# Officials File Charges In Fire, Theft Cases

CONDEMNATION SUIT

## State Files for New Trial Here

The State, through Attorney General Will Wilson's office, has appealed a Jan. 12 jury verdict here awarding $19,260 in an Interstate 20 condemnation suit.

The decision was issued here in a condemnation suit in Mitchell County Court. The 6-man jury awarded Miss Ethelyne Bohannon and Mrs. Ara Heath the $19,260 for approximately 29 acres of land used for Interstate 20 freeway construction around Colorado City to the north and damages to adjoining acres.

The motion for a new trial was filed Tuesday in County Clerk Gilbert Leach's office. The motion is in preparation by the State for an appeal to the Court of Civil Appeals in Eastland.

A 3-man board of commissioners July 12, 1960, awarded the 2 local women $10,700 for the 29 acres. The State appealed that ruling — resulting in the recent trial in County Court.

The land in question is located just east of State Highway 208 (to Snyder) at its intersection with the Interstate 20 freeway.

The condemnation suit is one of many resulting from the Interstate 20 construction around the City. Seven of 8 are still pending here at this time and several have already been completed in County Court.

Miss Bohannon and Mrs. Heath were favored in the $19,260 judgement for the actual acreage (29 acres) used for the freeway and damages to adjoining acres. The jury awarded them $200 per acre for the original 29 and $90 per acre for an additional 131 acres damaged.

Local attorneys Dell and Perry Barber represented Miss Bohannan and Mrs. Heath. David R. Thomas of Austin and Henry Strauss of Abilene represented the State.

Jurors were J. W. (Bill) Randle, foreman, Kenneth Dockrey, Mrs. Allen Currie, E. B. Carlock, Bruce Byrne and Bobby Rhea.

## Motor, Sander, Saw Recovered

Charges of theft and willful destruction of private property were filed here today against 4 Colorado City youths as Mitchell County Sheriff Lewis Claxton and Colorado City Police Chief Leon Yeager and their departments continued to move against local criminal activity.

Dennis Campos, 19, was charged with 2 separate counts of theft and with 1 count of destruction of property.

Campos and Frank Herrea, 19, were jointly charged with theft of a skill saw valued at $60 and a sander valued at $75 today in Justice of the Peace T. E. Arnold's Court. Bond was set at $1,000 each.

Campos and Lewis Franco, 17, were jointly charged with willful damage of private property in excess of $50. Bond was set at $1,000 for Campos and $5,000 for Franco by Arnold on this charge.

And Campos and Franco were also jointly charged with theft of an outboard motor valued at $25 in County Court today. Bond had not been set at 2 p. m. today.

Campos and Franco allegedly are responsible for the fire late Tuesday nigh that extensively damaged a motor crane owned by Flenniken Construction Co. of Dallas and Shreveport, La.

A fire that caused damages that may run into thousands of dollars swept through the crane while it was parked at the site of construction of a bridge over the Colorado River, northwest of town, as a part of the Interstate 20 freeway around Colorado City. Flenniken is contractor on the bridge and structure portion of the freeway construction.

The intense fire melted 4 tires on the right side of the huge piece of machinery and resulted in a cable snapping that supported the machinery's crane. The crane toppled to the ground causing minor damage to other equipment nearby. The interior of the crane's cab was destroyed.

It was at the fire scene that Claxton and Yeager got their first clue in the stolen boat motor which had not been discovered. A handle from the motor was discovered at the scene.

The law enforcement officials within 1½ hours had recovered the motor from its hiding place under a bridge on the Corley Rogers Road west of the City. The motor, a 3-horse power Sea Horse was stolen from City Park on Lake Colorado City Tuesday night. Owner Earl Taylor had not discovered the theft when the motor was recovered.

## 2,286 Buy Poll Taxes In County

Mitchell County citizens purchased 65 more poll tax receipts in 1962 than in 1961 — but approximately 700 of the eligible voters failed to do so in 1962.

County Tax Collector-Assessor Monte Hardegree reported today (Thursday) that a total of 2,286 poll tax receipts were issued for the 1962 year through the deadline of midnight Wednesday.

This is only 65 above the 1961 total of 2,221. In the preceding year of 1960, a presidental election year, a total of 2,842 receipts were issued.

Hardegree estimates the county has just over 3,000 eligible voters.

A total of 52 exemptions were issued, said Hardegree.

Colorado City Junior Chamber of Commerce sponsored a last-minute telephone campaign to spur the tax sales. The drive did bear some fruit — about 300 poll tax receipts were issued Monday, Tuesday and Wednesday.

## Takeover of Cosden is Likely, But Not A Cinch

The proposed full takeover of assets and liabilities of Cosden Petroleum Corporation by W. R. Grace and Company is termed "very likely, but not a cinch" by Cosden president R. L. Tollett.

The transaction, which would represent some $35 million, will take "not less than 4 months" and not more than 9 months" if completed, says Tollett.

The acquisition would include Cosden's Col-Tex properties in Colorado City and a refinery at Hawley that is now not operating.

Col-Tex is presently operated as a division of Cosden.

The proposed acquisition is subject to obtaining necessary favorable tax rulings and the approval of Grace and Cosden board of directors — approval by the boards appear to be assured since Grace personnel dominate the Cosden board.

The proposal apparently calls for liquidation of Cosden Corporation — with it being operated as a division of Grace. Grace operates several of companies in this manner.

Grace now owns 52.6 per cent of Cosden's $3,014,230 in outstanding shares of common stock.

Under the proposal, the balance of Cosden's stockholders, representing 1,425,548 shares, would receive an estimated $24 to $25 per share for their Cosden stock dependent upon final adjustments and appraisals.

It would be handled as a reserved production payment. Shares apparently would be purchased for about $14 cash and the balance in a Grace convertible perferred stock.

Grace attempted a merger with Cosden twice in 1959 before acquiring a majority of stock holdings in Cosden. The Grace holdings were purchased early in 1960 on tenders for $25 per share.

