

Argentine Ship Sinks After Collision

The new Argentine motorship Maipu lists badly shortly before sinking following a collision Nov. 4 with the U. S. troopship Gen. M. L. Hersey (left foreground) in the fogbound North Sea. All 238 persons aboard the Maipu were saved. This picture was taken by Clinton C. Crum, staff photographer of the Providence (R. I.) Journal and Bulletin, who was aboard the Hersey. The troopship was carrying more than 2,700 troops of the 43 U. S. Infantry Division to Germany for duty. The Hersey was slightly damaged. (AP Wirephoto via radio from Frankfurt).

U. S. Seeking To Ward Off Rail Strike

Tiup Is Called For Thursday On Four Major Lines

By NORMAN WALKER WASHINGTON, Nov. 6. (AP) — A rail union called a strike today for next Thursday on four major railroad facilities. The government promptly acted to head it off.

The walkout on three rail systems and at the St. Louis Terminal was ordered for 3 p.m. Thursday by David B. Robertson, president of the Brotherhood of Locomotive Firemen and Enginemen. Shortly afterwards, Chairman Leverett Edwards of the National (Railway) Mediation Board sent a message to the White House saying an emergency existed under Railway Labor Law.

This enables President Truman to create a board to look into the issues of the dispute and recommend settlement terms. Under rail labor law, the union is committed, once the board is created, to refrain from a walkout for 30 days while the board holds hearings and writes its findings, and for 30 days thereafter.

Thus, naming of an emergency board by President Truman will postpone any strike for up to 60 days. Robertson said a strike is "the only course left open to obtain long overdue increases in wages and improved working conditions." The dispute has been going on for two years.

All major railroads have been under government seizure some time. This makes the employees technically government workers. The government quite probably will seek a court injunction to stop the strike before it begins.

Failure to obey a court order would lay the union and its leaders open to contempt penalties. The strike was termed a "progressive" one, meaning that while the walkout initially was to affect four key railroads and their subsidiaries, other rail systems could be struck later.

The four lines ordered struck are Chicago and Northwestern, including the Chicago, St. Paul, Minneapolis and Omaha railway. Terminal Railroad Association of St. Louis.

Also, including the Buffalo division and the Buffalo and Susquehanna district. L. & N. The union represents 105,000 rail firemen, enginemen and yardmen, but only a maximum of 75,000 are affected in the dispute. The union said Oct. 24 a membership vote favored a strike ten to one.

Reds Ask Fight Halt Without An Armistice

Unites Withdraw From Tank Attack

United Nations forces gave up two key hills west of Yonchon (A) after elements of a Chinese division (open arrow, left) launched a tank-led attack. In the air war in northwest Korea (B) the U. S. Fifth Air Force said its jet pilots shot down two MiGs, probably destroyed two and damaged six in three fights in one day. The only action reported on the central front was a platoon-sized Red attack southeast of Kumsong which was repulsed. (AP Wirephoto Map).

UN Won't Do It, Spokesman Says

MUNSAN, Korea, Nov. 6. (AP) — The United Nations command spokesman said today the Reds want to call off the fighting in Korea without signing a formal armistice. The U. N., he said, will have none of that.

Brig. Gen. William P. Nuckols, the spokesman, said the Reds tipped their hand Tuesday when they rejected the latest Allied proposal. That was an offer Monday to set aside the stalemate cease-fire buffer zone issue for the moment and take up other items that must be settled before a formal armistice can be signed.

The Reds demanded, Nuckols said, immediate "final formal solution" of the buffer zone matter before proceeding to the rest of the agenda. Nuckols said he felt the Red rejection was flat and final. Asked how final he thought it was, Nuckols replied: "Only time will say how irrevocable it is."

Speculation was that the Reds wanted an unofficial armistice to get relief from Allied air poundings, because it might pin down a great amount of the West's military forces, and because they can't stand another U. N. offensive. Nuckols said the only incentive that makes the Reds keep talking is "continuing pressure of possible hostilities."

Nuckols gave this personal opinion: "A de facto cease-fire without achieving other essential conditions for an armistice, including stipulations of war now in enemy hands, is not even being considered by the United Nations command delegation." "I don't think the United Nations has any intention of walking away from Korea and leaving several thousands of its men prisoners in enemy hands."

Nuckols said Red rejection of the Allied proposal was in effect a turn down of a previous understanding between the Communists and the U. N. — that hostilities would continue until an armistice was signed and that any buffer zone agreed upon before an armistice was only tentative and subject to final revision.

Immediately after Tuesday's single session, Maj. Gen. Henry I. Hodes, chief of the U. N. buffer zone subcommittee, said the Red rejection was "not a finale, formal, irrevocable rejection." Nuckols, however, said he felt the turn-down was flat and final.

The U. N. delegation suggested cancelling the regular afternoon meeting when the Communists declared they would be unable to return to Panmunjom from Kaesong by 3 p.m. "They were quite happy at the suggestion," Hodes said.

Red Infantry Captures 3rd Hill From UN

By GEORGE A. McARTHUR EIGHTH ARMY, Korea, Wednesday, Nov. 7. (AP) — A lousy battle for a shell-pocked hill position on the Korean Western Front raged from midnight to dawn Tuesday with Chinese Communists reported successful in overrunning Allied defenses.

Action quieted during daylight hours Tuesday. Allied patrols sloping through ankle deep mud made only one contact with the enemy — an exchange of small arms fire at long range. There was no estimate of casualties. Two Allied units were overrun.

The Battle of the Western Hills, launched Sunday by tank supported Chinese troops, gave the Reds possession of three hills north and west of Yonchon. Three other hills won by the Reds were recaptured. The three-day Red offensive spread through drizzling rain over a 20-mile sector. Attacking Reds were supported by their heaviest display of armor in months. They hit United Nations forces from both sides of Yonchon, eight miles north of the 38th Parallel, to the hills north of Chon, western anchor of their old Iron Triangle.

In the center waves of Reds struck from two directions behind a heavy barrage and captured their third peak. The attack opened with a heavy concentration of fire from mortars, artillery, tanks and self-propelled guns. The assault drove Allies from their muddy foxholes atop the hill northwest of Yonchon.

West of Yonchon counterattacking Allied infantrymen were stopped in an attempt to recapture two hills the Reds overran in a vicious eight-hour battle at the start of their assault Sunday. The U. N. infantrymen fought to within 500 yards of the crests, under fire of 22 Red tanks.

There they were stopped. Waves of Reds stormed down from the peaks, trying to shove the Allies off the slopes. U. N. troops cut them down and held their positions. U. N. forces withdrew from two hills north of Chonwon after a midnight attack by two Chinese battalions. The Allies stormed back after daylight. They found the hills deserted.

The third hill won and lost by the Reds is southwest of Yonchon. The Chinese attacked behind a rocket barrage, supported by four tanks. A counterattack drove them off. The fighting sector reaches to a point scarcely 20 miles from the truce table village of Panmunjom. Red forces were probing lightly into U. N. positions from the western sector to the East coast. At the extreme eastern end of the front South Koreans broke up a Red attempt to recapture a hill south of Kosong, 45 miles north of the 38th Parallel.

The new Red offensive opened after a month of U. N. attacks which cost the Communists 74,758 casualties.

Urge Big Three Meet At UN Paris Meeting

By MAX HARRELSON PARIS, Nov. 6. (AP) — President Vincent Auriol of France opened the sixth session of the United Nations General Assembly today with an appeal for a Truman-Churchill-Stalin meeting in Paris during this session to discuss world tensions. The French president did not mention Prime Minister Stalin, Prime Minister Churchill or President Truman by name, but said a meeting of the three in private and within the scope of the U. N. could make progress at easing tensions.

Soviet Foreign Minister Andrei Y. Vishinsky was at his desk in the hall as Auriol spoke. So were U. S. Secretary of State Dean Acheson, British Foreign Secretary Anthony Eden, and French Foreign Minister Robert Schuman. Big Three spokesmen would say only that the foreign ministers discussed all items on the Assembly agenda, plus "other general questions."

Vishinsky indicated Stalin would make no decision on the proposal for a top-level meeting until he had received a formal invitation. It was assumed Auriol intended the proposal to include France, thus making it a Big Four meeting. In London, a British Foreign Office spokesman said Britain would welcome any move toward easing East-West tensions. He said Auriol's proposal "is one, however, that will need careful study. Churchill long has championed a direct approach to Stalin on East-West frictions."

Egyptians, British Shoot; Nobody Hurt

CAIRO, Nov. 6. (AP) — Egyptian civilians and British soldiers fired on each other without hurting anyone today outside Ismailia in the Suez Canal Area, a British military spokesman reported. The shooting was said to have occurred at the Nefisha Bridge near a British anti-aircraft emplacement.

The spokesman said two English-speaking Egyptians approached two British soldiers and demanded they "come forward and surrender."

Firemen Busy With Blazes

Three fires of minor consequences, which occurred within a space of 12 hours, kept local firemen on the run last night and this morning. At 7:15 p.m. Monday, fire boys were summoned to the street immediately east of the Douglas hotel, where a car had caught on fire.

This was followed by a burst of automatic fire from the Egyptians, said the spokesman, and the British then returned the fire. The spokesman said there had been a sharp increase of incidents between Egyptians and British troops. Egypt has repudiated the treaty which permits the British to maintain defense of the canal.

Royalty Begins Maritimes Tour

FREDERICTON, N. V., Nov. 6. (AP) — Princess Elizabeth and the Duke of Edinburgh began their tour of Canada's Maritime Provinces today after receiving a warm boobybye from Quebec. Ahead was a busy day in Fredericton, New Brunswick's capital. They will reach the port city of St. John in mid-afternoon.

Although the cause of the blaze had not been determined, it is believed to have started around a heating unit on the second floor. A \$67,000 remodeling project for the building had been completed only two months ago. The building was covered by insurance.

Resume Search For Man In Big Bend

ALPINE, Nov. 6. (AP) — Officers resumed their search today for Dr. Robert N. Roth who disappeared in the Big Bend National Park in 1947. Dr. Rose Maxwell said Monday the FBI laboratory had reported that bones found near North's abandoned car were not those of a human. The FBI said the bones came from "a member of the deer family."

The former Lansing, Mich., osteopath's car was found last September stuck in the sand of a dry gulch.

City Tax Collection Runs Ahead Of '50

City tax collections for the month of October were slightly ahead of those for the same period in 1950. Tax Collector Perry Johnson reported. The 1951 collections amounted to \$156,022.83, or 68 per cent of the total, through Oct. 31, compared to \$152,535.30 for October of 1950, Johnson said.

School Hit By Blaze At Colo. City

COLORADO CITY, Nov. 6. (Sp) — The Hutchinson Elementary school building here was reduced to a shell by a blaze which swept through the structure Monday night. The fire started at about 10:30 p.m. and destroyed the contents and interior of the building before it was brought under control. Damage was estimated at \$150,000.

TRUMAN SAYS European Problems Brought Ike Home

WASHINGTON, Nov. 6. (AP) — President Truman said today it was problems of European economic stability, growing out of the rearmament effort, that brought Gen. Eisenhower to Washington. "That is the reason — all the speculation to the contrary — that is the reason General Eisenhower came to see me," Mr. Truman told the National Society of Cartoonists.

The President went to the Statler Hotel to address the cartoonists and to thank them for help in defense bond drives and other government programs. He did not go into details of the problems talked over with Eisenhower Monday.

Implicit in his remarks, however, was the question whether U. S. Allies in Europe can go through with the rearmament programs they have tackled without upsetting their economies. As the President spoke, Eisenhower was preparing to return to his European Defense Command in France.

Up early, Eisenhower had breakfast with Gen. Walter Bedell Smith, head of the Central Intelligence Agency, and went out to the Pentagon for final conferences with military leaders before boarding his plane. By implication, Mr. Truman's remarks to the cartoonists contained a sharp rebuke to Congress for cutting his proposed economic aid to Europe, and refusing to give him all the anti-inflation powers he had asked.

"Saying he feared 'much trouble,' Mr. Truman declared that

TRUMAN SAYS

European Problems Brought Ike Home

WASHINGTON, Nov. 6. (AP) — President Truman said today it was problems of European economic stability, growing out of the rearmament effort, that brought Gen. Eisenhower to Washington. "That is the reason — all the speculation to the contrary — that is the reason General Eisenhower came to see me," Mr. Truman told the National Society of Cartoonists.

The President went to the Statler Hotel to address the cartoonists and to thank them for help in defense bond drives and other government programs. He did not go into details of the problems talked over with Eisenhower Monday.

