FRANCE READY TO ACT ALONE AGAINST NAZIS

Will Insist Upon Removal of Troops From Rhineland; Germany Threatens To Retract Offers For Treaties

LONDON, Mar. 12 (UP)—A high source here disclosed today that France has drafted a virtual ultimatum to the other Locarno signatories...

Large Crowd Expected At Credit Meet

Many Out-Of-Town Reservations Received For Sunday Luncheon

Advance reservations being received for the luncheon to be given as one of the features of the meeting indicate a large attendance here Sunday at the joint conference of credit bureau secretaries and credit managers of district 2.

L. A. Eubanks of the local Retail Merchants association who is in charge of arrangements for the luncheon, said Thursday that 55 out-of-town reservations had been received for the luncheon.

The meeting of the credit groups will be an all-day affair, starting at 9:30 a. m. and closing at 4 p. m.

District 2 extends from Fort Worth to El Paso, and credit bureau representatives and credit managers from virtually all major towns in the section are expected to attend the Big Spring meeting.

Reservations for the luncheon received Thursday came from the following towns: Sweetwater 15, Lamesa 12, El Paso 5, Midland 3, Abilene 3, Wink 2, Odessa 3, and Fort Worth 12.

Eubanks Thursday announced that all Big Spring merchants interested in credit problems are urged to attend the sessions. They are requested to notify the merchants association if attendance at the luncheon is planned.

Address by El Pasoan Features of the conference will include an address by A. S. Jacobs of the Popular Dry Goods company of El Paso, whose concern is one of the largest in Texas; and a discussion of various credit problems led by John R. Clark of Mornig's, Fort Worth.

Jacobs' address will be at 11 a. m. and the discussion conducted by Clark will be held in the afternoon for credit managers.

Registration will start in the Crawford lobby at 9:30 Sunday morning, and the meeting will be convened at 10. Following opening formalities, W. S. Pickett of San Angelo will make a committee report, and then Jacobs will speak. Visitors are to be given a trip to the Scenic Mountain park before luncheon.

Separate sessions will be held for secretaries and credit managers during the afternoon. Program for the former group will include the following talks: "Ethics of the Bureau," Vincent W. McCorn of El Paso; "What the State Association Means to the Bureau," Chas. T. Lux; "What a Finance Company Wants in a Report and Its Effects of Reorganization," B. Collins of Big Spring; "A Bank's Requirement of a Bureau," Ira Thurman of Big Spring.

Selection of the next meeting place and transaction of other business will conclude the meeting.

Wesley Butts And Ethel King Wedded

Marriage vows were solemnized Wednesday evening by Rev. C. A. Bickley for Wesley Butts and Miss Ethel King at the Methodist parsonage.

Both Mr. and Mrs. Butts are well known members of the younger set. They will make their home here.

Accompanying them were Miss Laverne Sims, Horace Penn, Miss Virginia Emmons and Walter Moore.

TRADE TREATY WITH NICARAGUA SIGNED WASHINGTON, Mar. 12 (UP)—The United States today concluded a reciprocal trade agreement with Nicaragua, embracing tariff concessions for both nations.

insist absolutely on the removal of German troops from the Rhineland, regardless of the German threat to seek isolation.

This announcement followed a declaration from Berlin that if any attempt is made demanding that the Reich renounce any of its sovereign rights, Hitler's peace offers must be considered withdrawn.

It was declared that the nation would prefer "honorable isolation" rather than live as a nation discriminated against in a community of others.

Hitler last Saturday had proposed non-aggression pacts for all Europe provided—alliances which had left Germany outside be abandoned.

Authoritative advices indicated that the first job of the British government was to meet a series of French demands which called for harsh penalties against Germany unless a solution of the present crisis is effected.

But these demands were qualified with other demands of great importance to Great Britain.

That Britain give France a new guarantee of armed assistance in event of a German invasion.

That the French and British general staffs prepare a specific joint plan to deal with any emergency.

That league penalties against Italy in the Ethiopian dispute be dropped so that Premier Benito Mussolini may be brought into the allied front.

France would ask a virtual ultimatum to Adolf Hitler to withdraw his Rhineland troops, on pain of penalties the first of which would be withdrawal of diplomatic envoys from Berlin by league of nations.

But these demands were qualified by an alternative: That Germany promise not to fortify the Rhineland, that she return to the league.

New Proposals? That she negotiate limitation of armaments and that she participate in a European defensive alliance.

Predicts GOP Wins In South

Knox Tells Texans Many In Section Dissatisfied With New Deal

DALLAS, Mar. 12 (UP)—Colonel Frank Knox told Texans here today there was a very good chance for republicans to crack the "solid south" again in the coming presidential race.

The Chicago publisher, a candidate for the republican presidential nomination, was on the last leg of a scouting tour through the west and southwest.

Citing the republican victory in many southern states in 1928, Knox said certain "courageous democrats are dissatisfied with the new deal and are ready to swing to the republican banner."

100 SEEK RATES Special Water Charge Offered For Irrigation

More than 100 people had signed for the city's special summer residential irrigation rate Thursday noon.

The rate, made available to encourage beautification, offers a saving of \$1.20 on 10,000 gallons and \$3.70 on as much as 30,000 gallons of water. The rate goes into effect for contract signers as of March 20 and will continue for six months.

ONLY FIVE PRINCESSES ELIGIBLE TO BECOME KING EDWARD'S BRIDE

Speculation was renewed over the possibility of King Edward's taking a bride, after the monarch, in a royal decree to the house of commons yesterday in which he recounted the necessity of revivifying the civil list, stated that the possibility of marriage should be taken into account. Only five girls seem

eligible to become his bride. As Prince of Wales he might have married a commoner, but as king, the English law requires that he marry only a royal princess. Should he wed, these princesses appear qualified to sit with him on the throne. Left to right: Grand Duchess Kyra of Russia; Princess Juliana of the

Netherlands; Princess Eugenie, Princess Irene and Princess Katherine, all of Greece. (Associated Press Photos.)

Exemptions On Tax Bill Are Studied

Corporations May Be Allowed Some Reserves As Protection

(Copyright, 1936, United Press) WASHINGTON, Mar. 12 (UP)—The treasury informed house tax experts that "cushion" reserves for corporations may be allowed under the budget tax bill without seriously affecting the yield of the president's proposed \$520,000,000 tax on undistributed corporate earnings.

The information, in the form of thirteen alternative suggestions was submitted by the treasury at an executive session of the house ways and means tax subcommittee.

Every effort was made to prevent publication of the information under a " gag" agreement by which members pledged themselves not to reveal the treasury data.

As disclosed, however, the data appeared to point toward a compromise between the treasury and congressional opponents of the original corporate surplus tax plan. This group seeks partial exemptions for corporation reserves up to a reasonable amount to protect companies against business slumps.

The new tables presented substantially lower tax scales than those set up previously which called for levies up to 75 per cent of corporate net earnings to raise the \$520,000,000 net income needed by the treasury.

Under the new schedules two bases for revision of the original 43 1-2 per cent average tax were suggested. One would shift the taxes to a percentage basis. The other would continue the present flat bracket prices for corporate earnings.

BRITAIN WARNED Secretary Says Nation Vulnerable To Air Raids

LONDON, Mar. 12 (UP)—Alfred Duff Cooper, secretary of war, bluntly warned the house of commons today that Britain is more vulnerable than ever to an air attack, and faced the risk of becoming embroiled in a European war.

FILE DEMONSTRATION IS CONDUCTED AT SOASH Several people, most of them women, attended the garden file demonstration given at Soash Monday morning by County Agent O. P. Griffin. The agent poured several feet of file and showed how to place the material for sub-irrigation on a perfect level.

Completion of several authorized units in the Scenic Mountain state park was celebrated Wednesday afternoon with an informal reception given jointly by the national park service and army.

Members of the city commission, directors of the chamber of commerce and their wives, VFW members and wives and others were guests at the affair held from the concessions building.

Special guests for the day were twelve officers from the district office at Lubbock, the Lamesa and Sweetwater camp.

Barbecue Meal Under the direction of Dan Conroy, the municipal high school band played a concert before those attending were served a meal of barbecue and other picnic trimmings.

There was no fixed program, participants inspecting the completed property and touring the park. Lt. Donald Hay, Jr., camp commander, and V. J. Evkeksamp, technical service superintendent, were hosts for the affair.

Out-of-town officers taking part in the celebration were: Capt. Francis O. Wood, Lt. H. G. Hall, Lt. E. H. Barrett, Maj. Robert Cray, Lt. J. T. McKee, Lt. Jack H. Turner, Lt. N. F. Christensen, Capt. Geo. W. Wilhite, and Capt. Jesse H. Garrett, all of Lubbock; Lt. F. E. Farr of Sweetwater, Lt. Z. W. Tinker and W. W. Woody of Lamesa.

POLITICAL WARFARE IS SWEEPING ALL SPAIN

MADRID, Mar. 12 (UP)—A police guard was shot and killed today during a daring but vain attempt to assassinate Prof. Luis Jimenez Asua, one of the leading socialists of Spain.

The attempted slaying was the outgrowth of a bitter warfare between rightists and leftists which was spreading through Spain like a vast conflagration.

Five bullets—hit a bodyguard when he acted as a shield for Jimenez, who was unhurt.

Classes at the University of Madrid were suspended in order to avoid further violence.

The government mustered infantrymen and artillery units in an effort to halt rioting throughout southern Spain.

Martial law was declared in Granada, where virtual war existed between the troops and communists and leftists who have been burning churches and convents, destroying public buildings and fighting police since Saturday.

