Important Questions!

If you could effect a saving of 50 per cent. in the cost of your life insurance and have it placed in one of the Strongest of the Regular Life Insurance Cnmpanies, would you not consider the matter?

If you could give your family or estate the protection of $20,000 insurance in a perfect reliable company for the same money you are now paying to secure $10,000, would you not consider the matter?

The Provident Savings Life Insurance Society, of New York,

Supplies what is suggested by the foregoing questions. I furnishes a contract of insurance which, for brevity, conciseness, liberty and cheapness is unexcelled. For further information apply to R. B. PARROTT, General Manager,

MAKING A TEST CASE.

CONSIDERABLE IMPORTANCE CONNECTED WITH DEBS' TRIAL.

If the Courts Hold the Injunction and Contempt Method to Be Good Law Congress Will Be Appealed to For Some Relief.

CHICAGO, July 25.—What is considered by leaders and their counsel to be one of the most important legal battles in the nation's history is the trial, which is now before the United States circuit court, of President Debs, Vice President Howard, Secretary Keliher and Director Rogers of the American Railway union by their attorneys, W. W. Erwin, S. S. Gregory and C. S. Darrow, for contempt of the rule issued by the court against them last week and came themselves into court to make a return to the writ. The defendants entered a general denial. The defense proposes to carry the case to the supreme court of the United States in the event of an adverse decision here, and if defeated there to apply through congress to the people.

The policy of the defense will be to question the right and power of the court to issue injunctions like that obtained by the railroads against Debs and his associates and then imprison those enjoined if the injunction be violated. It will be contended that what the court has done amounts to a usurpation of power not given to the Federal judiciary by either the constitution or the law.

The defense will follow closely the lines of the report of the Boatner committee of congress which investigated the injunction and contempt proceedings by Judge Jenkins.

Labor organizations throughout the country will contribute money to defray the expenses of this struggle. The American Federation of Labor has given $1000. Other associations will follow and the contest will be carried to the bitter end. If the supreme court declares the injunction and contempt method to be good law, congress will be asked, local labor leaders say, to amend the statutes and curb the power of the courts, and every candidate for congress will be asked to pledge himself for such reform.

Only two speeches were made Monday—one by Mr. Gregory in behalf of the leaders to dismiss the charges and the other by Mr. Walker for the prosecution. Today Mr. Miller, who represents the Santa Fe road, will speak.

Debs and his three colleagues were in the Federal court yesterday morning. Attorney Erwin continued the plea for the dismissal of the charges, and District attorney Milchrist cited the postal laws of 1890 in support of the court's jurisdiction.

No Workmen For Pullman.

CHICAGO, July 25.—The situation is again stagnant. Everything is in a dead lock. Workmen again failed to show up yesterday. Pullman officials are uneasy, but still they say they have applications from hundreds of outside men but do not care to take them if they can get the old men back, but may be forced to do so however.

Shops Reopened at Kansas City.

KANSAS CITY, July 25.—The Kansas City, Fort Scott and Memphis railroad shops in Kansas City, which were closed on account of the strike, were reopened today, giving employment to about 500 men.

Fined For Jeering the Militia.

CHICAGO, July 25.—Roy Kennedy of Buffalo was fined $25 for jeering at the militia guarding railroad property.

An Ironclad Oath Required.

SAN FRANCISCO, July 18.—A castiron pledge is required by the Southern Pacific railroad from every striker who desires to reenter its services. Each repentant applicant for reengagement is required to sign an agreement that the applicant will sever his connection with the American Railway union, that he will not join any labor organization during the period of his employment by the company and that he will not become a member of any brotherhood or union for five years.

Their Old Places Secured.

CLEVELAND, July 24.—As the result of an investigation by the labor unions it has developed that of the large number of railroad men employed on the various roads who struck here on the general tieup all but 30 have been reinstated. The railroad companies have been gradually discharging nonunion men who came in during the strike until now there are very few of them in the service.

Strike Declared Off In Oregon.

PORTLAND, July 24.—The striking railroad employes met last night and formally declared the strike off.

Massachusetts Populists, after a stormy session, nominated a full state ticket.

One More Race Won.

QUEENSTOWN, July 25.—The Vigilant was victorious in the race for the Royal Cork club cup. The wind was fresher than in any previous race. The Vigilant won by 4 minutes and 32 seconds without counting time allowance and by 3 minutes and 22 seconds if the estimated time allowance which she gives the Britannia is deducted. The score now stands 9 to 3 in favor of the Britannia.

Rumors of a Broken Engagement.

BERLIN, July 25.—The Kreuss Zeitung states the engagement of the czarowitch and Princess Alix of Hesse is broken.

KILLING AT ST. LOUIS.

Herman Klugman Kills a Man Laying In Wait For Him.

ST. LOUIS, July 24.—Sunday night Herman Klugman shot and killed Edward Cooksey, one of whose sons was whipped by Klugman several days ago. Last night Cooksey, armed with a club, and two others, one of them flashing a pistol, lay in wait to attacked Klugman. Seeing he was likely to fare badly Klugman drew a weapon and shot Cooksey, who lived but a few minutes after being shot. Klugman is under arrest.

FOUR CHILDREN CREMATED

They Were Locked In the House and Burned With the Building.

CHICAGO, July 24.—Fire destroyed several tenements at Nineteenth and Leavitt streets. Four children who had been locked up in a room by their parents were burned to death.

The Railroad Commission.

AUSTIN, July 25.—There seems to be but little prospects of any definite results at the present conference between the commission and railroads. The commission has no tariffic to submit as a basis and the only thing in sight is a discussion over the entire range of railroad subjects. However it is easy to see the roads are determined on one point, and that is that the present net earnings shall not be reduced by the commission unless the state regulators desire another seance in the Federal courts. There is no reason to expect any material reductions in local rates and as a matter of fact it does not seem likely that a return to a mileage basis can be had without friction. The commission will promulgate the new tariffs with great deliberation, and every effort will be made to avoid the Federal courts.

Mrs. Stanford Denies the Debt.

SAN FRANCISCO, July 25.—Mrs. Leland Stanford by her attorneys, Wilson & Wilson, has notified the government through United States District Attorney Charles A. Carter that its claims for $15,000,000 against the estate of Senator Stanford has been rejected. This means Mrs. Stanford considers the demand of the government unjust and without foundation, and it will be paid, if ever, only at the end of a long litigation. The district attorney has notified the government and takes no action pending further instructions.

The Rock Island Trouble.

ST. LOUIS, July 24.—A special from Guthrie, O. T., says the Rock Island trouble on the west side continues, but no violence has occurred. Three men carrying dynamite packages were arrested and jailed. United States Marshal Nix's deputies arrested 200 people in Round Pond Saturday evening on writs of injunction restraining them from committing acts of violence or using incendiary language. Acting Gov. Lowe has renewed his proclamation.

Santa Fe Train Held Up.

ST. LOUIS, July 24.—A special from Guthtie, O. T., says news has reached here that a Santa Fe passenger train was held up by two masked men near Red Oak. The robbers entered the express car, and presenting revolvers caused the messenger to deliver a package of money and some express packages. The value of these is unknown. There is no clew to the bandits.

It Is Feared Wellman Is Lost.

LONDON, July 25.—Carl Siewers says in The Standard he is in receipt of news from Norway that leaves but little doubt that Wellman's arctic expedition is lost. Experienced skippers have just returned from Spitzbergen seas and express the same opinion.

Earthquake Victims.

CONSTANTINOPLE, July 21.—It is said that the government officials here are concealing the real number of victims of the recent earthquakes in order to create no unnecessary alarm among the populace. In Stamboul alone the death roll amounts to over 200.

Mrs. Eliza Fuller Dead.

VALDOSTA, Ga., July 25.—Mrs. Eliza Fuller, the last surviving witness of the massacre of the Wilds family by the Seminole Indians in 1838, is dead, at the age of 95. She was compelled to hide in the swamp for over a week, in order to elude the savages.

Wheat Yield In Minnesota.

MINNEAPOLIS, July 20.—According to the latest returns the wheat yield this year is about the same as last.

A Texas Murder.

BURNET, July 24.—Jack Borders shot and killed Manly Turner in a quarrel at Marble Falls.

A Big Fraud.

A bill is now pending in congress to refund the Pacific railway debts and making those obligations payable in 100 years. Such a scheme, if carried out, would practically amount to a gift of $76,000,000 to the Central Pacific railway and many millions of dollars to the Union and Southern Pacific railways. The United States government advanced the money to build the Pacific roads, and Stanford, Huntington, Crocker, Hopkins, O'Brien and Fair made immense fortunes by embezzling the receipts of the road and neglecting to provide a sinking fund to liquidize the debt to the government. The proposition to extend the time for a settlement 100 years is the rankest proposition that has been made in congress for a long time. What kind of stuff are congressmen made of that such a cheeky proposition can be made without covering them with shame and degradation? If such a measure were proposed to a private business firm, a physician would be called to inquire into the mental condition of the proposer. The government seems to be lenient or severe according to the ability of the people to pay. A poor man never receives any grace from the government, while the rich can pay or not, just as they please. The government is impertinent in expecting the Pacific roads to "pay up"—at least that is what the corporation lawyers and lobbyists think. The only honorable course for congress to pursue is to foreclose the mortgages held against the Pacific roads and let the government take possession and operate them.—Cleveland Citizen.

Converts to Silver.

The legislation of congress for many years has been inimical to silver. The present congress has made two assaults on bimetallism. It knocked out the last prop by repealing the purchasing clause of the Sherman act and failing to redeem the promise to give something in its place. Still silver money is as good as any other in everyday transactions, large and small, and the number of those in favor of free and unlimited coinage is rapidly increasing. Many men who were formerly advocates of a moderate use of silver have been driven into the free silver ranks by the immoderation of the old monometallists. The "goldbugs" have repelled compromise and have fought all degrees of friendship for silver. There is no middle ground left. The peacemakers have been overridden, the skirmishers have been driven back, and the main armies are face to face and foot to foot. The contention is plain. One side is fighting for gold alone; the other for the free use of both gold and silver. One side says that the paper money must be redeemable in gold, though there is not enough gold to make a beginning at redemption, and it is thus made a speculative metal for the traders in money. The other side insists on having plenty of silver dollars which are as lawful as gold dollars, so that there may be enough money to put the country on a businesslike basis independent of the banks.—Cincinnati Enquirer.