Tollett, under a management contract which still has 3 years to run, would remain as general manager of the Big Spring offices. Tollett has been president of Cosden since 1940.

Tollett reports that the takeover would apparently result in no major operating changes. The name Cosden apparently would continue to be used in marketing as a division of W. R. Grace.

Cosden was conceived in 1928 by Joshua Cosden, oil operator. The refinery went into operations in 1929.

LIGHTS A RECORD

## Christmas Seal Drive Near Goal

The 1962 Christmas Seal campaign is near its goal.

The drive, sponsored by the Mitchell County Tuberculosis Association, is now at the $1,549.10 mark. The drive's goal in '62 is 1,600.

Mrs. C. P. Gary, executive director of the county association, reported the campaign's progress here Friday.

The campaign set a new record — 85 lights on its 2 trees on County Court House lawn. A light was turned on each time a contribution of $5 or more was made to the campaign by a single donor. The 85 lights is the largest number in the association's history.

Mrs. Gary's report was presented to the association in a Friday meeting in Court House. Mrs. Roy Messimer presided at the meeting in the absence of the association's president, Bob Reily.

It was announced at the meeting that tuberculosis tests are ready to start in Mitchell County schools. Tests will be made this year using the new stethoedle gun, which was purchased by the association.

New officers were elected, they are:

Mrs. A. J. Hooks, president; Mrs. Roy Messimer, vice president; Mrs. Porter Richardson, recording secretary and Roy Davis Coles, treasurer.

Members present at the meeting were:

## Man Admits 11 Burglaries Here

A burglar suspect has admitted he burglarized 11 business establishments here in 1959 and 1960, reports Police Chief Leon Yeager.

James Hugh Leggett, 33, was charged here Monday with burglary in connection with 1 of the cases. Yeagers other charges probably would not be filed against Leggett here since he faces charges in several other counties also.

Yeager, Mitchell County Sheriff Lewis Claxton and Texas Ranger Dudley White questioned Leggett here Monday. The suspect was being conducted on a tour of west Texas by Rangers and other officers. He has admitted, report the Rangers, 447 burglaries in 75 counties in the state.

"Very little was netted in the 11 burglaries here," said Yeager.

Leggett, said Yeager, admitted 4 burglaries here in 1959 and 7 in 1960. They were:

Thomas Brothers Service Station and appliance, 290 Walnut St.; Jay Adams Chevrolete Co., 877 E. 2nd St.; Hunter Merkett Motor Co., in the 800 block of E. 2nd St.; and Walker Motor Co., Loraine, in 1959.

Texaco Inc. Warehouse, W. 1st St., Veterans of Foreign Wars Post, 1264 College Ave.; Conoco Wholesale Gas and Oil, W. 1st St.; Gulf oil warehouse; Standard Oil Co. Distributors, W. 1st St.; Colorado Feed and Seed, 1st and Pine Sts.; and Griffin Truck and Traetor, east on U. S. Highway 80, in 1960.

THOUSANDS TO ATTEND

DYNAMITE REFRESHMENTS

## "Big Blast" Set For Crows

A "real blast" is being prepared for some Mitchell County crows Saturday night.

The crows don't even know about the "big blow out," but thousands are expected to attend nevertheless.

And it'll be a "blast" per se. That's exactly what county officials plan to do to the crows — blast them with dynamite.

The planned project, sponsored by County Commissioners Court as a "test" for this area, will attempt to rid farmers in the northeast part of the county of destructive crows.

The crows have made hay" in fields in the area this year. One farmer reports he lost 4 or 5 bales of cotton to the crows. And the crows are also destroying grain in the area, say the reports.

Thousands, literally thousands, of birds have invaded the area. They'll return to their roosting place Saturday night for what is hoped is their destruction.

The dynamiting is tentatively scheduled "just after dark" Saturday night after the crows roost for the night. The dynamiting is sponsored by the Cammisioners and under the direction of Game Warden Mike Hutchinson.

The crows' roosting place and the planned site of the dynamiting, is on the P. P. Hayes farm located 7 miles east of the intersection of the Cuthbert Road and State Highway 208 and about 7 miles north and 1 mile west of Loraine.

Scurry County officials are reported to be watching the project with a thought of the same action against crows bothering farmers in that county. The crows' roosting site in mesquite on Hayes' farm is approximately 5 of a mile from the Mitchell-Scurry line.

Paxton Schlyter, employed by Flint-Kote in Sweetwater, will direct the blasting operations. He plans to set up 200 charges in 1 gallon cardboard boxes filled with gravel. The gravel, he and Hutchinson reported, will be blown upward and kill the roosting crows.

The project, although new to this area, has been successful in other parts of the state, according to Hutchinson.

Additional information on the project is available from Hutchinson or these 4 county farmers, Henry Hoyle, Everett Hamilton, J. W. Blassingame and J. D. Hill.

MARANATHA STUDY CLUB

# "The Year, 1962" Study Club Topic

"The year, 1962" was the program topic of the recent meeting of the Maranatha Study Club in the home of Mrs. Sam Bullock.

Mrs. Wayne Shawn, program leader, said the new year was like a door to beautiful living—a door with only one lock, but several keys.

She listed several things which might prove to be the key to open the door of 1962.

Listed were: (1) the key to beautiful thinking; (2) the key to beautiful living; (3) the key to beautiful seeking and (4) the key to beautiful sharing.

"What this world needs is a practical demonstration of love, the kind of love that Jesus practiced when He walked as man on earth," Mrs. Shawn said. She quoted as closing her part of the program Revelation 3:8, "Behold, I have set before thee an open door, and no man can shut it."

Mrs. Curtis Baker also participated in the program.

The topic of her progam part was, "And Jesus walked by the sea of Galilee."

