ate to Build 14.5 Miles Farm-to-Market Roads

e county will get 14.5 farm-to-market roads un- Federal Aid Highway Act This act provided for the of secondary or feeder h the federal government or local agencies match- for dollar on the cost of on. The roads will be ed by the state.

5 miles designated by the as follows: from Highway 9.5 miles on the section line at the east side of Farnsworth; from Highway 83 east five miles from Perryton on what is known as the Uncle Sam highway. This information was received by the Herald from Elmer D. Elliott, state representative from the 124th district.

Designation of these routes have been made by state and federal officials with the provision that owners of land along the proposed routes must provide an 80-ft. right-of-way. If the land for the right-of-way is not furnished, the location will be changed.

The farm-to-market highway program is strictly a post-war plan and will operate for three years after the war's end.

The secondary or feeder roads added to the state's obligation by this action amount to 4,900 miles divided among 657 roads. To this total are added 930 miles, involving 69 roads that have heretofore been designated by the Highway Commission as farm-to-market roads, but that are not yet improved and will be improved in this program of work. To this also must be added 1,375 miles involving 115 farm-to-market roads that have been previously designated by the Highway Commission and have been improved as surfaced roads and are now under state maintenance.

In summation, this state-wide action will reach a total of 7,205 miles of secondary or feeder roads divided among 841 roads that will be under the State Highway Department for construction and maintenance. It is hoped that by the transfer of this tremendous financial burden from county governments to the state government, the counties of the state will be able to concentrate their funds on the remaining roads in their system to further improve the road system of Texas.

The Highway Commission realizes that many meritorious roads are not included in these actions of the department, and although they will be all that the commission can obligate itself for in the 3-year period immediately following the war, it is possible that after such 3-year period, additional feeder roads may be taken over by the state and improved if finances will permit.

Overall Sales Nearing Quota; E Bond Sales Are $92,731.25 Short of $320,000 Goal

As the 7th War Loan goes in the final month of the drive, Ochiltree county is nearing the overall goal of $405,000 with overall sales of $386,009.75 tabulated by the Dallas Federal Reserve Bank at the close of business on June 4. At the same time the county was credited with E bonds sales of $227,268.75. This is $92,731.75 short of the assigned E Bond quota of $320,000.

The 7th War Loan closes on June 30 but sales of E, F, G and Tax Series C notes through July 7 will be credited to the 7th War Loan totals.

Carl Ellis, co-chairman with Van W. Stewart of the Ochiltree County War Finance Committee, in calling on every Ochiltree county citizen to buy more E Bonds before the 7th War Loan closes, makes the following statements:

"The end of the war against Germany means we must transport whole armies 15,000 miles to the Pacific; must equip them, re-train them.

"In the Pacific we do not have an England or southern France or Africa as jumping-off places. Many of the islands we have captured won't hold a full army.

"Actual combat in the Pacific is of necessity a naval-army combination; more and greater ships will be used in combat.

"The 7th War Loan seeks to help supply new equipment, new training, transportation, new jet propelled airplanes, foods, supplies, hospitalization, rehabilitation, and at the same time prevent inflation on the home front.

"The 7th War Loan is really two in one. Up to this time in 1944 there were two war loans. The 7th seeks nearly as much as did those two.

"Statistics show the national income greater during the life of the 7th War Loan, May 14 through June 30, than ever before. This extra cash must not be allowed to cause an inflationary market. In War Bonds it will be out of circulation. It will be available 10 years from now when it may be needed most.

"In an emergency, a War Bond owner can cash his bond like cashing a check after he has owned it but 60 days."

While this moisture was needed, the hail completely destroyed some fields of wheat.

Baptist Church Employs Director

Miss Beth Floyd is educational director for the First Baptist Church, Perryton. She assumed her duties here June 1 and will be in charge of music and education in the church, working with O. C. Curtis, pastor.

Miss Floyd received her B. S. in education, majoring in public school music at Texas Tech, Lubbock. She was president of the Baptist Student Union at Tech, and worked with the students in the First Baptist church, Lubbock. She also worked with the music program.

Since her arrival in Perryton, she has been directing the Vacation Bible School at the Baptist church, which started Monday and will close June 15. She is a niece of Mrs. R. B. Orrill.

Seven Men Are Accepted For Armed Forces

Seven of the nine men sent to Oklahoma City last Thursday for their pre-induction physicals were accepted for military service, it was announced at the local Selective Service office.

Those making the trip were Dorrance M. Woodward, Donald Wayne Schell, Ivian Leon Coley, Calvin Eugene Walton, Solmon Kershman, Billie Joe Trimble, William Dale Pearson, transferred from Plainview, Texas; Edward Lee Geymann, transferred from Lyons, Kan.; and Claude Powell Renfro, transferred from Tyler, Texas.

Billie Joe Trimble and Donald Wayne Schell were rejected.

Lt. (jg) Reuel Thompson Jr., USNR, of Rockport; Ens. Clarence Ray Morris, USNR, of Perryton, and Lt. (jg) Earl W. Grubbs, USNR, of Orange, all former outstanding Texas athletes, are shown aboard in offensive operations against the Japs. These three Texas men, former rivals in college gridiron battles, are now playing on the same team as officers of a 7th Fleet PT boat squadron in the Philippines.

Lt. (jg) Reuel Thompson, Jr., 24, USNR, of Rockport, commanding officer of PT 342, and Ens. Clarence Ray Morris, 23, USNR, of Perryton, executive officer of PT 335, played with East Texas State Teacher's College team. Lt. (jg) Earl Woodell Grubbs, 25, USNR, of Orange, executive officer aboard Lt. Thompson's PT, was center on Sam Houston State Teacher's College eleven.

All three took an active part in the invasion of Zamboanga, Mindanao Island, March 10. Lts. (jg) Thompson and Grubbs had the unusual experience of seeing the Japs burn a town and destroy their own equipment before the PT boats had a chance to fire a shot.

"We think the Japs got word some way that a couple of Texas boys were on their way to annihilate them and hearing the word TEXAS got panicky," was the explanation given by the two Texans.

Ens. Morris was not long in getting action either. His PT destroyed an enemy barge on the first night's patrol near Basilan Island across the straits from Zamboanga.

"Busting Japs is different from busting the opposing team on a football field," Ens. Morris said. "Now we are playing for keeps."