A CHOICE TICKET.

For Governor—
Thos. L. Nugent, of Ft. Worth.
For Congress, 8th District—
Chas. H. Jenkins, Brownwood.

The human being that poses as a saint is invariably a humbug.

There was a mighty gathering of Populist clans in Dublin this week.

The United States postal system has entirely discontinued the use of the unsafe postal notes, and money can now be transmitted.

The American railway union has issued an address to the public requesting them to boycott Pullman sleepers. The class of people who patronize them will probably pay no attention to the wishes of the railway Union.

J. S. Tibbett, the colored republican orator from Houston, in a speech at Newton, advised his audience to vote with one of the old parties, that if they could not vote the republican ticket they should vote with the Democrats.

War between China and Japan is imminent, and they are both actively engaged in preparing for the contest. Both nations claim sovereignty over the Corea and their conflicting claims are about to be settled by an appeal to arms.

A volcano in a spur of the Harqua Hala range of mountains, in Arizona, is becoming active. Several distinct shocks of earthquake have been felt in that vicinity during the past week and great clouds of smoke are arising from the mountain.

All strikes are, strictly speaking, errors, and generally prove fatal to one or the other of the parties interested in them, but when a cause is right, the ends justify the means, whatever they be. No people in their sober senses ever revolted at the conduct of men fighting for a cause that was righteous.

The Dallas News is rapidly acquiring a reputation for unfairness and misrepresentation which can but prove injurious to its interests among all fair-minded readers. Its studied and persistent misrepresentation of Gov. Hogg's late speech at Austin has done away with any hopes of its reformation, and it now occupies the proud position of being the champion truth-evader of the continent.

The populist meeting, last Tuesday and Wednesday, in the way of attendance, was not at all what was expected, there being less than one-fourth the number of people present than was looked for. Every Populist should make it his especial care to see that these meetings are well attended by populists as well as democrats, that they may be able to meet the underhanded thrusts of opposition, whenever and wherever encountered.

The speech of Charlie Jenkins last Tuesday night, at Franklin Park, in Dublin, on the tariff, was a concise and comprehensive review of that much abused question. His explanation of the workings of the tariff and the positions of the democrat and republican parties on that question, as well as the solution of the problem proposed by the People's party, was thorough and delivered in a manner to be fully understood and appreciated by everybody.

W. A. Carpenter, editor of the Southwest Vindicator, a Populist paper published in Pearsall, Frio county, was shot to death by J. W. Durbin, sheriff of that county, on the 22d inst. The difficulty originated in some attacks which Carpenter made upon Durbin in his paper. Carpenter was shot three times. The matter is deeply regretted by the citizens of Pearsall, though this ending of the affair had been long anticipated. Durbin is now in jail.

The Waco Day-Globe, after a prolonged struggle for existence on barely a pittance to sustain it, has at last succumbed to the fate that has befallen every attempt to publish a live and progressive morning newspaper in the Central City. The suspension of the paper will be heard of with regret by the press of the State, not alone as an enterprise that the city of Waco will feel the loss of, but for the brotherly feeling that every newspaper man in Texas who has the slightest acquaintance with that veteran journalist, Hon. J. T. McCollom, who has so nobly struggled, with his acknowledged ability, to keep the paper afloat since his connection with it, entertains for him.

The action of the Santa Fe railroad recently, requiring all its employees to sign an iron clad contract to the effect that they did not then belong to any labor organization, nor that while in the employ of that company would they join one under penalty of an immediate discharge, shows bad management on the part of the railroad authorities to adopt such methods. The only result is that the laborers will be compelled to accept or starve, with their families, and they will thus be driven into secret organizations that will be kept entirely from the knowledge of the railrood officials. When things come to this point and there is a disagreement like the Pullman boycott comes on between employees and employers, a reign of anarchy will precipitate itself upon us that will make this nation tremble from center to circumference, and give the horrors to combine capital. It is only a matter of time, and not a great length of that, that will bring the fact to a palpable demonstration.

State Platform of the Peoples' Party of Texas.

Adopted at Waco June 20, '94.

1. We hereby indorse the principles enunciated in the Peoples' party platform adopted at Omaha July 4, 1892.

2. We declare the peoples' party to be an anti-monopoly party and reiterate our opposition to monopolization of natural resources and public utilization by individuals or corporations for speculative purposes.

3. We declare the monopolies of land, money and transportation to be the fruitful sources of civil and industrial inequality and wrong, the parent of monopolies, from which all lesser monopolies spring, and to the end that these monopolies and their baneful consequences may be removed we advocate as appropriate measures of relief:

4. The abolition of all private banks of issue of every character, whether state or national.

5. The construction, ownership and operation of railroads by the government to the extent necessary to control and regulate railroads.

6. The govermental ownership and operation of all telephone and telegraph lines.

7. The free and unlimited coinage of gold and silver upon the ratio of 16 to 1.

8. The insurance by the government of full legal tender paper money upon some system or plan which, while securing all flexibility, shall so regulate the value of curency as to limit to the actual needs of business.

9. We denounce emphatically the issue of gold bonds in times of peace to meet current expense of the government.

10. We favor the building of the Nicaragua canal under the proper treaty; provided it is built and operated by our government in proper co-operation with Nicaragua and Costa Rica.

11. We declare that the doctrine of a tariff for revenue is wrong in principle, and we specially condemn the policy of free raw material while manufactured goods are protected.

12. All lands heretofore granted to individuals or corporations in which the grantees have not complied with the conditions of the grant should be forfeited to the state for homestead purposes.

13. No alien ownership of land should be allowed in Texas.

14. Corporations shall not be allowed to own more land than they actually use in the prosecution of their business.

15. We favor an effective system of public schools for six months in the year for all children between the ages of 6 and 18 years and that each race shall have its trustees and control its own schools.

16. We demand the adoption of a uniform series of text books for the public schools to be furnished by the state at cost.

17. We demand an amendment to our state Constitution authorizing the loan of our public school funds, not otherwise invested, upon the lands of the people of this state with proper limitations upon the quantity of land and the amount of money.

18. We demand reformation in the punishment of convicts; and that convict labor may be taken out of competition with citizen labor; that convicts may be given intellectual and moral instructions, and that the earnings of the convict above the expense of keeping shall go to his family.

19. We demand a free vote and a fair count.

20. We demand an efficient lien law that will protect the artisan, mechanic, laborer and materialman.

21. We demand that all county officers receive fixed salaries, not to exceed $2000 per annum net, and that all fees shall be turned into the county general fund.

22. We demand the establishment of a state bureau of labor.

23. We favor the creation of a state board of arbitration to adjust all differences between corporations and employes.

24. We demand that commissioners' courts shall not be allowed to contract a debt against a county for more than $5000 unless the same be ordered by a majority vote of the county.

25. We demand a sufficiency of good money to supply the trade, and believe that $50 per capita is required.

26. We demand such amendment of the vagrant laws as will prevent the prosecutions as criminals of industrious laboring men while in a condition of enforced idleness.

27 While believing government ownership offers the only complete and satisfactory solution of the railroad question, we nevertheless favor the continuance of the commission, but demand that the commissioners shall be elected by the people and that the law shall be administered in a spirit of fairness to all parties.

28. We demand that the state provide sufficient accomodation for all its insane without discrimination in color.

29. We favor proportional representation.

30. We declare the Peoples' party to be in favor of local self government and the enjoyment by the individual of his natural rights to the greatest extent compatable with good society.

31. We favor such amendment to the constitution and tax laws as will secure the assessment of lands and improvements seperately.

32. We favor a modification of the laws of limitation as to real estate, to the end that the titles may be quieted.

33. We demand the enactment of a law declaring eight hours to be a legal day's work, except in domestic and agricultural affairs.

A RETIRED BUSINESS WOMAN.

A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For five years I was treated by one physician continually. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy."—Mrs. Morgan, 569 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from all opiates or dangerous drugs.

ALL DISEASES of the blood are cured by Hood's Sarsaparilla, which by its vitalizing, enriching, and alterative effects makes only PURE BLOOD.

ANOTHER - BOMB

The present time deserves to be recorded in the pages of French History as the age of bombs. Citizens are terrorized. The minions and watch dogs of the law are kept busy unearthing diabolical plots and bringing the offenders to justice, and their whole social system is disordered. In spite of vigilance, however, a scheme has just come to light that has

CHILDREN WHO SUFFER

from scrofulous, skin or scalp diseases, ought to be given Dr. Pierce's Golden Medical Discovery, for purifying the blood. For children who are puny, pale or weak, the "Discovery" is a tonic which builds up both flesh and strength. What is said of it for children applies equally to adults. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, rouses every organ into natural action, and brings back health and strength. In recovering from "grippe," or in convalescence from pneumonia, fevers, and other wasting diseases, it speedily and surely invigorates and builds up the whole system.

For all diseases caused by a torpid liver or impure blood, as Dyspepsia and Biliousness, if it doesn't benefit or cure in every case, the money is returned.

There will be a special meeting of the Sam. Houston Post, G. A. R., No. 55, at Brittan's Hall, Dublin, on Wednesday, August 1, 1894, for the purpose of making arrangements to assist the Ex-Confederates and United American Veterans in their re-union. Prompt attendance is expected.

THE REUNION

DUBLIN. AUGUST 7, 8 AND 9, 1894.

A joint meeting of the Reunion Committee was held at the office of Maj. L. C. Gillett yesterday afternoon.

The Committee on Invitation reported having heard from four of the speakers invited, and that Judge Cunningham, of Fort Worth, and G. L. Goodwin, of Brownwood, had accepted the invitation; other speakers to hear from.

The Committee on transportation reported one fare for round trip on the Fort Worth & Rio Grande, and on the Texas Central, and that the Central would confer with connecting lines as to reduced rates.

