

Coal Walkout Nears Strike Against U.S.

Strikes Threaten Water And Rail Transportation

Maritime Union Sets Walkout For June 15

By The Associated Press
Threats of strikes against the nation's rail and water transportation systems Thursday brought further gloom to the labor front.

Following announcement that 14 non-operating railroad brotherhoods would take a strike vote within the next six weeks, the National Convention of Maritime Unions, representing more than 160,000 workers, approved a joint nationwide walkout starting June 15 unless an agreement is reached with employers on issues of wages and working conditions.

The strike call by the National Convention of Maritime Unions, meeting in San Francisco, was drafted by a 33-man committee of delegates from seven unions. It is not final, however, as the convention voted the decision be referred to the membership, but observers predicted approval would be given. The workers have been demanding 30 per cent wage increases.

Most Are CIO
Affected by the strike call are 90,000 sea-going members of the NMU; 25,000 longshoremen from the International Longshoremen's and Warehousemen's Union; 17,000 members of the Marine Engineers' Beneficial Association; 13,000 marine cooks and stewards; 10,000 marine firemen; 3,000 inland boatmen's union members, and the 3,000 radio operators. All are CIO unions except the marine firemen's group, which is unaffiliated.

The threat of a rail strike was disclosed by E. Jones, general chairman of the Brotherhood of Maintenance of Way of the Missouri-Kansas-Texas Railroad, at Denison, Texas, who said the 14 non-operating unions, representing more than 1,000,000 employees, would take a strike vote between May 20 and June 15. He said the brotherhoods were seeking a 15 cents hourly pay boost in addition to the 16 cents granted by an arbitration board last month.

A strike has been called for May 18 by the Brotherhood of Railroad Trainmen and Locomotive Engineers, representing more than 200,000 employees, while unions representing the conductors, switchmen and locomotive firemen and engineers said they would take a strike ballot unless they are granted an additional wage boost of \$120.

GM And Chrysler Announce Plans To Suspend Work

DETROIT —(AP)— General Motors and Chrysler Corporation announced Thursday the impending suspension in their assembly plants as a result of the rail embargo.

GM reported its plants would be closed within the next 10 days and Chrysler said all passenger car assembly lines will be shut down next week.

Chrysler said its truck assembly lines and other operations will continue to work. It attributed the impending suspension of passenger car output to "shortages of parts aggravated by the coal strike and the rail embargo."

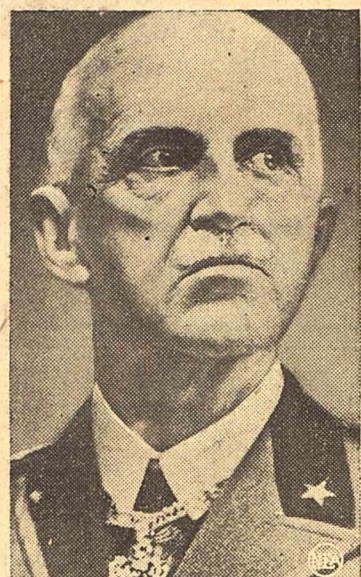

The GM and Chrysler announcements followed closely the decision of the Ford Motor Company, other member of the industry's "Big Three" to halt all output. Ford began its shutdown Wednesday night. General Motors said its assembly lines will begin to close next Monday on a progressive basis.

Affected by the suspensions are 215,000 General Motors employees; 110,000 Ford employees and immediately 10,000 car assembly workers in the Chrysler plants. Car and truck output, which reached a post-war high of 67,585 units last week is expected to drop around 50,000 next week as a result of the complete suspension by Ford and GM and the passenger shutdown by Chrysler.

Few of the other car manufacturers are in any better shape regarding supplies than the "big three" and additional closings are likely.

DALLAS —(AP)— The Ford Motor Company plant here will suspend production after May 15 until some settlement of the coal shortage crippling shipment of auto parts is made, according to Plant Manager A. L. Klemmedson. Some 1,400 employees will be affected by the shutdown, he said.

Abdicates Throne

NAPLES —(AP)— King Vittorio Emanuele completed preparations to leave Italy late Thursday and a source in the royal household, whose identity cannot be divulged, told The Associated Press that the king actually had abdicated and that the formal announcement would be made Friday.

Texaco Wildcat In West Ector Is Taking DST

By JAMES C. WATSON
Oil Editor
The Texas Company No. 1-P Fraser, West Ector County wildcat, about two miles north of the TXL field, was to run a drillstem test at 8,580-8,620 feet, in a section said to be Silurian.

No indications of production have been reported from that formation. However, taking a drillstem test usually indicates that some signs have been encountered.

The project is in southwest quarter of section 39, block 45, TP survey, T-1-N.

Crespi to Try Again
Humble Oil & Refining Company No. 1 Crespi, East Midland County exploration, in section 19, block 38, TP survey, T-2-S, nine miles southeast of Midland, was reported by operator to be on total depth of 11,488 feet, in line, preparing to take a drillstem test.

An attempted test at 11,423-843 feet, the packer failed and there was no test.

Humble No. 1 Sims, Northwest Andrews County wildcat, in north east quarter of section 24, block A-20, was making hole below 9,828 feet, in an unidentified line.

A drillstem test was taken at 9,543-9,623 feet, for one hour and 42 minutes. A 2,000-foot water blanket was used.

Sims Had Water
Recovery was the water blanket; 600 feet of drilling mud and water, and 6,000 feet of sulphur water. Tubing pressure at end of the test was 3,700 pounds, and after a 15-minute shut-in it registered 3,850 pounds. It is scheduled to drill to around 11,000 feet to explore the Ellenburger.

R. R. Herrell, et al, No. 1 TXL, Southwest Sterling County wildcat, in northwest quarter of section 1, block 31, TP survey, T-5-S, 14 1/2 miles southwest of Sterling County, had progressed below 2,125 feet in solid line, topped at 1,710 feet, on an elevation of 2,565 feet.

Some Shows Logged
That line is called Blaine by some geologists, and by others is identified as the San Andres. Operator reports that several streaks, showing possible production, have been logged since the formation was tested so far.

It is understood that this project is approximately 125 feet high on top of the solid line to the same point in Phillips Petroleum Company No. 1 Sterling, a dry hole which penetrated to the Ellenburger about two years ago.

It is planned to drill to about 2,300 feet, at which point it is expected that the Clear Fork-Permian will have been encountered, and then run casing and move in cable tools to drill ahead.

Union Has More Pay
Union Oil Company of California No. 2 Cowden, one-quarter of a mile north of the Dollar Hill field's Devonian producing area, in extreme Southwest Andrews County, had drilled to 7,804 feet, in Devonian and was to take a drillstem with the packer at 7,700 feet.

It was reported that at least half of the zone to be tested had been saturated lime. The zone at 7,600-7,700 feet, had flowed at a rate of from 15 to 20 barrels of oil per (Continued on Page 2)

U. S. Orders Embargo On Parcel Post Shipments

WASHINGTON —(AP)— The Post Office Department Thursday ordered an embargo on parcel post shipments weighing more than 11 pounds, with certain exceptions.

The department said the embargo, effective at midnight, was ordered as a result of the coal strike and curtailment of rail service.

Four classes of goods are exempt: live day-old poultry, seeds, plants and other nursery stock; eggs, butter and other perishable food products; and medicines, drugs, surgical instruments and surgical dressings.

The department said the normal weight limitation on parcel post is 70 pounds. The size limitation is 100 inches, combined length and girth.

Size Is Specified
Parcels covered by the embargo will not be accepted for mailing if they weigh more than 11 pounds or if their combined length and girth exceeds 60 inches.

Postmaster General Robert E. Hannegan said in a statement that he acted at the request of the Office of Defense Transportation and the Association of American Railroads.

"Large shipments, normally carried by rail freight or express, already are being sent by parcel post to avoid the restrictions imposed upon the railroads by the ODT," Hannegan said. He added:

"Whether parcels are sent by express or by parcel post, the railroads carry them. We anticipate that 75 per cent of railway express shipments would be diverted to us if we did not limit our service during this emergency."

The department, he said, did not have sufficient mail cars or storage space to handle "the vast quantities of packages which would come to us."

ried by rail freight or express, already are being sent by parcel post to avoid the restrictions imposed upon the railroads by the ODT," Hannegan said. He added:

"Whether parcels are sent by express or by parcel post, the railroads carry them. We anticipate that 75 per cent of railway express shipments would be diverted to us if we did not limit our service during this emergency."

The department, he said, did not have sufficient mail cars or storage space to handle "the vast quantities of packages which would come to us."

Midland Army Air Field Goes On Inactive Status June 15

Col. Robert W. Warren, commanding officer of the Midland Army Air Field, Thursday received official notice from the command-

ing general of the Army Air Forces at Washington that the field will be temporarily inactivated on June 15.

No information concerning the future of the field, once the world's largest bombardier school, was received.

It is presumed the majority of personnel now stationed here will be transferred by June 15 to other commands, and that only a few civilians will be employed here.

The field, which is under the Randolph Field Training Command, can be reactivated within 30 days, Colonel Warren said.

Disposition of the Army Transport Command unit now stationed at Midland Army Air Field was not announced officially, but it was reliably reported Thursday the command was moving to Midland Air Field No. 2.

The Midland Army Air Field was activated in October 1941, and thousands of cadets were given training here until its last class was graduated in January, 1946.

The field was one of a quadrangle of bombardier schools in this area. Other fields were operated at Chilress, Big Spring and San Angelo.

Entries Received For Dairy Day Show At Fair Grounds Monday

Entries already have been received from a number of persons throughout West Texas for the fifth annual Midland Dairy Day to be held Monday at the Rodeo grounds, and more than 75 head of dairy cattle are expected to be shown. Dairymen of Ector, Dawson and Ward Counties, in addition to many in Midland County, have announced their intentions to show cattle here.