Lt. (jg) Thompson and Ensign Morris were roommates during their college days. Lt. (jg) Thompson was All Lone Star Conference guard for two years and Lt. (jg) Grubbs was All Conference center and Little All American center his last year. The two lieutenants have been together since their first day in the Navy. They attended Naval Midshipman School together, were in PT training school at the same time and have been together in the same squadron for 14 months in the Southwest Pacific.

Ens. Morris had been assigned to the same fighting squadron for 11 months.

Besides their present action near Zamboanga, the young Naval officers have patrolled against Jap shipping and troop movements at Mindoro Island in the Philippines and all along the New Guinea coast.

Lts. (jg) Thompson and Grubbs have each made more than 50 combat patrols.

Veteran of 35 combat patrols, Ens. Morris, son of Mr. and Mrs. R. M. Morris, Perryton, Texas, recently helped destroy another Jap barge while on PT patrol near Zamboanga in the Philippines. He is executive officer of a motor torpedo boat. He was commissioned Jan. 20, 1944. He has been in the Southwest Pacific a year. Ens. Morris has been wounded in combat, and has the Purple Heart award.

Vehicle Tax Stamps Now On Sale

Motor vehicle tax stamps, $5 green stickers the government demands all automobiles wear this year, are now on sale at the stamp window in the postoffice.

Motorists have one month to purchase these stickers. After July 1, car owners are subject to a $25 fine if discovered driving or parked in a public thoroughfare without a stamp.

Mere purchase of the tax sticker is not sufficient, according to internal revenue collectors. It must be placed in view on the automobile. Deputy collectors of the revenue department will enforce the rule.

Not only cars and trucks will have to carry stamps. Even the motorbike and motorcycle is subject to the vehicle tax. Sale will continue at all postoffices until June 30, 1945, the expiration date.

Motorists are urged to record the issue number immediately after purchase. In case of loss, a duplicate is available if the serial number of the first stamp can be produced.

Hugh Boydston To Arkansas

Hugh S. Boydston, minister for the Church of Christ in Perryton the past year, has announced his resignation effective June 25. He is accepting work with the North Madison Church of Christ, Camden, Arkansas. This new work offers a larger field. No one has been selected to fill the vacancy in the local church.

HUGH S. BOYDSTON

Plans had been made by Mr. Boydston to leave June 15, but a discussion with a representative from the Christian Church had been arranged. The Elders of the Perryton Church asked Mr. Boydston to represent them.

Mr. Boydston came to Perryton from Orange, Texas, where he served as minister in a work similar to that he has accepted in Camden.

JUST HERE and THERE

Judge Marvin Jones has returned to his job on the Court of Claims after serving as War Food Administrator. In spite of being hamstrung by a multitude of New Deal regulations and overlapping, conflicting federal agencies, Marvin did a pretty swell job. Following is a letter, setting forth the record, that was sent by him to the members of the Senate and House of Representatives.

"We are getting many requests for information on what has actually been done in the production and use of food during the years of the present war, as compared with the last war. Our people are increasingly aware of the vital importance of food in the total war effort, and I am sure you will be interested in having the important facts.

"Here are the answers to the more important questions:

"The United States has produced 50 per cent more food annually in this war than in World War I.

"With 10 per cent fewer workers on farms, and with total national population up a third, our people have had about 10 per cent more food per capita during this war than in the 1917-18 period.

"During the present conflict, twice as much food has gone annually to the armed services and for shipment overseas as was used for these non-civilian outlets each year of the last war.

"This record has been accom-

War Food Administration Says Wheat Loan Will Average Nationally $1.38 Per Bushel

WASHINGTON — The War Food Administration announced recently that it will offer growers loans on 1945 crop wheat at rates averaging $1.38 a bushel nationally.

Rates under a similar loan program on last year's crop averaged $1.35.

The rates are an average of those applicable to wheat stored on farms. As in the past, loans will be made on wheat stored in suitable facilities on farms and in terminal markets.

The loan rates at principal terminal markets include: number one hard winter at Kansas City $1.54; at Omaha $1.54; at Galveston $1.62; at Chicago $1.59; at St. Louis $1.59.

Number one soft winter or western white at Portland, Ore., $1.49; number one heavy dark northern spring wheat at Minneapolis $1.56; number one red winter at Chicago and St. Louis $1.59; at Philadelphia $1.70; at Baltimore $1.70; and at Louisville $1.61.

The WFA said the rates reflect 90 per cent of the national parity price for wheat. The loan program is designed to place a floor under grower wheat prices.

The WFA also announced that loans on 1944 farm stored wheat which cannot be accepted for delivery by the government because of limited transportation and storage facilities, has been extended. The extension carries until April 30, 1946, with farmer-borrowers being allowed five cents per bushel for storage of the grain until that time.

One Set for Another!

As every housewife knows, high prices are usually brought about by a shortage of goods. And there will never be enough production of necessary civilian goods to get the prices down until Washington begins removing some controls.

Current Washington orders are giving industry much less freedom to begin producting for peacetime prosperity than the headlines indicate.

In a good many cases, all that is happening is the substitution of one set of controls for another.

Washington announces that "certain metals will be available for civilian production." Read the announcement again and you see that the WPB is going to continue to direct what such metals can be used for!

Then War Mobilization and Reconversion Director Vinson announces that OPA is going to control prices on all goods, both those now available and those that are permitted to come back into production—and OPA Director Bowles repeats the announcement.

And if you are going to control prices, you have to control everything that goes into prices . . . The truth is that it takes more than a newspaper story about the removal of a given number of controls at some time in the future, to get production started.

Now It Can be Told!

Now it can be told. The stories of the atrocities committed by both the Japanese and the Germans.

Because these stories did not circulate as freely in the early days of this war as they did in the last, many persons became prone to disbelieve the few that did reach their ears.

Then came the invasion of Germany and the recapturing of Manila. Wholesale atrocity, organized and ordered by higher ups. These were not just an outpouring of individual hatreds of enemy soldiers. Here was official atrocity.

General Eisenhower, seasoned and hardened soldier though he is, was shocked into calling the governments of the United States and England to see for themselves. In the Philippines confirmation statements were taken from witnesses, so shocking were the discoveries.

It is well that all this is known before Japan can make peace proposals. The Manila horror, the German horror, and their cause make us realize as never before the full iniquity of regimes which must be utterly destroyed, no matter what the price. If we are to know genuine peace and security.

We, here on the home front, are given opportunity, a dual opportunity, to do our part against these beastly enemies. The Mighty Seventh War Loan is that opportunity. Support it with bigger and more War Bond purchases. To do so is to help win the war and then to maintain the economic peace by the defeat of inflation. When our boys come home they want to find things as they left them. Set your own quota—then make it.

