The SDN Column

And suddenly it was Christmas.

If you dedicate yourself to a rigid diet for the next 3½ weeks, perhaps you can make it to the end of the year without letting the old waistline get completely out of control. That's what a lot of us keep telling ourselves following the traditional Thanksgiving meal(s).

There should be a method to compensate for any gastronomic problem. As "Cousin Jim" used to say down there in East Texas at hog-killing time: "You can eat all the fresh pork you want without getting sick if you just eat plenty of ribbon cane syrup with it." And he always managed to set an example.

Anyway, in case you were lulled by the Thanksgiving respite, perhaps we should remind you that Christmas Day this year is exactly four weeks after Thanksgiving Day.

Picked up from the mail:

Some psychiatrists did some research and concluded that cocktail party conversations are likely to be one-sided. They gave some participants in a survey two drinks each. Some were peppermint-flavored vodka, while some were peppermint flavored without vodka. The vodka drinkers broke into their partner's conversations more frequently and their responses "tended to show less acknowledgement of what their partner was talking about." In other words, they were mostly out of it.

★ ★ ★

Did you know that in this day of television and CB radios there are still thousands of people who remain enthusiastic devotees to "shortwave listening?" They say hundreds of people join their ranks everyday as they listen to foreign stations, and some stations even teach their native languages to listeners all over the globe.

★ ★ ★

We ran across these weather "signs" recently, which we are passing along in case you wonder what the winter has in store for us.

The weather will be bad if:
Fur or hair on animals is thicker than usual.
Squirrels build nests low in trees.
Squirrels begin gathering nuts early.
Birds huddle on the ground.
Birds eat up all the berries early.
Ants build their hills high.
There are a lot of spiders about in the fall.

The weather will be fair if:
You hear a screech owl.
Smoke rises.
Crickets holler.

It will rain if:
Within three days if the horns of the moon point down.
Leaves show their backs.
Cows are lying down in the pasture.
Smoke goes to the ground.
Birds fly low.
The sun sets with clouds.
You see a blacksnake in a tree.
There is a ring around the moon.

It doesn't say what happens if you happen to observe two or more of these signs that contradict each other—WACIL McNAIR.

Today In History

By The Associated Press

Today is Sunday, November 30th, the 334th day of 1975. There are 31 days left in the year.

Today's highlight in history:

On this date in 1782, the United States and Britain signed preliminary peace articles in Paris ending the Revolutionary War.

On this date:

In 1864, one of the bloodiest conflicts of the Civil War, the Battle of Franklin, Tennessee, was fought.

In 1874, the British statesman, Sir Winston Churchill, was born.

In 1939, the Soviet Union attacked Finland.

In 1942, during World War II, U.S. bombers struck at Japanese forces holding Rangoon, Burma.

In 1949, the Chinese Communists captured Chungking, China.

In 1962, General U Thant of Burma was elected Secretary General of the United Nations.

Ten years ago: Two American soldiers released after two years in Vietcong captivity arrived in Cambodia and said they wanted to quit the Army to conduct a campaign to get the U.S. out of Vietnam.

Five years ago: Official census figures were released showing that the U.S. population had increased by 24 million between 1960 and 1970.

One year ago: The U.S. Pioneer 2 spacecraft, on a mission to photograph Jupiter, neared the planet after a journey of almost two years.

★ ★ ★

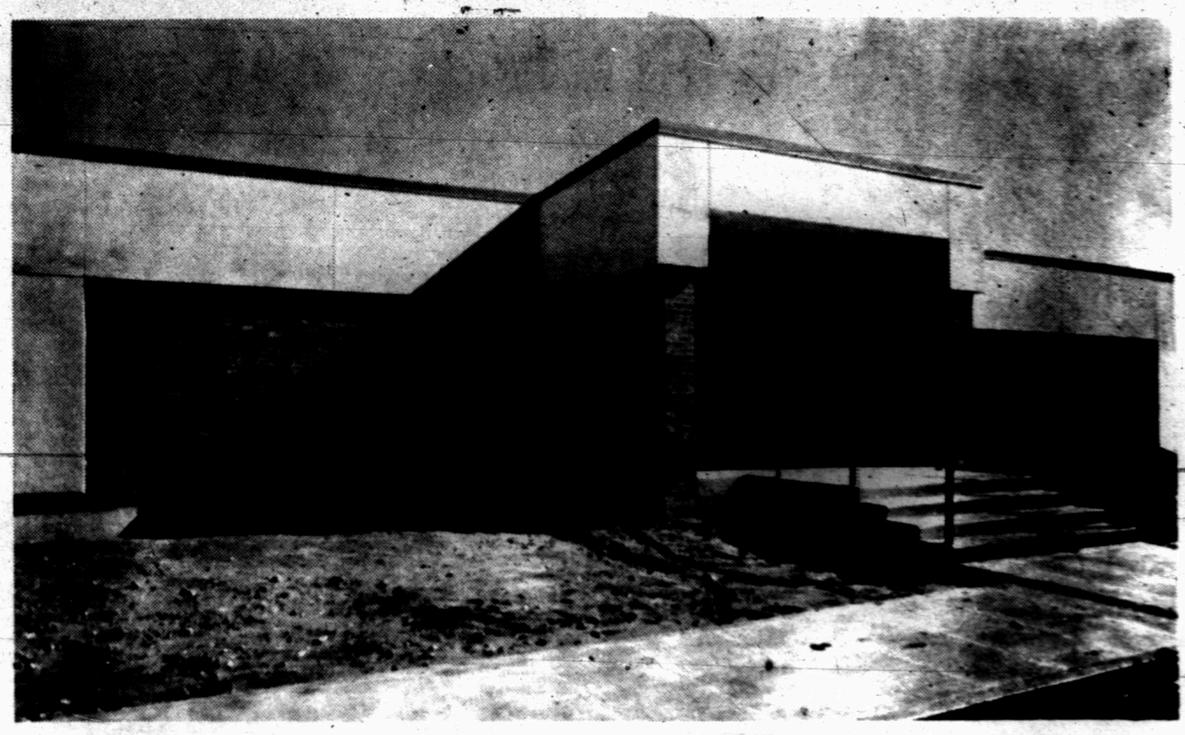
The Weather

SNYDER TEMPERATURES: High Friday, 67 degrees; low, 59 degrees; reading at 7 a.m. Saturday, 60 degrees.

Northwest and Southwest Texas: Little or no precipitation Monday through Wednesday. Warmer Tuesday but turning cooler again Wednesday. High temperatures 30s and 40s excpet low 50s southwest on Monday rising to the 50s and 60s Tuesday and Wednesday. Low from teens north and mountains to 30s south Monday and Tuesday, moderating to 20s north and mountains to near 40 south Wednesday.

North Central and Northeast Texas: Partly cloudy and cold Monday. Considerable cloudiness and not as cold Tuesday through Wednesday. Chance of showers north Tuesday and east Wednesday. High temperatures Monday upper 30s to upper 40s. High Tuesday and Wednesday near 50 to upper 60s. Low Monday upper teens northwest to upper 20s east. Low Tuesday upper teens to mid 20s. Low Wednesday upper 20s to upper 30s.

Ford On Mission To Asia



CHAMBER'S NEW HOME—The Snyder Chamber of Commerce was to begin moving into this new building over the weekend. The new Chamber offices are located just north of the Post Office on Avenue R on a site contributed by Roger B. Mize. An "open house" and dedication event has been scheduled for Wednesday at the new building.

Stops Off In Alaska

By FRANK CORDER
Associated Press Writer

WASHINGTON (AP) — President Ford, setting off on the first leg of his trip to the People's Republic of China, said today he hopes to "foster mutual understanding," but is promising the Chinese that "we will stand for our own views."

In brief remarks at Andrews Air Force Base, Ford expressed thanks that the United States is at peace in Asia and declared, "I begin a mission to Asia to consolidate that peace."

More than 100 persons, including dignitaries of the Chinese liaison office and the embassies of Indonesia and the Philippines, turned out in the cold, clear weather to see the President off. Ford and Secretary of State Henry A. Kissinger, both without coats on the windswept airfield, shook hands and talked with the officials before embarking on the trip.

As he departed on the first long flight of his 10-day trip, Ford indirectly appeared to acknowledge he does not expect the United States and China to see eye to eye on key issues.

But he said "stability in Asia and international security benefit from the new relationship of mutual respect that we are developing."

The President, accompanied by wife Betty and daughter Susan, was bound first for Fairbanks, Alaska, and an inspection tour of an outlying construction site along the trans-Alaska oil pipeline.

After an overnight stop in Anchorage, they will leave for Peking, arriving Monday after a brief refueling stop near Tokyo.

Secretary of State Henry A. Kissinger, a principal architect of the 1971 arrangement that re-established official contact between the United States and China, was flying with Ford.

Referring to his scheduled stops in Indonesia and the Philippines, the President said, "As I did last year, on my visits to Japan and the Republic of Korea, I will reaffirm America's undiminished interest in the security and well-being of Asia. That vast region is vital to us and to the world."

In references to the four days he will spend in Peking next week, Ford said, "We will stand on our own views, as we always have. But we will seek — in the American tradition — to foster mutual understanding."

In advance of the trip, U.S. officials said that "no spectacular announcements" should be expected from the Peking talks. But a senior American official, who declined to be identified, said the President's conferences could contribute to continued forward progress in normalizing relations between the two countries.

Any firm agreement on further steps to settle American-Chinese differences over the status of Taiwan were ruled out.

The senior official said "it would be a most unusual occurrence" if Chairman Mao Tse-Tung failed to receive Ford in Peking, but said no meeting between the two leaders is scheduled.

The official said Premier Chou en-Lai, who dealt most closely with resigned President Richard M. Nixon during his 1972 visit to China, had been unable to meet foreign visitors since July. He said a Ford-Chou meeting was unlikely although it was not ruled out.

The official said most of Ford's dealings will be with Vice Premier Teng Hsiao-Ping.

Filipinos Plan Hunger Strike

MANILA, The Philippines (AP) — Filipinos detained in the Manila area under the martial law decree plan to stage a hunger strike during President Ford's visit here next weekend, according to a statement brought out of a detention camp today.

The statement called the planned strike "a concerted move timed during Ford's visit in the Philippines ... to bring to the attention not only of the Filipino people but of all the peoples of the world the plight of political prisoners under the repressive — martial law regime."

It said detainees in camps on main Luzon Island plan to fast Dec. 4-10. Ford is scheduled to stop here Dec. 6-7 on his return from China.

Quick Panel Action Seen On Stevens Nomination

By JOHN CHADWICK
Associated Press Writer

WASHINGTON (AP) — The Senate Judiciary Committee is expected to quickly schedule hearings on President Ford's nomination of Judge John Paul Stevens of Chicago to fill the vacancy on the Supreme Court.

Immediate reaction from committee members to the nomination of the 55-year-old judge was limited because many lawmakers said they knew nothing of Stevens' background.

Ford, in announcing late Friday his selection of Stevens as successor to retired Justice William O. Douglas, said Stevens has had an outstanding career in practicing and teaching law as well as on the federal bench.

Stevens appeared before reporters in Chicago shortly after the President announced the nomination. He refused all comment beyond reading a brief statement.

"If the Senate finds my qualifications acceptable, I will begin the new assignment as expeditiously as possible and will do my utmost to discharge the responsibilities of the new office in a manner consistent with the finest traditions of a great institution," Stevens said in his statement.

"In all events, I will do everything in my power to render the best possible judicial service of which I am capable. I thank the President for his expression of confidence in me," he said.

Stevens was confirmed by the Senate in 1970 as a judge of the 7th U.S. Circuit Court of Appeals serving Illinois, Indiana and Wisconsin.

His nomination at that time by former President Richard M. Nixon stirred no controversy that committee aides could recall.

Stevens' nomination is expected to receive especially thorough scrutiny from the panel since the vacancy left by the Douglas resignation could tip the court's liberal-conservative balance. Those who are familiar with Stevens' decisions say he would most likely be a centrist justice who would swing most often to the conservative side.

"Judge Stevens is held in the highest esteem by his colleagues in the legal profession and the judiciary," the President said.

He called the nomination of a Supreme Court justice "one of the most important decisions a President has to make" and said that before making a selection he sought "the views of a wide range of Americans in the legal profession and in both public and private life."

Ford had promised to consider naming a woman to the post. There has never been a woman Supreme Court Justice. First Lady Betty Ford, who had hoped her husband would name a woman, said after the President's announcement that she was "disappointed."

But Mrs. Ford said she felt "confident that he picked the most capable and best prepared person."

Security Council Racing Deadline

UNITED NATIONS, N.Y. (AP) — With time running out, nations on the Security Council worked today to break a deadlock over Syria's price for prolonging the life of the U.N. buffer force on the Golan Heights — participation of the Palestine Liberation Organization in a Security Council debate on the entire Middle East situation.

The 15-member council met privately twice on Friday and scheduled more closed-door meetings today in efforts to frame a resolution prolonging the force that would be agreeable to Israel and Syria and to their backers on the council.

Legal authority for the 1,192-man Golan peace force expires Sunday midnight. The mandate of the 4,000-troop peace force between Egypt and Israel on the Sinai front runs until October, 1976.

In between their closed sessions in a basement room at U.N. headquarters, the council delegates were in contact with representatives of Israel and Syria and with their home capitals.

Secretary of State Henry A. Kissinger told reporters in Washington some problems remain but "I am more optimistic than before" that Syria would agree to the extension.

Both Israel and Syria have accepted in principle a six-month extension. The problem was the wording that Syria wanted attached to the new mandate of the Security Council.

Secretary-General Kurt Waldheim said in a report to the council that Syria wants the Security Council to take over "the substance of the Middle East problem" and it regards this as including the Palestinian problem.

EPA Turns Five Next Tuesday

By STAN BENJAMIN
Associated Press Writer

WASHINGTON (AP) — On Dec. 2 the U.S. Environmental Protection Agency, which never enjoyed a real childhood, marks its fifth birthday.

EPA was born in 1970 with the weight of the nation's environmental woes on its shoulders and was forced to start work almost immediately in a tough neighborhood.

Ever since, it has been in the thick of the pushing and shoving between industrial giants and citizen environment groups, between Congress and the White House.