At least 15 have been killed and 60 wounded in the disorders.

A mob of 2,000 communists and socialists marched on Madrid, threatening to burn all convents and churches. They were dispersed at the commands of their leaders.

The situation was most critical in Granada where, coincident with the declaration of martial law, a general strike was extended another 24 hours.

Infantry and artillery poured into Granada after daylong rioting had wrecked some sections of the city.

Groups carrying red flags burned the Carmelite convent and the church and convent of Saint Nazario. They sacked and burned the headquarters of the fascist and the Accion Popular parties, the plant of the rightmost newspaper Ideal, a warehouse and a candy factory owned by the leader of Accion Popular, and the "Isabelle the Catholic" theatre.

FLOODS THREATENED Streams Filled By Melting Snow And Ice

(By the Associated Press) Hard rains and melting snow and ice today sent streams of the east and part of the midwest to flood levels, inundating highways and farms and threatening homes.

Many streams in New England were at or near flood level. A 12-foot avalanche swept down at Crawford Notch, New Hampshire, blocking the entrance to a narrow valley in the White Mountains. A heavy fog settled over New York City.

RECEPTION IS HELD AT PARK Park Service And Army Give Affair Celebrating End Of Work

Completion of several authorized units in the Scenic Mountain state park was celebrated Wednesday afternoon with an informal reception given jointly by the national park service and army.

Hoffman Not To Grant New Stay of Death

Today Is Last For Legal Issuance Of Reprieve For Bruno

TRENTON, N. J., Mar. 12.—Governor Harold Hoffman today announced he has no intention of again staying the execution of Bruno Richard Hauptmann, whose death has been set for the week of March 30.

Today is the last day the governor can legally reprieve the convicted kidnap-murderer of the Lindbergh baby.

The governor recalled his statement of Jan. 17, in which he said there would be no further reprieve, and said his stand was unchanged.

Hauptmann's counsel clung to the hope, however, that the Bronx carpenter has a fighting chance to escape the chair if Governor Hoffman will question Dr. John F. Condon, now on his way back to the United States from Panama.

TAX OFFICES OPEN THROUGH NOON HOUR TO SELL LICENSES

Office of the tax collector remained open through the noon hour Thursday and will continue open at that hour through April 1 in an effort to aid drivers to secure 1936 automobile tags and drivers licenses.

With less than three weeks to go, only 670 new license plates have been secured when it is estimated that at least 4,000 are to be registered.

Approximately half the number calculated to obtain drivers licenses have obtained them.

338 APPLICATIONS HANDLED HERE ON SUBSIDY PAYMENTS

Approximately 338 applications for adjustment payments have been handled here in the past two weeks, M. Weaver, adjustment assistant, said Thursday.

However, Weaver said that applications were not being made as fast as expected and urged cotton producers who intend applying for the payment to come to the county agent's office at their earliest convenience.

1500 From District File For Age Assistance

An additional 875 original applications for old age assistance were sent to the state commissioner at Austin Wednesday by George White, district supervisor.

White said that 1,500 applications had been forwarded to the state office from here.

No investigators reports have been returned to the state commissioner as yet, he stated.

Rail Spur For Mill Ordered

Trucks Will Be Extended To Site Of Oil Mill Plant

R. M. Simmons, vice-president and general manager of the Sweetwater Cotton Oil Mill company, Thursday ordered a spur constructed from the Texas & Pacific tracks to the company property just outside the western city limits.

His action was interpreted as meaning that the company intends to lose little time in starting actual construction on the oil mill here.

Simmons here for a brief time Thursday morning, could not be reached for a statement concerning plans of the company.

A survey for the spur was started Thursday morning at Simmons' request. The spur will be more than 500 feet long.

His company's property, some twenty-three acres in all, is located just west of the Howard County Refining company.

Texas History Presented In Song

A unique program in song which depicted the years of Texas' progress, from the days under Mexico to the present, was presented at the Kiwanis club luncheon session at the Crawford hotel Wednesday, as an observance of the state's Centennial year.

Retail Trade In Southwest Makes Gains

Favorable Business Report Given From All Parts Of Nation

WASHINGTON, Mar. 12.—Warmer weather brought retail trade to a full swing in most of the South and Southwest and greatly stimulated buying in other parts of the country where business had been partly frozen by the cold waves, according to reports of the department of commerce from 33 important cities. Department store sales in New York and Philadelphia advanced approximately ten per cent over the corresponding figures for last year. In New York the elevator strike made some inroads but business remained generally good during the week.

In most cities wholesale trade followed the lead of retail business, although at a somewhat slower pace. In New York buying started in earnest for pre-Easter promotions. Los Angeles wholesalers reported business progressing moderately with a normal Spring season expected. Mail orders in Chicago continued well ahead of last year. Industry continued to advance and warmer weather greatly stimulated retail sales of automobiles in New York. Pittsburgh reported that various glass products are being developed rapidly with especially good results indicated by activity in manufacture of glass brick. The glass industry, it was stated, has considerable need for new plant facilities and plans for replacing old equipment are being made.

Crop conditions throughout the country were reported generally good. However, in southwestern

WPA Lists To Be Cut Down

Quota of workers for this WPA district must be reduced by 342 by March 31, R. H. McNew, district director, was advised by state officials Thursday.

Instead of the present limit of 1,457 for the thirteen counties in this district, only 1,115 relief workers will be allowed after that date.

The district director said he did not anticipate having to turn many off the rolls since a natural adjustment will almost care for the reduction by that time. In event some must be taken off the rolls, he indicated that "border line" cases would be the first to go. These were described as "least efficient workers."

The reduction amounts to about 22 per cent of the total roll. It is in keeping with a similar cut over the entire state.

McNew said it would not interfere with plans to complete every project now underway.

Weather

BIG SPRING AND VICINITY—Fairly cloudy and warmer tonight and Friday.

WEST TEXAS—Fairly cloudy, warmer tonight and Friday.

EAST TEXAS—Fair except partly cloudy on west coast, somewhat warmer west portion; probably light frost in northeast tonight; Friday partly cloudy, warmer.

Petitions Are Placed Before County Board

Group Favors Step Toward Creation Of County-Wide District

With a unanimous declaration from a group of school trustees and patrons favoring the establishment of a junior college in Howard county before them, members of the county board of trustees will meet here Saturday afternoon to consider ordering an election on the creation of a junior college district in the county.

Wednesday afternoon at a meeting called by the county board, approximately 75 citizens asked, with out dissenting vote, the board to order such an election, subject to the approval by the state board of education.

879 Signatures Petitions from every section of the county and bearing 879 signatures were presented to the board, requesting an early election as the first step toward a junior college here. Nor were all the petitions in. Authoritative sources predicted that when all petitions are in, more than 1,000 tax paying voters will have signed.

Less than 500 will be required by the board before ordering the election subject to sanction by the state board at its next meeting.

Thursday Miss Anne Martin, county superintendent, was preparing to check the signatories against the county tax rolls in order to determine the exact number who are qualified signers. She said she would be ready to report to the board Saturday.

Report of Trip At the meeting Wednesday George Boswell, Coahoma superintendent, Miss Martin, W. C. Blankenship, city superintendent, and D. B. Cox, county board member reported their findings from an investigation of an inspection of the San Angelo junior college Tuesday.

B. F. Logan, president of the Coahoma school board, and C. G. Both made brief addresses strongly favoring the establishment of a junior college here.

Leland L. Martin, Forsan superintendent, Blankenship and Boswell were appointed as a committee to advise with the county board in its efforts toward securing the college.

Should the state board approve the county board's action on retail trade and voters approve the creation of a junior college district in Howard county, the next step will be to order an election for trustees. Later, when plans are rounded out, a bond election would probably be ordered.

WPA Lists To Be Cut Down

Quota of workers for this WPA district must be reduced by 342 by March 31, R. H. McNew, district director, was advised by state officials Thursday.

Instead of the present limit of 1,457 for the thirteen counties in this district, only 1,115 relief workers will be allowed after that date.

The district director said he did not anticipate having to turn many off the rolls since a natural adjustment will almost care for the reduction by that time. In event some must be taken off the rolls, he indicated that "border line" cases would be the first to go. These were described as "least efficient workers."

The reduction amounts to about 22 per cent of the total roll. It is in keeping with a similar cut over the entire state.

McNew said it would not interfere with plans to complete every project now underway.

 vs.
W. D. McELHANNON,
 IN THE DISTRICT COURT, HOWARD COUNTY, TEXAS.
 The State of Texas to the Sheriff or any Constable of Howard County—GREETING: YOU ARE HEREBY COMMANDED, that by making publication of this Citation in some newspaper published in the County of Howard once in each week for three consecutive weeks previous to the return day hereof, you summon

Walmesley based his offer to step out upon a number of conditions, among them restoration by the coming legislature of home rule government to New Orleans; adoption of social security legislation and protection of pension rights of policemen, firemen and school teachers.

Maestri, race track owner, business man, and former close personal friend of Senator Long, declared his acceptance was contingent on the matter being submitted to the people for ratification at a special election. It was reported the

election will be held next June. The next regular session of the legislature falls in May, therefore it is likely that Walmesley will remain in office until that time. Governor-designate Richard W. Leche and Maestri are close personal and political friends, and

leaders pointed out this would insure fullest cooperation between city and state administrations which were continually at war during the lifetime of Senator Long. California ships more than two-thirds of all the cauliflower grown in the United States.