She presented geographical data regarding the sea of Galilee. She told of Jesus's childhood and early ministry around the sea of Galilee, where He delivered the wonderful sermon on the mount. This was also the scene of his trial, crucifiction and death.

"When Jesus returned to to earth for a short time, He appeared with his disciples around the sea of Galilee. There on the hillside near Bethany He told them that He would be with them always, and from there He ascended to Heaven," she said.

Mrs. Baker concluded her program with the thought, "Through Jesus Christ alone we shall find abundant life."

The meeting was called to order with Mrs. Bullock leading the group in prayer and in the Pledge of Allegiance to the Flag of the United States.

Refreshments were served to guests, Mmes. Baker and Lawrence Ruddick and daughter, Sharon, and to 8 members of the club.

ARUBA, CARIBBEAN ISLAND

# Mrs. R.E. Post Presents 1921 Study Club Program

Mrs. R. E. Post presented a program on "Aruba" at the Friday meeting of the 1921 Study Club here in the home of Mrs. Sam L. Majors.

Mrs. Post recently visited Aruba with her husband. It is a small Caribbean Island just off the coast of Venezuela, South America.

Aruba is in the Dutch West Indies and is 19 miles long and 6 miles wide. It has a total population of 56,050.

In her discussion, Mrs. Post told of the beauty of the little island and reported on customs and habits of its inhabitants. The people on the island were originally of Dutch ancestry but some of the inhabitants are from other countries, she said. The countries from which most of the inhabitants are from are England, Scotland, Holland and America.

"On the island of Aruba," Mrs. Post said, "there is located the largest oil refinery in the world. It is located on the tip of the island and is named the Lago Refinery."

"In this refinery," Mrs. Post continued, "there are approximately 7,200 persons employed. The oil supplied for this huge plant comes from the oil fields of Lake Maracaiba in Venezuela."

She said the churches on the island are interdenominational and the temperatures are approximately 82 degrees the entire year — blowing tradewinds make the climate very pleasant.

"The Lago Colony," continued Mrs. Post, "is the modern settlement occupied mostly by those persons who are employed at the oil refinery by the same name. The colony has built and maintains its own schools and other buildings that are found in every other city of its size."

In closing, Mrs. Post said life on the island of Aruba and in the Lago Colony was very pleasant and modern.

After the program, a short business session was presided over by Mrs. R. P. Price, club president.

Those present were:

Mrs. Post and her mother, Mrs. Thorpe and Mmes. H. B Broaddus, Lee Lavendera, P K. Mackey, J. T. Pritchett, R H. Ratliff, A. O. Hickman, W. C. Hooks, C. L. Root, Price, W. L. Doss, V. R. Trulock, W. R. Martin and the hostess, Mrs. Majors.

Refreshments were served.

LORAINE'S ATHENEUM CLUB

# Miss Hawkins to Speak Tuesday

"The State of the Union" is the topic chosen by Miss Eudora Hawkins for her appearance at the Public Affairs Tea sponsored by the Atheneum Study Club of Loraine.

Miss Hawkins is the chairman of the Public Affairs Committee of the Texas Federation of Women's Clubs. The tea will be staged in the annex of First Baptist Church in Loraine, Tuesday, at 3 p. m.

The topics Miss Hawkins uses in her public appearances center around her main interests, which are constitutional government, conservation of natural resources and traffic safety. The work she has done in the fields has received national recognition.

A member of the Texas Traffic Safety Council, she has been active in the Texas Safety Association and the Taylor County Traffic Council. Her awareness for the need of traffic safety results from the fact that she travels approximately 25,000 miles yearly.

Miss Hawkins has appeared as guest speaker in 168 towns of West Texas. She will also speak to the Loraine Lions Club luncheon at noon Tuesday.

Miss Hawkins is a graduate of the University of Texas with a degree in English and a Phi Beta Kappa membership key. She was a school teacher in Dallas for 2 years and was then a secretary for the Raeser-Pendleton Oil Company in Albany. She worked for the Community Service Company in Breckenridge before accepting her last position, Home Service Director for the West Texas Utilities Company in Abilene. She retired in December of last year.

For the Public Affairs Tea, Mrs. Bruce Johnson, club president, will preside. Mrs. Hal Bennett, club chairman of public affairs, will introduce the speaker.

# County HD Agent Schedules Weight Control Clinic Here

Mrs. Cricket B. Taylor, Mitchell County Home Demonstration Agent, announced today (Thursday) that a series of programs on weight control have been planned for all interested women of Mitchell County.

The programs are a part of the state-wide project being sponsored by the County Extension offices of Texas A&M College.

The programs have been planned by the County Foods and Nutrition Committee. Classes are to be conducted by Mrs. Taylor.

The classes begin Tuesday, Feb. 13, and are open to anyone who is interested in the weight control clinic.

The programs will outline plans for a basic pattern of eating that will maintain correct weight and insure good health, says Mrs. Taylor. The group classes will meet each week for a period covering 6 weeks.

Each meeting will include a roll call, weighing in, general discussion and meal planning.

For the first meeting, a local doctor will present "The Why, What and Dangers of Obesity.," followed by "Meal Planning for A Good Reducing Diet" by Mrs. Taylor.

Also on the agenda for the first meeting will be "How to Figure My Calorie Needs," which will be taken from the booklet, "Eat and Grow Slim."

Persons attending will decide on future meeting dates, reports Mrs. Taylor.

The second meeting will feature "Danger of Fad Diets, Food Fallacies and Superstitions" presented by a local doctor or Mrs. Taylor. A physical education teacher will speak to members on exercises to tone and firm muscles. Mrs. Taylor will lead a discussion on meal planning.

"Cooking for the Dieter and the Family" will be presented at the third meeting by Mrs. Taylor. The members will also plan menus at this meeting.

Two films, "The Medicine Man" and "The Owl and Fred Jones," will be presented to members at the fourth meeting of the clinic. Other menus will also be planned by the members.

