Hostages Held In Hijacked Plane

IN CARSWELL NOMINATION

Letter From Black Attorney Becomes Controversial Item

WASHINGTON (UPI)—Over a few Dutch beers in the privacy of his apartment, Charles Wilson, a black attorney who works for the government, agreed to write to the Senate Judiciary Committee about his experience arguing cases before Judge G. Harrold Carswell.

That 7-week-old letter, its author—but mostly its motivation—became the subject of controversy Monday in the increasingly bitter battle over Carswell's qualifications for a Supreme Court seat.

Freshman Sen. Alan Cranston, D-Calif., charged that Wilson, the deputy chief conciliator of the Equal Employment Opportunity Commission (EEOC), was "pressured" into writing the letter.

Wilson denied he was pressured but said he wrote the letter after the suggestion was brought to him at home by an assistant attorney general whose name is Rehnquist.

Two hours later William H. Rehnquist, an assistant attorney general, told reporters he discussed the letter with Wilson.

"over some Dutch beer" at his home. "I asked him if he would be willing to make a statement. He said he would if I would be willing to draft it. I don't feel we sought him out."

Deputy Attorney General Richard G. Kleindienst added "He was not pressured." He said Wilson "stood in the shoes of a volunteer."

The letter in question was not an endorsement of Carswell's elevation. But it did say "there was not a single instance in which he was ever rude or discourteous to me."

Senators had singled it out in the long debate over whether Carswell had been "hostile" to civil rights attorneys. Wilson had argued more desegregation cases before Carswell than any other lawyer.

Wilson said he was disturbed Carswell supporters had portrayed his letter as an endorsement of Carswell. He said he would have preferred a more liberal judge.

Six days before the Senate votes on whether to send the Carswell nomination back to the Judiciary Committee, this killing it, a UPI poll showed 41

senators for recommitment, 39 against. The decision was in the hands of 20 who have not made up their mind or disclosed their decision.

Priority Mail To Augment Postal Revenue

WASHINGTON (UPI)—The Post Office Department is going ahead with a plan of priority mail which would assure a mailer of delivery by a certain time.

No rate has been fixed for this new class but sources estimated it might cost 10 cents per ounce. Postmaster General Winton M. Blount told a House appropriations subcommittee Feb. 16 in testimony made public Monday that total revenue from priority mail, according to surveys of potential users, could be \$400 million a year.

Blount also said he would recommend an increase in Parcel Post rates to bring in an extra \$75 million or \$100 million a year. Rate changes in Parcel Post, which is fourth class mail, must be approved by the Interstate Commerce Commission.

Last April the Nixon administration asked Congress to raise the rates for first, second and third class mail. These increases would yield an additional \$674 million a year.

Order Keeps Planes Flying In Southwest

FORT WORTH (UPI)—Judge Leo Brewster Tuesday signed an injunction to keep the Professional Air Traffic Controllers Organization (PATCO) from interfering with air traffic in the Southwest.

The order, filed by U.S. Attorney Eldon Mahon, is believed to be the first of a series asked for by the federal government against PATCO.

Air traffic controllers have been calling in sick since last Wednesday in a disagreement with the Federal Aviation Administration. There has been little absenteeism in the Southwest so far.

FINAL instruction for 1970 enumerators was in progress today in the Flame Room of Pioneer Natural Gas Co. in preparation for the decennial survey that will get underway Wednesday. Mrs. Dorothy Miller, crew leader facing camera, is pictured here illustrating one of the first requirements is to smile. (Staff Photo)

C-DAY WEDNESDAY

Head Count To Get Underway In Pampa

By DORIS E. WILSON
News Staff Writer

The U.S. Government will begin taking its decennial census photograph of Pampa and vicinity Wednesday.

Acting postmaster Carl English said approximately 11,000 census forms have been delivered and should be in the hands of residents now awaiting the call of census takers.

He said all households will receive census forms by mail and will fill them out at home. These people will be visited by census takers who will pick up the forms.

Mrs. Dorothy Miller, crew leader for this area, said workers will be by to pick up

the forms and in the event a householder is not at home, the worker will keep calling back in person or by phone until contact is made.

"We will get them all," she said.

She estimated it will take about two weeks to complete the local tally.

Householders will not have difficulty identifying enumerators. Mrs. Miller said each census-taker will wear a red-white and blue identification badge. The card bears the seal of the Department of Commerce and the words "census enumerator, official credential" are printed across its face. The

enumerator will also carry a red, white and blue portfolio.

Mrs. Miller said every enumerator has taken an oath to protect the privacy of citizens. The oath: "I will not disclose any information contained in the schedules, lists, or statements obtained or prepared by the Bureau of Census."

"Violation of this oath carries a stiff penalty," Mrs. Miller said, "anyone who divulges any of this information can be sentenced up to two years in the penitentiary and fined up to \$1,000. Numbers are all we are interested in."

Persons representing themselves to be census-takers, who do not have the proper credentials, should be reported immediately to the local police or to the census district office Bldg. 9316 Amarillo Air Force Base.

Everyone will receive the four-page short form. About 20 percent will be questioned on (See CENSUS, Page 2)

Japanese Students Try For N. Korea

SEOUL (UPI)—Fifteen radical Japanese students who hijacked a Japanese airliner with swords and daggers held 100 persons hostage in the locked airliner at Seoul airport tonight and threatened to blow themselves up with bombs if they were not taken to North Korea.

The students seized the plane in Japan and ordered the pilot to fly to North Korea. But the pilot turned back to Seoul when he encountered ground fire over the North. Seoul authorities staged an elaborate ruse to convince the 15 students they were in Pyongyang, but they failed.

"This is Pyongyang and we welcome you," loudspeakers blared as the Japanese Air Lines Boeing 727 with the 15 hijackers, seven crewmen and 93 passengers landed at Seoul. South Korean soldiers in Communist uniforms took up positions alongside the plane but the pirates were not fooled.

Dawn Takeoff
South Korean Defense Minister Chung Nae-huk said the pilot of the Boeing trijet had notified the airport control tower he would take off at dawn for Pyongyang, the capital of North Korea.

The hijackers threatened to blow up the aircraft with bombs they have in case the hijacking fails," the pilot radioed. "Please do not bring people near the aircraft..." He said the hijackers indicated they would wait "three or four days" if necessary before blowing up the plane.

Two of the passengers were Americans. They were identified as the Rev. Daniel S. MacDonald, a Roman Catholic priest in Japan, originally from San Francisco, and Herbert Brill, an executive for Pepsi-Cola International, stationed in Japan. His home is Hoboken, N.J.

The hoax attempted on the hijackers was so elaborate that girls carrying flowers went out and shouted, "Welcome to Pyongyang."

The elaborate hoax failed and six hours after the plane landed

in Seoul, the student pirates were finally told by officials that they were in South Korea as they had suspected. Then began the ordeal of trying to free the persons aboard the plane and decide the fate of the hijackers.

The Japan Airlines said it may try to persuade the hijackers to let the passengers leave the aircraft with a promise to fly the hijackers wherever they wanted to go. The plane itself suffered a fire on landing and was in no position to fly until the fire is replaced.

While Seoul authorities took sandwiches aboard for the 115 persons, Japanese reports said the hijackers called the Seoul control tower by radio and asked if the fire could be fixed tonight. Told no, they appeared ready to bed down for the night.

The Japanese Embassy said a Japanese DC8 airliner was flying in from Tokyo with a relief crew in hopes the tired original crew could be released. Officials said it would take hours to replace the blown tire.

Definition Of Tomorrow Wins Contest For Youth

By BEN KECK
News Staff Writer

"Tomorrow is what today is all about."

With those words, 15-year-old Curtis Thornton won first place in the annual Pampa Optimist Club's oratorical contest Monday night.

Speaking on the topic, "Youth: Full Partners in a Better Tomorrow," Curtis told his audience that "tomorrow is a fantasy. But we can be certain that the next generation will be able to cope with what God and this great country demands of them."

This is the third year the son of Mr. and Mrs. Buddy Thornton, 1048 Cinderella, has entered the contest. In 1968, he placed second; in 1969 he won first place and went on to place second in the zone contest in Amarillo.

Curtis will make his second appearance at the Amarillo competition in April.

The second place winner, Eric Copenhaver, 14, son of Mr. and Mrs. Warren H. Copenhaver, 627 Naida, told his audience that

to meet the challenge of tomorrow, youth must "accept and recognize the responsibility of today."

This year's contest was the second for Eric. Last year, he placed second.