EPA not only survived, but has made itself felt throughout the U.S. society, battling air and water pollution, banning hazardous pesticides, limiting automobile exhaust emissions and even offering an annual Gas Guzzlers Guide on new-car miles-per-gallon.

Often viewed by industrial, agricultural and municipal interests as one of the most intrusive of federal agencies, EPA was created by then-President Richard M. Nixon who, in most other areas, wanted to reduce federal regulation, not increase it.

Environment was already an issue in 1970 — "smog" was no longer just a California comedian's joke; mercury, which had become a killer-pollutant in Japan, was found in U.S. streams; detergent phosphates were choking the life out of lakes; and the thrill of supersonic flight was being quenched by the fear of damage to the stratosphere.

Congress was already passing environmental protection laws, whose programs were scattered among dozens of federal agencies.

To pull them all together, Nixon created EPA by executive action, and Congress accepted the move.

William D. Ruckelshaus, an assistant attorney general, was appointed to head EPA and took office the same day EPA came into existence.

Within a week, the U.S. government was suing an Armco steel plant for polluting the Houston Ship Channel and EPA was embarked on a long series of efforts to enforce existing clean-water laws.

By the end of that month, Congress passed and the President signed a Clean Air Act, giving EPA the job of supervising state clean-up plans and establishing automobile standards.

Wirt Holsinger Dies At Lawton

Wirt W. Holsinger, who lived at 3603 Avenue U, died unexpectedly Friday afternoon at Lawton, Okla., where he and Mrs. Holsinger were visiting for the Thanksgiving holidays.

Funeral services will be held Monday at Lawton.

He is survived by his wife, the former Vera Periman; two daughters, a son and five grandchildren.

SHOPPING DAYS TO CHRISTMAS

5 Injured In Airport Explosion

DUBLIN, Ireland (AP) — Two explosions, believed to be bomb blasts, rocked the arrival lounge at Dublin airport today and authorities said at least five persons were injured.

The explosions went off about an half-hour apart near the bar in the lounge, police said. A spokesman said the casualties were a result of the first blast and that the area had been cleared by the time the second explosion went off.

The airport was closed and emergency vehicles sped to the scene from Dublin, about seven miles from the airport.

First reports said three persons were injured, two of them seriously. But later a spokesman for the Dublin ambulance service said five persons had been taken to a hospital and that airport police had requested more ambulances.

Hawaii Quake Damage Minor

HILO, Hawaii (AP) — A major earthquake caused widespread but apparently only minor damages on Hawaii Island before dawn today and touched off a minor tidal wave which swamped boats and flooded beachfront homes.

There were no immediate reports of deaths or injuries as the result of the earthquake or waves, police said.

Coastal areas were ordered evacuated.

"Our walls are cracked and part of the ceiling fell in," said Leonard Ash, editor for the Hawaii Tribune Herald here.

"I understand there are several broken water mains in town," he said.

Electrical power throughout much of the island was out of service for an hour following the second of two earthquakes.

The second and strongest of the tremors was at 4:48 a.m. local time and registered 7.1 on the Richter scale. It followed a 3:36 a.m. earthquake which registered 5.5, said a spokesman at the Honolulu Observatory of the International Tsunami Information Center.

The earthquakes, which centered in the Kalapana area on the southeast side of the island, caused a minor eruption at Kilauea Volcano.

The Richter scale is a measure of ground motion as recorded on seismographs. Every increase of one number, say from magnitude 5.5 to magnitude 6.5, means the ground motion is 10 times greater. Some experts say the actual amount of energy released may be 30 times greater.

In populated areas, an earthquake of 3.5 on the scale can cause slight damage in the local area, 4 can cause moderate damage, 5 considerable damage, 6 can be severe. A 7 reading is a "major" earthquake capable of widespread, heavy damage; 8 is a "great" earthquake capable of tremendous damage. The great San Francisco earthquake of 1906 registered 8.3 on the Richter scale.

Carol Concert Set At WTC

A concert of Christmas carols will be presented starting at 6:30 p.m. on Dec. 2 in the Central Courtyard at Western Texas College as the college Christmas tree is lighted for the first time this season.

The public is invited to attend the program.

Choirs participating in the concert of carols will be from Western Texas College, Snyder High School, Snyder Junior High School, the First Baptist Church, the First United Methodist Church and the Union United Methodist Church.

Four Billion Cards Expected

KANSAS CITY (AP) — Something like four billion Christmas cards will be mailed in the U.S. this year. Who sends them all? How out of every 10 people mail Christmas cards, according to a Hallmark survey, with the average American sending 60.

The survey also showed that the higher the income group, the more cards likely to be sent.

VIEWPOINT

Local Power Is Gone

Lone Star Gas Company's appeal to the Texas Railroad Commission for a greater rate increase here than that approved by the Snyder City Council apparently has cleared the air in one respect. Governing bodies of municipalities are wasting their time when they attempt to set rates below figures requested by the utilities.

Lone Star asked Snyder for a rate increase which it said would amount to an average 42.61 per cent. This is a tremendous increase. However, nobody questioned the fact that Lone Star was entitled to a higher rate in view of rising prices it was forced to pay for gas. Yet, the city council felt that it should study the request thoroughly and make use of all information available in reaching its decision.

Ultimately, the city approved a new rate, which it determined would result in an average increase of 38.99 per cent. Lone Star accepted this figure.

However, included in the request from Lone Star was an application for a cost adjustment clause, which would permit the gas company to adjust its rates whenever the prices it paid for gas supplies fluctuated. Historically, Snyder has rejected such clauses in the gas rate ordinance, and the council rejected it again. Now Lone Star is asking for the cost adjustment clause as well as a higher rate in its appeal to the Railroad Commission.

Since their many hours of work on the gas rate study likely will go for naught, the council could rescind its action on the new gas rate ordinance and turn the case over to the new State Utilities Commission. Officials of that agency, which will begin functioning next year, have advised that a city may forego action on utility rate increases, pending action by the state commission, if the city plans to turn its rate-making powers over to the commission.

However, if any adjustments to rates were ultimately made by the state commission, they might be retroactive. So, it appears unlikely that any saving to local consumers would be realized by rescinding the new rate ordinance.

But it does appear quite clear now that the city council is literally spinning its wheels when it attempts to set rates based on a comprehensive study of its own. We opposed the creation of the State Utilities Commission because we felt that it represented more erosion of local government powers. This is even more apparent now, despite the fact that, theoretically, cities still may retain these powers. Now, there is no reason to do this. They should turn the utility rates over to the new state commission as quickly as possible.

Ford Trails In Poll

SAN FRANCISCO (AP) — For the first time since becoming president, Gerald R. Ford trails two possible Democratic presidential contenders — Sen. Edward M. Kennedy and California Gov. Edmund G. Brown Jr., a statewide public opinion poll shows.

Both Democrats have said they are not candidates for their party's presidential nomination.

Mr. Ford now trails both of these men by decisive margins," pollster Mervin Field said today.

Field said that in a sampling of registered voters earlier this month, the Massachusetts senator, who had trailed Ford by six percentage points last May, is now ahead of the President by 10 points — 52-42 with 6 per cent undecided.

Brown, who enjoys strong bipartisan support in the state, ran seven percentage points ahead of Ford — 49-42 with 9 per cent undecided — Field said. The poll never before tested Brown in a "trial heat" against Ford.

John Connally Denies Report

DALLAS (AP) — Former Texas Gov. John Connally denies he plans to lead a third party candidacy for the 1976 presidential nomination, the Dallas Morning News reported today.

Connally was quoted earlier in the week by the Conservative Digest as saying he might run for president next year on a third party ticket.

"That isn't so," The News quoted Connally in a telephone interview from Connally's Houston home. "They're reading something into it I didn't mean. I'm not intending to run a third party movement at all."

Connally said his meaning in the Conservative Digest interview was that he is more concerned about the nation than with any political party.

Snyderites' Sister Dies

Funeral service will be held Monday at Haggerston, Ind., for Mrs. Adean (Dyess) White, a former resident of the Fluvanna Community. Mrs. White died there Friday.

She was a sister of Mrs. Frank Pinkerton and Jimmie Dyess, both of Snyder, Mrs. Mozell Newberry of Enid Okla., Mrs. Frank Washman of Lindale, Mrs. Ed Combs of Sweetwater, Lonnie Dyess of Junction, Colo., and D. J. Dyess of Spur. Also surviving are her husband, Carlos White, and three daughters, all of whom live in Indiana.

Star Show Set At Planetarium

"Stars Over Bethlehem," a traditional program for the Christmas season, will be presented in a show open to the public in the Western Texas College planetarium at 2 p.m. on Dec. 7.

The program relates the Bible account of the birth of Christ and shows the skies as they would have appeared over Bethlehem. It also deals with the "Star in the East," describing some of the phenomena which could have appeared as that unusual star.

Tickets for the planetarium show are to be purchased at the door in advance of the show. Admission prices are $1 for adults and 50 cents for students, or a total of $2 for family groups.

Two Vehicles Are In Mishap

City Police investigated a minor two-vehicle mishap Friday at 9:26 p.m. at the Sonic Drive-In. Involved were a 1973 Chevrolet pickup driven by William A. McGlaun, III of Burton, and a 1974 Pontiac operated by Carlton Dee Dennis of 2801 Twenty-eighth Street.

The first newspaper to achieve a circulation of one million was "Le Petit Journal," published in Paris, which reached this figure in 1886.

Soule Urges New Air Route

AUSTIN (AP) — Examiner John Soule of the Texas Aeronautics Commission has recommended that a Houston and a Dallas airline be authorized to provide service for several East Texas cities.

The airlines are Metroflight, Inc. of Houston and Mid-Continent of Dallas.

Soule also recommended Friday "that an application by Louisiana-based Magnolia Airways be dismissed for "lack of evidence."

The commission will consider Soule's recommendations at its December meeting.

If its application is approved, Metroflight—which presently serves nine Texas cities—would provide air service from Lufkin and Nacogdoches to Houston, Dallas-Fort Worth, Tyler and Longview.

Mid-Continent, which currently provides bank courier service to several cities under the name Security Air Carrier, would add passenger service between Palestine and Dallas-Fort Worth.

Soule urged that Lufkin and Nacogdoches plan to build a regional airport. Such a facility, he said, "is necessary to insure the continuation of adequate air service to those communities."

The examiner also urged Metroflight to experiment with one-stop or nonstop service between Lufkin-Nacogdoches and Dallas-Fort Worth. Metroflight has proposed three-stop service—Nacogdoches, Longview and Tyler—between Lufkin and Dallas-Fort Worth and two stops—Longview and Tyler—between Nacogdoches and Dallas-Fort Worth.

Lufkin has not had scheduled air service since May when it was dropped by Texas International Airlines, the commission said in a statement. Nacogdoches and Palestine have not had air service since the early 1950s, the commission said.

Metroflight uses De Havilland DHC6 Twin Otter aircraft, with a seating capacity of 18 or 19 persons. Mid-Continent proposes to operate an eight-passenger Cessna 402.

Four Injured In Air Crash

HOPE, Ark. (AP) — Four persons aboard a private twin-engine plane that crashed west of Hope Friday evening have been hospitalized at Hope.

The three passengers in the plane were sisters—Linda Basham, 22; Glenda Kirby, 28, and Brenda Thomas, 30, all of Texarkana.

The pilot of the plane was Larry Kirby, about 35, husband of Glenda Kirby.

A spokesman said the three women had been to the funeral of a relative in Mississippi and were returning to Texarkana when the plane went down in a densely wooded area about 10 miles west of Hope.

Mrs. Kirby reportedly made her way to a farmhouse about 2½ miles from the crash scene to report the accident. Mrs. Basham, Mrs. Thomas and Kirby were pinned in the plane.

Death Attributed To Strangulation

Accidental strangulation was the cause of the death of Mrs. Harley A. Smith, 52, Justice of the Peace Bobby Goodwin ruled following an autopsy.

Mrs. Smith was pronounced dead Thursday night on arrival at Cogdell Memorial Hospital. It was reported that she had been eating her evening meal and a piece of meat lodged in her throat.

Funeral service was held Saturday afternoon.

Solar Energy For Highway Phones

YUMA, Ariz. (AP) — Arizona's Yuma is profiting from its desert location by pioneering the use of solar energy along its highways.

Emergency notification units containing radiotelephones will be installed along an experimental stretch of highway for use by motorists in distress. And the batteries installed in the radiotelephones will be kept charged by solar energy.

Farm Prices Decline 4%

WASHINGTON (AP) — Sagging prices for grain, soybeans and livestock triggered a 4 per cent drop last month in the prices farmers get for their raw agricultural products, says the Agriculture Department.

The department's Crop Reporting Board said Friday that between Oct. 15 and Nov. 15 its meat animal price index dropped 8 per cent while prices paid to farmers for wheat and other food grains, including rye and rice, declined 10 per cent.

Officials said the drop left the over-all farm price index 2 per cent above Nov. 15 of last year. Prices farmers had to pay to meet expenses held steady during the month but were 6 per cent above a year earlier.

Dairy prices, however, were up 5 per cent last month. That included another record-high price paid to farmers for milk, which averaged $10 per 100 pounds on a "blended" basis, an increase of 34 cents from Oct. 15. The dairy index was up 19 per cent from a year earlier.

Soybeans averaged $4.45 a bushel, down 47 cents from Oct. 15 and $2.99 below Nov. 15 of last year, the report said.

The Nov. 15 feed grain index was down 8 per cent and was 25 per cent below mid-November of last year. Corn, at $2.33 a bushel, was down 29 cents from October and averaged 99 cents below a year earlier.

Wheat prices paid to farmers averaged $3.58 per bushel, down 44 cents from Oct. 15 and $1.29 below a year earlier, officials said.

The grain price declines have occurred in the wake of record wheat and corn crops this year. Although exports also are shaping up as new records, including the big sales to the Soviet Union, the huge harvests have put severe pressure on grain markets.

Beef cattle, which includes all kinds sold for slaughter, averaged $33.20 per 100 pounds on the hoof, down $1.20 from Oct. 15 but still above the average of $28.20 at mid-November of last year.