The fifth meeting will feature a demonstration on low calorie desserts, refreshment plates and salad dressings by Mrs. Taylor.

A local doctor will present "Maintaining Normal Weight" and "Dangers of Continued Gaining and Losing Weight" at the last meeting of the class. Each member will determine daily caloric need to maintain weight and each will tell his plans for maintaining weight and planning menus.

HARLEM STARS

## Cage Clowns to Play Game Here

The hilarious, wacky Harlem Stars will be here Thursday, Feb. 15.

The Stars, billed as one of the funniest and greatest basketball teams in the nation today, will meet the West Texas Professionals at 8 p. m. in Wolf Gym.

The Stars' opposition is a team that will include some of the past greats from Wallace High School's top cage teams.

Colorado City Junior Chamber of Commerce is sponsoring the show — admission price is $1 per person.

Boid Bule, a 1-armed basketball court showman, heads the Stars.

A fun-filled evening of razzle-dazzle ball handling and rip-roaring comedy are in store for all o fthe county's basketball fans. The shenanigans will also include intricate routines of basketball genius along with planned and impromptu comedy spurts.

One thing is for sure — the Stars won't run up a high score on the local opposition. Not only will the Stars be facing some talented basketball players on the opposing team, but the Stars will also be devoting a great part of the time to comedy — thus the game should result in a close finish on the scoreboard.

The Stars began their tour in September in Alaska and will, perform in 36 to 40 states and several foreign countries, including Mexico, Canada, Australia, Japan and others, before the season and the tour ends.

'Bule calls his squad "basketball magicians." Razzle-dazzle ball handling, intricate pass patterns, trick shooting, marathon dribbling and impromptu comedy antics — all add up to a top basketball show.

Tip-off time is 8 p. m. Thursday, Feb. 15, in Wolf Gym. Don't miss it.

MEN'S CITY ASSOCIATION MEET

## Bowling Tournament Opens Here Saturday

Colorado City (men's) Bowling Association's second annual handicap bowling tournament opens at Crown Bowl, north on State Highway 208 (to Snyder,) Saturday.

Entries closed in the $100-added tournament midnight tonight (Thursday.)

Four events are offered in the big meet — team event, doubles (2-man,) singles and all-events. All Colorado City Bowling Association members are eligible for competition in the event — other bowlers may enter only by joining the local association and paying the $1.50 local association membership dues.

**Art Dibble, City association secretary, is tournament director.**

**The full schedule of bowling will be listed early Saturday at Crown Bowl.**

**Competition in the tournament will continue Sunday of this week and the following week end Saturday and Sunday, Feb. 10 and 11.**

Handicap allowed is 75 per cent of the difference between a scratch score of 200 and the entrant's highest league averages — for at least a total of 12 league games — as of midnight Wednesday. Any bowler without the required league average may use his last year's league average here or enter the events scratch.

Entry fee is $2.50 per bowler per event in team, doubles and singles. All-events, which is optional, is $1 per bowler and may only be entered once. Earliest rolled games in each event, in case of multiple entries, will be used in scoring all-events totals.

The local association has added a total of $100 to the prize money. The $100-added is allotted to each event.— $40 to the team event, $20 to singles, $30 to doubles and $10 to all-events.

**From each individual $2.50 entry, $1 shall be returned as prize money. The remainder is used for expenses $1.35 for games bowled and 15c go toward defraying tournament expenses. The entire $1 all-events entry fee shall be returned as prize money**

**Prize money will be refunded to 1 in every 10 entries.**

Prize money will be returned in team event in this manner:

First place, 60 per cent; second place, 30 per cent; and third place, 10 per cent.

Singles, doubles and all-events prize money will be returned thusly:

First place, 40 per cent; second place, 20 per cent; and 40 percent remainder divided among 1 in each 10 entries.

Results in last year's first City Tournament were:

Team event — Kirschbaum's Classic League, 2630 scratch, plus 378 handicap, 3008 total pins, $61 in prize money.

Doubles event — M. Majors and Alton Myers, first, 1076 scratch, plus 222 handicap, 1298 total pins, $28.20 prize money; C. Greaves and O. D. Carter, second, 1004 scratch, plus 288 handicap, 1292 total pins, $18.80 prize money.

EIGHTH SUCCESSIVE WIN

## Cat Cagers Beat Slaton, Abilene

The rampaging Wallace Wildcats continued to roll Friday and Saturday nights with victories over both Slaton and Abilene.

The Saturday night triumph was the eighth in a row for Coach W. D. Harris' cagers.

The Cats beat Slaton in a conference battle, 99-45, Friday night to keep their conference record unblemished. Wallace is now 3-0 in conference play.

Saturday night's non-conference victory was sweet revenge for Wallace as they beat Abilene 75-64 — the Abilene cagers own an earlier victory over the Cats.

Curtis Scott led the Cats in the scoring department and they handled Slaton easily Friday night. Scott hit for 35 points — easily enough points to lead the games scorers.

Slaton was only in the game the opening minutes before the massive Wallace power began to pull out of reach. Slaton had the lead in the contest only once, 5-3, in the opening minutes.

In other Wallace scoring against Slaton, Henry Burton looped in 23 points, Frank Biggers had 20, Eddy Campbell sunk 7, Oscar Amos hit for 6, Jesse Burton tossed in 4, and Howard Belvin and Harlice Lewey each scored 2.

Slaton was led by H. Smith with 12 and B. Lamar with 10.

The Cats did a top defensive on Abilene's scoring ace, Connie Jones, in their revengeful 75-64 win Saturday night. Leading the defensive charge against Jones was Jesse Burton, who drew Jones in Wallace's man-for-man defense, and Burton also found time to drop in 10 points for the Cats along with his outstanding defensive efforts.

Henry Burton led the Cats and the game's scorers with 30 points in the contest. Larond Daniels led Abilene with 24.

In other Wallace scoring, Curtis Scott hit for 20, Frank Biggers scored 12 and Oscar Amos added 3.