Everything is in readiness for the annual show, which will give the people of this area an opportunity to see the outstanding dairy cattle raised here and to better realize the high place the dairying industry holds in this section.

More than \$350 in prizes, in addition to many ribbons, will be awarded at the show, which opens at 9 a. m. Monday. Six classes of each of the three types of cows, Jerseys, Holsteins and milking Shorthorns, have been set up, and five classes have been scheduled for the three different breeds of bulls.

A contest for the best group of four cows of any breed owned by the exhibitor also will be held. Two get-of-sire classifications, for the best three females of any age from one bull, have been announced. One will be for junior cows and for seniors.

Grand champions and reserve champions will be named from each division.

Production Contest
A production event, divided into two classes, for cows of any breed has been scheduled. The classes are for cows four years and over, and for those under four years.

A products exhibit will be held, with classes for milk, butter, cream and cheese.

A judging contest for spectators at 10 a. m. will be one of the highlights of the show. The contest will be open to everyone.

E. R. Eudaly of Fort Worth, formerly dairy specialist with the Texas Extension Service, will serve as judge for the show.

Catalogs for the event were mailed last week, and interest is reported as high.

J. H. (Buck) Greene and B. C. Bryson are general superintendents of the show. R. O. Brooks and V. Drake will have charge of the Jersey division, P. H. Harris will direct the Holstein division, and A. C. Treadaway has charge of the milking Shorthorn division.

Ed Tanner will supervise the production contest, and Kelly Lewellen is in charge of the junior show. Mrs. J. Z. Parker will direct the products show and contest, and County Agent Vernon Young will be in charge of the junior show. The finance committee is composed of Shelby Davis, Sherwood O'Neal, Drake, Charlie Williams and Harris.

The show is jointly sponsored by the Midland Dairy Association and the Midland Chamber of Commerce.

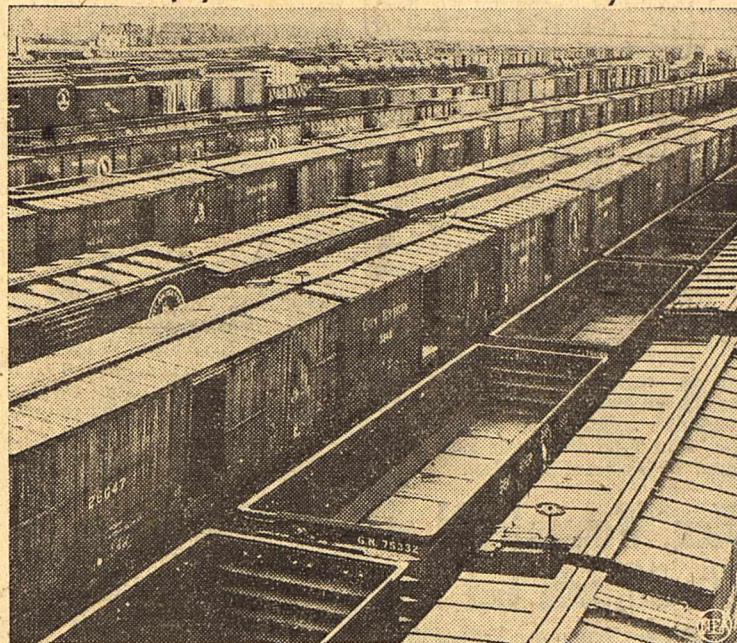

Critically injured are: Bruno Nona, 22, under treatment for a crushed chest and head injuries.

Lee R. Bailey, 23, under treatment for head injuries and cuts about the face.

Lubbock Man Sent To Prison For Bigamy
EDINBURG —(AP)— A two-year sentence was assessed Willard E. Stevens, 32, Lubbock, in criminal court here Wednesday when he pleaded guilty to a charge of bigamy. Stevens was charged with marrying a Pharr, Texas, woman while on furlough after being transferred from Moore Field near here. His wife was with him at the trial.

George Calvert, Texas Oil Developer, Dies
FORT WORTH —(AP)— Death of George Calvert, Texas independent oil developer and a descendant of the Calvert family who were proprietors and founders of the state of Maryland, was announced at his office here Thursday.

Empty Coal Cars Tell the Story

Coal cars sit empty and idle in the Superior, Wis., railroad yards as coal strike negotiations continue in Washington. When the strike is settled and the cars start moving to paralyzed industry, they will cause a major rail tie-up, transportation experts predict.

Truman Considers Action

WASHINGTON —(AP)— President Truman said Thursday the coal strike is slowly and gradually approaching the stage of a strike against the government and that various methods of coping with it are under consideration.

But as for government seizure of struck mines, Truman said only he will cross that bridge when he comes to it.

The President also declared at a news conference that he would favor seizure of America's railroads if that were necessary to keep them running. There was no amplification on the point.

As Truman spoke, coal shortages cut deeper into industrial production and prompted government agencies to take new steps to conserve fuel—including a dimout in the East and Midwest.

Replying to a question, Truman said that he is going into the matter now as to whether he has authority to end the 39-day old coal strike without the consent of John L. Lewis, president of 400,000 striking United Mine Workers.

No Commitment On Seizure
The President wouldn't commit himself one way or another on a proposal by Senator Lucas (D-Ill.) which would empower him to seize plants to safeguard the public interest and to take away seniority rights of striking workers.

Truman was requested by a reporter to make some sort of statement that would "lay out the coal strike" as he sees it now so that his position would be known. Truman said he would rather not Thursday but that he would later. He added he did not contemplate doing it in a message to the people.

One step under consideration, he said, is calling Lewis and the coal operators to a joint conference at the White House.

Midland Rodeo To Attract Top Hands
The annual world championship Midland Rodeo, May 30-June 2, will present top-flight entertainers in special events and added attractions.

J. Homer Epley, secretary of Midland Fair, Inc., said Thursday several nationally-known rodeo stars have been engaged for appearance at Midland Rodeo.

Ray Berwick and Buff Brady, well known throughout the rodeo world, will be presented in a new and sensational trick roping event. They will appear at each of the five rodeo performances at this year's show.

Jack Knapp of Hollywood, Calif., will be the rodeo clown, bringing laughs and sighs from the spectators while performing his humorous and daring antics in the rodeo arena. He has participated in leading rodeos over the nation.

The announcer and rodeo secretary will be Pete Kerscher who has handled the microphone at some of the world's largest rodeos.

Other added attractions are being arranged.

Weather
Fair and Friday. Some winds.

Rail Freight Embargo, Cut In Passenger Service Start Friday

By The Associated Press
Coal-powered railroads pushed efforts Thursday to meet a midnight deadline on a sweeping freight embargo and a 25 per cent slash in passenger service as coal stocks available to the government for emergency distribution dropped to less than a half day's normal supply.

The critical fuel situation brought on by the 39-day-old soft coal strike resulted in several government steps aimed at stretching existing stockpiles.

The Civilian Production Administration called on electric companies to coal-burning areas of more than a score of Eastern and Midwestern states to ration power, starting with a "brownout" and progressing to a blackout of all but the most essential services. Steps were also in preparation for rationing manufactured gas.

The ever-widening effects of the strike continued to hit hard at the nation's economy, with the total number of idle coal diggers and workers in coal-dependent industries soaring past 869,000.

On the heels of a shutdown of the Ford Motor Company, General Motors and Chrysler Corporation announced the impending suspension of production in the assembly plants as a result of the rail embargo.

Prospects of an early settlement in the stubborn dispute continued dark, with the mine workers' chief, John L. Lewis, and the mine operators reporting "no progress" in their negotiations at Washington.

The freight embargo, ordered by the Office of Defense Transportation, bans hauling by coal-consuming railroads of all shipments except fuel, food and other essentials. The ODT also urged "over the road" shippers to give priority to movement of essential supplies to prevent shipments banned on railroads from being diverted to trucks.

An additional 25 per cent cut in passenger service will go into effect May 15.

Complete Blackout Ordered For Area Saturday Morning
A complete blackout for Midland, Stanton and the area between the two cities from 12:30 a. m. until 2:30 a. m. Saturday was announced Thursday noon by R. L. Miller, district manager of the Texas Electric Service Company.

The blackout is necessary, he explained, to replace necessary transformer equipment in the company's station east of Midland.

Electric power will be shut off during the two hours and persons served by the company were given notice so the inconvenience could be held to a minimum.

Rotarians See Football Films
Motion pictures demonstrating football fundamentals were shown to Rotarians at their regular meeting Thursday noon in the Scharbauer Hotel by Coach Fots Milam of Midland High School. He obtained the film from Coach D. X. Bible of the University of Texas.

Milam and Alfred Petty were in charge of the program. Guy Breneman, club president, presided at the session.

Sailor Flies To Mama, To Heck With Showgirl!
OAKLAND, CALIF. —(AP)— Johnny Ochsner, 19-year-old oil heir, is home with his mother Thursday, indifferent to the fate or plans of his one-time fiancée and with a college career in the offing.

Ochsner arrived here by plane Wednesday from Honolulu, leaving behind Marguerite Pay Human, 18-year-old showgirl who stowed away on a ship to follow him to Hawaii only to be arrested and placed on "one year's probation."

"I don't care what she does or where she goes," the youthful sailor replied to questions about Miss Human.

LATE NEWS FLASHES

WASHINGTON —(AP)— President Truman told his news conference Thursday he did not yet consider the foreign ministers conference in Paris a failure although some diplomatic authorities in Washington took the view that the conference had failed and that this meant a split of Europe into Soviet and Western spheres.

BALTIMORE —(AP)— William Cabell Bruce, United States Senator from Maryland from 1923 to 1929, died Thursday at his home. He was 86.

NAPLES —(AP)— King Vittorio Emanuele and Queen Elena boarded the Cruiser Duke of Abruzzi late Thursday for a voyage into voluntary exile.