Hogs, which had set price records earlier this fall, dropped $9 from October to $49 per 100 pounds. They still averaged well above the Nov. 15, 1974, mark of $36.80 per hundredweight.

Poultry and egg prices rose 5 per cent from Oct. 15 despite a decline for broilers.

Patient Aids In Surgery

LOUISVILLE, Ky. (AP) — A Kentucky woman is free of severe headaches for the first time in her life after guiding a neurosurgeon in a delicate 17-hour operation on her own brain.

"It's like walking a tightrope," the Louisville doctor said. "The patient and the surgeon walk it together, moving cautiously and tediously to avoid any misstep that would lead to disaster."

The woman's headaches were caused by abnormal blood vessels 2½ inches beneath her left temple, near brain centers that control speech and other vital functions.

To seal off the abnormal blood flow without cutting off the normal flow to the speech centers, it was necessary she remain awake — protected by a local anesthetic — so her responses to electrical stimulation of the brain could be observed.

The woman thought she wouldn't survive the operation, but the ordeal paid off. The headaches are gone.

The neurosurgeon and the patient granted interviews after her recovery, though both asked that their names not be used.

The woman, 45, said she had always felt "my headaches just went with living and raising two children."

But they became worse, and last January she suffered numbness in one arm and shoulder and went temporarily blind in one eye.

She was transferred in the spring to Norton's Children's Hospital in Louisville and the surgery, pioneered by neurosurgeons from the University of Louisville School of Medicine, was performed in October.

During the 17 hours the operation lasted, the neurosurgeon took only two brief breaks. Both he and the anesthesiologist spoke to the woman during the operation.

The patient, who had to remain extremely still when the surgeon was working, was given several breaks to change her position slightly. Toward the end of the operation, when the malformation had been removed, she was given a general anesthetic and allowed to sleep.

Since awaking, she said the headaches haven't returned. "I'll get along without them for the rest of my life," she said.

BUD'S OFFICE SUPPLY

Little Market Reaction

By SAM BOYLE
AP Business Writer

NEW YORK (AP) — President Ford injected the federal government into the New York City fiscal crisis this past week, but the nation's financial markets showed little reaction.

After weeks of moving with the ebb and flow of news about the city's financial picture, the stock market registered only a narrow gain on Wednesday. By then it was apparent that the President was going to announce an aid program that night.

But advance buying on the belief that aid would come did bring the market to its highest levels in four months.

The municipal bond market also registered gains in anticipation of Ford's announcement that the would support federal loans to the city.

Otherwise, the Washington scene produced a good news-bad news situation.

Trade surplus figures were up to $1.08 billion for October, but the index of leading economic indicators was down.

The index is designed to give advance word on economic trend and the second monthly decline in a row could foreshadow some rough spots ahead.

New car sales during mid-November showed another advance from last year's depressed levels.

The automakers registered a 33 per cent increase in sales, but that was still below the levels of some earlier years.

Another sign that the car companies aren't out of the woods yet was the production schedules announced for next month.

While they intend to produce 54 per cent more cars than in the month last year, the companies are still below earlier production levels.

The top executives of Chrysler Corp., which has seen the most trouble in the auto slump, were back in Britain this past week to try and work out the future of its money losing British subsidiary.

A company spokesman said an announcement from the British government could be expected shortly. Among the options for the subsidiary is a government takeover.

HOSPITAL NOTES

ADMISSIONS: Maria Barrazo, 1407 Ave. M; Mauricia Rosas, 1011 Twenty-fourth; Gladys Griffin, 2911 Ave. Y; Abram Jones, Jr., 3203 Ave. J; Lucille Bruce, Barnsell, Okla.

DISMISSALS: Joseph Hutchens, Beatrice Ritchie, Laura Komma, Richard Hildebrand, Aubrey Wilson.

BIRTHS

Mr. and Mrs. Joe Barrazo, 1407 Ave. M, are the parents of a 7 lb. 6 oz. baby boy, born at 8:40 p.m. Nov. 28 on Cogdell Memorial Hospital.

Mr. and Mrs. Andrew Ramirez are the parents of a 7 lb. 4 oz. baby girl, born at 1:20 p.m. Nov. 28 in Cogdell Memorial Hpspital. They reside at 1805 Scott St.

Band Parents Meet Monday

The Snyder High School Band Parents Club will meet at 7 p.m. Monday in the band hall.

All parents of band members have been urged to attend and help push the annual fruit cake sale sponsored by the organization.

Give WTC Course For Christmas

Not all Christmas gifts fit into boxes under the Christmas tree. Consider, for example, "giving" a course or courses at Western Texas College.

Carol Martin, instructor in secretarial science at WTC, would like to suggest a secretarial procedures course planned during the mini-session scheduled Dec. 30-Jan. 10. It's a finishing course for persons interested in secretarial work, offering a review of previous studies and preparation for interview and job procedures.

Students may earn three hours of college credit during the mini-session, and 10 courses are on the tentative schedule. The cost is $36 for each course. Classes will meet Mondays through Saturdays for four and a half clock hours per day. It's a rigorous schedule, but an unusual opportunity to pick up credit in a short time.

The WTC Community Services division will be offering several non-credit courses starting after the holidays. Fees for the Community Services courses vary according to the subject matter. They are also of varying duration, and persons interested in enrolling for these special interest courses are invited to inquire at the Community Services office at any time for starting dates and planned offerings.

The WTC basketball teams will resume play early in January and have a total of 14 home games scheduled before the season ends on Feb. 26. Tickets to the games would be a most thoughtful gift for basketball fans. Most of the games are scheduled in the Scurry County coliseum where comfortable seating and convenient parking are available.

The WTC drama department is planning a third Dinner Theatre in February, and tickets for that production would offer a special kind of evening's entertainment. The WTC Planetarium offers programs open to the public on the first Sunday of each month, and adult tickets to those programs are only $1 each. Family groups are admitted for a $2 fee. (No January show is planned because of the college holidays.)

The spring semester at WTC will be starting Jan. 15, and students ranging in ages from seniors in high school to Senior Citizens will find courses of interest on the new schedule. A financial assist to cover the cost of one or more courses during the spring semester would stretch Christmas giving a long time!

Looking ahead to summer, Richard Lancaster and Dr. James Palmer are planning a second Traveling Seminar from June 7-27. The seminar will take students to seven southwestern and western states, and persons enrolling may earn six hours of college credit or may enroll as non-credit participants. Enrollment opens Dec. 12 and continues through May 26 or until the class is filled. The cost will be about $665 per person including transportation, lodging and meals.

As we said at the beginning, not all Christmas gifts fit into boxes under the tree. There's a world of education and enjoyment available through Western Texas College!

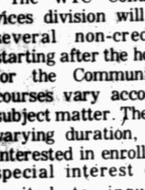
MEET JOE SENTELL



There is a rumor afoot that Joe Sentell could have developed into an all-time great ballet performer. Perish the thought! It's even money that he can't even spell entretchat. He thinks leotards are funny eats with spots. For all he knows Swan Lake is a resort in the Everglades.

Still, when it comes to insurance, Joe Sentell knows all the right moves. If you like the idea of sounder coverage, more and better coverage at no up in price, have a session with Joe Sentell and you just might save a tidy little bundle. Have that session with Joe Sentell now. You'll find him warming up at 2615 College, 573-3741.

THAT'S ENTERTAINMENT—Live music from a Kitchen Band (left) and an appearance of Frosty the Snowman will be among the highlights of the entertainment planned for the RSVP Christmas party Tuesday morning. Many RSVP members will be sharing their talents on the "just for fun" program. The party is to start at 10 o'clock in the Trinity United Methodist Church fellowship hall and prospective members are invited to attend.

Webb AFB Area Survey Scheduled

A survey team from Batelle Columbus Laboratories, Columbus, Ohio, will be conducting a study which characterizes the socio-economic interface between Webb AFB and neighboring communities beginning about Dec. 1.

Representatives from Batelle will be in the local area for approximately a month collecting economic, sociological and demographic information about the unique relationship between Webb and the local communities. The study will detail the more significant socio-economic relationships between the base and local communities including:

The regional setting, socio-economic environment, employment profile, economic base, manufacturing and industrial profile, tourism and recreation, cultural and historic resources, human community planning. The base will make a copy of the study available to the local government or planning council for community use.

The local study is part of a series of studies being conducted for the Air Force by three private firms. The studies will assist the base and the Air Force in developing comprehensive (master) plans.

Traditionally, AF master planning concepts focused primarily on the physical layout and development of on-base facilities and services. The comprehensive plan, in addition to this traditional focus on master planning, incorporates greatly expanded analyses of the relationships between (A) natural, man-made and environments; (B) regional social characteristics, and (C) the interdependence between air bases and neighboring communities in response to recent environmental legislation.

The environmental planning division within AF Civil Engineering has been given the charter of satisfying the Air Forces' environmental planning responsibilities under the National Environmental Policy Act, the Federal Water Pollution Control Act, the Intergovernmental Cooperation Act, the Clean Air Act, the Noise Control Act, and other public laws, executive orders, Department of Defense directives, and Air Force regulations.

COTTON HARVEST:

Harvesting of cotton is in full swing now and strippers, haulers and ginners are busy. Not a large percent of this crop was defoliated, so most producers waited for that killing frost. This has come now, and the plants have dried enough that harvesting is good.

A check of the gins on Tuesday, Nov. 25 showed the following number of bales have been received by the gins in Scurry County.

Dunn- 360
Fluvanna- 1008
China Grove- 609
Hermleigh- 180
Inadale- 1093
Paymaster- 791
Snyder Co-op- 620

This is a total of 4,661 bales at this time. If good harvesting weather prevails most gin yards will be covered with trailers shortly.

FALL APPLICATION OF FERTILIZERS:

Applying fertilizer in the fall for spring crops has certain advantages as well as disadvantages.

It doesn't make much difference whether potassium or phosphorous is applied in the spring or fall. Studies have shown that spring application of nitrogen gives better results over a period of years.

Nitrogen applied in the fall must be from an ammonium source and should be used only on fine-textured or clay soils when the soil temperature is below 50 degrees F. If nitrogen is applied as nitrate or on course-textured soils, it will leach out and be lost. Also, nitrates can become denitrified in wet clay soils.

As far as advantages of fall fertilizer application are concerned, the practice saves time when the spring prices go up in the spring. Furthermore, it provides a tax advantage if needed.

It's up to each individual farmer to weigh the advantages and disadvantages and to decide for himself when to fertilize. Of course, all fertilization practices should be based on the expected response from each plant nutrient in the fertilizer.

Nitrogen does not occur in the soil in mineral form. Practically all soil nitrogen is stored in the soil organic matter. Before this nitrogen is available for plant use it must undergo changes. These changes are caused by bacteria in the soil. This is called nitrification.

One group of bacteria changes ammonia to the nitrite form and immediately another group changes the nitrite form to the nitrate form, which can be used by the plant.

Four things can happen to nitrate nitrogen. It can be used by plants, used by bacteria, lost in drainage or lost as a gas after reduction.

Most activity from nitrifying bacteria ceases at 40 degrees F. or less. This may explain why small grains do not respond to fertilizers in the colder months. Fertilizer application should be made on small grain at planting or just prior to growth in the early spring.

Muhammad Ali Is Setting Up Firm

CAIRO (AP) — World heavyweight boxing champion Muhammad Ali is setting up a $50 million company in Cairo to sell farming and building equipment in the Middle East, says a spokesman for the firm.

"This is the kind of business Ali wants to do when he retires," Macdonald said.

The Nine Worthies were heroes popular in medieval art and stories. They were three Christians — King Arthur, Charlemagne, Godfrey of Bouillon; three Jews — Joshua, David, Judas Macabaeus; three pagans — Hector of Troy, Alexander the Great, Julius Caesar.

50TH WEDDING ANNIVERSARY— Mr. and Mrs. R. A. Prince will be honored on their Golden Anniversary with a reception at the Union Community Center. Mattie Lou Holmon and Romia Prince were married Dec. 9, 1925, in Hermleigh. They are parents of three sons Hays, of Jayton; Billy (Speedy) of Snyder; and Duwayne of Lubbock. They have twelve grandchildren. Prince was an employe of Scurry County, Precinct 2 before his retirement. Friends and relatives are invited to attend the reception Sunday, Dec. 7 from 2-4 p.m. Children of the couple will host the affair. (Photo by Craft)

ENGAGEMENT ANNOUNCED— Mr. and Mrs. V. W. Matlock, of Colorado City, announce the engagement and approaching marriage of their daughter, Brenda Sue, to Richard Chambers, son of Mrs. Johnnie Chambers and the late Ladd Chambers of Snyder. The wedding is set for Jan. 17, 1976 at Colorado City.

Irma Lopez Becomes Bride Of Celestine Guerrero

Miss Irma Lopez became the bride of Celestine Guerrero in a double ring ceremony Nov. 8 at 4 p.m. at Our Lady of Guadalupe Catholic Church. Father Tom Jordan, pastor of the church, officiated in the ceremony.

The bride is the daughter of Mr. and Mrs. Angel Lopez, 906 Ave. B. Parents of the bridegroom are Mr. and Mrs. Raul Guerrero, Rt. 1, Loraine.

Given in marriage by her father, the bride was adorned in a formal gown featuring a full skirt with tiers of ruffles gathered at the waist and extending to the floor. The detachable train was of lace. The lace covered bodice featured a scoop neckline and long full sleeves. For something old the bride wore a ring belonging to her grandmother, Mrs. Genobeda Lopez; something new was her wedding gown; something borrowed was a pearl necklace with matching earrings, borrowed from Mrs. Cheatham; something blue was a garter. For good luck she wore pennies in her shoe, minted in the year of their birth.

She carried a bouquet of fresh carnations and gladioli with white streamers.

Belia Lopez, sister of the bride, was maid of honor. The bride's aunt, Eusevia Garcia, of Del Rio, was matron of honor. They wore white and peach gowns and carried nosegays of white carnations.

Pas Lopez, cousin of the bride, and Irene Lopez, sister of the bride, were flower girls. They wore floral pink gowns and carried baskets of flowers.

The groom's sister, Isabel Guerrero and Robert Guerrero, nephew of the groom were ring bearers.

Rudy Garcia, cousin of the bride, of Stamford, was best man. Guadalupe Garcia was groomsman.