In the B-team contests, Wallace topped Slaton's B-squad 58-36 and lost to Abilene's B-team, 56-43.

Wallace ended its district schedule in Lamesa Tuesday night. They journey to Vernon Thursday for a best 2-of-3 series to determine which team enters the state playoffs.

Three Wallace Wildcats hit in the double figures last Thursday night to pace the Cats to their second conference basketball victory in as many games.

The Cats beat Lamesa 85-40 as Curtis Scott led the scoring parade with 28 points — he dunked in 15 of those in a wild third quarter when Wallace shattered Lamesa's defenses for 31 points.

In other Wallace scoring, Henry Burton accounted for 23 and Frank Biggers added 20. E. Berry's 13 was the high effort for Lamesa.

In a game earlier in the night, Lamesa's seventh and eighth graders beat the Wallace Junior High cagers, 37-31.

Curtis Taylor led the host Wallace youngsters with 14. E. James hit for 12 to lead Lamesa. Other Wallace starters were Jimmy Scott, Melvin Williams, Jimmy White and R. J. Green.

OPPORTUNITY . . .

Next time someone belittles our town town for opportunity, have him to take a look around.

Tom Neff, whose expanding interests include ranch cattle and livestock sales . . . Ben Sparks and Bill Hudson, the dirt contractors and property owners . . . award winning Chamber President Seth Cowan and City Councilman John Chinn of the medical profession . . . are just a few who are proving every day there's plenty of opportunity here for the young folks.

These energetic young citizens "on the way up" are all making our town a better place to live, too.

## Opportunity: Only One In A Million

The Chamber of Commerce's new, attractive brochure publicizing Colorado City "in the middle of a million people" deserves applause.

It fills a definite void in our communications toward community trade and industrial contacts.

At the same time, the brochure—with accent on livability as well as economic assets—serves up a loud reminder for Colorado City's potential as a home for traveling industrial and business personnel.

Sure, the brochure is not aimed for single-minded purpose. The approach is for information and illustrations that can be useful for any person, firm or group that may have its eye for relocation, new site or development.

But that's where the idea for traveling personnel is so obvious.

Like the brochure points out by word, map and picture—Colorado City is a community in the heart of the most economically blessed area of West Texas. Our community is in the center of a circle of a million citizens. We are the hub for the circle that includes Lubbock, Wichita Falls, Abilene, San Angelo, Odessa, Midland and all the rest.

Our location—connected by super highways, transcontinental railroads, buses and freight lines—is second to none in this area.

So, by location and transpartation we are unmatched in ability to serve and contact this great West Texas circle of a million people.

Even more, our assets for good living—small town with parks, our fishing and boating lakes, our churches and schools—are extra measure heaped upon this key location.

In fact, we are a good place to live with recreational facilities second to none.

And, with this knowledge, why shouldn't we proudly, factually sell our community as a better than just a good place to live?

There are "traveling" men who live here now with their families. They use Colorado City's key location in their business and industrial work over a wide area of Texas. Their families like their homes here.

We are missing a bet if we don't organize to acknowledge them and attract others like them. For they are good citizens, good assets.

Pool 'em together and you can describe them as an "industry," for the incomes of 25 traveling men—although their pay checks may come from 25 separate companies—are equal to the payroll of one or more industries.

Here's the suggestion that we are missing a wonderful opportunity "in the middle of a million people" if we don't organize ourselves and these traveling men who already live here . . . if we don't organize to contact more of them and show them our assets.

## City, Gins Now Approaching Right Path

Hooray for the attitude of the joint discussion between city officials and representatives of Colorado City's cotton gins.

It's good to see the 2 groups sit down together in friendly, cooperative manner and talk over their problems.

Mutual concern and exchange of ideas is the best approach for any problem.

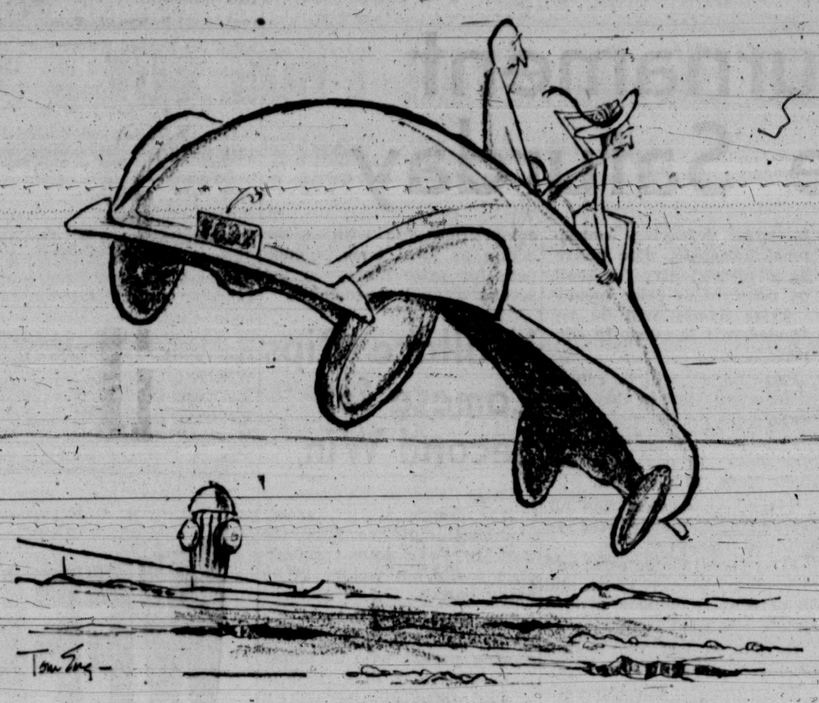

During recent months misunderstandings have almost developed something of a breach in the relations between City Hall and the gins. And this shouldn't be.