Implicit in his remarks, however, was the question whether U. S. Allies in Europe can go through with the rearmament programs they have tackled without upsetting their economies. As the President spoke, Eisenhower was preparing to return to his European Defense Command in France.

Up early, Eisenhower had breakfast with Gen. Walter Bedell Smith, head of the Central Intelligence Agency, and went out to the Pentagon for final conferences with military leaders before boarding his plane. By implication, Mr. Truman's remarks to the cartoonists contained a sharp rebuke to Congress for cutting his proposed economic aid to Europe, and refusing to give him all the anti-inflation powers he had asked.

PRESENT JOB VITAL

If Time Comes, Ike Will Speak

WASHINGTON, Nov. 6. (AP) — Gen. Eisenhower said today that "if the time ever comes" for him to speak out on politics he'll do so immediately. He declared, however, that "as of this moment" his job as Supreme Allied Commander in Europe is much too important for him to take any political stand.

He held a news conference no one has been authorized to act for him in an Eisenhower-for-President movement, adding that if he feels it is his duty to speak, "no one will need to speak for me." Eisenhower said he spoke on the telephone — presumably earlier today — with Senator Duff (R-Pa.), a leader in the drive to get the Republican presidential nomination for Eisenhower.

Eisenhower said he and Duff discussed "some subjects of mutual interest" to both of them but when asked if Duff talked over with him what a reporter called the "Eisenhower for President boom," the

general replied with a hearty laugh: "No, he didn't." "I didn't know it had reached the proportions of a boom."

Eisenhower said that when he accepted the combined Western Defense Command last year he told President Truman he hoped the assignment wouldn't last "too long." He declined to say how long he expected to continue in the post, saying "the subject never came up" in his conversations Monday with President Truman.

Speculation had been that Eisenhower might give up his European post early next year if he decides to seek a presidential nomination. The key statement in Eisenhower's exchange appeared to be this one: "If the time ever comes I feel that my duty compels me to say a word of any kind I will do so positively and definitely."

Although saying he had not authorized anyone to act for him in the political field, the general added: "No one can be authorized to act for anyone. If I have friends that have been my friends for so long they believe they know how I would react that is their business and I never interfere in their business."

Eisenhower said with great emphasis he believes the building up of Western Europe's defenses is the most important assignment he could fill at this time. He said this job represents an American investment of billions and is vitally necessary if a drastic change in the American way of life is to be avoided.

Then he demanded: "Is there any person here who would expect me to express a particular preference, while I am on 'this job'?" The fact that he didn't say "yes" or "no" publicly — or perhaps even privately — leaves the five-star general a possible top contender for either the Republican or Democratic nominations.

Even President Truman apparently got no inkling of the general's political plans, although the possibility was not foreclosed that they discussed how long Eisenhower will remain commander of North Atlantic Treaty Organization (NATO) forces in Europe. Eisenhower said Monday night that no politics came up — "not a bit" — in his hour and 20-minute luncheon with the President Monday.

ICy Winds Hit State As Cold Moves To Gulf

A speedy cold front whipped into the Gulf early today after blasting Texas with icy winds in less than 24 hours. Expected snowstorms in the Panhandle failed to materialize. Temperatures dipped only a few degrees below freezing.

Skies were clear or clearing at all Texas points this morning. The Weather Bureau predicted a slight warmup in northern and western sections but temperatures tonight are expected to be in the same range as those of last night. The Panhandle area got a touch of snow Monday but East and South Texas got most of the moisture.

While moisture from the swirling snow was hardly enough to measure, rains brought 1.33 inches to Palestine, 1.23 to Victoria, 1.10 to College Station, 1.07 to Lufkin and 1.36 to Texarkana. Beaumont had .85, Galveston .45, Palacios .56, and Tyler .43. Wink with a 24 degrees had the lowest temperature Monday night. Amarillo had 25 degrees and Dalhart 26. Brownsville was high overnight with 49, Dallas and Fort Worth had 38.

Rayburn To Speak At Bells Banquet DENISON, Nov. 6. (AP) — Speaker Sam Rayburn of Bonham will address a banquet at Bells tonight honoring a newspaperman. The guest of honor will be John Clift, state editor of the Denison Herald, who wrote news stories about the "Mile of Dollars" campaign to complete the building of the Bells Methodist Church.

Pastor S. Baxton Bryant said Clift's stories mushroomed the campaign from a local financial venture into national prominence and helped raise \$10,000. On May 6 the dollars were stretched out along a mile course on the highway.

THE WEATHER
BIG SPRING AND VICINITY: Fair with light rain at times, tonight and Wednesday.
High today 60, low tonight 35, high tomorrow 55.
WIND: Light to moderate.
HUMIDITY: 65-75%.
MOON: Waning gibbous.
RISING: 6:45.
SETTING: 4:45.
ECLIPSE: Total lunar eclipse Nov. 12-13.

AREA OIL

Glasscock Stepout Finals In Spraberry; Hobo Reef Topped

Sinclair No. 1 Calverley, 17 miles southwest of Garden City, completed today as a 2 1/2 mile eastern stepout from the central portion of the Driver Spraberry field. It flowed 247 barrels of oil.

SW 92-M. ELARR, was below 7,398 in lime. Texas Crude No. 1 Knight, C SW SW 75-M. ELARR, three miles northwest of the El Tee No. 1 Briley, a Pennsylvania discovery, was below 6,655 in lime and shale.

Ohio No. 1 Moeller, C NE NE 10-37-55, T&P, on the west central side of the Driver Spraberry, was preparing to core at 7,073 in sand. Phillips No. 1 Berry, C NW NW 35-36-25, T&P, was past 10,185 in lime.

Borden

Standard of Texas No. 1-T. L. Griffin, C SE SE 47-25, H&TC, discovery offset in the Hobo field of southeast Borden, was at 7,113 in lime, having topped the reef at 7,103 by samples. This is a minus 4,720, or one foot lower than the discovery. No test has been run.

Glasscock

Sinclair No. 1 Calverley, 660 from the south and 1,980 from the east lines of section 31-36-45, T&P, 2 1/2 miles east of the central sector of the Driver Spraberry pool, flowed for 24 hours through open two-inch tubing to make 247 barrels of 36.2 gravity oil. The tubing pressure was 40 pounds, gas-oil ratio 658-1, and the open hole section in the Spraberry from 6,835-6,910 had been treated with stratofrac.

Howard

Peeler Bros. No. 1 Bogie, C SW SW 66-20, LaVaca, a mile and a half northwest of the recent Smith No. 1 Boyd, reef discovery in northeast Howard, took a drillstem test from 6,050-90 with the tool open one hour and 15 minutes. There was a hard blow throughout and recovery was 4,920 feet of salt water with a scum of oil. Some observers thought the section might be Wolfcamp. Drilling continued below 6,174.

Phillips No. 1-A J. P. Dennis, C NE NE 9-30-52, T&P, an offset to Stanolind No. 1 Miller, a small Spraberry discovery 5 1/2 miles northeast of Gall, was bottomed at 4,961 in lime and was moving off rig. Operator will test with a portable unit.

Sinclair No. 1 Long, C SE SE 15-33-45, T&P, five miles southeast of Garden City, took a drillstem test from 6,100-6,132. The tool was open three hours, went on vacuum and recovered 30 feet of drilling mud. There were no shows, and operator is planning to retest.

Deep Rock No. 1 McCrary, C NW NE 1-33-11, T&P, was moving in swabbing unit. Kerr-McGee No. 1 Binie White, C NE NE 24-25, H&TC, a mile and a half east of the East Vealmoor pool, drilled at 6,600 in lime.

Argo No. 1 Coor, C NW SW 17-34-45, T&P, was taking a drillstem test from 7,491-7,487. It is four miles southwest of Garden City.

Barnhart No. 1-25 Couey, C NW NE 25-36-55, T&P, set 5 1/2-in casing at 6,438 and drilled to total depth of 6,725. Top of Spraberry was given at 6,524 on an elevation of 2,695. The open hole was hydraulically fractured with 9,000 gallons and operator was swabbing.

Argo No. 1 Brown, C NW NW 15-36-21, T&P, drilled below 10,256 in lime and shale. Pan-American No. 2 Breedlove, C NE SW 258 Briscoe CSL, was past 10,160 in lime and shale.

Magnolia No. 1 Bryan, C SE NW 26-35-45, T&P, was at 6,295 in shale, having cored from 6,200-50 with recovery of 50 feet of shale and no shows.

Richardson & Bass No. 2 McCabe, C NE NW 5-12, H&TC, drilled to 4,170 in lime, shale, chert. It had cored from 3,996-4004, recovering five feet of lime.

Stanolind No. 1 Langley, C SW NE 25-39-11, T&P, pumped 14 barrels of oil in 24 hours. Then it loaded in an effort to increase flow and pumped 16 1/2 hours, recovering 50 barrels of load water and seven barrels of drilling mud. It is still pumping.

Stanolind No. 1 Miller, a small Spraberry discovery 5 1/2 miles northeast of Gall, was bottomed at 4,961 in lime and was moving off rig. Operator will test with a portable unit.

Stanolind No. 1 Miller, a small Spraberry discovery 5 1/2 miles northeast of Gall, was bottomed at 4,961 in lime and was moving off rig. Operator will test with a portable unit.

Stanolind No. 1 Miller, a small Spraberry discovery 5 1/2 miles northeast of Gall, was bottomed at 4,961 in lime and was moving off rig. Operator will test with a portable unit.

War Prisoner Camp Interview

A Polish newsman interviews prisoners at a camp near Pyongyang, North Korea, in this picture obtained in Panmunjom from Tibor Meral, a Hungarian Communist correspondent who says he made the picture Oct. 4. Meral says the picture was made in front of the office where the prisoners publish a small camp newspaper. Those identified are Major Paul V. Liles (third from left) of Birmingham, Ala., senior officer and camp leader; Capt. Ambrose H. Nugent (behind Liles) of Nashville, Tenn.; Halidar Ozturk (third from right) of Ismir, Turkey; and Ronald A. Cooks of England, at the far right. (AP Wirephoto).

FCC VICE-CHAIRMAN PRESENT

Hearing Opens Here On KTXC License Renewal Application

Hearing in the matter of renewal of license for the Big State Broadcasting Company, operator of Radio Station KTXC in Big Spring, was opened by the Federal Communications Commission here this morning.

Truman Picks New Boss For Marine Corps

WASHINGTON, Nov. 6 (AP)—President Truman has named a new boss for the Marines, effective Jan. 1.

Charles Romine Is To Speak At School Meeting In Lamesa

Charles Romine, principal of Abilene high school and formerly assistant high school principal here, will be speaker for the banquet of the district West Texas School Administrators association in Lamesa Thursday evening.

Home Builders Urged To Attend Meet Here Tonight

Home builders in Big Spring were urged to attend a meeting sponsored by the Permian Basin chapter of the National Home Builders association tonight in the Settlers.

Researcher Blasts Cities For Flourine Indifference

DALLAS, Nov. 6 (AP)—A federal dental researcher decried today "resistance and indifference" to suggestions that communities add flourine to their drinking water to reduce tooth decay.

Expect Boland To Return To Operating News Stand

Although there had been no direct word from him, Charlie Boland was expected to return here and to his Postoffice concession stand this evening or Wednesday.

Minor Mishaps Are Reported; No Hurts

Three minor automobile accidents within the immediate area have been reported to city police within the last 24 hours but no injuries resulted.

Truck Driver Dies Of Mishap Injuries

WILLS POINT, Nov. 6 (AP)—Thomas Marion Hutto, 20, Terrill truck driver, died today of injuries received in a highway accident early Monday.

Search Continues For Relatives Of Man Found Dead

A search continued today for relatives of a man found dead in a freight car at the T&P yards Monday morning.

Veteran Patients Benefit From Sale Of Poppies Saturday

Among the objects of encouragement of the proceeds of the annual Poppy Sale sale, due Saturday, are those in Veterans Administration hospitals.

Bonds Are Set For Two Men Held Here

Bonds have been set for two individuals who appeared before Justice of the Peace W. O. Leonard to waive examining trials.

Home On Leave

Cpl. Albert Vorhees, who has been in training at Camp Polk, La., with a heavy armed division, is visiting his parents, Mr. and Mrs. A. R. Vorhees, He is due to leave for Seattle, Wash. on Nov. 23 and sometime subsequently will go overseas.

Cold Weather Over Most Of The Nation

CHICAGO, Nov. 6 (AP)—Cold weather prevailed today over most of the nation, but much of the turbulence that had given heavily half the country a four-day storm session was absent.

County PMA Election Set For Nov. 17th

Nominees for the Howard County Production Marketing Association official posts have been returned by a special committee.

