Emergency Relief In Drouth Stricken Area Asked In Building Lateral Highways

17 Counties Are Included

None Of The Funds To Be Used On State Or Federal Designated Roads In Panhandle

Detailed estimates were completed at Amarillo late Monday by representatives of 17 drouth-stricken counties of this section who worked throughout the day with Sen. Clint Small and W. J. Van London, state highway division chief on emergency lateral road projects which will be submitted to the Texas Highway Commission at Austin for approval to Washington.

The counties in the stricken area were asked to outline road projects, other than federal and state designated routes, which they need and as appeal will be made to the government to provide quick relief funds from the federal relief budgets to carry this section over until next harvest.

Ochiltree county, although, not represented at the meeting, was included in the relief program and application for \$300,000 to be spent for lateral roads in this county was made.

Cost Estimated

After the meeting in the morning in which the lateral road proposition was explained the representatives immediately went into detailed figures on estimated cost of labor, mileage and location and connections of the roads with each other, market centers and railroads.

Potter County asked for 63.5 miles of which it asks that 55 miles be hard-surfaced with caliche and topping. Commissioner Frank Buckingham will be this county's delegate to Austin. Senator Small was elected to head the delegation to Austin. He left Monday night.

Mr. Van London could not give total figures on mileage of estimates of cost of projects immediately but will attempt to make a complete estimate on the cost of labor for the 17-county programs first, he said. The relief road work is for stricken farmers as well as other unemployed in the towns.

U. S. Funds Available

The money has not been provided but the government has asked this section to make application for it and chances are good that it will mean quick relief. The money coming from federal relief funds and not from the regular \$25,000,000 highway fund which already has been set up and in most cases already allotted for main federal projects.

James O. Guleke, Amarillo attorney and member of the county relief commission, presided and talks explaining the situation were made by Congressman Marvin Jones representing the government, Sen. Clint Small and W. J. Van London, highway division official, representing the state's attitude and by William C. Hawk and Julius Dorenfeld.

The highway commission and state relief commission must approve the project applications and they will be sent to Washington for similar approval there and the relief funds are allowed, work

Grant Time Extension

Period For Making Feed Loans Extended To August 15 According To Request

The period for making feed loans by farmers in the south area of the Panhandle has been extended to August 15, according to word received this week by Congressman Marvin Jones.

Mr. Jones recently requested that the extension of a month be made in the feed loans, and in compliance received a wire from Owen Sherrill, manager of the Dallas district for federal relief loans, who is now in Washington, saying: "Feed loans for Panhandle drouth area extended to August 15."

AMARILLO LOAN OFFICE OPENS

HOME OWNERS' LOAN CORPORATION OPENS BRANCH OFFICE IN AMARILLO THIS WEEK

The Amarillo branch of the Home Owners' Loan Corporation was installed in permanent offices at 305-307 Polk Street, Monday morning with J. C. Anderson, Jr., former Amarillo banker, in charge as manager of the Amarillo district.

Other district offices are located at Houston, San Antonio and Dallas.

Preliminary Work Now

Work preliminary to the acceptance of loan applications will occupy the local staff until arrival of application blanks expected this week.

The Home Owner's Loan Corporation is a unit of the general plan to restore prosperity being fostered by the Roosevelt administration. It was created to relieve mortgage pressure on home-owning citizens now in distress.

Long Payment Plan

Negotiable corporation bonds will be issued to mortgage holders and the mortgages refinanced on a long payment plan. Funds thus freed will be available for renewed building activity.

Applications will be rushed through as fast as possible upon receipt of application blanks. Delays however, will probably occur due to the initial large volume expected to flood the office, Anderson said.

Purpose of Loans

According to a bulletin issued by the national government, the Home Owners' Loan Act was enacted "to provide emergency relief with respect to home mortgage indebtedness, to refinance home mortgages, to extend relief to the owners of homes occupied by them and who are unable to amortize their debt elsewhere."

Loans, the bulletin stipulates, are not to be made where the need is

FERGUSON FOR AMENDMENTS

FORUM URGES ADOPTION OF ALL FIVE CONSTITUTIONAL AMENDMENTS ON AUG. 26

"We're agin 'em", long the battle cry of the Ferguson Forum, of which former Governor James E. Ferguson is editor, has changed to "We're fur 'em all", according to the recent issue of the publication which urges the adoption of all five of the constitutional amendments to be submitted to Texas voters on August 26.

Repeal and Economy

Urging ratification of repeal of the 18th amendment, Ferguson wrote: "The greatest mistake in every election is for anybody to be overconfident. Just remember that Texas is the home of Senator Shepard, the father of the 18th amendment, and many people will turn out and vote against repeal out of respect for him, and if our friends stay at home the election may be lost by neglect."

As to the home rule amendment, "The Forum thinks this is good legislation. . . It is in the interest of economy."

"The Forum has always opposed the issuance of bonds", continued "Jim, the editor." "But circumstances alter cases. . . It is our duty as a Christian people to care for the unfortunate and feed and clothe the hungry and the naked."

The former governor figured that the \$20,000,000 relief bond issue, plus the interest for a 10 years period would mean an average yearly debt of 50 cents for each of the 6,000,000 people in Texas.

He urged legalization of 32 beer "in the interest of temperance," and adoption of the homestead exemption amendment as a safeguard of "the foundations of this republic."

Dry Speakers Coming

Prohibition Auto Train Here Friday At 8:00 P. M.; Has Loud Speaker Arrangements

The Prohibition automobile train, equipped with loud speakers, is scheduled to be in Perryton on Friday evening, July 28, at 8:00 o'clock, according to announcements received this week. B. D. Sartin, Wichita Falls, and other prominent dry leaders will speak during their stop here.