Discussions like the one last week in City Hall—carried out with respect and concern for each other—are good for erasing misunderstanding and creating avenues for mutual concern.

The more of this kind of exchange, the more there will be understanding that the gins have industrial investments that are valuable to this community and operational - financial problems which must be respected.

And, the more, too, will be understanding that a city with its closely-knit community of business and living must be concerned with fire hazards and health problems.

STATE CAPITOL NEWS

## Some Scraps End, Others Continuing in Legislature

BY VERN SANFORD
Texas Press Association

Gov. Price Daniel's long fight over reporting unclaimed property to the state for escheat has ended at last.

So has the argument over rural roads policy.

But the scrap over the question of what to do about regulating loans, interest rates and lenders is not yet settled. And it may not be for a long, long time.

The Legislature has settled the escheat and road policy questions. Also it has partially solved the advertising program for tourists, juvenile parole and repair of the San Jacinto Monument.

Money problems were eased when Comptroller Bob Calvert estimated that the escheat reporting law passed last year will yield at least $300,000 during the next 20 months. He put no estimate on the bank reporting law just laid on Governor Daniel's desk for certain signature into law.

When the Legislature meets, growing Texas brings a pack of problems to Austin for it to solve.

High Plains irrigation farmers are quarreling with their gas company. They want its rates regulated. Sen. Andy Rogers of Childress and Rep. H. G. Wells of Tulia tussled a bill through both houses to let the farmers appeal to the Railroad Commission, just as cities can do, if the gas company increases its rates.

San Angelo and Edinburg got favorable reports from the Commission on Higher Education on making San Angelo College and Pan American College, now locally supported, part of the state system of colleges in 1965.

They came to Austin to get the Legislature to pass the necessary laws, and make the state take over support of the colleges. House of Representatives went along with both proposals.

But Sen. W. T. Moore of Bryan, down in A&M country, thinks Texas has enough state colleges already. So, he used the filibuster to fight the 2 new college bills to a standstill.

* * *

**ROADS PAVED** — State Highway Commissioner Herb Petry Jr. complimented the Legislature on passage of the Farm-to-Market Road bill. He announced new projects as soon as Governor Daniel's signature was on the bill.

The Commission approved $135,000 worth of surfacing work on highways in Cameron and Hidalgo counties and an $82,000 highway contract in Cameron County. Within the next 60 days they will try to schedule more than $1,000,000 of work on U. S. 83 in the Valley and $500,000 for road work in the Valley.

Senators Bob Baker of Houston and Neveille Colson of Navasota appeared before the Highway Commission to urge approval of a 4-lane highway between Hempstead and Houston. The Senators reminded the Commission that they had helped pass the road bill which frees funds for primary roads.

**MANY HUMOROUS** remarks were made at the Chamber Banquet last week — most directed toward **DR. SETH COWAN** who not only walked off with honors as the Jaycees' 1961 Distinguished Service Award Winner, but also the award as the Chamber's Outstanding Member of 1961.

But the leading remark of the night was missed by most . . . .

As Dr. Seth was leaving Civic House, an unidentified person walked past him and muttered with deep regret:

"Sorry you were overlooked, Seth."

Seems a young lady walked into the offices of **MAJORS AND MAJORS**, optometrists, 157 Elm St., and was ushered into **DR. MARVIN MAJORS'** quarters for an eye examination.

Said Dr. Majors, "Have your eyes ever been checked?"

To which she replied, "Oh, no, they've always been brown."

Now hear this, Gus says he's retiring from the predictions department and his capacity of general news reporter to any and all local citizens. He says he'll know only what he reads in The Record and hears on Radio Station KVMC . . . .

Lots of luck, Gus.

Gus'll be back . . . they all try to retire after a "good year," but then always do to make a comeback.

LOCAL BUSINESS

## Make Use of That Advertising Space

BY MADGE BELL
Record Staff Writer

No one is more interested in knowing that advertising brings good results than the local newspaper publisher.

The publisher knows that advertising can pay. His whole fortune is staked on this belief.

However, publishers who have investigated the results of advertising know that some retailers do not make full use of the space they buy. One research study showed that one advertisement may be 14 times more effective than an advertisement of the same product using the same amount of space.

When results in newspaper advertising vary the difference can usually be traced to the information contained in the advertising copy. Invariably, effective advertisements contain complete information while ineffective copy is general, incomplete and unspecific.

Compare the following want ads run by an automobile dealer:

"Chevrolet, 1958 Bel Air 4-dr., V-8 R&H, Radio, Heater, tutone, good tires, 40,000 miles. $1195." The other advertisement on the same automobile read: "Late model Chevrolet in good condition, accessories, low milage. Bargain."

The advertisements were keyed to check responses. The first advertisement brought 76 responses and sold the automobile the first day. The second ad brought 2 casual inquiries.

This dramatic difference was due to the fact that the first item answered questions of real prospects. Good advertising copy, then, contains the same information a good salesman gives when he deals with a customer personally. Few people can be moved to act by incomplete generalizations.

HEALTH AND SAFETY TIPS

## Don't Put Off Vaccinations

Give your family a gift this week that might save their lives.

If you've been procrastinating about taking the kids to the doctor for their vaccinations, don't put it off any longer. And while you're taking the kids, ask yourself — How long has it been since I had any shots myself?

Every year many children and adults become seriously ill — even die, because they or their parents have neglected to take advantage of protective vaccines that have been in common use for many years and are available in every family doctor's office.

For years diptheria, whooping cough and tetanus have been prevented by a triple vaccine routine given to babies. The doctors call it "DPT." (The technical name for whooping cough is pertussis.) A vaccine against polio has been available for 6 years and is routinely used. Smallpox vaccination has been known for more than 150 years and has just about wiped out the disease in many areas of the world.

And yet there still are a lot of us who aren't protected against all 5 of these diseases. We are taking an unnecessary risk of illness or crippling or death.

