Fifty-Seventh Year Number 46 | Serving the People of Garza County | Wednesday. November 30, 1983

Basquez, Johnson Honored by 4-H

Thirty-nine outstanding members of 4-H clubs across the South Plains were honored Monday night, November 21, in Lubbock at the Coronado High School Cafeteria.

Honored from Garza County were Diana Basquez, daughter of Mr. and Mrs. Prudencio Basquez and Mike Johnson, son of Mr. and Mrs. Wendell Johnson, all of Post.

Diana Basquez and Mike Johnson.

Joining the youths and their parents at the awards banquet were government officials, Extension leaders, fellow 4-H'ers and educators.

In addition to receiving the Gold Star Award, the highest honor presented at the county level, the youths were urged by State Senator Bill Sarpalius to dream dreams of achievement and then set about making those dreams reality. "We live in a great country. We have more to be thanksful for than anyone else in the world. Yet we take so much for granted," Sarpalius said.

The state senator said he was concerned about the decline in American family life as evidenced by an increasing divorce rate, our lack of support for our churches, an increasing crime rate and other problems. But he said we are fortunate to have organizations such as 4-H clubs, celebrating their 75th anniversary this year, to give youngsters the opportunity to learn by doing and develop leadership skills.

He told of hearing former President Lyndon B. Johnson tell a group of youths visiting Washington to dream dreams and then make those dreams come true. "I realized that was the purpose of America", Sarpalius said, to provide a place where that can happen.

Master of ceremonies was Dr. Kary Mathis, Chairman of the Department of Agricultural Economics at Texas Tech University. Guests were welcomed by James Hull, General Manager of the Deaf Smith Electric Cooperative, one of 12 electric cooperatives which have sponsored the banquet for the past 26 years. The others are Bailey County, Caprock, Dickens, Lamb, Lea, Lighthouse, Lone Wolf, Lyntegar, Midwest, South Plains, and Swisher cooperatives.

The awards presentations were narrated by Earl Broseh of Lockney, chairman of the district 4-H council, and Chris Caddel of Lubbock council vice-chairman. The awards were presented by Dr. Catherine Crawford and Billy C. Gunter, District Extension Directors.

Dinner music was presented by Kenley Powell, Yoakum County 4-H'er. Also on the program were 4-H members Bryan Shaw of Gaines County, Sharla Blay of Terry County and Kayla Gentry of Dawson County.

4-H is the youth development program of the Texas Agricultural Extension Service, an educational arm of the Texas A&M University System.

These guys need food for energy.

We need fuel to make electricity.

A lot of people use electricity and don't know where it comes from. It takes fuel to make electricity. Just like we need food for energy.

Once upon a time, fuel choice was simple for Southwestern Public Service Company because our service area includes some of the largest natural gas fields in the country.

Now, over half of your electricity is produced from coal. **Coal is abundant,** and electricity produced from **coal costs much less** than electricity produced from natural gas.

Doing everything we can to keep costs down is another way we're . . .

Raw electricity.

SPS uses natural gas and coal to make electricity.

Twin Cedar News

By Tina Perez

It has been one busy and crazy week.

To start the week on Monday we had a game of Bingo and our winner was Irene Wheeler. Her prize was some candies. Then later that evening we had an exciting game of Trash Ball and everyone just had a great time.

On Tuesday, we had a reading class that was given by a new volunteer. Everyone enjoys her coming to spend time with us.

Wednesday, we had sing along, visiting and also our sewing club. The residents got to paint and sew. That evening to close the day, the Senior-ettes came and did a great performance. Everyone said that Mr. Pitman and Mrs. Ramsey just sang their little hearts out and that is really good to see.

Thursday we had a great game of ball, exercise and films. We thank Virginia Babb for coming to show us films and while watching films we had some ice cream and everyone enjoyed themselves.

Friday we played ball and bean bag toss. We all enjoyed the week out together.

We thank the Trinity Baptist Church children for coming and performing a puppet show for our residents. They all said it was very good.

We also thank the Presbyterian Church for coming. The residents all said it was very good and they enjoyed it.