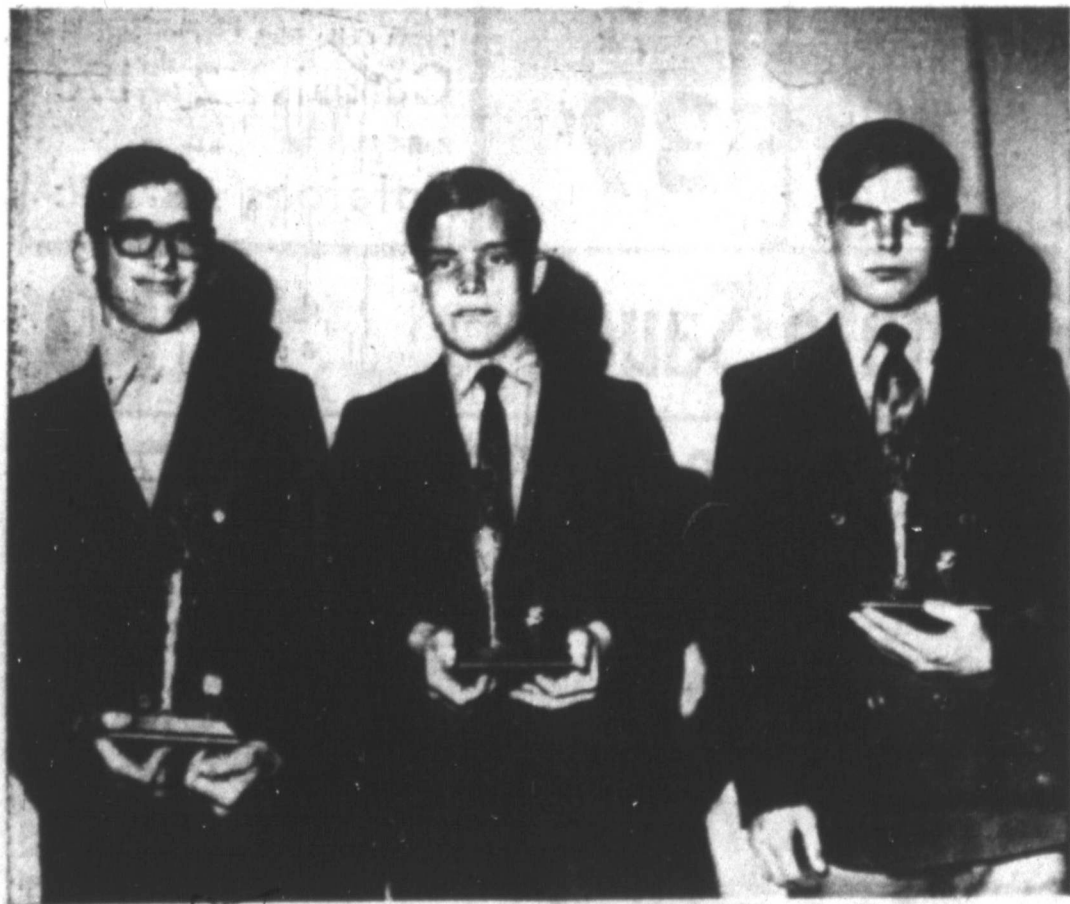

Rick Ellis, 14, son of Mr. and Mrs. John R. Ellis, 1906 Chestnut, placed third in his first year in the contest.

Rick made a comparison of adult and youth in defining the "partners in a better tomorrow."

The oratorical contest is sponsored annually by Optimist International and local clubs. Every speech is on the same topic and the same speech made in the local competition is made by the winners at zone, district and international contests.

According to Dr. Nick Kadango, contest director for the Pampa club, the local club was chartered in 1954 and a contest has been held every year.

Only one Pampa youth has ever made it to the international contest, according to Dr. (See CONTEST, Page 2)

ENTRANTS IN the annual Pampa Optimist Club's oratorical contest display trophies they won in Monday night's contest. From left are Curtis Thornton, first place; Eric Copenhaver, second place; and Rick Ellis, third place. (Staff Photo)

Sale Of Cough Syrup Prohibited In Dallas

DALLAS (UPI)—A law goes into effect Friday which authorities hope will drastically slash the number of teen-agers who get "high" on cough syrup containing codeine.

The law, passed Monday by the City Council, prohibits the sale of cough syrup containing one grain of codeine per fluid ounce or more, with a prescription. Seller and purchaser of the syrup will be subject to a \$200 fine.

Despite opposition from a representative of the Dallas County Pharmaceutical Society, the council passed the law unanimously after listening to complaints from downtown businessmen.

"It's a tremendous problem in the downtown area," said Phil Lux, the general manager of a Dallas variety store. "We find empty bottles in the store every day."

Lose Respect
Lux said the persons using the codeine syrup are usually between 18 and 25-years old. He said they "lose all fear of being arrested, all respect for law and order, use foul language,

and almost in every case, resist arrest."

Dabney Johnson, the owner of a chain of sandwich shops, said persons high on the codeine syrup have been "making improper advances to our regular customers."

Gene Wilson, president-elect of the pharmaceutical group, claimed the council was "getting excited because all of a sudden this popped up in the newspaper."

He asked the council to do some further study on the matter and to contact the Dallas County Medical Society for its advice before passing the law.

Higher Prices Seen
He said the law would force persons with a legitimate cough to pay a doctor's fee and a higher price for the prescription because of additional work in the pharmacy.

Joe Calahan told the council it was treating the symptom and not the disease.

"Why do kids need to use drugs," he asked. "You can make laws from now to eternity and you won't be able to curb these things because nobody is listening to the kids."

Death Toll Continues To Rise In Cediz

GEDIZ, Turkey (UPI)—Thousands fled the smoldering rubble that was once Gediz and pitched tents today in hills above the wreckage rescue workers said may hide enough corpses to raise the death toll in Saturday's earthquake to 2,000.

Government forces used tents mushroomed in nearby hills overlooking what until Saturday was a sprawling farm community of 7,500. Secondary tremors, 10-degree cold and driving rains added to the misery.

Agents tending the stricken in the 150-mile are hit by the weekend tremor spoke of a final death toll of 2,000. In Gediz alone they counted 868 dead.

Hayrettin Nakipoglu, the national housing minister, who directed rescue operations, put the confirmed dead at 1,000 and injured at 4,000. He said more

than 2,000 homes had been destroyed.

Steel-helmeted Turkish army troops continued to dig for victims. Half of Gediz was leveled and the rest of its buildings so badly damaged that officials believe they will have to be razed.

Tears welled from the blackened eyes of bruised survivors who sifted wreckage in search of missing loved ones. Smoke wafted from the remains of collapsed homes despite torrential rains and streams of water played by rescuers' hoses.

In one of the best preserved buildings, the town's two-story school, the clock had stopped at three minutes past 11, showing it was two minutes slow when the quake hit at 11:05 p.m. Saturday.

Turkey mounted a massive relief operation assisted by governments and private organizations in the United States, West Germany and other foreign countries. Food, water and medical supplies were trucked and parachuted into the area.

New tremors hit the stricken area Monday, destroying some of buildings that resisted Saturday's quake. The threat of plague was prevalent, authorities said.

Manson Trials Begin In LA

LOS ANGELES (UPI)—The first of the "Manson family" murder trials has opened with the state demanding the death penalty for mod-attired Robert Beausoleil, 21.

Lost in the uproar over the Sharon Tate murders was the slaying two weeks earlier of a bagpipe musician named Gary Hinman. He was slashed to death in his home and the words "political piggy" scrawled in his blood on the wall.

Charles Manson, accused mastermind of the Tate slayings, lived with his hippie cult in Hinman's home for a time. Beausoleil, who is being tried a second time after a hung jury at his first trial, was a member of Manson's assemblage.

Mainly About People

The News invites readers to share in or mail items about the coming and going of their friends or family for inclusion in this column.

A well-known singing group. The Medicine Show of Frank Phillips College, Borger, will present a program at the Pampa Rotary Club Wednesday. Performing will be Pam Pfalmer, sophomore from Borger; Paul Williams, sophomore from Amarillo; Paula Woods and Mary Cook, sophomores from Phillips with their accompanist, Mrs. Evelyn Hubbard, head of the Frank Phillips College music department.

Garage sale: 632 N. Dwight, furniture, miscellaneous items. 600-7908.

The YFW Auxiliary will meet in the hall at 7:30 p.m. today for an election of officers and a regular business meeting.

Mrs. Lillian Jordan, 712 N. West, has been elected vice president of the Top of Texas Chapter of the Tuberculosis Association and will be recognized at the state meeting of the association in Lubbock this weekend. Mrs. Cora McNair of Miami was named to the board of directors and will attend the meeting with Mrs. Jordan.

For the Easter weekend, Mr. and Mrs. Harold Phillips, Lefors, sponsored a party for 34 guests in the Lefors Civic Center. Guests were family members, Messrs. and Mrs. Dale Vandever, and four children, Broken Bow, Okla.; Bill Phillips, and three children, Ulysses, Kans.; Jim Barnes, and two children, Pampa; Dennis Borton, and two children, Lefors; Jim Johnson, and daughter, Pampa; Claude Petty and three children, Borger; Larry Williams, Borger, and Dale Hightower, Panhandle.

Census . . .

(Continued From Page 1)

a long form, which the enumerator will bring along with her or him, according to Mrs. Miller.

Everyone must answer the questions on the forms or risk a fine, though no one has ever been jailed for refusing to answer.

Seventeen enumerators will begin making the rounds tomorrow: Mrs. Yvonne Pittman of Lefors, Charles Stowell, Alma Lamberson, Janice McCarthy, Joe Darce, Sandy Oler, Elizabeth Dunn, Clarice Moore, Jean Bowles, Linda Bigham, Ettavie Michael, Wynona Shaw, Marian Gooch, Dorothy Minyard, Aline Keel and Ila Pool.

Mrs. Miller said there is one vacancy still needing to be filled.

Even if you are traveling on Census Day, the Census Bureau intends to find you in your hotel or motel and count you as a resident of your home city, county and state, District Manager R.L. Butler of the Amarillo district office said today.

This will require a special project called "T-Night," the "T" standing for "Transient." Tonight all transients at hotels, motels and like places will be given an individual census form to fill out by resident managers.

After all forms have been collected, they will be sorted at the Amarillo district office to determine which persons, having no other place of residence, should be counted locally.

Permanent residents of a hotel or motel will be counted as part of the local population where they are staying.

Day Nursery Robbed By Meanest Thief

Police this morning were investigating a burglary at the Day Nursery, 501 Oklahoma St.

Mrs. Idray Williams, an employee at the nursery reported someone had entered the building by breaking a door glass and unlocking the door from the outside sometime Monday night.

