorable discharge and who served in the World war.

Rural regions adjacent to Lubbock will be canvassed later by committees appointed in those regions. A "mopping up" squad will be named November 23 to talk to every eligible man in Lubbock who has not been approached before in the current campaign.

Four South Plains Boys Win Trips To Chicago Exposition

Four South Plains 4-H club boys won trips to the International Livestock Exposition, Chicago, offered by the Santa Fe for excellence of demonstratons in scientific production of crops and livestock, in cooperation with county farm demonstration agents. The railroad offers each year 19 trips to boys in counties along its lines in Texas.

Winners were

Anthony Woodward, route 1, Shallowater, Lubbock county, on a demonstration in hegari.

Ancel Miller, Amherst, route 1, Lamb county; cotton demonstration.

J. C. Cordill, Hale Center, route 2; Hale county, beef cattle demonstration.

J. T. McDaniel, Kress, Swisher county, swine demonstration

Officials To Go Along

M. T. Payne, state boy club agent; H. H. Williamson, vice-director and state agent of the extension service and L. P. Dinan, Galveston, agricultural agent for the G. C. and S. F., will accompany the party.

The South Plains group will probably leave Lubbock Thanksgiving afternoon and meet with William Hill, of Gray county, at Amarillo. The boys from the other sections of the state are to meet at Fort Worth Friday, November 25.

Value of the trip is estimated at $100. Lubbock county has won nine such trips since 1924.

Idalou Woman's Funeral Is Conducted Monday Afternoon

Funeral services for Mrs. W. T. Hunt, 58, of Idalou, were conducted at the Idalou Methodist church Monday afternoon by the Rev. Geo. Montgomery and the Rev. Wilburn Turner. Burial was in an Idalou cemetery, directed by Sanders funeral home.

Mrs. Hunt is survived by her husband, two sons, R. B. Hunt of Lubbock, and Melvin Hunt of Exter, Calif., and a daughter, Mrs. Luther Twalls of Idalou, and her mother, Mrs. Mary Nargo, also of Idalou. Mrs. Hunt died at her home Sunday afternoon.

NEWS BRIEFS

United States army recruiting was reopened here Monday after eleven months of inactivity, Sgt. E. O. Slater, recruiting officer, said. Vacancies are in the cavalry, field artillery, signal corps, and all staff branches. Sergeant Slater said he expected recruiting probably would continue the rest of the year.

D. K. Bondurant of Lubbock will have charge of local arrangements for an annual meeting of the 12th regional district of the Texas Association of Insurance Agents here Thursday at Hotel Lubbock. The convention was conducted here in 1931. D. G. Foreman, secretary of the association, and D. A. Clark, regional vice president, of Sweetwater, and a representative of the state insurance department of Austin, will attend.

Condition of C. C. Rogers, about 24, of Lubbock, critically injured in a collision in which another man was killed last Tuesday, was unchanged Monday at West Texas hospital.

Conditions of J. W. Paschal, 60, of Dallas, who suffered a fractured vertebra in an automobile accident; Jack Reaves, state highway patrolman, of Lubbock, hurt in a collision last Monday, and Daniel Ferrel, a negro, who was shot here Tuesday, are satisfactory, Lubbock sanitarium reported.

Cotton picking is making good progress in Terry county, J. C. Bond, former hotel man, said while here yesterday. The crop is not expected to equal that of last year because of so much of the area being hailed out in June. Mr. Bond said he believed there were plenty of cotton pickers in the county.

Grading work east and north of the state experiment station, was expected to be started this week, Homer D. Grant, of the Panhandle Construction company, holders of the contract, said. The west caprock route in Yellowhouse canyon is finished and work well under way on the east cap. Nearly all of the grading from the canyon to the experiment station corner has been finished.

Levelland was a busy place Sunday, with several grocery stores open and a large number of cotton pickers on the streets, D. N. Holt, former Levelland man, said yesterday. He reported cotton men estimating 25,000 or more bales of the crop already picked.

Low places in the driveways around the administration buildings at Texas Technological college, were being filled with caliche Monday. The approach to the College avenue paving also was being filled.

R. J. Keller is chairman of a Christmas sales promotion committee named by B. Sherrod, president of the Lubbock Retail Merchants association. Other members are C. Fred Litton, W. O. Daniels, G. E. Damewood, J. C. Anderson, J. D. Hassell, jr., W. T. Jackson, and John Halsey. The committee will make recommendations for pre-Christmas sales promotion.

Sunday school attendance, totaling 3,899 here Sunday, was distributed among the churches as follows First Baptist, 1,137; First Methodist, 783; Church of Christ, 539; First Christian, 351; First Presbyterian, 332; Asbury Methodist, 240, Sanders Union, 141; South Side Baptist, 137; Cumberland, 120; Central Baptist, 75; Salvation Army, 44.

Four-H club extension work in Lubbock county will be directed by R. N. McClain, assistant agent, County Judge E. L. Pitts has announced. McClain will succeed D. F. Eaton as club leader. Mr. Eaton is transferring to Shackelford county and O. G. Tumlinson, county agent there, is coming to Lubbock.

Eight Lubbock Boy Scouts Monday night at the First Presbyterian church began their apprentice work in Sea Scouting. H. H. Jons is skipper of the Sea Scout ship. Next Monday night, if a life buoy can be found in Lubbock, the boys will practice throwing it at Shannon park lake.