To close our news for this week we would like to thank all our visitors, Hollis and Estelle Thornd, Shirley Turbyfill, Darling and Priscilla Garcia, Carolyn Ledbetter, Nick Flores, Jewell White, Mary Goodwin, and Winona Ward all of Post. William and Ruth Young and Glenn Roberts all of Lubbock. We thank them all and everyone else who has come to visit and we hope to have more.

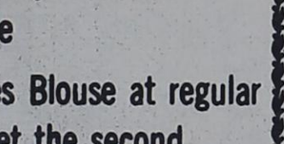

Thought for the week: If you love someone tell them.

FESTIVE FUN WITH FRUITY HOLIDAY DRINKS

Many folks, young and old, are pleased to know that there's a variety of delicious beverages available to toast all the holidays with nary a drop of alcohol.

An array of delicious drinks can be prepared to suit almost any occasion, using as a base the fruit-flavored Frost Drink mixes. They're from Libby, and you'll find them in the fresh produce section of the supermarket in such taste-tempting varieties as banana, pineapple and orange.

So raise a cup to toast any and all of the holidays with these delicious recipes:

Fresh fruit teams with frost beverage mixes in these delicious non-alcoholic holiday drinks.

Protect Your Credit Cards

A booming business in bank credit card fraud means consumers need to be careful about credit purchases during the hectic holiday shopping season. The most common fraud is unauthorized use of a lost or stolen card. Counterfeit cards, the theft of card blanks and card numbers obtained through telephone orders are used in more sophisticated frauds. In most cases, the key to fraudulent use is access to the card or the card number.

To protect credit cards, consumers should take the following steps:

— When shopping, be careful about the carbons on charge slips since they can be used to change amounts on the charge slips. Make sure the sales person removes the carbon after the slip has been signed, or remove it yourself along with the customer's copy.

— Avoid giving your credit card number over the phone if at all possible.

— Keep all charge slips so you can check your statement to make sure each charge is legitimate. If some are fraudulent, call the card issuer immediately.

— Know the law. You are liable only for the first $50 charged to your account by an illegal user. You do not have to pay for any unauthorized charges made after you notify the card company of loss or theft of your card. So if you act quickly enough, you may not have any loss.

— Keep a credit card register listing all your credit cards, account numbers, and the address or telephone number of who to notify in case of loss or theft. Keep this list in a safe place, such as a safety deposit box.

— Carry with you only those cards you need. For example, don't carry a department store credit card unless you intend to shop there. Leave a list of the cards you have with you at home.

Some consumers buy credit card insurance which may be unnecessary if they will take reasonable precautions. With the $50 liability limit, the cost of insurance can be greater than any loss you might have from faudulent use of your card.

Registration Set Jan. 10

Registration for spring semester classes at the Crosbyton extension center of Western Texas College will be held on Jan. 10 in the school administration building. Classes will begin Jan. 18.

Courses on the spring schedule are English 132 and Government 232.

All classes meet during evening hours one night per week.

Persons wishing additional information about the Crosbyton center are invited to call Jerry Scott at 675-2611 or Dr. Wendell Jones at WTC in Snyder, 915 583-8511.

SUCCESSFUL VOLUNTEER DEVELOPMENT

The development of successful volunteer leadership depends on seven basic steps: identifying people with needed skills and attitudes, selecting people for specific positions, orienting them so they know what is expected of them, training them properly, using them properly so that they have an opportunity to function, recognizing sound performance, and evaluating performance and providing feedback. Volunteer recruitment should be on a personal basis and should relate to specific jobs and needs.

USDA secretary blasted by Growers

Weather-ravaged High Plains cotton producers are urgently protesting the latest blow to their chances for economic recovery, this one from Agriculture Secretary John Block and company.

At issue is a recent "notice" to county Agricultural Stabilization and Conservation Service (ASCS) offices which reduces the 1983 floor under farm payment yields from 90 percent of the yield for the previous year to 80 percent of the previous year's yield in 1984.

The change, note officials of Lubbock-based Plains Cotton Growers, Inc., will result in a significant loss of yields and potential deficiency payments on the High Plains where yields already are low after repeated crop disasters in recent years.

