Lewis Is After Same Increase In Hard Mines

WASHINGTON (AP) — John L. Lewis was reliably reported today to be demanding a $1.90-a-day pay boost for hard coal miners—the same amount the government partly vetoed for soft coal miners.

Lewis' strategy in doing this, the report said, was to give the government's Wage Stabilization Board a chance to reverse its decision on the soft coal pay raise.

Several weeks ago Lewis negotiated the $1.90 daily increase with the bituminous (soft coal) industry. However, last Saturday the WSB ruled that an increase of only $1.50 could be paid.

This brought on an industry-wide walkout of the approximately 350,000 soft coal diggers.

It had been expected that Lewis would be willing to take less than $1.90 by way of a daily wage increase in anthracite (hard coal). That industry, employing about 65,000 miners in Western Pennsylvania, had obliged Lewis some time ago by agreeing to an interim arrangement boosting from 30 to 50 cents a ton the production royalty paid by mine owners into the union's welfare fund.

Lewis got only a 10-cent royalty boost for the soft coal miners' welfare fund.

There is every reason to believe the WSB will not change its mind on the $1.50 limit, having once made it up. If it disallowed a $1.90 increase for anthracite workers, however, they would be almost certain to walkout.

While angered by the WSB, Lewis still was maintaining his support of the Democratic presidential nominee, Gov. Adlai Stevenson. Lewis plans to go ahead with a scheduled Democratic political speech at Morgantown, W.Va., next Saturday.

No Results On Hermleigh Test

American Trading & Production No. 2-A Elmer Howell, stepout to the Hermleigh - Ellenburger field, tried a drillstem test at 7,401-414 feet in unidentified lime but had no results.

Operator is now reconditioning the drilling mud to make another try for test.

MITCHELL TEST

Standard of Texas No.1-2 Jones, wildcat in Northwest Mitchell County, now at plugback total depth of 2,927 feet in Permian lime, treated the section from 2,896 to 2,927 feet with 2,500 gallons of acid. After the acid injection, the well swabbed and kicked off and flowed to tanks in one and one-half hours.

Recovery was 49.8 barrels acid residue and load oil. After flowing that amount of Fluid, the flow died. Operator is now swabbing to clean out and test again.

FISHER COUNTY

General Crude Oil Co. has announced another location in the Claytonville field of Fisher County as the No. 8 Mrs. G. T. Webb, 1,000 feet from north and 600 feet from west lines of section 210-3-H&TC, 11 miles west of Longworth.

It will drill to 6,000 feet with rotary tools to try for production in the Claytonville - Pennsylvanian reef lime. Operations will begin in the near future.

DRILLING REPORT

Plymouth Oil Co. No. 1 R. C. Miller, Northeast Borden wildcat, is drilling below 498 feet in red beds.

Superior & Intex No. 14-598 R.H. Jordan, wildcat in the northeast corner of Borden County, is still waiting on cement to cure on casing set at 8,321 feet.

Superior & Intex No. 2-517 Lemons is at 5,597 feet in lime.

Cities Service No. 1-B Leverett in Dawson County is drilling at 10,454 feet in lime and chert.

Pan American No. 1 Hamlin in Howard County is at 7,306 feet in lime and shale.

General American No. 1 Atkins Ranch in Kent County is drilling below 5,153 feet in lime and shale.

Tidewater No. 1-E Pitchfork in King County is at 5,997 feet in lime and shale.

Johnson & Cox No. 1 Bomar in Mitchell County is at 1,038 feet in sandy lime.

Shivers Sets More Blasts At Stevenson

By The Associated Press

Gov. Allen Shivers readied a new blast at Democratic Presidential Nominee Adlai Stevenson Thursday night after he and Martin Dies sent a double-barrelled charge toward the Illinois Governor Wednesday.

As he spoke Wednesday night, a Democratic gathering at Electra was devising strategy its leaders hoped might defeat Shivers and Atty.-Gen. Price Daniel in the general election, Nov. 4.

Shivers spoke extemporaneously at a rally of some 1,500 Democrats for Eisenhower in Austin. He urged Texans to vote for Dwight Eisenhower, the Republican nominee for President, and not be swayed by what he called Stevenson's campaign of fear.

DIES ANSWERS RAYBURN

Dies said he would not tell Speaker Sam Rayburn, leader of the Stevenson Democratic campaign in Texas, whether he would work for Stevenson's election until he was assured the Democratic candidate would co-operate in ridding the federal payroll of Communists.

Dies spoke over a statewide radio hookup. Dies, Daniel and Shivers have apparently accepted Republican nomination for office after winning Democratic nomination in the July primary. Dies is a candidate for Congressman-at-large. Daniel is a U. S. Senate candidate. Shivers is running for re - election.

The Electra Democratic Club asked voters to strike the names of Shivers and Daniel from the Democratic ballot and write in the names of Lindley Beckworth for Senate and Ralph Yarborough for governor.

ASK NEW COMMITTEE

The group also called for a new State Democratic Executive Committee passing a resolution which asked the Democratic National Committee to appoint and install a new Texas group composed of loyal Democrats.

The resolution said the State Democratic Executive Committee predominantly for Eisenhower, no longer represents the Democrats of Texas.

Shivers' speech Thursday night, set for statewide radio delivery from 7:30 to 7:45 p.m., will precede speeches in Texas by sons of two old political spell-binders.

Russell Long, son of the Louisiana Kingfish, Huey Long, is to speak in Texarkana tomorrow for ailing Democratic Vice Presidential Candidate John Sparkman. The Alabama senator has laryngitis.

John Roosevelt, son of the late President Franklin Delano Roosevelt, will speak tomorrow at Tyler, Palestine, Marshall and Lufkin in behalf of the Eisenhower-Nixon Republican ticket.

CONNALLY TO SPEAK

Senator Tom Connally, retiring from 24 years in Congress after his present term, was to boost the Stevenson candidacy today before a meeting of Dallas County Democratic Women.

Africans Hacking Away

NAIROBI, Kenya, Oct. 23 (AP)—The oldest chief of the Kikuyu tribe was hacked to death by Mau Mau terrorists last night in a wide-spread renewal of violence in this British East African Colony.

An African policeman also was butchered and two others are missing.

Compensation Issue On Big Nov. 4 Ballot

AUSTIN, Oct. 23 (AP)—More is to be decided at the polls Nov. 4 than the burning issue of Adlai or Ike.

Texas also will ballot on two proposed changes in their state Constitution.

One of them—the first on your ballot—would permit the Legislature to pass laws to enable cities to provide workmen's compensation for city employes.

DESIGNED TO HELP BOTH

Workmen's compensation insurance is designed to help both employes and employers. It helps employes financially if they are injured during employment and helps their dependents in case of death. It helps employers by insuring them against damage claims.

Why not such a provision in the constitution?

Here are some of the arguments being used against it:

"It's not needed, say the opponents. More than 100 Texas cities already are providing workmen's compensation insurance for their employes and there's nothing to stop the others from doing it if they want to. Court decisions have undergirded such rights for cities. Opponents also claim there is some question whether the change would "permit" cities to provide the insurance or "force" them to. If mandatory, they say it would increase the cost of city government.

MIGHT END CONFUSION

Proponents claim the law would end confusion in a sytem that depends solely on court decisions for authority to operate.

It would erase the excuse cities use for not providing the insurance. Friends of the proposal argue city employes are as entitled to protection as employes of private businesses. They say the change is permissive, not mandatory.

"You'll find it on your ballot listed this way:

"For (against) the constitutional amendment authorizing the Legislature to provide for workmen's compensation insurance for employes of cities, towns and villages."

Earthquake Kills At Least 18 Persons

ISTANBUL, Turkey (AP)—A brief but sharp earthquake in the area of Adana in Southern Turkey killed at least 18 persons yesterday and injured 40.

The tremor, lasting about five seconds, reportedly caused considerable damage in the city of 150,000. A breakdown in communications delayed full information but it was feared the death toll might prove much greater.

Discrimination In Hiring Is Opposed By Lay Leaders Here

All but two protestant laymen of Snyder churches questioned here indicated that religion should not have any bearing on whether or not an applicant for the position of county juvenile worker is qualified.

The question arose when five persons made application to the commissioners court for the office and the court indicated that it would not hire one of the men who was Catholic.

He is Joseph Lettieri of Dallas, now employed in the juvenile department at Dallas, who holds a bachelor's degree in psychology from Southern Methodist University where he is working on a master's degree and is also a student in psychiatry. Lettieri was recommended by his department and introduced to the court by Bill McCade of the state youth development council.

The court did not take any action on the applications but informally commented opposition in hiring him.

Lay leaders of various protestant denominations were questioned here.

To the question as to whether religion should be considered in applications for the position of county juvenile officer, three of them replied the following:

Malven Stevenson, chairman of the board of elders, First Christian Church — "Definitely not. We are supposed to have a free democracy. A person's religion should not be a factor if the man has qualifications for the job."

Myron Roe, deacon of the First Baptist Church—"I think they should consider hiring a religious man for the position, but I don't think they should discriminate on any particular denomination."