The church altar held an arch entwined with greenery and accented with multi-colored carnations.

Traditional wedding music was presented by Elizabeth Mijares at the organ. She accompanied Susie Casas who sang "Color My World" and "Eres Tu."

The reception was held at the Latin American Center. The three tiered wedding cake, decorated in rainbow colors was served by Mrs. Leon Guiterrez, cousin of the bride.

Emma Ramos registered wedding guests.

The bride is a graduate of Snyder High School and is employed by the City of Snyder. Her husband attended Loraine High School and is currently employed by Arrow Construction.

Out-of-town wedding guests were from Loraine, Colorado City, San Angelo, Del Rio, Stamford, Belton, Ill., Hereford, Dallas, Irving and Hermleigh.

MR. AND MRS. CELESTINE GUERRERO (Photo by Craft)

Golden Anniversary Observed

Mr. and Mrs. W. H. Scarborough, 2207 Thirty-second Street, were honored with a reception on their 50th wedding anniversary, Nov. 29 from 4-7 p.m. at the fellowship hall of Northside Baptist Church.

Hosting the event were their five children: Mrs. W. C. Harrison, Jr. and Hollis Scarborough of Denver City; Mrs. James W. Greene of San Francisco, Calif; Mrs. Lewis Whitson of Ada, Okla.; and Reginald Scarborough of Fort Worth.

The former Coy Shepherd and Scarborough were married Nov. 29, 1925 in Hermleigh. Except for three years residence in San Angelo and Abilene, they have resided in Scurry County and Snyder. Mr. Scarborough was School Tax Assessor-Collector in Scurry County for seventeen years before retiring. They have nine grandchildren and one great grandchild.

Ivory and shades of gold, apricot and browns were used in the decorations.

The couple's granddaughters and nieces served in the houseparty.

MR. AND MRS. W.H. SCARBOROUGH

Gold Star Winners Honored

LUBBOCK—With parents, supporters and special guests looking on Monday night, 38 outstanding 4-H'ers were presented the highest county award offered in the 4-H Club program – the Gold Star.

Award ceremonies, which included a banquet in their honor, were staged at Lubbock's Coronado High School. Twelve member-owned electric cooperatives serving district 2, hosted the event with the Texas Agricultural Extension Service, which directs the 4-H program in Texas.

Recipients of the Gold Star award from Scurry County were Johnny Reed, son of Mr. and Mrs. John Reed, 2800 Westridge, Snyder and Kim Layne, daughter of Mr. and Mrs. Jimmy Layne, Ira.

A boy and girl from each of the 20 counties in Extension Service District 2 are eligible to receive this highest county award each year. The award is based on outstanding achievement, leadership and contribution to the county 4-H program.

Speaker for the special occasion was Charles W. Stenholm, general manager of Stamford Electric Cooperative, Inc., Austin, Texas.

Master of ceremonies was Mrs. Gail House, Department of Home Economics instructor at Texas Tech University. Mrs. Aubrey W. Russell, District 2 Extension Agent (retired), Lubbock, narrated the presentation of awards, with District Extension Agents Billy C. Gunter (agriculture) and Catherine B. Crawford (home economics) presenting the honors.

Special guests included parents, adult leaders, Extension Service officials, representatives of electric cooperatives and other supporters of the 4-H program.

The event is sponsored annually by the following 12 electric cooperatives: Bailey, Dickens, Lamb, Deaf Smith and Swisher counties, and Lea County, New Mexico. Also, Caprock, Lighthouse, Lone Wolf, Lyntegar, Midwest and South Plains electric cooperatives.

To qualify for the special award, a 4-H'er must be at least 13 years of age, have completed at least three years of club work and be currently active in 4-H.

According to the district agents, the Gold Star Award is intended to stimulate winners through higher achievements and to encourage other young people to participate in the county 4-H program.

GOLD STAR WINNERS— Johnny Reed and Kim Layne were presented the highest county award offered in the 4-H program—the Gold Star.

Len Deighton Writes Another Fine Thriller

YESTERDAY'S SPY. By Len Deighton. Harcourt Brace Jovanovich. 282 Pages. $7.95.

During World War II, Charlie, the narrator of Len Deighton's latest spy caper, and Steve Champion both were members of the same underground intelligence-gathering group that worked behind the Nazi lines. Champion taught Charlie everything he knew about espionage, and Charlie was grateful. But that was long ago, now it is the 1970s, and things are different.

Both Charlie and Champion followed careers in British intelligence after the war, but eventually Champion dropped out. Charlie didn't. So it's no surprise that Charlie's bosses call on him to have a look into Champion's affairs when the former secret agent starts behaving like a very wealthy man.

Charlie isn't mad about the idea but he does as he is told and Deighton once again is off and running, spinning another of his complex plots with the satisfied reader following in breathless pursuit to the climactic — and violent — end of "Yesterday's Spy."

In order to get close to Champion, Charlie has to pretend he is out of a job, a task he acts out with such efficiency and realism that Champion takes him on as one of his staff. After that, it's up to Charlie to find out just what Champion is up to — is he really planning to steal a nuclear device from the French and sell it to Arab terrorists? — and stop him, if necessary.

It's difficult to say more about "Yesterday's Spy" without giving it away. Suffice it to say that this novel is just as finely drawn a thriller as the books with which Deighton previously scored so highly, such as "The Ipcress File" and "Funeral in Berlin."

Phil Thomas
AP Books Editor

The difference between Blue and Roquefort Cheeses is not in the texture or flavor, but in the fact that Blue cheese is made from the whole milk of cows. True Roquefort cheese is made from sheep's or ewe's milk.

HEALTH TIP from DEAN

Each year, many people suffer from grease fires in pans. To put out a grease fire in the kitchen—smother it with a cover or inverted pan. Dump baking soda (not baking powder) on the flame. Baking soda creates carbon dioxide to smother the flames. Don't pour on water, it will cause the flame to flare up and may spatter the burning grease on you and around the room. In the absence of a fire extinguisher, a pound of baking soda is a good fire control to have handy in the kitchen.

Menotti Writes 10-Part Contata

MILWAUKEE (AP) — Italian composer Gian-Carlo Menotti, who made his home in the United States for nearly half a century, is putting his early impressions of scenes and life in this country as experienced by a young immigrant into a 10-part cantata for large chorus, orchestra and quartet of vocal soloists.

The work will have its world premiere May 14 in the Uihlein Hall of the Milwaukee Performing Arts Center by the Bel Canto Chorus of Milwaukee.

The Menotti autobiography in music, titled "Landscapes and Remembrances," was commissioned by the chorus with the aid of a $25,000 gift from John Atwood, a former Wisconsinite, now president and chairman of Atwood Oceanics of Houston.

The chorus will perform the work later at the Spoleto Festival in Italy.

Stuffed celery goes elegant! Wash and trim six to eight short celery ribs, leaving the tops on. Chill the celery while preparing the Blue cheese and walnut filling. Combine one cup creamed cottage cheese, one-third cup (about one and one-half ounces) crumbled Blue cheese, one-third cup chopped walnuts and one-half teaspoon Worcestershire sauce.

Mahler Concerts Set For Bicentennial

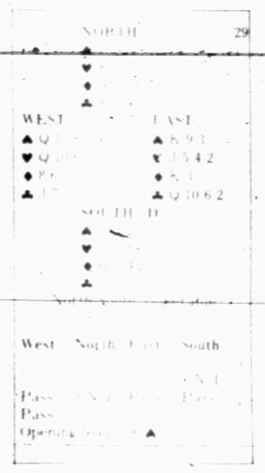
PHILADELPHIA (AP) — The "Eighth Symphony" of Gustav Mahler will be performed next spring in a Bicentennial concert by the Orchestra Society of Philadelphia.

Choruses of nearly 1,000, representing about 12 Philadelphia area groups, plus eight soloists will join with the 130-member orchestra in two concerts of the work.

Two business firms, Central Penn National Bank and Morris, Wheeler and Co., are donating money to make the concerts possible.

WIN AT BRIDGE

South breaks communications



By Oswald & James Jacoby

Some bridge hands are so simple that the correct bidding and play stand out. Yet bridge players go wrong for one reason or another.

South has a normal notrump opening bid and North a normal raise to game. There is no reason to waste time with his diamond suit. He has no singleton and should try for the nine trick game.

West leads the six of spades. East produces the king and it is up to South to let that king hold the trick. South is giving up a potential trick with the jack of spades but he has no need of that trick.

What he has need of are four tricks in the diamond suit. He may collect five but he doesn't need them. Four diamonds plus one spade, two hearts and two clubs make a total of nine and South has bid to take nine.

South ducks the king of spades, plays his jack when the spade is led back and takes his ace when the third spade is led. Then he leads the queen of diamonds and lets it ride. East takes his king and can't lead a spade so South scores game and rubber.

Ask the Jacobys

So many readers have asked us if you must respond to a short-club opening bid that we will discuss it again.

We open three-card club suits with certain balanced hands. This is not a forcing bid and we expect our partners to pass with less than six points. There is no real tragedy in playing an occasional unsatisfactory one club contract and most of the time when our partner does pass, fourth hand bails us out by bidding something. No one gets to play a mere one club.

(For a copy of JACOBY MODERN, send $1 to: "Win at Bridge," c/o this newspaper, P.O. Box 489, Radio City Station, New York, N.Y. 10019)

5th Dimension Replaces Pair

LOS ANGELES (AP) — Two of the five members of the 5th Dimension, Marilyn McCoo and Billy Davis Jr., have left the singing group and have been replaced by Eloise Laws and Danny Beard.

Miss McCoo and Davis, who are husband and wife, had been with the 5th Dimension since it began some 10 years ago. Miss Laws has been singing in nightclubs and Beard has been in Broadway shows.

MRS. JAMES EDWARD NOON

Pennington, Noon Wed At Abilene

Wedding vows were exchanged by Miss Sheilah Ann Pennington and James Edward Noon Nov. 22 at 2:30 p.m. in the North Park Baptist Church, Abilene. Rev. Clayton Pennington, minister of Fluvanna Baptist Church, officiated at his daughter's wedding.

The bride is the daughter of Rev. and Mrs. Clayton Pennington, Fluvanna. Mr. and Mrs. Harold Noon, Kent, Ohio, are parents of the bridegroom.

The bride was given in marriage by her father. She chose an old-fashioned gown of silk organdy. The fitted bodice featured a high neckline edged in Chantilly lace and a sheer yoke with two rows of ruffled lace. The long full bishop sleeves were of sheer fabric. The court length full skirt was bordered with lace and panel of matching lace fell over the skirt. The bride's chapel length veil completed her attire.

Maid of honor was Stephanie Williams, Abilene. Rhonda Tedlard, sister of the bride, was bridesmaid. They wore floor length yellow gowns trimmed in white lace, and carried a single long stem yellow rose tied with white ribbon.

Dana Pennington, niece of the bride, was flower girl. She wore a yellow floor length gown with sheer long sleeves trimmed in white lace.

Jamie Tedford, nephew of the bride, was ring bearer. He wore a black tuxedo with a yellow shirt and black bow tie.

Tom Boltz, Abilene, was best man. Paul Morris and Leon Tedford both of Abilene, were groomsmen. Jerry Wojack ushered wedding guests.

Traditional wedding music was played by Mrs. Bill Williams, organist, of Abilene. Danny Pennington, brother of the bride, of Lubbock, was soloist.

Immediately following the ceremony a reception was held in the fellowship hall of the church. The bride's table held the three tiered wedding cake. Presiding at the table were Mrs. Glen Toombs and Janice Williams.

For the wedding trip the bride chose a white pant suit with a floral print blouse.

The bride is a graduate of Abilene High School and the bridegroom graduated from Roosevelt High School, Kent, Ohio. He is employed with Bell Helicopter.

Out-of-town wedding guests were Mr. and Mrs. Glen Toombs, Gail.

Rogers, Love Exchange Vows In Lubbock Nov. 22

Miss Jana Sue Rogers and David Wayne Love were married at 7 p.m. Nov. 22 at the Green Lawn Church of Christ, Lubbock. Jay Don Rogers, brother of the bride, officiated at the double-ring ceremony.

Parents of the couple are Mr. and Mrs. T. Jay Rogers of 3511 Fifty-eighth Street, Lubbock and Mr. and Mrs. Billy Love of Odessa.

The bride is a graduate of Snyder High School and attended Lubbock Christian College. Love graduated from Odessa from Odessa High School and Lubbock Christian College.

Given in marriage by her father, the bride wore an empire formal length gown of Chantilly lace with a flowing chapel length train. The bouffant three tiered veil of silk illusion was attached to a forward crown of Chantilly lace petals encrusted with seed pearls.

For something old, she wore her grandmothers wedding ring. She wore the traditional blue garter and a penny in her shoe.

Judie Aldridge, sister of the bride, was matron of honor. Bridesmaids were Kathy Love and Priscilla Holsey. Junior bridesmaid was Mindy Aldridge.

Angela Aldridge and Debra Love lighted candles and Lance Aldridge was ring bearer.

The attendants wore floor length gowns of pink mirrow-mist over satin. They carried long stem roses with burgandy satin streamers.

Best man was Jerry Love, brother of the bridegroom. Rusty Lodd, of Abilene and James Doyal of Amarillo served as groomsmen.

Johnny Rodriquez and Lee Cole served as ushers.

Following the wedding ceremony the Loves greeted guests at a reception in the fellowship hall of the church.

They will reside in Lubbock when they return from a wedding trip to Colorado. Love teaches at Lubbock Christian High School.

MRS. DAVID WAYNE LOVE

Ship More Wine

SAN FRANCISCO (AP) — Shipments of California wine to the market totaled a record-setting 154 million gallons the first seven months of 1975, an increase of 9.6 per cent over the same period a year ago, according to figures released by the Wine Institute.

Smith Is Busy Teaching At 92

ROSWELL, N.M. (AP) — If Dr. John Smith isn't the oldest active teacher in New Mexico — and perhaps in the nation — the students and faculty at the Roswell campus of Eastern New Mexico University would like to know who is.

Dr. Smith, who was 92 in November, has been teaching mathematics and physics since the school was launched in 1958. He has missed only three days' teaching, because of illness.