Mr. Sartin, who was scheduled to appear personally at the dry rally at the school auditorium last Sunday evening was unable to attend and substitute speakers were arranged for the affair which drew a large crowd.

Mrs. Ethel Howlett was in Shattuck, Okla., Sunday and Monday and underwent a minor operation at the Shattuck hospital.

R. F. C. GARDEN PRODUCE FOOD FOR CANNING

Six To Seven Ladies Employed Daily At Canning Kitchen During Past Weeks

Can Over 4,000 Pints

Average Of Twelve Men Employed At R. F. C. Garden; Planting Second Crop

Proving two of the most successful community relief projects ever attempted here, the R. F. C. Garden and the Chamber of Commerce Canning Kitchen are providing employment for around twenty people while yielding large quantities of wholesome fresh vegetables for distribution and creating a store of canned products to be issued out this winter.

The community canning kitchen, which is being operated by the Chamber of Commerce under the supervision of Miss Dyora Crowder, home demonstration agent and Mrs. I. H. Sharpe, is employing between six and seven ladies every day in the preparation and canning of vegetables and meats.

Vegetables From Garden

The two projects are working so closely together that they are almost inseparable. Fresh vegetables from the garden are being furnished the kitchen every morning. The ladies prepare and can the vegetables and place them in storage for use this winter when fresh goods are not available. Already the store room at the kitchen contains over four thousand pints of canned goods, put up in tin.

Included in the stored goods are beets, carrots, beans, black eyed peas, okra, squash, greens of various kinds, chicken, pork and beets and plums. Of the more than four thousand pints canned, only five cans have spoiled, the cause being faulty sealing.

No estimate of the value of the canned goods has been determined, but it all represents a big saving. Before the kitchen was installed, the products from the garden was given away to anyone calling for it in order to dispose of it without waste. Now only those entitled to assistance are obtaining fresh goods at the garden, the surplus being preserved in the kitchen.

Are Replanting Garden

E. W. Witt, I. H. Sharpe and County Agent G. R. Sheets are the men in charge of the big R. F. C. garden and on an average, twelve men are finding daily employment in the seven acre plot which is so ideally located among the trees at the city park. Water for the garden is provided by the city.

The picked over portions of the garden are being replanted and a

WORKMEN BUSY IN STORM AREA

LOCAL MEN FIND EMPLOYMENT IN REPAIRING AND RE-BUILDING STORM WRECKAGE

Contractors, carpenters, painters, plasterers and paperhangers are finding plenty of employment in this area at the present time, repairing and rebuilding the damaged homes and business buildings in the storm area, but a warning is being sent out that only home workmen will be employed.

While many of the insured buildings have been adjusted and settlement made, it is thought that practically all of the others will be finished within the next few days. Only in a very few cases has it been found impossible to reach satisfactory settlement and probably a few cases will be arbitrated.

Sounds Were Once Familiar

The continual music of hammer and saw over the city, a sound so familiar here a few years ago when the city was undergoing such rapid construction, is again being heard on every side and speaks of the activity which will last for a few weeks more. Many of the structures that were not insured have already been repaired and rebuilt and scores of workmen found employment in this line of work during the past two weeks.

Ladies Night Affair

Lions And Ladies Welcome Return Of President W. B. Irvin On Tuesday

About thirty Lions and Lionesses assembled Tuesday evening at the Coffee Shop, to welcome President and Mrs. W. B. Irvin back to the city following their absence.

A splendid program was arranged for the affair, including a vocal number by Mrs. R. P. Hurn, a fine talk on Lionism by Mrs. W. B. La-Master and vocal duet by Mrs. Carl Ellis and Mrs. C. E. Whippo. Mrs. Jas. W. Wilson was accompanied for the musical numbers.

Lion Irvin, presiding over the meeting, extended a warm welcome to the ladies and promised them another entertainment in the early fall in the form of an old fashioned picnic, with the men supplying the "picnic lunch". Regret was expressed that so many members of the club were unable to attend because of conflicting engagements and vacation trips.

WE THANK YOU!

SIX-YEAR OLDS MAY ENTER LOCAL SCHOOL

Many people have asked whether the children of the Perryton Independent School district who will be six years old by September 1 will be allowed to enter school this fall. The answer is yes, according to Supt. W. B. Irvin.

The Senate passed the bill excluding the six-year olds but when the bill reached the House it was killed. Consequently six-year old children may enter the schools of the district as usual on September 4 when the fall term opens.

GRANITE WINS BY KNOCK OUT

CHET ATKINS DOWN FOR TEN COUNT IN FOURTH ROUND OF TEN ROUND MAIN GO

Chet Atkins, Woodward, Okla., found his match and then some in the scheduled ten round main go on the Perryton Athletic club boxing card, Tuesday night with the Woodward fighter going down for the ten count after being a target for the well placed blows of Kid Granite, Granite, Okla., for three and a half rounds.

Appearing before one of the best crowds ever assembled in the club rooms, the two popular fighters started from the first going with potential hay-makers.

Knew End Was Near

Fight fans were prepared for the inevitable knockout early in the third round when Atkins went down for a nine count and again later in the round when he took another nine count rest, Granite coming out strong in the fourth to end the fistic combat.

It was evident that many of the fans were of the opinion that Atkins was stalling judging from the boos directed at the fighter but if he wasn't "out" he had every right to be after taking all the body blows and uppercuts the Kid landed on him in rapid succession and near the end with apparently no attempt on Atkins' part to block them.

