NEW YORKER TO MAKE FILM OF BACK AREA

PICTURE TO BE GIVEN IN CONJUNCTION WITH CAVERN FILM

CARLSBAD, N. M. (Special)—Explorations of the "Four Corners", where four states meet, will be started by Frank Ernest Nicholson when he has completed his work in the Carlsbad cavern, he said this morning.

Nicholson conferred recently with Governor R. C. Dillen on his plans.

Area Unknown
The New Yorker explorer and author said that large areas of this section are unknown to civilization. He plans to spend three months in the "Four Corners" exploration and to take in this back country of the Navajo, the first motion picture in which real, and not stage, Indians will do all the acting. The picture will be titled "Navajo".

"I have had in my mind for some time the idea of taking this picture of the Four Corners country," said Nicholson. "The picture should create a great deal of interest, and I still have many details to work out in preparation for it. I have not yet decided whether to begin work north of Gallup or northwest of Shiprock. It is a difficult country to negotiate, but the governor knows much about it and he has offered valuable suggestions. The picture will be produced in conjunction with our cavern expedition picture." Nicholson expects to complete his work in the cavern with the next six weeks.

AUSTIN, March 13. (P)—By a one vote margin the senate today amended the house resolution proposing the adjournment Saturday to fix the final quelling date March 20, when the 30-day constitutional period ends.

However, the proposition was left swinging in mid-air when Senator C. C. Small, of Wellington, who voted for the amendment, moved to reconsider and spread on the Journal and gave notice he would call up the resolution tomorrow.

WACO, March 13. (P)—Lee Whitley, barber, today was assessed a 28-year prison sentence by a jury which convicted him of slaying Sam Kuss, restaurant owner, last January.

Cotton Acreage Limitation Bill Given Approval

(By Associated Press)
AUSTIN, March 13.—The house committee on agriculture last night gave its unanimous approval to the bill of Representative J. D. McDonald of Wavahatche to limit by law the cotton acreage of Texas to sixty per cent of its cultivated area.

The bill would place a fine of \$25 per acre on each acre planted above the legal limit by either tenant or landlord. For tenants who plant more than the limit without knowledge of the landlord, a fine of not less than \$10 nor more than \$500 would be assessed.

The bill would provide for crop rotation and diversification to promote the elimination of cotton plant diseases and to preserve soil fertility.

CHARGES AND COUNTER-CHARGES FLY THICK AND FAST AS DRY AND WETS CONTINUE WRANGLE ON PROHIBITION

Charges and counter-charges, some of them sensational, continued to fly thick and fast today as proponents and opponents of prohibition carried on their bombardment.

From the nation's capital, where the House Judiciary committee is holding a dry-law investigation from New York, where a bar association has begun an assault upon the Eighteenth amendment, and from Chicago, where crime wages at its highest, the testimony was offered in efforts to defend and attack the liquor situation.

RAIL SERVICE PLEA OF WEST TEXAS HEARD

TWO PROPOSED LINES IN LIMELIGHT AT WASHINGTON

WASHINGTON, March 13.—Opposing attorneys today presented to the Interstate Commerce commission final arguments before the commission decides upon a proposal of the Frisco and Rock Island railroads to open a new line into rich farming territory in northwest Texas and Southwest Oklahoma.

Under plans which would connect Dallas and Fort Worth with these agricultural districts, the Frisco would lease or buy the Gulf Texas and Western, running from Jackboro to Seymour. From Seymour to Vernon it would build its own lines and from Jackboro to Fort Worth it would operate over the Rock Island lines. It also would operate under trackage rights over the proposed new Rock Island line from Beaver Creek to Quanah.

Opposed by the Burlington and Santa Fe lines, M. G. Roberts, general solicitor of the Frisco, and Ben F. Cain, counsel for the Gulf Texas and Western, urged approval of applications. The latter, however, took issue with a recommendation of the commission examiner that the Frisco should not pay more than \$1,800,000 for the Gulf, Texas and Western.

YATES, WEST TEXAS PLAN RE-OPENED

Blackmer, now abroad and sought as a witness, to return to this country.

SERGIEVSKY, WITH 143.3 MILES PER HOUR, GIVES SEAPLANE MARK TO U. S.

NEW YORK, March 13. (P)—Another world's record air speed record was brought back to the United States today when Captain Boris Sergievsky sent his loaded Sikorsky seaplane roaring over a 100 kilometer course off Long Island sound at 143.3 miles an hour.

The old world mark for seaplanes carrying a useful load of 2,000 kilograms (4,402.24 pounds) was held by Richard Wagner, of Germany, with a speed of 130.1 miles an hour. Captain Sergievsky previously had beaten this mark by two miles an hour, but a new speed record to be official must exceed the old by at least five miles an hour. Captain Sergievsky's record exceeds the old mark by 13.2 miles.

DOHENY EVIDENCE IS OPENED

DOCUMENTS IN BRIBERY CASE ARE PRODUCED

GHOST OF HARDING IS SEEN AS HEARING IS OPENED

WASHINGTON, Mar. 13.—After counsel had outlined prosecution and defense contentions in the bribery trial of Edward L. Doheny, wealthy oil man, today, the government began the introduction of documentary evidence, among it being the order by President Harding in 1921 placing jurisdiction of Naval oil reserves under the Navy and Interior departments.

Government efforts to prove that Edward L. Doheny, wealthy oil man, gave a bribe of \$100,000 to Albert B. Fall, former secretary of the interior, opened before a jury today with Owen J. Roberts, special prosecutor, ridiculing contentions by the defense that the money was a loan from one old friend to another.