PCG President Tommy Fondren of Lorenzo, recognizing that the Administration needs a high level of participation in the 25 percent voluntary acreage reduction program for 1984, stressed that point in a November 15 letter to Secretary Block. Current low yields, Fondren said, will make it even more difficult to get producer participation in a program already under widespread criticism.

Calling attention to the high cost of the 1983 program, Fondren cautioned the Secretary that if early 1984 USDA acreage estimates indicate a potential for rebuilding a large surplus, ". . .this administration, Congress, USDA and producers will feel the displeasure of the taxpayer." And, he continued, "We feel this additional 10 percent reduction in payment yields will encourage overproduction."

Under current instructions county ASCS offices will use actual farm yields for the previous five years, 1979 through 1983, to figure 1984 payment yields.

If the county committee determines that the yield in the lowest of the five years was the result of a disaster, that year will be dropped and an average of the other four will be taken. This "high four" average will be substituted for any of the actual yields of the last three years that fall below that average. Then the 1984 payment yield will be set at the larger of (1) the adjusted average for the last three years or (2) 80 percent of the farm's 1983 payment yield.

The same procedure was used in 1983 except that a minimum of 90 percent of the previous year's payment yield was used. Thus producers who have suffered recent disasters will be subject to a 20 percent yield reduction in 1984 instead of the maximum 10 percent reduction that was in effect for 1983.

This effectively reduces potential producer income, Fondren points out, which will serve as a disincentive to farm lending agencies in a program already devoid of incentives.

"The severity and frequency of our weather disasters in recent years is an obvious abnormality and should be treated as such," states PCG Executive Vice President Donald Johnson. "So we are urging the Secretary to use his authority to rescind the arbitrary lowering of the 1984 minimum from 90 percent to 80 percent of 1983 yields."

Elderly Tax Break

A taxpayer aged 65 or older may take advantage of a special type of property tax relief — deferred payment of delinquent taxes on his homestead — by filing a sworn affidavit at the office of the appraisal district in which he lives.

If a lawsuit has already been initiated to collect delinquent taxes on the elderly taxpayer's homestead, an affidavit asserting age and ownership of the property must be filed with the court in which the suit is pending.

According to Kenneth Graeber, executive director of the State Property Tax Board (SPTB), the Texas Property Tax Code provides that, after an "over 65 tax deferral" affidavit has been properly filed, taxing units may not press or initiate delinquent tax suits on the homestead involved as long as the applicant owns and resides at that property.

Graeber said that forms for the deferral affidavit are available from appraisal district offices. The form should be completed and signed by the applicant and his signature witnessed by a notary public or other official authorized to take oaths.

'Lopes aim at Bearcats for Quarterfinals

By Wes Burnett

The 1983 Post Bold Gold Antelopes broke a Post High School record last Saturday night when they brought home the Regional Championship trophy after whipping Crane 33-11 in Big Spring.

No other football team in PHS history had won more than the Area Championship until this year.

Last year's championship team lost a heart-breaker at Snyder to Stamford in the Regional contest, but it too broke school records in the team's best season record of 12 wins and one loss.

The 1983 Antelopes have tied that won-loss record at 12-1 and now take on the Ballinger Bearcats for the Quarterfinal Trophy in Sweetwater this Friday at 7:30 p. m.

The win last Friday in Big Spring silenced any questions about how good this young team is, as the Antelopes took control of the football game from the beginning.

Although the Golden Cranes were bigger, they were no match for the quick-hitting and speedy Antelopes, who shut down the Cranes on their first possession, then marched to the end zone in seven plays to set the stage for the night.

Coach David Thompson and the coaching staff did an excellent job of preparing the team as the Antelopes looked crisp and sharp on offense and defense.

The 'Lopes play from scrimmage fooled everyone, as quarterback Joel Kirkpatrick faked a handoff to Milton Williams, then dropped back and let fly a long pass to Charles Johnson who had zipped past a defender toward the end zone, but was unable to hang onto the ball.

Tracy Price then got the call over left tackle to the Crane 41, picking up six yards.