Ross Hemphill, steward in the First Methodist Church — "I do not think religion should be the basis for a person's qualifications, but rather his character."

Other lay leaders would not offer comment on the religious consideration by the court. Abe Rogers, elder in the Church of Christ, said he would not comment because he did not want to put undue pressure on the court.

M. R. Estes, leader in the First Presbyterian Church, said he would not comment on the religious angle, but he commented, "We certainly need a man qualified to hold the position who can handle the juvenile problem in the country."

Grady Erwin, Catholic layman, said that he did not believe he should take any part in the controversy concerning the juvenile officer.

Tidelands, Mess Called 'Excuses' By Connally

Says Ike Is Under Thumb Of Sen. Taft

DALLAS, Oct 23 (AP)—Texas' retiring U. S. senator, Tom Connally today leveled a blast at what he called "off breed Democrats" who have raised the tidelands issue as an "excuse to justify their Republicanism."

In his first Texas address supporting the Democratic presidential ticket, prepared for delivery to a luncheon of the Democratic Women of Dallas County, the veteran, white-haired lawmaker bitterly assailed Texas Democrats backing Republican candidate Dwight Eisenhower.

It was an obvious poke at Gov. Allan Shivers and Price Daniel, state attorney general and U. S. senatorial nominee, both of whom have endorsed Eisenhower.

"Many of these were leaders of the Dixiecrats and Regulars of previous years," Connally said. "Every year they find a different excuse to justify their Republicanism. This year it's the tidelands and also what they call that mess in Washington."

Connally praised Democratic Candidate Adlai Stevenson as "one of the ablest men to be nominated for the presidency of the United States in this generation."

He charged that Eisenhower was "under the thumb of the Republican Old Guard.

People who want to support Eisenhower should do it openly as Republicans, Connally said.

"Anybody who believes in the principles of the Republican Party and wants to turn the government over to the Old Guard Republicans and their star-studded candidate has a perfect right to vote Republican," he said.

"But he does not have the right to masquerade as a Democrat while he is doing it."

Connally said he has no sympathy with the tidelands decision against Texas. But he declared that he "fought for retention of these lands long before many of the present opposition leaders in Texas ever heard of the question."

Typhoon Kills 370 Persons

MANILA, Oct. 23 (AP)—The Philippine Red Cross said tonight 370 persons were dead and 200 were missing in the wake of Wednesday's typhoon.

The Red Cross said several hundred were injured.

The tabulation was based on telegraphic and radio reports trickling in from the devastated provinces.

The tropical storm roared out into the South China Sea Wednesday and today threatened the battered shores of Indochina about 850 miles to the southwest. A Saigon report said the typhoon would hit the coast tomorrow night.

Indochina, while waiting for the storm, was trying to clean up from the tidal wave that hit Phan Thiet Monday night, possibly killing as many as 500 persons.

71-Degree High Here

The temperature reading was 41 degrees at 7:30 o'clock this morning, according to Mrs. D. P. Strayhorn, official weather observer. The mercury hit 71 degrees yesterday, but dropped to 39 degrees last night.

Times Still For Ike

NEW YORK, Oct. 23 (AP) —The New York Times, speaking as "an independent newspaper," reaffirmed today its support for Gen. Eisenhower.

SKATING RINK LEVELLED

The northeaster which has whipped Florida for two days left this skating rink in Jacksonville Beach, housed under canvas, in shreds. The rink was in the heart of the broadwalk concession area. Wind damage to permanent buildings was minor.

Search On For Kidnaping Gang On Spree Through Tennessee

SPARTA, Tenn. (AP) — Police searched three states today for a quartet of bandits whose leader described himself as a "three-gun maniac" and lived up to the description in a highway kidnaping spree.

The gang, including a bashful boy of 18 who carried boxing gloves and a robe with him, abducted 10 persons and stole three cars yesterday.

The victims escaped in the same haphazard manner they were kidnaped—one, two or three at a time at different places along U. S. 41.

The state highway patrol said some of them were fired on by the bandits as they got away, but apparently none was injured.

A newly married couple from Houlton, Me., were the first to escape. They jumped out at a stop light at Sparta and spread the story of the wild spree of wholesale kidnaping and petty robbery.

A wide ground and air search was launched throughout middle Tennessee. Roadblocks were set up in Tennessee, Kentucky and Georgia.

Mr. and Mrs. Ben Cookson of Houlton told this story:

At daybreak yesterday, they were awakened by two men—"well dressed and past middle age"—at a roadside park near Hasper, Tenn., where they had slept the night in their car.

"This is a holdup," the pair announced, pointing two pistols. They took some jewelry and $40 cash, then ordered the Cooksons into the bandits' car.

The couple said several other captives already were in the back seat on the floor and under wraps.

Three of the abductors then took the captives and drove off in a car owned by three Indiana youths already held prisoner, while the fourth sped off in the opposite direction in the bandit's car.

Four of the captives were picked up later in the day as the bandits took their cars. The abductors still were at large early today in the third stolen car.

After the Cooksons, the others escaped in this order:

James H. Barton, 35, Tennessee Valley Authority employe from Chattanooga. He was the first to be captured as he waited for a wrecker to pick up his stalled car on the highway.

David Rennau, 20, Harold Hilbert, 20, and Don Walker, 15, all of Hagerstown, Ind., who provided the first stolen car. They were en route to Miami.

Norval Broome, a farmer of Stringtown, Tenn. He was flagged down as he drove along the highway and after the kidnapers abandoned the Indiana car about nine miles from here on a narrow strip mine road. He was forced to drive the bandits until the car was wrecked.

Mr. and Mrs. John Tucker of White County, Tenn., and their 12-year-old daughter. Theirs was the third car stolen, and the one still missing.

At one point, when Mrs. Tucker failed to drive rapidly enough to suit them, one of the bandits fired his pistol, barely missing Tucker.

Several of the victims said they were robbed of small change, but details of the individual escapes, other than the Cooksons', were not available immediately.

No Rain And No Prospects

By The Associated Press

It's still the same old dry story.

No rain, no prospects of rain, dwindling water supplies in already water-short Texas, and worsening conditions on the rangelands, the pasture lands and across the croplands.

That was Oct. 23, 1952.

It had been much the same way a year earlier. And two years ago, farmers said they "could use a little rain."

The even-worsening drought had no prospects of diminishing within the next two days. Skies across the state early Thursday were clear except for a few clouds in the Laredo area and the forecast for all sections predicted clear weather Thursday and Friday.

As the rainfall almost stopped in Texas, cities, farmers, ranchers and municipalities of all types dug into the ground for water. Dallas was spending a million dollars on such projects. Corsicana was doing the same thing. Some 17,000 irrigation wells dot the vast, 22-county South Plains area. Dawson County, which a year ago had a bare dozen wells, now has 85 and all are flowing.

Hurricane Growing In Caribbean Sea Today

MIAMI, Fla., Oct. 23 (AP)—A small hurricane growing slowly in size and intensity whipped the waters of the Caribbean with 90-mile winds today about 500 miles south-southwest of Miami.

Miami forecasters reported it drifting slowly northward about six to seven miles an hour at 10 a.m. (CST). Gales extended out from the center about 50 to 75 miles.

The storm was centered 320 miles south of Havana, Cuba.

"Continued slow movement in a northerly direction is indicated for the next 24 hours with some increase in size and intensity," forecasters predicted.

French Troops Retreat

HANOI, Indochina, Oct. 23 (AP) — French Union forces continued a general withdrawal south to the Black River today in the face of steadily increasing pressure from Communist-led Vietminh troops driving to cut French communications in northwest Indochina.

Government Moves To Bring Communist's Case To Trial

WASHINGTON (AP) — Atty. Gen. McGranery today launched a new program for ridding the country of foreign-born leaders of the Communist party—a program involving jail-without-bail, denaturalization and deportation.

At the same time, the attorney general moved to get Communist Party Chairman William Z. Foster on trial for alleged conspiracy to advocate overthrow of the United States government by violence.

Foster was among the 12 top party officials indicted in New York City in 1948 under the Smith Act, which prohibits any use of force in bringing about governmental changes. At the time, he pleaded ill health and his case was separated from the 11 others.

All who went to trial were convicted and given sentences ranging up to five years. When the Supreme Court affirmed these cases, four of the defendants fled into hiding. One was captured in Mexico, but three are still at large, presumably outside this country.

McGranery said late yesterday he wants to know whether Foster is now able to stand trial, in view of "current, multitudinous activities." He said these include publication of two lengthy books during the past year and regular contributions to the Daily Worker, the Communist newspaper in New York City.

U. S. Atty. Myles J. Lane of New York was directed to seek a court order to require the party chairman to appear for a new medical examination.

Through the immigration service, McGranery ordered eight "active Communists" now defending deportation proceedings to surrender at once or face rearrest and forfeiture of their bonds.

McGranery said he proposes to hold this group without bail until they can be shipped out of the country.

In addition, the attorney general announced he has started or is considering denaturalization or deportation proceedings, or both, against 10 of the 85 alleged members of the party's forward echelon in this country who have been indicted thus far on conspiracy charges.