Oil Lease Included
Doheny is charged with giving the money to Fall to influence the then secretary of the interior to award a lease to the Elk Hills naval oil reserve to Doheny's company. Fall was convicted last October on a charge of accepting a bribe.

Roberts outlined the government's case to the jury by telling the nine men and three women that the prosecution hoped to show that Fall

Mrs. Burns last week located the Western Air Express Transport plane that crashed and killed three men in the mountain area near Lake Arrowhead, Calif.

Graham, according to residents of the district, last was seen as he circled the Bristol Mines northeast of Las Vegas, Nevada. He had taken off from Las Vegas with a cargo of mail. Since then thousands of miles have been flown by searching pilots, but no trace of Graham or his ship has been found.

EVANSTON, Ill., March 13. (P)—Mrs. Robert J. Polonie's spring fever took an unusual turn yesterday.

Mrs. Polonie, wife of a Chicago attorney, was driving down one of Evanston's main streets when Policeman Elmer Reiter overtook her and gave her a ticket for speeding. His car balked when he tried to follow her to the station.

"Officer," she said, "I haven't any ill will toward any one on earth when it's spring. I'll help you out."

She drove up behind his car and pushed him a half mile to the station.

Officer Reiter's recommendation got her the minimum fine—\$3.00.

Entrance was gained to the station through a window and the knob of the safe was broken.

The stolen car is a 1930 model Chevrolet coupe, motor number 1481036 and it had a dealer's license plate. It is of tan color and has wire wheels.

YOUNG MAN IS SOUGHT

QUANAH MAN DIES OF BLOW FROM MAN ON WEDNESDAY

QUANAH, March 13.—Somewhere along the 800-mile line of the Fort Worth & Denver City railroad Quanah officers hoped today to locate a young man, about 20 years old and weighing scarcely 130 pounds, who yesterday struck a blow on the chin of Frank Beavers, 200-pound stage line operator, which resulted in Beavers' death.

Beavers had been felled to the brick-paved railway station platform yesterday by the young man, a stranger, who stepped from the train and interfered in an altercation between Beavers and L. O. Paige, operator of service cars.

"Quit beating that man," bystanders quoted him as saying to Beavers, and the latter retorted, "maybe you want some of the same." Beavers' head struck the bricks, the blow fracturing his skull. He never regained consciousness, and the stranger had departed in the west-bound passenger train before the extent of Beavers' injuries was known.

COLGATE PROFESSOR UPSETS POPULAR NOTIONS ON SLEEP IN INVESTIGATION

By HOWARD W. BLAKESLEE, Associated Press Science Editor.
HAMILTON, N. Y., March 13. (P)—The sleep habits of 509 distinguished American men were made public at Colgate university today and upset some popular notions.

The critical age when it is unsafe to lose sleep is 35. Contrary to classical anecdotes, men of important affairs sleep about the full eight hours. It is youth instead of age that sleeps the least.

PRISONER NOW

SAN QUENTIN, Calif., March 13. (P)—The irony which plays such odd pranks in the lives of many men brought, in the role of convict to this gray-walled prison today, Asa Keyes, who at district attorney at Los Angeles for a quarter of a century, sent half this penitentiary's 4,000 population here.

Keyes took his place here Wednesday, after an all-night journey from Los Angeles, where he recently was convicted of accepting upwards of \$100,000 in bribes for alleged failure to prosecute adequately numerous wealthy Californians accused of fleeing thousands of investors in Julian Petroleum Corporation stock.

VOODOO MAN ELECTROCUTED EARLY TODAY

SILENCE MARKS FINAL DAY OF CONVICTED NEGRO SLAYER

HUNTSVILLE, March 13.—A slight negro, trembling in fear, but stoutly silent in deference to a creed he had renounced, was put to death today in the prison electric chair.

Bishop Adams, who once had claimed mastery in the mysticism of black voodoo, died because he slew William Globler, an Austin grocer.

For 12 minutes the motor hummed in the tiny concrete chamber of death, and then a brusque young physician, Dr. M. H. Judd, said rapidly: "Bishop Adams, I pronounce you dead."

Dozen Men Present
A dozen men were there to hear. Assistant Warden Homer Knighton was chewing on his lighted cigar and now and then peering at the slight figure. Father Hugh Finnegan held a crucifix in a shaking hand and bowed as if in prayer. The ten witnesses stood and looked, strange eyes and white faces.

It had been an unusual "last day." For Bishop Adams there were no callers. The prison radio was silent, and the aged phonograph which usually grinds out "When The Bell Is Called You'll Yonder" was mute.

LABOR PARTY MAY GO DOWN ON COAL BILL

MACDONALD MAY FACE
TROUBLE BUT ISN'T
WORRIED

BY FRANK H. KING
Associated Press Staff Writer
LONDON, March 13.—The labor government is having its troubles with the coal bill and unemployment and faces a vote of censure this evening, but Prime Minister MacDonald continues his chairmanship of the naval conference confident he will not be thrown out of office within the next six weeks.

A government defeat on a major issue such as would mean resignation, is not expected by political circles.

MacDonald Not Disturbed
MacDonald was defeated last night on a minor amendment to the coal bill, but doesn't seem disturbed. He invited his conservative opponents to extend their vote of censure set for tomorrow night so that the liberals could join them and throw him out, but he is confident they will not do that.

Before the naval conference convened, MacDonald had the pledges of the conservative and liberal leaders that the disarmament negotiations were of prime importance and that the labor government, although in a minority in the house of commons, would be given a fair opportunity for carrying them out. This pledge holds as strongly today as it did two months ago.

Had yesterday's question been a vote of censure, the situation would have been entirely different. Mr. MacDonald would have said: "If you defeat me on this vote, the government will resign." This will be the position tonight on the issue which will be definitely labeled a vote of censure.