Williams showed his stuff over left tackle, ripping down to the 20, then took a quick pitch around left end the six and followed Felix Bustos' run to the two over right tackle to the end zone.

The Antelope offensive line controlled the action up front.

Chuck Morris' extra point kick sealed the drive.

Crane mounted its only serious drive of the game after the kickoff, managing to get the 19 yard line before settling for a field goal.

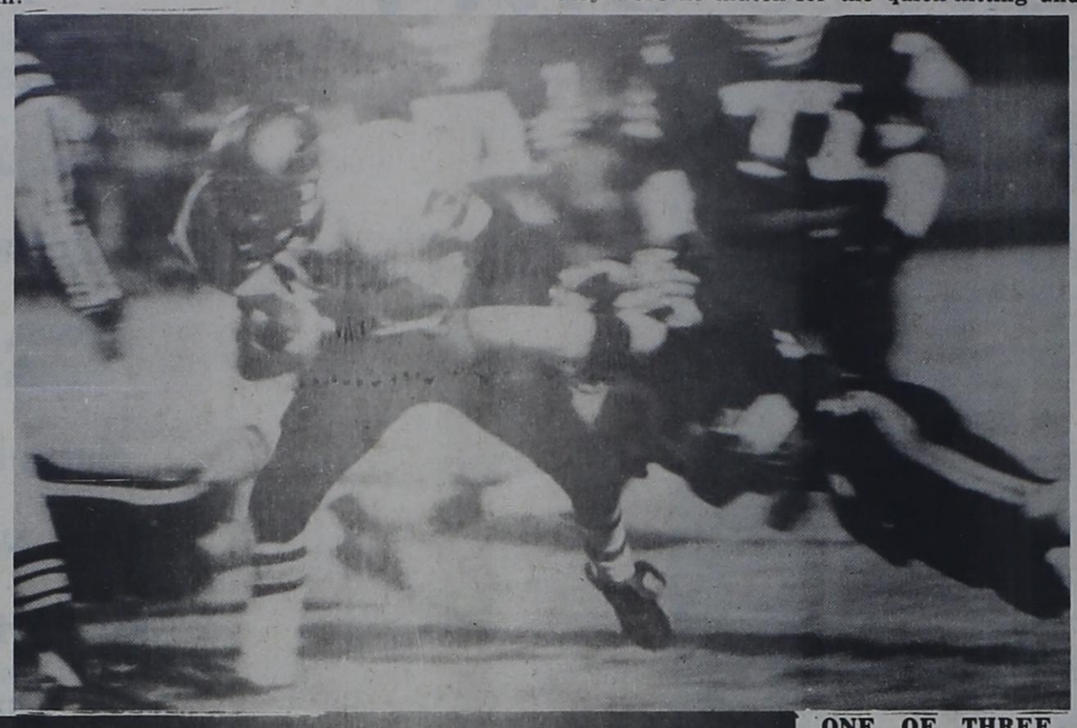

Some of the outstanding defense on the final four downs inside the 20 included David Shults, James Brown and Rodney Hays.

The second quarter opened up with the 'Lopes ramming to the Crane 26 before running out of downs.

Felix Bustos then took the Crane punt on the Post 36 and returned it to the Crane 22, and a face mask penalty on Crane set the ball at the 16.

Two plays later Williams broke three tackles on the way to the end zone from the 13 and after Morris' kick the 'Lopes led 14-13.

Well, the countdown to Christmas has started. Some folks never stop counting: one Christmas is always just 365 days from the next.

Most of us have discovered that waiting is the hardest thing in life: the wait for a doctor to finish her surgery, the wait for papers to be graded, the wait for a late child to arrive at the door, the wait for a child to be born.

"The fact that we wait for something shows that in some way we already possess it. Waiting anticipates that which is not yet real. If we wait and hope in patience, the power of that for which we wait is already effective within us. He who waits in an ultimate sense is not far from that for which he waits." The words of Paul Tillich.

The Presbyterians of Post are gathering every Sunday morning at 11:00 to wait. On God. To believe that He can be fully trusted, waited upon, and celebrated as He comes near." We invite you to join us all the Sundays this month to share a time of great expectations.