VANCOUVER, B. C. (UP)—One of the greatest enemies of salmon in British Columbia is the black bear. Department of Fisheries officials here declare that bears kill thousands of salmon in spawning grounds every year, not for food, but for the sheer love of fishing.

MONTGOMERY WARD

Nathan Newman of Atlanta, Ga., who was born and lived in Big Spring for several years, spent the first few days of the week seeing after property interest in Big Spring.

News Notes From Oil Field Communities

Foy Johnson of Lubbock spent the week-end in Foran. The Foran school band gave a concert to open the "amateur hour" held in Sterling City last week-end.

Leland Martin, superintendent of the Foran school, came back to Foran Tuesday afternoon after spending a week in the Big Spring hospital for treatment.

O. R. Watkins of Meadow has been visiting his brother and wife, Mr. and Mrs. L. L. Watkins of Foran.

The Foran boy scouts met this week in the Baptist church. Alfred Thieme is the sponsor and the meeting was planned by Junior McKinney. Games were played. Present were: Everett Waldrum, Kenneth Cowley, Aquillo Fleetwood, Talmadge Jones, Junior McKinney, Yerd Cowley, Garrett Tenyson, Hugh Henry Graves, George Barnett, Fred Thieme, Thomas White, Floyd Thieme, John C. Waldrum, Billy Williams, Cecil Ivey and Warren G. Squirrels.

The sixth grade held a picnic at the windmill on Tuesday evening. Games were played and weiners and marshmallows were roasted. The group was sponsored by Mrs. Joy Johnson, Mrs. John Kubecan and Mrs. Ralph Barnett.

for another battle with the dust. Last year the prairie winds raised dust storms which drove many farmers out of the country. Men and livestock sickened and died, yet many clung to their ranches, resolved to defy the elements.

This winter several snows fell, and some of the heaviest rains in years. During midwinter ranchers had high hopes for enough rain and snow to stop the storms.

Soil Moisture Deep Now the soil contains some 14 inches of moisture, the most in years, but evidently this is not enough.

Storms have begun sweeping the high plains with a regularity reminiscent of last year when the sun was not seen for weeks because of dust clouds.

A snow, striking into a dust cloud at Garden City, Kan., brought on a shower of mud.

While they still have hopes of heavy rains, because of snows in the mountains, the dust bowl farmers are losing their hard-won confidence that this year, at last, would see at least a partial cessation of the dust scourge.

Mrs. Ashley Williams spent Thursday in Abilene seeing after the details of the prospective West Texas bridge association convention.

(LEGAL NOTICE) NOTICE OF CANCELLATION OF PERMIT

Notice is hereby given, that by order of the Texas Liquor Control Board, duly entered on 19th day of March, 1936, MEDICINAL DRUG No. 35043 Permit issued to BEN R. STOUT, OPERATING UNDER THE TRADE NAME OF A. C. DRUG COMPANY, doing business at 407 E. 3rd Street, City of Big Spring, Howard County, Texas, was cancelled for the following reasons, to-wit:

THAT HE SAID BEN R. STOUT WAS FINED \$100 AND COSTS IN THE COUNTY COURT OF HOWARD COUNTY, TEXAS, FEBRUARY 18, 1936, FOR SALE OF WINE WITHOUT RECEIVING A DOCTOR'S PRESCRIPTION THEREFOR.

Dated at Austin, Texas, this 10th day of March, 1936. TEXAS LIQUOR CONTROL BOARD, By C. R. Miller, Administrator.

STORMS FEARED IN DUST BOWL

BOISE CITY, Okla., Mar. 12 (UP)—Dust bowl farmers, recently hopeful of the first good growing season in five years, today face another series of devastating dust storms such as turned this area into a desert last year.

Black, choking clouds of dust are being whipped across thousands of miles of territory in the Oklahoma panhandle, southeastern Colorado, southwestern Kansas, northeastern New Mexico and the Texas panhandle.

In Beaver county, Okla., much of the wheat has been blown out. The same is true to a great extent in Cimarron and Texas counties.

Prepare for Worst

Boise City, in the heart of Cimarron county, is entrenching itself

WHAT'S THE BEST TIRE TO BUY? Here's America's biggest seller - by millions! Look it over - let us show you why "G-3" heads the list. ALL-WEATHER Compared with previous All-Weathers "G-3" GIVES YOU 43% more miles of real non-skid safety (we have customer records to prove this is a mild statement) Quicker-stopping grip Average of 2 pounds more rubber per tire No Extra Price. MUD MEANS NOTHING to the NEW GOODYEAR STUDDED TIRE. Surest grip - for pulling ahead or backing up. No grooves to fill up - lumpy big buttons throw off the mud on every turn. We say it's the best mud tire and so will you when you see it. Troy Gifford Tire Service 214 West 2nd Phone 577

SERMONS, FEATURES OF REVIVAL WINNING A WARM RESPONSE

The educational revival at First Christian church has been increasing in interest each night. The pictures shown by Ezra Jacks have been appreciatively received by large audiences.

Mr. and Mrs. Jacks as well as his whistling and her work at the piano have cheered all hearts. Tonight the sermon topic will be "Selling Out to the Devil," and Friday night, "The Conquering Life." There will be no service on Saturday night this week.

A great day is expected Sunday beginning with Bible school at 9:45. The sermon topic for Sunday will be: morning, "The Man Heroic," and evening, "Auditing the Books." On Friday night an added feature will be pictures of the original Passion Play shown on the screen and interpreted from the script by Rev. G. C. Schurman. These were taken in Oberammergau, Bavaria, at the time of the last presentation of the play.

PASTOR'S TRIAL IS POSTPONED

HOUSTON, Mar. 12. (UP)—Trial of Rev. Edgar Eskridge, former Orange, Tex., Baptist pastor charged with murdering Police Chief Ed J. O'Reilly last May 29, was postponed yesterday because of illness of Mrs. Eskridge.

The minister, noted for his vicar crusades, was to have gone to trial here Monday before District Judge Langston G. King.

The delay was requested by District Attorney K. C. Barkley after being notified that Mrs. Eskridge was ill of pneumonia, by Defense Attorney J. J. Collins of Lufkin.

O'Reilly was shot to death at Orange as a climax to a dispute between the crusading minister and law enforcement officers.

Eskridge was placed on trial here in November, but a jury was dismissed after Judge King learned that one Tallman was under a suspended sentence and therefore disqualified for jury service.

Barkley said that attorneys for both sides probably would agree on trial date for the May term of court.

Barkley said that attorneys for both sides probably would agree on trial date for the May term of court.

Hospital Notes

Big Spring Hospital W. H. Hottinger of the Gulf Production company, with headquarters in Crane, has been admitted to the hospital for medical treatment.

Bobby Martin, son of Mr. and Mrs. W. R. Martin, was dismissed from the hospital Thursday, and returned to his home. He was operated several days ago for an emergency appendectomy.

Mrs. Ebb Hatch, 801 East Fifteenth street, who underwent a major operation Thursday morning was reported doing nicely late Thursday afternoon.

Mrs. J. J. Thompson of Fort Stockton has been admitted to the hospital for medical treatment.

Mrs. Henry Weintraub of Los Angeles, who has been in the hospital since Jan. 5, for treatment of injuries received in an automobile collision on the west highway, will leave Sunday for her home. She will be accompanied on the train by her husband.

The 100 hens of the Florida national egg-laying contest averaged 19.8 eggs per fowl during December, 1935.

Queen Caroline, wife of King George II of England, had a gown made of silk raised in Georgia.

Swagger Air Marks Suits At Spring Style Openings

Swaggering shoulders and big patch pockets mark this black wool suit which comes straight from the latest Paris openings. Creel designed it with the new tugged sleeve tops which are indicative of this season's trend.

By ADELAIDE KERR PARIS, (UP)—Paris has launched the biggest suit season the fashion world has seen in years. At recent spring openings, tailored models were shown for every occasion from breakfast to supper.

The one clean-cut trend in a wide-shouldered mode. Many of them are cut with a swagging dandified air which lends a new effect to the fashions for 1936.

Jackets are the big news. The smartest 1936 version is a short fitted, box or swagger model that adds with the hipbones and is youthful in cut and effect.

Shoulders Wide, Skirts Slender Shoulders are bold with wideness achieved through tucked, gathered or padded sleeve tops. Skirts are nearly always slender and straight, their only departure being in a waistline which sometimes mounts higher in front.

Black and navy blue are prominent colors. So are russet, gray and grayed greens and blues. Beige and brown have been thrust into the background. Soft wools and tweeds are favorite fabrics, with many chickens-foot plaids, shadow plaids and checks used for jackets.

This year's suit may combine either a skirt or a dress with a jacket which is often of contrasting material. Rose, gray and black plaid jacket with a black skirt, rose linen jacket with a black wool frock, or blue and white checked jacket with a navy dress are typical combinations.

Many Fabrics for Blouses Blouses run all the way from youthful round-necked puff-sleeved models to high-necked shirtwaists, and are made in an great a variety of materials. Organdy, linen, figured surah and bright flowered

challis are all used with sueds and linen veils added for variation. Afternoon suits are fashioned of soft black or navy taffetas or cravat silks, or printed artificial silks and surahs stamped with small geometric patterns, combining black, with white, oyster white, pearl gray or pale blue.

Some of the same fabrics, as well as heavy black crepes are used to make cocktail and dinner suits with bolero jackets and tailored skirts. Some of them have a decidedly Spanish effect with colored belts swathed over a white skirt blouse under a bolero jacket. Others have a more formal air, enhanced by flowered challis or beaded boleros.

