Mrs. J. G. Landrum Honored On Mother's Day

Mrs. J. G. Landrum was honored with the presence of all of her children and part of her grandchildren on Mother's Day. Those present were: Mr. and Mrs. Burke Plant of Big Spring; Mr. and Mrs. E. L. Nelson and David, Lubbock; Mr. and Mrs. J. G. Boyd and Randy, also Mark Litchfield, a great grandson of Dallas; Mr. and Mrs. Jephtha Landrum, Mrs. W. E. Smith, Sue and Ann of Fluvanna.

Ex Snyder Girl Wins State Award

Shirley Ann Boyd, a 16-year-old junior student of the Robert E. Lee high school Midland, was chosen State Sweetheart of the Industrial Arts Club at Texas A&M, May 5.
 Miss Boyd, a native of Snyder, was recently appointed chairman of the Junior Auxiliary, having given over 500 hours of volunteer service.
 This school year she is historian for the Future Homemakers of America; parliamentarian of the Amicitia Tri-Hi-Y; a member of the Lee Chorale and Sextet, also serving as librarian. She is a member of the Lee Planning Committee and holds an office in Advisory.
 Shirley is a talented art student and was among the top ten in her school last year.
 She is the daughter of Mr. and Mrs. J. D. Boyd. Mr. Boyd was a builder in Snyder for many years and is now employed by the Federal Housing Administration in Midland.

MISS SHIRLEY ANN BOYD

Hermleigh Club Elects Officers

The National Beta Club of Hermleigh High School elected officers for the 1962-63 school year. They are as follows: Marvis Hanson, president; Wanda Higgins, vice-president; Kelly May, secretary; Jewel Richter, treasurer.

The club also voted to sponsor a picnic May 23 for the high school. Mr. George T. Vickery, the club sponsor.

The Sheldon of Yemen was once a part of the ancient kingdom of Sheba.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.
 Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. A startling innovation is the sheer front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A feather-attached panel down each side of this girdle will contour your hips if they are a problem. The girdle itself is of wadded Lycra spandex fibers. It feels like nothing on but has such slimming strength it gives your figure everything that's possible with a foundation.
 "Suddenly Slim" is the peak achievement of the designer-gentus, Olga.
 Be "Suddenly Slim" today in either girdle or panty version.
 You'll Find Them At Rogers, Inc.

THANKS!

To the voters of Precinct 21 take this method of expressing my appreciation for the support given me in the recent election.
 I sincerely thank each and everyone of you.
 W. M. (Bill) Riley

A WALK THROUGH THE TROPHIES—President Kennedy walks through trophies, tumbling some of them, as he steps down into the White House rose garden after posing with members of the White House police pistol team. The trophies are those won by members of the team in competition. In the background, from left, are: Capt. James E. Young; Maj. Ralph C. Stover, commanding officer of the White House police; the President; Sgt. William S. Crawford, team captain; and Pvt. John J. Buono. (AP Wirephoto)

Physician Cites Value Of Religion

God-fearing psychiatrists do the best job for their patients' welfare, Dr. Thomas Hartley, local physician, declared to the Snyder County Ministerial Alliance yesterday at their monthly meeting held at Sallee Dining Room.

Some psychiatrists suggest to their patients that they withdraw from the world, but Hartley said when the patient has no resources he said both the general practitioner and the minister practice psychiatry to some degree. He declared, however, in different ways. The doctor usually seeks to relieve immediate symptoms so that an adjustment may be made in the present environment whereas the minister works on a long-term basis.

There are times when the minister confers with the patient just as a physician may. He said in the ministry, the importance of religion to the wellbeing of the patient is such that the speaker said he would never refer an ill person to a psychiatrist who was hostile to religion.

The ministry has its frustrations, just as any other field, he said, because the minister is a human being. Anxiety tends to affect the minister even more than the doctor because the minister becomes involved on a deep level with those to whom he ministers. There is a need for greater cooperation, between doctor and clergyman, he concluded, for both are concerned in how to help the patient. This becomes more and more urgent, he said, as the threat of war and nuclear destruction affects people's lives and as socialization tends to destroy our way of life.

Rev. O. D. Carpenter, first vice president of the Alliance and pastor of the Avenue D Baptist Church, presided in the absence of Dr. Jimmie Nelson.

Gerald Johnson of the Soil Conservation Service addressed the Alliance briefly concerning the forthcoming Soil Stewardship Sunday to be celebrated May 27, and offered bulletin covers and inserts to the Churches. Ministers who were not present at the meeting may have this material by contacting Johnson at 331-2353.

Venezuelan Plane Released By Cuba

CARACAS, Venezuela (AP)—A Venezuelan transport plane returned Monday night after being forced to land in Cuba by two of the Fidel Castro regime's Russian-built MIG jet fighters.

The pilot and copilot said Cuban officials released them after brief questioning at the Camaguey airport in Cuba. The pilot quoted the Cubans as saying the forced landing had been a mistake.

The plane was returning from Miami, Fla., with cargo when the MIGs appeared.

About 400 locomotives are ordered each year by American railroad companies. All are diesels and turbine-electric units.

INSURE WHAT YOU HAVE

Due Degrees From H-SU

Three Snyder area students are candidates for graduation from Hardin-Simmons University this semester.

Bachelor of science degrees will be awarded to Donna Jean Neal, daughter of Mr. and Mrs. Ralph Neal, 2811 Ave. G, Snyder, and to Thomas Carl Echols, son of Mr. and Mrs. Perry Echols of Ira.

John Beall, son of Mr. and Mrs. John S. Beall of 3115 thirty-ninth St., Snyder, will receive his master of arts degree.