The intruder took a large quantity of food from a refrigerator, three bed sheets, a record player, and the pay telephone.

The value of the sheets, food, and record player was estimated at \$50. The telephone company had not determined the value of the phone and the change it contained at noon today.

Commissioners

Meet Wednesday

Gray County Commissioners Court will meet at 10 a.m. Wednesday in the county court room.

The only business listed on the agenda is the paying of county employees, the transfer of funds from the general fund to the library fund, and the approval of tax distribution.

Scene

Kids with long faces this morning as they contemplated the last day of Easter vacation.

Nat Lunsford downstairs in the sheriff's office again . . . Too many gray clouds in the sky . . . NOT SCENE . . . April flowers that are usually blooming on the last day of March . . . Mrs. James F. Malone having her picture taken for "Woman's World" and commenting she would review about the book review she will do for the Old Timers' meeting Friday in Lovett Memorial Library.

The citizens of Lubbock survived their first confrontation with an army of long haired electric rock music lovers in good condition. They even seemed to enjoy some of it themselves.

"We're still trying to process all the cases filed," Cherry said. "We had a total of 69 drug cases. There were no crimes of violence so the festival wasn't bad in that sense, however we didn't expect this many felonies with such a small crowd."

Time to Recover

"We're turning our thoughts to other things today—a grand jury meeting, three separate murders with no connection and other normal crimes," Cherry said. "It will take us some time to recover—lost sleep, extra work and the processing of charges."

The citizens of Lubbock survived their first confrontation with an army of long haired electric rock music lovers in good condition. They even seemed to enjoy some of it themselves.

Lubbock Authorities Turning Thoughts To "Other Things"

LUBBOCK, Tex. (UPI)—District Attorney Blair Cherry, "turning our thoughts to other things today," said 69 persons were arrested in "drug cases" during the ill-fated rock music festival which never really got started over the Easter holidays.

In Austin, the Department of Public Safety said its 317 officers at the festival made 626 arrests during the Southwest '70 Peace Festival. But a spokesman for the DPS said 502 of those arrests were made outside the rock festival's grounds.

"We're still trying to process all the cases filed," Cherry said. "We had a total of 69 drug cases. There were no crimes of violence so the festival wasn't bad in that sense, however we didn't expect this many felonies with such a small crowd."

Time to Recover

"We're turning our thoughts to other things today—a grand jury meeting, three separate murders with no connection and other normal crimes," Cherry said. "It will take us some time to recover—lost sleep, extra work and the processing of charges."

The citizens of Lubbock survived their first confrontation with an army of long haired electric rock music lovers in good condition. They even seemed to enjoy some of it themselves.

Ward said he gave away over 4,000 free sandwiches and 4,000 pieces of fruit, five truck loads of campfire wood and "many gallons of water and hot coffee."

"I got more tips from the long hairs during the three days they were here than I usually get in a month from our citizens," a waitress said.

"The kids were very polite," said the owner of a drive-in grocery. "They put garbage in trash cans instead of just throwing it on the floor. Unlike our own kids, they all said 'yes, sir' and 'no, sir.' I don't approve of their dress or long hair but they are certainly polite."

Tents Manned

Waylon Ward, pastor of the First Presbyterian Church and head of the Campus Crusade for Christ manned five tents during the festival, plagued by freezing temperatures, rain, high winds, fog and a tornado alert.

"From our standpoint we thought it was very successful," he said. "From the music end, I'd have to say it was a flop."

Contest . . .

(Continued From Page 1)

Kadango. In 1968, Timothy J. Doke was a runner-up and won a \$1,000 scholarship at the international competition in Louisville, Ky.

If Curtis Thornton wins the zone and district contests, he stands a chance of winning a \$2,000 scholarship at the international convention in Los Angeles, Cal. later this year.

Judges for this year's contest were Mrs. Martin Stubbs, Mrs. James Shelton, and David Osborne. The timekeeper was Earl Davis.

Champ's Daughter In Custody For Murder Of Her Husband

CHESHAM, England (UPI)—A judge today ordered the daughter of former world heavyweight boxing champion Gene Tunney held in jail until April 8, when the court will decide if there is enough evidence to try her for murder in the death of her husband.

Looking tired, her eyes cast down, Joan Tunney Wilkinson, 30, heard Magistrate A. S. Harman order her to appear a week from Wednesday to learn if she will stand trial. She accepted his order calmly.

Mrs. Wilkinson is accused of murdering her husband, Lynn Carter Wilkinson, 31. Police said he died of head injuries Sunday in their cottage in a London suburb. The hearing today was held to determine whether Mrs. Wilkinson was to be held in custody.

Mrs. Wilkinson wore a light brown raincoat and a grey turtleneck sweater, her dark hair drawn back severely as she stood in the prisoner's dock, a police matron at her side.

Two of her brothers, Jay Tunney, 33, and Gene Tunney Jr., 38, appeared in the tiny courtroom behind the red brick police station not far from the

century-old cottage where Wilkinson's body was found Easter morning.

The brothers said they arrived to help their sister if they could. They came as representatives of their father, now 72, who was recovering from surgery in Arizona. He won the heavyweight title in 1926.

Postal Union Gets Secret Proposal

WASHINGTON (UPI)—The Nixon administration has given the nation's postal unions an undisclosed written proposal, presumably a new wage offer, as attempts continued today to solve the grievances which triggered the country's first post office strike.

The government announced the new move early today at the end of seven hours of negotiations. A spokesman said the union negotiators planned to "study and consider" the proposal in a separate meeting today, and then rejoin government representatives for another joint session.

The proposal apparently resulted from a meeting Monday between President Nixon and Postmaster General Winton M. Blount. Blount said Nixon was "very hopeful we can conclude the negotiations very soon . . . progress has been made to settle the differences."

Blount also conceded some of the money matters being discussed would involve "some changes" in Nixon's budget planning, perhaps affecting the \$1.3 billion budget surplus the President has proposed for the 1970-71 business year.

Workmen Burned In Explosion

Two Pioneer Natural Gas Company employees were in satisfactory condition this morning at Highland General Hospital after receiving second degree burns on their hands and faces following an explosion at a compressor plant south of Pampa Monday.

A company official said Bob Tigrett, about 33, of 1008 S. Dwight, and Bud Watson, about 31, 2225 N. Zimmers, attempted to start a compressor engine when it backfired and exploded. The spokesman said that the engines were powered by natural gas and it is possible a spark may have ignited the gas, causing the explosion.

House Of Eisenhower Joins House Of Goldwater In Rites

LAS VEGAS, Nev. (UPI)—A nephew of the late President Dwight D. Eisenhower and the personal secretary of Sen. Barry Goldwater, R-Ariz., were married in this gambling resort Saturday.
Judy Rooney, 32, and Earl Eisenhower Jr., 34, were married in a double ring ceremony in a suite in the Tropicana Hotel. Justice of the Peace Roy Woolter performed the five minute civil ceremony. It was the first marriage for both.
Goldwater gave the bride away. Miss Rooney has served as personal secretary to the Arizona Republican 16 years. "I can hardly wait until she gets back to work in my Washington office and answers the telephone. This is Judy Eisenhower," commented Goldwater following the ceremony.
Mrs. Goldwater also attended the wedding.

Eisenhower is the son of the second of the Eisenhower brothers. He has a doctorate from the Massachusetts Institute of Technology in computer programming, and has been assigned to catalog the history of the Southwestern United States at the Smithsonian Institute in Washington.
The couple, who met in 1964 during Goldwater's presidential campaign, will remain here one day. They will make their home in McLean, Va.
About 15 persons attended the ceremony. Trust and Bill Thurston of Phoenix, Ariz., long time friends of the bride, were master of honor and best man.
ALBANY, N.Y.—State Assemblywoman Constance Cook answering criticism that New York state's liberal abortion bill, which failed to pass in the assembly by three votes Monday, would grant "abortion on demand".

Ten Minutes Daily Can Make Fatties Thinnies

By GAY PAULEY

NEW YORK (UPI)—Ten minutes. A tiny segment of the 1440 minutes in a day. But those 10, used properly, can turn fatties into thinnies, trim inches off the entire body, and give you a whole new mental look to go with the physical.
The promise of what 10 minutes of exercise can do, if done just as regularly each day as you brush your teeth or put on your face, comes from Toni Beck, whose clientele pays \$800 per week plus gratuities for such advice.
Many of these trim one and one-half inches off the entire body measurements in two weeks under expert tutelage and their own will power at diet and exercise.
Hipped On Posture
There is another factor to be added to the daily 10—"carrying yourself well," said

Miss Beck, a dancer and dance instructor. She's so hipped on what posture can do for appearance that she's been known to tie a string to a famous client's ears and pull upward to show correct stance.
One way to improve posture is to imagine what a slender pole runs from top of your head through the center of the body and to the feet. And the weight should be carried on the balls of the feet. Or, imagine that a string is attached to the top of your head and is pulling the whole body upward. Or, use the time-honored dance class method of walking around with a book balanced on top of your head.
"Posture does not stop when you move," Miss Beck continues. "You learn, from standing correctly, how things are supposed to feel, and you should go right on feeling that way whether you are walking,

sitting or lying down. Think of yourself as a whip, a wand, a tree or a tree, but visualize something straight and secure and flexible."
Moved To Dallas
Miss Beck, a slim auburn-haired woman who looks like she practices what she preaches, danced professionally and choreographed on Broadway and in stock before she married and moved to Dallas, Tex.

