"One of Our Prettiest Medals"

President Truman presented a fourth oak leaf cluster to the Distinguished Service Medal to Gen. Douglas MacArthur during their meeting on Wake Island in the Pacific. The medal was for "distinguished service to the United Nations and the people of Korea." Truman described it as "one of our prettiest medals." In the center of the picture is John Muccio, American Ambassador to Korea, who was presented the medal of Merit by the President.

North Koreans Driven Back Toward Pyongyang

Army Men See End Of War In Short Time

By RUSSELL BRINES
(Associated Press Staff)

TOKYO, Oct. 16. — Military circles here speculate generally that the Korean war will be over in a matter of weeks.

They expect that major fighting will end after United Nations forces drive into the North Korean Communist capital of Pyongyang. Spearheads were within 40 miles of that city today.

A slow and perhaps lengthy cleanup campaign to eliminate holdout fragments of the North Korean Red army probably will continue after the close of the main military operation.

Tokyo circles have been optimistic as to a quick end of the fighting since the Sept. 15 landing at Inchon pulled apart the Communist army. This opinion has been voiced repeatedly by field commanders who have said the North Koreans definitely are beaten.

QUESTIONS

Army commanders have said often that their job is to destroy the North Korean military force and in doing so to hunt out its remnants, wherever they might be.

How close the chase will take allied troops to the explosive Manchurian and Siberian borders is not known.

South Korean troops were first to cross the 38th Parallel, the arbitrary boundary between North and South Korea, in pursuit of the broken Red Army that invaded South Korea June 25. This could mean that Republican forces will be used to make the closest penetrations to the Communist borders touching Korea on the northwest and north.

There is little expectation in Tokyo that any important Soviet or North Korean officials will be found in Pyongyang. An escape route is still open to the northward although main highways and railroads are under regular allied air attack.

LONG OPERATION

President Truman Sunday reiterated earlier statements that American troops would be withdrawn from Korea as soon as possible after the fighting ends. This in itself will be a prolonged and complicated operation and probably will take months to complete.

The fall of Pyongyang will inaugurate a rehabilitation campaign that probably will present more complex political and economic problems than did the occupation of Japan in its early phases. Korea also was occupied after the Pacific war but then it did not lie in ruins.

Gen. MacArthur, United Nations military commander, will supervise the early rehabiiitation.

Six Violent Deaths Occur Over Week End

(By The Associated Press)

Violent death came to at least six persons in Texas during the week end. Three persons died of gunshot wounds and three in traffic accidents.

Surprisingly, not a fatal traffic occurred in Dallas, jammed with the greatest crowd in its history because of a doubleheader football game. For one reason, the traffic jam was so great that automobiles moved at a snail's pace in many sections.

Violent deaths reported between midnight Friday and midnight Sunday included:

Robert Whitener, 33, of Corsicana died today of injuries suffered Friday night in an automobile collision.

Sylvester J. Cuchia, 32, night club operator and taxi driver, was shot to death at his club last night in Houston. Edward B. Evans, 54, club manager, was charged with murder.

Allan Curry, 22, of Houston died of traffic injuries suffered yesterday in Houston.

Wayne S. Worley, 17, died of a pistol shot yesterday at Fort Worth. A coroner's verdict of suicide was returned.

R. D. Walthall, 46, of Dallas died yesterday after he was shot out of a pecan tree by an 80-year-old hunter two days before.

Henry LeRoy Banning, 25, of Gainesville was killed yesterday when the car in which he was riding overturned near Graham.

Korean War In Brief

(By The Associated Press)

NORTH KOREA BATTLEFRONTS: Four prongs of allied drive tighten ring on Red capital, Pyongyang. U. S. troops drive within 46 air miles of capital. South Koreans 40 miles away. Other South Korean forces spear north on east coast 30 miles beyond port of Wonsan.

TOKYO: Gen. MacArthur, back from meeting with President Truman, says they discussed Far East, particularly Korea, Japan and Philippines. Military circles speculate Korean war will be ended, except for mopping up operations, within matter of weeks after fall of Pyongyang and chase of Reds toward Soviet and Manchurian borders.

Nehru Against Special Armed Force For UN

By STEVEN V. DAVID
(Associated Press Staff)

NEW DELHI, India, Oct. 16. — Prime Minister Jawaharlal Nehru voiced Indian opposition today to a U. S. proposal for the raising of special armed forces to serve at United Nations direction.

Such forces, Nehru told a news conference, were more likely to lead to a world war than to discourage one.

The U. S. proposal, part of a seven-nation resolution now being debated by the UN General Assembly in New York, calls for UN members to earmark part of their armed forces for use either by the Security Council or the assembly to meet threats of aggression.

Such armed forces, Nehru said, are "likely to produce an atmosphere and psychology of fear." India, he continued, would object to any part of its army being put under any control but its own.

were unnecessary, since each country already had an army.

Nehru said such special forces India's attitude on the U. S. anti-aggression plan, which now is being sponsored by six other nations in the General Assembly, is considered of vital importance because of the nation's position as a leader in Asia.

The Indian leader also criticized the crossing by UN forces in Korea of the 38th Parallel, an action which the General Assembly authorized in a resolution adopted Oct. 7. India abstained in the vot-

Two Divisions Keep Reds Moving East

Last Major Battle Of War May Be Close At Hand As Reds Weaken

By RELMAN MORIN
(Associated Press Staff)

TOKYO, Oct. 16. — Two allied spearheads smashed today toward the flatland approaches of Pyongyang in an armored race for the Red Korean capital.

The last major battle of the war may be close at hand. There was a growing belief in Tokyo military circles that the war would end in a few weeks. But a long mopping-up period may follow.

Racing for the Red capital were the U. S. First Cavalry Division—the first into Manila in World War II—and the South Korean First Division.

TOUGH BATTLE

The Americans battled through stubborn resistance Monday in a 12-mile thrust to Sinmak, 46 air miles southeast of Pyongyang. The South Koreans, paced by American tanks, reached Suan, 40 air miles southeast of the Communist capital.

Both forces were thrusting through North Korean mountain backbones which shield Pyongyang on the south and east. Field reports indicated the Red remnants were crumbling rapidly. Resistance was fierce in spots, but spokadic.

AP Correspondent Jack MacBeth, with the South Koreans, said they "broke into a run" for Pyongyang after charging into Suan.

The U. S. Cavalry troopers ran into their toughest fight two miles north of Namchonjom, about 10 miles southeast of Sinmak and 12 miles north of captured Kumchon.

CLOSEST GROUP

Although the South Korean column was closest to Pyongyang, it was fighting along a winding mountain road. The First Cavalry was banging up the longer rain rail and highway route. Its next main objective is Sariwon, 27 road miles west of Sinmak and 35 miles south of Pyongyang.

Two other columns were driving toward Pyongyang from more distant points. The U. S. 24th Division hit from the south and the Republic of Korea (ROK) Third Division from the east. The ROKs moved along a road twisting across the peninsula from Wonsan on the east coast.

It was the first time the 24th Division had been reported in action since it swept up "Heartbreak Highway" from the old Pusan beachhead to recapture Taejon, in South Korea.

FIRST IN

Units of the 24th Division, flown to Korea from placid occupation duty in Japan, were the first Americans hurled against the Red juggernaut after the June 25 invasion of the South Korean Republic. The 24th fought a series of bitter withdrawls. It bought valuable time with blood.

The 24th Division entered Yonan, just south of Parallel 38 and 50 miles northwest of Seoul, after a brief fight. Either the Reds were confused or sought the safety of imprisonment because they fled south toward certain encirclement.

Elsewhere, the only escape for the North Koreans appeared to be north of Pyongyang, on the west coast, and north of Hungnam, on the east coast. The latter is on the heavily bombarded road to Manchuria and Soviet Siberia.

Financial Aid To France Is Assured Here

WASHINGTON, Oct. 16. (AP)—The United States was reported ready to promise substantial financial help to France today so that nation can start immediately on a giant rearmament program.

Informed officials said Secretary of State Acheson will pledge aid—without naming a specific amount—to French Defense Minister Jules Moch and Finance Minister Maurice Petsche at a meeting here.

TOTAL REQUEST

France has requested a total of $3,170,000,000 in American dollars and arms during 1951 so that it can:

1. Add three new divisions to the French Army next year, thus boosting French armed strength in Europe to 10 full divisions.
2. Step up the production of arms from French factories.
3. Increase the flow of arms, munitions and planes to the 150,000 French troops now battling Communists in Indochina.

Top U. S. officials predicted over the week end that a quick increase in American aid to Indochina can be expected in a move to meet a threat of a major drive which the Communists might make there to offset the Red setback in Korea.

TOP TOPIC

These authorities assumed that the Indochina problem was one of the top topics for conversation between President Truman and Gen. Douglas MacArthur in their Wake Island conference over the week end. Mr. Truman is known to have been briefed by the State Department on latest developments on the anti-Communist fight in Indochina.

Following the conference with Acheson, Moch planned to leave for New York immediately. He is returning at once to Paris to complete preparation of the French military budget for presentation to parliament, which convenes tomorrow.

Stassen Lauds Dewey Backing Of Eisenhower

PHILADELPHIA, Oct. 16. (AP) — Harold E. Stassen, twice an unsuccessful aspirant for the Republican president nominee, today hailed Gov. Thomas E. Dewey's support of Gen. Dwight D. Eisenhower in 1952 as "real statesmanship."

Stassen now is president of the University of Pennsylvania.

Dewey twice elected governor of New York and now seeking his third term, said yesterday he would use his "influence" to get Eisenhower nominated as the GOP candidate in 1952.

Dewey was the Republican nominee in 1944 and 1948, beating out Stassen both times.

Stassen, former governor of Minnesota, said in a statement:

"Gov. Dewey showed real statesmanship in his forthright declaration. I am pleased he has taken this step.

"I've wired him my commendation.

"I have long ago expressed and continue to have a very high regard for Gen. Eisenhower."

Stassen declined further comment. He parried a question about whether he would seek the nomination himself in 1952 by saying:

"My statement is my only comment.

He also refused to say whether he, like Dewey, would work for Eisenhower's nomination.

Tidelands Decision Will Not Be Reconsidered by High Court

WASHINGTON, Oct. 16. (AP)—The Supreme Court today refused to reconsider its recent decisions that the federal government has paramount rights to rich oil lands under marginal seas along the Texas and Louisiana coasts.

The high court issued two brief orders turning down petitions from the two states for reconsideration.

CLARK REFRAINS

Justices Jackson and Clark took no part in consideration of the cases.

The marginal sea areas — often called tidelands — have been leased in part by Texas and Louisiana to private oil-extracting companies.

The high court's decisions were announced last June 5. In 1947 the tribunal had ruled that the federal government had supreme rights to California tidelands.

In asking for reconsideration of the decision as to Texas, Price Daniel, attorney general of that state, said federal officials had shown no interest in the submerged lands until Texas and the oil companies developed them into highly valuable property.

Daniel further insisted the high court had been "unfair" to Texas. He said it did not give the state proper opportunity to present evidence as to "true ownership."

LOUISIANA, TOO

Bolivar E. Kemp, Jr., attorney general of Louisiana, in a similar petition, said the decision against his state was:

"Erroneous illogical, unenforceable, violative of the U. S. Constitution, and violative of the property rights of the states which are secured by treaty."

Although declining to reconsider the decisions, the Supreme Court took no action today on requests from the Justice Department that Texas and Louisiana be required to give a accounting of money they have received for oil taken from the lands.

Pennsylvanian Discovery In Southwest Kent

General American Oil Co. has shown for a new discovery from the Pennsylvanian lime in Central-Southwest Kent County, about 12 miles southwest of Clairemont.

That concern's No. 1 R. L. Spires took a drillstem test in the Pennsylvanian lime at 6,781-6,863 feet. Tool was open two hours.

Gas surfaced in 25 minutes. No fluid came to the top while the tester was open.

Recovery was 1,080 feet of heavily oil-and-gas-cut mud. There were no shows of formation water. The prospector deepened to 6,924 feet and took a 50-minute drillstem test at 6,883-6,924 feet.

Gas surfaced in three minutes. The drill pipe started flowing mud in 12 minutes and oil in 15 minutes. The oil continued to flow in a steady stream for 35 minutes, at the estimated rate of 20 barrels per hour. The fluid left in the drill pipe when the tester was closed was reversed out. There were 6,424 feet of clean oil and 500 feet of salt water.

Operator is now circulating while waiting on orders. Those orders probably will be to run casing and run production tests.

This prospective new producer is 660 feet from the south and west lines of the northwest quarter of section 10, block 4, H&GN survey.

It is one and one-half miles northwest of Sunray Oil Corp. and Seaboard Oil Co. of Delaware No. 1 Spires, the discovery well of the Spires Pennsylvanian field.

That development, Sunray Seaboard No. 1 Spires, was completed for a daily potential of 400 barrels of 42-gravity oil, flowing through a one-half inch choke of perforated section at 6,755 to 71 feet. The pay section had been treated with 1,500 gallons of acid. It is located 330 feet from the north and 1,980 feet from the west lines of section 22, block 4, H&GN survey.