The Committee of Arrangements was placed in charge of all details as a directing committee.

Special committees were appointed as follows:

Music—R. T. Long, A. W. Risier, J. B. Green and G. A. Chilton.

Light and Water.—H. A. Smith.

Arrangement of Grounds, Mowing, Cleaning and Preparing the Same—J. M. Higginbotham, J. R. StClair and M. C. Witcher.

Maj. L. C. Gillett was appointed by the meeting as Grand Marshal, with power to appoint his staff.

Reception Committee—R. H. McCain, R. T. Long and J. J. Eager, Ex-Confederates, and Jno. Roche and M. Barr, of the Grand Army.

A. W. Risier was appointed to take charge of all outdoor entertainments.

"My little boy was very bad off for two months with diarrhœa. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhœa Remedy, which gave immediate relief and soon cured him. I consider it the BEST medicine made and can conscientiously recommend it to all who need a diarrhœa or colic medicine. J. E. Hare, Trenton, Texas. 25 and 50 cent bottles for sale by S. S. Davis.

FAST TRAINS COLLIDE

TEXAS AND PACIFIC FLYERS MEET ON A SHARP CURVE.

The Accident Occurred Near a Switch at Forrest and Wrecked Both Trains Reports Are Conflicting as to the Number of the Killed and Injured.

LONGVIEW, Tex., July 24.—A terrible headend collision occurred between the two Texas and Pacific flyers Nos. 5 and 6 200 yards west of the switch at Forrest, a siding six miles from Queen City and seven miles west of Sulphur Monday.

It seems that No. 6 was late and was trying to make Forrest. The place is an ideal meeting for a collision on a sharp curve, where these two fast trains run faster than any place on the road.

Reports from the wreck are conflicting. One report says eight or nine persons were killed and a number injured, while others say only six were killed.

The names of the killed as far as known are Engineer Gremm and Expressman Marshall of No. 5. The messenger, baggage and express men and one passenger were killed, but their names cannot be ascertained. Two of the bodies are yet in the wreck and the third was torn up and the remains scattered in the debris.

One engine is completely wrecked and the other badly disabled. The baggage, express, mail and smokers of both trains were shattered into a mass of splinters.

The dead engineer was taken to Texarkana and the bodies of the fireman and an unknown man were removed to Marshall. The wounded were also taken to Marshall, but the number and names of the victims could not be ascertained at this point.

Eight Lives Are Lost.

TEXARKANA, ARK., July 25.—The wreck between the two Cannonball trains on the Texas and Pacific road at Forrest was caused by a misunderstanding of orders.

The list of the dead is now placed at eight, and is as follows:

Charles Holland, postal clerk.
Mike Voltz, postal clerk.
Ed Bee, postal clerk.
Ed Grimm, Engineer.
Fireman Allen.
Fred Marshall, express messenger.
James Jones, porter.
An unknown man.

COLLISION IN OHIO.

Three Persons Are Killed Outright and About Ten Injured.

CINCINNATI, July 24.—There was a headend collision on the Cleveland, Cincinnati, Chicago and St. Louis railway at Griffiths station 15 miles from this city at 7 yesterday morning. There were three persons killed and 10 injured.

The express from Chicago due here at 7:30 a. m., was on time, but the St. Louis train, which runs 15 minutes ahead of the Chicago incoming train, was an hour late. At Griffiths a light engine was running down to the gravel bank in charge of Engineer Hart. He forgot his orders. Knowing the St. Louis express was late he pulled out and was met by the Chicago express. Hart will die probably without being able to tell how he made the mistake in orders.

His fireman, Frank Taylor of Indianapolis was killed outright, also Charles Sherman and another tramp who were stealing a ride. There are 10 reported injured, none fatally except Engineer Hart.

Among the injured are Mr. and Mrs. Warren J. Lynch of the Cleveland, Cincinnati, Chicago and St. Louis passenger department; J. P. Tuch and W. D. Howell, postal clerks; Edward Hopper, secretary of the Latonia Jockey club; Grantz Hantey of Lexington, Ky.; George Griffith, clerk of the board of education, Cincinnati.

The postal cars of the Chicago express were damaged, but the rest of the train was brought into this city. No passengers being seriously injured. The engineer and fireman of the express train saved their lives by jumping. The injured are being cared for at hospitals here.

Texas Saddles For the Sultan.

SAN ANTONIO, July 25.—The two elegant saddles which Honorable E. H. Terrell, United States minister to Turkey, ordered made for the sultan of Turkey and the latter's son, on his recent visit to this city, have just been completed and shipped to Constantinople. The saddles are of cowboy pattern, and cost $1200 each. They are gold and silver-mounted, and are made of the best material.

Cyclone In Idaho.

BOISE CITY, July 24.—A cyclone swept over Idaho Friday night, doing great damage. Houses were wrecked and the debris strewn in every direction. A heavy fall of hail accompanied the storm. Advices state that there was no loss of life, the region being sparcely settled.

An Aged Woman Suicides.

ST. LOUIS, July 25.—Augustus Kock, 71 years old, wearied by her being nearly three-quarters of a century on this earth, wrapped herself in coal oil, saturated a shroud, set fire to it and perished. Her remains were frightfully burned.

Arrivals on the Lucania.

NEW YORK, July 23.—Cornelius and Mrs. Vanderbilt arrived here on the steamer Lucania. Commander Ballington Booth of the Salvation Army was also a passenger.

Alleghany County Alive.

The People's Party convention of Alleghany county held in Pittsburg was large and enthusiastic. Organized labor was much in evidence, several leaders of the iron men being in attendance. A ringing platform was adopted and candidates for county officers placed in the field. The following resolution was unanimously adopted:

Resolved, That this convention heartily indorses the action of Governor Waite of Colorado in sustaining the organized miners of his state against the armed attack of "bum" deputies employed by the capitalistic class to crush the workingman for demanding the right to earn a living by honest toil.

Moving Even In Jersey.

The New Jersey state committee of the People's Party has just held a meeting in Jersey City and reorganized for the approaching campaign. It was decided to hold meetings in every section of the state. Every congressional district was represented. The following were elected officers: State chairman, Thomas H. Proctor of Vineland; state organizer, Rufus H. Bachelor of Bayonne; secretary and treasurer, John Hassock of Jersey City.

Three Congressmen From Texas.

A Texas correspondent of the St. Louis Republic says that the Populists expect to capture representatives in congress from the state this year and believe they will win in the Seventh, Eighth and Ninth districts, in all of which large Populist accessions have been made since 1892.

Funeral of Carnot.

PARIS, July 3.—The remains of the late President Carnot, the murdered chief magistrate of France, struck down by the hands of Cesario Santo, the anarchist, at Lyons a week ago, were deposited in the pantheon Sunday by the side of the remains of his grandfather, Lazare Carnot, the "organizer of victory."

The funeral was made the occasion for one of the most remarkable and civic military displays in the history of France. Crowds began to gather along the Champs Elysee, the Rue de Rivoli and about the streets on the Ile de la Cite from early Saturday evening. People camped all Saturday night, quiet and mournful, discussing the tragedy and cursing the assassin.

The Trial of Santo.

LYONS, June 29.—The trial of Cesare Santo, the anarchist, who assassinated President Carnot, is to take place on July 23.

AN UNPARDONABLE CRIME.

A large posse of our citizens was summoned on Monday morning last to aid in arresting Obe Kirk, 17 or 18 years of age, who was accused of outraging a young lady, Miss Mary Ware, near Bunyan, on Sunday night. He had fled to the timber but was speedily located by the pursuing party and surrendered himself without a struggle. He was taken to Stephensville jail and turned over to the sheriff to await an examination.

Sickheadache Cured.

Mrs. Mary Shneck of Iredell, Texas writes. "I have been subject to sick headaches since I was 13. After taking one bottle of Hood's Sarsaparilla I did not have any sick headache for six months. Hood's Sarsaparilla kept me from having slow fever last summer."

SPEECH OF JUDGE JENKINS

ACCEPTING THE NOMINATION OF THE PEOPLE'S PARTY OF THE EIGHTH DISTRICT FOR CONGRESS, AT DUBLIN, JULY 24, 1894.

MR. CHAIRMAN AND GENTLEMEN OF THE CONVENTION: I had not anticipated that you would make a nomination to-night and hence am unexpectedly called before you. I deem it proper that I should give you in outline my views upon the pending issues. But first, although ever since the failure of the president to call congress together immediately upon his inauguration to give the relief that they had promised if the people would give them a chance, I have believed that the convention of the People's party would name the next congressman from this district; and although this opinion was strengthened by the failure of the president to submit to the special session of congress in August last the question of repeal or modification of what the democratic party had told us was the "crowning infamy the age," and by the subserviency of the democratic congress to the demands of Wall street, as shown in that special session; and, although this belief became an abiding conviction when congress, in regular session, repudiated every promise that the democratic party

JUDGE JENKINS OF BROWOWOOD.

had made to the people, yet, you will bear me witness that by no act of mine, nor by word spoken or written, have I sought this nomination.

Until after the meeting of the county conventions of this district I never authorized my most intimate friend to say that I would accept a nomination for congress under any circumstances.

But, although this nomination is unsought, I would not have you think it is unappreciated. On the contrary, because this nomination has come to me unsought, I appreciate it all the more, and I assure you that no victor crowned at Grecian games, or errant knight by his lady love, ever felt more highly the honor conferred upon him than do I at this moment the honor upon me conferred in being selected by you as the representatives of the people of this district, to bear their banner in the coming conflict. The banner of peace and prosperity, of equal rights to all and special privileges to none; to bear it aloft in the thickest of the fight, to wave it over a victorious throng as they put to flight the hosts of plutocracy, who would not accept such a call? Who would not be proud of such an honor?

But, gentlemen of the convention, though I am proud of being selected by you as the next congressman from this district, if I know my own heart and the mainspring of my own actions in the sixteen years fight that I have made for reform I have never been actuated by personal motives, and I trust that I may never see the day that I would accept a nomination for any office from ambition to be gratified rather than duty to be performed, from the hope of honor and emoluments of office rather than good to be done by the faithful and conscientious discharge of the duties of office.