Churchill Calls For United States Of Europe As Move Toward Peace

LONDON —(AP)— Winston Churchill, in an address to the Dutch parliament, called Thursday for a United States of Europe. His address was broadcast by the Netherlands radio at 11 p. m.

"I see no reason," he declared, "why under the guardianship of a world organization there should not arise the United States of Europe, both of the east and of the west, which will unify this continent in a manner never known since the Roman Empire."

"It will give you prosperity, justice and peace," his statement evoked long applause.

"These special alliances between nations, far from weakening the structure of the United Nations, should make the United Nations indivisible and invincible," the former prime minister of Britain declared.

"It is evident that the affairs of the British Commonwealth are becoming ever closer with those of the United States. There can be nothing but good will for the whole world from such a close friendship."

Churchill said that Britain's 20-year treaty of friendship with the Soviet Union "will also be a guarantee for peace."

Churchill said "we welcome the proposed treaty of friendship with France" and expressed the hope that "the western democracies of Europe may draw together in closer association."

He called for affirmation "of the sanctity of smaller states."

"The duty of large powers in the modern world is to see that those rights are protected," he said. "It is the purpose of the United Nations to make sure that the force of right will be protected by the right of force."

hour, and had unloaded oil from the drill pipe after a drillstem test. Gaylord H. Chizum, et al., No. 1 University, Northwest Ward County, wildcat to 5,500 feet, in section 27, block 18, University survey, had made hole to 1,275 feet in potash, salt and anhydrite, and was continuing.

Top of the anhydrite was called at 802 feet, on an elevation of 2,829 feet. Top of the Rustler dolomite was at 938 feet.

It is understood that these points are high to Lion Oil Company No. 1 University, discovery for the Lion field, several miles to the south-east.

Stanford Oil & Gas Company and Westbrook-Thompson No. 35-A Hendrick, Central-West Winkler County exploration, four miles west of Kermit, and in section 33, block 26, psd survey, had drilled under 11,075 feet in hard Devonian lime and chert.

Operator reported top of the Devonian had been called at 10,010 feet, on an elevation of 2,864 feet. No appreciable indications of possible oil or gas production have been logged in the 65 feet of Devonian so far drilled.

No Test on Roberts
Argo Oil Corporation No. 1 Roberts, Southeast Reeves County wildcat, in section 294, block 13, University survey, failed to get a drillstem test on the zone at 10,736-756 feet, in a lime and shale zone supposed to be basal Permian.

"I've got a job!"

● A brand new telephone operator... that's me. Just started today.

Like it? Yes, indeed...especially one thing...everybody is so friendly. I felt at home right away. It's a nice clean place to work, too; pleasant surroundings, and the switchboard is really fascinating. I'm going to enjoy working for the telephone company.

And here's a tip, if you're looking for a job. More operators are needed right now. Experience isn't necessary because you learn as you go along.

The chief operator at the telephone office will be glad to tell you all about it. Why not see her?

Southwestern Bell Telephone Co.

**Coming Events****FRIDAY**

Mrs. Ed Prichard and Mrs. W. D. Lane will be hostesses for a luncheon meeting of the Ladies Association at 1 p. m. at the Midland Country Club. Golfers will tee off at 9 a. m. and foursome bridge will be played during the afternoon.

Family night will be held at 6:30 p. m. at the First Presbyterian Church.

Mrs. Henry Kaiser, 900 South Weatherford, will be hostess for a meeting of the Belmont Bible Class at 3 p. m.

The Cloverdale Girls 4-H Club will meet in the assembly room at the courthouse at 4 p. m.

SATURDAY

A meeting of the Moment Musical Club will be held at 11 a. m. at the Watson School of Music Studio.

The Midland County Library Children's Story Hour will be held at 10:30 a. m.

Mrs. Maude Leonard will present her junior piano and voice students in a recital at 8 p. m. at the First Christian Church.

The Midland County Museum will be open from 2:30 until 5 p. m. Admission is free.

The Girls 4-H Council will meet in the assembly room of the courthouse.

The County Home Demonstration Council will meet at 2:30 p. m. in the assembly room of the courthouse.

Crop Loan Office Hours Are Changed

A change in office hours of the Emergency Crop and Feed Loan representative in Midland, J. J. Medlin, were announced Thursday.

Medlin will be in the county courtroom each Wednesday from 1 p. m. to 4 p. m.

Previously he was here on Thursdays.

JUNIOR HIGH SCHOOL P-TA DONATES \$50 TO HOSPITAL FUND

At a meeting of John M. Cowden Junior High School P-TA Tuesday at the school, the group voted to donate \$50 to the Midland Memorial Hospital Fund. Mrs. James L. Daugherty, president, was in charge of the last session of the school year.

The Rev. Hubert H. Hopper, pastor of the First Presbyterian Church gave a talk on "Life Takes the Family Pattern." Several vocal selections were presented by a trio composed of Ruth Hall, Anna Joyce Streeter and Genora Brown.

Announcement was made that the sick room at the school had been completed.

The attendance award was presented to Mrs. Shew's fourth grade room.

Mrs. Earl Chapman Gives Review From Study Book At Winnie Prothro Circle

Mrs. Earl Chapman presented a study from the fourth chapter of "Divine Fatherhood" at a meeting of the Winnie Prothro Circle of the First Methodist WSCS Monday afternoon at the home of Mrs. John Luccous.

The business session was directed by Mrs. Everett Klebold when the group made plans to send clothing to families in the Philippines.

Present were Mmes. Phil Scharbauer, George E. Bradbury, J. P. Carson, Jr., Earl Ray, Bill Koenig, E. J. Voliva, C. H. Shepard, O. F. Hedrick, A. C. Moore, John A. Sewell, Klebold, Chapman and Luccous.

The crushed sea shell, Murex, found along Mediterranean shores, provided the raw material for the famous Tyrian purple manufactured by the Phoenicians.

The English word guest stems from hostis, a Latin word meaning enemy.

Now Many Wear FALSE TEETH

With More Comfort
FAS-TEETH, a pleasant, alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FAS-TEETH on your plates. No gummy, goopy, pasty taste or feeling. Checks "plate odor" (denture breath). Get FAS-TEETH at any drug store.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all, and costs little. It contains nothing harmful. Just go to your drugstore and ask for four ounces of liquid Barconate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose

Public Is Invited To Benefit Bingo Party

Bingo entertainment is planned for a party sponsored by the Women's Auxiliary of the Midland post of American Legion Saturday night at the City-County Auditorium. The public is invited to the event, which opens at 8 p. m. Refreshments will be served.

The firefly is not a fly but a beetle.

Texas Day Program Is Presented At Meet Of Progressive Study Club

Texas Day was observed in the program presented at the Progressive Club meeting Wednesday afternoon at the home of Mrs. E. A. McCullough, 103 Club Drive.

Mrs. R. A. Estes gave a topic on "Texas Flies Its Own Flag" after which a review of "Texas" written by Owen White was presented by Mrs. Carl Morgan.

During the business period the group voted to contribute to the following: American Cancer Society, Texas Federation of Golden Jubilee Fund and Midland Junior Canteen.

Mrs. W. C. Mitchell was elected vice president, Mrs. Otis Baggett was named recording secretary, and Mrs. W. C. Kimball was appointed to serve on the program committee. Refreshments were served to Mmes. Morgan, R. A. Estes, C. W. Mitchell, Kimball, Lindley Latham, John Hill DeFord, Cecil Waldrep and A. A. Jones.

Dallas Oil Man Killed In Automobile Wreck

DALLAS (AP)—A. J. Grace, 42, Dallas oil man and sportsman, was killed and three other persons critically injured in an automobile collision near Grand Prairie, early Thursday.

Those injured were T. L. Rodgers, 62; Mrs. Christine Yeager, 30, and Martin M. Terrell, 17, all of Dallas. Grace's body was sent to Wichita Falls for burial.

Poland has exported 100,000 tons of cement to the Soviet Union in six months.

NOW SHE SHOPS "CASH AND CARRY" Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it causes nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Community Theatre Production 'Uncle Harry' Is Enthusiastically Received By First-Nighters

Midlanders are well convinced that a season of entertainment is in store for them after seeing the second production presented by the Community Theatre, Inc., Wednesday evening at the Midland High School Auditorium under the direction of Art Cole.

The opening scene takes place in a tavern with Uncle Harry talking to a Mr. Jenkins and starting the Quincy. Uncle Harry begins by telling the events of a certain afternoon at tea time in a small town in Eastern Quebec in 1910.

Action of the play takes place in a realistic setting and centers around the domineering Quincy sisters, Lettie and Hester, who are both jealous of the affections of their brother, known to everyone as Uncle Harry.

When Uncle Harry finds out he might win back the affections of Lucy if Lettie and Hester were out of the picture he cleverly begins to involve Lettie in his plan to murder Hester. His scheming comes to a climax when all evidence is pointed toward Lettie after Uncle Harry pours poison into a cup of hot chocolate for Hester.

He knows that all of his dreams are finally materializing when Lettie is found guilty of the murder of Hester and he can now claim his love to take her to the family home. He soon discovers that Lettie does not care to be connected with a family that has been through the courts in a murder trial.

Now Uncle Harry tries to convince the prison governor he is the guilty party in order to free Lettie who now has no incentive to live. No one will believe him and Lettie refuses to help the situation. As the curtain falls Uncle Harry is walking the floor saying, "They say murder will out, but not for Uncle Harry."

Convincing Portrayal
Adele Brooks was very convincing in her portrayal of Lettie and the audience relished the roles of Uncle Harry and Hester as played by William H. Pomeroy and Mrs. Robert Fitting.