KENT ELLENBURGER

Star Oil Co. and associates No. 1 Blanche Young, Southwest Kent County wildcat discovery from the Ellenburger, is preparing to take potential test and complete.

This project had flowed for 10 hours on a production test and during that period it made 600 barrels of clean oil and no water. That was at the rate of 1,440 barrels of oil a day.

The flow came after the open hole in the top of the Ellenburger at 7,782-7,822 feet had been washed with 1,000 gallons of mud acid.

The flow was after the load and

French Give Up Another Post

SAIGON, Indochina, Oct. 14. (Delayed) (AP) — Authoritative French sources said today that France's troops have abandoned still another post on the China-Indochina frontier—the outpost of Nacham.

There was no official confirmation of the withdrawal from Nacham, which is 18 miles northwest of Langson, the key stronghold still held by the French on the frontier.

The sources said Communist-led Vietminh troops had occupied Nacham following the French withdrawal.

The report of the abandonment of the post came as French officials said privately it soon might be necessary to withdraw French forces from all Chinese frontier posts. In the past month the French have abandoned the posts of Dongkhe, Caobang, and Thatkhe, leaving some 300 miles of the Chinese frontier open to traffic by the Vietminh to and from supply and training points in Communist China.

Eisenhower Is Definitely Out

NEW YORK, Oct. 16. (AP)—Gen. Dwight D. Eisenhower said flatly today that he will not be a candidate for the presidency in 1952.

Eisenhower's statement came after Gov. Thomas E. Dewey said yesterday he favored the supreme allied commander in World War II as the Republican's 1952 presidential candidate.

Eisenhower, now president of Columbia University, said that his future lay in his job at the university.

British Cruiser Sent Into Korean War Duty

HONG KONG, Monday, Oct. 16. (AP) — The British Cruiser Jamaica arrived yesterday from war duty off the Korean coast.

After refitting, the ship will rejoin the allied naval forces pounding Korean Communist coastal installations and supply lines.

Drew Pearson Report On Instructions To U. S. Troops Is Denied

TOKYO, Monday, Oct. 16. (AP) — Informed sources today denied a report in the United States that Gen. MacArthur had been given definite instructions by President Truman to halt American troops about 150 miles north of the 38th Parallel.

The report was broadcast by Drew Pearson, Washington columnist, who asserted the action was taken to keep U. S. forces away from possible involvement with Russian and Chinese Communist troops.

The Tokyo sources said the question of how close American forces would go to the Manchurian and Siberian borders had been decided long ago by military commanders here.

Allies Claim They Put 1,059 Tanks Out

LONDON, Oct. 16. (AP) — A British air ministry official said today that United Nations planes have put 1,059 North Korean tanks out of action.

Aidan Crawley, parliamentary under-secretary for air, told newsmen that 540 of the tanks had been utterly destroyed.

Complex Problems Of Korean Peace Face Truman, MacArthur

By ELTON C. FAY
(Associated Press Staff)

WASHINGTON, Oct. 16. — Some unprecedented and complex situations are involved in the "setups necessary to bring peace and security" to Korea which President Truman says he and Gen. Douglas MacArthur discussed at their Wake Island meeting.

For the first time, a segment of the Communist empire is being removed from the Soviet grasp. The procedure followed in North Korea may become a pattern should the fringes of the Russian empire start crumbling elsewhere.

MacArthur is going to have some problems he hasn't faced before. He can't use his experience in ending World War II as a guide for his steps in Korea.

ONE DIFFERENCE

When victory came in the Pacific, there was no organized Japanese government to sign.

In the closing days of the war, the allies encouraged the Japanese to retain the government of Emperor Hirohito. This facilitated the surrender and the eventual reconstitution of the Japanese government.

But the aggressive and ruthless policies of Communism make it impossible to use such machinery in North Korea.

MacArthur is well aware of that. It is to be noted that when he issued his first surrender demand Oct. 1, it was addressed to the military commander of the North Korean military forces, Marshal Choi Yung Kun, and not to the head of the Communist government, Premier Kim Il Sung.

In this, MacArthur appeared to be following to some extent the precedent set in the World War II collapse of Germany. There it was the Nazi generals and Admirals who signed the capitulation documents. Hitler's government had disintegrated with the reported suicide of the leader.

LITTLE POSSIBILITY

But there is little likelihood that either Choi Yung Kun or Kim il Sung will sign any formal surrender documents—for several reason. In the first place, Choi has ignored MacArthur's surrender demand and the premier has retorted angrily that "the peoples' army and partisans will fight until the day of victory." Secondly, they would be marked men in the fanatical Communist world should they deviate from doctrine and capitulate to the "capitalistic" world. And they quite possibly also would be men marked for execution as war criminals if they fell into United Nations hands.

Soviet Said Massing Units on Turkey Border

ISTANBUL, Turkey, Oct. 16. (AP) — Unconfirmed reports from the Turkish border town of Kars say Russia has massed six divisions on her frontier with Turkey and Iran.

The reports said the troops were from Lininakan in Soviet Armenia. They said four of the divisions were encamped at Yerivan near the triangle where Russia, Turkey and Iran meet.

The reports added that the Russians have been instigating revolts among the Kurdish tribes in Iran.

Storm Threat Hanging Over South Florida

MIAMI, Oct. 16. (AP) — South Florida was alerted and Cuba and the Bahamas warned against a hurricane containing winds up to 125 miles an hour today.

The hurricane is centered in the Caribbean Sea 140 miles southsouthwest of Camaguay, Cuba, and 480 miles almost due south of Miami.

Northeast storm warnings are flying from Palm Beach to Key West. Small craft warnings are on display from Palm Beach to Charleston, S. C.

Gale force winds swept Miami all day yesterday but died down temporarily today.

Grady Norton chief storm forecaster in the Miami Weather Bureau, warned that the winds would return, and ordered storm flags continued on display.

The heavy winds marooned John D. Pennekamp, associated editor of the Miami Herald, and two companions at Fowie Rock Lighthouse, a lonely light at the southern end of Biscayne Bay.

Latest Casualty List Includes 140 War Dead

WASHINGTON, Oct. 16. (AP) — A Defense Department casualty list (No. 126) issued today contained 442 names. It included 140 dead, 277 wounded, 16 missing, eight injured in war zone accidents and one reported prisoner of war.

Water Group Meets

NEW ORLEANS, Oct. 16. (AP) — The Southwest section of the American Water Works Assn. opens its 39th annual three-day convention today. Approximately 800 delegates are expected from Texas, Arkansas, Louisiana and Oklahoma.

Last Deed For Road Secured

All right-of-way deeds for the Clairemont Road paving project have been secured, Edgar Taylor, county judge, said today.

The last deed was signed late last week by O. W. Hendrix, now living in Panhandle, Tex., owner of property in the Bootheland Addition.

This deed will be put on record here today, Taylor said, and all preliminary work by the county will then be finished except for a condemnation which will be recorded in 10 days.

When the condemnation is recorded, the project will go into the hands of the highway department, according to Judge Taylor and W. W. Park, city attorney.

Park said he talked with an official of the state highway department over the week end about including the project in the department's November contract lettings, but that the official did not commit himself by any definite promise as to whether it would be in the November lettings or those of December.

Full Meaning of MacArthur and Truman Meeting Still A Puzzle

By ERNEST B. VACCARO
(Associated Press Staff)

HONOLULU, Oct. 16. — President Truman was flying back to the mainland today to report on his meeting with Gen. MacArthur on Wake Island while world capitals still puzzled over the significance of that Pacific rendezvous.

The President's plane "Independence" left Hickam Field, Honolulu, for San Francisco at 6:28 a. m. (10:28 a.m., CST), and the "Dewdrop," carrying his top advisers, departed five minutes later. The flight to San Francisco requires about nine hours.

CAREFUL ON TALK

Aides said the President is devoting extraordinary time and care to the major foreign policy address he will make in San Francisco at 8:30 p.m. Tuesday (10:30 p.m. CST.)

While he will preface his talk with a reference to his conference with Gen. MacArthur on the barren Far Pacific island as a move to help the Far East find peace, there has been no indication that the President will elaborate greatly on the Wake Island statement.

The statement, signed by the President and initialed by the United Nations supreme commander, followed their less than three hours talk.

HOUR ALONE

Actually, the most important phase of it was the hour Mr. Truman and Gen. MacArthur spent alone in the living room of a quonset hut before they went into conference with military and diplomatic advisers.

The statement gave no hint of any far reaching new decisions such as many had speculated might grow out of the spectacular 14,000 mile round trip flight.

In fact, one top White House policy adviser said Mr. Truman primarily "wanted to talk to Gen. MacArthur face to face" about Far East problems, and added "After all, he had never seen the general and thought he should."

Chamber Membership Drive Opens With 8

Eight new members were enlisted in the Chamber of Commerce as their membership drive began today, Harold Bennett, manager, announced today.

Those added to the roster are Dr. Woodrow W. Mikeska, dentist; J. Ray Martin, lawyer; J. C. Evans, distributive education instructior at Snyder High School; Dr. Ben. L. Costin, chiropractor; R. T. Roberts, Culligan Soft Water; Wallace S. Salmon, paint contractor; Caperton Brothers Motor Co., and Wimberly Hardware.

Weather

WEST TEXAS: Generally fair this afternoon, tonight and Tuesday. Slightly cooler in Panhandle late tonight and Tuesday.

EAST TEXAS: Fair this afternoon, tonight and Tuesday. Not much change in temperature. Gentle to moderate easterly winds on the coast.

Doctors Up To Fifty Years Of Age Register For Draft Today

By VERN HAUGLAND
(Associated Press Staff)

WASHINGTON, Oct. 16. — The Defense Department hoped today's first medical draft registration will provide a pool of from 5,000 to 10,000 men from which it can induct the 1,522 doctors, dentists and veterinarians it wants by the end of January.

Under the medical draft law passed by Congress, men through 50 can be drafted. Present plans, however, call for induction of only a few in the lower age groups.

REGISTRATION

Draft boards today registered young doctors, dentists and veterinarians who were:

1. Students in the Army specialist training or similar Navy V-12 program during World War II, and who served less than 21 months in one of the services or the public health service after completing their medical education.

2. Deferred from service in World War II to obtain medical, dental or veterinary degrees.

Estimates of the number involved range from 5,000 to 10,000.

Other medical men under 51 will register at later dates until Jan. 16, when the registration task is to be completed. No provision has yet been made for the registration of pharmacists, optometrists, osteopaths, x-ray technicians and other medical specialists.

Men called up in the doctor's draft will serve not more than 21 months under present regulations.

FIRST UP

Medical men whom their draft boards find acceptable for military service will be placed in class 1-A immediately.

A special category—1-A-0—to be drafted right along with the 1-A's, has been set up for conscientious objectors willing to perform non-combat services.

Conscientious objectors who say they cannot perform any type of military service whatever will be placed in class 4-E, and this class will be the first to be looked over when the 1-A's and 1-A-0's are used up.

Next will come class 1-D—members of reserve units. After them will come the 2-A's, medical men whose services in their community are found to be necessary to the maintenance of health, and who cannot be replaced.

It is not anticipated that the present needs of the armed forces will make it necessary to dip into these classes.

Police Raid Obscene Motion Picture Showing

CHICAGO, Oct. 16. (AP) — Police raided the basement of a north side home yesterday and seized 72 teen-aged boys who they said were viewing obscene movies.

Juvenile Officer Ted Groark said the movies were "shocking, the worst we've ever seen."

Ten of the boys, 17 to 19, will appear in boy's court today on charges of being inmates of a disorderly house. Sixty-two boys, from 13 to 16 years of age, will appear in family court.

Det. Albert Gerber said the boys running the show said they were members of the Cobegos Club and charged admission to raise funds for jackets. The movies were being shown in the home of one of the club members while his family was away.

Police said they were looking for a woman who reportedly rented out the films.

Most Of Louisiana Fires Extinguished

DERIDDER, Oct. 16. (AP) — The State Forestry commission says most of the 103 forest fires which roared throughout Louisiana yesterday have been extinguished.

About 30 fires were reported in Beauregard Parish (County) in southwestern Louisiana and 14 in Livingston Parish in the southeastern part of the state.

Fires were also reported in Vernon, Allen, Evangeline, Rapides, LaSalle, East and West Feliciana, East Baton Rouge, Tangipahoa, Washington and St. Tammany Parishes.

Nation Enjoying Summertime Heat

CHICAGO, Oct. 16. (AP) — Temperatures headed toward summertime levels again today in parts of the Midwest, Great Plains and Gulf states.

Except for scattered showers in northern Minnesota, extreme southern Florida and parts of the Rockies, skies were generally clear throughout the nation.

Readings of 90 degrees or higher were reported Sunday from points in southeastern Colorado, western Kansas and the interior of the Gulf States.

Temperatures in the low 80's were forecast for some points in the Midwest.