If I am elected—and I will be—not from any personal merit of my own, nor from the demerit of my opponent, but because I represent the sentiments, the hopes and the aspirations of a majority of the people of this district, by whatever party name they may call themselves; if, I say, I am elected. or rather let me say when I am elected, I will give to the people of this district, to the people of this, my native State, to my country the best effort of which I am capable. I will devote te their service whatever talent God has given me and all the strength that He shall vouchsafe me. I will walk in the old paths; I will seek to restore the old land marks, and revive old time democracy.

Believing that the circulation should be taken from the banks and restored to the people to whom it belongs, that he who controls the volume of currency controls the price of products and can absorb the wealth of the nation, that the credit of the government is better than the credit of the banks, and that the precious metals are indebted to legal tender for their principal value, I shall oppose the further extension of banks of issue, either national or State. I I shall seek to restore silver to its place, under the constitution, as a money of final redemption, with its free and unlimited coinage, at the ratio of 16 to 1. I shall also favor a paper currency, issued by the government only, bottomed on taxes, receivable for all dues and a legal tender for all debts, in amount to be controlled by the government, so as to meet the legitimate demands of business and avoid the evils of contraction and undue inflation.

Believing that a national debt is a national curse, when incurred to raise revenue, contract the currency, or furnish a basis for a banking system, I should not by my vote point out to a secretary of the treasury, whom I knew to be the tool of Wall street, that he might issue bonds under the resumption act of 1875. But if I believed that that act admitted of such construction, I should at once seek to abolish that feature of the law. And believing that the construction placed upon that act, by both the republican and democratic secretaries of the treasury, favoring a gold reserve of one hundred million dollars, is wrong in principle and vicious in practice, I shall seek to so amend that law as to abolish the gold reserve.

Believing that tariff for revenue is wrong in principle, I shall seek some other means to raise the revenue required to defray the expenses of the government. economically administered. Believing that a tax upon incomes is a just and equitable system of taxation. I shall favor it, not as a temporary expedient, but as the permanent policy of the government.

Believing that land should not be owned by him that owes it no allegiance, I shall oppose all federal legislation recognizing the right of alien ownership of land. Believing that land is the heritage of the people and should belong in usufruct to the living. I shall oppose all legislation that tends to the monopolization of natural resources. And believing that the ownership of large bodies of land by corporations is in violation of the spirit of the law of mortmain and the abolition of primogeniture, I shall oppose the ownership of lands by corporations, except so far as the same may be necessary for the transaction of their business.

Believing that public functions and utilities, especially those that are monopolistic in their natures, should be performed, owned and controlled by the government for the benefit of the people and not by corporations for corporate greed, I shall favor the ownership and control of telegraph and telephone lines, so far as the same may be necessary for the transmission of general news and the diffusion of general intelligence, and of railroads, so far as the same may be necessary to regulate rates and secure uninterrupted traffic.

I believe in the absolute supremacy of the general government in federal matters. I have never been frightened by that scarecrow, a strong government. I believe in a government strong enough to protect the lives, liberty and property of its citizens. A government that cannot do this is useless, burdensome and unworthy of support. If this could not be done by state governments I should favor its being done by the national government. If it could not be done by the civil authority I should favor its being done by the military. Better the rule of despotism than the despotism of anarchy. But have we come to this in America, the land of the free? Is liberty to be maintained only by a standing army, life to be preserved only by the bullets of the federal soldiery, and property to be protected only by the gatlin guns of the national government? If so. let us call a constitutional convention, and legally establish a government upon the theory of Hamilton. But if republican government be not a failure and the last hope of liberty fled, there is no necessity for an empire in America. Our national government is founded upon the States, and it is not to be strengthened by breakiug the stones of the arch upon which it rests, I fear the military when commanded by the tools of plutocracy and tremble at every precedent that tends to place it superior to the civil authorities. I favor local self-governmnt, and the enjoyment by the individual of his natural rights to the greatest extent compatible with the good of society. A government of the people, by the people and for the people, will always be as strong as it is just, and will find its chief reliance in the patriotism of the people rather than the bayonets of a standing army.

I hope to discuss all of the matters to which I have alluded in detail during the progress of this campaign. For the present I close by saying, I accept the nomination as a call from the people to battle

Against the wrong that needs resistance,
For the right that needs assistance,
And for the good that I can do.

POPULIST CONVENTION.

The People's party congressional convention and senatorial convention met, as per the call published in THE PROGRESS, in this city, on Tuesday, the 24th inst. A tolerable representation was present to both conventions, and quite a number of visitors were present, though not as many as were expected.

Judge C. H. Jenkins, of Brownwood, was unanimously selected as the candidate for congress from this, the 8th congressional disrrict, and Hon. Geo. L. Clark, of Huckabey, this county, received the nomination for state senate from this, the 26th senatorial district.

CONGRESSIONAL CONVENTION.

The congressional delegation, as learned by our reporter, was as follows, those marked by an asterisk, thus (*), being present:

Hamilton County—J. C. Main, F. S. Taylor, W. A. Simpson, J. L. Bean, E. Garrett, J. F. Heming,* A. Polnac,* J. C. Boskin, J. A. Keller.

Somerville County—G. R. Scott,* W. F. Shannon,* J. H. Green;* alternates—Wm. Martin, Wm. Statham, T. Evans.

Lampasas County—G. H. Royal, A. W. Owens, E. Brown, J. R. Hastings, R. R. Lake, A. P. Hingate, J. W. Tennyson, C. P. Reordon, A. F. Baker. Of this county we did not learn who or how many were here.

Comanche County—T. K. Seag,* C. C. Speed,* R. L. Selmon,* Wm. Harwood.*

Brown County—M. M. Wynn,* J. H. Byrd* C. B. Lane.

SENATORIAL CONVENTION.

The following is a list of the senatorial delegates reported present:

Coleman County—J. H. Givin and J. H. Williams; entitled to five votes.

Brown County—J. H. Byrd and C. B. Lane; entitled to ten votes.

Comanche County—J. W. Stevens, R. L. Selmon, W. H. Davis, Frank Chancellor, G. W. Wilson, W. Howard, T. K. Seags, Fred. Graham, T. B. Seags; entitled to sixteen votes.

Erath County—D. M. Rumph, J. B. White and J. F. McEnroe; entitled to twenty votes.

Mills County—J. J. Eager, of Dublin, entitled to eight votes.

McCullough County—C. H. Jenkins of Brownwood, entitled to four votes.

Total number of votes represented, sixty-three.

Senatorial District Committee Populist Officers—J. N. Byrd, of Brownwood, was selected as chairman for the coming two years, and C. B. Lane, of the same place, secretary.

The program of the first day's meeting (Tuesday), after the convention was called together, was interesting and very instructive.

In the forenoon (Tuesday) several representatives of the Erath county ticket made short speeches, among them Judge T. B. King and others.

At 2 o'clock p. m., Hon. R. H. McCain, mayor of Dublin. delivered a very appropriate address of welcome, which was responded to by Prof. J. M. Mallett, of Weatherford, Parker county, followed by Hon. H. T. Jones, of Brown county, in a lengthy speech on general issues.

At 3:30 p. m., the congressional convention assembled and nominated Judge Jenkins as the candidate for congress, and he was then presented and accepted the nomination in a well framed speech, which we publish *verbatim* in this issue. After closing his remarks on that line he made a lengthy review of the tariff questin.

The program for the second day included the senatorial convention and speeches by J. W. Jarrott, of Erath county; W. B. Whitacre, of Erath county; T. J. Seags, of Comanche county; H. J. Jones, of Brown county, and others.

HEALTHY EXERCISE —fresh air and proper food, help to keep a woman in good condition. It's insufficient for some, weakened or borne down as they are by the ailments and irregularities peculiar to their sex.

They're easily helped, though; there's a *remedy* in Dr. Pierce's Favorite Prescription—that will build up and cure every enfeebled woman. It's the prescription of a physician; has been tested in thousands of cases, and never found wanting.

The only *risk* that's taken is that of the manufacturers who promise to refund the money if no benefit is experienced.

This "Prescription" reaches the origin of the trouble. Dizziness, fainting spells, and nervous disorders, such as sleeplessness, chorea or St. Vitus's dance, depend upon the irregularities and displacements of the special structures—the "Favorite Prescription" cures by regulating and correcting these functions and organic changes.

Dr. Sage's Remedy positively *cures* Catarrh.

The re-union three days of this week was, as is usual with such meetings in Dublin, a grand success. We shall give a lengthy report of it next week.

J. W. Peeples will have his gin in first class repair and will be prepared better than ever to take care of cotton, from the beginning to the last bale. He will guarantee a first class turn out, or pay for the ginning.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood—Will drive Malaria from the system and prevent as well as cure all Malarial fevers—For cure of Headache, Constipation and Indigestion try Electric Bitters—Entire satisfaction guaranteed, or money refunded. Price 50c. and $1 at Dublin Drug Co's. 5

Tonkoway.

Dr. J. D. Rubbett, of Brownwood, Texas, in speaking of Tonkoway and its wonderful effects in curing Rev. Moss Martin, says:

To meet Bro. Moss Martin in fine health, and to hear him preach in a strong voice, was a joy inexpressible to me. The last time I saw him, his doctors had given him up to die. The remedy which brought him up from the last stage of consumption deserves much praise. Cures all common complaints and flux. For sale by H. C. Birchmore. 3

Judge C. H. Jenkins was in the city a few hours Thursday.

An Endorsement.

Messrs. Moore & Turner have had their steam power Circular Swing in operation in our city park during the re-union, and we take pleasure in saying that the service rendered has been very efficient and attractive and satisfactory to ourselves and to the public. They maintain strict order and guard carefully against accidents.

THE WEAVER BILL.

Full Text of the Measure Introduced by the General In the Forty-sixth Congress.

