Filibuster Halted One Inaugural

WASHINGTON VETERAN TELLS QUEER YARN

EDITOR'S NOTE: This is the first of an interesting series of three articles on inaugural reminiscences of William Tyler Page, a veteran of such ceremonies in Washington.

BY RODNEY DUTCHER
NEA Service Writer
WASHINGTON, Feb. 26.—Once it was considered honest enough for both houses of Congress to turn back their clocks and continue to function, instead of dying decorously promptly at noon on March 4.

And if a president-elect, to say nothing of a hundred thousand or more spectators, were kept waiting for the inauguration ceremony, what of that?

The Hon. William Tyler Page served in Washington through seven inaugurations and his

HORTON TRIAL STARTS TODAY

REQUEST FOR MONEY TO SUPPORT CHILD IS BLAMED

(By Associated Press)
AMARILLO, Feb. 26.—That Mrs. Mary Horton's request for her divorced husband of \$5 for the support of their child led to the argument which resulted in her death was testified to here today by Mrs. L. H. Giles, an eye witness of the tragedy and mother of Mrs. Horton.

As H. T. Horton, the defendant, lay on a stretcher in front of her, Mrs. Giles said that she and Mrs. Horton called at Horton's lunch stand to ask him for \$5 toward the support of his youngest son who lived with the grandmother. The conversation resulted in a quarrel.

SAILS 150 FEET ON STAIRWAY OF HOME

(By Associated Press)
Clearing skies were predicted for the greater part of Texas today and the epidemic of windstorms which struck east Central Texas yesterday, killing four people and doing great property damage seemed to have passed.

Both windstorms followed erratic paths and the usual number of freaks were reported. Miss Leona Trigg, 19, was standing on a stairway which took to the air as the house collapsed and sailed for 150 feet before crashing to the ground. Her 17-year-old brother was asleep on the second floor and his bed dropped to the yard before it spilled him out. Miss Trigg and her mother were injured seriously and were taken to a Dallas hospital.

San Antonio and

TORNADO DEATH TOLL NOW TWENTY-NINE

WINDSTORMS TEAR ACROSS TRIO STATES

SCORES INJURED FROM TWISTERS HITTING AT MANY PLACES

(By Associated Press)
MEMPHIS, Tenn., Feb. 26.—Search of the ruins of Duncan, Miss., today revealed the bodies of seven additional victims of yesterday's tornado and increased the storm toll in the states of Mississippi, Arkansas and Texas to 29.

The windstorms dipped down into Northeast Texas, Northwest Mississippi and Southeast Arkansas, striking with greatest fury at Duncan, Miss., where 14 of the 490 population were killed and the village left in wreckage.

The dead are:

TEXAS: Mr. and Mrs. W. N. Jones, who lost their lives in the collapse of their home at Cooper, and two negroes killed at Grand Prairie.

MISSISSIPPI: J. T. Johnson, tenant farmer; Kate Mack, 2, and Effie Mack, 6, her brother; a Chinese family of five, and six negroes crushed to death in the collapse of buildings at Duncan and two negroes killed on a plantation northwest of Marks.

ARKANSAS: Mrs. C. I. Nicholson and her 15-year-old daughter, who met death in the destruction of their farm home near DeWitt.

Almost without warning the hamlet of Duncan was demolished about 2:30 p. m. yesterday when a twister swept diagonally across the business section. Fourteen stores, a two-story brick hotel, eight residences and a number of negro cabins were leveled.

All power in Duncan was cut off when rescue workers searched the wreckage in darkness. National Guardsmen patrolled the vicinity to prevent looting and vandalism. The stores were ordered out early in the evening by Governor Theo. G. Bilbo.

Two black clouds rapidly converging in the northwest gave Duncan its first warning of the coming storm. There was a terrific roar as

(Turn to Page 3, Column 3, Please)

Lubbock Man Buys Ralls Newspaper

Purchase of the Ralls Banner by James L. Dow, pioneer South Plains newspaper man and former owner of the Morning Avalanche was made known yesterday.

Mr. Dow will remain in Lubbock. His son, James R. Dow, manager of the Dow Printing company, will go to Ralls as resident editor.

A. C. (Dick) Hyatt, editor of the Ralls Banner, received the Dow Printing company of this city as part payment for the Banner. Mr. Hyatt will operate a stationery and job printing plant here.

Started twelve years ago by Troy Morris, the Ralls Banner was sold in 1916 to Mr. Hyatt, who later sold the property and repurchased it in 1924.

Norris Not To Press Anti-Vare Resolution

WASHINGTON, Feb. 26 (P).—Senator Norris, republican, Nebraska, informed the senate today he would not press his resolution to deny Senator-elect Vare of Pennsylvania, his seat at this session because of the latter's present illness.

The decision was regarded as definitely deferring disposition at this session of the case against Vare.

Alleged Bandit Is Named By Manager

WICHITA FALLS, Texas, Feb. 26 (P).—R. B. Nichols, on trial here on charges of robbery with firearms in connection with the robbery of a drug store, was identified today by R. A. Spoonis, store manager.

Cross examination of state witnesses indicated the defense will offer an alibi as its defense.

'ALL'S WELL' IS WORD AT NOON ON CHICAGO FRONT

SHALLOWATER MAN HAS CLOSE ESCAPE WHEN AUTO TURNS FLIP HERE MONDAY

H. L. Gentry, about 35, of Shallowater, miraculously escaped death yesterday afternoon when the light touring car in which he was riding collided with another car at the intersection of 17th street and Avenue E.

Gentry's car turned a complete flip and landed upside down, smashing the vehicle almost completely. Gentry received lacerations about the face and was painfully bruised about his chest.

Another passenger in the touring car was thrown through the top, escaping serious injury. A woman, the driver and sole occupant of the other car, was uninjured.

Gentry was taken to the Lubbock Sanitarium in a Bynum Brothers ambulance. Physicians reported his condition not serious and predicted that he would be released within about two weeks.

YOUTH BEING TRIED TODAY IN PRO CASE

O. H. GHOLSON, ABOUT 20, FACES TRIAL ON INDICTMENT

O. H. Gholson, a nice-looking, well dressed youth, who appears only about twenty years of age, this morning went on trial in 72nd district court, charged with violation of the prohibition laws.

Gholson was indicted by the recent grand jury on a charge of selling intoxicating liquor. Selection of a jury began this morning in the case, with Judge Homer L. Pharr on the bench. District Attorney Durdow Bradley is leading the prosecution.

Mr. Bradley announced this morning that Jim Henderson, facing an indictment alleging violation of the prohibition laws, probably would go to trial sometime today also.

Missouri Pacific Seeks Unification

WASHINGTON, Feb. 26 (P).—A closer and more economical association between the corporations making up the Missouri Pacific system was proposed today to the interstate commerce commission.

The Missouri Pacific company, which now operates 21 subsidiary corporations, including the New Orleans, Texas and Mexico, the San Antonio, Uvalde and Gulf and several others, told the commission that the maintenance of these corporations as operating units with separate accounting represented "unnecessary expense."

Give Jones Bill The Right Of Way

WASHINGTON, Feb. 26 (P).—The Jones bill to increase penalties for prohibition violations was voted legislative right of way in the house today by its rules committee.

WOMAN ESCAPES DEATH IN BLAZE

ATCHISON, Kan., Feb. 26 (P).—Mrs. C. V. Jacobs, 53, wife of a retired baker, was at the point of death today following the attempt of a negro assailant to burn her alive in the furnace of her home.

Louis Glover, 35, the alleged attacker, arrested shortly after he left the Jacobs home late yesterday was spirited out of town by officers fearing mob violence.

Mrs. Jacobs was severely burned about the head and shoulders and nearly suffocated, but named Glover as her assailant before she collapsed. Physicians said there was little hope for her recovery.

The negro, who had been employed as a handy man about the house, attacked Mrs. Jacobs and then dragged her down the basement steps she said.

GIANT PLANE ARRIVES HERE TODAY NOON

FORD TRI-MOTOR SHIP MAY BE IN CITY REST OF WEEK

A giant tri-motored twelve-passenger Ford monoplane, owned by the Golden State Airways, purged over Lubbock shortly before 12 o'clock today and landed at the city's temporary landing field, north of here on the Plainview highway.

This probably is the largest plane ever to make a visit to the city. It will be here for three days and possibly longer, taking passengers on commercial scenic flights over the city and surrounding territory, under the sponsorship of the Lubbock Auto Company, local Ford dealers.

The visit to Lubbock is in connection with a trip from Los Angeles, headquarters of the Airways company, to Detroit, on a survey in the interest of a proposed transcontinental airline.

The monoplane is piloted by Ace Brogner, and carries George E. Flaherty, general manager of the Airways company; J. F. Rowe, who is in charge of the tickets; Lynn Berkenkamp, mechanic; and W. D. Allen, traffic manager; and advance man.

Mr. Allen was in the city yesterday and stated that Lubbock had strong possibilities of becoming a stop on the proposed network of airlines. He stressed the importance of the establishment of airport by the city.

Mr. Allen intimated that the plane would remain here over the week-end if a sufficient interest was shown in the commercial flights.

Q. A. AND P. SEEKS 5 MILE EXTENSION

WASHINGTON, Feb. 26 (P).—The Quannah, Acme and Pacific Railway today asked the Interstate Commerce Commission for permission to build five miles of line in Texas from Quannah to Acme. The road now is using the rails of another line between these points.

YOUTHS SENTENCED FOR POULTRY THEFT

Following formal filing of complaints yesterday, two Lubbock county youths, 18 and 20 years of age, this morning came in and entered pleas of guilty to chicken theft charges in the Lubbock county court.