However, cooler weather was pushing into the northwest and temperatures were rather low in the northeast.

Headquarters for Builders

Shown here is Forrest Builder's Supply at 2109 Twenty-fifth Street. This has been Snyder's complete building service since 1937.—(J. Lawrence Devers photograph).

South Amboy School Students Returning

SOUTH AMBOY, N. J., Oct. 16. (AP) — Some 500 public school kids hit the books today—on shifts—following the longest summer vacation they ever had.

The delay in opening was caused by last May's disastrous munitions explosion which did extensive damage to the city's schools. Even now the high school is the only one open. It will serve high school students in the morning and elementary pupils in the afternoon.

Famous Golf Writer Succumbs In Atlanta

ATLANTA, Oct. 16. (AP) — O. B. "Pop" Keeler, who spent most of his life doing the things he wanted to do—writing about golf and making friends—is dead.

O. B. was 68 when he died yesterday morning in an Atlanta hospital from a liver ailment and a nerve condition.

"Pop" was retired by the Atlanta Journal last Sept. 15 after 42 years of newspapering for the Journal, the extinct Atlanta Georgia and the Kansas City Star.

11th Hour Elopment Changes Plans Some

NEWARK, N. J., Oct. 16. (AP) — Bob Wallman, 24-year-old Newark draftsman, smiled as he put up the wedding decorations in St. George's Hall.

He thought of his cute little bride-to-be, 19-year-old Bernice Kurdes. He thought of the wedding reception. . .the New York night club table he had reserved . . .the two plane tickets to Florida . . .two weeks in the sun. . . .

All that was Friday night. Bernice had just left him.

And she really had left him.

She was dashing off for an 11th-hour elopment with another young man, Roland Lauther.

Next morning Bob got the bad news.

Sadly they called off the wedding and reception, flagged down the caterer and 200 wedding guests. Wallman also wondered about his $700 engagement ring and the house he had just bought.

But he was not going to give up [illegible]ymoon — even if there wasn't any honey anymore.

He gathered up old Pal Joe Krieg, who would have been usher at the wedding, and the two set out last night to paint New York red. After that. . . .

Gun-Shot Kills Man

DALLAS, Oct. 16. (AP) — R. D. Walthall, 46, died yesterday, three days after he was shot out of a pecan tree by an 80-year-old hunter.

The aged man said he thought he was shooting at a squirrel.

Industrialist, Financier Dies

CENTREVILLE, Md., Oct. 16. (AP) —John J. Raskob, behind-the-scenes political figure of the '30s and a pioneer in the automobile installment-buying plan, died at his estate here yesterday. He was 71.

A Requiem Mass will be offered at 11 o'clock Wednesday morning if his wife, Mrs. Helena S. Raskob, arrives by that time from Arizona. If not, the Mass probably will be delayed pending her arrival.

As a former chairman of the finance committee of General Motors, and associate of the Du Ponts of Wilmington, Raskob was one of the country's leading industrialists.

But he was most remembered for his political experiences. He dropped out of his business positions in 1928 to back Al Smith in his unsuccessful bid for the presidency.

Despite the setback, he remained a power in the Democratic Party—and one of its chief contributors—until 1932, when factional breaks resulted in his assuming a more minor role.

Officials Checking On Railway Derailment

MERMENTAU, La., Oct. 16. (AP) —Officials of the Southern Pacific Railway today investigated the derailment of an eastbound freight train at the Mermentau River here.

Four freight cars fell into the river. At least 17 were derailed and a 200-foot section of the bridge was ripped loose. No one was injured.

The accident came after the bridge had been lowered. It had been raised to allow a barge to pass underneath. A railroad spokesman in Houston said the crossing was attempted too quickly after the bridge was lowered.

Raskob is credited with authoring the plan for car manufacturers to finance car purchases on the installment plan.

His eastern shore farm— a showplace—has been host to both industrial and political hierarchy for 20 years. Several guests were down from New York for the week end when he suddenly became ill and died before a summoned physician could arrive. Death was due to a heart attack.

TALK OF THE TOWN

BY FRANCES BIOW

Can you fry an egg on a hot rock? Do the open spaces ring a bell for you? If so, and, if you're young enough and wiry enough, you should answer the call of the Girl Scout clarion. Ramrodded by several very determined women in town, this year's girl scout achievements are scheduled to be greater, more fun, and more worthwhile than ever before.

Kick-off of scout affairs took place this morning at various schools. MRS. GARRETT HARRELL shepherded the junior high group; MRS. WILSON CONNELL organized the sixth graders; MRS. SAM WOODS was on hand to lead a group; MRS. I. ATKINS took the second and third grade (yes, Girl Scouts get the bug that young!); and MRS. J. D. SCOTT worked with senior high scout plans.

Much activity is planned. If you are interested in any way — helping, attending outings, learning one of the most practical handbooks in existance, or in general entering into the scout fun, contact any one of these ladies, but now!

* * *

The Cotton Bowl fairly crackled under the direct rays of a Dallas sun Saturday afternoon, according to all the Snyderites who drove, flew or managed to get down to the stellar day with four top squads putting on a wonderful show. DR. and Mrs. JOHN BLUM and MR. AND MRS. J. D. SCOTT, as many others, saw the afternoon game at a television set downtown, avoiding the rush of the main gates. Said Mrs. Scott "My aunt's home was typical of so many large, crowded Dallas homes. Nineteen out-of-towners moved in for the week end.

One girl arranged a huge bowl of mums, vividly carrying out all four squad's colors. The bowl set in the hall and as we ran in and out, we snatched one for our suits."

MR. AND MRS. H. F. CLARK attended both games. Mr. and MRS. BERT DENNIS attended "South Pacific," both games and lots of other events, returning to their ranch home in Borden County late Sunday. MR. AND MRS. FRANK BROWNFIELD were throughout the Fair Grounds. FORREST BEAVERS arrived too late for a ticket to the afternoon game. Scores of other Snyder folks helped swell the crowds into the thousands.

Snyder Group Guests In Colorado City Home

Several Snyder residents, who had attended the Friday night football game in Colorado City, were entertained later in the home of Mr. and Mrs. Eldon Mahon.

The District Attorney and Mrs. Mahon had invited at least two dozen Colorado City couples in to meet the Snyder group in the new Mahon home, which they have occupied for only one month.

Present at the party from Snyder were Mr. and Mrs. Rob Davie, Mr. and Mrs. Howard. Bramley, Mr. and Mrs Malven Stephenson, Mr. and Mrs. Jack Kennedy, Mr. and Mrs. Wayland Holt, Mr. and Mrs. Garrett Whitworth. Mr. and Mrs. Charles Wolfe, and Mr. and Mrs. Harold Bennett.

Former Agriculture Department Man Is Freed Of 15 Charges

AUSTIN, Oct. 16. (AP) — Lack of evidence has brought dismissal of 15 indictments, four charging forgery and 11 theft, against former state department of agriculture employe, J. M. Del Curto.

Judge J. Harris Gardner dismissed the counts in 126th District Court on motion of Dist. Atty. Bob Long.

The September, 1946, Travis County grand jury returned the indictments following allegations of payroll manipulations and irregularities in 1943 and 1944 in the State Department of Agriculture.

W. D. Hart, attorney for Del Curto, contended the irregularities were state authorized and common department practices. He said many of the employes whose names appeared on questioned warrants later signed affidavits clearing the defendant of criminal liability.

The indictments dismissed involved sums ranging from $49 to $140.80.

New Korean Holiday

TOKYO Oct. 16 (AP) — The Republic of Korea will celebrate a new national holiday, United Nations Day, on Oct. 24.

Woman's Calendar

TUESDAY

Weslyean Service Guild, First Methodist Church, meets at 7 p.m., basement of church.

Chez les Amies Bridge Club will meet at Country Club, Mrs. W. P. Thurmon entertaining.

Friendly Fellows Forty - Two Club meets with Mrs. H. G. Towle, 2911 Avenue U, 7:30 p.m.

PERSONALS

Mr. and Mrs. Prentice Bass, 3789 Highland Drive, are parents of a boy, Joe Michael, born at the Big Spring Hospital Wednesday. The baby weighed 6 pounds, 8 ounces at birth. Mr Bass is the assistant manager of Dunlap's.

Mrs. L. Mullins, 1704 Seventeenth Street, received word Friday that her son and wife, Mr. and Mrs. Lance Mullins of Bridgeport, Conn. are parents of a baby boy. The baby weighed 7 pounds upon arrival, and the mother and son are doing well according to Mrs. Mullins.

Mr. and Mrs. Denis Rambo, 801 Twenty-ninth Street, are parents of a son, born Saturday at Snyder Hospital.

Mr. and Mrs. H. A. Smith of Kanpp are parents of a daughter, Jo Ann, weight seven and one-half pounds, born today at the Snyder Hospital.

Mr. and Mrs. W. F. Chambliss are parents of a daughter born yesterday at the Snyder Hospital.

Mr. and Mrs. Charles Julian, D&D Trailer court, are parents of a son born yesterday at the Snyder Hospital.

Word has been received from the Navy that Waylon O. Thompson, seaman, son of Mr. and Mrs. Lee Thompson, route No. 3, participated in recent amphibious landing assaults against Communist forces on the west coast of Korea. Before entering the Navy Thompson attended Hermleigh High School.

Demonstrators Stop Merger Efforts Of Indiana School Board

LOGANSPORT, Ind., Oct. 16. (AP) —It was school as usual at Onward today. Angry demonstrators had won the first round, at least, in their fight to prevent a school merger.

Forty state troopers pulled out Saturday under orders from Gov. Schricker. The troopers had been sent to escort a scheduled transfer of school desks between Onward and nearby Walton.

However a crowd of 1,500 gathered at the Onward school. Women carrying American flags picketed the doorways.

Trustee Virgil Turner, who ordered the merger on the grounds of efficiency and economy, said he didn't know what his next move would be.

The dispute centers around Turner's plan to operate a single Tipton Township high school at Walton and single a township grade school at Onward. Each town has had a complete school of its own until this year, and Onward has vowed to keep it that way.

Maj. Robert O'Neal, state police executive officer, said he told the governor he feared bloodshed would result if the school desk switch was made. He said the governor then rescinded the order that sent troops in.

Turner said a smaller staff could teach a better curriculum at less expense in a single school. The state board of education endorsed his merger plan.

Office Management Group In Meeting

HOUSTON, Oct. 16. (AP) — An informal panel discussion started the three-day regional conference of the National Office Management Assn. here yesterday.

Technical sessions will get underway today and continue through tomorrow.

Led by L. W. Clark of Standard Oil of Texas, a four-member panel discussed chapter services, education and business entrance tests, publicity and public relations and research, methods and standards.

Included in the panel was J. C. Harper of Magnolia Petroleum Co. in Beaumont.

The oldest known insulated house extant stands on Broad Street at Salem, Va. It was insulated with mineral wool in 1882.

Miss Grimmett And Howard Gray Married At North Side Church

Miss Earlene Grimmett and Howard Gray were married Saturday night at 8 o'clock in a candlelight ceremony at the North Side Baptist Church. The Rev. Earl Creswell performed the ceremony. Mrs. Gray is the daughter of Mr. and Mrs. Bill Grimmett, 1301 Avenue R. Mr. Gray is the son of Mr. and Mrs. E. E. Gray of San Angelo.

Mrs. Gray was attended at the double ring ceremony by Miss Betty Jo Beavers. Mr. Gray was accompanied by Billy Joe Brown. Ushers were Hubert Henley and Roland Bell, Jr. The couple stood under a huge arch of greenery.

Mrs. Gray wore a ballerina-length light blue gown with navy accessories. She carried a French corsage. Miss Beavers chose a tailored gray and brown suit with black accessories and her corsage was of gladioli.

Immediately following the ceremony, the couple left for a wedding trip in Mexico.

Mrs. Gray was graduated in 1950 from Snyder High School. She has been working as bookkeeper for her father's firm, the Grimmett Sand & Gravel Co. Mr. Gray was graduated from the San Angelo High School. They will live in Snyder.

NEWS FROM MURPHY

By MRS. BEN WEATHERS

STOCK MARKET

NEW YORK, OCT. 16. (AP) — Indecision hovered over the stock market today with prices moving narrowly.

There were more small minus signs than there were squally small plus signs throughout the list, but the margin was slight.

Cotton

NEW YORK, Oct. 16. (AP) — Noon cotton prices were $1.60 a bale lower to 25 cents higher than the previous close. Oct 38.10, Dec 37.80 and March 37.84.

Korean River Traffic

American engineers enlist aid of South Koreans in the construction of improvised log roadway over a shallow river to keep a tank column moving northward towards advanced infantry units.

Israel Facing Cabinet Crisis

JERUSALEM, Oct. 16. (AP) —Prime Minister David Ben-Gurion tried to form a new government today in the hope of solving Israel's first cabinet crisis since the birth of the state in May, 1948.