WORK PROGRESSES LEIDIGH DECLARES

Discussion relative to completion of the marketing of up to 13 Texas wheat which members of Governor Moody's marketing board and directors of the Texas Farm Bureau met Tuesday in Dallas, according to Dean A. H. Leidigh, of Lubbock, a member of the governor's committee.

"In my opinion the work is progressing nicely," said Dean Leidigh, and looks in fair way to get in good shape.

"Some of the financial troubles I believe will be ironed out in the near future so as to insure the confidence of the public in the proposition and also to assure members that no assets will be injured of the Texas Farm Bureau."

R. E. Overstreet, also of Lubbock, and a director of the Texas Farm Bureau, is expected to return today. His board meeting continued through Wednesday.

Science Has Way

NEW YORK—Science has an infallible way of spotting liquor made from recovered industrial alcohol—black ultra violet rays. Dr. Herman Goodman demonstrated to the society of medical jurisprudence that the hue of a pitcher of water caused by the merest speck of coloring matter was apparent under the rays. He suggested that a trace of coloring matter peculiar to each district in which commercial alcohol made would make it easy to trace the source of bootleg liquor.

Pipe Disappears

FLORENCE, Ariz.—Somebody has gone away with a pipe smoked by Calvin Coolidge. It was a peace pipe, puffed with Indians at the dedication of the Coolidge Dam. The Arizona Pageantry Association is offering a \$25 reward.

Go To Work

NEW YORK—Two Philadelphia youths in tuxedos presumably are crawling decks or washing dishes on the trans-Atlantic liner Vulcania. The liner sent word that William H. Gardiner and a "Mr. Samuel" had been found all dolled up in a seven-room suite without tickets. The captain was instructed to put them to work as stewards.

To Be Designated

NEW YORK—Engineers are to have prefixes in this year's federal census so that food wives cannot cause enumerators to classify window washers and steam shovel operators with technical experts. The American Engineering Council is co-operating with the census bureau in working out designations.

Census To Answer

WASHINGTON—There is a question which makes still outnumber females in these United States, and it will be answered by this year's census. The excess of males in the country's history, Dr. Joseph A. Hill, acting director of the census, explains, has been due largely to immigration. In 1920 the ratio was 104 men to 100 women.

Has Better Luck

DEL MONTE, Calif.—The seat of a motorcycle on a steep hill is more adapted to Colonel Lindbergh than the hurricane deck of a polo pony. Lack of wind prevented a flight in a glider, so he borrowed a traffic cop's wheel and did some plain and fancy speeding, without any such intimations of the Prince of Wales as accompanied his trial at horsemanship.

Magnolia Takes Over White Eagle Leases

WICHITA, Kas., March 13. (AP)—The Magnolia Petroleum company will take over all leases and production in Kansas of the White Eagle Oil corporation, its sister subsidiary of the Standard Oil company of New York, it was announced today. Details of merging of local offices were being completed by J. McLaughlin, Dallas, assistant to the vice president and general manager in charge of production of Magnolia, and E. A. Kermott, Kansas City, vice-president of White Eagle. Field operations hereafter will be carried on under the Magnolia name.

The merger of the old White Eagle Oil and Refining company and the Standard Oil of New York was completed little more than a month ago.

PROTESTS MADE

AUSTIN, March 13. (AP)—A hearing before the railroad commission Wednesday on application of the Red Express Lines, operating between Houston and Galveston, to reduce its rates, brought a large number of protests. The hearing consumed almost the entire day and the application was taken under advisement.

League Officials

AUSTIN, March 13 (Special)—With the completion of the state tournament in basketball, officials of the Texas Interscholastic League and participants in league athletic contests are turning their attention to baseball and track and field events, according to Roy B. Organization of the district matches in baseball are now being worked out and the participants will start playing the latter part of March. This contest will end when the regional champions are determined.

Two More Kansas

WICHITA, Kas., March 13. (AP)—Two more Kansas oil pools went under proration today. In McPherson county the Ritz Chat pool's seven wells, with the potential production of 8,000 barrels daily under heavy back pressure, were shut in to 50 barrels each for 45 days. In the Sellens pool of Russell county three wells with potential output of a thousand barrels daily will be pumped ten hours out of each twenty-four.

**A
CLEAR
SKIN**
comes from
within

Lack of appetite, loss of strength, skin eruptions, that "tired" feeling and other human ills may be due to a lack of red-cells in your blood.

If you are tired—lack pep—if your skin is not clear—if your appetite is "gone"—you owe it to yourself and friends to try S.S.S.

"MY despair was so great I could have cried. The good cheer and merry happiness of others only mocked at my condition. I had begun to wonder why life could be so cruel. No appetite. No strength. Skin blemishes always embarrassed me. Aches and pains coursed through my body. I wanted to restore my health and life. What was I to do? ... happily the day came and I found the right road to Health when a friend recommended S.S.S."

You may be one of the thousands with a low blood count—to this may be attributed "run-down" systems, skin troubles, and even more serious ailments. It is very dangerous to let the blood count remain below normal.

With an increase in the red-blood-cells you will be on the right road to Health. This is Nature's way to body power and to clear skin. Naturally, with your strength restored, it is easier to fight disease and infection; to enjoy your food and to sleep soundly. When firm flesh takes the place of that which was once flabby, you will feel strong—your nerves will become steady—more happiness and friends will follow.

You owe it to yourself and friends to give S.S.S. a trial. It helps restore blood, red blood. Thousands of others have testified to its benefits in unsolicited letters of gratitude. All drug stores sell S.S.S. in two sizes. Ask for the larger size—it is more economical.