ROGER W. BABSON

Babson Discusses Stocks, Bonds, Real Estate and Churches

BABSON PARK, Mass., June 1—1. Don't let any possible reconversion slump frighten you. In certain industries there must, of necessity, be some unemployment while switching over from war to peace work; but in most cases this slump will be only temporary. With it there will be a decline in the earnings of some companies but, after a readjustment for excess profits taxes, this should not be troublesome.

2. Don't buy the new low-coupon rate long-term bonds which are now being issued. Money rates will continue low for only a short time. The pendulum always has swung and is going to continue to swing. Many bonds now selling on a 3½% basis will some time again be selling on a 6% basis. Much lower prices for fixed interest securities are inevitable.

3. Don't hold second-grade railroad securities any longer; but now take your profits. This applies to most railroad stocks and certainly to railroad income bonds which are now selling at fantastic prices. Railroad net earnings are headed for a severe postwar slump which will probably last many years.

4. Don't sell the general stock market. The Dow-Jones Industrial Averages will surely sell for more some time during the next 12 months than they do at the present time. This probably also applies to many utility stocks. I am especially bullish on the chain store stocks. I also like some of the convertible preferred which should combine reasonable safety with speculative possibilities.

5. Don't wait too long before buying the land upon which you hope to some day build a home. I don't like big commercial farm properties and am rather scary about city property; but well-located suburban land—both for homes and small farms—should be much higher as soon as building restrictions are removed.

6. Don't forget that inflation is with us and is bound to be more with us during the years ahead. The $25 billions of cash in the pants' pockets, cash drawers and "socks" of the American people, an increase of 300% over prewar figures, will surely cause a postwar stampede for new houses, new furniture and new gadgets of all kinds. When you consider that the supply of good stocks and bonds is even less than it was during prewar days, we are bound to see higher stock prices due to this inflationary situation.

7. Don't get hipped on anything or anybody. Remember every locality, industry, job, home, investment, yes, and religion, has its advantages and disadvantages. Be tolerant and listen to the other fellow. Mix play and work, thrift and spending, friends and enemies, all in proper proportion. The same need for diversification in connection with investments is necessary for one's good character, health, income and happiness.

8. Don't be skimpy on money spent for the education of yourself or your children. If, in the years to come, the shadow of Russia ever falls on the United States, those who are experts in any one subject will have nothing to fear. Hence, the importance of having your children educated and trained to hold some necessary position under all economic conditions.

9. Don't neglect the churches after the war is over. We talk about "fox-hole religion" among the servicemen, but there are many more fox-holes here in the United States than there are abroad. The churches will especially be entitled to your attendance and support after this global warfare has come to an end. See that you then repay the churches for what they are now doing for you and your families.

10. Don't forget that you are going to die some time. Not only take care in making your will, but keep it up to date through the proper use of codicils. Too many people sacrifice their lives by hard work and thrift to accumulate some money; but give almost no thought to how the money is to be used after they go. This means give more thought to the use of forming trusts for your heirs and others. Your local banker will give you good suggestions, free of charge, concerning such trusts.

Sheriff W. H. Lance and Deputy Sheriff Ray Phagen were in Amarillo last Thursday attending a FBI course of instruction for peace officers of this district. The course was conducted by V. Paul Kiehns, FBI district agent in charge of the Dallas district.

Henry Bell of Fort Worth, secretary and general manager of the Texas Cattle Raisers Association, was in Perryton last Friday and Saturday on official business. Mr. Bell had been in Woodward to attend an organization meeting of the Northwestern Oklahoma Cattle Raisers Association. Lee Welch, local field inspector for the TCRA, accompanied Mr. Bell to Woodward.

A STRANGE SORT OF PRAYER

WELL, GOD, here we are.

You up there. Me down here, with a burning sun, a mess of insects, too much ocean, and other buddies just as lonely as me.

Oh, God, how nice it must be back home, with Germany licked, and the folks humming, and some of the Boys all finished with the fighting.

But I guess that wasn't meant for me, was it? And tomorrow and tomorrow I'll still be dodging bullets, still feeling lost in the middle of the night.

Well, no hard feelings.

I'll go wherever You say, and do whatever You want me to. For You know what's best for me.

But say, if You can only get the people back home to remember me, maybe they'll still bear down. Maybe they'll still send us their blood, still stay on the job, still keep making the stuff we need.

You see, God, I'd like to get home, too.

This column usually tells the stories of many Texans each week. Today, however, it will be devoted to just one man . . . a lanky, homespun hero from Farmersville whose courage has won him every existing American medal for valor.

He is 1st Lt. Audie L. Murphy, who won his last decoration . . . the Congressional Medal of Honor . . . by beating off 250 attacking Nazi infantrymen and six tanks, almost single-handedly, during the battle of the Colmar pocket.

Murphy, a boyish-looking 20-year-old, is one of only two Americans who holds every battle honor given by his country. Only five feet three inches tall, the Texas fighting lad who is described by his sister, Mrs. Corrine Burns, as a boy who "always got things done."

"I guess it's because he's so small that he gets around so fast," Mrs. Burns said this week. "He just weighs 135 pounds."

Audie, born on a farm in Hunt county, enlisted in the army at Greenville, where he attended high school. He went overseas 30 months ago and served in heavy fighting in Africa, Sicily, Italy, France and Germany.

The action that brought the young Texan the nation's highest honor began in a foxhole where Murphy was directing artillery fire.

A tank destroyer 10 yards to his rear was hit and abandoned. Murphy clambered onto the machine while it was still burning, took hold of the 50 caliber machine guns, and started spraying German tanks and infantry.

Enemy fire began to center on the Texan silhouetted against the skyline. But Murphy continued to swing his guns until the enemy infantry began to withdraw. The German tanks then started lumbering back.

Murphy was wounded, but refused medical aid, organized his company and pursued the retreating Nazis.

Murphy's sister told a lot about the Texas hero when she said: "Before he left, Audie promised he would do his part in winning the war. I think he kept his word."

Those on the home-front could learn a lot from Audie Murphy's determination to "do his part." If they follow his example, the National War Fund drive in October will go over with a bang. County war chest leaders are now organizing and enrolling workers for their local drives. If citizens all over Texas will quietly determine to "do their part," every county war chest will reach its goal with ease.