Baccalaureate services will be held Sunday afternoon, May 27, in the H-SU chapel-auditorium and commencement exercises will be held in the chapel the following morning.

Residents of Martinique, the Caribbean island, ran cars on a blend of rum and gasoline during World War II.

Golf Score Of 75 Perks Up Eisenhower

PALM DESERT, Calif. (AP)—One of former President Eisenhower's best kept secrets—his golf score—has been revealed by the manager of the Eldorado Country Club here.

"Generally," Mr. Eisenhower shoots in the low 80s," said William Daugherty, "after he carded a three-over par 75 here the day before he was scheduled to leave, he was so pleased we thought he might not go."

Transportation Week

WASHINGTON (AP)—This week is National Transportation Week. In a proclamation, President Kennedy declared "an efficient and dynamic transportation system is vital to the continued economic growth, productivity and progress of our nation."

Men Drowned Before Attack By Sharks

NEWPORT BEACH, Calif. (AP) — Autopsies on six men hauled from barracuda-infested waters show they drowned before the fish attacked them.

Deputy Coroner Eugene Stiles, who earlier had said shark bites could have been an "equal" cause of death, announced findings of the autopsies Monday.

The victims' three other fishing companions aboard a 25-foot cabin cruiser that sank four miles off Newport Beach.

Still missing were Richard Cain, 28, of Bell Gardens; Robert Gibson Jr., 21, Norwalk; and E. R. Huffman, 35, Longview, Tex.

The bodies were recovered from the ocean Sunday. Two buoys, fishing poles, and a bait box also were found.

The Coast Guard said examination of the bodies showed they had not been attacked by sharks, as first suggested. Oceanographers and the Coast Guard later concluded the bites and tears on the bodies were more probably inflicted by barracuda.

New Orleans Schools Drop Racial Bars

NEW ORLEANS (AP) — The New Orleans School Board, under pressure by the federal courts, has voted to drop all racial bars in the first grade of public schools this fall.

The board currently is under a federal court order to desegregate the first six grades, but has filed an appeal for a new trial.

Under the board's decision Monday night, all children entering the first grade in September will be permitted to attend either the white or Negro school for their district, whichever they choose.

This action drops use of the pupil placement plan for the first grade, but that system of assignment remains in effect for the second and third grades.

The board action was by a 9-0 vote. Two board members, including Emile Wagner, an outspoken opponent of school desegregation, were absent.

The board also authorized School Supt. O. Perry Walker to begin a study of how to abolish racial school districts, starting with the first grade. Federal Judge J. Skelly Wright ruled last month that the board's use of a pupil placement plan in a biracial school system was unconstitutional.

Twelve Negroes now attend first and second grades in six previously white public schools as a result of Wright's original desegregation order of May 1960.

The city's Roman Catholic schools are scheduled to be desegregated in September, by order of Archbishop Joseph Francis Rummel.

Kennedys Entertain Military Tonight

WASHINGTON (AP) — President and Mrs. Kennedy will entertain about 800 top-ranking military officers from all services at an outdoor reception tonight.

It is the first time the Kennedys have scheduled one of the traditional White House social functions as a lawn party.

A buffet will be served from striped tents on the south lawn for the 6-to-8 affair. The Marine Corps Band, the Air Force strolling strings, Army Drum and Bugle Corps and a Navy combo will provide music.

From me to you A DAILY VIEW

Rev. R. Charles Spivey

"Then he showed me the river of the water of life, bright as crystal, flowing from the throne of God and the Lamb."

Revelation 22:1 (read verses 1-5)

The Bible is full of rich imagery that helps us see more clearly the concepts in the mind of the writers, and of God as well. One of the frequent pictures in the Bible is the "river of the water of life." We who live in West Texas know how important water is. We know that if the spring rains come just at the right time, crops will grow, but if water does not come, everything dies. We have spent thousands of dollars and almost as many man hours of labor, searching for new sources of water and for conservation of what we have. God says "I am the river of the water of life. Without me you will die just as surely as earthly growing things die without water. Flowing from me is salvation, and forgiveness, and reconciliation. Drink deeply of me and you shall live."

THEY'RE OFF—Snyder Little Leaguers line up around the diamond in Towle Memorial Park as the various teams are introduced to kick off the 1962 season. First games in both the Little and Farm Leagues got underway immediately following the opening ceremonies Monday afternoon.

ATHLETICS, CARDINALS WIN

Little Leagues Launch Season

The Athletics and Cardinals swept to victories in Little League inaugural games in Towle Memorial Park last night. The Athletics made a come-from-behind surge in the sixth inning to edge the Yankees, 7-6 while the Cardinals took charge in the third inning to decision the Braves, 8-2, in the National League lidifier. The Yankees sent 10 men to the plate and scored five runs in the third inning to take what appeared to be a commanding lead in the American League encounter. However, the Athletics came back for two in the fifth and three in the sixth to overcome the advantage. A timely single by Mike Galvan followed by a two-bagger by David McGinnis were the big blows for the Athletics. James Patrick and Raymond Rodriguez each had two hits for the losers. Charlie Holt and Jack Aldridge

Green Hill, Harlin Win

The Harlin Oilers nailed Denon Gulf, 5-3 despite a homer for the losers, and Green Hill Baptist topped Sunray, 15-1 in city softball league play last night. Guy Sullivan was the winning hurler for the Harlin team, giving up six hits, while Bill Chambliss, who gave up only three hits was the loser. Lynn Halamack clouted the home run with two on to give Denon all of its runs, while Chambliss contributed a double. Clint Gregory picked up a home run and a double for Sunray, and Norris added a homer. Bratton had a three-bagger for Green Hill, while Myers and Kea each had a pair of doubles and Cantwell smashed out a two-bagger. James Cantwell was the winning pitcher, while Gregory was the loser.