When should you get these shots? If you haven't already had them, see your doctor right now and follow his advice. An article in the January issue of Today's Health, the magazine of the American Medical Association, lists schedules of immunization against these diseases, as recommended by the American Academy of Pediatrics.

The DPT shot is first given at the age of 6 to 8 weeks. The first polio shot is given at the same age. The smallpox shot is recommended at 6 to 12 months. Some physicians now are using a 4-way vaccine that wraps up DPT and polio into 1 shot.

But the first shot doesn't complete the job. DPT is given 3 times, at intervals of 4 weeks, followed by boosters at 12 months and again at 4 years. Three shots of polo vaccine (the Salk type) are recommended, also at 4-week intervals, with a booster at 12 months, again at 2 years and every 2 years thereafter. Smallpox boosters are recommended every 5 years or following exposure.

SHINNERY PHILOSOPHER

## Canada's "Cold" Foreign Policy

Editor's note: The Shinnery Philosopher on his Johnson grass farm on Bone Hollow Creek discusses foreign policy this week, or cold weather, it's hard to tell which.

* * *

Dear editor:

People are always talking about the United States' foreign policy, especially when they can't figure out the answers to all our domestic problems, but as far as I'm concerned the country with the worst foreign policy on earth is Canada.

It's those Canadian cold fronts Canada is always pushing down on the United States, that's what I'm talking about.

When the forecast announces a Canadian front is heading this way, you can expect the worst. I know we can produce some cold spells on our own, a low can develop in one part of the country and sweep cold air down on another, or however it works, but when it comes to the really jolting cold waves, Canada has us beat. There's a weather gap between our cold and Canada's that makes the missile gap look tame.

In fact, so many cold fronts have been coming out of Canada this winter you'd think we'd been sending foreign aid up there and missed our December installment.

Speaking of foreign policy, non-weather variety, there's one thing that has been puzzling me for a long time. Washington experts are always worrying about how a course of action will affect some foreign country. "What will they think of us in Latin America if we do this or that?" they ask. Or, "How will this affect South Africa's opinion of us? We can't afford to make them mad at us."

Well, this is all fine and good, but what I'd like to know is: does any other country on earth ever stop to ask how its course of action will affect the United States? How is it that we can't afford to make them mad, but they can all afford to make us mad? Isn't there just one country in the world which occasionally sits down and ponders how it's getting along with us? You mean to say the friendship between the United States and the rest of the world is 100 per cent one-sided?

I wish you'd use your influence if you haven't mislaid it somewhere on your desk to start a world-wide search for just one country which wakes up some mornings wondering how it's getting along with the United States. If you find one, let me know, and we'll take up a collection to send somebody there to get acquainted. Meanwhile, I won't hold up my farm work while waiting. I have plenty of other reasons for holding that up.

Yours faithfully,
J. A.

# CONVERSATION CORNER

By RUTH COFFEY

**OUR MUSEUM,** which is housed in the Legion Hut and deserves a rapt visit from you, your friends, and visiting relatives, has as its courteous custodians the **R. C. Blockers.** "Mr. and Mrs. Bob" make their home in the Hut apartment where, they declare, they manage to keep both comfortable and busy.

Year before last a miracle came to Bob with a knock on their door. There stood his son whom he had not seen in 27 years. The younger Blocker makes his home in Lubbock. Casual exchange of names with a local service station sent son seeking father from whom he was separated by circumstances when a small boy. The two knew each other instantly and visit frequently now.

**LOIS BURNS** (Mrs. Douglas) who lives in that well-kept, beautifully furnished old house, corner of Chestnut and East 4th, is new publicity chairman for the **Historial Museum.** If past performance of service "beyond the call of duty" (when she was production chairman for the Red Cross during World War II) is any criterion, she'll fill her post with the most.

* * *

**F. M. BURNS,** Lois's father-in-law, was a well-remembered part of early C. City business history. Pioneer merchant, he did business on what's now the **Max Berman** corner for nearly 50 years. Did you know that cowboys used sometimes to make camp in the old Burns Store?

Honest hearts of early cow punchers were so trusted Burns used to leave his store open to them and their bed rolls, go home without locking up, when long-ago C. City was over-crowded. Next morning he and his clerks would go down for business as usual. And not so much as one sack of tobacco was ever disturbed.

* * *

**NOW-A-DAYS** everything and everybody is disturbed, first one way and then another. Group of young Italian psychology students in Rome are disturbed because a poll shows "men are becoming timid and dependent because of stresses and strains of modern life."

"And women don't like it because it should be women's privilege to be shy and retiring and to blush occasionally, they lament.

* * *

**LAST TIME** we recall blushing was the night some gay-twenties teen-agers learned to do the toddle so well one couple toddled right off the high front porch into a rambler rose. The toddle, just before the Charleston, was a stepped-up version of St. Vitus done to "Aggravatin' Papa" or "You Gotta See Mama Every Night."

People who toddled are in no position to view with alarm the twist. Specially people who were shy and retiring that time just long enough to brush brambles from the Clara Bow bob.

## "Exodus" to Open Here at Palace Sunday

Otto Preminger's production of "Exodus," film version of the international best - seller, will start its local engagement Sunday at Palace Theatre.

"Exodus" stars Paul Newman, Eva Marie Saint, Ralph Richardson, Peter Lawford, Lee J. Cobb, Sal Mineo, John Derek, Hugh Griffith, Gregory Ratoff, Felix Aylmer, David Opatoshu and Jill Haworth.

It was filmed on location in Israel and Cyprus in Technicolor and Super-Panavision. Otto Preminger produced and directed the film from a screenplay by Dalton Trumbo, based on the Leon Uris novel.

The novel, "Exodus," which was a hard-cover best - seller for more than a year and half, also has sold more than 6,000,000 copies in paperback. The motion picture is set in the turbulent times when the Israeli underground was battling the British and the Arabs in the struggle for independence.