Atkins was handicapped with a bad left arm, injured in a recent bout with Earl Barthone, the "Fighting Clown", who performed here some time ago. If all it was a good bout but ended a little too soon for the enjoyment of the fans.

Preliminaries Were Good

In the semi-final Jack Anderson, 125, took a six round bout decision from "Rabbit" Davis, 129 pounds, Liberal, Kans., by a very scant margin. While the boys were nearly matched in weight, Anderson had a decided advantage of reach on the short, chunky Davis, rushing him

14TH BIRTHDAY CELEBRATION IS ANNOUNCED

Dr. G. J. Budd Is Celebration Manager Annual Affair; Holds Many Attractions

Celebration Events Free

Kid Races And Contests, Free Baseball Game and Rodeo And Boxing Bout Offered

Perryton's fourteenth birthday on Tuesday, August 22, will be fittingly observed it was announced this week by Dr. G. J. Budd, manager of the annual Chamber of Commerce celebration. As formerly, all attractions of the day will be free.

A splendid days program has been tentatively outlined by the celebration committee composed of Dr. G. J. Budd, Geo. Leatherman, Ed Littleton, Carl Ellis, Howard Holt, M. R. Coffee, H. C. Sanford and J. L. Donley.

To Hold Unique Rodeo

Featured on the afternoon program will be a ball game between two good teams. M. R. Coffee is in charge of the event and is making an effort to secure two snappy teams for the event, offering a large cash prize for the winner.

An innovation on celebration programs will be an "old-timers" rodeo which should offer plenty of sport and amusement for the crowd. Carl Ellis and Sibley Jines are in charge of the event and while they have not announced all of their rodeo rules, have indicated that the only ones eligible to enter will be "old-time" cow men who have been out of the saddle a considerable length of time. The rodeo will include calf roping, wild cow riding and other events. Suitable cash prizes are being offered.

The morning session will include the usual kid races and contest for the youngsters, with cash purses offered in each event. Guy R. Sheets and Howard-Holt will be in charge of the events and promise plenty of fun for the youngsters.

Boxing Bout In Evening

In the evening, H. C. Sanford and Kenneth Rayzor will stage a big free boxing exhibition on Main Street as the closing number on the Chamber of Commerce celebration program. The ten round main go event has already been matched between Mozelle Thompson, Dalhart, and Ray Thomas, Supply, Okla. These two boys went a splendid ten round go here recently on the Perryton Athletic club boxing card with a decision so close that it was questioned by many fans. Suitable preliminaries and specials will be provided to complete the card.

Assurance has already been obtained that there will be at least two bands present for the celebration, the Perryton band and the band from Guymon, Okla., to furnish music for the event. Portable loud speaker equipment has been secured to assist in the program during the day and ice water will be obtainable at convenient places on Main Street and at the ball park and rodeo ground.

Legion Giving Dances

Tentative plans, announced by Ray Thomas and J. L. Donley call for two big dances, one on Monday evening and the other on Tuesday night at Donley's Hall. Contact is being made with three of the leading orchestras in the southwest and one of them will be selected for the occasion. The American Legion will be in charge of the event it is understood.

Explains Domestic Allotment With Simple Example

A rough idea of how the domestic allotment plan for aiding wheat farmers is intended to work out in practice is given by Texas A. and M. College Extension Service officials in the case of the well known John Doe.

John's three year average (1930-31-32) of wheat production has been 12 bushels per acre on 100 acres. If he signs the three year contract with the Government to reduce his acreage for 1934 and 1935 as directed by the Secretary of Agriculture he will be paid this fall and next spring an extra 30 cents per bushel in the domestically and humanly consumed portion of 1200—the three-year average production. John's wheat, however, blew out in the high spring winds and he harvested no wheat at all this year. This doesn't matter. He will get his payments just the same, for the wheat plan includes this crop insurance feature.

The Administration has decided that 50 per cent is the portion of the 1933 crop that will go into domestic human consumption. This means that John would be paid 30 cents per bushel for 600 bushels, \$120 soon after September 15th and the remaining \$60 next spring.

Now suppose, in the fulfillment of his contract, the Secretary orders John to reduce his planting this fall 20 per cent under his three-year average. John's three-year average has been 100 acres, yield 12 bushels. Cutting off 20 per cent would indicate a 1934 yield of 960 bushels. If 50 per cent is declared again as the portion domestically and humanly consumed in the United States, John's allotment—the part on which he would be paid in the fall of 1934 and spring of 1935 the equivalent of any processing taxes levied next year—would be 480 bushels. He would have to plant 40 acres to produce this amount, 40 acres at 12 bushels per acre, and as much more as he de-

sires up to 80 acres. His 1934 payments would be made on this 480 bushel allotment. What they would be no one can say for no one knows what the processing tax for the 1934 crop will be. That point will be determined by the cents per bushel that will have to be added to the 1934 wheat price to bring wheat prices up to the general price level.

The same process would be repeated in 1934-35. At no time can the Secretary of Agriculture order a cut of more than 20 per cent. It is said that the cut this fall will probably be 15 per cent.

Now when John signs his three-year contract (it gives three years of benefits in exchange for two years of acreage reduction) he at once becomes a member of his county wheat production control association. He would have a part in electing the executive committee of this organization. He would report his three-year average yield and acres to the committee and they

would have it published along with all the others in the local newspapers. If John's neighbors protest that he is out of line in his statements the committee would have to check up on him. If the sum of all the individual farm allotments in the county (unsigned acreages taken into account) exceeds the county allotment, the association would have to make adjustments of all acreages. The cost of all this local work is estimated to amount to an average of about 2 cents per bushel, and would probably be deducted in some way from John's payments.