Paris, Blinn Open 3-Game Set Today

WACO (AP)—Paris and Blinn Junior Colleges opened a three-game series here today for the Region 14 baseball championship. The winner will clash with the Region 4 champion, New Mexico Military Institute. Two seven-inning games were scheduled today. If a third is needed, it will be played Wednesday. Paris has a 15-5 record and none of the losses was to a junior college team. Blinn has a 14-4 record.

Palmer Is Victor In Typical Style

FORT WORTH, Tex. (AP)—Arnold Palmer finished with a typical birdie barrage to beat young Johnny Pott for the championship of the \$40,000 Colonial National Invitation. Then he announced a conscientious attack on the all-time, money-winning record for one year in professional golf. Nerveless Arnie took a giant stride in that direction Monday when he trimmed Pott by four strokes in an 18-hole playoff to drag down the \$7,000 first money. Leading by a single stroke after some holes, the cool-headed Pennsylvanian methodically birdied three of the next seven holes to win in a breeze. He had a one under par 37-33-69 while Pott, playing out of Gulf Hills, Miss., came in with 38-35-73. Pott earned \$3,200. "He's too tough," Pott said in his pressing Southern draw. The victory, third straight and sixth of the year for Palmer, brought the total to \$59,300. It left him less than \$26,000 behind the one-year record of \$75,368, set by himself in 1960. He said the triumph encouraged an attempt to better his money-making record. "I will play more now than I previously expected since I have good chance to break the record," he said. Palmer, winning his eighth of 11 playoffs, said he plans to rest a little, practice a little for the National Open, play a few exhibitions and rejoin the tour at the Memphis Open in three weeks.

LAUNCHING NEW SEASON—Mutt Herold, with microphone, Little League coordinator, prepares to introduce league officials as the Snyder Little Leagues launch their 1962 season. At left is Dawson Moreland, president of the American Little League, and at center is Fred Bullard, vice president of the National Little League.

Razorback Star Signs With Reds FAYETTEVILLE, Ark. (AP)—contract with the Cincinnati Reds. Jerry Carlton, two-sport star at Carlton, a high scorer in basketball, has signed a baseball contract and 382 hitter in baseball, of the current semester.

SPORTS

The Snyder (Texas) Daily News, Tues., May 15, 1962

Athletics, Cards Win FL Openers

The Athletics downed the Yankees, 10-6, and the Cardinals rolled past the Braves, 12-8, in F&T League openers last night at the Towle Memorial Park diamond. The Athletics broke a scoreless deadlock in the top of the first across eight runs in the biggest uprising of the American League Encounter. Tim Whitley had a double and a single to pace the Athletics hitters, while David Bushing's three-bagger was the biggest blow for the Yankees. The Cardinals scored three runs in the first inning and never gave up the lead in deciding the Braves. The Braves cut the lead to 2-6 in the fourth, but a four-run surge sparked by Terry Clemmer's home run over the left field fence, iced the decision for

Trojans Bow To C-City

The Lincoln Trojans, out-hit by 18-10 and committing 10 costly errors, dropped a 10-7 decision to Colorado City in the Winston Park diamond Monday afternoon. Ronald Green, Thomas Davis and Buford Thomas toiled on the mound for the Trojans, while Curtis Scott worked on the hill for C-City. Maxlin Howard paced the Colorado City batting attack with three singles and a double. Kenneth McClain had a triple and a single for the Trojans. Curtis fanned seven Trojans, the same number downed by strikeouts by the Lincoln trio of pitchers.

Next 2 Weeks May Answer Big Questions

By JOE REICHLER
Associated Press Sports Writer

astating batting attack was surprisingly strong pitching, threaten-

1. Is the rest of the American League, after years of being spread-eagled by the New York Yankees, finally catching up to the practically perennial champion?

2. Are the Cleveland Indians pennantless since 1954, really a threat?

3. Are the San Francisco Giants going to become the first National League runaway winner since the Dodgers, then in Brooklyn, waited to a pennant in 1957?

A couple of weeks ago, Gabe Paul, general manager of the Indians, boldly stated that the Yankees would be hard pressed to repeat as champions this year. Taken lightly was his assertion that other clubs, including his own, had built themselves up to the Yankees.

Today, Paul's assertions have more meaning than they did two weeks ago, because of (a) Cleveland's current position at the head of the league (b) the Indians' early dominance of the Yankees whom they've beaten five times in seven meetings and (c) the league standings which show only 4½ games separating the first eight clubs.

There's no doubt that Gabe has revived the forlorn Indians of a year ago when they barely managed to squeeze into the first division, a whopping 20½ games behind the winning Yankees.

In a house-cleaning job, he changed managers and replaced several of last year's regulars with young, eager and speedy newcomers. The new manager, youthful Mel McGaha, besides establishing order and harmony, had fashioned a different club based on speed, pitching and defense.

Probably the biggest improvement has been in the club's bench, which has become one of the deepest and most maneuverable in the league. In the weekend series with the Yankees, McGaha platooned six outfielders and each contributed nobly in the club's three victories in four decisions.

In Sunday's double triumph, the second doubleheader sweep the Indians have accomplished over the Yankees in two weeks, the outfielders—Ty Cline, Chuck Essigman, Willie Kirkland, Willie Tasby and Don Dillard—collected 10 hits. Two of them were important pinch hits by Dillard.