Investiture Rites For New Scouts Slated Tonight

Investiture ceremonies for some 50 or 60 boys who are entering the Scout program will highlight the November Court of Honor for Lone Star District Boy Scouts tonight.

Garden City Store Hit By Burglars For 5th Time In 2 Years

GARDEN CITY, Nov. 6 (Sp1)—Burglars hit the Cook and Houston hardware store last night for the fifth time in two years, but apparently they got only a cut hand for their trouble.

Truck Driver Dies Of Mishap Injuries

WILLS POINT, Nov. 6 (AP)—Thomas Marion Hutto, 20, Terrill truck driver, died today of injuries received in a highway accident early Monday.

Tire, Wheel Theft Reported To Police

Theft of a tire and wheel belonging to Fred Kincaid was reported to city police over the weekend.

Rocket Plane Flies 72,000 Feet High

By HOWARD W. BLAKESLEE
SAN ANTONIO, Nov. 6. (AP)—We have a rocket plane, the Navy's Douglas Skyrocket, so speedy that air friction can make it hotter than boiling water.

This plane has gone higher than 72,000 feet, (more than 13 miles) the highest published flight of man.

We have three of these planes and the facts uncovered by them, mostly still secret, are expected to benefit many combat planes which still are on the designing board.

These reports were made by A. M. Mayo, of the Douglas Aircraft Company to a symposium on the medical and other human problems of speed and flight up near the borders of outside space.

The symposium is the first of its kind. It is sponsored by the U. S. Air Force School of Aviation Medicine, Randolph Field, and the Lovelace Foundation, of Albuquerque. Physicians, physicists, fliers, airplane designers and astron-

omers are on the four-day program.

The air friction that is hotter than boiling water, Mayo said, comes at low altitudes. It is met by a refrigeration system in the cockpit. As the rocket ship reaches 70,000 feet the friction is no longer so hot. But above that altitude there is so little air that the heat of the sun's rays becomes intolerable, unless a cooling system is used.

The cooling above 70,000 feet will have to be different than present cooling for lower altitudes, Mayo said. He predicted liquid oxygen for cooling as ships go still higher. And ultimately, he said, the difference in temperature on the sunny and shady sides of a ship can be used for cooling.

There is, he said, one terror which is not going to bother us much, namely the astonishing heat of very thin upper air.

These fast planes run away from the noises they make, because they travel faster than sound.

BIG ONES, TINY ONES

Observers Awed By A-Weapons Variety

By BILL BECKER
LAS VEGAS, Nev., Nov. 6. (AP)—America's atom masters have developed an assortment of bombs of staggered sizes and staggering reactions that may make conventional weapons obsolete.

Awed observers were unable to make any other conclusion as the first phase of the Atomic Energy Commission's fall test series at Yucca Flat came to a smashing finale Monday with a full scale A-bomb explosion.

Test Manager Carroll L. Tyler and Scientific Chief Alvin C. Graves were not fooling when they said the series would include "a number of experiments." No two blasts in the set of five appeared identical — and the last one topped them all.

It seemed to have all the attributes of previous major A-bombs, including a flash and fireball that persisted 10 seconds. The fireball culminated in a tower of flame hundreds of feet high — something for which this reporter could find no precedent in previous atomic accounts.

The blast rocked the Southern Nevada desert for many miles and was heard at Richfield, Utah, 235 miles distant. But by a quirk of atmospheric the shock waves missed all populated communities.

The AEC's explanation: The shock wave hits a temperature inversion layer in the air (a layer of cold air beneath hot). It rebounds to earth. Sometimes it may

bounce from earth to atmosphere four times before dying out. Nobody knows for sure where it will bounce.

There was no report of damage although the explosion was twice as powerful as last Thursday's blast which shattered seven store windows from a distance of 75 miles.

The AEC reported only slight radiation — far below the amount considered injurious to persons, animals, crops or water supplies.

The fall series, Tyler said, has been devoted primarily to "developmental tests required to advance the weapons work of our Los Alamos, N. M., scientific laboratory."

The second phase, dealing mainly with the effects of weapons, will probably begin next week. The nuclear shots are not expected to be so spectacular.

JayCees Plan Dance Nov. 20

Jaycees made plans for a dance Nov. 20th at the Country Club when they held their weekly luncheon Monday at the Settles Hotel.

The Club also handled other pressing business during the entire meeting, dispensing with a formal program.

Tom Hendricks was named second vice president to take over a vacancy left when R.L. Heath was elevated to the presidency. Heath succeeded C.W. Turner who resigned for business reasons.

George Elliott takes over for Hendricks on the board of directors. A \$23 donation to the H-Y was also approved by the club.

Ray Rhodes was selected "Jay-Cee of the Month."

Natural Gas Use In Carbon Not New

Use of natural gas in carbon black is not new. The first plant utilizing natural gas was erected in New Cumberland, W. Va. in 1872, and that state was chief source until 1920.

Vast quantities of surplus gas in the Monroe field made Louisiana the chief producer from 1920 to 1929. The period of 1925-29 saw great migration to the Texas Panhandle and by 1929 Texas was turning out about 70 per cent of the world's total. Louisiana now turns about 16 per cent and Kansas and Oklahoma about 14.

Carbon Black Gives Toughness To Tires

If it weren't for carbon black, you might be afraid to drive your car at moderately fast speeds. You might be changing tires every few thousand miles, too.

Natural rubber lacks toughness. In the case of synthetic rubber, tires would hardly hold up a few blocks were it not for the toughening properties imparted by carbon black. The average tire contains about four pounds of carbon black, but these four pounds have boosted the assured life from 3,000 miles to 30,000 miles or more.

Texas Civil Defense Group Growing Fast

AUSTIN, Nov. 6. (AP)—The Texas Civil Defense and Disaster Relief Organization is growing so fast it had to seek new offices.

The growth also brought a change in Gov. Shivers' staff.

The organization has moved from the capitol to 1010 Lavaca, nearby. William L. McGill, executive secretary to the governor, will give nearly all his time as state co-ordinator of defense and disaster relief.

Weldon Hart, executive assistant, will be acting executive secretary to the governor and will assume added duties in the governor's office.

TEXAS BRANDS

**IKARD
Y
PUT
MILT
SUE
WIL
BUD
CLEO
7Z**

By JOHN M. HENDRIX
It is said that at one time there were fourteen of the Ikard family in the cow business in an area from Palo Pinto County on up through Clay County and into Wichita County. The writer is unable to identify all of these brands, but does find quite a few that are reproduced herewith, all belonging to some of the Ikards.

There were doubtless more Ikard brands than this, but at this late date it is hard to find and identify all of them. The Ikards were real cowmen and their efforts have run the entire gamut of the cattle business from the brindle longhorns to the introduction of pure bred Herefords, and their history is closely interwoven with that of the Henrietta country where some members of the Ikard family still make their homes.

Midland Woman New District T F M C Head

Midland will be the next host city and Mrs. Sonja Umberson, Midland, will head the ninth district of the Texas Federation of Music Clubs.

These were some of the actions taken at the 15th annual meeting of the district here during the week end.

Other officers elected were Mrs. H. M. Jarratt, Big Spring, vice president; Mrs. Glenn Brown, Stanton, recording secretary; Mrs. Frank Meyers, Pecos, treasurer.

The convention was the first special gathering to have been held in the new Howard County Junior College auditorium. Delegates from

Gary Newsom Honored By Grandparents

Gary Don Newsom, 1, was honored Monday afternoon with a birthday party at the home of his grandparents, Mr. and Mrs. H. G. Keaton. He is the son of Mr. and Mrs. Don Newsom.

The refreshment table was decorated with gum drop trees and centered with a cake iced in white and yellow, accented with red roses. Favors were miniature trucks and purses.

Attending were Lynn Green, Terry O'Brien, Julia Jean Newsom, Laura Dean Douglass, Linda Gray, Terry Isbell, Robert Isbell, Joe Lusk, Mike Weaver, Lee Harris, Cliff Cook, David Schaffer, Terry Anderson, John Wesley Deats and Mrs. David Barlow.

Presbyterian Women Hear Mrs. Newell Speak At Meeting

Mrs. L. P. Newell gave the devotional on the topic, "It Isn't Any Of Our Business—Or Is It?" at the Monday meeting of First Presbyterian Women of the Church.

Mrs. A. B. Brown led the song service, accompanied by Mrs. Catherine Eberley. Prayers were given by Mrs. Chai Vinson and Mrs. R. Gage Lloyd.

Mrs. Lucian Jones discussed the re-decoration of the church parlor. One new member, Mrs. Perry L. Jones, and 17 other members were present.

B&PW Speaker Will Discuss Amendments

The five amendments to be voted on Nov. 13 will be explained by J. H. Greene, manager of the Chamber of Commerce, when he speaks tonight to members of the B&PW Club at their meeting at 7:30 in the Settles Hotel.

XYZ Meets Thursday

The XY Club will meet Thursday at 7 p.m. at the Settles Hotel. All members are urged to attend.

Flare For Fashion

Three features in this jumper: new flared basque lines which look neat in corduroy or wool, big hip pockets, companion tie-collar blouse.

No. 2009 is cut in sizes 10, 12, 14, 16, 18 and 20. Size 16 jumper, 2 1/2 yds. 54-in. blouse, 2 1/2 yds. 39-in.

Send 30 cents for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Big Spring Herald, Box 62, Old Chelsea Station, New York 11, N. Y.

Patterns ready to fill orders immediately. For special handling of orders via first class mail include an extra 5 cents per pattern.

The FALL-WINTER FASHION BOOK smart, up-to-the-minute fashions for every age and every occasion, and also delightful suggestions for making Christmas gifts—dolls, doll clothes, aprons, undies, gift robes, accessories and other wearables. A wonderful book, price just 25 cents.

Baptist Bible Class Elects New Officers

The Thursday Afternoon Bible Class of the Trinity Baptist Church met Monday night at the church.

The Trinity Trio gave special music. Mrs. Myra Barnes and Mrs. R. L. Neil spoke on "Faith and Love."

New officers elected for the ensuing year include Mrs. Jimmy Suggs, teacher; Mrs. Nell, assistant teacher; Irma Dell Williams, secretary-treasurer; Mrs. Jack Shaffer, reporter; Mrs. Eliza Nance, chairman of the refreshment committee.

Secret pal gifts were exchanged and a shower was given for Mrs. Medlin, out-going teacher.

Mrs. Suggs gave the closing prayer.

MENU FOR TOMORROW

FAMILY DINNER
Scalloped Corned Beef with Celery
Potato Puff
Bread and Butter
Salad Bowl
Peanut-butter Applesauce Cake*
Beverage

(Recipe for Starred Dish Follows)
PEANUT-BUTTER APPLESAUCE CAKE

Ingredients: 2 1/2 cups sifted all-purpose flour, 1 1/4 teaspoons baking soda, 1 teaspoon salt, 1 teaspoon cinnamon, 1/2 teaspoon cloves, 1/2 teaspoon nutmeg, 1/2 teaspoon allspice, 1/2 cup chunk-style peanut butter, 1-3 cup shortening, 1 cup sugar, 1 cup seedless raisins, 1/2 cup chopped walnut meats, 1 cup applesauce.

Method: Sift together flour, baking soda, salt, cinnamon, cloves, nutmeg, and allspice. Cream peanut butter and shortening together; cream in sugar. Add a third of flour mixture to raisins and chopped walnuts. Add half of remaining flour and half of applesauce to creamed mixture; beat just until blended. Mix in remaining flour and applesauce. Stir in floured raisins and nuts. Spoon into greased 8 or 9-inch tube pan. Bake in moderate (350F.) oven 70 hours, or until a cake tester or toothpick inserted comes out clean. I desired, sprinkle top with 1 tablespoon confectioners' sugar or frost with favorite butter icing.

Latin American Study Continued By Wesley Circles

The study of "We Americans, North and South," was continued, when all circles of the Wesley Methodist WSCS met Monday afternoon at the church.

Mrs. G. T. Baum was in charge of the program. Mrs. J. L. Swindell spoke on the Bolivian Indians in Latin America. Mrs. J. A. Wright gave the devotional.

A question and answer period was conducted by Mrs. E. R. Cawthron and Mrs. Wilburn Elliott. Mrs. Marvin Fisher gave a brief talk on "Adventuring with Christ." Mrs. W. D. Lovelace led the closing prayer.

Twenty-one members and one visitor, Mrs. R. E. Schofield, were present.

Baptist WMS Plans Review

The regular monthly Bible study was held by all circles of the First Baptist WMS Monday at the church.

Mrs. R. C. Hatch led the opening prayer. Dr. P. D. O'Brien taught the lesson.