When the Great Southwest Corp. established the luxury spa, The Greenhouse, between Dallas and Fort Worth, she was asked to organize and supervise the exercise program.
For the woman who is neither the Duchess of Windsor nor a Mrs. Lyndon B. Johnson able to afford the time and money for the beauty spa, Miss Beck has combined with free lance writer Patsy Swank of Dallas to produce "Fashion Your Figure: The Ten-Minutes-A-Day Program for Fitness." Foreign News

Another election is coming up in the Dominican Republic where violence before and after the last one caused between 2,000 and 4,000 lives.
Central figure is President Joaquin Balaguer, among whose opponents a group identifying itself as the "Unified Anti-Election Command" claimed credit for the March 24 kidnapping of a U.S. air attaché in Santo Domingo.
The attaché, Lt. Col. Donald J. Crowley, was released unharmed in exchange for 20 Dominican political prisoners who were flown to Mexico.
The Dominican Republic is a sad little country of around 4 million people who share their island with Haiti and who have known more violence than peace and more dictatorship than political freedom.
Elections Are Scheduled
The presidential elections are scheduled for mid-May and tensions have been mounting for months.
The Dominican Republic had four dictatorships through 71 of its first 121 years and 72 presidents in the remaining 50 years.

LADY ESTHER
4 Purpose
FACE CREAM **99c**

By August Van Garen

DEAR ABBY: Where did people get the crazy idea that people can concentrate only in complete silence? All a silent classroom produces is a bunch of nail-biting, finger-drumming, fact-shaking nervous kids. Dead silence is unnatural, and makes people fidgety. If you doubt this, the next time you are in church, if the service lasts over an hour, how hard does the bench get? And how many places do you suddenly itch?

The noise level in most hospitals is higher than it is in the average classroom. That's why we have so many "educated" graduates who have beautiful paper qualifications, but can't perform. There just aren't many job situations that meet the silence and orderlines demanded in the average classroom.

Do you want to know why Johnny can't read? He's asleep with his eyes open.

A TEACHER

DEAR ABBY: Remember the mother who asked you if a child could study properly with the television, radio or stereo on? Well, years ago, I would not allow it either. In fact, I was delighted that here at last was a good lever a mother could use: "Finish those lessons before turning on any of those distractions!" But a wise neighbor, Alberta Smith said, "Nay, nay, you'll be sorry one day. How right Alberta was!"

I always thought I was doing the right thing by insisting that my children have complete silence in which to study. Now my daughter is in a classroom that must accommodate two grades at the same time, and she is having great difficulty concentrating on her work while the other class is reciting. She used to be a straight A student. This semester she will barely pass. So we are changing our study habits but fast. Besides, when children grow up and go to work, do you think everyone around them is going to be quiet so they can do their thing?

ALBERTA'S FRIEND

DEAR ABBY: Your column attests to the fact that many bright children are able to concentrate with background noise, but unfortunately, according to recent research, about 60 per cent of children with learning disabilities can't handle background noises which compete for their attention. Most people need a little familiar background noise to feel "safe" and to know they are in touch with their environment. Anyone who has had a sudden hearing loss will tell you this, but don't try to explain it to the lady who plugs up her ears at night.

Abby, I'll go along with your original advice: "Show me the report card and I'll give you my answer."

Found Guilty

ATHOL, Mass. (UPI)—District Court Judge A. William Plotkin Monday sentenced a 24-year-old man to three months in jail for wearing the American flag as a patch on the seat of his pants.

Plotkin found James Julian of Springfield, Mo., guilty of misusing the American flag. Julian was arrested in a local bar two weeks ago.

He is free pending an appeal.

If a child does well despite background noise, don't worry. If he is not doing well, why take a chance?

JACK KATZ, Ph.D.
(Audiologist)

DEAR ABBY: I can't tell you why, but I can't study unless I have some "background noise." I've tried to concentrate in a room with dead silence, and I get so nervous I just about jump out of my skin! I am a freshman at a large university, and I haven't had lower than an "A" since I was in the eighth grade.

NEEDS NOISE
in ANN ARBOR

DEAR ABBY: I read with interest the answers to the problem of loud noise while studying.

What employer will furnish a TV, radio, or stereo so his employees can concentrate on their work? If children can't do their homework without "music" blasting, what will happen in a nice quiet office or other workroom?

JUST AN OLD SQUARE:
VIRGINIA BEACH

DEAR SQUARE: — Quiet! Have you been in an office lately?

For Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abby, Box 6790, Los Angeles, Cal., 90069.

Your Horoscope
JEANE DIXON

WEDNESDAY, APRIL 1
YOUR BIRTHDAY WEDNESDAY: — A year begins of exceptional opportunity plus the temptation to spread yourself thinly over too many diverse occupations. Concentrate on projects which bring you into contact with more people, more openings for your talent of selling and persuasion.

ARIES (Mar. 21-Apr. 19): — Wednesday you walk on eggs, so to speak; keep business and personal relations strictly separated, maintain the utmost courtesy.

TAURUS (Apr. 20-May 20): — The people who are most helpful wish to remain behind the scenes; quiet or even anonymous.

GEMINI (May 21-June 20): — You are likely to find out disarming truths about how some people feel toward you. There is nothing to do but contain your feelings; prepare to rebuild.

CANCER (June 21-July 22): — Everybody seems to have his own idea about what should be done. Go directly to the most important contacts you have with your own schemes.

LEO (July 23-Aug. 22): — Your wisest course today is to be cooperative since problems that arise are quite real and complicated by emotional factors.

VIRGO (Aug. 23-Sept. 22): — Whatever your regular work, expect delays and obstacles.

WASHINGTON (UPI) — Key gardening things include a steel spade or spading fork, a hoe, a steel rake, watering can, garden cord and stakes for guidelines on planting rows.

A hand duster or sprayer, a shovel and a hand trowel also help. After that, you'll probably want a wheelbarrow, an ax and mattock, and pruning and clipping shears.

If yours is to be a large garden, a wheel hoe and a fertilizer spreader will come in handy. Clean, sharp and high-grade tools greatly reduce garden labor.

A wide variety of garden machinery relieves some of the sweat among those with huge plots. Select equipment to fit the amount of work to be done, the contour of the land and the character of the soil.

A medium-sized tractor is suggested for plowing. In light to medium soils a rotary tiller will do the job.

A few words about fertilizers: When in doubt, consult your county agricultural agent. He'll either arrange for a soil test or tell you how to get one. If that's out, invest in a soil testing kit to guide you in deciding which fertilizers to use and how much lime, if any, should be added to soil.

Some plants, like tomatoes and azaleas, do best in acid soils and generally like soils with little or no lime. —The U.S. Department of Agriculture says fertilizers in granule form are more convenient to use, although a bit more expensive. Liquid fertilizers, applied with a garden hose, allow absorption of some nutrients through the leaves as well as roots.

Fertilizers are graded by the primary nutrient content of the mixture. A mixture classified by the numbers five-five-five, for example, contains five per cent of total nitrogen, 10 per cent of available phosphoric oxide and five per cent of soluble potash. These three nutrients are used in large amounts by plants and are likely to be deficient in soil, as a result.

One of the cheapest and easiest ways to increase the fertility of your garden is to make a compost heap or pit. Dig a pit three to four feet deep and as wide as you wish, lining the sides with boards. Then put in a six-inch layer of leaves, grass clippings, vegetable tops and similar waste plant material.

The layer should be sprinkled with a cup each of lime and five-five-five fertilizer, followed by a thin layer of soil. Wet the layer down and repeat the process. Compost should be watered often to keep it moist. Cover it with a plastic sheet containing a one-inch center hole to catch rainwater.

After three or four months, contents of the pit should be turned over. The compost will be ready to use the following Spring.

Protest Tax Laws
LYON, France (UPI)—Four donkey-drawn carts in a line abreast blocked traffic for hours on a main road near Heyrieux in Eastern France Monday. Their drivers were shopkeepers protesting what they considered unfair tax laws for the small businessmen as well as inequitable social security benefits.

OF TEXAS

Civic Culture Club Reviews Heritage

Civic Culture Club met recently in the home of Mrs. Carl Smith for a study on Texas Heritage with Mrs. A.D. Hills, president, presiding.

The book of prose poems written by Elroy Bode, was used by two members for the program. Mrs. Irwin Cole reported on the chapter on "The Hill Country" and read a poem written by her mother on this subject. Mrs. George Neef reported on the chapter "Music".

Slides provided by the Texas Highway Department — Travel and Information Division were shown. Mrs. C.V. Forsman Texan, born in Kerrville in 1931, directed this study with several members assisting with the commentary.

PAMPA Business News...

ROBERT BURNS, owner of Davis Electric has spent many years in Pampa establishing a reputation for safe reliable electrical work. Never is quality sacrificed for quantity when a wiring job is undertaken by the company. He invites persons planning wiring jobs to stop by the shop for expert advice and estimates. (Staff Photo)

Davis Claims Reliability

Davis Electric Company, 124 S. Frost, can stake many years of reputation on the business which has been serving Pampa and area residents since 1915. Robert E. Burns acquired full ownership of the company in 1952. He has been in the company since the late 1940's.

Through the years, Davis Electric has built up and maintained a reputation for providing safe, dependable service in the way of professional wiring.

No job is worth cutting corners to the company. Burns believes and demands that no corners are cut in quality of material or workmanship.

Each job is done on an individual evaluation and according to code size and demands.

Davis can supply the experienced electricians for any home job such as range, dryer or cooling units.

Businesses will find that the same safe methods are applied for larger jobs. Property owners and their safety are concerns of Davis Electric.

The worry of amateur wiring is gone when Davis Electric does the job. However, if you are an electrician and wish to do your own home jobs, Davis is the place to purchase the material.

Not only wiring needs are found, but a complete line of accessories.

Controls and door chimes are two of the items stocked. Stop by and visit with Mr. and Mrs. Burns. Professional advice is a part of the service offered.