An important factor in the Indians' showing this year against the Yankees, to whom Cleveland lost 14 of 18 last year, has been second-baseman Jerry Kindall, acquired in a trade with the Cubs. As a defensive whiz, he has steadied the infield.

The Indians open a two-game set against Kansas City in Cleveland tonight with Jim Perry going for his third victory. He hasn't been defeated.

The Giants, combining a devastating

The next two weeks may be the turning point. The Giants, with a four-game lead over their nearest rivals, will play 13 of their next 15 games at home. At the conclusion of the two-game series with the St. Louis Cardinals starting tonight the Giants play Houston four times, Philadelphia and New York three each. The home stand will be interrupted by a two-game series at Los Angeles.

If the Giants fatten up on the tailenders and widen their present margin appreciably, there may be no stopping them. Even with Willie Mays in a batting slump, the Giants have sent to the showers all but two of the 32 starters they've faced.

Monday was an off day in both leagues.

Cage Probe Due Thursday

WACO (AP)—Rep. Charles Ballman is expected to announce tonight that his House Investigating Committee will meet here Thursday for a probe of the gambling situation in Central Texas.

This investigation, scheduled in the grand jury room of the McLennan County courthouse, is due to include the reported fixing of Southwest Conference basketball games.

Ballman would not confirm that such a meeting would be held except indirectly, explaining that it was the policy to contact all committee members first.

"I will have an announcement tonight," he said at his home in Berger.

County Judge Ray Mormino reported the Department of Public Safety asked him for the use of the grand jury room "sometime this week."

Dorothy Ballman, clerk of the House in Austin, said she had certified a number of subpoenas with the signature of Ballman. There were no names of witnesses on the subpoenas.

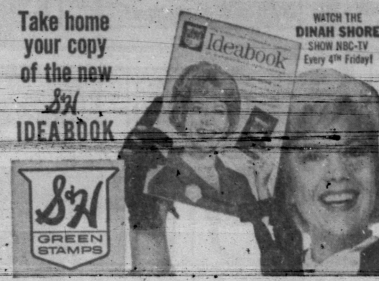

Four Players Tied In Women's Meet

HOUSTON (AP)—Four players were tied for medalist today as the Texas Women's Public Links Golf Tournament moved into its first round of match play.

Shooting 82s to lead qualifiers Monday were Sandra Palmer of Fort Worth, Mrs. Herman Myers of Houston, Mrs. J. C. Newberry of Gonzales and Jerry Poes of Bay City.

Miss Palmer was runnerup in the 1959 tournament and Mrs. Newberry was runnerup in 1960. Wanda Sowell of Tyler is not defending titles she won here in 1960 and 1961.

GETTING AN ADULT EDUCATION

Right To Dissent Has Been Big Factor In Our Freedom

By INEZ ROBB

This is the day I want to borrow a line from Harry Golden. Surely, it could happen only in America when two world-famous men picketing the White House, must race back to their respective lodgings to change from their billboards into formal dinner clothes before dashing back to the Executive Mansion for a dinner in their honor.

And, on arrival at the White House, he met with superb courtesy, warmth and honors.

Since the White House dinner honoring the Nobel-Prize winners, I have received a spate of angry mail. Its tenor has been that the two picket-quests—Dr. Linus C. Pauling, a Nobel Laureate of the California Institute of Technology, and Dr. Clarence E. Pickett of the American Friends Service Committee, should have been given the old Negro-who when they showed up at the Executive Mansion for dinner.

Well, I couldn't disagree more emphatically. If difference of opinion makes horsingering, it has also made this country GREAT. The Messrs. Pauling and Pickett (the latter so aptly named) have been picketing the White House in protest against President Kennedy's nuclear policy, particularly the current series of tests.

Now, I feel strongly on the side of the President, just as

strongly as Pauling and Pickett feel again. But I also feel strongly that the glory of the United States of America is the right to dissent in front of the White House and still get a good meal in its State Dining Room an hour later. What other country can make that boast?

To be honest, I suspect the same thing could happen in England. In all probability Lord Russell could march up and down in front of Buckingham with a sandwich board reading: "I'd Rather Be Red Than Dead" and still be invited inside for fish and chips. And with Her Majesty?

But if I were a Frenchman, picketing the Elysee Palace in protest against General deGaulle's nuclear or Algerian policies, I figure my chances of being invited into the state dining room for a bowl of bouillabaisse would be approximately one in a trillion, or nil. And I have an extravagant crush on General de Gaulle, too. But I don't believe he's the man to feed anyone who has been nipping at his hand.

As for the Kremlin! Ivan, take the potato pancakes and the left-over borscht with you, and good luck in Ljublianka! You'll need it. And the next stop is Siberia.

It is a measure not of the nation's weakness but of her great strength that Pauling and Pickett

quit the protest march to dine at the White House. We are still "the land of the free and the home of the brave" where a man can be free to stand up and proclaim what he is brave enough to advocate.

And people need not come whining to me because the President of the United States invited one of the world's greatest living scientists, Dr. J. Robert Oppenheimer, to dine with his peers at the dinner for Nobel Laureates.

Love Of Country Vital, Says Ike

PHILADELPHIA (AP)—Any citizen, any party, or any administration that hopes to stir the nation to greatness must appeal, after God, to America's love of country, former President Eisenhower says.

Eisenhower, addressing the Union League Monday night and basing his remarks on the occasion of its centennial, said America was in the dawn of its destiny.

But, he added, "Americans themselves—should they forfeit individual opportunity in exchange for governmentally guaranteed security, or concentrate on selfish profit or soft life—can imperil its attainment."