A short business meeting was held and it was announced that a book review will be held Nov. 26 at the church. Mrs. Clyde Angel will review "Pilgrimage to Spanish America."

Mrs. P. D. O'Brien dismissed the 26 present with a closing prayer.

Vincent HD Club Sees Demonstration On Nylon Corsages

The Vincent Home Demonstration Club met Thursday in the home of Mrs. Forrest Appleton.

Roll call was answered with "A Simple Dessert." Mrs. George Read led the group in prayer. After a short business meeting, a demonstration was given on making nylon corsages.

Refreshments were served to 17 members and one visitor. The next meeting will be held Nov. 15 in the home of Mrs. Dud Arnett.

Newlyweds To Live At Sand Springs

After a wedding trip to Arizona and New Mexico, Mr. and Mrs. Paul Harris, who were married Nov. 1 in Lubbock, will make their home in Sand Springs.

Mrs. Harris is the former Minnie Smithman of Sand Springs. Mr. Harris is from Colorado City. The ceremony was performed by the Rev. Abe Hester, Jr., in his home.

Asthma Hay Fever

Why suffer when something will help you? After your symptoms have been diagnosed, on Asthma or Hay Fever, you owe it to yourself to investigate.

Bonetta Cox and J. C. Newell, above, were elected favorites of Garden City High School at a recent meeting of the student body. Both are seniors. Editor-in-chief of the annual staff, Bonetta is the daughter of Mr. and Mrs. J. W. Cox, who ranch east of town. J. C. is the son of Mr. and Mrs. Roscoe Newell and is sports editor of the annual. His father is principal of the Garden City High School.

Beautyicians Observing Beauty Week

A program in observance of National Beauty Week was presented Monday evening at a called meeting of the Beautyicians Association at Colonial Beauty Shop.

Demonstrations on hair styling were given by Don Elmore, D. S. Elmore and Howard Dozier, all of Midland, who also joined Kitti Davenport of Midland in presenting an operator-customer skill.

Other guests present were Mrs. Lavern Elmore and Mary Dineen, Midland; Jessie Howard, Odessa; Hestia Kyle, Lubbock; and Jim Moorman, San Angelo. Seventeen members attended.

The Association is giving presentations this week as gifts to 10 little girls selected by the group.

Fannie Strippling Circle Conducts Program Of WSCS

All circles of the First Methodist WSCS met Monday afternoon at the church, with the Fannie Strippling Circle in charge of the program.

Theme of the meeting was "Thy Kingdom Come On Earth." Mrs. R. W. Thompson accompanied the group in singing the opening hymn. Mrs. W. A. Laswell gave the scripture. Brief talks were given by Mrs. S. R. Nobles, Mrs. Laswell and Mrs. Thompson.

A short business meeting was held, with Mrs. Bernard Lamun presiding. Mrs. R. A. Eubank reported on the status of women.

Fifteen members were present.

WMS Has Royal Service Program

The Royal Service program was held when members of the Hillcrest Memorial Baptist WMS met Monday at the church.

Mrs. J. T. Grantham gave the devotional. Mrs. Troy Harrell, Mrs. J. W. Arnett, Mrs. Don Duke, Mrs. Virgil James and Mrs. Cecil Cooley had parts on the program.

The group will not meet next week because of the revival.

Baptist Circle Meets

The Kate Morrison Circle of the East Fourth Baptist WMS met Monday in the home of Mrs. A. L. Cooper. Mrs. J. C. Harmon and Mrs. L. O. Johnson led in prayer. Mrs. Rufus Davidson discussed "Women of Destiny in the Old Testament." Refreshments were served to nine members.

Meeting Changed

Because the annual Christmas Parade falls on the regular meeting date of the Airport P-TA, officials have announced that the meeting will be changed to Nov. 13, at the school at 3 p.m.

SEE HOW VICKS VAPORUB IN STEAM

OPENS COLD-STUFFED BREATHING PASSAGES

Every breath of medicated steam brings DEEP-ACTION RELIEF from coughs, stuffiness of colds.

No matter how choked-up or miserable a cold makes you feel, here's a home-proved treatment that relieves the worst stuffiness and makes breathing easier fast... two spoonfuls of Vicks VapoRub in vaporizer or bowl of boiling water as directed in package. It's easy! You just breathe in the steam! Every breath carries VapoRub's soothing medicated vapors deep into troubled throat and large bronchial tubes. In no time at all, this wonderful treatment medicates and soothes dry, irritated membranes; relieves stuffiness and helps restore normal breathing.

For that choked-up feeling... for coughing spasms...

VICKS VAPORUB

And always rub it on for continued relief. To insure continued action, rub VapoRub on throat, chest and back. It keeps right on working for hours... brings relief even when you sleep. It's the best-known home remedy you can use when any cold strikes child or grown-up, one and only VICKS VAPORUB.

Mrs. Keith New District President

For the first time in Big Spring Federated club history, the city will this year furnish a president for District 8.

She is Mrs. Harwood Keith, who will be installed Nov. 15 in Denton during the convention of the Texas Federation of Women's Clubs.

A past president and past secretary of the Modern Woman's Forum and past president of the now-disbanded Delphin Club, Mrs. Keith presently is serving as first vice president of the City Federation.

Headquarters for the convention, which begins Nov. 12, will be in Hubbard Hall on the Texas State College for Women campus. Installation ceremonies following the theme, "Presidents On Parade," will be held there, followed by a reception.

Other delegates to the convention will be Mrs. Bob Eubank, a member of the state registration board, and Mrs. K. H. McGibbon, president of the 1905 Hyperion Club.

East Fourth Circles Have Bible Study

The MoMie Phillips Circle of the East Fourth Baptist WMS met Monday in the home of Mrs. K. L. Clark.

Mrs. R. T. Lytle gave the opening prayer, and Mrs. Clark reviewed the Bible study. Refreshments were served to 10 members.

Mrs. Monroe Gafford led the Bible study at the Monday meeting of the Willing Workers circle of East Fourth Baptist at the home of Mrs. L. E. Taylor, 901 Ayford.

Mrs. Curtis Reynolds and Mrs. O. R. Smith led the prayers. Refreshments were served to eight members.

Adult Class Meets In McCuistian Home

The Adult I Training Union Class of Westside Baptist Church met Friday night in the home of Mr. and Mrs. A. E. McCuistian.

Mrs. C. A. Vaughn was in charge of the program. Mrs. E. O. Ward gave the devotional, and E. O. Sanderson spoke.

A covered dish supper was served to 24 guests.

Twin Turtle Doves

No embroidery needed on these modern designs of twin turtle doves and bluebells! Just iron the 2 1/2 inch doves and the 1 1/2 inch sprays of flowers onto blouses, handkerchiefs, Ascot scarves, underwear, organdy gift aprons, cocktail napkins, modern place mat sets. Colors are lovely crimson and turquoise. There are 28 motifs with which to decorate fine gifts!

Send 25 cents for the Turtle Doves and Bluebell Multi-Color TRANSFERS (Pattern No. 426) complete transfer and laundering instructions, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS.

Big Spring Herald, Box 229, Madison Square Station, New York 10, N. Y.

Patterns ready to fill orders in-order via first class mail include an extra 5 cents per pattern.

Cheerio Members Will Be Luncheon Guests Of Class

Members of the Cheerio Circle for the Blind will be special guests of the Berta Beckett Sunday School class of First Baptist Church at the monthly luncheon Thursday, Nov. 8, at noon in the educational hall.

Dr. P. D. O'Brien will bring the inspirational thought.

Mrs. J. H. Greene and Mrs. W. F. Taylor are in charge of arrangements, and Mrs. W. R. Douglass will plan the decorations.

P-TA Council Meeting

City Council of P-TA will meet in the high school Wednesday afternoon at 3 p.m. for the regular meeting. Mrs. W. N. Norred, president, has announced.

WSCS Closes Prayer Week; FHA To Attend Area Meet

GARDEN CITY, Nov. 6.—(Sp1)—The Garden City Woman's Society of Christian Service observed the Week of Prayer and Self-Denial with a special program Friday afternoon at the church.

Mrs. J. L. Parker, president, was in charge of the program. Mrs. J. P. Boswell led the first meditation. Mrs. C. A. Baldwin sang a solo and gave the second meditation. Rev. J. P. Boswell led the third meditation prior to a special song by Mrs. A. M. Geiger. The fourth meditation was given by Mrs. Max Fitzhugh. Parts of the program were accented by special music played by Mrs. I. L. Baldwin.

Rev. Wayland Dowden assisted by Rev. Boswell administered the Lord's Supper. Immediately following this short talk were given to acquaint the women with the various institutes that will benefit from the donations of The Week of Prayer.

The program was closed with a prayer and supper was served.

Carolann Miller, chairman of the national projects committee of the local FHA chapter, reported Thursday that the friendship boxes had been mailed to Europe.

Plans are being made for 20 of the girls to attend the District 5

Mrs. Michael Leads Program At Church Luncheon Monday

Mrs. R. J. Michael led the program on "Our Country Needs Christians" at the noon luncheon meeting Monday of the First Christian Women's Fellowship.

Mrs. W. G. Dahney led the prayer. Mrs. Curtis Driver presided at the business session following the luncheon.

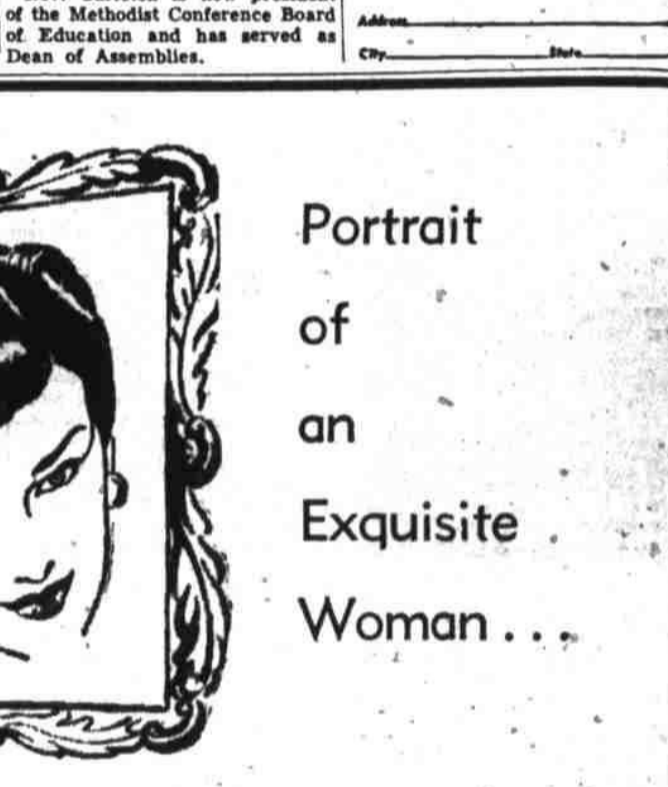

Visitors were the Rev. Lloyd Thompson, the Rev. Shelby Anglemeyer of Port Arthur, Mrs. David Barlow of New York City and Mrs. Vern Lawson. Nineteen members attended.

Pastor To Speak At District Meet

Rev. A. H. Carleton, pastor of the First Methodist Church, will speak at the morning session of the Abilene district of the Woman's Society of Christian Service Thursday at Fairmont Methodist Church in Abilene.

Rev. Carleton is now president of the Methodist Conference Board of Education and has served as Dean of Assemblies.

Portrait of an Exquisite Woman

Her hair is shaped and styled in the most becoming fashion to flatter her features. Her permanent is long-lasting and alluring. Her skin glows with the freshness of youth. Her eyebrows are arched in the correct, natural line to accent her eyes. Her manicure complements the shape of her gracefully tapered fingers. She is beautiful to see. And it is her good judgment in seeking professional beauty care that has made her so. She is aware... this well-groomed woman... that it is only the skill and artistry of the experienced beauty expert that can achieve effectively the true beauty to be found in anyone's natural appearance. It is the professional beauty specialist who moulds it into the... portrait of an exquisite woman.

Let us show you how our beauty artists can bring out all that is lovely in you.

Carbon Black Plant Slates Open House For Wednesday

Cabot Carbon Plant

Big Spring will have an opportunity Wednesday to get better acquainted with a new industry—the General Atlas Carbon Black company.

Open house will be observed at the plant, immediately east of Cosden refinery, from 2 p. m. to 4 p. m. Staff members will take visitors on a conducted tour to see how fuel oils and gas are turned into the blackest of blacks—almost pure carbon.

High officials of Cabot enterprises, with which General Atlas is linked, and of General Atlas will be here for the occasion. They will be guests at the Lions club's luncheon on Wednesday and will present a brief program there.