Should John fail to keep his contract next year the Government would declare his 1933 payments liens against his future crops and collect it back. If he should sell or rent his farm his successor would have to carry out the contract. But if John is loyal in living up to his contract and farms his allotted acres in a workmanlike manner he will get payments whether he makes a

crop or not.

Extension Service officials point out again that the plan in its present form would discriminate against many Texas farmers because state and county allotments are based on five-year averages while the individual farm allotment is based on three years. Wheat acreages in Texas are increasing, they explain, and hence Texas would have to reduce an average of 28 per cent under the 1932 acreage if a 20 per cent cut were ordered. In 45 of the 65 counties that produce 100,000 bushels or more per year, farmers would have to cut 25 per cent or more if a 20 per cent cut is ordered. A brief has been filed with the Administration pointing this out and asking for readjustments of the plan.

An educational campaign to explain the plan and organize county wheat production control associations will probably be started by county agents sometime about mid-August, Director O. B. Martin of the Extension Service says.

How 20,000 Die Every Year on Our Highways

As bad as war. Automobile accident deaths in 1932 are conservatively estimated at 20,400, a death every 25 minutes every day, every night. In the American army during the war one soldier was killed in action or died from wounds every 24 minutes during our participation.

One killed, 2 seriously injured in Jersey crash due to faulty lights. Leading mechanical causes of motor murder are defective lights, blamed for 28 per cent of deaths caused by defective mechanism and operating as a cause only half the time, in hours of darkness.

Lower left, a skidding accident in Detroit killing one and seriously injuring another. Skidding or failure to use chains causes 11 per cent of deaths caused by mechanical defects, a figure that could be reduced by ordinary precautions. Lower right, the car in the china shop at Mercer, Pa. Defective brakes caused 19 per cent of the fatalities due to mechanical failure in 1932. The "big three" mechanical causes of motor murder in 1932 were skids, bad brakes, and defective lights, with faulty lights leading list. Headlight glare is largely responsible but defective tail lights are also blamed. Of 1,530,583 cars officially inspected in Pennsylvania, 270,714 had faulty steering mechanisms; 547,203 had defective brakes; 738,703

had defective tires; and 1,119,932 had defective lights. Only 312,344 cars, less than 21 per cent, were in good condition. Negligence of equipment is accountable for many deaths, but the reckless driver, Public Enemy No. 1, is blamed for 40 per cent of accidents involving deaths, and Professor W. Sherman Smith of the University of Toledo said he found in a special study that 85 per cent of fatalities were due to "poor judgment of driver." Experts agree that next forward step in design must be in glare-proof, fool-proof lighting systems, but more important than any mechanical improvement would be elimination of negligence and carelessness. Death toll in 15 years was 325,000, more than killed in all our wars.