It was in 1950 that Dr. Smith had to retire because of age as head of the physics department at New Mexico Military Institute where he had taught for 20 years. He immediately sought employment at the Walker Air Force Base, where he was an electronics repairman until offered his present teaching position.

Dr. Smith started his career at 21 in a one-room schoolhouse in southern Indiana, at $48 per month. He now contributes his salary to the Golden Age Scholarship Fund, established to assist needy students at Eastern.

Community Calendar

SUNDAY

Scurry County Museum open, 2-5 p.m. Macrame exhibit now being featured as special display.

MONDAY

Snyder Palette Club will have their annual sidewalk show on the North side of the square. Students from the Arts and Crafts Department of Snyder High School will also have articles for sell.

Weight Watchers of West Texas will meet at 1:30 p.m. at Martha Ann Woman's Club. New Members welcome.

TUESDAY

THURSDAY

Snyder Chapter of DAV & DAV Auxiliary will meet at 7:30 p.m. at the Union Community Center.

Snyder Garden Club willl meet at 12 noon at Martha Ann Woman's Club. Joe Reaves will present the program "An American Christmas."

ABWA will meet at 7 p.m. at Martha Ann Woman's Club with Alice Lane, hostess.

FRIDAY

Snyder Newcomers will have a Christmas party at 7:30 p.m. at Colonial Hill Baptist Church.

Open duplicate bridge at 1:30 p.m. at Snyder Country Club.

Christmas Bazaar and chili supper at Martha Ann Woman's Club beginning at 5 p.m.

SUNDAY

Open duplicate bridge at 1:30 p.m. at Snyder Country Club.

2 p.m.— "Stars Over Bethlehem", public show in the Western Texas College Planetarium. Tickets at the door.

Palette Club Sidewalk Sale Set Dec. 1

The Snyder Palette Club will have their annual sidewalk showing Monday, Dec. 1 from 9 a.m. to 5 p.m. on the north side of the square. Palette members will have crafts and paintings for sale.

Students from the Snyder High School Art Classes will also sell crafts and baked goods.

For an easy and economical meal, marinate cut-up broiler fryer in a sauce of 1 cup catsup, ½ cup syrup from canned cling peach halves, ½ cup Italian dressing and dash of Tabasco. Broil chicken slowly basting frequently. Just before serving drizzle peach halves with sauce, sprinkle with Parmesan cheese and broil.

Dr. Lamb

Good health and good sex

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB—I am a male and have enjoyed excellent health as well as a strong well-satisfying sex drive. Does good health promote and abet a sex drive, or is the sex drive likely responsible for the good health? Or is it merely a coincidence that both are found in the same person?

DEAR READER—Optimal health leads to a good sex drive. Anyone who is ill or below optimal health might not have the level of drive they would otherwise have. You can't expect either a man or a woman to be interested in sex if they ache or are totally exhausted.

Being in good health doesn't always mean you will have a high sex drive, though. Sex drive is related to many psychological factors. Some individuals have been taught from childhood that sex is evil, and such a person, even in good health, may be suppressing his or her real sex drive potential. Then there is naturally a difference in an individual's level of sex drive.

Having a good sex drive, though, does not always mean a person has no health problems. A case in point is the older lady with advanced spread of breast cancer taking male hormone to arrest the spread. In these cases, despite the desperate condition of the unfortunate woman, she may experience for the first time in years an unwanted strong sex urge. The hormones are the reason.

Another example is coronary artery disease of the heart. A vigorous man may be very active sexually and have a gradual silent accumulation of fatty-cholesterol deposits in his arteries. Suddenly he may experience a heart attack or sudden death, despite his previous apparent robust health. Coronary artery disease is a silent disease and often the first symptom is a heart attack or sudden death.

Fertility and sex drive are often markedly improved when a person is starved or malnourished and then starts getting a good diet. The individual feels better and is more interested in everything and that includes sex. Women on starvation diets as part of an ill-advised weight control program may lose their interest in sex and normal functions.

Sometime ago a woman asked me why, if nutrition was so important to sex life and fertility, the poor nations of the world and our own poor were the ones who populated the most.

She has a good point. In many of the overpopulated nations these individuals are relatively young. In a nation with a short life span the truth is the majority of their population is in the sexually active years and hence they have lots of births. This age of population factor, coupled with a lack of knowledge or taboos against birth control, is more of an influence than the poor diets. When you feed these people adequately their birth rate soars even more. That, coupled with decreasing infant mortality in such nations, often leads to a population explosion when the benefits of modern civilization arrive and are utilized.

Our own poor have many problems that I hope will be corrected, but their nutrition problems do not even begin to compare with the poor of many other nations. By those nation's standards, many of our poor are affluent and in good health.

DEAR DR. LAMB—I am a male, age 60, and have known of my diabetic condition for over six years. My problem is low energy about 60 per cent of the time and sore heels if I walk too much.

My doctor put me on three Orinase tablets per day at first, then about two years ago put me on one DBI capsule a day. My morning fasting blood sugar tests run from 130 to 150, and my urine tests are plus one most of the time on the test tape. My blood pressure is normal, and my weight is within my doctor's limits. I use no table sugar, but do use artificial sweetners moderately.

Do you have any suggestions to raise my energy level? Until about six years ago I could outwork and outwalk most people my age, now it is just the opposite.

DEAR READER—One of the symptoms diabetics may have is fatigue. It may be the symptom that leads to diagnosis.

The basic problem in diabetes is the lack of insulin action of enable glucose (sugar) to enter the cells. The glucose sugar is the form that all your carbohydrates and part of your protein are converted to for the cells to break them down and release energy. When the glucose can't get into the cells, the blood level goes up, and the energy level goes down. Remember your energy must come from breaking down food in the cell to release food energy.

For a more complete discussion on how diabetes works, you should send 50 cents for The Health Letter number 3-10, Diabetes: The Sweet Sickness. Write to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019. Include a long, stamped, self-addressed envelope for mailing. This will give you a better idea of what diabetes does to the body and why.

Insulin, as explained in The Health Letter, reverses the problem and releases energy from food. At the same time this lowers the blood glucose (sugar) level. Its action is not the same as you get from the oral diabetic pills and capsules.

You should know that the Food and Drug Administration has considered putting a warning label on oral diabetic medications, about their potential dangers. This may already have been done by the time this column appears. I think any patient on these medicines should review his status with his doctor and consider treatment with diet alone or if that cannot be done, the advisability of using insulin.

In your case with your energy problem, I would seriously wonder if you might n
more energy by using
the basic reasons I h
tioned here.

SNYDERITE IN BALLET—Danny Martin of Snyder is shown in the role of Gabriel for a special service to be presented by the Division of Ballet and Modern Dance at Texas Christian University. Some 60 dancers will participate in "A Day for Dancing" to be presented in three consecutive evenings at University Christian Church in Fort Worth, beginning this evening. The nine-movement work to celebrate the coming of the Christmas season is by Dr. Lloyd Pfautsch of Dallas. The TCU Chapel Choir and wind ensemble will accompany. Shown with Martin are Debra Norblom of Denver, Colo., as Mary, and Deborah Freed-Cooke as Mary's protectress.

ASTRO-GRAPH

Bernice Bede Osol

For Sunday, Nov. 30, 1975

ARIES (March 21-April 19) You have the innate ability today to inspire others to go forth and do things they know they should do, but for which they have previously lacked motivation.

TAURUS (April 20-May 20) Rejoice at the little flashes of brilliance that shine through an otherwise dull day. When you get a bright thought, follow through; don't belabor it.

GEMINI (May 21-June 20) You're better equipped for the short pull than the long haul today. Stick to tasks that require quick bursts of energy, then rest.

CANCER (June 21-July 22) A person you thought you know well will exhibit a far deeper perception than you thought she possessed. You'll be intrigued with the discovery.

LEO (July 23-Aug. 22) Don't bank too heavily on a quiet day at home today. Drop-ins are likely, but you'll relish playing host.

VIRGO (Aug. 23-Sept. 22) You are inclined to be restless today. Ease the tension by dropping in on a friend for a short visit.

LIBRA (Sept. 23-Oct. 23) You are amazingly resourceful today. You can make a fine profit on something that others would turn their noses up at.

SCORPIO (Oct. 24-Nov. 22) If something comes up on which you need to make a decision, seclude yourself and reason it out. Others would only confuse you.

SAGITTARIUS (Nov. 23-Dec. 21) You could feel pressed into a corner today, but don't fret. You'll work your way out in a manner that may amaze even you with its originality.

CAPRICORN (Dec. 22-Jan. 19) Concentrate on your newest interest today. Though it seems frivolous, later you will find you've laid a firm foundation.

AQUARIUS (Jan. 20-Feb. 19) You will do something by impulse that could amaze your friends and even yourself. After the surprise, reaction will be in your favor.

PISCES (Feb. 20-March 20) Fortune smiles, but fleetingly. If you pounce upon it at the first blush, you can capitalize on luck today. If you hesitate, all is lost.

Your Birthday

Nov. 30, 1975

Good things will happen to you this coming year so frequently they will almost seem monotonous. However, you can't rely totally on chance to get you out of sticky situations.

For Monday, Dec. 1, 1975

ARIES (March 21-April 19) In business negotiations today, take the long range view, rather than the immediate one. Plan ahead for your tomorrows.

TAURUS (April 20-May 20) This is a good day to bring to the surface little problems that have caused you troubles with a co-worker. They can be ironed out amicably.

GEMINI (May 21-June 20) If you approach your work in the proper frame of mind today your tasks will not be nearly as difficult as you imagined.

CANCER (June 21-July 22) You can't delegate the managerial role today on a matter requiring your personal supervision. Monitor everything.

LEO (July 23-Aug. 22) Be reasonable in family discussions today. If the majority sees things one way, it could be they're right and you're wrong.

VIRGO (Aug. 23-Sept. 22) This can be a profitable day for you businesswise if you're not afraid to bargain. Call the other guy's bluff if need be.

LIBRA (Sept. 23-Oct. 23) Give some thought today to better organizing your financial affairs. Returns will be greater if you plan well now.

SCORPIO (Oct. 24-Nov. 22) You needn't feel reluctant today about talking to one who is long overdue in repaying an obligation. Something can be worked out.

SAGITTARIUS (Nov. 23-Dec. 21) You have some information that could give you additional leverage in dealing with a friend. Use it cautiously.

CAPRICORN (Dec. 22-Jan. 19) A friend may impose upon you today for a favor. Do what you can to help. You'll be sowing seeds for your own good fortune.

AQUARIUS (Jan. 20-Feb. 19) Success will come to you today, but it won't be easy. Don't change plans unless you're positive they'll be improved.

PISCES (Feb. 20-March 20) Be on your toes today. You'll be the one to recognize pitfalls or advantages your associates won't perceive.

Your Birthday

Dec. 1, 1975

You'll be fortunate this coming year in dealings with large groups or organizations. Don't let size or stature lead you to believe you don't fit in.

(NEWSPAPER ENTERPRISE ASSN.)

Australia was the last continent to be discovered.

Price Of Cotton Futures Advance

NEW YORK (AP) — Prices of active cotton futures on the domestic market advanced for the second straight week, the New York Cotton Exchange said.

At the close Friday, No. 2 contracts were up 25 to 228 points on the week, following advances of 10 to 185 points a week earlier.

Trading volume in the holiday-shortened week was estimated at 1,045,100 bales, for a daily average of 261,300, compared with 1,848,100 and 369,600 respectively in the week previous.

Open interest as of Wednesday was 1,497,700 bales, up 81,300 from the preceding Friday.

The buying last week apparently reflected unfavorable weather in cotton growing states that might lower yields and the quality of the crop. The exchange said buying also was stimulated by improved cotton mill activity.

Dr. Lamb

Good health and good sex

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB—I am a male and have enjoyed excellent health as well as a strong well-satisfying sex drive. Does good health promote and abet a sex drive, or is the sex drive likely responsible for the good health? Or is it merely a coincidence that both are found in the same person?

DEAR READER—Optimal health leads to a good sex drive. Anyone who is ill or below optimal health might not have the level of drive they would otherwise have. You can't expect either a man or a woman to be interested in sex if they ache or are totally exhausted.

Being in good health doesn't always mean you will have a high sex drive, though. Sex drive is related to many psychological factors. Some individuals have been taught from childhood that sex is evil, and such a person, even in good health, may be suppressing his or her real sex drive potential. Then there is naturally a difference in an individual's level of sex drive.

Having a good sex drive, though, does not always mean a person has no health problems. A case in point is the older lady with advanced spread of breast cancer taking male hormone to arrest the spread. In these cases, despite the desperate condition of the unfortunate woman, she may experience for the first time in years an unwanted strong sex urge. The hormones are the reason.

Another example is coronary artery disease of the heart. A vigorous man may be very active sexually and have a gradual silent accumulation of fatty-cholesterol deposits in his arteries. Suddenly he may experience a heart attack or sudden death, despite his previous apparent robust health. Coronary artery disease is a silent disease and often the first symptom is a heart attack or sudden death.

Fertility and sex drive are often markedly improved when a person is starved or malnourished and then starts getting a good diet. The individual feels better and is more interested in everything and that includes sex. Women on starvation diets as part of an ill-advised weight control program may lose their interest in sex and normal functions.

Sometime ago a woman asked me why, if nutrition was so important to sex life and fertility, the poor nations of the world and our own poor were the ones who populated the most.

She has a good point. In many of the overpopulated nations these individuals are relatively young. In a nation with a short life span the truth is the majority of their population is in the sexually active years and hence they have lots of births. This age of population factor, coupled with a lack of knowledge or taboos against birth control, is more of an influence than the poor diets. When you feed these people adequately their birth rate soars even more. That, coupled with decreasing infant mortality in such nations, often leads to a population explosion when the benefits of modern civilization arrive and are utilized.

Our own poor have many problems that I hope will be corrected, but their nutrition problems do not even begin to compare with the poor of many other nations. By those nation's standards, many of our poor are affluent and in good health.

DEAR DR. LAMB—I am a male, age 60, and have known of my diabetic condition for over six years. My problem is low energy about 60 per cent of the time and sore heels if I walk too much.