Included in the group are Hugh (Buck) Burdette, vice president of the Cabot Carbon companies and general manager for all Cabot organizations in the Southwest; Carl J. Wright, Pampa, vice president and manager of General Atlas; W. S. (Bill) Dixon, Pampa, district superintendent; Reno Stinson, Pampa, manager of industrial relations; James McCune, associate editor of the company publication, "The Flame," and others.

The plant here is now, in full swing, turning out approximately 150,000 pounds of high grade carbon black each day. The annual volume is pegged at 50 million pounds a year. Presently, there are 63 men on the operations side, drawing an annual payroll of approximately a quarter of a million dollars. In addition, there are a dozen engaged in special construction work.

A furnace type black plant, the Dixon plant, as it is called, utilizes residual oils from Cosden's refinery. At capacity, the take will be about 1,000 barrels per day. This material is mixed with natural gas and air in the furnaces to produce dense gases, from which the black is agglomerated and precipitated. It is then pelleted, dehydrated and packaged for shipment.

The past month saw about 120 shipments. Production approximates 3 1/2 car loads per day, although not all goes by train. Some is shipped by trucks. Big shipments frequently are made in gondola or hopper cars directly to rubber companies.

An elevated hopper accounts for a substantial bulk storage, but two big warehouses—250x60 and 100x60—account for handling most of the reserve. The black is packaged in 50 and 25-pound bags. General Atlas has its own press to print the bags and to fix codes designating the grade and output of the plant here goes to synthetic rubber plants, for furnace black has proven more satisfactory in improving the properties of synthetic rubber.

IN AT THE START

Carl Wright Is A Pioneer In Black

CARL J. WRIGHT

Carl J. Wright doesn't lay claim to hatching the furnace black process, but the vice president and general manager of General Atlas company was certainly one of those who sat tenaciously on the new process in early phases a quarter of a century ago.

This one of the many reasons that Cabot Carbon considers one of the sharpest assets it acquired when it bought the General Atlas company in the spring of 1945 was Carl Wright and his 25 years of know-how in the furnace black busi-

ness. In his lifetime, Carl Wright has gotten around a bit. He was born in Hayfield, Minn., but moved to Ft. Collins, Colo. when a youngster. He was graduated from high school there and then went to Rensselaer Polytechnic Institute in Troy, N.Y. He graduated with honors in electrical engineering in 1913.

As a junior engineer, he joined the Cities Service in Colorado and soon found himself on the personal engineering staff of Henry L. Doherty, president of Cities Service. This gave him an opportunity to do research and development on a number of Doherty's enterprises. Two years after he had finished school, he married his childhood sweetheart, Florence Hawley. The year 1922 brought another change, for he was made chief technologist of Combustion Utilities Corp., a Doherty subsidiary. In 1924 he started intense research and experimental work on a furnace black process and may properly be regarded as one of the fathers of the process which is destined to play an increasingly greater role in the black industry.

The General Atlas plant site in Pampa was purchased in 1927 and a year later, Carl Wright had the satisfaction of seeing the first car of black shipped. Since 1930 he has been vice president and general

manager of General Atlas Carbon company. He has maintained an active interest in every facet of the company's operations, marketing and relations.

Wright is easy to know, always remains calm and is an efficient organizer who listens and values opinions of others. He is active in community affairs at Pampa, particularly the Boy Scouts. He also is secretary of the community concert association there. Whatever else Carl Wright is, he is a fisherman. He gets a lot of recharge and relaxation out of this pastime.

Wash Rooms Offer Interesting Sight At Carbon Plant

One of the interesting sights for visitors at the General Atlas Carbon Black plant Wednesday afternoon will be the wash rooms.

Although the plant is as clean as possible, men handling the fine black are bound to get it on them. Accordingly, they are provided lockers, one for dirty clothes, one for clean ones.

When they come off shift, they are given a bar of soap and a bucket in which they work up a big lather. When they are soaped down they wash in four huge basins, which have mirrors on four sides. Then they go to showers where they finish the job, emerging spick and span.

Reno Stinson's Job 'Fits Like A Glove'

Since 1945, the Cabot Carbon companies in the Southwest have had Reno Stinson at work in a job that fits him like a glove.

Not that Reno hadn't fit in before, for indeed he had, with perfect ease and efficiency for two decades with Cabot. But the new position was just tailor-made for Reno.

He brought to it some particular aptitudes and a wide variety of experience. Reno had the distinction of having been born in a log cabin at Ellasville, where he lived until he was 14. After graduating from high school in Graham, he attended Southern Methodist University and then joined the Navy only to find himself in training at the University of Texas.

Upon his discharge he returned to Ellasville about the time an oil field was developing there in 1920. A year later, he had the distinction of being the youngest mayor in the United States.

Adventure called, and Reno went to Mexico to work for a mining company. Mustaches were the rage and he felt obliged to conform and grew chin whiskers too. But the whiskers were one color and the mustache another. When he came to re-enter the U.S. he appeared so odd that he had trouble getting across. But this resulted in getting a job. A Southern Pacific Railway construction foreman hired him "just to sit around so the rest of the men can look at you. And if you shave off those whiskers, you're fired."

His work with SP took him to Louisiana where he married Sadie Bergeron at Houma in 1924. They have one daughter—and now a granddaughter.

Reno bought half interest in a printing company at Graham in 1925 but the venture folded. Next year he returned to Ellasville and started working at Cabot as a common laborer at the plant there. He served as construction foreman on the plant at Schafer and as plant superintendent at Schafer, Bowers and Mills, and later was made assistant to the general superintendent. He has headed the mechanical, experimental, gas and shops departments. Friends, and associ-

Welcome

General Atlas Carbon Co.

... we're proud to have you in **Big Spring**

To a good friend and neighbor, as well as to a good customer, Cosden extends warmest greetings to General Atlas Carbon Company. The carbon black plant represents a strong addition to Big Spring's industrial facilities, and to its economy in general. It is progressive companies such as these which are contributing to the progress of all West Texas.

Elections Today Center On State, Local Issues

By The Associated Press

In elections centering largely around state and local issues, voters choose two governors today, four members of Congress and scores of mayors.

The off-year elections have been generally discounted by politicians as a tip-off on next year's presidential and congressional elections.

The most heat has been generated in several mayoral and other local elections, notably in Philadelphia.

The special House elections are to fill vacancies caused by deaths or resignations. They include two in Pennsylvania and one in New Jersey, all normally Republican, and one in Ohio which goes either way.

Here is the picture:

Kentucky — Vice President Barkley entered the campaign on behalf of Democratic Gov. Lawrence Wetherby and his candidates for eight other state offices. Wetherby has support of all party factions against Republican Eugene Siler. Kentucky has had only three GOP governors in 40 years. Also at stake are all 100 seats in the state House and 22 of 39 Senate seats.

Pennsylvania — Despite a two to

AT CIO MEETING

Johnston Defends U. S. Wage Policy

By HAROLD W. WARD

NEW YORK, Nov. 6. (U. S. — Economic Stabilizer Eric Johnston said today that while the wage line is not frozen, neither is it a "sieve for wage inflation."

Johnston, in an address prepared for the CIO convention, said the government's wage policies are "fair and assure 'real earnings'."

He added that they provide "a strong framework of overall wage stabilization."

"The basic policy of allowing pay increases to keep pace with cost of living rises is fair," Johnston said, and was hammered out by labor, management, and public representatives "working together in good faith on the Wage Stabilization Board."

"It is a policy which assumes we can hold the cost of living within bounds," Johnston said. "And if we're to do that, then wage rates must also be held within bounds."

"Prices must also be held within bounds. We are pushing the program of tailored price regulations

as the most effective way to hold the price line. When costs are down the public should get the benefit in lower price ceilings. That's our determined goal."

"In living with the wage policy-labor makes a good bargain if it trades something for something. For wage adjustments which are less in many cases than the traffic would bear it receives in return the assurance of stability, and that means the maintenance of real wages."

"This does not mean that labor isn't entitled to continue to share in increased output — in actual increased productivity. I think it should. That's fair and reasonable and will not be unbalancing."

Johnston's remarks were considered significant, even though he has submitted his resignation to be effective probably before Dec. 1. That's the date CIO President Philip Murray begins negotiating for a new contract in the steel industry. He heads the million-member steelworkers' union which is demanding about a 20-cent hourly pay hike.

KING SPEAKS FOR REGIME

Seek To Control Inflation In British Defense Program

LONDON, Nov. 6. (U. S. — King George VI, announcing the Conservative Party's policy in a speech from the throne, declared today Britain's defense program is threatened by inflation.

Speaking for the party in power — Winston Churchill's Tories — the king said the problem of inflation overshadows all others facing the new government. Prime Minister Churchill will make proposals to tackle the problem "in the immediate future."

He sketched a Conservative party program retaining some of the emergency economic and defense measures which otherwise would expire next month. The Conservatives will propose a bill annulling labor's nationalization of the iron and steel industry. The speech indicated retention of some of the Labor Government's social services, including the free health plan.

The speech was prepared for the king by Churchill, and thus in effect, the Conservative party program.

Since the king is still confined to Buckingham Palace recuperating from a serious lung operation, the speech was read for him at a joint meeting of the House of Lords and Commons. Churchill prepared the speech.

The king told Parliament a "full disclosure must be made to the nation" of the recent serious deterioration in Britain's economic affairs.

He described the problem as "overshadowing all other domestic matters" which face the new government.

King George said Britain is determined to stand fast in the Suez Canal Zone and "will try to repair the injuries our rights and interests have suffered in Persia."

The king said Egypt's attempts

to oust British troops from the Canal Zone and seize sovereignty over the Sudan, now jointly administered by Egypt and Britain, are "illegal and without validity."

He said Britain, the United States, France and Turkey will "press forward with their proposals for joint defense arrangements in the Middle East."

Other points from the royal speech:

The government will propose a bill to annul state ownership of the iron and steel industry and reorganize it "under free enterprise, but with an adequate measure of public supervision."

Parliament will be asked to keep in force some of the emergency economic controls and defense regulations which otherwise would expire next month. All such controls will be reviewed with the "aim of reducing the number of these controls and regulations."

The new government will consult industrial and trade union leaders in an attempt to ensure "the best use of the existing labor force."

The king said the shortage of labor in some industries is serious.

The government will examine the social services which include the costly free health scheme, with "the aim of ensuring efficiency and providing value for money spent."

The government will "seek to promote flexibility" in industries such as coal mining and railroading, which will remain under state ownership.

The government will "consider all methods for creating that spirit of partnership between management and workers, and a higher level of productivity must depend."

The king said he was "deeply moved by the warmth of the reception" received by Princess Elizabeth and her husband on their trip to Canada and Washington.

BRILLIANT PIANIST

Amparo Iturbi Is Impressive Here

Amparo Iturbi, perhaps not quite so well known as her colorful brother, won't be any stranger to Big Springs as a result of the lasting impression she made in her concert here Monday evening.

A brilliant pianist, Miss Iturbi ranks as one of the outstanding artists to be heard in concert on the grand piano at the city auditorium.

For a time, her reserve was almost matched by the audience, but spontaneously broke the barrier. In the end, applause was vigorous and prolonged.

As a matter of fact, Miss Iturbi graciously favored with three encore selections, all of them a semi-popular vein. Had her generosity been equalled by endurance, her listeners might have kept her there half the evening.

Miss Iturbi proved a striking and commanding personality, impressively dressed in her black evening gown. She handled all of her selections with dexterity, certainty and understanding. She made each fleeting note stand out with crystal clearness and at times she imparted to the instrument orchestral qualities.

Chopin's "Berceuse" became a

beautiful melody at her hands, and of course she scored heavily in audience popularity with the famous and better known "Polonaise & Flat," another Chopin work. In her second series, she especially delighted with a "Little Spanish Dance," composed by her brother. Toward the end of the concert, Miss Iturbi seemed to respond even more to the audience's reaction and played with still greater vigor and animation. Needless to say, the encores were roundly cheered, especially Gerschwin's "Rhapsody in Blue."

This was the second in the Town Hall Series. The third and final of the season will be the Dallas Symphony orchestra, due here in March 1952. (J.P.)

Food Poisoning Hits Joan Crawford House

HOLLYWOOD, Nov. 6. (U. S. —) Joan Crawford and five members of her household are recovering from food poisoning.

The actress said she believes a chicken served at Sunday dinner caused the illness which confined them to their beds Monday.

Fifth Atomic Blast

This is the fifth atomic blast in the current test series at the Atomic Energy Commission's Yucca Flat test site, 75 miles northwest of Las Vegas, Nev. This picture was made three minutes after the blast from Mt. Charleston about 50 miles from the spot where the bomb was dropped from an airplane. It was the most powerful and brilliant of the fall test series. (AP Wirephoto).