SENATE REFUSES TO VOTE SUGAR TARIFF RAISE

INCREASE IS DEFEATED BY CLOSE VOTE

TWO SENATORS CHANGE VOTES BUT SWITCH TO NO AVAL

(By The Associated Press)
WASHINGTON, Mar. 13.—The senate today refused to reconsider the increased tariff on sugar.

This leaves in the senate tariff bill a rate of 2 cents a pound on Cuban raw sugar as against 1.76 cents in existing law. The house bill carries a rate of 2.40 cents. The vote against reconsideration was 47 to 38.

Two Change Votes
Two senators—Nye andrazier of North Dakota—who previously had voted for the sugar increase changed today and voted for reconsideration, but the switch of these votes was not enough to overturn the previous result.

Thirteen republicans and 25 democrats voted for reconsideration while 9 democrats and 38 republicans voted against the motion. Senator Nye republican, independent North Dakota, who voted on two previous occasions for higher sugar rates requested the reconsideration, he had said he was not entirely convinced that a "trading agreement" involving sugar, cement, lumber and oil was not in force at the time the sugar levy was raised.

Cement Loses Also
Immediately after the sugar vote Senator Kean republican, New Jersey, moved that Nye's request for reconsideration of the cement duty be voted upon.

The motion to reconsider cement also lost, making the second defeat of the day of the coalition of democrats and republican independents. This left in the senate bill a duty of six cents a hundred pounds on cement now on the free list. The house bill provides eight cents.

The vote against reconsideration of cement was 47 to 38.

NINE CASES FOUND BY GEORGIANS

ATLANTA, March 13.—Investigation of a strange paralysis that had appeared in Paulding and Cobb counties, Georgia, today brought the first indication from the Georgia State Board of Health that the malady might have been caused by drinking Jamaica ginger.

T. P. Sellers, chief bacteriologist of the State Board of Health, who had made a thorough inquiry into nine "fairly well authenticated cases in Georgia and four other reported cases," said:

"Indications are that the cases of paralysis in Georgia, similar to those in Tennessee, are caused from drinking Jamaica ginger and are not communicable or contagious."

138 STRICKEN BY QUEER MALADY

JOHNSON CITY, Tenn., March 13.—Improvement in the condition of some of the 138 persons in four East Tennessee counties suffering from a strange form of paralysis was reported today while authorities awaited the results of laboratory tests being made by the State Health department.

No new cases have appeared since Tuesday, but the cause and cure for the ailment remains undetermined. Dr. S. S. Moody, Washington county health officer, has reiterated that while most of the victims are men who said they had taken liquor of doubtful quality recently, the malady could not be attributed to intemperance.

(By Associated Press)
EDINBURG, March 13.—John L. Newman, discharged as secretary of the Wisconsin real estate board when it was learned he had purchased Rio Grande valley citrus lands after the board had advised against such purchases, today was offered a job selling citrus lands. The offer was from the L. R. Bell Development company of Edinburg which sent him the following telegram:

"Congratulations on your purchase of Rio Grande valley land. You have shown splendid judgment. Press reports state you have been

LEGISLATURE PASSES RESOLUTIONS

AUSTIN, March 13.—The Texas Senate Wednesday passed a resolution condemning action of the Wisconsin state realty board in discharging its Secretary John L. Newman, for having purchased a citrus fruit orchard in the Rio Grande valley.

Texas were invited to refrain from purchasing articles manufactured or produced in Wisconsin until such time as that state ceased "discrimination" against Texas lands, the board having refused to issue permits for sale of certain Texas real estate in that state.

The house sent a similar resolution to the committee on state affairs.

CHICAGO LAYS BLAME FOR CRIME ON DRY
CHICAGO, March 13.—The

city council has approved a report to be presented before President Hoover's law enforcement commission tending to show a general increase in crime in Chicago and in Illinois since the advent of prohibition.

Presented by Alderman John (Bathhouse John) Coughlin, the council yesterday unanimously passed the resolution to approve the figures.

In addition to caring for the mounting number of criminals, Alderman Coughlin said, the city's revenue has been reduced \$8,000,000 a year since the Eighteenth amendment became effective.

NEW YORK LAWYERS TO FIGHT LAW

NEW YORK, March 13.—The New York County Lawyers' association had before it today a report by a committee declaring that ratification of the Eighteenth amendment by the state legislature and not by the people violated the tenth amendment to the Constitution and was therefore illegal.

The report, drawn up after two years deliberation, was adopted by the special committee on the Eighteenth amendment by a vote of six to one. By a similar vote the committee moved to present its arguments to the United States Supreme Court.

ALONZO STAGG FOR PROHIBITION LAW
WASHINGTON, March 13.—Alonzo Stagg, whose big Maroon eleven of Chicago university have written many a chapter of football history, today urged retention of

the Eighteenth amendment before the House Judiciary committee, saying it was his observation that the youth of the nation was better off under prohibition than it had been before.

Stagg took the stand after a group of women who had testified previously in support of the dry law had been cross-examined.

PITCHING ONLY WEAK SPOT OF CLUB AT PRESENT TIME

By ALAN GOULD
Associated Press Sports Editor
BRADENTON, Fla., March 13. (AP)—On their record as pennant winners in 1926 and 1928, the St. Louis Cardinals have been optimistic in their outlook for the coming season.

Their new manager, Charlie (Gabby) Street, has tackled his job with a spirit of enthusiasm, manifesting no concern for the short-shift experiences by his immediate crop of predecessors.

Have Real Chance To Win
"Some people may not think we have a great club but I think we have a real chance to win," remarked Street. Sam Breadon, the club president, was even less conservative. He said: "This is the best club we have had in recent years."