THE HAPPY crew at Ford's Body Shop, 111 N. Frost, has made the claim that they are the best in town, and they challenge customers and competitors alike to refute that claim. Prompt, accurate service is the name of the game at Ford's and every man is a professional in his field. (Staff Photo)

Ford's Body Shop Claims: "We're The Best In Town"

Coyle Ford, owner and manager of Ford's Body Shop, 111 N. Frost, told the News' copy writer to "tell it like it is."

"I don't like all that 'mushy' advertising," Ford said. "How is it?" asked the copy writer. "Simple," said Ford. "We're the best in town."

Conoco Helps Economy

HOUSTON (UPI)—Continental Oil Co. will contribute more than \$48 million to the Texas economy in 1970, Wayne E. Glenn, president of Conoco's western hemisphere petroleum division forecast last weekend.

The total includes capital outlays, wages and salaries and estimated state and local taxes, Glenn said.

Currently, Conoco has some 1,900 employees in Texas, with an annual payroll of \$20 million. Taxes will total about \$10 million, excluding excise taxes, he predicted.

Glenn said Conoco plans to spend about \$18 million this year for capital expenditures with most of the funds going for exploration, production and marketing activities. The company plans to drill 40 net wells in the state.

The investment figure does not include Conoco's share of a previously announced uranium mining operation and processing mill, to be built in South Texas with Amarillo Minerals, Inc.

SWARBRICK RECALLED

PITTSBURGH (UPI)—Right wing George Swarbrick was recalled by the Pittsburgh Penguins of the National Hockey League Monday from their Baltimore farm club in the American League.

Swarbrick was recalled on an emergency basis to replace Ken Schinkel, who is sidelined with a chipped ankle bone.

RAMOS SIGNED

POMPAHO BEACH, Fla. (UPI)—Pedro Ramos, 34-year old pitcher who has been with six big league teams since 1965, was signed as a free agent Monday by the Washington Senators.

Ramos, who had a combined 44 record with Pittsburgh and Cincinnati last season, received a telephone call from President Nixon last Saturday in which the Chief Executive said he hoped Ramos would make the Senators this year.

REDUCES ROSTER

BRADENTON, Fla. (UPI)—The Pittsburgh Pirates reduced their roster to 29 players Monday when they farmed outfielder Angel Mangual and pitchers Dennis Riddleberger and Fred Cambria.

The Pirates must trim three more players from their roster by opening day.

J. C. Penny's Gets Manager

The J.C. Penny Co. has announced the appointment of Ralph Ford as manager of the Pampa store.

Ford was transferred from Rocky Ford, Colo. this week to assume managerial duties for the store at 201 N. Cuyler.

Ford said he has been employed by Penny's for 21 years. He is married and has three children, a boy and two girls.

Ford said his family is still in Rocky Ford, but they plan to move to Pampa within the next two weeks.

When the question of what kind and how much insurance is needed by your family to totally protect without overlapping, contact the Allstate agent located at 1621 Hobart St., Mark Buzzard.

Not only is insurance planned and recommended by the company, but financing is available.

Financing is like selecting the automobile — the customer looks for the best.

For this reason, Allstate Insurance Co. urges any prospective car buyer to check all avenues for financing.

Compare the cost of coverage offered by local auto dealers, banks, reputable insurance agents and firms in the area.

And finally — check into Allstate's Econo-Rate Finance. First, establish credit through any Allstate agent located in a Sear's store or neighborhood office.

Once credit is established, a membership card is issued and the buyer will have Econo-rate financing without further credit reference for six months.

When the customer is ready to buy he finds out the exact price of the car-exclusive of insurance or financing. Then he visits the Allstate agent whose name appears on the card. He will take over from there and

Wall Street Chatter

NEW YORK (UPI)—The ranks of "go-go" performance stocks have been drastically thinned in the 1969-70 bear market. Hoppin Bros. & Co. observes. The thesis of performance-stock investing has never really been abandoned, "but has been subjected to some significant changes." The present value of future earnings has come down as money costs

Cops Take Belts Too Control Gang

SOUTHEND, England (UPI)—Police trying to control unruly gangs of teenagers in this seaside resort tried a new tactic Monday—they confiscated belts, suspenders and shoelaces.

A police spokesman said the idea was that if the youths—called "Skinheads" because of their close cropped hair—were busy keeping their trousers up and shoes on they would not cause much trouble.

Local store owners were asked to cooperate by removing the items from display counters and not to sell them to youngsters. The youths were able to collect their confiscated property at the end of the day.

"I'm extremely happy with the result," Chief Superintendent Frederick Bonfield said.

Despite the police action, at least 40 arrests were reported in Southend and dozens more in other nearby towns. Authorities also confiscated a number of knives, metal spikes, screwdrivers and razors.

Peters Takes Boston Over St. Louis In Baseball Action

UPI Sports Writer
All-Star shortstop Rico Petrocelli believes that Gary Peters is going to be a 20-game winner for the Boston Red Sox this year.

"To me, the biggest thing about Gary this spring has been his enthusiasm," said Petrocelli Monday night after Peters stretched his spring record to 24 consecutive shutout innings in a 2-0 victory over the St. Louis Cardinals. "He feels we have a chance to win the pennant and he knows we're going to get him some runs."

Peters allowed six singles in seven innings Monday with Ray Jarvis completing the shutout by retiring the last six Cardinals in order. Always a good hitter, Peters drove in one of the Red Sox' runs with a single.

Ken Holtzman, a 17-game winner last season, became the first Chicago Cub pitcher to go nine innings this spring when he beat the California Angels, 6-2. Holtzman pitched a five-

hitter, struck out four and walked one. Jim Hickman led the Cubs' attack with a triple, single and three runs batted in. Dick Drago, 11-13 last year, allowed five hits in eight innings as the Kansas City Royals defeated the Detroit Tigers, 6-2. Luis Alcaraz' two-run homer and triples by Bob Oliver and Pat Kelly were the big blows in the Royals' seven-hit attack.

Barry Moore, acquired from the Washington Senators during the winter, allowed two hits in seven innings as the Cleveland Indians downed the Oakland Athletics, 7-2. It was the seventh straight defeat for the Athletics.

Jim Nash yielded two runs, three hits and one run in seven innings as the Pittsburgh Pirates scored a 5-4 victory over the Cincinnati Reds. Homers by Ron Davis and Dave Cash in the eighth inning gave the Pirates the win.

Don Cardwell, 6-10 for the New York Mets in 1969, yielded three runs and six hits in six innings for the win in the world champions' 5-3 decision over the White Sox. Mike Jorgensen drove in two runs and Cleon Jones homered for the Mets.

Rains Cause Pampa Game Postponement

The weather has postponed another Harvester athletic event this week as all the Amarillo baseball games have been called off due to muddy grounds and still falling rain.

Pampa was to play Amarillo High this afternoon in their second district game of the year, but it was called off. The Harvesters were originally scheduled to play Lubbock Monterey Saturday, however it was also called off due to the snow.

Pampa's next regularly scheduled game is Friday against Palo Duro there. Saturday they are set to play Borger here.

Richman Expects Pirates To Come Back With Grand Prize

By MILTON RICHTMAN
NEW YORK (UPI)—The St. Louis Cardinals are rather confused and it's perfectly understandable.

On logic alone they should be getting ready to defend their world championship right about now. A year ago everybody made them automatic winners before the baseball season even opened.

So much for logic alone. With that out of the way, here's what I think of this year's pennant race.

Philadelphia and Kansas City can be the major surprises and the Mets, Detroit and Minnesota the big fliers.

I look for Baltimore to win in the American League East

- again, Oakland in the West. Pittsburgh in the National League East and Los Angeles in the West. Baltimore and Pittsburgh would be the pennant winners and if that still doesn't take you far enough, I like the Pirates to wind up with the grand prize.
- My down-the-line choices look like this:
- | American League | | | | | |
|-----------------|-----------------|---------------|---------------|------------------|-----------------------------|
| East | | | | | |
| 1. Baltimore | 2. Boston | 3. New York | 4. Cleveland | 5. Washington | 6. Detroit |
| West | | | | | |
| 1. Oakland | 2. Kansas City | 3. Minnesota | 4. California | 5. Chicago | 6. Seattle and/or Milwaukee |
| National League | | | | | |
| East | | | | | |
| 1. Pittsburgh | 2. Philadelphia | 3. New York | 4. Chicago | 5. St. Louis | 6. Montreal |
| West | | | | | |
| 1. Los Angeles | 2. Houston | 3. Cincinnati | 4. Atlanta | 5. San Francisco | 6. San Diego |

Milwaukee Defeats 76ers 156-120 At Philadelphia

By United Press International
Nobody can blame the Milwaukee Bucks for feeling right at home in Philadelphia. The Bucks, who won all four of their regular season games at Philadelphia, put on a devastating performance in the Spectrum Monday night while ripping the 76ers, 156-120, to take a 2-1 lead in their National Basketball Association East Division semifinal playoff.

The 76ers never had a chance, falling behind 40-14 at the end of the first quarter before things "really" got bad. With Milwaukee's Lew Alcindor scoring at better than a point-a-minute, the Bucks led, 77-41, at halftime and upped their advantage to 124-72 after three quarters before Costello mercifully removed Alcindor and the rest of his regulars.

Alcindor finished with a game-high 33 points in helping the Bucks eclipse the former NBA playoff record of 145 points for one game set by St. Louis at Detroit on March 25, 1968. Milwaukee also set a playoff assist record with 46, bettering the mark of 43 set by Los Angeles.