A JOINT RESOLUTION

Proposing an amendment to the Constitution of the State of Texas providing for a Supreme Court of nine members; prescribing their qualifications; and providing for their election, tenure of office and compensation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 of Article 5 of the Constitution of the State of Texas be amended so as hereafter to read as follows:

"Article 5. Section 2. The Supreme Court shall consist of a Chief Justice and eight Associate Justices, any five of whom shall constitute a quorum, and the concurrence of five shall be necessary to a decision of a case; provided, that when the business of the court may require, the court may sit in sections as designated by the court to hear argument of causes and to consider applications for writs of error or other preliminary matters. No person shall be eligible to the office of Chief Justice or Associate Justice of the Supreme Court unless he be, at the time of his election, a citizen of the United States and of this state, and unless he shall have attained the age of thirty-five years, and shall have been a practicing lawyer, or a lawyer and judge of a court of record together at least ten years. Said Justices shall be elected (three of them each two years) by the qualified voters of the state at a general election; shall hold their offices six years, or until their successors are elected and qualified; and shall each receive such compensation as shall be provided by law. In case of a vacancy in the office of any Justice of the Supreme Court, the Governor shall fill the vacancy until the next general election for state officers, and at such general election the vacancy for the unexpired term shall be filled by election by the qualified voters of the state. The Justice of the Supreme Court who may be in office at the time this amendment takes effect shall continue in office until the expiration of their term of office under the present Constitution, and until their successors are elected and qualified. The Judges of the Commission of Appeals who may be in office at the time this amendment takes effect shall become Associate Justices of the Supreme Court and each shall continue in office as such Associate Justice of the Supreme Court until January 1st next preceding the expiration of the term to which he has been appointed and until his successor shall be elected and qualified."

Sec. 2. Said proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State on the fourth Saturday in August, 1945, at which election each voter opposing said proposed amendment shall scratch off the ballot with a pen or pencil the following words printed on said ballot:

"FOR the amendment to the State Constitution providing for a Supreme Court of nine members"; and each voter favoring said proposed amendment shall scratch off the ballot in the same manner the following words printed on said ballot:

"AGAINST the amendment to the State Constitution providing for a Supreme Court of nine members."

If it appears from the returns of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published and said election held as provided by the Constitution and laws of this State. 21-4t-c

SENATE JOINT RESOLUTION No. 7

Proposing an amendment to Article VI of the Constitution of Texas providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or the United States Maritime Service, or the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter; providing that members of the regular Army, Navy, or Marine Corps of the United States shall not be permitted to vote; providing that other members of the armed forces shall be entitled to vote under certain conditions; providing the form of the ballot for voting on said proposed amendment; fixing the time for holding an election; directing the Governor to issue the necessary proclamations; and making an appropriation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. There shall be submitted to the qualified voters of the State of Texas the matter of amending Article VI of the Constitution of Texas, by adding thereto a new section which will modify the present restrictions concerning voting. This new section shall be inserted between Section 2 and Section 3 of said Article VI, and shall be known as Section 2a, and shall read as follows:

"Section 2a. Nothing in this Constitution shall be construed to require any person, who at the time of the holding of an election hereinafter referred to is, or who, within eighteen months immediately prior to the time of holding any such election was, a member of the armed forces of the United States or of the Armed Force Reserve of the United States, or of any branch or component part of such armed forces or Armed Force Reserve, or the United States Maritime Service or the United States Merchant Marine, and who is otherwise a qualified voter under the laws and Constitution of this state, to pay a poll tax or to hold a receipt for any poll tax assessed against him, as a condition precedent to his right to vote in any election held under the authority of the laws of this state, during the time the United States is engaged in fighting a war, or within one year after the close of the calendar year in which said war is terminated.

"Provided, however, that the foregoing provisions of this section do not confer the right to vote upon any person who is a member of the regular establishment of the United States Army, Navy, or Marine Corps; and provided further, that all persons in the armed forces of the United States, or the component branches thereof, not members of the regular establishment of the United States Army, Navy, or Marine Corps, are hereby declared not to be disqualified from voting by reason of any provision of sub-section "Fifth" of Section 1, of this Article."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state on August 25, 1945, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the following:

"FOR the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or of the United States Maritime Service, or the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

Those opposed to such amendment shall have written or printed on their ballots the following:

"AGAINST the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or of the United States Maritime Service, or in the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

Sec. 3. The Governor shall issue the necessary proclamations relating to the publication of the foregoing Resolution, in the various counties of the state, and shall cause the same to be published as required by the statutes and the Constitution in connection with the submission of proposed amendments to the Constitution, to the people for their action at a statewide election. If it shall appear from the returns of the election at which the foregoing amendment to the Constitution is voted upon that a majority of the qualified voters have voted for said amendment, same shall then become a part of the Constitution of Texas.

Sec. 4. There is hereby appropriated out of the General Fund of the State of Texas, not otherwise appropriated, the sum of Fifteen Thousand Dollars ($15,000.00), or so much thereof as may be necessary, to pay the expenses of advertising said Resolution in each county in the state and for such other purposes as may be necessary, or required by law, or by the Constitution. 21-4t-c

Remember Japan's home islands have 40 million war workers and that Japan has the free services of 400 million captured peoples. Remember it by buying War Bonds in the 7th War Loan.

Remodeling plans at the Herald office are drawing to the close. We have been operating under many difficulties for some weeks. Our new office supply and stationery store is now open. All of our stock is not in place, but we hope to have it arranged within the next few days. Painters are now giving the newspaper and job printing plant a new dress. Fluorescent lighting fixtures for the office store and shop are here and will be installed soon. When all is complete we are going to have an open house some evening at which time we want you to come in and see what we think is the finest and most modern newspaper plant and office supply store in the entire Southwest. In the meantime, we invite you to inspect our improved setup at any time, we are always glad to have visitors.

The Burk Drug Co. is in the throes of a real honest-to-goodness remodeling. The old fixtures have been removed and modernistic bleached mahogany fixtures are being installed. A new asphalt tile floor has been laid. The new ceiling is of celotex. The walls of the store are to be redecorated. When complete it will be a new store in every way. The store is now open for the filling of prescriptions only.

The Mighty 7th War Loan for 14 billion dollars is the home front's way of saying to the men at the front . . . we're behind you now and in the peace too.