Judge Robert H. Bean assessed the youths fines of \$1 and costs and sentenced them to five months in the county jail. They admitted a number of poultry thefts in the southwestern part of this county.

Two other persons are in the county jail facing charges of chicken theft, and are expected to come to trial some time this week.

The arrests followed several reports of widened chicken theft activity throughout the county. The sheriff's department launched an intensive campaign against the chicken thieves. This campaign will continue until all of the poultry thieves have been stopped, Sheriff Hardy said today.

5-FOOT PIECE OF WOOD SAILS THROUGH 'BOSS' OFFICE

(By Associated Press)
CHICAGO, Feb. 26.—Heavy police details and 1,700 watchers at the polls seemed to function effectively today in Chicago's aldermanic election, for only minor disagreements and irregularities were reported.

Four precinct captains, involved in disputes outside polling places, were arrested and taken to the election commissioner's office for questioning. They were dismissed when they explained they were arguing about instructing voters outside of the polls.

Three men, described by police as supporters of candidate James F. Rowan in the 18th ward, were arrested after numerous complaints. They were accused of intimidating voters.

The 20th ward anti-Thompson candidate, Alderman A. J. Prignano, was still in hiding today. He took his family from his home yesterday in a detective bureau car, after receiving threats of violence. His house was under police guard.

Detective squads were sent into the second and third wards in response to reports of disorderly behavior and the disappearance of three official ballots. The trouble was soon ironed out.

Another batch of police sought unsuccessfully machine guns and other artillery, which they had been informed were at 4709 Calumet Avenue on the South Side.

Activities of the hoodlums seemed to be starting early when a five foot piece of wood went sailing through the city hall window of Morris Eller, city collector and boss of the "Bloody Twentieth" ward.

ELABORATE POLICE PROTECTION GIVEN

CHICAGO, Feb. 26 (P).—An aldermanic election was held today under elaborate police protection. Every available officer was called to duty to prevent the possibility of a riot.

But the butt of your gun over the heads of the hoodlums as soon as the polls opened.

Link Burglaries To Machine Gun Squad

BIRMINGHAM, Ala., Feb. 26 (P).—City detectives announced today they are in possession of evidence which has led them to believe that several major burglaries here within the past week were staged by the same gang that used a machine gun in holding up a branch bank of the Citizens and Southern Bank in Atlanta last Thursday.

Detectives also announced they are searching for Johnny Martin, wanted in Texas City, Texas, on a bank robbery charge. Martin is believed to be in hiding here. He is not suspected of complicity in the series of local crimes.

Chicago Financier Discovered Dying

CHICAGO, Feb. 26 (P).—John D. C. Towne, 47, millionaire inventor, lawyer and financier and a former vice president of the Yellow Cab company, was found dying in his home today, a bullet wound in the temple and a pistol near his hand.

Police and members of his family pronounced his death suicidal, but could explain his act.

MCCLOSKEY ON STAND IN HIS OWN DEFENSE

DEFENDANT IN FRAUD CASE REVIEWS HIS OFFICIAL RECORD

(By Associated Press)
AUSTIN, Feb. 26.—Ten minutes after court opened today, Congressman-elect Augustus J. McCloskey, defendant in a criminal trial in which he is charged with election fraud, mounted the witness stand in his own behalf.

The former Bexar county judge casually folded his arms and testified in a measured, well-balanced tone as he was led to through an interrogation by Wayne Davis of his counsel.

The Congressman-elect recited the history of this life from his birth in San Antonio, study and work at St. Louis, and his appointment as judge of law, and elevation to public office. Once he was an alderman by appointment and eight years ago became Bexar county judge. The \$1,750,000 Bexar county courthouse and roads and bridges entailing large expenditures were built under his administration, he said, and nothing ever was officially questioned.

He aspired to a seat in Congress, he testified, because "I had an ambition to go to Congress and it would give me additional educational opportunities for my children."

TRAVIS COUNTY TO HEAR VALLEY CASE

AUSTIN, Feb. 26 (P).—Judge George Calhoun held today that the Travis county court had jurisdiction to try the contest case of Gordon Griffin against Judge J. E. Leslie for the office of district judge of Hidalgo county.

Attorneys for Judge Leslie had attacked jurisdiction of the court, when Griffin, who claimed he received more votes than Judge Leslie, obtained a temporary injunction against Mrs. Jane Y. McCallum, secretary of state, to prevent her opening and canvassing returns from Hidalgo county.

While trial of the case will be on the plaintiff's petition for an injunction.

Negro Porter Free Of Liquor Charges

Richard Moore, negro porter at a local hotel, was found not guilty of violation of the prohibition laws by a jury in the 72nd district court yesterday afternoon. Moore was charged with selling liquor, his defense being that he had acted merely as an agent for the whisky, delivered to him by a man in the hotel.

This case for the first time on the criminal docket to come to trial before Judge Homer L. Pharr. A heavy docket is scheduled for the remainder of the week.

NATIONAL RADIO PRESS PLANNED

WASHINGTON, Feb. 26 (P).—The National Radio Press association, Inc., with headquarters at New York, today applied for the 20 channels set aside by the radio commission for the use of the press. The association said it wanted to organize a press service for use by radio broadcasting stations.

The application was accompanied by a request for construction permits for stations at or near New York, Washington, Boston, Chicago, Cleveland, Columbus, Ohio, Cincinnati, Denver, Kansas City, St. Louis, New Orleans, Atlanta, Salt Lake City, San Francisco, Los Angeles, Seattle, Philadelphia, Dallas and Minneapolis. The application asked for permission to issue a minimum of 5,000 watts and a maximum of 50,000 watts.

Attorneys for the organization said the association was composed of a number of radio broadcasters who had agreed to underwrite the proposition for one million dollars.

DEATH MENACES

FOCH WAGING LAST BATTLE DOCTORS SAY

PHYSICIANS DESPAIR OF SAVING THE FORMER ALLIED LEADER

(By Associated Press)
PARIS, Feb. 26.—The Associated Press was informed authoritatively today that the condition of Marshal Ferdinand Foch is considered hopeless and that his death appears only a question of days—one week or ten days at the most.

The informant, in a grief-stricken tone and with tears welling up in his eyes, reluctantly admitted the 77-year-old Generalissimo of the Allied Armies, who has been struggling against a complication of diseases for the past month, probably has fought his last fight.

The Marshal's temperature rose to 101.6 at noon today and his weakness is becoming alarming, each pulmonary attack bringing the famous soldier lower and lower. In addition to combating uremia, the marshal's physicians must fight sclerosis of the heart.

"Can the marshal be saved?" the informant was asked.

"I fear not. We must not forget that the soldier is nearing 78."

Officially, hope has not been abandoned for the famous soldier and at least one of his doctors is still optimistic that the marshal may pull through, but in other authoritative quarters this optimism is feared unwarranted.

Melting Snows Put Rivers On Rampage

COLUMBUS, O., Feb. 26 (P).—Heavy rains and rising temperatures today loosed a coat of ice and snow put streams and rivers on a rampage in most sections of Ohio today.

Highest waters were reported in the southwestern part of the state, particularly at Springfield, where the business district and a section of the residential area were under water.

Several hundred homes along Buck creek were isolated and for a time water stood three feet deep in some of the business streets.

Sterilization Of Inmates Decried

AUSTIN, Feb. 26 (P).—Sterilization of inmates of State institutions was provided for in a bill by Rep. R. L. Kincaid of Crowell, passed by the house today by a 101-21 vote. The measure, designed to prohibit propagation of feeble-minded or epileptic children, already is in effect in 19 states, Dr. Kincaid explained.

Discussion of the bill was marked by a sharp difference of opinion as to its merits between two minority members of the house, Rep. W. H. Wieg of Paris and Rep. B. J. Forbes of Weatherford.

HEARING HELD ON INJUNCTION SUIT TUESDAY

TESTIMONY IS FINISHED AT NOON; DECISION IS DELAYED

The fight to clear the title of the southeastern corner of the courthouse square so that Lubbock county can transfer the property to the government as a site for the proposed \$335,000 federal building here was carried to the 99th District this morning with the hearing of the friendly injunction suit, styled J. A. Hodges, Ira Wilson, J. A. Wilson, J. E. Garrison, and Charles Metcalf versus Lubbock County and others.

Testimony was completed shortly before noon and Judge Clark M. Mullican took the case under advisement. A written brief of the case will be submitted to the court by Marshall and Vickers and Campbell, attorneys for the plaintiffs.

Although Frank E. Wheelock and the W. E. Rayner estate, original donors of the courthouse square were at first named as defendants in the suit, they were dismissed as parties to the suit when Mr. Wheelock refused to sign a waiver and quit-claim deed to the property.

Cross Action Was Made

The original petition as filed by the local business men and property owners sought to restrain the county from giving the federal government a fee simple title to the property. A cross action was filed by the county, claiming full possession and a fee simple title to the property.

Testimony introduced this morning was to the effect that although the property was deeded by the donors to the "public" it had been in the possession of the county and

(Turn to Page 3, Column 3, Please)

OLD TIMERS TO MEET AT POST

FOURTH ANNUAL MEET FOR PIONEERS IS DUE TONIGHT

(Special To The Journal)
POST, Feb. 26.—With finishing touches being put upon the program, Post city today was ready to welcome several scores of pioneer West Texans tonight when the local Rotary club will host at the fourth annual Old Timers' convention.

O. L. Weakley, banker, will preside over the program, which will be given over largely to the pioneers themselves. Dr. B. C. Williams is president of the Rotary club.

A large out-of-town attendance, both on the part of pioneers and Rotarians, was forecast by interested persons here.