AIRLINE FATALITIES ONE PER 18,000,000 PASSENGER MILES

WASHINGTON, Mar. 12.—The scheduled air lines of the United States flew 1,054,882 miles per accident and 17,978,998 passenger miles per passenger fatality during the first half of 1935, Eugene L. Vidal, director of air commerce, department of commerce, announced today.

The miles flown per accident were more than for any previous six months period shown in bureau of air commerce accident reports on air line operations, but the passenger miles flown per passenger fatality have been higher in several previous half years.

A passenger mile is the equivalent of one passenger flown one mile.

There were three fatal accidents in which 11 passengers, three pilots, three co-pilots and two crew members lost their lives.

These statistics cover operations of all air lines operated by companies in the United States, including domestic air lines and extensions to foreign nations. The domestic air lines, in this period, had 30 accidents, flying 1,024,607 miles per accident. The foreign air lines had three accidents (none fatal) and flew 1,257,628 miles per accident.

FRIDAY 13TH A BAD DAY FOR DIVORCE, ACTRESS BELIEVES

HOLLYWOOD, Mar. 12. (UP)—Friday, the 13th is a good day to remain in bed and never stir from under the covers, Jean Harlow believes.

The blonde screen star, readily admitting she is superstitious, said today she will not apply for her divorce decree this Friday but will wait until Saturday, March 14. Miss Harlow received her inter-

Jafsie Will Face A Quiz To Be Questioned As Soon As He Arrives Home From Panama

CRISTOBAL, Canal Zone, Mar. 12 (UP)—Dr. John F. (Jafsie) Condon, the eccentric Bronx school teacher who handled the ransom negotiations in the Lindbergh baby kidnaping case, was en route to New York today, having sailed suddenly on the liner Santa Inez.

His departure coincided with a visit here by Andrew K. Dutch, New Jersey state motor vehicle inspector.

When Dutch left New York it was reported he intended to interview Dr. Condon for Gov. Harold G. Hoffman, who has been active in behalf of Bruno Richard Hauptmann, condemned murderer of Charles A. Lindbergh, Jr.

Both Dutch and Hoffman denied the report, although Hoffman completely has questioned discrepancies in the stories told by Dr. Condon before, during and after Hauptmann's trial at Flemington, N. J.

TRENTON, N. J., Mar. 12 (UP)—Gov. Harold G. Hoffman demanded of state police today that they arrange to cross examine Dr. John F. (Jafsie) Condon about the Lindbergh kidnaping case the minute he arrives in the United States from Panama.

The white-haired Bronx educator who paid \$50,000 to the Lindbergh baby kidnaper and swore that Bruno Richard Hauptmann was the recipient, sailed from Cristobal after a two-month absence.

Lecture papers from Hal Rosson, movie cameraman, a year ago this Friday.

The actress denied rumors current in Hollywood that she intends carrying William Powell, movie star, when she receives her final decree.

"Mr. Powell and I are good friends and we have a lot of fun together but I'm not going to marry for a long, long time, if ever."

VOTERS IN GEORGIA FAVOR FDR OVER TALMADGE, 40 TO 1

HAMILTON, Ga., Mar. 12. (UP)—Harris county voters gave President Roosevelt a 40 to 1 edge over Governor Eugene Talmadge today, on the basis of a presidential preference poll yesterday.

Twelve of fourteen precincts gave the president 1,424 votes against 35 for Talmadge, bitter critic of the new deal who has mobilized his forces in an attempt to block the re-nomination of Roosevelt.

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes of the germ-laden phlegm is loosened and expelled.

Who Says Coors Beer Isn't a Winter Drink? It warms the cockles of your heart. At a recent ski meet in the heart of the Rockies, attended by several thousand spectators, Coors Export Lager was the beverage choice of the multitude. Standing in the snow with the temperature near zero, the crowd dispelled the cold by consuming more than a thousand stubby bottles of Coors Export Lager. They refuted the fallacy that a good beer is not a cold weather drink. They proved that a bottle of beer is no more chilling than an iced high ball. They reveled in the mellowing after-glow of this famous brew. They burst into rollicking highland song as its wholesome stimulation warmed the cockles of their hearts and supplied the energy building carbohydrate and nitrogenous elements to withstand the cold. Coors Export Lager is America's cleanest, purest and best beer. Be particular. Specify by saying: Coors, of Course. Coors GENUINE BOCK For 1936 TRY IT GOLDEN Export Lager Double Aged. Anniversary Parties, Programs In Which Local Groups Will Join, Commemorate Girl Scout Birthday

Pioneer Troop Patrols To Put On Numbers At Regular Meeting Tomorrow; P-T.A. To Pay Tribute

The Pioneer Troop of the local Girl Scouts will observe the birthday of the organization a day late this year. Today is the birthday, but the girls will meet tomorrow, which is their regular day.

A program composed of numbers by each patrol will occupy the time. The numbers will relate to the birthday of girl scoutdom.

On Tuesday the Junior High Parent-Teacher association will pay a tribute to girl scouts organization which has been in existence in America since 1921 and in Big Spring for five years.

Today thousands of parties are being held throughout the country and will mark the girl scout birthday. The 353,000 members of that organization celebrate their twenty-fourth anniversary.

Ever since Juliette Low of Savannah, Ga., invited 11 girls to tea

one spring afternoon in 1912 and thus started the first troop, keeping open house for their friends has been a girl scout tradition.

Being home girls at heart, the girls scouts' favorite role is that of hostess, and they know well how to play it. During 1935 alone, 68,000 of them qualified as cooks and canners, and 12,432 proved their ability to plan and prepare parties. Not only will the food at the thousands of parties on March 12 have a home flavor, but the entertainment, too, will be all home talent. For, despite their well-founded reputation as expert campers and hikers—16,570 proved their prowess outdoors in 1935—the girls scouts find plenty of time to perfect themselves in the arts of singing, dancing and dramatics. A total of 15,496 won badges for proficiency in such subjects during 1935.

Etiquette Made Easy
If you should be among the fortunate ones invited to a girl scout party on March 12, note carefully the procedure of your hostess, for she will probably be a most gracious one with careful attention to etiquette.

Your invitation will be in the right tone, nicely timed. You will be received, introduced to your fellow guests and hidden goodbyes with the exact degree of cordiality due to the intimacy or casualness of your acquaintance.

If the party involves an informal meal, the sandwiches will be suited to the time of day and the probable sharpness of your appetite—not at all the same for a picnic as for a tea.

The table arrangement will be perfect, appropriate to the meal, and the amount of service available equally good whether the hostess is her own maid or employs one.

In other words, the girl scout who has qualified for her badge as a hostess, will know the art of making her friends happy and at home.

Mrs. Ebb Hatch underwent a major operation Thursday at the Big Spring hospital.

Hardys Hosts To Clubs In New Home

Both Groups Of Triangle Players Meet This Wednesday

Dr. and Mrs. W. B. Hardy did a double job of entertaining the two Triangle clubs Wednesday. The women group played in the afternoon and the members of the night club came up after supper for card games.

The parties were held in the new residence of the Hardys, the former Bob Austin home which they bought, redecorated and refurnished.

Both parties employed the Saint Patrick's motif in prize wrapping and menu colors and in the favors of shamrock and Irish pipes.

In the afternoon Mrs. Pitman and Miss Jordan were highest scorers and were presented with toiletries. Playing were: Meses. Jim Davis, Monroe Johnson, E. W. Lomax, James Little, Emil Fahrenkamp, Omar Pitman and Miss Jena Jordan.

The Emil Fahrenkamps who are not members of the night club played as guests. Mrs. Fahrenkamp scoring high for the women. Monroe Johnson was high for the men. Two floating prizes were awarded. These were decks of green cards and were presented to Miss Jordan and Mrs. Fahrenkamp.

Couples present were: Mr. and Mrs. Hayden Griffith, Mr. and Mrs. Monroe Johnson, Mr. and Mrs. Omar Pitman, Mr. and Mrs. Fahrenkamp, Miss Jena Jordan and Carl Barker.

The Johnsons will entertain next.

Ideal Night Club Plays At Home Of The Marion Edwards

Mr. and Mrs. M. M. Edwards entertained the members of the Ideal night club Tuesday night with a Saint Patrick's party, emphasizing this motif especially in the refreshment plate.

Mrs. Richardson and Harry Williamson were highest scorers among the members. Mrs. Bennett and John Ross Williamson among the visitors.

Sandwiches, shaped like pipes, a moulded shamrock salad and cake laced with shamrocks were served to the following couples: Meses. and Meses. Ebb Hatch, A. E. Service, Homer McNew, Buck Richardson, Harry Williamson, John Ross Williamson, J. D. Biles and M. H. Bennett.

Whence Men's Styles Revealed By Fashion Tripper Looking Forward To Big Style Edition

By ONA R. PARSONS
Styles just don't "happen." Although there have been occasions when a new style developed on the designing bench of some manufacturer, you can be sure that this style does not last. Authentic styles usually begin with the "leading set" in London, at the Eastern Universities, at the famous resorts or in the Movie Colony on the coast. It is well to recognize these influences and in that way avoid "freak" styles.

In a very few words I will try to give you a clear picture of the styles that will be most important this spring. I will discuss here the trend in suits, topcoats and sport-jackets. On another page I will tell about the furnishing and hat styles that will predominate.

First, because of its growing importance, I will view the trend in sports suits. When sports suits first appeared several seasons ago they met a mingled reception. One group saw in them a fad that would soon pass. Another group recognized in sports an influence that would remain because it was sound and filled a desire in clothing that was long-felt—that is, the desire for casual comfort.