New faces at Ellis', Perryton's beautiful auto supply and electrical appliance store, are those of F. L. "Jockey" Gerard and Jack Steele. Both of these men are well known in Perryton. Mr. Gerard comes to Perryton from Oklahoma City where he has been located for many years with the Sinclair Refining Co. Jockey has visited in Perryton many times in the home of his sister, Mrs. Carl Ellis. In years past, he spent many summers on the Ellis Ranch.

Jack Steele returns to Perryton from Amarillo where he was a member of the Furr Food organization. Prior to going to Amarillo, he was employed by the Ideal Food Co. in Perryton. The addition of these two men to this popular store adds to its reputation as the most complete store of its kind in the Southwest.

War Bonds purchased during the Mighty 7th War Loan will help supply needed supplies to our boys in the Pacific. Do not let them down.

Ed Geymann, advertising manager of the Herald, passed his physical examination last week for induction into the armed services. Ed is 29 years of age, married and the father of three children. His going into service will be a great loss to this newspaper, a country weekly that has already given six regular, highly skilled workers to the armed forces. We just can't see right now how we'll get along without him, but there'll be a way. Ed will make a good soldier or a good sailor. He's got what it takes.

But haven't changed our often stated opinion that we think Selective Service is all "cock-eyed" in their rulings as to essential workers. We still say that there should have been no occupational deferments. Draft all single men first, then married men without children, then the fathers. If this procedure had been followed, we are certain that it would have been unnecessary to have taken few if any pre-Pearl Harbor fathers. Homes were never meant to be broken up by depriving mothers and little children of their husbands and fathers when single men and fatherless married men are deferred on account of occupations.

Kenneth Trosper brought a real curiosity into Perryton the other day. It was a crow's nest made from bits of barbed wire. The nest was 24 inches high and weighted 25 lbs. The crows had built it in a windmill tower. It is on exhibition at the LaMaster Realty Co. office.

Kenneth Kutch left Perryton over four years ago to join the Navy. At that time he was a slender, fuzzy faced kid. He is now home for the first time, no longer a spindling youngster, but a big strapping 200 pound, six-footer man. Kenneth left his ship in the far reaches of the Pacific and flew almost 11,000 miles to get back to Perryton. His mother, Mrs. Lorena Kutch, joined him on the West Coast and they are now visiting in the homes of relatives in this county. We are deeply indebted to Kenneth for the bolo knife he brought us from the Philippines. Kenneth got the weapon from a friendly Filipino. It is now on display at the Herald office.

Lt. Loyd Drake is home on leave after 18 months as a troop carrier pilot in Europe. Loyd is visiting in the home of his parents, Mr. and Mrs. J. F. Drake. He came in Tuesday. With over four years in the air forces, and 18 months overseas, Loyd has piled up plenty of points for a discharge, but "no soap," as few officers and no pilots are being released. He was based in England, Africa and Sicily and was over France, Italy and Germany plenty of times. Loyd has been awarded the Air Medal with two clusters, ETO Ribbon with five campaign stars and the Presidential Citation with two clusters, but when we saw him he wore nary a ribbon or decoration, not even overseas chevrons.

Tribute to Fellow Writer

This is a piece about Fred Painton, the war correspondent who dropped dead on Guam a short time ago.

Fred wrote war articles for Reader's Digest and many other magazines. He even gambled his future once writing a piece for the Saturday Evening Post about me.

Fred was one of the little group of real oldtimers in the European war. He was past 49 and an overseas veteran of the last war. His son is grown and in the army. Fred had seen a great deal of war for a man his age.

He was just about to start back to America when he died. He had grown pretty weary of war. He was anxious to get home to have some time with his family.

But I'm sure he had no inkling of death, for he told me in Guam of his postwar plans to take his family and start on an ideal and easy life of six months in Europe, six in America. He had reached the point where life was nice.

• • •

Fred Painton was one of the modest people: I mean real down-deep modest. He had no side whatever, no ax to grind, no coy ambition.

He loved to talk and his words bore the authority of sound common sense. He had no intellectualisms. His philosophy was the practical kind. He was too old and experienced and too wise in the ways of human nature to belittle his fellow man for the failures that go with trying hard.

Fred didn't pretend to literary genius, but he did pride himself on a facility for production. He could get a thousand dollars apiece for his articles and he wrote a score of them a year. And his pieces, like himself, were always honest. I've known him to decline to do an assignment when he felt the subject prohibited his doing it with complete honesty.

Fred's balding head and crooked nose, his loud and friendly nasal voice, his British army trousers and short leggins were familiar in every campaign in Europe.

He took rough life as it came and complained about nothing, except for an occasional bout with the censors. And even there he made no enemies for he was always sincere.

There were a lot of people Fred didn't like, and being no introvert everybody within earshot knew whom he didn't like and why. And I have never known him to dislike anyone who wasn't a phony.

• • •

As the war years rolled by we have become so indoctrinated into sudden and artificially imposed death that natural death in a combat zone seems incongruous, and almost as though the one who died had been cheated.

Fred had been through the mill. His ship was torpedoed out from under him in the Mediterranean. Anti-aircraft fire killed a man beside him in a plane over Morocco.

He had gone on many invasions. He was in Cassino. He was ashore at Iwo Jima. He was certainly living on borrowed time. To many it seems unfair for him to die prosaically. And yet. . . .

The wear and the weariness of war is cumulative. To many a man in the line today fear is not so much of death itself, but fear of the terror and anguish and utter horror that precedes death in battle.

I have no idea how Fred Painton would have liked to die. But somehow I'm glad he didn't have to go through the unnatural terror of dying on the battlefield. For he was one of my dear friends and I know that he, like myself, had come to feel that terror.

Lt. Dwight Drake With 'Boomerangs'

WITH "THE BOOMERANG BOMBERS" of the First Tactical Air Force, France — Serving with the First Tactical Air Force Marauder "Boomerang Group" in France, 1st Lt. Dwight N. Drake of Perryton, Texas, recently saw "The Boomerangs" fly their 500th mission in a series of six major campaigns which has seen the Marauders' targets move from Africa to Germany.

In continuous combat operations for 23 months, The Boomerangs have destroyed 267 enemy planes, more than any other Marauder group, and have dropped more than 15,000 tons of bombs on enemy targets. Hundreds of air assaults against enemy lines of communications in Africa, Sicily, Italy, France and Germany, combined with joint air-ground operations at Salerno, Cassino, Anzio, the Gothic Line and the Siegfried Line have earned the Marauder men a reputation for exceptional precision bombing. Cited by the war department as a "Distinguished Unit," they have also been awarded the Croix de Guerre by Gen. DeGaulle and the French government for outstanding combat achievements.