Payment Is Sought From Actress-Dancer

LOS ANGELES (AP)—The 20th Century-Fox Film Corp. seeks payment of \$10,000 from actress-dancer Juliet Prowse.

The complaint, filed in Superior Court Monday, did not disclose the nature of the alleged debt.

Miss Prowse and singer Frank Sinatra recently broke their engagement.

Junior Editors Quiz on OUTER SPACE

About 1505

1785 'Balloon flight across channel

Sketch for a flying machine by Leonardo da Vinci

Weight, 1903

1903

First idea of using rockets

QUESTION: When did men first think about landing and living in outer space?

ANSWER: Probably men longed to explore space from the earliest times, but in those days they had no reason to believe that it might be possible. We show a sketch of a flying machine by the brilliant Italian thinker and artist, Leonardo di Vinci, which proves men were dreaming about flight long ago. With the early balloon flights, such as we show in the upper right, there was at last something practical to dream about, and writers such as Edgar Allan Poe, Jules Verne and H. G. Wells took their heroes and heroines on long imaginary space voyages. Of course with the Wright brothers' first airplane flight in 1903, man first began to be really conscious of how he could fly above the earth into the blue of the sky. It is curious that in that same year of 1903 a Russian school teacher, Konstantin E. Ziolkovsky, realized that rockets might be used to escape from the earth's gravitational pull. The German, Hermann Oberth and an American, Robert H. Goddard, helped lay the foundations of modern rocketry which paved the way to such wonderful feats as the orbits around the earth made by Sputnik.

FOR YOU TO DO: Our drawing shows, beside a satellite rocket and a space ship, the artist's idea of this space station. How would you change or improve on this space station? Get out pencil and paper and work out your ideas.

(Jean Slagyi of Portage, Pa. wins \$10 for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Tension Now A Leading Ailment

By HAL BOYLE

NEW YORK (AP)—Jumping to conclusions: Nervous tension is one of the leading ailments of civilization. But eight out of 10 people would feel less tense if they'd simply get one more hour of sleep a night, walk a mile more a day in the open air—and worry a third as much about the other fellow's problems as they do their own.

All my life I've heard about kids earning their way into the circus by carrying the heavy equipment, but I've never met one who did.

Some men pride themselves on the possession of keys they carry on their key ring; actually, the fewer things you have to lock up the happier you probably are.

The most boring jobs I can think of offhand are driving a bus, or being a professional hockey player, politician or movie star. The fellow who first conceived the idea of serving cocktail "chairs" didn't invent stomach trouble—but he gave it a great big push forward.

If you have to tip the headwaiter to get a seat in a good restaurant, either it really isn't a very good restaurant—or you don't belong there.

Have you already made out your Christmas shopping list? If so, your life is probably too well-planned for enjoyment.

Did you ever notice that when you get the hiccups or a lame back, everybody knows a sure cure? But if you get a gum ball nobody ever heard of a remedy.

A man often will spend his last penny during a night out on the town. A woman always comes home with some money left in her pocketbook.

The men who whistle most at pretty girls going by are construction workers at lunch time.

Only really lonely people feed pigeons on rainy days.

Most girls don't seem particularly thrilled by muscular men who do handstands at the beach to attract attention.

As soon as a teen-age daughter is old enough to be of real help to her mother in the kitchen, she suddenly finds other interests.

An independent girl is one who insists on buying her own cigarettes while out on a date, but whoever met one that independent?

A born cheapskate is the guy who always drinks highballs faster at your house than he serves them in his own.

The surest sign of a woman's age is how she sits down. If instead of seating herself gracefully, her leg suddenly let go and down she goes—kerflop!—with a quick sign of relief, she's been out of high school a long, long time.

DeGaulle Says West Must Keep Rights

By JOSEPH E. DYNAN
PARIS (AP)—President Charles de Gaulle declared today the western powers must keep their present rights in Berlin without change.

At a crowded news conference, he also declared anew that France must build its own independence, and again urged the formation of a European political union but along France's idea of a loose confederation.

De Gaulle said France does not object to the United States' probe of Soviet intentions on Berlin.

"Now is not the moment to modify the statute of Berlin. The statute of Berlin was established on the basis of a quadripartite accord. It must not be changed," he added.

De Gaulle asserted that in the current international circumstances it is vain to try to settle the problem of Germany in a satisfactory manner.

"The Soviets are demanding that the West finish with the German problem and they are using the Berlin crisis for this end."

"It is the current atmosphere, we very much doubt that any good results can be attained," he said.

He acknowledged that in case of conflict the United States would be obliged to furnish the greatest effort, and hence is entitled to conduct the probe of Soviet policy.

"As for us, we think it much more preferable to be reserved," he added.

It was at this point that De Gaulle insisted that now is not the time to change things at Berlin, or to modify the delicate balance between East and West.

Any change in the status of Berlin at this time, he said, would only aggravate the dangers of an era in which the whole world is permanently menaced with devastating destruction.

Another reason, he said, was the solidarity between France and Germany, the basis of hope for European unification.

Trying to solve the German problem with the Soviets now is, he said, like trying to square the circle.

De Gaulle, in effect, criticized the American proposal to put West Berlin's access routes under an international control commission.

"France," he said, "is not ready to accept measures which would place Western forces under any other controls than those agreed upon by the victorious powers."

As for France's own atomic force, De Gaulle said it should operate within the framework of the North Atlantic Treaty Organization.

Couple Hopes No. 19 Will 'Be A Boy'

CARMEI, Calif. (AP) — Like many an expectant couple, Navy Chief Warrant Officer Francis Louis Beardley and his wife Helen hope their first child will be a boy.

That's just fine with their other 18 children too.