Seek Three Youths In Gatesville Break

FORT WORTH, Nov. 6. (U. S. —) Officers are looking for three youths who took part in a pre-dawn break from the Gatesville School for Boys early Monday.

Six other youths were arrested. Three had escaped when a band of knife-wielding, masked boys staged the early morning invasion of the reformatory.

Officers said the three still at large included two escapees from Gatesville and another youth who helped engineer the break.

Officers said the group fled in a stolen car. When the car ran into a ditch near Weatherford five youths were arrested. Three said they were hitchhikers.

A third fugitive was captured by Haltom City Police Chief J. M. Humphreys. The boy was identified as Jerry Leonard Fairris, 15, of Dallas.

Fairris said he was driving when they spotted a state highway car in pursuit.

"I could have lost him if our car hadn't hit some mud and slid out of control," he said.

One of the boys arrested at Weatherford was identified as Donald Crow of Fort Worth.

Crow said the Gatesville break

was unplanned.

Known to have escaped also were Robert Morgan, 15, of Bay City and Horton Johnson, 16, of BeCom.

Liability Law Hits Careless Texas Drivers

AUSTIN, Nov. 6. (U. S. —) The director of the Department of Public Safety says the new driver liability law, effective Jan. 1, is legislation to make careless drivers pay for damage they cause.

Homer Garrison told of the new law by radio Monday night.

He listed two purposes.

"To require any owner or operator of a motor vehicle who is involved in an accident which results in death or injury to a person, or property damage to any one person exceeding \$100, to pay for the damage he has caused or have his license, as both owner and operator, suspended until he does."

"To give the state a more effective means of putting habitual accident causers off the road permanently as owners and operators."

Garrison said the operator of every car involved in these more serious accidents must file a regular accident report. He also must advise the department whether he has insurance or other proof of financial ability to meet damage claims in effect at the time of the accident.

"If you are not insured at the time of the accident," Garrison said, "the department of public safety will determine the amount of damages for which you may be held liable, and so notify you."

Held In Lieu Of Bond For Mishap

BEAUMONT, Nov. 6. (U. S. —) The Argentine Tanker Juan Peron was held by federal officers today in lieu of bond to cover \$6,000 damage caused to the Magpetco Oil Terminal docks.

The 22,000-ton vessel, one of the world's largest tankers, is on its maiden voyage.

Deputy Marshals said the 648-foot craft damaged dock pilings at the oil terminal, south of here, while picking up oil.

Ship's officers expected to post bond today.

US Crude Production Down

TULSA, Nov. 6. (U. S. —) The country's daily average crude oil production fell 41,225 barrels during the week ended Nov. 3 to 6,222,275, the Oil and Gas Journal said today.

Texas, top-producing state, was the biggest loser, slumping 32,350 barrels to 2,832,125.

Others declining were Louisiana, down 6,125 barrels to 611,825; Kansas off 6,100 to 312,750; the Eastern Area, 3,150 to 60,000; and Mississippi 1,300 to 99,900.

Colorado and Wyoming each declined 800 barrels to 78,900 and 185,200. Kentucky dropped 800 to 33,900, and Utah dipped 100 to 3,800.

New Mexico topped the gainers with a 4,850 increase to 19,725.

On the credit side, also were Illinois, up 1,400 barrels to 149,500; California up 1,200 to 968,500; Oklahoma 650 to 509,450; Indiana 400 to 32,900; Michigan and Montana; each 200 to 40,000 and 27,700; Arkansas 1,850 to 76,500; and Nebraska 50 to 7,450.

Production was unchanged in Alabama, 3,100, and Florida, 1,790.

Poetry Society Head

DALLAS, Nov. 6. (U. S. —) Dr. Arthur M. Samply, poet laureate of Texas and professor at North Texas State College, has been elected acting president of the Poetry Society of Texas.

Davenport Keeps The Plant Going

Responsibility of seeing that the General Atlas Carbon Black Dixon plant here turns out 50 million pounds of dense carbon a year falls directly on the shoulders of A. R. (Dave) Davenport.

A. R. (DAVE) DAVENPORT

The plant, transplanted from its original Oklahoma locale to Big Spring, started operating faster than most believed possible. Davenport is keeping it going in that tradition.

Reared in southwestern Oklahoma, he came to Dallas as a young man and worked there before he joined General Atlas 18 years ago on a construction job. He directed the installation of the first Cottrell precipitators in the plant at Pampa and had been solving tough jobs since.

The company sent him to Guyton, Okla. in 1939 when the furnace plant was set up there and he operated it until it was closed down more than a year ago. After supervising the dismantling, he came here to direct its re-assembly and conversion from a straight gas to an oil and gas unit.

Dave and Mrs. Davenport have three children, Joyce, who is in Howard County Junior College, Virginia, a senior in high school, and John Wesley, eighth grade pupil. The Davenports are Methodists and he holds membership in the Masonic lodge at Guyton, Okla.

HUGH (BUCK) BURDETTE

Burdette Is Top Man In S'West Area

Top man in the Cabot organization in the Southwest is Hugh (Buck) Burdette.

A vice-president of the Cabot companies, Burdette is general manager of the southwestern division. He has a handful of titles, including president of the Texas-Kel Carbon company, vice president of Cabot Carbon, Cabot Shops, Inc., and, of course, of the General Atlas company.

He hails from West Virginia, having attended school at Spencer, W. Va. World War I brought him to England and France and had to Texas for training at San Antonio in the Air Corps. He served an outstanding combat record. Flying is still in his blood and frequently he likes to fly as co-pilot on the company's Beech plane.

Burdette's rise is one from "romster to president," for he started as a roughstout and has held just about every job the company has to offer.

He was married to Wanda Carter on Dec. 31, 1932 and they have two sons, Carter, 17, and Steve, 14. All the family holds membership in the Presbyterian Church.

Besides handling the vast Cabot Carbon activities in the Southwest, Burdette finds time to be active in civic affairs of his home community, Pampa, and to visit the plant here occasionally.

Carbon Takes Many Forms; Diamond One

Carbon, to which all forms of life are tied, takes many forms.

One is the sparkling diamond, the hardest and most precious of stones. It is a pure form of carbon compressed by nature into a most dense state and not yet quite reproducible by man. In a less dense state it appears as graphite in the "lead" in your pencil, and in a finely divided state it appears as black "soot" or more familiarly known as carbon black.

WILLIAM S. DIXON

Big Spring Plant Named For A Man

Among the General Atlas and other Cabot Carbon enterprises, the furnace black plant in Big Spring has the distinction of being named for an individual instead of a place.

It is the Dixon plant, named for William S. Dixon, district superintendent for General Atlas. Operations at Pampa, and at Big Spring are all under his direction.

Born in North Carolina, Dixon grew up in his native state and was graduated from North Carolina State College at Raleigh with a degree in mechanical engineering.

He accomplished this just about in time to put in 15 months service with the armed forces in World War I. Then he turned to the automobile business for several years before he went to work for Henry

L. Doherty & Co. in Toledo, Ohio in 1923.

His next 10 years were spent in Toledo and Washington, Penn., in development work in the manufacture of coal and gas.

In 1933 he transferred to General Atlas Carbon Company at Pampa, which was then owned by Henry L. Doherty. This connection continued without interruption, and in 1945 when General Atlas was purchased by Cabot, Dixon continued in his post. At that time the plant now in operation here was at Guyton, Okla. However, its operations were halted and officials decided to convert it from a gas burning type to utilize an oil mixture. Dixon had a prominent hand in this re-design.

He is married to the former

WILLIAM S. DIXON

Helen L. Beecher of Toledo, Ohio. They have a son, William S., III, an engineer with the Ethyl Corp. in Houston; and two daughters, Margery, a senior at Oklahoma A&M; and Mrs. Raymond Barrett, Oklahoma City.

Hydrocarbons Used To Produce Demand

For scores upon scores of years, limited users of carbon products looked to lamp black for their supplies.

The modern industrialized and automotive age, however, called for unheard of volumes of carbon. Thus, those in the trade turned to hydrocarbons.

Lamp black was the term loosely applied to burning of animal or vegetable fats to create a black sooty smoke. The soot was precipitated and was used principally in printers ink for coloring.

When demand increased so sharply, researchers discovered that gas flames impinged on a metal surface would produce black. The metal used was a channel bar, hence the process came to be known as channel black. It involved hundreds of little flames under these

bars, which were agitated and scraped to yield the collected black. Even so, considerable amounts of the black escaped from the little hot houses, billowing surplus smoke into the air.

The channel black was unusually fine and was found to be especially effective in toughening of natural rubber. Along came synthetic rubber, and its properties plus the idea of more efficient recovery, led to a furnace type plant. This is the kind that General Atlas operates in Big Spring.

Instead of impingement, the process involves the burning of gas or oil, or oil and gas in deaired mixtures. The black is coarser but it seems to work better in synthetic rubber.

Recovery is virtually perfect.

Carbon Black Theory Is A Simple One

Manufacture of carbon black at the General Atlas plant here is complicated and impressive, yet the theory is simple.

Basically, this is the story. Residual oil from Couden's plant is pumped to a big storage tank at the carbon plant. A heater at the intake warms the oil slightly and it then goes to batch tanks which hold a day's supply. Here the oil is warmed further, put through pumps and filters and then headed to bring it to 400-500 degrees. Nearby four 150-hp natural gas engines are compressing air which joins the hot fuel oil and natural gas at the furnace head.

The type of flame and mixture are varied to produce certain grades of black. As the dense black smoke billows out, it goes through a horizontal collector which cools the smoke. The smoke is forced and drawn up precipitators, in which water is sprayed, so that the gases are reduced to 450 degrees instead of the 2,300-2,500 at the furnace.

As the gas billows into giant precipitators, 60,000-volt electrical charges causes the microscopic particles to agglomerate or come together. Some are heavy enough to fall out. Others are whirled out by centrifugal force in cyclone separators. This accounts for 90 per cent of the black. Remaining smoke is put through nylon bags, which capture the rest.

The black is sprayed so that instead of a fluffy powder weighing three pounds per cubic feet it has a density of 20-25 pounds per cubic foot.

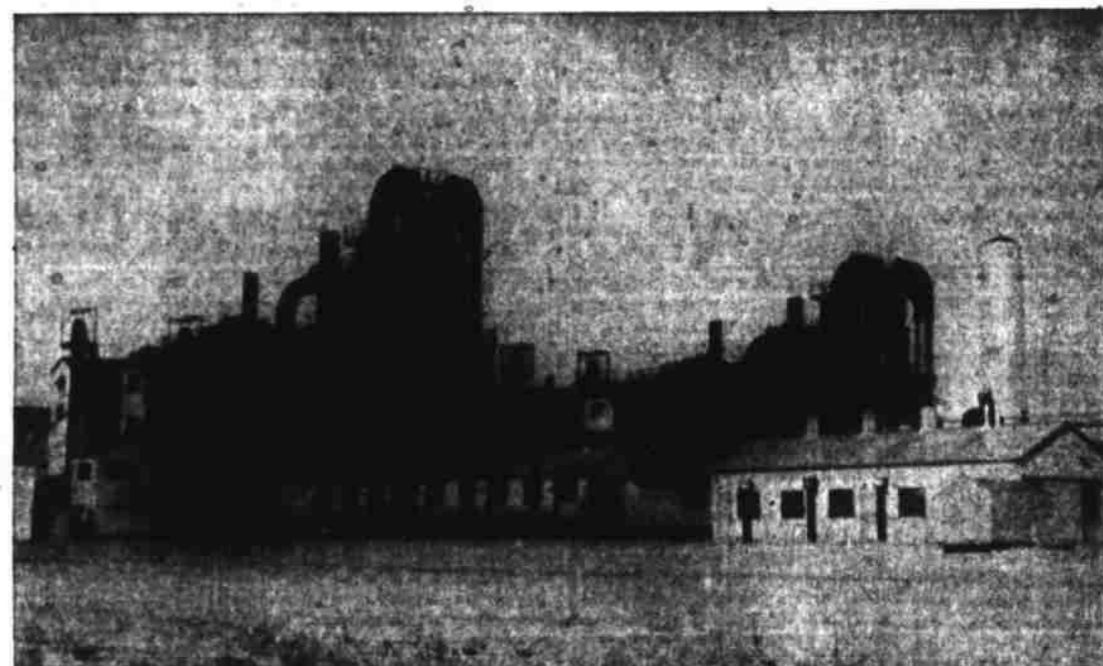

This material is tested in the lab for various properties and daily tests are sent to the rubber lab at Pampa for rubber tests. It then is packaged and shipped to various points in the nation, mostly in the industrial north and east and in the rubber industry.