Lubbock to Be Represented

Several Lubbock pioneers were planning today to attend the Post convention and it was indicated that a number of Rotarians from the local club would be on hand. Old timers expected to attend from here included George Bales, R. C. Burns, Frank E. Wheelock, H. C. Boyd, George C. Wolfarth, B. C. Rix, Easton Wolfarth, Temple Ellis and Ross Edwards. Jed Rix and Neil H. Wright, Rotarians, also planned to be on hand.

Cigarette Blamed For Monday Blaze

Fire, apparently originating from a lighted cigarette slipped into the dry grass, caught the remaining walls of the former site of the Shamburger Lumber company, corner of 14th street and Avenue J, at 1 o'clock this afternoon. The fire department made quick work of the blaze.

WILLIAM TYLER PAGE TELLS HOW ONE INAUGURAL WAS DELAYED BY ORATORY

(Continued From Page One)

William Tyler Page, who has served the house far longer than any other member of that body, for went there as a page boy aged years and is now 60 years old.

As a page boy, he played no unimportant part in that clock-pushing drama which attended the inauguration of Cleveland in 1895. He came to Washington in 1895, but just missed the Garfield inauguration. Edward MacPherson, who had just been elected clerk of the house, wrote and asked his other if she had a boy old enough to be a page in his office. William was a printer's devil and Mrs. Page sat up all night to make him a homespun suit. He came from Frederick, Md., to take the job at a month.

Cleveland had grand weather for his first inauguration and a tremendous crowd," he recalls, "for his was the first democratic victory before the Civil War. Every one was 'Cleveland luck.' Pennsylvania avenue was a seething mass of people here for that old-fashioned inauguration. Washington was packed full of

state militiamen. Pennsylvania alone sent 50,000 troops and the problem of housing them all was so great that they were allowed to sleep in federal buildings.

"As the fourth of March dawned Congress had been in session all night, for the house was tied up with a filibuster over the contest Frederick of Iowa had made for the seat of 'Tamar Jim' Wilson, who later was secretary of agriculture under McKinley, Roosevelt and Taft.

"The corridors of the Capitol were jammed with people and men in uniform were sleeping all over the place. Not a seat in the galleries was vacant, for they were all sleeping places.

"The Frederick-Wilson contest, which had been pending all through the 48th Congress which was now about to expire, had been before the house for several days, and apparently it would still be up at noon. 'Cleveland luck' was easy then because the rules permitted dilatory motions, which were often pyramided. Roll calls were demanded and those on the filibustering side refrained from voting so as to break the quorum. On this particular day a great deal of legislation, including appropriation bills, was held up.

"The democrats had a majority, but some of them favored the bill which the Senate had passed to put ex-President Grant on the army retired list with a lieutenant-general's rank and pay. Grant was poverty-stricken and everyone wanted to keep him from starving, but with the filibuster on there was no way of getting the bill up to a vote.

"That last morning wore on toward noon and by 10 o'clock party feeling and personal rancor were running very high. It was dangerously near noon when 'Tamar Jim' Wilson climbed up on his desk and began to wave both arms for recognition. The scene on the floor resembled pandemonium and the galleries were now wild and noisy. Carlyle finally managed to recognize Wilson, who was a tall, lanky, bearded and quite picturesque Scotchman.

"Mr. Speaker," yelled Wilson at the top of his voice, "if my democratic friends on the other side of the aisle will permit the General Grant retirement bill to be taken up and acted upon without obstruction, I will be willing to ask my republican friends to withdraw their dilatory motions and have a vote on the Frederick-Wilson contest at once."

"We will! We will!" shouted the democrats, who wanted his blood, and there was a roar of approval, even in the galleries.

"So the House immediately voted to take up the Grant bill, and the Senate followed suit. The republicans, however, took the oath and the Grant bill was passed, on a suspension of the rules, by more than the required two-thirds vote. Of course there had been no great sacrifice on Wilson's part, as he had only about an hour more to serve anyhow, but it meant two years' pay, or \$10,000 for Frederick—\$10,000 for a single vote.

"I was then a page boy at the desk. Gen. John B. Clark, Jr., of Missouri, was then clerk of the House and he was over in the Senate waiting for the Grant bill or whatever else the House might have to be used to him because, as I said, the corridors were packed and it was almost physically impossible to get from one chamber to the other.

"Twelve o'clock, the time for the inauguration ceremony, had come and gone. But the clocks had been turned back in both House and Senate. Senator Isaac Bartlett, a white-bearded patriarch, had the honor of turning the Senate clock back with his long cane. An immense mob of people waited impatiently for the ceremony outside, but no one wanted to adjourn until the Grant bill had gone through.

"While Gen. Clark waited at the main door of the Senate, President Arthur was waiting in the president's room outside the chamber for the last bill he would sign as president. He waited a long time, but there also, to preserve the fiction, the clock had been turned back.

"I imagine that perhaps only a boy could have written through that day. At any rate, I was handed the Grant bill and given the job of breaking through after having taken the bill to the enrolling clerk.

Sometimes by crawling between people's legs, and sometimes by bucking the line in football fashion, I managed to make my way to Clark. The committee on enrolled bills soon had the Grant measure and presented it to President Arthur, who signed it.

"By that time it was close to 1 o'clock. Hendricks was at once inducted as vice-president and everyone went out onto the platform for the inaugural.

"Such a thing couldn't happen in these days. We have a little more conscience about the way we do things."

TOMORROW—William Tyler Page tells of his interesting personal experiences at the time of the Harrison, second Cleveland and McKinley inaugurations.

THOS. B. BELL

"I suffered twelve years I suffered torments with pains in my knees and hips. At times I couldn't walk without crutches.

"I also suffered with stomach troubles, constipation and biliousness. For months I lived almost entirely on soup and bread. I lost energy and my general condition became dreadfully rundown. I tried nearly every medicine I heard of, but nothing did me any real good.

"Now, I am like a different man. My energy and pain is gone. I eat anything I want without a sign of trouble. The rheumatism has disappeared and my strength and energy have returned. A friend of mine who had seen me on the street a few months ago, saw me the other day. I was hustling along walking as good as anybody. He could hardly believe his own eyes and asked me 'What in the world have you done?' and I told him what Sargon had done for me.

"The Sargon Soft Mass Pills are the finest I ever used and they have entirely rid me of constipation. From now on my faith is pinned to the Sargon Treatment."

The above enthusiastic statement was made by Thos. B. Bell, well known retired farmer, residing at 40 West California St., Oklahoma City.

Sargon may be obtained in Lubbock at the City Drug Stores, and at Slaton at the City Drug. Adv.

STORMS

(Continued from page 1)

the clouds met, and the air was filled with debris.

"There was so much noise that it sounded as if every house in town was being torn to pieces," the Rev. E. E. McKeithen, pastor of the Methodist church, said in describing the storm. "Nobody had time to do anything and it was all over in a matter of minutes. The tornado was followed by a scene of awful confusion with men and women screaming and running in all directions."

Duncan has no hospital and while the injured were being taken to first aid stations hastily set up in vacant store rooms, a heavy rain added to their suffering. Twelve of those killed in Duncan met death instantly and the other two died within a few hours.

Two hours later a storm, probably the same one, struck Marks and jumped over into Kansas, and came down near Dewitt about 5 o'clock. C. I. Nicholson saw its approach while working in the rice fields and was running toward his family when the twister demolished his home, killing his wife and daughter.

HEARING

(Continued from Page 1)

that the county had exercised exclusive dominion over it. Witnesses stated that the southeast corner of the square had never been used by the public for public meetings, gatherings, marketing or trading; that the public has not been allowed on the property except along the sidewalk, and that for a number of years the site was completely fenced in by Lubbock county. For this reason, the county claims possession of the land and a right to transfer title to the government.

Among the witnesses to testify were J. A. Hodges, Ira Wilson, J. A. Wilson, J. E. Garrison, Charles Metcalfe, Rolfe C. Burns and County Commissioner L. C. Denton.

District Federal Attorney Norman A. Dodge of Fort Worth, had intimated to local attorneys that he would recommend that the government accept title to the property if a favorable court decision is obtained in this injunction suit.

According to Postmaster John L. Vaughan, who was in Washington recently, there is a strong possibility of losing the \$335,000 appropriation for the combined federal court and post office building in this city unless speedy action is taken toward clearing title to the site.

HORTON

(Continued From Page 1)

she said, and later the defendant followed Mrs. Horton to her mother's home. There the quarrel was renewed.

"Another man was brought into the conversation by Horton," Mrs. Giles declared. "Mrs. Horton asserted that she and the man were married, and the defendant shouted 'I'll kill you!'"

Mrs. Horton ran toward the front door and a bullet entered her back. A second hit her forehead as she fell, and a third lodged in her chest.

"The gun was then turned on me, but I fled from the room and almost immediately heard a fourth shot fired," Mrs. Giles testified.

CHICAGO

(Continued From Page One)

as you see them." Arrests were made even before the voting started. Deputy Commissioner John Stege sent special details sweeping through the "Bloody Twentieth" ward, and they picked up half a dozen men, among them George Barker and Michael Reilly, acquitted last week of murder; Sam Kaplan, Isadore Fox and Abe (Humpy) Klass, the latter a brother of Martin Klass, one of the aldermanic candidates in the ward.

The deputy commissioner gave his squad the names of well known racketeers and ordered that they be picked up on sight. The names of George (Bugs) Moran, Willie Marks and Frank Foster—virtually the last of the Moran gang which lost seven members in the massacre of February 14—headed the list.

ORDER ARREST OF 17 IN MASSACRE

CHICAGO, Feb. 26 (AP)—An order for the arrest of 17 men was issued by Deputy Police Commissioner John Stege today in the gang massacre investigation.

Several of the men in his list, he said, may have been the actual killers. Others are believed to have definite and important knowledge concerning the sevenfold murder.