"Cast out our sin, and enter in;
Be born in us today."

The Cranes began to move the ball, picking up two quick first downs, but on second down quarterback Todd Rogers was trapped at the 37 by Shults, Gilbert Perez and R. J. Greathouse for a six yard loss, setting up a third and long situation.

Rogers dropped back to pass, got strong pressure by the Antelopes defensive line, and threw the ball downfield as Curt Greer stepped up to intercept it at the Crane 45, then raced down his right sideline behind team blocking for a touchdown.

With 1:02 left in the first half, the Antelopes led 20-3, and went to the lockers with a comfortable lead.

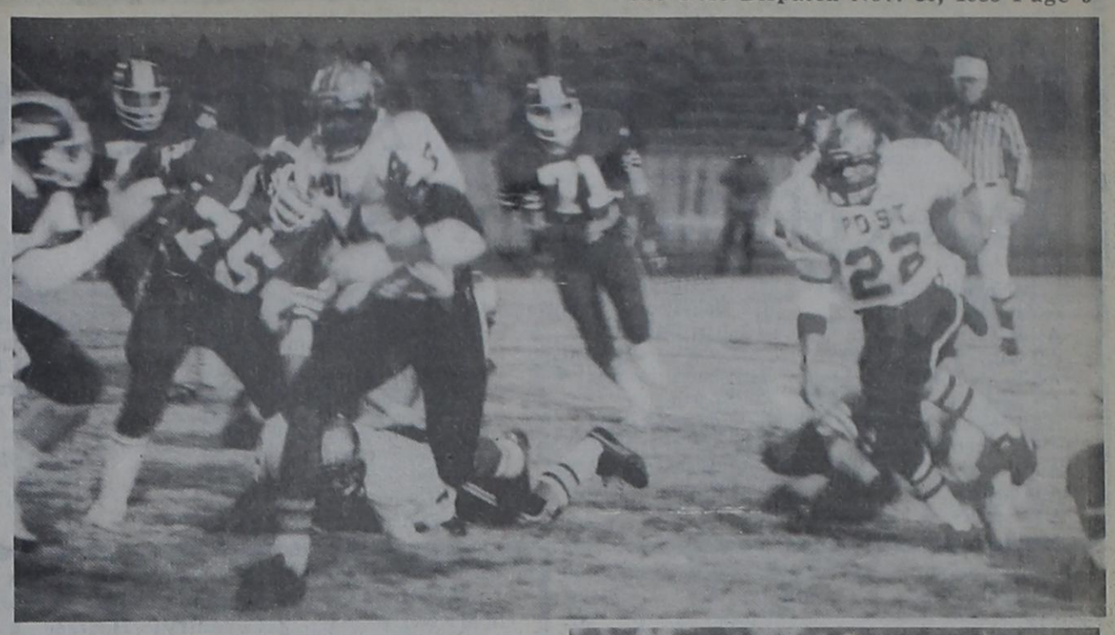

Early in the fourth quarter the 'Lopes sealed the game away following an eight play, 34 yard drive which started with 2:39 left in the third quarter.

Giles Dalby and Bustos each ripped off yardage inside the 20, as Williams carried six times and got the final yard from the one behind blocking by James Mock, Keith Osborn, L. D. Harper and Dalby.

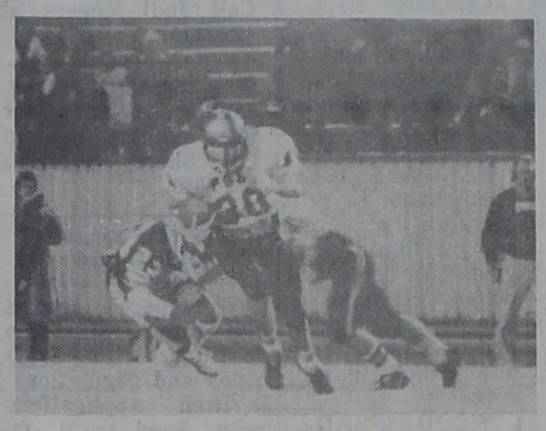

Leading 27-3, the 'Lopes held the Cranes in check most of the fourth quarter, but gave up a meaningless touchdown with 2:25 left in the game.