All of the 10 are aliens or naturalized citizens. McGranery noted at a recent news conference that he has no power to take exclusion action against any natural-born American for any cause.

Three of the "top 11" Communists convicted of conspiracy in New York were among those ticketed for deportation after they have served their time. They are Irving Potash, Jacob Stachel and John Williamson.

Others proposed for exclusion include William Schneiderman of San Francisco, Communist party chairman for California, and five others recently convicted with him of Smith Act conspiracy on the West Coast.

In the case of Schneidermann, McGranery said, cancellation of his 1927 naturalization would be a first necessary step. He would then be an alien, subject to deportation.

Houston Constable Gives Self Up: Wanted For Armed Robbery

HOUSTON, Oct. 23 (AP)—Constable J. W. Lambert kept his promise today—he surrendered to police at 9 a.m.

The constable, hunted since yesterday, is charged with night-time burglary and attempted robbery.

He gave himself up to Homicide Lt. Frank Murray and his attorney, Charles T. Pritchard Jr. They met at a rendezvous.

Lambert walked from behind an old school building with a minister, the Rev. Albert Lee. He looked tired, needed a shave and was wearing dark glasses.

Lambert was charged in the case in which one of his deputies, William J. Young, was shot and killed by night club owner Delbert Roberts in a reported holdup attempt Oct. 5. His attorney yesterday said Lambert would surrender today.

The charges against Lambert, police said, are an outgrowth of an inquiry into an alleged plot to assassinate Sheriff C. V. (Buster) Kern by blowing up his automobile.

Lambert sent word yesterday that he would contact his attorney, Charles T. Pritchard Jr., to make arrangements for his surrender.

Charges of burglary and attempted robbery have been filed against Lambert.

Police said they obtained statements from Mrs. William J. Young, 22, widow of the slain deputy, that Lambert admitted to her that he and a third man were with her husband when he was killed.

Police also said Private Detective Raul Perez, 44, who said he was with Young and Lambert at the Oct. 5 slaying, had also given them a statement.

Perez said in a statement to Sheriff Kern that he was with Lambert and Young and that they broke into the home of night Club Owner Delbert Roberts. Roberts fired a pistol as he grappled with a man who waylaid him as he entered his home.

Kern, who says a price of $10,000 is on his head, alleges a Harris County political figure is the "big man" behind the alleged conspiracy against him.

Perez insised he knew nothing about the Kern affair, the sheriff said.

Nixon Called 'Anti-Labor' By Truman In Coal Mine Regions

WITH TRUMAN (AP) — President Truman today denounced Richard M. Nixon as "anti-labor" and declared his party's leaders "hate labor unions and would like to destroy them."

Appealing for Democratic votes in West Virginia's soft coal and steel region, Truman made one of his rare attacks on the GOP vice presidential candidate and declared that the Taft-Hartley Act "can wreck the American labor movement."

In an address prepared for delivery in a rear platform appearance at Wheeling, W.Va., Truman said GOP presidential nominee Dwight D. Eisenhower "picked one of the most anti-labor men in Congress to be his running mate."

The Chief Executive said a provision in the original Hartley bill of 1947, banning industry-wide bargaining, was dropped out of the final version of the Taft-Hartley Act, "but it has not been forgotten."

"The congressman who made the concluding argument on the floor of the House of Representatives in favor of the Hartley bill in 1947 was a young man who showed real promise as a leader in the battle against labor—Rep. Nixon of California," Truman said. "He lived up to that promise so well that he was promoted this summer to run for vice president on the Republican ticket."

"Look out, neighbor!

"Now, the Republican candidate for president does not have much of a record on labor questions. But he picked one of the most anti-labor men in the Congress to be his running mate. And he said that if he (Eisenhower) had been president this year he would have tried to get an injunction in the steel case. He would have applied this useless and unfair procedure without regard to the merits of the dispute.

"Look out, neighbor."

Truman campaigned in West Virginia, Pennsylvania and Maryland on the homeward trail to Washington after one of his whirling stumping tours for Adlai Stevenson.

At Wheeling he urged re-election of Democratic Sen. Harley Kilgore over former Republican Sen. Chapman Revercomb and of Democratic candidate Bob Mollohan to the House.

He said that "a swing to Stevenson has set in all over the country, among voters who had been leaning Republican" and added with a note of modesty:

"I hope that I have performed some small service in helping to bring out the facts."

Truman's prepared text omitted any reference to the soft coal strike and the action of the Wage Stabilization Board cutting 40 cents off a $1.90 a day award for the miners which brought it about.

But he recalled the days of "labor spies and private armies and strike breakers" and credited the Democratic party with stopping such things.

"But there are still men who hate labor unions and would like to destroy them," he said. "These men still exist, and they exist in great number. And I have no hesitation in telling you where they are politically. They are a powerful group within the Republican party."

A DEAD-EYE SHOT

Leonard Zimmer, 44, who lost the use of his legs in an accident eight years ago, expects to get his limit when the pheasant season opens Saturday in Minnesota. The Clara City, Minn., man bagged his limit of ducks in two hours when the duck season opened Oct. 15. Friends wheel his chair down a special ramp to a blind at the waters edge.

BOYLE'S COLUMN

Husband Is Sorry Now That He Shot His Television Set

HEMPSTEAD, N. Y. (AP)—Every now and then an obscure little man rises up in wrath and smites the sounds and sights of a world that is too much for him.

In doing so, he becomes a hero to many of us who share his convictions but not his courage.

Such a man is Frank P. Walsh. Unable to submit any longer as a captive audience, he rebelled. He shot his television set. He shot it dead, right through its 12½-inch eye.

But Walsh paid the price of martyrdom. He lost his job. "And I'm still in my wife's doghouse," he said. "It's very cold."

Mrs. Walsh, mother of five children ranging from 5 to 15, can't explain her husband's precipitous action. "The set may have been on a little too loud," she conceded. "But always before, when he complained of the nose, I turned it down and that was that."

Mrs. Walsh looked forlornly at the empty corner of her living room so recently occupied by her television set.

"I feel so lost without it," she said. "It cost $258 and I don't know when we can get another one. We had it two years and only made the last payment this August."

ON AND OFF

Mourning her loss, Mrs. Walsh said television had become part of her life. It was her habit, she said, to turn it on at 10 in the morning for an early movie while she "cleaned up in the living and dining room."

From 11:30 to 12, she watched "Strike It Rich" while she "got the kids' lunch ready." Then came "Bride and Groom," "Love of Life" and "Search for Tomorrow."

"I almost always turned it off at 12:45 and didn't turn it on until 3 o'clock for just one-half hour of "The Big Payoff," Mrs. Walsh said. "Then I kept it off until the early show movie came on at 6:15. From then on, I used to keep it on until I went to bed."

Now we come back to Frank Walsh, who is 38, tall and thin. He used to work nights for a private detective agency and by day he did odd electrical jobs. Frank likes the fights and the detective stories. He had nothing against television except when it disturbed his sleep.

URGE GROWS

Several times before the fatal incident, he said, he had felt like shooting the set when the sound shook his early evening naps.

"Finally," he said, "it happened. Sunday night I awoke hearing somebody scream, "Hey, Abbott!" It was Abbott and Costello, and I got nothing against them. But I was mad not being able to sleep I figured the easiest way was the quickest.

"I got my .38 Smith and Wesson. I walked out of the bedroom and leaned over the rail overlooking the sunken living room. My wife and all the kids were there.

"I told them to move over and then I fired from an angle, about 15 feet away. Caught the tube in the upper right corner. It exploded into a thousand little pieces but the glass didn't fly far. Nobody was hurt, but the TV set was ruined.

"I guess my wife got scared. She took the kids outside and called the cops. They came and saw I was sober. They took my pistol and pistol permit away. Without them, I couldn't work and knew it. So after the cops left, I changed my clothes and went down to a neighborhood bar and really got loaded."

LETTERS TO EDITOR

(Letters from the readers of the Daily News are always welcome, provided they are signed by the writer and give his correct address. They will be printed subject to the publisher's discretion, based on whether the material contained is libelous or the language offensive. Letters should not exceed 300 words.)

To the Editor:

A few weeks ago some of the Christian leaders of this city registered their strong protests over the treatment that was being given to a Christian body by the Italian government. If such persecution of religion was actually being carried out, we were in agreement with them. In the Tuesday issue of the Snyder Daily News was carried a news story in which a well qualified man was turned down for the position of juvenile worker simply because he was a Catholic. This man carried with him ample recommendation and a degree in his field of work. He showed his broad-mindedness by his having received his degree work from a Methodist University. Yet his application was turned down.

Where, may we ask, is this show of "righteous indignation" that was so recently shown concerning religious freedom? Have we not heard much lately about the "separation of church and state?" Is this not the land of freedom? Or do some like to see religious freedom for some and have it denied to others? Can we really blame a Catholic if he objects that he does not really have religious freedom? Religious freedom can be denied just as effectively by practices of this king as by placing a policeman at the church door.