Ralph Richardson is the British General, sympathetic to the cause of the Jews. Peter Lawford is the unsympathetic British army officer. SalMineo plays Dov, the young terrorist. Jill Haworth, the pretty 14½-year-old girl whom Preminger discovered in a London drama school, portrays Karen.

## Sports Slants

By Connell and Womack

Wolf basketballers have been working hard. Perhaps the 0-3 record against them does not show a true picture.

Highly-rated Snyder Tigers who have averaged close to 80 points a game came from behind to defeat the Wolves 40-39 last Friday night in Snyder. Wolves dropped the game in the last quarter after holding a 16-8 lead at halftime.

Senior Steve Hillhouse, Wolves leading scorer for the season, led the Wolves attack against Snyder with 18 points. Sweetwater Mustangs defeated the Wolves 67-48 in the first district game. Lamesa defeated the Wolves 47-33 Tuesday night in Wolf Gym.

Wolves have been playing without their second leading scorer, junior standout Charlie Houston. He has been suffering from an injured foot and doesn't know when he will return to action.

## Glancing Back at Howl Night

By Ann Sellier

Annual Howl Night, highlight of each year's activities, is a memory, but the beautiful "Southern Plantation" backdrop drawn by Richard Harrison and Jim Womack and painted by journalism students will be a cherished memory of high school days.

Looking back on that spellbound night, we see King and Queen Howl, Jim Womack and Gayle Hart, surrounded by their court. We see the fine entertainment given the royalty by the Colonial Debs: Jean Findley, Annette Freeman, and Carol Ellis, Roving Troubadors; Donald Browne, Calvin Bell and Henry Ross; River boat Revelers: Roger Richards, Max Connell, Richard Smith and Bill Boren; Mardi Gras Maids: Janie Lee, Helen May and Ann Sellier; and the traditionally fine cheerleaders' dance. Gayle Hart, Lynda Carter, Sandy Landau, Sue Ann Welter, and Cecilia Lee were the Southern Quill and Scroll pledges are full-fledged members now, having received their pins, membership cards, and lecture from president, Shana Noble and Mrs. Gerald Gordon, sponsor.

Reception in the homemaking suite closed the door on fourteenth annual Howl Night leaving us with but a memory of all the magic moments.

## Groundhog Predicts Weather

BY BRENDA BELL

Marmofa mamox is scheduled to make his first appearance in several months, February 2. For those who are unscientific, marmota mamox is the scientific name for the common groundhog, the little rodent that predicts the weather every February, 2, Groundhog Day.

If the day is sunny and the groundhog sees his shadow, six more weeks of winter are on the way. But if it's cloudy, as everyone knows, groundhogs everywhere come out of hibernation, for there'll be no more winter weather. This is the way tradition has it, anyway!

"Actually, the groundhog doesn't have much to do with February second, since Groundhog Day is just the American version of a very old tradition in the Old World. In Europe and other countries, the day is Candlemas, a church celebration begun in 542 in commemoration of the presentation of Christ in the temple (celebrated by the East) and purification of the Virgin Mary (main theme of the West.) European farmers would begin spring planting about that time, and it was important to know if there would be an early spring or not Centuries-old tradition says a sunny Candlemas means a cold spring.

And by the way, if a marmota mamox isn't available for your Groundhog Day, a ursus americanus (bear) or taxidea taxus (badger) will do just as well. They are supposed to have equally good forecasting powers.

## Future Teachers to View Movie ; Plan Austin Meet

Future Teachers of America will meet February 7, in the auditorium to see a film.

One of the following will be shown:

"A Shoebox Full of Dreams", "Will We Have Year 'Round Schools?", "How Much Homework Is Enough?".

"A Shoebox Full of Dreams" is the true story of Billie Davis, a migrant child who found that education was the road to fulfillment. It shows through dramatic, heart-warming episodes how school changed Billie's life . . . thanks to kind and understanding teachers.

"Will We Have Year 'Round Schools?" presents the opinions of experienced educators on the following questions: "Are we overemphasizing the gifted at the expense of the average child?". Whether or not parents of average children should be concerned or elated over the current stress on programs for gifted youngsters. "What do physical fitness tests measure?" How are such tests given and how are they used. "Will we have year 'round schools?" Pros, cons, problems and methods for achieving year 'round school program of instruction are presented. "How can a parent best criticize a teacher?". What teachers are most interested in hearing from parents? "What is educational television?" It presents a school district's classroom television set-up, and how it is used.

"How Much Homework Is Enough?" is a program that presents the opinions of experienced educators on the following questions: "Do you teach the alphabet?" Parents seem to think teaching of the alphabet has been abandoned. Validity (or lack of it) of this criticism. Usefulness of teaching the alphabet. "Do you think school district consolidation improves education?" Some think that, by moving the school out of the community, citizens lose a feeling of identity with their schools. How has consolidation affected school bus transportation? "How much homework is enough?" How much homework should be given at various grade levels and what kind of homework should be given. How much help, if any should parents give? "Is there an over-emphasis on science and math today?" Whether or not science and math are being stressed at the expense of the humanities in our high schools today. "Should there be a different teacher for each subject in our elementary schools?" Such a system, called departmentalization, is under consideration. Its disadvantages and advantages are discussed here.

Plans are being made for several students to attend the state meeting which will be held in Austin this month.

## Are You Lax In Giving Credit

"Credit where credit is due" is something we try to practice on The Howl.

Who made the beautiful backdrop for Howl Night has been asked many times.

While Richard Harrison was stage manager, he had a right hand man in Jim Womack that couldn't be exceeded.

"Having to create something out of nothing was the greatest obstacle we had to overcome," stated Richard. Actual construction of the set was the most difficult. Cardboard had to be nailed to a frame and seams taped.

Work on scenery actually began early in January and continued up until the afternoon of Howl Night. Richard and Jim spent approximately 80 hours in the constructing, drawing, and painting of the large colonial house.