The final 'Lope score came with 1:23 left, as reserve running back Michael Ollison broke through the secondary over right tackle at the Crane 38 and out ran the defense to the end zone.

The extra point attempt was muffed on a bad snap as holder Ricky Moore tried to turn the play into two points, but was stopped short of the end zone.

'Cats like to throw football

By Wes Burnett

"Ballinger has a good football team, coach Randy Allen and his staff do a good job and they have a good program," Antelope coach David Thompson comments about this Friday's opponents for the Quarterfinal Championship contest to be played in Sweetwater.

The Antelopes will be the home team, with the opening kickoff set for 7:30 p. m.

"We expect it to be a good football game," Thompson added.

The Bearcats are led by 155 pound senior quarterback Aaron Keesee, who stands 6'2" and throws the football with outstanding precision.

His primary receivers are (24) Matt Allen, a 170 pound senior wingback; (82) Craig Teplicek, 160 pound senior tight end and (84) Kirk Francis, a 145 pound junior end.

Eddie Galvan, (42) 150 pound junior fullback and Brent Brevard (14), 145 pound junior tailback, are primary runners.

"The Ballinger linemen do an excellent job of protecting Keesee," Thompson reported.

Defensively, the Bearcats use a 5-2 alignment with nose guard Richard Villareal (72), 195 pound junior; linebackers Scotty Zertuche (68), 155 pound sophomore and David Ueckert (55), 150 pound junior anchoring the line.

Keesee and Allen provide the secondary coverage.

Last Friday night Ballinger surprised Littlefield with 18 points in the fourth quarter, coming from behind twice.

The final touchdown followed a Littlefield score with 1:43 remaining in the Regional contest.

The Bearcats took the kickoff, and marched from their 30 yard line to a touchdown, going the 70 yards with no huddle and no time-outs, striking with passes to Allen, Francis, and Teplicek.

Littlefield went into a "prevent" defense and gave up the short passes, which Ballinger took effectively.

The final pass went to Allen in the left end zone corner, leaving Littlefield with 24 seconds to try for a comeback.

The Bearcats won 18-16.

"We will have to put pressure on the quarterback," Thompson observes, and "cover their receivers."

The winner of the Region I Quarterfinal will play the winner of the Daingerfield and Gladewater Region II Quarterfinal Contest.

Winners & Losers

By Donny Crowson
Graham Chapel UMC
Ministerial Alliance

In sports, there is always a winner and a loser. A lot of times that is sad; none-theless it is a fact. Consider this. In pro football they play an overtime period which ends when one team breaks the tie. In basketball they play overtime periods until one team has won. There always seems to be one team that comes up short.

We can use the same analogy of winners and losers when talking about life. However, in life, there need be NO LOSERS! Jesus said: "whoever wishes to find life shall lose it." He also said: "he who has lost his life for My sake shall find it." That may seem confusing. What Jesus has said here is in order to have life we must be willing to give up our old nature and let God have His way in our lives.

When we make that decision we have life. For it was Jesus who won the war. And it is Jesus who will fight our battles for us.

The apostle Paul understood the battle or fight the christian is in. He knew what it was like to be on the front lines of battle.

Near the end of his life, Paul wrote in a letter to his beloved son in the faith: "I have fought the good fight, I have finished the course, I have kept the faith; in the future there is laid up for me the crown of righteousness, which the Lord, the righteous Judge, will award to me on that day . . 2 Timothy 4: 7, 8.

You see, Paul knew the victory that is ours in Jesus. Therefore, there need be no losers. For Jesus came to give us life and that, in abundance.

"Lord, Teach Us to Pray . . ."

Pastor Steve Traw
First Christian Church

Many today within the body of Christ proclaim prayer to be their new-found blank check. It is that area of Christian practice that guarantees the product. It is not so much what one desires but how one voices that request heavenward.

The very words of man become the talisman, the formula for unlocking heaven's storehouse. Quite apart from a search for God's will, the magical murmuring seems to leave no room for an all-wise and Sovereign Lord.

