Hewes and Chief Deputy Sheriff E. A. Stautzenberger quickly went to the scene of the burglary and from there Hewes went to Corpus Christi to search for the car and occupants who had taken a television set out of the house.

The burglary occurred at approximately 4 p.m. and the next morning at 5 a.m., Hewes and Stautzenberger ended their investigation with the arrest of Clarence E. Stewart of Corpus Christi. Judge Lawrence Miller set bond at \$2,500 in the case and Stewart is still in the county jail unable to make bond.

"This new and modern system is being adopted by banks throughout the country. It helps both depositors and the bank by providing almost instantaneous record-keeping. Further, the possibility of error is almost completely eliminated," Sorenson said.

Cards explaining why counter checks no longer will be available have been prepared for display in local stores, he said.

According to E. DeWitt Marshall of the Port Isabel District Immigration and Naturalization Service office, the information furnished by aliens in reporting their addresses has been declared confidential by statute.

These reports must be submitted during January each year by all aliens in the United States, with few exceptions. Forms on which to submit the reports are available at any Post Office or office of the Immigration and Naturalization Service. Persons who are unable to pick up a form because of illness, or other reasons, may have a relative or friend obtain a card for them.

The card should be returned to one of these offices.

Parents or guardians of aliens under 14 years of age should submit reports for such children.

Woman's Club Hears Talk By Mrs. Gurley

The Woman's Club of Aransas County met Tuesday afternoon. Mrs. Joe Slocum, president, called the meeting to order, followed by the salute to the flag.

Mrs. Walter Hatley, third vice president, introduced Mrs. J. C. Gurley, who gave an informative talk about the Institute for Achievement of Human Potentials. This institute is located in San Antonio and is dedicated to the improvement of retarded children and other people with brain damage.

The talk was illustrated by a short movie after which Mrs. Slocum adjourned the meeting and invited all attending to a social hour and refreshments.

The social committee, Mrs. Jones Christian and Mrs. D. M. Barron assisted by Mrs. C. G. Melton and Mrs. Roy Burke, had arranged a beautiful tea table. Mrs. E. E. Page served the punch and Mrs. Melton served coffee.

Employer Deadline For W-2 Forms

Employers were reminded today by the Internal Revenue Service that employees should receive two copies of a Withholding Statement, Form W-2, on or before Monday Feb. 2, 1970.

Asa L. Crow, administrative officer of the Internal Revenue Service at Corpus Christi, said, "This statement shows the total wages paid and the income tax and Social Security tax withheld, if any, during the calendar year 1969."

Total wages shown on an employee's W-2 must include amounts received as sick pay. Sick pay is not required to be shown separately.

If it becomes necessary to correct a W-2 after it has been given to an employee, a revised must be issued and marked "corrected by employer."

W-2's have to be filed with income tax returns. Taxpayers who had more than one job last year should attach all W-2's to the back and top of their Form 1040 return.

Den 2, Pack 49

Den 2, Pack 49 met Tuesday, Jan. 13. "A Sharp Den Song" was our opening. Then we looked at some pictures of knights and their armour and our den mother read a short story about becoming a knight. We practiced our skit for the coming pack meeting. Some of the boys modeled their costumes. Danny Kelley served refreshments. Our meeting closed with the "Circle of Knights" and the singing of "America the Beautiful."

Under sponsorship of the Chamber of Commerce, an evening of good fellowship will be held for winter visitors (Thursday), Jan. 15 from 7:30 to 9:30 p.m. at the Paws & Taws Square Dance Clubhouse on Fulton Beach Road. Visitors are urged to attend and help develop a program of weekly get-togethers.

Mrs. Jaunita Wagley, president of the C of C, who conceived the idea, has sent the following notice to all motels and trailer courts so they can notify their winter guests:

"First, some of the Paws and Taws Square Dance Club members will put on a demonstration of square dancing for you. Then you will be invited to participate in a demonstration of how simple it is to learn to square dance.

"We have a very fine Caller in Richard E. Hardy—'Blackie' as he is familiarly known. Not everyone can or cares to participate in the dancing, you will enjoy hearing Blackie call (particularly the singing calls) and watch the square dancing.

"There will also be some folk dancing and perhaps a waltz or two if we have anyone interested.

Missouri Youth Wins Fishing Prize

The latest winner of a weekly prize in a fishing tournament sponsored by the Chamber for winter visitors is James D. Surber, 23, of 528 Yale Street, Mexico, Mo., a draftsman.

Surber caught a 6½-pound trout while fishing from a small boat in Ski Basin. He was using live shrimp for bait. He submitted his prize winning catch to Morrison's Sportman's Center, one of four official weighing stations for the Chamber of Commerce fishing tournament which will continue through March. Weekly, monthly and grand prizes are being offered for the largest trout, redbell and flounder caught by winter visitors.