We are indebted to Congressman Boen, says The National Watchman, for a copy of the famous Weaver bill. Mr. Boen determined to find a copy of this bill if in existence, and since he never gives up anything he undertakes he found it. The introduction of such a bill has been disputed. We print it in full, so it may be filed away for future reference:

46th Congress, 2d session. } [Printer's No. 1114.

H. R. 2480.

IN THE HOUSE OF REPRESENTATIVES.
DECEMBER 3, 1879.

Read twice, referred to the Committee on Military Affairs and ordered to be printed.

Mr. WEAVER, by unanimous consent, introduced the following bill.

A BILL

For the relief of the soldiers and sailors who served in the Army and Navy of the United States in the late war for the suppression of rebellion, and to restore to them equal rights with the holders of Government bonds.

Whereas, The soldiers and sailors who served in the army and navy of the United States in the late war for the suppression of the rebellion were from the necessity of the case compelled by law to receive for their services a depreciated currency, greatly inferior in value at the time to the gold coin of the United States; and

Whereas, The congress of the United States has heretofore in the most solemn manner affirmed that good faith requires that all government obligations shall be paid in coin or its equivalent; and

Whereas, The obligation of the government to the soldiers and sailors who hazarded all, including life, that this nation might live, is of the most sacred and binding character; therefore

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That there shall be paid to each private soldier, noncommissioned officer, sailor, teamster or musician, regularly mustered into the service of the United States during the late war for the suppression of the rebellion, or to his or their legal representatives in the case of death, as soon as his or their claim shall be examined and audited by the second auditor of the treasury, the sum found due him or them, the amount thereof to be ascertained as follows: The second auditor shall ascertain the amount of currency paid said soldier or sailor at each date of payment during his term of service and shall ascertain the gold value of said currency payment at the time, by reference to the quotations of gold, as compared with the currency in which said soldier or sailor was paid, at the city of New York on that day. And said soldier, sailor or legal representatives shall be allowed and paid the difference in value between the currency which he received and the standard gold coin of the United States in which he should have been paid, together with 6 per centum interest thereon per annum from the date said soldier or sailor was mustered out of the service of the United States, up to the date of the payment of the sum found due him by the provisions of this act.

Sec. 2. To enable the government to meet the payment required by this act, the secretary of the treasury is hereby authorized to cause to be issued $500,000,000 of United States notes, or so much thereof as shall be found necessary, of the denominations of $1, $2, $5, $10, $20 and $50, and said notes, when so issued, shall be a legal tender in payment of all debts, public and private, and shall be kept in circulation in manner as now provided by law for other United States notes.

Sec. 3. The sum of $500,000,000, or so much thereof as shall be necessary to make the payments required by this act, is hereby appropriated out of the money by this act authorized to be issued.

On back of bill is the following note:

DEAR SENATOR—This is the last and only copy of the bill on file. Am sorry I cannot duplicate it. Respectfully yours,

AMZI SMITH.

South Dakota Populists.

The Populists of South Dakota in convention at Mitchell nominated a full state ticket.

The convention indorsed woman suffrage and adopted a platform demanding that state educational institutions should be divorced from party politics. It also demands that the government take possession of all coal lands within its boundaries.

The platform also favors pensions to all old soldiers, and at least $12 a month to the widows of all deceased pensioners.

Helping Her Friends.

Chairman Breidenthal of the Populist state central committee of Kansas received $5 from Mrs. M. C. Traff, a poor woman of Leavenworth, for the party campaign fund. "I have awaited the closing of the Populist state convention," she said in her letter, "to ascertain whether it would indorse woman's suffrage. I am a dressmaker, and every cent of the inclosed $5 represents a stitch put in for suffrage. I will use my best efforts and every cent I can spare for the triumph of the People's Party."

Head's Two Reforms.

There seem to be two great reforms imperatively called for in the realm of the world's commerce—first, an agreement whereby $5, the pound sterling, 25 francs and 20 marks be made of equal value, and these coins, by whatever name called, be adopted by all nations; second, the free coinage of both gold and silver throughout the world into these coins and their decimal parts, whereby all moneys, wherever coined, will circulate throughout the world and be of equal purchasing power.—Franklin H. The Differences—The Partings of the Ways—The Old and New.

EDITOR PROGRESS:

The other day we heard a discussion in which, after it was pretty clearly proved that the differences between the old parties were so little that scarcely any one could appreciate them, some bystander then asked what was the difference detween the Demies and the Populists? The Populist talker reblied:

1st. The Demies are trying to establish a parity between one dollar and another dollar, while the Populists are endeavoring to restore parity between money and property, between capital and labor, so that a man with labor or property could get money for it just as advantageously and speedily as the man with cash can get labor and property with it.

On this proposition a vote being taken, all parties, demies and all, except one, agreed that the P. P. parity was the better.

2d. The Demies were in favor of the limited use of silver on such terms as could be agreed on by foreign governments, whilst the People's party were in favor of the unlimited use of silver at the ratio of 16 to 1, and consult no one except our own Congress under our own constitution.

On this proposition nearly one half of the Demies sided with the idea that we could do nothing with the help of Europe.

3rd. The Demies favored the people of the South remaining under the leadership of the Eastern politicians, and cooperating with New York and New Jersey, whilst the P. P's urge that the interests of the South and West are identical, and that the cooperation of South and West would be both natural and beneficial.

On this count the Demies sided with Clevelandism.

4th. In reference to public uses, functions and franchises, such as national money and in land commerce, the Demies believe that what individuals cannot do that corporations be created and enfranchised to do; whilst the People's party say whatever individuals can do let them do; but, when anything of a public nature can not be done by individuals, such as the issue of money, the building and operating lines of railway by which the whole of the public commerce is controlled, that the government and not corporations should manage and control.

On this question a little more than one half of the Demies sided with corporations as against the government of the people.

5th. The Demies denounce the masses of the people for taking too much interest in politics, whilst the People's party encourage every man to not only inform himself as to his duties as a citizen, but to exercise them; telling the people that nothing would be more pleasing nor more profitable to the cormorants who have been fatteniug off of the national resources than for the people to get disgusted with politics and keep out of politics, and turn the whole thing over to professional politicians, foreigners, and railroad, bank and other corporation Dives.

To this proposition there was also a division among the Demies.

6th. The Demies argue their points from the standpoint of what dad said, or of prejudice; whilst the People's party argue everything on its own merits, believing in the theory of today having to have the bread of today; that every individual, as well as every generation and every nation, has its own burden to bear, its own work to do, and must give an account of itself.

7th. The Demies despond, and look downward and backward; whilst the People's party hope, look upwards and forward. This, to the real wise man, who knows the inner currents of life and their power, is a most notable difference.

8th. The Demies are distrustful of the capacity of the people to govern, and hence are afraid of the government of the people and favor corporations over a government, such as favoring bank money instead of national currency, and transportation corporations for the entire commerce of the nation rather than the government; whilst the People's party believe that in a multitude of counsellors there is wisdom, and that the people are capable of knowing and administering their own interest as shown in that most marvelous and standing monument of wisdom, the post-office business!

And so on and so on went the Populist talker, so that we absolutely felt that there was no greater difference between the teachings of the Pharisees and Sadducees and High Priests in the days of the incarnation and the authoritative wisdom of the Master and his Apostles, than there is a difference ALONG THE WHOLE LINE between the blind leaders of the old parties and the simple-hearted, yet clear-headed people who are seeing the light, and being baptized with the spirit of an incoming new heaven and new earth. HOPEFUL.

EDITOR PROGRESS:

I have always held to the idea as expressed in the old adage, "Where there is a will there is a way," and if you want something good to turn up, turn it up.

If we get our hand into a bear's mouth shall we grin and endure the pain, or place the other hand in his mouth in the hope of making the pain more tolerable.

If we find that sliding in an old groove is bad policy, should we not try new grooves, though the change should cause some friction. For some time I have had a few thoughts which have haunted me almost day and night in regard to the terrible condition of our laboring people, and especially our farmers, upon whom all else depends.

The subject may appear absurd to others, but if it should appear so to you, yourself, I had rather this writing would go to the waste basket than to continue to harass my mind as it does.

Among the many suggestions in regard to a new method for the purpose of bettering our condition, I have not seen anything exactly on that line.

We all know that the tyrannical capitalists, combines, corporations and millionaires have made themselves able to control our legislators and every department of our government simply by speculating in our products.

The old grooves have continually thrown everything into their hands.

Now, my idea is—if I have an idea—to cut off their rations as the most effectual means of starving them.

They cannot force us to plant and raise cotton and sell it to them. They presume we will do so because we have done so in the past; and so with our wheat, cattle and other products. How then?

Let us encourage our southern factories, with all their improvements, and the new ones now being built, to their utmost capacity, by a systematic effort through a committee to investigate and ascertain approximately the amount of cotton and other supplies, furnish them; then purchase of them, and what of cotton, etc., they can not consume send west.

Let all who are out of debt abandon the cotton crop for a year or two, leaving it as much as possible in the hands of those who need it most, and by so doing let underproduction take the place of "overproduction."

Progress is very desirable, but how can progress be made against such a financial pressure. Our progress has been advanced already too far unless it had been based on something more solid than borrowed capital, and that based on the price of cotton.

By a long and tedious process those people have succeeded in schooling thousands of us to the belief that we could not live in this fast age without the use of the hard cash as a medium of exchange. How is it today, ye farmers? Have you the cash, or are you living without it? Go to the bank and see if you can get it, not for love, nor for 12 or 18 per cent interest. If I can't get money from a neighbor I will do without it, for I will never go to a national bank.

All sorts of tricks and games will be brought to bear for the purpose of throwing us farmers off the track in the coming election, but as for myself I will listen to none of their fair promises made simply to deceive us. Our watchword should be reform. Let us make it ring until the halls of congress will echo reform.

LARGEST CITY CIRCULATION.

LARGEST COUNTY CIRCULATION

Office, Ground floor Traweek Building

FRIDAY MORNING, AUGUST 17, 1894.

A CHOICE TICKET.