The Lord did instruct his eleven remaining disciples in the upper room, that anything you ask, He will accomplish. Anything. But that asking is in His name. And the context of the instruction of John 14 had not been prayer but revealing Christ and the Father to a world that was about to see the beginning of the church age.

Later that same evening the Lord addressed His same chosen audience. Ask whatever you wish and it shall be done. Whatever we wish, but the promise is conditional. It is granted not to those who can claim it with the proper formula. It is for those who abide in, remain in Christ. That abiding is shown by the greater context of John 15. Those in Christ are proven by their abundant fruitbearing.

Prayer becomes a time of seeking God. It is coming to the Lord who knows our needs better than we are able to know them. Prayer can be a time of agonizing pleading before God as Jacob fought at the ford of Jabbok. Here Jacob's name became Israel, meaning one who fights or persists with God.

Prayer as with Jacob at Penuel, is a time of meeting God face to face. So with us it should be a time of humble reverent ascent to the Sovereign Lord. And in prayer, remembering He sought us, chose us, even while we were yet sinners quite aware of our need of divine grace.

May we temper our requests even as Christ taught his own how to pray, Our Father, May thy will be done.

Worship service hour held in usual manner with officers at their Post of Duty.

Sunday school lesson subject "God's Witnessing People" from Matthews 5: 13-16, Matthew 28: 18-20, 2 Corinthians 5: 18-21 and 2 Timothy 4: 1-2.

Devotion hour conducted by Deacon Willie Burleson, Sister Callie Harper reading entire 23 Psalms.

Altar call truly spiritually prayed by our pastor who poured out his heart and soul. The choir at the Post of Duty sung to the sweet Saviour.

During the 11 a. m. service, Rev. Kelly delivered a wonderful message from Hebrews chapter 11 verse 1. His theme was "We have come this far by faith." Rev. truly preached his heart and soul to the sweet Master. God truly was in the midst. God is not through with us yet. Let's pray for one another always.

A thought: Keep your hands in God's hands. He will not forsake his children. His mysterious ways.

For spiritua help you may write or call Rev. Arthur Kelly 415 N. Ave. F, or (806) 495-3192, Post, Texas 79356.

8th Grade Girls Outlast Idalou

In their second outing of the young season, Coach Lu Allen's eighth grade girls won a close one over Idalou there Monday night 22-21.

Tied six all at the end of the first period of play, Post added 10 more in the second quarter with Idalou having difficulties and only hitting for three.

Following the intermission, Post went a little cold and could only manage four points with Idalou finding the mark for 10, but Post added one more than Idalou in the final period with two and the hosts only one.

Christina Martinez was high point for the locals with 12, Trina Williams had eight and Jennifer Owen scored two.

Coach Allen said her girls played well the first half, but got into foul trouble early. The girls held their poise and had some good breaks at the end of the game in order to squeeze out the victory.

Other team members playing included Keitha White, Tammi Braddock, Teresa Lofton, Terisa Willborn, Shan Bell, Jayta Ticer, LaDonna Scott and Hattie Dorsey.

The girls will play in the Jayton Tourney beginning Thursday at 12:30 against McAdoo and if they win that game, will advance to the winners bracket and play again at 12:30 Saturday, but if they lose their first game, they will play again Friday at 12:30.

Advertisers Need Frequent Reminders from Customers

The interesting thing about advertising is that no matter how successful a business might be, if the advertiser doesn't hear frequently from customers that they saw the ad, faith in advertising slips away.

We want the readers of The Post Dispatch to clearly understand the importance of their patronage to our advertisers...and the critical need for our advertisers to hear from our readers that "we saw your ad in the Dispatch."

Those few little words are reminders to the merchants that advertising does pay.

Newspapers survive or thrive in direct relation to advertising volume.

And advertising volume is in direct relation to the response merchants get from their customers as a result of advertising in the Dispatch.

We are asking our readers to be aware of the fact that their community newspaper can only serve as well as its advertising volume allows.

It may sound silly, but if you want to say thanks to us for producing a good newspaper, we'd much rather have you tell our advertisers...they are the ones who pay the bills.