Surber came to Rockport to visit his grandparents, Mr. and Mrs. James C. Surber, who are staying at Holiday Lodge.

Taxpayers Ask IRS

Q—I'm a full-time college student and think I will get a tax refund, if I don't have to count a \$750 scholarship as income. Is it income?

A—Scholarships are generally not taxable and do not have to be reported for tax purposes. Since there are many different types of scholarships, you will want to check with the organization that gave you the scholarship to see if they have information on its tax status.

Q—Why did IRS drop the short form 1040A?

A—One important reason was to make it easier for taxpayers to claim all the credits, deductions and exclusions they were entitled to under the tax laws. In recent years more and more taxpayers have found it to their advantage to itemize deductions as their income increased.

The new Form 1040 is one basic page and actually calls for just about the same information that had to be entered on the front and back of the old card form. Over 30 million returns will need just the one-page Form 1040 to be complete, while another 22 million will have to attach

only one additional schedule. Copies of the schedules taxpayers will most likely need were included in the tax package mailed to some 75 million taxpayers.

Q—I got married in December. Can my wife and I file a joint return for 1969?

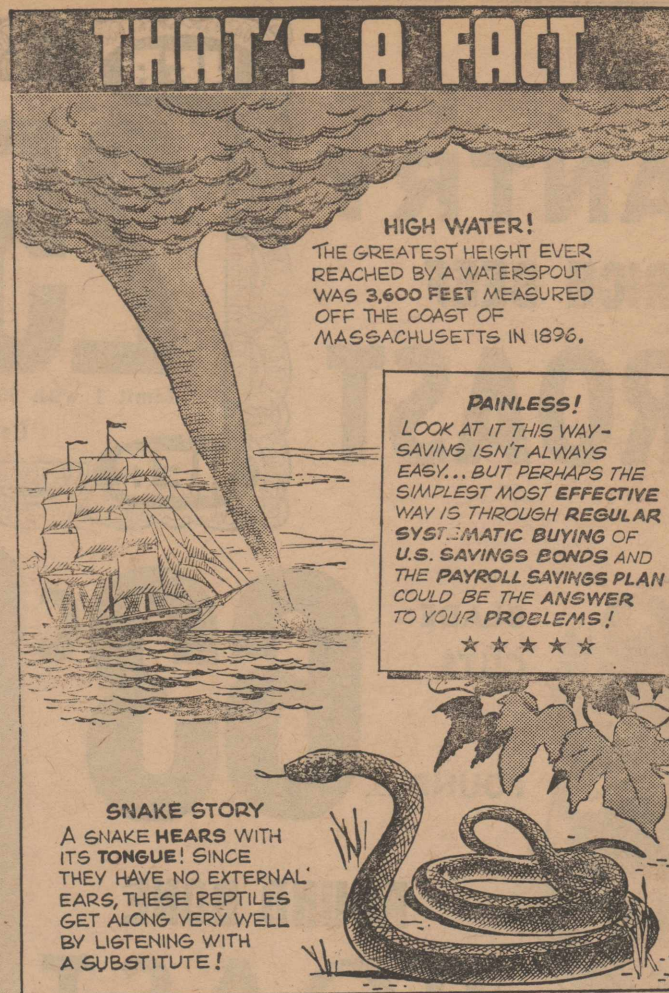

A—Yes, if you are married on the last day of your tax year, you can file a joint return. Your wife then cannot be claimed as a dependent on the return of another taxpayer.

Q—Does the new tax form make any difference in the way a farmer handles his credit for gas used on the farm?

A—No, the gas tax credit should be claimed as it has in the past by attaching Form 4136. The amount of credit claimed should be entered on line 21 of Form 1040.

Q—What is the surcharge rate for 1969 and how do you figure it?

A—The income tax surcharge is 10 percent for 1969. Tax surcharge tables are included in the tax packages and can be found on Page T-1. These tables show the amount of surcharge based on

Income Tax Return Filing Requirements For Farmers, Ranchers and Fishermen

Farmers, ranchers and fishermen were reminded today that Thursday, Jan. 15, is the last day for filing their estimated Federal income tax returns for 1969, unless they plan filing their final return on or before Monday, Feb. 16.

Asa L. Crow, administrative officer of Internal Revenue Service in Corpus Christi, explained that those farmers, ranchers and fishermen who file an estimated return on Jan. 15 and pay the tax due thereon have until April 15 to file their final return and pay any balance of tax due. Otherwise, the law requires that they file their final return and pay the full amount of the tax due by February 16.