A bombardier, Lt. Drake has been overseas since April, 1944, flying combat missions over Italy, France and Germany. He entered the army in April 1942 and before that was a bookkeeper in civilian life.

SUNDAY SCHOOL LESSON

Gospel He Brought Is Significant Of Saviour's Life

The International Sunday School Lesson for June 10
Scripture: The Gospels of Matthew, Mark, Luke, and John with Isaiah 61:1-9

* * *

THE life of Jesus was a ministry. He said concerning Himself: "The Son of Man came not to be ministered unto, but to minister, and to give His life a ransom for many."

In one aspect of that life might be summed up in the saying, "He went about doing good." But that was only one aspect. Jesus was not only a doer of good, a minister bringing help, and comfort.

The significance of Jesus was the Gospel that He brought to men. We call Christian ministers today "ministers of the Gospel," and happy is the church and community that has as its religious leader a true minister of the Gospel, and not just a useful community chore-boy, as I once heard one minister described!

He brought the news of God's grace to men, and of that grace there is no limitation, in its availability, and in its effectiveness. It is of this gospel of the grace of God that the hymn writer has written:

"Its streams the whole creation reach,
So plenteous is the store;
Enough for all, enough for each;
Enough forevermore."

But the Gospel was not only a message, a teaching; it was Jesus Himself. He did not just tell men of the grace of God; He lived it.

He dared, even in the face of His critics, to receive sinners and eat with them. His courage was as sublime as His faith and His graciousness. He who warned His disciples to "beware of men" had no fear of men, or of what men might do to Him.

Christian Science

"God the Only Cause and Creator" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 10.

The Golden Text is: "Thou art worthy, O Lord, to receive glory and honour and power: for thou hast created all things, and for thy pleasure they are and were created" (Revelation 4:11).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The mighty God, even the Lord, hath spoken, and called the earth from the rising of the sun unto the going down thereof" (Psalms 50:1).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "From Love and from the light and harmony which are the abode of Spirit, only reflections of good can come" (page 280).

'Identity Unknown' Is Real Entertainment

"Identity Unknown," playing next Tuesday and Wednesday at the Ellis theatre, stars Richard Arlen and Cheryl Walker, with Roger Pryor, Bobby Driscoll, Lola Lane and Ian Keith in supporting roles.

The story concerns an American soldier back in his homeland after being wounded, suffering from a total loss of memory and out to establish his identity. A few months before four doughboys had been trapped in a house by Germans and he had been the sole survivor. With the bodies mangled beyond recognition, one of the four dog-tags discovered in the debris must bear his name. Going AWOL, Johnny visits relatives of the dead soldiers in an effort to identity himself.

As he briefly enters the lives of the relatives of the other three men, he helps solve their vital problems. Finally he is arrested for being AWOL and learns that the military authorities have discovered that he is a captain who was shot down while flying supplies to the men trapped in the house in France.

New Time Set For Saturday Shows

New Saturday night showing times were placed in effect recently at the Ellis theatre. The first evening show starts at 7:30, the second at 9:30, and the preview show starts at 11:30.

Two Cowboy Favorites In Another Thriller

No matter how tough the spot is in "Trigger Law," western adventure-drama playing this Saturday at the Ellis, Hoot Gibson turns to Bob Steele with the expectation that he will come through with a "smart idea" for getting the adventurous pair out of the dangerous predicament. The rapid succession of "smart ideas" at the crucial moment makes the film tops in surprises.

Mrs. Marion Tucker and daughter of Albuquerque, N. M., left Tuesday after a visit with Mr. and Mrs. L. T. Tucker and other relatives and friends in Perryton. They will join Marion, who is stationed at Fort Benning, Ga.

M-G-M's 'Without Love' Mirthful New Comedy Hit With Superb Cast

Spencer Tracy and Katharine Hepburn are co-starred for the third time in the new laugh hit, "Without Love," playing this Sunday and Monday at the Ellis.

Take a scientist-inventor who much prefers to read a good book than to talk to any woman; and a beautiful girl who wants no more love in her life; add a new high-altitude oxygen mask for fliers which the inventor has been assigned to perfect by the government—and you have the plot ingredients for "Without Love," one of the most laugh-provoking motion pictures you've encountered in many a month.

Both Tracy and Miss Hepburn deliver top-notch comedy performances, in the vein of their previous success, "Woman of the Year." They are most capably aided by a stellar supporting cast including Lucille Ball, Keenan Wynn and Felix Bressart, among others.

Make a date to see "Without Love." It's a picture you're bound to like tremendously.

Lt. Leatherman Enroute Home After Internment

Lt. Glen C. Leatherman, who has been interned in Switzerland, will be home soon, according to a letter received May 23 by his mother, Mrs. C. B. Leatherman, Gray. He had written the letter May 20 from France, and said that he was with a bunch of men who had been German prisoners.

He wrote that he wanted some fried chicken when he got home. Volunteering in the air corps Sept. 26, 1940, Lt. Leatherman left the states last December and was with the 15th Air Force based in Italy. He was a pilot on a B-24 Liberator bomber. His wife received word in April that he was an internee in Switzerland.

John W. Slaughter is Promoted to Sergeant

15th AAF IN ITALY—John W. Slaughter, 26, son of J. M. Slaughter, (NSA) Perryton, Tex., has been promoted to the grade of staff sergeant, it was announced by his group commander, Col. John A. Way, Prague, Okla.

An engineer-gunner on a Liberator bomber, Sgt. Slaughter is a member of a veteran heavy bomb group which has been cited "for outstanding performance of duty in armed conflict with the enemy," and he is authorized to wear the distinguished unit badge. He has been in the army since Nov. 24, 1941, and received his training at Keesler Field, Miss.

Bronze Star Medal To Horton Kinder

Pfc. Horton L. Kinder, son of Mr. and Mrs. W. C. Kinder, has been awarded the Bronze Star Medal for heroic achievement in action. Prior to going into the army, he was employed at Farnsworth. The citation, dated April 5, reads:

Horton L. Kinder, (38344787), Private First Class, (then Private), Infantry, United States Army. For heroic achievement in action on 5 July 1944, near Cecina, Italy. While his company halted one hundred yards short of their objective, Private First Class Kinder, an automatic rifleman, with two comrades went forward to investigate a house which they believed was occupied by the enemy. When the three men approached to within 25 yards of the house, Private First Class Kinder crawled forward while the other two men covered his movements. Cautiously circling the house, Private First Class KINDER paused momentarily under a window and heard German voices coming from inside the room. Rushing to the doorway, he kicked open the door and fired a full magazine of ammunition into the room. After reloading the weapon, Private First Class Kinder entered the room and discovered that he had killed three Germans. He quickly searched the house and then signaled for the company to advance. The courage, skill and will to destroy the enemy displayed by Private First Class Kinder reflect the highest traditions of the Infantry and the Army of the United States. Entered military service from Perryton, Texas."