Humor was mixed with drama and touching of the play was the appearance of Lettie, the druggist, whose witty remarks brought many laughs from the audience. Following the second scene the audience enjoyed the creative art on display in the lobby from the Tiny Tot School and Kindergarten. The artists ranged in age from four to 12 years. These paintings and drawings were the children's own expressions of life about themselves or of stories told by Mrs. W. M. Thompson, director of the school. The cast in order of their appearance:

Man Kills Self Rather Than Move From House

CINCINNATI (AP)—Clarence Phillips, 49, took his life because he had been ordered to move and "did not have the strength to go through the ordeal in the present housing shortage." Coroner Frank M. Coppock, Jr., reported.

Music is the vapor of art. It is to poetry what reverie is to thought, what fluid is to liquid, what the ocean of clouds is to the ocean of waves.—Victor Hugo.

Helps build up resistance against MONTHLY FEMALE PAIN

When taken regularly! Lydia E. Pinkham's Vegetable Compound does more than relieve monthly pain when due to functional periodic disturbances. It also relieves accompanying weak, tired, nervous, jittery feelings—of such nature. Taken regularly—Pinkham's Compound helps build up resistance against such monthly distress. Pinkham's Compound is worth trying!

me perverse.—Job 9:20.

Time To Get Rough

Throughout its national history the United States has
pursued a policy of Christian forgiveness toward peoples it
has vanquished on the battlefield. It has made no ex-
ception even in the current cases of the bestial Germans
and fanatic Japanese who set out, jointly, to rule the
world. These defeated enemies, not only of the United
States but of mankind itself, have been accorded a kindly
consideration which is, under the circumstances, little
short of incredible.

They have been fed, clothed, and housed by the
American occupation forces. They have been entertained,
befriended, pampered by Americans. They have been
encouraged and aided in the exercise of their "inalienable
and free franchise"—a franchise they never before have,
in truth, known.

Curious consideration, this. But admittedly oh-so-
complimentary to the American system of fair play, to
the New World tradition of the good-natured pat on the
back accorded the loser at the end of the game. No na-
tion could fail to appreciate it, or to swear eternal ad-
miration for so generous a victor. Or could it?

Whatever the psychological explanation, the bald
fact is this: Germany and Japan not only do not love us
for our kindness, but they actually despise us all the more
for it—and they see in it an element of weakness which
gives them the hope of bloody vengeance in the future.

Signs of that unreasoning hatred, carefully cam-
ouflaged at first, have become increasingly evident in Eu-
rope and in Asia these past few months, as the seemingly
unshakable American generosity has dispelled initial fear
and original preoccupation with individual self-interest.
And at Landsberg, Germany the phenomenon flared into
violent explosion for all the world to see. German rioters
screamed "Gestapo" and "S. S. swine" at American mili-
tary police who attempted to quiet them.

From the circumstance that the rioters were Jews
held at a displaced-persons camp, it is easy to predict
what the predominant American reaction will be. Our
government will indignantly be told that it must hasten
liberation of "innocent" D. P.'s, and our people will be
told that the basic cause was hunger, which we must re-
lieve with food from our own tables if we are not to be
held personally responsible for a savage revival of blood-
shed throughout Europe.

But these people have been hungry before. Yet they
didn't riot under Hitler because they considered them-
selves fortunate indeed to be alive, and understood full
well that death would be the penalty for any violent at-
tempt to improve their situation. And they're far hun-
grier in the Russian zone of occupation, yet they don't
riot there, for the same sufficient reason.

Uncle Sam, though, is different. He'll take all the
foul abuse they care to heap on him—take it and apolo-
gize for the audience.

Let no one mistake the tremendous significance of
this event. German burghers, the common people of
Japan, people all over the world are watching closely.
The ghost of Adolf Hitler is rocking with laughter. And
the specter of the last great war grows ever closer.

We think it's time for the United States to end this
comedy of errors which springs from the best of inten-
tions, but which none the less surely points to the most
tragic of consequences. We think it's time for Uncle
Sam to get rough.

Until The Roots Die, Too

Clipping Bureau Uses Items From Midland Paper To Get Trade

Many people in Midland and its
trade territory have been receiving
cards from an El Paso clipping
bureau telling them that an in-
teresting item concerning them has
been printed, and that the bureau
will send a clipping of the item for
only 25 cents.

In all reported cases here, the
items referred to have been clipped
from The Reporter-Telegram or from
papers which have used
stories first appearing in the Mid-
land paper.

The Reporter-Telegram does not
carry the clipping bureau on its
circulation list.

Youth Convicted Of Murdering Woman

DALLAS —(AP)— Buster Edward
Northern, 17, was convicted of murder
Wednesday in the robbery-
slaying of Mrs. W. H. McHenry,
68, Oklahoma widow who was
beaten and left to die March 28.

The jury recommend the death
penalty. Defense attorneys an-
nounced they would appeal.

Mrs. McHenry died a few days
after her body was found in a ditch
near here. Testimony brought out
that she had picked up Northern in
her car in Oklahoma and brought
him to Dallas.

By music we reach those special
states of consciousness which, be-
ing without form, cannot be shaped
with the mosaics of the vocabulary.
—Oliver W. Holmes.

Kennel Club To Close Charter Rolls June 2

The charter for the West Texas
Kennel Club will be closed at the
June 2 meeting at Monahan, Mrs.
Altha Conner of that city, secre-
tary of the club, has announced.
Membership now totals 64.

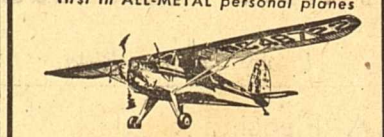

The June 2 meeting will be a
show of all breeds of dogs owned
by members. Eleven breeds are
registered with the club.

Bank Employees Being Unionized At Dallas

DALLAS —(AP)—Terms of a pro-
posed contract for the first or-
ganized labor movement among
bank employees in the Southwest
are now being drawn for workers
at the Federal Reserve Bank here.

C. A. Stafford, vice-president of
the AFL Office Employees Interna-
tional Union, said Wednesday, or-
ganization will be attempted in each
of the other 11 Federal Reserve dis-
tricts if it is successful in Dallas.

Good Trees and Good Taverns

About the finest stand of timber
in our county is on Asa Fullmore's
farm. Asa says it's due to "regula-
tion"—checking on trees that don't
come up to standard, and trimming
them off to give the other trees a
chance for healthy livelihood.

He was explaining it to us in
Andy Botkin's Garden Tavern, and
Andy nodded approvingly.

"The same goes for any indus-
try," says Andy. "Like the brewers
who give us tavern keepers beer to
sell. If they find the place isn't up
to standard—clean and courteous

and wholesome—they start giving
warning. Then, if the warning isn't
heeded, they start trimming!"

From where I sit, self-regula-
tion within the brewing industry
has done as much to give us pleas-
ant, wholesome places to enjoy a
moderate glass of beer, as Asa
Fullmore's forestry has done to
keep his white pines tall and
healthy. It's nature's own protec-
tion—and the best there is!

Joe Marsh

Oil Scouts Lose To Gabrel's 0-3

The Oil Scouts from the Midland City Softball League dropped a tight game to Gabrel's Sporting Goods in Odessa Wednesday night, losing 0-3 and not getting a hit.

Gabrel's got three hits off Jim Crow, the Scout tosser.

The rival city team scored two runs in the first inning when the Scout third baseman threw to first after Odessa had advanced runners to second and third on an error, walk, and passed ball. The runner on third scored and in the excitement, the second runner stole home.

The Sporting Goods club scored their third run on a hit after a walk and bunt had sent a runner to second base.

BOWLING

Tot's Service, riding the top of the summer men's bowling league, won three games from Murray-Young Motors Wednesday night. Cameron Drug got two victories over Continental Airlines; Permian Well drilled a couple from King's Drive In; and Midland Tire Company tread on Honolulu Oil for two.

Tot's almost made a sweep of honors, rolling up high team series score with 2,579, while B. Davidson of the team got individual high series honors with 608 and high game score of 231.

Cameron Drug had high team game with a score of 920.

The league standing:

With Ted Williams, Rudy York and Bobby Doerr joining Pesky in the Boston hit parade, the American League leaders set a new club record of 13 consecutive victories.

The New York Yankees triumphed over the St. Louis Browns 5-1. Detroit's Hal Newhouser and Cleveland's Bobby Feller, who with Chandler and Boston's Tex Hughson, are expected to fight it out for the league's pitching leadership.

Each hurled a masterful game with Newhouser blanking the Washington Senators, 1-0, and Feller whipping the Philadelphia Athletics, 5-2. Don Padgett's pinch-hit home

Pesky Hits 429

Including the four hits in Wednesday's game, Pesky has garnered 39 in 91 times at bat for a .429 average to lead both leagues in batting. He also has scored the most runs—30.

City Softball League Lists Second Round

The City Softball League Thursday announced the second round schedule for the Red and Blue circuits. The schedule opens Friday and carries through June 4.

At the end of the first lap of a proposed four rounds Equitable Life with four victories and one loss led the Red division, followed by the Oil Scouts with three wins and one defeat.

The Reporter-Telegram and Midland Hardware finished the first round in a tie with four victories and one loss each. O'Neal's 66 held third place with a three-and-one standing.

May 10 (Friday): Equitable Life Insurance vs. JayCees; Midland Hardware vs. The Reporter-Telegram.

May 13 (Monday): Burl's One-Stop Standard vs. City Bus; Elder Chevrolet vs. O'Neal's 66.

May 14 (Tuesday): Oil Scouts vs. MAAF; Texas Electric vs. Mackey Motors.

May 16 (Thursday): City Bus vs. Equitable Life Insurance; O'Neal's 66 vs. Midland Hardware.

May 17 (Friday): Mackey Motors vs. Elder Chevrolet; MAAF vs. Burl's One-Stop Standard.

May 20 (Monday): The Reporter-Telegram vs. Texas Electric; JayCees vs. Oil Scouts.

May 21 (Tuesday): Texas Electric vs. Oil Scouts.

run in the 10th inning gave the Brooklyn Dodgers an 8-5 victory over the Cincinnati Reds.