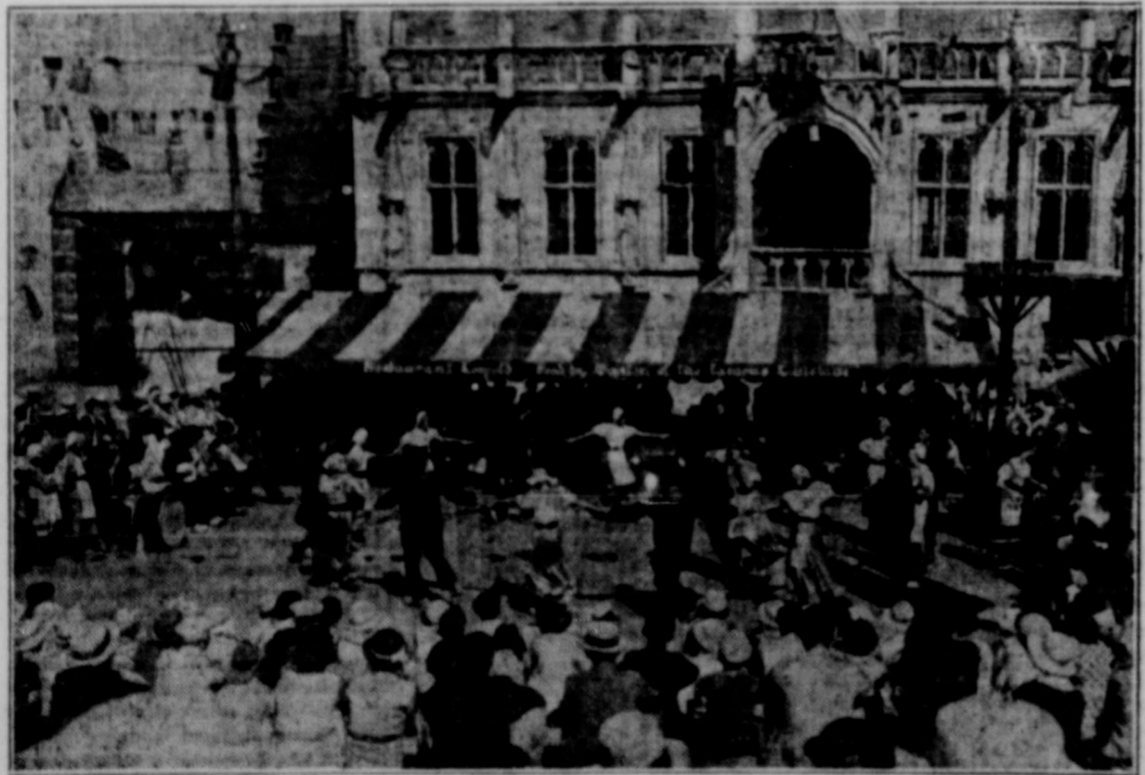

IT'S LUCKY DAY FOR WORLD'S FAIR VISITOR CHOSEN FOR KISSING GAME IN BELGIAN VILLAGE STREET SHOW

CHICAGO, July 20.—Kisses are words in a universal language. Perhaps that explains why thousands of visitors to the Chicago World's Fair—A Century of Progress—roar their applause to the colorful street festival that daily makes the market square of "Picturesque Belgium" one of the gayest and loveliest spots of the Fair. Nestling intimately in the heart of this Belgian Village, with its houses and chapels and shops built from actual moulds of Old World buildings that date from the 13th century, is an outdoor stage, surrounded by dining tables and beer garden balconies, and terminated by a broad expanse of cobblestone steps leading upward to a cluster of hillside shops and the setting sun.

At given breaks in the music they kneel, and first he kisses her, then she kisses him. Dancers of the circle follow suit. Game Pleases Crowd. It's great fun, but the big laughs are yet to come. There is a pause in the music. One of the peasant boys leaps from the circle and takes the hand of a girl selected at random from the audience. Then she must become his partner in the center of the dance. When the dance is over, all the boys rush to initiate the new dancer with their kisses, much to her embarrassment and to the amusement of the onlookers. The scene is then repeated with a boy in the audience. After the show coins rain from the seats of the amphitheater and the dancers are thrown into a mad scramble for the money, more than often with comic results.

When visitors leave the kissing game, they are sure to have become genuine admirers of the Belgian Village, and are ready to accept the more serious beauty of it in a proper mood. Display Famed Painting. There is plenty of beauty about the historic old buildings. Here is Antwerp's St. Nicholas church, built in 1450 as a chapel of the shoemakers' guild; here is a convent house from Diest, a home from Tournai, the house of the Hangman of Bruges (1300). There is the gateway where Napoleon spent his last night before Waterloo; there is St. Donatus bridge of Bruges in 1200, with its water mill and pond of swans; there is the beautiful city hall of Damme; in the distance the slim white watch tower "Pagode" of Antwerp. All about are guards, attendants, bar-maids and peasant girls in the authentic and gaily-hued costumes of the 16th century.

Hours without end may easily be spent in the dozens of quaint shops where Dresden China, laces, and other articles are sold, or in the shops of the glassblowers and "koper smids". Almost hidden away in a little building on St. Nicholas plaza is a quiet note of piety in contrast to the rest of the town, and one of the most important exhibits in the village. It is the world-famed painting, "The Crucifixion and Transfiguration of Christ," by Silvio Pagni, brought from the cathedral of Brussels. Valued at \$250,000, and the work of nearly 12 years, it is unique, in that the eyes of the Saviour appear to open to the holy light from heaven as the watcher gazes upon it. It is said to be the only painting wherein the artist has succeeded in representing both death and life eternal on a single canvas.

Belgian boys and girls in native costumes daily present folk-dances and songs in the street festival of the Belgian Village at the Chicago World's Fair. —A Century of Progress. Thousands gather on the cobblestone terraces to enjoy the delightful charm of the shows.

RE-ROOF before this happens—!

The storm did untold damage to roofs, both in the residential section and business section. If your roof leaked during the storm, it is almost sure to do so during the next rain and when the snow flies this winter.

Although your roof was apparently undamaged you will find that it will continue to leak. It will pay you to investigate now, get an estimate from us and have the work done before the fall rains set in and before winter comes.

WE WILL BE GLAD TO GIVE YOU AN ESTIMATE ON THE MATERIAL OR THE FINISHED JOB!

McLain-Beever Rites Spoken Thursday Morn.

The marriage of Miss Audrey Beever and Mr. Keith McLain took place Thursday morning at 7:30 o'clock at the home of Rev. J. M. Sibley pastor of the Baptist church of Perryton. The bride was attractively costumed in a beautiful fall creation of beige tulle and crepe with brown fur-trimmings and accessories of brown.

Mrs. McLain is the daughter of Mr. and Mrs. Ed Beever, 803 Southwest Fifth street, and is a graduate of the Perryton High school, where she was a popular student. For the past year she has been employed with the Public Service Corporation.

The groom is also a graduate of the Perryton school and has since been connected with his father in the farming business in the Taz community south of Perryton, where his parents, Mr. and Mrs. Sam McLain, have resided for several years. Immediately after ceremony, the young couple, with her mother and father, left for the Cheyenne rodeo, Yellow Stone National Park, and Takoma, Washington, where Mr. and Mrs. Beever will make their home.

After a three weeks trip, Mr. and Mrs. McLain will be at home to their many friends on his farm, the Buller place, south of town.

Can't Eat Can't Sleep Can't Work

A Sign You're Rerundown!

When your appetite has fled and you're so tired and nervous you can't even work, much less sleep, it's a sign you're rerundown. It may be due to overwork, worry or sickness, but whatever it is, your condition calls for a good tonic. There is nothing better than Grove's Tasteless Chill Tonic, for it is iron and tasteless quinine combined. Iron, as you know, is a noted blood builder, while quinine tends to purify the blood. Thus you get two effects of vital importance in any rerundown condition.

Old and young find new appetite, new strength and energy in Grove's Tasteless Chill Tonic. Try it for just three days and see the difference it makes in you. You feel like a new person. Grove's Tasteless Chill Tonic is pleasant to take and contains absolutely nothing harmful. Get a bottle today at any store.

OBITUARY

Marie Balzer Pauls was born to Mr. and Mrs. D. B. Balzer at Corn, Okla., on September 17, 1899, and passed away at Meade, Kans., on July 16, 1933 at 7:27 o'clock.