Davenport's Staff Lends Vital Hand

Operation of the General Atlas Carbon Black plant here, under direction of A. R. (Dave) Davenport, depends in a good measure upon members of the administrative and supervisory staff.

Helping Davenport are S. A. Bradford, assistant plant superintendent; Roy Darwin, plant engineer; W. L. Mayfield, warehouse foreman; Richard Shields; maintenance foreman; Robert Rodman, office manager; and Paul Russell, Carl Gum, Grady Dunham, Melvin Turner, shift foremen.

WELCOME To Big Spring's Industrial Family General Atlas Carbon Black Co.

We are indeed happy to welcome the General Atlas Carbon Black Co. into Big Spring's growing list of industrial enterprises. The formal opening of this plant is another progressive step that will mean continued growth and prosperity for our section of the state. We urge you to attend General Atlas' open house Wednesday.

FIRST NATIONAL BANK IN BIG SPRING

Welcome to Big Spring, General Atlas Carbon Co. Your formal opening Wednesday is another milestone in the industrial progress of our city and our section of the state. To the officers and personnel of General Atlas, we extend our congratulations and best wishes.

TEXAS ELECTRIC SERVICE COMPANY R. L. BEALE, Manager

A Handclasp for our New Friends In BIG SPRING

... and An Invitation to Visit Our Plant

Wednesday,

November 7, 2-4 P. M.

Yes, the Dixon plant of the General Atlas Carbon Company wants to say "hello" to its good neighbors in Big Spring. We've been around for some time now, but we've just gotten our "housecleaning" done, and have the place in shape to ask you over for a visit.

So, you'd be mighty welcome to tour the carbon black plant on Wednesday from 2-4 P. M. Just drive out East Highway 80 and take the paved road to the left, after you pass the Gosden refinery. Our folks will be on hand to welcome you, and show you around.

We're proud to be a part of the progressive city of Big Spring. We want you to count us as your friends and neighbors, and to depend

upon us as one of the assets of your community. We want to do our part to make you glad we're here, to cooperate in every way we can for the good of the city and its territory.

We're proud of our new Dixon plant in Big Spring, too. It's the last word in efficiency for the production of carbon black. We're turning out a high grade of black, from gas and residual oil, at the rate of about 53,000,000 pounds per year. We're employing about 60 people, at an annual payroll approximating a quarter-million dollars. This all means progress for you and for us. We're glad to extend the hand of friendship.

MISTER BREGER

Vols, Illinois Ranked One-Two In Grid Poll

By HAROLD CLAASEN
NEW YORK, Nov. 6. (U-P)—Mighty Tennessee's football team is the country's No. 1 college team for the third straight week, say sports editors in the weekly Associated Press poll.

Texas bounced back to tenth place. The Tennessee outfit, which trounced North Carolina Saturday, 37 to 0, snared 60 of the 132 first place votes and remained on top of the heap with 1,230 points. The Vols were mentioned on every ballot.

The shake-up beneath the South-eastern Conference club, was terrific with idle Michigan State slumping from second to fifth and Illinois, victory by 7 to 0 over Michigan in a snowstorm, climbing from third to second. Maryland and Princeton also vaulted over the Spartans.

Baylor and California dropped out of the select group, their places going to Stanford and Texas. Below Michigan State came Southern California, Stanford, Georgia Tech, Wisconsin and Texas in that order.

Every member of the Southwest circuit except Rice drew at least one vote. The voters pick Tennessee as the best by 80 points over Illinois, despite the declaration of Gen. Bob Neyland, Vol coach, who says his team is vastly over-rated.

"We make no claims at all for ourselves," he said. "We think there are many teams in the country better than we are. We don't think we have the men on the schedule to be rated the best in the country."

The Tennessee schedule, admittedly weak, has Washington & Lee, defending Southern Conference champion, following North Carolina. Then the Vols take on three traditional southeastern conference foes in a row. They are Mississippi, Kentucky and Vanderbilt.

Michigan State was idle last week end while preparing for Notre Dame. The Irish have been holding in the second division since spilled by SMU but climbed to eleventh place today on the strength of their 19 to 0 pasting of Navy.

Standings (first place in brackets):

TOP TEN	
Tennessee (60)	1,230
Illinois (29)	1,150
Maryland (21)	1,019
Princeton (6)	997
Michigan State (12)	991
Sou. Calif. (8)	640
Stanford (8)	474
Georgia Tech (1)	383
Wisconsin (3)	344
Texas	287

NEW YORK — Add top ten xx 189.
Second Ten: 11-Notre Dame (1) 187; 12-Kentucky (3) 171; 13-TCU 99; 14-Oklahoma, (3) 82; 15-San Francisco 67; 16-Baylor 57; 17-California and Washington State 35; 19-College of Pacific (1) 32; 20-Ohio State and Arkansas 18.

Also rank: 22-Bucknell 15; 23-UCLA 14; 24-Holy Cross 13; 25-William & Mary 10; 26-Texas A&M 9; 27-Auburn 8; 28-Maryville, Tenn. 7; 29-Michigan; 30-Villanova; 31-SMU 4; 32-Wyoming, Cincinnati, Virginia and Tulsa 3; 36-LSU and W&L 2; 38-Mississippi and Oregon State 1.

Amerada Lease Fire Damages House Monday

FORSAN, Nov. 6. (Sp) — A fire on the Amerada lease damaged one house and threatened several other dwellings Monday afternoon.

The blaze was discovered in the J. W. Griffith residence at about 3:30 p.m. Workers on the lease fought the fire with hand extinguishers until the Forsan volunteer fire department arrived. The Griffith family was not at home at the time. Billy Ruth Blankenship, a neighbor, discovered the fire and spread the alarm on the lease while Verna Jo Blankenship called the fire department. They were able to confine the blaze to the inside of the house.

Mickey Wittek, former Giant infielder, is managing a semi-pro team known as the New Jersey Silk Sox. One of his hurlers is Frank Saul, former Seton Hall athlete.

New Blood For Rangers

New York — Six reasons why Coach Neil Colville and General Manager Frank Boucher of the New York Rangers believe the Blue Shirts have improved in speed are shown above. They are, left to right, new Rangers: Gave Stewart, Paul Ronty, Hy Buller, Wally Hergesheimer, Steve Kraftcheck and Jim Ross.

WILLIAMSON SAYS Spartans Retain Spot As Top 11

By PAUL B. WILLIAMSON
Among last week's football games that were cancelled outright or postponed—111 Monday, Nov. 5—because of snow storms, blizzards, or heavy rains—were Jamestown-Maryville, St. Thomas Hamline, Adelphi-National Aggies, Baldwin Wallace-Case, Moorhead, Concordia, North Dakota-Augusta, St. John's-St. Olaf, Slippery Rock-Geneva, Valley City - North Dakota Science.

That was the motive for the week. Old General Mud. It explained many upsets and many low-scoring margins even when the favorite won. It was also largely responsible for the lowest, weekly percentage of the Williamson System thus far this fall. The System's record last week was 0.1 per cent on 324 scores reported, including 39 late ones from previous weeks.

Many of the games were played while heavy snow was drifting, where the markers on the field could not be seen. Bad weather and injuries that are unpredictable a week in advance play hob with forecasting figures and form.

On account of upsets, inconsistent low scoring and inherent excellence Princeton and California dropped from the first-10 select groups, and others slotted into place as follows:

Michigan State rose to the top of the heap, though idle.

Rank	Team	Points
1	Michigan State	1,230
2	Tennessee	1,150
3	Illinois	1,019
4	Maryland	997
5	Princeton	991
6	Michigan State	640
7	Stanford	474
8	Georgia Tech	383
9	Wisconsin	344
10	Texas	287

Townsend Will Miss BU Game

By The Associated Press
Southwest Conference coaches can spend most of the week worrying about something else instead of injury lists.

With a little patchwork on line-ups, most teams will hit the turf Saturday at full or near-top strength.

However, at the top of the list is Texas' fullback, Byron Townsend, who hurt his left leg again in the kickoff against SMU Saturday. Townsend may miss both the Baylor and TCU games.

Linebacker Don Menasco, sidelined for the SMU game, will be back in the Longhorn lineup against Baylor.

Baylor has four with minor injuries but all are to be ready Saturday. They are Bob Knowles, Ronnie Black, Jerry Coody and Bob Reid.

The Bears scheduled a long workout today with the reserves scrimping the regulars.

Texas A&M probably will be missing Linebacker James Fowler and Defensive Right Half Bill Ballard in the battle with SMU this week.

Missing from the SMU lineup will be Pat Knight, who suffered a jaw bone injury Saturday. Rusty Russell said Knight definitely is out for the season.

Rice starts heavy workouts today for the Arkansas game. End Bill Houston, who suffered a dislocated shoulder in the Pitt game, is expected to be ready.

Game A Sellout

ODESSA, Nov. 6. (U-P)—A crowd of 22,000 is expected for the Odessa-Lubbock high school football game here Nov. 16.

Odessa fans bought up 4,000 tickets Monday.

Union Sews Up District Eight Football Title

It's all over in the District Seven six-man football race, as far as the battle for first place is concerned.

The unbeaten and untied Union Bobcats clinched the crown last weekend with a 48-14 conquest of the Loop Longhorns.

The Cats wind up their season Thursday night at Knott, at which time they play Pat Morrison's Knott Hill Billies.

By virtue of the win over Loop, Coach Carl Dunaway's Cats became eligible to meet the District Eight champion in bi-district play. That district winner has not been decided but Rankin has already clinched a tie and is all but 'in' as title.

Lads like Kay Dunbar, Ken Kirkpatrick and Ed Morris make the Bobcat attack go. Freshman Royce Meyers and Mac Beckham are other standouts in the Union machine.

The team figures on being even tougher next season, since Beckham is the club's only senior. In district play this year Union has beaten Klondike, 58-19; Flower Grove, 47-14; Ackerly, 12-0; Dawson, 53-14; and Loop.

The bi-district playoff will be conducted Nov. 17. In other games this week, Flower Grove goes to Dawson and Klondike to Ackerly on Friday.

Sifton Filling Bill As ACC's Quarterback

ABILENE, Nov. 6. (U-P)—Abilene Christian College's Ted Sifton is a T quarterback who fools the players, fans and officials as well.

Sifton, a 175-pound junior from Stamford, has scored in three games this season on a "keeper" play that baffled about everyone except his teammates.

Against Texas Western, Ted faked a hand-off to Tommy Hinson, driving fullback, then casually strolled around right end untouched — even unnoticed — for the TD. He circled the field judge, who immediately hustled toward the pileup at scrimmage and sought to determine "Hinson's" gain.

A wildcat lineman informed the red-faced whistle crew that Sifton had run right end and punted him out, ball and all, in the Miners' end zone.

In ACC's 58 to 13 rampage over McMurry, Sifton pulled the same trick, this time to the left side, and keeping his stride to a nonchalant gait until he saw a clear field ahead. Then the Stamford whiz (he runs the 100 in 9.9) turned on the steam for the necessary 10 yards and touchdown.

The referee and field judge were unscrupling the "fake" ball carrier from the pileup near scrimmage.

Most recent embarrassment came in the Midwestern-ACC game. Sifton executed the now-famous wildcat "keeper" that an onrushing Midwestern lineman charged, practically brushed, by Sifton to reach the man Ted had faked to.

Three of the four officials afterwards admitted they didn't know where the ball was on this play.

Sifton's talents aren't limited to his ball-handling magic. He is adept as a passer and has completed 13 of his first 43 attempts for 23 yards and three touchdowns. He has run with the ball 40 times for 181 yards, or an average of 4.5 yards per carry.

Clinic Is Set

NACOGDOCHES, Nov. 6. (U-P)—A clinic will be held Saturday at Stephen F. Austin State College for girls' basketball officials and coaches.

Pappy Boyington, who knocked down 28 enemy planes while flying for the US Marines during World War II, is now a wrestling referee on the West Coast.

FIRST TCU LOSS IN FIVE COAST STARTS

When USC bowled over TCU in football recently, it was the first loss in five starts for the Frogs on the Coast.

Previously, the Purple had licked Santa Clara three times and UCLA once.

There's a drive on in Sherman-Denison to insure professional baseball there next season.

A committee is trying to sell 40,000 advance tickets. That's a large order, considering the fact that the Twins only drew 30,000 for all of 1951.

1924 PONY TEAM COULDN'T WIN OR LOSE

The 1924 SMU football team played four football games within the conference and beat Texas, 10-6, and TCU, 6-0, to finish second to Baylor.