The New York Giants advanced into a fifth place tie with the Pirates by shading the Bucs, 1-0.

The Chicago Cubs trampled the Boston Braves, 10-5, to move into third place in the National League.

The St. Louis Cardinals protected their first place lead with a 5-3 triumph over Philadelphia's Phils in a night contest.

Boosters of Phil Rizzuto of the New York Yankees, Lou Boudreau of Cleveland's Cecil Travis of Washington, Luke Appling of the Chicago White Sox, Vern Stephens of the St. Louis Browns, Marty Marion of the St. Louis Cardinals, Pee Wee Reese of Brooklyn and Eddie Miller of Cincinnati might put up a strong argument for their favorites, but the figures prove Pesky stands all alone at the top of this brilliant cast.

The five-foot nine-inch lad who only a few years ago was a clubhouse boy out in his native Portland, Ore., and who only last Monday was stopped one hit short of tying the major league record of 12 consecutive hits, tied another standard Wednesday when he tallied six times in a 14-10 slugfest, won by Boston over Jimmy Dykes' Chicago White Sox.

Pesky joined Mel Ott of the New York Giants as the only modern to accomplish this feat. Guy Hecker holds the all-time high of seven made in 1886 with Louisville of the American Association.

Pesky Hits 429

Including the four hits in Wednesday's game, Pesky has garnered 39 in 91 times at bat for a .429 average to lead both leagues in batting. He also has scored the most runs—30.

Important Announcement!

Friday - Saturday.

May 10th - 11th

We will have in our store to consult with you on—

Fur Storage - Repairs Re-Styling - Cleaning

An expert factory fur repair man capable of giving you real advice and help on anything pertaining to your fur garments.

He will have the new 1946 fur styles in canvas models - - - will examine your furs - - - give you free advice and estimates - - - will take your measurements.

Bring your old fur coat up to date in style at special summer rates.

Two Days

FRIDAY AND SATURDAY, May 10th and 11th

This is a special service and a special opportunity offered for two days in our Fur Department.

Dunlap's

G-M Girls Take Durrell's, 15-13

Grammer - Murphey finished strong to defeat Durrell Insurance, 15 to 13, Wednesday night in a close softball encounter, which was in doubt all the way.

The score was tied in the sixth but Durrell got a run to go one ahead, 13 to 12. Then in the seventh inning Grammer-Murphey won it with a three-run tally.

Presley, first up in the seventh, got a hit. Roby was thrown out at first by the pitcher Hudson got on base on an error and Ware's double scored the two base runners. Ware came on in on Carpenter's hit. That was it.

Durrell was ahead most of the tilt, aided by seven runs in the second inning. But it was different after that.

Ware played a good game for the winners. Bryson also of G-M got three hits as did Fletcher. Presley played well and pitched the winner.

England got three hits for the Insurance nine, one a double. Newton, Jones, and Beaty got hits.

Score by innings:

BOY RUNS IN EXAMINER'S OFFICE ON DRIVING TEST

FRESNO, CALIF. —(P)—Leonard Guraro, 21, pulled toward the curb upon completion of a test for a driver's license. "Not too good, but not too bad," mused Examiner Ross Dewdney, weighing his decision.

At this juncture, Guraro started to park—but nervously stepped on the accelerator instead of the brake. The car plunged over the curb and through the plate glass window of an office—Dewdney's office.

The license application was denied.

Hot Potato for Peacemakers

One of the most ticklish problems on the agenda for the peace treaty with Italy is the disposition of the South Tyrol and the Istrian peninsula, which contains the cities of Trieste and Fiume.

Teutonic Efficiency Makes German Poor At Fighting Fires

COBURG, GERMANY.—(P)—Teutonic efficiency gets in its own way when it comes to putting out fires. Despite all their wartime practice in wetting down civil bonfires lit by Allied bombers, German firemen still don't compare with their hose-coupling brethren in the United States.

Such is the opinion of Capt. Frank Norton of Boston, Mass., attorney and son of hub city district fire chief.

As American military government public safety officer of the Coburg district of Landkreis, Norton is responsible for fire and police protection and the prosecution of German civilians who violate military government restrictions.

"The German fire departments work just like the German army," said the captain. "The fire chief must first enter the burning building and estimate the situation before they start throwing any water."

"When he has figured out the percentage of fire and smoke, they get busy. They usually manage to save the basement."

"They don't go to the fire holding on the back end of the truck

MAYBE HE WANTED MRS. WEGENK'S REWARD ST. JOSEPH, MO.—(P)—Penny, a red cocker spaniel with wanderlust, disappeared for the umpteenth time, and Mrs. S. J. Wegenk sighed and ran another "lost" ad.

Penny himself answered the ad half an hour after it appeared. He ambled into the News-Press want ad department, where Miss Barbara Brumbach recognized him from frequent descriptions in the "lost" columns.

The King of England is not allowed to enter the House of Commons.

with their shirttails flying in the wind. They have a closed cab on the fire truck. They all climb in and sit down and ride to the fire like gentlemen.

"The professional firemen here couldn't get jobs as amateurs, back home."

Norton has only 26 paid firemen in the Coburg district which includes three small cities and 129 villages and therefore has to lean heavily on volunteers.

He has no help in his job as fire marshal and only one lieutenant and an enlisted man to assist him in preparing evidence for court cases and in superintending five separate German police forces.

No Wonder Veterans Can't Get Suits: Women Wearing Material As Slacks

NEW YORK.—(NEA)—No wonder a veteran can't get a suit of clothes these days. His wife, or his girl, has it on already.

If you want statistics, chew these over: Before the war men's suits took 62 per cent of the available material, while women claimed the other 38 per cent. Last year, the figures just about reversed. Men got 42 per cent of the cloth available—women 58 per cent.

Part of the increased use of men's material for women's clothes springs from the war itself, when women put on pants and went to work in the nation's war plants.

And part of it comes from better tailoring, and publicity, by the makers of women's slacks.

The slacks tailoring industry is just beginning to hit its stride, but already it's nearing adulthood with such annual affairs as the selection of the ten best dressed "women in slacks" and an all-out campaign to convince the women of America that slacks will even increase the allure of their curves.

One person you can credit—or blame—for all this is Lou Schaefer, New York City clothing manufacturer, the self-styled "King of Slacks." He says he's done a lot

of research to put slacks in the socially-accepted position they now enjoy.

"Women are swarming into the pants field," says Lou. "It's terrific!"

"There's been a 500 per cent increase in the slack-wearing female population. Moreover, that percentage is on the steady increase. I can't possibly make enough to cover the—er—sales demand."

Maj. Gen. Graves B. Erskine, chief of the Veterans Retraining and Re-employment Administration, says some veterans have been forced to turn down jobs that call for a

good appearance simply because they can't get the clothes. Too much cloth is being diverted from men's suits to make women pants, the general thinks, and he asked the Civilian Production Administration to do something about it.

Suits Off, Slacks Up

In the first three months of this year production of inexpensive men's suits fell a million garments short of the 3,500,000 goal set earlier. And the problem now is how to get the 3,000,000 men's suits needed in 1946.

"But you can't stop women from buying pants," Schaefer says. "Look! A Red Cross gives every foreign

bride coming to the United States a pair of slacks. Didn't the WACs and nurses wear them overseas right into the battlefield?"

"Women want slacks. They're going to get them one way or other. If you stop production of women's slacks, they'll walk right into men's shops and buy men's pants. If you make pants especially for women you use less material and in most cases lighter and brighter material than would go into men's pants, so you really let more go into production of men's clothes."

"And a man can go into a man's shop and shop in peace without elbowing a lot of women away from the counter."

PARTS TO KEEP YOUR CAR ROLLING

BRING YOUR CAR "HOME" FOR SERVICE

Murray-Young Motors, Ltd.

Authorized Ford Dealers 223 E. Wall Phone 64

Our dealers join us in making this frank report to THE FARMERS OF AMERICA

INTERNATIONAL Harvester is getting back into production with all possible speed. Extra shifts are being employed wherever conditions permit, to try to overcome the production losses of the recent strike. Everything is being done to get parts and machines to you.

While we and our dealers would like to tell you that this means an immediate end to the shortage of service parts and machines, it is more accurate to say that it means the beginning of the end of it. If illness or bad weather delays you seriously in the Spring, you know how much it throws you off your schedule. The strike has thrown our schedules off balance, too. There are many "chores" we must do before new machines reach you.

Material shortages

The preliminary chores of getting our plants back into shape for full production are finished. But disturbances in other industries and resulting material shortages may affect our plans. Light gauge steel sheets, brass and copper, fractional horse power motors, and many other items are all very short. The coal situation may also prove serious—we hope not.

Refilling the well

Both our dealers and our branches have run dry on parts and new machines. So the biggest chore is to get their working stocks back to normal. It will take time to fill the pipeline to dealers—just as it takes time for you to refill a well or cistern after it has run dry.

Stock and display rooms of our dealers represent not one, but ten thousand reservoirs which must be refilled. The most heroic pro-

duction efforts will mean that your local dealer can expect only a small number of parts and machines at a time. Since we must play fair with all our customers, there will be a sprinkle of parts and machines all over the country—not a downpour in any one section.

You will be glad to know that all repair parts production schedules are far beyond normal.

No hoarding

You may be sure that every machine will be shipped to dealers as soon as completed. We do not and will not hold machines off the market.

At the start of the strike we had on hand at all our factories and branches just 837 tractors of all kinds—less than two days' production—and 405 of these were not completed. Many of those on hand had one or more important parts missing—principally radiator cores. Most of the rest represented the normal daily "float" between the end of the assembly line and the shipping platform. Naturally no tractors were made during the strike.