Photographs of some of the 17 have been identified, he said, by witnesses whose identities have been kept secret for their own protection.

The arrests were ordered after Stege had spent several hours of study over the police "Blue Book" of criminals, and had re-questioned witnesses.

The 17 who are sought include Claude Maddox, arrested a short time ago when a machine gun was found at "The Circus" cafe of which he is part owner.

Maddox is a major hope of the investigators. He lives near the private garage in which the slayers car was found last week. His previous possession of a machine gun was another factor influencing police in their suspicion that he may be able to give valuable information.

Santa Fe Engineer
Stops Off In City
Returning from an inspection tour of the K. C. M. and O. from San Angelo to Alpine, recently purchased by the Santa Fe, S. E. Ross, civil engineer for the railway company stopped off here Sunday for a

short visit with his parents-in-law, Judge and Mrs. W. S. Clark, 2409 15th street. Mr. Ross reported that the Santa Fe would operate their new line into Mexico as soon as the bridge at Presidio was completed.

High School Band In Week-End Trip

Thirty-two members of the Lubbock high school band made a two-day trip over the week end, playing concerts at Bledsoe, Tatum and Lovington. Under the direction of J. W. Crowley the band took advantage of the holiday Friday, leaving here Friday noon. A number of similar trips are planned.

junction, it will involve practically all of the contentions of the two factions in Hidalgo county which have been at loggerheads for many months.

In going into the allegations of Griffin, who charged many irregularities the ballot boxes in the general election will likely be opened.

It is estimated that trial of the case will require several weeks. When Judge Calhoun announced his decision, both sides asked for an early trial. It was agreed the case would be set when the judge calls his docket next Monday.

E. F. Smith, attorney for Judge Leslie, entered exceptions to the court's ruling.

Abernathy Youth Struck By Auto

Walking down the road from church, Columbus Pagan, 12, of Abernathy, was run down and painfully injured by a hit and run driver Sunday night. He lay on the road unconscious for about 30 minutes before he was discovered.

The youth was brought to a Lubbock hospital early yesterday morning. Attending physicians report a slight concussion of the brain and temporary paralysis of both legs.

An x-ray picture revealed that no bones were broken. He was reported improved today.

Eaton At Funeral Service In Brady

Lubbock county's agricultural agent, D. E. Eaton, is expected to return tonight from Brady, where he attended the funeral services yesterday for Tom J. Beasley, well known figure of that section who died Saturday. Mr. Eaton left here Sunday.

Mr. Beasley was a banker, farmer, and a former representative in the state legislature. He also held a district membership in the Masonic lodge.

Hoover Anxious To Finish On Cabinet

WASHINGTON, Feb. 26 (AP)—Anxious to complete the selection of his cabinet, President-elect Hoover conferred over the breakfast table today with William J. Donovan, assistant to the attorney general now prominently mentioned for the post of secretary of war.

After the conference, Donovan, who took a leading part in the Hoover campaign, declined to discuss his conversation with Mr. Hoover.

After the election, speculation as to Donovan's status placed him in the attorney generalship.

PREVENT FLU

This little "stickle imp" is the advance scout for FLU. He is always ready to cause throat irritation and infection which makes the nose and throat very susceptible to FLU. Stop the "stickle imp" before he invades FLU.

Conoco Men's Club Has Banquet Here

The Conoco Men's club attended a banquet at Hotel Lubbock last evening as an honor to J. D. Marks of Denver, who is here. Talks were made by Mr. Marks and A. E. D. W. Inman, C. W. Ratliff, E. Branch, C. H. Crump, W. S. Turpin, Elmer Callaway, O. E. Bain, W. J. Hancock, C. M. Trotter, H. E. Wright, W. E. Overall and J. A. Wright.

Duncan Addresses Labor Union Meet

"Am I My Brother's Keeper," was the subject of an address delivered by M. H. Duncan, superintendent of the city schools, to the second get-together and fellowship meeting of Lubbock labor unions last night in the Labor temple.

About 100 attended. Other talks and musical numbers completed the program.

SLATON GIRLS WIN IN COUNTY

TIGERETTES DEFEAT SHALLOWATER IN GAME MONDAY

Coch H. C. Kennedy's Slaton Tigerettes won the girls basketball championship of Lubbock county Monday afternoon when they defeated the Shallowater sextette by the score of 24 to 16. The contest played at the high school gymnasium was the fastest girls' game seen here this season.

Displaying a superior passing attack, the Purple and White captained by her leading scorer, the Slaton Tigerettes, the Slaton basketball team took the lead early and continued to pile up their lead as the contest progressed.

Saga was the whole show for the Slaton team, scoring 20 of the 24 points courtesy of her leading scorer. Her cleverness in breaking away from the opposing guards gave her a number of crisp shots, few of which she failed to make.

Erred Red Shallowater in scoring with 9 points.

FIFTEEN TEAMS TO ENTER GIRLS' TILT

SLATON Feb. 26.—Approximately fifteen of the strongest girls basketball teams on the South Plains are expected to compete in the invitation tournament to be staged here by Slaton high school March 1 and 2 according to H. C. Kennedy, coach of the Tigerettes here. Plans have been made to make it one of the biggest affairs ever held in this section. Members of the girls' basketball team will be hosts to the visiting girls.

Offering loving cups to the winner and runner-up in the meet, those in charge of the tournament expect keen competition when the leading girls' teams of the section gather here. Included in the list of entries will be Slaton, Shallowater, Becton, Post, Lamona, Crosbyville, Ralls, Lorenzo, Florida, Littlefield and others.

INTRAMURAL MEET IS SET

ANNUAL INTER-SCHOOL COMPETITION TO BE IN MARCH

The annual intramural track and field meet at Tech will be staged this year on March 7 and 8, according to information given out at athletic headquarters this morning. Always a big event during the early part of the track season, the triangular meet this season promises to be bigger and better than ever.

Individual training by underclassmen who are eligible for competition in the meet has been under way for several days, but serious work under the direction of their respective coaches starts this afternoon. Vaughn Corley, varsity track captain, will coach the Aggies. Sidney Knowles, the Liberal Arts, and J. C. Tadlock, the Engineers.

N. C. A. track and field rules will be followed in all events. Beginning at 4 o'clock Thursday afternoon, March 7, the preliminaries in the dashes will be run off and the finals in the field events. On the following day the finals in the dashes and distance races will hold the center of the stage.

The Liberal Arts thinly-clad walked off with the meet last year, and from all indications will be even stronger this season.

ROME, Feb. 26 (AP)—The Fascist Grand Council met last night to hear from Premier Mussolini a report on the Italo-Vatican agreement, the outstanding diplomatic act of his regime.

BOUT IS FAR IN EXCESS OF EXPECTATION

FIGHT COULD BE CALLED FINISHED PRODUCT OF PROMOTION

By ALAN J. GOULD

(Associated Press Sports Writer)

MIAMI BEACH, Fla., Feb. 26 (AP)—The melodrama of Miami Beach, that strange and mystifying fight affair left upon the sands here by Tex Rickard, is moving toward its climax in a series of episodes.

It is strange, yet also true, in its tropically colorful background and in its astonishing assurance of success, but still mystifying, in so far as who shot at Jack Dempsey yesterday just before the dawn and what will happen in the ring when W. L. Young, Stribling, the heavyweight prize of the South, and Jack Sharkey, the Boston sailor, fight for ten rounds to a referee's decision at Flamingo Park tomorrow night.

Setting Most Fantastic. No one tonight "elimination" ever has had so fantastic a setting or a succession of such preliminary events as this. Not even Tex Rickard, were he alive to see his boom venture near completion, would recognize the almost finished product of promotion and Ballyhoo. Tex never would have "seen anything like it."

It was the day before the actual hostilities begin beneath the palm trees, the calcium lights and possibly the moon, but the boys still are walking around, arguing, and trying to find out what it is all about, and why.

There is a whole nest of mysteries to keep up the old college spirit—whether one wants to know who shot at Dempsey, and why—or what significance, if any, may be attached to the acknowledged rib injury and reported hand injury to young Stribling in a training mishap just a week before the fight.

Certain Money Makers. How to make a few more questions, has it been possible to rescue an apparent financial flop and make it now a certain money maker, with a profit of \$50,000 to \$100,000 assured; why has so much steam been aroused over a bout between rivals who have had several chances before to establish themselves as potential enthusiastic community out of a sophisticated resort, such as this.

There are plenty of answers, just as there are plenty to talk and write about outside the actual fight itself. But the most conspicuous reasons for it all are unquestionably Jack Dempsey and the ballyhoo—Dempsey the old mauler playing successfully at this new role of promoter, and the ballyhoo, with new words and music inspired by the ballyhoo of Florida's shores.

This is the South's first heavyweight fight of national interest since the palmy days of New Orleans as a fight center, and few of those in the gathering here can recall that. This is also a major bid for fame by William Lawrence Stribling, 24-year-old Macon youth—son of an acrobatic father and the father of an acrobatic child, who has been given the training proceedings.

Stribling, because he is to fight before a Southern gallery, is the sentimental favorite, the hope of Dixie, but Sharkey is the choice of most experts to win. Yet there is a wide divergence of critical opinion, not only because of 90 mah conflicting developments in training but also because of the uncertain evidence in the records of the two fighters.