In 1960, Beardley's first wife died of diabetes. They had 10 children. That same year, Helen North lost her Navy officer husband in a jet crash. She was left with eight children.

They heard of each other through a friend and exchanged sympathetic notes. They met. He proposed six days later. She accepted. Last Sept. 9 Beardley, 45, and Helen, a pretty brunette who is 31, were married.

They set up housekeeping with their 18 children.

The Beardleys happily announced Monday that another child is on the way. Beardley described the other 18 children as wild with excitement.

Beardley added, "Nobody can appreciate the scene when we told the children. It was exhilarating. It was like winning the Irish Sweepstakes."

Beardley works in Monterey at the Navy's postgraduate school. He says the child will be born in the nearby Ft. Ord hospital about July 19.

"We'll name him John Joseph," Beardley declared. "The girls outnumber the boys now 12 to 6."

And it's a girl!

"We haven't decided on a girl's name," Beardley said. The 18 children range in age from 2 to 17 years.

The first nuclear reactor on a college campus was installed at the North Carolina State College at Raleigh, in 1953.

Simulated Trip Shows What Could Go Wrong In Orbit

By HOWARD BENEDICT
CAPE CANAVERAL, Fla. (AP)—If Astronaut Malcolm Scott Carpenter had been aboard his "Aurora 7" spacecraft on his latest simulated mission, he would not have completed his full three-orbit mission.

Control room men made several things go wrong just to show what could happen on the actual flight, how far for Saturday.

Every time appeared to be a problem, especially on the first orbit. Then problems popped up in quick succession.

The attitude control system acted up, making it difficult to keep the heat shield forward. Then an inverter, an instrument that switches direct to alternating current, overheated.

Medical monitors noted a minor problem with the equipment transmitting the astronaut's pulse rate.

Suddenly, the electronic clock aboard the capsule, which automatically fires the reverse rockets to bring the craft out of orbit, began losing one second every minute.

Smoke from an unknown source filled the capsule and began filtering into the pilot's pressure suit.

In the Mercury control center at Cape Canaveral, Flight Director Christopher Craft assessed the troubles and decided the astronaut's life was in danger.

Aurora 7 was ordered back to earth after two orbits, instead of the intended three, and the capsule impacted in the Atlantic Ocean 45 miles from a waiting recovery ship.

The simulation was a game—a deadly serious game that world-wide Mercury control center played to sharpen its ability to direct Carpenter safely through space.

Carpenter did not participate in this simulation. His backup, Wal-

ter M. Schirra, Jr., "flew" the land-locked Aurora 7 during the launching phase, then personnel at tracking stations around the globe read the part written for the astronaut during the flight.

The Mercury team has played the game more than 40 times in preparation for Carpenter's flight, many times with Carpenter seated in the capsule, now in place atop the Atlas booster rocket.

One more full dress rehearsal is scheduled Thursday in the final tune-up for Carpenter's space ride.

The purpose of the simulations is to determine the Mercury control team's ability to anticipate every conceivable thing that could go wrong so they will be able to cope with an emergency.

"We've never killed an astro-

COUPLE CROWNED AT WEDDING CEREMONY—King Paul of Greece places crowns on the heads of Greek Princess Sophie and Prince Juan Carlos of Spain during Greek Orthodox wedding ceremony in Athens' Metropolitan Cathedral. DeGaulle Actions Algerian Mystery

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP)—The Algerian mystery is not how the Secret Army Organization is able to kill Moslems in barmecide every day, but why French President DeGaulle has not used the French army to smash the assassins.

It raises an unpleasant question about DeGaulle who takes such a strenuous role against the Moslems that he has refused even to join the United States in discussing a Berlin settlement with them.

How could he hope to cope with the gigantic Russian military power if he lacks the ability, or the will, to crush the comparatively small group of organized murderers in Algeria?

The answer is simple enough: He couldn't stop the Russians for five minutes without American help, although this might not be guessed from his attitude toward American efforts with Russia.

Through months of murder, committed on the public streets, the French army in Algeria has arrested a few leaders of the secret army but has never made any wholesale effort to crush it.

It has stood by while the murderers piled up. In these months, while the secret assassins slaughtered their people, the Moslems refrained from fighting back. They feared it would eventually involve them with the French army and destroy their hopes of independence.

They finally reached the breaking point Monday after scores of their women had been shot down, and cut loose.

Until last March in Algeria, Moslem nationalists fought the French more than seven years for their independence.

In 1958 when DeGaulle's prede-

10 The Snyder (Texas) Daily News, Tues., May 15, 1962

cessors in office headed toward a settlement with the Moslems, the regular army joined the settlers in revolt against the government in Paris.

The thought of losing Algeria, the last big remnant of French colonialism, seemed top priority when the French troops who had seen their empire cut away from Lebanon, Syria, Tunisia, Morocco and Indochina.

It was after this that DeGaulle took over. In time, last March, he worked out a settlement with the Moslems, which was intended to keep Algerian links with France, but let the Algerians choose independence.

After the history of their years of revolt—and the fact that they outnumbered the European settlers 9 to 1—there was no doubt the Moslems would choose independence.

The decision was to be made in a referendum about next September. The secret army, which had already turned Algeria into its own private slaughterhouse, re-doubled its efforts.

Any head of a competent state might be expected to act against organized murder. DeGaulle's reluctance to do so doesn't speak well for the ability of the French government, under him or someone else, to control its destiny.

It has been said he fears that an attempt to use French troops against their countrymen among the assassins might cause an

army revolt on behalf of the settlers who don't want the Moslems to run the country.