My doctor put me on three Orinase tablets per day at first, then about two years ago put me on one DBI capsule a day. My morning fasting blood sugar tests run from 130 to 150, and my urine tests are plus one most of the time on the test tape. My blood pressure is normal, and my weight is within my doctor's limits. I use no table sugar, but do use artificial sweeteners moderately.

Do you have any suggestions to raise my energy level? Until about six years ago I could outwork and outwalk most people my age, now it is just the opposite.

DEAR READER—One of the symptoms diabetics may have is fatigue. It may be the symptom that leads to diagnosis.

The basic problem in diabetes is the lack of insulin action of enable glucose (sugar) to enter the cells. The glucose sugar is the form that all your carbohydrates and part of your protein are converted to for the cells to break them down and release energy. When the glucose can't get into the cells, the blood level goes up, and the energy level goes down. Remember your energy must come from breaking down food in the cell to release food energy.

For a more complete discussion on how diabetes works, you should send 50 cents for The Health Letter number 3-10, Diabetes: The Sweet Sickness. Write to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019. Include a long, stamped, self-addressed envelope for mailing. This will give you a better idea of what diabetes does to the body and why.

Insulin, as explained in The Health Letter, reverses the problem and releases energy from food. At the same time this lowers the blood glucose (sugar) level. Its action is not the same as you get from the oral diabetic pills and capsules.

You should know that the Food and Drug Administration has considered putting a warning label on oral diabetic medications, about their potential dangers. This may already have been done by the time this column appears. I think any patient on these medicines should review his status with his doctor and consider treatment with diet alone or if that cannot be done, the advisability of using insulin.

In your case with your energy problem, I would seriously wonder if you might not get far more energy by using insulin for the basic reasons I have mentioned here.

DEAR DR. LAMB—I have heard that there is a lot of food value in beer and that it also helps to restore your memory. Is this true?

DEAR READER—That's mostly wishful thinking. Beer contains a lot of calories, nearly 200 in a pint. Those calories come from its alcohol content. It does not contain any important amounts of vitamins or minerals or provide any bulk.

Far from improving your memory, an excess, regular intake of beer damages brain cells and leads to loss of mental ability. An autopsy, the brain from the alcoholic is often shrunken and gives the appearance of premature aging.

Agnew Critical Of China Trip

HONG KONG (AP) — Former Vice President Spiro Agnew says President Ford's forthcoming trip to China is "a mistake."

Agnew, who arrived here Friday for a three-day visit, said, "I think it's about time for Mr. Chou En-lai — well I realize he is very ill — or some important leaders from China to visit the United States."

Agnew will leave for Taiwan on Monday.

SNYDERITE IN BALLET—Danny Martin of Snyder is shown in the role of Gabriel for a special service to be presented by the Division of Ballet and Modern Dance at Texas Christian University. Some 60 dancers will participate in "A Day for Dancing" to be presented in three consecutive evenings at University Christian Church in Fort Worth, beginning this evening. The nine-movement work to celebrate the coming of the Christmas season is by Dr. Lloyd Pfautsch of Dallas. The TCU Chapel Choir and wind ensemble will accompany. Shown with Martin are Debra Norblom of Denver, Colo., as Mary, and Deborah Freed-Cooke as Mary's protectress.

In the matter of the marriage of Mae Clinkinbeard and Charles William Clinkinbeard, divorce granted.

In the matter of the marriage of Anniece Camille Johnson and Turner James Johnson, divorce granted.

Gov. Pryor And Wife Separated

LITTLE ROCK, Ark. (AP) — Gov. David Pryor and his wife, Barbara, have separated, the governor's office announced on the Pryors' 18th wedding anniversary.

Neither Pryor, 41, nor his wife, 37, could be reached for comment.

A statement issued Friday said Mrs. Pryor would live at the couple's recently purchased home on Lake Hamilton near Hot Springs and the governor would remain at the governor's mansion in Little Rock.

The statement said nothing about divorce.

The Pryors' three children — David Jr., 15; Mark, 12; and Scott, 9 — will remain at the governor's mansion at least temporarily, the statement said.

Mrs. Pryor was hospitalized last February for what official announcements described as exhaustion. Aides to the governor said Mrs. Pryor began undergoing psychiatric counseling.

ASTRO-GRAPH

Bernice Bede Osol

For Sunday, Nov. 30, 1975

ARIES (March 21-April 19) You have the innate ability today to inspire others to go forth and do things they know they should do, but for which they have previously lacked motivation.

TAURUS (April 20-May 20) Rejoice at the little flashes of brilliance that shine through an otherwise dull day. When you get a bright thought, follow through, don't belabor it.

GEMINI (May 21-June 20) You're better equipped for the short pull than the long haul today. Stick to tasks that require quick bursts of energy, then rest.

CANCER (June 21-July 22) A person you thought you know well will exhibit a far deeper perception than you thought she possessed. You'll be intrigued with the discovery.

LEO (July 23-Aug. 22) Don't bank too heavily on a quiet day at home today. Drop-ins are likely, but you'll relish playing host.

VIRGO (Aug. 23-Sept. 22) You are inclined to be restless today. Ease the tension by dropping in on a friend for a short visit.

LIBRA (Sept. 23-Oct. 23) You are amazingly resourceful today. You can make a fine profit on something that others would turn their noses up at.

SCORPIO (Oct. 24-Nov. 22) If something comes up on which you need to make a decision, seclude yourself and reason it out. Others would only confuse you.

SAGITTARIUS (Nov. 23-Dec. 21) You could feel pressed into a corner today, but don't fret. You'll work your way out in a manner that may amaze even you with its originality.

CAPRICORN (Dec. 22-Jan. 19) Concentrate on your newest interest today. Though it seems frivolous, later you will find you've laid a firm foundation.

AQUARIUS (Jan. 20-Feb. 19) You will do something by impulse that could amaze your friends and even yourself. After the surprise, reaction will be in your favor.

PISCES (Feb. 20-March 20) Fortune smiles, but fleetingly. If you pounce upon it at the first blush, you can capitalize on luck today. If you hesitate, all is lost.

Your Birthday

Nov. 30, 1975

Good things will happen to you this coming year so frequently they will almost seem monotonous. However, you can't rely totally on chance to get you out of sticky situations.

(NEWSPAPER ENTERPRISE ASSN.)

For Monday, Dec. 1, 1975

ARIES (March 21-April 19) In business negotiations today, take the long range view, rather than the immediate one. Plan ahead for your tomorrows.

TAURUS (April 20-May 20) This is a good day to bring to the surface little problems that have caused you troubles with a co-worker. They can be ironed out amicably.

GEMINI (May 21-June 20) If you approach your work in the proper frame of mind today your tasks will not be nearly as difficult as you imagined.

CANCER (June 21-July 22) You can't delegate the managerial role today on a matter requiring your personal supervision. Monitor everything.

LEO (July 23-Aug. 22) Be reasonable in family discussions today. If the majority sees things one way, it could be they're right and you're wrong.

VIRGO (Aug. 23-Sept. 22) This can be a profitable day for you businesswise if you're not afraid to bargain. Call the other guy's bluff if need be.

LIBRA (Sept. 23-Oct. 23) Give some thought today to better organizing your financial affairs. Returns will be greater if you plan well now.

SCORPIO (Oct. 24-Nov. 22) You needn't feel reluctant today about talking to one who is long overdue in repaying an obligation. Something can be worked out.

SAGITTARIUS (Nov. 23-Dec. 21) You have some information that could give you additional leverage in dealing with a friend. Use it cautiously.

CAPRICORN (Dec. 22-Jan. 19) A friend may impose upon you today for a favor. Do what you can to help. You'll be sowing seeds for your own good fortune.

AQUARIUS (Jan. 20-Feb. 19) Success will come to you today, but it won't be easy. Don't change plans unless you're positive they'll be improved.

PISCES (Feb. 20-March 20) Be on your toes today. You'll be the one to recognize pitfalls or advantages your associates won't perceive.

Your Birthday

Dec. 1, 1975

You'll be fortunate this coming year in dealings with large groups or organizations. Don't let size or stature lead you to believe you don't fit in.

(NEWSPAPER ENTERPRISE ASSN.)

Australia was the last continent to be discovered.

Price Of Cotton Futures Advance

NEW YORK (AP) — Prices of active cotton futures on the domestic market advanced for the second straight week, the New York Cotton Exchange said.

At the close Friday, No. 2 contracts were up 25 to 228 points on the week, following advances of 10 to 185 points a week earlier.

Trading volume in the holiday—shortened week was estimated at 1,045,100 bales, for a daily average of 261,300, compared with 1,848,100 and 369,600 respectively in the week previous.

Open interest as of Wednesday was 1,497,700 bales, up 81,300 from the preceding Friday.

The buying last week apparently reflected unfavorable weather in cotton growing states that might lower yields and the quality of the crop. The exchange said buying also was stimulated by improved cotton mill activity.

CONDUCT REVIVAL—Evangelists Billy and Bettye Nickell of Andrews will conduct revival services beginning today at Bethel Assembly of God Church, 1411 Twenty-fifth Street. The revival will continue through Sunday, Dec. 7. The Rev. Wayne Ziegler, pastor of the church, said services would be held Sunday evening at 6 o'clock and week-day evenings at 7:30. The public is invited to all services.

GOT OVER $100,000

Texas Doctors In HEW Report

WASHINGTON (AP) — Department of Health, Education and Welfare records show that 28 Texas doctors are among 207 physicians in private practice nationwide who received $100,000 or more from the Medicaid program last year.

But John A. Svahn, acting administrator of HEW's Social and Rehabilitative Service (SRS), says "The fact that these physicians received the stated amounts from the Medicaid program should not be construed as any evidence of wrongdoing." Svahn added that the amounts listed do not necessarily represent "earnings" or "profits."

One of the Texas physicians, Dr. E.J. Mason of Dallas, called the HEW report "slanted."

"This is a slanted view because there are certain areas which are highly welfare-populated," he said. "The volume is that great. You're seeing a lot of patients, but you're not making a lot of money on them."

Mason said the amount he received through Medicaid was only partial payment for services rendered. He said many of his patients are treated and later determined to be ineligible for assistance, but are unable to pay the bills.

Dr. M. L. Coleman, who is engaged in family practice in east central Dallas, said he sees about 70 patients a day—about 55 of them are on welfare.

"I happen to be in an inner city area," Coleman said, "and I don't have control over the types of patients I have."

Here are the names of the Texas physicians, their addresses and the amounts they received:

Oliva, Damaso A., P.O. Box 13176, San Antonio $215,185; Coleman, J. B., 5445 Almeda, Houston $169,121; Mason, E. J., 2516 Forest Avenue, Dallas $152,446.

Also, Coleman, M. L., 1711 No. Garrett, Dallas $151,003; Garcia, Romey, 112 Cotillion, San Antonio $147,447; Craig, Pierre G., 1420 Forest, Dallas $142,974; Wolff, N.H., 6601 Laura Koppe, Houston $139,650; Rocha, Carlos F. 1110 El Paso Street, San Antonio $138,704; Louis, Alfred R., 8109 Cullen Blvd., No. E, Houston $135,948; Rodriquez, Francisco J., 312 E. Church Street, Livingston $134,202; Muzza, Hugo E., 4006 Nogalitos, San Antonio $131,174.

Also, Gamboa, Jose J., 6315 S Zarzarmora, No. A, San Antonio $127,701; Thaggard Jr., Alvin, 120 Med. Professional Bldg., San Antonio $119,180; Thompson, Frank W., 307 Dallas N. Shopping Center, Dallas $118,348; Velez, Enrique, 934 Patricia, San Antonio $118,268; Watson, James C. 8803 Scott, Houston $115,156; Madiedo, Eduardo, 730 N Main, No. 52, San Antonio $114,345; Cavazos, Antonio, 343 W Houston No. 312, San Antonio $112,840; Saller, Christi L., 4407 Yoakum, Houston $111,716; Garcia, Antonio, 2000 Crawford, No. 11, Houston $110,620.

Also, Garcia, L. Richard, 311 Camden, San Antonio $106,546; Dorsey, Eugene, W., 2524 Forest, Dallas $108,019; Hadnott, J., 710 Augusta, San Antonio $106,546; Hilliard, R.L., 710 Augusta, San Antonio $106,417; Samaniego, Hector X., 1723 Buena Vista, San Antonio $104,122; Molina, Marcel, 8830 Long Point, Houston $102,656; Marcos, Guillermo, 102 Congress Street, San Antonio $102,101; Robinson, Herbert J., 2201 Main, Dallas $101,971.

Mini-Session Slate Revised

A revised class schedule has been announced for the mid-winter mini-session at Western Texas College.

The hours will be 8:30-11 a.m. and 12:30-2 p.m. for a total of four and a half clock hours per day. Classes will meet Monday through Saturday from Dec. 30-Jan. 10 with the exepctions of Jan. 1 and 4.

Enrollment for the mini-session will open Dec. 12 and continue through Dec. 30. A minimum of 15 students will be required to form each class.

Dear Abby

Second Spouse Sick of Playing Second Fiddle

By Abigail Van Buren

© 1975 by Chicago Tribune-N.Y. News Synd., Inc.

DEAR ABBY: I am 27 and my wife is 24. It's Eldora's second marriage. She was married for eight years to a man who was 15 years older than she was, and they had one child.

Abby, I really love Eldora and her son, but we've been married only four months and she's left me five times! She stays away about a week each time. She packs up and says she's going to her mother's.

The last time she left, I found out she went back to her ex-husband.

When she came home, she told me they had lived as man and wife again, and she thinks she loves him more than me because he is the father of her child. Also, she says he is a much better lover than I am. (How is that for an insult?) On the other hand, she says he is a jealous man who treats her rough and likes to run with other women.

I love Eldora and would do anything to keep her home, but how can I arrange it? This running back and forth is no good. Please help me. Maybe I need someone to tell me to kick her fanny out for good.

TROUBLED IN N.J.

DEAR TROUBLED: Tell Eldora exactly how you feel about her off-again-on-again relationship with her "ex." Insist on an "all-or-nothing" marriage. And if Eldora isn't willing to be a faithful wife to you, kick her fanny back to her "ex" with no regrets.

DEAR ABBY: My husband and I made a long trip to another city to visit my son and his family.

The first evening, our son came home so late for dinner that we had to eat without him.