For Governor—
Thos. L. Nugent, of Ft. Worth.
For Congress, 8th District—
Chas. H. Jenkins, Brownwood.

As we go to press we learn that the state convention of the democrats in session at Dallas have nominated Hon. Charles Culberson of that place for governor, John H. Reagan having withdrawn after the second ballot. The convention swallowed Cleveland head and ears, goldbugism and the balance and George Clark is once more recognized as the warwick of Texas democracy. In fact there was some talk of running in George as a dark horse, but he was of the opinion that Culberson stood a better show against the opposing giant, Judge Nugent, and realizing the selection of either as an issue of men and not measures, went his full length for the present nominee. A great majority of the rank and file of the party is disappointed and realize the great mistake of theeir party in giving way to Clevcland, Clark, Cuney and the Coons, and the result is anticipated of a revolt among the free and independent portion of the party.

Among the many fabrications of the democrats to deceive the honest voter, none is more often referred too than a denial of statistics, which they claim are Populist documents, which show that in 1865 our currency per capita was something over $70 and statistically giving the gradual decline in the amount of circulating medium, thus reducing the people to the object slavery to indebtedness they now suffer. Tuesday nignt of this week Mr. George, the democratic candidate for the legislature paraded this glaring falsehood before his audience, that these statistics included among thieir summary of circulating medium, the government bonds in existence at that time, particularly alluding to what is known as the "7-30 bonds," which were included in the statistics and were nothing more nor less than treasury notes and were actually paid out as currency by the United States in payment of its obligations, though the late Secretary of the Treasury failed to incorporate them in his summary of that year's currency, simply to give Mr. George and his cohorts a chance to produce "sworn evidence" (as he intimates), with which to gull hon- investigation.

In an open letter to the Secretary of the Treasury, the Hon. John Davis, Populist member of congress from Kansas, in a lengthy argument well supplied with unquestionable, statistics, thusly addresses the Secretary and deals with him on the attempted fraud on his part, he says:

"Further down on the same page you call attention to "the mistaken opinion that there has been a severe contraction of the money volume," etc.

This statement brings up the entire subject of the contraction of the currency and its baleful results. But the first and main question is as to the status of the 7-30 treasury notes which played so important a part as currency, and as reserves in banks, setting free other currency, until they were retired by funding into gold-bearing registered bonds. You deny that they circulated as currency, and do not mention them as such in your tables. Yet you admit that $44,000,000 of them, in the denomination of $50, *may* have circulated as currency. Should you not in fairness to yourself have made some statement of this admission in your official report?

Secretary Fessenden says that he caused $20,000,000 of the 7-30 notes to be paid out to the soldiers in the field at one time."

Capt. W. B. Whitacre, Populist, and Hon. J. Collin George, democrat, each the nominee of their respective party for the legislature, locked horns in joint debate at the city Hall here Tuesday night. Mr. Whitacre presented an invincible argument for the movement of the people and gained many friends, while the exhaustive abuse of the Populists by Mr. George was sickening and embarrassing even to the democ.ats. In the course of his remarks he took occasion to denounce the Populist, as a whole, untruthful, unmanly and anarchists of the worst form, comparing them, and even going so far as to take one hour and fifteen minutes of his time in misquoting the Populist platform and attempting to prove that it was based entirely on Bellamyism, and that the intention of the party was to carry those ideas into effect without any reserve. He continuously made untruthful statements and insinuations of which he then and there defied anyone to deny, but at the same time refused them the right to peacefully stand up and make a denial, though he could not and did not suppress the hisses and jeers of derision that greeted him at each and every falsehood he breathed. Mr. George failed in any way to even trv to justify the democratic party for its wanton thievery and violation of pledges, and finally when pressed to do so, asserted and repeated "*I'm a Cleveland Democrat* and don't care who knows it." He also expressed himself as in favor of silver (not free coinage) but just straight silver on a know nothing basis, which is the way a gold bug expresses himself who hasn't the back bone to assert what he really is. This is the same manner in which *Cleveland favors silver*, and of course George can't be blamed, in view of the fact that he is a worshiper of Grover the king. In fact Mr. George intimated that he was in favor of making him king, and endorsed the expression of Mr. Bell on that line, in which he states that he "hopes to see the day when it will not be in the power of *any number* of the private citizens of the United States to change or in any way alterate our monetary system."

State Platform of the Peoples' Party of Texas.

Adopted at Waco June 20, '94.

1. We hereby indorse the principles enunciated in the Peoples' party platform adopted at Omaha July 4, 1892.

2. We declare the peoples' party to be an anti-monopoly party and reiterate our opposition to monopolization of natural resources and public utilization by individuals or corporations for speculative purposes.

3. We declare the monopolies of land, money and transportation to be the fruitful sources of civil and industrial inequality and wrong, the parent of monopolies, from which all lesser monopolies spring, and to the end that these monopolies and their baneful consequences may be removed we advocate as appropriate measures of relief:

4. The abolition of all private banks of issue of every character, whether state or national.

5. The construction, ownership and operation of railroads by the government to the extent necessary to control and regulate railroads.

6. The govermental ownership and operation of all telephone and telegraph lines.

7. The free and unlimited coinage of gold and silver upon the ratio of 16 to 1.

8. The insurance by the government of full legal tender paper money upon some system or plan which, while securing all flexibility, shall so regulate the value of curency as to limit to the actual needs of business.

9. We denounce emphatically the issue of gold bonds in times of peace to meet current expense of the government.

10. We favor the building of the Nicaragua canal under the proper treaty; provided it is built and operated by our government in proper co-operation with Nicaragua and Costa Rica.

11. We declare that the doctrine of a tariff for revenue is wrong in principle, and we specially condemn the policy of free raw material while manufactured goods are protected.

12. All lands heretofore granted to individuals or corporations in which the grantees have not complied with the conditions of the grant should be forfeited to the state for homestead purposes.

13. No alien ownership of land should be allowed in Texas.

'14. Corporations shall not be allowed to own more land than they actually use in the prosecution of their business.

15. We favor an effective system of public schools for six months in the year for all children between the ages of 6 and 18 years and that each race shall have its trustees and control its own schools.

16. We demand the adoption of a uniform series of text books for the public schools to be furnished by the state at cost.

17. We demand an amendment to our state Constitution authorizing the loan of our public school funds, not etherwise invested, upon the lands of the people of this state with proper limitations upon the quantity of land and the amount of money.

18. We demand reformation in the punishment of convicts; and that convict labor may be taken out of competition with citizen labor; that convicts may be given intellectual and moral instructions, and that the earnings of the convict above the expense of keeping shall go to his family.

19. We demand a free vote and a fair count.

20. We demand an efficient lien law that will protect the artisan, mechanic, laborer and materialman.

21. We demand that all county officers receive fixed salaries, not to exceed $2000 per annum net, and that all fees shall be turned into the county general fund.

22. We demand the establishment of a state bureau of labor.

23. We favor the creation of a state board of arbitration to adjust all differences between corporations and employes.

24. We demand that commissioners' courts shall not be allowed to contract a debt against a county for more than $5000 unless the same be ordered by a majority vote of the county.

25. We demand a sufficiency of good money to supply the trade, and believe that $50 per capita is required.

26. We demand such amendment of the vagrant laws as will prevent the prosecutions as criminals of industrious laboring men while in a condition of enforced idleness.

27 While believing government ownership offers the only complete and satisfactory solution of the railroad question, we nevertheless favor the continuance of the commission, but demand that the commissioners shall be elected by the people and that the law shall be administered in a spirit of fairness to all parties.

28. We demand that the state provide sufficient accomodation for all its insane without discrimination in color.

29. We favor proportional representation.

30. We declare the Peoples' party to be in favor of local self government and the enjoyment by the individual of his natural rights to the greatest extent compatable with good society.

31. We favor such amendment to the constitution and tax laws as will secure the assessment of lands and improvements seperately.

32. We favor a modification of the laws of limitation as to real estate, to the end that the titles may be quieted.

33. We demand the enactment of a law declaring eight hours to be a legal day's work, except in domestic and agricultural affairs.

A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130½. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Pottsville, Pa., October 12, 1892.

Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles $5, express prepaid. This great discovery by an eminent specialist in heart disease, contains neither opiates nor dangerous drugs.

ANOTHER - BOMB

The present time deserves to be recorded in the pages of French History as the age of bombs. Citizens are terrorized. The minions and watch dogs of the law are kept busy unearthing diabolical plots and bringing the offenders to justice, and their whole social system is disordered. In spite of vigilance, however, a scheme has just come to light that has

THE SMALLEST IS THE BEST.

There are a dozen well-known liver pills, but only *one* so effective that it can be guaranteed to give satisfaction, or the money be refunded. Dr. Pierce's Pleasant Pellets are smaller, but better than the huge, old-fashioned pill, the medicinal agents are refined and concentrated.

Every one suffers, at some time or other, from Constipation, Sour Stomach, Biliousness, Indigestion, Bilious and Sick Headaches. You're relieved and *cured* of these troubles, if you take "P. P. P."

These Pellets are easy to take, and act in a *natural* way without shocking the system. They're easy to carry, because they are put up in little glass vials. They're the cheapest, because guaranteed to give satisfaction. Remember, that Dr. Pierce's Pellets are *pleasant* to take, *pleasant* in action, *perfect* in effect. Keep this in mind and you solve the problem of good health and good living.

Tonkoway.

Dr. J. D. Rubbett, of Brownwood, Texas, in speaking of Tonkoway and its wonderful effect in curing Rev. Moss Martin, says:

To meet Bro. Moss Martin in fine health, and to hear him preach in a strong voice, was a joy inexpressible to me. The last time I saw him, his doctors had given him up to die. The remedy which brought him up from the last stage of consumption deserves much praise. Cures all common complaints and flux. For sale by H. C. Birchmore. 3

Kansas In Good Hands.