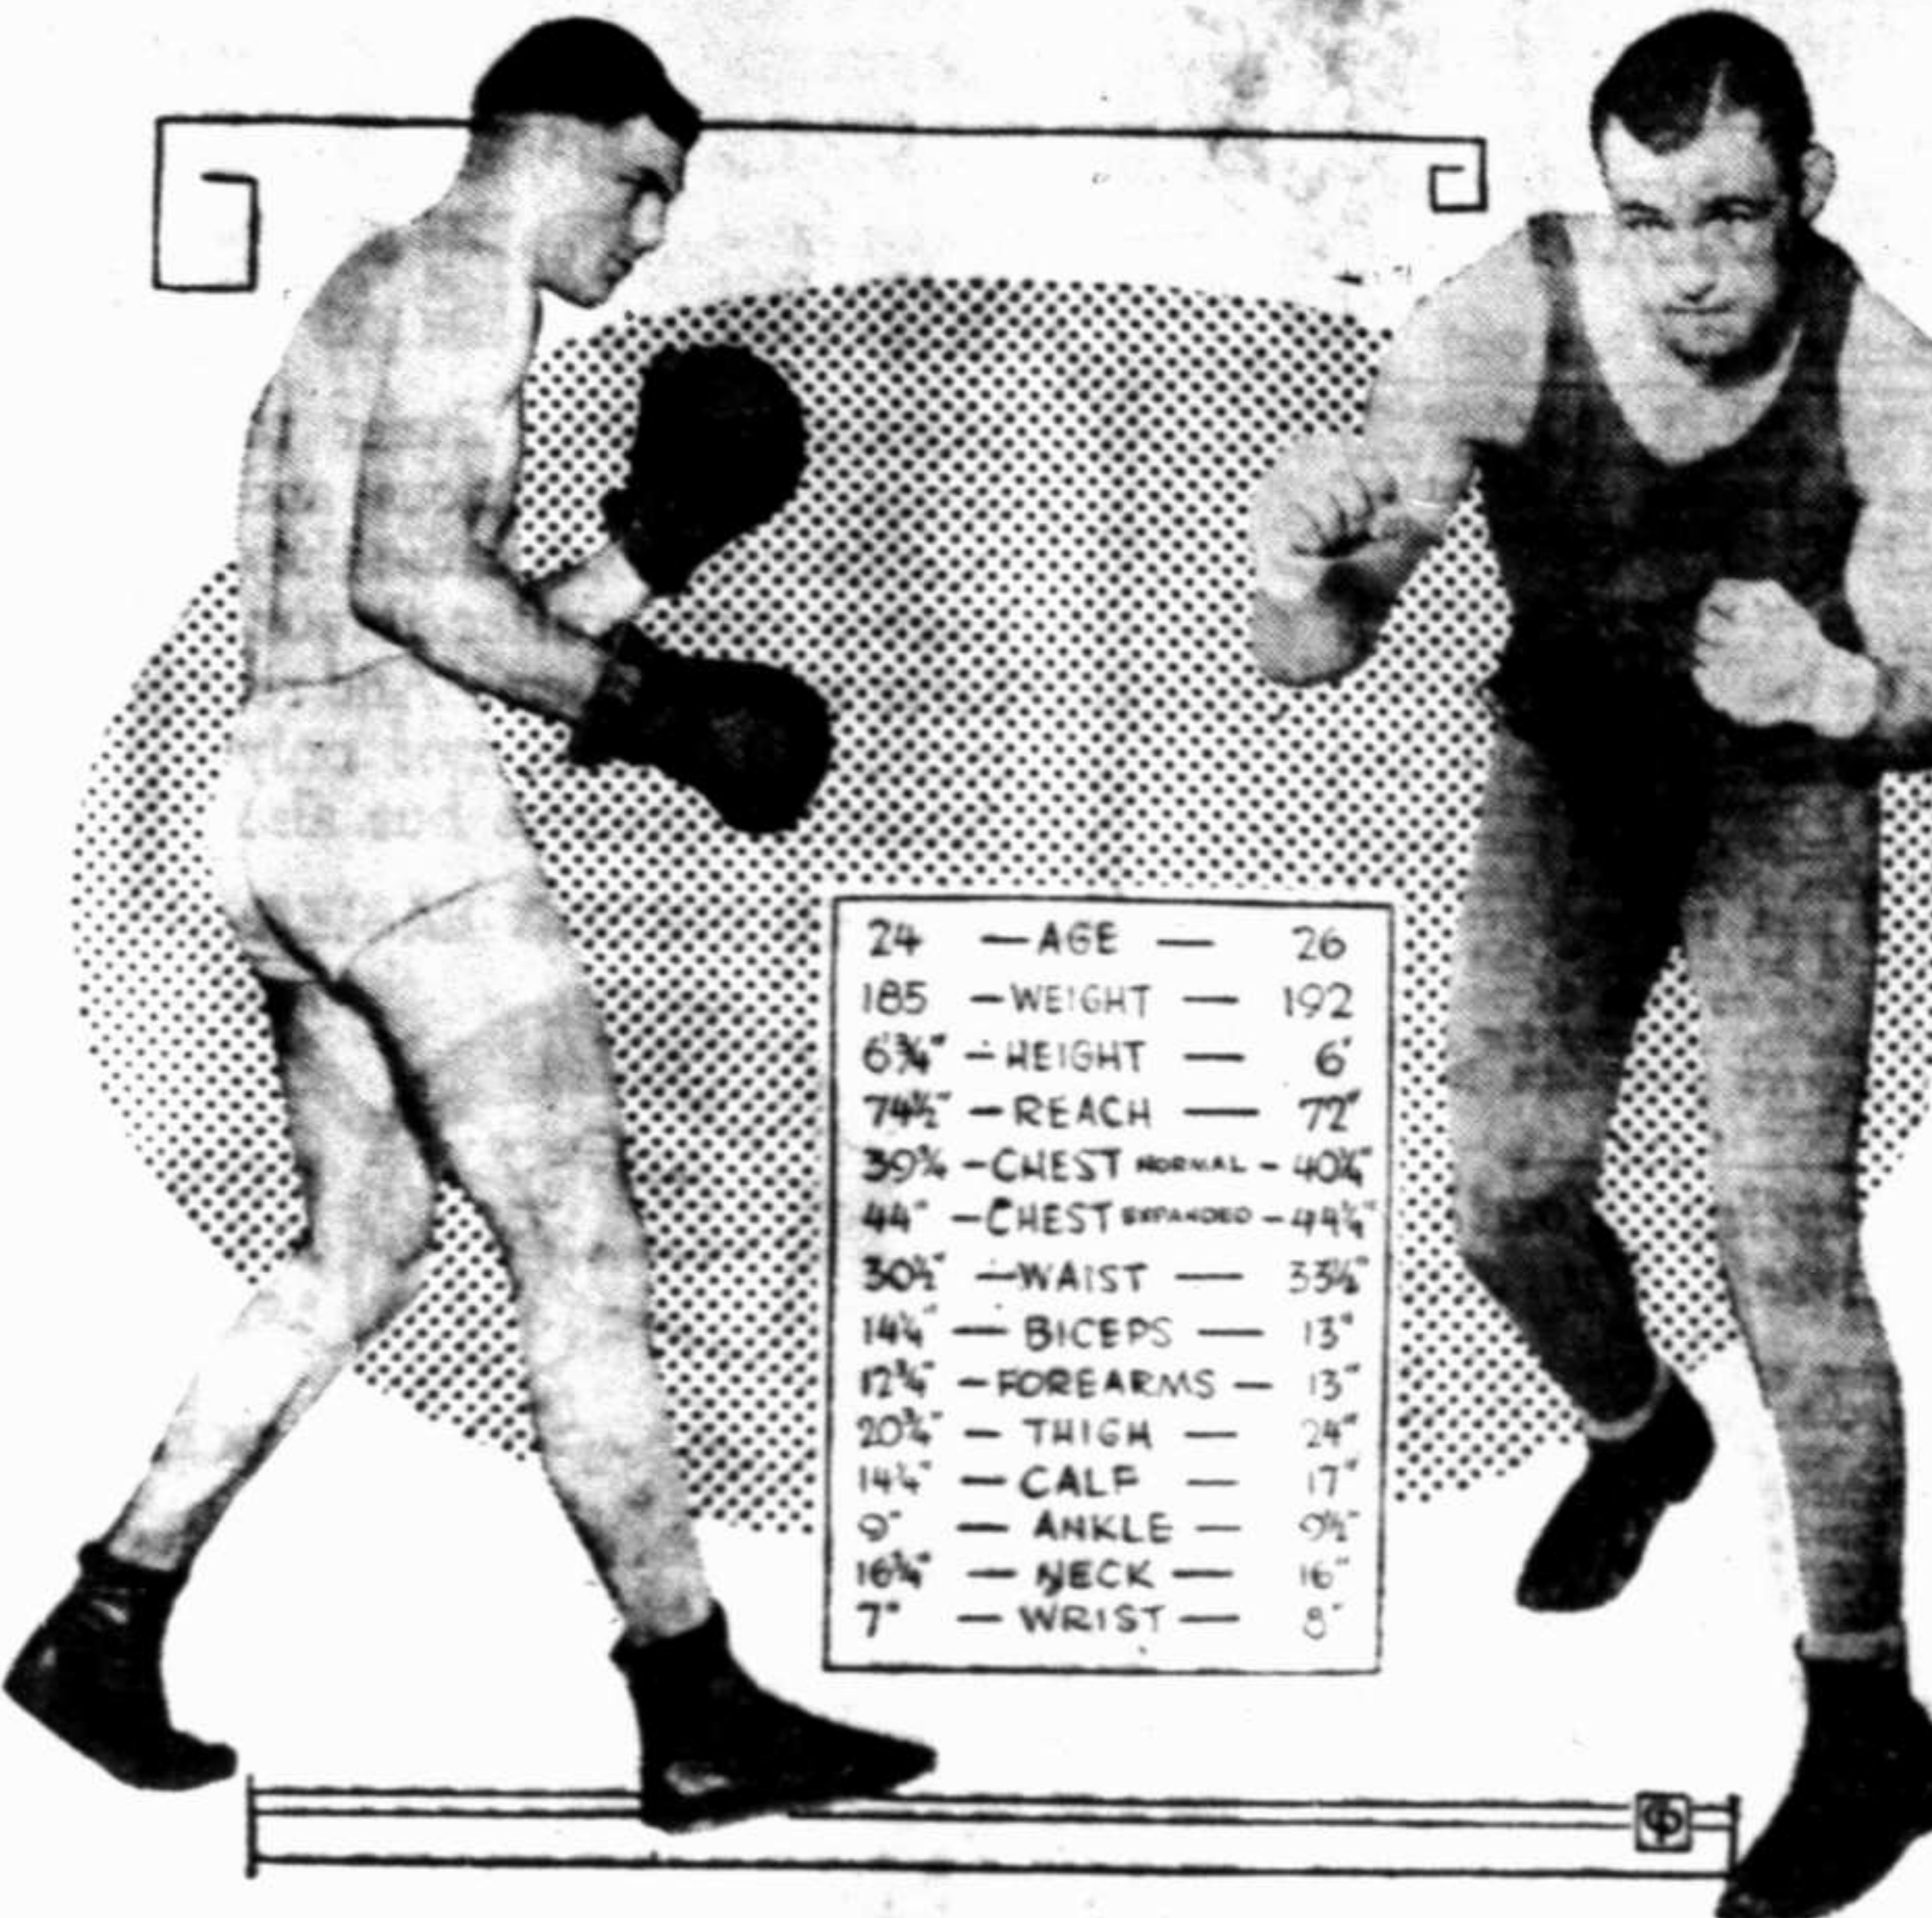

Sharkey Looks Better. Sharkey, especially during the past few days, has appeared to better advantage than Stribling in the daily workouts. The Boston fighter's punches have seemed more effective. He is probably ten pounds heavier and appears in better all-around condition. But Stribling, if he feels on ill effects from his rib injury and has nothing the matter with his right hand, has a variety of weapons at his command. Always a skillful defensive boxer, Stribling's punching power seems greater.

The betting, such as there has been of it, ranges from odds of 6 to 5 on Sharkey to even money. If there is any change in waning sentiment it probably will be in Sharkey's favor.

Flamingo Park, the new octagonal shaped wooden arena built especially for the fight, will seat nearly 25,000 spectators. It may or may not be filled to capacity but the higher priced tickets, \$25 each for the "ring side," have been sold. The "gate" probably will be close to \$350,000. The bout will be broadcast over an extensive network of the National Broadcasting company, starting at 9:30 p. m., Eastern Standard Time. The main bout, to a decision by Referee Lou Maggio, of New York, is scheduled for 10 p. m.

Jerry Smyth, small son of Mr. and Mrs. Jot Smyth on Broadway, underwent a tonsil operation Tuesday at the Lubbock Sanitarium.

CHOOSE TEXAS LOOP LEADERS

GREGG AND HILL FIND WIDE FAVOR WITH LEAGUE HEADS

(By Associated Press)

WAXAHACHIE, Tex., Feb. 26.—Irwin "Rusty" Hill of Trinity University and Captain Johnny Gregg of Simmons University were the almost unanimous choice of coaches and sports writers for highest honors in the Texas Conference basketball race this season.

Of the 15 coaches and sports writers who selected All-Star teams only one failed to mention Hill and Gregg. Gregg was named on 13 first teams and one second team, while Hill was selected on 12 first teams and two second teams.

Smith of Simmons and Whittle of Southwestern also placed on the first All-Star group, while O'Brien of St. Edwards' and Brannan of Southwestern tied for the second guard position.

The composite All-Star teams with the number of votes received by each player follow:

Player	School	Pos.	V.
Gregg	Simmons	forward	27
Hill	Trinity	Forward	26
Whittle	Southwestern	center	22
Smith	Simmons	guard	20
O'Brien	St. Edwards'	guard	14
Brannan	Southwestern	guard	13
McCollum	Simmons	forward	15
Griffin	Austin	forward	11
Janning	St. Edwards'	center	17
Pittsford	Simmons	guard	9
O'Brien	Howard Payne	guard	7

G. W. Scott, manager of the Scott's Place Service Station, is expected to return today from Galveston, where he visited with Mrs. Scott over the week-end.

Finn And Swede In Feature Sprint Win

(By Associated Press)

ELIZABETH, N. J., Feb. 26 (AP)—Edvin Wide of Sweden, and Elmer Purje of Finland, outdistanced handicap fields to win their event at the Wainwright A. C. games in the Elizabeth Armory last night.

Wide won a mile and one-mile handicap and Purje flashed home first in a three-mile handicap. Neither approached record time.

Wide won the mile and a half event in 6 minutes, 46 3-5 seconds, compared with his own world record of 6:37 4-5.

The Swede's victory, however, was costly in his closing spurt, his right toe struck a board and examination later revealed he had strained his ankle.

Purje ran the three miles in 15 minutes, three and three-fifths seconds, compared to Willie Ritola's world record of 13:56 1-5.

Weismuller Fined For False Alarms

CORAL GABLES, Fla., Feb. 26 (AP)—Johnny Weismuller, holder of world swimming records, appeared in a new role in municipal court today in his arraignment with A. S. Wolf, Coral Gables, on charges of disorderly conduct based on sending false fire alarms.

Weismuller drew a \$10 fine, and Wolf a \$25 penalty.

ONLY INFIELD STILL INTACT WITH SPORTS

OUTFIELD, BACKSTOPS AND MOUND STAFF WOEFULLY WEAK

By JOE E. CARTER

SHREVEPORT, La., Feb. 26 (AP)—Only a shell of the club that carried Shreveport to a first division berth in 1928 is left to aid in the Sports' 1929 Texas League flag chase.