It was cautioned, however, that this option is available to farmers, ranchers and fishermen only. Tax law defines these taxpayers as those who earn two-thirds or more of their gross income from farming, ranching or fishing. If

these taxpayers filed a Federal income tax return last year, the necessary forms for this year will be mailed to them. For those who did not file, or for some other reason did not receive their forms in the mail, blank forms are available from any Internal Revenue office or from post offices or banks.

Farmers, ranchers and fishermen must file an income tax return and pay a self-employment tax, if net earnings from self-employment were \$400 or more. However, only farmers and ranchers who have actual net earnings from the operations of their farms of less than \$400 may, under certain circumstances, elect to pay a self-employment tax and may qualify to receive benefits under the Social Security system. Many farmers and ranchers can complete their own tax returns by using the helpful free booklet "Farmer's Tax Guide," Publication No. 225, which can be obtained from IRS offices and county agents.

Oil News

Almac Petroleum Co., headed by O. G. McClain, permitted the No. 1 H. T. Sellers Estate Mineral Fee, located in Aransas County, five miles west of Rockport, Dec. 11, 1969. No depth was proposed. The next day the wildcat was spudded and on Dec. 31 the hole was bottomed at 9,025 feet. Located in T. T. Williams Survey, A-218, the well was plugged and abandoned Jan. 1.

Corpus Christi Oil & Gas Co. has gained location for a deep wildcat five miles north of

Rockport. Projected to 10,000 feet to explore the Frio Sands, drill-site of the No. 1 State of Texas as Tract 16 scales 1,000 feet from the north line and 467 feet from the east line of this 320-acre tract in Copano Bay.

the amount of tax liability and your filing status.

Remember that Schedule T, the tax computation schedule, will be just a worksheet for most taxpayers and need not be sent in with the Form 1040. Only if the taxpayer claims a special credit such as retirement income, investment or foreign tax, or has to pay self-employment tax, should Schedule T be sent in with the return.

Q—I rent out some land to a farmer nearby. Do I include the rents I receive as farm or rental income?

A—Enter the rents you receive from your land on Schedule E, as rental income, and attach it to your Form 1040 when you file.

Unless there is material participation in the rents you receive are not considered farm income.

Q—Are there any tax benefits for those 65 and over? I'll be able to file that way this year.

A—Yes, there are several benefits for those 65 years of age and over. For example, there is an extra \$600 exemption for age, and special provisions covering the sale of a personal residence.

These are explained in Publication 554, Tax Benefits for Older Americans. Send a post card to your District Director for a free copy.

Impala.

It's got more re-sale value because it's got more to re-sell.

One of the nicest things about buying an Impala is selling it. That's because selling it traditionally brings back more of what people put into it in the first place. Money. Where does Impala keep getting its higher resale value? From features like those you see below. Features which explain why America's most popular car for the last nine years will undoubtedly make it ten in a row.

Impala. More to drive. More to re-sell.

Putting you first, keeps us first.

Accent on Health

J. E. PEAVY, M.D.
Commissioner of Health

Are the so-called "childhood diseases" limited only to children and do adults have an immunity to them?

Not so, says the Texas State Department of Health.

The childhood diseases are a myth. The fact is that these diseases are so contagious among children that most people have had them by adulthood and thereby have developed immunity. But adults can and do catch them, and when they do they are sometimes much sicker than children.

Two of these so-called diseases—mumps and German measles (rubella)—have special dangers for the adult patient. Mumps can be damaging to both adult men and women. And German measles, when occurring in the early part of pregnancy, can result in damage to the unborn child. A new vaccine may eventually lead to the eradication of German measles, but there is a danger until all women in the child-bearing years have been immunized against it.

So, if you are exposed to any "childhood" disease and believe you have never had it, ask your doctor what you can do to protect yourself.

It is extremely important that you and your children keep protection against smallpox up to date. True, the absence of smallpox in this country has led to a lack of concern about this serious disease, and large segments of the adult population are unvaccinated or require boosters. In some parts of the world smallpox continues to be a serious problem. If just one single undetected smallpox case should be introduced into a U. S. community, it could touch off a serious epidemic.

Is it true that a baby is protected by his "natural immunity" acquired from his mother? Some of a mother's natural or acquired immunities, if any, can be passed on to her unborn as her blood courses through the placenta that nourishes him, but this inherited immunity remains effective for only a short time.

In the case of whooping cough, a highly contagious disease that is especially dangerous and often fatal for small babies, there is evidence that immunity is only occasionally passed on.

Every parent, advises the State Health Department, should plan an immunization program beginning at six weeks of age against diphtheria, whooping cough, tetanus, poliomyelitis and smallpox. Booster shots to maintain complete protection should follow at prescribed intervals throughout childhood and, in the case of certain diseases, well into adult life.