The second night, my husband and I dined alone since my son and his wife had a previous invitation for dinner.

The third night, they asked us if we minded babysitting again while they called on friends.

The fourth night, we were asked if we'd stay with the children again while they went to a party.

The next day, we said we had to go home, and they acted very hurt because they hadn't seen hardly enough of us!

Abby, when parents visit their married children whom they do not see for months at a time, should they be expected to be unpaid babysitters?

USED IN PITTSBURGH

DEAR USED: No. And if it happens to you again, you asked for it.

DEAR ABBY: Joe and I have been married for five months, and our problem is Joe's old buddy, Le Roy. He's 23 and single, and he can't seem to get it through his head that Joe and I are married now and would like to be alone.

Le Roy makes a date with a girl, stands her up and sits at our place all evening, just watching TV or playing cards with us.

He'll come to our place right after work, just like he lives here. I've been setting the supper table for three almost every night since I've been married, and I'm tired of it.

Joe says he wishes Le Roy would bug off, but he doesn't want to hurt his feelings. I hate to say anything because Joe and Le Roy have been like brothers since they were kids, and I don't think it's my place to do the talking.

So what do you say?

FED UP

DEAR FED UP: It's your husband's place to tell his old buddy that newlyweds need a little privacy. And if he doesn't tell him, it means that he isn't as fed up with him as you are—in which case, you should tell Le Roy as nicely as possible not to come around so often.

Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 69700, L.A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

Texas Construction Lags Behind 1974

AUSTIN, Tex. (AP) — Construction authorized in Texas continues to lag behind 1974 figures, but not by as much as a month ago, reports the Bureau of Business Research.

October figures cut the decline in construction value from 10 per cent for the year to seven per cent.

Residential construction did even better, narrowing the gap to less than 1 percentage point, with single-family homes leading the way with a 19 per cent increase over 1974 figures.

Six areas show gains over last year's figures for total construction value: Abilene, Amarillo, Houston, Killeen-Temple, McAllen-Pharr-Edinburg and Wichita Falls.

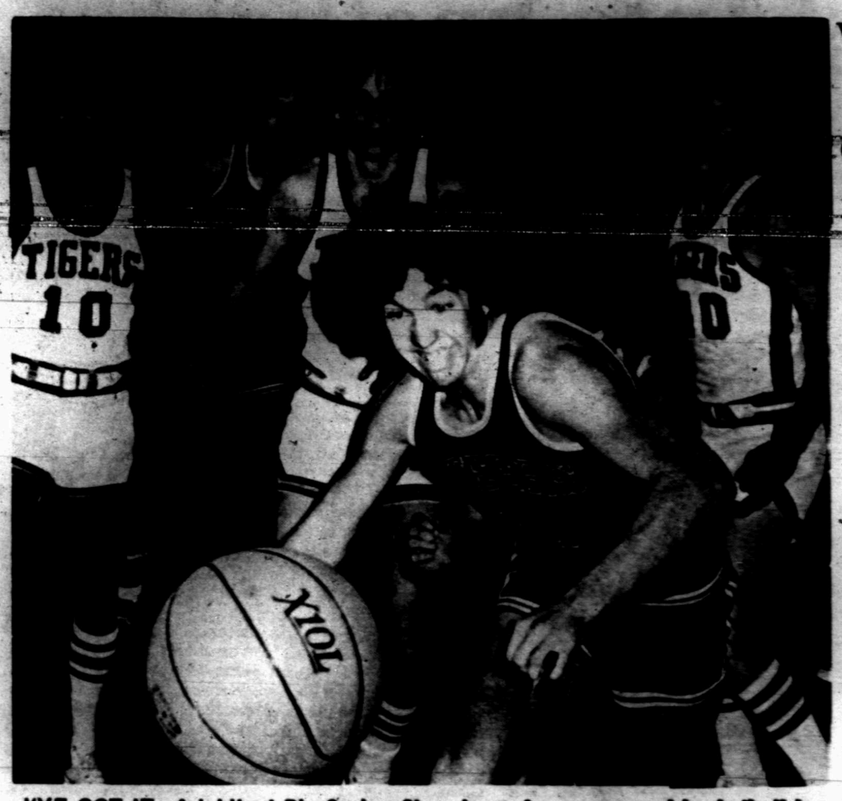
THE SNYDER DAILY NEWS

SECTION B, NOV. 30, 1975



I'VE GOT IT—A jubilant Big Spring Steer leaps for a wayward basketball in Friday night's game with the Snyder Tigers, as he surges in front of three Snyder Tigers, from left, Thomas Selmon, Dane Witherspoon and Joey Arnold. The Tigers prevailed, 81-53.

Tigers Are Impressive In Victory Over Steers

The Snyder Tigers evened their season basketball record at 2-2 with an impressive 81-53 victory over the Class AAAA Big Spring Steers Friday night in the Scurry County Coliseum.

Snyder outpointed the visitors in every period. The hosts took a convincing 23-6 first quarter lead, then increased that lead to 42-19 at the half. The third period was fought on nearly even terms with Snyder prevailing over the Steers by one point, 17-16, to give the Tigers a 59-35 difference going into the final frame.

The Tigers ran a single post offense in the game with a man-to-man defense. After the first quarter, the Steers came out with a full-court press, but it caused few Tiger errors. Big Spring again tried to use this press in the latter part of the third period, and in the fourth frame, against the reserves, but again it worked with little success.

In the initial period, the Tigers hit several outside shots, but in the remainder of the contest Snyder was able to work the ball in for inside tosses or come up with easy lay-ups.

Five different Tigers were in double figures, led by the game's leading scorer, Randy Gressett, who rang the hoops for 19 points. He tallied on eight field goals and three free throws.

Also in twin figures for the Tigers were Kenny Thompson who roped 15 points, Ray Brandon who pitched in 14, Chester Cobb who ripped the cords for 12, and Dane Witherspoon who added 11.

Ray and Aldridge paced the Steers with 13 and 10 points respectively.

Snyder tallied 19 of 31 tosses from the charity line for 61 per cent, while Big Spring countered with nine of 14 for 64 per cent.

In the Junior Varsity tilt, Snyder broke open a close contest in the second half to pick-up a 63-42 win over the younger Steers.

Big Spring had outpointed Snyder in the first frame 10-9, then the two squads had fought on even terms in the second frame, 9-9 to give the visitors a 19-18 halftime lead.

Snyder in the second half outpointed the Steers 21-11 in the third period, and 24-12 in the final frame. Randy Courtney tallied 17 points in the deciding half, and Tony Cobb netted 12. Courtney finished the night with an impressive 27 points. Cobb picked-up 14.

Steven Evans led the visitors with 14 points.

The Tigers only loss of the night was in the sophomore tussle, which the Steers captured 64-44.

Big Spring outscored Snyder in the first period 23-12, before the Tigers rallied to pull within seven at 35-28 at the half. The Steers put away the contest in the second half outpointing the host 15-4 in the third period, and 14-12 in the final frame.

Richard Willis and Earl Clayton sparked the Snyder attack with 13 and 12 points respectively. Wright of Big Spring was the game's leading scorer with 20 points.

On the year, the Junior Varsity is now 4-0, while the sophomores stand 2-2.

Next Tuesday the Varsity and Junior Varsity will host Morton in the coliseum in 6 p.m. and 8 p.m. encounters.

Tight Race Due In Juco League

The Western Junior College Athletic Conference opens its play for keeps Monday night and indications are it won't be a one-team race like it was a year ago.

Western Texas College of Snyder went through the campaign without a loss—a rarity in itself. But the Westerners may have been one of the best junior college team in Texas history as they went on to win the national championship.

Coach Mike Mitchell's cagers were undefeated going into Thanksgiving weekend play, but so were Amarillo, the pre-season favorite, and New Mexico Military Institute.

Also to be reckoned with is Howard College, which has lost only one game, to strong College of the Mainland by a point.

And South Plains has been impressive, too. It won five of its first seven games, losing to strong Navarro and McLennan.

Odessa's only loss was that 10-pointer to Howard College going into last week.

But Monday, the past is forgotten. Amarillo goes to Midland to welcome that college into the conference, while Western Texas opens its title defense at Clarendon. Frank Phillips goes to New Mexico Junior College, Howard College hosts NMMI in the feature game and Odessa hosts South Plains.

NMMI has one of the most impressive wins, whipping Seminole JC, 75-69. Seminole usually is highly regarded nationally.

Marvin Johnson of Howard College is averaging over 33 points a game for the Hawks after the first nine games. Amarillo has good balance as Darrell Hollimon averaged 22 points, Alonzo Campbell 20 and Mike Creighton 18 after the first

Western Teams To Clarendon

The Western Texas College Westerners and the Western Texas College Pioneers open conference competition at Clarendon Junior College Monday night. Tipoff in the women's game is on tap for 6 p.m., and it will be followed by the men's game.

Both WTC teams are talented this season. The Westerners were 6-0 going into the finals of the Wool Bowl Tournament Saturday while the Dusters are 4-0.

Coach Mike Mitchell of the Westerners probably will start Stanley Covington, 6-0 sophomore from Washington, D.C., and Lawrence Butler, 6-3 freshman from Glasgow, Mo., at guard; Tyrone Clopton, 6-6 sophomore from Washington, D.C., and Darryl Smith, 6-8 freshman from College Park, Ga., at forward, and Larry Orton, 6-8 freshman from Portsmouth, Va., at post.

Coach Sid Simpson of the Dusters had to revamp his lineup due to injuries. Probable starters are Theresa Beal, 5-10 sophomore from Coahoma, at post; Marilyn Payton, 5-11 freshman from Lubbock, and Karen Arp, 5-9 freshman from Ropesville, at forward; and, Rosemary Scott, 5-8 freshman from Slaton, and Dale Mitchel, 5-9 sophomore from Coahoma, at guard.

Simpson said Temi Baker, 5-8 freshman from Knox City, Becki Cranford, 5-5 freshman from Greenwood, Tootie Stevenson, 5-8 freshman from Seagraves, and Brenda Jurecek, 6-2 freshman from Eola, also will see a lot of action.

Possible starters for Clarendon include Jacqualine Graham, Stacy Fisher, Carole Vincent, Ann Vincent, and Condren. Fisher, Graham and Condren are all six feet in height and Graham is the leading scorer.

Clarendon's women are 2-1 for the season, their only loss being a 30 point setback by the Dusters.

"That game was close until we pressed them," pointed out Coach Simpson. He said he expects a real tough game.

"The score in the first game is not indicative of their strength," he said.

Annie Tillman, 5-10 freshman post from Lubbock, is the regular starter at post for the Dusters, but is a doubtful starter due to injuries.

"She may see some action," Simpson said. Baker is a forward, Cranford and Stevenson guards, and Jurecek is a post.

Both teams are expected to press a lot.

Cougars Finish A Bleak Season

By MICHAEL A. LUTZ
AP Sports Writer

HOUSTON (AP) — For the past decade, University of Houston football fans have gloated about how their Cougars would do against Southwest Conference competition.

They pointed to Bill Yeoman's 87-46-6 record and the veer option offense he developed into one of the most prolific ground-gaining alignments in the game's history.

The Cougars set an NCAA record 562 yards per game average in total offense in 1968 and have consistently finished among the top 20 ranked teams in the nation.

Fans could quote an impressive list of athletes Yeoman tutored into the professional ranks.

Comparing the Cougars to SWC competition heightened in 1971 when Houston was admitted to the SWC and fans eagerly awaited the 1976 season, the first in which the Cougars would compete for football championship.

Suddenly, 1976 is almost here and the Cougars, after posting an 8-3 record in 1974 and battling North Carolina State to a tie in the Astro-Bluebonnet Bowl, are faced with their first losing season in 11 years.

Houston's offense, in years past synonymous with eye-popping yardage statistics, has dropped back to normal standards and their record dropped to 1-8 going into Saturday night's finale against Tulsa.

Yeoman describes the Cougars' downfall in one word—youth. There are 16 freshmen on Houston's first two units. Dunnie McGraw was the only senior to start on offense in the UH final game.

Not being able to build onto the football has been another cause for the Cougar offense to sputter to 333 total yards per game. Houston has fumbled 47 times in nine games and lost

"We've contributed greatly to our demise," Yeoman said. "Not to discredit our opponents, but we've never been so generous in our history."

Last week's 33-32 loss to Florida State, which had won only two games, was typical of Houston's fumbling. The Cougars lost four of six fumbles.

Houston's demise has caused at least one starter, offensive tackle David Brooks, to quit the team and others may have thought about it. But freshman tackle Theodis Williams, who sees brighter days ahead is trying to keep the team together.

"Some of the guys have wanted to quit," Williams said. "But we won't let them—me David Hodge, Robert Oglesby, Chuck Brown and Sammy Privett.

"We don't know each other that well yet but we should win seven or eight games next year and we could have a super team the year after that."

Yeoman is hoping Williams' optimism is contageous.

Columbia Picks Grid Captains

NEW YORK (AP) — Dave McAvoy and Ed Backus have been elected co-captains of the 1976 Columbia University football team, it was announced today.

McAvoy is a wide receiver and Backus a defensive back. Both are juniors.

Morton Facing Cowboys Today

By DENNE H. FREEMAN
AP Sports Writer

DALLAS (AP) — New York Giant quarterback Craig Morton makes his first Texas Stadium appearance Sunday since he was traded by the Dallas Cowboys and former Coach Tom Landry hopes the Giant receivers continue their deep sleep.

Dallas, shooting for a National Football League playoff berth in the National Conference Eastern Division just one game behind St. Louis, was a heavy favorite to hand the Giants their fourth consecutive loss.

New York fell 40-14 to Green Bay last week and receivers dropped seven of Morton's passes.

"It was the worst performance of any team I've ever been associated with," said Giant Coach Bill Arnsparger.

Although Dallas has beaten the Giants twice in New York with Morton at the helm Landry still worries because Morton knows the Cowboy defense so well.

"Craig is very capable and he does know our defensive scheme," said Landry.

The Cowboys also know Morton's weaknesses which include, according to assistant coach Ermal Allen, the inability to scramble away from a rush.

"Craig likes to backup in the pocket, he has a good mind, and can read coverage," said Allen, "But he can't stand a pass rush. He can be trapped because he doesn't scramble well."