So we saw any number of sports backs come into prominence. Tucks, and folds and pleats grew and grew. It was only the natural to expect a sharp reaction. That reaction is now making itself apparent. Sports backs for spring go in for simple lines. The one that is being worn by the best dressed men at the various eastern universities is the Gussel sleeve, as shown in this column. This suit carries a simple back. Two short pleats, or gussets, extend approximately eight inches below the shoulder and two side vents at the bottom of the jacket are the limit of its sportiness.

Although I say that this is the one suit that is most important from a high style viewpoint I don't mean that all other sports backs are not in style. All this means that simpler sports backs are growing in importance and well dressed men will watch this trend closely.

Fabrics for sports suits are bold and colorful. The outstanding single color is a Glen Urquhart plaid in a deep bronze. Following closely are the mixture of grey, blue and brown with green. These mixtures appear in plaids, hound's tooth checks and solid colors with colored overstripes. Chevrons, shellands and tweeds are greatly favored.

Mixed suits, that is, sports jackets with odd slacks, continue to be the best liked informal outfit. This season I have noticed that better dressed men are harmonizing their outfits instead of going in for contrasting shades. Plaids are larger and gayer and most seen and brown is usually the color.

Conservative suits are generally more colorful. The outstanding contribution this spring comes from London, two-color stripes, or polychromatic stripes, to give them the name used by the best West End tailors, are meeting instant success in this country. These colored stripes appear mostly on blue or black grounds and the fabrics, nine times out of ten, are either woads or hard finished sharkskins, which should be good news for men who go through clothes in a hurry.

Buffet Supper Is Served Night Club
Mr. and Mrs. R. H. Miller entertained members of the Eight o'clock bridge club with a buffet supper Wednesday evening. The club has changed its meeting day from Tuesday until Wednesday.

Following a very delicious meal the members spent the evening at cards, the Millers scoring highest. Mrs. Dehlinger won floating prize and Mrs. Rutherford bingo.

Playing were: Meses. and Meses. William Dehlinger, Frank Rutherford, Watson Hammond, George Crosthwait, Ed Allen.

The Rutherford will entertain next Wednesday evening.

Mrs. Louise Voss left Tuesday for her home in Richmond, Ind., after spending the winter months with Mr. and Mrs. Floyd Flood.

Mrs. L. E. Eddy has gone to Monahan to spend two days visiting her son, Homer, and his wife.

Mrs. John Davis accompanied Dr. and Mrs. Raleigh Davis home to San Antonio this week.

the past week here with her sister, Mrs. D. H. Clingan, and brother, R. F. Jones, returned to her home Thursday.

Mrs. Gertrude Freeman of Waxahatchie, who has been visiting for

Jonquils Are Employed For Motif

Mrs. J. D. Biles Hostess To Pioneer Club Members

Employing jonquils for a motif Mrs. J. D. Biles entertained the members of the Pioneer bridge club with an unusually pretty spring party Wednesday. Bowls of jonquils from Mrs. Albert M. Fisher's garden were floral decorations. The same flower was used on the tables.

A yellow and white dessert plate was passed at the close.

Mrs. Albert Fisher scored highest for members and Mrs. Broughton for guests.

Visitors for the afternoon were: Meses. Walter Broughton, Lee Hanson, Verd Van Gieson, A. E. Service and Julius Eckhaus.

Members playing were: Meses. John Clarke, E. O. Ellington, C. W. Cunningham, Homer McNew, Albert M. Fisher, Bernard Fisher, and Joyce Fisher.

Mrs. Clarke will entertain next.

Seven Aces Club To Meet Hereafter Every Two Weeks

The Seven Aces voted Wednesday to meet fortnightly hereafter. Mrs. J. P. Jennings was hostess for a cleverly planned St. Patrick's party.

The games played was "pig." Mrs. Rowe was given green glassware for making highest score. The color scheme of green and white was carried out in the luncheon covers and in the menu. Shamrocks and pipes were favors.

Playing were: Meses. Stephen Rowe, L. N. Millon, William Gottlieb, Henry Hollinger, Floyd Flood, Jack Hodges, Jr.

Mrs. Millon will entertain the club next on March 25.

Busy Bees Play Game of Monopoly

The Busy Bee Sunday school class of the First Methodist Sunday school met at the home of their teacher for a St. Patrick's party Wednesday night.

The members were required to wear something green and those who did not had to pay a forfeit. Monopoly was the game of the evening and was played on the order of the Irish sweepstakes to make it conform to the evening's holiday theme.

Minnie Earle Johnson was the winner. Others attending were: Mildred Herring, Mildred Shans, Hattie Belle Mullins, Dorothy Bell Riggs, June Thompson, Marie Lewis and Geraldine Howard.

Two Guests Play With Bridge Club

Two tables of players were entertained first with a jolly St. Patrick's luncheon, then with contract bridge at the Settles hotel Wednesday by Mrs. Robert Kountz.

Mrs. George S. Combs of Fort Worth and Mrs. Sam Goldman were guests of the group that composes the Wednesday luncheon club.

Mrs. Lee Hubby scored highest, Mrs. Adams Talley second. The other members playing were: Mrs. J. D. Farr, Mrs. Hardin Wood and Mrs. Ray Lawrence, who will be the next hostess.

Mr. and Mrs. Roy Combs have as a guest Mr. Combs's mother, Mrs. George S. Combs of Fort Worth.

"My Skin Was Full Of Pimples And Blemishes"

Says Vera Schiappi: "Since using Adierika the pimples are gone. My skin is smooth and glows with health." Adierika washes BOTH bowels, rids you of poisons that cause a bad complexion. TOKYO REBELS LEAVE STRONGHOLD AFTER TERRORISM

Rebellious Japanese troops who assassinated four government leaders in a desperate militaristic uprising are shown in this first action picture as they marched away from metropolitan police board headquarters in Tokyo and headed toward the parliament building. The parliament building is seen dimly in the upper left. Curious civilians crowd the line of march. (Associated Press Photo)

MONGOLIA, POTENTIAL THEATER OF MAJOR CONFLICT

Through grassy deserts a great serpentine camel train is shown carrying a supply of American goods through Mongolia's bleak reaches to far-distant users. World attention is being drawn toward Mongolia, potential theater of a major conflict between soviet Russia and Japan, as flickering strife perturbs the usual solitude of the borderline between Mongolia and Manchoukuo. (Associated Press Photo)

LOYAL TROOPS GUARD JAPANESE PALACE IN REVOLT

ALL AND CHAIN FOR RACE 'TOUTS' IN ARKANSAS

Using his campaign to rid Hot Springs, Ark., of transients he described as race track "touts," Mayor Lee P. McLaughlin personally appeared in city court and had persons convicted of vagrancy sentenced to sweep the downtown streets in ball and chains. Here are some of the unhappy victims of the drive, with citizens looking on. (Associated Press Photo)

LAD, 13, SAVES LIVES OF FOUR

Jimmy McDermott, 13-year-old Toledo, O., lad, saved the lives of his mother, Mrs. Margaret McDermott, and his three sisters, Jean, 11, Margaret, 9, and Ruth, 4, by opening windows to dissipate gas fumes and then running for help. Jimmy is shown with Ruth, whom he carried from the gas-filled home. (Associated Press Photo)

CONFERS ON WAY TO CAPITOL

Dr. F. E. Townsend (left), old age pension movement leader, shown in conference at Kansas City with Gomer Smith of Oklahoma City, vice-president of the Townsend organization. Townsend was en route to Washington to appear before a congressional committee, investigating the Townsend proposals. (Associated Press Photo)

CHOSEN 'MISS FLORIDA OF 1936'

Miss Norma Crim (above), pretty 18-year-old Miami girl, was chosen "Miss Florida of 1936" in competition with 200 girls from all parts of the state. (Associated Press Photo)

THREATEN DEMPSEY'S BABY GIRL

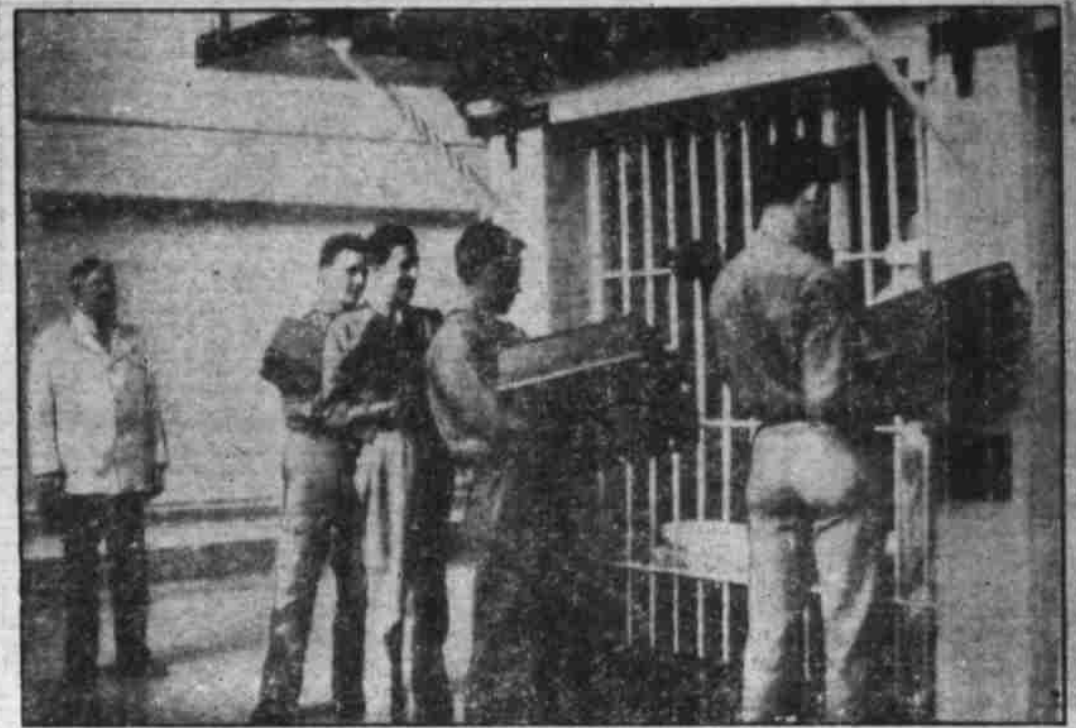

Atlantic City, N. J., authorities protected Joan Hannah Dempsey, (above) 19-month-old daughter of Jack Dempsey and the former Hannah Williams, following anonymous reports of an attempted kidnaping plot. (Copyright W. Lanhard Photo from Associated Press)