The 76ers have until Wednesday night to get over the shock of their beating before resuming the series at the Spectrum. Two other series resume tonight with New York at Baltimore and Atlanta at Chicago.

The fourth series, pitting Los Angeles against Phoenix, is tied 1-1 and resumes Thursday night in Phoenix.

New Orleans Tips Indiana 120-106

By United Press International
It was long time coming, but when the New Orleans Buccaneers finally defeated the Indiana Pacers the victory came at the right time.

The Bucks, by taking a 120-106 verdict over the Pacers Monday night, moved to within one game of fourth place in the American Basketball Association Western Division. The win was their first in 10 starts against Indiana and was their first over the division champions since Nov. 21, 1968.

Jimmy Jones, with 37 points, and Steve Jones and Gerald Govan, with 26 each, paced the New Orleans attack. The Pacers were paced by R. G. Brown with 28 and Mel Daniels with 21.

Indiana trailed, 57-33, at the half and closed to 88-65 with 8:29 left, but the Bucks pulled away and coasted home.

Texas Relays

AUSTIN (UPI)—The 43rd Texas Relays, the top meet in the nation this weekend during the annual Roundup festival, will lure six high jumpers who have cleared seven feet or better.

Track powers from the South-west Conference, and Kansas, Kansas State, Oklahoma State and Nebraska of the Big 8, and others like Minnesota, Brigham Young, Abilene Christian, North Texas State and the University of Houston are expected for preliminaries Friday morning.

Finals are scheduled Friday night and Saturday afternoon.

The university-college division high jump competition begins at 2 p.m. Saturday, and the current record of seven feet could be erased.

Brigham Young's Ken Lundmark, who has a 7-1 leap to his record, heads a delegation of two seven-foot high jumpers from that school. Others who have bettered the seven-foot mark are Tim Keikila of Minnesota, Ray McGill of Kansas State, Jackie Causey of Southwest Louisiana, and Scott English of the University of Texas at El Paso.

Favored in several relay events will be Texas A&M, featuring world 440-yard-dash record holder Curtis Mills.

FORM CHARTS

13—New York, NL East

By MARTY RALBOVSKY
NEA Sports Writer
PROSPECTUS: — After last year, one question remains: What can Mets do for encore? Answer: Win it all again. Gil Hodges' stone face will prevent complacency from setting in; so will Leo and his Cubs. If Saver can win the opener (Mets still haven't won one), they'll be on their way again. Who'da thunk it, Casey?

PITCHING — Tom Seaver (25-7) and Jerry "Koonman" (17-9) best 1-2 punch in baseball. Youth belies their savvy, desire. Addition of Ray Sadecki from Giants will help, but Gary Gentry (13-12) still No. 3. Nolan Ryan (6-3), if he bounces back from arm troubles, still has best potential on staff. Tim Lincecum (6-7) and Don Cardwell (8-10) also figure. Bullpen sound with Ron Taylor, Tug McGraw and Cal Koonce. Rating — A.

CATCHING — Jerry Grote, J.C. Martin split job last year with satisfying result. Grote better hitter, but Mets lose little when they are interchanged. Rating — B.

INFIELD — Hodges figures to platoon World Series hero Donn Clendenon and Ed Kranepool at first. Clendenon is superior hitter but Kranepool still maturing, did come through when Mets needed it last year. Same situation at second with Al Weis and Ken Boswell. Bud Harrel, at short, only infielder sure of daily job.

Third will go to Joe Foy, acquired from Kansas City, if he hits. Best utilityman is Wayne Garrett, who might also get try at third. Rating — B.

OUTFIELD — Cleon Jones had extraordinary year in '69: .340, highest in Met history, third best in NL. He's set in left. Tim Lincecum had fine comeback year: .271, 26 HRs, 76 RBIs. He's set in center. In right, Ron Swoboda, World Series defensive play notwithstanding, will be platooned with Art Shamsky, another long hitter. Dave Marshall obtained from the Giants, could be spot man. Rating — B PLUS.

TOP ROOKIES — Kid named Jesse Hudson best youngster in camp but still not ready to break into lineup. There was time when Mets would have made starter out of him — which shows just how far they've come.

Prediction: 1st in NL East.

THREE-YEAR CONTRACT

INGLEWOOD—Calif. (UPI)—The Los Angeles Lakers of the National Basketball Association have signed Earnest Killum of Stetson University to a three-year contract. Killum, a 6-3 guard, was the Lakers' No. 2 draft choice.

The Pampa Daily News

A Watchful Newspaper
NEVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

Vision Can Be Attained

An America that has abolished hunger; where every family is provided the means to obtain a minimum income; where enormous progress has been made in providing better housing, faster transportation, improved health and superior education.

An America that has checked inflation and waged a winning war against crime; an America that has made great strides in stopping the pollution of its air, cleaning up its water, opening up its parks and continuing to explore in space.

Most important, an America at peace with all the nations of the world.

It is an impressive vision of "a new America" which President Richard Nixon presented in his first State of the Union Address and the first of the new decade — an America we can achieve not at some distant day but by our 200th anniversary, only six years from now.

It is the purpose of such annual messages to the Congress and the people to point in bold but sketchy outlines the chief tasks and goals facing the nation as the President sees them. The specifics — the actual legislation and policies the administration feels necessary to tackle those tasks and reach those goals — come later in a series of more detailed messages on the budget, foreign affairs and the like.

Then, as the saying goes, we get down to the nitty gritty — or the grimy reality — of partisan politics, special-interest pressures, parliamentary maneuvering and delay; in short, the tortuous process of translating agreed upon generalities into acceptable and workable individual laws.

As the President gently chided his audience, two-score legislative proposals designed to implement a major part of "an unprecedented advance in this nation's approach to its

problems and its opportunities" were sent to Congress last year and still await enactment. He will submit more major programs in the course of this session.

Not all of them have been or will be the wisest or most desirable programs that could be devised perhaps, but Congress can continue to ignore them or fail to substitute its own versions only at its peril, and the nation's.

For unless the so-called "Silent Majority" is more silent than anyone imagined, Richard Nixon has again accurately gauged the temper of America. It can still be moved by bold dreams, but the past decade has been a sobering, if not disillusioning, experience.

The nation has found that its problems of poverty, of urban blight, of race, of mistreatment of the environment are not susceptible to easy and instant solutions.

It has seen the greatest military power on earth unable to bring peace in even a "minor" war in one tiny corner of the world.

It has seen the very fundamentals of its nations faith rejected by some of its youth and called into serious question by others.

It is weary of riot, revolt and unproductive dissent, and alarmed at the steady deterioration of the dollar with no great things to show for it.

But far from cynicism or despair gripping the nation, a new mood of quiet determination seems to have come into being in the past year. If the President has not created this mood, he has recognized it.

This is still the America of the proud past, with the unique capacity to make itself into the America of the proud future which the President envisions.

All that is needed is for the productive energies of the people to be freed so it will be possible to attain that future for all Americans.

The Age Of Gab

The United States has overtaken Canada in the yak-yak sweepstakes.

Latest figures reported in "The World's Telephones," an annual compilation by AT&T reveal that Americans made an average of 701 local and long distance telephone calls each during 1968.

Canadians had been the most talkative people in the world in every year since 1951 but they dropped to second with 693 conversations per capita in 1968, the most recent year for which statistics are available.

There were also a lot more telephones to accommodate all this talk. In 1968 their number increased by 16 million to a world total of 238 million.

The United States led with the absolute most — 109, 256,000 — but second-place Japan with 20,525,000 had the highest ratio of telephones to population — 54 for every 100 persons.

Tokyo alone had 3,641,000 Amechans, almost as many as the state of Ohio, New York City had 5,723,353, but according to local citizens most of those often didn't work.

More than 200 countries and territories are now on speaking terms with 97 per cent of the world's 238 million telephones.

Clearly a lot of gab is being spread around by Mr. Bell's invention. But how much understanding?

Builders Vs. Destroyers

There used to be a saying that went "Those who can teach, those who can't teach others to teach."

Today, the scope is broader. And the saying changes to "Those who can build; those who can't destroy what others have built." More than that, they teach others to destroy.

In the United States people still have a certain amount of choice about whether they will be builders or destroyers. The course of destroying is easier, granted, and perhaps even more fun for one to shuck one's head and give vent to his feelings as he whangs away with sticks and stones.

There may be no guarantees that building attempts may be successful, but as the rains fall — more gently this year — we remember the grandness of spirit demonstrated by young

and old in this area a little over a year ago as they joined in fighting back overwhelming destruction by floods, building sandbag banks and dams against the destroyer. The reward? As one young man said, "It feels good to help, to think you are a part of building something like that to save your community."

Those who destroy have no compunction about turning on their fellows and destroying one another. Builders cannot afford to turn upon their fellows; they need every helping hand they can get.

Those who destroy have no compunction about turning on their fellows and destroying one another. Builders cannot afford to turn upon their fellows; they need every helping hand they can get.

Those who destroy have no compunction about turning on their fellows and destroying one another. Builders cannot afford to turn upon their fellows; they need every helping hand they can get.

Those who destroy have no compunction about turning on their fellows and destroying one another. Builders cannot afford to turn upon their fellows; they need every helping hand they can get.

H. L. Hunt Writes

THE BUREAUCRACY AND THE POOR

In a recent speech to the Tax Foundation, Dr. Arthur Burns, newly appointed chairman of the Federal Reserve Board, discussed some of the reasons why massive federal spending programs have provided little real assistance to the poor.

Dr. Burns pointed out that federal programs have increased rapidly in number and in size with almost no questioning or examination of their goals and methods. These rapid increases have "created a costly governmental maze."