What dealers may have for you

We can report to you that our current production on TRACTORS is good and we are shipping at a normal rate. Even so, there will not be enough to go around. The situation on PLOWS

and DISK HARROWS is reasonably good. On COMBINES, MOWERS, HAY RAKES, ONE-MAN HAY BALERS, CORN PICKERS and many other items, our schedules have been seriously disrupted. We must in fairness say that many of our customers are likely to be disappointed on delivery of these machines. On MILKING MACHINES, STATIONARY ENGINES, and some other small units we are hopeful of making practically normal delivery.

We know you will understand the reasons why your dealer cannot fill your orders overnight. He would like to give you the kind of delivery on machines you would like to get, but his situation is a difficult one and not of his own making. He is doing the best he can.

No cutting corners on quality

There is one thing you can be absolutely certain about: We will NOT cut corners on quality in order to increase production in this emergency. For years we have said: "QUALITY IS THE FOUNDATION OF OUR BUSINESS." Today we say it—and mean it—as much as ever.

We know you need new machines—and need them badly. But we believe it will pay you to wait just a little while longer if you cannot get all you want immediately. By waiting you can be sure your new equipment will have the quality so rightly associated with INTERNATIONAL HARVESTER for so many years.

H. C. WATSON, Mgr.

Reds Returning Rostok To Normalcy But German Attitudes Are Varied

By ROSETTE HARGROVE
ROSTOK, RUSSIAN ZONE, GERMANY—(NEA)—The Burgomaster of this once sleepy little university town is a Communist.

For that reason, his statement that a spirit of cooperation with virtually no high-handedness prevails in Russian occupation methods would seem to call for a grain or two of salt.

That same impression was gained, however, throughout my tour in this province of the Soviet-occupied zone of Germany, both from observation and from conversations with unofficial Germans.

The Burgomaster of Rostok, Walter Petschow, says life is slowly being restored to normal. There is a severe housing shortage; 25 per

cent of the homes were damaged or destroyed by bombing, and 20,000 evictees from East Prussia have helped boost a prewar population of 80,000 up to 110,000. But he feels the people of Rostok, particularly the women and children, have adjusted themselves to the presence of newcomers.

Such adjustment does not extend to fraternization, which is almost non-existent in this province. Moreover, there is a considerable variation in the German attitude toward the Russian occupation. This, Petschow says, is partly the fault of the Germans and partly the fault of the Russians. The language barrier and difference in customs don't make it any simpler.

Work Means Food.

On the food front, rationing requirements are being met. Germans with heavy jobs are getting as much as 1,400 calories a day, and while housewives are in the lower category—in other words, on a near starvation diet—they are allowed to draw more rations the moment they become employed.

Children up to a year old are getting one pint of milk a day. From one to five years, the ration is one half pint full milk and a pint of skimmed milk. The meat and fat rations are small but the food controller, Hans Griem, said the situation had so improved that in recent weeks they had been able to substitute fresh butter for margarine.

He pointed out, too, that there had been no shortage of potatoes and that they had 1,500 tons in reserve. He did admit that there had been a shortage of fish, which was corroborated by the manager of the fish cannery at Lauterbach. Unfavorable fishing conditions made it impossible for the factory to supply the Russian quota of 400 tons for the first three months of the year, and consequently the civilian population had been obliged to do without. Recently, however, there had been a small distribution of fish.

There is, of course, a great shortage of wearing apparel in the province, but the Burgomaster said they had good stocks of underwear which had just come in from Saxony, as well as 15,000 pairs of rayon stockings. If an expected delivery comes in, every woman in the town would be able to have a new pair of stockings. There was also a good supply of women's and children's shoes, he added, but no men's shoes.

Shops Nearly Bare

It is impossible to buy anything in the shops in Rostok. In a woman's clothing store I found a handful of blouses and as many suits and dresses on the racks, all made of very shoddy material. Next door was an "exchange mart," where people brought in all sorts of goods to barter for necessities.

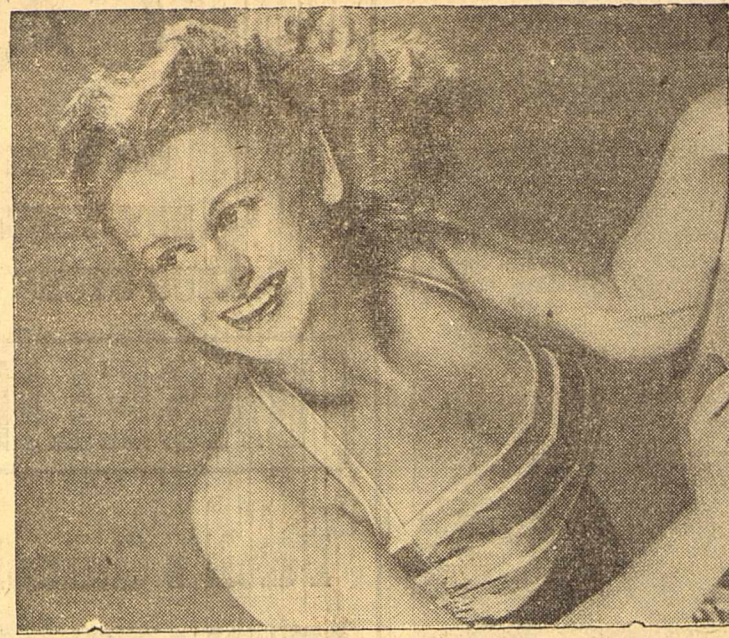

There is no unemployment in this town. On the contrary, there is a shortage of labor. Since the collapse a tremendous effort has been made to develop new industries to keep people alive. The Heinkel works, which escaped bombing, now manufactures agricultural machinery and employs 400 people. A margarine factory has just been started with 100 workers. There is a large brewery and a marmalade factory, and soon there may be a shoe factory.

The university has started again, with 550 students and a faculty of 20. The most popular lectures are classical philosophy and chemistry. Every student has to prove he was neither a party member nor an ex-officer before being admitted.

High up above the library is what is called the "poison room," containing hundreds of volumes of Nazi literature. To study it students have to obtain special permission from the Rector.

The potential energy in a pound of matter, if it could be completely released, would do about one billion kilowatt hours of work, equivalent to the total electric power output of the nation for one month.

Bit Of Honey

Vivacious Dorothy Claire is known as radio's "Bit of Honey" girl, perhaps because of her honey-colored hair.

There are 130,000 hairs on the head of an average human being. Christopher Columbus made and sold maps for a living.

Social Situations

THE SITUATION: You are smoking a cigarette in a crowded place.

WRONG WAY: Pay no attention to where you blow smoke.

RIGHT WAY: Watch to see that you aren't blowing smoke in anyone's face.

Three major discoveries in the single year 1932 made most present-day atom splitting development possible. The discoveries were the neutron, positron and heavy hydrogen.

Assault To Take Crack At Preakness Saturday

Pimlico race track, Pimlico, Md., where historic Preakness Stakes, second event in Triple Crown, will be run May 11. Inset, Assault, Kentucky Derby winner, favored to cop the race.

King Ranch's Derby-Winning Assault Favored To Duplicate Dad's Victory In Preakness

By HARRY GRAYSON
BALTIMORE —(NEA)— Assault, the Texas-owned and bred chestnut takes another of his sire's footsteps in the historic Preakness Stakes at Pimlico on Saturday.

Bold Venture, the daddy, broke down after bagging this one, thus was denied the opportunity of winning the Triple Crown in The Belmont Stakes, something Assault and his deformed right forefoot seem on their way to do at the moment.

A dozen are expected to go in The Preakness with six in addition to Assault coming from the Kentucky Derby. Maine Chance's Lord Boswell will have to strike back hard with much better racing luck than he had near the upper turn at Churchill Downs if Assault is going to be given too much trouble by any of those from which he ran away in the Run for the Roses. The King Ranch colt has clearly demonstrated that he can handle the rest in any kind of going.

The others here from Churchill Downs are Knockdown, Hampden, Alamond, Rippey and Marine Victory.

Spy Song, second in the Derby after setting the pace to the head

of the stretch, is not eligible for The Preakness.

Seven Entries Unproved
Seven making their bow on three-year-old big time in The Preakness have yet to demonstrate that they belong on the same track with Assault, Hampden, Lord Boswell and Knockdown. They are Mr. and Mrs. Walter M. Jefford's Natchez, the Wheatley Stable's Misleader, Mrs. George D. Widener's Outoftheblue, William Helis' Tidy Bid, Cedar Farms' Lovemenow, S. W. Labrot, Jr.'s, Hamull and Crispin Oglebay's Air Hero.

Natchez by Jamestown was second when Hampden's lead was reduced from 15 to five length in the Chesapeake Stakes on a Havre de Grace track of heavy mud and prefers a fast strip. Misleader, a son of Shark, beat Outoftheblue in an overnight race at Pimlico the other afternoon. Outoftheblue is a son of Eight Thirty.

Tidy Bid will run coupled with Rippey if he has recovered from slight damages suffered when he bolted into the outside fence, throwing Nick Jemas over it while going to the front at the three-quarters pole in the Chesapeake. Lovemenow by Menow, of course, copped an overnight purse this spring. Hamull is a son of Bahram, which has been running in Maryland this spring. Air Hero set the early pace in the Chesapeake, but like Natchez, likes a swift track.

Offhand there does not appear to be much in the way of new faces but we'll at least have them. The Preakness is at a mile and three-sixteenths around the sharper curves of the old hilltop course, smack dab in Baltimore. Like the Derby it is worth \$100,000 in added money, for the first time an approximate gross of \$125,000. Assault is in a grand position to win \$90,000 more for Robert J. Kleberg.

Record Mutual
Along with the trend there will be a record mutual handle and attendance with a crowd of more than 50,000 overflowing out into the infield.

The Preakness outdates the Derby, having first been run in 1873, but the Battle for the Black-Eyed Susans was discontinued from 1889 to 1909, a period of 20 years.