Unfortunately, it will take more than this optimism, more than the excellent record of past performances to put the Cardinals in anything approaching a contending position this year. The club's extensive farm system has failed to produce all the replacement needed to check the decline of the two time championship machine. With only a few changes, more of which have not been for the better, the Cardinals are the same flock that Rogers Hornsby piloted to the pennant in 1926 and Bill McKechnie led to the top in 1928.

Needling Pitchers
If anything is to be accomplished this year by the Cardinals in fact, they are to stick in the first division, they must uncover at least two or three new pitchers capable of carrying on where the veterans weaken or leave off. Gabby Street, who handled Walter Johnson's last year, is to stick in the first division, they must uncover at least two or three new pitchers capable of carrying on where the veterans weaken or leave off.

Sylvester Johnson, right hander, is only 29 and should be a mainstay. Jim Lindsey, who had a fine record with Houston, one of the Cardinals farms, may be the best of the newcomers. He is a big right-hander with lots of stuff. Street has the task of finding two or three other strapping workers from among Herman Bell, Bill Hallahan, an erratic southpaw, Fred Frankhouse, Carmen Hill, former Pirate flinger, and Al Grabowski. Bell has come back after a term with Rochester and Grabowski was with Louisville.

Behind the bat the veteran Earl Smith and Jimmy Wilson will do most of the work again, with Gus Mancuso ready to step in. When the Cards obtained Spunky Adams from the Pirates, the assumption was he would play second and Frankie Frisch would move to third. Street, however, will keep Frisch at second base because of his double play skill, work Andre High, a great spring performer, at third and hold Adams in reserve.

Only three per cent of all Norway is suitable to agriculture.

Lubbock was not awarded the annual West Texas Golf association tournament for 1936 but when the event opens at Brownwood sometime in June the local niblick sharks will be very much in evidence. Captain Ross McWhorter and his mates carried off team honors at Stamford last year and Clinton Bussey brought back the championship cup. With Bob Peck missing from their ranks, the Lubbock golfers will be forced to recruit new members for their team if they hope to repeat their performance of last season.

In case the Meadowbrook Club joins the West Texas association, Grady Higginbotham, former pro at the Lubbock Country club and now co-operator of the Meadows, would be a valuable addition to the local team. The team that represents Lubbock at the Brownwood tournament not only plans to make a determined bid for the championship but intends to bring the 1931-association meet to this city.

Down at Lamesa the high school officials are all perturbed over the lack of competition for their baseball team. There are probably no more than a dozen high school teams organized in the state and in this section the teams are even more scarce, due to the unfavorable baseball weather here during the spring months. Midland and Lamesa are the only two teams in West Texas that are known to be organized this season. It might be advisable for these two clubs to arrange a series to play for the championship of the section.

If the college teams find it impossible to get in playing condition during the spring term, it stands to reason that the high school lads would be equally as handicapped. We have to see the national pastime pass out in high school and college circles just as badly as anyone, but there isn't much to be done about it, especially in West Texas.

Stories from the numerous baseball training camps are replete with comedy and tragedy concerning the scores of rookies, many of whom have had no previous professional experience. These newcomers are on the receiving end of a continuous barrage of wisecracks. Their dumbness is the chief source of merriment for the veterans of the diamond who have seen many seasons come and go.

The best yarn we have run across this year comes from West Palm Beach, Florida, where the St. Louis Browns are in training. A big, rangy pitcher from a minor league club, who is working for a berth on the Browns, hurling staff, has the other ball players in camp guessing. So far they have been unable to make up their minds whether the burly flinger is kidding them or is just plain dumb.

Dick Coffman, one of the Browns' relief pitchers, was watching the big fellow serve him up to the plate in batting practice. "How did you go last season?" Coffman asked. "Pretty well," was the reply. "Except when I threw my gopher ball."

It's hard to explain what it is, but I can give an illustration. Every time I pitched it I heard the fellows on the other team yelling, 'Go for two, go for three.' Young ambitious ball players attract various and sundry means to attract attention from the club owners and managers where they are trying to land. A rookie who has already been released by the Wichita Falls Spudgers last winter the club sent the letter from the young man, who asserted he was a top player of parts. The youngster was seeking a job and didn't fail to tell his own horn, long and loud. For some peculiar reason it was really unusual. He was mailed a contract. Just a few days after the document was sent him, along came another letter from Spudger baseball headquarters from the same town. This letter was signed by another name, but the handwriting and stationery was identical with the player's missive. It praised the ambitious young player as a future Ty Cobb and Babe Ruth rolled into one.

"You don't know how lucky you are to get hold of a fellow like this so-and-so," the letter said in part. If the second letter had been received before the contract was mailed, do you think for a minute the club would have sent the document? We're certain that it wouldn't.

HISTORY MAY BE REPEATED IN CAGE PLAY

WICHITA HENRYS AND KE-NASH-A MEET TONIGHT

KANSAS CITY, March 13.—History has a fit setting to repeat itself tonight in the quarter-final round of the annual A. A. U. basketball tournament to determine the national champion.

Matched in the 8 o'clock game on the evening's bill-of-fare, of four choice contests, are the Henrys of Wichita, who advanced by default, and Ke-nash-a of Kenosha, Wis. Opening the program, the East Central Teachers of Ada, Okla., meet Murphy-Dill-R of Omaha, a team formed from Creighton University cagers. The Kansas City Athletic club will play the Olympic club of San Francisco.

Bethany College of Lindsborg, Kas., is paired with the South Eastern of Indianapolis for the final francs.