We believe every fair - minded citizen will protest this action as being unjust and prejudiced. We fail to see anything Christian about it. We have read and studied the Scriptures rather thoroughly and we have never found Christ advocating hatred for anyone—even our enemies.

Are not Christians supposed to love one another? How the communists must exult in glee when they see us so hateful of one another! I just cannot believe that the civic leaders of this fine town can allow such things to happen to an American citizen!

32 Have Cast Votes By Absentee Ballots

By noon today, 32 persons had voted here by absentee ballot in the Nov. 4 general election, according to the county clerk's office.

Eleven of these voted in person at the office, and 21 voted by mail.

Applications for absentee ballots, most of them by mail, totaled 180 at noon. Deadline for absentee voting is midnight Oct. 31.

No One Files For City Council Posts

No candidates have filed for any of the six city council posts or mayor's post to be voted upon in the special city election Dec. 16, Mrs. Clara Jones, city secretary, said today.

Candidates for the positions may file any time from now until the deadline Nov. 15. Absentee balloting in the election will begin Nov. 26, and end on Dec. 12, W. W. Park, city attorney, said.

A candidate may file for any place on the council he chooses with all six places to be voted upon by every voter in Snyder.

Under provisions of the new city charter councilmen elected to places 1, 3, and 5, however, will serve only part of their two year terms —until the next city general election.

Men elected to places 2, 4, and 6, will serve until the second general city election after Dec. 16.

Taft Says Truman Defending Every Wasteful Expenditure

ASBURY PARK, N.J. (AP) — Sen. Robert A. Taft fired verbal blasts last night against President Truman who, he said, defends "every wasteful expenditure of his administration."

At a rally here that wound up his day-long tour of New Jersey, the Ohio senator described the administration as extravagant.

Taft, campaigning for Republican presidential nominee Dwight D. Eisenhower, devoted most of his speech to comments on President Truman's talks in the state Tuesday.

". . . Nothing he says in these whistle-stop tours can be relied upon until the facts are carefully checked," said Taft.

The President's speeches in Jersey City and Philadelphia, Taft added, "contain the usual demagoguery in which Mr. Truman indulges. They misrepresent the position of the Republican party and claim credit for Democratic accomplishments which have never been accomplished."

Then, choosing excerpts from Truman's speeches, Taft continued:

"Mr. Truman says we (Republicans) have been against low-cost housing. But I was the fellow who put the public housing bill through the Senate twice. It was not quite as Mr. Truman wanted it, because it provided some protection against extravagance and socialism.

"Mr. Truman says that the Republicans have a long record of voting to obstruct and cripple the social security program. As a matter of fact, Sen. Millikin (R-Colo) and I were the ones who ordered the complete study . . . and then took the most active part in expanding the program."

In his attack on the Truman administration, Taft said probably 20 per cent of the personnel of any department could be eliminated and the result would be "a more efficient government operation."

President Truman, he said, "has always claimed that the cutting of 1 cent from his budget would mean the destruction of the entire project and the very existence of the country.

"Yet, every expert investigation finds that government programs are wasteful."

Further referring to portions of Truman's speeches, Taft commented on what he said was the President's claiming of credit for creating the Central Intelligence Agency, strengthening the FBI, and stopping Communist aggression in Greece and Turkey.

Of these claims, Taft said:

1. The CIA "was set up in the unification bill passed by the 80th Republican Congress."

2. "It's no secret in Washington that New Deal advisers have wanted to get rid of the FBI at every favorable opportunity."

3. The halting of Communist aggression in Greece and Turkey "was about the only real piece of bipartisan foreign policy that I have seen, and it was as much a project of the 80th Republican Congress as it was of Mr. Truman."

Pleasant Weather Over Most Of Nation Today

By The Associated Press

Another sunny and pleasant fall day appeared in prospect for most of the country today.

Warmer weather was reported over the central and Eastern sections of the nation with daytime temperatures expected to climb into the 60s. Some warming also was reported in the South after yesterday morning's chilly weather. Readings in the Western states were around seasonal levels.

Hermleigh Schools Cleaned By Citizens

HERMLEIGH — The Parents-Teacher Association here sponsored a clean-up day in the Hermleigh school Tuesday, according to O. B. Paty, superintendent.

Parents spent the day working on the grounds and cleaning the buildings. The county commissioner, Doyle Parmer furnished a maintainer for the work. Mrs. Geral Greene, PTA president, said she was pleased with the results, but it would take another day to do everything they had planned.

Texas Over Rice; Michigan To Keep Number 1 Standing

By HAROLD CLAASSEN

NEW YORK (AP) — A seasonal average of .781 means that of every 24 selections, 19 are correct. It also means that five are wrong.

There's no indication which 10 "winners" of the following college football games this weekend are incorrect.

Michigan State over Penn State: Penn State is unbeaten and has an outstanding end in Jesse Arnell. But Michigan State should preserve its No. 1 ranking with absolute ease.

Maryland over LSU: Maryland's nickname and mascot is that of a turtle. And if you remember the fable, the turtle always got there first.

Oklahoma over Kansas State: if Kansas couldn't stop the Sooners, the K-Staters certainly aren't strong enough to do it.

Illinois over Purdue; your Saturday afternoon TV feast. The Illini hospital list is long but the homecoming enthusiasm should be just enough to get them past the ambitious boilermakers.

Southern California over California: the Trojan defense, fourth best in the country, to shackle Johnny Olszewski & Company. But it will be close.

Georgia Tech over Vanderbilt: Vanderbilt had been good for an upset a year since Bill Edwards became coach but this doesn't appear to be the spot for it.

Duke over Virginia: two unbeaten teams with potent defenses and everything indicates it should be a 21-21 deadlock. Duke's superior reserves get the nod.

Wisconsin over UCLA: in the belief that Alan (The Horse) Ameche will bust loose for a big day.

Notre Dame over North Carolina: that two-week polio layoff hurt Carolina's timing and now that the Irish have shown a passing attack they will be tougher than ever.

Penn over Navy: you must favor the team that lists Ed Bell on its roster. He is a letter-perfect end.

Texas over Rice: you can't ever be sure of anything in the Southwest Conference. However, the Longhorns have lost only to Notre Dame and Oklahoma.

Finishing the others:

FRIDAY NIGHT

Fordham over Boston College, Miami over Marquette, VMI over George Washington, Santa Clara over Idaho.

SATURDAY

East: Columbia over Army, Amherst over Wesleyan, Maine over Bates, Boston University over Lehigh, Colgate over Bucknell, Connecticut over Delaware, Dartmouth over Harvard, Holy Cross over Syracuse, Temple over NYU, Princeton over Cornell, Rutgers over Brown, Pittsburgh over West Virginia, Yale over Lafayette.

Midwest: Oklahoma A & M over Detroit, Indiana over Northwestern, Missouri over Iowa State, Michigan over Minnesota, Colorado over Nebraska, Ohio State over Iowa, Tulsa over Wichita.

South: Furman over Davidson, Florida State over North Carolina State, Cincinnati over Kentucky, Alabama over Mississippi State, The Citadel over Presbyterian, William & Mary over Richmond, Auburn over Tulane, Georgia over Florida, VPI over Washington & Lee, Tennessee over Wofford.

Southwest: Houston over Arizona State, Arizona over Hardin Simmons, Mississippi over Arkansas, Baylor over Texas A & M.

Far West: Colorado A & M over Utah State, Brigham Young over Denver, Oregon over Montana, Washington State over Oregon State, Utah over Wyoming, Stanford over Washington.

Junior High's Star Is Out

The junior high school grid team will be crippled when they take the field in the Tiger Stadium against Colorado City at 7:30 o'clock tonight.

Bobby Pollard, fullback who has scored 37 of the team's total of 57 points in four games this year, probably will not play in tonight's game, Coach Jimmy Williams said. Pollard, Williams said, shot his finger with a BB gun several days ago.

John Reed, regular at guard, also will be out as the result of an accident last week.

The junior high squad has the best won-lost record of all the teams in the school system. They lost only one out of four games, and that loss was only by one point to Lamesa. They defeated Rotan twice, 13-6 and 26-0.

In a game with the Colorado City team earlier this season, the Snyder juniors won 13-6, with Pollard making both touchdowns and Linebacker Melvin Clough scoring the extra point. In that game, Ronald Smith, quarterback, completed two out of four pass tries for about 35 yards, both of them to End Powell Berry, who has been receiver for all of Smith's passes.

Also in the backfield tonight will be Wayne Cain, a halfback who has scored one touchdown this year, replacing Pollard at fullback. Bud Morgan will fill in as half in Cain's place, while Billy Joe Hattaway, scorer of two TD's this season, will be at the other half.

Berry and Dwayne Prince will be at ends, while Allen Skaggs and John Partain will be tackles, Gary Hill and Robert Brooks will be guards, and Joe Reeves will be center.

Pro Ball Gives Something That Colleges Can't

NEW YORK (AP)—For a long time at about this season of the year we have frequently found ourselves sneaking looks at certain members of the sports writing brotherhood and wondering if they had, perchance, been bounced upon their heads in extreme youth.