But this is one more example in a sorry history of French inadequacies, both at home and in its former colonies. For example: the endless succession of French governments since the war.

Another example: the French disaster in Indochina where it had practically no support among the people and where the French army was crushed by the Communists.

In some smaller and less pretentious nations this record might not have much significance.

But DeGaulle, the difficult ally, is the one who has visions of France as a leader of the West and the strongest power in the world.

First Negro Is In Chorus

ST. LOUIS (AP)—Miss Pelagio Green, 19, a college sophomore, is the first Negro ever selected for the St. Louis Municipal Opera's dancing chorus.

"I almost fainted when my name was called," said Miss Green, daughter of a mail carrier, who is known to her friends as "P.G."

She was selected yesterday on her fourth attempt.

"I realize now I wasn't good enough the first two times and last year I was overweight. So I went on a spartan diet and slimmed down," she said.

Miss Green, who is majoring in

English at Harris Teachers College in St. Louis, has ambitions to perform on Broadway.

"I figure if I can make it here, I can make it in New York," she said.

Statue Reunited With Lost Head

By ANDREW MEISELS
NEW YORK (AP)—A 2,500-year-old Egyptian statue that lost its head centuries ago, has finally found its place today—but nobody knows for how long.

The statue, which was a top administrator of the temple of Amun and Montu at Thebes in the 4th century B.C. The reunion of its head and torso is the result of an epic piece of scholarly detective work on the part of a Belgian Egyptologist.

Here's how it came about: The statue of West-War, 28 inches high, was carved in about 130 B.C. in gray-green schist, an extremely hard stone. Somewhere along the line, however, the top part of the figure was broken off, and the two sections maintained a separate existence since then.

The torso and base have been in the Egyptian national art collection since 1903. Unbeknownst to anyone, meanwhile, the head was right nearby in the Cairo Museum.

Here the plot thickens, for in 1955 the Brooklyn Museum here bought the then unidentified head at a sort of rummage sale held by the Cairo Museum and removed it to the United States—5,000 miles from its torso.

The head's been here ever since, on display in Brooklyn. At this point, Dr. Herman de Meulenaere, 35, enters the picture. He has made a science out of joining the missing pieces of ancient art objects.

De Meulenaere works from about 10,000 photographs of fragments from all over the world, which he keys into an elaborate cross-filing system.

Working at the Queen Elizabeth Egyptian Foundation in Brook-lyn, De Meulenaere learned from his files that a column of hieroglyphs begins at the top of the head in the Brooklyn Museum, on the back, and then stops abruptly.

In an astounding feat of memory, the professor recalled that some hieroglyphs appear on the back of the headless statue in Egypt. A comparison of the head and the statue—with the hieroglyphs on each—showed they were together.

West-War, all of him, was

LIGHTEST MEXICO

BY JOHN ABNEY

LAS ESTACAS, MEXICO — The dictionary says this name means "a stake, a sapling, a picket, a stick, an edge or blade." Where the name came from, I cannot imagine.

Maybe the Spaniards or the French once staked out a claim here if it were free territory. It would hang up my hammock and take me a fine spring. "Abney" should be shouted at. And then die in the hammock all day long.

For this is a piece of Paradise tucked away in the rolling hills south of Cuernavaca.

It is the weekend mecca of the young and the old. Picnickers, swimmers, skin divers and siesta takers. There are about 50 acres of flowering gardens bounded on one side by a crystal stream that churns out of the earth near the northern limits of the area.

In the big whirlpool, which is about twenty feet deep and forty or fifty feet wide, gentlemen with aqua lungs go down to spin with the slow current and observe the ladies clinging to a rope stretched across the surface.

The more adventurous carry their lung equipment a hundred yards above the whirlpool to a point where the water is waist deep. Then make a submarine trip downstream.

From there, you run an obstacle course, dodging between branches and trunks of fallen trees and avoiding collisions with aqua lungers. It is possible to make the underwater run for approximately half a mile, taking the big half circle in ten to fifteen minutes.

Some divers report there are big trout lurking back under the overhang of the bank. I personally have not seen any. For I was too busy dodging swimmers and gentlemen leaping out of trees into the little river. I suspect any fish in the vicinity might have the same problem.

After you get tired of aqua lunging, it is a short walk to the head of the stream where a mass of arisian wells boil themselves in to a swirling pool rimmed by cattails and reeds. You can wade in to this pool and feel the sand wiggling under your feet where the water spouts up.

And if you are the outdoor type, you can spread a blanket and have your picnic beneath a big cypress or oak. Otherwise, there is a restaurant on the banks of the river where you can get a reasonable meal for a U. S. buck.

To enter the gates of Paradise, you buy a forty cent ticket from the man who stands between you and what is inside. From there on, the place belongs to you. And a thousand others if it is on a weekend.

So far as I could determine, there is nothing historical about

Broadway Is Sampling Swedish Fare

By WILLIAM GLOVER
Associated Press Drama Critic.

NEW YORK (AP)—For the first time, Broadway is sampling the artistic wares of Sweden's renowned Royal Dramatic Theater.

On the basis of the debut showing of "The Father" at the Cort Playhouse Monday night, qualified cheers appear in order.

A dignified austerity that is more culturally interesting than thespically exciting marks the troupe's interpretation of August Strindberg's classic of marital fury.

Lars Hanson, Irma Christenson and Elsa Carlsson—leading members of the organization that next Thursday celebrates the 174th anniversary of founding—carry the vital assignments.

Both Hanson as the cavalry captain who loses his mind, and Miss Carlsson, an ancient nurse, are compelling with moments of absorbing intensity. They carry off the famous strait-jacket scene with stylized sincerity.