Ben-Gurion resigned last night after three religious bloc members in his outgoing cabinet told him they were withdrawing from the government because they did not like a recent cabinet change proposed in the face of Israel's financial plight.

NEW TRY

Later President Chaim Weizmann — after consulting all party leaders — asked Ben-Gurion to form a new cabinet for presentation to the Knesset, Israel's parliament. The Knesset reconvenes here today after a two-month recess.

If the Knesset refuses to accept a new government under Ben-Gurion new elections may be called. The present cabinet continues on a caretaker basis.

The task facing the premier is not an easy one. His Mapai Party controls only one-third of the votes in parliament and he needs the support of other groups to retain power.

COALITION

The religious bloc members who quit yesterday represent a coalition of the very devout, Orthodox, and conservative members of the parliament.

The trio held the posts of religion, social welfare and interior. They opposed Ben-Gurion's recent proposal to appoint Jack Gering, a non-party member and financial expert, as commerce minister to help out with the industrial crisis. The bloc contended the post should be filled by a conservative, one of its number.

The religious bloc also has been pushing for incorporation of more laws on observance of the Sabbath, on marriage and divorce and on other religious matters.

Better Cough Relief

When new drugs or old fail to stop your cough or chest cold don't delay. Creomulsion contains only safe, helpful, proven ingredients and no narcotics to disturb nature's process. 2 Physicians Are Added To Hospital Staff

A new physician reported today for work at the Snyder Hospital Clinic, and a second one is expected next Monday, according to Bruce L. Greer, hospital administrator.

Arriving today is Dr. Leroy J. Neal, 49, of Shawnee, Okla., who will assume the obstetrical practice left by Dr. Charles Girod, who has gone to the University of Pennsylvania, Philadelphia.

Dr. Neal practiced 18 years in Shawnee, and prior to that in Breckenridge, Tex. He and Mrs. Neal will live here at 604½ Twenty-ninth Street.

Dr. Neal was graduated from the University of Oklahoma and took his medical degree at Tulane. He interned at Charity Hospital, New Orleans, and was a Baylor Hospital, Dallas one year.

The physician who is expected next Monday is Dr. Raymond Mundt 52, of Carrizo Springs, Tex.

Dr. Mundt was graduated from the University of California at Berkeley, and received his medical degree from Loyola, Chicago, after which he interned at St. Bernard's Hospital, Chicago. He was a resident at the Soarks Memorial Hospital, Fort Smith, Ark.

He has practiced in Chicago and in Oconomowoc, Wis. At the hospital here he will specialize in surgery, Greer said.

Enrollment to 3,521, Up 100 in Two Weeks

Total enrollment in Snyder's five public schools for white students now stands at 3,521, exactly 100 more than the total of two weeks ago, according to M. E. Stanfield, superintendent.

The largest enrollment is in the Central Elementary School, at the High School campus, with 934 students in grades three through six.

The Northwest Elementary School, grades one through six, has 830 students; the Primary School, Twenty-eighth Street and Avenue K, has 600 in the first two grades; 603 are enrolled in the High School, and 545 in the Junior High School, which is now meeting between Avenues O and P on Twenty-eighth Street.

Methodist Brotherhood Supper Set Tonight

The Methodist Brotherhood will be served a supper at 7:30 tonight by the Crusader's Sunday school class in the basement of the First Methodist Church. The program will consist of special music and a sound motion picture, "The First Step." All men are welcome to attend.

Dallas Back To Normal Now

DALLAS, Oct. 16. (AP) — Dallas today basked in the sun, its people moving placidly—as if they'd never lived through the wildest week-end in the city's history.

The hysteria of the state fair of Texas and two football games matching four unbeaten teams did touch lightly most residents of this town of nearly half-a-million. But it left the police bushed.

It started Friday, this good-time sphree by an estimated 200,000 to 250,000 visitors, and ended early Sunday morning. In this span:

There were hundreds of minor automobile accidents, but not a single fatal mishap.

A total of 134 persons were officially reprimanded for too enthusiastic celebrating. But police said this number was "light" for a Saturday and Saturday night.

And there was the darndest traffic jam you ever saw.

Officially, the state fair had its grandest day. The Cotton Bowl, where the games were played, is located inside the big wire fence that surrounds the 187 acres of show grounds. So, the attendance figure for Saturday was 289,307. Fair officials said it was the biggest one day attendance of any annual fair, anywhere, any time.

Disabled Veterans To Meet Here Tonight

Disabled veterans of Scurry County will have an opportunity to meet tonight in the courthouse with Charles J. Walker, department organizer for the Disabled American Veterans.

Walker will explain benefits due disabled veterans, along with giving information on veterans' compensation.

Attempting to form a D. A. V. chapter in the county, Walker is a part of the program to enlist every disabled vet as a member.

The meeting will be at 8 o'clock.

Glass cooking ware designed for oven use should not be placed on top of the stove or next to a flame.

Texas Jurist in Famous Contempt Case Dies

ANGLETON, Oct. 16. (AP)—M. S. Munson, 81, for 31 years judge of the 23rd District Court, was buried here yesterday. He died Saturday.

He was appointed to the court in 1919 by Gov. W. P. Hobby, and held the office continuously without opposition. The district includes Brazoria, Fort Bend, Matagorda and Wharton Counties.

Munson in 1932 held three Houston reporters and the managing editors of three Houston newspapers in contempt of court during a murder trial.

Four convicts charged with the murder of a fifth inmate had asked for separate trials.

Munson told the reporters each case was the same and that testimony of the first convict's trial should not be published because it would make it impossible to obtain an impartial trial for the other cases.

The first trial story was published.

Munson's contempt order later was reversed by the Court of Crimi-

Great Lover Of Small Children Succumbs

DALLAS, Oct. 16. (AP) — Last rites will be held tomorrow for Louis W. Bovis, the nightclub owner who liked children so much he built a special housing project for married GIs with kids.

Bovis, 58, died yesterday. He had been hospitalized since mid-September with heart trouble.

A native of Philadelphia, he had lived here since 1936. He owned with his housing project, named Louanns Nightclub.

Bovis attracted national attention Pregnant Valley. The main street of the "Valley" was known as Maternity Row.

Lady Tells A.P. Use Of Word "Yank" Should Come To A Halt

By ARTHUR L. EDSON
(Associated Press Staff)

WASHINGTON, Oct. 16.—A lady down in Cache, Okla., thinks newswriters and newscasters should should stop calling the U. S. troops fighting in Korea "Yanks."

Miss Juanita Adams, who says she's a researcher of history, and politics, wrote the Associated Press she thinks the word "Yankee" has a shady past.

She says it started with the Indians. They were trying to say 'English," or its French equivalent, "Anglois." By the time the Indians got through with it, it came out "Yankee."

DERISION

When the colonies were breaking away from Britain, the English called the Colonials "Yankees" in derision. And so from the start, Miss Adams says, "Yankee" was a bad name.

Miss Adams seems to have a point at that.

Her version of the birth and early hard times of "Yankee" agrees with the Encyclopedia Brittanica.

But that old word worrier, H. L. Mencken of Baltimore, has a different idea.

In this book, "the American Language," Mencken says "Yankee" comes from the Dutch. It's a corruption of "Jan' and "Kees.' Or John Cheese, as an Englishman is John Bull.

But he, too, agrees that "Yankee" came up the hard way.

CUNNING

It was applied to early New Englanders, as a sign they had more cunning than they had scruples, Mencken says the New Englanders didn't mind it.

But during the Civil War "Yankee" bobbed up again. The southerners hurled it at the northerners, but there's no evidence anyone was wounded by it.

One researcher in the word wilds of Arkansas came out with the information that at least some of the natives used it as a verb, "to Yankee" meant "to cheat."

BIG PUSH

Although "Yanks" was sued back in the 1700's, the word got its biggest push from George M. Cohan's World War I song, "Over There," in which "the Yanks are coming."

All right. We rule out Yankees. What do we call the troops then?

Miss Adams says "Americans." But there has been some objection to that because a native of Canada or Honduras is an American, too.

United Staters? United Statesians?

See what we're up against, Miss Adams?

British Air Games End With Four Killed

LONDON, Oct. 16. (AP) — Airmen of six western nations yesterday concluded Britain's biggest postwar air games—a test of the island's defense against atom attack and the efficiency of new bombing methods.

Fourteen Britishers were killed in plane collisions during the week end. In addition, two Belgian pilots are missing and believed dead.

Oil has been ready!

Today the U. S. oil industry will be called on to supply the United States with 6,400,000 barrels of U. S. oil. It supplied that amount every day last week, and will supply it every day this week and next. It is a million barrels a day more than the peak of World War II, and it is 65% more than it was in 1940.

An increasing amount of today's oil goes to the needs of national defense, but the bulk of it supplies power for the millions of cars and trucks on American highways, the hundreds of thousands of tractors on American farms, and for the industries that make all the things that add up to a high American standard of living.

More cars, more tractors, more industries mean a need for more oil, year after year. This need has required the oil industry to look far ahead, to keep itself more than ready to supply current needs. It must be able *quickly* to meet increased demands.

And it is. Since World War II, U. S. oil companies have plowed back into the development of U. S. oil resources about $8 billion to find more oil, to increase oil production, to extend pipe lines and build tankers, to increase and improve refining capacity.

So the oil industry has *been* ready for the Korean emergency all along. It supplies today's greatly increased demand for oil in its stride. As still heavier demands are placed upon it, the industry is confident that it can supply them, too. It will be a big job. And make no mistake about it: it will involve many problems; consumers may be called on to make sacrifices; the job will require time for change and adjustment. But the oil industry is better prepared than ever before to take it on.

THIS IS OIL PROGRESS WEEK · OCTOBER 15 - 21

Giant Killer Rice Tangles In Houston With S.M.U. Saturday

By WILL GRIMSLEY
(Associated Press Staff)

NEW YORK, Oct. 16. — Army and Oklahoma were over the big humps in their schedules today and headed toward new perfect seasons that would provoke a hot dispute over the national football championship.

Southern Methodist, the other member of the college sport's terrific trio, faces a lot of possible lumps in a conference that prides itself on knocking over the favorite.

As a starter, the Mustangs meet the defending Southwestern champion, Rice, Saturday night in Houston. The unbeaten, untied Owls, who smothered SMU, 41-27, last year, could do it again.

Meanwhile, Army's Black Knights, having mauled Michigan, 27-6, with an awesome display of might, should expect no trouble until they run against Stanford Nov. 18 in the next-to-last game of the season.

Pennsylvania comes up Nov. 4 for the West Pointers but the Quakers should offer little resistance for Earl Blaik's powerful, hard-hitting team. Army will meet de-emphasizing Harvard Saturday.

Oklahoma, 14-13 last gasp winner over Texas in Dallas' Cotton Bowl, has no other assignment that looks anywhere near as tough. Kansas, an old Big Seven rival, could prove cantankerous Nov. 11 as could Oklahoma A&M in the final game. Kansas State furnishes the opposition this week.

Both Army and Oklahoma are working on modern football's fanciest streaks of invincibility.

The Sooners have won 24 straight games — tops in the land. The Cadets have gone 23 games without a setback but a couple of ties have been sandwiched in.

Swinging into the last half of October, here's how sectional strength measures up, in approximate order:

East — Army, Cornell, Pennsylvania, Princeton.

Midwest — Oklahoma, Notre Dame, Ohio State, Wisconsin.

South — Kentucky, Vanderbilt, Clemson, Maryland, Tennessee.

Southwest — Southern Methodist, Rice and Texas.

Far West — California, Stanford, Washington.

Of these, all are unbeaten and untied except Penn, Notre Dame, Ohio State, Maryland and Tennessee, which have dropped a game apiece.

Army, voted the nation's No. 1 team last week after the fall of Notre Dame, got its best test in the game with aroused Michigan at Yankee Stadium.

For more than a half the future venerals were played off their feet but, with sophomore Fullback Al Pollard in the most damaging role, they struck for three touchdowns in five minutes of the last half to turn the game into a rout.

Oklahoma subdued a favored Texas in the fading minutes when Billy Vessels smashed 11 yards to a touchdown and Tackle Jim Weatherall kicked the important extra point.

The Lone Star State's pride was assuaged in the night half of the inter-state doubleheader at Dallas when Southern Methodist, paced by passer Fred Benners, rolled to a 56-0 victory over Oklahoma A&M.

Other members of the first ten, with the exception of giant-killer Purdue, came through their week end assignments.

Russell Says He Fears The Owls

DALLAS, Oct. 16. (AP) — H. N. (Rusty) Russell, whose Southern Methodist team beat Ohio State 32-27 — which makes the Methodists, by mathematics, 32 points better than Rice — says he's scared to death of Rice.

Southern Methodist, riding high, wide and handsome, runs into the Owls at Houston Saturday night, matching the last two undefeated, untied teams in the Southwest Conference.

"This is the game," said Russell today. "Rice has a great team and I'll be happy to trade all those points we made Saturday night against Oklahoma A&M for a one-point victory."