She was baptized and united with the Bergthal Mennonite church at Corn, Okla., in 1918 and later transferred her membership to the Bethel Mennonite church at Waka.

She was united in marriage to Mr. Jacob N. Pauls at Corn on September 17, 1922, and they moved to Ochiltree county and lived on a farm west of Perryton for eight years leaving there for Meade, Kans., where they resided at the time of her death. Four children, Elmer, Wesley, Irene, and Luella, blessed this union.

Other relatives beside the husband and children are the parents, Mr. and Mrs. D. B. Balzer, Waka, one sister, Mrs. Jake Peters, Meade, Kans., four brothers, Peter of Newport, Washington, David and Johnnie of Waka and Cornelius of Meade; and her parents-in-law, Mr. and Mrs. John Pauls and four children of Waka.

Funeral services were held at Meade on Wednesday morning at ten o'clock, conducted by Rev. Henry Karms and assisted by Rev. B. A. Wiens of the Bruderthal church and Sister Jennie Evans of the Full Gospel Mission.

The body was then taken to the home of her parents at Waka and on Friday afternoon, short services were held at the home at one o'clock and then beautiful services were held at the Bethel Mennonite church in charge of Rev. F. D. Koehn and Rev. A. J. Newenschwander of McPherson, Kans. Lovely musical selections were given by the young people of the church.

The body was laid to rest in the church cemetery, where it awaits the Resurrection Day. She has gone to her reward.

Mr. and Mrs. W. B. Irvin returned home Saturday from Breckenridge, where they have been the past few weeks visiting in the home of her sister.

INFANT KEEPS MAURICE CHEVALIER HOME NIGHTS

A new Maurice Chevalier—a Chevalier of bedroom slippers and fireside romancing—makes his appearance in "A Bedtime Story", latest of the French star's pictures, which opens Sunday at the Ellis Theatre.

Maurice is still gay and debonaire—but he keeps his gaiety and his debonaire manner near the hearth in this picture, instead of parading it about the world, as he has in the past.

He's cast as a Paris man-about-town who returns from a voyage abroad to find someone has abandoned a year-old baby in his automobile. His first reaction, which he immediately puts into effect, is to call the police to take the child away. But by the time the officers arrive, he has become so intrigued with the youngster that he has decided to keep it and raise it.

While he awaits the arrival of a nurse, he and his valet attempt to care for the baby. Their efforts lead only to confusion, but when the nurse, an American girl stranded in Paris, does arrive, order follows immediately.

The picture reaches an amusing climax when Chevalier takes baby, nurse, valet, et al., to the chateau of his fiancée for a weekend. The developments there almost lose him all, but he ultimately emerges with the baby and the nurse still in his possession, and the nurse no longer merely a nurse.

Helen Twilvetrees plays the nurse; Edward Everett Horton the valet, and Adrienne Ames one of Maurice's former flames. Baby Leroy, selected for the role from among thousands of West Coast babies, is the youngster.

Mr. and Mrs. J. B. Cartwright and Jerry and Suzanne were Sunday dinner guests in the Tom Hogland home.

Miss Kathleen Kelly has been confined to her bed the past week by illness. She is improving at present.

Mr. and Mrs. A. F. Foster and daughter, Geneva of Beaver, Okla., and Mrs. Foster's sister, Mrs. Geo. Halbert and sons, Jack and Bobby, of Wichita Falls, were in Perryton Friday and spent the day in the home of their cousins, Mr. and Mrs. Clyde Cofer.

Miss Mary Alice and George Neis had as their guests for Sunday dinner Miss Sarah Margaret Ruffrauf of South Haven, Kans., and George Schollenberger.

PRIZE RING CHAMP IS HOUSED BY ODD PAST

Jimmy Dolan, whose strange and melodramatic life story is pictured by Warner Bros. in "The Life of Jimmy Dolan," coming Friday and Saturday to the Ellis Theatre, is one of the most universally appealing characters ever brought to the screen. Brought up to believe that all who do things for others without exacting pay, are 'suckers,' he lives to find that there are more than one way of looking at life. All the family should see "The Life of Jimmy Dolan." Douglas Fairbanks, Jr. and Loretta Young are co-stars.

Mrs. Bertha Wells and son, Frederick, of Palo Alto, Calif., were guests Friday in the home of Mr. and Mrs. A. H. Nichols. They were enroute to New York City for a visit.

Mr. and Mrs. G. T. Rogers and Mr. and Mrs. Cleveland Russell and son were dinner guests Friday in the W. E. McMillen home.

Mr. and Mrs. Max Boyer and Mr. and Mrs. I. R. Buchanan were business visitors in Amarillo Saturday and visited in the home of Mr. and Mrs. Raymond Wheeler.

Mr. and Mrs. W. C. Sanders and Mrs. J. D. Sims left Sunday for San Angelo, where they will make a visit with their mother, Mrs. W. C. Sanders Sr., and Mr. and Mrs. Huddleston and family and attend to business.

Mr. and Mrs. Claud Allen and his brother, Henry Allen and Mrs. Allen of Liberal, Kans., returned Sunday from New Mexico, where they have been enjoying the past week fishing.

IN ANSWER TO A LADY'S LETTER

A lady writes to say that she does not understand why an 8-cylinder car does not cost more to run than a car with fewer cylinders. She refers to my statement that our Ford V-8 develops more power on a gallon of gas than any car we have made.