This "maze" involves much duplication and waste, often hampers the constructive efforts of local officials, and perhaps worst of all, "practically defies full understanding or evaluation." The programs are "half-smothered in paper."

Dr. Burns cited one specific federal program which "required over a hundred different kinds of forms and reports." He pointed out "that a grant involving \$1,000 may require over 30 major federal agency stamps, including review by a 15-man advisory committee and headquarters approval."

He also pointed out that a department of one state has counted 120 different reports that it is required to submit to a particular federal agency.

An enormous bureaucracy is due to all of this paper work. Inevitably, much of the money intended for the needy will go to pay the salaries of the bureaucrats. This always happens whenever the federal government appropriates large sums of money for programs like this and is one of the main reasons why freedomists believe that aid to the needy should be appropriated and distributed on the local level.

Dr. Burns correctly assessed the situation when he emphasized "the need for expenditure reform." This reform could well begin by reducing the size of the bureaucracy.

With Some Reservation

By INJUN WOODY

Lawrence F. (Low Fusion) O'Brien fell into a trap. He took the chairmanship of the Demos after most everybody else refused and is now chewing his fingernails down to the nubs.

The Demo committee at last faced up to a choice: either continue their debt-ridden left swinging policies; or change course and play down "liberal" issues and try to woo some money from the conservatives.

They chose to change course, from absolute necessity, that is, for the party that runs its own affairs like it runs the government — bankrupt.

"Did you say, 9 million dollars?" asked O'Brien, in disbelief.

"Yes," says the committee, "only 9 million in the hole. It is increasing every day. But don't worry about that. Just try to get a little unity into the party. You can get the treasurer, Robt. S. (rolling Stone) Strauss to take his hat in hand to the big boys for contributions."

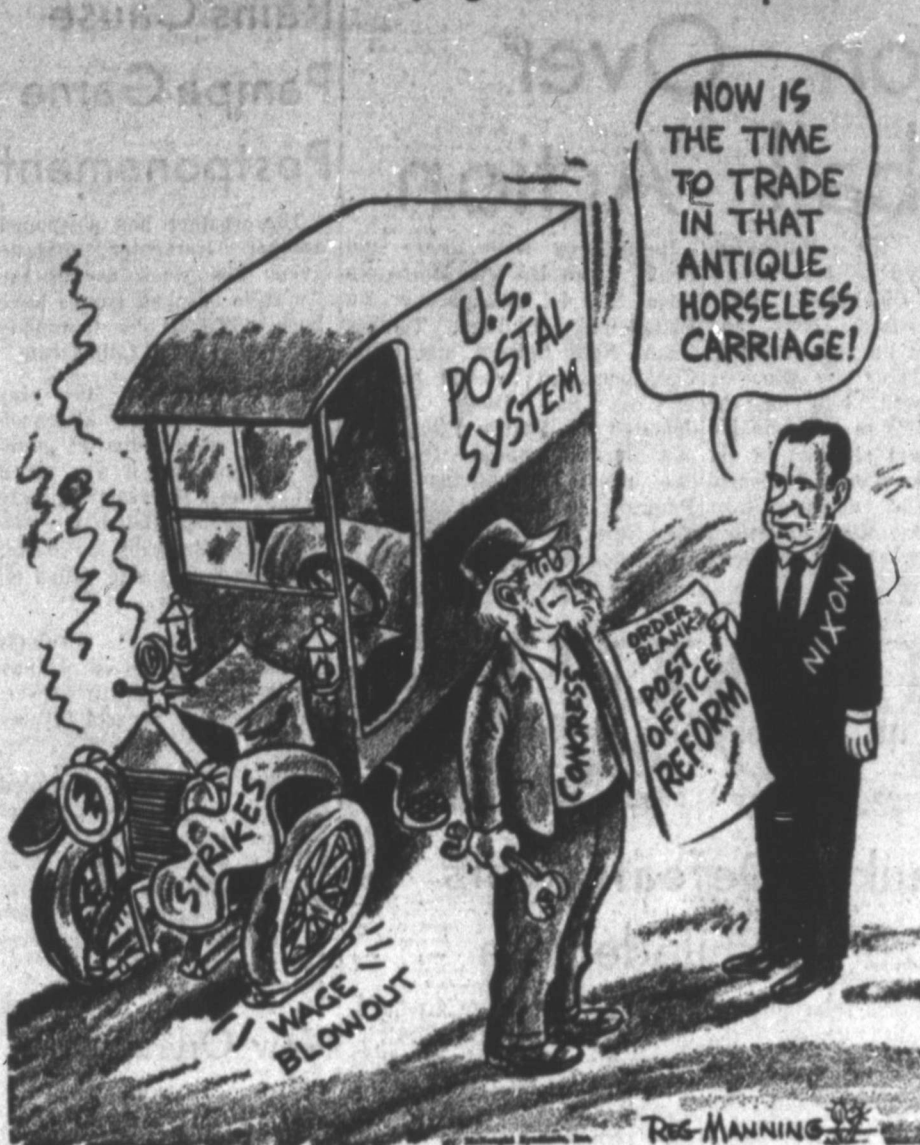

So the treas. is going to play the Strauss Waltz to the conservatives by vowing the party has turned away from liberal domination, at least long enough to get the loot.

The council membership has already sounded off on some controversial issues that stirred dissent in the ranks. So the council has decided to quit having meetings so often, maybe just twice a year.

They figure if they can't keep the dissenters from sounding off at meetings then the thing to do is not have meetings.

It's the first time in history the Demos have decided that silence is a virtue.

Instead Of Trying To Patch It Up—

THE GLOBAL VIEW

Rising Chorus Of Criticism Spreads Throughout Russia

By LEON DENNEN
Foreign News Analyst

NEW YORK (NEA) — It took no time for a Soviet court to decide that former Maj. Gen. Pyotr Grigorenko, an outspoken critic of the Communist regime, should be detained indefinitely in an institution for the criminally insane.

The Kremlin's judges acted swiftly after two "medical experts" of the secret police (KGB) testified that they had personally "examined" Grigorenko (was it in the dungeons of the Lubyanka prison?) and found him completely irrational and irresponsible.

The ex-general thus joined the noted religious writer, Anatoly Levitin-Krasnov, and scores of other writers, artists and scientists who have been declared "legally insane" by Russian courts.

Stalin simply executed critics of his brutal rule but his uneasy successors in the Kremlin have found a more "humane" way of dealing with dissidents. Some are banished to hard labor in Siberia. But the majority are doomed to vegetate in mental institutions.

As if a sane person could not possibly detect the dictatorship of the mediocrities who now rule Russia.

While he was at liberty, the 63-year-old Grigorenko led vigorous public protests against the "Stalinists without Stalin." He denounced the persecution of Czechoslovakia in 1968.

But, for all his courage and idealism, Grigorenko's was only one voice in the rising chorus of criticism that troubles the Kremlin. All over Russia, men and women are forming groups for the "Defense of Civil Rights" and print clandestine newspapers.

One such publication, known as "Chronicle of Current Events," is probably the first case of a major opposition newspaper since Lenin suppressed the free press in Russia in 1918.

Though typewritten and clandestine, the Chronicle is circulated throughout the country. It has been appearing regularly for almost two years.

The Kremlin's official newspaper, "Moloday Komunist" (Young Communist), also complained recently that in various towns and industrial centers of Russia, "hundreds of gangsters of the air are broadcasting political sneers with home-built radio transmitters."

In the view of specialists on communism, the Soviet Union is not yet on the brink of revolution, for the obvious reason that the new groups of revolutionists are not as organized or influential as their predecessors were in Tsarist Russia.

Nevertheless, the Soviet leaders, clearly frightened, find it increasingly difficult to cope

with the internal pressure for democratization.

Many thinking Soviet citizens, particularly young writers and scientists, increasingly question the value of Marxist-Leninist rigidity in a modern technological society and are resisting the attempt of the Communist party to turn back the clock.

Despite the Kremlin's new repressive measures, they refuse to lie low and, at personal risk, are becoming progressively more daring.

The most disturbing feature for the Communist bureaucrats is the fact that dissidents, spearheaded by intellectuals, are now finding support even in the Red army and navy.

At least three young officers attached to an atomic submarine are known to have been arrested in Tallin, capital of the Soviet Baltic republic of Estonia, for alleged anti-Soviet activities. They were accused, among other things, of circulating documents urging democratization of Soviet society.

According to the eminent French authority on communism, Prof. Georges Haupt of the Sorbonne, the protest movement in Russia is constantly gaining in dynamism and an offensive spirit. He predicts that it will move from protest to dissent and from dissent to open opposition.

The Almanac

By United Press International
Today is Tuesday, March 31, the 90th day of 1979 with 275 to follow.

The moon is between its last quarter and new phase.

The morning star is Jupiter. The evening star is Mercury, Venus, Mars and Saturn.

On this day in history: In 1840 President Martin Van Buren issued an executive order establishing a 10-hour work day for government employees.

In 1933 Congress established the Civilian Conservation Corps to provide vocational training and employment for young Americans.

In 1968 President Lyndon Johnson announced he would not seek reelection and also suspended the bombing of North Vietnam.

A thought for the day: American humorist Charles Farrar Browne said, "Let us all be happy and live within our means, even if we have to borrow the money to do it."

The Doctor Says

By DR. W. G. BRANDSTADT

Frequent Urination Is Natural With Aging

Q — In the last 10 years I have had to get up from two to seven times a night to urinate. What could cause this?

A — This may be a natural accompaniment of aging, especially in a person who is high strung. Such other causes as diabetes, bladder disease and an enlarged prostate usually cause an increased frequency of urination during the day as well as the night.

Q — My doctor says my bladder doesn't empty completely. What could cause this?

