REBELETES SETTLE FOR THIRD PLACE AT STATE TOURNAMENT

The Rivercrest Rebelettes rebounded after a heart-breaking overtime setback in the first round of play to crush Gregory-Portland 60-37, and take third place honors in the Class AA division of the girls state tournament in Austin Saturday morning.

"We played like we're capable of playing," Coach Larry Tucker said after his girls had taken the consolation title. It marked the second straight year the Rebelettes have finished third in the state playoffs.

Playing outstanding defensive ball as well as their typical offensive game, the Rebelettes never trailed the Region IV-AA champions from South Texas.

Rivercrest had a 14-8 first period lead and by halftime had widened it to 29-21. The Rebelettes broke the contest open in the third quarter with a 16-point production and it was 45-29 going into the final period.

Glenna Grayson, junior forward, paced the Rebelettes with 27 points. Katy Fry had 20 and Lana Sloan hit for 13 points.

Guards Sandy McCall, Kay White and Nancy Harper were also cited for their outstanding play in the contest.

Rivercrest was presented the third place plaque at the end of the game.

The Rebelettes closed out the season as one of the most honored teams in Texas. They had a 33-2 final record and were ranked No. 1 in the Class AA poll this year.

Three members of the Rivercrest team played their final games Saturday. Fry closed out a brilliant career as a forward. She was an all-state player last season and will rate high for a repeat on this year's club.

On the guard end of the court, McCall and Harper closed out their careers. They, too, have been starters all three seasons in high school. Both were outstanding in the games at Austin.

Spearman rallied in the final two periods to pull even with the Rebelettes Friday afternoon and then outscored them in an overtime to take a 44-40 victory in their first round of the tournament.

It marked the second straight year Spearman has beaten the Rebelettes in the first game at the tournament.

Rivercrest opened Friday as if it would walk away with a decision even before the half. The Rebelettes had a 12-5 lead after the first period and were ahead 25-16 at halftime.

But Spearman, from the Panhandle region of the state, started pecking away at the Rebs' lead in the third period and trailed by only one heading into the final quarter (31-30).

The teams played nip and tuck throughout the final period and the count was tied 40-40 at the end of regulation time.

Spearman got the tip off and Marcia Shieldknight hit an early shot as the extra session got under way and then started a stall. Rivercrest had several chances to add to its count but couldn't connect.

Two free tosses by Linn Ann Robinson cinched it for Spearman in the closing moments. Spearman stalled much of the time it had the ball, preserving its small lead.

The three Rivercrest forwards hit in the double figures. Katy Fry paced the attack with 16 points. Lana Sloan had 14 and Glenna Grayson 10 points.

The loss dropped the Rebelettes into the consolation game of the tournament.

Spearman, the defending Class AA champion, shot in the finals. Little Cypress of Orange defeated Spearman 52-43 in the finals Saturday night for the state championship. The same two teams had met last year in the finals with Spearman winning.

Austin. — Now that virtually all the bill-introducing has been done, Texas Legislators can get down to the business of thrashing out laws.

Under the State Constitution and the rules of each house, a four-fifths vote must be obtained for a bill to be introduced in either house after the first 60 days of the session. That deadline came at the end of last week.

As the 60-day deadline approached, the House had about 1,200 bills on file. Senate had another 500 bills. In addition to these, each house has a number of resolutions to consider.

Subject matter ranges from minor local measures to proposals for sweeping overall changes in the constitution and state agencies.

That 60-day deadline is a magic number in the Senate for another reason, too. A four-fifths vote in the upper chamber is necessary in order to bring up a bill for final action before the first 60 days have elapsed.

Actually, the House is similarly restricted, but the members voted to suspend that rule early in the session.

NEW BOARD PROPOSED — In order to mobilize Texas' vast agricultural resources another is proposed. It would be known as the Texas Agricultural Development Board.

Noting that Texas is falling behind in the relative growth of one of its key industries, the interim House Study Committee suggests that a 15-member board representative of all areas of the state be appointed by the Governor.

Its duties would be to inventory agricultural assets and needs, establish goals for the industry, prepare an agricultural market program, develop new ways of converting raw agricultural products into marketing items and perform other similar activities designed to boost agriculture in the state.

TAX HEARING ON — Major portions of the Governor's \$187,300,000 tax program came under heavy fire at initial House revenue and tax committee hearings. Industry spokesmen suggested a general sales tax hike as preferable.