The use of 8-cylinders does not mean the addition of two or four extra fuel consumers. It is not, for example, a 4-cylinder engine multiplied by two. Our 8-cylinder engine takes the fuel supply of an ordinary 4-cylinder engine and divides it eight ways. And why?

By reducing four larger explosions into eight smaller ones, we get engine smoothness and quietness. Eight-cylinders indicate the way the gas is used, not the amount. It is just the difference between going upstairs in four long jumps or in eight ordinary steps.

Two things use up gas—bad engine design and useless car weight. Besides having an engine that gets a high percentage of power out of the fuel, the Ford V-8 has a light, strong body and chassis so that no power is wasted in moving excess weight.

The only extravagance about the new Ford V-8 engine is in the building of it. The extravagance is ours—the economy is yours.

The whole question of car economy needs clearing up. An economical car gives economy all round. Price, operation, upkeep, all play their part. If what you save on gas you lose elsewhere, that is not economy.

As to upkeep, our dealers say that in recent years the improved quality of Ford cars has cut down their repair business 50 per cent.

As to price with quality,—judge for yourself.

As to economy, here is the record of a stock car three weeks out of shop in Oklahoma:

On a run of 10,054 miles at the rate of 1,000 miles a day—the Ford V-8 gave 18.8 miles per gallon of gas. Not a drop of water was added to the radiator. The oil was changed once in 1,000 miles.

That should answer a lot of questions.

Plaintiff alleges the execution by defendants W. D. Tenney and Elsie E. Tenney of their \$3,000.00 note, dated January 17, 1924, bearing interest from date until maturity as provided therein, and due and payable on February 1, 1934, with interest payable annually on the 1st day of February of each year until and including the maturity of said note...

FIRST TRACT: Being all of Section 967, in Block No. 43, Certificate No. 46-6445, issued to H. & T. C. Ry. Co., Patent No. 284, Vol. 96, containing 714.9 acres, more or less, as shown by properly recorded plat on file in the office of the County Clerk of Ochiltree County, Texas, save and except a tract of approximately 2 acres, 70 yds. x 140 yds. out of this Survey, beginning at a point in the North line of said Survey, 350 yds. east of the N. W. Corner thereof, which has

been deeded to School District No. 2 of Ochiltree County, to which deed reference is here made for more complete description.

SECOND TRACT: All of Section 489, in Block No. 43, Certificate No. 36-3943, issued to H. & T. C. Ry. Co., Patent No. 111, Vol. 96, dated April 23, 1886, containing 639.1 acres of land, more or less, as is shown by plat on file in the office of the County Clerk of Ochiltree County, Texas.

THIRD TRACT: Being all of Section No. 490, in Block No. 43, Certificate No. 36-3943, issued to H. & T. C. Ry. Co., containing 653 acres of land, more or less, according to recorded plat on file in the office of the County Clerk of Ochiltree County, Texas.

All of the above land being the same land described in deed from A. C. Houston to W. D. Tenney, dated July 1, 1923 and recorded in Volume 40, page 152 of the Deed Records of Ochiltree County, Texas.

Plaintiff prays judgment against the defendants, W. D. Tenney, Elsie E. Tenney, Walter Keim and Dora Keim for its debt as evidenced by Coupons Nos. 7 and 8, plus interest and attorneys' fees, and court costs, and that it have judgment foreclosing its lien against each and all of the defendants as the same existed on the hereinabove described premises on the 17th day of January, 1924; plaintiff alleging that each and all of the defendants are asserting liens and

equities in and to the property, the exact nature of which is unknown to plaintiff except as to the interest claimed by W. D. Tenney, Elsie E. Tenney, Walter Keim and Dora Keim, but that the right, liens and equities of plaintiff are superior in all respects to any liens, rights and claims of any and all of the defendants.

YOU ARE COMMANDED to so summons defendants J. BATTERSBY, J. B. TRIPP and V. L. After the garden surplus has been canned in the fall, the kitchen will still continue in operation, putting up beef, pork and chickens for farmers and others on a toll basis. Some of this work has already been done and much more is being planned for the fall and winter months.

GRANITE WINS

Through the ropes on numerous occasions, but with Davis doing some snappy in-fighting.
Fans resented the judges decision when Gene Jackson, 115 pounds, Liberal, Kans., was named winner in a four round bout with Gene Tucker, 117 pounds. Tucker floored Jackson in the first period for a short count and if he had pushed his advantage could have ended the bout. At the conclusion of the fight, Tucker challenged Jackson to a return match, it being accepted.
For a curtain raiser, "Shorty" Symons and "Pat" Symons when a fast four round draw. Reese Nowlin, 145 pounds and Clyde Jones, 140 pounds staged a snappy four round go with Jones taking the decision. Moilin challenged Jones to a return match which was accepted.
Leonard Robertson served as referee in the main go with Pat Murphy in charge of the other events. Curley Keysburg very capably filled the roll of ring announcer. Another boxing exhibition was announced, the date being two weeks off.