These fellows would go afield on cold, snowy Saturdays and attend college football games as a job of work. They would return home late, frost-bitten and tired. They would bounce out of bed on Sunday, bright-eyed and eager, and beat their way through traffic to witness a professional football game—on their day off.

In reply to casual inquiries, they said they did this because the pro game was vastly superior to the college brand. They said they found pure relaxation in watching skilled artisans in action after they had spent an afternoon with the rahrah boys. They didn't seem to think this especially strange, no matter what anybody said.

Well, this in the nature of a confession. After having been exposed, kicking and screaming, to the pro game twice this season, we are beginning to suspect that it bears about the same relation to the college variety that the baseball Yankees do to, say, the Memphis Chicks. It isn't quite as noisy, but it is much finer football and much more consistently close and exciting.

Having done considerable arguing on the other side, we are not going to propose that every club in the National Professional League can lick any college team in the land. We wouldn't be surprised if such campus outfits as Michigan State, Maryland, Oklahoma and maybe two or three others could step right into the money circuit and fully hold up their end.

But the point is that there aren't enough of them, and that it is all too seldom until the bowl games roll around that one gets to see two really powerful college teams have at one another.

More Tests On Mickey Mantel

OKLAHOMA CITY (AP) — There were more Army draft physicals in store today for Mickey Mantle, the New York Yankee outfielder, who yesterday went through his third selective service checkup in less than two years.

The 21-year-old Commerce, Okla., Comet has been ordered to Ft. Sill this morning for a "more comprehensive examination" of a leg bone ailment which has so far kept him out of military service.

How much longer it will be before an anxious baseball world learns of the talented youngster's status is still conjecture.

Mantle, who starred in the World Series despite an added handicap of another physical hanging over him, is forced to wear protective pads on his ailing left leg while playing. He suffers from osteomyelitis, a bone disease.

Mickey, whose rise from sandlot baseball to Joe DiMaggio's spot in the Yankee outfield in four years has captured the imagination of millions of fans, was processed exactly like 200 other state draftees at the armed forces examining station here yesterday.

Tom Catlin (above), 20-year-old center on the University of Oklahoma football team, is the "Lineman of the Week." He was selected in the weekly Associated Press poll because of his play that proved the turning point in the Oklahoma-Kansas game last Saturday.

Celeri Leading Dallas Texans As Ball Carrier

DALLAS, Oct. 23 (AP)—Quarterback Bob Celeri is the leading offensive man on the Dallas Texan roster through the first four games of the National Football League schedule.

Celeri has a 9.6 average as a ball-carrier and has gained 321 yards through the air. George Taliaferro ranks second to Celeri with 160 yards aground to 134 for Celeri, but has averaged only 4.6 yards per carry. Taliaferro has passed for 146 yards.

Taliaferro leads in pass receiving, catching six for 137 yards. Hand Lauricella leads in kicking with an average of 44.5 yards on 17 kicks.

OPEN SEASON

By DALE WALTON

We understand that some of the people down at school got together the other day and decided that this is homecoming week.

We thought maybe they had forgotten the purpose of a homecoming since they had not broadcast their aim. They've planned some sort of celebration at the school, but nobody's coming home.

At any rate, the entire school was to hit the square, band and all, today about mid-afternoon in a big pep rally for tomorrow night's district game here with Vernon. They were to parade awhile.

Tomorrow morning, they are to crown a homecoming queen at the school during a morning pep rally. Seems its a secret who she is.

* * *

Another parade is planned to begin at 5:15 o'clock tomorrow afternoon. It is for adults, students, and anyone else, and it will begin at Grimmett Bros. on North Avenue R.

* * *

Reserved seat tickets are still on sale in the county superintendent's office and at Dunlap's for tomorrow night's game. They are $1.20 each.

Since the Tigers are going to have a pretty rough time beating their first district game, they need more than the ordinary 2,000 persons who go to the games.

* * *

If you haven't seen the junior high school grid squad play, you've really missed something. They're opening another game at 7:30 o'clock tonight, playing Colorado City in the Tiger Stadium.

* * *

The basketball season is not far away, and it looks as if the high school team will have a good one this year. The team, which won the district championship in Class AA last year, has quite a reputation to hold to in AAA this season.

Gene Gibson will coach the eage team this time, and he's already scheduled some rough games with teams like Lubbock, Pampa, and Midland for non-district play.

North Texas Golfers To Mexico City Meet

DENTON, Oct. 23 (AP)—Six North Texas State golfers and Coach Fred Cobb will leave Dallas Sunday by plane for Mexico City to compete in the Mexican National Amateur Tournament set for Oct. 27-Nov. 2.

The NTSC group will be headed by Billy Maxwell, 1951 National Amateur champ, and Billy Conrad, 1-up conqueror Sunday of Byron Nelson.

A&M Coach Helps Press

COLLEGE STATION, Oct. 23 (AP)—Coach Ray George of Texas A&M doesn't wait for the press to come to him—he goes to the press. It has worked out most satisfactorily for everyone concerned.

When George became coach of the Aggies last year he surprised the sports writers by coming to the press box after the first game to be interviewed. He followed that custom all season. And now he's at it again.

Although the Southwest Conference writers are accustomed to this unusual procedure, the act caused much favorable comment after the Aggie-Michigan. State game recently in East Lansing, Mich.

The Macklin Field press box in East Lansing was jammed with over 250 working press from the nation's metropolitan papers. After A&M's 48-6 game-of-the-day loss to the No. 1 team in the nation, George made his usual long walk to the press box.

So flabbergasted were the major writers that it took them several moments to get around to the interview, but then they made the most of it and pumped George for 45 minutes getting colorful, post-game tidbits "straight from the mouth of the coach."

CREAT NEWS! NEW SYRUP BIG HIT!

New BRER RABBIT reminds "Old-Timers" of Real Ribbon Cane Flavor!

FORT WORTH . . . Is there an "old-timer" in your family who is always harking back to the wonderful syrup folks enjoyed in the "good old days"? The kind made from Ribbon Cane—with a flavor that was simply *glorious!*

Today that marvelous "old-time" flavor is here again!

It's the new Brer Rabbit Syrup—a new flavor your family will simply dote on! Here's lightness and sweetness in a delicious combination that modern Southerners vote "tops." Mild and light, it tastes just right—makes everything taste finer than ever!

IN STORE TESTS . . . folks who tasted, praised its flavor

DALLAS: "Taste this new syrup, ma'am—and say how you like it?"

In stores through the Delta and East Texas region, people tasted the new Brer Rabbit Syrup . . . smacked their lips . . . and gave their delighted answers:

Ten to one—the chorus was "YES!"

Did they like the new Brer Rabbit "better than the syrup they were now using?"

Again the chorus was a resounding "Yes!" Almost 7 times as many said "Yes" as said "No!"

Even people who have used Brer Rabbit Syrup for years liked this new Brer Rabbit even better!

People said things like this

In Houston:
"Sweet enough but not too sweet—has a new taste."
"Would be fine on waffles."
"Mild and not too strong."
"Best flavor!"
"Tastes just right."
"M-m-m, say, I *like* this Brer Rabbit."
"This tastes like real old-time syrup."
"Tastes like country syrup."

So said folks who *tried* the new Brer Rabbit. And *your* family will say the same! This new, lighter, milder flavor, sweet but not too sweet—can bring new pleasure to your table, three times a day. Try Brer Rabbit, why don't you—first time you're in the store?

Makes Corn Bread a New Treat!
Your fine corn bread will win new praise, once folks taste it with new Brer Rabbit Syrup. It's sweet, but not too sweet. A light, mild syrup that makes hot breads, pancakes and waffles taste just *perfect!*

Local stores now stocking new flavor
Your grocer now has the new improved, lighter Brer Rabbit Syrup packed under the old familiar Brer Rabbit label.
DEALERS: To meet the demand for this new syrup, write Penick & Ford Ltd., Inc., New Orleans 7, La.

Cane grower enthusiastic!

MR. VICTOR WINTZ, Annandale Plantation, White Castle, La. . . . shown with Mrs. Wintz and their three attractive little daughters. The Wintz family has lived in the South for many years. They know sugar cane! They know syrup! They think the new Brer Rabbit Syrup is the best yet!

In syrup it's the Flavor that counts

"Everybody in this sugar cane country knows it takes the right sugar cane to get that old-time ribbon cane flavor," says Mr. S. K. Hays of Edom, Texas. "The new Brer Rabbit Syrup reminds me of the sugar mill days when I was a boy. And in syrup, it's the *flavor* that counts!"

There are many syrups on the market but there's only *one* way to judge them—and that's on flavor. You'll find some have a strong taste, others an oversweet taste. But Brer Rabbit—well, there's a syrup that tastes just right. And Brer Rabbit makes pancakes, waffles, hot biscuits and corn bread better than ever before.