Russell said he did all he could to hold the score down in the game with the Oklahoma A&M (which SMU won 56-0). But he pointed out that SMU didn't do much of a job in the first period when fumbles and pass interceptions kept the Methodists bottled up in their end of the field.

He chuckled over what Kyle Rote, his great halfback, said.

Rote was in the game during the first quarter and a fumble by Kyle got SMU in hot water in the first time.

"If you want to hold the score down, coach," said Rote, "you should put the starting team back in."

One fan asked Russell why he didn't play Peruna, the Shetland pony mascot of the team, since everybody except the coach's son, H. N. Russell, Jr., sitting on the bench with an injury, got into the game.

"I told him I wouldn't play Peruna because I was mad at him; he kicked at me," Russell said. "He must have thought I was a sports writer."

Reminded that since SMU beat Ohio State 32-27, Ohio State beat Pittsburgh 41-7 and Rice beat Pittsburgh only 14-7, that made SMU 32 points better than Rice, Russell snorted that comparative scores meant nothing in the present day game of football.

"We know what we have to contend with against Rice," he declared. "It's going to be the toughest game of the season. I do believe we'll be in top condition for this one, however, and that helps."

Pampa, Lamesa Will Be Only Game In AA Matching Unmarked

Pampa, power of the Panhandle, meets Lamesa in the feature game of Texas Class AA schoolboy football this week.

It is the only test matching undefeated, untied teams and is a tough one for a surprising Lamesa eleven that has plugged along practically unnoticed.

Others of the select circle of unbeaten, untied teams face strong foes this week. For instance, Freeport engages Pasadena and Texarkana runs into Tyler.

In addition to Pampa, Lamesa, Texarkana and Freeport, teams undefeated and untied are Breckenridge, Palestine, Cleburne, Port Arthur, Galena Park, Corsicana, McAllen and Midland.

Corsicana in the only unscored on eleven. Breckenridge was in that class until last week when the Buckaroos whipped Crozier Tech of Dallas 47-7.

There are 36 games on the week's schedule with 11 of them conference affairs.

Conference play is quite heavy in the East and South Texas districts. However, the Pampa-Lamesa game overshadows any of the title tilts and then there's that annual grudge battle between Amarillo, on the climb back up after raking the bottom, and Lubbock, which was unbeaten until last week when it fell to Pampa 27-21.

Big Spring was the only undefeated, untied team to tumble. The Broncs took it on the chin from San Angelo 32-7.

Four teams that were undefeated but had been tied also were ushered out. Longview lost to Texarkana 7-6, Sweetwater to Midland 21-6, Pasadena to Conroe 20-12 and then there was Lubbock.

Class A Shows 18 Undefeated, Untied Teams

(By The Associated Press)

There are just 18 undefeated, untied teams left in Class A schoolboy football, and chances are this list will get slimmer every week.

Three perfect teams were tripped last week—Dublin, Mt. Pleasant, and Uvalde. One unbeaten but tied team fell, Henrietta.

Each of the favorites in the 32-district division came through with ease, if they played. Some were idle, getting ready for big games this week.

There are 106 games on tap this week, most of them district affairs.

The two top teams of Class A, defending champion Littlefield and New Braunfels, won one-sided games last week. Littlefield trampled Muleshoe, 51-13, and New Braunfels rolled over Luling, 50-0, and became a "point a minute" team. The Unicorns have played six games, scored 294 points.

In the "big game" of last week, Mt. Vernon knocked off Mt. Pleasant, 29-13. The two had been undefeated and untied.

Ranger kicked Dublin out of the perfect class, 34-25; Brady dumped Uvalde, 22-12, and Newcastle routed Henrietta, 20-0.

Three of the top games this week match Olney and Seymour, Arlington and Terrell, and New Castle and Diamond Hill. This latter tilt probably will decide the District 11 winner, while a victory for Olney would put it closer to the crown in District ten. Arlington is undefeated and untied while Terrell is unbeaten but tied.

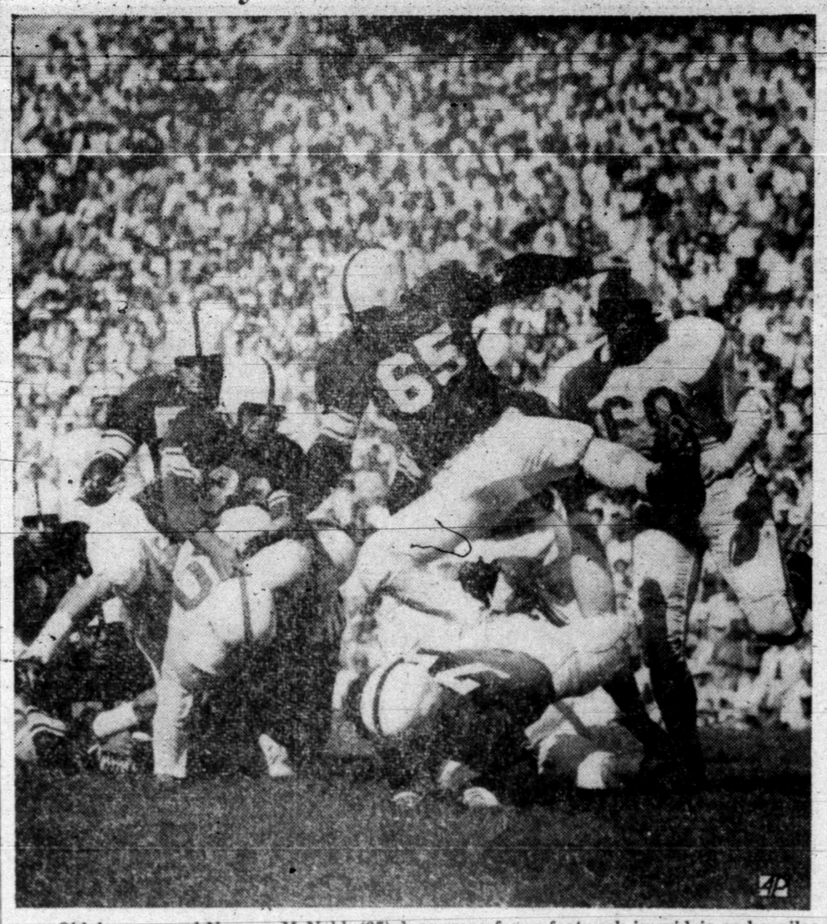
The teams with perfect records are Littlefield, Monahans, Kermit, Haskell, Oleny, Newcastle, Arlington, Mt. Vernon, Sulphur Springs, Hearne, Lavega, Georgetown, Branham, Gonzales, Lamarque, Sinton, Mercedes, and Pearsall.

Teams that haven't been beaten, but who have been tied, include Shamrock, Crowell, Pleasant Grove, Terrell, Elgin, New Braunfels, French, Wharton, Donna, and Alvin.

Other outstanding games this week are

Dalhart-Phillips; Paducah-Abernarthy; Monahans-Andrews; Colorado City-Rotan; Brady-Ballinger; Ranger-Commanche; Big Spring-Haskell; Wills Point-Mineola; Mt. Vernon-Pittsburgh; Clarksville-Atlanta; Mexia-Hearne San Sabahart-New Braunfels; Dickinson-Lamarque; Robstown-Alice; Donna-Mission, and Uvalde-Hondo.

Fancy Dan in Cotton Bowl



Oklahoma guard Norman McNabb (65) does some fancy footwork in midair as he piles in to help stop Texas back Byron Townsend (in white under McNabb's right hand) going to the ground after gaining five yards in the first period of the game played in Dallas Saturday. No. 60 is Texas guard Joe Arnold. Okla-homa players are end John Reddell (86), back Buddy Jones (33) and back Claude Arnold (15). Oklahoma won 14-13.

Southwest Is In Spotlight

By WILBUR MARTIN
(Associated Press Staff)

The Southwest Conference keeps its explosive teams at home this week and national prestige and two unbeaten records are on the line in games that mean a chance for a $125,000 jackpot.

The extra cash reward is the take for a team in the New Year's Day Cotton Bowl game and the conference champion automatically is invited to play in it.

Southern Methodist, No. 2 ranking team in the nation, puts is aerial circus and potent ground game against Rice, a team that has blended passing and running for three straight victories.

The University of Texas, one-point loser to Oklahoma last week, entertains Arkansas and Texas Christian University meets the rampaging Texas A&M Aggies.

Baylor plays winless Texas Tech in the only non-conference game.

Southern Methodist ran over Oklahoma A&M, 56-0, for its fourth straight victory.

Texas, ranked No. 4 last week, lost in the final minutes to Oklahoma, No. 3 team in Associated Press football poll, 14-13.

Texas A&M smashed Virginia Military Institute, 52-0, while Texas Christian beat Texas Tech, 19-6, with more ease than the final score showed.

Arkansas won a conference tilt from Baylor, 27-6, while Rice downed Pittsburgh, 14-7.

A fumble by Texas gave Oklahoma the opportunity to win and fumbles by Texas cost the Longhorns dearly earlier in the game. The biggest crowd ever to watch a game in the Southwest, more than 76,000, watched Oklahoma run its winning streak to 24 games, longest in football now.

The Red River of the North, which crosses the U. S.-Canadian border, is so called to distinguish it from the Red River which forms part of the Texas-Oklahoma line.

Bartosh Leads In Conference

DALLAS, Oct. 16. (AP) — Gil Bartosh, the brilliant Texas Christian passing-running sophomore, has taken over the total offense leadership in Southwest Conference football.

Bartosh ran his total to 584 yards against Texas Tech last week. He has gained 325 passing and 259 rushing. Kyle Rote of Southern Methodist, dropped to second place with 573.

Louie Schaufele of Arkansas replaced Larry Isbell of Baylor as the punting leader but other front-runners remained the same.

Pounding Bob Smith of Texas A&M still is the top ball-carrier with 447 yards on 76 runs. Rote is second with 47.

Fred Benners of Southern Methodist is the leading passer. He has completed 35 of 67 for 554 yards and five touchdowns. Vernon Glass of Rice, who has the grand average of .719 in passing, is second in yards with 366 on 23 connections in 32 throws.

Schaufele's punting average is 42.3 made on 16 boots. Isbell's average is 41.6 on 29 kicks.

Glenn Lippman of Texas A&M is the leading punt-returner. He has run five back for 106 yards — an average of 21.2. Rex Proctor of Rice is second with 166 yards on 8 runs — an average of 20.7.

H. N. Russell, Jr., of Southern Methodist still leads the pass-receivers although he did not play last week. He has caught 10 for 281 yards and three touchdowns. Bennie White of Southern Methodist is second with 12 for 170 yards.

In team offense it's Southern Methodist by a wide margin. SMU has rolled up 1,776 yards in four games with 1,063 in the air. Texas A&M is second with 1,464 with 1,136 of it on the ground. SMU leads in passing and A&M in rushing.

The leading defensive team is Rice, which has given up only 635 yards in three games — an average of 211.6.

Detroit Spree Causes Death

DETROIT, Oct. 16. (AP) — Young Ennis Gillum may face a murder charge as the aftermath of his "crazy drunk" spree of slugging and assault.

Stricken with remorse, the 26-year-old tobacco salesman admitted five attacks yesterday, police said. He muttered tearfully:

"I hope the people are all right. There's no use saying I'm sorry—it's done—but I am sorry."

Just a few hours later, Mrs. Dorothy Julian, 47, one of the five women and children slugged in the city's northwest section Friday night, died in a hospital.

SEEK WARRANT

Police did not tell Gillum about her death immediately. But officers planned to seek a murder warrant. The other four victims are recovering.

Mrs. Irene Gillum sat quitely beside her husband in his jail cell and held his hand yesterday as he tried to throw off a hangover fog and remember the assaults that took him into several homes in the same general area.

"Naturally, I intend to stick by him to the end in this trouble," the young wife said.

DIDN'T KNOW

But she told officers she had no idea her husband had been involved in the slugging rampage until police showed up to question him Saturday afternoon.

All Gillum could say was that he went berserk after heavy drinking at a convention of the Michigan tobacco and candy distributors.

Mass Attempt to Climb Volcano Results In Death of Three Persons

MEXICO CITY, Oct. 16. (AP) — A mass attempt to climb Popocatepetl volcano for a religious ceremony on its 17,887-foot peak, resulted in three deaths and injuries to more than 400 persons during the week end.

Some 5,000 Catholics tried to climb the lofty peak to attend a ceremony blessing the banners of mountaineering clubs of North and South America and Europe. They were caught in a blinding snow storm. The officiating priest and all but 300 of the climbers, failed to make the summit. The mass was canceled.

The Red Cross Alpine squad said a girl climber and a youth fell to their deaths over a 600-foot precipice when she lost her footing and he tried to save her. The body of an unidentified man was found by the returning climbers.

Thomas Jefferson Makes Bid To Repeat For This Year's Title

(By The Associated Press)

City Conference teams in Texas schoolboy football turn from trying to beat their little brothers in Class AA this week to push into the heart of the championship schedule.

Of the 13 games on the slate, 10 are conference affairs, none, however, of major importance.