A — This may be caused by an obstruction or a disease of the nervous system. The obstruction may be a stricture of the urethra due to trauma or an infection, and enlarged prostate or a tumor of the bladder near its outlet. In any case, a thorough examination should be made by a urologist to determine the cause.

Q — Could prostate trouble be caused by emotional upsets?

A — No.

Q — I had my prostate removed in 1961. In the past six months I have had difficulty in urinating. Could my prostate enlargement have come back or could it be cancer?

A — When a part of the prostate is removed through the urethra instead of through the bladder, the benign enlargement may return. In spite of this possibility this is the operation of choice for most persons with a prostatic enlargement. Only your doctor can say whether the present enlargement is cancerous.

Q — In 1966 I had an operation for cancer of the prostate. I am taking Stilbestrol and my doctor says I must take it for the rest of my life. How will this drug help me? What are its side effects?

A — This hormone suppresses the growth of prostatic cancers and helps to prevent recurrence. The chief side effect is enlargement and — or soreness of the breasts. This can usually be controlled by adjusting the dosage.

Q — How successful is cryotherapy for cancer of the prostate? Can it be used on an inoperable prostatic cancer?

A — The success of freezing of cryosurgery would depend on such factors as the size of the tumor and whether it had spread beyond the prostate. It could not be used to treat an inoperable cancer.

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt cannot answer individual letters, he will answer letters of general interest in future columns.

Plot On Sihanouk Back In '58 Was Costly Viet Error

By RAY CROMLEY
Washington Correspondent

WASHINGTON (NEA) — In 1958, a South Vietnamese diplomat in Phnom Penh, Cambodia, gathered up some weapons he had stored in his room, disguised himself in the clothes of a peasant and went out into the streets for an appointment with men who were plotting a coup against Prince Sihanouk.

The diplomat was caught. He had disguised himself carefully. But he had ventured forth to his clandestine meeting driving the official car of the South Vietnamese embassy.

From that day to this, Sihanouk has not trusted Saigon. For the plotter was the personal representative and close associate of President Ngo Dinh Diem, then head of the government of South Vietnam.

This mistrust has been most unfortunate for South Vietnam and for the United States.

Perhaps Sihanouk would have been as suspicious of South Vietnam in any event. For the Cambodians have never felt secure in their kingdom. Thailand, to the west, ruled Cambodia as a province for many years, most recently by one of Sihanouk's own uncles (a Thai). Since Cambodia's independence, Sihanouk has "uncovered" a series of "plots" that prove to his satisfaction that his Thai relatives were out to displace him.

As this reporter knows from first-hand knowledge, they weren't. But Sihanouk would not be convinced.

Despite this record of mistrust, an acquaintance of this reporter who was in the South Vietnamese diplomat's room in Phnom Penh shortly before the arrest, is convinced that if it had not been for unfortunate acts of this man, South Vietnam's relations with Cambodia this past decade would have been much closer.

That could have changed the course of the war.

Without Cambodia rice and imports for their troops, and without the safe haven of their Cambodian sanctuary, the Communists would have had a very rough time indeed in the Delta of South Vietnam, where 40 per cent of the Vietnamese farmers live.

Without the South Vietnamese rice smuggled into Cambodia by Cambodian smugglers, then shipped to the north and back into Viet Cong hands in central South Vietnam, the North Vietnamese would have found it almost impossible to feed their invasion troops in much of the area north of Saigon.

Without those absolute Cambodian sanctuaries, the North Vietnamese and Viet Cong troops would in many instances have had no place to hide when heavily pressed by American and South Vietnamese troops.

This is not to say the tiny Cambodian army could have held off the North Vietnamese. But willing co-operation is one thing, forced co-operation another.

Cambodia could have given South Vietnamese and American troops the right of hot pursuit, which would have destroyed the effectiveness of the Cambodian safe havens.

Cambodia could have agreed to a selective inspection of goods brought in through Sihanoukville and the Mekong River, which would have forced a heavier load on the dreary Ho Chi Minh trails and on the rail and truck lines from Haiphong to Ho Chi Minh's invasion troops in the south.

Ho's men could have taken over the whole country. But they would have found that an intolerable occupation burden while fighting a war in Vietnam.

In short, a priceless opportunity was lost in 1958. To no end.

Ghetto Self-Help Best Way To Stamp Out Drugs, Crime

By DON OAKLEY

The death of a 12-year-old boy in a filthy apartment in New York's Spanish Harlem, caused by a self-administered overdose of heroin, made headlines last December.

New Yorkers suddenly became aware that 224 teenagers had died from drugs in their city in 1968. They were told that, at the current rate, as many as 250 may die this year.

For a week after the boy's death, it was said to be difficult to buy drugs on 117th Street because of swarms of reporters and policemen, all asking questions. But soon things were back to normal. The pushers were back on the street again and the children were buying — and dying.

"People in the ghetto who have lived with this kind of thing all their lives are puzzled, annoyed, even resentful over the sudden public commotion," writes Charlyne Hunter in the New York Times.

"They attribute it to the fact that it is no longer just the poor blacks and Puerto Ricans who are affected, but that middle and upper-class children are becoming victims, too. To a certain extent, this is true."

The same charge has been made, also with much truth, that white, affluent, majority America never concerned itself about the rights of its black minority until the latter started tearing up the ghettos and otherwise asserting itself.

The same charge will undoubtedly be made by the Indians, again with much truth — that white America never have a hoot about their welfare until they began disrupting the domestic tranquility by such actions as the seizure of Alcatraz Island.

Yet it may legitimately be asked: What kind of country would it be if the majority did not become alarmed enough to act when its own safety and convenience and self-interest were affected?

To put it another way, why do minorities live with conditions the majority will not tolerate among itself?

The answer has to do, of course, with powerlessness and ignorance and poverty, a vicious combination that breeds acceptance of things as they are and always have been, despair that they can ever be changed and a frustration that either

explodes in mass rioting or individual violence of faster

every thing, however. The answer does not answer everything, however. The deprived minorities are aware, as they have never been aware before, of just how deprived they are and are less accepting of the status quo than ever in the past.

But if black students can take over a university administration building, if welfare mothers can stage a march on city hall, if Black Panthers can assemble arsenals of weapons, why cannot the ghetto-dwellers also mobilize to run out the dope pushers and the muggers and make their streets safe for themselves, let alone outsiders?

If they can unite to complain, why can they not also unite to achieve?

They have in some instances, as in self-help programs in New York and in the Watts section of Los Angeles. But in general it remains a case of demanding everything from the "power structure," demanding nothing from themselves.

The Black Panthers, for one, with their discipline and the loyalty and prestige they have built for themselves among many blacks, could be a powerful force for constructive change. Yet they expend their energies in revolutionary rhetoric and posturing and plottings.

It is true that the majority does nothing to help a minority until its own self-interest is threatened, it is also true that it does only what is minimally necessary to remove the threat. The conditions which spawned the threat remain essentially the same.

Only when the oppressed learn to identify with and work for their own self-interest will anything much be changed.

CHICAGO — U.S. District Court Judge Julius J. Hoffman asserting in an interview in the Chicago Sun-Times that he had heard only praise for his handling of the "Chicago Seven" conspiracy trial.

"Of course, I didn't expect anyone violently opposed to come up and berate me, because they wouldn't know what kind of bodyguard I had who might beat them."

Washington Window

WASHINGTON (UPI) — The White House is at it again, trying to scare away the starlings.

These pesky black birds show up in the neighborhood of 1800 Pennsylvania Avenue Avenue every spring. Starlings apparently have something against white paint and those who work in or near white structures.

This has been a White House problem for many years. This spring, latest developments in electronic communications are being used to influence the starlings to go elsewhere with their divebombing.

Sad Noise — Each afternoon, shortly before dusk, loudspeakers hidden in trees around the White House begin to emit sad noise. Theoretically it is the sound of

starlings in great distress. It is virtually impossible to project the sound in written form, but it is something of a scratchy, annoying bleep; an off-key screech which can be disruptive to the thoughts of peace pickets plodding along the north sidewalk of the White House.

Picket novitiates, in fact, have thought the screeching was directed at them until a friendly sight-seeing guide explained the situation.

As long ago as the Eisenhower administration, the White House communications agency tried the same system against starlings, as well as squirrels.

The late President Dwight D. Eisenhower had an elegant golf green in the White House south grounds and he became quite annoyed when the putting surface was pocked by squirrels who regarded the smooth grass as an ideal place for burying acorns.

Starlings by the thousand also made Ike's late afternoon putting sessions hazardous.

Use Loudspeakers — The communications men, commissioned by the Secret Service to do something about the varmint birds and animals distracting the president, decided to take advantage of the loudspeakers.

The speakers, part of a public address system used primarily to summon the cars of visiting dignitaries. The communications people acquired recordings of starlings in distress and squirrels supposedly in deep trouble, playing the tapes through the loudspeaker system at selected times of the day.

The White House squirrels were unimpressed. Disrespectfully, they took to sitting on the loudspeakers themselves and listening intently as recorded squirrel-talk poured forth.

Starlings apparently got the message and would disappear for a time. The birds, however, never stayed away for very long and the battle began again as it does each afternoon in this spring of the Nixon administration.

By United Press International — WASHINGTON — Sen. Alan Cranston, D-Calif., charging that Charles Wilson, a black attorney for the Equal Employment Opportunities Commission, was pressured by the administration into writing a letter endorsing U.S. Supreme Court nominee Judge G. Harrold Carswell.

"I charge that out of nearly a dozen civil rights attorneys who appeared before Judge Carswell the administration sought out the only attorney who was vulnerable to pressure — a government employee."