BEAVER COUNTY TORNADO LOSS

ESTIMATE \$75,000 DAMAGE IN SOUTHWEST PART OF BEAVER COUNTY DURING STORM
Estimated property damage of around \$75,000 was reported in Beaver county following the tornado which swept over the southwest part of the county, July 14. The following report of the storm loss in Beaver county was given in the Beaver Herald-Democrat last week.
Beaver County Hard Hit.
In Beaver county from a point 3 miles west of Balke and south to the state line, any number of barns, windmills, machine sheds, granaries and farm houses were laid flat or blown completely away.
What scattering fields of row crops that were growing nicely in this locality were laid low by the heavy deluge of hail that fell after the hard wind had abated. Rain also fell in torrents. Section after section was completely covered with water as late as the next evening. Approximately 4 inches of rain fell in a short time.
The following losses were reported at this office to date, from the Balke and Gray neighborhoods:
A. E. Pittman, sheds, barn and windmill blown down; porches on house twisted and blown away.
Karber farm, a large barn was destroyed, as well as several other good out buildings.
Griff Summerall, experienced his second wind storm this spring, having been in Liberal at the time the cyclone hit there in May. He lost nearly all his personal belongings in Friday's storm as well as being forced to lie in a grader ditch to escape flying timbers and was peppered with heavy hail.
The windmill at the Blue Mound school was blown down and from there north one man counted 17 windmills blown down.
At the Bryan farm the roof was blown off the house and north of Gray many outbuildings were destroyed.
The barn at the Davis farm was blown away and at the Dolph Kuykendall farm the garage was blown away and the car damaged.
In the Bethany district Mr. Just lost his barn, and six head of cows were killed, in addition to other severe damage.
Very little rain fell in Beaver County. Only .30 of an inch was recorded. The hail, rain and storm did break the intense heat wave that we have been having for the past four weeks. Saturday and Sunday were cool days, but Tuesday the thermometer was ranging around the 100 mark.

Passion Play Sunday

Borger Appearance Of Foreign Cast In Religious Drama To Be Outdoors
The world's greatest religious drama, "The Passion Play", will be presented at Borger on Sunday evening, July 30, by members of the Frieburg cast. Scores of Perryton people are expecting to attend the production.
Stress is being placed on the fact that it is not a moving picture, but a stage production to be given in a great open-air theatre especially built for the occasion. Arrangements are being made to sea several thousand people. Low admission prices are being offered.

Lower Motor Costs Seen After A. A. A. Test

Oil Consumption is Cut 28.5 Per Cent in Run at Indianapolis

DRASTIC reduction in the cost of auto operation is forecast as a result of motor oil tests conducted at the Indianapolis Speedway under auspices of the A.A.A. Contest Committee.
During these tests a new oil, developed by the Gulf Refining Company, obtained 28.5 per cent more miles to the quart . . . and cost 28.5 per cent less to use, when tested against three popular, high-grade brands familiar to every motorist.
Fords, Chevrolets, Plymouths and Buicks, picked at random from the streets of Indianapolis, were used in the four-day run. Each car traveled 450 miles a day at a constantly maintained speed of 45 M.P.H., using a different brand of oil each day. Oil consumption was rigidly checked by A.A.A. officials, and results were corrected for variations in temperature.
The new oil, which out-performed the other oils by a wide margin, is made from a 100 per cent para-

CHALLENGE TO GRAIN MARKET

ADMINISTRATION RECOGNIZES NO DIVINE RIGHT TO HANDLE FARMERS PRODUCTS
Official Washington issued a warning to the grain trade on Monday to put their own house in order or the government would reform grain market practices. In the statement the farm administration informed the grain trade that it did not recognize that the present trading regime "has any divine right to handle farmer's products".
The challenge was issued following the recent sharp rise and fall in wheat, corn and other prices and the administration expressed the intention of taking the initiative in "reforming grain marketing practices" unless the exchanges obtain results by mutual agreement.
George N. Peek, chief administrator of the farm act, issued the warning at a conference of representatives of the grain industry shortly before they took steps to explore the possibilities of establishing a code of competition under which stringent regulations covering commodity marketing would be established.
Chief Provisions.
Committees representing grain exchanges, terminal elevators and country elevators opened the effort to draft an agreement by beginning special studies to determine the possibilities of each for application of a code which would be submitted either under the Farm Adjustment Act or National Recovery Act, or both.
Three of the chief provisions considered for insertion in the code proposed regulations to:
Establish permanent limits on daily fluctuations in grain prices to prevent precipitous rises and falls in quotations.
Increase margin requirements of trades to discourage "speculation on a shoestring."
Setting maximum limits on the volume of grain involved in contracts for future delivery held by an individual, aimed to prevent what Secretary Wallace described as "manipulation of the market."
"Put Your House in Order"
Peek held the position that the exchanges should take the initiative in any action to improve the methods of grain marketing, asserting, "I want to emphasize to everyone connected with the grain trades the necessity that you put your own house in order, where it needs to be put in order."
"Abuses exist in the grain trades. The trades, acting as the marketing medium for the farmers, should correct these abuses. If they do not succeed, then the government will act."
"We conceive it to be the government's function to protect any group which is unable to protect itself. I know of no industry other than

farming which has nothing to say about the price received for its products. I understand why this is true, but I do not understand why it should be allowed to remain true. Perhaps I should be enlightened."
Peek described the present grain market situation as "grave." He said the marketing situation "was disturbing because it developed just as the farmers were bringing their crops to market."

Opening New Cafe

Bar-B-Q Moving Into New Quarters At 417 Main Street; All New Equipment
The Bar-B-Q lunch is moving into a new location with new surroundings this week and expects to be open Saturday morning, according to Mr. and Mrs. H. M. Bedinger, operators of the popular restaurant.
The new quarters are located at 417 Main Street. New equipment has been built and installed and the interior of the building is now undergoing a complete redecoration to match the color scheme of the new counter, stools, back-bar and tables.
Operate Old Restaurant
The old restaurant will be known as Frank's Lunch and will be operated under the management of Frank Cunningham, while Mr. and Mrs. Bedinger will be in charge of the new cafe.
Formal opening of the new quarters will be held Sunday with a special menu being prepared for the occasion. In connection with the opening "Red" announces that a free meal ticket will be given to the party guessing closest to the number that register during the day.