The Preakness, named after the horse that won the race which led to its inception, has been won by more famous horses than the Derby. The Lorillards had a lease on the big number in its early days. Pierre Lorillard bagged it with Shirley in 1876; G. L. Lorillard with Duke of Magenta in '78, Harold in '79, Granada in '80, Saunterer in '81 and Vanguard in '82. How's that? Five straight and six out of seven.

Cdds against a perfect hand being dealt at a bridge table are 158,000,000 to one.

FIRE!
XXII

DEBBY didn't know whether she had been asleep or not. She must have been at least half asleep, because when she first smelled it and ran downstairs Ellie was pounding the flames on the floor behind the heater with the broom, left-handed, and Agnes was out in the yard.

He said, "Bring me the dishpan full of water," and she could see that he had been going into the kitchen to wet the broom in the sink. Bull was lying beside the stove, whimpering.

She brought the pan back and set it on the floor beside him. "Let me take it," she said. "I got two hands."

Agnes came in with two buckets of sand, and after she had thrown them on the blaze, with Debby pounding with the broom wherever they came up through, it was all out. Without saying anything, Debby went out to the barn and got the wrench. It had started to rain, a soft, steady drizzle that was cold on her face. When she got back she set the lamp on the floor beside the glass tank and unscrewed the connection. Ellie and Agnes watched her in silence. "Get me a tin can," she said to Agnes.

She drained off all the oil that was in the pipe into the can, and then she picked up the tank and carried it out in the yard. When she came back, she was rubbing her hands together. "There," she said, and she glanced sideways at Ellie. "Tomorrow we'll take out the rest of this piece of junk," she kicked the heater—and bring back the stove."

Ellie didn't say anything, and she picked up the charred block the tank had been set on and threw them out of the back door. She frowned and went into the

kitchen and washed her hands. When she came back Ellie had gone into the bedroom. Agnes was standing there. "My," she said, "that was a close one."

"I'll say."

"What would we ever do if this place was to burn down?"

Just the thought of it made Debby feel weak in the stomach. "Don't talk about it," she said.

Agnes stared at her. "You been crying?"

Debby shook her head roughly. "I got some smoke in my eyes from that thing," she started toward the stairs.

"Did you have a good time at the Dance Hall?"

"Sure."

"Meaning no," said Agnes.

"Sure I had a good time. Why shouldn't I have?"

"That's what I was wondering."

Debby didn't dare look at her. She turned quickly and hurried upstairs.

SHE lay in bed, and it was as though her mind was a bird and the thought of the house burning down a snake; the harder she tried not to think about it the more it kept coming up in front of her there, until she was pretty near crazy thinking about it. There was an awful dry, sour taste in her mouth. She began to imagine all sorts of things like being out in the rain in her pyjamas and having to sleep down in the locust grove and smoke coming out through cracks in the floor and Bull being caught in the burning house and her running through fields with her hair burning, running like the wind and taking whole fields in two or three big springy steps, and great billows of smoke and Ellie calling "Debby, Debby," from way off over a hill. Then there were more billows of smoke, and it smelled rank and pungent, and again Ellie was call-

ing, "Debby, Debby, Debby," and coming nearer and nearer. And then as though it was all a part of the same dream she was out of bed and running across the room in her bare feet, and when she opened the door she couldn't see anything but her eyes smarted and her mouth and nose were full of smoke and she choked and coughed.

"Don't try to come down the stairs," Agnes said, and her voice from the bottom of the stairs sounded near and matter-of-fact. "Shut the door and drop out of the window."

She shut the door and ran across to the window. She leaned out, and she could see dim red flashes flickering across the yard. They kept coming and going, one every few seconds, and they came from the dining room window. But when she leaned away out and looked down, she couldn't see flames anywhere. The same soft drizzle was still falling.

She went back to the bureau and lit the lamp, and she put on her heavy underwear and her sweat shirt and dungarees and her old hunting jacket. Then, feeling very calm and only a little bit as though she were still dreaming, she started dropping things out of the window: her gun and the picture of the Irish setter and shoes and stockings and underwear and the blankets off the bed, and now she could hear crackling noises downstairs. When she took the rug and her good coat to the window, Ellie was standing there beneath her, all dressed. "For crapes sake," he said, "never mind the junk. You got to go for help."

"A lot of good help will do!" she said. The window was small, and she had to squirm her way through it, feet first. When she got through and was hanging by her hands, she had only about five feet to drop, but still it was a jolt when she hit the ground, and she felt shaken and almost nauseated.

"Never mind about moping around," said Ellie. "You take the car and beat it for town."

(To Be Continued)

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY
America's Card Authority

This is the second of a group of hands from Dr. Paul Stern of London. This hand was played at the Harrogate Bridge Congress, and only one pair out of 46; bid and made six diamonds.

After ruffing the opening spade, lead with the deuce of diamonds, declarer cashed the king and ace of diamonds and then led a small club from dummy. South won this

♠ A 8 3 2	♥ 8 6 2	♦ 4	♣ 10 9 6 4 3
♠ J 9 6 5	♥ K 9 7 4	♦ A 10 6 3	♣ 7
♠ N	♥ E	♦ Dealer	♣ K Q 8 5
♠ K Q 10 7 4	♥ Q J 3	♦ Q 7	♣ A J 2
Duplicate—Both vul.			
South	West	North	East
1 ♠	Pass	2 ♠	3 ♠
4 ♠	5 ♠	5 ♠	6 ♠
Double	Pass	Pass	Pass
Opening—♠ K.			

trick with the ace of clubs, and if he had led back the queen of spades at this point, he would have avoided the squeeze that later developed; but he made the mistake of leading the four of spades.

The nine was played from dummy, forcing North to play the ace, and declarer ruffed with the eight of diamonds. A small club was ruffed in dummy, a heart returned to the ace, the king of clubs cashed and the eight of clubs ruffed. The six of spades was ruffed with the nine of diamonds, and at trick 11 when the jack of diamonds was led, South could not hold the queen-jack of hearts and the queen of spades.

CONTEMPT FOR COURT NOT WORTH AS MUCH AS \$50

VANCOUVER, WASH.—(AP)—Attorney Booth McAbee began arguing with the judge, court, said Justice of the Peace Paul Elwell.

"Ten dollars would not begin to express my contempt of this court," snapped McAbee.

"Fifty dollars," said the justice. The attorney was silent.

POWER AUTHORITY WILL GO ON 40-HOUR WEEK

AUSTIN—(AP)—Employees of the Lower Colorado River Authority will go on a 40-hour, five-day week beginning June 1 without reduction in present pay, General Manager Max Starcke announced.

The state agency is exempt from the federal wage-hours law but the five-day plan has been adopted by unanimous vote of the authority's board of directors, Starcke said.

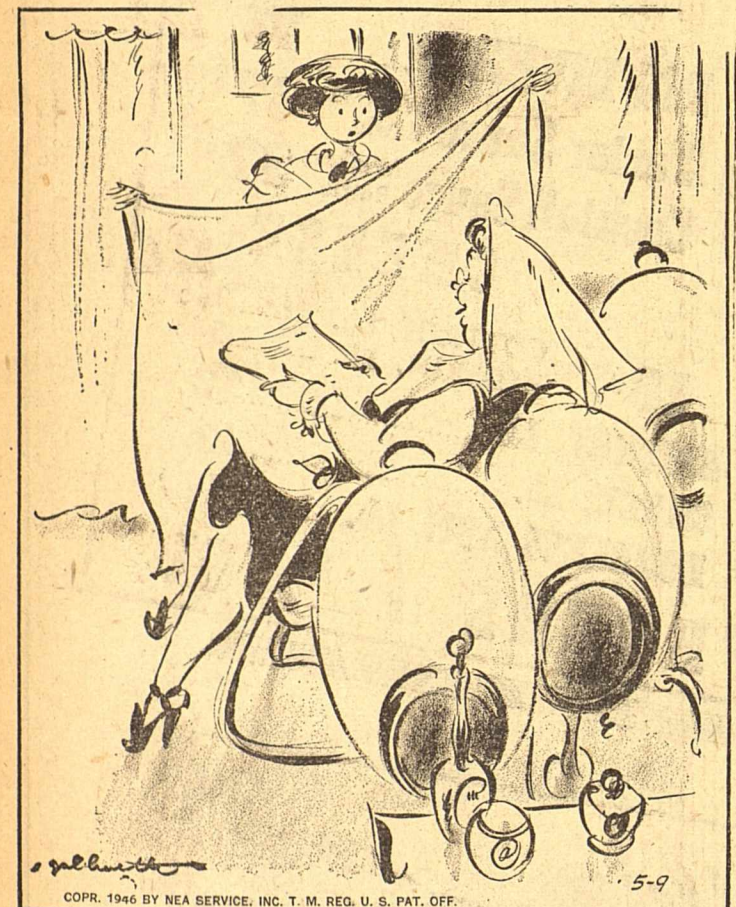

156,000,000 POUNDS OF FOOD RELEASED BY NAVY

WASHINGTON—(AP)—The Navy announced it had turned loose 156,000,000 pounds of surplus food since last November.

The edibles, valued at \$25,000,000, were excess stocks not used because of rapid demobilization.

In 1929, men wore ties that went twice around the neck and then tied in a bow behind.

ANSWER: Saskatchewan touches Montana and North Dakota

Woman Judge Uses Home-Like Court To Settle Many Domestic Problems

By KAY SHERWOOD
NEW YORK—(NEA)—The word "home" is the essence of New York's new Home Term Court for reconciling domestic quarrels.

Here, tucked away in the midst of the sometimes grim and almost always cheerless atmosphere of the court building, domestic problems come before the bench in small carpeted conference rooms, rooms with comfortable chairs around a fireplace, chintz curtains at the windows, pictures on green-tinted walls.

It makes embattled New York couples whose outbursts land them in court blink their eyes in surprise. And there's even more of "home" than just the conference rooms that replace the old-style open airings of family troubles, where gossip-hungry spectators could listen in. Since most domestic problems involve children, too, there is a bright nursery down the corridor where children can play under the supervision of a benevolent matron while ma and pa straighten things out. There's even a kitchen for light snacks and tea.