The Sports infield of last year is intact, but the catching department, pitching staff and outfield have been blasted.

The Sports will have only Dick Cox of last year's outfield trio back when training begins, March 1. Cox recently announced his retirement but reconsidered. Johnny Warwood was purchased by the Chicago White Sox, and Leslie Phipps has retired.

Don France, youngster who subbed in the outfield, was killed in an airplane accident.

With the exception of Joe Brown, the cream of the pitching staff has departed. Oscar Estrada was drafted by the St. Louis Browns; Bunny Hearn has been returned to the Boston Red Sox, and Leo (Slim) Dickerman has been sold to Minneapolis.

That leaves only Brown, as a catcher, the Sports' infield, with Whelan at first base, Kilduff at second, Deverinos at shortstop, Holman at third, and Andy Wehras as utility, is intact.

The club owners have dipped into the smaller leagues for new blood. The greatest worry of the fans is that they have not added one new player with as much as Class A experience.

Have Some Prospects. The most likely prospect in the catching department is Bernie Starr, in the New England League last year. Gilly Peterson, who finished the pace with Beaumont in 1928, is next in line, while A. Krause, of Texarkana, will be looked at. Bill Williamson, a semi-pro played from the Pacific Coast, also is being brought in.

Several hurlers who started last year with the Sports and were farmed out will return. They are: Al Williamson, who had a brief trial with the White Sox; Andy Price, left hander; Francis Karp, right hander; Jim Grant, a veteran who won 21 games and lost 5 for Waterloo of the Mississippi Valley League, carries a big recommendation. Three stars of the Texarkana club in the Lone Star League, Sis Hopkins, Grandpa Wood and A. Miller, have been bought. Lane, a left-hander, who won 19 and lost 5 games for Talladega in the Georgia-Alabama League, will be given a trial.

The sports bosses will give plenty of attention to Jack Shipley, who played in Broken Bow, Okla., last year, and won 26 games and lost 2, turning in 18 shutouts. He is a screw ball hurler and has lots of control.

The outfield will be crowded with heavy hitters from Class B, C, and D teams, the most likely looking prospects being Kirby from Alexandria, Roy Hudson from the New England League, Cashon from Tampa of the Southeastern loop, and D. Stover, of the Mid-Atlantic loop. Other garden prospects are McClanahan from Palestine, Tex., Biggerstaff of Alexandria, Parson of Texarkana, and Gallagher of Talladega.

The Sports have two highly-touted infielders in Stewart, a second sacker, and Port, shortstop, who were purchased from Piedmont, N. C.

nicely and within a few days the spectators should have a fast path on which to run. At present the straight away directly in front of the stands is in splendid condition, but soft spots are to be found on the opposite side of the oval.

Work on the track is progressing.

HUGGINS COUNTS ON NEWCOMERS

By NEA Service

NEW YORK, Feb. 26.—Three ex-college hurlers will help make or break the New York Yankees' pitching staff this season.

Manager Huggins lists as prominent candidates for his pitching staff Gordon Rhodes, Roy Sherrod and Fay Thomas. All are college products, although they arrived in the big show after a season or so in the minors.

Rhodes, from Hollywood, attended Utah; Sherrod, from Montreal, attended Albright; and Thomas was with Oklahoma City last season but attended Southern California. Each compiled a record last season that leads Huggins to think he may get plenty of help from them in the coming American League race.

Some of the outstanding cagers performers of the city are members of the Business College aggregation. The following received sweaters: Cecil Kelsey, Stoops Bryant, Morace Kerr, Pat Belentine, Choro Wright, Wesley Hancock, Wiley Miler, Leslie Hucksaby and Business Manager Cartwright.

Sweaters Given To Business College

Sweaters have been awarded to nine members of the champion Business College basketball team of the City League. The college five romped off with the first half title and were still undefeated when the league closed last week.