Last week the CC boys tried six Class AA teams and won only one game — the 13-6 decision Forest (Dallas) gained over Grand Prairie.

Mighty Thomas Jefferson of San Antonio, the defending state champions and favorite to repeat, rolled on devastatingly. The Mustangs crushed Lanier, also of the San Antonio district, 81-6.

Basketball Practice Start For Six Of The Southwest Cage Teams

(By The Associated Press)

Six of the seven Southwest Conference schools will start basketball practice today. The seventh, Arkansas, must wait until Nov. 1.

Arkansas' late start was a penalty imposed on the Razorbacks by the conference for allowing a school team to compete in an amateur tournament.

Texas A&M starts with a new coach, John L. Floyd, formerly of Little Rock, Ark., Junior College and once a member of the staff at Oklahoma A&M. He replaced Marty Karow, who resigned to go to Ohio State as baseball coach.

Bears, Browns May Fight For National Title

NEW YORK, Oct. 16. (AP) — If the Chicago Bears and Cleveland Browns wind up fighting it out for the National Football League title, a couple of grid guns named Johnny Lujack and Otto Graham can take the bows.

Yesterday, Lujack led the Bears into a tie with the idle New York Yanks for first place in the National Conference as his team walloped the Green Bay Packers, 28-14.

Graham again scintillated in the Browns' 34-24 victory over the Chicago Cardinals. The triumph gave Cleveland the lead in the American Conference.

The Browns supplanted the previously unbeaten New York Giants, who took a 17-6 drubbing from the Pittsburgh Steelers in the losers' first home game of the season.

In other contests, the Los Angeles Rams edged the Detroit Lions, 30-28, and Philadelphia's Eagles downed still-winless Baltimore, 24-14.

Lujack scored 22 points on three touchdowns and four conversions. This put Johnny at the top of the league's scorers with 55 points for five games, or five above Doak Walker of Detroit.

One hybrid sugarbeet variety increased sugar per acre by 15 per cent in experiments.

President and MacArthur on Wake

President Truman and Gen. Douglas MacArthur are shown in the back seat of a 1948 light sedan which they used for transportation on Wake Island during their historic meeting in the Pacific.. General MacArthur, United Nations Commander in the Korean War, returned to Tokyo after the three-hour meeting. President Truman flew back to Honolulu. The President plans a major foreign policy address on his return to San Francisco.

Truman Right As Rain About Anti-Communist Legislation

By MALCOLM W. BINGAY

I see where the President says that the anti-Communist law was passed over his veto as a result of "national hysteria."

I heartily agree with him.

That is, if we accept the word "hysteria" in its modern non-scientific meaning. I am quite sure he did not mean that the people are hopelessly insane.

He, no doubt, means that the people are tremendously excited to a point where they are emotionally upset. And so do I. I believe that if the public mind had not been in such a state, no law of ANY kind would have been passed.

The tragedy of democracy has been that sometimes it has to work itself up into a high pitch of crystalized excitement, before been that sometimes it has to its voice can be heard. That is why its enemies sneer at it and call it inefficient—as did Hitler and as do the Communists. Unless the people are aroused, an alert democracy cannot function.

In his "Spirit of the Laws" Montesquieu noted that. "The tyranny of a prince in an oligarchy is not so dangerous to the public welfare as the apathy of a citizen in a democracy."

I have been glancing over the history of the human race since the President made that remark with which I so heartily agree, and I find, to my great delight, that he is as right as rain on a parched field.

There was never a time in the whole story of mankind's struggle up from the mud and morass of the ocean's edge to the dawning of a dream of human liberty that he has not worked himself into a frenzy, hysteria, madness, or what you will, in the intensity of his purpose. Psychologists have all sorts of funny names for it, but the fixation of an idea is as good as any.

"Every great crisis of human history," wrote Curtiss in his Call to Freedom, "is a pass of Thermopylae, and there is always a Leonidas and his three hundred to die in it, if they cannot conquer."

I do not think that Leonidas was exactly calm as he and his three hundred perished against the Persian hordes under Xerxes. Yet, as long as human valor remains a virtue, the name of Leonidas shall stand alone among the warriors of the world.

Come to think of it, the Barons at Runnymede when they pressed their swords against the breast of King John, were pretty much excited until they got his signature on that Magna Charta.

And there is no record that the American minute men at the rustic bridge at Concord had any idea it was all in good clean fun and nothing to get excited about. Or at Bunker Hill.

The whole 13 colonies were in a frenzy of excitement; what you might call hysteria.

From there on down I can find nothing in our history as a democracy where we have ever taken great moments in history with the calm so well appreciated at a game of chess. We've always been rip-roaring and until we have had our way.

Now it would seem that the people just got fed up on playing footsie with various shades of Communists, from coral pink to bloody red. It took a lot of hysteria to get the facts in the Hiss case dragged into the open. . . the Lee Pressman confession. . . and on and on and on into the dpper reaches of our government.

The people do not like the daintiness of abstractions, the quibbling of the hair-splitters as to when is a man a Communist or just a "near Communist" or a sympathizer with "the movement." They do not understand the pretty shadings of meanings of our pinky-pink cloud kissers who shudder with horror about "thought controls" and view calmly the slaughter of our young men in the filthy swamps of Korea, as "a mere police action."

They do not understand government by aesthetics or anaesthetics.

They do not believe in going downstairs to help the burglar remove the loot.

So they just blew up and demanded "a law" because it was obvious that both the President and the Congress were playing politics with the issue.

Yeah, there are a lot of bugs in it. Nobody is going to be hurt—not with our all-too-lenient Supreme Court. The people are not lawyers. But when no law was coming, they just got mad enough to get one. Improvements can follow. But it took a lot of hysteria

A&M Youth Winner Of Judging Contest

KANSAS CITY, Oct. 16. (AP) — Twenty-one-year-old Glen Dunkle, of Texas A&M scored 928 points to win high honors yesterday in the American Royal Intercollegiate Livestock Judging contest.

Team championship went to Oklahoma A&M, with 4,511 points, two points ahead of second place Texas A&M, which scored 4,509.

Texas Tech scored 4,246 points.

Dewey Calling For Eisenhower Draft In 1952 Election Year

NEW YORK, Oct. 16. (AP) — Gov. Thomas E. Dewey called yesterday for Gen. Dwight D. Eisenhower as the Republican nominee for President in 1952.

"If I should be re-elected governor and have influence with the New York delegation, I would recommend to them that they support Gen. Eisenhower for President if he would accept the draft," Dewey said.

TAKES SELF OUT

Speaking here over the NBC television program, "Meet the Press," Dewey again took himself out of a third White House race in the most emphatic terms.

He praised Eisenhower as "a very great world figure, the President of Columbia University, one of the greatest soldiers in our history, a fine educator—a man who really understands the problems of the world."

Dewey, who is running for a third term as governor after first denying he would be a candidate, was asked by Leo Egan of the New York Times if he might likewise change his mind on the presidency in 1952.

DENIALS

"I will under no circumstances I can conceive of, or that could possibly exist, accept the nomination for President in 1952," he answered yesterday. "And I doubt if there is any possibility that the situation would ever arise thereafter."

Dewey said he had not asked Eisenhower if he is willing to run, but said "I have listened to some of his speeches, and I certainly should think his philosophy would be in accordance with my own."

Reporters descended on Eisenhower's university home, but the general was in the midst of his 60th birthday celebration and sent word he could not meet them and had no message to relay.

East Germans Vote Their Red Leaders Back

By DANIEL DeLUCE
(Associated Press Staff)

BERLIN, Oct. 16. — East Germany, surrendered unconditionally to Communist dictatorship today, five years after the fall of Adolf Hitler's Nazi reich.

Pledged to unswerving loyalty to Moscow, Red leaders were swept back into office by more than 99 per cent of the voters at Sunday's election, it was officialyl announced.

The unopposed triumph of the Communist-led "national front" secured politically a Soviet bastion in the center of Europe that only war or internal Russian revolt might conceivably destroy.

TOPS SINCE HITLER

It was engineered by the most fantastic German voting since Hitler claimed 100 per cent endorsement for his Nazi Reichstag in 1938.

Russia's 20 occupation divisions were on the alert and 195,000 Communist-officered German police stood guard to assure unmolested victory.

But nowhere in the election in which some 13,000,000 citizens virtually goose-stepped to the polls—was there a single verified case of resistance.

Even the western powers dropped their anti-vote campaign, fearful of police terror against East Germans who attempted to dissent.

"Deceive your deceivers — vote for the national front", was the despairing counsel beamed to the Soviet zone populace by the official American Radio Station Rias.

COMPLETE

The capitulation was complete. Among those who obeyed the Communist order to cast open, unmarked ballots on which appeared only the Red parliamentary list, were thousands of Protestant pastors and Catholic priests and nuns.

Like automatrons, the East German masses paraded past the election boxes, dropping in unfolded scraps of paper which sealed their political fate.

Navy Vet Dies In Gun Battle In A Subway

PHILADELPHIA, Oct. 16. (AP) — While terrified passengers huddled in one end of a car, a rookie policeman shot and killed a 22-year-old Navy veteran during a fight on a subway train.

Samuel S. Ellis, Jr., died yesterday in Hahnemann Hospital about an hour after he was shot by Edward Rouch, 23.

Detective Sgt. Samuel Riccardi of the homicide squad said Rouch's first shot creased Ellis' left thigh and the second struck him in the lower abdomen, causing his death.

Witnesses told police Ellis attacked Rouch with a knife shortly after two companions left the subway. Police were seeking the two companions for questioning. They quoted witnesses as saying they and Ellis had been fighting and that one of the men was believed to have been stabbed by Ellis.

Rouch came out of the battle with knife wounds of the face, head and left arm, a bruised abdomen where Ellis had kicked him, and a bite wound of the left hand.

He had just finished a tour of duty as part of his police college training when he boarded the subway. Riccardi said there would be no charges filed against the rookie policeman.

Stassen To Speak On Wake Island Meeting

WASHINGTON, Oct. 16. (AP)—Harold E. Stassen, president of the University of Pennsylvania, will make a broadcast speech tonight on the Wake Island meeting between President Truman and Gen. Douglas MacArthur.

The speech was announced last night by the Republican National Committee. Stassen, unsuccessful aspirant for the GOP presidential nomination in 1948, will speak from here over the NBC network.

British Clamp Down In Metal Shipments To Communist Nations

LONDON, Oct. 16. (AP) — Britain has clamped down on shipment to iron curtain countries of materials needed for defense.

The board of trade announced that hereafter export licenses would be required for the shipment of molybdenum, nickel, spent oxide, sulphur and certain sulphur mixtures.

The order followed disclosure in August that 50 tons of molybdenum used in the production of high quality steels—had been bought from the United States and then sold to Soviet Russia.

Oklahomans Find Night Walking Son Is Safe

TULSA, Okla., Oct. 16. (AP) — Mr. and Mrs. K. D. Simmons really have a young night owl on their hands.

They awoke yesterday to find their two-year-old son, Kenny, missing from his bed. They searched the house—but no Kenny. Frantically, they called police headquarters.

"Yes, we've got a little boy here in his night clothes," the desk sergeant answered.

Officers Lozier Brown and Dick McCully said they picked up the young wanderer about 1 o'clock that morning.

The parents said the boy apparently unlocked the front door and walked out. They are going to hide the key after this.

Denton Man Held On Unlawful Flight Count

IN UNLAWFUL FLIGHT — 14...

SHREVEPORT, La., Oct. 16. (AP) —Edward Franklin Brewer, 33, of Denton, Tex., is being held here on charges of unlawful flight for prosecution of burglary.

The FBI and local police arrested him Friday night. The FBI said he was wanted in Wichita Falls for jailbreak on June 18.

Philip Murray Starts Wage Talks Today With Steel Men

PITTSBURGH, Oct. 16. (AP) — Industry leader United States Steel Corp. and the CIO United Steelworkers opened negotiations today on the union's demand for a wage increase.

Neither side commented as sessions got under way.

President Philip Murray of both the CIO and the USW headed the union's 37-man bargaining team. Vice President John A. Stephens led about the same number of representatives of "big steel's" six steel-producing subsidiaries.

OTHERS

They are American Steel and Wire Co., Carnegie-Illinois Steel Corp., Columbia Steel Co., Gzneva Steel Co., National Tube Co. and Tennessee Coal, Iron and Railroad Co.

Murray and Stephens shook hands and chatted pleasantly for a few minutes before the bargaining session started in a downtown hotel conference room.

U. S. Steel is the traditional bellwether of the industry in wage talks. If it grants a pay hike, other steel firms—both basic producers and the firms that turn the steel into finished products — probably will follow suit.

PRICE HIKES

The amount of any U. S. Steel wage hike would be reflected in the prices of automobiles, refrigerators, hairpins and everything else made of steel.

Little doubt has been expressed that U. S. Steel will make some form of wage increase offer. The amount of that expected offer remains to be answered.