TRY BRER RABBIT AND SEE FOR YOURSELF

For light, *mild* syrup, try BROWN LABEL Brer Rabbit

For richer, fuller sugar cane flavor, try BLUE LABEL Brer Rabbit

While the majority of women would think more of covering up silver streaks in their hair, these high school seniors are deliberately spraying silver into their hair. TALK OF THE TOWN

By SUE HOLMES

Fashion talk has gone to heads again. In the high school the coeds are reversing the procedure of covering up silver streaks in hair. The girls — the brunettes — are spraying silver locks into their hair. Blondes are giving themselves a red streak in their hair and brownettes are applying coppery streaks.

While these girls are spraying on color, a man named James Gray, vice president of a company which manufactures color shampoos says: "The little blonde streak you see in hair these days is practically all that is left of the once popular platinum blonde. Men protested that bleached look, but women worshipped it. Now they are holding on for dear life to this last little strand."

Mr. Gray believes the day of the artificially made brassy or platinum blonde is almost over. He maintains they always have been "an affront to husbands, sweethearts and men in general." And he continues, "Most men object to seeing women wear a hair color that nature never intended for them." He doesn't object, however, to her covering up her gray hair with color. He knows that this is a signpost of age and agrees with the woman on that score.

Dyed hair is likely to accentuate a woman's age and fade her natural complexion tones, according to Mr. Gray. He also thinks it is in "bad taste."

Mr. Gray admits that a "Handful of women do look well with platinum blonde tresses" and know he is risking the wrath of a hundred thousand or more dyed blondes. He believes that the craving for blondness is somewhat immature, and points out that it dates back to the ancients who worshipped the sun and invested the color of the sun with supernatural powers. But scientists say that blondes are disappearing, Mr. Gray says. In time to come, they predict there will be only brunettes and brunette types.

He has noticed in his own sales of color shampoos a trend to darker colors such as the medium and dark browns, and the dark auburn tones. All of these are outselling the lighter shades.

Could you tell me how Hallowe'en was begun? Mrs. L.

The evening of Oct. 31 is called Hallowe'en since it is the eve of vigil of All Hallows, or festival of All Saints, which falls on Nov. 1. The supernatural influences associated with the day would associte it with pagan times. We have no record of the beginning of the observance, but Scotland still regards the eve in a superstitious light and in North England the time is known as Nutcrack Night.

TRUMAN GETS COAL DINKY

President Truman holds a chunk of anthracite coal on which the Democratic party symbol is carved ,after he delivered a campaign speech in the high school stadium at Pottsville, Pa. At the right is Guy K. Bard, Democratic candidate for the U. S. Senate from Pennsylvania.

Tight Senate Race Is On In Missouri

JEFFERSON CITY, Mo. (AP)—A fight for President Truman's old Senate seat has turned into one of the roughest political brawls Missouri has seen in years.

In one corner: Republican Sen. James P. Kem, 62, white-haired and serious, a lawyer by profession.

In the other corner: Stuart Symington, 51, personable St.Louis businessman and former government trouble-shooter.

They have waged a hard, name-calling campaign.

Kem says Symington "is not a 5 percenter—he is a 500 percenter." He charges Symington made money out of war contracts and helped some of his friends to "feather their nests too."

Symington says, "Everyone knows Kem is the outstanding reactionary and isolationist in the Senate." He charges Kem "is throwing up a smoke screen to hide his own miserable record as a senator."

Three times the men have met in debate, twice on planned programs. The other time it was a battle of sound trucks when their campaign trails crossed accidently in a hill country town. The applause has been about equal on these occasions.

Kem won his way to the Senate in the off-year election of 1946.

This year, he won renomination easily. He had only token opposition.

But Symington had to win his nomination the hard way. He beat Missouri Atty. Gen. J. E. Taylor by 187,000 votes although Taylor had President Truman's endorsement.

Since then, the President has endorsed Symington. And Kem has been endorsed by the Republican presidential nominee, Dwight D. Eisenhower.

Both men have been successful in their chosen fields—Kem as a corporation lawyer in Kansas City, Symington as former president of Emerson Electric Company in St.Louis.

In the Senate, Kem has been a persistent foe of administration measures, both on foreign and domestic issues. In his campaign he has opposed foreign aid on the present scale and says the big issue is to "restore honest, decent government in Washington."

In Washington Symington was chairman of the Surplus Property Board, assistant secretary of war for air, first secretary of the Air Force, chairman of the National Security Resources Board, and finally "cleanup" man of the Reconstruction Finance Corporation.

He says Kem is presenting a "pitifully negative" record to the voters.

Firm Closing After 13 Years

Frank's Department Store opened this morning with a sale to close out of business after 13 years on the west side of the square. Frank Bayouth, owner and the oldest of Snyder's department store managers from a standpoint of seniority here, said reason for quitting business was that the firm lost its lease.

The store has been closed for the last 10 days while arrangements were made for the sale. It was not known how long the sale would continue, Bayouth said, adding that it would run "until we sell out to the bare walls." He said the loss of lease came at a time when the firm had a large stock of all types of department store merchandise.

Bayouth, who resides with his family at 3000 Avenue W, moved here more than 13 years ago from Big Spring where he was in business two years. He is originally from Memphis, Tex., he said.

The businessman said he did not yet have any definite plans for the immediate future. "I intend to remain in Snyder, however," he said. "We have many friends here, and we like Snyder and the friends and acquaintances we have made. We also want to thank the customers who have supported our store."

The Bayouths have two sons and two daughters, three of the children having graduated frim high school here, and the youngest son, La Noard, is to graduate next spring. The older son is Ed Frank Bayouth, and the daughters are Betty Joyce Bayouth and Jacqueline Bayouth.

OPS Posters Ignored Here By Customers

Snyder businesses that are subject to the Office of Price Stabilization will be putting up posters within two weeks listing ceiling prices.

Thomas J. Murray, OPS regional services division chief, stated that because posting methods used have varied widely from shop to shop customers often have not known that ceiling prices were available for their inspection. Snyder merchants reported that their customers have ignored the lists.

The new posters carry the same prices, subject to certain allowed adjustments, which were in effect during the period of December, 1950 to Jan. 25, 1951.

Some 80,000 of the posters were mailed out in the Southwest to owners of laundries, service stations, tailor and dry cleaning shops, parking lots and shoe repair shops. Also persons will receive the posters who sell radios, television sets, household electrical equipment, watches, clocks, furnace, heaters, automobiles and trucks.

Tests prove that homemakers can save as much as 35 per cent energy by sitting down while ironing.

Everybody's

For the past two weeks we have featured light weight cheap calves in our market. We feel that we were wrong in this and offer our apoligies to our customers. It has been our policy to offer the best in meats and we are glad to assure you that we will again this week have our market filled with choice, heavy grain fed beef. We will continue to have some of the calves as long as they are available but will feature nothing but the best.

SPICE CAKE WIIH APPLE SAUCE FILLING
. . .canned apple sauce and lemon make it an experience in good eating

Cake Baking Is Production To Pamper Appetites In Autumn

Crisp, bright autumn days are here. It gets dark early, and there's real nip in the air—a nip to sharpen appetites for a hardy, satisfying dessert.

This is the time, too, when the homemaker likes to pamper her family and make a real production of her dessert-making efforts. And there's no better way to do it than by topping off dinner with a luscious homemade cake and generous cups of hot coffee.

Chocolate Cake

But it's also nice to know that the picturesque dessert can be made in short order. Nobody would guess that a deep, brown chocolate cake topped with contrasting whipped cream has been anywhere near a box or a can. Just pick up a package of ready cake mix at the grocer's, and at the same time get a can of whipped cream. There's no beating involved. The cream whips itself as it comes from the container.

New-fashioned cake with old-fashioned flavor is walnut cake, and harvest time is the time to make it. Like most nut cakes, this one keeps well. The flavor actually seems to mellow and improve, and the last slice tastes as good as the first. If the family is small, or if there is any left over, the cake adapts itself well to freezing.

Fresh-Baked

The cook simply cuts one-half inch slices and packages them for freezing. She puts as many slices into each package as she is likely to serve at a meal. In order to keep them from breaking, she cuts a piece of cardboard a little larger than the slices. Then she folds aluminum foil or freezer paper over the cardboard and lays a slice of cake on the little improvised tray.

Taking the package from the freezer about two hours before mealtime, she lets the cake defrost in the package to retain its fresh-baked flavor.

WALNUT CAKE

2 cups sifted flour
2½ teaspoons baking powder
½ teaspoon salt
¾ cup maragarine
1 cup sugar
3 eggs
2-3 cup milk
1 teaspoon vanilla extract
½ cup finely chopped walnuts

Sift together flour, baking powder and salt. Cream margarine until soft. Gradually add sugar, creaming until light and fluffy. Add unbeaten eggs, one at a time, beating thoroughly after each addition. Stir in vanilla extract. Add flour mixture and milk alternately, starting and ending with flour. Mix until just smooth after each addition. Fold in chopped nuts. Turn into loaf pan that has been greased and lined with waxed paper. Bake in moderate oven (350 degrees F.) 1 hour and 15 minutes. Cool in pan or wire rack 15 minutes. Remove from pan and peel off waxed paper. When cool, frost with creamy frosting and garnish with walnut halves.