The Topeka correspondent of the Washington Star pays the following high tribute to the abilities of the chairman of the People's Party in Kansas:

The Populist party in Kansas has been the butt and ridicule of the Republican and Democratic papers of the nation, and particularly is this true of the Kansas contingent, but the fact remains that the leaders of the new movement in this state never allow the work of proselyting to cease for a day. They are constantly at work strengthening their lines, and are ready for the most aggressive campaign ever made in any state. Their organization is the most complete of any political party in any state in the Union. The machinery is perfect, because the leaders have not stopped the work of organization for a single day since they won their victory in 1892.

John W. Breidenthal, chairman of the state central committee, is the best politician in Kansas. The Republicans concede this, and while they find it impossible to ascertain what he is doing they cannot make a move without his full knowledge of every detail. How he finds out the secret plans of the Republicans no one knows, but he is posted on every move made and uses the information to the detriment of that party. He has in his possession now the name and postoffice address of every voter in the state. He has lately collected this data from a trusted Populist in every voting precinct in the state. He also knows the politics of every voter, and if he would could tell within two or three thousand just how the situation stands in Kansas today, but he declines to tell even his close political friends. If this poll should show 10,000, 15,000 or even 25,000 Republican majority, no one would know it, and he would not become discouraged. He would simply renew his energies and evolve a scheme that would change four Republicans in each of the 3,500 voting precincts in the state, which take off 14,000 from the Republicans and add them to the Populists, making a difference of 28,000, which would elect the ticket.

RE-UNION OF THE BLUE AND THE GRAY.

They Meet and Vie With Each Other in the Little Metropolis.

The Erath and Comanche ex-Confederate re-union, the Sam Houston Post G. A. R. re-union and the re-union of the United American Veterans met in Dublin on Tuesday, Wednesday and Thursday of last week, and the result was three days of festive enjoyment. The city was decorated from one end of Patrick street to the other, and from the two most conspicuous places in the city, the stars and stripes and the Lone star flag waved over all. The meeting was held at the city park and was interspersed with speeches from prominent patriots, survivors of the struggle, and with music by that excellent band, the 8th Regiment of Stephenville.

The following officers of the Erath and Comanche Ex-Confederate Association were elected for the ensuing year. L. E. Gillette, of Dub-Dublin, president; T. O. Moore, of Comanche, 1st vice-president; L. Young, of Comanche, 2nd vice-president; Mc D. Reil, of Stephenville, secretary; J. D. St. Clair, of Alexander, assistant secretary and treasurer. The last day of the re-union being devoted to the business of the United American Veteran association of the Blue and Gray, constitution and by-laws were adopted. The following officers was elected for the ensuing year: J. T. Harris, of Dublin, president; Capt. Shaffer, of Eagle Pass, 1st vice-president; L. E. Gillette, of Dublin, 2nd vice-president; Capt. Christian and J. J. Eager secretaries; R. H. McCain, of Dublin, treasurer. Ed Ketchum, of Galveston, J. Parks, of Dallas, R. T. Long, of Stephenville, John Roch, of Dublin and T. O. Moore, of Comanche, executive committee.

ALABAMA POPULIST.

ENCOURAGING WORDS FROM POSTED MEN IN THAT STATE.

With a Weak Candidate and a Sundered Party, the Democrats Are Courting Defeat—The People Determined That Kolb Shall Not Be Counted Out This Time.

The next great political campaign previous to the November election will take place in Alabama. Philander Morgan, a brother of Senator Morgan from that state, in a letter dated May 27, writes as follows:

"We remember that the Democracy of Alabama claimed to favor the full restoration of silver and continued that delusion up to the date of the repeal of the purchasing clause of the Sherman act, and even after that date they claimed to favor substitute legislation up to the date of the veto message. Since the party, as an organization, has thrown off its disguise and now poses as an ultra single gold standard party, and while a large majority of the party follow the lead of Mr. Cleveland, and while the Democratic state convention of Alabama nominated an administration man for governor, and while the convention sought to impress the idea of harmony not only in that body, but in the primaries creating it, yet in the latter a majority of the Democracy of the state instructed their representatives to vote for a prosilver Democrat in the person of J. F. Johnson, while in the convention a resolution virtually impeaching Senator Morgan for his want of fealty to the party in his efforts to sustain silver was defeated by only a few votes out of a delegation of over 500, and then only prevented a rupture.

"This discord, that might otherwise be regarded as merely political in its effects, has been greatly intensified by criminations that were more than political in their range, but which, in their offensiveness and in their application, became personal as between Gates and Johnson, charges going to the private character of the defeated candidate, which will have the effect to turn many of Johnson's personal friends away from the support of the Democratic nominee. All this, taken in connection with Colonel Oates' record in congress, places him in a vast minority so far as the actual vote of the state is concerned. The Democratic leaders recognize this fact, and if we are left to judge their future election methods by their past history we may expect a condition of frauds such as never before disgraced a state, but whether they can succeed again as they did in Alabama two years ago depends upon conditions not altogether within their control. The Kolb party is organized as never before and as is no other party in this state. The result of the last election, though they were declared beaten, still left them in possession of the board of appointment of the inspectors of elections in 38 of the 66 counties of the state.

"The registration being just completed, I have no knowledge of the effect it may have in changing the aggregate vote of 1892. So far, however, as I have been able to learn from partial returns, the list will be heavier than the vote was at the last election, except in the 15 black counties of the state that gave Governor Jones 35,000 majority. In the counties referred to an appeal has been made by the Republican executive committee to induce the negroes not to register, which seems to be successful.

"To sum up, the result of the coming election depends upon the extent of the frauds committed in the management of the election proper and in the use of the means. The returning boards have to change actual results, and this very greatly depends upon the disposition to submit to such wrongs or not. The reform party is thoroughly organized and seems especially determined, while the Democracy is simply desperate and is prepared to resort to anything which will bring success.

"The Populists and Jeffersonians are in a majority of more than 50,000, and if the people prove themselves equal to the existing emergency Kolb will be the next governor. We will control the next legislature and be in a condition to name the next United States senator."

J. C. Manning of Birmingham gives his views on the political situation in the following letter:

"Following in the wake of the great state convention of reformers held in Birmingham Feb. 8, the counties have now about all acted, and the active campaign of the people for their rights and homes has begun in Alabama. The contest will be a short one. The people are enthused and aroused. No mistakes have been made by the reform forces. The situation could be no more favorable to the cause of justice had the course of events been wholly shaped by the leaders of the People's Party. The organized Democrats have met in state convention. They have nominated Oates for governor. He is a man whose record is known to be one of enmity against popular rights; he has always fought the Alliance and every step toward reform with every force at his command. Oates' declaration that 'farmers' sons should not be educated as the sons of other men' will array the agricultural class solidly against him.

"Today Jefferson county reformers met in the greatest county convention ever held in Alabama. A legislative ticket was named from the workshop, the mines, the farm and other trades as well as from the professions. The miners, trades unions, etc., pledge their support to this ticket, which insures its election. Jefferson county went against Kolb before. Kolb will carry it this time by 3,500 majority. We are making gains all over Alabama by solidifying town and country laborers, and the victory for our cause in August seems now to be absolutely certain.

"I have just closed a three weeks' campaign through the mountain counties, and I find that we have not only held our old time strength, but have made great gains. This is the real situation. Kolb will carry every white county in Alabama this year, and by such a vote as can not be counted out as before. Victory is in the hearts of the people. The spirit of reform is abroad in the land, and we will win."

The contest in Alabama will be one to a finish. Only 5 per cent of the negroes in the black belt counties have registered. This is from authentic information. From now until the August election all eyes will be turned to that state.

Another Old Confederate Veteran Answers to the Call of the Great Commander

Ed Wiley, the subject of our sketch, was born in the state of Missouri, April 16, 1830. He moved to Arkansas when quite a young man, and when the war between the states was declared he cast his fortunes with the confederate army, enlisting in company B, 3rd Arkansas infantry where he served until April 1862, when he was discharged, being disabled from sickness while his brigade was camped at Richmond, Virginia. Coming home he remained until the fall of 1862, when he re-enlisted in the confederate army, joining Capt. Haley's company, Parsons, Texas Cavalry, where he served until he was wounded at Cluttersville, Louisiana on the 27th day of April, 1864, from the effects of which he died July 22, 1894.

This old Veteran suffered for thirty long years, patiently and uncomplainingly, forgiving as he wished to be forgiven. His life was offered as a sacrifice upon the alter of his country for a principle he believed to be right; he had nothing to take back nor any apologies to make, nor surrender one jot or tittle of southern chivaldry, of which he was a devotee. He died in the same brave noble manner which had characterized his whole life. When dissolution was apparent this writer asked him if he knew he was dying and he said he did, we asked him if he was ready to go and he nodded his head and said that he was both ready and willing, and a little while after which he passed off as if going into a gentle quiet sleep.

We join the bereaved family in their grief, and believe we voice the sentiment of every old Confederate Veteran when we say we all extend our deepest heartfelt sympathy to his bereaved wife and children. And, Oh God, we trust if it be thy will, that at the general roll call on the other shore that these old Veterans may present an unbroken rank, and that they may hear from their great commander, well done, thou faithful soldiers, enter into the joys of thy Lord, is our prayer. A FRIEND.

Royal Baking Powder

ABSOLUTELY PURE

Congress has at last accepted the tariff bill as amended by the senate, the bill being much worse than the original law as it stood. Nothing better was expected by a great majority of the people, than the bill as amended by the senate would eventually be adopted, after a lengthy sham fight over it, to keep the faithful in line, and cause them once more to vote for the party who has "so nobly fought the robber tariff".

The robber tariff is still "a robbin," and the democratic congress, senate and president still hold the fort.

Smacks of Religious Persecution.

W. B. Capps, a quiet, orderly citizen of Weakly, Tenn. is being made the victim of what appears to be a case of religious persecution, the only charge against him being that he performed some work on the first day of the week. Mr. Capps was arrested and at his trial before the circuit court of Weakly county, he was fined $10 and costs, amounting in all to $51.80. His case was appealed to the Supreme Court of Tennessee, which affirmed the judgment of the lower court at Jackson, fixing the costs at $58.65, making as a grand total the sum of $110.45, to be served out at the paltry rate of 25 cents a day. This will necessitate the confinement of the prisoner 442 days, or one year and nearly three months.