LITTLE SPORT

Midland Looms A Near Clinch In Grid Loop

Apparently, it is all Midland in the District 1-AAA football race.

The Bulldogs now have a 2-0 won-lost record within the wheel and there doesn't appear to be a club within the circuit, with the possible exception of Sweetwater, which can head them off.

The Midland team, which skinned by Vernon, 14-13, last week, meet Big Spring this week in what appears to be a breather for the Bulldogs.

Comparative scores make the Bulldogs a 60-point favorite over the Steers. Midland walloped Lamesa, 33-7, the week before Lamesa manhandled Big Spring, 34-0.

Other games this week will send Lamesa to Sweetwater in what should be a close bout and Plainview to Vernon. The Bulldogs will have to win that one in order to remain out of the cellar.

Season's Standings

Team	W	L	T	Pts.
Midland	2	0	0	28
Vernon	2	0	0	24
Lamesa	2	0	0	19
Sweetwater	2	0	0	14
Big Spring	1	1	0	21
Plainview	1	1	0	14

Lubbock At Top In 4A Ratings

DALLAS, Nov. 6. (U-P)—Lubbock has moved into first place in the Class AAAA schoolboy football ratings.

The Westerners, winners of eight straight games, took the spot today in the Dallas News weekly poll. They replaced Lamar of Houston.

There were few other changes in the top 10. Arlington Heights of Fort Worth moved into the circle after a four week absence, taking No. 9 and bumping Abilene out.

- The top 10:
1. Lubbock
 2. Lamar (Houston)
 3. Ray (Corpus Christi)
 4. Baytown
 5. Pampa
 6. Odessa
 7. Port Arthur
 8. Texarkana
 9. Arlington Heights (Fort Worth)
 10. Amarillo

Texas Is Asked For 1,471 Men In Draft During January Call

AUSTIN, Nov. 6. (U-P)—Selective Service has asked Texas to furnish 1,471 men in January — the biggest call since April.

The figure was more than four times greater than the December call of 362. It brought the total since Korea to 31,903 from Texas.

The state draft office was expecting the call and will meet it, Brig. Gen. Paul Wakefield said. He expects the calls to get bigger before they drop again.

Man Dies, Three In Family Injured When Hand Grenade Blasts

BON WIER, Tex., Nov. 6. (U-P)—A fisherman was killed and his wife and two children were injured when the 39-year-old father attempted to open a hand grenade with a butcher knife.

Killed was James Dick, a six-year-old daughter, Bonnie Sue, was critically wounded. Mrs. Dick, 38, and a son, J. W., 4, were less seriously injured in the explosion Monday.

A third child, Willie, 12, was not injured. Willie found the missile on a sand bar of the Sabine River.

Mrs. Dick told officers the entire family gathered in the kitchen as the father probed the strange-looking object. Suddenly the blast came.

The knife was blown through the roof.

Newcastle Only Schoolboy 11 With Uncrossed Goal

District Titles Go On The Line

By The Associated Press
The Class A division which has the only uncrossed team in Texas schoolboy football goes about the business of deciding district championships this week.

Newcastle has a perfect record. This powerhouse of District 9 has rolled up 191 points in eight games. Newcastle does not lead its district alone. Archer City is tied with it for the top.

Seven districts have co-leaders but some will rearrange that situation this week-end.

Nineteen of the 32 districts do have undisputed leaders. They are District 3, Abernathy; 4, Denver City 5, Wink; 7, Wylie (Abilene); 8, Albany 10, Grapevine; 13, Plano; 15, Daingerfield; 17, White Oak 18, Newton; 21, Fairfield 22, Granger; 23, Llano; 24, Giddings 25, Spring Branch; 26, Angleton 29, Pearland 31, Benavides; 32, Rio Hondo.

Districts with co-leaders are: 1-Archer City and Newcastle; 16-Hawkins and Quitman; 19-Elkhart and Groveton; 20-Cedar Bayou and Dayton; 27-Industrial and Karnes City; 28-Devine and Hondo; 30-Taft and Mathis.

Undisputed leaders will be determined this week in these districts:

- 1-Lefors at Canadian; 2-Orton at Dimmitt; 11-Wilmer-Hutchins at Lancaster; 12-Hiscox at Whitney; 14-Honey Grove at Farmersville.

The week's schedule by districts include (all games Friday unless indicated otherwise):

- 3-Abernathy at Hale Center, Kress at Crosbyton, Taboka at Lockney (non-conference).
- 4-Whiteface at Denver City, Seagraves at O'Donnell, Sundown at Stanton.
- 5-Alpine at Big Lake, Marfa at Crane, Iraan at Fort Stockton, Wink at McCamey.
- 6-Onzosa at Eden, Eldorado at Sonora, Junction at Menard.
- 7-Bangs at DeLeon, Cross Plains at Rising Star, Baird at Clyde (non-conference), Wylie at Santa Anna.
- 8-Albany at Roscoe, Haskell at Munday, Throckmorton at Merkel.
- 9-Crowell at Newcastle, Henrietta at Holliday.
- 10-Archie at Pilot Point, Bridgeport at Lewisville, Lake Worth at Northwell.
- 13-Seagoville at Richardson, Rock-

OPS Postpones Posting Order By Automobile Dealers

The Office of Price Stabilization has announced postponement until Dec. 10 of the invoicing and posting requirements under its new passenger automobile retailers ceiling price regulation.

Ceiling Price Regulation 83, covering retail and wholesale sales of new passenger automobiles, was issued and made effective on Oct. 15. It required that every automobile dealer post, within 30 days after the effective date certain information with respect to the several elements entering into the selling price of a new automobile, based on special orders to be issued by OPS.

Due to changes in the prices for extra special or optional equipment, occasioned by increases in Federal excise tax rates, the special orders will not be issued in time to permit dealers with the posting requirements. According to the OPS posting and invoicing requirements are being delayed until Dec. 10.

Chances For Getting Bowl Ticket: 1 In 5

DALLAS, Nov. 6. (U-P)—Your chances of getting a Cotton Bowl ticket is about one in five.

All the mail is in and there are requests for more than 100,000 tickets with 23,000 available.

The public sale ended Sunday and all the mail postmarked prior to midnight of that day has come in.

Ninth Graders Host B Team Of Colorado City Tonight

The Colorado City B team comes to Big Spring tonight to play Big Spring's tough Ninth grade aggregation at Steer stadium. Kickoff time is 7:30 o'clock.

In a previous meeting between the clubs, the game resulted in a 13-13 deadlock.

The Yearlings must spot the visitors considerable weight and experience but usually make up for it in hustle and drive.

Boys like Tommy Taylor, Nugent Reid, Brick Johnson, Buddy Cosby, Jimmy Slate, Frosty Anderson, Carlisle Robinson, Bobby Blum, Dickie Milani and others will make up the Yearling lineup this evening.

The running of Cosby, Johnson and Taylor will pose a threat to the visitors as will the passing combination of Blum and Reid.

On Thursday night, the Eighth grade club will invade Cosboma for a joust.

The Eighth graders played Andrews' Ninth grade team here last week and lost a 32-7 decision.

Junior Bearkats To Meet Sterling

GARDEN CITY, Nov. 6. — The Garden City Junior football team, coached by A. H. (Doc) Self, will play the Sterling City Juniors at 8 p.m. here Thursday.

The Junior Bearkats crushed Sterling last week to the tune of a 54-0 score. In that one, Self made liberal use of his reserves.

Indio Beltran Had To Have His Stuff

When Indio Beltran of San Angelo blanked Artesia April 23, he didn't have to worry about base runners. He yielded only two hits that night.

When he authored his second of three shutouts on June 3, he was constantly in hot water. Midland formed the opposition that night and the Indians clubbed him for ten hits.

Of the 47 shutouts hurled in the Longhorn league last season, it was the most hits allowed by any hurler in one game.

"Storybook Parade" Progress Is Smooth

The Christmas-season "Storybook Parade" is progressing as smoothly as things do in a fairy tale.

Nine entries into the colorful review which will be staged November 20 by school groups of the area had been chalked up late Monday. The parade will mark the formal start of the Yuletide season in Big Spring, and will be followed by the city's traditional "Treasure Hunt," in which local merchants participate.

It was emphasized that date for the program has been changed to Tuesday, Nov. 20, because of previous school commitments. The day following originally had been the date. On the 20th, the parade

will start at 5 p.m. and the Treasure Hunt will be immediately following, with the program centering around the courthouse square.

For the school units in the parade—whether mounted or walking units—four prizes will be given, in the amount of \$75, \$50, \$25 and \$15. In addition merchants sponsors are contributing up to \$50 per unit to finance decorations.

First out of town entry came Monday from the Gay Hill school, whose unit will depict the story of Little Red Riding Hood.

City schools have been assigned these sequences: North Ward, Mother Goose; South Ward, Three Little Pigs; East Ward, Alice In Wonderland; College Heights, Robin Hood; West Ward, Hansel and Gretel; Kate Morrison, Snow White and the Seven Dwarfs; Lakeview, Uncle Remus, Airport, Treasure Island.

Stories and characterizations are being assigned to avoid duplications.

Four Are Killed In Plane Plant Blast

LOS ANGELES, Nov. 6. (AP)—An explosion at a Douglas Aircraft Co. plant Monday killed four men and injured five others.

It was the second blast in two weeks.

A curing oven making insulation blew up as it was being tested. The oven was a replacement for one which exploded Oct. 2, injuring one workman.

Spain Mission Due Home This Week To Report

WASHINGTON, Nov. 6. (AP)—An American military survey mission returns from Spain this week with a report which may lead to negotiations for U. S. naval and air bases in Spain.

Officials appear confident Generalissimo Franco will grant such bases in return for modern American arms.

The report which could form the background for such future negotiations has been drafted by a seven-man Air Force-Navy team after military installations.

The American group went to Spain after Franco, in confidential talks with the American ambassador, Stanton Griffith, expressed willingness to conclude a direct military alliance with the United States. Franco asked, in exchange, for weapons.

Congress set aside \$100 million in the \$7 billion mutual security program for military, economic, and technical aid to Spain during the fiscal year ending next July 1.

Orme And Hayward Named Directors For WTCC Board

Douglas Orme and G. H. Hayward were named local directors for the West Texas chamber of commerce, at a meeting of the local C-C board Monday.

It was a re-election for Hayward, who has served as WTCC director for several years. Orme is succeeding R. W. Whipkey. Convention of the West Texas group will be held in Amarillo Nov. 14-16.

The local board of directors Monday heard a discussion of proposed constitutional amendments, to be voted on in Texas November 13, and renewed talks on the perennial problem of housing.

A report was given from the merchants committee on the Christmas season spectacle set for November 20, when the "Storybook Parade" and the citywide Treasure Hunt will be staged.

Rules the Road but not Your Budget

1 Road Test a Mercury for proof of performance!

Watch a Mercury show its stuff when the light goes green. Feel that comforting reservoir of surplus power for safe passing on the open road. Relax as Mercury eagerly responds to your slightest finger-tip command. No doubt about it, you're the boss when you drive a Mercury. For here's a performer that never wits when the going gets tough. Mountains are cut down to size by eight cylinders of high-

compression V-type 8 power. Traffic tangles unravel before its sure-footed gait. Byways become highways as its synchronized springing and foam-rubber cushioning snub out the bounce and jounce. Little wonder that Mercury is such a fast-growing star in popularity; you just can't beat its combination of performance, value, and prize-winning economy. Stop around for a road test and see.

Standard equipment, accessories, and trim illustrated are subject to change without notice.

2 Budget Test a Mercury for proof of value!

- Does it have a down-to-earth first price? Mercury's price tag you can easily understand—a big dollar's worth for every dollar invested.
- Will trade-in value stay high? Mercury's keep their value; used car market reports consistently prove it.
- Will you be sure of good gasoline mileage? Mercury has proved its more-miles-per-gallon by winning officially sponsored economy tests.
- Will upkeep stay low? You save money year after year. Mercury's famous stamina keeps repair bills at a rock-bottom low.
- Is it famous for long life? It is indeed! In fact, 92% of all Mercurys built for use in this country are still on the road, according to latest annual official registration figures.
- Does it represent solid value? Mercury owners say YES! So will you when you get the story from your Mercury dealer. See him soon.

3-WAY CHOICE!

For "the drive of your life" Mercury offers a triple choice in dependable transmissions. Merco-O-Matic Drive, the new simpler, smoother, more efficient automatic transmission—or Thrifty Touch-O-Matic Overdrive are optional at extra cost. There's also silent-ease standard transmission.

Make the **MERCURY 2-Way Test** FOR "THE BUY OF YOUR LIFE!"