CREAMY FROSTING

¼ cup margarine
Pinch of salt
2 cups sifted confectioners' sugar
3 tablespoons cream or top milk
1 teaspoon vanilla extract.
18 walnut halves

Stir or beat margarine and salt until creamy. With spoon or electric beaten gradually mix in ¾ cup confectioners' sugar. Beat until fluffy and light. Add remaining sugar and cream alternately while beating. Use only enough cream or top milk to make frosting of spreading consistency. Stir in vanilla extract. Spread on cake. Garnish with walnut halves.

If the family is fond of pineapple, pineapple cream cake with the fruit baked in is sure to delight them. It's a feathery, fine-textured cake that keeps fresh and moist for days and days. It keeps well, too—if there's any of it left to keep.

PINEAPPLE CREAM CAKE

½ cup butter or margarine
1½ cups sugar
1 teaspoon vanilla
1 cup crushed pineapple with juice
2½ cups sifted cake flour
2½ teaspoons baking powder
⅛ teaspoon salt
¼ cup water
3 eggs, separated

Cream butter or margarine. Add sugar gradually while continuing to cream. Add vanilla and pineapple. Mix and sift flour, baking powder and salt; add alternately with water. Beat egg whites stiff; fold in. Bake in two greased and floured 8-inch layer cake pans in moderate oven (350 degrees F.) 35 to 40 minutes. Cool. Fill and top with golden whipped cream. Garnish with bits of drained crushed pineapple.

Golden Whipped Cream

Whip one cup heavy cream until thick and fluffy. Add 3 egg yolks one at a time, beating just enough to blend after each addition. Fold in 3 tablespoons very fine sugar and ½ teaspoon vanilla.

The apple season is here, and with it the opportunity to take advantage of the sweet, juicy fruit. A dessert that captures the flavor of apples is apple bran cake. A perfect climax for the autumn meal, the cake is equally good with afternoon tea or coffee.

APPLE BRAN CAKE

½ cup shortening
1 cup sugar
1 egg
½ cup bran
1 cup coarsely grated raw apple
1½ cups sifted flour
¼ teaspoon soda.
2 teaspoons baking powder
1 teaspoon salt
½ teaspoon cinnamon
½ teaspoon cloves
½ cup cold coffee
1 teaspoon vanilla

Blend shortening and sugar thoroughly; add egg and beat well. Stir in bran and apple. Sift together dry ingredients; add to first mixture alternately with coffee and flavoring. Bake in greased muffin pans or square pan in moderate oven (375 degrees F.) about 30 to 40 minutes. The yield, from 8 by 8½-inch pan, is 12 squares.

TOPPING

1 tablespoon butter or margarine
1-3 cup powdered sugar
½ teaspoon cinnamon

Blend butter, sugar and cinnamon thoroughly. Remove cake from oven five minutes before complete baking time and spread lightly with topping. Return cake to oven to finish baking.

Spicy cake, with creamy lemon-apple sauce filling spread between the layers, is a mouth-watering reminder of the cakes grandma used to make. To make it the cook starts out with a package cake mix or she may use her own recipe for making the two layers of spice cake. Between the layers goes a good, old-fashioned filling of canned apple sauce and lemon.

The top of the cake may be left plain, or given a fancy touch with confectioners' sugar and a lacy doily.

APPLE SAUCE SPICE CAKE

1 package prepared spice, or white cake mix
1-3 cup sugar
1 tablespoon cornstarch
1 cup canned apple sauce
1 egg
1 tablespoon butter, or margarine
1 teaspoon grated lemon rind
2 tablespoons lemon juice
Confectioners' sugar

Prepare spice cake according to directions on package. Bake in 2 layer cake pans. Combine sugar, cornstarch and apple sauce. Cook until thick and clear, stirring. Remove from heat and add a small amount of mixture to the slightly beaten egg; return to rest of the mixture and cook one minute longer. Add butter, lemon rind and juice. Cool and spread between cake layers. Sprinkle top with confectioners's sugar. The recipe makes one 8 or 9-inch cake.

It's too early for cranberry season, and the cook doesn't have to wait for it to make cranberry spice cake. She merely adds 1 cup canned whole cranberry sauce to other spice ingredients.

CRANBERRY SPICE CAKE

3 tablespoons corn starch
1½ cup sifted flour
¼ teaspoon salt
1½ teaspoons soda
½ teaspoon cinnamon
⅛ teaspoon cloves
⅛ teaspoon allspice
½ teaspoon baking powder
¼ teaspoon nutmeg
½ cup shortening
1 cup white corn syrup
1 egg, beaten
1 cup raisins
½ cup nut meats
1 cup canned whole cranberry sauce

Sift together corn starch, flour, salt, soda, baking powder and spices. Cream shortening and white syrup; add egg and mix thoroughly, Add raisins and nuts; mix. Alternately add dry ingredients and cranberry sauce; mix thoroughly. Pour into two greased (8-inch) layer cake pans. Bake in moderate oven (375 degrees F.) 35 to 45 minutes. When cool, frost with any desired frosting. The recipe makes two 8-inch layers.

Latest piece de resitance for spice cake and coffee is a cream cheese frosting in one of its many variations. This recipe is for vanilla flavor.

VANILLA FROSTING

1 3-ounce package cream cheese
1 tablespoon milk
2½ cups sifted confections' sugar
½ teaspoon vanilla

Blend the cream cheese and milk Add sugar gradually, blending in well. Add the vanilla and mix again.

Mrs. Margaret Parker, 23, her face twisted in anguish, tells a coroner's inquest in Chicago of circumstances leading to the death of her daughter, Barbara, 3. The jury recommended her husband, Thomas, 27, be bound to the grand jury in the fatal beating of the child. This dramatic picture was made by Robert Stiewe of the Chicago Daily News.

. . . yet enjoy the richest coffee of all.

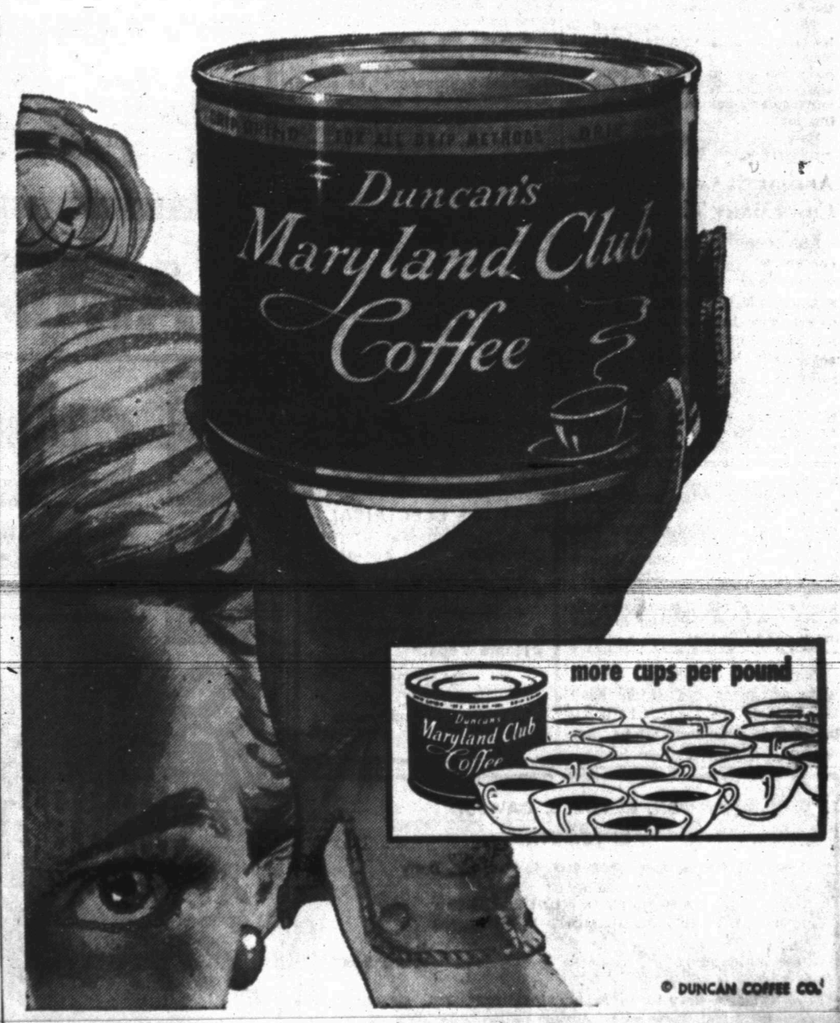

Smart housewives know that the *true* cost of coffee is measured by the *number of cups* a pound of coffee makes . . . not by the price they pay for it in the store.

Good coffee today costs at least two cents per cup. But with Maryland Club, because of its extra richness . . . you can use less to make each flavor-rich cup . . . get 10 to 15 more cups out of every pound . . . thus you can actually* save up to 25c per pound.