Murray himself hasn't said how much he will seek for the steelworkers who now average $1.70 an hour. Some sources have placed the union's demand at about 25 cents an hour.

OPPOSITION

The man Murray will face across the conference table is John A. Stephens, vice president of U. S. Steel in charge of industrial relations.

In agreeing to meet with Murray, head of both the CIO and the steelworkers, Stephens made it plain he would discuss only a possible wage boost for U. S. S.teel's production and maintenance employes. He ruled out any discussion of insurance and pension demands, both of which the union is expected to present.

Pennsylvanian

(Continued From Page 1)

residue from the treatment had been recovered.

Operators were continuing to flow for completion at last report.

This project topped the Ellenburger at 7,782 feet on an elevation of 2,372 feet. It bottomed at 7,822 feet after a drillstem test at 7,786-7,822 feet, during which it flowed oil in large quantities.

This project is almost on the Garza County line and is 1,980 feet from the north and 660 feet from the west lines of section 54, block 5, H&GN survey.

It is five miles northwest of Polar and is four miles north and slightly west of the two small Ellenburger producers in the Polar field.

KING COUNTY

The Ard Drilling Co. and others No. 5-W R. B. Masterson will be drilled as a 5,600 foot rotary wildcat in Central-East King County, 15 miles northeast of Guthrie.

Exact location will be 660 feet from the south and west lines of section 55, AB&M survey. Operations are to begin immediately.

KENT WILDCAT SET

Bert Fields of Dallas will drill his No. 1 Girard Trust as a 7,500-foot wildcat in Central-North Kent County, 12 miles north of Clairemont.

Drillsite will be 660 feet from the south and west lines of section 44, block 1, H&GN survey and six miles northeast of the Salt Creek field of Northwest Central Kent County.

Operations with rotary are to be gin immediately.

DEAL IN DAWSON

James H. Snowden and associates of Fort Worth have staked locations for two wildcats in East Central Dawson County and are making plans to drill three others in that area.

Snowden and others closed a deal with Gulf Oil Corp. which calls for the drilling of the five wildcats to the Pennsylvanian, or 9,000 feet, on the Carrie S. Dean ranch.

Gulf turned a 16,000-acre farmout to Snowden and others consisting of five drilling blocks of 3,200 acres each. A Pennsylvanian test must be drilled on each of the blocks, with the first two to be started the next 30 days.

These tests will be in the northeast corner of section 30, and the southeast corner of section 32, block 1, J. Poitevent survey. Locations have not been made for the other three.

The location in section 30 is half a mile east of the Gulf No. 1 Bean, abandoned at 10,455 feet in 1944.

Each of the five blocks joins the other.

Snowden and associates obtained full rights to 400 acres around each of the Pennsylvanian tests. Gulf retained a half interest after expenses are recovered on Spraberry rights in each of the 3,200-acre blocks.

The Gulf block is only four miles north of the Spraberry pool in Southeast Dawson County.

FIELD ETENSION

Two wildcats, one in extreme Central-East Midland County and one in extreme Central-West Glasscock County have indicated as possible major east extensions to the Tex-Harvey field in Central-East, Midland County.

Hubbard S. Russell of Maricopa, Calif. No. 1-20 Wrage-Hendrickson, two and eight-tenths miles southeast of production in the Tex-Harvey pool is at total depth of 6,924 feet running five and one-half inch casing.

The Spraberry, producing formation in the Tex-Harvey field, was topped by the No. 1-20 Wrage-Hendrickson at 6,910 feet, elevation 2,580. That makes it about flat to the same formation in the above field.

Operator cored from 6,8956,908 feet. Recovery was two feet of black shale and 11 feet of limestone with traces of sand. Another core was taken at 6,908-24 feet. The recovery was broken sand and shale with some stains of oil.

As soon as casing is run, operator will drill into the expected pay and shoot open hole and attempt a completion.

Location of Russell No. 1-20 Wrage-Hendrickson is 2,030 feet from west and 663 feet from north lines of section 20, block 36, T-3-S, T&P survey, and in Glasscock County.

The other indicated extender is Carlton Beal No. 1 Corbin-Ross.

This exploration is 10,000 feet northwest of the No. 1 Wrage-Hendrickson and in Midland County.

H. B. Lake No. 1 Floyd is the nearest production to the No. 1 Corbin-Ross, which topped the Spraberry at 6,947 feet, elevation 2,578 feet.

This project is bottomed on top of the Spraberry. Operator has set five and one-half inch casing at total depth of 6,947 feet, and is moving in drilling in unit to drill plug.

When that is done, hole will be made into the expected pay and operator will shoot and attempt a completion.

Carlton Beal No. 1 Corbin-Ross is 658.8 feet from west and 667.7 feet from north lines of the southeast quarter of section 13, block 37, T-3-S, T&P survey.

Frank & George Frankle No. 2-C Floyd, east outpost to production in the Tex-Harvey field, is at total depth of 7,272 feet waiting for a 539 quart nitroglycerin shot to go off.

This prospector topped the Spraberry at 7,058 feet, elevation 2,639 feet. Five and one-half inch liner has been set at 6,970 feet. The interval being shot is at 7,053-7,272 feet.

The No. 2-C Floyd is 660 feet from the south and east lines of the northeast quarter of section 11, block 37, T-3-S, T&P survey.

COMPLETION

Magnolia Petroleum Co. No. 1 Ryburn, one location north offset to Humble Oil & Refining Co. No. 1 Pembrook, discovery well of the Pembrook field in Central-East Upton County, is flowing to complete and put on production.

In the first 16 hours of a 24-hour potential test it flowed 213 barrels per hour. Flow was through a three-eighth inch tubing choke. Gas-oil

Flowing tubing pressure was 124 pounds. Gas-oil ratio was 600-1. Gravity of the oil was 37.5 degrees.

The well is still flowing to complete the 24-hour potential test.

Production is coming from the Spraberry sand section at 6,988-7,106 feet, which is the total depth. The sand was topped at 7,039 feet which is on a datum of minus 4,325 feet. Seven-inch casing has been cemented at 6,988 feet.

Magnolia No. 1 Ryburn is 660 feet from south and west lines of section 1, block O, FL&RR survey.

Humble's No. 1 Pembrook was completed through perforations at 7,030-7,101 feet and is now making 30 barrels of oil per day on the pump, plus 12 per cent water. It is also producing from the Spraberry sand.

YOAKUM COUNTY

Cabot Carbon Co. No. 1-A Walser and others, wildcat five miles northeast of Plains in Northeast Yoakum County, is bottomed on 5,345 feet in San Andres lime.

Five and one-half inch casing has been cemented at 5,300 feet. Operator will drill plug, treat the open hole with acid and make production tests and try to complete as a producer and a new discovery.

The project logged 25 feet of porous, well saturated lime in the open hole zone and it is expected that it will make an oil well.

Location is 1,980 feet from south and 660 feet from west lines of section 317, block D, J. H. Gibson survey. It is one location north of Hunt Oil Co. No. 1 Graham, a dry hole completed several years ago. It had some shows of oil and gas but not enough to make commercial production.

TESTS WOLFCAMP

R. R. Herrell of Midland No. 1 Marshall Cook, wildcat in Central Glasscock County, drillstem tested in the Wolfcamp lime of the lower Permian at 7,003-45 feet.

Tool was open three hours and 40 minutes. Recovery was 25 feet of heavily oil and gas cut mud and 60 feet of free oil.

Operator is now drilling below 7,166 feet in lime.

It is four miles west of Garden City and 660 feet from north and east lines of section 5, block 34, T-4-S, T&P survey.

Scheduled destination of the wildcat is 11,000 feet, which is sufficient to test the Ellenburger.

IN SCHLEICHER

National Associated Petroleum Co. No. 1 Boyd, wildcat in extreme Northeast Schleicher County, recovered 60 feet of free oil, 60 feet of heavily oil and gas cut drilling mud and 2,500 feet of salt water on a drillstem test in Strawn lime.

Length of the test was not reported. The test was taken at an interval from 4,834-44 feet.

Operator will drill on toward projected destination of 5,500 feet.

The No. 1 Boyd is 660 feet from south and east lines of section 23, block H, GH&SA survey and 28 miles northeast of Eldorado.

ADAIR AREA

Amarada Petroleum Corp. No. 1 Willard has been completed as the third producer from the reef lime in the Adair area of Central-South Terry County.

It made a calculated 24-hour flowing potential of 1,246.56 barrels of 43.3-gravity oil. This is based on a 12-hour gauge of 623.28 barrels of oil.

No water was present. Total fluid was cut with three-tenths of one per cent basic sediment. Tubing pressure was 325 pounds and casing pressure was zero. Flow was through a one-quarter inch choke. Gas-oil ratio was 478-1.

Production is coming from perforations at 8,480-8,556 feet in five and one-half inch casing which is cemented at 8,625 feet.

Amarada No. 1 Willard discovered the reef lime production in the Adair region. However, after proving on drillstem tests that it would produce from that formation it was carried on down to a lower zone.

After making water in that lower section above the total depth of 12,465 feet, it plugged back to 8,625 feet and set casing for the completion of the reef.

While No. 1 Willard was drilling to the total depth, the same concern's No. 2 Willard and No. 1 Miller were completed as the number one and number two producers from the reef in the Adair field.

Location of Amerada No. 1 Willard is 660 feet from north and east lines of northwest quarter of section 6, block C-37, psl survey and 14½ miles south of Brownfield.

NO SHOWS

Griffith Production Co. No. 1 John Bier, wildcat in Northeast Hale County, one-half mile northeast of Plainview, is shutdown waiting on orders after swabbing salt water with no shows of oil or gas.

The Glorieta was treated with acid at 3,365-3,410 feet.

Location of the No. 1 Bier is 350 feet from south and 2,180 feet from west lines of section 1, block D-4, GC&SF survey. Elevation is 3,367 feet.

POOL EXTENDED

A one and one-half mile east extension to the Old Glory Bend conglomerate pool of Southeast Stonewall County has been indicated as R. J. Caraway and associated No. 1 John Behringer.

It took a drillstem test in the Bend conglomerate at 5,868-80 feet. Gas came to the surface in 10 minutes and it started flowing oil in 45 minutes.

The indicated extension was still flowing oil to pits at last report with no gauge or estimate.

Location is 467 feet from south and west lines of a 316-acre tract in the G. B. Cooke survey.

MORE PAY

Additional Strawn pay for Delta Gulf Drilling Co. and others No. 1 H. F. Thomson has been assured on a drillstem test from 5,783-5,803 feet. The indicated discovery is in North-Central Schleicher County. 663 feet from north and 467 feet from east lines of south half of northeast quarter of section 71, block TT, TC survey.

Open 30 minutes, gas was at the surface in 30 seconds and oil in 10 minutes, with the well flowing at an estimated rate of 25 barrels of oil hourly during the final 20 minutes.

Casing will be run for completion in the Strawn, which was topped at 5,763 feet, minus datum point of 3,463 feet.

Total depth of the No. 1 Thomson is 5,803 feet.

Flowing production, estimated at 35 barrels hourly, was developed on initial test of the Strawn from 5,785 to 5,795 feet.

TO COMPLETE

Humble Oil & Refining Co. No. 1 Midkiff, Spraberry discovery in Southeast Midland County, is shutin installing pump to complete.

At last report, operator had swabbed at the rate of 140.40 barrels of oil and approximately 32.88 barrels of basic sediment and water in 24 hours.

The 140.40 barrel per day oil rate was developed during a nine-hour test where a total of 65 barrels of fluid was swabbed out: It was 81 per cent oil and 19 per cent basic sediment and water.

The pay zone in the No. 1 Midkiff is from below the seat of the casing at 7,250 feet and total depth of 7,347 feet.

The No. 1 Midkiff is 660 feet from north and west lines of section 46, block 38, T-4-S, T&P survey, and 25 miles southeast of the City of Midland.

BELOW 12,060

Magnolia Petroleum Co. is coring below 12,060 feet in Devonian lime and chert at its No. 1 H. S. Collings, Central-West Midland County exploration.

Operator cored from 12,053 feet to 12,060 feet. Recovery was seven feet of fractured cherty lime with no shows of oil, gas or water.

This development is one location north of the discovery well of the Parks-Ellenburger field, 11¼ miles southwest of the city of Midland.

Location is 660 feet from south and 898.6 feet from east lines of the southwest quarter of section 7, Matt Daugherty survey, SF 4,169.

It is projected to 13,300 feet to explore the Ellenburger.

Magnolia No. 1 H. F. Timmerman, West-Central Midland County wildcat to 13,300 feet to test the Ellenburger, and all formations above it, is drilling below 11,602 feet in lime and chert.

Location is 11½ miles south and west of the City of Midland, and 660 feet from north and east lines of section 8, block 40, T&P survey.

C. W. Murchison of Dallas No. 1 Canon, wildcat 660 feet from south and east lines of section 13, block 41, T-4-S, T&P survey, 24 miles southwest of the City of Midland and four miles east of the Sweetie Peck field, is progressing below 11,650 feet in lime and shale.