State Faces Worm Threat

Pink Boll Worms Reported In Rio Grande Valley After Floods, State Plant And Seed Man Declares Here

Texas is threatened by an invasion of the pink bollworm and in two counties along the Rio Grande —Presido and Brewster—the menace is a serious threat to cotton growers, R. V. Miller, secretary of the state plant and seed board, declared in an interview here Monday.

Recent floods along the Rio Grande have an added menace in that there is no way of telling how far the bollworm has been spread along the valley.

Just Back From Trip

"I am just back form a trip to the Big Bend country and the situation there is serious," Mr. Miller said. "I went out into the fields and found many cases of 100 per cent infestation, 100 per cent worms and several in other stages, on the stalks.

"We found many first and second instarts on bolls that were not open. We found all stages of the worm.

"I know from personal observation that the worms can live under water for 30 days at a time. I have seen that. The worms stick two seeds together and hide. They have plenty of food and they can hide all winter."

From Old Mexico

Mr. Miller explained that the present threat is believed to have come from Old Mexico. The floods along the Rio Grande are thought to have sent the pink bollworm down the river. Evidences have been found in these two counties but Mr. Miller fears that the menace has gone all down the river.

The state of Texas is cooperating with the federal government of Mexico in a campaign to eradicate the pink bollworm. "We have had splendid co-operation from Mexico," Mr. Miller said.

Isolation of several thousand acres where the worms have been found is planned. Sterilization of seed and other methods will also be used to fight the worms.

Funeral Services For W. S. Mitchell To Be In Greenville

Funeral services for W. S. Mitchell, 22, a resident of Tahoka two years, will be conducted at Greenville Tuesday. The body was sent by Rix funeral home to Greenville, where Mitchell's mother, Mrs. W. S. Mitchell, resides.

The young man, who died here Sunday night in a sanitarium, is survived by his mother, four brothers, J. H. of Lubbock, L. O. of Tahoka, J. F. of Campbell, and L. N. Mitchell of McLean, and three sisters, Mrs. Bessie Boggs, Sherman, Mrs. Minnie Collins of Wolfe City, and Mrs. Eugenia Hamilton of Carrollton.

The greatest supply of granite in the United States comes from Maine and Massachusetts.

Sante Fe Bulletin Of Area Is Being Revised; Booklets Used In Answering Inquiries

The Santa Fe railroad is revising its folder advertising the Panhandle-Plains county that it sends to all persons making inquiries about locations both industrial and agricultural, along the lines of the company in West Texas and New Mexico and other states in the southwest.

J. D. Tinsley, agricultural agent at Santa Fe, who spent the week-end here gathering information for the revised edition, said that the booklet would be brought up to date, with the information based on the 1930 census and other late information

Gins Total 336

"There are in the Santa Fe territory on the plains, a total of 336 gins that I found," Mr. Tinsley said. "I have the names and addresess of that many.

"Another thing, all of the compresses are located on our lines such as the one here at Lubbock, and at Brownfield, Littlefield, Slaton, Lamesa, Floydada, Ralls and Plainview, are high density presses. Their average capacity is 100 bales an hour. There are also 175 elevators, with a capacity of 11,000,000 bushels

The railroad, according to Mr. Tinsley, is constantly receiving inquiries about locations, price of land, etc. The railroad sends these letters to chamber of commerce in the territory inquired about and also sends the writer a copy of the booklet.

The total area of the Zuyder Zee in Holland is 2,027 square miles.

David F. Eaton Leaving Today For New Post In Shackleford

D. F. Eaton, county agent, is leaving today for Shackelford county where he will begin his new duties as county agent for that county.

Mr. Eaton is leaving after nearly nine years of service in Lubbock county. He was dean of county agents in West Texas having served longer in one county than any other agent in this area.

O. G. Tumlinson, who has been Shackelford agent for the past two years, is his successor. Mr. Tumlinson is locating here this week. Mr. Eaton said he expected to be back in Lubbock about the holidays and will spend several days here. Mrs. Eaton and the family are remaining in Lubbock until the close of school.

Willmot M. Odell, Prominent Attorney Of Texas, Is Dead

FORT WORTH, Nov. 14 (AP) — Willmot M. Odell, 54, general attorney for the St. Louis San Francisco railway of Texas and a former United States district attorney, died here early today after an illness of five months.

The funeral will be held here tomorrow afternoon. Burial will be at Cleburne, his former home.

He had been engaged in the private practice of law for 31 years, except for an interruption of two years when he served as United States district attorney for the northern district of Texas. For two years, from July 1927 until May 1929, he was a member of the Texas Prison board, and after relinquishing that position was a regent of the University of Texas. He recently resigned from the board of regents on account of ill health

WHO SERVICES YOUR TYPEWRITER?

You would not allow some passing stranger to repair or overhaul your automobile. Nor should you entrust the servicing of your typewriter or adding machine, that cost $100 or more, to some would-be mechanic who is here today and somewhere else tomorrow.

Our mechanics have had from 4 to 24 years of mechanical experience, and we guarantee every job done by us, and our prices are in line.

There have been some of these (so-called) independent mechanics purporting to be with the Typewriter Sales Company. Then the customer would call us for service after the transient mechanic had gone on his way. Our only authorized representativese are W. L. Hester, C. R. Engart, and J. S. Bush. Ask for identification.