Try Maryland Club and discover for yourself how really good coffee can be . . . and how economical, too! Buy coffee the *smart* way and save up to 25c a pound . . . buy Maryland Club!

RODEO WINNERS

Harry Tompkins (left) of Dublin, Tex., and Harley May of Deming, N. M., wave their hats atop fancy tooled saddles they won competing in Rodeo Championships at Madison Square Garden in New York. Tompkins won the bull riding events with 2683 points. May, a graduate of Sul Ross State College of Alpine, Tex., won the steer wrestling championship and about $8,000.

Hungarians Use Pressure For Securing Loans From Citizens

BUDAPEST, Hungary (AP) — Hungary's Communist government has just completed its third "peace loan" drive. The finance minister announced that 1,752,683,200 forints ($145,472,706) was subscribed.

There was little difference between this and the state loans raised every fall since 1949. But "the enemy" was attacked in the press more sharply than ever before.

The first day of the drive the newspaper Esti Budapest singled out one Laszlo Csiszar, a turner in the Beloyannis factory (former subsidiary of the International Telephone and Telegraph Company), who was charged with persuading other workers not to subscribe.

Before long, the paper said, Csiszar's desk was heaped with "Bible commentaries and various mystic trash" (presumably by more loyal workers who objected to his activities).

Similar articles followed every day. "The enemy" apparently was present in an appalling number of industrial plants. It usually turned out that he or she was the offspring of a kulak (rich farmer), a former reactionary element disguised as a worker, or a "rightist" Social Democrat who had wormed his way into the ranks of the workers.

The press described how summary courts of workers brought a quick end to the activities of such. Meetings were summoned in the factories, someone made a speech unmasking the unhappy character, a board was fastened to his back labeling him "enemy" or "traitor," and he was shoved outside the factory gates.

There was another means of mild pressure this year. The caretakers of apartments got orders to put up a board at the entrance of the house listing the name of all adult tenants, together with the amounts they had subscribed. Naturally no one liked to see his name listed with a blank under the "amount" column.

The subscription is supposed to be strictly on a voluntarily basis. Nevertheless, practically everybody who has a job or a pension, and even housewives who have no independent income, subscribe to the loan.

How the state loan affects the pocket of the average working man may be seen from the example of a low level clerk drawing 1,000 forints a month. If he subscribes a full month's salary, his monthly salary from October through July will amount to 875 forints. One hundred forints will be deducted for his peace loan installment, 10 forints for income tax and 15 forints for trade union dues. Union dues have to be paid by everyone, whether manual or white collar worker.

Anti-graft Campaign Costs Many Their Jobs

LONDON (AP) — Britain lifted a corner of the security blanket around her latest jet aircraft engine today, disclosing it produces twice the power of an ordinary jet while using less fuel. Exact details, however, are still top secret.

The Rolls Royce unit—known as the Conway—gives an extra boost for quick takeoffs and was designed especially for use in long-range heavy bombers and passenger aircraft.

The Conway is the world's first "by-pass" engine. It produces its double power by introducing part of the air drawn into the engine directly into the exhaust, instead of driving all of it through the combustion chamber. In ordinary jets, all the air intake goes directly into this chamber for use in burning the fuel.

The surnames Johnson, Brown, Williams, Jones and Miller have been among the leaders in popularity in the United States but ranking behind the name Smith.

Another Top Virginian Is Against Adlai

RICHMOND, Va. (AP)—With two of its "Big Three" sitting out the presidential campaign because they don't feel they can endorse the Stevenson-Sparkman ticket, the Virginia Democratic organization today faced one of the biggest splits in its ranks in recent years.

Former Gov. William M. Tuck last night joined Sen. Harry Byrd in calling Gov. Adlai Stevenson a candidate of "Trumanism."

The third member of the "Big Three," Gov. John S Battle, has come out for Stevenson and has made a speech in the Democratic presidential nominee's behalf.

While Tuck, like Byrd, did not come out directly for the Republican candidate, Gen. Dwight D. Eisenhower, he did mention him in a state-wide radio address—something Byrd did not do. Tuck said:

"Candor compels me to say that the Eisenhower platform in many vital particulars as well as the Eisenhower candidacy more nearly conforms to the traditional principles of the Democratic party than does the Truman platform or the Truman candidate."

Tuck, who resigned Aug. 28 as Virginia Democratic chairman because he was unwilling to commit himself on the presidential race, said he had hoped to remain silent.

"But now that Stevenson has embraced Trumanism," he added, "I cannot be true to myself and those near to me ... without speaking out firmly, particularly in the light of the dangerous situation which confronts us."

The disagreement over the presidential campaign has caused a bigger rift among Virginia Democrats than opponents of the Byrd organization have been able to bring about in the last 15 years.

Many lower echelon members of the Byrd organization came out for Stevenson before Byrd made his speech, and most of them have reiterated their support of the national ticket despite the stands of Byrd and Tuck.

Others, including two members of the State Senate and several in the House of Delegates, have been campagining actively for the Republican ticket within a state-wide organization of "Democrats for Eisenhower."

HER BABY CAN SEE

Little Georgia Brown, one of a set of British quadruplets, born without sight almost two years ago, reflects her mother's happiness after being able to see for the first time in her young life. One of the quads died shortly after the premature birth and the other two, a boy and girl, still are in a home for the blind. Neighbors in Bromley, Kent, joined the Brown family in a daily prayer session for the sight of the surviving quads.

Blind Radio Technician Is Teaching Others How To Work

OMAHA (AP) — You don't find many success stories about blind men, but when you do they are likely to be pretty spectacular.

Take the case of a determined red-haired kid at the Idaho School for the Deaf and Blind.

To young Lavon Peterson, success meant two things: learning to be a radio repairman and being able to live like those not handicapped by blindness.

But who ever heard of a blind man mastering the intricacies of a finely wired radio circuit, ferreting out troubles that could only be traced by delicate meters and making pin-point repairs with a scorching soldering iron?

Today, at 33, Lavon Peterson has found a substantial measure of success.

He has proved that a blind man can make a living repairing radios, even teaching others how to do it. And he's gone a good deal further in giving other blind men a chance at a better living as radio technicians.

Peterson created quite a stir seven years ago when he established his Radio Engineering Institute here and enrolled three blind students in radio technicians' courses.

Today the school has 85 students. In seven years it has graduated between 700 and 800. About 200 of them were blind, about as many more had other handicaps.

Of the blind ones, Peterson says, "A strong 70 per cent are making a living at it."

Only eight of the students today are blind. The rest come to Peterson's school simply because its a good place to learn practical radio and television mechanics.

"We put the emphasis not so much on theory as on servicing the manufactured article," Peterson explains. "The students learn by doing regular service jobs. In big schools, they can't do that."

Peterson, blind since birth, began picking up a working knowledge of radio as a 12-year-old hanging around a radio repair shop. He added to it by asking questions, experimenting, reading braille and absorbing what was read to him.

By the time he went to college for some work in physics and math, he was running a part-time radio repair business on the side.

When the war started Peterson was operating his own business but moved over to the Omaha Electronics School for Soldiers and Marines as a teacher.

In a pitch-black room, the servicemen learned how to repair field radio equipment under battle conditions. Meanwhile an idea was beginning to jell in the instructor's mind.

Why couldn't the blind be taught this same thing—and more? Why couldn't the way be opened for them as Peterson had opened it to himself, to a better living?

In 1945, with a couple of sighted fellow instructors who joined him in the project, Peterson started the Radio Engineering Institute in the basement of the Omaha YMCA.

By this time Peterson had licked one of the problems that led others to throw cold water on his own radio ambitions. He had devised testing equipment that combined sound and touch to tell the blind technician what the sighted radioman learned from his meters.

Gradually the Veterans Administration, various state and rehabilitation departments and the Army gave their stamp of approval to the school.

Peterson acquired a couple of new partners and the school moved from the basement of the "Y" to a building of its own.

Peterson, his wife, who also is blind, and their three sighted children live pretty much like other people in a bungalow they are buying in a pleasant suburban neighborhood.

Arms Being Pushed To Whites In Danger Areas Of Kenya In Africa

LONDON (AP)—The British government today lifted its strict ban on carrying arms in civil aircraft so that rifles and revolvers can be flown to frightened white settlers in Kenya.

Gunsmiths in Nairobi, capital of the British East African colony, cabled that their stocks had been depleted in the past few days as Europeans rushed to arm against possible outbreaks of African violence. The city has been in a state of emergency since Tuesday, when police began a roundup of members of the Mau Mau terrorist organization.

The Mau Mau, which has been waging a war of violence and arson against non-sympathetic Africans since last summer, avowedly aims at driving white settlers out of Kenya.

Senator Ferguson Is Hit With Indigestion

CADILLAC, Mich. (AP)—Sen. Homer Ferguson (R-Mich) was expected to be released from Cadillac Hospital today after treatment for what doctors termed an attack of acute indigestion.

Ferguson suffered the attack last night at a Republican party banquet at Luther, Mich., 20 miles southwest of here.

The Michigan senator, on a two-day tour of northern state communities, was forced to cancel a scheduled speech here last night.