Drillsite is one and three-quarter miles north and one-quarter mile west of the Pegasus field.

Cumberland and Weiner No. 1 Powell is deepening below 10,194 feet in lime and shale. This test is at the center of the southwest quarter of the northwest of section 4, block 36, T-2-S, T&P survey.

Operators will go to around 13,000 feet. It is two miles northeast of the Germania discovery.

Ralph Lowe's No. 1 Hill, wildcat in Northwest Midland County, is making hole below 8,778 feet in lime.

Drillsite is 660 feet from northwest and 1,980 feet from northeast lines of section 30, block 39, T-2-S, T&P survey.

Operators will go to around 13,000 feet. It is two miles northeast of the Germania discovery.

Ralph Lowe's No. 1 Hill, wildcat in Northwest Midland County, is maing hole below 8,778 feet in lime.

Drillsite is 660 feet from northwest and 1,980 feet from northeast lines of section 30, block 39, T-2-S, T&P survey. That makes it five and one-half miles southwest of Midland.

It is slated to be drilled to an estimated 13,500-foot depth to explore the Ellenburger.

WILDCAT AT 4,890

Houston Oil Co. of Texas No. 1 Golladay, Spraberry wildcat in East-Central Midlond County, is bottomed on 4,890 feet in lime and shale.

Operator has cemented 9 ⅝-inch intermediate casing at 4,845 feet and will drill plug and drill deeper.

Drillsite of the No. 1 Golladay is eight miles east and slightly south of the City of Midland and located 660 feet from south and east lines of section 3, A. P. Veasey survey.

Gulf Oil Corp. No. 1-E- B George W. Glass, Southwest Martin County wildcat, 12 miles north of the Midland 18 miles west of Staton, is moving off rig after acidizing perforations at 10,635-655 feet in the Pennsylvanian lime with 500 gallons, 2,000 gallons, 5,000 gallons, 15,000 gallons and 20,000 gallons of acid.

On the last gauge reported, it swabbed four barrels of oil and 35 barrels of water in nine and one-half hours through tubing. It made some gas after each run of the swab.

This project is 1,980 feet from north and west lines of section 13, block 30, T-1-N, T&P survey. It drilled to a bottom of 12,915 feet in Ellenburger which made water.

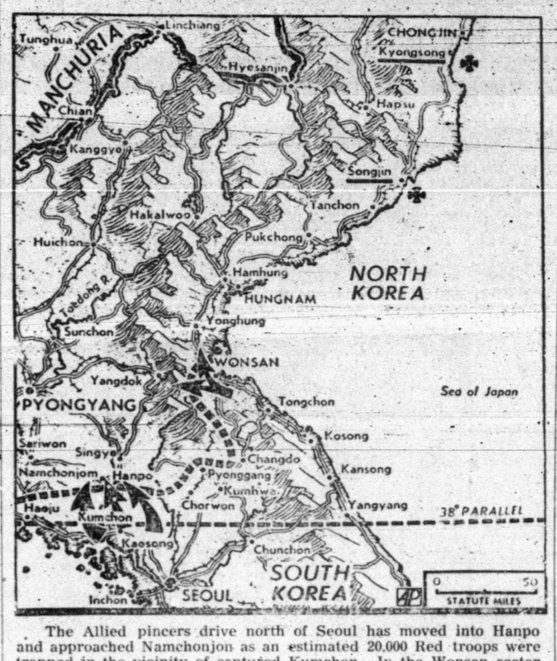
Pincer Traps 20,000 Reds



The Allied pincers drive north of Seoul has moved into Hanpo and approached Namchonjon as an estimated 20,000 Red troops were trapped in the vicinity of captured Kumchon. In the Wonsan sector South Korean forces advanced north and west from the city. On the east coast recent British commando raids were reported to have been made at Kyongsong and near Songjin (crosses). Arrows indicate major drives.

Philadelphia Probe Finished

PHILADELPHIA, Oct. 16. (AP) — The Senate Crime investigating Committee moved out of Philadelphia yesterday, leaving behind staff members to probe deeper into rackets reportedly operating in the nation's third largest city.

The committee, headed by Sen. Estes Kefauver (D-Tenn), will begin hearings at Chicago tomorrow.

The closed hearings at Philadelphia Friday and Saturday produced a dispute centering around Police upt. George F. Richardson.

Committee Counsel Rudolph Halley made public a letter in which, he said, Richardson identified Harry (Nig) Rosen as one of the nation's crime kingpins.

The letter stated Philadelphia police were aware of a "persistent rumor which is borne out by some of the known facts" that it was henchman of Rosen and one of his partners who, killed Gambler Benjamin (Bugsy) Siegel.

Samuel H. Rosenberg, Philadelphia's director of public safety, said Richardson denied reports that he identified Rosen before the Senate committee as the over-lord of this city's numbers racket or that he said Rosen had tie-ins with other cities.

Meanwhile, Mrs. Virginia Hill Hauser, friend of Siegel, left her fashionable Bar Harbor, Me., home yesterday with her shi-instructor husband, Hermann. Their destination was not known.

Air Fleet For Indians

NEW DELHI, India. (AP)—India is pulling a new airline fleet from the dusty five-year-old pile of war disposals left here by the Allies.

The communications ministry has announced that 70 twin-engined Curtiss Commandos, used in wartime to carry freight, will be reconditioned as passenger planes. India's present commercial fleet consists largely of another wartime plane, the Douglas DC-3.

Operator has plugged back to 10,700 feet and is testing through perforations in the 7-inch casing which is cemented at that point.

Swabbing is continuing. Operator will try to complete the exploration as some sort of a producer.

Ashland Oil & Refining Co. of Kentucky No. 1 Tant Lindsay, 8,000-foot wildcat in Central Martin County, was making hole below 6,500 feet in lower Permian black shale and sand.

No. 1 Lindsay is 12 miles north and slightly east of Midland and 12 miles northwest of Stanton. Location is 330 feet from south and west lines of section 17, block 38, T-1-N, T&P survey.

CLEANING OUT

Ted Weiner and others No. 1 Wolcott, wildcat in Northwest Martin County, is still cleaning out after shooting the section at 7,900-8,215 feet in the Spraberry with 943 quarts of nitro glycern. It has shown some oil in the Spraberry.

This venture is 1,471.8 feet from north and 5,864 feet from west lines of league 251, Ward CSL survey, 13 miles northwest of the town of Lenorah.

ECTOR WILDCAT

Vina Bagley estate of Midland No. 1 E. W. Cowden, wildcat in Southeast Ector County, four miles northwest of the Sweetie Peck field, is drilling below 8,620 feet in lime and shale.

It is on a spread of 2,000 acres out of the E. W. Cowden ranch which was purchased for an unreported cash consideration by Wright and McMillen of Midland.

They turned part of the acreage to the Bagley estate to drill, and retained some of the leases including some offsetting acreage.

It is being supported by General American Oil Co. and Phillips Petroleum Co.

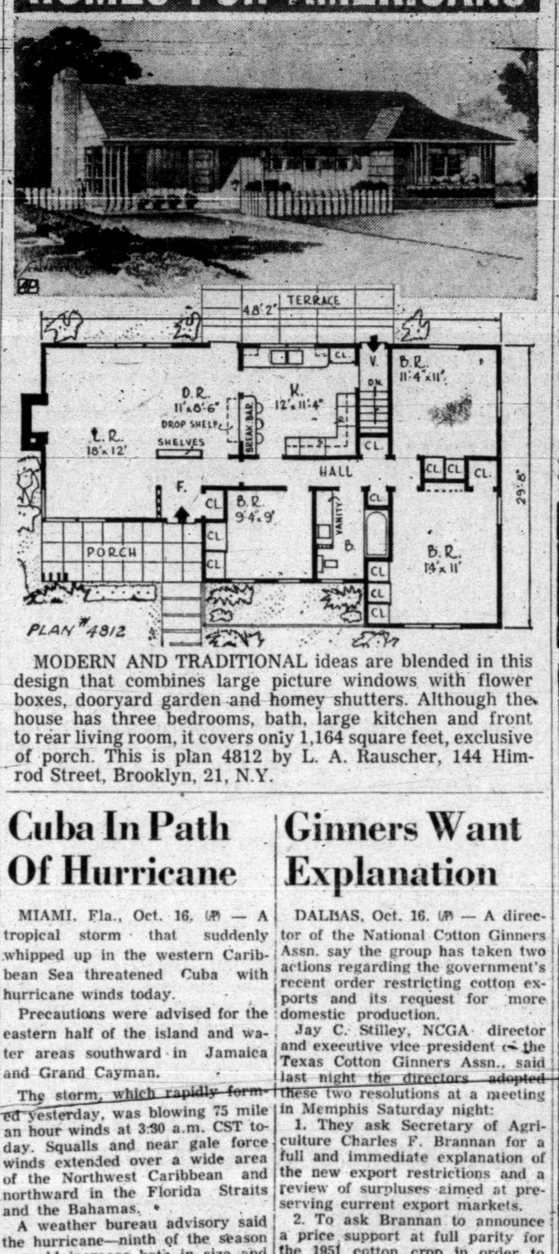
Drillsite is at the center of the northwest quarter of the northwest quarter of section 48, block 42, T&P survey.

ABANDONED

Forest Oil Corp. has plugged and son, wildcat in North Crane County, abandoned its No. 1 H. R Henderon total depth of 4,605 feet in Glorietta lime which was showing sulphur water.

Location is 330 feet from south and east lines of section 17, block B-22, psl survey and three miles northwest of the C-Bar field and about four miles southeast of the Jordan-4,500 field.

HOMES FOR AMERICANS



MODERN AND TRADITIONAL ideas are blended in this design that combines large picture windows with flower boxes, dooryard garden and homey shutters. Although the house has three bedrooms, bath, large kitchen and front to rear living room, it covers only 1,164 square feet, exclusive of porch. This is plan 4812 by L. A. Rauscher, 144 Himrod Street, Brooklyn, 21, N.Y.

Cuba In Path Of Hurricane

MIAMI, Fla., Oct. 16, (AP) — A tropical storm that suddenly whipped up in the western Caribbean Sea threatened Cuba with hurricane winds today.

Precautions were advised for the eastern half of the island and water areas southward in Jamaica and Grand Cayman.

The storm, which rapidly formed yesterday, was blowing 75 mile an hour winds at 3:30 a.m. CST today. Squalls and near gale force winds extended over a wide area of the Northwest Caribbean and northward in the Florida Straits and the Bahamas.

A weather bureau advisory said the hurricane—ninth of the season—would increase both in size and intensity during the day. It is moving slowly north northeastward.

If the blow strikes Cuba, that large land mass could distrot it or force it to change its course before getting closer to Florida.

Another hurricane was blowing in the open Atlantic. At 3:30 a.m. it was about 550 miles northeast of Bermuda with winds of about 75 miles an hour.

A. C. Patterson Dies

ODESSA, Oct. 16. — Funeral arrangements were pending this morning for O. C. Patterson, 62, who died at 4 o'clock Sunday afternoon of a heart attack. He was stricken about a week ago.

Services will be under the direction of the Hubbard Funeral Home.

Mr. Patterson was a member of the Baptist Church. He was assistant manager of the Don Maxwell Co. here.

He is survived by his wife, two daughters, Miss Vivian Patterson, Rogers and Mrs. Charlotte Bagwell, Odessa; and two sons, Don Maxwell, Odessa and Jack Maxwell, Orange.

Ginners Want Explanation

DALBAS, Oct. 16. (AP) — A director of the National Cotton Ginners Assn. say the group has taken two actions regarding the government's recent order restricting cotton exports and its request for more domestic production.

Jay C. Stilley, NCGA director and executive vice president of the Texas Cotton Ginners Assn., said last night the directors adopted these two resolutions at a meeting in Memphis Saturday night:

1. They ask Secretary of Agriculture Charles F. Brannan for a full and immediate explanation of the new export restrictions and a review of surpluses aimed at preserving current export markets.

2. To ask Brannan to announce a price support at full parity for the 1951 cotton crop in order to provide the grower with incentive to produce the crop the government says it needs (about 16 million bales, or about 60 per cent over the quota last year.

Be sure to cook the gizzard and heart of a chicken or turkey until they are tender before adding them to the poultry dressing.

Red China Claims Arrest of 28,000 Spies

LONDON, Oct. 16. (AP) — Communist China says it has arrested 28,000 spies for the United States and Chiang Kai-shek's Nationalist government since January, 1949.

The charge was made in a broadcast in connection with the opening of a photo exhibit in Peiping. The photos, the broadcast said, show how "U. S. imperialists had been working hand-in-glove with Kuomintang (Nationalist) secret agents in counter-revolutionary activities against the Chinese people."

The broadcast also spoke of spies of the U. S. Strategic Service Unit, apparently a reference to the wartime Office of Strategic Services (OSS) which after the war was merged into the Central Intelligence Agency (CIA).

Television dramas, put on film, require about 15 minutes of camera shooting time for each minute of finished film.