Some of the outstanding cagers performers of the city are members of the Business College aggregation. The following received sweaters: Cecil Kelsey, Stoops Bryant, Morace Kerr, Pat Belentine, Choro Wright, Wesley Hancock, Wiley Miler, Leslie Hucksaby and Business Manager Cartwright.

MACK DRIVES ROOKIES WITH STRONG WHI

BUCKY HARRIS SWING INTO THICK OF TRAINING

(By Associated Press)

FORT MYERS, Fla., Feb. 26.—"was 'rookie' day" at the Philadelphia Athletics training camp yesterday.

Con "Mack's outfit," the arrival of 10 veterans, through a morning drill and a tired later to stand watch the young "ers" try out.

At Phoenix, Bucky Harris already has written something about it, he, or does he not, intend to pitch this season?

The question was forced in prominence by the serious manner in which the new manager of the Detroit Tigers worked out at the base in the first practice session the season yesterday.

Walter Johnson, manager of the Washington Senators, has ideas his own about conditioning pitchers, and he is putting them into effect at the Tampa, Fla., training camp. Johnson has told his batters the first thing they should do was to get their arms into shape and then their arms would round into condition quickly, consequences there has been his ball tossing but an unusual amount of setting up exercises.

At San Antonio John McGraw over active direction of 11 New York Giants training today. He was expected to continue, least generally, the hard work program his assistant, Ray Schalk, has been carrying through.

Johnny Evers, new coach of the Braves, is delighted with the general showing and especially pleased by the spirit of Percy Jones, veteran southpaw acquired from the Cubs in the Hornsby deal. Although Jones fell heir to a considerable estate last summer, and might ordinarily be supposed to be disgruntled at a transfer to the lowly Braves, he has been one of the hardest workers at the camp.

SCIENTISTS BUILD AN ELECTRIC EYE TO BEST ORB OF INDIVIDUAL

INVENTION TO BE USED IN SCHOOLS

TELEVISION ALSO WILL GAIN THROUGH NEW TRIUMPH

By ISRAEL KLEIN
Science Editor NKA Service

The mechanical robot of the future will surpass us humans a thousandfold if the rest of its body is as efficient as the eyes with which science has provided it.

For these are electric eyes so highly sensitive that they need no microscopes to aid them in detecting the minute things that our human eyes miss, or telescopes to help them search the heavens for distant stars. They can differentiate fine gradations of color, see light that escapes even our keenest vision, and detect fire or other accidents.

Their uses are manifold. Yet these eyes are simple vacuum tubes, built in the laboratories of our great electrical industries on a principle as manifest as light itself.

For over half a century scientists have known that certain metals are highly sensitive to light. Such are lithium, sodium, potassium, selenium, rubidium and caesium. As far back as 1873 an English scientist, Willoughby Smith, found that such metal, if included in an electric circuit, would vary the current through circuit in accordance with the amount of light that affected it.

Fifteen years later a German, Heinrich Hertz, decided that electrons flew off this sensitive metal in proportion to the amount of light that fell upon it. Furthermore, the closer the light the greater the flow of electrons.

As a result of this discovery, scientists began making electric eyes. It was only in recent years, however, that such highly sensitive eyes have been perfected as can detect stars billions of miles away or tell the minutest gradations of color.

This came from the discovery of the most sensitive of these light sensitive metals, caesium, and its use in a highly evacuated tube. The tube looks like an ordinary electric light bulb, but on its inner surface there is a fine coating of silver and on this a layer of caesium only one atom thick.

Unimaginable Thinness
"The head of an ordinary pin contains eight sextillion atoms and a cubic inch contains 200,000,000,000,000,000,000,000 atoms," Dr. L. K. Koller of the General Electric laboratories at Schenectady explains. "Perhaps this will give a better idea of the thinness of the coating of caesium. If it should be more than one atom deep the tube would not operate as effectively."

One circle in front of this tube is open, like the pupil of our own eye, and opposite this opening is the layer of caesium, like our own retina. This metal layer is connected to the negative terminal of an electric circuit while a circular wire in the center of the tube, through which the light is allowed to pass, is connected to the positive end, a sort of attraction to the negative electrons from the caesium.

As long as the light strikes the metal doesn't vary, a uniform current flows through the circuit. But the least variation will cause the current to change. This change in current can be amplified as high as ten billion times, so that the very slightest change can produce power enough for what ever job is planned for it.

Thus, for example, electric eyes are set to observe a suitable brown in the cornflakes we have for breakfast. Let one flake ever so slightly off color pass before one of these eyes and it will cause enough of a variation in the flow of electrons from the sensitive metal in the eye as to vary the current and have itself knocked into the discard.

More New Uses
Scientists working in the laboratories of the General Electric company, one of the institutions that have developed this eye to its present high state of efficiency, are finding more applications for its use almost daily. A giant eye has been built in these laboratories to record the slightest variations from minute starlight to intense sunlight, so that the light intensities over the North Pole may be measured accurately.

Attached to the giant telescope at Mt. Wilson, California, is one of these eyes peering out patiently into the night, watching for certain distant stars to pass its line of vision. As they do so, the fine light that we humans could not see with the most powerful telescope affects this electric eye, the change of current trips an electric circuit and a record is made of the star.

In Schenectady, the General Electric company is planning to place an electric eye in school rooms to guard the eyes of the children. As soon as a certain degree of darkness comes on, the eye turns on the electric lights and the youthful eyes are saved.

In the Holland vehicular tunnel across the Hudson at New York, an electric eye is counting the automobiles that pass through. The shadow of each automobile crossing the path of this eye causes the change in current that actuates the counter.

Critic of Colors
A spectrophotometer developed at the General Electric laboratories on the electric eye principle classifies the minutest variations of color, so that Parisian fashions may be duplicated here to an exactitude never before attained. Human judgment is eliminated entirely and exact science has taken its place.

It has worked similarly in the grading of oils by their color and in the detection of an excessive amount of chlorine in drinking water. A slight yellowish tinge and an alarm is sounded.

Signs and street lights are lighted and turned out by these electric eyes, operating as daylight sensors. Sound is reproduced by talking movie screens, thanks to electric eye. Paper is manufactured more consistently by thickness. Television is made possible through it. Traffic is put under control. Wherever light, in its unlimited variations, is a factor there is use for this eye, and if this has already been applied, science will soon find a way.

The cameras here contain the electric eyes, reproducing by television a play enacted in the studios of WGY at Schenectady, N. Y.

Dismiss Charges In Fraud Clique

DALLAS, Feb. 26 (AP)—Indictments brought after the collapse of the Automatic Inn company, charging three men with using the mails to defraud, were dismissed today as faulty by Federal Judge William Atwell.

Those indicted were John F. Bruce, Walter G. Lewis and Mose F. Spillers.

Spillers was the one of the three in court. Lewis never has been apprehended and Bruce is in federal prison for a previous conviction arising out of the inn company's affairs.

Nominations Will Not Come To Vote

WASHINGTON, Feb. 26 (AP)—Senate leaders hope of obtaining confirmation of any of several nominations facing Congress virtually was abandoned today. The nominations under fire and awaiting a chance for consideration include those of Irving L. Lenoir, a former Wisconsin senator, to be a member of the court of customs appeals; Henry Glassie, a former tariff commissioner, to be a judge of the District of Columbia supreme court, and Pat Neff, former governor of Texas, to be a member of the railway board of mediation. The resolution Johnson charged that 1,000,000 aliens who entered the country illegally were residing here.

WASHINGTON, Feb. 26 (AP)—A special house committee of nine would be authorized to investigate the illegal entrance of aliens into the United States in the last eight years under a resolution introduced today by Representative Johnson, democrat, Oklahoma. The committee would be authorized to report to the next congress. In the resolution Johnson charged that 1,000,000 aliens who entered the country illegally were residing here.

Rules and Requirements of Classified Advertising

Lubbock Daily Journal
(Afternoon)
Lubbock Morning Avalanche
(Morning)
Sunday Avalanche-Journal
(Sunday Morning)

All classified advertising will appear in both the Morning and Afternoon papers--both papers counting one insertion. All classified advertising is printed in the Lubbock Morning Avalanche first and the Daily Journal of the same date, no classified originating in the afternoon paper.

Classified for Sunday's issue will appear in the Avalanche-Journal counting one insertion, as this paper is sent to all subscribers of both the afternoon and morning papers.

AVANCE-JOURNAL

Minimum, each insertion 3c
One insertion, per word 1c
Two insertions, per word 2c
Three insertions, per word 3c
Four insertions, per word 4c
Five insertions, per word 5c
Six insertions, per word 6c
Seven insertions, per word 7c
Eight insertions, per word 8c
Nine insertions, per word 9c
Ten insertions, per word 10c
These rates are for consecutive insertions only. Additional consecutive insertions over 10 times, of 1/10c per word each day.

PHONE 13 OR 14

Our experienced ad. taker will receive your ad and help you to word it, then our collector will call the following day. These accounts are "accommodation accounts" for our patrons and for one day only.

No advertisements accepted on an "until filled" order. A specified number of insertions must be given.

Not to be discontinued without advertisement must be given in writing, otherwise we will not be responsible.

We reserve the right to place all advertisements under the proper classification and reject unclassified or objectionable copy.

Objections and cards of thanks at regular classified advertising rate.

The publishers are not responsible for copy omissions, typographical errors, or any unintentional error that may occur further than to correct in next issue after it is brought to their attention. All advertising orders are accepted on this basis only.

Classified advertising accepted until 7 p. m. each day and 9 p. m. Saturday. For classified display advertising information, call phone 13 or 14.