He does not deny working on Sunday, but did so because he had rested the day before, according to his belief of the Bible; because he recognized his God-given right to labor six days in a week, beginning on the first, as his religious belief teaches, did his Creator; and because, in acceding to the demands of the State to rest on Sunday, he would be denying his Lord. Hence he refused to pay the fine and costs, regarding them unjust, since the State is attempting to enforce upon him a dogma of religion, with which it can of right have nothing whatever to do. Therefore he has gone to jail, though a physician stated that he could never live in that unhealthy place the time required by the enormity of the State's assessment. —Chicago Herald, July 14, 1894.

Disease Threatens to Cut Short a Noble Career

But Hood's Sarsaparilla Restores Good Health.

Lillie May Bentley is an accomplished elocutionist and natural born speaker of only 12 years of age. She is the only child temperance lecturer before the public. Her genius, however, did not exempt her from an attack of a disease of the blood. Her own words best tell the story: "C. I. Hood & Co., Lowell, Mass.:

"I heartily join with the many thousands that are recommending Hood's Sarsaparilla. I had been troubled from infancy with gatherings in the head. I was compelled to leave school upon the doctor's advice. He thought it was the only thing to save my life, but I

Continued to Grow Worse.

I was persuaded finally by a friend to try Hood's Sarsaparilla. The use of one bottle acted effectively upon the blood and I began to improve. After the use of three bottles the gathering ceased and I am cured of my former trouble. I owe my life and will always remain a true friend to Hood's Sarsaparilla." A New York Exhortation.

Talk with your neighbor about silver. Make him see the absurdities of the gold position. Make him sympathize with the struggle of the people against one of the meanest forms of robbery ever attempted. Ask him if debts contracted on a silver and gold basis can in fairness be collected in money that means more labor and longer saving than the same nominal amount under the double standard. Nobody is so set in his opinion that his views cannot be changed. Make yourself heard in your ward or district association. Insist on silver delegates to the convention. Practical politics are worth using for practical purposes.

Above all things, combat always and everywhere the wild idea that the interest of the east differs in some unexplained and mysterious way from that of the west. It does not. The interest of honest men is the same everywhere. That interest demands that honest debts should be paid, not at $1.50 on the dollar, not at 50 cents on the dollar, but at par. Silver free coinage at 16 to 1 means just this and nothing more or less. It is for the poor man of the whole country that The Recorder has been fighting.—New York Recorder.

THE TARIFF CAUCUS.

MEMBERS OF THE HOUSE MEET FOR ACTION.

Wilson Makes an Explanation of the Situation and the Difference In the Two Bills—Crisp's Resolution For House to Recede Adopted by 130 to 21.

WASHINGTON, Aug. 14.—An hour before 10 o'clock, the time set for the caucus, members began to arrive at the Capitol and hasty consultations were held on the course to be pursued. Speaker Crisp was joined in his private office by Chairman Wilson and Representatives Turner, McMillin and Montgomery, making the full membership of the house Democratic conference committee. Representative Breckinridge of Arkansas, an advisory member of the conference committee, was also present.

The meeting lasted until the time for the caucus to begin.

In the meantime there was a scene of animation on the floor of the house of representatives. Messrs. Tracey, Strauss,

WILLIAM L. WILSON.

Warner and others passed among their associates and stiffened up the sentiment of loyalty to the conferrees. It was apparently uphill work, however.

At 10 o'clock Speaker Crisp and all the conferrees filed in and took seats in a body in a forward part on the Democratic side. There was ominous silence as they came in, 153 Democratic members being in the crowd.

Chairman Holman called the caucus to order promptly and the call for the meeting was read. Rollcall then followed. Chairman Wilson took the floor immediately after and began a statement of the situation, calmly and dispassionately. The members crowded eagerly about him listening intently to every word. Seldom has such eagerness been manifested at a caucus.

Wilson began with a recital of the difficulties that have been encountered, treating each stage of the situation with much detail. He said each step had been pursued with an ardent desire to support with honor the desires of the house and to resist what was regarded as unreasonable demands of the senate. He did not confine himself to generalization.

Wilson closed at 11:05 o'clock, having talked just an hour. It was understood, however, that Wilson had not yielded the floor permanently, but would resume later, after his conference associates, Messrs. Montgomery, McMillin and Turner, had corroborated his statements as to debates.

Montgomery then took the floor and substantiated what Wilson had said as to the details of the conference.

Speaker Crisp followed Mr. Montgomery. He spoke with much spirit and earnestness and soon the caucus was in a tumult of enthusiasm and round after round of applause greeted his utterances. He spoke of the critical condition and apparent need to accept the senate bill and then if need be to introduce separate bills for free sugar, free iron and free coal. The speaker followed in the line of Wilson, saying it was either the "senate bill or no bill."

He closed his remarks by offering a resolution instructing the house conferrees to recede from a disagreement to senate amendment and to instruct the ways and means committee to bring in a separate free sugar, free iron and free coal bills.

Robertson of Louisiana objected to the resolution on account of the free sugar provisions and generally protested against the treatment to Louisiana.

During 15 minutes debate Chairman Wilson rose and pleaded with the caucus not to take action at once. He said whatever was the mind of the house, there was no necessity for immediate and hurried action.

As the hour for the meeting of the house approached the impatience of the members became apparent and "Vote!" "Vote!" sounded from all sides.

The resolution to recede was adopted by a vote of 130 to 21.

A division on Crisp's resolution was demanded so as to have a separate vote on the first part to recede from a disagreement to the senate amendment and a provision for separate bills.

The first part of the resolution was adopted by a rising vote—130 to 21 and the second part without division and the caucus then adjourned.

Almost Completed.

WASHINGTON, Aug. 14.—As the house of representatives Monday adjourned over until Wednesday, the tariff bill cannot be sent to the White House until tomorrow. It will be enrolled and carefully compared today and tomorrow when both houses are in session, and will receive the signatures of Crisp and Vice President Stevenson. The bill will then be taken to the president, who will have ten days, exclusive of Sunday, or until Aug. 27, in which to act on the bill. A great deal of pressure will undoubtedly be brought to bear on the president by Democratic senators and representatives to induce him to sign the bill, but from authoritative statement made by the Associated Press yesterday the present intention of the president to let the bill become a law without his signature can be reiterated today. It is stated by friends of the president he has freely expressed his purpose to those entitled to know, who have questioned him on the subject, but says that he will thoroughly consider all phases of the matter. Members of the cabinet say that if the president should change from his present inclination to affix his signature to the bill, it will be accompanied by a statement in explanation of his reasons therefore.

The Senate.

WASHINGTON, Aug. 10.—There was no actual business transacted by the senate outside of the executive session, which lasted from 2 o'clock to 4:25.

WASHINGTON, Aug. 11.—The senate chamber was the storm center of the tariff conflict today. Early in the day eager crowds thronged the lobbies leading to the senate galleries and struggled for a point of vantage for the expected debate on Senator Hill's resolution directing the senate tariff conferrees to report on the situation. All public and private galleries were filled and crowds overflowed into the corridors outside to their full capacity. The floor of the chamber was rapidly filled with members of the house. However, none of the house conferrees were on the floor or in the galleries.

At 12:30 Senator Hill arose and asked that his resolution introduced yesterday be considered. He gave away, however, to Senator Chandler, who asked that the resolution for the investigation of alleged irregularities in the recent Alabama election go over until next Monday.

Before any action was taken on the Hill resolution the senate went into executive session after which it adjourned.

WASHINGTON, Aug. 13.—The seat of the tariff war having been transferred to the house, the proceedings in the senate were comparatively tame. The report of the conferrees on the sundry civil was agreed to with some modification and the bill was sent back to conference.

A further disagreement was had with the house on the amendment proposed for the extension of the government printing office and the senate receded from its own amendment for the purchase of Mahone lot for the erection of a new printing office, thus leaving that building entirely unprovided for.

WASHINGTON, Aug. 14.—Few senators were present when the vice president called the senate to order. Gorman was not in his seat. Hill was present, but busied himself in reading newspapers.

During the reading of yesterday's journal Mills of Texas asked unanimous consent that its further reading be dispensed with, but Blanchard of Louisiana objected, and the reading was resumed.

When it was concluded a messenger from the house of representatives was announced, and informed the senate that the house had passed the bills placing coal, iron ore, barbed wire and sugar on the free list, in which it asked the concurrence of the senate.

Mr. Hale, republican, introduced a resolution for the printing of 5000 copies of house bill No. 4864, known as the sugar tariff bill. Mr. Vested objected and the bill went over.

Resolutions for the investigation of the Dominion Coal company of Nova Scotia and for the investigation of the recent elections in Alabama were called up, but went over.

At 2:10 p. m. the senate adjourned.

The House.

WASHINGTON, Aug. 10.—The house devoted itself to discussing projects for a government exhibit, to cost $200,000, at the Atlanta exposition, and to give each of the arid land states 1,000,000 acres of arid lands to encourage reclamation of their deserts, contained in the senate amendments to the sundry civil bill.

No action was taken on either proposition.

The house took a recess until 8 o'clock, the evening session being devoted to private pension bills.

WASHINGTON, Aug. 13.—The long struggle over the tariff bill came to a close yesterday evening, when the house by a vote of 182 to 105 decided to discharge the house conferees from further consideration of the bill, receded from its opposition to the 634 amendments of the senate and agreed to the same. It was a complete victory for the senate. The house made an absolute surrender.

The result grew directly out of the sensational course of events at the senate end of the capitol precipitated by Senator Hill on Friday. Up to that time the house conferrees had stood firm against the senate amendments and especially on the three disputed schedules of coal, iron ore and sugar, and the temper and voice of the house was for war, war to the end. But the indications that the Democrats of the senate might be unable longer to hold a majority of the votes in line for even the senate bill and that the bill was in jeopardy forced house Democrats to immediate action. The Democratic conferrees of the house at last admitted that they were beaten and that another vote could not be risked in the senate; that it must either be the senate bill or no bill.