Gas industry representatives opposed the proposal to increase the natural gas production tax from seven to eight per cent.

Breweries objected to beer being placed under the general sales tax.

Surprisingly, corporations did not speak out against the recommended increase in the corporate franchise tax rate (from \$2.25 to \$3 per \$1,000 on capital and surplus with a gradually decreasing levy on debt).

Opposition to boosting the gaso-

line tax from five to six cents a gallon will come at a second hearing set for March 14.

Another big date will be March 21 when the controversial liquor-by-the-drink bill comes up for tax committee review.

A tipoff to opposition strategy was given by William H. Abington of Texas Midcontinent Oil and Gas Association when he suggested the Legislature might find its revenue-raising job easier by adjusting the sales tax.

Lt. Gov. Preston Smith says he favors the sales tax approach if new money must be found. He still insists that the budget can be balanced without any new taxation.

Smith indicated that the optional one per cent city sales tax bill already passed by the House will be okayed by the Senate.

REDISTRICTING "GETS WORSE" — Redistricting is going to be a bigger headache this year than in 1965. So predicts House Speaker Ben Barnes after studying legislative and congressional reapportionment problems.

Some Texas congressmen reportedly are upset. Rep. Gus Mutscher, Brenham, chairman of House district committee, Sen. J. P. Word of Meridian, his Senate counterpart, and Sen. Ralph Hall of Rickwall visited Washington over the week end to talk with congressmen and swap ideas.

Numerous redistricting bills are in the hopper.

SCHOOL TESTING — This spring approximately 80,000 seniors in 296 high schools in 128 school districts will be given an opportunity by the state to analyze critically and constructively their schools and their teachers.

Public School Education Committee is sponsoring the unique questionnaires. Purpose is to measure what the students have learned and how well they can use their knowledge.

Results of the study will be related to a massive data-gathering project to give a full picture of the state's public-school education system.

SNIPER TOOK DRUGS — University of Texas sniper Charles J. Whitman "ate" amphetamine drugs "like popcorn," and mounded a seemingly-endless supply through illegal sources. A legislative committee was given this information by C. Dean Davis, general counsel for the Texas State Board of Pharmacy.

His comments concerning the killer of 16, in that murderous rampage last August 1, overshadowed hearings on bills to place LSD, amphetamines, barbiturates and a variety of hallucinogens on the dangerous drug list.

Bills went to sub-committee after lengthy hearings.

Kelsey And Fry Named All-Star

Rivercrest's Katy Fry and DePort's Connie Kelsey have been named to the North All-Star team which will compete against the South All-Stars this summer during the annual Texas High School Girls Coaches Association clinic in Duncanville.

Kelsey and Fry were selected as forwards. Lyn Newman of Cooper was named a guard and Gracell Adams of Fannindel was chosen as an alternate.

Fry carries an outstanding average for career with Rivercrest and has averaged over 20 points a game this season. She was named last year to the All-State Team in Class AA.

Kelsey was chosen for the Class B All-State team in the 1966 State meet. She has averaged 26 points per game this season and has been an outstanding player for the past four years.

The All-Star game is held in conjunction with the coaching clinic and will be staged on Saturday, July 22 in the Duncanville High School gym.

Only seniors are chosen for the All-State team. The three selections give this area its largest representation in history in the All-Star basketball clash.

Urge Safety Rules In Kite Flying

Time-tested harbingers of Spring are budding mesquites, red-breasted robins, and long-tailed kites diving and swooping through sunny skies. One of the traditional joys of childhood that continues generation after generation is flying a kite on a windy March day; and, according to the American Kite Association, it is a sport that also is enjoyed year-round by many enthusiastic adults.

"Whether young or old, smart kite-flyers will observe basic rules of safety," says David Hudson, Community Public Service commercial manager. "One of the most important rules is never to fly a kite where there is a possibility of its getting entangled in electric wires."

Other dangerous practices in connection with kite-flying include using metal string or wire, making the kite frame of metal, flying kites in the rain when even a cotton string can become a dangerous conductor of electricity, and trying to retrieve it if it becomes tangled up in electric wires. As a reminder, CPS has distributed kite safety poster for school bulletin boards.

Friday, March 17, is also last day growers may file applications to take part in the 1967 feed grain program.

Only growers who participate in the program will be eligible for price support on their 1967 crops of corn and grain sorghums. As last year, the support is made available through loans, purchases, and price-support payments.