STOCK PRICES
ARE ERRATIC

VARIOUS ISSUES MOVE
UPWARD IN TRADING
TUESDAY MORNING

(By Associated Press)
NEW YORK, Feb. 26.—Stock prices moved irregularly higher at the opening of today's market. Motor products showed an initial gain of four points, Radio 3, and St. Paul Common, May Department Stores and General Railway Signal opened 1 to 2 points higher. Studebaker and Allied Chemical yielded fractionally. U. S. Steel common opened with a block of 10,000 shares at 189 1/2-2, up 1-8.

Heavy buying of U. S. Steel common, based on unconfirmed reports that directors will take action on a refunding plan at today's meeting, featured early trading. One block of 14,000 shares of steel changed hands at 190 followed by a further advance to 190 7/8, an overnight gain of 1-1/2.

The flurry in call money rates yesterday, and the prospect of a high call rate for the rest of the week, brought about some profit taking in other sections of the list. Bethlehem Steel, Nash Motors, Marine preferred and Murray fell back a point or more.

On the other hand, Radio (old stock) jumped 9 points and American Railways Express, A. M. Byers and International Match preferred sold 2 to 3 1/2 points higher. Early gains of a point or so were recorded.

COTTON OPENS
FIRM, ACTIVE

INITIAL ADVANCE OF 6
TO 11 POINTS IS
REGISTERED

(By Associated Press)
NEW ORLEANS, Feb. 26.—The cotton market opened firm and active showing an initial advance of 6 to 11 points. Much better Liverpool cables than expected and some price fixing were given as causes for firmness.

Towards the end of the first hour March sold up to 19.55, May 19.50 and July 19.45, or 14 to 19 points above yesterday's close. At the end of the first hour the market was very steady at the top.

Later the market became quieter and longs took profits which carried March down to 19.50, May 19.51 and July 19.36, or 7 to 8 points from the high. The undertone, however, continued steady.

NEW YORK, Feb. 26 (AP)—Cotton opened very steady at an advance of 1 to 14 points on continuation of yesterday's buying movement, which was stimulated by relatively firm Liverpool cables and further covered by International Telephone, Andes Copper, American can, Greene Cananea Copper and Chesapeake and Ohio.

Foreign exchanges opened steady with sterling unchanged at \$4.85 9-32.

GRAIN
Good quality maize heads, per ton \$17.00
Kaffir heads, good quality 14.50
Threshed kaffir, cwt. 1.12
Threshed milo maize 1.20
Sudan seed 3.50

LIVESTOCK

Yearlings, best 3.50@4.00
Bulls, best 6.00@7.00
Packing sows, top 6.00@7.00

ing by March shorts.
The advance met considerable realizing. The more active positions were 10 to 19 points net higher at the end of the first half hour. March sold around 20.45, May 20.40 and the new October at 19.82.

The early advance extended to 20.50 for May and 19.85 for new October, or 13 to 19 points above yesterday's closing quotations on the more active months. The demand which had been very active earlier and included considerable trade buying to fix prices in March and May, tapered off somewhat during the middle of the morning, while the advance attracted a good deal of realizing. This caused reactions of several points and the market was rather quieter at midday, but prices held steady at net advances of about 5 to 10 points.

LIVERPOOL SPOTS
LIVERPOOL, Feb. 26 (AP)—Cotton-spot fair demand; higher; American strict good middling 11.50; good middling 11.10; strict middling 10.90; middling 10.70; strict low middling 10.45; low middling 10.20; strict good ordinary 9.80; good ordinary 9.40. WHEAT VALUES ON
DOWNWARD MOVE

CHICAGO, Feb. 26 (AP)—Reports of improved crop conditions for domestic winter wheat tended to ease wheat values down early today.
Opening 1-8 to 7-8 off, Chicago wheat afterward underwent some further setback. Corn and oats were relatively firm, with corn starting unchanged to 3-8c up and later holding near to the initial figures. Provisions inclined downward.

Produce Prices

BUTTER AND EGGS
CHICAGO, Feb. 26 (AP)—Butter: higher; creamery extras 49 1-2; standards 48 1-4; extra firsts 47 1-2 @ 48; firsts 45 1-2 @ 46; seconds 44 @ 45.

SEEK CANADIAN RIVER BRIDGE

WASHINGTON, Feb. 26 (AP)—A bill to authorize H. L. Cloud to bridge the Canadian river at Francis, Okla., was introduced today in the House by Representative McKee, democrat of Oklahoma.

RANCHERS WOULD
SAVE FROM LINE

(Special To The Journal)
LOVINGTON, Feb. 26.—An actual saving of at least \$132,000 to the cattle raisers of Lea county would be the result of the proposed extension of the Santa Fe from Seagraves to Lovington, N. M., according to Seth Alston, ranchman of the section.
It is said that the long drive from Lea county to Bledsoe or Seagraves, shipping points, causes a loss of from 35 to 50 pounds from each calf and with 60,000 head of cattle in the county and with an average annual shipment of 30,000 calves, the estimated loss approximates \$132,000.
In addition to this saving, the proposed extension will open up 1,000,000 acres of an arid belt, thought to be one of the greatest potential grain sorghum sections in the entire world. Irrigation and truck gardening have already been proved successful.

Alma Rubens Is In
Critical Condition

BEVERLY HILLS, Cal., Feb. 26 (AP)—Alma Rubens, screen actress, was reported by relatives to be in a critical condition at her home last night. She has been under treatment for several weeks from a nervous breakdown, said to have been brought on by excessive use of narcotics. Physicians held a consultation at her home.

Haldeman Back In
Florida From Cuba

LAKEFIELD, Fla., Feb. 26 (AP)—Captain George Haldeman, air pilot who made a non-stop flight Saturday from Canada to Cuba, landed here at 4:05 o'clock today from

Havana, and half an hour later while his home town folks were trying to get up an informal celebration, was on his way to a golf course.

WEIGH WHAT
YOU DESIRE

If you over-weight, the cause may not lie in over-eating or under-exercise. It may be in a fault in nutrition which modern research has discovered. And which science now corrects.
The method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And many of the people you envy—with slender figures, new vivacity and health—will urge you to adopt this way.
The use of Marmola does not require abnormal exercise or diet. In every box you will find the formula, also the reasons for results. You will know just why your weight comes down and why every effect is helpful. Learn the facts, and do it now. Do so by asking your druggist today for a \$1 box of Marmola.

THE FIRST LAW
OF MOTORING—
be sure of your OIL

If motorists could only be thoroughly impressed with the paramount importance of proper lubrication, cars would last longer, depreciation would decrease and operating costs would tumble to a fraction of their present staggering figure.

When you allow an unknown, unbranded, "mystery" oil to go into your crankcase you are violating the first law of economical and efficient motoring.

By demanding the tried and tested brands marketed by the Continental Oil Company you are sure of your oil. Back of each of these brands stands the experience of almost 50 years—and a reputation which stands for nothing but the best. Ask for these brands at service stations and the better garages.

CONTINENTAL OIL COMPANY
Producers, Refiners and Marketers
of high-grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

Conoco Amalie is 100% Pennsylvania Oil—refined from premium crudes by a special process. Universally recommended by automotive engineers and lubrication experts.
Through exhaustive laboratory and road tests it has demonstrated its ability to lubricate properly under the most trying conditions of motor operation.

'MANANA' IS LINDY WORD ON WEDDING

ANNOUNCEMENT OF MARRIAGE WILL BE MADE AT FUTURE TIME FLIER TELLS PRESS

(By Associated Press)
CUERNAVACA, Mexico, Feb. 26.—"Manana" is the best information obtainable about the plans of Colonel Charles A. Lindbergh and his

finances, Miss Anne Morrow. The word means "tomorrow," but it is the Mexican method of indicating an indefinite time in the future.

"Some time later," Colonel Lindbergh has said, he will reveal when he is to be married, how long he is to remain in Mexico, what his plans for the future are.

Today he and his fiancée were free for walking, talking, riding—just being together, in a land almost dream-like in verdant beauty.

Residents of the town itself—its has a population of 7,000—hardly were aware a visitor of note was in their midst. There was far more interest in the prospect of next Sunday's band concert in the plaza and the bi-weekly motion picture shows which do not take place when the roads are bad.

With the aviator and his fiancée at Cuernavaca are her mother, Mrs. Dwight Morrow, and her sister, Elizabeth. A lone correspondent remained this morning in the eight who came here yesterday in anticipation of a surprise wedding, after the colonel's flight from Texas. The

others returned late yesterday to Mexico City.

There will be no surprise wedding, some close to the Morrow family vouchsafed, averring an announcement of the date and place would be made in due course just as the engagement announcement was made.

Opinion was that Colonel Lindbergh and the Morrows would remain here for two or three days, returning then to Mexico City for the conclusion of his visit.

Plastic Surgeon Loses \$8000 Suit

PARIS, Feb. 26 (AP)—Because a plastic surgeon did not warn his client that an operation for "slenderizing" her legs would be dangerous, Mlle. Suzanne Geoffroy today was awarded \$8,000 damages by the Paris tribunal. The defendant was Dr. Charles Dujarier, one of the most famous surgeons in Paris.

San Antonio Man Discovered Dead

AUSTIN, Feb. 26 (AP)—H. D. Smith, 35, of San Antonio, has been found dead on the Wiesenthal ranch near here, with a rifle by his side. The position of the body indicated he might have fallen and accidentally shot himself.

URGE ROAD IMPROVEMENT

TOPEKA, Feb. 26 (AP)—The Kansas Highway Commission today was urged to expedite surfacing of gaps on U. S. Highway No. 75, running through this state, by speakers at the annual meeting of the United States Highway No. 75 Association here today.

TERM TREATIES FORGED

PARIS, Feb. 26 (AP)—The so-called Franco-Belgian Document published by the Utrecht Dagblad and in German newspapers purporting to show a secret military accord between Belgium and France were described as forgeries in circles close to French officialdom today.