Dallas has a wide edge over the Giants in their overall series with a 17-9-2 record but New York has always played well in Texas Stadium, beating the Cowboys there in 1972 and 1974.

The Cowboys stayed on the ground in a 27-17 victory over Philadelphia last Sunday as Roger Staubach effectively mixed Robert Newhouse's runs with short screen passes to Preston Pearson. Staubach was bothered by a sore shoulder which is much better this week.

However, Pearson, the only player on the team who wasn't drafted, was a questionable starter because of a bruised kidney.

Dallas' defense has surrendered a total of over 100 points in the last four games with dramatic letdowns in the fourth quarter each week.

"We've played so many close games I think it has just become a habit for our defense to letdown when we get far ahead," said Landry. "We've got to start playing consistent football or I'm afraid we won't make the playoffs."

Dallas was 7-3 and New York 3-7 going into the 1 p.m. CST kickoff before a less than capacity 65,000 in Texas Stadium.

Penalty Box Is Scene Of Crime

LONDON, Ont. (AP) — The heavily guarded penalty box at London Gardens was the scene of a crime just prior to Friday's Ontario Hockey Association Major Junior A game between the London Knights and Kingston Canadians.

TURNING THE CORNER—Crowell's Rocky Glasscock turns the corner for a good gain in Friday night's regional Class A football playoff game in Tiger Stadium as an unidentified Wildcat blocks Seagraves' Robert Tamez. Coming up to assist on degense is Ken Randolph (50). Seagraves took a close, 6-3, decision to advance in the playoffs.

Lone Pass Decisive As Seagraves Wins By 6-3

Seagraves quarterback Bryan Hawkins completed only one of five passes during the Eagles' Regional Class A football battle with the Crowell Wildcats here Friday night, but that one completion proved to be the big difference in the game as the Eagles escaped with a 6-3 victory.

They will meet New Deal, 13-0 conqueror of Sanford-Fritch, in the quarterfinals this week.

Trailing 3-0 going into the third quarter, Seagraves took the second half kickoff and marched 65 yards to pay dirt in 12 plays. The payoff was a 20 yard pass and run play, Hawkins to left end Brad Woods. Woods crossed over to the right flat, made the reception all alone at the 15 yard line, and easily raced untouched into the end zone for the game's only touchdown. Noe Suniga's extra point kick was blocked by Rocky Marlow, but the state's top-ranked Class A team had itself a 6-3 lead with 7:19 remaining. Two of Hawkins' passes were intercepted and the other two were incomplete.

Fleet halfbacks Kenny Jackson and Robert Tamez and fullback Mike Hoover all contributed valuable yardage in the march. All of the yardage except the touchdown pass was covered on quick openers overland, and the biggest gain except the payoff pitch was a 12 yard romp by Jackson.

Credit must be given to the Eagle defense, led by linebacker Julian Flores, for preserving the victory. Three times the Seagraves defenders slammed down Wildcat backs for no gain on 4th and one situations that halted important drives. And, each time Flores and middle guard Danny Billings played key roles in the crucial defensive plays.

It was a hard-hitting, tough defensive battle all the way. Woods, who also plays safety for Seagraves, turned in a couple of defensive gems in the fourth quarter, intercepting aerials by Crowell quarterback Tommy Tamplen twice to stop drives. The last interception enabled the Eagles to run out the clock when it appeared Crowell might be able to get within field goal range.

Crowell's David Bell, 200 pound senior halfback, had put the Wildcats ahead at 6:04 of the second quarter on a 41 yard field goal.

The Wildcats had launched a drive from their 34 in the first quarter following an interception by Myron Halencak and had moved the ball on the ground all the way to the Seagraves 25 before an aroused Eagle defense forced them to go for the field goal. Quarterback Tamplen, halfbacks Bell and Rocky Glasscock and fullback Ronnie Swan all contributed yardage in the march that produced the three points.

Crowell actually outgained Seagraves, getting 244 yards on the ground plus 23 through the air, compared with 196 rushing and 20 passing for the Eagles. The 'Cats also led in first downs, 12-9, but the penetrations were even at one each.

Crowell threatened twice more in the first half, driving from its 21 to the Eagle 19 in six plays, in the first quarter and from its 17 to the Eagle 23 in seven plays in the second quarter. That first drive included a 22 yard romp by Bell and a 27 yard ramble by Glasscock, but Billings slammed Bell down for no gain on a 4th and one situation at the 19. All Crowell got out of the march was the first penetration.

That second drive occurred late in the second quarter and was highlighted by a 33 yard run by Glasscock. With only seconds remaining in the half and operating from the Seagraves 23, Crowell elected to go for it and Bell was thrown for a seven yard loss when Flores crashed through from his linebacker position and dumped him at the 30 as time ran out. Had they gone for another field goal, they could have won the game on first downs the way things turned out.

Glassocck was the game's leading ball carrier with 126 yards on 23 carries. Jackson netted 95 on 16 efforts for the Eagles.

Seagraves drove from its 19 to the 'Cat 30 in the first quarter, but a holding penalty halted the drive. The Eagles were unable to cross midfield in the second stanza.

Crowell drove from its 30 to the Eagle 21 in the third quarter, mainly on power sweeps by Glasscock, but Flores stopped this march on a 4th and one effort at the Eagle 21.

Seagraves drove from the 'Cat 40 to the 21 following Woods' first interception, but that was the most significant drive by the Eagles in the fourth quarter. Crowell made a last gasp, moving from its 25 after making a defensive stand itself, to the Eagle 48 with Tamplen completing three short passes in succession. However, Woods' last interception stopped the drive and the Eagles ran out the clock.

An ability to come up with the big defensive play when the chips were down combined with Hawkins' one completion accounted for the difference in the game.

Bobbling Bruins Relish Rematch

LOS ANGELES (AP) — UCLA has given Ohio State something to think about. Now all Woody Hayes has to do is figure out what it is.

The 14th-ranked Bruins earned a place in the Rose Bowl for the first time in a decade and a rematch with Ohio State with a tense 25-22 victory over Southern California despite an incredible 11 fumbles.

"I don't care about the fumbles, I don't care how bad we played," said UCLA quarterback John Sciarra emphatically.

"We're going to the Rose Bowl and that's all that matters."

When the Bruins weren't letting loose of the ball they were letting go an overwhelming offensive show that ran up 414 yards against USC's respected defense with Sciarra throwing two touchdown passes to tight end Don Pederson. Wendell Tyler, who had four fumbles, ran for 130 yards including a 57 yard touchdown punt.

But it was the Bruin defense, a subject of derision much of the year, that saved the day, stopping Southern Cal drives four times in the fourth quarter. The Bruins gave up the ball eight times on fumbles, twice in the final five minutes, but the UCLA defense came through both times.

Ohio State, top ranked and unbeaten, is coming to Pasadena as the Big Ten champions.

UCLA, 8-2-1 overall, won the Pacific—8 Conference spot in the Rose Bowl with a 6-1 conference record, the same league mark as California. But the Bruins defeated Cal earlier and earned their first appearance in the New Year's Day Classic since Jan. 1, 1966 by winning their last three games of the season.

The Buckeyes whipped UCLA 41-20 earlier this season although there were some bright spots for the Bruins. For example, no one else has scored three touchdowns against the Buckeyes this fall.

Southern Cal, bound for the Liberty Bowl with a 7-4 mark, got 286 yards total offense against the Bruins — 136 of it on the ground by Ricky Bell, who finished the regular season with 1,875 yards — six short of Ed Marinaro's NCAA single season record.

Backup Signal-Callers Thrust Into Spotlight

By HAL BOCK
AP Sports Writer

With the National Football League season reaching its showdown stage, the success or failure of two playoff-hopeful clubs may depend on the ability of a pair of little-used backup quarterbacks.

In the American Conference East, Miami holds a one-half game lead over Buffalo and is just one game ahead of Baltimore. The Dolphins also must face the remainder of the season with 41-year-old Earl Morrall at quarterback, replacing injured Bob Griese.

And in the AFC Central, Cincinnati has slipped one game behind Pittsburgh and may have to use backup John Reaves at quarterback if Ken Anderson does not recover from the bruised chest he suffered in last week's stunning loss against Cleveland.

The NFL's 11th weekend got an early start on Thanksgiving Day when Buffalo stung St. Louis 32-14 and Los Angeles shut out Detroit 20-0.

The Rams' victory clinched their third straight NFC West title and also wrapped up Minnesota's NFC Central crown. Buffalo's triumph tightened both the AFC and NFC East races, putting pressure on Miami in the AFC East and cutting the Cardinals' NFC East edge to just one-half game over Dallas and 1½ over Washington.

Sunday's schedule has Dallas hosting the New York Giants, Minnesota at Washington, Pittsburgh at the New York Jets, Houston at Cincinnati, Atlanta at Oakland, Kansas City at Baltimore, San Francisco at Philadelphia, San Diego at Denver, Chicago at Green Bay and New Orleans at Cleveland.

New England plays the Dolphins at Miami in Monday night's game.

Morrall will be calling the plays for Miami in that one. It's not exactly an unfamiliar role for the veteran quarterback, who came off the bench to steer Baltimore to the Super Bowl in 1970 and then did the same thing for the Dolphins in 1972.

But he had a dreadful time last Sunday, completing only one of nine passes after Griese was injured in the loss to Baltimore. That gave him six completions in 15 attempts this season.

Still, that's a better percentage than Cincinnati's Reaves, who has connected on just four of 16 this year as Anderson's backup but could find himself in the driver's seat against Houston.

Anderson was listed as questionable because of his chest injury suffered against the Browns last week. After he left the game, Cleveland came on to score 20 points in the fourth quarter and win its first game of the year.

That loss, combined with Pittsburgh's Monday night trouncing of Houston left the defending champion Steelers one game in front of Cincinnati and two up on Houston in the AFC Central. Pittsburgh has won eight straight games and carries the streak against the Jets, who've lost seven in a row.

The Oakland Raiders can join a division champion by beating Atlanta this week and hoping that Kansas City loses to Baltimore. The Raiders, who've won five straight games, are after their fourth consecutive AFC West crown.

Meanwhile, Buffalo's Thanksgiving Day victory over St. Louis not only put the heat on Miami in the AFC East but also produced pressure for the Cards in the NFC East. The loss trimmed St. Louis' lead to just one-half game over Dallas and 1½ over Washington.

Dallas can tie for the top spot by beating the Giants and if Washington can halt Minnesota's 10-game winning streak, it would tighten things even more, leaving the Redskins only one game behind.

Kansas City's game at Baltimore is vital to the Colts, whose five-game winning streak has them hot on Miami's tail in the AFC East. The Chiefs, have turned their season around, winning five of seven games since an 0-3 start.

Sunday's other games have no bearing on the remaining races.

Westerners Win, 88-71

The Western Texas College Westerner basketball squad whipped Oscar Rose Junior College of Oklahoma City 88-71 in the first round of the Wool Bowl Basketball Tournament Friday afternoon in Roswell, N. M.

Western Texas lost one of its top reserve guards in the contest. Harrison Johnson, 6-2 sophomore from El Paso, sustained torn ligaments in the tilt and was scheduled for surgery Saturday in Roswell.

Lawrence Butler was the leading scorer in the tilt with 28 points.

Western Texas was scheduled to meet New Mexico Military Institute in the finals at 2:30 p.m. Saturday.

Track Coach At Virginia Dies

CHARLOTTESVILLE, Va. (AP) — A heart attack has claimed the life of Louis A. "Lou" Onesty, 67, track and cross country coach the last 22 years at the University of Virginia.

Hogs Last Hurdle For Texas Aggies

By MICHAEL A. LUTZ
AP Sports Writer

COLLEGE STATION, Tex. (AP) — University of Texas Coach Darrell Royal hopes Texas A&M wins the national championship and A&M linebacker Ed Simonini thinks the No. 2 ranked Aggies deserve the title after their victory over the fifth-ranked Longhorns.

But Arkansas Coach Frank Broyles, who was a commentator for the nationally televised showdown Friday, still has something to say about the issue. He disagrees with both Royal and Simonini.

The rampaging Aggies moved within one game of an unbeaten season and their first trip to the Cotton Bowl since 1967 with the 20-10 victory over the Longhorns but they still could be sidetracked on their trip to Dallas.

A&M is 6-0 in the Southwest Conference, but if Arkansas, 5-1, beats the Aggies next Saturday, the Razorbacks will go to the Cotton Bowl.

"I feel we've got the best team," the aggressive Simonini said. "When it comes down to us winning the next two games, including the Cotton Bowl, I think we are No. 1. I wish there could be a playoff if that happens."

A&M leads the nation in total defense and against the rush. Texas, which entered the game with the leading scoring offense in the nation, was held to 113 rushing yards.

"I would like to see something happen to Ohio State so that if they (Aggies) take care of their business, we would have another national champion down here," said Royal, whose Longhorns were national champions in 1963.

"We were just more determined today, but this is not over yet," Aggie safety Jackie Williams said. "We still have to beat Arkansas."

A&M quarterbacks Mike Jay and David Shipman participated in A&M's victory. Jay led the Aggies to a 10-7 halftime lead, and Shipman took over in the second half after Jay suffered a back injury.

"I don't know exactly what is wrong with me," Jay said. "But if it is physically possible, I'll be ready for Arkansas. That's what I came here for."

The loss ended Texas' regular season with a 9-2 record but the Longhorns will play in the Astro-Bluebonnet Bowl Dec. 27 against Colorado. They may have to face the Buffaloes without starting quarterback Marty Akins who reinjured his knee in Friday's game.

The Aggies are assured of at least a SWC co-championship and a bowl berth regardless of the outcome of the Dec. 6 game. The loser of the game will go to the Liberty Bowl.

THE GOOD SAMARITAN

A certain Samaritan as he journeyed came where he was; and when he saw him, he had compassion on him." (Luke 11:33)

The story of the Good Samaritan seems particularly relevant today. More and more frequently we hear of people who are beaten and robbed in broad daylight among crowds of people, yet no one comes to their aid.

What has happened to our Christian compassion so beautifully illustrated by the story of the Samaritan. Read this story once again, and contemplate its meaning for today.