TEACHERS FINISH FIRST WINTER ON ALASKA PROJECT

Lieut. Col. L. P. Hunt, who was "borrowed" from the U. S. marine corps to act as administrator of the Matanuska Valley project in Alaska, shown with school teachers who have just completed their first winter in the WPA colony. School is conducted in vacant houses, but a schoolhouse is under construction. Left to right: Margery Potter, Janet Gorges, Lorinda Ward, Col. Hunt, Mildred Ferguson, Margaret Pimpton and Ze'Ja King. (Associated Press Photo)

PRISON HUNGER STRIKERS OFFERED BREAD

Four trustees and an officer are shown making rounds of the St. Cloud, Minn., reformatory offering striking prisoners bread from large-boxes. The file of trustees is shown as it halted at the cell of one of the 1,000 inmates who protested against prison regulations. Shortly after this picture was taken the three-rebellion was broken and 30 ring leaders were placed in solitary confinement. (Associated Press Photo)

AUTOGRAPHING BOOKS IN STYLE

Savitar Queen

Louise Carroll (above), of Louisiana, Mo., was chosen "Savitar queen" at the University of Missouri. Her portrait will have a place of honor in the school yearbook, the Savitar. (Associated Press Photo)

Mrs. Evalyn Walsh McLean put on the dog in a really big way when she went to a Washington, D. C., department store to autograph copies of her autobiography. She put on the famous Hope diamond, which she is shown wearing while she wields a pen. (Associated Press Photo)

Crash Hero Killed

Lieut. R. K. Giovannoli (above), who last October was the hero of the crash of a huge bomber at Wright Field, Dayton, O., was himself a victim of an air crash near Baltimore, Md. Lieut. Giovannoli was to have received the "soldier's medal" for heroism in the near future. (Associated Press Photo)

PIRATE BOSS LOOKS 'EM OVER

The Daily Washington Merry-Go-Round

By **DREW FRANKSON** and **ROBERT K. ALLEN**

WASHINGTON—When the president first sent to congress his plan for the taxation of surplus corporation profits, "Muley" Bob Doughton of North Carolina, chairman of the house ways and means committee, was none too enthusiastic. He wasn't outright hostile, but he had his doubts.

Then Doughton's committee began considering possible alternative taxes. It listened to Chester Davis, Triple-A administrator, who supplied a long list of substitutes for processing taxes.

Prominent among these substitutes was an item calling for a 3-1/2 per cent increase in the excise tax on tobacco.

Tobacco happens to be a major crop in North Carolina. Also, Doughton, not only happens to be a candidate for re-election this year but wants to run against Senator Bob Reynolds in 1938. A tobacco tax for him would be political suicide.

Doughton took one look at the tobacco item and stiffened. "You don't propose to increase the tax on tobacco?" he asked Chester Davis.

"It would be necessary if the president's program were rejected," was the answer.

Next day Doughton made a nation-wide radio address. In it he voiced unequivocal approval of Roosevelt's corporation tax.

"I am particularly impressed," he declared, "by the wisdom and the timeliness of the president's suggestion for a revision of our system of taxation of corporation profits, a system justly open to severe criticism."

White House Informality
 The complete informality of relations between the president and the White House staff continues to amaze strangers unaccustomed to it.

Some time ago, Roosevelt was engaged in an important conference on the reduction of farm acreage. Secretary of Agriculture Wallace and other high officials of the AAA were present.

Suddenly Margarette Le Hand, Roosevelt's personal secretary, burst into the room.

"I just couldn't help telling you," she said to the president; "Mrs. Sam Roseman just telephoned from New York to tell me about young Sam. He is going to school, and the other day they had a memory test. They all had to recite their father's telephone numbers."

"And when it came young Sam's turn, what do you think he said? He drew himself up in a very dignified manner, and said: 'My father has a private telephone number and I am not permitted to disclose it.'"

After that the presidential discussion of crop acreage continued.

Note—Judge Sam Roseman, now now a justice of the New York state supreme court, once was head of Roosevelt's original brain trust in Albany. Roosevelt always has been fond of him.

Mississippi Bubble
 Theodore G. Bilbo, rabble-rousing senator from Mississippi, opened his "dream house" at Poplarville some time ago, treating all who came to see him to 100 pounds of cheese, 500 five-cent cigars, 600 tins of sardines, five gallons of dill pickles, and ten cases of crackers.

The house-warming was reminiscent of the senator's one-time diet of sardines and crackers; and the "dream house" was the fulfillment of his dream to erect a mansion near the log cabin in which he was born.

The "dream house" contains 37 rooms, and five bathrooms tiled in brilliant colors.

While the house was being built, Mrs. Bilbo was suing the senator for non-support, claiming that he had not supported her for more than two years.

Because of the political embarrassment to her husband, Mrs. Bilbo finally withdrew the suit, with the understanding that she receive an allowance. For a time this allowance was paid—\$115 last July and \$35 last August. Then the payments stopped.

As the several hundred-odd guests paraded through the "dream house" and stared at the senator's black and orchid dream bedrooms, Mrs. Bilbo was not among them.

State Pride
 The senate was considering Senator George Norris' rural electrification bill. By some mysterious process of mental gymnastics, North Carolina's anti-fur senator, Bob Reynolds, was inspired to launch into glowing panegyric on the natural beauties of his state.

"In my beloved and heavenly section of western North Carolina," he rhapsodized, "there are presented for the national eye the most beautiful things to be found anywhere on this great hemisphere."

Kentucky's Allen Barkley rose. "I will admit," he hastily added Reynolds, "that our sister state of Kentucky likewise is possessed of a great natural beauty in the form of Mammoth Cave."

New York's Bob Wagner rose. "And the state of New York," again added Reynolds, "also presents some of the most interesting historic places of this entire continent."

Senator O'Mahoney of Wyoming rose.

"Yes, and I will agree," said Reynolds, catching the determined eye of O'Mahoney, "that Wyoming too can boast of the largest national park in America and some of the most beautiful scenery to be found anywhere."

At this point peppery Carter Glass of Virginia interrupted: "I want to extend a cordial invitation to the senator from North Carolina and others to forget their provincialism and visit my state, Virginia is the greatest state on earth."

Inhabitants of 80 neighboring towns of Roanoke, Germany, have been invited to participate in Roanoke's celebration in June, 1936, of the 100th anniversary of its founding.

Lobbyists Not Enthusiastic Over Bill That Would Make Expenses Public

WASHINGTON, Mar. 12 (UP)—While the formal report of the rules committee of the house on its investigation of lobbying activities in connection with the utility holding company bill was rather moderate in tone, those who have studied it closely say that it packs a terrific wallop.

And the wallop is contained in the committee's recommendation that a bill known as H. R. 11223, a copy of which was appended to its report, be enacted.

H. R. 11223 was introduced in the house exactly ten days before the rules committee made its report on lobbying. Drawn up by Representative Smith of Virginia, no one paid particular attention to it at the time.

Would Require Full Report
 Briefly, here's what H. R. 11223 provides:

1. Any person or organization that solicits money to influence legislation in any way or the other must file with the clerk of the house of representatives a list of all expenditures of such funds exceeding \$10,000.
2. The name and address of every person receiving funds in excess of \$10,000 must be recorded.
3. A receipted bill, stating the particulars, for every expenditure of such funds must be kept.
4. The name and address of every person making such contributions must be filed.

These restrictions would apply to any individual or organization that worked for the enactment of a bill by congress or that worked for the nomination, election or defeat of any candidate for the house or senate.

The penalty for such violations would be a fine of not more than \$1,000 or imprisonment for not more than one year.

In Strategic Position
 The senate already has passed a bill aimed at the same thing, but it is not so drastic. The principal feature of the senate bill is to require all persons working for or against legislation in congress to register.

The thing that sends shivers up the backs of so-called "lobbyists" is that H. R. 11223 holds a strategic position on the road to enactment.

If unanimous consent to take up the bill is refused by the house, it

Three Issues Cited By Knox

Charges "Wild Spending" and "Broken Promises" By New Deal

HOUSTON, Mar. 12 (UP)—Frank Knox, Chicago publisher and candidate for the republican presidential nomination, said here that issues in the approaching national elections will be three-fold.

The issues, he said, will be "the wild spending of the national administration and the resultant tax, the broken promises of the president and the kind of government that is coming out of the present program."

He said he was "pleased" with the results of Tuesday's elections in New Hampshire.

Knox came to Texas feeling to align the 38 Texas delegates to the republican national convention behind his candidacy.