Red Cross on Luzon

By mid-April there were 200 American Red Cross field and hospital workers on duty on the island of Luzon in the Philippines.

Of the field workers, some 70 task force men offer canteen and recreation service to combat troops, and every infantry division and large army unit is served by field men. Welfare services are available at the more than 90 Red Cross field offices in combat zones, hospitals and base areas.

Nearly 60 trained hospital workers serve in hospitals on Luzon. Fifteen civilian war aid representatives actively support army civil affairs sections in liberated areas in the Philippines.

There are canteen and recreation clubs at all combat air-strips, and 14 mobile canteens to serve combat fliers at Clark Field. Three rest clubs for infantry troops have been established.

Mrs. V. E. West and two children, Borger, spent Memorial Day in the home of her sister, Mrs. H. D. Meadows. Mrs. West recently received word that her husband, who had been a prisoner of war in Germany since November, 1944, has been liberated.

Mrs. Robert Katigan and daughter, Gerrie, Oklahoma City, are visiting her sister, Mrs. Herbert Sanford.

One sacrifices but little in exhibiting good manners, and gains much.

As soon as war time restrictions are removed as to road machinery the Commissioners' Court expects to purchase ample machinery to properly grade and maintain all first class public roads of a width of 60 feet or more.

Less than 60 feet is not sufficient for a proper road right-of-way and notice is hereby given to all land owners to pull their fences back to allow for at least 60 feet for right-of-way, if they expect to have graded and maintained a first class public road.

It will be some months yet before machinery will be purchased but it will take some months for such right-of-ways to be widened by removing fences.

The Court expects to allow $30.00 per mile for moving fence, where fence is to be moved. No other claims or damages are expected to be paid.

'Identity Unknown' Is Real Entertainment

"Identity Unknown," playing next Tuesday and Wednesday at the Ellis theatre, stars Richard Arlen and Cheryl Walker, with Roger Pryor, Bobby Driscoll, Lola Lane and Ian Keith in supporting roles.

The story concerns an American soldier back in his homeland after being wounded, suffering from a total loss of memory and out to establish his identity. A few months before four doughboys had been trapped in a house by Germans and he had been the sole survivor. With the bodies mangled beyond recognition, one of the four dog-tags discovered in the debris must bear his name. Going AWOL, Johnny visits relatives of the dead soldiers in an effort to identity himself.

As he briefly enters the lives of the relatives of the other three men, he helps solve their vital problems. Finally he is arrested for being AWOL and learns that the military authorities have discovered that he is a captain who was shot down while flying supplies to the men trapped in the house in France.

New Time Set For Saturday Shows

New Saturday night showing times were placed in effect recently at the Ellis theatre. The first evening show starts at 7:30, the second at 9:30, and the preview show starts at 11:30.

Two Cowboy Favorites In Another Thriller

No matter how tough the spot is in "Trigger Law," western adventure-drama playing this Saturday at the Ellis, Hoot Gibson turns to Bob Steele with the expectation that he will come through with a "smart idea" for getting the adventurous pair out of the danger-our predicament. The rapid succession of "smart ideas" at the crucial moment makes the film tops in surprises.

Mrs. Marion Tucker and daughter of Albuquerque, N. M., left Tuesday after a visit with Mr. and Mrs. L. T. Tucker and other relatives and friends in Perryton. They will join Marion, who is stationed at Fort Benning, Ga.

M-G-M's 'Without Love' Mirthful New Comedy Hit With Superb Cast

Spencer Tracy and Katharine Hepburn are co-starred for the third time in the new laugh hit, "Without Love," playing this Sunday and Monday at the Ellis.

Take a scientist-inventor who much prefers to read a good book than to talk to any woman, and a beautiful girl who wants no more love in her life; add a new high-altitude oxygen mask for fliers which the inventor has been assigned to perfect by the government—and you have the plot ingredients for "Without Love," one of the most laugh-provoking motion pictures you've encountered in many a month.

Both Tracy and Miss Hepburn deliver top-notch comedy performances, in the vein of their previous success, "Woman of the Year." They are most capably aided by a stellar supporting cast including Lucille Ball, Keenan Wynn and Felix Bressart, among others.

Make a date to see "Without Love." It's a picture you're bound to like tremendously.

Lt. Leatherman Enroute Home After Internment

Lt. Glen C. Leatherman, who has been interned in Switzerland, will be home soon, according to a letter received May 23 by his mother, Mrs. C. B. Leatherman, Gray. He had written the letter May 20 from France, and said that he was with a bunch of men who had been German prisoners.

He wrote that he wanted some fried chicken when he got home. Volunteering in the air corps Sept. 26, 1940, Lt. Leatherman left the states last December and was with the 15th Air Force based in Italy. He was a pilot on a B-24 Liberator bomber. His wife received word in April that he was an internee in Switzerland.

Bronze Star Medal To Horton Kinder

Pfc. Horton L. Kinder, son of Mr. and Mrs. W. C. Kinder, has been awarded the Bronze Star Medal for heroic achievement in action. Prior to going into the army, he was employed at Farnsworth. The citation, dated April 5, reads:

Horton L. Kinder, (38344787), Private First Class, (then Private), Infantry, United States Army. For heroic achievement in action on 5 July 1944, near Cecina, Italy. While his company halted one hundred yards short of their objective, Private First Class Kinder, an automatic rifleman, with two comrades went forward to investigate a house which they believed was occupied by the enemy. When the three men approached to within 25 yards of the house, Private First Class Kinder crawled forward while the other two men covered his movements. Cautiously circling the house, Private First Class KINDER paused momentarily under a window and heard German voices coming from inside the room. Rushing to the doorway, he kicked open the door and fired a full magazine of ammunition into the room. After reloading the weapon, Private First Class Kinder entered the room and discovered that he had killed three Germans. He quickly searched the house and then signaled for the company to advance. The courage, skill and will to destroy the enemy displayed by Private First Class Kinder reflect the highest traditions of the Infantry and the Army of the United States. Entered military service from Perryton, Texas."