Sympathetic Procedure
The invitation to wrangle marital difficulties amid such pleasant surroundings is the brain child of Chief City Magistrate Edgar Bromberger and Presiding Magistrate Anna Kross, who want to substitute sympathetic "socialized" procedure for narrow legalistic procedure in the settlement of all family disturbances, except felonies.

Aware that settlement of the immediate episode which brings the couple to court rarely restores tranquility, and that children continue to be victims of the tense family relations, the Home Term court attempts to get at fundamental causes for family unhappiness and remedy them.

Blessed and financed by the City of New York, the court has a home advisory council, composed of representatives from municipal and private welfare agencies, whose social workers and probation officers are charged with the investigation of each case. They are to determine

what help is needed and which agency is best fitted to give it. Lawyers brought by defendants and complainants take a back seat in the Home Term court. In most cases they are asked to step aside until the social worker has a chance to iron out the problems. If that fails, then formal proceedings are instituted.

On most days the conference rooms are filled. A look into one corner, for instance, finds two women conversing quietly. One, a social worker with a sheaf of papers in her hand, interviews the other, a frail, worried little woman—the mother of six children, one of whom is mentally defective. The family is on relief, the husband is frequently drunk and abusive, the oldest daughter, contributing to the support of the family, wants to leave home because of intolerable family conditions. The worried little woman wants her husband committed to Bellevue Hospital for observation.

After the interview, Magistrate Kross, gray-haired, brisk and competent, hears the case and applies practical sympathy. She orders the husband committed, assigns an investigator to report on family background and what help is needed. This must be done within a week.

The nursery was Magistrate Kross' own idea. She noticed long ago that mothers bringing their young children to court were unable to concentrate on their own problems if their offspring were fidgeting in the back of the room. The kids seem to like her idea, too.

EDDIE CONNER —

JERRY PHILLIPS

605 W. Texas

In Java it is believed that if a husband will slit the wife's robe with a sharp knife from throat to hem without touching her, she will be freed of the pains of childbirth.

Kentucky Prisoner To Face Murder Trial

EDDYVILLE, KY. — (AP) — Earl Tunget, now serving a life term at Eddyville Prison, will go on trial May 14 on a charge of willful murder in connection with the slaying last January of Deputy Warden L. R. Gumm.

Tunget's wife, Viola, was to be arraigned Wednesday on a charge of being an accessory. Both were indicted Tuesday by the Lyon County grand jury.

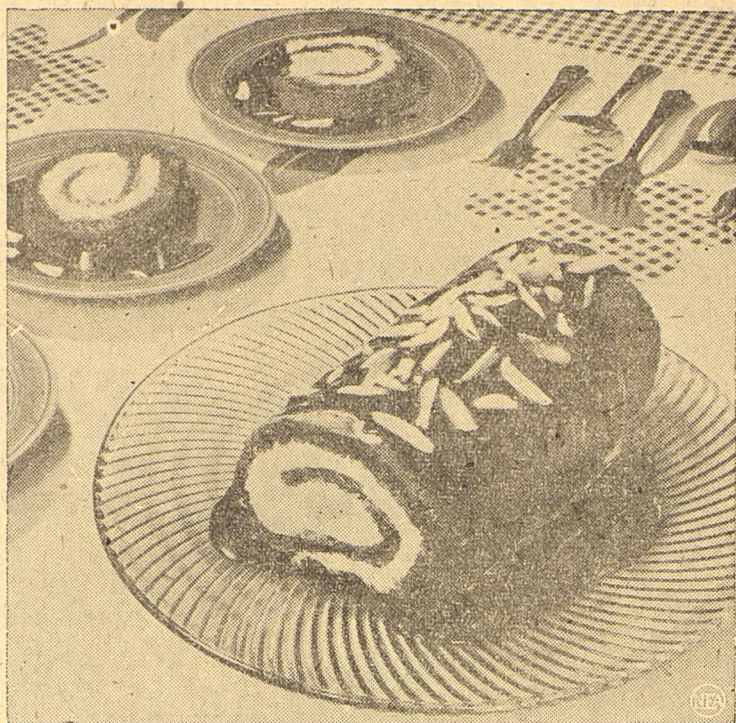

Tunget, serving a term for murder in Jefferson County, was accused of shooting the Deputy Warden in an attempted break. His wife is charged with mailing him the gun used in the shooting.

Watermelons are native to tropical and South America.

Serve This Dessert Mother's Day

Mother's Day delight—ice cream fudge log.

By GAYNOR MADDOX
NEA Staff Writer

Mother likes delicious desserts, too. So surprise her on Mother's Day, May 12, with a super de luxe ice cream fudge log.

Ice Cream Fudge Log (Serves 12)

One quart vanilla ice cream (bulk), 1/3 cup sifted flour, 1/2 teaspoon double-acting baking powder, 1/4 teaspoon salt, 4 eggs, 3/4 cup sifted sugar, 1 teaspoon vanilla, 2 squares unsweetened chocolate, 2 tablespoons sugar, 1/4 teaspoon soda, 3 tablespoons cold water.

Place vanilla ice cream in refrigerator until ready to use.

Sift flour once, measure, add baking powder and salt, and sift together three times.

Place eggs in deep bowl, add 3/4 cup sugar, and beat with rotary egg-beater until thick and light. Add flour, all at once, stirring well. Add vanilla.

Melt chocolate over boiling water. Remove from heat and add immediately 2 tablespoons sugar, soda, and cold water.

Stir until thick and light; fold quickly into batter, blending well.

Turn into 15x10-inch pan which has been greased, lined with paper to within 1/2 inch of edge, and again greased.

Bake in moderate oven (375 degrees F.) 15 minutes, or until done. Cut off crisp edges of cake and turn out on cloth; quickly remove paper. Roll up cake and towel together. Cool slightly.

Unroll cake and spread with ice cream. Turn up end of cake about 1 inch, and roll as for a jelly roll. Wrap cake in waxed paper. Place in freezing compartment of refrigerator to harden ice cream.

Serve with fudge sauce.

Fudge Sauce

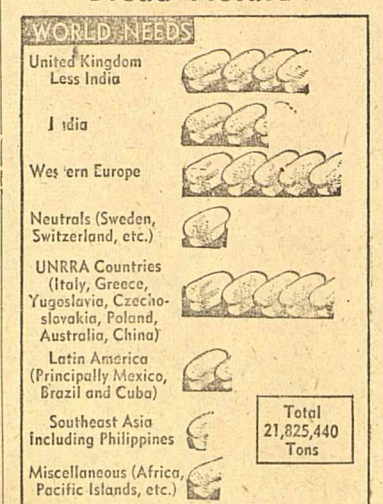

One-half cup breakfast cocoa, 1/2 cup sugar, dash of salt, 1 cup corn syrup, 1 cup hot water, 2 tablespoons butter.

Mix together cocoa, sugar and salt in saucepan. Add syrup and water gradually, stirring until smooth. Bring to a boil over low flame, stirring constantly.

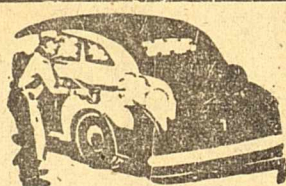

Continue boiling, without stirring, 12 to 15 minutes, or until mixture thickens and small amount forms a jellied mass in cold water (220 degrees F.).

Remove from fire. Add butter.

Bread Picture

Newschart above, compiled from latest figures of the Combined Food Board, shows the 7,041,440-ton deficit between the wheat and bread grains needed by the world, and the total supply available. All figures are maximum estimates.

Texas Sets 'Firsts' In Farm-To-Market Roads

AUSTIN — (AP) — Another "first" was listed today by the state in its farm-to-market road program.

Texas was the first state in the nation to submit its farm-to-market program to Washington, first to get approval, first to award a contract and first to complete a project.

And now, says John Redditt, chairman of the Highway Commission, Texas has become the first state to submit a bill to the federal government for its half of the cost.

Redditt said bills were submitted for two projects on FM Highway 235 in Randall and Armstrong counties, from U. S. 87 to Way-side, 19.8 miles.

The projects were constructed in a record time of 33 working days by the Amarillo firm of Bell and Braden under a contract which allowed a maximum of 120 working days for completion.

MEAT SHORTAGE HARD ON MISS WALTER'S SHINER

LOUISVILLE, KY. — (AP) — The meat shortage really is acute in Louisville. Miss Rose Amelia Walter, owner of a "shiner" caused by an abscessed tooth, visited several markets before she found a nine-cent cut of beef to apply to her eye.

MAYOR FINDS DISPIRITING SOLUTION TO JAIL PROBLEM

FREMONT, OHIO — (AP) — The city jail's housing problem had a lot of people making "rye" faces here.

Officials had stored 128 cases of whisky in two cells following seizure from haulers operating without licenses.

The whisky was poured "down the drain" by order of Mayor Bernard Hawk to make room for additional prisoners.

GREASY POTS, PANS and SKILLETS CLEANED QUICKLY

RAIN DROPS
The Sky-Blue Powder...
AMERICA'S WASH WORD 79

NOW SAY THAT AGAIN IN PLAIN ENGLISH

BISMARCK, N. D. — (AP) — The manager of the machine repair department of the Bismarck Tribune Company received a one-sentence letter from a customer. It read: "The ribbon the cash register do absolutely not stay on, it seem, the more work on, the worse it get, would you get mad, yes we all would, and I am."

LIKE BIG LEAGUES, MILLER SEARCHES FOR BASE STEALERS

CLEVELAND, OHIO — (AP) — Like many a big league baseball manager, Fred Miller, Woodland Hills park superintendent, is looking for someone who is expert at stealing bases.

Specifically, Miller is searching for the person who stole first, second and third base from a park store-room.