"My principal objection to the new deal," Knox said, "is that it looks in the direction of strengthening central authority and weakening local self-government. It is beyond the ingenuity of man to devise a national government which can run local affairs and preserve liberty."

Man About Manhattan

By **George Tucker**

NEW YORK—Among the major effects of the Hecht-MacArthur squabble with Hollywood was Helen Hayes' decision to give up the pictures and give her talents to the stage.

Helen, of course, is Charlie MacArthur's wife, and when Charlie decided he didn't want to put up with what he considered Hollywood's blundering stupidity, she gave up pictures too. Now her decision seems to be turning out better than her husband's.

Miss Hayes is today very close to the top—if she is not at the top—of the American stage. And though it took a squabble with Hollywood to bring her back to the boards, she gives Hollywood credit for her position here today. Before her training in pictures she had trouble convincing New York producers that she could play anything but ingenue parts.

Then she went to Hollywood and played in such things as "The Sin of Madelon Claudet," "A Farewell to Arms" and "Arrowsmith"; and in these she gave the New York producers and everyone else all the evidence needed of her versatility. The Guild put her in "Mary of Scotland" as soon as she returned and from that she stepped to "Victoria Regina," which misses being a great play by about three acts, but nevertheless Miss Hayes' performance has made it the hit of the season.

She is hoping now that a good comedy will come along before next season.

Meanwhile, the "two upstarts," Ben and Mac, are having their troubles trying to produce their own films. "The Scoundrel" was a success, but "Soak the Rich," their last one, was pretty common fare.

The decision of Toscanini to leave America out of his musical itinerary in the future has robbed New York of one of its most fascinating figures and left the New York Philharmonic Symphony Society in great distress.

Toscanini was ballyhooed to such an extent here that he became more important to the financial success of the orchestra than the orchestra itself. As long as he was on the podium Carnegie Hall was sure to bulge but when he did not conduct, the orchestra played almost to an empty house.

Now they have a problem on their hands to build up Wilhelm Furtwaengler into a drawing card.

I guess I'm just a sentimental guy. Take the other day, for instance. I was standing at Fifth avenue and 57th street struggling with a desire to keep from buying some pretty little cookies in Park & Tilford's window when I looked up and saw a hearse coming slowly to a stop.

I edged over to the side and almost took off my hat when I noticed that the driver was in a most irreverent pose in the front seat. He was tinkering with a dial on the dash board and just then he evidently was satisfied with the result. A wicked Harlem band blared out from the hearse's radio: "Minnie was a low-down hoochie coocher."

The name Wendy and the word love go together in New York. Wendy Phillips came over from England to play in "Love on the Dole," and Wendy Barrie went out to Hollywood to play "Love on a Bet."

THE BOOMERANG CLUE

Chapter 28
FRESH START
For a moment the bold simplicity of the question quite took their breath away. Both Frankie and Bobby started to speak at once.

Frankie.

"That's impossible —" began Bobby, just as Frankie said, "That would never do."
Then they both stopped dead as the possibilities of the idea sank in. "You see," said Bobby eagerly, "I do understand what you mean. It

make sure about Roger Bassington-french. The only thing we've got against him is the photograph business. If he can clear that up satisfactorily—
"You're going to tackle him on the subject? Frankie, is that wise? If he is the villain of the piece it means that we're going to show him our hand."
"Not quite—not the way I shall do it. If he can explain the photograph then he may be a very valuable ally."
"How do you mean, Frankie?"
"My dear, your little friend may be an emotional screamer who likes to exaggerate, but supposing that her husband really wants to get rid of her and marry Sylvia. Don't you realize that in that case, Henry Bassington-french is in mortal danger too? At all costs, we've got to prevent his being sent to the Grange. And at present, Roger Bassington-french is on Nicholson's side."
"Good for you, Frankie," said Bobby quietly. "Go ahead with your plan."

ANANDA OPENS GOLD DIGGINGS IN NEW AREA

OTTAWA, Ont., Mar. 12. (UP)—Scores of new mining areas, located last summer by the government's "million dollar gold hunt," will be opened this spring in widely separated parts of Canada in what is expected to be a minor mining boom.
Nearly 1,000 men, grouped into 188 surveying parties, spent the whole summer exploring hitherto unclassified regions favorable for gold, silver, nickel, copper, oil and gas production in all parts of Canada and within the Northwest Territories. Their reports are now being compiled and will be issued to prospectors early in the spring.
The most valuable discoveries were made in the Yellowknife district in the Northwest Territories, where nearly 3,000 square miles of good gold prospecting territory were located. Other valuable gold-bearing areas were found in Manitoba and Saskatchewan.
Survey parties exploring the east located 300 square miles favorable to the occurrence of silver, and found copper-nickel mineralization in sporadic occurrences over a distance of 14 miles in Port William, Port Arthur region of Ontario. Gas deposits were found in Southwestern Ontario.
Although the major object of the government-financed survey was to discover and map attractive gold

UNCLE SAM FACING 'DIRTY PROBLEM' AS NATION STARTS MOVE TO CONSERVE SOIL

WASHINGTON, Mar. 12. (UP)—Soil is suddenly playing a stellar role in the nation's affairs. Soil must be conserved, says the federal government, and congress writes a conservation program as substitute for AAA.

For more than 300 years Americans have planted and reaped much as they pleased. Soil always has been waiting for use. Won't it always be there? Don't we raise too much wheat now? If we do, why worry about soil?
Soil is not just land and it isn't always dirt. It isn't earth. It's a special kind of all three. It's that living surface layer which produces plants richly in any given area.

Layer On Layer
Soil has layers. If you could dig up a ten-foot slice from the backyard you could see the different colors. That top layer is almost always the richest one. It is actually alive. There is bacterial and chemical action in it which produces the food that plants need.
It is rock that has been ground to dust by wind and rain and then enriched by decaying vegetation. It actually takes 400 years to produce an inch of it.

Left alone, Mother Nature would wash away about that amount every year. So there would be a slow, well balanced change of the surface which would leave this valuable thing called "soil" on top.
But 300 years ago the Mayflower landed at Plymouth Rock. It brought a busy tribe followed by more of their kind. They plowed and planted and their ancestors are still doing it. The wild, protective plants and grasses were cleared to wind and rain between the rows of cotton and corn. It never got a chance to absorb the decaying vegetation and rebuild its own health.
Now, in some places, particularly in the great, red plains of Oklahoma—soil conservation experts every year. At that rate, say the men who found that soil washes away experts, old King Cotton can't grow at the rate of 25.4 tons an acre there in another 40 years. The earth

Two Fridays fall on the 13th of the month in 1936, in March and November.

A Lady Of Quality!

Some Sleuth

Hoboing DeLuxe

Theory And Experience

cotton needs will literally wash out from under it. And that's "scorched." This is the way simplified bookkeeping on the nation's soil supply stands today:
Total acres in the United States, 1,962,000,000.
Total tillable acres, 610,000,000.
Total acres which have been, or are, planted in crops, 413,000,000.
Total acres affected by erosion, 800,000,000.
Not all the 200,000,000 acres affected by erosion are seriously damaged. But many of them are so damaged as to make the farmer's return from them hardly worth the labor. In other places erosion has gone so far that deserted barns and sties stick drearily up out of shifting mounds of sand. Dust storms of the last two summers have testified dramatically to the needs of the soil.

Government scientists, after research, say that crop rotation is the way out. It will give the land the natural rest which it needs. To that end government experts expect to enlist virtually all of the 3,000,000 farmers who enlisted in AAA.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief Of Pain
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.
The kidneys are one of Nature's chief ways of taking the acids and waste out of the blood. If they don't pass 3 pints a day and so get rid of more than 3 pounds of waste matter, your 15 miles of kidney tubes may need flushing.
If you have trouble with frequent bladder passages with scanty amount which often smart and burn, the 15 miles of kidney tubes may need flushing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes and dizziness.
Don't wait for serious trouble. Ask your druggist for DOAN'S PILLS—which have been used successfully for over 40 years by millions of people. They give happy relief and will help flush out the 15 miles of kidney tubes. Get DOAN'S PILLS

TEXAS PRODUCTION OF MOHAIR IN 1935 13 MILLION POUNDS

WASHINGTON, Mar. 12 (AP)—The agriculture department reported today that 13,600,000 pounds of mohair were produced in 1935, compared with 15,597,000 pounds in 1934 and 15,293,000 pounds in 1933. The department attributed the three per cent drop from the 1934 total to a 10 per cent decrease in goats clipped and a seven per cent increase in the average clip per goat.

Mohair production for the six leading states for 1935 was: Texas, 13,000,000 pounds; New Mexico, 520,000; Arizona, 480,000; Oregon, 351,000; Missouri, 210,000; California, 133,000.

Texas led all states in 1935 in the average clip per goat with 4.8 pounds. New Mexico was next with 4.1 pounds. The Lone Star state also led in number of goats clipped—2,820 of the six-state total of 3,401.

James Dunn And Sally Eilers In Comedy At Ritz

Two film players who rose to fame several years ago with their parts in "Bad Girl"—James Dunn and Sally Eilers—are teamed again in a comedy romance, "Don't Get Personal," which plays Thursday at the Ritz theater.

The story is an amusing one about a cross-country trip of a girl and two fellows in their dilapidated flivver; the experiences they have as they bump their way along, and the difficulties Dunn and Miss Eilers experience in their romance—one that is almost broken when she starts to marry another man.