Red Cross on Luzon

By mid-April there were 200 American Red Cross field and hospital workers on duty on the island of Luzon in the Philippines.

Of the field workers, some 79 task force men offer canteen and recreation service to combat troops, and every infantry division and large army unit is served by field men. Welfare services are available at the more than 90 Red Cross field offices in combat zones, hospitals and base areas.

Nearly 60 trained hospital workers serve in hospitals on Luzon. Fifteen civilian war aid representatives actively support army civil affairs sections in liberated areas in the Philippines.

There are canteen and recreation clubs at all combat air-strips, and 14 mobile canteens to serve combat fliers at Clark Field. Three rest clubs for infantry troops have been established.

Mrs. V. E. West and two children, Borger, spent Memorial Day in the home of her sister, Mrs. H. D. Meadows. Mrs. West recently received word that her husband, who had been a prisoner of war in Germany since November, 1944, has been liberated.

Mrs. Robert Katigan and daughter, Genie, Oklahoma City, are visiting her sister, Mrs. Herbert Sanford.

One sacrifices but little in exhibiting good manners, and gains much.

"So Sorry..."
no easy victory for Americans"

ALL OUT FOR THE 7th
EVERYBODY! Buy More and Bigger War Bonds

THE Japs have boasted they're ready for a hundred years of war if necessary. And they mean it! It's up to you—everybody—to put out America's might NOW in the Mighty 7th War Loan to show the sons of Nippon that their days are actually numbered. And don't forget, either, that the Mighty 7th is TWO GREAT DRIVES IN ONE—it takes the place of the two drives that were scheduled by this time last year. That means, to do your part, you must buy MORE BONDS and BIGGER BONDS. For never has the need been greater. Mountains of equipment must still be made, shipped across thousands of miles of ocean and sent into battle before the final hour of this war.

When you think you've bought all the War Bonds you can, that's the time to buy *more*.

DIG for AMERICA'S BIG 7th WAR LOAN

As soon as war time restrictions are removed as to road machinery the Commissioners' Court expects to purchase ample machinery to properly grade and maintain all first class public roads of a width of 60 feet or more.

Less than 60 feet is not sufficient for a proper road right-of-way and notice is hereby given to all land owners to pull their fences back to allow for at least 60 feet for right-of-way, if they expect to have graded and maintained a first class public road.

It will be some months yet before machinery will be purchased but it will take some months for such right-of-ways to be widened by removing fences.

The Court expects to allow $30.00 per mile for moving fence, where fence is to be moved. No other claims or damages are expected to be paid.

Agricultural Leaders Urge Farmers to Buy War Bonds to Help the Farmers Win the Peace

WASHINGTON, D. C.—The Secretary of Agriculture and the heads of the nation's leading general farm organizations today urged the farmers of America to "buy bonds to the limit" in the 7th War Loan. They see in war bond investment "a chance for farmers to win the peace for themselves and their families, while making a substantial contribution to an early victory over Japan."

In spite of the busy season on farms, the agricultural section of Treasury's War Finance Division expects a half million farms to drive down every country road and ask their neighbors on six million farms to buy bonds. Though this campaign comes at an off season for farm income, war finance officials point out that at this time farmers do have money with which to buy bonds. They estimate that farm bank accounts are 3½ billion dollars in excess of the amount farmers need for current operations. Much of this money farmers will need to repair and replace buildings and equipment when materials are again available. Invested in war bonds, this cash backlog will help win the war now and will assure the farmer of funds to put his farm in efficient operating condition after the war.

"I am sure that in this Seventh War Loan Drive the farm people of America will match or top the fine record they have achieved in previous campaigns," says the secretary of agriculture.

"They know that the cost of waging this full-scale war in the Pacific is tremendous, whether viewed in terms of the lives, hardships, and suffering of our fighting men, or in terms of money or food. Aside from the production of food, the greatest contribution rural people can make to the war is the purchase of bonds. This not only helps to win the war but it also helps farm families to build a financial reserve for postwar needs.

"Farm people, like many other groups, have more money on hand or on deposit now than ever before in history. To invest that money wisely will make our country stronger later," concluded the secretary.

A. S. Goss, master of the National Grange declared: "Every time we buy a bond we are not only assisting in financing the war, but we are also doing our bit to prevent that most dreaded economic disaster called inflation. If each one of us would invest as much as we could in government bonds, the danger of inflation would be greatly reduced."

Edward A. O'Neal, president of the American Farm Bureau Federation said: "It is the patriotic duty of our farmers to back our fighting men in the Pacific and our government with purchases of war bonds as well as by increasing food production. Investing in war bonds now will help bring the war to a victorious conclusion at an earlier date than would be possible without the vast sums needed for procuring over-powering equipment and supplies. The purchase of war bonds is a wartime duty but is also an investment in safeguarding the future and preventing inflation. There always is a need for farm financial reserves. Funds invested in Seventh War Loan bonds will create a reserve for the purchase of machinery, repair of buildings, education of farm children, and numerous other benefits in years to come."

"Buying war bonds in the Seventh War Loan is an obligation and an opportunity," says James G. Patton, president of the National Farmers' Union. "It is the patriotic duty of every American to put his dollars into this fight where they will buy the equipment that will speed the final victory and save the lives of our fighting men. But in buying war bonds, farmers also have the opportunity to save for the future and prevent the disastrous inflation-deflation cycle that followed World War I. In the long run no group suffers more from inflation than farmers."

Sgt. Victor Nowlin at Air Depot in France

AN 8th AIR FORCE SERVICE Command Station, France — Sgt. Victor R. Nowlin, son of Mr. and Mrs. Charles S. Nowlin, Booker, Texas, is among the personnel at this strategic air depot who have been commanded by Lt. Gen. James H. Doolittle, commanding general of the 8th Air Force, for "the hardships and trying conditions," under which this base, the command's first on the continent, has operated.

The depot serves as a re-fueling point, a supply and repair base, and as an alternate landing field for bombers and fighters returning from long missions over Germany. More than 600 combat aircraft have been repaired and re-serviced and returned to the United Kingdom since shortly after D-Day. This has minimized replacements and permitted a greater number of new warplanes to be sent to other theatres.

Sgt. Nowlin, who aids in the pre-flighting of planes, is a graduate of Perryton high school, and was engaged in farming and the maintenance of farm equipment prior to entering service in January, 1942. He has completed almost two years service overseas in France and England.