REPORT IS GIVEN ON HAITIAN WORK

WASHINGTON, March 13. (AP)—The official report on revolutionary disorders which occurred late last year in Haiti, included in Brigadier General Russell's annual report as American high commissioner at Port-Au-Prince, was made public today at the state department.

The report covers events up to the end of 1935 and so made no mention of the American commission now engaged in straightening the political tangle in Haiti. It accepted as a closed incident the plan for holding national elections for senators and deputies this year.

The November student strike, which finally involved at Aux Cayes the killing of ten demonstrators by American marines, was said by General Russell not to possess intrinsic importance, ascribed to it in the American press. After outlining the cause of the revolutionary activities, which he said included "liquor" and the expectation of loot, General Russell said that only the inexperience and numerical weakness of the grade D'Haiti made action by the marines necessary.

CONGRATULATIONS GIVEN PRO WORK

AMARILLO, March 13. (AP)—The executive board of the Women's Missionary Society of the Southern Methodist Episcopal church, meeting here in advance of the opening of the society's annual convention Thursday, has wired encouragement to Mrs. Henry W. Peabody in her discussion on prohibition before congress.

The message read: "The Women's Missionary council reaffirm their conviction of the validity of the eighteenth amendment. They believe there should be no modification of the Volstead act in favor of wine and beer. They certify their personal allegiance to the Constitution of the United States and attest their personal observance of the law. Twenty thousand women from 22 states appeal to congressmen and senators to vote against any modification of the law and to uphold the law as it now stands."

Corporation Tax Bill Is Voted Out
AUSTIN, March 13. (AP)—The state affairs committee last night voted out favorably a bill to increase the franchise taxes of corporations and moved to consideration of the proposed tax on chain stores. The franchise tax bill as passed out places a tax of \$1 per thousand on the first one million dollars worth of business over this figure.

TRAINING CAMP CHATTER

GIANTS POLING 'EM

SAN ANTONIO, March 13. (AP)—The New York Giants are doing their share of setting up a lot of records for the Texas league sluggers to shoot at in the San Antonio park. Travis Jackson yesterday drove a ball over the left field fence, a feat performed only by Rogers Hornsby. Then Bill Terry put one over the right field wall, some 400 feet from the home plate. The homers were in a game the Giants lost to the White Sox 10-0.

WRIGHT LIMP NOW
CLEARWATER, Fla., March 13. (AP)—Interest in the Brooklyn training camp has shifted from Glenn Wright's shoulder to Glenn Wright's leg. The star shortstop has proved that his ailing arm is in good condition once more by his throw to first, but he will be out of the lineup for a few days more by a slight charley horse, received in Tuesday's game with Detroit.

WILLING TO AGREE

CHICAGO, March 13. (AP)—Charles A. Comiskey, owner of the Chicago White Sox, apparently is willing to come more than half way in his dealings with Charles Arthur Shires. The Old Roman has offered the Shy One \$1500 a season to play first base for the Sox, and is ready to add a bonus at the end of the campaign, if Arthur will conduct himself becomingly, both on and off the field.

However, in a letter written to Shires yesterday, Comiskey intimated the player promise to make no displays of temperment.

ROOKIES SHOW UP

ST. PETERSBURG, Fla., March 13. (AP)—Benny Beazough of the Yankees is recovering from an injury to a finger while Babe Ruth had to take things easy yesterday because of stiffness in his legs.

Dusty Cooke, St. Paul slugger, seems to have made himself the first choice to hold down left field this season in place of Bob Meusel. Ben Chapman, his teammate, looks like a fixture at third base.

CUBS GO HAYWIRE

AVALEON, Catalina Island, Calif. March 13. (AP)—Tinkering with the Chicago Cubs to learn what makes them so docile in games with William Wrigley's other team, the Los Angeles club of the Pacific coast league was Manager Joe McCarthy's task for today.

SHOTTON IMPATIENT

WINTER HAVEN, Fla., March 13. (AP)—Captain Fresno Thompson, second baseman, and Chuck Klein, outfielder, have not reported for practice here in advance of the opening of the society's annual convention Thursday, has wired encouragement to Mrs. Henry W. Peabody in her discussion on prohibition before congress.

LAMESA OFFICIALS WANT BALL LEAGUE

(Special to The Journal)
LAMESA, March 13.—Lack of interest on the part of district officials and schools in this section concerning efforts of Lamesa High school to arouse interest in a Class B baseball league has proven somewhat of a disappointment to Superintendent V. Z. Rogers and other Lamesa school authorities.

Followers of the diamond pastime who were anticipating a hot scramble for Class B baseball honors in District Two seem destined to see their brain child go by the boards. So far as local officials have been taken by district leaders to set up baseball machinery in this section, E. V. Freeland, of Texas Tech, who is chairman of District Two, has called no meeting to ascertain the number of schools that would desire such an organization.

The Lamesa basebawers have been issued uniforms and the only contest in sight is a game with the Midland nine, according to Coach F. T. McCollum.

PILOTS LOOK TO SHAPING CLUBS NOW

MANAGERS PREPARING FOR FORTHCOMING PENNANT RACE

(By Associated Press)
The tumult and shout and rant worthing rookies and perverse holdouts had about died down throughout the Texas League today, leaving the managers to the more serious business of whipping their teams into shape for the forthcoming pennant race.

The Kattens at Fort Worth were perhaps the most optimistic in the league with the signing of Joe Bonowitz left fielder whose cognomen on the dotted line gave the team an outfield that clicked 350 last season. Bonowitz was turned back by Cincinnati, but Joe had a little trouble agreeing on terms with

the Phillies, and Manager Shotton is impatient. He is playing Barney Friberg at second, and Tripp Sigman, rookie, in the outfield. Both are fielding capably and hitting hard.