Pinky Tomlin is the third member of the traveling trio, and is given an opportunity to sing two numbers, "I Won't Take No For An Answer" and "Barnyard Serenade."

CLUB BOYS TAUGHT USE OF FARM LEVEL

Fourteen 4-H club boys in the Gay Hill community Wednesday received instruction in the use of the farm level.

County Agent O. P. Griffin, conducting a series of farm engineering training sessions for boys of the county, taught the club members to set up the instrument, to focus the telescope and how to use it in running contour lines.

He will continue the instruction March 25 when more levels will be ready for use. The boys are being given practical instruction and run the lines themselves.

A similar demonstration was scheduled for Thursday afternoon at Midway following the regular meeting of the club boys at that place.

FAMED EYE SPECIALIST SUCCEEDS IN WASHINGTON

force treaty that would unite the air fleets of the powers against an aggressor.

It was indicated that France's first demands, as the pre-condition to any negotiations, was a more firm guarantee that Britain would give her military, aerial and naval aid against Germany in any war.

It was hoped that the negotiations starting today might result in the submission of a series of joint British-French-Italian-Belgian proposals to Germany, based on the peace offer which Hitler made Saturday when he sent soldiers into the Rhineland.

Advices from Berlin were that Hitler now is pointed toward a long period of negotiation envisaging Germany's return to the league and full participation in Europe's councils.

It has become evident that no country at the moment wants a war, no matter its degree of anger.

Retail
(CONTINUED FROM PAGE 1)

Missouri, the Hessian fly was reported to be making inroads on the wheatfields. Kansas farmers were expecting a wheat crop three times that of last year. Citrus prices advanced well in Jacksonville, and in Kentucky record prices were set at horse sales. Farm implement sales in Los Angeles were reported 50 per cent ahead of the same week last year. The cotton receipts and exports at Charleston, S. C., for the seven months ending March 1, 1936, exceeded the number of bales for the entire twelve months preceding, the receipts showing a gain of 27 per cent and exports a gain of 21 per cent.

The value of February building permits issued in many cities forecast the dawn of a period of unusual building progress. Plans for new buildings and alterations in New York filed during February showed a substantial gain in value over the same month last year. The value of February building permits issued in Philadelphia increased 155 per cent in value, over the same month in 1935, and in Memphis were twice as much as last year. In Buffalo, February permits tripled the value of those issued during January. From Minneapolis and some smaller cities in that section came predictions of a building boom this spring. February building permits issued in Portland, Ore., reached the million-dollar mark for the first time since 1930.

Good Gardening

Flowers
Even if your garden has a north exposure and restricted sunlight—as many in the city do—you can do well with flowers if you select the right kind. Always bearing in mind that the time for planting follows the average date of the last killing frost—a date available from your local weather bureau—here are some of the types of flowers that will bloom in partial or heavy shade: Tuberosus begonias, coral-bells, violets, basket-flowers, forget-me-nots. If the garden has a hot and dry southern exposure, such plants as petunias and cacti are indicated.

Flowers in Poor Soil

Census Taker Gets All The Answers

The census-taker meets every kind of person. High school teachers who have taken the census the last week find this is only too true. "The joy of being in this business," says one teacher, "is to find a person who refuses to give her children's names."

A teacher knocked on a door. "No," said the lady of the house, "I won't give you my children's names, because when we get the bonus money we are going to New Mexico where we won't have to pay taxes on our children." Further questioning brought out that her children were not in school. The answer to the teacher's question of why not, was: "In New Mexico they won't put our children back a grade. They can wait until we go."

Teachers nearly always find it easier to take census if they talk to a woman. It is interesting to learn that men seldom know the correct ages of the kiddies.

Country Club Members To Hold Dance Tonight

The members of the Country club will shake a hoof at the clubhouse tonight. Visitors are eligible under the rules of the association, payment of a fee.

Thomas Brooks orchestra will play for the dances, announced Elmo Wasson and Mrs. J. Y. Robb of the entertainment committee.

13 MILLIONS WILL BE AVAILABLE SOON FOR US CROP LOANS

WASHINGTON, Mar. 12 (AP)—President Roosevelt today assured the senate agriculture committee he would make \$13,000,000 available for crop production loans effective March 20, and more funds up to \$20,000,000 as needed.

He said additional money would be supplied as rapidly as possible, and in time to meet the needs of the Farm Credit administration.

Mrs. G. L. James Is Shower Honoree

Mrs. Pat Patterson honored Mrs. G. L. James Tuesday afternoon with a lovely miscellaneous shower at her home on the Sun Oil company's lease.

Friends of Mrs. James called between 2 and 4 o'clock, leaving many useful and attractive gifts. Dainty refreshments were served at the close of the shower.

Those present and those sending gifts were: Mmes. James, O. K. Williams, John Moore, T. E. Thompson, G. B. McNallen, C. H. Matthews, Gus Oppgaard, Ike Tolar, Hart Phillips, Carl Tippie, Claud King, Burney, J. R. White, C. F. Flint, Spencer Leatherwood, Charles Williamson, Earl Lucas, Robert Hill, J. T. Klingler, Tom Layne, H. V. Crocker, Jim McDonald, J. W. Davis, D. A. Roberts, Dan Dougherty, H. W. Bartlett, F. C. Tate, G. W. Overton, Jesse Overton, E. E. Winger, I. S. Dolan, Ben Schafer, Jake Boltehauser, A. H. Reynolds, J. L. McHenry, R. L. Davis, G. F. Painter, Ralph Barnett, Pat Tatem, Steve Tatem, Ella Johnson, E. N. Baker, Les McClaren, R. L. Pritchett, James Underwood, Duke Lipscomb, W. E. Leko, McElrath, Miss Mayne Lou Parr, and the Rev. Mr. and Mrs. C. A. Eickley.

Record Sum Voted To Maintain Army At Full Strength

WASHINGTON, Mar. 12 (AP)—The senate appropriations committee today voted the largest peacetime war department fund in history, 600 million dollars, including money to maintain the army at its full authorized strength of 145,000.

The committee added fifty millions to the house bill for rivers and harbors and flood control, including the Houston ship channel, and Corpus Christi and other Texas port projects.

Will Face Charge In Perry, Okla.

Ernest W. Mewherter, wanted in Perry, Okla., to face a charge of wife desertion lodged by a former wife, said Thursday afternoon he would waive extradition and contest the charges there.

Arrested at Fort Worth Wednesday evening by Deputies Andrew Merrick and Bob Wolf, Mewherter at first said he would fight any attempt to extradite him to Oklahoma.

The complaint was filed by his former wife from whom he has been separated for three years. During that time Mewherter obtained a divorce in Nolan county and remarried in New Mexico in January.

In a telephone conversation with Deputy Merrick, the sheriff at Perry, Okla., said he would immediately launch extradition proceedings, but Mewherter elected to waive his rights.

NEWMAN CONCLUDES BUSINESS TRIP HERE

N. O. Newman, who has been here looking after his business interests, returned Wednesday evening to his home in Atlanta, Ga.

A resident of this city many years ago, Newman has several pieces of property here.

He is one of the Newman brothers, owners of the Nabco company of Atlanta, manufacturers of toilet articles. He and his brothers got their start by turning out a simple preparation for straightening hair.

OIL COMPANY HEAD IS KILLED IN CRASH

CARLSBAD, N. M., Mar. 12 (AP)—William McGinley, 50, president of the McGinley Oil corporation, Fort Worth, Tex., was killed in an automobile accident 32 miles south of here yesterday.

E. E. Relewig, 55, and Wayne Pointing, 30, who were accompanying McGinley, were seriously injured. The accident occurred when the automobile in which they were riding overturned after a front tire blew out. The body was taken to Pecos, Tex.

Elmo Wasson, Robert Wagener and J. B. Young, who will entertain next.

REALISTIC DRILL Smoke, Closed Stairs Add To Student Test

When the high school fire alarm sent out its staccato ring Thursday afternoon almost 700 students were on their feet, hurrying out the door. But clouds of smoke billowed from the center of the halls and some of the stairways were blocked with junk and debris.

"We wanted to see what they would do in case there was a real fire," Principal George Gentry said. "So we staged a fake fire."

In their fright students forgot books, hats, or coats and thought only of getting to safety. As in previous drills students were kept at a distance of fifty feet from the building and waited for the signal to return to the inside. The building was cleared of students in about two minutes and 30 seconds. The time was slowed a little by one stairway being closed, and students being forced to retrace their steps to find another exit.

"A fire drill is held on an average of once a month in keeping with the rules set up in all fire regulations," Gentry said.

DELAY RADIO CASE Commission Takes No Action on Local Application

WASHINGTON, Mar. 12 (AP)—The broadcast division of the communications commission today delayed final action on an examiner's recommendations that The Big Spring Herald Broadcasting company be allowed to use the same wave length of 1500 kilocycles and 100 watts power on unlimited time in West Texas, and the North Texas Broadcasting company use it in Northeast Texas.

The division dismissed the application of Eugene Dehogory of the Paris Broadcasting company, in which he protested the report favorable to the North Texas company of Paris, for use of 1500 kilocycles, 100 watts power daytime service.

PROPER AGING

Tobacco in its natural state is harsh and strong. Though "cured" by the grower before sale, it is unsuited for use without further aging. During this aging period (which ranges in the case of Lucky Strike from 1½ to 3 years) important changes occur. These "Nature" changes result in the partial "smoothing out" of the original harsh qualities of the leaf. Our process of manufacture carries these improvements many steps further—as every Lucky Strike Cigarette exemplifies: A Light Smoke of rich, ripe-bodied tobacco.