The performance is given in Swedish and the chief reliance throughout is on vocal subtleties rather than outward action. For those unable to understand the language, there is little to sustain dramatic tension.

The style contrast with what later foreign troupes have been able to do on recent New York visits. The French used glittering elegance, the Italians romping vigor and the Greeks sweeping darkly sedate.

Amharic, the language of Ethiopia, has a 1,700-year-old alphabet of 247 characters. Each character represents a syllable.

"ESTHER! NOT YOU!"—Miss McCauley apprehends her prize pupil, Esther Cole, sneaking through the hole in the hedge into the boys' garden in this scene from "Get Up and Go," which will be presented by Travis Junior High pupils tonight in the high school auditorium. Sue Howard plays Miss McCauley and Jan Smith plays Esther.

Oil Demand Up Slightly

AUSTIN (AP)—Nominations for purchase of Texas crude oil in June total 2,597,291 barrels daily, up 51,414 from May, the Railroad Commission reported Monday.

The U. S. Bureau of Mines forecast June demand of 2,340,000 barrels daily, an increase of 25,000 barrels a day from May.

The commission will set the June allowable production Thursday at its monthly proration hearing.

June nominations show a requested decrease only in Dist. 5 which would drop 1,129 barrels from May.

Other nominations included: Dist. 1, up 443 barrels daily; Dist. 2, up 2,732; Dist. 3, up 8,550; Dist. 4, up 6,444; Dist. 6, East Texas outside, up 1,438; Dist. 6, East Texas Field, up 1,200; Dist. 7B, up 150; Dist. 7C, up 5,568; Dist. 8, up 23,302; Dist. 9, up 1,338; and Dist. 10, up 2,358.

Differences Are Reduced

BONN, Germany (AP)—The United States and West Germany have reduced their differences to what they call "details," but informed sources said one detail is a key provision of U.S. proposals to the Soviet Union for a Berlin settlement.

A communique issued after a two-hour meeting between U.S. Ambassador Walter C. Dowling and Chancellor Konrad Adenauer Monday said the two nations were in "full agreement in all essential points."

"There will be further talks over several details," the communique added. "It is the intention of both sides to remain in close touch."

Informants said disagreement continues to "center" on the U.S. proposal for East German representation on a 13-nation authority to control access routes to West Berlin.

The Bonn government, after seemingly rejecting the whole idea

last week, once again says it favors the basic principles of an international authority but objects to East German participation. The

West Germans fear that this would imply further international recognition of East Germany's Communist regime.

France Has Rail Strike

PARIS (AP)—Railway workers went on strike throughout most of France today, paralyzing the state-operated rail system.

In Paris, many city bus drivers also struck and several subway lines halted during the morning rush hour. Only about 10 per cent of the familiar green and white Paris buses were operating.

The strike was called for 24 hours, beginning at 4 a.m. Long-distance trains en route at the time continued to their destinations.

The transport workers are seeking a shorter week and other benefits that the government has refused. More strikes in nationalized industries and the administration are scheduled later this week.

Adenauer also objected to inclusion of three neutral nations on the authority. He said this would give them control and place on them a responsibility they would not accept.

Informants said there was also disagreement over other points but further details were not disclosed. The communique said the meeting concerned U.S.-West German relations with "special consideration" of the German-Berlin question, problems of European unity and the general world political situation.

President Kennedy ordered Dowling to call on Adenauer after the chancellor indicated at a Berlin news conference last week that he felt the U.S.-Soviet talks on Berlin should be broken off.

Moon Shot Promises Valuable Knowledge

AMHERST, Mass. (AP)—A \$20 billion U.S. effort to put a man on the moon ahead of the Soviet Union will be worth it because of the knowledge to be gained and not because of any strategic values, rocket expert Werner Von Braun says.

Von Braun said Monday night that he agreed with predictions by others in the field that the United States can put a man on the moon within 10 years.

"It will cost about \$20 billion to put a man on the moon and the byproducts of the lunar project will make it worthwhile," he told a University of Massachusetts audience.

Publicly stated, Kennedy at his news conference invited the West Germans to make their own proposals. It was understood that none have been made so far, but that West German counter-proposals could be expected soon.

PICK A SIZE

PICK A PRICE

\$1951 Manufacturer's suggested retail price for the Lancer 6, 2-door sedan, exclusive of white walls and destination charges.	\$2241 Manufacturer's suggested retail price for the Dodge Dart 6, 4-cylinder 2-door sedan, exclusive of white walls and destination charges.	\$2964 Manufacturer's suggested retail price for the Dodge Custom 880 4-door sedan, exclusive of white walls and destination charges.

PICK A DODGE!

BIG DODGE CUSTOM 880—This Dodge is custom-made for the big car man. It's big, all right. And packed with luxury. Almost 16 feet long. Chair-high seats. A big ride on a long 122" wheelbase. Big power from a mighty 361 cu. in. V8. The Custom 880 is big in everything but price. Without doubt, the biggest bargain on four wheels.

NEW SIZE DODGE DART—Sized right in the middle of the big and little. Two feet shorter than America's longest car; two feet bigger than the smallest. You get family-size room in an agile, parkable car. The most powerful standard 6 in the business; the hottest standard V8 near its price. Like every Dodge, Dart offers Torsion-Air ride, rustproofing, 32,000 miles between grease jobs.

COMPACT DODGE LANCER GT—If you want a compact that does more than save gas, Lancer is your answer. Car life calls it America's best handling compact. It's one of the hottest, too. Lancer GT, a safety bucket seat job, is America's first Sports Compact. Try it at your Dodge Dealer.