SEEKS TO DOWN JINX

PORT MYERS, Fla., March 13. (AP)—Bevo Lebourveau, recruit outfielder with the Athletics, is trying to overcome a jinx that has hung over him during his 11 years in professional baseball.

And the only break he ever received, he said today, was last fall when Connie Mack brought him to the A's from Milwaukee in time to share in the World Series money.

The Phillies and Giants turned him loose, and he came to the A's two years ago, but had no chance of displacing either Cobb or Speaker, then with the Mackmen. Mack promised Bevo another chance and brought him back last year in exchange for Ossie Orloff. He is expected to stick this year as the Athletics are short on outfield reserves.

390s flying over Ohio now find 390 towns alighted with 347 markers. All municipalities in the State are required by law to have air markers.

SO HE TOOK THE \$80,000—

The country's gravest economic problem has been solved amicably. Babe Ruth has decided to accept Colonel Jacob Ruppert's offer of \$80,000 a year for two years. The photo shows the Babe and his boss smiling and shaking hands at St. Petersburg, the Yankee camp.

Gotliber Still Unsigned

Although still lacking George Gotliber's signature, the Waco club manager has just about come to terms with their recalcitrant third baseman. A mixup in dates has caused postponement of the exhibition game with the Baltimore club until next week.

Four rookies bit the dust at Dallas, Manager Jackie Atz at the same time pointing with pride to another rookie find, Bill Wilson, right hander, moundman from Tupelo, Miss. Wilson gained the Yarnigans several innings in yesterday's practice game and drew much favorable comment from the rail birds.

MRS. MURRAY BURIED TODAY

WIFE OF CIVIC HEAD
IS BEING BURIED
THIS AFTERNOON

Funeral services are being held this afternoon at the First Methodist church for Mrs. R. J. Murray, wife of the president of the Lubbock Chamber of Commerce, who died at the family residence, 2215 Main street, Tuesday night.

Rev. H. L. Munger, pastor of the local church, assisted by Rev. E. E. White, of Abilene, former pastor of this city will be in charge of the service.

Arrangements are in charge of Rix-Banders.

Offices to Close

Offices of the Lubbock Chamber of Commerce and the City of Lubbock are closed this afternoon. Station banks also closed during the funeral. The Murray family lived there before coming to Lubbock five years ago and Mr. Murray is still president of a station bank.

Present and former presidents of the local Rotary club are pall bearers. They are W. A. Myrick, Jr., Neil H. Wright, Roscoe Wilson, Walter P. Rev. Walter P. Jennings, H. L. Allen, J. J. Clements and J. A. Rix.

Mrs. Murray is survived by her husband, two sons, R. J. Jr. and Mike, her mother and father, Mr. and Mrs. W. H. Proctor, of Abilene, and two sisters, Mrs. W. E. Olin and Mrs. J. T. Pinkston, both of Abilene.

ATTORNEYS SEEK TO SAVE WOMAN

NEWCASTLE, Pa., March 13 (AP)—Efforts of attorneys defending Mrs. Irene Schroeder, 21-year-old accused "trig" woman, will be concentrated on obtaining other than a death verdict rather than on acquittal in her trial here on a charge of having slain Corporal Brady Paul of the state highway patrol.

This was made known today by Keadwin Powell of Youngstown, Ohio, chief of defense counsel. Meanwhile a night session of court was held. Eight jurors had been picked when court adjourned for the second day session of the trial. Mrs. Schroeder appeared ill and in contrast to her alert attitude of Monday sat slumped in her counsel table chair during most of the day. She reposed on a cot in the ante room during recesses. Counsel denied reports that the woman was on the verge of a nervous breakdown.

Charles J. Marzocchi, special prosecutor, said last night that commonwealth witnesses would be called in order that would present in sequence the robbery of a Butler, Pa. store, the fatal shooting of Paul as the robber fled toward Newcastle.

Affairs Serene In Germany After Work

BERLIN, March 13 (AP)—The German funeral and political scene was serene tonight, with a new president chosen for the Reichstag and three important reparations measures approved on second reading in the Reichstag.

The new head of the Reichstag is Dr. Hans Luther, former chancellor, who was unanimously chosen president by the board of directors this afternoon. He succeeds Dr. Hjalmar Schacht, who resigned last week because of dissatisfaction with the final form of the Young plan. The appointment will be effective April 3.

Bank Officials Are Held On Charges

MONTGOMERY, Ala., March 13 (AP)—Emmett C. Cox, president, and Charles F. Fletcher, cashier, of the First National Bank of Tallapoosa, which failed about three weeks ago, were held here today on warrants charging embezzlement of \$120,000. The bank officials were arrested Monday afternoon by United States marshals, acting on instructions from the United States commissioner here.

Another Wichita Fire Fighter Declares He Feels Like A New Man

"A few bottles of Orgatone (Argotone) put an end to my indigestion, and made me feel like a new man," said C. F. Gregory, a well known Wichita fireman at the Central Fire Station and who resides at 604 9th Street, Wichita, Kans.

"Often after eating," he continued, "I would have attacks of indigestion that would make me feel miserable for hours at a time. My gall bladder bothered me a great deal and I had a severe, sharp shooting pain along the margin of my ribs in the right side. I started doctoring myself but nothing I took seemed to help me and I became much worse and suffered so much agony that I surely thought nothing would ever do me any good."

"One of my friends advised me to try Orgatone (Argotone) and I began to improve right from the start and in a few weeks more treatment I was up all right and have gotten entirely over my indigestion and can now eat anything I want. I believe everybody in my neighborhood is taking Orgatone (Argotone) and praising it for the good it is doing them."

Genuine Argotone may be bought at Lubbock at the Stevens Drug Store.

Fighting Irish
Is Made Police
Superintendent

DETROIT, March 13—Patrick O'Grady, Irish of course, and a fatalist, the terror of all Detroit gangsters, has shot his way to the top of the force. He will become superintendent of police here March 16.

O'Grady has pushed in more doors with a shoulder amid flying bullets than any other man in Detroit. He has accounted for many "bad men," some dead, others in prison, in his 25 years in the service.

"They'll get you yet, if you keep it up," his friends have warned him.

"Well, if they do, Frank will get them," is O'Grady's stock reply. Detective Sergeant Frank Holland, a machine gunner in the World war, is O'Grady's partner in fields of danger. They have saved each other's lives on occasions. O'Grady believes they won't "get" him until fate decrees.

In addition to his fearless work against hard criminals, O'Grady has solved some knotty police problems and recovered the loot of several robberies. He had 13 citations for bravery.

FINAL APPROVAL GIVEN

BERLIN, March 13 (AP)—Reichstag today gave final approval to the Young plan by a vote of 270 to 192 and then, by a rising vote, also approved the German-American agreement by which Germany's reparations payments to the United States are regulated.

LETTER MEN MEET IN JULY

HAMLIN MAN NOTIFIES
LUBBOCK OF DATES
FOR SESSION

W. L. Fletcher, Jr., of Hamlin, announced that dates for the annual convention of Texas Rural Carriers association have been set for July 3, 4 and 5 in a letter received yesterday from the local Chamber of Commerce.

Fletcher is secretary treasurer of the organization.

Together with the rural letter carriers, the annual convention of the Texas branch of United National

Association of Post Office clerks will be held here. The two organizations will hold a joint meeting.

One other organization, the Texas State Branch of United National Association of Postal Supervisors, possibly will be held here at the same time. Announcement from this organization, however, reveals that Lubbock as a meeting place has not been definitely decided upon.

Last year's meeting of the rural carriers was held in Dallas, at which time several members of the organization from here and other South Plains cities, together with a representative of the Lubbock Chamber of Commerce, extended Lubbock's invitation for the 1930 gathering.

A committee of French and Dutch jewelers, appointed by Riza Kahn, in 1929, valued the Persian Royal gems at \$179,000,000, not including the Darya-i-Noor diamond which experts say is beyond price.

LEAVERTON GETS HIGH SCHOOL CONTRACT BID

LUBBOCK MAN IS
AWARDED WORK IN
BID OF \$463,870

General contract for construction of the new Lubbock High school was awarded last night to D. N. Leaverton, of this city, who bid \$463,870 for the proposal.

The contract was awarded at a session, the second similar one within as many months, of the Board of Education in the city hall.

Bidding \$65,000, Young & Pratt were awarded contract for plumbing and heating.

Electrical contract went to the Electric Construction company of Dallas, at a bid of \$33,870.

Contract calls for work to be started on the building immediately, and Mr. Leaverton last night announced that excavation action probably will be under way within the next ten days.

Twelve months probably will be required for completion, according to the contractor.

The structure, which will cost in excess of a half million dollars, will be erected on a lot bordered by 18th and 19th streets and Avenue T and U. According to plans by the architect, Peters, Strange & Bradshaw, it will be of northern Italian architecture.

Bids on the project were received by the architects up until 3 o'clock Tuesday afternoon and were opened Tuesday night at a gathering of some 200 contractors and representatives of material concerns.

Funds for the new building, which will have space for more than 1,000 students, were provided by a \$650,000 bond issue voted in the city last year.

School officials last night expressed themselves as pleased with progress thus far on the project, with hopes for early construction activity.

Haul Of Alcohol Is
Made At Houston

HOUSTON, March 13 (AP)—Confiscated in the rear dock of an automobile, a quantity of high proof grain alcohol valued at \$1,300, or \$11.064 at the current booting price of \$4.50 for a pint of "imported" liquor, was seized by police here Wednesday.

The cache of 13 five-gallon cans was discovered by officers in a coupe parked opposite a vacant lot in the residential section. The time bear labels of the United Sugar companies of Los Angeles, Sinaloa, Mexico.

Each can is valued at \$100, according to officers, and contains enough fluid to make 2502 pints of liquor, at the rate of one gallon of alcohol for (six) five gallons of whiskey.

RAIL OFFICIAL DIES

BIBLE STILL WORLD'S BEST SELLER

* * * * *
BOOK TO BE MADE BRIGHTER BY PUBLISHERS;
SOMBER BLACK OF LONG USAGE IS TO GO

(By Associated Press)
NEW YORK, March 13.—The Bible, the world's best seller, is being made into a brighter book. Colored bindings—reds, blues and purples—are replacing the somber black of long usage.

And religious books out numbered the extremely popular biographies in the lists of new titles.

These facts were announced today by Edward S. Mills, president of the National Association of Book Publishers as a

lenten message. Here are the publishers' statistics:

Fourteen million Bibles and testaments were sold in the United States last year. The world total was 36,500,000 copies.

Of the 10,187 titles issued by American houses, 206 were religious books. These ranked third, behind 2,142 of fiction and 921 of children's books, and ahead of biographies, which numbered 738.

SOLONS WRANGLE
OVER SULPHUR TAX

AUSTIN, March 13 (AP)—Senate and house conferees on the proposed sulphur tax were on the verge of definitely failing to compose differences between the two houses today and let the meeting without setting a time to reconvene.

The senate members declared they would not stand for a greater tax than 50 cents per ton, and Representative Phil Sanders of Nacogdoches, spokesman for the house, stated that if that was the case the committee might as well discontinue its meetings. The house voted a 61 per cent tax.
